Pennsylvania Actuarial Memorandum

Notable Changes from 2023

Market Entrance:

- Highmark Health Insurance Co. will be offering coverage in the 5 county area, Pennsylvania Region 8. Highmark Health Insurance Co. did not offer ACA coverage in 2023, so all plans are new. There are no prior year rates to compare to in 2023. However, HHIC did have a small number of ACA members in 2022, outside of Region 8. While the data for those members has been placed in the experience section of data templates, it has been assigned credibility of 0% due to the different rating area and small volume. Manual data was derived from market experience.

1. Basic Information and Data

A. Company Information (Table 0)

Table 0 has been completed as per the instructions. Please refer to the Excel file "2024 PA Actuarial Memorandum Rate Exhibits_SEPA_07142023" submitted with this filing containing the department's required tables. General information pertaining to this rate filing is summarized below:

- Company Name: Highmark Health Insurance Co. ("HHIC", "Company")
- NAIC #: 71768
- HIOS Issuer ID: 70194
- State: Pennsylvania
- Market: Small Group
- Rating Area: Pennsylvania Rating Regions 8
- Effective Date: 1/1/2024
- SERFF Rate Filing #: HGHM-133672062

This filing assumes that there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market subsequent to the filing date, and that there are no significant changes in the participation of QHP issuers that would materially change the company's expected liabilities. This filing also assumes that transitional plan coverage will be available in the Pennsylvania Small Group market through 2024. Modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, repeal or invalidation of the ACA. As a result, HHIC reserves the right to submit a revised filing.

B. Rate History and Proposed Variations in Rate Changes

The most recent three years of historical rate changes in the Pennsylvania Small Group Market for the Company are as follows:

Period	Avg. Increase	SERFF ID#
2023	N/A	N/A
2022	4.4%	HGHM-132830955
2021	-0.9%	HGHM-132380665

The rate changes vary by plan due to changes in the allowable plan level base rate components (pricing actuarial factors, geographic rating factors, network discounts, and administrative charges). These components are re-evaluated each year to keep pace with market changes and changes in health care costs. For 2024, the Company's proposed rate revisions vary by plan according to the detail presented in the URRT, Worksheet 2, and the PA Rate Template Table 10.

C. Average Rate Change

As HHIC is newly offering products in 2024, there are no 2023 rates to compare to in order to have a rate change.

D. Membership Count (Table 1)

Table 1 has been completed according to the instructions with the average age, age breakdown and total number of members or member months, as indicated in the table. For the 2/1/2023 data, this table reflects all the Company's Small Group ACA enrollment, which is comprised solely of members on groups that renewed in 2022.

E. Experience Period Claims and Premium (Table 2)

Please see Table 2 for the experience period data for the most recent calendar year, for the Company and Market. The experience period paid claims data represents the 2022 calendar year results for all Affordable Care Act compliant policies in the single risk pool, with run out through February, 2023 (2 months). This data is consistent with the data reported in Section I of Worksheet I of the URRT (see below commentary). As per the 2024 ACA Rate Filing Guidance, transitional policy experience was not included in either the Table 2 or Table 4 data.

The components of this exhibit were developed as follows:

- The Earned Premium represents actual revenues earned in the experience period.
- The Allowed Claims represent the Company's best estimate of the total claims prior to member cost sharing incurred during the experience period. The Allowed Claims include:
    - Two months of run out from the end of the experience period,
    - Claims processed outside of the Company's claims system (e.g., settlements), and
    - The Company's best estimate of claims incurred but not paid as of the end of the run-out period.

  Note that the Incurred Claims and Allowed Claims presented in the URRT are net of the Prescription Drug Rebates on their appropriate basis, while Table 2 has the Prescription Drug Rebates separately identified and grossed up by the experience period paid to allowed ratio. As

per the URR instructions, Allowed Claims do not include reinsurance recoveries or pooling charges, nor do they include quality incentive payments.

- Prescription Drug Rebates are used to reduce the level of Incurred Claims in the experience period. However, for entry into Table 2, the Prescription Drug Rebates are grossed up by the experience period paid to allowed ratio since they are ultimately used to reduce allowed claims. This allows for the Table 2 results to feed into Table 5 without adjustment, but it does cause the calculated loss ratio in Table 2 to be slightly mis-stated.
- There are no non-EHB benefits or costs in the experience period.
- The EHB coverage for pediatric vision benefits are provided by the Company's vision coverage vendor under a capitation arrangement. These costs are $0.46 PMPM uniform across each member in the experience period and are reflected in Table 2 under the Total EHB Capitation section, where the capitation rate that the Company actually paid is grossed up by the experience period paid to allowed ratio, to get the capitations on an allowed claims basis. This further causes the calculated loss ratio in Table 2 to be slightly mis-stated.
- The Estimated Risk Adjustment represents the Company's best estimate of the year end risk adjustment transfer payment that the Company will incur based on the results in the experience period.
- The calculated loss ratio is 62.27%. This number is slightly below the actual loss ratio due to the adjustments to prescription drug rebates and capitations described above.

F. Credibility of Data (Tables 2b, 3b, 4b)

The Company has employed 0% credibility due to the different rating area and small volume of the experience data as described in the market entrance section at the beginning of this memorandum.

G. Trend Identification (Table 3)

Table 3 identifies the annual medical and prescription drug allowed claims cost and utilization trends, as requested by the Pennsylvania Insurance Department. The definitions of service categories, cost, and utilization in Table 3 are consistent with the URRT instructions. The numbers entered in the Cost and Utilization columns are consistent with those entered in Worksheet I, Section 2 of the URRT.

The trend rates from 2022 to 2023 was selected based on market experience. The trend from 2023 to 2024 was selected within the range of other Highmark Inc. rating regions.

H. Historical Experience (Table 4)

Table 4 presents the most recent 48 months (4 calendar years) of Company data with run-out through February 2023. Paid and allowed claims are sourced from detailed claim records. The data in table 4 excludes capitations, settlements, and other claims paid outside of the system since that data is not considered in developing trend assumptions. The claim add-ons excluded are projected independently. The Table 4 data matches the data in Table 2 if the claim add-ons are added in.

2. Rate Development & Change

A. Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims (Table 5)

The development of the Projected Index Rate, Projected Market-Adjusted Index Rate, and Projected Total Allowed Claims, shown in Table 5, closely follows that utilized in the development presented in Worksheet 1 of the URRT, a discussion of which can be found in the Part III Actuarial Memorandum submitted in the Rate Filing Justification.

Since detailed small group experience is not available to the Company, and the Company is relying on market experience in aggregate, the following factors are set equal to 1.000:

- Change in Morbidity
- Change in Demographics
- Change in Network
- The Change in Benefits
- Change in Other

The development of the Projected Paid to Allowed Ratio shown in Table 5 is presented in the "2024 Supplemental Exhibits - SEPA_06212023.xlsx" file in the "Table 5 Paid-to-Allowed" worksheet. This value is consistent with the paid-to-allowed ratio in the URRT Worksheet 2, line 4.15 Incurred Claims, divided by line 4.11 Allowed Claims.

Table 5 reflects that the Company is assuming a Projected Risk Adjustment payable in the projection period of $4.00 PMPM. To more appropriately reflect the inherent uncertainty in what mix of business HHIC will sell, and the risk thereof, as it enters this new market, we assume that the Projected 2024 Risk Adjustment Transfer PMPM will be $0 PMPM.

The ($4.00) PMPM value in cell C31 of Table 5 equals the $0 PMPM risk adjustment transfer value discussed above, along with a charge of $4.00 PMPM for the projected net impact of the High Cost Risk Pool program. Please note that the risk adjustment user fee is captured in the taxes and fees portion of administrative costs. The development of the final Table 5 Risk Adjustment PMPM is also shown in the supporting exhibit.

The Projected Paid Exchange User Fees are developed from the Exchange user fees to be charged by CMS in 2024, multiplied by the percentage of business the Company expects to purchase Market coverage through the Exchange for this Company. For this Company, all business will be offered Off Exchange in 2024, so there are no Exchange User Fees charged in the rate development.

Small Group Quarterly Rates

For this Small Group Market filing, Table 5A has been completed, showing the estimated number of member months renewing by quarter, and the quarterly Single Risk Pool Projected Allowed Claims. For

this filing, quarterly rates are proposed, equal to the annual trend from 2023 to 2024 as seen in URRT Worksheet I.

b. Retention Items (Table 6)

Table 6 has been completed with the requested retention elements for the proposed rates for the rating period. The administrative expenses and taxes and fees presented in the rate development in Table 6 cell C53 equal the Taxes and Fees in Table 10.

Administrative costs reflect internal costs that the Company is projected to incur in the projected experience period, and are developed from standard expense allocation methods. Agent/broker fees and commissions reflect the Company's anticipated costs for these items in the experience period.

The development of internal administrative costs utilizes an allocation of Company costs back to lines of business. The allocation method uses measurable stats such as claims worked, inquiries worked, contracts, and members to allocate the majority of expenses. When possible, expenses are direct charged if they can be identified by product instead of going through an allocation method. For corporate allocations, a TCI (total costs incurred) methodology is generally used to allocate by product.

Administrative expense loads vary by plan to more appropriately capture the costs associated with plan administration. The total administrative costs anticipated by the Company have been split such that each plan receives a PMPM administrative load, along with a percent of premium administrative load. This methodology results in percent of premium expense loads that vary by plan.

The following Taxes and Fees were included in the rate development:

- $0.29 PMPM for the PCORI Fee
- $0.21 PMPM for the Risk Adjustment User Fee
- 2% of premium for the PA premium tax

Note the following regarding plan level retention items:

- The rate development reflects a 0% profit and risk load for all products and plans. The Company has voluntarily refrained from including a profit and risk load in this filing. By this voluntary action, the Company is not waiving any right to include a profit and risk load which the Company believes is consistent with historical and legal interpretations of the Company and the Department.
- Expenses for Quality Improvement Initiatives are estimated to be 7% of internal Company expenses, based upon historical analysis of these costs.

c. Normalized Market-Adjusted Projected Allowed Total Claims (Table 7)

The normalization factors presented in Table 7 are each determined from the underlying membership demographics expected in the projected rating period. The 2024 values represent the Company's projection for 2024 assumed in the 2024 rate development.

The Age Factor is the weighted average of the Age Factors for the project ACA book of business.

The Geographic Calibration Factor is the weighted average of the Area Factors, weighted by the projected membership in each rating area.

The Tobacco Surcharge is not applicable since the Company does not use one.

d. Components of Rate Change (Tables 8 and 9)

Since the Company did not have small group ACA rates in 2023, only the information for 2024 is listed. There is no rate change.

3. Plan Rate Development (Table 10)

Table 10 showing the plan rate development has been completed following the instructions in the 2024 ACA Rate Filing Guidance. This table shows the plans that the Company intends to offer in 2024. The calibrated plan adjusted index rates for 2024 and 2023, and all the supporting factors, are calculated according to the instructions.

Each plan takes the Market Adjusted Index Rate and multiplies by the Pricing AV, Benefit Richness Factor, Benefits in Addition to EHB Factor, Provider Network Factor, Catastrophic Eligibility Factor, and Non-Funding of CSR Adjustment Factor (not applicable to Small Group) in order to calculate the Pure Premium. The Pure Premium is then grossed up to account for expenses (Admin Costs, Taxes & Fees, and Profit or Contingency) in order to calculate the Calibrated Plan Adjusted Index Rate.

Note that the HHS Actuarial Value Calculator was unable to accommodate all of the Company's benefit designs. Plans needing certification are marked in column I of Table 10. Screen shots of all of the AV calculations and the appropriate certifications are included as a separate attachment within the *Supporting Documentation* section in SERFF.

The requested Induced Utilization Exhibit was completed and is presented within the "2024 Supplemental Exhibits – SEPA_07142023" file submitted with this filing (worksheet named "Induced Utilization"). Note that the calculated Induced Utilization factor in Column (9) is a component of the Actuarial Value Allowable Modifier. As such, it is adjusted by the Average Benefit Richness normalization factor of 1.10. In multiplying the Induced Utilization column (9) result by the Average Benefit Richness normalization factor, the result is the Induced Utilization factor appropriate for the plan's metal level (before normalization). These induced demand factors are consistent with the methodology described in the Department's rate filing guidance, which utilizes each plan's actuarial value to establish the appropriate induced demand factor for the plan.

The member- and network-weighted average of the pure plan-level Induced Utilization factors in the last column of the induced utilization exhibit against the projected membership does match the 1.000 expectation of the Department. This calculation can be seen at the bottom of the Induced Utilization Exhibit, where the formulas used in the calculation have been retained.

4. Plan Premium Development for 21-Year-Old Non-Tobacco User (Table 11)

Table 11 presents the Company's 21-year-old non-tobacco premium in the Market for each rating quarter in 2024.

5. Plan Factors

A. Age and Tobacco Factors (Table 12)

Please see Table 12 for the Company's age and tobacco factors.

B. Geographic Factors (Table 13)

Please see Table 13 for the Company's geographic factors.

C. Network Factors (Table 14)

Please see Table 14 for the Company's network rating factors.

D. Service Area Composition

The Company follows the Rating Area designations created by the state. All counties within a Rating Area are serviced by the Company, according to the Rating Areas specified in Table 14. The Company has submitted its proposed 2024 service area in the file "Pennsylvania Counties Map - 2024 Filings - HHIC.pdf" submitted with this filing.

E. Composite Rating

The Company is currently not planning to use CMS's composite rating method for any of its off-SHOP plans offered during the rating period.

F. Connectivity Factors

The product filing does not have connectivity features.

6. Actuarial Certifications

I, _____, am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of the Company to accompany its rate filing (for calendar year 2024) for the Small Group Market off the Pennsylvania Exchange.

I hereby certify that the projected Index Rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102)
- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered

- Neither excessive nor deficient.

I certify that the Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.

I certify that all factor, benefit and other changes from the prior approved filing have been disclosed in the actuarial memorandum.

I certify that any new plan is not a modification of an existing plan (per the uniform modification standards in 45 CFR 147.106).

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

I certify that the AV Calculator was used to determine the AV Metal Values shown in Part I of Worksheet 2 in the URRT for all plans.

The Unified Rate Review Template does not demonstrate the process used by the Company to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of Qualified Health Plans for Federally-facilitated Exchanges, and for certification that the Index Rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

I certify that the information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2024 Rate Filing Justification.

9. Public Health Emergency

a. **With the Public Health Emergency expected to end on May 11th, how has the rate development been affected? Please provide support for any adjustments, or support for making no adjustments, if applicable.**

HHIC agrees Covid has become an endemic contagion and is not planning for future surges in care. While the cost of vaccines will shift from the Federal government to insurance carriers, covid testing will be covered as other medical tests, allowing cost sharing. Given these offsetting factors, Highmark has not made an adjustment to pricing related to Covid.

b. **Furthermore, with the Public Health Emergency scheduled to end on May 11th, has any adjustment been made specifically to the morbidity assumption for Plan Year 2024?**

No adjustment has been made specifically to the morbidity assumption for Plan Year 2024.

c. **Please provide commentary on how the Company believes services such as COVID vaccinations and COVID testing will be handled in PY24. Within your response please clarify if these services will be considered preventative and covered at 100%.**

The Company is following the below assumptions:

- COVID Vaccines
  - INN – preventative
  - OON – follows OON cost share design of the plan
- Testing (Diagnostic/Antibody)
  - Defaults to cost share design of the plan for lab services
  - Occupational testing is excluded/not covered
  - OTC tests are not covered

10. MLR Exhibit

a. **Please complete table below which summarizes the most recent three years of complete MLR information.**

   i. **Actual is the final information which was filed for the specified calendar year**

   ii. **Pricing is the information which was projected in the final annual filing for the given year (i.e., 2020 pricing information is from the plan year 2020 annual filing submitted in 2019)**

	MLR		Member Months	
Calendar Year	**Actual**	**Projected**	**Actual**	**Projected**
2019	74.3%	88.1%	4,647	3,840
2020	79.6%	85.4%	4,081	4,392
2021	94.7%	89.1%	3,670	4,164

b. **Are the MLRs and Member Months between Actual and Pricing comparable? If not, explain.**

Please note that the values in the Projected columns above come from the Pennsylvania Actuarial Memorandum exhibits for the referenced pricing year (Tables 5, 6, and 10). The Actual results shown are from the URRT Worksheet 1 values from the pricing year in which the referenced calendar year is the base experience period. Since the URRT Worksheet 1 Actual values represent

calendar year results, while the Pricing values represents policy year estimates, variations between these two amounts are expected.

c. **Does the insurer expect to pay MLR rebates for the 3-year period above?**
No. The Company does not expect to pay MLR rebates for the 3-year period above.

11. Plan of Withdrawal

a. **Please confirm that a Plan of Withdrawal has been submitted if any plans are being discontinued.**
No plans were offered in 2023, so there are no plans being discontinued.

I. General Information

Document Overview

This document contains the Part III Actuarial Memorandum for Highmark Health Insurance Company ("HHIC", "Company") Small Group block of business rate filing ("Filing"), for products with effective dates in calendar year 2024. This actuarial memorandum is submitted in conjunction with the Part I Unified Rate Review Template.

The purpose of the actuarial memorandum is to provide certain information related to the submission, including support for the values entered into the Part I Unified Rate Review Template, which supports compliance with the market rating rules and reasonableness of applicable rate increases. This information may not be appropriate for other purposes.

This information is intended for use by the Pennsylvania Insurance Department, the Center for Consumer Information and Insurance Oversight (CCIIO), and their subcontractors to assist in the review of HHIC's Filing. However, we recognize that this certification may become a public document. HHIC makes no representations or warranties regarding the contents of this letter to third parties. Likewise, third parties are instructed that they are to place no reliance upon this actuarial memorandum prepared by HHIC that would result in the creation of any duty or liability under any theory of law by HHIC or its employees to third parties.

The results are actuarial projections. Actual experience is likely to differ for a number of reasons, including population changes, claims experience, and random deviations from assumptions.

II. Proposed Rate Changes

Please refer to the Pennsylvania Actuarial Memorandum and Exhibits submitted with this filing for a breakdown of the component items driving this rate change for first quarter renewals.

As HHIC is newly offering products in 2024, there are no 2023 rates to compare to in order to have a rate change.

This filing assumes that there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market subsequent to the filing date, and that there are no significant changes in the participation of QHP issuers that would materially change the company's expected liabilities. This filing also assumes that transitional plan coverage will be available in the Pennsylvania Small Group market through 2024. Modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, repeal or invalidation of the ACA. As a result, HHIC reserves the right to submit a revised filing.

III. Experience and Current Period Premium, Claims, and Enrollment

III.1 Paid through Date:

Experience period claims were based on incurred calendar year 2022, paid through February 2023. This experience includes 2022 experience in Affordable Care Act compliant plans. HHIC's transitional plan experience for 2022 has not been included in the experience period data.

III.2 Current Date:

The current date used for enrollment and premium is February 2023.

III.3 Allowed and Incurred Claims Incurred During the Experience Period:

- Historical Experience: The URRT historical experience section was completed with HHIC's current experience for the small group block of business for the period January 1, 2022 through December 31, 2022, with claims paid through February 2023.
- Claims Incurred During the 12-month experience period: Worksheet 1, Section I shows the Company's best estimate of the amount of claims that were incurred during the 12-month experience period for HHIC's small group book-of-business. This section includes:

- The amount of claims which were processed through the Company's claims system,
- Claims processed outside of the Company's claims system (Rx rebates, settlements, capitated benefits), and
- The Company's best estimate of claims incurred but not paid as of the Paid through Date stated above.

- Method for Determining Allowed Claims: For non-capitated claims, the allowed charges are summarized from HHIC's detailed claim-level historical data. This experience includes 2022 claims in Affordable Care Act compliant plans. HHIC's transitional plan experience for 2022 has not been included in the experience period data. For capitated and other off-system claims, historical capitations and experience were tabulated and added to the claims.

- Paid Claims: Paid claims were summarized from detailed member records. The paid-to-allowed ratio for the experience period reflects the underlying benefit plan designs chosen by each member.

- Incurred but Not Paid (IBNR) Claims Estimate: HHIC's estimate of the remaining incurred but not recorded (IBNR) claims reflects the anticipated IBNR as of the end of the paid claim run out period. The IBNR completion factor of 0.963 was developed for HHIC's total small group business through analysis of historical claim completion factors. The completion factor was applied equally to both paid and allowed total claims (as a change in utilization) to complete the experience.

IV. Benefit Categories

Experience period claims data were pulled from the Company's claims systems and categorized into benefit category components according to types of services associated with each claim. The resulting categories closely adhere to the preferred definitions of the Benefit Categories included in the URRT instructions, including the "Other Medical" category. The "Other Medical" category units reflect visits for PDN/home health, trips for ambulance and procedures for DME/prosthetics. The "Capitation" category represents the monthly charge paid to the Company's Vision benefit provider for covering pediatric vision benefits.

V. Projection Factors

V.1 Trend Factors (cost/utilization)

As HHIC did not offer ACA coverage in 2023 and the small number of members in 2022 are located in a different rating region, HHIC has relied on market experience for the trend rate from 2022 to 2023. The trend from 2023 to 2024 was selected within the range of other Highmark Inc. rating regions.

V.2 Morbidity Adjustment

Since detailed small group experience is not available to the Company, and the Company is relying on market experience in aggregate. The Morbidity Adjustment is set equal to 1.000.

V.3 Demographic Shifts

Since detailed small group experience is not available to the Company, and the Company is relying on market experience in aggregate. The Demographic Shift factor is set equal to 1.000.

V.4 Plan Design Changes

Since detailed small group experience is not available to the Company, and the Company is relying on market experience in aggregate. The Plan Design Change factor is set equal to 1.000.

V.5 Other Adjustments

Since detailed small group experience is not available to the Company, and the Company is relying on market experience in aggregate. The Other Adjustment factor is set equal to 1.000.

VI. Manual Rate Adjustments

Since HHIC has no experience in rating region 8 and had minimal membership in 2022, HHIC is assigning 100% credibility to the Manual data. Manual data was derived from market experience.

VII. Credibility of Experience

Since HHIC has no experience in rating region 8 and had minimal membership in 2022, HHIC is assigning 100% credibility to the Manual data.

VIII. Establishing the Index Rate

The index rates as shown on Worksheet 1 of the URRT are simply the average allowed claims for the Essential Health benefits for the experience and projected populations, respectively, for HHIC. It is not adjusted for the risk adjustment program or any other fee. For the projection period, it is the member-weighted average of the quarterly rate indices (Jan 1, Apr 1, Jul 1, and Oct 1) based on the assumed membership distribution effective in each quarter, as shown in the table below.

2024	% of Members	Projected Quarterly Index Rate PMPM
1Q	40%	$574.59
2Q	10%	$582.03
3Q	10%	$591.58
4Q	40%	$600.26
Composite	100.0%	$587.40

See the sections below for a description of how the projected index rate is adjusted to arrive at each plan adjusted index rate.

IX. Development of the Market-wide Adjusted Index Rate

The Index Rate developed from the market experience is then adjusted for Reinsurance, Risk Adjustment, and Exchange User Fees in URRT Worksheet I as indicated below.

IX.1 Reinsurance

HHIC does not have any reinsurance contracts in effect that would impact this rate development. The consideration for the federal high-cost risk pooling program is discussed in the following Risk Adjustment Payment/Charge section.

IX.2 Risk Adjustment Payment/Charge

As the Company has no current enrollment in Rating Region 8, the Company To reflects the inherent uncertainty in what mix of business HHIC will sell, and the risk thereof, as it enters this new market, by assuming the Projected 2024 Risk Adjustment Transfer PMPM will be $0 PMPM.

For 2024, the Company is projecting a risk adjustment transfer amount of ($4.29) PMPM. The ($4.29) PMPM value in Worksheet 1 of the URRT equals the $0 PMPM risk adjustment transfer value discussed above, along with a charge of $4.29 PMPM for the projected net impact of the High Cost Risk Pool program.

IX.3 Exchange User Fees

The projected Exchange User Fees are developed from the Exchange user fees to be charged by CMS in 2024, multiplied by the percentage of business the Company expects to purchase Market coverage through the Exchange for the Company. For the Company, all business will be offered Off Exchange in 2024, so there are no Exchange User Fees charged in the rate development.

X. Plan Adjusted Index Rates

The Plan Adjusted Index Rates can be found on line 3.10, Worksheet 2 of the URRT. The Plan Adjusted Index Rates are calculated by applying the allowable rating factors as described below to the Market-wide Adjusted Index Rate. Please see Exhibit II for the development of the Plan Adjusted Index Rate for each plan.

X.1 AV and Cost Sharing Design of Plan

The AV and Cost Sharing allowable rating factor is comprised of the following components:

- The utilization due to differences in cost sharing is based on the factors calculated using a methodology prescribed in the Department's guidance relative to the weighted average. No differences due to health status are in these adjustments.
- The pricing AV for the benefits and cost sharing of the plan.

X.2 Provider Network Adjustment

The provider network adjustments are developed by dividing the plan level network factors by the overall weighted average from all plans.

X.3 Benefits in Addition to EHB

Only the expected costs of essential health benefits (EHB) are included in each of the Company's plans.

X.4 Administrative Expense

The proposed rates reflect internal administrative costs, including commissions and quality improvement admin. This cost was developed based on standard expense allocation methods, as follows:

- Administrative expenses are recorded in the general ledger. Indirect operating expenses are then grouped based upon like functions, responsibilities or cost drivers and allocated to final cost objects via an appropriate cost driver.

Administrative expense loads vary by plan to more appropriately capture the costs associated with plan administration. The total administrative costs anticipated by the Company have been split such that each plan receives a PMPM administrative load, along with a percent of premium administrative load. This methodology results in percent of premium expense loads that vary by plan.

X.5 Taxes and Fees

The following taxes and fees were included in the 2024 rate development:

- $0.29 PMPM for the PCORI Fee
- $0.21 PMPM for the Risk Adjustment User Fee
- 2% of premium for the PA premium tax

In total, these taxes and fees amount to 2.1% of the anticipated premium collected in 2024.

X.6 Profit & Risk Load

The proposed rates reflect 0% of premium as a profit and risk load. The Company has voluntarily refrained from including a profit and risk load in this filing. By this voluntary action, the Company is not waiving any right to include a profit and risk load which the Company believes is consistent with historical and legal interpretations of the Company and the Department.

XI. Calibration

XI.1 Age Curve Calibration (to age 21, non-smoker, area with 1.0 geographic factor, January 1 effective date)

The projected weighted average age factor is 1.23. Each Plan Adjusted Index Rate represents the rate for an average member (i.e., a member with an age factor is 1.23). Please note that no member will pay these rates because the age factor of 1.23 is not found on the HHS Age Curve. It only represents the average age factor of the projected population. Please see Exhibit I for the development of the calibration factor, which calibrates the index rate to an Age 21 age factor. The Age Calibration Factor shown in URRT Worksheet 2 is the inverse of weighted average age factor, which for HHIC is 0.813.

XI.2 Geographic Factor Calibration

The projected weighted average geographic factor is 1.000 as it is the only geographic factor for the HHIC small group ACA filing.

XI.3 Tobacco Use Rating Factor Calibration

The Company does not currently utilize tobacco rating factors.

XII. Consumer Adjusted Premium Rate Development

The Calibrated Plan Adjusted Index Rate shown in URRT Worksheet 2 represents the rate for a non-smoker member with a 1.0 age factor and 1.0 geographic factor for a 1/1/2024 renewal. The appropriate value to calibrate the Plan Adjusted Index Rate by is located at the bottom of Exhibit I. By applying the 'Combined Calibration Factor' found in Exhibit I or the calibration factors in 3.11, 3.12 and 3.13 of URRT Worksheet II Section III to the Plan Adjusted Index Rates, the resulting value will represent the plan premium for a 21 year old in a 1.0 area on 1/1/2024. The standard HHS Age Curve and area factor of 1.000 can be used to calculate any rate found in the QHP rate template.

The Company is filing quarterly Index Rate trends that vary by quarter. Subsequent quarterly rates can be developed by multiplying the first quarter rates by 1.000, for second quarter rates 1.015; 1.030 for third quarter rates; and 1.045 for fourth quarter rates. Please refer to the Pennsylvania Actuarial Memorandum submitted with this filing for additional commentary related to the development of these quarterly Index Rate trends.

XIII. Projected Loss Ratio

The anticipated medical loss ratio reflected in this annual rate change filing is 86.2% relative to total premium less taxes and fees. This loss ratio is calculated consistent with the federally prescribed MLR methodology.

XIV. AV Metal Values

The AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based the Federal AV Calculator. Some plans did require an adjustment to the inputs entered into the AV calculator. Screen shots and certifications for these plans were submitted as part of the Company's QHP application.

XV. Membership Projections

New business anticipated in HHIC will come primarily from current ACA customers. As HHIC has no current ACA members, it is expecting growth in the projection period. See line 4.9 of the URRT Worksheet 2 to see projected membership by plan.

XVI. Terminated Plans and Products

HHIC had no small group ACA products in 2023 to terminate.

XVII. Plan Type

The Plan types listed in Worksheet 2, Section I of the Part I Unified Rate Review Template describe the Company's plans adequately.

XVIII. Actuarial Certification

I, _____, am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of HHIC to accompany its rate filing (for calendar year 2024) for the Small Group Market off the Pennsylvania Exchange.

I hereby certify that the projected Index Rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102);
- Developed in compliance with the applicable Actuarial Standards of Practice;
- Reasonable in relation to the benefits provided and the population anticipated to be covered;
- Neither excessive nor deficient.

I certify that the Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.

I certify that the AV Calculator was used to determine the AV Metal Values shown in Part I of Worksheet 2 in the Unified Rate Review Template for all plans. If any adjustments were required outside of the AV Calculator, appropriate certification has been provided to CMS through the QHP application process.

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The Part I Unified Rate Review Template does not demonstrate the process used by HHIC to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of Qualified Health Plans for Federally-

facilitated Exchanges and for certification that the Index Rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

Product Name: **HHIC Small Group 2024 ACA Rate Filing**

RE: Highmark Health Insurance Company, Small Group PPO, ACA Filing for PY2024
Pennsylvania Insurance Department ID #: HGHM-133672062
Objection Letter Status: Disapproved
Objection Letter Date: 06/09/2023
Respond By Date: 06/21/2023
Response Date: 06/21/2023

Below please find our responses to the Highmark Health Insurance Company (HHIC, "Company") Small Group 2024 ACA Rate Filing Objection Letter dated 06/09/2023. For convenience, the questions have been reproduced below, with our responses immediately following each question.

A supplemental exhibits file has been submitted along with this response. Please see the file named "PID Response Exhibits HHIC 06212022.xlsx," which contains additional exhibits and supplemental detail, as referenced in the below responses.

1. Please describe the manual data and the experience data used in development in the index rate.

a. Describe the experience data that was used to populate the PA Rate Tables. Please specify if the data was adjusted for COVID.

b. In the 'Market Entrance' section of the Actuarial Memorandum, it is stated that the manual is derived from Market experience. Please describe the market experience in detail that was used for developing the index rate. If the data was adjusted for COVID, specify where that was entered in the PA Rate Exhibits.

Response:

The experience data, while not relevant to PA Region 8 pricing, is the actual 2022 ACA small group experience for HHIC. It was given credibility of 0%. The 209 members are not located in Region 8.

CONFIDENTIAL

The manual data is 2021 experience data from the 2023 ACA small group rate filings for the 5 county PA Region 8. The 2021 data was trended forward to 2022. Detailed data for the monthly and service category data requests are not available. No adjustments were made for COVID. It is assumed to be endemic, as it was in the other PA regions filed by Highmark in 2023.

2. Section 1H of the PA Actuarial Memorandum indicates trend selection was based on market experience. Please provide a detailed quantitative exhibit displaying the development of the trend assumptions shown in Table 3 of the Rate Exhibits. Additionally, please provide support for the approach of assuming that the medical and pharmacy trends should be equal to one another (i.e., instead of assuming separate medical and pharmacy trends).

Response:

The 2022 to 2023 trend of 3.0% was selected to be in line with Region 8 small group ACA rate increases. The trend from 2023 to 2024 of 6.0% is similar to Highmark trends in the rest of PA.

3. Please provide a detailed quantitative exhibit displaying the development of the Company-specific average PLRS, ARF, GCF, ID, AV, and premium PMPM assumptions underlying the projected 2024 risk adjustment transfer, as shown in Table 5 of the Rate Exhibits.

Response:

Please read the response to question 12 then see "PID Response Exhibits HHIC 06212022.xlsx" tab "Q3 RA".

4. The risk adjustment user fee is $0.21 based on the 2024 Benefit Payment Parameters as released by CMS. Table 6 of the Rate Exhibits is presenting this amount as $0.18. Please adjust the value in Table 6 to match the risk adjustment user fee of $0.21.

Response:

Table 6 has been adjusted to match the actuarial memorandum. Please see question 12 about exhibits.

5. Please provide the assumed distribution channel mix to quantitatively demonstrate the underlying retention assumption for broker and commission fees supporting the amounts presented in Table 6 of the Rate Exhibits.

CONFIDENTIAL

Response:

The assumptions are 70% will be sold through a Retail Producer, 30% through a General Producer with members per contract of 1.96.

6. Please provide a demonstration for the projection period that the underlying assumptions meet the Federally prescribed MLR guidelines.

Response:

As seen in tab "II Rate Development & Change" of the provided PAAM exhibits, the projected 2024 MLR is $446.89/$536.18 = 83.3% which is above the 80% threshold.

7. Please provide an exhibit demonstrating the development of the pricing AV shown in column K of the PAAM Exhibits Table 10. Provide the calculation for each of the plans with projected membership in 2024.

Response:

The Company has an internal proprietary continuance table-based model to assist in development of the projected paid/allowed ratios. The company's model is dependent on claim-line detail derived from our small group population along with the benefit information for each plan. Beyond the model outputs, the Company reviews the results and applies actuarial judgement to determine the final plan level projected paid/allowed ratios used within this rate filing.

8. Please confirm that you have tested to ensure that the rates in Table 11 of the PAAM Exhibits, PA Plan Design Summary and Rate Table, Federal Rates Template, and binder are identical.

Response:

The Company confirms that they thoroughly test the rates of each rate filing submission to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, Federal Rates Template, and binder are identical.

CONFIDENTIAL

9. Based on Section 2b of the PA Actuarial memorandum on page 5, the PCORI Fee used is $0.29. Based on Table 6 of the PAAM Exhibits, the PCORI Fee used is $0.26. Please explain why these numbers are different or update so that they are consistent.

Response:

Table 6 has been adjusted to match the actuarial memorandum.

10. In the PAAM Exhibits, the projected Paid-to-Allowed Ratio used is .825. In the Supplemental Exhibits, the Paid-to-Allowed Ratio supported is .8289. Please explain why the numbers are different.

Response:

The Paid-to-Allowed Ratio provided in the Supplemental Exhibits ties to Worksheet II of the URRT and is calculated based off total projected paid and allowed amounts. The Paid-to-Allowed Ratio in the PAAM Exhibits is an average of each plan's Pricing AV, weighted by projected membership. How each calculation is weighted is the cause of the difference. The Paid-to-Allowed ratio that can be calculated at the plan level in the Supplemental Exhibits matches the plan level Pricing AVs in the PAAM Exhibits.

11. In the Supplemental Exhibits, please explain why cell I85 of the Induced Utilization tab only uses rows 10 through 65?

Response:

This has been corrected in "PID Response Exhibits HHIC 06212022.xlsx" tab Q11. Cell I85 value remains 1.000.

12. The values in Column L of Table 10 of the PAAM Exhibits agree with the prescribed induced demand formula, but don't appear to be normalized. Please explain why these values weren't normalized.

Response:

We agree this should be normalized. Region 8 manual data was reviewed to set this factor. Through the review we also saw the projected membership by metal level driving risk adjustment projections was similar to regions other than 8, skewed toward richer plans where Region 8 is flatter across metal levels. Therefore, risk adjustment has been

CONFIDENTIAL

reduced and a supporting exhibit provided as requested in question 3. The net of these changes, along with tweaks from questions 4, 9, and 14 is a minor decrease in rates, which varies by plan. If this is acceptable updated versions of affected documents will be submitted.

13. The Department is interested in the issuer's estimate of the drivers of the rate change, in particular, what portion of the indicated rate change from Table 11 is due to changes in various components such as reinsurance (individual market only), utilization trend, unit cost trend, expenses, morbidity, benefits, risk adjustment, or other relevant factors?

Response:

N/A

14. Please explain why the value in cell C32 of the II Rate Development & Change tab of the PAAM Exhibits is $0.21.

Response:

This value has been zeroed out.

15. Per the URRT, Worksheet 2, Member Cost Sharing (cell D28) is equal to $326,275.32. However, per the PAAM Exhibits, Table 2, Estimated Cost Sharing (Member and HHS) (cell F36) is equal to $379,797.64. Please explain the discrepancy or update so that these numbers are consistent.

Response:

Member Cost Sharing in URRT Worksheet 2 includes a decrease for Rx Rebates and an increase for Capitation, but the Estimated Cost Sharing (Member and HHS) in PAAM Exhibits Table 2 does not include adjustments for Rx Rebates or Capitation.

16. Per Table 2 of the PAAM Exhibits, Estimated Cost Sharing (Member and HHS) (cell F36) is equal to $379,797.64. However, in Table 4 of the PAAM Exhibits, the Estimated Annual Cost Sharing (Member + HHS) for 2022 (column I) is $442,405.23. Please update so that these numbers are consistent or provide and explanation explaining the difference.

CONFIDENTIAL

Response:

The Estimated Cost Sharing (Member and HHS) in Table 2 of the PAAM Exhibits includes increases for settlements processed outside the Company's claims system, as well as a decrease for Other Party Liabilities, but the Estimated Annual Cost Sharing (Member + HHS) in Table 4 of the PAAM Exhibits does not include these adjustments.

Re: Highmark Health Insurance Company (HHIC) 2024 ACA Rate Filing (Small Group Market)
HHIC Filing # 1A-SG-HHIC-2023 (SERFF Filing # HGHM- 133672062)

Dear Ms. Swartz:

This letter accompanies the Company's response to the Department's data call request from July 7, 2023 to identify any changes made to the Highmark Health Insurance Company (HHIC) (NAIC # 71768; HIOS Issuer ID # 70194) Small Group Market Off Exchange ACA rates and the supporting rate development for policies with effective dates on or after **January 1, 2024**. In response to the Department's data call, the Company has made the following revisions to its filing:

- The 2022 experience period risk adjustment amount in Table 2 has been updated to reflect the CMS risk adjustment amount released on June 30th
- Risk Adjustment has been updated to more appropriately reflect the inherent uncertainty in what mix of business HHIC will sell, and the risk thereof, as it enters this new market; we assume that the Projected 2024 Risk Adjustment Transfer PMPM will be $0 PMPM.

Should you have any questions regarding the attached Filing, please feel free to contact me at (412) 544-0185 or via e-mail at: nicholas.sarneso@highmark.com.

Sincerely,

Nicholas Sarneso, FSA, MAAA

Highmark Health Insurance Company's Response to Objection Letter Dated 07/07/2023

Product Name: **HHIC Small Group 2024 ACA Rate Filing**

RE: HM Health Insurance Company- HHIC, Small Group ACA Filing for PY2024
Pennsylvania Insurance Department ID # HGHM-133679914
Objection Letter Status: Disapproved
Objection Letter Date: 07/07/2023
Respond By Date: 07/14/2023
Response Date: 07/14/2023

Below please find our responses to the Highmark Health Insurance Company (HHIC, "Company") Small Group 2024 ACA Rate Filing Objection Letter dated 07/07/2023. For convenience, the questions have been reproduced below, with our responses immediately following each question.

A supplemental exhibits file has been submitted along with this response. Please see the file named "PID Response Exhibits HHIC 07142023.xlsx," which contains additional exhibits and supplemental detail, as referenced in the below responses.

1. Please provide a detailed quantitative exhibit displaying the development of the trend assumptions of 3.0% for 2022 to 2023 and 6.0% for 2023 to 2024. Additionally, please provide support for separate medical and prescription drug trends. Please adjust Table 3 and Table 3b of the PAAM Exhibits to reflect the separate medical and prescription drug trends. Additionally, please consider varying the medical trend by service category.

Response:

HHIC does not operate in the small group ACA market in region 8; as such, there is not a detailed quantitative exhibit to share. The referenced small group region 8 market experience from 2022 to 2023 had approved rate increases near 0% but trends in those filings near 6%. A figure in the middle was selected, 3%. From 2023 to 2024, the 6% used in the approved 2023 filings was similar to current Highmark small group experience in other regions, so it was selected.

2. Please provide a detailed quantitative exhibit that displays by filling in the table below for the projection period that the underlying assumptions meet the Federally prescribed MLR guidelines.

Category		PMPM	% of Premium
Incurred Claims	[a]	$ 444.01	82.2%
Expenses Related to Quality Improvement	[b]	$ 3.64	0.7%
Risk adjustment payment/(receipt)*	[c]	$ 4.00	0.7%
Numerator	**[d]=[a]+[b]+[c]**	$ 451.64	83.6%
Earned Premiums	[e]	$ 540.11	100.0%
State & Federal Taxes	[f]	$ 10.80	2.0%
Licensing and Regulatory Fees	[g]	$ 0.50	0.1%
Denominator	**[h]=[e]-[f]-[g]**	$ 528.80	97.9%
Projected Federal MLR	**[i]=[h]/[d]**		85.4%

*Enter as a positive amount if the Carrier is anticipated to be a payer. Enter as a negative amount if the Carrier is anticipated to receive a risk adjustment payment.

3. Please discuss why there were no adjustments made for COVID, either implicitly or explicitly in the experience period or in the projection period.

Response:

As Covid progressed through 2020 and 2021, it proved difficult to project with accuracy. We do know Covid will not go away completely. We also know vial cost of vaccines will switch from being paid by the Federal government to health plans. We suspect some care will continue to return from either fear of disease or staffing shortages. We also expect Covid admits being at a lower level in 2024 than 2022, though treatments continue to be developed that weren't available in 2022. That could result in lower or higher cost depending how often the treatments are used, how effective they are, and how much they cost. With offsetting changes that are uncertain in magnitude, the Highmark small group pricing team has chosen not to treat Covid differently than other diseases and to instead include it in the general trend process.

4. Please update the 2022 experience period risk adjustment amount, in Table 2, to reflect the final CMS risk adjustment amount released on June 30th.

Response:

The 2022 experience period risk adjustment has been updated to reflect the final CMS risk adjustment amount released on June 30th.

5. If the projected risk adjustment transfer amount in Table 5 will be modified, due to the final CMS transfer amount published on June 30th, please provide narrative and detailed supporting data to justify the proposed changes.

Response:

Consistent with the opening paragraph of the actuarial memorandum, the small membership volume and location of the membership outside region 8, resulted in the experience not being relied upon to set risk adjustment.

6. Please confirm that you have tested to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, and Federal Rate Templates are identical.

Response:

The Company confirms that they thoroughly test the rates of each rate filing submission to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, Federal Rates Templates are identical.

7. Please ensure that the 7/14/23 versions of the following items are posted in SERFF with your July 14th response to this data call.

a. Cover Letter identifying all changes made and the reasons for the change. Also, show the revised rate change.

b. PA Actuarial Memorandum

c. PA Actuarial Memorandum Exhibits

d. Department's Plan Design Summary and Rate Template Exhibits (please ensure that the rate template by county is populated with only numeric values – no "NA")

e. URRT

f. Federal Rate Template

g. Part III: Actuarial Memorandum

h. Public PDF with limited redactions as previously directed in the Guidance (includes all correspondence and supporting exhibits after the initial submission, in addition to all the above items).

Response:

SERFF has been updated with the 7/14/23 versions of the items above.

8. Please explain further why the Projected Incurred Risk Adjustment PMPM in cell C31 of Table 5 of the PAAM Exhibits was changed from $27.19 to $1.16.

Response:

Please see the response to Question 14.

9. In the file "2024 PA Actuarial Memorandum Rate Exhibits_SEPA_062123.xlsm" submitted 6/22/2023 on the Supporting Documentation tab in SERFF, plans 15, 30, 45, 60, and 75 fail the De Minimus Check in column BA of Table 10. Based on the Binder submission and the file "2024 PA Actuarial Memorandum Rate Exhibits_SEPA_051723.xlsm" submitted on 5/17/2023, it looks like these should be Expanded Bronze plans. If this is correct, please select the Expanded Bronze option from the drop-down list in column G of Table 10. If this isn't correct, please explain.

Response:

This discrepancy has been corrected as described.

10. Please provide brief descriptions of the networks listed in Table 14 of the PAAM Exhibits and support for the network factors.

Response:

The network factors reflect contractual rates and mix of providers by county.

CONFIDENTIAL

11. The membership included in Table 1 is unclear based on the wording in the memo. Please confirm that the membership included in Table 1 on the Data tab in PAAME is SG HHIC membership only.

Response:

The membership included in Table 1 on the Data tab in PAAME is SG HHIC membership only.

12. Please confirm that the 209 members listed in cell D18 of Table 1 of the PAAM Exhibits are small group rollover members from PY22 plans.

Response:

The 209 members listed in cell D18 of Table 1 of the PAAM Exhibits are small group rollover members from PY22 plans.

13. Please provide quantitative support for the Projected HCRP Premium Charge % (cell E21) used in the file "PID Response Exhibits HHIC 06212022.xlsx" submitted on the Supporting Documentation tab in SERFF.

Response:

The projected HCRP Premium Charge % was developed using estimates provided by our external actuarial consultant.

14. Based on the updated projected membership in column W in Table 10 of PAAME and the CMS prescribed metallic AVs by metal level, HHIC's average actuarial value that should be compared against the state average actuarial value is 0.779. Please revise your risk adjustment exhibit to reflect this AV for HHIC, or provide a detailed quantitative exhibit that supports the 0.804.

Response:

The original Projected Incurred Risk Adjustment PMPM of $27.19 in cell C31 of Table 5 of the PAAM Exhibits was calculated assuming that the projected Risk Adjustment formula factors for HHIC would generally mirror those of the aggregate PA Small Group Market metrics of all Highmark Companies for Benefit Year 2022. The vast majority of PA Small Group Market membership in Highmark companies during Benefit Year 2022

was in Gold and Platinum plans; however, the distribution of enrollment in Region 8, particularly in the PPO products HHIC proposes to sell, includes more silver and bronze membership. As such, the projected enrollment in HHIC was revised to include a greater proportion of silver and bronze membership relative to the original filing submission. The HHIC PLRS was reduced accordingly, based on the new distribution of membership between metal levels. These changes culminated in the revised Projected Incurred Risk Adjustment PMPM in cell C31 of Table 5 of the PAAM Exhibits of $1.16. We agree that it would have been appropriate to concurrently revise the AV factor used by HHIC to .779, using the calculation described in the question above. After making this correction, we noted that the AV for HHIC is the same as that for the entire PA Small Group Market. Further, the ARF, GCF, and IDF for HHIC are all very close to the entire PA Small Group Market, while the PLRS for HHIC appears aggressive by comparison. Given the proximity of the HHIC factors to the entire PA Small Group Market, and to more appropriately reflect the inherent uncertainty in what mix of business HHIC will sell, and the risk thereof, as it enters this new market, we have adjusted the HHIC Risk Adjustment factors to be at the same level as the entire PA Small Group Market. This change results in a Projected 2024 Risk Adjustment Transfer PMPM of $0 PMPM. The revised Projected Incurred Risk Adjustment PMPM in cell C31 of Table 5 of the PAAM Exhibits is ($4.00), which is wholly reflective of the anticipated HCRP % of premium charge.

15. Please provide a version of the Q3 RA tab from the file "PID Response Exhibits HHIC 06212022.xlsx" submitted on 6/21/2023 that supports the original Projected Incurred Risk Adjustment PMPM $27.19.

For the entire PA Small Group Market, assumptions (a)-(f) and (i), excluding (d), are derived from the Statewide PA Small Group Market metrics included in Wakely's market simulation based on the final RATEE results for the 2022 Benefit Year; (d) is assumed to be 1.0 for the entire PA Small Group Market.

For HHIC, assumption (a) is based on internal company projections. Assumptions (b)-(f) are assumed to be equivalent to the PA Small Group Market; this results in a Risk Adjustment Transfer of $0 PMPM, which more appropriately reflects the inherent uncertainty in what mix of business HHIC will sell, and the risk thereof, as it enters this new market.

RE: HM Health Insurance Company- HHIC, Small Group ACA Filing for PY2024
Pennsylvania Insurance Department ID # HGHM-133679914

Dear Scott Waller:

The Pennsylvania Insurance Department has received and conducted a preliminary review of the above captioned filing. In order to complete the review, we are requesting the following information. To facilitate a timely review, we request this information be provided July 21, 2023. If you have any questions or difficulties in providing the data within this time frame, please contact me.

1. Please confirm the threshold member months at which the Company consider to be fully credible.

Response: The Company has employed a credibility methodology consistent with ASOP #25 to determine the appropriate level of credibility to be assigned to the base experience period data. The assigned credibility level has been determined by referencing published studies from the Society of Actuaries (SOA), most notably "A Practical Approach to Assigning Credibility for Group Medical Insurance Pricing," as well as utilizing actuarial judgment in consideration of the Company's base experience period and projection period computations. Employing the conclusions confirmed in the referenced SOA study, the Company has established a full credibility threshold of 2,000 average members for the experience period. As the average members from the experience period membership is nearly 175,000 in the manual data, full credibility has been assigned to the manual data.

2. Please explain why it is appropriate to use rating area 8 trends for 2022 to 2023, but small group market trends for 2023 to 2024.

Response: As discussed in the prior Q&A the 3% trend from 2022 to 2023 is a blend of the 0% approved rate increases and the 6% claims were trended in rate buildups. For 2023 to 2024 approved rate increases are not know yet, leaving past region 8 trends as well as trend rates and increases in other parts of PA as data points. 6% is a reasonable representation of all 3.

3. Please describe development and provide a detailed exhibit displaying the underlying assumptions of the development of the Pricing AVs as shown on Table 10.

Response: The Company has an internal continuance table-based model to assist in development of the projected paid/allowed ratios. The company's model is dependent on claim-line detail derived from our entire Delaware small group population along with the benefit information for each plan. Delaware was selected as services that could be used in multiple settings (inpatient, outpatient, professional) is believed to be most representative of what Highmark will experience in Region 8 in 2024. Beyond the model outputs, the Company reviews the results and applies actuarial judgement to determine the final plan level projected paid/allowed ratios used within this rate filing.

4. Please justify the High-Risk Pool estimate of $4.00 PMPM.

Response: The Projected Net High-Cost Risk Pool PMPM estimate of ($4.00) is equal to the sum of the Projected HCRP Premium Charge PMPM of ($4.00) and the Projected HCRP Receipts PMPM of $0.00. The Projected HCRP Premium Charge Percentage for BY24 provided by our external consultant was 0.69%. Internal modeling of the HCRP Premium Charge Percentage, which takes into consideration the historical trend of the charge percentage, supported a charge percentage closer to 0.80%. A charge percentage between these two estimates was selected, which was 0.74%. The Projected HCRP Receipt PMPM is equal to the receipt PMPM for the family of Highmark PA companies in the Small Group Market for BY22, which was $0.00 PMPM.

5. Please explain why it is appropriate to assume a $0.00 PMM for 2024 projected risk adjustment payment.

Response: Being the manual experience is based on SG ACA Region 8 claims, it's reasonable to assume risk adjustment would be similar to region 8 results. In both 2021 and 2022 Highmark estimates Region 8 risk adjustment was near 0%. Also, in the absence of any knowledge, the state average of 0% risk adjustment would be the assumption. To the extent actual claims vary from expected, it's reasonable risk adjustment would move with it, making 0% an appropriate starting point.

Please be advised that there may be additional questions based on the responses to the above. Towards this end, please provide complete detailed and thorough responses including supporting data and narrative.

Response to this request should be provided via SERFF in Microsoft Excel spreadsheets. Please retain all formulas.

Upon receipt of your responses to the above requested data, the Department will continue to review your filing. Please note that there may be additional questions and/or requirements as the Department conducts a more in-depth review.

Should you have any questions regarding this correspondence, please contact me at mhibbert@pa.gov.
