HIGHMARK®

An Independent Licensee of the Blue Cross and Blue Shield Association

August 26, 2022

Ms. Lindsi Swartz, MBA, MCM, Director
Bureau of Life, Accident & Health Insurance
Commonwealth of Pennsylvania Insurance Department
1311 Strawberry Square
Harrisburg, PA 17120

Re: Highmark Inc. 2023 ACA Rate Filing (Individual Market)
Filing # 1A-DP-22-HI (SERFF # HGHM-133249726)

This constitutes Notice pursuant to Section 707 of the Pennsylvania Right-to-Know Law that the attached Highmark Inc. 2023 Individual Market Rate Filing contains Trade Secret and Confidential Proprietary Information. Therefore, Highmark Inc. must, prior to the release of any portion of this Filing, be notified of any request by a third party for access to this Filing, and the Trade Secret and/or Confidential Proprietary Information identified by Highmark Inc. should be redacted before release.

Dear Ms. Swartz:

This Filing includes the Highmark Inc. ("Highmark", "Company") Individual Market rates and the supporting rate development for policies with effective dates on or after January 1, 2023.

As a result of the Department's review of this filing thus far, the following change has been made to the prior version of the filing:

- Pursuant to the Department's August 23, 2022 guidance, the impact of the state 1332 Reinsurance program is captured using the prescribed parameters of $60,000 attachment point, 53% coinsurance rate, and $100,000 reinsurance cap.

The remainder of this cover letter and all of the supporting documents have been revised to reflect the changes described above.

In the event the Department decides to publish this Filing in the PA Bulletin, the company information requested in the Department's 2023 ACA-Compliant Health Insurance Rate Filing Guidance, Section B, is provided below:

Requested Company Information

1. Company Name & NAIC #: **Highmark Inc., NAIC # 54771**

2. Market: **Individual**

3. On or Off Exchange: **The Company anticipates selling plans on and off the exchange.**

4. Effective date of coverage: **January 1, 2023**

5. Average rate change requested: **9.1% increase**

6. Range of rate change requested: **3.9% to 12.0%**

7. Total additional annual revenue generated from the proposed rate change: **$33,048,859**

8. Product(s): **EPO, PPO**

9. Rating Areas and the change from 2022: **Rating Areas 1, 2, 4, 5, 6, 7, 9**

   There are no changes in the covered Rating Areas from the 2022 rate filing.

10. Metal Levels and Catastrophic Plans: **The Company anticipates selling Gold, Silver, Bronze, and Catastrophic plans in 2023**

11. Current number of covered lives as of February 1, 2022: **48,550**

12. Number of plans offered in 2023 and the change this represents from 2022: **90**

    The Company offered 84 plans in 2022. For 2023, the Company is offering 24 new plans in the Market and removing 18 plans from the Market.

    Please note that inclusion of premium rates in this filing for a given offering should not be construed to mean that the offering will ultimately be made available for sale in the Market. Final offering decisions will be made consistent with and within the timelines set forth in CMS rules and/or ACA regulations.

13. Corresponding contract form #, SERFF and Binder ID#s: **The corresponding SERFF binder number is HGHM-PA23-125113147, affecting the following Company products and forms:**

Product Name / Type	**Contract Form & SERFF#**
my Direct Blue EPO	EPO/WDP-5; HGHM-133209661
my Direct Blue EPO Premier	EPO/Premier/WDP-1; HGHM-133209719

my Direct Blue EPO HDHP	EPO/HDHP/WDP-5; HGHM-133209697

my Direct Blue Major Events EPO	CAT/EPO/CDP-3; HGHM-133209614
my Direct Blue EPO Adult Dental and Vision	EPO/ADV/CDP-2; HGHM-133209638
my Direct Blue EPO Premier Adult Dental and Vision	EPO/Premier/ADV/CDP-1; HGHM-133209644

14. HIOS Issuer ID # and submission tracking number: **HIOS Issuer ID #33709, Company Filing #1A-DP-22-HI (SERFF Filing # HGHM-133249726)**

Additional Filing Disclosures

The Company has submitted all Required Documents stipulated by the Department, including the federal documents related to this filing, in its SERFF submission. In addition to the Required Documents, the Company has submitted a Supplemental Exhibits file containing additional detailed exhibits on items referenced in the PA Actuarial Memorandum. All tables, exhibits, and detail in support of this filing and the PA Actuarial Memorandum have been included in Excel format. To assist in the Department's review, the Excel files have retained their formulas to the extent possible.

Potential for Material Unforeseen Impacts

Per the Department's guidance, the impact of the state 1332 Reinsurance program is captured using the prescribed parameters. If the final parameters should change from those described in this filing, a revised submission would be required.

Other assumptions in the filing account for the ongoing impact of the COVID-19 pandemic and the lack of Federal CSR funding. The continuation of American Rescue Plan Act (ARPA) level enhanced subsidies in the Inflation Reduction Act was considered in the rate development but no adjustment was included at this time. Finally, modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, changes in legislation/regulations (including rules, regulatory guidance, etc.), changes in the participation of QHP issuers that would materially impact risk adjustment transfer amounts, Medicaid redetermination policy impacts, or material developments in the course of the COVID-19 pandemic. As a result, Highmark reserves the right to submit a revised filing.

Request for Confidentiality

Please note that the rates and the supporting rate development contained in this Filing are competitively sensitive, are not in the public domain, and constitute business confidential proprietary/trade secret information that would cause harm to the competitive position of Highmark if disclosed to the public.

Public disclosure of any information contained in this Filing would allow Highmark competitors to better understand or discover its confidential and proprietary rating, pricing and/or marketing practices, would undermine competition in the Individual market and could have negative consequences for the operation of Highmark's business. Therefore, Highmark asserts that this Filing, in its entirety, constitutes Trade Secret and Confidential Proprietary Information and should not be disclosed.

It is our understanding that the Department does not intend to publish the confidential & proprietary information contained in this Filing or to otherwise permit this Filing and its confidential information, other than the redacted information and final approved rates, to be disclosed or released.

Furthermore and pursuant to the Pennsylvania Right-to-Know Law ("RTKL"), Highmark must be notified prior to release of information contained in this Filing and be given the opportunity to respond to requests for such information. Should the Department receive such request or require the release of information contained in this Filing for its own purposes, Highmark asserts its right to release a redacted version of the Filing. In accordance with the RTKL, please contact the Highmark RTKL representative identified below prior to release of any information contained in this Filing:

[redacted]
RTKL Representative
Director Privacy & Data Ethics
Highmark Health
120 Fifth Avenue, Suite 2114
Pittsburgh, PA 15222

Furthermore, it should be noted that Highmark is equally concerned that even if this information is released in aggregate form, it still may be easy to identify the carrier that submitted it.

Should you have any questions regarding the attached Filing, please feel free to contact me at [redacted] or via e-mail at: [redacted].

Sincerely,

[redacted]

[redacted]
Vice President, Actuarial Services
Highmark Inc.

Rate Change Summary

Highmark Inc. – Individual Plans

Rate request filing ID # 1A-DP-22-HI HGHM-133249726 - This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at https://www.insurance.pa.gov/Companies/ProductAndRateRequire/Pages/default.aspx

Overview

Initial requested average rate change:	10.3%
Revised requested average rate change:	9.1%[1]
Range of requested rate change:	3.9% to 12.0%
Effective date:	January 1, 2023
People impacted:	48,550
Available in:	Rating Areas 1, 2, 4, 5, 6, 7, and 9

Key information

Jan. 2021-Dec. 2021 financial experience

Premiums	$302,871,318
Claims	$252,859,417
Administrative expenses	$29,426,335
Taxes & fees	$8,381,240
Company made (after taxes)	**$12,204,326**

How it plans to spend your premium
This is how the insurance company plans to spend the premium it collects in 2023:

Claims:	89%
Administrative:	8%
Taxes & fees:	3%
Profit:	0%

The company expects its annual medical costs to increase **7.3%**.

Explanation of requested rate change

The proposed average rate change is being driven by cost and utilization trend as well as changes to the reinsurance parameters.

[1] Rates revised to correct any inadvertent errors and/or Department recommended changes.

Actuarial Memorandum

1. Basic Information and Data

A. Company Information

The appropriate company information has been provided in Table 0. General information pertaining to this rate filing is summarized below:

- Company Name: Highmark Inc. ("Highmark", "Company")
- NAIC #: 54771
- HIOS Issuer ID: 33709
- State: Pennsylvania
- Market: Individual
- Effective Date: 1/1/2023
- SERFF Rate Filing #: HGHM-133249726

In accordance with the Department's August 23, 2022 guidance, the impact of the state 1332 Reinsurance program is captured using the prescribed parameters of $60,000 attachment point, 53% coinsurance rate, and $100,000 reinsurance cap. If the final parameters should change from those described in this filing, a revised submission would be required.

Other assumptions in the filing account for the ongoing impact of the COVID-19 pandemic and the lack of Federal CSR funding. The continuation of American Rescue Plan Act (ARPA) level enhanced subsidies in the Inflation Reduction Act was considered in the rate development but no adjustment was included at this time. Finally, modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, changes in legislation/regulations (including rules, regulatory guidance, etc.), changes in the participation of QHP issuers that would materially impact risk adjustment transfer amounts, Medicaid redetermination policy impacts, or material developments in the course of the COVID-19 pandemic. As a result, Highmark reserves the right to submit a revised filing.

B. Rate History and Proposed Variations in Rate Changes

The three most recent rate changes in Pennsylvania for Highmark are as follows:

Year	Avg. Increase	SERFF ID#
2022	-1.8%	HGHM-132820364
2021	-0.7%	HGHM-132324142
2020	-1.2%	HGHM-131904489

Historical rate changes varied by plan due to updated cost sharing levels to meet federal AV requirements as well as updates to AV and other pricing factors.

The proposed 2023 rate changes vary by plan. This is primarily due to updates in the pricing AV factors and benefit richness factors. The plan level rate changes can be found in Table 10.

As requested by the Department, a historical MLR Exhibit is included as Attachment H. MLR results reflect any amounts attributed to the applicable benefit year. As an example, Risk Adjustment paid in mid-2019 for the 2018 benefit year is attributed to the 2018 benefit year.

C. Average Rate Change

The average rate changes as presented in the filing are:

- Table 10: 9.1%
- Table 11: 9.1%

Table 10 calculates the percentage change in the member weighted average rate for 2022 and the member weighted average rate for 2023. Table 11 calculates the percentage increase for each plan and then member weights the percentage increases.

Worksheet 2 of the URRT also shows a submission level rate change. This value is used in the development of the average rate change shown in the Federal Part II justification. A demonstration of this calculation is included in Attachment F.

D. Membership Count

Please see Table 1 for the average age, age breakdown, and total membership for the periods shown.

E. Benefit/Cost Sharing Changes

The majority of Highmark's renewing 2023 plans contain cost sharing that differs from the 2022 offering.

The screenshots from the HHS AV calculator, showing the plan benefits and the resulting actuarial values, can be found as a separate attachment within the *Supporting Documentation* section in SERFF. Also, the PA Plan Design Summary and Rate Tables along with the HIOS Plan IDs can be found within the *Rate/Rule Schedule* section in SERFF.

F. Experience Period Claims and Premium

Please see Table 2 for the experience period data for the most recent calendar year. The experience period paid claims data represents the 2021 calendar year results for all policies in the single risk pool, with run out through February 2022. This data is consistent with the data reported in Section I of Worksheet I of the URRT.

Table 2 is populated with the experience period data as follows:

- The Earned Premium represents actual revenues earned in the experience period.
- Incurred Claims represent claims paid by Highmark. Note that the URRT includes capitated services and is net of Rx Rebates. Those values are not included here as they are listed as separate items.
- The Allowed Claims represent our best estimate of the total claims prior to member cost sharing incurred during the experience period. The Allowed Claims include:
    - Two months of run out from the end of the experience period,

- Claims processed outside of the Company's claims system (e.g., claim settlement costs), and
- Our best estimate of claims incurred but not paid as of the end of the run out period.

Note that allowed claims in the URRT include capitation and are net of drug rebates. They are not included here as they are called out separately in the exhibit.

- Allowed Charges for non EHB services are included in column G. The amount of non EHB included is shown in column H.
- Prescription Drug Rebates are used to reduce the level of Incurred Claims in the experience period.
- Total EHB capitation includes $0.20 PMPM for the pediatric vision benefit.
- Estimated Risk Adjustment includes the transfer dollars and an estimate for the High Cost Risk Pool for the experience period. The Risk Adjustment transfer portion of the total is consistent with the results of the Department's RATEE analysis using the files dated May 2, 2022.

G. Credibility of Data

The experience period data for Highmark is large enough to be fully credible. The results are based 100% on the experience period data.

H. Trend Identification

Table 3 identifies the annual medical and prescription drug allowed claims cost and utilization trends. The underlying total annual trend is 6.96%. Additionally, there is an induced utilization adjustment of 0.31% per year applied to reach the overall trend of 7.29% shown in Table 3 column G. The definitions of service categories, cost, and utilization in Table 3 are consistent with the URRT instructions. The numbers entered in the Cost and Utilization columns are consistent with those entered in Worksheet I, Section 2 of the URRT, except as noted below.

The cost trends presented in Table 3 reflect the Company's expectations regarding increases in in-network contractual reimbursement, as well as projected out-of-network costs. The significant changes observed in the volume, demographics and morbidity of the ACA population from 2018 to 2021 yield component trends that are generally not directly applicable for trend analysis. The trend components in Table 3 therefore represent the same blended average for all types of service and are applied to the aggregate experience for pricing.

A multi-year regression analysis was developed by the Company's valuation team to analyze the ACA individual population trend levels. The analysis was completed at the medical and pharmacy level, then combined to develop a total trend assumption. The regression tool removes components of trend that are more explainable from the observed trend rates and then uses regression analysis to isolate the underlying trend rate. Some of the more explainable variables include high dollar claims, workdays, provider contracting, demographics, and seasonality. The total trend is the sum of the explainable components and the estimated underlying trend rate. The valuation regression tool primarily informed the trend selection with the final requested trend also based on actuarial judgment.

I. Historical Experience

Table 4 presents the most recent 48 months (4 calendar years) of Highmark data with run-out through February 2022. This data was not used to develop the trend in Table 3. Please see Section H for further details.

2. Rate Development & Change

A. Development of Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims

The development of the Projected Index Rate, Projected Market-Adjusted Index Rate, and Projected Total Allowed Claims, shown in Table 5, closely follows the methodologies discussed in the Part III Actuarial Memorandum submitted in the Rate Filing Justification. Please refer to the Part III Memorandum for further details.

Some of the items separately identified in Table 5 include:

- The Change in Morbidity adjustment of 0.989 is comprised of the following: the morbidity impact from claims experience and an adjustment to account for the impact of Covid-19. In accordance with the Department's guidance, the morbidity change related to the Reinsurance program is set to 1.000. Each of the components is described in more detail below.

  The Morbidity Impact from Claims Experience

  This adjustment reflects the change in the population mix/claim levels from the experience period to the projection period. We continue to observe a high degree of membership churn from year-to-year, which impacts the morbidity. This factor also takes into consideration the effects of adverse selection inherent to guaranteed issue markets. The Individual ACA risk pool continues to have a significantly higher proportion of older members with a high prevalence of chronic conditions compared to group business, which adds to the uncertainty of any future claim projections.

  Covid-19 Impact

  In order to account for the impact of COVID-19 on projected claim costs, the Company took the following steps:

  1. Adjusted the claims in the base experience period to a non-COVID-19 baseline. This was done to stabilize the base from which claims are being projected. The base period adjustment accounts for the impacts of testing, treatment, vaccines, and deferred/rescheduled/induced care. Claims in the base experience period were decreased by a factor of 0.971 to remove the impact of COVID-19.
  2. Projected claims to the projection period using trends with the impact of COVID-19 excluded. Again, this provides for a more stable projection of future claims, before

applying the anticipated impact of COVID-19 in the projection period. This was accomplished by applying a trend of 6.96% (which excludes any impact from COVID-19) to our adjusted BEP claims.

3. The projected claims were then further adjusted by applying the anticipated impacts of COVID costs expected in the projection period. The following components were accounted for:
    a. COVID Testing (0.1% claims impact) – Proportional to new cases, which are assumed to diminish over time and be lower in the projection period than in previous years.
    b. COVID Treatment/Care (0.8% claims impact for Western PA & 0.7% claims impact for Central PA) – Proportional to new cases, which are assumed to diminish over time and be lower in the projection period than in previous years. Additionally, new variants are expected to be less severe.
    c. Vaccines (0.5% claims impact) – Assumes insurers will cover vial cost and administration cost; however, booster utilization is expected to diminish.
    d. Deferred/Rescheduled/Induced Care (-0.1% claims impact for Western PA & 0.5% claims impact for Central PA) – Includes care that didn't happen because it wasn't necessary (like ER visits), because it couldn't get scheduled (like inpatient stays when the beds are filled with COVID patients), and care that patients chose to defer (like elective procedures). For the projection period, the primary driver of avoided care is displaced non-COVID care.
    e. Actuarial Judgement (-0.8% claims impact) – The Company reviewed the composite CY2023 COVID impact resulting from the components outlined above and elected to temper the adjustment in light of the inherent unpredictability of items such as deferred care and treatment costs.

   The application of the above COVID claim adjustments to the rating period results in a COVID adjustment factor of 0.976. Please see Attachment G for a more detailed calculation of the of these factors.

- The Change in Demographics adjustment of 1.008 reflects the change in age and geography factors we expect from the experience period to the projection period.
- There is a Change in Network adjustment of 1.018.
- There is no Change in Benefits adjustment.
- The Change in Other adjustment of 0.984 reflects changes in pharmacy rebates and expected changes in hospital/physician settlements.

Please see Attachments A and E for a more detailed calculation of these factors. These factors can also be found in the accompanying spreadsheet.

The projected paid-to-allowed ratio is 0.854. The formula found in Table 5 cell C28 was overwritten because, unlike the average factors found in Table 10 cells K15 and K16, the Company's paid-to-allowed factor is weighted on projected allowed charges and is also dampened by items such as capitation.

The quantitative development of the projected risk adjustment transfer amount for the Company is shown in Attachment B and included in the accompanying spreadsheet. The transfer amount is developed based on an analysis of the claims data underlying the rate development for this filing (risk scores as defined in the HHS Notice of Benefit and Payment Parameters, as well as other risk transfer formula components) and an estimate as to the market-wide risk profile. This market-wide risk profile is developed from available market data, including prior years' risk adjustment transfer results, publicly available data (such as MLR reports), and outside expertise from actuarial consultants. Applying the federally prescribed transfer formula at the level of granularity available in Attachment B yields a projected gross risk adjustment transfer of ($13.99) PMPM on a *billable* member month basis. This amount is then converted to a *total* member month basis of ($13.97) PMPM in order to be used in the rate development. The expected risk adjustment payable reflects that the Company anticipates its average risk score (net of allowable rating factors) to be lower than the statewide average.

The ($16.78) PMPM value in cell C31 of Table 5 equals the ($13.97) PMPM value from Attachment B, a charge of ($2.95) PMPM for the projected net impact of the High Cost Risk Pool program, and a further adjustment for the composite effect of catastrophic eligibility and benefits in addition to EHB. Please note that the risk adjustment user fee is captured in the taxes and fees portion of administrative costs.

The exchange user fee in cell C32 of Table 5 is developed by taking the required user fee percentage of 3.0% and multiplying by the percentage of total members expected to be on exchange of 88%. This results in a percentage of 2.6%. The PMPM of $19.32 is calculated as 2.6% of the total required premium adjusted further for the composite effect of catastrophic eligibility and benefits in addition to EHB.

The projected incurred reinsurance recoveries of $31.92 PMPM is found in cell C33 of Table 5. The reinsurance recoveries PMPM was developed by trending Highmark PA individual ACA CY2021 incurred claims by member to the CY2023 rating period, applying the parameters defined in Tab II.b, and calculating the amount of incurred claims expected to be reimbursed by the program. Highmark PA individual ACA business was considered due to its level of credibility. The modeling produced an estimated incurred claims savings of 4.8%. This percentage was converted to a PMPM and adjusted further for the composite effect of catastrophic eligibility and benefits in addition to EHB.

The Company intends to offer several plans that include benefits in addition to EHB. Thirty plans have an adult dental and vision benefit, and twenty-four plans have a hearing, OTC, and personal assistance (i.e. Papa Pals) benefit. The Company relied on cost estimates from other departments for the following non-EHB benefits:

- **Adult dental benefit** – United Concordia Dental (UCD) estimated this benefit to be worth $33.88 PMPM for Western PA plans and $32.09 PMPM for Central PA plans on a paid basis
- **Adult vision benefit** – Davis Vision estimated this benefit to be worth $2.45 PMPM on a paid basis.
- **Hearing benefit** – TruHearing estimated this benefit to be worth $0.03 PMPM on a paid basis.
- **OTC benefit** – Fieldtex estimated this benefit to be worth $1.93 PMPM on a paid basis.
- **Personal assistance (i.e. Papa Pals) benefit** – Papa (the external vendor) estimated this benefit to be worth $2.70 PMPM on a paid basis.

B. Retention Items

Table 6 has been completed with the requested retention elements for the proposed rates for the rating period. The amounts presented separately sum to the total administrative expenses and taxes and fees presented in the rate development.

Administrative costs reflect internal costs that the Company is projected to incur in the rating period and are developed from standard expense allocation methods. Administrative expenses do not vary by plan.

The proposed rate development assumes an average broker commission of $7.50 PMPM for 2023. The assumed broker commission schedule and the development of the average value are included in Attachment D.

Expenses for Quality Improvement initiatives are assumed to be 0.76%.

The following is a summary of the Taxes & Fees included in the rate development:

- Pennsylvania Premium Tax is not applicable to this issuer and thus is set to 0.0%.
- Federal Income Tax is set to 0.0%.
- Health Insurance Provider Fee is set to 0.0%.
- Risk Adjustment User Fee is set to $0.22 PMPM consistent with Federal regulations.
- Patient-Centered Outcomes Research Institute (PCORI) fee is set to $0.26 PMPM.

The Profit/Contingency for all plans is set to 0%.

C. Normalized Market-Adjusted Projected Allowed Total Claims

The normalization factors presented in Table 7 are each determined from the underlying membership demographics expected in the projected rating period. The 2022 values are pulled from the prior year's filing, while the 2023 values represent our projection for 2023 assumed in the 2023 rate development.

D. Components of Rate Change

Table 8 presents the components of change in the proposed 2023 Calibrated Plan Adjusted Index Rate (PMPM). Cell C73 is populated with the base period allowed charges found in the 2022 plan year rate filing ($564.48).

Table 9 presents the data elements supporting the calculations in Table 8. The 2022 values are populated using the 2022 filed factors adjusted for the membership mix as of February 1, 2022.

3. Plan Rate Development

Table 10 shows the plan rate development for 2023. This table shows the plans that Highmark intends to offer in 2023, as well as all plans offered in the 2022 portfolio. The calibrated plan adjusted index rates for 2022 are calculated according to the instructions. The 2023 rating factors are consistent with the factors found on Worksheet 2 of the URRT. The pricing effect on Table 10 is further broken out into Pricing

AV, Benefit Richness, and Non-Funding of CSR Adjustment. Similar to the URRT, the admin effect on Table 10 is broken out into Admin Costs, Taxes and Fees, and Profit or Contingency.

The benefit richness factors in column L are populated with the factors found in Attachment C and the corresponding supporting spreadsheet included with this rate filing. The derivation of the AV and Cost Sharing factors can also be found in Attachment C. The values in column 8 of the attachment represent the pure induced utilization for each plan. The Company's induced utilization factors are based on the following state-defined formula: (Plan AV)^2 – (Plan AV) + 1.24. The "Plan AV" is the product of the "Pricing AV" and "Non-Funding of CSR Adjustment." Each plan's factor was then normalized by the average utilization factor. The average is a weighted average using projected membership as the weight. After normalization the average factor as shown in attachment C is 1.000.

Note that the HHS Actuarial Value Calculator was unable to accommodate all of the Company's benefit designs. Plans needing certification are marked in column I of Table 10. Screen shots of all of the AV calculations and the appropriate certifications can be found as a separate attachment within the *Supporting Documentation* section in SERFF.

For discontinuing plans where members are being mapped into a new plan, an effective rate increase is calculated by comparing the 2022 rate of the discontinuing plan to the 2023 rate of the plan to which the member is being mapped.

Columns AG through AP are populated with the February 1, 2022 enrollment by 2023 plan and rating area.

Impact of Non-Payment of Cost Sharing Reduction Subsidies

In accordance with the Department's guidance, we have applied an additional adjustment to our AV pricing values for those Silver plans not offered exclusively off-exchange. This adjustment factor was 1.22 and represents the non-payment of Cost Sharing Reduction subsidies. Consistent with the Department's guidance, this adjustment was reflected in Table 10 in Column P.

4. Plan Premium Development for 21-Year-Old Non-Tobacco User

Table 11 presents the Company's 21-year-old non-tobacco premium in the Individual Market. As mentioned in Section 1.C above, the change in 21-year-old non-tobacco premium PMPM calculated in this table is 9.1%.

5. Plan Factors

A. Age and Tobacco Factors

Please see Table 12 for Highmark's age and tobacco factors.

B. Geographic Factors

Please see Table 13 for Highmark's geographic factors. The Company's factors for the rating period are unchanged from the currently approved factors.

C. Network Factors

Please see Table 14 for a summary of the Company's network rating factors. The factors presented here represent the medical network factors from the prior approved rate filing (if applicable) and the projected medical network factors for the rating period. The Company's factors for the rating period are unchanged from the currently approved factors.

D. Service Area Composition

The Plan Design Summary exhibit uploaded as a separate document contains the service areas related to this filing. As requested, service area maps are included.

6. Actuarial Certifications

I, [redacted], am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. All statements in this actuarial certification are accurate to the best of my knowledge and understanding. This filing is prepared in compliance with applicable Actuarial Standards of Practice. In completing this filing, I relied on data/information from other sources which was reviewed for reasonableness. This filing is prepared on behalf of Highmark to accompany its rate filing (for calendar year 2023) for the Individual Market on and off the Pennsylvania Exchange.

I hereby certify that the projected index rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102),
- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

I certify that the index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.

I certify that all factors, benefit and other changes from the prior approved filing have been disclosed in the 2023 PA Actuarial Memorandum Rate Exhibits.

I certify that new plans are not considered modifications of existing plans (per the uniform modification standards in 45 CFR 147.106).

I certify that the AV Metal Values included in Table 10 were based entirely on the Federal AV Calculator or one of the approved alternative approaches.

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

I certify that the information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2023 Rate Filing Justification.

Table 5. Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims

Development of the Projected Index Rate	**Actual Experience Data**	**Manual Data**	
Total Allowed EHB Claims + EHB Capitation PMPM (net of prescription drug rebates) PMPM	$ 681.35	$ -	<- Actual Experience PMPM should be consistent with the Index Rate for Experier
Two year trend projection Factor	1.151	1.000	
Unadjusted Projected Allowed EHB Claims PMPM	$ 784.36	$ -	
Single Risk Pool Adjustment Factors			
Change in Morbidity - Impact of Reinsurance Program	1.000	1.000	
Change in Morbidity - All Other	0.989		<- See URRT Instructions
Total Non-Morbidity Changes	1.010	0.000	
Change in Demographics	1.008		<- See URRT Instructions
Change in Network	1.018		
Change in Benefits	1.000		<- See URRT Instructions
Change in Other	0.984		<- See URRT Instructions
Total Adjusted Projected Allowed EHB Claims PMPM	$ 783.41	$ -	
Credibility Factors	**100%**	**0%**	<- See Instructions
Blended Projected EHB Claims PMPM		**$ 783.41**	**<- Projected Index Rate**
Development of the Market-Adjusted Index Rate and Total Allowed Claims			
Adjusted Projected Allowed EHB Claims PMPM	$ 783.41	<- Index Rate for Projection Period on URRT	
Projected Paid to Allowed Ratio	0.854		
Projected Incurred EHB Claims PMPM	$ 669.39		
Market-wide Adjustments			
Projected Incurred Risk Adjustment PMPM	-$16.78		
Projected Incurred Exchange User Fees PMPM	$19.32		
Projected Incurred Reinsurance Recoveries PMPM	$31.92		
Market-Adjusted Projected Incurred EHB Claims PMPM	$ 673.57		
Market-Adjusted Projected Allowed EHB Claims PMPM	$ 788.30	<- Market-Adjusted Index Rate	
Projected Allowed Non-EHB Claims PMPM	$ 6.98		
Market-Adjusted Projected Incurred Total Claims PMPM	$ 679.53		
Market-Adjusted Projected Allowed Total Claims PMPM	$ 795.27		

Table 6. Retention

Retention Items - *Express in percentages*	**Percentages**	**PMPM Amounts**
Administrative Expenses	7.89%	$58.27
General and Claims	6.12%	$45.16
Agent/Broker Fees and Commissions	1.02%	$7.51
Quality Improvement Initiatives	0.76%	$5.61
Taxes and Fees	0.06%	$0.48
Risk Adjustment User Fee	0.03%	$0.22
PCORI Fee	0.03%	$0.26
PA Premium & Other Taxes (if applicable)	0.00%	$0.00
Federal Income Tax	0.00%	$0.00
Health Insurance Providers Fee (Prorated for Small Groups only)	0.00%	$0.00
Profit/Contingency (after tax)	0.00%	$0.00
Total Retention	7.96%	$58.75
Projected Required Revenue PMPM	$ 738.28	

Table 8. Components of Rate Change

Rate Components	**2022**	**2023**	**Difference**	**Percent Change**
A. Calibrated Plan Adjusted Index Rate (PMPM)	$ 356.08	$ 388.49	$ 32.40	9.1%
B. Base period allowed claims before normalization	$ 564.48	$ 681.35	$ 116.86	32.8%
C. Normalization factor component of change	$ (300.10)	$ (363.19)	$ (63.10)	-17.7%
D. Change in Normalized Allowed Claims Adjustment Components				
D1. Base period allowed claims after normalization	$ 264.39	$ 318.15	$ 53.77	15.1%
D2. URRT Trend	$ 39.55	$ 48.10	$ 8.55	2.4%
D3. URRT Morbidity	$ 72.91	$ (4.03)	$ (76.94)	-21.6%
D4. URRT Other	$ (5.97)	$ 3.59	$ 9.55	2.7%
D5. Normalized URRT Risk Adjustment on an allowed basis	$ (22.59)	$ 9.17	$ 31.76	8.9%
D6. Normalized Exchange User Fee on an allowed basis	$ 9.55	$ 10.56	$ 1.00	0.3%
D7. Normalized Reinsurance Recoveries on an allowed basis	$ (25.22)	$ (17.44)	$ 7.77	2.2%
D8. Subtotal - Sum(D1:D7)	$ 332.62	$ 368.10	$ 35.48	10.0%
E. Change in Allowable Plan Adjusted Level Components				
E1. Network	$ (0.13)	$ (0.15)	$ (0.02)	0.0%
E2. Pricing AV	$ (44.15)	$ (52.76)	$ (8.61)	-2.4%
E3. Benefit Richness	$ 36.94	$ 38.74	$ 1.79	0.5%
E4. Catastrophic Eligibility	$ (0.20)	$ (0.22)	$ (0.02)	0.0%
E5. Subtotal - Sum(E1:E4)	$ (7.54)	$ (14.39)	$ (6.85)	-1.9%
F. Change in Retention Components				
F1. Administrative Expenses	$ 28.55	$ 30.66	$ 2.11	0.6%
F2. Taxes and Fees	$ 0.26	$ 0.25	$ (0.01)	0.0%
F3. Profit and/or Contingency	$ -	$ -	$ -	0.0%
F4. Subtotal - Sum(F1:F3)	$ 28.81	$ 30.91	$ 2.10	0.6%
G. Change in Miscellaneous Items	$ 2.19	$ 3.87	$ 1.68	0.5%
H. Sum of Components of Rate Change (should approximate the change shown in line A)	$ 356.08	$ 388.49	$ 32.40	9.1%

Bureau of Life, Accident & Health Insurance
Commonwealth of Pennsylvania Insurance Department
1311 Strawberry Square
Harrisburg, PA 17120

Re: Highmark Inc. 2023 ACA Rate Filing (Individual Market)
Highmark Filing # 1A-DP-22-HI (SERFF Filing # HGHM-133249726)

Dear Ms. Badarzynski:

Enclosed are responses to your June 15, 2022 questions regarding SERFF Filing # HGHM-133249726. We have included your questions along with our responses for your convenience. In conjunction with these responses, we are also submitting revisions to the following documents in SERFF:

- PAAM Attachments – This file is being revised in response to additional question 3.

Should you have any further questions regarding this Filing, please feel free to contact me at [redacted] or via e-mail at: [redacted].

Sincerely,

[redacted]

[redacted]
Actuarial Director, Individual Markets
Highmark Inc.

1. Please confirm that you have tested to ensure that the rates in Table 11 of the PAAM Exhibits, PA Plan Design Summary and Rate Table, Federal Rates Template, and binder are identical.

Response:
We have tested and confirmed that the rates in Table 11 of the Actuarial Memorandum Exhibits, the PA Plan Design Summary and Rate Tables, the Federal Rates Template, and in the binder are identical.

2. With the assumption of the expanded subsidies not being extended into plan year 2023, has any adjustment been made in the assumption of on-exchange membership for plan year 2023? Have you made any adjustment to morbidity?

Response:
Yes, after accounting for members we expect to passively enroll, we assumed that the split of members actively enrolling in On- vs. Off-exchange coverage would match the experience we saw during the 2021 OEP (Nov 2020 – Jan 2021), which was the last OEP prior to ARPA.

No adjustment was made to the morbidity due to the expanded subsidies not being extended into 2023. This is consistent with our filing approach from last year which assumed no morbidity change due to expanded subsidies in 2022.

3. Per HHS Final Notice of Benefit and Payment Parameters, the federal medical rebate loss ratio is prohibited from including indirect quality improvement activity (QIA) expenses. Please confirm that in the calculation of the rebate MLR that indirect quality improvement activity (QIA) expenses have been excluded.

Response:
The quality improvement activity (QIA) expenses that are used to calculate the projected 2023 medical loss ratio (MLR) cited in the Part III Actuarial Memorandum are developed from the most recent actual QIA data that we have available. Our internal subject matter experts have been reviewing the QIA-related expenses in light of the changes outlined by CMS in the 2023 Notice of Benefit and Payment Parameters. Based on an initial review, we do not expect this requirement of excluding indirect QIA expenses to have a material impact on the results.

4. In the PAAM Exhibits, Table 6, the commission is listed as $7.51 PMPM. Please provide the quantitative development for determining the commission PMPM.

Response:
The development of the projected commission PMPM is shown in Attachment D. The projected commission expense is estimated to be worth $7.50 PMPM or 1.01% of premium as shown in Table 6. Because the projected required revenue PMPM in Table 6 does not account for the impact of the catastrophic eligibility factor, the required revenue displayed is slightly overstated. Thus, the formula in Table 6 for the commission PMPM calculates a value that is $0.01 PMPM higher than the actual assumption.

5. Please provide an exhibit showing the commission PMPM amount to be paid to brokers in the following situations: Open-Enrollment Enrollee – Renewing, Open Enrollment Enrollee – New, Special Enrollment Period Enrollee – New, Special Enrollment Enrollee – Renewing. If the commission PMPM is not consistent between the four options above, please explain in detail the reason for the difference. Note that federal law prohibits different compensation to agents and brokers for coverage in the same benefit year based on whether the enrollment is during an SEP or during OEP.

Response:
Please see the attached exhibit labeled Q5 Response for the commission PMPMs for the requested categories of members. The commission PMPMs are consistent between the categories.

6. If available, please provide a current copy of the broker contract agreements for plan year 2023.

Response:
The broker contract agreements for plan year 2023 are not yet available.

7. Currently, the expanded subsidies from the American Rescue Plan are expected to discontinue for plan year 2023. Please confirm that the current rate filing assumptions are reflective of the expanded subsidies being removed for plan year 2023 and please provide a brief narrative on how rates were impacted.

Response:
Our rate filing assumed that the expanded subsidies implemented under ARPA are discontinued for the 2023 plan year. Our expectation in last year's filing was that enhanced ARPA subsidies would not impact the rates. Consistent with that assumption, we are assuming no rate impact in 2023 for the discontinuation of the ARPA enhanced subsidies.

8. With the Public Health Emergency scheduled to end on July 15th, how has the rate development been affected? Please provide support for any adjustments. Specifically, has any adjustments been made to your assumption of on-exchange membership for PY2023?

Response:
No adjustment has been made for the Public Health Emergency (PHE) potentially ending since current regulation/law has not changed and the PHE continues to be extended. Depending on changes to laws/regulations related to the PHE ending, Highmark reserves the right to modify the filing due to any substantial changes.

9. Please provide an exhibit which demonstrates that the criteria for the expanded bronze plan(s) have been met.

Response:
Our expanded bronze plans satisfy the requirements as defined by 45 CFR 156.140(c) by either covering at least one major service, other than preventive services, before the deductible or meeting the requirements to be a high deductible health plan within the meaning of 26 U.S.C. 223(c)(2). For plans satisfying the requirement by covering at least one major service before the deductible, several major services are covered prior to the deductible including primary care and specialty care. The coinsurance percentages and certifications of the values corresponding to these categories can be found in the AV screenshots and Certifications document provided as a separate attachment with the initial SERFF submission.

10. Per the Pennsylvania Final Rate Filing Guidance, Table 5, the Change in Morbidity – All Other should have an individual adjustment factor of 1.0. Please confirm that no individual adjustment factor was used.

Response:
We confirm that the rate development did not include any adjustment for the individual mandate factor.

11. Per the PAAM Exhibits, Table 6, the cost of Quality Improvement Initiatives is $5.67. Please qualitatively and quantitatively show the development of the quality improvement initiative amount.

Response:
The Quality Improvement Initiatives PMPM is calculated by multiplying our internal estimate of Quality Improvement Initiatives percentage by the Projected Required Revenue PMPM. It was calculated as follows: 0.76% x $746.43 = $5.67. As mentioned in the response to Question 3 above, the quality improvement activity (QIA) expense percentage is developed from the most recent actual QIA data that we have available.

12. How are drug rebates projected to change from the base period to the rating period? How has this change been reflected in the rate development?

Response:
Projected drug rebates account for expected changes in cost, utilization, and contracting associated with rebatable drugs. The change in drug rebates is included in the "Change in Other" factor found on Table 5. The specific impact of the change in drug rebates is provided in the response to Add'l Question 5 below.

13. Please explain how a change in member behavior to use service types such as telehealth more frequently than in the past and how a reversion back to more traditional service types is considered in your trend development.

Response:
Our trend development does not include an adjustment related to changes in telehealth services compared to traditional service types. Our cost/service for telehealth and non-telehealth services are at parity. Our assumption is that changes in telehealth vs. non-telehealth utilization of service patterns (visit and other associated services) will not materially impact the overall trend.

14. Please provide a description for the new non-EHB benefit, OTC.

Response:
The new OTC (Over-the-Counter) non-EHB benefit offers a quarterly OTC allowance to members who enroll in a plan that offers the benefit. Each member will receive four $25 credits throughout the year to spend on commonly bought OTC drugstore items.

Please answer the following additional questions:

1. The following questions relate to the trend assumption:

a. **Section 1H of the PA Actuarial Memorandum indicates that the regression analysis primarily informed the trend selection with the final requested trend also based on actuarial judgement. Please provide a detailed exhibit displaying the quantitative development of the trend estimates produced by the regression analysis and the results produced by the regression analysis performed, separately for medical and pharmacy services. Additionally, please explain why the particular trend assumption was chosen over another. For example, if the regression analysis suggested that the annual trend assumption should equal 6%, but the Company ultimately selected 7%, please explain how it was determined that the 7% assumption is more appropriate than 6%.**

b. Please provide an exhibit displaying what explicit adjustments, if any, were made to the results of the regression analysis to arrive at the final proposed trend assumptions (e.g., an adjustment was applied to the results of the regression analysis to capture anticipated changes in the pharmacy formulary).

c. Section 1H of the PA Actuarial Memorandum states that the regression analysis was completed at the medical and pharmacy level, then combined to develop a total trend assumption. Please provide a detailed quantitative exhibit displaying how the medical and pharmacy results of the regression analysis were combined. Additionally, please provide support for the approach of assuming that the medical and pharmacy trends should be equal to one another (i.e., instead of assuming separate medical and pharmacy trends).

d. Please explain what adjustments, if any, were made to account for the impact of COVID-19 when developing the annual trend assumption utilized in the rate development.

e. Please provide a detailed quantitative exhibit displaying the development of the induced utilization assumption that is included in the trend assumptions and shown in Table 3 of the PA Rate Template file. In providing your response, please provide an exhibit displaying the development of the average induced demand factors underlying the 2021 experience and projected 2023 populations.

Response:

a. Please see exhibit labeled Add'l Q1a Response for the development of the trend estimates produced by the regression analysis. Shaded in gray is the time period used for the regressions.

b. The only adjustment made to the regression trend output was the actuarial judgment described in the exhibit labeled Add'l Q1b Response.

c. Please see the attached exhibit labeled Add'l Q1b Response. The medical and pharmacy trends were set equal in the filing submission because the final trend developed was a total trend.

d. The trend in the filing submission was developed excluding Covid-19. Please see the response to Additional Question 3 below for more details on Covid-19 factor development.

e. Please see the attached exhibit labeled Add'l Q1e Response for the development of the induced utilization assumption that is included in Table 3 of the PA Rate Template file.

2. The following questions relate to the morbidity adjustment:

a. Please provide a quantitative exhibit displaying the development of the 2021 Normalized Allowed PMPM shown in column D in Attachment A. Please demonstrate all calculations.

b. Please provide support for and include a quantitative exhibit displaying the development of the assumed 2023 Member Distribution shown in Attachment A.

c. Please provide a detailed quantitative exhibit displaying the development of the 2021 Normalized Allowed PMPM shown in column F in Attachment A. Please demonstrate all calculations.

Response:

a. Please see the attached exhibit labeled Add'l Q2a Response for the development of the 2021 normalized allowed PMPM (column D) in Attachment A.

b. Please see the attached exhibit labeled Add'l Q2b Response for the development of the assumed 2023 member distribution shown in Attachment A. The development starts with the actual member distribution by region and population source as of the 2022 snapshot date. Based on the

product/plan changes from 2022 to 2023, our internal Sales Department estimated that the WPA/CPA mix would change from 37%/63% to 42%/58%. We used this anticipated regional mix for 2023 to calculate the projected 2023 member distribution as shown in the exhibit by maintaining roughly the same population source mix *within* each region. The assumed values that were incorporated into Attachment A reflect very minor adjustments in order to use more rounded assumptions.

c. Please see the attached exhibit labeled Add'l Q2c Response for the development of the 2021 normalized allowed PMPMs (column F) in Attachment A. The composite PMPM is derived using the 2/1/2022 enrollment profile which is categorized into the following sources:

Renewal

- This represents our 2021 ACA members that re-enrolled in HMARK. The normalized allowed PMPM was calculated by normalizing the allowed PMPM for demographic, network, and benefit richness factors.

Other Highmark

- This represents the 2021 members from other Highmark markets such as group markets that enrolled in HMARK. The normalized PMPM was calculated by reviewing its allowed claims, adjusted for benefit differential if needed and then normalized for demographic, network, and benefit richness factors.

Prior ACA

- This represents our 2020 ACA members that lapsed in 2021 and now reenrolled in HMARK. We reviewed its 2020 ACA claims, trended to 2021, and used this as starting point to approximate the 2021 allowed claims. The normalized allowed PMPM was then calculated by normalizing the allowed PMPM for demographic, network, and benefit richness factors.

New

- This represents the catch-all category of the remaining members that enrolled in HMARK. The adjusted allowed claims PMPM for the "New" segment is set such that its normalized allowed PMPM was set equal to the "Renewal" segment.

Since the underlying claims only reflected the claims experience of the 2/1/2022 active enrollment, we added a death load adjustment to the underlying allowed PMPMs to capture the incremental claims of terminated members due to death as developed from historical experience. In conjunction with the claim adjustment, we also adjusted the risk scores as discussed further in the response to Add'l Question 6c below. These adjustments are necessary to account for the fact that the underlying claim projection is based on the active enrollment snapshot as of 2/1/2022. Absent this adjustment, the claim projection and risk scores would be artificially low because they would exclude the experience associated with members who lapse due to death each year.

3. The following questions pertain to the COVID-19 adjustment factor:

a. Please provide a detailed quantitative exhibit displaying the development of the Company's adjustments to reflect the impact of COVID-19 on claims in 2021 due to testing, COVID-19 treatment, vaccines, and deferred care for each of the Western and Central regions, respectively. In providing your response, for each region, please include the actual 2021 monthly claims experience that was considered, the estimated claims experience that was developed to estimate a 2021 non-COVID-19 baseline, and the detailed figures/adjustments that were utilized to develop the estimated claims experience for the 2021 non-COVID-19 baseline.

b. Please provide a detailed quantitative exhibit displaying the development of the Company's adjustments to reflect the impact of COVID-19 on claims in 2023 due to testing, COVID-19 treatment, vaccines, and deferred care for each of the Western and Central regions, respectively. Specifically, please explain why the Company expects that the Centra PA region will see an increase in deferred care due to COVID-19 in 2023 compared to the WPA region that expects to see a decline in the same period.

Response:
Please note that during the course of compiling our responses for this question, we confirmed that our 2021 and 2023 total COVID impacts are being calculated correctly; however, we did notice that the split between testing, treatment, vaccines, and deferred/rescheduled/induced care was calculated incorrectly on Attachment G. In the original submission, testing, treatment, and vaccine impacts were unintentionally being calculated as a percent of incurred claims, instead of allowed claims. This resulted in the testing, treatment, and vaccine percentages being overstated. Since the impact of deferred/rescheduled/induced care was calculated as the difference between actual spend/all-in projected spend less COVID costs less the non-COVID baseline, the impact of deferred/rescheduled/induced care was understated, but the overall COVID impact is unaffected. We are submitting an updated version of the PAAM Attachments file in order to correct Attachment G.

a. Please see the attached exhibit labeled Add'l Q3a Response for the development of the Company's 2021 adjustment to claims for COVID-19. The non-COVID baseline is projected by using linear regression based on pre-COVID data, projecting through 2021. The pre-COVID experience is adjusted for historical and projected changes in provider contracting, membership mix including the impact of new/cancelled member, impact of care management programs, and emerging treatments/technology. Testing claims are identified using testing procedure codes (CPT/HCSPCS). Treatment claims are defined as inpatient claims with a confirmed COVID diagnosis code. Vaccine claims are identified using vaccine procedure codes (CPT/HCSPCS) for medical claims and NDCs for pharmacy claims.

b. Please see the attached exhibit labeled Add'l Q3b Response for the development of the Company's 2023 adjustment to claims for COVID-19. The development of the non-COVID baseline projection and the testing/treatment/vaccine costs followed the approach outlined in the response to Add'l Question 3a above. The differences in the impact of deferred/rescheduled/induced care between WPA and CPA is driven by different assumptions around the impact of induced care, which represents the impact of an expansion/shift to telehealth services and an increase in behavioral health care, which are expected extend through 2023.

4. Please provide a quantitative exhibit displaying the development of the average 2021 and 2023 network factors used in the development of the "Changes in Network" Index Rate Adjustment shown in Attachment A.

Response:
Please see the attached exhibit labeled Add'l Q4 Response for the development of the average 2021 and 2023 network factors. As demonstrated in Attachment A of the rate filing, these two factors are used to develop the "change in network" factor shown in Table 5 of the PA Rate Template file.

5. Please provide a detailed quantitative exhibit displaying the 0.984 "Change in Other" Index Rate adjustment shown in Table 5 of the PA Rate Template file. In providing your response, please break out the estimated impact due to changes in pharmacy rebates and expected changes in hospital/physician settlements separately.

Response:
Please see the attached exhibit labeled Add'l Q5 Response for the development of the "Change in Other" factor.

6. The following questions relate to the risk transfer assumption:

- **a. Please provide a detailed quantitative exhibit displaying the development of the Company-specific average PLRS, ARF, GCF, ID, AV, and premium PMPM assumptions underlying the projected 2023 risk adjustment transfer, as shown in Attachment B. In providing your response, please include the average PLRS, ARF, GCF, ID, AV, and premium PMPM underlying the RATEE file that will be used by CMS to calculate risk transfers for 2021. Additionally, please provide a comparison of the 2023 factors being projected vs. the 2021 factors underlying the RATEE file and provide justification to the extent the projected 2023 factors are different than the 2021 factors.**
- **b. Please provide a detailed quantitative exhibit displaying the development of the market wide average PLRS, ARF, GCF, ID,AV, and premium PMPM assumptions underlying the projected 2023 risk adjustment transfer, as shown in Attachment B. Additionally, please provide a comparison of the 2023 factors being projected vs. the 2021 factors shown in the Interim 2021risk adjustment transfer report and provide justification to the extent the projected 2023 factors are different than the 2021 interim factors.**
- **c. To the extent that a portion of the Company's morbidity adjustment reflects anticipated changes in morbidity specific to the Company's internal book of business (i.e., in addition to, or rather than, any changes in the morbidity of the overall PA Individual ACA market), please explain how the morbidity adjustment was considered in the development of the Company's risk adjustment transfer assumption.**
- **d. Please provide a detailed quantitative exhibit displaying the anticipated receipt and assessment associated with the high-cost risk pool component of the projected risk transfer results.**

Response:

a. Please see the attached exhibit labeled Add'l Q6a Response for the development of the Company-specific assumptions underlying the projected 2023 risk transfer. The Company-specific PLRS, ARF, GCF, IDF, and AV assumptions shown in Attachment B and used to develop the projected 2023 risk transfer were developed for the population of members that comprised the normalized allowed PMPM development discussed in the response to Add'l Question 2c above.

   The exhibit labeled Add'l Q6a Response also includes the relevant factors underlying the RATEE file that CMS will use to calculate risk transfers for 2021. Please note that the GCF value is listed as "unknown" because this factor cannot be derived without access to all of the other issuer RATEE files in the market. The 2023 factors are similar to the 2021 factors. Small differences exist because the 2023 population is anticipated to be slightly different than the 2021 population. First, the population in this entity continues to grow. There were about 39,000 average members in 2021. We expect roughly 45,000 average members in 2023. Second, the geographic footprint of the population continues to change. We expect the share of membership located in Western Pennsylvania counties to grow from 29% in 2021 to 42% in 2023. Finally, the plan selections and resulting metal mix (i.e. the proportion of bronze, silver, and gold plans) of the population continue to change.

b. The statewide factors included in rows 13 and 18 of Attachment B for the 2023 projection were developed by starting with information from the following sources: (1) the PID's 2021 RATEE study released on May 10, 2022, (2) the PID's 1Q2022 Enrollment Survey released on May 5, 2022, and (3) the CMS Interim Summary Report for 2021 released on March 22, 2022. The

attached exhibit labeled Add'l Q6b Response demonstrates how we used the information from these sources to derive the 2023 statewide average estimates shown in Attachment B. Most of the assumed 2023 statewide factors are identical to our best estimates of the 2021 or 2022 statewide factors. The only exceptions are the statewide average premium and risk score assumptions. We anticipate that the statewide average premium will be 8% higher in 2023 compared to 2021 primarily due to rate increase requests for the 2023 benefit year. We also anticipate a slight increase in the overall morbidity of the non-catastrophic market and have adjusted the statewide average risk score accordingly.

Table 3 shows a comparison of the 2023 factors being projected vs. the 2021 factors shown in the CMS Interim Report. In general, the factors being used for 2023 are similar to the factors from the Interim Report. Where differences exist, it is because we are using more accurate and/or more recent data to develop our estimates. For example, using results from the PID RATEE analysis is preferable to the CMS Interim Report because they are based on actual EDGE Server submissions by all plans with run-out through the April 2022 deadline.

c. The Company-specific PLRS factors shown in the attached exhibit labeled Add'l Q6a Response were developed using the 2021 HHS-HCC risk adjustment model. The risk scores were increased by 4.5% in conjunction with the death load claim adjustment discussed in the response to Add'l Question 2c above. We selected a 4.5% risk score load based on a review of the data.

d. Please see the attached exhibit labeled Add'l Q6d Response for the development of the high cost risk pool component of the projected risk transfer results. We relied upon estimates from an external actuarial consulting company's study to inform our selection of an appropriate percentage of premium charge for 2023. The external study was based upon data collected by issuers across the country and included over 142 million submitted member months. Given the extremely volatile and unpredictable nature of claims in excess of the $1 million attachment point, as a simplifying assumption we assumed there would be no anticipated reimbursements in 2023. Instead, we selected a percentage of premium charge that was lower than what could have been reasonably supported by the external study.

Response to Objection 1 - Add'l Question 1b

Description	WPA Medical	WPA Rx	CPA Medical	CPA Rx	Total	Notes
2023 Mix	43%	43%	57%	57%		Please see Attachment G from filing submission
2021 Allowed 12-Month PMPM With Covid	$398.50	$158.99	$563.31	$177.24	$ 661.83	Source is supporting monthly PMPMs streams with Covid included.
2023 Allowed 12-Month PMPM With Covid	$443.90	$190.28	$617.51	$220.61	$ 750.43	Source is supporting monthly PMPMs streams with Covid included.
2021 Covid Adjustment					0.971	Please see Attachment G from filing submission
2023 Covid Adjustment					1.013	Please see Attachment G from filing submission (prior to actuarial judgment)
2021 Allowed 12-Month PMPM Without Covid					$ 642.56	Increase Claims to Remove Covid in 2021
2023 Allowed 12-Month PMPM Without Covid					$ 740.80	Decrease Claims to Remove Covid in 2023
Allowed Annual Trend 2021 to 2023					**7.4%**	
Actuarial Judgment					-0.4%	Reasonable range around deterministic estimate applied including consideration for enrollment changes
Required Annual Trend Before Induced Demand Factor					**7.0%**	
Induced Demand Factor					0.31%	Difference in average metal AV from current benefits to 2023 benefits.
Required Annual Trend w/Induced Demand*					**7.30%**	

* Trends are then applied to the relevant mix for the entity and adjusted for Capitation to produce the resulting 7.29% as shown in Table 3.

Re: Highmark Inc. 2023 ACA Rate Filing (Individual Market)
Highmark Filing # 1A-DP-22-HI (SERFF Filing # HGHM-133249726)

Dear Ms. Badarzynski:

Enclosed are responses to your July 6, 2022 questions regarding SERFF Filing # HGHM-133249726. We have included your questions along with our responses for your convenience. In conjunction with these responses, we are also submitting revisions to the following document in SERFF:

- In response to Question 1, the 2021 experience period risk adjustment amount found in Table 2 of the PAAM Exhibits has been updated to reflect the final amount released by CMS on June 30, 2022.

Should you have any further questions regarding this Filing, please feel free to contact me at [redacted] or via e-mail at: [redacted].

Sincerely,

[redacted]

[redacted]
Actuarial Director, Individual Markets
Highmark Inc.

1. Please update the 2021 experience period risk adjustment amount, in Table 2, to reflect the final CMS risk adjustment amount released on June 30th.

Response:
The 2021 experience period risk adjustment amount in Table 2 has been updated to reflect the final amount released by CMS on June 30, 2022.

2. If the projected risk adjustment transfer amount in Table 5 will be modified, due to the final CMS transfer amount published on June 30th, please provide narrative and detailed supporting data to justify the proposed changes.

Response:
The Company does not intend to modify its projected 2023 risk adjustment transfer amounts based on the 2021 results.

3. Please confirm that you have tested to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, and Federal Rate Templates are identical.

Response:
We have tested and confirmed that the rates in Table 11 of the Actuarial Memorandum Exhibits, the PA Plan Design Summary and Rate Tables, and the Federal Rates Template are identical.

4. Please ensure that the 7/14/22 versions of the following items are posted in SERFF with your July 14th response to this data call.

- **a. Cover Letter identifying all changes made and the reasons for the change. Also, show the revised rate change.**
- **b. PA Actuarial Memorandum**
- **c. PA Actuarial Memorandum Exhibits**
- **d. Department's Plan Design Summary and Rate Template Exhibits (please ensure that the rate template by county is populated with only numeric values – no "NA")**
- **e. URRT**
- **f. Federal Rate Template**
- **g. Part III: Actuarial Memorandum**
- **h. Updated Rate Change Request Summary (Attachment I)**
- **i. Public PDF with limited redactions as previously directed in the Guidance (includes all correspondence and supporting exhibits after the initial submission, in addition to all the above items).**

Response:
All of the relevant rate filing documents are being updated and submitted in SERFF in conjunction with these responses.

Please answer the following are additional questions:

1. The following questions relate to the MLR:

- **a. The pricing MLR has been consistently higher than the actual MLR in the past three years. Please explain the cause of this relationship and whether this relationship was considered in the development of this rate filing.**
- **b. Please confirm if a MLR rebate has been paid or if the company anticipates doing so.**

Response:

a. Over the course of the three years represented in the historical MLR exhibit, the Company has experienced a significant change in enrollment. The actual-to-expected MLR variances in 2018 & 2019 can be attributed, at least in part, to the relatively small membership levels in those years. The 2020 variance was largely driven by the impact that the COVID-19 pandemic had on the claim experience for this year. Additionally, the significant actual membership growth as well as the actual-to-expected membership variance contributed to the MLR variance observed in 2020. We view all of these drivers as unique items that impacted the historical results but would not have a direct bearing on the 2023 rate development.
b. A MLR rebate was paid by the Company for the 2020 rebate year (based upon experience from 2018-2020). Although not yet finalized, the Company anticipates paying a MLR rebate for the 2021 rebate year (based upon experience from 2019-2021). Covid deferred care impacts were a contributing factor in the requirement to pay MLR rebates.

2. Please indicate if the risk adjustment assumption will be modified or not based on the most recent receipt of CMS 2021 Benefit Year Transfer Payment Report.

Response:
The Company does not intend to modify its projected 2023 risk adjustment transfer amounts based on the 2021 results.

Re: Highmark Inc. 2023 ACA Rate Filing (Individual Market)
Highmark Filing # 1A-DP-22-HI (SERFF Filing # HGHM-133249726)

Dear Ms. Badarzynski:

Enclosed are responses to your July 18, 2022 questions regarding SERFF Filing # HGHM-133249726. We have included your questions along with our responses for your convenience.

Should you have any further questions regarding this Filing, please feel free to contact me at [redacted] or via e-mail at: [redacted].

Sincerely,

[redacted]

[redacted]
Actuarial Director, Individual Markets
Highmark Inc.

1. Have you implemented any incentives for providers and enrollees to continue managing health care cost and claims for individuals eligible for reinsurance (individual ACA compliant enrollees)? If yes, please provide a high-level description of the incentive.

Response:
The Company's utilization management programs and any provider incentives apply consistently to members regardless of whether or not they reach eligibility for claims reinsurance.

2. It was noted in the PY23 rate filing that the CSR Defunding Adjustment factor would be 1.22 if ARPA subsidies were extended.
At this point are you still comfortable keeping the CSR factor at 1.22 if subsidies are extended? In addition, please explain if any other favorable adjustments should be made (due to increased membership, improving morbidity, etc.) if subsidies are extended. If so, please provide a range on what any such adjustment would be (i.e. 0.98 to 1.0).

Response:
The Company is comfortable with applying a 1.22 CSR Defunding Adjustment factor if ARPA subsidies are extended for 2023. We would expect membership to increase if ARPA subsidies are extended, but not materially impact rates.

3. For PY 2023 Highmark Inc. in the individual market is paying $16.81 as an expected risk transfer pmpm (see Table 5, Cell C31) but in last year's filing the expected risk transfer for PY2022 was a receipt of $41.48. What are some of the factors that caused the swing in expectations?

Response:
Several factors caused the swing in expectations of risk transfer pmpm compared to PY2022. [redacted] We also expect the membership located in Western Pennsylvania counties to grow in 2023 as well as a shift in enrollment to richer metallic plans. Additionally, the expected risk transfer pmpm is revaluated on an annual basis due to changes in the expected population, statewide assumptions, and HHS-HCC risk adjustment model updates.

4. Please provide the historical enrollment for the year represented in the historical MLR exhibit.

Response:
Please see attachment H for 2018-2020 membership. For 2021, the average membership was 38,307.

I. General Information

Document Overview

This document contains the Part III Actuarial Memorandum for Highmark Inc.'s (Highmark) individual block of business rate filing, for products with an effective date of January 1, 2023. This actuarial memorandum is submitted in conjunction with the Part I Unified Rate Review Template.

The purpose of the actuarial memorandum is to provide certain information related to the submission, including support for the values entered into the Part I Unified Rate Review Template, which supports compliance with the market rating rules and reasonableness of applicable rate increases. This information may not be appropriate for other purposes.

This information is intended for use by the Pennsylvania Insurance Department, the Center for Consumer Information and Insurance Oversight (CCIIO), and their subcontractors to assist in the review of Highmark's rate filing. However, we recognize that this certification may become a public document. Highmark makes no representations or warranties regarding the contents of this letter to third parties. Likewise, third parties are instructed that they are to place no reliance upon this actuarial memorandum that would result in the creation of any duty or liability under any theory of law by Highmark.

The results are actuarial projections. Actual experience is likely to differ for a number of reasons, including population changes, claims experience, and random deviations from assumptions.

I.1 Company Identifying Information:

- Company Legal Name: Highmark Inc.
- State: The Commonwealth of Pennsylvania has regulatory authority over these policies.
- HIOS Issuer ID: 33709
- Market: Individual
- Effective Date: January 1, 2023

I.2 Company Contact Information:

- Primary Contact Name: [redacted]
- Primary Contact Telephone Number: [redacted]
- Primary Contact Email Address: [redacted]

II. Proposed Rate Changes

For all rate changes by plan, see the 'Cumulative Rate Change % (over 12 mos prior)' found in Worksheet 2, line 1.11 of the URRT. The rate change varies by plan due to an update in several of our pricing factors and changes in cost sharing required to meet Actuarial Value and other cost sharing restrictions under the Affordable Care Act.

The primary drivers of the rate increase are cost and utilization trend and changes to the reinsurance parameters.

In accordance with the Department's August 23, 2022 guidance, the impact of the state 1332 Reinsurance program is captured using the prescribed parameters of $60,000 attachment point, 53% coinsurance rate, and $100,000 reinsurance cap. If the final parameters should change from those described in this filing, a revised submission would be required.

Other assumptions in the filing account for the ongoing impact of the COVID-19 pandemic and the lack of Federal CSR funding. The continuation of American Rescue Plan Act (ARPA) level enhanced subsidies in the Inflation Reduction Act was considered in the rate development but no adjustment was included at this time. Finally, modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, changes in legislation/regulations (including rules, regulatory guidance, etc.), changes in the participation of QHP issuers that would materially impact risk adjustment transfer amounts, Medicaid redetermination policy impacts, or material developments in the course of the COVID-19 pandemic. As a result, Highmark reserves the right to submit a revised filing.

III. Experience and Current Period Premium, Claims, and Enrollment

III.1 Paid through Date:

Experience Period claims were based on incurred calendar year 2021, paid through February 2022. This includes 2021 experience in Affordable Care Act compliant plans. Highmark did not offer any transitional plans in 2021.

III.2 Current Date:

The current date shown represents a snapshot of February 1, 2022.

III.3 Allowed and Paid Claims Incurred During the Experience Period:

- Historical Experience: We chose Highmark's current experience for the individual block of business for the period January 1, 2021 through December 31, 2021, with claims paid through February 2022 as the basis for the 2023 projected individual market pricing.

- Claims Incurred During the 12-month Experience Period: Worksheet 1, Section I shows our best estimate of the amount of claims that were incurred during the 12-month experience period for Highmark's individual book-of-business. This section includes:

- The amount of claims which were processed through Company's claims system,
- Claims processed outside of the Company's claims system, and
- Our best estimate of claims incurred but not paid as of the paid through date stated above.

- Method for Determining Allowed Claims: For non-capitated claims, the allowed charges are summarized from the Company's detailed claim-level historical data. This experience includes 2021 claims for Affordable Care Act compliant business. For capitated and other off-system claims, historical capitations and experience were tabulated and added to the claims.

- Paid Claims: We also summarized the paid claims from detailed member records. The paid-to-allowed ratio for the experience period reflects the 2021 plan designs chosen by each member.

- Incurred but Not Paid (IBNR) Claims Estimate: The Company is using a completion factor of 0.963 to include IBNR claims in allowed charges. The IBNR completion factor was developed using our corporate reserving system for the Company's individual business. We applied it equally to both paid and allowed total claims (as a change to utilization) to complete the experience.

IV. Benefit Categories

The index rate of the experience period was summarized at the defined benefit categories included in Worksheet 1, Section II of the URRT.

The data provided in this section closely adheres to the preferred definitions of the Benefit Categories included in the URRT instructions, including the "Other Medical" category. The "Other Medical" category units reflect visits for PDN/home health, trips for ambulance and procedures for DME/prosthetics. Prescription drugs utilization were converted to a "per 30-day" script count.

V. Projection Factors

V.1 Trend Factors

This development of the CY2023 rates reflects an annual trend rate of 7.0% (4.0% cost, 2.9% utilization). These trends reflect Highmark's expectations regarding increases in in-network contractual reimbursement and out-of-network costs. These estimates measure and normalize for some of the more explainable variables such as high dollar claims, work days, provider contracting, demographics, and seasonality.

The trend represents a blended average for all types of service and is applied to the aggregate experience for pricing. These trends represent assumed community-wide expectations. Claim

variations due to the specific projected enrolled population in this single risk pool are reflected in the morbidity adjustment.

V.2 Changes in the Morbidity of the Population Insured

The Change in Morbidity adjustment of 0.989 is comprised of the following: the morbidity impact from claims experience and an adjustment to account for the impact of Covid-19. In accordance with the Department's guidance, the morbidity change related to the Reinsurance program is set to 1.000. Each of the components is described in more detail below.

The Morbidity Impact from Claims Experience

This adjustment reflects the change in the population mix/claim levels from the experience period to the projection period. We continue to observe a high degree of membership churn from year-to-year, which impacts the morbidity. This factor also takes into consideration the effects of adverse selection inherent to guaranteed issue markets. The Individual ACA risk pool continues to have a significantly higher proportion of older members with a high prevalence of chronic conditions compared to group business, which adds to the uncertainty of any future claim projections.

Covid-19 Impact

In order to account for the impact of COVID-19 on projected claim costs, the Company took the following steps:

1. Adjusted the claims in the base experience period to a non-COVID-19 baseline. This was done to stabilize the base from which claims are being projected. The base period adjustment accounts for the impacts of testing, treatment, vaccines, and deferred/rescheduled/induced care. Claims in the base experience period were decreased by a factor of 0.971 to remove the impact of COVID-19.
2. Projected claims to the projection period using trends with the impact of COVID-19 excluded. Again, this provides for a more stable projection of future claims, before applying the anticipated impact of COVID-19 in the projection period. This was accomplished by applying a trend of 7.0% (which excludes any impact from COVID-19) to our adjusted BEP claims.
3. The projected claims were then further adjusted by applying the anticipated impacts of COVID costs expected in the projection period. The following components were accounted for:
    a. COVID Testing (0.1% claims impact) – Proportional to new cases, which are assumed to diminish over time and be lower in the projection period than in previous years.
    b. COVID Treatment/Care (0.8% claims impact for Western PA & 0.7% claims impact for Central PA) – Proportional to new cases, which are assumed to diminish over time and be lower in the projection period than in previous years. Additionally, new variants are expected to be less severe.

c. Vaccines (0.5% claims impact) – Assumes insurers will cover vial cost and administration cost; however, booster utilization is expected to diminish.
d. Deferred/Rescheduled/Induced Care (-0.1% claims impact for Western PA & 0.5% claims impact for Central PA) – Includes care that didn't happen because it wasn't necessary (like ER visits), because it couldn't get scheduled (like inpatient stays when the beds are filled with COVID patients), and care that patients chose to defer (like elective procedures). For the projection period, the primary driver of avoided care is displaced non-COVID care.
e. Actuarial Judgement (-0.8% claims impact) – The Company reviewed the composite CY2023 COVID impact resulting from the components outlined above and elected to temper the adjustment in light of the inherent unpredictability of items such as deferred care and treatment costs.

The application of the above COVID claim adjustments to the rating period results in a COVID adjustment factor of 0.976.

V.3 Changes in Demographics

We project that the average rating factor (age, tobacco load and area combined) will increase by about 0.8% due to the change in the population. This is primarily due to the expectation that the new members from the group and/or uninsured populations to be slightly older than the population in the underlying experience. This increases the projected allowed claims (utilization) by the same amount.

V.4 Changes in Benefits

There is no change in benefits related to the essential health benefit (EHB) categories so the factor is set to 1.0. The cost sharing changes for the EHBs are captured in the paid to allowed ratio factors discussed in the AV and Cost Sharing Design of Plan section X.1.

V.5 Changes in Other

The 1.008 factor represents the combined impact of changes in network, induced demand, pharmacy rebates, hospital/physician settlements, and state mandates/laws (when applicable).

VI. Manual Rate Adjustments

Highmark's individual experience is fully credible. No manual rate is developed or used in this projection.

VII. Credibility of Experience

The experience is from Highmark's individual book of business in 2021. It is large enough to be fully credible. Our results are based 100% on the experience rate, as adjusted.

VIII. Index Rate

The index rates as shown on Worksheet 1 of the URRT are simply the single risk pool average allowed claims for the Essential Health Benefits for the experience and projected populations, respectively, for Highmark. For the experience period, only non-grandfathered plans are included. The projection period Index Rate is not adjusted for reinsurance or risk adjustment programs or any other fee.

IX. Market Adjusted Index Rate [MAIR]

The Market Adjusted Index Rate is the Projected Index Rate further adjusted for risk adjustment and the exchange fee.

IX.1 Projected Reinsurance PMPM

As outlined in the waiver application, the State is anticipating the Reinsurance Program will have the following parameters for 2023: an attachment point of $60,000, a coinsurance rate of 53%, and a cap of $100,000. Highmark estimated the impact of the reinsurance program under these tentative parameters by trending Highmark PA individual ACA CY2021 incurred claims by member to the CY2023 rating period, applying the parameters, and calculating the amount of incurred claims expected to be reimbursed by the program. The modeling produced an estimated incurred claims savings of 4.8%. This percentage was converted to a PMPM and adjusted to an equivalent allowed claim basis by dividing the PMPM by the paid-to-allowed factor and the composite effect of catastrophic eligibility. This amount is reflected in worksheet 1 of the URRT.

IX.2 Projected Risk Adjustment PMPM

The estimated average risk score for Highmark's projected 2023 population was developed by using Highmark's 2021 claim diagnoses and the risk adjustment coefficients as finalized in the Notice of Benefit and Payment Parameters. Similarly, actuarial value factors and induced demand factors were estimated for Highmark based upon its projected 2023 population.

We estimated the statewide average risk transfer factors based on current market assumptions. We estimated the statewide average premium using current market premium assumptions with adjustments for anticipated rate changes for 2023.

The actual calculation of the risk transfer followed the risk transfer methodology as prescribed.

The analysis resulted in Highmark paying into the risk adjustment pool. The ($19.64) PMPM value shown in worksheet 1 of the URRT is developed by taking the expected risk transfer amount plus the projected High Cost Risk Pool charge and adjusting it to an equivalent allowed claims basis by dividing it by the paid-to-allowed factor and the composite effect of catastrophic eligibility and benefits in addition to EHB.

For the purposes of this rate filing, Highmark has assumed no adjustment to the projected risk adjustment transfer for the Risk Adjustment Data Validation (RADV) program.

IX.3 Exchange User Fee %

The 2.87% value shown in worksheet 1 of the URRT is developed by multiplying the 3% exchange user fee by the assumed percentage of on exchange membership. This calculated amount is then divided by the paid-to-allowed factor to bring it to an equivalent allowed claims basis and adjusted further for the composite effect of catastrophic eligibility and benefits in addition to EHB.

X. Plan Adjusted Index Rate [PAIR]

The Plan Adjusted Index Rates can be found on line 3.10, Worksheet 2 of the URRT. The PAIR rates are calculated by applying the allowable rating factors as described below to the Market Adjusted Index Rate.

X.1 AV and Cost Sharing Design of Plan

The AV and Cost Sharing allowable rating factor is comprised of the following components:

- The utilization due to differences in cost sharing is based on the factors calculated using a methodology prescribed in the Department's guidance relative to the weighted average. No differences due to health status are in these adjustments.

- The pricing AV for the benefits and cost sharing of the plan and a CSR load for the on exchange silver plans.

Impact of Non-Payment of Cost Sharing Reduction Subsidies

In accordance with the Department's guidance, we have applied an additional adjustment to our AV pricing values for those Silver plans not offered exclusively off-exchange. This adjustment factor was 1.22 and represents the non-payment of Cost Sharing Reduction subsidies.

X.2 Provider Network Adjustment

The provider network adjustments are developed by dividing the plan level network factors by the overall weighted average from all plans.

X.3 Benefits in Addition to EHB

Non-EHB benefits have been added to several plans. Thirty plans have an adult dental and vision benefit and twenty-four plans have a hearing, OTC, and personal assistance (i.e. Papa Pals) benefit.

X.4 Administrative Expense

The proposed rates reflect internal administrative costs including quality improvement administrative expenses. This cost was developed based on standard expense allocation methods.

X.5 Taxes and Fees:

The following fees were added:

- $0.22 PMPM for Risk Transfer User Fee
- $0.26 PMPM for Patient Centered Outcomes Research Institute (PCORI) Fee
- 0.0% for the Health Insurance Provider Fee
- 0.0% for the PA Premium Tax

X.6 Profit (or Contribution to Surplus) & Risk Margin:

The profit/contingency factor is set to 0%.

X.7 Catastrophic Adjustment

For catastrophic plans, we use a 0.92 factor for the specific eligibility adjustment.

XI. Calibration

XI.1 Age Curve Calibration:

The projected weighted average age factor for billable members is 1.8983. This factor is calculated by dividing the all members age factor of 1.8969 by the ratio of billable members to total members 0.9993. The age curve calibration factor is 1/1.8983 = 0.5268.

XI.2 Geographic Calibration Factor:

The projected weighted average geographic factor is 0.9973. Each Plan Adjusted Index Rate represents the rate for an average member with a geographic factor of 0.9973. The geographic calibration factor is 1/0.9973 = 1.0027.

XI.3 Tobacco Calibration Factor:

The projected weighted average tobacco factor is 1.007. Each Plan Adjusted Index Rate represents the rate for an average member with a tobacco factor of 1.007. The tobacco calibration factor is 1/1.007 = 0.9931.

XI.4 Consumer Adjusted Premium Rate Development:

The calibrated plan adjusted index rate represents the base rate for an age factor of 1.0, geographic rating factor of 1.0 and tobacco rating factor of 1.0. Thus, the approximate premium for a specific member can be derived by multiplying this rate by the HHS age curve

factor, the rating area factor on Worksheet 3 of the URRT, and the appropriate tobacco factor. Please note that this method will only produce approximate rates due to URRT rounding constraints.

XII. Projected Loss Ratio

The projected loss ratio for 2023 using the federally-prescribed MLR methodology is 92.7%.

XIII. AV Metal Values

The AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based the Federal AV Calculator. Some plans did require an adjustment to the inputs entered into the AV calculator. Screen shots and certifications for these plans were submitted as part of Highmark's QHP application. Per CMS's guidance, a dummy AV Metal Value was applied to any terminated plans that fell out of the new de minimis range.

XIV. Membership Projections

Membership projections reflect Highmark's expectations for 2023. These projections reflect expected changes in market share due to market competition, relative price levels, and changes in plan offerings (where applicable).

Highmark expects membership in 2023 to follow a similar metal level distribution as the Individual ACA experience period in the markets where plans will continue to be offered.

For the Silver level plans, the projected membership by cost sharing subsidy levels is based on the observed distribution of ACA members that were eligible under the federal poverty levels as determined by the federal health insurance exchange. The projected enrollment by plan and subsidy level is as follows:

CSR Silver Plan Membership Distribution			
FPL	**Subsidy Level**	**% of Silver Membership**	**% of Total Membership**
<150%	94%	34.8%	7.2%
150%-200%	87%	47.0%	9.7%
200%-250%	73%	5.5%	1.1%
>250%	70%	12.7%	2.6%
Total		100.0%	20.6%

XV. Terminated Plans and Products

Plans in the 2021 experience period that will no longer be available in 2023 can be found in Exhibit I.

Highmark also has some plans that were offered only in 2022 (not offered in the experience period or in the projection period). These plans are shown in Exhibit I.

XVI. Plan Type

The Plan types listed in Worksheet 2, Section I of the Part I Unified Rate Review Template describe Highmark's plans adequately.

XVII. Actuarial Certification

I, [redacted], am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. All statements in this actuarial certification are accurate to the best of my knowledge and understanding. This filing is prepared in compliance with applicable Actuarial Standards of Practice. In completing this filing, I relied on data/information from other sources which was reviewed for reasonableness. This filing is prepared on behalf of Highmark to accompany its rate filing for the Individual Market on and off the Pennsylvania Exchange.

I hereby certify that the projected index rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102),
- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

I certify that the index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.

I certify that the AV Calculator was used to determine the AV Metal Values shown in Worksheet 2 of the Part I Unified Rate Review Template for all plans. The AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based on the Federal AV Calculator. If any adjustments were required outside of the AV Calculator, appropriate certification has been provided to CMS through the QHP application process.

I certify that the geographic rating reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The Part I Unified Rate Review Template does not demonstrate the process used by Highmark to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for Federally facilitated exchanges and for certification that the index rate is developed in

accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

2023 Rates Table Template v12.0	*All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.*				
	If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.				
	If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.				
	If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.				
	To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.
