Project Description	<p>This project will provide institutional aid to students of the greatest need at Pennsylvania State System Universities. These universities can most directly respond to the negative impact the pandemic has had on low income populations by providing institutional aid for reducing the cost of tuition, fees, room, and board. This directly supports students' opportunities for success by addressing the students' financial barriers. A university's best measure of financial need is the Expected Family Contribution (EFC) provided through the Free Application for Federal Student Aid (FASFA). The EFC takes into consideration family size, income, and assets.</p> <p>Please Note – The “Status to Completion” above is based on the percent expended, whereas the “Project Start Date” and “Project End Date” above are based on the first and last obligation or expenditure. Capital Expenditure Justification

outdoor spaces post-pandemic. The surge in public participation highlights the urgent need for improved recreation and conservation infrastructure. By developing, rehabilitating, and repairing these assets, Pennsylvania can create lasting benefits for current and future outdoor enthusiasts, address immediate community needs, and ensure the resilience of its natural areas. This funding reflects a commitment to making transformative and enduring improvements to our state’s outdoor environments.

A capital expenditure makes sense for the State Parks and Outdoor Recreation Grant Program, because Act 54 of 2022 requires that the Commonwealth to provide grants to eligible entities for projects that plan, educate the public of, acquire, develop, rehabilitate or repair of various outdoor public spaces (including but not limited to greenways, recreational trails, open space, natural areas, river corridors, access to riverfronts, watersheds, community parks, recreational facilities, community conservation / beautification, and heritage areas).

Act 54 of 2022 specifies designated uses for funds, creating constraints on pursuing alternative capital expenditures. Given greater flexibility, two potential options could have been explored:

- The Commonwealth could have conducted a comprehensive needs assessment of outdoor public space improvements statewide, and through this study, determined the best way to spend the capital funds.
- The Commonwealth could have contracted out the work of putting together a needs assessment of outdoor public space improvements statewide, and through this study, the contractor could have determined the best way to spend the capital funds.

While these alternatives present advantages such as expert guidance and a statewide perspective, upon consideration of Act’s requirements neither alternative serves to have an immediate impact on statewide outdoor resources.

Furthermore, the alternatives fail to recognize that local entities are in the best position to identify and prioritize the needs of their area. The chosen option aligns with the program goals of community involvement and empowerment. The decision to focus on direct grants to eligible entities was made to ensure a participatory approach that fosters local ownership and tailored solutions for Pennsylvania’s diverse outdoor spaces.

What is the Total expected capital expenditure, including pre-development costs, if applicable	\$10,632,630.00
Type of capital expenditures, based on the following enumerated uses	Technology and tools
Capital Expenditure Justification	<p>This project funds the implementation of a new Student Information System and is critically needed to improve the delivery of education and monitor student success, which was negatively impacted by the COVID-19 pandemic. In this case, a capital expenditure is appropriate because an investment in cloud software technology is necessary in order to renew and strengthen the information technology infrastructure; and standardize the student information system software across the PASSHE universities.</p> <p>Alternative capital expenditures include continuing to invest in upgrades to an aging system or outsourcing the enrollment, student billing and financial aid functions. Both of these options would impede the University's ability to collaborate with the other PASSHE universities to provide a seamless educational experience to our students.</p>

Project Description	<p>The Commonwealth’s Low-Income Household Energy Assistance Program (LIHEAP) provides three types of benefits for low-income households. It provides LIHEAP Cash, a one-time benefit to help reduce the household’s energy costs; LIHEAP Crisis, a benefit for households who are without heat or in danger of being without heat; and LIHEAP Crisis Weatherization, which provides heating system replacement and repair for households without heat. The \$21.25 million in SLFRF funds were used exclusively for the LIHEAP Cash grants benefit and assisted 54,873 households. This in turn freed up existing federal funding to assist LIHEAP Cash and Crisis households more fully and resulted in the commonwealth extending its LIHEAP season by an additional two weeks. The LIHEAP Cash grants maximum benefit was \$1,000.</p> <p>Please Note – The “Status to Completion” above is based on the percent expended, whereas the “Project Start Date” and “Project End Date” above are based on the first and last obligation or expenditure. Project Description	<p>PA Act 24 of 2021 appropriated \$282 million to the Department of Human Services for Long-Term Living Programs. Nursing facilities and personal care homes were greatly affected by the pandemic - experiencing employment loss, unexpected medical, cleaning, and infrastructure costs, expensive policy and operating changes, etc. This SLFRF funding will assist providers with covering applicable expenses incurred as a result of the pandemic. Per Pennsylvania state law, project funds are divided as follows: - \$198 million for nursing facilities based on MA days of care - \$49 million for nursing facilities based on total occupancy - \$27 million for personal care and assisted living residences based on occupancy - \$3 million for personal care and assisted living residences based on the number of residents who receive social security income payments</p>

	<p>- \$5 million for any provider to improve indoor air management systems</p> <p>Please note: In previous quarters, this project data was included within PA1 (the commonwealth's Revenue Replacement project).
