Pennsylvania
Department of Corrections

2025 Closure Report

September 17, 2025

Respectfully Submitted by Dr. Laurel R. Harry
Secretary, Pennsylvania Department of Corrections

Introduction:

Since 2012, the Department of Corrections' incarcerated population has steadily declined from a high of over 51,000 to its current number of approximately 38,000. After assessing post-pandemic incarceration trends and the impacts of two key pieces of legislation aimed at expanding access to diversionary treatment options, the Department finds that it has excess capacity. As a result, the Department recommends closing facilities to save taxpayer dollars, to reduce high levels of overtime, and to reduce the cost of significant maintenance on facilities that are not needed.

The Public Safety Facilities Act (Act 133 of 2018) outlines the process for ensuring the Department gathers and considers stakeholder feedback when considering facility closures. Over the past seven months, the Department's Steering Committee solicited, obtained, and analyzed information from impacted communities, elected officials, Commonwealth agencies, our staff, and the inmate population.

In selecting facilities for proposed closure, the Department's Steering Committee considered the availability of alternate job opportunities for staff, potential cost savings, the reduction of significant future capital expenses, economic impacts on local communities, and staff, inmate, and public safety. In the event of a closure, the Department will guarantee a job offer to all affected staff at their existing pay and classification.

Resource Evaluation and Mission Alignment Project (REMAP):

The Department was one of three agencies selected to participate in a first-year budgeting program, known as REMAP, that seeks to promote a data-driven, evidenced-based approach to budgeting. REMAP ensures that taxpayer dollars are directed to programs that deliver measurable results and advance the Commonwealth's objectives. The process required the agency to self-evaluate the following areas:

- Program Alignment – are Department functions consistent with our mission and statutory mandates?
- Gap Analysis – what mission goals and statutory mandates is the Department unable to meet?
- Program Modification Assessment – how could programs be modified to enhance efficiencies and use of resources?
- Program Divergence and Realignment – do programs diverge from the Department's mission and statutory mandates?

Through the REMAP process, the Department identified areas where the agency could be more efficient with its resources. It also laid the groundwork for the Steering Committee's work, including an update to the Master Facility List[1] (MFL) in anticipation of a closure consideration.

[1] The Master Facility List (MFL) is an internal Department report that maintains critical details regarding each facility, such as, overall expenditures, maintenance conditions and needs, utility costs, personnel data, retirement eligibility, population data, facility challenges and special accommodations. This document provides an at-a-glance comparison of equally weighted criteria across all Department facilities. This document is utilized to guide proposals for facility closures.

The analysis includes such measures as personnel costs, operating costs, cost per inmate, recent and future capital upgrades, long-term contract requirements, total personnel, total prison populations, facilities within 65 miles,

Steering Committee's Proposal:

After gathering and reviewing essential information such as the MFL, population reports and strategic planning documentation from Carter Goble Lee (CGL) Companies, the Steering Committee formally convened on January 21, 2025, and met four times before formally delivering its proposal to Secretary Dr. Laurel Harry on February 7, 2025. The committee weighed whether closures were appropriate, which facilities to propose for closure, and the reasons in support of and weighing against proposed closure decisions. The proposal recommended the closure of the State Correctional Institution at Rockview and the Quehanna Boot Camp.

The Steering Committee's proposal was accepted on February 7, 2025, and announced pursuant to the Public Safety Facilities Act on February 10, 2025 (Attachment A). In conjunction with the announcement, the Department requested information, analysis, and feedback from internal and external stakeholders to inform the conclusions in this report.

Steering Committee Transparency:

The Department closely adhered to the framework outlined in the Public Safety Facilities Act throughout the process. The Public Safety Facilities Act precludes preferential notice to any individual or entity, requiring notification to all parties when closure of a public safety facility is reasonably proposed. The information collected and analyzed during the process is not final until the delivery of this report. Sharing deliberative information before it was analyzed in full scope of all information considered could lead to confusion or misinterpretation. Moreover, some of the information reviewed contains sensitive details about facility infrastructure, potential deficits, security apparatus, and personally identifying information that could create a public safety or privacy risk.

Information requested and released through the Right-to-Know-Law (RTKL) and Request for Information (RFI) process is appended to this report in Appendix A. Likewise, letters sent in response to inquiries from the Fraternal Order of Police (FOP) and Pennsylvania State Corrections Officers Association (PSCOA) are appended as illustration of the Department's willingness to engage and provide information. Finally, after the public hearings and information gathering concluded, the Department responded to questions and comments on May 7, 2025, providing an opportunity for public examination prior to the finalization of this report.

Information relied upon for this report is redacted only where sensitive security details or protection of personally identifying information was included.

Bargaining Unit Engagement:

Following the proposal announcement, Human Resources (HR) staff engaged with all employee bargaining units with the intent to reach pre-decisional agreements in the event of a closure. HR sent draft agreements and requested to begin discussions with PSCOA, American Federation of State, County, and Municipal Employees (AFSCME), Correctional Institution Vocational Education Association (CIVEA), Service Employees International Union, Local 668 (SEIU 668), and Service Employees

specialized programs, housing units, medical programs, infirmaries, facility conditions, challenges, as well as natural disaster risk and mitigation procedures.

International Union, Health Care Pennsylvania (SEIU HCPA). As of this report, HR had discussions with all labor organizations.

Steering Committee Information Gathering:

Following the announcement of the proposed closures, the Steering Committee immediately sought input from relevant internal and external stakeholders. The committee also coordinated activities to ensure compliance with the Public Safety Facilities Act. Relevant undertakings included:

- Meeting with Department Bureaus and Offices to request essential factors the committee would be required to consider and recommendations to ensure continuity of services, if closures occur.
- Meeting with Commonwealth agencies to request information required by the Act and additional relevant information.
- Holding public hearings in Clearfield and Centre counties.
- Reviewing stakeholder feedback received through the public comment line and email account.
- Engaging collective bargaining units in pre-decision placement planning if closures were to occur.

Key outcomes of these activities are highlighted below. Information required by the Public Safety Facilities Act, including transcripts from the public hearings, are appended to this report.

Department Bureau/Office Considerations:

On February 11, 2025, members of the Steering Committee met with directors of the Department's Bureaus and Offices to review the closure proposal and request relevant factors that the committee would be required to consider if the proposed closures occurred. Significant outcomes included:

- A complete assessment and inventory of functional supplies, such as security, food service and information technology equipment, along with the conditions, to determine what can be repurposed or maintained in surplus.
- Three 50-bed male and one 50-bed female State Drug Treatment Program (SDTP) Therapeutic Communities would need to be relocated, if Quehanna Boot Camp closed.
- The Boot Camp (BC) program traditionally draws younger participants who may be eligible for special education services. If Quehanna Boot Camp closed, then the BC program would need to be relocated to a facility employing a certified special education teacher.
- Quehanna Boot Camp's freshwater wells and wastewater plant serve PennDOT and Game Commission buildings, as well as Nydree Flooring Company. Operations would need to continue if the facility were to close.
- SCI Rockview's specialized mental health unit populations would need to be integrated into existing units at other facilities or relocated.
- Outbuildings on SCI Rockview property would require switch-over to SCI Benner Township's phone system at a cost of approximately $450,000 if closure of this facility occurred.

Commonwealth Agencies:

In conjunction with the announcement of its proposal to close Quehanna Boot Camp and SCI Rockview, the Department requested information from relevant Commonwealth agencies to assess the impacts of potential closure of each facility. The Department held a meeting with Commonwealth agencies on

February 19, 2025, to cover the type of information required under the Public Safety Facilities Act, to establish a conduit for information requests, and to share previous reports provided pursuant to the 2020 closure of SCI Retreat. The Department requested Commonwealth agencies provide their reports and assessments by April 4, 2025. Summaries of the information received are provided below. Full reports are contained in Appendix B.

Pennsylvania State Police (PSP):

The PSP reviewed the closure proposal and found no adverse impact with regard to the delivery of law enforcement services, and no potential impact to public safety.

Pennsylvania Parole Board (Board):

The Board reviewed the closure proposal and found no material impact on Board staff or parole/recommitment decisions. The Board does not have paroling jurisdiction over the releases from Quehanna Boot Camp. In all other institutions, parole interviews and hearings are conducted via video conferencing, ensuring the flexibility to ensure timely decisions.

Office of Administration (OA):

The OA reviewed the closure proposal and will continue to work with Department staff and unions representing the workforce at the facilities being reviewed for closure. If a closure occurs, the OA will work with the Department to ensure compliance with the Commonwealth's furlough policy and will provide formal notice of the potential for furlough to each union to ensure compliance with the applicable contracts/memoranda of understanding. The OA will negotiate side letters with the affected unions on behalf of the Department, outlining the extra-contractual placement and recall process deemed necessary by the parties. The OA will provide direct support to both the Department and those employees impacted by a closure.

Department of General Services (DGS):

The Department of Conservation and Natural Resources (DCNR) holds the title to the property of the Quehanna Boot Camp and is ultimately responsible for any future use or disposition of the property. DGS is available to assist the Department if there is a decision to officially surplus the SCI Rockview property. The property could potentially be disposed of in one of four ways:

1. **Direct Conveyance** - a sale to a specific named entity, in coordination with state elected officials. This method of disposition requires legislative authorization.
2. **Direct Conveyance to a Redevelopment Authority** - provided the project fits within the parameters that can be undertaken by a redevelopment authority. This method is considered in coordination with local elected officials.
3. **Invitation to Bid** – a competitive process where DGS promotes the availability of the property and selects the highest responsible bidder. This method of disposition requires legislative authorization.
4. **Solicitation for Proposals with Review Committee** – a sealed, competitive bid process that includes a review committee involving local and elected officials. This method of disposition requires legislative authorization.

Department of Community and Economic Development (DCED):

DCED submitted its overview of the local economic effects for each proposed facility closure. Changes in the economy were assessed under the assumption that all jobs would be lost. The actual economic impact of a facility's closure would occur in proportion to the value of lost income for local vendors and the number of employees—and their households— who would either relocate for new jobs or remain in the area with reduced income from lower paying jobs. Because the Department intends to make a job offer to all employees, it is anticipated that the worst-case estimates within the report would be mitigated.

- SCI Rockview – from a macro view, DCED's assessment identified the following significant potential impacts:
    - In addition to the 658 employees, the facility's operations and the household spending of its workers who live in the county are estimated to support an additional 295 jobs in Centre County.
    - The local economy may experience up to $5.8 million in lost annual payments to local vendors.
    - It is estimated that up to $167,000 in local economic activity could be lost annually for each employee that moves from the area.
- Quehanna Boot Camp – from a macro view, DCED's assessment identified the following significant potential impacts:
    - In addition to the 234 employees, the facility's operations and the household spending of its workers who live in the county are estimated to support an additional 99 jobs in Clearfield County.
    - The local economy may experience up to $1.1 million in lost annual payments to local vendors.
    - It is estimated that up to $190,000 in local economic activity could be lost annually for each employee that moves from the area.

Department of Labor and Industry (L&I):

L&I's Center for Workforce Information & Analysis (CWIA) conducted an economic impact analysis under three scenarios, with the primary worst-case assumption that each job would be lost.

The Department held a follow-up meeting with representatives from L&I on April 16, 2025, to clarify and contextualize the contents of the report. While the report highlighted significant potential job losses, some of those projections were not directly related to the loss of correctional jobs. Representatives of the Department's Steering Committee were advised that the forecasts within the report were generated by an economic modeling program that considers historical trends. The program's analysis provided estimates associated with the loss of a government enterprise and the results were not specifically tailored to losses associated with closing a correctional facility. Nevertheless, the fundamental assumption with the model was that every job at each of the facilities would be lost.

As stated within L&I's report and affirmed during discussions, because the Department intends to offer affected staff a position within 67 miles of the facilities, the economic impact considered within the scenarios would be greatly improved.

During the most recent closure of SCI Retreat in 2020, only one staff member was furloughed due to their personal circumstances and refusal to accept a placement offer. Based on observed trends during previous closures, the assumptions within the L&I report are anticipated to be mitigated significantly.

Department of Human Services (DHS):

DHS reviewed the potential impacts of the closure proposal and found no indication of impact on DHS operations and the agency had no other relevant input.

Department of Environmental Protection (DEP):

DEP assessed the potential impacts of a closure of SCI Rockview and Quehanna Boot Camp with respect to the following environmental programs:

- Air Quality Program:
    - SCI Rockview: In July 2025, DEP issued a state-only air quality permit to DOC for SCI Rockview following the DOC's change from coal-fired to natural gas-fired boilers at the facility. The permit covers the boilers in addition to a number of other smaller sources of air contamination. The permit has a term of 5 years but can be extended. If DOC shuts down the sources, it and any subsequent owner should comply with the requirements of 25 Pa. Code § 127.11a so that the sources could be reactivated within 10 years without permitting them as a new source. Any transfer of the permit will require the filing with DEP of an application for an administrative amendment of the permit. The permit can be terminated if all of the regulated sources are rendered permanently inoperable.
    - Quehanna Boot Camp: This facility does not have an air quality permit or other air quality authorization from DEP.
- Safe Drinking Water Program:
    - SCI Rockview: DOC operates a regulated Community Water System at SCI Rockview that serves SCI Rockview, SCI Benner Township and, as the DEP recently discovered, customers in the village of Peru. The water is provided to Peru through an unpermitted interconnection operated by the Benner Township Water Authority. DEP is addressing this unpermitted interconnection with the Benner Township Water Authority. If the closure of SCI Rockview results in changes to the drinking water treatment and distribution systems, the DOC will need to seek a construction permit from DEP.
    - Quehanna Boot Camp: DOC operates a regulated Community Water System at Quehanna Boot Camp. DOC can terminate the authorization if the DOC will no longer serve water here. DOC can transfer the permits through a written request to DEP.

- Waste Management Program:
    - SCI Rockview: DOC is listed as a residual waste generator at this facility, but DOC has no authorizations or open compliance issues.
    - Quehanna Boot Camp: Not applicable.
- Clean Water Program:
    - SCI Rockview: Sewage from SCI Rockview is conveyed by the Spring Benner Walker Joint Authority to Bellefonte Borough's wastewater treatment plant. DOC does not have any separate permitting from DEP for sewage treatment or disposal. DEP is not aware of any impacts to the pumping stations or treatment plant that would result from a reduction in sewage flow if SCI Rockview is closed.
    - Quehanna Boot Camp: DOC operates a permitted sewage treatment plant at the Quehanna Boot Camp with a permitted discharge of effluent. DOC will need to continue to file monthly discharge monitoring reports with DEP even after DOC stops its operation of the Boot Camp. DOC can terminate the permits if DOC is closing the sewage treatment plant, but a closure plan will first need to be submitted for DEP approval.
- Waterways and Wetlands Program:
    - SCI Rockview: DOC operates a regulated dam on the drinking water reservoir. DOC will need to continue to maintain and operate the dam in accordance with its permit until the reservoir is transferred to a new owner.
    - Quehanna Boot Camp: Not applicable.
- Storage Tanks Section, Environmental Cleanups and Brownfields Program:
    - SCI Rockview: DOC owns five regulated aboveground storage tanks and Univar Solutions owns one regulated aboveground storage tank at SCI Rockview. If the tanks are no longer going to be used and are emptied and secured, DOC and Univar should submit registration forms to DEP registering the regulated aboveground tanks as temporarily out of service within 30 days after temporary closure. Permanent closure will require notice to DEP and a Pennsylvania-certified tank installer/handler to do the work. In addition, DOC owns two unregulated (exempt) underground storage tanks at SCI Rockview containing heating oil. While not required by regulation, closure of these underground tanks should be done under the supervision of a qualified professional to avoid releases to the environment.
    - Quehanna Boot Camp: DOC operates three regulated aboveground storage tanks at the Boot Camp. As set forth for SCI Rockview above, temporary closure will require registration, and permanent closure will require notice and a certified tank installer/handler to do the work.
- District Mining Operations:
    - SCI Rockview: DOC has a license for explosives magazines at SCI Rockview. DOC can continue to maintain the magazines at SCI Rockview without licensing changes. Closing of the magazines requires that DOC remove and properly dispose of all explosives from the magazine and submit to the DEP Moshannon

District Office documentation as to the disposition of these explosives within 20 days of the termination of the magazine license.
    - Quehanna Boot Camp: Not applicable.
- Radiation Protection Program:
    - SCI Rockview: DOC has eight X-ray devices registered with the DEP. If DOC is no longer going to use the X-ray devices, they should be properly transferred or disposed and DOC would request DEP terminate the device registrations in accordance with 25 Pa. Code § 216.4a.
    - Quehanna Boot Camp: DOC has three X-ray devices registered with DEP. If DOC is no longer going to use the X-ray devices, they should be properly transferred or disposed and DOC would request DEP terminate the device registrations in accordance with 25 Pa. Code § 216.4a.

Department of Conservation and Natural Resources (DCNR):

DCNR reviewed the closure proposals and would be impacted by a potential closure of the Quehanna Boot Camp. Since 1991, the DCNR Bureau of Forestry (BOF) has leased the Quehanna industrial complex to the Department of Corrections, along with additional leases to the Pennsylvania Game Commission, Pennsylvania Department of Transportation (PennDOT), and Nydree Flooring. In the absence of alternative arrangements, the property would revert to the BOF. The BOF has no need for the buildings or resources on site, nor the ability to maintain them. BOF requests an abandonment plan should a closure of the facility occur.

The Department also operates the Forestry Camp program at SCI Rockview, with the support of DCNR. As noted within the facility analysis section, the Steering Committee recommends continued operation of this program, under the supervision of SCI Benner Township.

Department of Agriculture:

The Department of Agriculture partners with the Department to administer a sustainable agriculture pre-apprenticeship program at SCI Rockview. The Department of Agriculture requests that the Department consider relocating this program, should the facility close. Additionally, the facility is surrounded by farmland. The Department of Agriculture requests that land be made available for lease to farmers who would be interested in cultivating the land.

Pennsylvania Historical and Museum Commission (PHMC):

The PHMC's Pennsylvania State Historic Preservation Office (PA SHPO) provided historical considerations for each facility, should the closures occur. Two primary historical considerations exist:

- **Archaeological Resources:** PA SHPO identified several archaeological sites located within or adjacent to SCI Rockview. An archaeological survey to relocate known sites and other potentially significant sites is recommended. There are no archaeological concerns related to Quehanna Boot Camp.
- **Above Ground Historic Properties:** SCI Rockview is eligible for listing in the National Register under two criteria related to its display of the evolution of Pennsylvania's penal system and architecture for buildings completed between 1914 and 1974. Quehanna

Boot Camp was determined to be ineligible for listing in the National Register of Historic Places.

PHMC recognizes that not all buildings associated with SCI Rockview can be saved; however, PHMC encourages DGS to investigate the feasibility of retention of at least some historic buildings for adaptive reuse or marketing. PA SHPO administers preservation incentives that could be used in the marketing of the historic property and requests that DGS consult with PA SHPO should the properties be considered for disposition.

Public Stakeholder Comments:

Concurrent with the announcement of the proposed closures, the Department opened a dedicated email account and telephone line to receive public comment. Likewise, it provided a mailing address for affected inmates to submit comment and considered public comment sent directly to the agency through standard mail. Comments were provided from five main categories of stakeholders, including affected employees and family members, affected community members, affected inmates, affected elected officials, and concerned members of the public, outside of the affected communities. At the time this report was compiled, the Department received comments from approximately 500 public stakeholders (Attachment B) and approximately 49 inmates (Attachment C). The committee regularly summarized and discussed stakeholder concerns during the seven-month analysis period. Subsequent analysis within this report contemplates concerns raised through this process. Comments tended to focus on the below high-level subject matters in opposition to closure of the facilities. To be clear, the following summarizes recurring themes observed in public comments; however, contents of those letters and emails are available in Attachments B and C.

Economic Impacts:

Public stakeholders shared their concerns about the economic impacts to the communities surrounding SCI Rockview and Quehanna Boot Camp. Because the majority of Department facilities are located in rural and economically challenged areas, economic impacts are likely to be present in any community where a closure would be proposed.

Economic concerns specific to the potential closure of Quehanna Boot Camp included the loss of revenue from the local services tax, loss of business at local convenience stores, restaurants, and anxiety that staff will move from the area, accelerating a projected population decline.

Economic concerns specific to the potential closure of SCI Rockview include loss of economic activity from the Forestry program, estimated loss of 714 jobs cascading to the loss of jobs supported by employees and their families, loss of the inmate population and a portion of the staff population extending to a loss of per capita funding, and a loss of revenue for local vendors.

Correctional System Effects:

Public stakeholders shared their concerns about the potential impacts to correctional staff, recidivism, violence, and the incarcerated population. Stakeholders shared concerns that correctional staff work commutes will increase to levels that may lead some to relocate closer to their new worksite, leave the profession, or contribute to increased overtime at other facilities

due to inmate population shifts. Concerns were expressed that the Boot Camp program would end, and recidivism benefits of the Boot Camp program will be lost with a location change. Moreover, stakeholders expressed a fear that increasing population capacity at other sites would lead to increased violence.

Overestimated Savings:

Public stakeholders questioned the anticipated savings the Department would achieve through its proposed facility closures. Stakeholders shared concerns that projected savings from averted maintenance were overstated, as some work was already completed. Commenters asserted that only operational cost savings would be realized – no savings would be achieved through workforce attrition because all staff are guaranteed employment. Stakeholders also speculated that savings would be offset by increases in recidivism.

Other Concerns:

- Approximately 84 individuals/organizations sent letters suggesting SCI Fayette should be closed because of its purported construction on an environmentally hazardous tract of land.

    - The DOC enlisted experts at the Pennsylvania Department of Health (DOH) when these allegations came to light nearly a decade ago. The DOH report is appended as part of Attachment B. From the report's summary:

      The study provides objective measures of cancer incidence rates compared to all men in Pennsylvania. Based on the types of cancer observed and the rates, there isn't an indication the environment contributes to the risk, and there are no environmental data demonstrating that there are human exposures to significant levels of carcinogens that could increase the cancer risk.

- There is a low likelihood for potential repurposing of either facility.
- SCI Rockview is a historical landmark and would need to be preserved in a vacant status at taxpayer expense.
- Personal success achieved through Quehanna Boot Camp is justification for keeping the facility open.
- Closure of Quehanna Boot Camp will endanger lower-level inmates by housing them with violent inmates.
- Closures would lead to unsafe early releases of dangerous inmates.
- Other businesses are leaving the area, and the prison jobs are some of the remaining jobs that pay a livable wage.
- Employees and inmate work crews support the surrounding communities through volunteer services.
- The Department should offer a buyout/early retirement option for employees.
- The Training Academy should be closed.
- Inmates expressed anxiety regarding relocation and disruption in rehabilitative programs/services.

In Favor of Closure:

A minority of stakeholder comments were in favor of the proposed closures. Commenters shared:

- Employees rented/purchased properties in the surrounding area and drove up housing costs for local residents.
- SCI Rockview's design is outdated and provides inadequate living conditions.
- Negative facility culture at SCI Rockview is detrimental to the incarcerated population.
- Concerns over the high staff to inmate ratio at Quehanna Boot Camp.
- Studies have shown Boot Camp programs to be ineffective and other states have closed similar programs.
- To inflate success rates, the Boot Camp graduates inmates who should not graduate.

Public Hearings:

Pursuant to the Public Safety Facilities Act, public hearings were scheduled in Clearfield and Centre counties on April 10 and April 15, 2025, respectively. Notices were published in newspapers of general circulation—The Progress starting on March 21, 2025, and the Centre Daily Times on March 23, 2025—along with being posted on the Department's website and distributed through press releases. The significant themes discussed during these hearings are noted below. The transcript of the Quehanna Boot Camp hearing in Clearfield County is appended as Attachment D and the transcript of the SCI Rockview hearing in Centre County is appended as Attachment E.

Quehanna Boot Camp - Clearfield County:

The Department held its public hearing on the proposed closure of the Quehanna Boot Camp at Karthaus Community Alliance Church on Thursday, April 10, 2025. Prior to the public comment period, the Department welcomed remarks from elected officials—including Senator Langerholc, Representatives Kephart, Armanini and Takac, and County Commissioner Winters, employee bargaining unit representatives (i.e., PSCOA, AFSCME, CIVEA, SEIU – Health Care, and SEIU 668), and the Acting Quehanna Boot Camp Commander. Following these comments, individuals signed up to make public comment, including comments on behalf of Karthaus Township, local emergency service providers, employees, retirees from the Quehanna Boot Camp, and concerned community members.

Comments from the public hearing overlapped with the feedback received through the Department's email and voicemail systems dedicated to collect public comment noted in the above section. The following noteworthy issues were raised during the hearing and a response is addressed in detail below each issue.

- Quehanna Boot Camp produces more General Education Development (GED) diplomas than any other facility and more than 12 other facilities combined.
    - GEDs are one measure of academic achievement; however, Commonwealth Secondary Diplomas (CSD) are earned more frequently in most facilities housing longer-term inmates. When combining GEDs and CSDs over the last five years, completion rates narrow, and the alternative male SDTP treatment facilities

emerge as the second and third highest producers of high school equivalency diplomas.

- Legislative fixes to the Boot Camp statute could make the program more appealing and increase capacity at the facility.
    - While legislative amendments to the Boot Camp statute may have a positive effect on participation, there have been fundamental shifts to the demographics of those committed to the Department, addressed further in the facility analysis, that reduce the candidate pool. Proposed measures of shortening the duration of the Boot Camp program may exacerbate capacity issues for the facility by cycling eligible participants through the facility in less time.
- Testifiers frequently cited information posted on the Department's public webpage to assert that the Boot Camp program generates the lowest recidivism rates within the Department and thus results in greater cost savings that outweigh those achieved through closure of the facility.
    - The Boot Camp statistics cited appear to have been drawn from a pamphlet created by staff at Quehanna Boot Camp. As disclaimed in the pamphlet, the statistics were drawn from unofficial data from 2013 through 2018 and only included one of the two measures included in recidivism; specifically, return to state incarceration. These figures lack the measure of re-arrest, exclude Boot Camp failures, and exclude the SDTP population also processing through the facility.
    - The last formal controlled analysis of the Boot Camp program occurred in 2016, and the precursor to the SDTP program (formerly referred to as State Intermediate Punishment [SIP]) was evaluated in 2017, during a similar timeframe. The three-year recidivism rate for the Boot Camp program was 58.9% in comparison to 42.9% for SIP participants. According to the Department's 2022 Recidivism Report, the Boot Camp program ranked third, behind SIP and Recidivism Risk Reduction Incentive (RRRI) with respect to producing a reduction in recidivism. Moreover, the evaluations found that savings achieved through SIP were almost three times those achieved through Boot Camp. Given that the most significant change between SIP and SDTP was the method of admission and the program's structural components remain the same, the outcomes are unlikely to have significantly changed.
- Quehanna Boot Camp's unique setting and culture define its ability to produce success. Relocating programs to an SCI will force inmates to focus on protecting themselves from more aggressive inmates and lose focus on rehabilitative programming.
    - The SDTP predecessor (SIP program) started within an SCI and the program maintained an institutional presence throughout its duration. Likewise, RRRI incentives were available for eligible inmates to be earned through completion of institutional programming at all SCIs. Both programs have produced results in locations that are not dependent upon the Quehanna Boot Camp's unique characteristics. The success of these programs demonstrates that therapeutic milieus are not only possible, but they are occurring in institutional environments.
- Although staff are guaranteed a job at another facility, the nearest facility is approximately an hour driving distance from the Quehanna Boot Camp, likely causing a significant number of staff to move from the area and creating economic hardships for rural Pennsylvania. One

testifier claimed that 80% of the staff live in Karthaus Township and the township would be significantly impacted.
    - The Department's Bureau of Planning, Research and Statistics generated an analysis of Quehanna Boot Camp staff commuting patterns based off home addresses and identified the current average one-way drive time as approximately 57 minutes, with a minimum of approximately seven minutes and a maximum of approximately 182 minutes. Depending upon home address and facility selections, some staff have the possibility of reducing their travel time by selecting a facility closer to their home address.
    - Heat mapping within the DCED economic impact report shows that Quehanna Boot Camp employees reside in other rural Pennsylvania locations where relocation to facilities, including SCI Houtzdale, Benner Township, Forest and Pine Grove, may minimize commuting strains and maintain spending in rural Pennsylvania.
    - At the time of analysis, approximately 14 staff lived within Karthaus.
- Testifiers stated that closures would lead to overcrowding, which would in turn, induce violence. One testifier stated that 2018-2019 were some of the most violent years on record, triggered by previous closures. (Note: SCI Pittsburgh closed by June 2017).
    - The most recent closure occurred in 2020 at SCI Retreat. Although occurring at the onset of the COVID pandemic, staff assault and inmate fight per capita rates decreased and remained lower (compared to 2018-2019) until 2024, while inmate-on-inmate assaults edged slightly higher in 2023.
    - The Department experienced its peak population window between 2009 and 2014, before appreciable declines in population began. A study completed in the Department in 2016 by a researcher at the University of Maryland found that there was no relationship between prison crowding fluctuations (as measured by percentage of operational capacity) and prison assaults during 2012 to 2014.
- Local community organizations rely on the donated labor of Quehanna Boot Camp's Community Works Program (CWP). Organizations do not have the funding to compensate for the loss of these services.
    - The Department maintains CWP crews at surrounding facilities, capable of providing a similar level of service upon request and approval. The Department is committed to continuing its tradition of public service.

SCI Rockview - Centre County:

The Department held its public hearing on the proposed closure of SCI Rockview on Tuesday, April 15, 2025. Prior to the public comment period, the Department welcomed remarks from elected officials (including Senator Dush, Representatives Kephart, Conklin, Benninghoff, and Takac, and Centre County Commissioners Higgins, Concepcion, and Dershem), employee bargaining unit representatives (including PSCOA, AFSCME, SEIU – Health Care, and SEIU 668), and the SCI Rockview Superintendent. Following these comments, individuals signed up to make public comment, including comments on behalf of entities such as the Chamber of Business and Industry, tourism, employees, retirees from SCI Rockview, family members of employees, and concerned community members.

Notable matters brought for the Steering Committee's consideration during this hearing are listed and addressed below:

- Large numbers of SCI Rockview staff already drive considerable distances to the facility and there are a limited number of jobs at nearby facilities. Commenters expressed concerns that staff would experience commutes of upwards of two or more hours because employees are only guaranteed employment at targeted facilities.
    - The Department conducted a drive-time analysis for SCI Rockview employees, based on employee home addresses. While SCI Benner Township was determined to be the nearest facility for approximately 62% of the staff, there are some whose home address, at the time of analysis, placed them closest to SCIs Coal Township, Camp Hill, Laurel Highlands, and Pine Grove, outside the targeted facilities. The Department is committed to offering employment in these locations, in addition to any other location, should employees make such selections following a closure.
    - The drive-time analysis identified the average commute to be approximately 41 minutes for employees, with a minimum drive time of approximately four minutes and a maximum drive time of approximately 126 minutes. Depending upon employee placement following a closure, the average commute may decrease for upwards of 38% of staff.
- Staff who would be forced to transfer to another location after a closure would potentially lose preferential shift bids and assignments.
    - Notably, staff will not lose seniority. However, depending on staff selections, all staff may not be accommodated at their new location with their current shift or post. This matter is subject to the provisions in the respective collective bargaining agreements.
- A testifier commented that there are approximately 1,900 parole absconders at the time of the hearing and speculated that if all absconders were returned to custody, the Department would have insufficient beds to house each of them. The testifier questioned whether efforts were being made to apprehend absconders.
    - As of April 16, 2025, there were 1,334 parole absconders listed on the Department's absconder website. That number dropped to 1,326 as of August 29, 2025. When a reentrant has been placed into absconder status, their case is turned over to the Department's Fugitive Apprehension Search Team (FAST), which is comprised of agents dedicated to searching for wanted reentrants. FAST agents are required to make quarterly "Diligent Searches" to apprehend all absconders.
    - Warrants are issued for all absconders. Should the absconder be arrested for a new crime, notification would occur.
    - Although it is unlikely that all absconders would simultaneously return to incarceration (i.e. some absconders are supervised for terms of special probation and would be housed in a county prison), the surplus capacity following closures would be sufficient to house these absconders.
- A testifier analogized closing Department facilities to the closure of state mental hospitals. Specifically, the commenter mentioned that state mental hospital closures

pushed the burden of care to local providers, who were quickly overwhelmed, and speculated similar potential outcomes.
    - The proposed closures of SCI Rockview and Quehanna Boot Camp are not analogous to closures of state mental hospitals. Unlike closures of state mental hospitals, the Department is not proposing release of inmates to facilitate closures. Rather, those inmates will continue to be cared for within existing underutilized space.
- Multiple testifiers speculated that a "sweetheart" deal for sale of the land surrounding SCI Rockview was a motivating factor in selection of the facility for closure. Likewise, another commenter suggested selling a portion of the surrounding land to fill budget gaps.
    - The Department has no role in disposition of the property when a facility closes or the ability to sell land associated with the facility. The Department of General Services would be responsible for any sale of the property and such sales typically require legislation to convey the property. As will be explained in this report, the Department proposed closures based upon multiple criteria and has no incentives relative to the disposition of the property.

Steering Committee Facility and Operational Analysis:

In addition to the above information gathering activities, the Steering Committee continued to update and refine facility specific information on hand for the proposal and received additional information such as CGL's Strategic Facility Plan on March 21, 2025, and the Department's Bureau of Operations capital plan. The Steering Committee met almost weekly between the proposal announcement and the issuing of this final report to discuss internal reports and recommendations, public hearings, and stakeholder feedback. The Steering Committee analyzed the following facility factors in its decision process:

Capital Projects and Deferred Maintenance:

The Department of General Services (DGS) contracted with CGL companies in 2022 to develop a Strategic Facility Plan (SFP), that included a Facility Condition Assessment (FCA) and Facility Operational Assessment (FOA) at 22 of the Department's 24 facilities. SCI Benner Township and SCI Phoenix were excluded because of their recent construction. CGL found ten-year maintenance needs of approximately $1 billion, with the highest needs generally occurring in those facilities constructed pre-1960. The FCAs assisted in identifying and prioritizing critical deferred maintenance projects, while the FOAs characterized the ability of existing space to meet future needs.

Historically, the Department receives approximately $50-55 million per year to invest into its capital project needs, causing some projects to be delayed until funding is available and leading to triaging of the most significant risks. However, there are consequences to deferring maintenance, as noted by CGL:

Deferred maintenance in a correctional system, if left unaddressed, can double every 5 years. Addressing the priority deferred maintenance needs within the agency is imperative to prevent the onset of cascading deterioration.[2]

On March 21, 2025, CGL shared a six-year capital plan for all Department facilities (immediate needs and next five future years), totaling approximately $969 million. This plan includes approximately $492 million in deferred maintenance, $350 million in operational driven changes (e.g., construction of a new geriatric unit, expansion of medical units), and $126 million to install air conditioning to nine sites in need. In this capital plan, SCI Rockview demonstrates the greatest deferred maintenance needs of all facilities, totaling approximately $85.8 million over six years, without including approximately $7 million for installation of air conditioning.

Although Quehanna Boot Camp demonstrates one of the lowest deferred maintenance needs, totaling approximately $2.7 million; Quehanna Boot Camp is one of the facilities that requires investment to install air conditioning at an estimated cost of $4.1 million.

The Department's Bureau of Operations developed a similar five-year capital plan for SCI Rockview and Quehanna Boot Camp. The Bureau of Operations' plan estimates approximately $74.3 million in maintenance needs at Rockview and approximately $6.9 million in maintenance needs at Quehanna Boot Camp in that five-year span.

Please see Appendix C for detailed information regarding the CGL and Bureau of Operation's capital plans and identified maintenance needs for each of the facilities.

Under the CGL strategy, removing SCI Rockview and Quehanna Boot Camp from the capital project plan would free almost $100 million to be more expediently delivered to other facilities and potentially mitigate the escalation of costs or cascading deterioration. Similarly, the Bureau of Operations plan would free approximately $81.2 million over a five-year period.

Significantly, the capital project plans are separate and distinct from the routine maintenance and repairs performed under the facility's operational budgets or in response to emergency situations. DGS develops the scope of work, design, procurement, construction, and maintains oversight of capital projects. Facility staff do not procure materials or complete work associated with capital projects.

Facility Design Limitations and Ability to Meet Future Needs:

Over the past quarter century, the percentage of the population over the age of 50 has increased from approximately 10% in 2000 to approximately 28% at the time of this report. Concurrently, the percentages of the population serving a minimum sentence of ten years or more, increased from approximately 21% to 36%. Aging inmates, who are likely to remain with the Department for lengthier terms, generally require more medical care, are prone to cognitive decline, have higher needs for mobility assistance, and tend to have greater need for infirmary services.

[2] PA DOC Strategic Facility Plan, Mach 21, 2025, p.6

When looking to align the Department's bed space with its current and future needs, the Steering Committee weighed the versatility of available bed space, ability to efficiently supervise the population and whether facilities were situated to meet the needs associated with the observed trends of an aging population who may be serving long sentences. Both SCI Rockview and Quehanna Boot Camp present challenges to efficiently meeting these future needs.

Penal philosophy at the time SCI Rockview was constructed allocated little space on the housing units for congregate out-of-cell and therapeutic activities. The five-tiered main housing unit has limited lines of site, making supervision of the inmate population both challenging and less efficient than modern facilities. The multi-tiered design creates accessibility challenges for an aging population. Likewise, although B-block and C-blocks are not five tiers, they create supervision challenges and inefficiencies because of the long linear range design. These obstacles to supervision necessitate additional staff and may present an increased risk of concealing behaviors such as assaults, extortion, contraband exchange, and self-harming behaviors.

Although not unique to SCI Rockview, cells within the older units of the facility are typically smaller than those built in the post 1960s era. Combined with a lack of air conditioning, added layers of tension could be created by these housing conditions in the extreme heat of summer. Also, as the population continues to age and require greater use of health-sustaining medications, it is pertinent that the Department consider whether appropriate climate controls are present in the bed space we maintain.

An additional concern with SCI Rockview's emergency power supply capabilities emerged while the proposals were considered. In early June 2025, during generator testing, the facility was unable to return to commercial power supplies. Generators subsequently failed, leading to loss of power and emergency repairs. Approximately three weeks later, during a commercial power outage, automatic conversion to generator power failed and a manual switch was necessary to maintain power at the facility.

Quehanna Boot Camp was not constructed with the intention of housing carceral populations, having formerly been occupied by two aircraft companies, focusing on nuclear jet engine research and aircraft parts fabrication. The facility does not have a perimeter fence and Quehanna Highway runs through the center of the compound. These conditions present a heightened risk of escape, with a recent 2023 escapee being recaptured in the surrounding forest because of a missed rendezvous on the Quehanna Highway[3]. In 2015, the consequences were more significant when Nicholas Guido and Trent Maffei escaped[4] from the facility by entering a vehicle on the Quehanna Highway while they were participating in yard activities. The two were apprehended over 100 miles away in Duncannon, PA, the following day.

While the incentive of a quick return to the community may mitigate the risk of escape for most participating in a JRI2 program, there is a limited number of inmates who meet both the JRI2 and security requirements to be housed at the facility. Consequently, the inherent risk of flight and potential risks to public safety restrict the individuals who may be housed in the facility,

[3] https://gantnews.com/2024/08/03/boot-camp-escapee-gets-additional-state-prison-time/
[4] https://www.pennlive.com/news/2015/11/two_fugitives_arrested_in_perr.html

limiting the ability of the facility to run efficiently. Moreover, the facility does not have an infirmary, Psychiatric Observation Cells (POCs) or Security Level 5 (SL5) housing, creating a requirement to immediately transfer inmates when these needs emerge.

The facility's remote location is also concerning. The nearest hospital is approximately 30 or more minutes from the facility, limiting the ability to house alternative lower safety risk inmates, such as the medically infirmed. The facility's remote forested location also makes it susceptible to prolonged power outages following storms. Shortly after the facility was proposed for closure, the facility experienced two multi-day power outages, beginning on approximately March 16 and April 29, 2025, where the facility was required to run on generator power for several consecutive days and placing the facility at risk if generator fuel deliveries would be impeded.

The Department's Boot Camp program originated from 1991 legislation, following the emerging trends during the "War on Drugs" policy era that quickly drove carceral populations upwards. Boot Camp programs offered a means of reducing costs while maintaining the appearance of being "tough-on-crime" philosophies of the era.[5] Because these policies led to younger, non-violent offenders being incarcerated, Boot Camp offered an appealing opportunity for an expedited return to the community and easing of prison capacity strains. As more effective reforms to the criminal justice system took root and following the *Commonwealth v. Newman* ruling that determined mandatory minimum sentences invalid, the prior pool of candidates for participating in the Boot Camp program or housing at Quehanna Boot Camp began to dissipate.

Despite enhancements to the Boot Camp program, such as raising the eligible age for participation to 40, the eligible population for the program continues to dwindle based on the changing dynamics of the Department's population and the overall philosophy of sentencing, with the Boot Camp program graduating approximately 106 inmates in 2024.

Since the turn of the century, the average age of an inmate committed to the Department rose from approximately 31 to 38, leaving many either age barred from eligibility upon entry or deterred by the physical demands of the program.

Although other facilities within the Department have similar design challenges to SCI Rockview and Quehanna Boot Camp that hinder the ability to adapt to the current and future needs of the Department, these concerns are part of a greater continuum of inefficiencies the Department sought to address through its closure proposals.

Financial Operations:

Based on fiscal year expenditures (FY22-23), SCI Rockview's approximate annual cost was $112 million. Personnel expenditures were approximately $86.7 million. Quehanna Boot Camp operated at an approximate annual cost of $34 million. Personnel expenditures were approximately $29 million.

[5] Shultz, W. J., Bucerius, S. M. & Haggerty, K. D. (2024).
A Good Place to Do Time? Detailing the Construction of Symbolic Social Boundaries in Correctional Boot Camps, available at: https://journals.sagepub.com/doi/epub/10.1177/00938548241230471

The average daily cost per inmate is another potential measure of a facility's financial efficiency. It is derived from spending for the facility, food, security, operational costs, medical care, and other essential services, divided by the average daily population. However, these figures are not an equal comparison. Particularly, this metric does not account for the seniority-based salary levels of staff, facility occupancy rates, staff vacancy rates, overall capacity, closed housing units and specialty services provided at the location that may drastically influence the figure. Specifically, facilities such as SCI Waymart typically spend more per inmate because of the inpatient mental health and personal care services provided to vulnerable elements of the population and SCI Waymart's maximum capacity is lower than most facilities. Likewise, SCI Muncy's population requires greater levels of mental health care, gender specific health care services and other gender responsive programming not required in male facilities.

The metric of average daily cost per inmate was applied to all facilities, based on the latest figures available from FY23-24. Six facilities operated at a daily inmate cost below SCI Rockview and 17 operated above that figure. Quehanna Boot Camp had the fifth highest daily inmate cost, surpassed by SCIs Waymart, Muncy, Pine Grove, and Smithfield. Each of these facilities had specialty missions that influence their average costs.

Mothballing Costs:

The Bureau of Operations developed estimated mothballing costs for each facility as follows. Mothballing activities described below are required by, and are in compliance with, Management Directive 625.5 that carries out Article XXIV-A of The Administrative Code of 1929.

SCI Rockview:

- Sewage: Spring Benner Walker Joint Authority (SBWJA) and Bellefonte Borough. Fees are anticipated to decline from approximately $920,000 per year to $138,000.
- Gas: Columbia Gas (distribution) and Direct Energy (supply). SCI Benner Township and SCI Rockview are served by a single natural gas service. Annual costs following a closure are estimated at $675,000
- Electric: West Penn Power (distribution) Constellation Energy PA PULSE Contract (supply).
    - Annual costs following a closure are estimated at $425,000
- Water: Pennsylvania American, McBride Gap Reservoir, Benner Spring Well. The water system serves SCI Benner Township, SCI Rockview, Village of PERU, PennDOT License Center, and SBWJA. The reservoir and spring well are the primary sources, and public water is a backup. Costs are estimated to decrease from $370,000 to approximately $30,000 per year with a closure of SCI Rockview.
- Security: $100,000 per year
- Telecommunications: $15,000 per year
- Maintenance Service Contracts: $200,000 per year for the rental of a deaerator tank for the boilers.
- **Total annual estimates: $1,583,000**

Quehanna Boot Camp:

- Sewage: Quehanna Boot Camp operates its own wastewater plant. The plant also serves PennDOT and Game Commission Buildings, and Nydree Flooring Company. Estimated annual costs are anticipated to drop from approximately $57,500 to $8,600 if the facility closed.
- Gas: Propane Services could be transitioned to a pay-as-you-go rate if the facility is closed. The annual costs are anticipated to drop from approximately $108,000 to $36,000.
- Electric: Penelec Power (distribution), Constellation Energy PA PULSE Contract (supply). Annual costs following a closure are estimated to be $200,000.
- Water: The main source of water are wells and a reservoir is not utilized by the facility. Facility wells supply water to PennDOT and Game Commission buildings, and Nydree Flooring Company. Annual costs are estimated to reduce from approximately $60,000 to $9,000.
- Security: $70,000
- Telecommunications: $10,000
- Maintenance Service Contracts: $300,000 (could be reduced with a transfer of the sewage and water plants to DCNR)
- **Total annual estimates: $633,600**

Specialty Programming and Units:

SCI Rockview houses D-Roster[6] inmates and consideration was given to meeting the needs of the following special populations:

- D-Roster Populations.
- Residential Treatment Unit (RTU) inmates – SCI Rockview houses approximately 138 D-Roster inmates on its RTU.
- Behavior Management Unit (BMU) inmates – SCI Rockview maintains space for approximately ten inmates; however, there are currently no inmates participating in the facility's BMU program.
- Diversionary Treatment Unit (DTU) inmates - SCI Rockview has capacity for approximately 26 DTU inmates.
- Special Needs Unit (SNU) – SCI Rockview houses approximately 171 inmates on its SNU.
- Neuro-Cognitive Care Unit (NCCU) – SCI Rockview operates a 12-bed unit designed to meet the needs of inmates with dementia related conditions.
- Therapeutic Community – SCI Rockview operates a 50-bed therapeutic community.
- Forestry Camp – SCI Rockview operates a forestry management program. The skills acquired by participants are noteworthy and it is recommended the program be transferred to the supervision of SCI Benner Township for continued operations in the event of a closure.

Quehanna Boot Camp houses inmates assigned to Justice Reinvestment Initiative (JRI) programs, namely, BC, SDTP, and Short Sentence Parole (SSP). Because the inmates housed in the facility

[6] The Department tracks all inmates on a mental health roster. Inmates diagnosed with a serious mental illness are identified as D-Roster inmates.

present the lowest security risks and least medical needs, they can be housed at any Department facility. Considerations for these populations include:

- Relocating three 50-male bed and one 50-female bed SDTP therapeutic communities.
- Relocation of the BC program, where participation generally hovered around 40 male and five female active participants.
- SSP inmates generally do not have unique programming needs and can be housed according to general classification criteria.

Educational and Vocational Programs:

SCI Rockview offers Adult Basic Education (ABE), Commonwealth Secondary Diploma (CSD), General Education Development (GED), and English as a Second Language (ESL) academic programs. Vocational programs offered at the facility include HVAC, Electricity/Residential Wiring, Masonry, and Cosmetology.

Quehanna Boot Camp offers ABE, GED, CSD, and Special Education academic services. Vocational programs at the facility include Custodial and Landscape Maintenance, Fiber Optics Installation, Occupational Safety & Health Association (OSHA), National Center for Construction Research (NCCER) – Core and Safety, PennDOT Flagger, JLG Vertical Work Platform, NCCER Construction Site Safety Orientation (CSSO), and NCCER Masonry.

The Corrections Education Office (CEO) noted ABE and vocational instructor vacancies at the surrounding facilities, as well as across the Department, that instructors could fill if a closure occurs. Special education instructor vacancies were also noted to be present at SCIs Pine Grove and Houtzdale. DCE also recommended reallocating staff to reestablish an educational program at SCI Smithfield. Services were discontinued at SCI Smithfield when the COVID pandemic triggered the need for a mission change to the Department's intake facility. The facility is now returning to its previous general population mission. Most importantly, DCE notes that ABE teachers and vocational instructors can be relocated to any facility with available instruction space and programs are not specific to sites.

Inmate Population Demographics:

The inmate population fluctuates daily as inmates are admitted and released. While data is limited to a snapshot in time, general trends gathered through those snapshots typically remain consistent, absent a change in facility mission. Key population statistics for the proposed facilities were drawn on April 9, 2025, for review by the Steering Committee.

SCI Rockview's population was 2,107, with approximately 1,147 (54%) at Custody Level 2 (CL2), 600 (28%) at CL3, 214 (10%) at CL4, and 93 (4%) at CL5, and 53 pending an update of this information. With respect to specialty populations, bed management reports identified approximately 10 housed in the BMU, 16 in the DTU, 61 in the RHU, 165 in the RTU, 176 in the SNU, and 11 in the NCCU.

Quehanna Boot Camp's population was approximately 350, all at the CL2 level.

These totals continued to be reviewed during the analysis period and as of August 29, 2025, SCI Rockview's population was approximately 1,715, with approximately 1,032 (60%) at CL2, 447

(26%) at CL3, 159 (9%) at CL4, 64 (4%) at CL5, and 13 pending an update of this information. With respect to specialty populations, bed management reports identified approximately 0 housed in the BMU, 14 in the DTU, 49 in the RHU, 138 in the RTU, 171 in the SNU, and 9 in the NCCU.

Quehanna Boot Camp's population was approximately 309, all at the CL2 level.

Program Waiting Lists:

Similar to the inmate population, program waiting lists are subject to fluctuations associated with individuals transferring in and out of facilities. Should a closure occur, inmates with a minimum date within six months of a final closure date would be most likely to be impacted. Waiting lists were reviewed on April 17, 2025, for both facilities, assessing those inmates with minimum dates occurring between the earliest closure possibility in September 2025 and March of 2026.

With respect to SCI Rockview, the most significant waiting lists were associated with sex offender programming (152), interpersonal violence (65), therapeutic community (62), and high intensity violence prevention (57). With respect to Quehanna Boot Camp, the largest waiting list within this time range was SDTP with five inmates on the waiting list.

These waiting lists continued to be reviewed during the analysis period. The waiting lists for inmates with minimum dates through June 2026 were reviewed on August 29, 2025. The most significant waiting lists were associated with sex offender programming (108), high intensity violence prevention (58), and therapeutic community (35). With respect to Quehanna Boot Camp, all waiting lists were three or less for all programs.

The Bureau of Population Management's inmate assignment tool considers treatment wait lists in its placement recommendations and would be able to place inmates in locations with resources to deliver programming timely.

Recidivism Rates:

During the public hearings, the topic of recidivism was frequently cited as a rationale to keep both of the proposed facilities open because their reported success within this metric was claimed to offset savings achieved through the proposed closures. SCI Rockview had the second lowest three-year recidivism rate among male facilities (fourth overall) for 2021 releases. Within that same year, Quehanna Boot Camp was 12th out of 24 facilities. Recidivism rates are available in Attachment F.

Recidivism rates are a variable that are not equally comparable between facilities and can be influenced by the individual characteristics of the inmates housed at and released from the facility. Likewise, given that the inmate population transfers regularly throughout facilities, comparisons between locations are statistically impractical. The Department's recent Recidivism and Desistance Initiative (RDI) specifically analyzes facilities against their individual five-year baselines in determining success in this area rather than against other facilities because of these variables.

Staff-to-Inmate Ratios:

Another operational variable considered by the Steering Committee was the staff-to-inmate ratio. Similar to the daily inmate cost, this figure by itself is not a fair indicator of a facility's efficiencies because it can be influenced by facility mission, structural design, fluctuations in population, or specialized housing units. Facilities such as SCIs Waymart and Laurel Highlands employ additional medical staff to care for infirmed people. SCI Waymart also employs additional staff to support its Forensic Treatment Unit (FTU) and inpatient Mental Health Unit (MHU). Likewise, facilities like SCI Greene run multiple specialized units, necessitating additional staff for lower inmate populations.

SCI Rockview was found to operate efficiently with respect to this consideration, surpassed only by four facilities at the time of analysis. Conversely, Quehanna Boot Camp was found to operate as the second least efficient facility in this metric, behind SCI Waymart at the time of analysis. It is noted that SCI Smithfield was excluded from this analysis as it was in the progress of depopulating its classification beds to convert them to general population beds at the time of comparison.

This variable weighed heavily in the proposal to close Quehanna Boot Camp. Despite the facility not operating an infirmary, POC cells, specialized mental health, specialized medical, or SL5 housing units, and only housing the lowest level security inmates; it operated with the second highest staff-to-inmate ratio. Because of the facility's design, location, and resources, the opportunities for reversing this level of inefficiency by increasing the inmate population are minimal. Another staff-to-inmate issue that periodically presents challenges at the facility is the ratio of female corrections officers to female inmates. Under the Prison Rape Elimination Act (PREA), female inmates are required to be pat searched and strip searched by female staff. At times, the facility must mandate female officers to work out of turn to ensure there is at least one female staff available to perform searches that comply with this long-standing federal regulation.

Future Staffing Needs and Retirement Eligibility:

The Department guarantees a job offer to all staff affected by a closure. It is anticipated that some facilities that staff may choose during a closure selection process will operate over complement until routine attrition patterns restore staffing to established levels. Department staffing resources were first compiled in October of 2024, when the MFL was being updated and were updated again in April of 2025. Staff classification/bargaining unit breakdowns as of April 16, 2025, were as follows:

Note – the following chart represents all positions allocated to the facility. Not all are filled.

Staff Bargaining Unit Breakdown	SCI Rockview	Quehanna Boot Camp
AFSCME	52	19
CIVEA	15	8
FOP	6	2
FOCEP	1	1
MANAGEMENT	66	28
OPEIU	2	1

PDA	2	2
PSCOA	484	148
SEIU (HEALTH CARE)	17	8
SEIU 668 (PSSU)	43	25
Total Positions Allocated	688	242
Total Positions Filled	641	231

Corrections Officers comprise the greatest number of staff within each facility and were broken down as follows:

Corrections Officer Classification	SCI Rockview	Quehanna Boot Camp
Corrections Officer Trainee	46	17
Corrections Officer 1	281	88
Corrections Officer 2	41	16
Corrections Officer 3	25	12
Corrections Officer 4	7	1
Corrections Officer 5	2	1

The number of staff eligible for retirement at each location was as follows:

Retirement Eligibility Range	SCI Rockview		Quehanna Boot Camp	
Currently Eligible	111	17.32%	51	22.08%
Within One Year	11	1.72%	4	1.73%
Within Two Years	16	2.5%	5	2.16%
Within Three Years	15	2.34%	7	3.03%
Within Four Years	12	1.87%	10	4.33%
Four Year Total	165	25.7%	77	33.30%

Between the proposed facilities, approximately 18.5% of the staff are currently eligible for retirement. Within the targeted landing facilities, the number of staff currently eligible for retirement are broken out below.

Facility	SCI Benner Township	SCI Houtzdale	SCI Huntingdon	SCI Muncy	SCI Smithfield	Totals
Currently Eligible	76	101	140	103	81	501
Eligible Within One Year	22	21	26	24	14	107
Total	98	122	166	127	95	608

A frequent criticism made through public comments and during the public hearings was that staff would be fighting for a limited number of positions within a small geographic region if a closure were to occur. When proposing facilities for closure, the variable of ensuring maximal

placement options for staff affected by closures and meeting the Department's future staffing needs were considered.

SCI Rockview and several of the likely landing facilities (SCIs Benner Township, Houtzdale, Huntingdon), historically faced high corrections officer vacancy rates. This may be attributable, in part, to the fact that when two prisons are next door to one another (i.e. SCIs Huntingdon – Smithfield and Benner Township – Rockview), the facilities compete for candidates. Given the historically high correctional officer vacancy rates and the number of retirement-eligible staff at both the proposed closure sites and the likely transfer locations, reallocating staff from these facilities could help fill anticipated vacancies and provide much-needed relief.

As of April 16, 2025, between the facilities proposed for closure and the facilities targeted for placement of staff working at these locations, approximately 663 positions could be vacated through retirement. This means that approximately 75% of the filled positions associated with the proposed closures may offset the foreseeable vacancies created through eventual retirements.

Of note, since entering the Act 133 analysis period, approximately 104 staff from SCI Rockview and Quehanna Boot Camp have gained employment at another Department facility, another Commonwealth agency, retired, or resigned.

Overtime Needs and Potential Offsets:

As with other considerations discussed, unique variables contribute to a facility's overtime needs, budget, and spending that do not lend the metric to be an apples-to-apples comparison between facilities. Specifically, overtime budgeting and spending is influenced by the total number of staff within a facility, vacancy rates, inmates needing outside medical care, Family and Medical Leave Act (FLMA) absences, military deployments, temporarily closed housing units, etc., all of which can fluctuate.

For FY24-25, SCI Rockview generated the eighth highest overtime expenditure, while neighboring SCI Benner Township was the 13th highest in overtime expenditures (with two of nine general population housing units at SCI Benner Township temporarily shuttered). Reallocating staff from SCI Rockview to SCI Benner Township through a closure may lead to reductions in overtime spending at SCI Benner Township by reducing spending associated with filling vacancies. Likewise, a positive effect could be observed in other expected regional placement facilities.

Quehanna Boot Camp spent the least in overtime during the most recent fiscal year. As noted, this is likely attributable to the facility's staffing complement being the lowest in the Department and the temporary closure of an average of four housing units. Reallocating staff from Quehanna Boot Camp may have a positive effect in overtime spending at regional facilities where employees work after a closure.

Staff Placement Options:

The Steering Committee's proposal weighed the possibility of providing staff the greatest number of options when selecting a facility within driving distance of their home.

A greater concentration of facilities is within proximity of one another in the central section of the Commonwealth. Proposal of sites outside this region typically provide only one to two facilities as an option for placement of affected staff. See the map of correctional facilities contained in Attachment G. While it is true that there are additional options associated with proposal of facilities in the central-east region, the last closure occurred in this region and the Department was sensitive to the economic impacts that another closure could present to the region.

The Department's Bureau of Planning, Research and Statistics conducted an analysis of staff commuting patterns in Attachment H. Approximately 41% of staff working at SCI Rockview had a home address within Centre County. At the time of analysis, staff working at the facility had a home address in approximately 13 additional counties. In addition to the targeted facilities in proximity to SCI Rockview, it is possible that some staff may request placement at SCIs Coal Township, Camp Hill, Laurel Highlands, and Pine Grove to be placed at the closest location to their home address.

Approximately 70% of staff working at Quehanna Boot Camp had a home address within Clearfield County. Staff had a home address in seven additional counties. In addition to the targeted facilities in proximity to Quehanna Boot Camp, it is possible that some staff may request placement at SCIs Forest, Pine Grove, Frackville, and Mercer to be placed at the closest location to their home address.

Potential Future Cost Avoidances:

Three main categories exist for potential cost avoidance, or what may be considered savings, associated with the proposed closures. The first category reflects short-term operational cost savings, such as reduced utility expenses and lower routine or emergency maintenance needs, following a closure. The second category involves personnel costs—salaries, benefits, overtime, and allowances—which decrease gradually over time through routine retirements and attrition. The third category, averted maintenance, represents long-term savings by avoiding major repairs or upgrades to aging infrastructure.

During public hearings and the comment period, concerns were raised that projected savings from facility closures would not materialize. Like all communities, the Department faces rising costs for utilities, food, fuel, maintenance supplies, and must also absorb salary increases tied to contractual agreements with employees. These uncontrollable, year-over-year increases require an average annual appropriation growth of about 4.5% just to sustain current operations.

The combined operating costs of SCI Rockview and Quehanna Boot Camp account for nearly 4.5% of the Department's $3.3 billion budget.[7] As a result, the savings from closing these facilities are quickly offset by the rising costs of operating the remaining system. While closures may not result in visible surplus funds, they help slow the overall budget growth and reduce future expenditures—yielding meaningful cost avoidance.

[7] The Department's overall budget includes funding for its prisons, community corrections, institutional and parole field services, and agencies which it supports, such as the Pennsylvania Parole Board, Office of Victim Advocate, Sex Offender Assessment Board, and Board of Pardons.

As noted in the Capital Projects and Deferred Maintenance section of this report, the proposed closures could lead to the avoidance of approximately $81 to $100 million in capital expenditures in the short term and allow the Department to invest those funds into critical projects at remaining facilities. Projects on the five-year capital plan sometimes experience failure prior to funding, resulting in expensive emergency repairs. It is possible that additional cost avoidances could be achieved with the ability to reach other priority projects prior to critical failures.

Sunken Investments:

The Department is continually engaged in the upkeep of its facilities to ensure public safety and the health and welfare of both our staff and inmates. Those investments occur when necessary and when capital is available, with projects sometimes being scheduled years in advance, before the possibility of closures are contemplated. While recent capital investments at SCI Rockview and Quehanna Boot Camp may not be fully actualized, the long-term savings in operational, personnel and averted maintenance costs outweigh those impacts. Moreover, recent improvements, such as camera systems, perimeter intrusion detection systems, and other protection systems may be removed and repurposed at other facilities to recover these investments.

Additional Rationale for Continued Operations:

Throughout the analysis period, committee members listened to and processed additional reasons for continued operations of both facilities not addressed elsewhere. Those arguments included:

- Partial operation of SCI Rockview could avoid the most significant maintenance needs of A and D blocks, while continuing to utilize the remaining housing units.
    - While this approach generates some savings by reducing current staffing levels by approximately 13%, it does not reduce the operational costs to maintain the remainder of the facility.
- The cost avoidances associated with the proposed closure of Quehanna Boot Camp are minimal in comparison to the Department's overall budget.
    - While the overall financial savings are less than other facilities, the Department is obliged to serve the Commonwealth as efficiently as it can by reducing underutilized space in all locations.
    - Although not applicable to this report, the Department closed underutilized community corrections space for cost avoidances less significant than those achieved through the proposed closure of Quehanna Boot Camp.

Public Safety Facilities Act Analysis:

The Steering Committee requested and analyzed information from stakeholders, relevant Commonwealth agencies, and affected communities between the announcement of the proposed closures and the delivery of this final report. Consistent with the Act, the Steering Committee weighed the impacts of the proposed closure on the following.

State and Local Resources for the Delivery of Law Enforcement and Care, Custody and Control of Inmates and the Protection of Public Health, Safety and Welfare:

The Department maintains excess bed capacity within its facilities to the extent that the system is operating at less-than-optimal efficiency, with the majority of facilities operating with a staff-to-inmate ratio of less than one staff for every three inmates. Although populations fluctuate daily, approximately 44,900 male beds are available within the Department with approximately 36,051 of those beds occupied as of August 29, 2025. Approximately 1,900 of the remaining beds are lost because of single-cell housing (i.e., Z-codes). After removing the approximately 2,550 and 575 male beds associated with the proposed closures—and factoring in single-cell housing—the Department would retain approximately 3,800 male beds to accommodate the current population fluctuations and manage potential population surges across facilities. Likewise, there are generally 50 or fewer females housed at Quehanna Boot Camp. As of August 29, 2025, approximately 600 female beds were available (accounting for the 38 single-celled inmates) to accommodate these individuals.

Concerns were raised that proposed closures would increase crowding within Department facilities and translate to increases in violence. Based on current populations and trends, male capacity would remain under 90% and female capacity would remain under 80% if closures occur. While it is not possible to predict future outcomes, historical observations do not support this concern.

After the five most recent prison closures, the Department's Bureau of Planning, Research and Statistics found that the Department averaged one less inmate-on-inmate assault and three less inmate-on-staff assaults, in the six-months following a closure in comparison to the six-months preceding a closure. Likewise, the previously mentioned University of Maryland study found no relationship between prison crowding fluctuations (as measured by percentage of operational capacity) and prison assaults during the study period of 2012 to 2014, which included the time following the closures of SCIs Cresson and Greensburg.

The Steering Committee finds that the proposed closures do not adversely impact the resources to maintain care, custody, and control of inmates, nor do the proposed closures reduce the ability to maintain the protection of public health, safety and welfare.

The Workforce of the Public Safety Facility:

The Steering Committee considered the impacts to the workforce from the perspectives of the staff directly affected by the proposed closures and the overall impact to the system workforce. The Department is committed to ensuring all staff are offered employment and mitigating increases in staff commutes to the extent possible, while maintaining fiscal responsibility.

As previously noted, approximately 41% of staff working at SCI Rockview live within Centre County, and staff are commuting from approximately 13 additional counties. Approximately 70% of staff working at Quehanna Boot Camp live within Clearfield County, and staff are commuting from approximately seven additional counties. While the majority of staff are expected to select placement at SCIs Benner Township, Houtzdale, Huntingdon, Muncy, and Smithfield, the Department is committed to ensuring staff are able to select placement at

alternate locations to minimize impacts to their commutes. While subject to negotiation, the Department proposes maintaining a secondary recall list to enable staff to transfer to preferred locations in the future, should they not receive their first choice.

The Steering Committee does recognize that, depending on staff selections, all staff may not be accommodated at their new location with their current shift or post. This matter is subject to the provisions in the respective collective bargaining agreements.

As noted above, the Steering Committee is sensitive to concerns about increased violence. While historical trends do not indicate that prison closures or crowding trigger increases in violence, the Department stands ready to respond with appropriate resources if necessary.

The Department is also committed to ensuring that staff affected by closures have access to the necessary wellness resources to manage stressors. In addition to traditional resources such as the State Employee Assistance Program (SEAP) and Critical Incident Stress Management (CISM), the Department's Recruitment and Retention Teams and Mentoring programs can be a resource to assist staff with acclimating to a new location.

The Steering Committee also considered the potential impacts to the larger workforce of the Department. As previously noted, routine retirements and attrition are expected to result in vacancies. Following increased vacancy rates during the COVID pandemic, the proximity of six facilities in the same geographic region likely contributed to staffing challenges, as they competed for a limited candidate pool. Reducing the number of facilities in this region may ease that competition, helping to stabilize staffing levels at the remaining locations, and potentially reducing mandatory overtime needs across the region.

The Steering Committee is sensitive to the impacts that closures create for its workforce and will remain committed to providing support through applicable transitions.

The State, Regional and Local Economies and Labor Markets:

The Steering Committee received input from L&I, DCED, members of the General Assembly, County Commissioners, Townships, and impacted community members on the potential economic consequences of implementing the proposed closures.

The committee recognizes that it is not possible to eliminate all economic consequences tied to the proposed closures. However, as explained in the reports from L&I and DCED, it is possible to mitigate potential impacts through the intent to offer continued employment to the staff in locations that would enable them to remain in their communities. In part, selection of the proposed locations focused on providing the greatest possibility of employment in locations within proximity to both the proposed sites and staff home addresses to reduce the likelihood of employees leaving their current communities.

The committee was also sensitive to the regional economies affected by the Department's most recent closures occurring in northeastern Pennsylvania with SCI Retreat (2020) and western Pennsylvania with SCI Pittsburgh (2017). The committee sought to minimize repeated impacts to these areas when proposing facilities for closure.

As DCED reports, Centre County's unemployment rate was 3.3% in January of 2025. Since 2021, the county added approximately 5,547 jobs, while the labor force declined by approximately 6,200 between January 2024 and January 2025. Clearfield County's unemployment rate was 5.3% in January 2025. Since 2021, the county added approximately 372 jobs, while the labor force slightly declined by approximately 742 between January 2024 and January 2025.

For approximately 98 years, SCI Rockview was the only SCI in Centre County, before the opening of SCI Benner Township. Even with the existing labor markets, the Department has faced ongoing challenges in maintaining full staffing at SCIs Rockview, Benner Township, and Houtzdale—particularly when there are two facilities located within the same county. This challenge may intensify with the anticipated opening of a new casino in Centre County that is projected to create upwards of 350 direct and 170 indirect jobs in an already competitive market. However, since the Department intends to offer all existing staff continued employment within the region—and historical trends show that nearly all staff remain with the Department—it is unlikely that the proposed closures would cause significant disruption to the regional labor markets.

The committee is hopeful potential economic impacts will be minimized by the Department's efforts to offer staff alternative employment opportunities at locations that may enable them to remain within their current communities.

Financial Resources of State and Local Entities:

The committee considered the financial impact to the Commonwealth in its proposal. The Department is responsible for operating efficiently and safely. Given the size of the agency, growth in annual appropriations is significant, to maintain current operations. Slowing the rate of growth by offsetting the costs of continued operations and associated future budgetary growth at the proposed facilities is prudent when there is sufficient capacity within the system to do so safely.

Because all inmates will be relocated to other Department facilities, the closures will not shift the economic responsibility for inmate care, custody and control to local governments or communities.

Through the Public Safety Facilities Act's analysis period, the committee learned that Karthaus Township relies on the $11,000 tax revenue associated with employment at the Quehanna Boot Camp and a $27,000 payment in lieu of taxes from the state forest land in the township. The committee recognizes that a reduction in revenue from employees may affect services or lead to an increase in local taxes. Because DCNR makes the payment and owns the property and buildings associated with the Quehanna Boot Camp, the $27,000 payment is a matter outside the Department's purview.

In addition to the local economic activity and spinoff jobs generated by the facility operations, the committee learned that Centre County relies on per capita funding tied to both employee and inmate populations in the county. To help lessen the impact, the committee endeavors to provide affected employees positions at nearby locations, allowing them to remain in their current communities. Additionally, it is likely that a portion of inmates from SCI Rockview would

transfer to SCI Benner Township to fill vacant housing units, mitigating some anticipated per capita losses.

The committee is optimistic that strategies to ensure continued employment of current employees within the economic region will mitigate strains on the financial resources of local entities.

The Feasibility of Reusing or Repurposing the Public Safety Facility, Including Recommendations to Make Best Use of Available Resources and Programs:

Repurposing and reusing carceral facilities is challenging. Given the age, design, and intended use of SCI Rockview, the facility is not readily adaptable or inviting for another business or organization to immediately occupy. Moreover, the infrastructure needs and utility costs make renovations unlikely and out of financial reach. Absent an interested buyer should the facility be surplused through closure; demolition of the buildings is recommended.

The Department operates the Quehanna Boot Camp through a Memorandum of Understanding (MOU) with DCNR. Should the Department disengage from the MOU through a closure of the facility, the property would revert to DCNR for repurposing and reuse. The Department is committed to collaborating with DCNR to ensure a smooth and cooperative transition of the property and resources.

The programs operated at each of these sites would be transferred to another SCI following a closure and continue without interruption.

Conclusion:

After conducting a careful and deliberate analysis and receiving extensive stakeholder feedback, the steering committee concludes that the proposals to close SCI Rockview and Quehanna Boot Camp will provide the greatest opportunities for our staff, enable the continued care, custody and control of inmates and mitigate the worst of the economic consequences for communities that host our facilities.

The Department of Corrections has an annual budget of approximately $3.3 billion. This is a significant amount of the Commonwealth's overall budget, which increases on average by about 4.5% annually, or well over a hundred million dollars each fiscal year. This financial obligation creates intense scrutiny as state officials compete to fund necessary services for all constituents and the Department has an obligation to cut its costs where it is reasonable to do so, safely.

While the committee ultimately arrived at a unanimous decision, it did so only after careful deliberation and consideration, with the understanding that the benefits of closure must clearly outweigh the potential consequences—without compromising public safety or the overall mission of the Department. The committee identified the following benefits of closing SCI Rockview and Quehanna Boot Camp:

- Opportunities for staff to be reassigned within a manageable driving distance following a closure.
- Minimizing economic consequence to communities by offering continued employment to all staff affected by closures.

- Alignment of bed space with the inmate population.
- Pairing remaining housing with the mobility needs of an aging population.
- Improved utilization of specialized housing beds within other Department facilities.
- Averting significant maintenance needs associated with facilities whose designs are outdated and misaligned with modern penal philosophy.
- Eliminating the public safety risk associated with the lack of perimeter fencing.
- Slowing the growth in appropriations necessary to sustain the Department.
- Reducing existing vacancy rates and foreseeable retirement attrition through reallocation of staff.
- Decreasing hiring competition observed when facilities are within close proximity.
- Maintaining specialized programs and services within other Department facilities.

For the reasons outlined in this report, the Department's Steering Committee concludes that SCI Rockview and Quehanna Boot Camp are appropriate for closure. In accordance with the Public Safety Facilities Act, the Steering Committee respectfully submits this report to Dr. Laurel R. Harry, Secretary of Corrections, for transmittal to the Governor, the Majority Leader and Minority Leader of the Senate and the Majority Leader and Minority Leader of the House of Representatives.

After submission of this report to the aforementioned, the Steering Committee further recommends that the Department of Corrections exercise its authority under the Public Safety Facilities Act to elect to close the facilities no sooner than four months from the date of announcing this decision.

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF CORRECTIONS

February 10, 2025

Dear Collective Bargaining Unit Officials,

Act 133 of 2018, (Public Safety Facilities Act), requires written notification to stakeholders at the time a closure of a public safety facility is reasonably proposed.

This letter will serve as the official notification that the Department of Corrections is proposing the closures of the State Correctional Institution at Rockview and the Quehanna Boot Camp. The Department will formally begin reviewing all pertinent data and variables of the facilities to issue a final determination no sooner than three months from the date of this letter.

In order to properly evaluate all factors, we are requesting information from other Commonwealth agencies and stakeholders on the impacts of the closure to the local area which could include, but are not limited to the following:

- State and local resources for the delivery of care, custody and control of inmates and the protection of public health, safety and welfare
- Workforce of the facility
- State, regional, and local economies and labor markets
- Financial resources of state and local entities
- Feasibility of reusing or repurposing the facility, including recommendations to make the best use of available resources and programs

We are requesting all information referenced above be sent to ra-crStakeholderResp@pa.gov by no later than April 4, 2025.

As required by the Act, the Department will schedule a public hearing within both Centre County for SCI Rockview and Clearfield County for Quehanna Boot Camp at times and locations to be determined.

Sincerely,

Laurel R Harry

Dr. Laurel R. Harry, Secretary
PA Department of Corrections

Governor Joshua Shapiro
508 Main Capital Building
Harrisburg, PA 17120

Re: Concerns Regarding the Closure of Rockview State Prison/Quehanna Boot Camp

Dear Governor Shapiro:

The Benner Township Board of Supervisors wish to express a strong opposition to the proposed closure of the Rockview state prison and the Quehanna Boot Camp. There are several key concerns driving this stance:

Loss of Family-Sustaining Jobs

The closure of Rockview state prison threatens to eliminate many family-sustaining jobs, which are crucial to the local economy. These jobs not only provide stability for the families of employees but also contribute significantly to the community through various forms of tax revenue as well as support the local economy through the purchase of goods and services.

Impact on Local Tax Revenue

The loss of the prison would diminish tax revenue for local municipalities and school districts. This reduction in funds could have long-term negative consequences for public services and educational institutions, potentially affecting the overall welfare of the community.

Increased Commute Times

Relocating employees to other facilities would result in longer commute times, potentially adding hours to each workday. This strain can have severe implications on family dynamics, including the challenge of finding adequate childcare to cover the extended hours needed for travel to and from work.

Attachment B

Inflated Rehabilitation Numbers

Employees have reported that some improvements listed as necessary for the facility have already been completed. This discrepancy suggests that the rehabilitation costs might be inflated and not accurately represent the current state of the facility.

Conflicting Information

Conflicting information has been provided regarding the number of occupied versus available beds. Correctional officers have indicated that there has been a change in classification of what constitutes a bed, which needs to be revisited to ensure that accurate information is being used in the decision-making process.

Potential for Revitalization

Representative Takac's informational meeting revealed several ways that the Rockview Facility could be revitalized at a lower cost than what has been presented. This facility uniquely offers multiple "shops" that teach inmates valuable skills for employment post-incarceration.

Request for Reanalysis

In conclusion, before any final decisions are made about the closure of the Rockview facility and the Quehanna Boot Camp, the information being used should be fact-checked and reanalyzed. The Board of Supervisors advocates for a thorough review to ensure that decisions are based on accurate and comprehensive data.

March 20th, 2025

To whom it may concern:

The Board of Supervisors of Graham Township, Clearfield County would like to voice their opposition of the planned closure of the Quehanna Boot Camp in Clearfield County and Rockview Correctional Facility in Centre County.

These facilities are invaluable assets to our community and surrounding communities. Quehanna Boot Camp plays a vital role in reducing recidivism.

The residents of Graham Township benefit from labor provided by the Boot Camp every year to help with maintenance and repairs in our community park. Many of our residents are employed by Quehanna Boot Camp and some also by Rockview Correctional Facility.

If these facilities are closed many of our residents and residents of neighboring townships will lose their jobs or have to be relocated for work. The local municipalities will also lose the help that they receive from the labor that the boot camp provides to us for various projects.

We ask that you take this into consideration before making the decision to close these facilities.

Thank you,

Sincerely,

Chairman of the Board of Supervisors

Mechanicsburg, PA 17050

Dear Dr. Harry:

The Burnside Township Board of Supervisors is writing this letter in support of the Quehanna Boot Camp in Karthaus and SCI Rockview in Bellefonte. We are adamantly opposed to the closure of these facilities.

The Quehanna Boot Camp is a perfect example of the ultimate goal of the Department of Corrections which is to reduce repeat offenders. The facility offers education, training and mental health services. These services reduce recidivism and Quehanna has the lowest recidivism rate in the Commonwealth. Quehanna produces the most GEDs in the state prison system with the percentage of GEDs at 30%. The programs at Quehanna prepare inmates for a successful reentry into society. The bottom line is the Quehanna Boot Camp works.

With fewer prisons due to the closing of Quehanna Boot Camp and SCI Rockview, there will be a higher prisoner population in other prisons. Prison overcrowding causes increased chances of violence.

As public officials, we ask that you reconsider the closure of these two facilities not just for our community but for the wellbeing of the entire Commonwealth of Pennsylvania.

Sincerely,
Burnside Township Board of Supervisors

RE: Proposed Closure of SCI Rockview and Quehanna Boot Camp

Dear Secretary Harry,

We are respectfully writing in response to the Department of Corrections' (DOC) recent announcement to close SCI Rockview and the Quehanna Boot Camp. While neither location is located within Clinton County's border, we are home to a considerable number of staff that travel to the site for sustainable, family supporting employment. Approximately 130 of our residents would be affected by this decision.

The closure of the Centre County facilities would force our residents, should they be fortunate enough to qualify for a transfer, to commute even farther for their chosen career. What is now a thirty-to-forty-minute one way drive would result in an hour or more. This imposition will most likely result in the DOC losing personnel. As we both know, corrections have become an area of constant need.

Clinton County is a very rural, sparsely populated, blue-collar county. We, as commissioners, have struggled to increase our tax base, retain residents, and recruit industry to provide good paying jobs. This decision could result in residents moving out of our communities and even leaving the Commonwealth. This scenario is not something we, or the Commonwealth can afford. The decision to close these facilities could have very broad ripple effects, costing Pennsylvania much more in the long term than any projected savings.

We sympathize with the difficult decisions that need to be made. However, the investment in solvency of the facilities would be an investment in the counties who rely on them to provide jobs. These jobs go beyond the payroll of the DOC. Contractors, services, and other subsidiaries will also feel the pain of any closures. The economic loss to our region and our county would be extremely significant as can be witnessed in your recent letter from the Centre County Commissioners.

Clinton County stands with our neighbors, Centre and Clearfield Counties in kindly requesting your reconsideration of the fate of SCI Rockview and Quehanna Boot Camp.

With Respect,

James A. Russo, Chairman

Jeffrey A. Snyder, Vice Chairman

Angela Harding

Dr. Laurel Harry

Secretary of Corrections

1920 Technology Parkway

Mechanicsburg, PA 17050

March, 10, 2025

Dear Secretary Dr. Laurel Harry,

The LeContes Mills Volunteer Fire Company respectfully requests that the Quehanna Boot Camp be kept open. We encourage you to not close the largest employer in Clearfield County with 234 employees. Clearfield County that is tied for 8th and 9th in for highest unemployment within Pennsylvania. In 2026 – 2027 the Clearfield Campus of Commonwealth University, another large employer in Clearfield County will also be closing. The Big Lots store in Clearfield is in the process of closing, and recently it was announced that the Penn State Dubois campus is on the list under consideration for closing. Penn State Dubois has 39 academic positions with an untold number of maintenance, landscaping, and clerical positions that may be lost. The US Census shows a declining number of jobs locally, as well as a decreased population rate in 2020 from 80,000 to 77,000 in 2023 in Clearfield County. This trend is unsustainable and detrimental to our entire community.

The Quehanna Boot Camp employees live in our communities and are our neighbors. They support our fire company through donations and attending events that we hold to keep our fire company financially viable. They also patronize local small businesses like Friday gas, Benton's Market, the Redwood Inn, Stiner's Garage, and other local establishments. The loss of these employees will negatively impact all local businesses by decreasing their income.

Per US Census Quick Facts, the median household income in 2023 for Pennsylvania was $76,081, but the median household income for Clearfield County was $60,181. The average median income for Clearfield is a whopping 21% less that the statewide average. 22.6% of Clearfield County's population is over 65 years of age and 15.4% of the population are at the poverty level.

While on the face, it may sound feasible to offer current employees jobs at other SCI facilities, that's not exactly true. Nearby SCI Rockview is also slated for closure and has 658 employees that will be displaced as well and be in direct competition for all jobs at any nearby SCI facilities. Additionally, it's not always feasible to tear up roots and move, or commute long distances to another SCI facility for work. Family ties or working spouses may prohibit such a move.

The Quehanna Boot Camp is a unique facility located near Karathaus, PA. In addition to the Boot Camp Program, this paramilitary facility is the primary facility in Pennsylvania for the State Drug Treatment

Attachment B

Frenchville PA. 16836
(814)263-4015

Program (SDTP), and it accommodates both male and female inmates. During the summer of 2024 a multi-million dollar project was completed to update and upgrade the facilities at the Quehanna Boot Camp. Nor is the installation of a multi-million dollar security fence needed. Security at the facility is very good and only 3 escapes have been recorded over the 33 year history of this facility.

Prior to becoming governor, then Attorney General Josh Shapiro championed the creation of a Law Enforcement Treatment (LETI) at the Boot Camp. This is Pennsylvania's sole, unique diversionary program and has been extremely successful. I encourage you to review the following 2018 U Tube video below that speaks volumes about the importance of this facility to Pennsylvania and the inmates who highly praise the program at the Boot Camp.

https://www.youtube.com/watch?v=B9W9RnXSz1c

On April 10, 2025 the Department of Corrections will hold a public meeting at 5 pm at the Community Alliance Church at 34136 Frenchville Karathaus Highway, Karathaus PA. We hope that you, or your designated representative can attend to support and learn more about this crushing economic blow to our community.

In closing, we the LeContes Mills Volunteer Fire Company respectfully request that you support our request to reconsider the decision to close the Quehanna Boot Camp. If the Boot Camp closes it will be a severe blow to one of the counties with the highest unemployment rate in Pennsylvania, and a median household income that is 21% lower than the state average median income.

Re: Department of Corrections Steering Committee report recommending the closure of State Correctional Institution (SCI) Rockview and Quehanna Boot Camp

Dear Dr. Harry,

I write to express my concerns with the proposed closure of SCI – Rockview and Quehanna Boot Camp, both located within Pennsylvania's 15th Congressional District. While I fully appreciate the Department of Corrections' (Department) goal of efficiently utilizing resources, the potential for harmful impacts upon staff, our community, and incarcerated individuals at both facilities remains troubling.

Between the two facilities, there are nearly 900 dedicated correctional officers, administrative personnel, and support staff who have committed to maintaining safety and order. While it has been suggested these employees would be offered a new position within the Department of Corrections at their existing rate of pay and classification, many face disruptive relocations, which can have lasting impacts upon families and communities. As I have heard directly from constituents employed at both facilities, the addition of up to 65 miles each way for a daily commute would create significant financial and safety concerns, especially for those working mandated overtime hours. I remain concerned that without a comprehensive transition plan, these employees and their families are left with uncertainty, forcing many to reconsider their future with the Department.

A recent U.S. Department of Justice Inspector General report found that, "understaffed prisons with overburdened employees create security and safety issues."[1] This also holds true within the Pennsylvania Department of Corrections. The closure of SCI Rockview and Quehanna Boot Camp will not reduce the number of incarcerated individuals; rather, it will simply transfer the responsibility of overseeing larger inmate populations to other institutions, which may not be equipped to handle the increases. According to the Department's data, the closure of these facilities would result in the inmate capacity across the Department's facilities dropping from 18.3 percent to approximately 12.5 percent.[2] Larger prison populations can lead to more mandatory overtime, the reassignment of non-correctional officers to work in correctional officer posts, and a much higher attrition rate over a shorter period of time. Requiring SCI

Rockview and Quehanna Boot Camp employees to relocate will inevitably result in many choosing to leave the Department altogether, further exacerbating the Department's noted vacancy rate.[3]

While the Department has stated that SCI Rockview requires at least $70 million in renovations to remain viable, it is my understanding that many of the renovations have already been completed – including the installation of new windows, roofing and fencing, repaved parking lots, and updated razor wire. Materials for additional roof repairs are already on-site at SCI Rockview, and the boiler system – which services both SCI Rockview and SCI Benner – must be maintained regardless of SCI Rockview's status. Given these revelations, I believe it would be prudent for an independent and transparent financial assessment to be conducted to ensure the current state of the facilities is accurately reflected prior to any final decision.

Additionally, the displacement of inmates poses logistical and humanitarian challenges. The abrupt closure of facilities could lead to overcrowding in remaining institutions, which may strain resources and compromise rehabilitation efforts. Relocating these individuals to facilities that may lack the capacity or specialized resources needed, such as dementia care units, behavioral management units, and infirmary services, risks severe disruptions to their rehabilitation and safety. Further, SCI Rockview's Correctional Industries shop provides valuable job training and produces furniture for state agencies and local institutions, a program that will be lost if the facility is closed. It is imperative that the Department prioritize the safety and well-being of both correctional staff and inmates, and I have yet to see a comprehensive plan that would address these issues.

Beyond the direct impact on staff and inmates, shuttering these facilities would have significant economic consequences for the surrounding communities. Beyond the stable employment opportunities, these facilities generate substantial economic activity in Central Pennsylvania. If these closures proceed without adequate planning, we risk long-term financial hardship and a decline in essential services in these areas. Therefore, it is critical that a thorough assessment of any potential economic impacts be conducted, including efforts to support affected communities with economic development initiatives and workforce retraining programs.

A collaborative approach involving local leaders, corrections personnel, and impacted communities is essential to mitigate negative consequences and ensure a responsible path forward. Absent of these actions, I remain deeply concerned with the Department's proposal.

Again, thank you for your consideration. I look forward to your timely reply.

Sincerely,

Glenn "GT" Thompson

Re: Quehanna Boot Camp Closure

Dear Secretary Harry:

Please accept this letter as an expression of our opposition to the proposed closing of the Quehanna Boot Camp. We believe that the Department of Corrections would be making a grievous error financially as well as eliminating an effective rehabilitative program by doing the same.

It is our understanding that, as reported in 2022, the statewide recidivism rate for prison inmates is a dismal 47.9%. However, the recidivism rate for participants in the Boot Camp program is 25.1%. Three out of four graduates of the same are able to reintegrate back into society and lead productive lives.

When one considers the aforesaid, one quickly realizes how successful the Quehanna Boot Camp program is. The strict but fair discipline combined with the vocational training and drug and alcohol counseling combines for an effective program of rehabilitation. Elimination of the program makes no sense.

The Steering Committee cites potential savings of approximately five (5) million in operational costs if the Boot Camp is closed and more than one hundred (100) million in future savings when combined with the potential closing of Rockview SCI.

However, the Committee is ignoring the millions of dollars in cost savings to the taxpayer brought about by the low re-incarceration rate amongst the Boot Camp graduates. Millions of dollars will also be generated from the wages of successful graduates entering the workforce.

Clearly, more money will be saved in the long run than lost by closing the Boot Camp.

The Commissioners would also like to point out an error in the Steering Committee's report. The Committee references 5.7 million dollars in needed upgrades at the facility involving paving, HVAC, and generators. Those same dollars were spent in 2024 and the upgrades have been accomplished. A facility closing will only result in slightly more than five (5) million dollars of the taxpayers dollars being wasted.

The greatest harm that we see with the closing of the Boot Camp is the loss of over two (2) hundred jobs and the impact that the same has on our workforce and population. One has to apply economics of scale in approaching situations such as this.

The loss of two (2) hundred to three (3) hundred jobs in a rural county such as Clearfield County is significantly more impactful than in a rural area. Urban areas have the potential to absorb the numbers because of having numerically more employers. We believe the Department of Corrections should consider urban sites prior to considering rural areas.

We do know that all employees will be offered jobs within a 67-mile radius of the Boot Camp. However, 67 miles is an hour and a half drive one way in rural Pennsylvania. Many employees live close to the Quehanna. The burden and cost of the new, long drive will force many to move from Clearfield County.

The Center for Rural Pennsylvania reports that, between 2025 and 2050, Clearfield County will lose 7.8% of its population. This is a significant challenge facing our County. The additional potential loss of residents with the closing of the Boot Camp program only exacerbates the problem.

Finally, re-purposing the Boot Camp property will be extremely difficult. The site was originally built in 1957 for the Curtis Wright Corporation for the design and testing of jet engines. The remote location was ideal for the same because of noise.

It is also a perfect location for a program such as the Boot Camp. Despite the Committee's claim to the contrary, there is and never will be the need for a security fence due to it's rugged and wooded location. Low security inmates who won't endanger the local inhabitants have no place to go.

However, this remoteness makes it very difficult to find another use for it. The site will undoubtedly sit empty for a very long time.

In conclusion, therefore, we respectfully ask the Department of Corrections not to close the Quehanna Boot Camp. It is an effective program that generates savings to the Commonwealth rather than unbearable costs. The Commonwealth will only be making a mistake by closing it.

Sincerely,

Tim Winters, Chairman

RE: Proposed Closure of Quehanna Boot Camp

Dear Governor Shapiro,

On February 7, 2025, the Department of Corrections Steering Committee authored a report that recommends the closure of the Quehanna Boot Camp in Clearfield County. I have reviewed that report and other publically available documents authored by the Department of Corrections ("DOC"). Based on all of those documents, I strongly disagree with the conclusion to close the Quehanna Boot Camp and note some glaring omissions by the Committee.

In 1991, the Department of Corrections began operating the Quehanna Boot Camp as an alternative to incarceration behind fences and razor wire. Participants that successfully complete the six-month military style basic training program are then paroled. During their time at the Boot Camp, participants are given daily structure to create discipline in their lives, behavioral therapeutic techniques to address criminal tendencies, and an education to set them up for success upon their release.

First, in looking to the results of the Quehanna Boot Camp Program, the Department of Corrections in its 2022 Recidivism Report states that the overall re-incarceration rate for the entire state correctional system was 47.1% for those within three years of release. On the other hand, the re-incarceration rate for those within three years of completing the Quehanna Boot Camp Program is 25.12%, which is a staggering 22% difference. Per the Justice Reinvestment Initiative 2 ("JRI2") program information pamphlet for the Quehanna Boot Camp Program, the Boot Camp Program has successfully graduated over ten thousand (10,000) individuals from June 1992 to October 2020, and has had a total cost savings to the taxpayers of almost $99,000,000 from 1999 through 2020. Thus, the Boot Camp Program has saved the taxpayers a little less than $5,000,000 a year for the past twenty (20) years.

Additionally, the State Intermediate Punishment Program ("SIP") was housed at the Quehanna Boot Camp, which became the State Drug Treatment Program ("SDTP")

following the passage of the Justice Reinvestment Initiative 2 ("JRI2") Act 115 in 2019. The SIP Program, per the 2018 performance report, had a three year recidivism rate of 37%, which is also substantially below the recidivism rate for the entire state correctional system and is a cost savings to the taxpayers.

Per the Department of Corrections 2022 Recidivism Report, both of the programs at the Quehanna Boot Camp (i.e. the Boot Camp Program and the SIP/SDTP) had an overall positive impact on recidivism for the entire state correctional system. The Boot Camp Program had a net positive impact between 9.5-18% and the SIP/SDTP had a positive impact of between 15.3-44.6%. What is not clear from the DOC 2022 Recidivism Report is if the location of where the program was administered had an impact on those recidivism rates. As the February 7, 2025 DOC Steering Committee states, "the SDTP already operates in alternate locations, including SCIs Cambridge Springs for female SDTP eligible candidates, and SCI Houtzdale and SCI Laurel Highlands for male SDTP eligible candidates who do not meet the criteria for housing at the Quehanna Boot Camp." This is an important factor to take into consideration because one of the important aspects of the Quehanna Boot Camp is that it creates of sense of trust in the participants and empowers them because they are not confined behind a fence and razor wire. This is a very different environment than the other facilities operated by the Department of Corrections, and should be specifically studied and be part of the analysis before any such decision to close the facility is finalized.

Second, in regards to the budgetary considerations mentioned in the Steering Committee's Report of February 7, 2025, the Committee highlights some costs associated with the operation of the Quehanna Boot Camp and anticipated savings by closing the facility. The Committee states that a secured perimeter would need to be installed at a cost of at least $6,000,000-7,000,000, and that the facility needs approximately $5,700,000 in updates to include generators, paving, and HVAC. Further, the Committee states that the, "Quehanna Boot Camp's most recent complete fiscal year expenditures (FY22-23) were approximately $34M, of which, approximately $29M was allocated to personnel costs. Closure of the facility would potentially offset approximately $5M in operational costs, ..."

The issue with these statements are that they are not provided in the proper context. First, one of the key features of the Quehanna Boot Camp is that it does not have and has never had a security fence or razor wire. The participants, as part of the program, are provided a level of trust to not run from the facility or they will be expelled and placed back in one of the other state correctional institutions for the duration of their minimum sentence. Thus, the $6,000,000-7,000,000 cost to secure the perimeter is not an expense the DOC should be considering. Second, the report acknowledges that closing the facility would potentially save the taxpayers $5,000,000 in annual operating costs. However, as was previously pointed out in this letter, the Boot Camp Program itself saves the taxpayers a little less than $5,000,000 on average annually. Thus, shutting down the Commonwealth's only Boot Camp Program could result in a roughly net zero effect on the

DOC's budget. However, it could likely result in additional costs over time to taxpayers due to an increase in recidivism rates caused by the closing of this successful program and facility.

Finally, the report incorrectly states the 'convenience' for the employees at the Quehanna Boot Camp to relocate to another state correction facility. Many of the employees at the Quehanna Boot Camp reside in the northeast portion of Clearfield County, and I know this because a number of these employees are from my home town of Frenchville (less than 10 miles from the Boot Camp). In the Committee's report, they provide four facilities that are within 67 miles of the Boot Camp, and these facilities are SCI Houtzdale (50 minute drive), SCI Benner Township (45 minute drive), SCI Huntingdon (1 hour 20 minute drive), and SCI Smithfield (1 hour 20 minute drive). None of these options are 'convenient' for the employees at the Quehanna Boot Camp. Additionally, the Committee failed to address the fact that many of the employees from SCI Rockview will likely transfer to SCI Benner Township that is on the same property in Centre County, which means SCI Benner Township is not a viable option for most, if not all, of the employees at the Quehanna Boot Camp.

Prior to becoming Governor, you promoted diversionary programs as the then-Attorney General. You even came to Clearfield County to applaud the creation of a Law Enforcement Treatment Initiative ("LETI") Program here and encouraged the judge to institute a drug court program. The closing of the Commonwealth's unique, sole, and proven diversionary program facility is contradictory to the stance you took just a few short years ago. I wholeheartedly encourage you and the Department of Corrections to reconsider the closing of the Quehanna Boot Camp, and instead look for cost savings measures elsewhere in the DOC's over three billion dollar budget.

Thank you for your time and consideration in regards to this matter, and if you have any questions, comments, or concerns, please do not hesitate to contact me.

Sincerely,

Ryan P. Sayers,
District Attorney of Clearfield County

RE: Proposed Closure of SCI Rockview and Quehanna Boot Camp

Dear Secretary Harry,

We are writing to you today in response to the Department of Correction's (DOC) announcement regarding SCI Rockview and the Quehanna Boot Camp. The DOC Steering Committee's February 7, 2025, report cites operational costs and personnel costs (i.e., copious amounts of overtime) as two root issues plaguing the Pennsylvania Department of Corrections. To resolve these issues, the steering committee proposed the closure of SCI Rockview and Quehanna Boot Camp. This letter elucidates our strong opposition to this proposal and has twin goals: to demonstrate that the proposed closures do not address the root issues and to lay out a preliminary model of the resulting economic impacts to the counties of Centre, Clearfield, and Clinton.

Considering Solvency

The Steering Committee's report cites costs related to renovations, employee placements, inmate placements, and ongoing operating costs as justifications for the proposed closures. Much of the logic underlying these justifications, however, is myopic—emphasizing short-term results and hinging on unknown contingencies.

The report estimates renovation costs for SCI Rockview and Quehanna Boot Camp at $74M and $5.7M, respectively. The steering committee posits that closing these facilities will allow the Commonwealth to avoid these renovation expenditures; however, significant components of these renovations have either already occurred or would be slated to occur regardless of whether the facilities remain in operation. For instance, testimonies from inmates and staff at SCI Rockview confirm that fencing, roof repairs, and updates to the boiler system, among other renovations, have already been completed.

Efforts to redistribute employees in the SCI workforce across Central Pennsylvania after the proposed closures would be untenable. Between SCI Rockview and Quehanna Boot Camp, there are 892 employees, all of whom are guaranteed positions if these facilities close. What is not guaranteed, though, is their job security beyond the closure period. The three closest alternate facilities (i.e., SCI Benner Township, SCI Houtzdale, and SCI Smithfield) have 88 current vacancies. Eighty-eight positions for 892 employees. The number of viable

Willowbank Office Building, 420 Holmes Street, Bellefonte, PA 16823-1488 Telephone (814) 355-6700 FAX (814) 355-6980

positions further decreases when considering which positions are available at a given facility. For example, one corrections officer noted that SCI Benner Township does not employ CNAs, so the talented CNA staff from SCI Rockview may not be reassigned to their closest alternate facility due to position offerings. The steering committee tries to quell these concerns by identifying the number of employees eligible for retirement, whose positions could be filled long-term by the transplant employees. Still, if or when these employee transfers yield fiscal gains is unclear. The ripple effects of bumping thousands of SCI staff Commonwealth-wide will devastate recruiting and overtime costs, possibly for years. Indeed, the report reads as follows:

> "The timeline to achieve a full net reduction of the current staffing complements of these facilities is difficult to forecast, without additional information to determine how many employees may retire, how many will replace retiring staff at other locations, and whether (and for how long) some facilities will operate over complement."

Similarly, the proposal suggests relocating 2,148 inmates from SCI Rockview and 348 inmates from Quehanna Boot Camp. Although this relocation is logistically feasible, we identify substantial deleterious effects from doing so. For many inmates, relocation would remove them from specialty programs whose success has not been replicated at different facilities, such as the Quehanna Boot Camp Program, State Intermediate Punishment Program, State Drug Treatment Program, the Pennsylvania Correctional Industries woodshop and furniture restoration shops, and the Forestry Unit. These programs have repeatedly demonstrated that they promote rehabilitation and significantly reduce recidivism. Relocation can also pose threats to the physical safety of inmates, especially vulnerable populations, such as Mental Health Roster Inmates at SCI Rockview. In a letter to the Commissioners, an inmate at SCI Rockview expressed the following concern:

> "Imagine the unintended and reckless impact of potential violence like; assault, rape, and extortion the most vulnerable would likely be subject to. To use a common and demeaning predatory prison term, we would be "Fresh Meat" to predators at another facility."

Finally, the proposal purports that closing SCI Rockview and Quehanna Boot Camp can save operating costs, but these savings are likely overstated for at least two reasons. First, as previously stated, the closures do not avoid a substantial portion of the estimated $79.7M renovation costs. Second, programs that reduce recidivism save taxpayers money, and removing inmates from those programs would effectively increase operational costs. In a letter to the Governor regarding the closure of SCI Rockview and Quehanna Boot Camp, Clearfield County District Attorney Ryan P. Sayers wrote,

> "The Boot Camp Program has successfully graduated over ten thousand (10,000) individuals from June 1992 to October 2020 and has had a total cost savings to the taxpayers of almost $99,000,000 from 1999 through 2020. Thus, the Boot Camp Program has saved the taxpayers a little less than $5,000,000 a year for the past twenty (20) years."

What is consistent across these arguments is their short-term focus. We can remove the urgency of renovations if people are not housed there, but we cannot eliminate all renovation costs. We can transplant employees, but we cannot guarantee longevity in their placements. We can relocate inmates, but we cannot replicate the ecosystems of SCI Rockview and Quehanna Boot Camp that have proven so beneficial to inmates. SCI Rockview and Quehanna Boot Camp have a proven, multi-decade record of effectiveness. Simply moving the inmates to another facility, without a complete transfer of staff and culture, will not be as effective. As

Willowbank Office Building, 420 Holmes Street, Bellefonte, PA 16823-1488 Telephone (814) 355-6700 FAX (814) 355-6980

detailed above, these moves are likely to fail to ensure a level of effectiveness consistent with existing programs. You will not be able to transfer the entire staff of both Rockview and Quehanna to another facility. Finally, you can make cuts and adjustments now, but in the future, we will reap what we sow—as the costs are redistributed. At best, closures may achieve savings in the short term, but they do not solve the root causes of cost growth and will likely introduce new, harder-to-resolve issues.

Modeling the Economic Impact on the Tri-County Area

While the efficacy of closing SCI Rockview and Quehanna Boot Camp as a long-term means of savings costs is uncertain, the economic impact on the region is certainly negative. From the $300,000 in economic activity generated by SCI Rockview's Forestry Unit to the wages of the employees, there are many ways in which the closure of these facilities will detract from the economic health of the tri-county area (i.e., Centre, Clearfield, and Clinton counties). Here we offer a preliminary view of the anticipated economic impact these closures will have on the region (see table below).

First, there will be a notable decrease in corrections jobs from the region. Of the 892 employees from SCI Rockview and Quehanna Boot Camp, we estimate 20% of employees (178) would remain in the region to work at SCI Benner, SCI Huntingdon, and SCI Smithfield, meaning a long-term loss of 714 jobs in the region. The steering committee's report alludes to over 900 positions being available, but these estimates are likely inflated. As we have pointed out, there are limited vacant positions currently available, not all facilities offer the same positions, and the majority of the steering committee's proposed vacancies are not *actually* vacant but filled with employees who *may* be retiring soon. Given these reasons and that the committee's report admits the uncertainty in balancing retiring and transferring employees, our estimate reflects a more realistic representation of the impact of the closures on the local workforce.

Second, there will be changes in the population, which will also have economic consequences. Adjusting for the average family size (2.3 people), those 714 corrections employees who will likely leave the county have now more than doubled to 1,643 people. In addition to losing the people in those families, the region would lose 2,496 inmates from SCI Rockview and Quehanna Boot Camp. In total, that is 4,139 people for whom goods and services will no longer be purchased from local vendors. Thousands of people for whom local governments will no longer receive per capita funding. Thousands of people whose wages and economic activity will be lost in this region.

Finally, there will be direct and imminent monetary loss in the tri-county area. Considering the median income for a corrections employee ($70,333) and the number of employees we estimate to lose (714), we estimate over $50.2M in lost wages annually from the corrections industry alone. These losses are also felt in the spinoff jobs created from the corrections industry. That is, each corrections employee and their family is estimated to support one additional job or $50,000 worth of economic activity in the local economy. For the 714 corrections employees estimated to exit the local economy, that translates into $35.7M in annual loss from spinoff jobs. SCI Rockview and Quehanna Boot Camp also purchase goods and services from local vendors, generating another estimated $32M in economic activity each year. Lastly, per capita funding allocations will also change as our population changes. Estimating at least $10 for each of the 4,139 employees, family members, and inmates being relocated, that equates to $41,390 lost annually in per capita funding for local governments. In total, this amounts to over $117M lost per year, and these are conservative estimates that do not include healthcare and other benefits received by Rockview and Quehanna staff.

Willowbank Office Building, 420 Holmes Street, Bellefonte, PA 16823-1488 Telephone (814) 355-6700 FAX (814) 355-6980

Conclusion

The $120 million savings proposed from the closure of Rockview and Quehanna are likely an illusion. A substantial portion of the estimated costs for capital improvement projects mentioned are already finished, are underway, or include valuable custom-manufactured components already purchased that cannot be used elsewhere or returned. The ripple effects of thousands of DOC staff being bumped in an ever-widening chain reaction will create havoc with staffing, recruiting, and overtime for years to come. Should the number of incarcerated individuals at state correctional institutions increase at some point in the future, the cost to build a new facility of the size of Rockview is estimated at well over $300 million. In addition to employees and their families, there would be significant harm to the citizens and the economies of Centre, Clearfield, and Clinton counties resulting from these closures. Ultimately, any savings at the state level are being taken from the local counties in the form of losses. We strongly urge you to reconsider your proposed course of action before a potential disaster occurs.

To: CR, DOC Close <RA-CRDOCCLOSE@pa.gov>
Subject: [External] Opposition to the Proposed Closures of Quehanna Boot Camp and SCI Rockview

ATTENTION: *This email message is from an external sender. Do not open links or attachments from unknown senders. To report suspicious email, use the Report Phishing button in Outlook.*

We are writing to formally express our strong opposition to the Pennsylvania Department of Corrections' (DOC) recommendation to close Quehanna Boot Camp in Clearfield County and the State Correctional Institution (SCI) Rockview in Centre County. These proposed closures would have significant adverse effects on our local communities, economies, and the state's correctional system.

Economic Impact
The closure of these facilities would result in the loss of approximately 888 jobs—658 at SCI Rockview and 230 at Quehanna Boot Camp. These positions provide essential employment and contribute substantially to the local economies. Centre County Commissioners estimate that the closures could lead to a loss of more than $117 million in economic activity.

Operational and Safety Concerns
SCI Rockview, established in 1915, requires significant infrastructure investments, with an estimated $74 million needed over the next five years for necessary upgrades. However, closing SCI Rockview could lead to overcrowding in remaining facilities, potentially compromising inmate management and staff safety. The Pennsylvania State Corrections Officers Association has raised concerns that closing two prisons could endanger both officers and inmates.

Community and Correctional Program Impact
Quehanna Boot Camp serves as an alternative to traditional incarceration for lower-risk offenders, focusing on rehabilitation and reducing recidivism. Its closure would disrupt these valuable programs, potentially leading to higher incarceration costs and rates. Additionally,

the absence of such facilities may limit options for addressing the diverse needs of the inmate population.

Call for Comprehensive Evaluation
While the DOC projects savings of $10 million in the upcoming fiscal year and over $100 million in future years from these closures,
It is crucial to conduct a thorough, transparent evaluation of all potential impacts. This assessment should consider not only financial savings but also the broader social, economic, and operational consequences for our communities and correctional system.
I urge you to reconsider the proposed closures of Quehanna Boot Camp and SCI Rockview. Preserving these facilities is vital for maintaining economic stability, ensuring effective correctional operations, and supporting rehabilitation efforts within our state.

Thank you for your attention to this critical matter.

Sincerely,
Bloom Township Supervisors

Re: Closing of Quehanna Boot Camp Prison

Dear Secretary Harry:

Please be advised that I am the Solicitor for Karthaus Township in Clearfield County Pennsylvania. The Karthaus Township Supervisors have asked me, on their behalf, to express their dismay and opposition to the proposed closing of the Quehanna Boot Camp by the Pennsylvania Department of Corrections as recommended by the Department of Corrections Steering Committee.

The same will have a devastating effect on the Township and will cause irreparable harm to the community if the recommendation is accepted. Therefore, they are asking the Department to not close the prison.

Karthaus is a small community of approximately 800 people. Consequently, the Township's budget is also small. The estimated expenses for the Township in 2025 will be $240,050.00. The estimated income for the year will be $198,371.00. A small carryover/ savings will be the only means by which the township can meet the costs of their obligations.

However, a little over $11,000.00 in income to the Township comes from local service tax revenue generated by employment at the Boot Camp. Additionally, the Township receives approximately $27,000.00 in payment in lieu of taxes from state forest land in the Township, including land on which the Boot Camp is located. Even if only a small portion of the same is generated by the Boot Camp, the loss of the combined income of the aforesaid to local government would be at least ten percent(10%). Karthaus Township would then be forced to drastically cut services or raise taxes, which is unacceptable in either case.

The community of Karthaus also has several small businesses that are dependent on Boot Camp employees as customers.

Benton's Market/ Convenience Store and Friday's Gas Station do quite a bit of business with the same. Local bars/ restaurants receive income from the employees also.

The Township has a local motel that serves the Boot Camp as a site for meetings and lodging for visitors. The Quehanna Motor Lodge would lose significant income if the Boot Camp would close.

The local CKGAA water Authority has an agreement with the Quehanna Boot Camp that each will provide water to each other in the event that an emergency occurs and one or the other loses all water. If the Boot camp closes, this essential service could be disrupted for the community. I would note that the Authority serves other communities other than Karthaus and this backup capability is very important to the same.

The local Karthaus Ambulance Service serves the Boot Camp. Much income comes to the Service from the Commonwealth as a result. It would of course be gone if the Boot Camp closes.

The Steering Committee indicates that there are public safety and security concerns that need addressed at the Boot Camp due to the need for a security fence. Costs and construction difficulties resulting from the same are cited as a reason for closure. We would argue that such reasoning is misplaced.

Firstly, the inmates are low security level 2 inmates. Secondly, there have only been two short term escapes in recent years. Recent upgrades have made the facility even more secure. Finally, the difficult terrain surrounding the facility and the isolated location of the same override any need for a fence. Public safety of the community is sufficiently provided for.

The Supervisors wish to point out that the Steering Committee report indicates a need for 5.7 million dollars in upgrades, including generators, paving, and HVAC upgrades. That information is incorrect. Those monies have been spent and the upgrades were completed in 2024. Those tax dollars will be wasted if the facility closes.

Moving the inmates from the Boot Camp to other facilities will only place them in danger of harm. They are non- violent individuals with smaller criminal records. If they are placed with a more dangerous, harder inmate population, they will be subject to harm, even if they are kept segregated from the others. They need to be isolated from the more difficult inmates.

Increased prison crowding will result from housing the Boot Camp inmates in other facilities. The same will only result in increased stress and tension, which not only endangers the inmates but also the correctional staff.

The quality of life of the Boot Camp staff will also be negatively affected by a closure. Although all staff members will be offered jobs at other facilities within a 67 mile radius, the same still represents a significant increase in travel obligations for the staff. 67 miles is an hour and a half drive one way in rural Pennsylvania. Some staff will leave their jobs and some will leave the area to be closer to work. The same will only have a negative effect on the work force.

Finally, it will be extremely difficult to repurpose the facility if it closes. The facility is one that is dependent on it being very isolated. It was originally constructed in 1957 for the Curtis Wright Corporation, which was doing work for the Defense Department.
The testing and development of jet engines was being done at the facility and obviously noise levels were a significant concern.

The isolated location also made it ideal for a low risk, low security boot camp program where low security inmates would be located. However. that same isolation stands in the way of it readily being used for another purpose. It will not be easy to reuse the site.

In conclusion, the Supervisors wish to point out that the current Boot Camp Prison has graduated thousands of individuals who have successfully completed vocational programs, drug and alcohol programs, and self- disciplinary programs which have enabled them to rejoin society and contribute positively to the same. The recidivism rate has been just slightly over 25 percent (25%), which is significantly lower than the correctional system average. The same has resulted in millions of dollars in savings in lower incarceration costs, lower facility and related costs, and tax dollars generated by working reformed adults. Closure of such a successful program will harm not only Karthaus Township but also Pennsylvania.

The Karthaus Township Supervisors would therefore respectfully ask that the Department of Corrections not accept the recommendations of the Steering Committee and allow the Quehanna Boot camp to exist and serve the citizens of the Commonwealth.

Sincerely,

John A. Sobel
Township Solicitor and
on behalf of the
KarthausTownship
Supervisors

From: McNeill, Jeanne
To: CR, DOC Close
Subject: SCI
Date: Tuesday, May 6, 2025 9:26:22 AM
Attachments: image001.png

Dear Secretary Harry,
I am contacting you during this 90-day comment period to express my concern about a prison that should be considered for closure. I understand that SCI Fayette is located on a coal ash dumpsite, not a place suitable for human habitation, or any plant or animal life. It would be a sound fiscal decision for the DOC to reduce medical costs by not exposing incarcerated residents under your care, or the staff, to severe environmental contamination.

Coal ash contains heavy metals and radio-active elements which the EPA has determined are a serious health hazard. Exposure to carcinogenic and neurotoxic substances in the ash creates the cancers and other chronic diseases that many residents at Fayette have reportedly developed. Additionally, prison advocates have received reports for over a decade from incarcerated residents about contamination in the drinking water at Fayette. After Fayette's corrections officers complained of illnesses several years ago, they and their working dogs have been provided bottled water every day. When the water is brown or gray with a strong odor, residents report that they may get some bottled water for a few days, but during that time their food is still prepared with tap water, and the tap water is used for hand washing and showering. Residents have suffered skin eruptions and chronic skin conditions from skin contact with the tap water, conditions which clear up once the resident at Fayette is transferred to another prison or released.

PA counties most affected by incarceration deserve a say in which prisons are closed. It would be more inclusive for DOC to set up a virtual public hearing for stakeholders living outside of Centre County.

It would be most helpful for DOC to provide my office with records from the last 5 years on:

1. The current number of cancer patients at SCI Fayette compared to SCI Rockview and the Quehanna Boot Camp
2. The mortality rate as a percentage of the population at SCI Fayette compared to Rockview and Quehanna
3. Medical expenses at SCI Fayette compared to Rockview and Quehanna
4. The percentage of incarcerated residents who suffer from chronic diseases at SCI Fayette compared to the average percentage in Pa's state prisons

As a Mom, Grandmother and Legislator, the info I am receiving is upsetting. I was just recently at the roundtable at SCI Coal Township and many of the inmates were also speaking about this.

Sent: Wednesday, May 7, 2025 3:05 PM
To: CR, DOC Close <RA-CRDOCCLOSE@pa.gov>
Subject: Rep. Ben Waxman - SCI Fayette

Good afternoon Secretary Harry,

I am contacting you on behalf of Representative Ben Waxman. It has come to our attention that SCI Fayette is located on a coal ash dumpsite, an area that poses significant risks to human health and is unsuitable for long-term habitation by people, animals, or plant life. Coal ash is known to contain heavy metals and radioactive elements that the EPA has classified as hazardous. Chronic exposure to these substances is linked to cancer, neurological damage, and other serious medical conditions.

Incarcerated individuals and staff at SCI Fayette have reportedly experienced health impacts consistent with exposure to these toxins. Advocates have documented concerns for over a decade, including reports of contaminated drinking water. While corrections officers and their K-9 units now receive bottled water, incarcerated residents continue to rely on tap water—used not only for drinking but also in food preparation, bathing, and hand washing. Reports of brown or gray tap water with a strong odor are not uncommon. Incarcerated individuals describe skin rashes and chronic conditions that often resolve only after they are transferred or released.

PA counties most affected by incarceration deserve a say in which prisons are closed. It would be more inclusive for DOC to set up a virtual public hearing for stakeholders living outside of Centre County.

It would be most helpful for DOC to provide my office with records from the last 5 years on:

1. The current number of cancer patients at SCI Fayette compared to SCI Rockview and the Quehanna Boot Camp
2. The mortality rate as a percentage of the population at SCI Fayette compared to Rockview and Quehanna
3. Medical expenses at SCI Fayette compared to Rockview and Quehanna
4. The percentage of incarcerated residents who suffer from chronic diseases at SCI Fayette compared to the average percentage in PA's state prisons

Please let me know if you have any questions.

Thank you.

Stakeholder Feedback of Service Employees International Union (SEIU), Local 668 on the Proposed Closure of SCIs Quehanna and Rockview

April 4, 2025

Attachment B

On behalf of our members at SCI Quehanna, and SEIU Local 668's broader membership, we're opposed to the proposed closures of SCIs Quehanna and Rockview.

As the sole PA Corrections Department facility through which the state provides a military-style Boot Camp program incorporating evidence-based rehabilitative practices, in addition to drug treatment, Quehanna is too valuable an asset to Pennsylvania's criminal justice community to be lost.

The DOC workers we represent throughout the Department of Corrections are primarily social workers who know firsthand that there is no one-size-fits-all approach towards rehabilitation. While conventional correctional measures best serve some incarcerated persons, others may well be harmed by them. In cases involving first-time offenders, younger offenders, and those convicted of non-violent offenses, the program that Quehanna offers, with its emphasis on physical and educational training and work, can be just the approach these inmates need. Alternatively, placement in SCIs without this programming may expose young offenders to adult criminal culture, violence, sexual abuse, and trauma. In contrast, those offenders in need of mental health scaffolding may see their progress towards rehabilitation interrupted in a different setting.

Moreover, as the union representative for multiple county agencies, including county prisons, throughout the Commonwealth, we know full well the human impact that a shortage of funding and resources for diversionary programs has on rehabilitation, public safety, and workforce stress. We see county prisons lacking funding for robust programming and facing higher levels of inmate violence, and consequently, greater risk to staff and, potentially, the public from inmates upon release. This erosion of rehabilitative programming should not be mirrored at the state. But with this proposed closure, that's exactly what is happening.

Despite the announced closure of Wernersville and Progress Community Corrections Center, Community Corrections Centers across the state are nearly fully occupied. Our members are acutely aware that few beds exist for inmates needing less punitive correction. Moving inmates into harsher environments cannot only arrest their progress towards true rehabilitation and readiness for productive re-entry but also lead to higher levels of inmate violence. That puts staff at risk. In fact, this closure, announced in the pages of a budget proposal, shows a complete disregard for the workforce itself.

Our members inside facilities like Quehanna and Rockview work predominantly in treatment and rehabilitative capacities, working in fields like drug and alcohol treatment, psychological services, therapy, and in countless other ways that help the incarcerated and the public inside PA's State Correctional Institutions and Community Correctional Facilities. Their contributions are rarely seen but are of deep importance. From a public safety lens, our work keeps the incarcerated and staff safe inside of facilities and helps those eventually released reintegrate productively into society. Corrections Department workers know what it takes to keep Pennsylvanians safe, its

Corrections Department staff safe, and inmates on the road towards productive re-entry, not unknown REMAP bureaucrats. A decision of this scope should have included worker representatives at the table, providing input about the best way to achieve efficiencies and better outcomes. Instead, this decision, made under cover of darkness, demonstrates a lack of respect for the workers at Quehanna, SCI Rockview, and both Wernersville and Progress Community Correction Centers.

Our members deal with difficult and often violent inmates, the wounded families they have left behind, and a complex web of social services. We have had members hurt and hospitalized in the line of duty. Many times, their skilled ability to deescalate situations has kept inmates and other staff safe. These planned closures force Corrections workers to choose between long commutes to new locations or quitting the Department of Corrections entirely. With staffing at current levels, Pennsylvania cannot afford to lose workers from the Corrections system. Moreover, our members who live and work near these facilities maintain vital community ties to Clearfield that are indispensable in the social work arena. By uprooting them, the Department of Corrections loses the local connections and knowledge that could mean the difference between a re-entering individual securing housing quickly or not at all.

Facilities like Quehanna not only provide an essential role, bridging the gaps between public safety, criminal justice, and rehabilitation, but are substantial regional employers. Others may be able to speak more ably to the economic impacts of the loss of Quehanna, but things are very clear for those who live and work here. Younger adults are leaving the area, and the population is aging.[1] The employment sector is stagnant, and losing a major employer in a rural area like Clearfield County is a body blow to the local economy. Nowhere in the Steering Committee report does REMAP discuss the practical economic implications. Nor does it evaluate the impact on Clearfield County social services, its prisons, its probation offices, and other support services that will undoubtedly feel the effects of this ill-conceived decision.

In addition to the workforce implications, the rationale for Quehanna's closure raises significant questions. The Corrections Department notes that Quehanna typically has higher costs per incarcerated person - which is to be expected, given the intensive work that goes into ensuring that its incarcerated population is provided the structure, support, and services they need to not re-offend. Indeed, Quehanna had the seventh lowest recidivism rate of the 26 institutions listed in the Department's annual recidivism report.[2]

The Steering Committee report notes that Quehanna needs $5.7 million in upgrades, with additional expected upgrades costing $12.4 million over the next decade. However, the cited $5.7 million have already been covered by grant funding outside General Fund dollars. The Department has, to date, failed to respond to a union request about what additional upgrades are necessary, beyond the lack of a fence. And while it may seem counterintuitive to suggest, costs

[1] Clearfield County Planning Commission 2022 Annual Report
[2] Department of Corrections 2022 Recidivism Report

relating to fence installation should not be considered as a driver behind this decision. For quite some time, the Department has been working with incarcerated populations in less punitive and restricted settings. Moreover, while the Steering Committee's report recommending the closures of Quehanna and Rockview note a "public safety concerns that necessitate stringent selection of the incarcerated population, exemplified by walk-offs from the facility in 2015 and 2023,"[3] the Department's own data notes that there has not been an escape attempt by walk-away from 2016 to 2023, and only two walk-offs in 2015[4].

Despite the real infrastructure challenges SCI Rockview faces, further investment, rather than closure, is the better alternative. As with Quehanna, Rockview serves as a vital employer in a rural part of Centre County. Experienced, knowledgeable workers who live in the area are facing a tough choice about commuting, relocating, or retiring from an already overburdened system. They are contending with this question, having faithfully performed their duties for years, while Rockview's utterly foreseeable infrastructure challenges have continued to go unaddressed by those whose duty it was to prevent them.

To put it succinctly, the risks of losing talented Corrections Department workers, as well as the additional public safety risks that losing another facility creates to staff, in an already overburdened system, justify additional investment in SCI Rockview, rather than closure. Our members, who have had to contend with an aging prison population, growing recognition of incarcerated mental health needs, and expansion of medication-assisted treatment, know the answer to better Corrections outcomes is not underresourcing, but fully resourcing. In response to the well-known short-staffing issues across DOC, the answer is not closures, but giving staff the tools they need to ensure better outcomes. It is not planned attrition, as noted on page 3 of the Steering Committee Report, but greater workforce investment in recruitment and training. It is finalizing the renovations already underway rather than abandoning them.

As with the closure of Quehanna, the closure of SCI Rockview will unduly shift the burden of incarceration to other State Correctional Institutions, creating additional safety risks for Corrections employees where incarcerated individuals are relocated. When we close SCIs and Community Corrections Centers, the supervision and support of those sentenced falls on already beleaguered County social services agencies and prisons, where we also represent workers. If history is any indication, those Counties will receive no additional funding or resources to deal with this additional workload.

We ask that Secretary Harry and the Shapiro administration take swift action to ensure that SCIs Quehanna and Rockview remain open, as well as fully resourced to ensure the continued safety of Pennsylvanians and the rehabilitation of its incarcerated population.

---

Honorable Dr. Laurel Harry, Secretary
Pennsylvania Department of Corrections
1920 Technology Parkway
Mechanicsburg, PA 17050

February 5, 2025

Dr. Harry,

The Pennsylvania Department of Corrections' decision to propose the closure of two State Correctional Institutions and two Community Corrections Centers is yet another example of this administration prioritizing cost-cutting over public safety, employee well-being, and institutional stability. While the Department claims this move will not compromise safety, history has shown that facility closures lead to overcrowding, increased violence, and overworked staff, all of which put both employees and the public at greater risk.

Your assurances of job placement for affected employees do little to address the real consequences of these closures. Forcing staff to uproot their lives, commute long distances, or transfer to unfamiliar environments is not a solution, it is a disruption that creates undue hardship for our members and their families. The Department's track record of "reassigning" employees in past closures has often resulted in displacements that ignore the realities of staff preferences, seniority rights, and practical commuting distances. The vague guarantee of "a job at the same pay and classification" fails to acknowledge these challenges or the significant emotional and financial toll this will take on employees.

Furthermore, the so-called "transparency" promised in this process is laughable. The union has once again been left out of meaningful discussions until after the Department has already made its decisions. While the Public Safety Facilities Act mandates a three-month feedback period, history suggests that the Department will push forward with its predetermined plans regardless of the concerns raised by employees, the union, or the communities affected. The involvement of an outside consultant, CGL, only reinforces the perception that this decision is being driven by financial motives rather than a genuine concern for the staff, the incarcerated population, or public safety.

The closure of Community Corrections Centers is particularly troubling, given that these facilities play a critical role in reentry efforts. Eliminating these centers without union input or community discussion directly undermines rehabilitation efforts and will only serve to increase recidivism rates. The Department's dismissive approach to this aspect of the closure—stating that CCCs are "not subject to Act 133"—demonstrates a complete disregard for both employees and the communities that rely on these services.

The union will not stand by while decisions that drastically impact our members' livelihoods are made behind closed doors. We insist:

1. **A full and transparent justification** for why these specific closures were chosen, including all data and analysis used to reach these conclusions.

2. **A clear and enforceable job placement plan** that ensures staff will not be forced into unreasonable transfers or positions that do not align with their current roles.

3. **A commitment to engage with the union as a true stakeholder**** before any final decisions are made, rather than treating us as an afterthought in a process that directly affects our members.

We encourage all employees to voice their concerns during the feedback period but let us be clear: the union will not passively accept the erosion of job security, safety, and stability under the guise of "fiscal responsibility." We will explore every avenue—including legal and legislative options—to challenge these closures and protect the rights of our members.

Sincerely,

Thomas Wines, Executive Director
Pennsylvania Criminal Investigators
Fraternal Order of Police Lodge 92

Mechanicsburg, PA 17050

Dear Secretary Harry:

I am writing on behalf of AFSCME Council 13 to demand bargaining over the impact of the administration's plan to close certain prisons and community corrections centers.

As you know, Council 13 represents hundreds of employees at the prisons and community corrections centers across the Commonwealth. We are in receipt of a copy of the notice which your office sent directly to bargaining unit employees yesterday, and which made with certain assurances regarding the impact of this decision upon their terms and conditions of employment. As you are aware, Council 13 represents those workers with respect to bargaining over their wages, hours and terms and conditions of employment, as well as the impact of these intended closures upon such matters.

We are available to meet with representatives of the Department on February 10, 12 or 14, 2025. Please let me know whether any of these dates work for representatives of the Department. If not, please provide alternative dates when your team is available.

I look forward to your response.

Sincerely,

Mike Sukal/cy

Dr. Laurel Harry, Secretary
Department of Corrections
1920 Technology Parkway
Mechanicsburg, PA 17050

Dear Dr. Harry:

Last month, hundreds of PSCOA members descended on Harrisburg to stand up for the right thing. Together, we are fighting for the future of SCI Rockview, SCI-Quehanna and the community corrections centers of Progress and Wernersville. At that rally, we were joined by a large contingent of legislators from both sides of the aisle.

We believe your decision was made without transparency or care for our members, their families and communities.

Even though you've said every employee will receive a job at another facility, which sounds good on the surface, it simply won't be that easy and will pose extreme financial hardships on our members.

Three of the four facilities you've targeted for closure are at least an hour-long one-way drive to the closest facilities where they could work. The lone exception is Rockview, which is located very close to Benner. There's just one problem: Rockview will have 466 employees looking for work but Benner only has 39 vacancies. That means Rockview staff who don't get a job at Benner will also be forced to travel an hour a day one-way.

Gas isn't exactly inexpensive these days, so do the math. Our members, dedicated public servants who risk their lives on a daily basis, will now have to spend two hours in their cars each day away from their families. Their financial reward? An extra $500 each month out of their pockets to pay for gas because our department doesn't help with any expenses.

Now, our members are forced to make an awful decision: Should I stay where I've raised my children and deal with the extra cost of gas and long hours away from home, or should I uproot my family and move to another town? Your team at the Department of Corrections in Camp Hill doesn't have to answer such an awful, life-changing question like this – unless it comes with a promotion and more money.

Transparency continues to be an issue for your department during this process. Although we filed Right-to-Know requests about the steering committee the department used to rationalize these closures, you refuse to release even basic information.

As Gov. Shapiro gave his budget address, your department said the steering committee would look at all institutions and make a recommendation on which ones should close. This caused widespread panic

statewide among our 24 prisons and 10 CCC communities. Magically, within days, we had an answer: The steering committee released a meager six-page report targeting SCI-Rockview and Quehanna for closure.

Naturally, we wanted to know more about the process and how much the out-of-state consulting firm, CGL, was being paid to assist the steering committee and filed Right-to-Know requests. Of course, you won't tell us. To this day, we do not know who the members of this committee are, any of their deliberations or CGL's contract. It's obvious you know how much CGL cost taxpayers and could easily tell us. Given that these dedicated public servants working in the jails and their families are facing an uncertain future, you'd think the Shapiro administration would want to be fully transparent in defending its decisions.

I guess not. It makes us wonder what the Department of Corrections is hiding.

As you know, closing a jail is a death sentence for their communities. In today's America, it's virtually impossible for small towns to replace a facility that employs hundreds of people. Simply put, these decisions are devastating for the communities the Shapiro administration is choosing to abandon.

I also want to remind you of our worry for the safety of our members if these facilities are closed. In 2019, violence in our state prisons was some of the worst I've seen in a quarter century of service to this commonwealth. Much of this was due to 21 of 25 prisons being over 90% capacity, including 11 over 100%. Today, violence has dropped in part because the prison population is spread more evenly. Last year, only half of all prisons were over 90% capacity and only four over 100%.

You were clever when asked about violence in state prisons during recent Appropriations hearings. You indicated that most of the violence in our state prisons was committed in only seven prisons. You're correct, but what you didn't say was those seven prisons were the ones with the highest capacity. The violent lessons learned from 2019 now are being forgotten. Closing these facilities will create potential powder kegs of trouble that many of us thought were a relic of the past. Once again, our members will have to deal with the danger from the decisions you make – not you or anyone in your Camp Hill office.

Saving money at the expense of the safety of our members is too high a price to pay. In fact, I question if there are even any savings at all. As we all know, budget math can be quite creative. It's just a budget gimmick.

For example, according to a recent Senate committee hearing, three state-run facilities for individuals with intellectual and developmental disabilities have been closed since 2018, but their continued maintenance and upkeep has run up a $47 million tab for taxpayers – and counting.

The committee also examined three properties that sat vacant for years before being torn down. The state spent more than $115 million maintaining the Harrisburg State Hospital, Allentown State Hospital and SCI-Pittsburgh. Maintaining SCI-Retreat, which was closed five years ago, also continues to cost the commonwealth millions.

These closings were pitched as a way to save the commonwealth money. But as you can see here, taxpayers are spending well north of $150 million on closed properties.

This isn't putting money above public safety. This is putting budget gimmickry above the safety and quality of life of our brave Corrections employees.

Sincerely,

John Eckenrode
President

Feb. 5, 2025

Dr. Laurel Harry, Secretary
Department of Corrections
1920 Technology Parkway
Mechanicsburg, PA 17050

Dear Dr. Harry:

It was disappointing to learn of your decision to close two state prisons and two community corrections centers less than two hours before the governor's budget address. Upon taking office, you assured the PSCOA that we would have an open line of communication with your office. I have yet to hear from you directly on why this decision was made, as well as details of the process moving forward.

In your Feb. 4 email to employees you promised transparency, but you provide few details of the "DOC Steering Committee" you're forming to make closure recommendations. To assist our members, we would like answers to the following questions:

1. Who will serve on the DOC Steering Committee? If you don't have specific names, can you provide a description of the types of candidates you're looking for to fill the committee?
2. Can the PSCOA provide recommendations for candidates to serve on the committee?
3. Will the proceedings/meetings be open to the public and the press?
4. You indicated you're hiring an out-of-state consultant, CGI, to assist the committee. What specific services and duties will CGI provide? Will they be responsible for writing the DOC Steering Committee's final report? What is the cost and duration of their contract?
5. You said every employee will be guaranteed a job. Will the department pay reasonable moving fees for these employees who work dangerous jobs and now have had the lives of their families turned upside down?
6. It's concerning that all of these steps you outlined are taking place before the formal closure review process outlined in Act 133 of 2018 even begins. Are the closing recommendations from the DOC Steering Committee report final, or will impacted communities have a fair opportunity to make their case to reject the report's recommendations?

Attachment B

7. You note that Community Corrections Centers aren't subject to Act 133 of 2018 guidelines for prison closures. In the spirit of transparency, why not provide the impacted communities the same process to ensure their voices are heard?

Given your commitment to transparency, we look forward to your answers to these questions. Rest assured, the PSCOA will remain vigilant throughout this process to hold you to that commitment.

Sincerely,

John Eckenrode, President

Attachment B

Petition

To Governor Shaprio and Secretary of Corrections Dr. Laurel R. Harry

We, the undersigned residents affected by the proposed closure of the Quehanna Boot Camp petition you, Governor Shaprio and Secretary of Corrections Dr. Laurel R. Harry to leave the Quehanna Boot Camp open to continue to provide those committed to our care with programming, education, and mental health services to reduce recidivism, while respecting victim rights and collaborating with stakeholders to ensure every reentrant has the opportunity to successfully reintegrate back into the community.

Petition

To Governor Shaprio and Secretary of Corrections Dr. Laurel R. Harry

We, the undersigned residents affected by the proposed closure of the Quehanna Boot Camp petition you, Governor Shaprio and Secretary of Corrections Dr. Laurel R. Harry to leave the Quehanna Boot Camp open to continue to provide those committed to our care with programming, education, and mental health services to reduce recidivism, while respecting victim rights and collaborating with stakeholders to ensure every reentrant has the opportunity to successfully reintegrate back into the community.

To who it may concern, February 27, 2025

We are beyond ecstatic and grateful for all your support, the employees of SCI Rockview have significant concerns regarding the closure of the facility, especially in terms of the financial implications, the well-being of the employees, and the negative impact on the local economy. We can understand the frustration, particularly around the reported cost of upgrades and the unclear breakdown of those figures. We request transparency in the cost analysis. The claim that it will cost $74 million for upgrades seems high, especially if certain upgrades have already been completed. A breakdown of where that money would go could be helpful in challenging the validity of this figure. This facility is not as financially burdensome as claimed. Millions of dollars have been spent on building upgrades to include new perimeter fence and security detection, building resurfacing roof upgrades, water and sewer renovations and some are still being completed and most have been funded. All these projects have greatly increased the continued sustainability of the facility for years to come. The roof replacement for A and D blocks has already been approved and is likely the last major task. The A and D buildings are a historical site and the roof has to be completed either way. The supplies are here and the expenditures already dispersed. SCI Rockview is in fact wheelchair accessible throughout the facility with the exception of the Education building which ramps built in the building would fix the problem.

The closure will affect the lives of 658 employees that are dedicated to the facility. All of the employees will be negatively impacted with the difficulty in job transitions, most employees may have to travel further away which means more time away from their families. The expertise our employees have are unmeasurable and keep the facility operational. The closure of the prison likely affects local businesses, housing markets, and other services that rely on the presence of the prison and its staff. This will cause the economic ripple effect from the loss of so many jobs in the area, such as the contracted construction businesses, Pleasant Gap EMS, MNMC, food establishments, countless local contract business, and not to mention subcontractors such as Wellpath who staffs our Physicians, P-AC's, CRNP's, program manager, clinical coordinator and phlebotomist and Centurion who staffs our psychiatry department. Not to mention the fact that our staff also volunteer with many organizations within Centre County and surround areas such as coaching sports for schools and other organizations for an example. So, for Centre County this will be a big loss.

The closure of prisons could indeed have ripple effects on other institutions, particularly in terms of law enforcement, public safety, and the broader justice system. When prison capacities shrink, there's a possibility of a higher concentration of individuals in other facilities or even on the streets. This could lead to overcrowding in remaining institutions, which, as you mentioned, might increase violence and tension.

Staff assaults could be one of the direct consequences, as corrections officers, contact staff and other personnel may face heightened risks in managing the more volatile population. In addition, without adequate resources or facilities to handle specific inmates, such as the BMU, our behavioral unit and NCCU, where we house our dementia and cognitively impaired inmates the system could become strained, leading to more stress on the remaining staff and possibly a lack of rehabilitation or support programs, which might further fuel unrest.

Instead of a closure, perhaps propose other solutions, such as a reevaluation of the cost projections or a more phased approach to upgrading the facility. This could potentially provide a compromise and demonstrate a willingness to find a middle ground that saves jobs and minimizes the economic impact. Please take all of this into consideration. Please see attached and please keep in mind that his is just a portion of the employee signatures that I could acquire.

Sincerely,

SCI Rockview Staff

ATTENTION: *This email message is from an external sender. Do not open links or attachments from unknown senders. To report suspicious email, use the Report Phishing button in Outlook.*

To Whom it May Concern:

I am writing on behalf of the Big Run Park Association to express how beneficial the inmates at the Quehanna Boot Camp have been to the community and to Big Run Park. Over the past ten years, Quehanna Boot Camp has provided inmates to spring clean and help maintain the playground equipment so children in our community can enjoy their time outdoors.

We greatly appreciated the numerous tasks that the inmates completed including replacing and staining the seats on the picnic table, trimming and thinning brush, and they painted the Merry-Go-Round seats. The Quehanna Boot Camp workers were instrumental in building the large sandbox and filling it with sand so the children in the community have a safe place for creative play.

The Quehanna Boot Camp workers unselfishly gave their time and dedication to every project that was assigned to them. They were pleasant, polite, hardworking, and consistently demonstrated their concern and dedication to each project. In fact, the workers became so invested that they lost track of time and were ready to begin a new project when it was time to leave for the day.

Words cannot express our gratitude for all the work and help the

Quehanna Boot Camp workers have given Big Run Park over the years. The inmates helped maintain and improve the park, which provides adults and children the opportunity to enjoy nature and play in a safe, quiet environment. The inmates have also helped to provide a beautiful venue for reunions, birthday and graduation parties, and a place to visit with friends.

We realize that you are considering closing the doors to the Quehanna Boot Camp. However, their inmates are an invaluable asset to our community. Providing a helpful hand to Big Run Park is just one benefit that the Quehanna Boot Camp offers, and we greatly appreciate everything they have done to ensure that Big Run Park is equipped with safe equipment for children to enjoy.

Thank you,

Jennifer George

April 7, 2025

Dear DOC Secretary Dr. Laurel R Harry,

We appreciate the DOC steering committee's research involved with choosing two prisons to close, looking at economic efficiency and easy relocation of both staff and incarcerated residents. It's important to provide safe staffing levels that do not rely on overtime hours.

However, we are writing to request that you shift away from one of the choices, and to prioritize closing SCI Fayette, the prison with the most serious environmental hazards. Extensive renovations at Fayette would not make the prison building or its grounds safe for human habitation or visitation. Even with an EPA cleanup of the surrounding land, there's no guarantee that it would achieve residential zoning.

SCI Fayette was built on a 506-acre coal ash dumpsite which was active from 1997 until 2013 and not cleaned up afterwards. Prior to 1997, the property was used for a 1,357-acre coal processing and coal waste dumping operation. The property came with tremendous hidden costs, related to managing the many medical conditions that soon developed inside its walls. Coal ash, which contains heavy metals and radioactivity, flies freely in the air from 50-million-ton mounds adjacent to the prison. Two unlined coal slurry ponds are adjacent on the other side, and millions of cubic yards of coal combustion waste surround the prison complex and beyond, posing grave risks to health of both confined individuals and employed staff. Black coal ash soot covers walls and other surfaces.

The prison has high rates of cancers, cancer mortality, respiratory and cardiovascular diseases, thyroid disorders, gastro-intestinal illnesses, painful skin conditions, and reports of undiagnosed growths, chronic sore throats, severe swellings, shortness of breath, mental confusion, headaches and dizziness. In 2014, the Abolitionist Law Center, the Human Rights Coalition, and the Center for Coalfield Justice published No Escape: Exposure to Toxic Coal Waste at State Correctional Institution Fayette, (https://abolitionistlawcenter.org/resource/no-escape-exposure to-toxic-coal-waste-at-state-correctional-institution-fayette/) The report includes the results of a survey-based study comparing respiratory illnesses at SCI Fayette with the prison population at SCI Greene. Greene was chosen as the "control" for its comparable population size, demographics, and the age range of participants. Respiratory health questions were filled out by incarcerated residents in both prisons, with the result that SCI Fayette had significantly more respiratory illnesses, including asthma, COPD, and lung cancer.

Air quality in the closest town of La Belle has also suffered from coal ash. Five years after the coal ash dump site began operating, cancer and respiratory disease rates in the town began to

spike. When we knocked on doors and spoke with town residents, it was mentioned that they noticed wildlife disappearing around the same time.

Drinking water at the prison, which incarcerated residents report has a brackish color, is not trusted by residents or corrections officers. When it became clear that several COs had developed stomach cancer, they went to arbitration with the Pa State Corrections Officers Association and won, resulting in their union providing bottled water for union members. CO's also give bottled water to their working dogs, but confined residents still drink and eat food prepared with tap water, and many individuals have reported skin eruptions after taking showers. The Monongahela River, which winds close to fracking sites, is the source of water for SCI Fayette and for the town of La Belle. Fracking waste leaches into the river, sometimes from landfills, such as the infamous Westmoreland Sanitary Landfill.

Now that the science linking environment and health is widely understood, it is most important to stop confining people, both the incarcerated residents and the working staff, in toxic environments that generate terminal diseases, for both Constitutional, and economic reasons. Slow poisoning which results in illness or death in a confined space is a form of torture, and the 8th Amendment prohibits cruel and unusual punishment. At the state level, PA Constitution's, recognizes the right of every person in our state to clean air and water.

In terms of economics, PA's Department of Corrections bears an average added expense of $70,000 for each confined individual whose ill health requires specialized healthcare services, such as chemotherapy, kidney dialysis, or respiratory care. It makes sense to avoid severe toxic exposures that induce diseases for the prison population and sicken staff enough to lead to absences and resignations.

Rockville was a logical choice for one prison, considering its age (110 years) and the $75million cost of repairs to our 2nd oldest prison and we ask that you take into consideration the larger picture beyond which prisons are most convenient to close. Please select the prison, which is impossible to repair, and inherently the most unhealthy for both residents and staff. That is SCI Fayette.

Sincerely,

B. Preston Lyles, Director of the Toxic Prisons Campaign

Shakaboona Marshall, Executive Director of the Human Rights Coalition

Robert Saleem, Director of Abolitionist Law Center

Dana Lomax, Director of Coalition to Abolish Death by Incarceration

DEPARTMENT OF HEALTH

DATE: December 29, 2014

SUBJECT: Review of Cancer Burden at the PA State Correctional Institute - Fayette

TO: Martin Raniewski, MA
Deputy Secretary for Health Planning & Assessment

FROM: Atmaram Nambiar, MD, MPH
Director, Division of Infectious Disease Epidemiology
(717) 787-3350

Per the request of the Pennsylvania Department of Corrections, Bureau of Health Care Services, through Christopher H. Oppman, MBA, MHA, Director Department of Corrections, Bureau of Health Care Services, the Pennsylvania Department of Health was asked to evaluate the cancer concerns of inmates and advocacy groups regarding cancer risks at the State Correctional Institute-Fayette. In response, PADOH/ Bureau of Epidemiology developed the attached report. We believe the findings serve as an objective assessment of the cancer burden and risk at the facility. A summary of the findings appear on the last page of the text.

If you have any questions, please contact Dr. Gene Weinberg [redacted]

REVIEW OF THE CANCER BURDEN AT THE PENNSYLVANIA *STATE CORRECTIONAL INSTITUTION FAYETTE*

Background

In August 2013 the *Human Rights Coalition, Center for Coalfield Justice, and the Abolitionist Law Center* of western Pennsylvania began an investigation of health conditions of prisoners at the Commonwealth of Pennsylvania, Department of Corrections (PADOC), *State Correctional Institution - Fayette* (SCI Fayette). The need for an investigation was prompted by reports of a pattern of declining health among inmates with a variety of symptoms and diseases believed to be possibly linked to exposures to toxic coal waste surrounding the facility. Health problems were described as; respiratory throat and sinus conditions, skin irritation and rashes, gastrointestinal tract problems, pre-cancerous growths and cancers, thyroid disorders, eye problems, headaches, dizziness, hair loss, weight loss, fatigue, and loss of mental focus and conceutration. That investigation resulted in the report, "***No Escape: Exposure to Toxic Coal Waste at State Correctional Institution Fayette***". The report included a description of the ambient environment and health problems. It led the PADOC to seek the expertise of the Pennsylvania Department of Health (PADOH) to review the content related to cancer rates.

In response, the Bureau of Epidemiology (BOE) carried out a cancer incidence analysis. The PADOH is sensitive to concerns of individuals with cancer whether they are residents of a municipality, a neighborhood, or an institution. The types of cancer, relative frequencies, in addition to incidence rates or risks were ascertained for inmates of the SCI Fayette facility using the files of the *Pennsylvania Cancer Registry* (PCR). The PCR was utilized rather than "self-reports" to assure all cancers (cases) diagnosed among inmates were counted and the most accurate information was used.

The Pennsylvania Department of Corrections state prison is a maximum security facility for males located in the community of LaBelle in Luzerne Township, Fayette County. It is situated on land formerly used as a dump for coal waste in the form of "*coal refuse*" (waste produced when coal is cleaned and graded before it is burned), and "*coal ash*" (waste produced

by burning coal in power plants throughout the region). In 1996 the owners of the coal waste disposal facility which originally occupied 1,357 acres transferred 237 acres to the Commonwealth of Pennsylvania for the construction of the SCI Fayette prison completed in September 2003. The prison is currently surrounded by approximately 40 million tons of waste, two coal slurry ponds, and millions of cubic yards of coal combustion waste. Concern about the ambient environment coupled with inmates' health problems lead prisoners, human rights groups, prisoners' rights groups, and environmental justice groups to question the health effects of pollutants from the waste facility, and to conduct an ***investigation*** of health effects.

That investigation was based on a mailed questionnaire to prisoners. Survey questions addressed individual health problems, and environmental conditions at the facility. As of July 2014, 152 surveys had been sent, with 63 prisoners responding and another 12 prisoners writing separately to describe their health "*situation*", with an additional four prisoners interviewed directly by an investigation team member. Study findings reported 17 prisoners died at the SCI Fayette facility, eleven from cancer. Cancer cases identified by prisoners or described by the medical management of the PADOC included these cases; 3 lung, 2 brain, 2 colon-rectum, 2 tongue and mouth, 1 tonsil, 1 stomach, 2 liver, 1 bladder, 1 prostate, 1 lymphoma, and 1 leukemia for a total of 17 cancer cases.

While the information is valuable, self-reported diseases can be problematic. First, if reports are not validated using information found in medical records there is no way to know if the reported case is actually cancer and the exact type. This requires microscopic determination from tissue samples. Most new tissue growths (neoplasms) aren't cancer, rather are benign but can include precancerous lesions. Histological examination of tissue specimens is the only valid way to determine if cells of a neoplasm are malignant. Additionally, self-reported cancers typically describe the organ site lesions were found, but often it is independent of the standard classification system which is based on *site of origin.* For example, cancers of the stomach may often evolve from the organ's lymph tissue, but because lymph tissue develops from a distinct class of embryonic cells and lymphocytes are so specialized, they are classified as a distinct group of cancers, and are organized based on histological characteristics rather than anatomical location, consequently are generally considered and counted as a type of *non-Hodgkin's lymphoma* (NHL).

Additionally, misclassification can occur if a cancer arises at a single organ site and spreads to adjacent or more distant organs. Though it spread to other organs, a cancer will still retain the cellular characteristics of the tissue of origin but is considered *metastatic*. As such, it should be ascribed to the organ of origin as the primary site, not the site to where it spread. Self-reported cancers frequently are not correct if they are metastatic lesions. For example, if malignant lung tissue is discovered in the brain it should be labeled as such, i.e., *"metastatic adenocarcinoma of the lung"*, not brain cancer.

Any determination of a population's risk needs to be based on ***incidence rates***, or the rate *new cases* develop in the population during a defined period of time. This is not the same as counting *all* inmates in the prison who had ever been diagnosed with a particular cancer, or ***prevalence***. In any group the number of persons living with cancer is always larger than the number of new cases diagnosed, as prevalence includes both *new* and *old* cases, and often can be large. While the total number of men who have had cancer is an important measure of the disease burden, it is not considered a measure of risk. The determination of factors responsible for the development of a type of cancer is generally linked to the *incidence rate*. When the number of new cases is divided by the number of individuals at risk - typically the population studied- the incidence rate is created. Commonly, reports of persons diagnosed with cancer who ever lived in a community are considered a measure of risk when it is a measure of prevalence.

The PADOH report, *"Review of the Cancer Burden at the Pennsylvania State Correctional Institution Fayette"* [*study*] was designed to provide objective measures of cancer risk for inmates of SCI Fayette relative to all Pennsylvania males. To best determine incidence and rates among inmates, the Pennsylvania Cancer Registry (PCR) was used. This provided the most complete and accurate measures of cancer rates or risks in the population. Both the numbers and types of new cases diagnosed among inmates were determined, and the rates for individual cancer types were calculated and compared to the statewide experience of all men.

Methods

Case Ascertainment

Cancer cases were defined as inmates of PADOC, SCI Fayette who had been diagnosed with cancer between September 1, 2003 and December 31, 2012; from initial occupancy at the

prison (September 2003) through the most current calendar year cancer incidence reporting was complete and data were verified - 2012. Based on this time period, the files of the PCR were searched for all cancer cases that ever showed any of the following for **residence at diagnosis** for any reason; *"SCI Fayette", "SCI Fayette County," 50 Overlook Drive", "421 LaBelle Rd", " SCI Labelle", " La Belle", "LaBelle"* and a zip code of 15450. The diagnosis data examined included the following residence items; *"DxCity", "DxNumberAndStreet", "DxPostal"*, in addition to **current address** information, including; *"CurrCity", "Currsupp", "CurrPostalZip"*. This identified any man who had ever been diagnosed either at the facility or whose *current* address was the prison following a diagnosis.

Description of Cases

Ascertained cases were sorted according to the anatomical and histological classification scheme defined by the World Health Organization, *WHO International Classification of Disease for Oncology*, Third Edition, 2000. A total of 45 incident cancers met the inclusion criteria. These were diagnosed among 41 prisoners; one prisoner had been diagnosed with three malignancies, two others were each diagnosed with two cancers, and 38 prisoners diagnosed with one cancer each. Table 1 shows the distribution of these cases by type for prisoners compared to all adult Pennsylvania male cases. Comparisons were based on the statewide distribution during the three-year period 2007-2009 (approximate mid-period). This represented 114,630 incident cases or about 38,200 new diagnoses among Pennsylvania males annually.

The PADOH determined the cancer risk of prisoners by a method called *indirect* age-adjustment which is particularly suited for studying small numbers of health events. The incidence rate for prisoners was compared to the rate for all Pennsylvania males and expressed as the ratio of the two, called the Standardized Incidence Ratio or *SIR*. It is equivalent to the number of cases observed / cases expected. Ratios were created by comparing the numbers of cancers reported to the registry for the prison population to the number that would be expected in this population if it had experienced the same cancer risks as all men in the state. Here the PADOH applied *Pennsylvania's* statewide incidence rates for men over age twenty to the numbers of prisoners at risk in the prison to determine the numbers of cancers *expected.* Cases expected were based on Pennsylvania's rates rather than U.S. rates for two reasons. The PADOH routinely uses statewide rates for population studies, thus making risk comparisons between the current

findings and other studies possible; and, second, interpreting results is easier as the characteristics of Pennsylvania are generally better understood than the entire U.S.

Specifically, the numbers of cancer cases *expected* for a cancer type was derived by multiplying the population of inmates in each age group by the *cancer-specific* statewide male incidence rate for the same age-group. Ten 5-year age groups were used; 20-24, 25-29, 30-34 . . . 55-59, 60-64, and 65+. Cancer risks for white, black and Hispanic males can differ considerably. To control for differences, the state's age-specific rate for each group was weighted by the proportion of the prison population represented by each group to produce a weighted white-black-*Hispanic male age-specific incidence rate*. Proportions used to weight age-specific rates for whites, blacks, and Hispanics were, p_1=0.394, p_2=0.494, and p_3=0.112, respectively; where $p_1 + p_2 + p_3$=1.000. For each cancer type, the numbers of cancer cases expected for each age group were summed across ages to obtain the total number of cases expected in the prison population. When cancer risks were the same for prisoners as men statewide, then observed numbers of cases should be the same as the number expected. Thus, an SIR close to 1.00 indicates the incidence rate or risk experienced by inmates is the same as other men living in the state. An SIR greater than 1.00 [Obs./Exp. >1.00] suggests the cancer rate is elevated relative to the state, and similarly a ratio less than 1.00 indicates the study group's risk is lower than male residents of Pennsylvania.

Results

Table 1 shows both the distribution of all 45 cases diagnosed between September 2003 and December 2012, and 114,630 statewide cases for the 2007-2009 three years period. The four leading types diagnosed for state males were colon & rectum, bronchus & lung, prostate and urinary bladder. Together they accounted for 67,747 cases or 59.1 perceut of total cancers, while among inmates 25 cases or 55.5 percent. Though the numbers of cases diagnosed for prisoners were small their distribution was similar to all Pennsylvania males. Percentages varied from the state by less than 2.0 percent for eleven types; esophagus, stomach, pancreas, larynx, bronchus & luug, urinary bladder, prostate, brain/CNS, thyroid, NH lymphomas, leukemia. Only for liver cancer was the proportion of cases greater than five percent (8.9 % versus 2.0%) compared to Pennsylvania.

Table 2 shows the SIR values for 17 individual cancer types and All Cancers combined. For nearly every type, the numbers of cases diagnosed for prisoners were fewer than expected based on statewide incidence rates for men. But significantly lower rates were found only for colon-rectum (SIR=0.51, 3 obs./5.85 exp.), bronchus & lung (*SIR=0.76*, 6 obs./7.93 exp.), and prostate cancer (*SIR=0.62*, 12 obs./19.26 exp.)), in addition to All Cancers (*SIR=0.70*, 45 obs./64.7 exp.). Whereas significantly elevated rates were seen for only liver cancers (*SIR=1.52*, 4 obs. / 2.63 exp.). While incidence ratios exceeded 1.00 for urinary bladder (*SIR=1.76*), Hodgkin's lymphoma (*SIR=2.67*), and leukemia (*SIR=1.32*) these were not statistically significant.

Discussion

This study was conducted with the purpose of defining the cancer burden among inmates examining the types of cancer, their relative frequencies, and the incidence rates or risks. Based on the medical and epidemiological literature several well established risk factors causally linked to specific cancers can likely explain the variations in rates from expectation based on risk factors associated with some prisoners. These are discussed in the medical and public health literature and summarized here.

Bronchus, Lung and Other Respiratory Cancers

The rate of lung cancer appears to be about 24 percent lower than Pennsylvania males (SIR=0.76). If these inmates were long time cigarette smokers, it's fairly certain their behavior was responsible for their disease. Tobacco smoke causes 85 to 90 percent of all bronchus and lung cancer cases therefore when cancer rates differ between populations, it can be attributed to differences in smoking prevalence rather than other sources of carcinogens. In addition nasal, oral, and laryngeal cancers are directly caused by cigarettes too. The types and proportions of cases attributable are; mouth [0.65], larynx [70.]; where a history of excessive alcohol consumption adds to the risks.

Tobacco smoke is a major source of pollution. It contains 7,000 chemicals, 250 are very harmful and affect every system of the body. Health affects occur from their absorption through tissues lining the respiratory and digestive tracts and from chemicals transported to other organs through the blood. Toxic substances include; 1) metals, comprising arsenic, beryllium, cadmium, chromium, and nickel, 2) radioactive elements polonium-210 and lead-210 metals and

radon, 3) toxic hydrocarbons including very potent carcinogens; 1,3 butadiene, vinyl chloride, in addition to formaldehyde, benzo-*a*-pyrene and toluene .

Urinary Bladder, Kidney, Pancreas, Esophagus, Liver

In addition to respiratory cancers, other types caused from tobacco smoke and the percent of cases attributable are; pancreas - 22%, Liver – 15%, kidney-27%, urinary bladder-40%, and esophagus up to 70 % when combined with long term heavy alcohol consumption. Together there were 12 tobacco-related cancer cases diagnosed among these inmates. If long-term smoking was characteristic of each case then it would be reasonable to expect at least half or six occurred from tobacco use (cigarettes, cigarillos, cigars).

Colon-rectum

Three cases were diagnosed during the 2003-2012 period. While several risk factors are recognized, it is not clear the magnitude of the risk conveyed. Diets high in fat and/or low in fiber content are associated. Other high-risk conditions include history of adenomatous polyps, familial polyposis syndrome, and inflammatory bowel disease. Environmental carcinogens have been explored primarily in relation to food consumption. Animal and experimental studies show that heterocyclic aromatic amines (HAA) serve as mutagens and are the result of both the type of foods consumed and how they are prepared. Sources include heating of fats, as well as meats and fish that are smoked, barbecued or cured. However, these food sources alone do not seem to account for the higher rates that we see in Pennsylvania. Other important factors include calcium consumption (preventative), vitamin D consumption (preventative), as well as alcohol consumption (promotion), and obesity (promotion). Pollution, however, has not been linked to bowel cancers.

Liver

The most common risk factor for liver cancer is chronic (long-term) infection with hepatitis B virus (HBV) or hepatitis C virus (HCV). These infections lead to cirrhosis of the liver. People infected with both viruses have a high risk of developing chronic hepatitis, cirrhosis, and liver cancer. Cirrhosis is a disease in which liver cells become damaged and are replaced by scar tissue, which in turn is linked with an increased risk of liver cancer. The risk is even higher if they are heavy drinkers (at least 6 standard drinks a day). Alcohol abuse is a leading cause of cirrhosis in the United States, and being very overweight increases the risk of

liver cancer. This is probably because it can result in fatty liver disease and cirrhosis. Type 2 diabetes has been linked with an increased risk as well. Infection with these viruses and alcohol consumption are also linked to behavioral determinants. Environmental agents long recognized as carcinogens for this cancer include *aflatoxins* made by a fungus that contaminates peanuts, wheat, soybeans, ground nuts, corn, and rice. Storage in a moist, warm environment can lead to the growth of this fungus. Exposures to high concentrations of work-related plastic solvents is a risk factor, as are anabolic steroids, male hormones used by some athletes to increase their strength and muscle mass increase risk. Drinking water contaminated with naturally occurring arsenic, such as that from some wells, over a long period of time increases the risk of some types of liver cancer, though the arsenic species responsible for elevating liver cancer risk is not common in the U.S. and is not present in domestic or environmental water at the prison.

Prostate

The most important risk factors for prostate cancer are *age* and *race*. While only one in 10,000 men under age 40 will be diagnosed with the cancer, the rate increases dramatically with age so that one in 15 men in their 60s will be diagnosed. African American men are approximately 60 percent more likely to develop prostate cancer in their lifetime than Caucasian or Hispanic men, and there were 26 percent more Black prisoners than whites leading to larger numbers of cases. Men don't always demonstrate special symptoms leading to their diagnosis, rather screening reveals large numbers of cases and can affect the disease rate in a population. In Pennsylvania as elsewhere other factors contributing to risk include family history where men are twice as likely to develop the disease if an immediate blood relative, such as a father or brother, had prostate cancer. Other risk factors include a diet high in saturated fat, as well as obesity, and use of testosterone therapy. The ambient environment including pollution is not recognized as a source of carcinogens though.

Lymphomas

Four lymphomas were identified from the Pennsylvania Cancer Registry among inmates; two cases of Hodgkin's disease (HD) or Hodgkin's lymphoma and two cases of non-Hodgkin's lymphoma (NHL). Neither of these types is linked to ambient pollution. Risk factors for Hodgkin's lymphoma or Hodgkin's disease (HD) are largely unknown. There is no established association with tobacco use, diet, or alcohol, though hormones may play a role. An infectious

origin has been suggested, particularly the role of the DNA Epstein-Barr virus (EBV), and the risk of HD is somewhat higher in people who have been infected with it. However, the virus' role still is uncertain, though the HIV is a risk factor for NHL. Studies of lymphomas show little or no evidence to support the idea they are caused by toxic waste sources.

Leukemia

Leukemia have received much attention when concerns arise about environmental toxins There are several established agents for the leukemia, however they account for a small proportion of all cases. The cause(s) of most leukemia cases remain largely unknown. The role of viruses in animals has been established for a long time. More recently, the human T-cell lymphotropic virus (HTLV-1), the AIDS virus, and the Epstein-Barr virus (EBV) have been shown to cause some adult T-cell leukemia. In addition, therapeutic agents such as chemotherapy (alkylation agents) can cause leukemia. Several sources of x-radiation have been shown to cause the disease, however doses must be relatively large; as with diagnostic x-rays and long-term exposures to high levels of radiation. For non-ionizing radiation, there are no proven excesses from electromagnetic fields. Cigarette smoking does support an elevated risk of leukemia, but alcohol consumption data is conflicting. In addition some genetic syndromes increase lifetime risk.

Several types of cancer aren't discussed in this report as little is known about their etiology. It would not be constructive to ascribe a cause without a body of supporting evidence from recognized scientific institutions such as the National Cancer Institute, Centers for Disease Control and Prevention, National Institute of Medicine, or U.S. Preventative Services Task Force.

While controlling large amounts of fly ash is an important environmental management issue and populations can be vulnerable to its irritant effects on the skin and body membranes, including the respiratory tract, the medical and epidemiological literature does not support the idea that exposure to this material creates an excess cancer risk. Its inflammatory effects on people from its physical properties and interactions with chemical constituents do not increase the risks of cancer, and interactions with chemical constituents including toxic hydrocarbons also have not been shown to increase cancer risks.

Summary

The purpose of this study was to: 1) understand the types of cancer affecting men ate the prison, 2) evaluate the rates of occurrence, and 3) assess whether the ambient environment of the facility could have contributed to the incidence over time. The creation of rates was based on the premise that any stay at the SCI facility could elevate an inmate's risk and would be measureable if inmates were followed long enough. Follow-up is important to obtain most reliable measure of risk (rates), because cancers have very long "incubation" periods and since small numbers of inmates were studied. A limitation of this study was the inability to link inmate identifiers to the cancer registry over a longer period of time. It would have been most effective to trace all inmates over time by linking them to the PCR as well as other cancer registries in neighboring states where they might have resided, in order to obtain the best measure cancer occurrence after leaving SCI Fayette. For these reasons the determination of rates in this study is less precise. Just the same this examination of incidence in these men provides an important picture of the magnitude of cancer in the prison population.

The Department of Health is sensitive to concerns about disease clusters in all communities, including residents of SCI Fayette. In an effort to provide the most current assessment of the cancer burden and risk, the types of cancer, the relative frequencies and incidence rates were examined through 2012. This *study* was not designed to be an etiological investigation; to determine whether a particular pollutant in the environment is a carcinogen. Answers to this question require analytical designs that are beyond the scope of work of the PADOH. Studies of etiology are the responsibility of the National Cancer Institute (NCI), and the Centers for Disease Control (CDC), and universities. These institutions have already been important resources for examining the potential for fly ash to cause cancer.

This study provides objective measures of cancer incidence rates compared to all men in Pennsylvania. ***Based on the types of cancer observed and the rates, there isn't an indication the environment contributes to the risk, and there are no environmental data demonstrating that there are human exposures to significant levels of carcinogens that could increase the cancer risk.***

Attachment B

Date	Inquiry Type	Method	Question/Concern
2/4/2025	Employee	Email	Perhaps we could house criminal aliens?
2/4/2025	Employee	Email	I am just Inquiring if SCI Somerset is on the possible closing list. I am writing this with the upmost respect. I went through the list of five choices a few years ago. Please do not do that again. When you know just come out and announce what two they are. There were people crying at the meeting we held at Frackville and it ended up not even being us. To see the way some people reacted and the emotions and stress it caused them was not fun. The longer you prolong it, the more people are going to question (is it us?) Just be straight forward and tell them. Whatever two institutions you choose, let the staff know asap and do not make a list out of it again.
2/4/2025	Employee	Email	Good morning. As per the invite to do so, I just wanted to give some feedback towards the potential closures of the two institutions and two CC centers. York CCC has been a very good option for the young, the juvenile lifer's, the seriously mentally ill, and certain transgender reentrants. Accessibility to outpatient treatment and counseling services in this area is also excellent. Nearly everything these reentrants need are in walking distance at York. For Camp Hill, I believe Harrisburg and York are vitally important for the DOC in this region.
2/4/2025	Employee	Email	"
2/4/2025	Employee	Email	I have a suggestion to save money in the budget. Why not do a buy out of employees with 25 years or more? These are the higher earning employees. The State can then hire people at a lower rate. This would make the retirement age 55 for new hires.

2/4/2025	Employee	Email	Could you provide the institutions that are being considered for the closures, that way the potentially effected staff could plan for the future if their home institution would be closed. The email is very vague and causes concerns throughout the DOC.
2/4/2025	Employee	Email	After watching the closures of several SCIs over the past 21 years, it would be nice if the employees at the affected institutions could be informed before the general public. It is has been heart wrenching to watch my peers find out that their institution was closing on the evening news.
2/4/2025	Employee	Email	First and foremost, the Secretary's first sentence is not accurate. The DOC is not committed on being responsible stewards of Pennsylvanian's taxpayers' dollars. I've seen that first hand being a counselor and an acting unit manager inside the prison system. The Fraud, Waste, and Abuse starts at every individual institution in this Commonwealth. I've been through all this before. This might be my second round of DOC closures, that will affect me during my in my DOC career. My first was Western Penitentiary in 2017. The DOC and DOC Leadership probably already have their decisions made. Just be upfront and honest with us. My question: Will you be offering any early retirements? Sweeten the deal for us seasoned DOC professionals. I reach my DOC "shelf-life" (age 50) later this year. I've earned my pension working behind the walls and razor wire of these institutions. Will you give us employees our medical and pensions; a little early. WITHOUT penalty? Want to save money? Offer us top-tiered DOC professionals a buy out!
2/4/2025	Employee	Email	One of my staff with over 17 years and another with 20 is wondering if there is any discussion of early retirement incentives with the closings which would open up positions.

			Offer buy out to affected staff that may be close to retirement. Offer interagency transfers or relocations (i.e. counselor to parole etc.) Start new programs w/I the SCIs that would make/keep them relevant (i.e. Scandinavian Units, Reentry Programs) Start new Reentry Programs in the affected communities where DOC can work w/ Federal, local, county agencies
2/4/2025	Employee	Email	Replacing something old w/ something new may help the future of the DOC.
2/4/2025	Employee	Email	As a PSS that works in an RTU with female offenders, I am a frequent attendee on hard to place calls for individuals that received parole but do not have a support system to return to. My comment is regarding the closure of the CCCs and inquiring or expressing concern regarding if it would affect the availability of services for “hard to place offenders,” particularly those with SMI. While medication compliant, some continue to experience symptoms of their mental illness and CCC’s are a significant resource for re-entry for these individuals.
2/4/2025	Employee	Email	How long are will we be waiting approximately before we know what jails are closing?

My name is [redacted] and I work for a company contracted by the PADOC to provide psychiatric services to inmates. I am not a psychiatrist myself, nor even a nurse practitioner. I facilitate telemed appointments between inmates and remote psychiatry providers. I work primarily at SCI Albion, but occasionally at SCI Cambridge Springs as well.

Last I heard, my company was still waiting to see if their contract was going to be continued. I understand you can't tell me the standing or outcome of that contract, and that's not what I'm asking. Not specifically, anyway. What I AM asking is how this does affect that decision making. Will everything continue business as usual, every potential contract being given the same consideration it always would, or, does this decision to make closures mean you won't be considering contracts any longer?

Naturally, I do not expect the PADOC to provide for contractors working at the facilities that ultimately get shut down. That will be for the companies the employees such as myself work for. I'm just wondering what the immediate future might look like for someone like me. If I can count on my job continuing until the shutdown process, if my facility gets closed, or should I just throw in the towel now and start the, very difficult, job search right away.

2/4/2025 Employee Email

2/4/2025	Employee	Email	I am a corrections officer at SCI Cambridge Springs. I have worked here for the past 22.5 years, since I was 24 years old. I'm not sure if what I have to say makes a difference, but I'm going to ask anyways. I am stuck in a position where I was grandfathered in on the retirement age of 50 with 20 years of service. I have the years, but I am only turning 47 this month. All I would ask is that for whatever prisons that may close, and early retirement option of those of us that only have less than 3 years left is offered. I don't know if my prison is on the chopping block or not, but it's all I've ever known. I moved to be closer to Cambridge Springs and purchased a house with respect to where I work. In the fall I would be only 2 years away from the retirement at any age after 25 years of service and would absolutely retire if I was given the option to. Thank you for your time and consideration. CO 1 Victoria Lowe
2/4/2025	Employee	Email	Has anybody ever explored closing Quehanna? Their location, on a regular basis, only has several hundred inmates, most of which could be dispersed to other established programs throughout the state and the basic training program specifically could be moved to the outside housing unit on the property of SCI Phoenix.
2/4/2025	Employee	Email	What should be shut down is the academy. That place is a waste of time and money. Trainees don't learn anything up there and the instructors pass trainees with their test just to get them through. When some come to us, they know nothing and learn everything with the more experienced staff, training Sgts, etc teaching them. The trainees can do the WBT, get uniforms, and stuff, then jump right in. Learning on the job is what happens anyway.

2/5/2025	Employee	Email	SCI-Huntingdon, although an old facility, has long been a leader throughout PA as a model for staff and other facilities. It's geographical location and closeness with Smithfield provides numerous cost/benefit advantages. I believe historically, and in the present, Huntingdon has and continues to be run in an efficient manner. The staff at Huntingdon perform their job duties with pride and the overall work ethic (possibly unmatched) of staff contributes to the efficiency of the facility. I believe the overall work quality of staff is another important factor that should be taken into account prior to any decision on closures. Offering other staff, specifically officers to work with the Huntingdon Team would reduce costs, specifically with regard to overtime. Closing Huntingdon would decimate the region economically as well given it's rural area. There are a lot of great people that work here and contribute to their local communities be it fire department, youth recreation volunteers, local charities, church organizations, etc. I should note I personally am able to retire w/o penalty with 32 + yrs. and beyond age 50; thus, my decision would be much easier than those younger, with families, who contribute as mentioned herein. These are just a few thoughts that should be shared with those tasked with making the difficult decisions that lie ahead. Take care and Thank you.
2/5/2025	Employee	Email	1 way of reducing the amount of money spent is to do away with the contract list in purchasing. This so called list has many people on it that cannot provide the service, they just know who can and then they contract them out to the DOC. This immediately adds 20 -25% more to the cost of everything we buy. so 2Billion could get shaved down to 1.6-1.5B. Thats a big savings, but its to late for that. And i have been yelling about this for the last 2 years, but no one wants to do anything.

2/5/2025	Employee	Email	Last time the state closed jails the violence rate increased dramatically, putting staff at a higher level of danger. Surely there must be a better way of cost cutting. Both in the State budget (which has a substantial " rainy day fund") and within the DOC. Safety should be your priority, not nimbers. institutions and 2 CCC's I think it is only pertinent to discuss other options to cut costs as well. Maybe in cutting some other costs we can cancel out the need to close prisons.
2/5/2025	Employee	Email	One proposal that I feel has merit is closing the Training Academy. Let me explain: as far as basic training, every jail has the ability to train their new people. All of the trainings they would take at BASIC; the local institution has instructors in First Aid, CPR, Defensive Tactics, etc. Classes could remain very small or even held until there is a new class. Currently there is already remote instruction weeks of basic training that could be facilitated at the institutions. Part of basic training that I remember is the instructors stating they will learn how "their institution does it" anyway and probably change some of their training. It was always strange to me why we would train people two different ways anyways if their local prison is going to train them in the way "it is done here." On-the-job training is always more effective in terms of internalizing and actually learning and retaining information as well. The basic training part of the academy inundates students/employees with vast amounts of information that has never helped aiding in actually retaining the information that was presented. We spend countless dollars to compound as much information in weeks as possible, only for most employees to forget or not internalize the information. I think many employees can relate that most of what they learned, they learned from a Sgt. that taught them, or a supervisor who showed them, or a co-worker who shadowed them at the beginning on their tenure. We as humans, retain and internalize

2/5/2025	Employee	Email	A staff buy out would help decrease the effects on staff from facilities that are closed by opening additional positions at other facilities. Is this something that will be considered?
2/5/2025	Employee	Email	June, and it really upset me to read the closure email yesterday. I don't even know if Rockview is on the chopping block, but this will be devastating to whatever community it hits. As well as living right behind SCI-Houtzdale, I've literally met or worked with at least someone from each facility since I've been employed, and even if we are spared, my heart aches for my friends who have to uproot again. I came from my family business after working there since I was 15. I was forced out, ironically, after a fire took our production machine. I have a safety background in both surface mining and occupational/construction, and this job stood out to me only because of the facility. I have to admit, I didn't want to work in a corrections facility. It was intimidating, out of my comfort zone, and I really didn't want to be a part of it. Now that I'm here, my view has changed and I see the good that corrections can bring to the inmates, the employees, and the community. We do wonderful work rehabilitating the inmates, and the vocational/educational aspect is remarkable. I'm proud to see that our mid-year report card is already $56,000 below projected injury compensation, and I feel a little progressivism, hard work, and common sense as I've implemented might be a big piece of solving this equation.
2/5/2025	Employee	Email	We also have an administration that cares - I've watched the excitement when someone ""graduates"" and gets released, I've seen the sadness whenever we lose someone - I've seen

2/5/2025	Employee	Email	I understand the state is trying to save money by closing 2 SCIs and 2 CCC Centers. I know a lot of people who would be interested in a buy-out. That would save the state a lot of money. Then new employees can be brought in at entry level salaries. Will this become a possibility? I would go.
2/5/2025	Citizen	Email	I saw the closures, and I would suggest putting Sci Rockview on that chopping block. The incompetence that is within that facility alone is disappointing. A lot of it towards staff. I worked for Wellpath and I would also suggest getting another lab within your state's facilities. Wellpath as I'm sure you know had filed for bankruptcy in November 2024. Dan-the main boss was just transferred from Maine, and is crooked as the next. There is no need for a phlebotomist there all day. The work can be done in 4 hours. And now you have another staffed phlebotomist there- not doing so well but can't afford to quit. I only lasted 6 months and they do not do their work! Lack of communication is at an all time high. The centralized clearances are never done!! They put me in harms way.
2/5/2025	Citizen	Email	You should be receiving a law suit soon.
2/5/2025	Citizen	Email	I heard youre planning on cutting 2 state prisons. I sure do hope you have Sci Rockview on that cut. You do realize I have sent multiple letters and emails in regards to how unethical that facility is.

			I am currently a corrections officer at SCI Albion. I just had a few questions about this email. What is the estimated timeline for the Steering Committee's report to be ready? Our institution is approaching full staffing capacity after significant efforts hiring new staff to replace the many retirements, transfers, promotions, and separations that have occurred within the past several years. Will there be a temporary hiring freeze to ensure existing staff members at affected institutions will be afforded these job offers as soon as possible? If so, when will the hiring freeze take place? Would a hiring freeze be state-wide or just affect institutions surrounding the closures? Would transfers to/from unaffected institutions also be frozen?
2/5/2025	Employee	Email	
2/5/2025	Employee	Email	The news regarding closures sparked many conversations from what centers and SCIs will be closed to different ways the state can save money. A buy-out came up in the conversation regarding the potential savings this can provide the state. When these closures take place, people will need to be relocated, etc. I know many people that will be interested, myself included. Will buy-outs be considered an option? Either way, we hope the state will decide on the best outcome for all.
2/5/2025	Other	Phone	I received a call today from 814-496-1492 from an individual who wished to remain anonymous. He stated that he believes Quehanna Bootcamp should be closed due to its ineffectiveness and urged the Secretary to seriously consider this in order to reduce vacancy rates at other local facilities. He argued that it would be a mistake for the state to keep it open, citing various incidents over the past 10 years as evidence of its failure.

2/5/2025	Employee	Email	It was sad to read the message form the Secretary and hearing the news from the Governor for the closure of 2 institutions. Thinking: Closing 2 prisons, looking about 1,100 employees relocating. Why can't you put out an all call to employees that fit the criteria to offer 1 for 5 for retirement. Trim the fat so to speak. You can then hire 2 for the price of one. Yes, there would me many people jumping on that. I would. I'm going on my twenty third year in corrections. Then, there is those saying that we will lose a great deal of staff with years of knowledge. This is why the mentoring program is essential. We now have people that can promote with in there institutions with the knowledge from their mentors. Win-Win.
2/6/2025	Employee	Email	The obvious blatant answer to cost savings would be to scrap the training academy. At this point with our technology there is no reason to have a brick and mortar location. This would cut travel, housing, food costs, cost of Staff and would be one less area to maintain. For instance SCI Mercer is just finishing up their Regional training facility. There is basically no reason for anyone from region 3 to go clear across the State for basic training. Before closures we should be looking at obvious things to cut.

		2-10 RNS and have been doing this for a year and a half. Prior to this, I did 10 years here as a RN working the units. I have seen over this time frame the many great ways we attempt to medically care for these inmates. We have many inmates with varying degrees of mental health issues and I believe we treat them with dignity and respect to assist them to be their best. We also care for the growing aging population. Although they are inmates, they have many medical needs. We not only meet their medical needs, we excel. You can see this in any inspections we have. The cost of care for these inmates may be high but no matter where you place them, that cost is not going away. We do have an older building but it is well cared for by our maintenance department. We have done some costly renovations recently but those costs are behind us. There is a dire need for a long term care unit for some inmates from across the state. They are taking up many infirmary beds and at prisons that don't have the necessary medical personnel. CHCA Dulski has taken on that challenge of having a long term care unit here. CHCA Dulski has a Registered Nurse background and believes in providing the necessary care for the inmates in her custody. The medical department here believes in her and we accepted this difficult challenge. Prior to working here, I worked 10 years at Gino Merli Veterans Center. I know the difficulties of this challenge we are taking on for this long term care unit. I believe I know most DOC staff here and have full confidence in their abilities to meet this challenge. It would be a shame to considering us closing after all that we do and what has been put
2/6/2025 Employee	Email	into SCI Waymart. I believe this building has many years of
2/6/2025 Other	Phone	calling to commend sec. harry and gov. shaprio for recognizing need to close these costly facilities. lots of waste out there. should also evalutate purchasing procedures. hopefully these closures will help state employees appreciate their jobs.

2/7/2025	Employee	Email	Has the state ever considered offering anything like 1 yr of service for every 4 or 5 yrs of service to entice some to retire? Just a thought to save the state a bunch of money by getting some of the higher salaries out and some lower ones in. If enough staff left maybe the closures could be limited.
2/7/2025	Citizen	Email	I'm a Philadelphia resident, professional mindfulness teacher and I volunteer in various ways to bring more humanity to our incarcerated people and their loved ones. SCI Fayette is built on 50 million tons of coal waste and both employees and those housed are severe environmentally-related health issues like respiratory problems and cancer. Please considering closing the facility for the sake of the health and safety of the hundreds inside Fayette as well as a matter of wider public health.

2/8/2025	Employee	Email	I am writing you to inform you of something that may want to be considered when deciding which facilities are being proposed for closure. SCI Mercer carries the full weight of staffing all inmates admitted to any of the Pittsburgh hospitals. When SCI Pittsburgh closed this was a great way to keep a lot of the Pittsburgh staff from driving an hour or farther to work everyday. We average 6.xx hospitals a day here at Mercer. I have seen up to 17. Mercer was able to save the state tons of money by not having to pay officers from the Pitt closure drive time/mileage due to their location. However, those officers aren't going to be around in another 5-10 years. Some have already retired. Mercer accepted 58 staff from SCI Pittsburgh at there closure. Around 40 remain. It seams almost cruel to ask them and their families to go through that again. Mercer is geographically the closest to all Hospitals in the Pittsburgh area also. The state needs to consider A) the outrageous costs they will be responsible for paying staff from prisons across the state. B) How much more of a daily cost will be generated by another prison taking over all of the hospitals. C) Building a new prison in the area to accommodate these hospital posts I have 15 years in corrections. 5 at Mercer county. 7 at SCI Forest and 3 at SCI Mercer. Mercer it the best ran facility that I have seen. People want want to and enjoy working here. Closing down the only consistently fully staffed prison in the state seams counterproductive to what the governor is trying to do. Thank you for your time

			innocent individuals by incarcerated persons within the Pennsylvania correctional system. While recognizing the challenges faced by incarcerated individuals, the severity of their criminal actions in exploiting others cannot be understated. Victims are not solely individuals with low self-esteem; they are often empathetic people who, motivated by compassion, form relationships with incarcerated individuals who then exploit their vulnerabilities. These inmates utilize manipulative tactics, including carefully crafted narratives and exploitation of established relationships through correspondence and visitation, creating a power imbalance that facilitates abuse. The financial repercussions for victims are significant, ranging from minor losses to substantial amounts exceeding $100,000. The lack of a dedicated victim support unit within the Department to address this widespread problem is a critical oversight requiring immediate attention. A comprehensive, multifaceted program is urgently needed to aid current victims and prevent future exploitation. This program should include: * **Public awareness campaigns:** Educational initiatives to inform the public about sophisticated methods used by incarcerated individuals to defraud others. These campaigns should highlight the manipulative tactics employed and provide guidance on recognizing and avoiding these situations.
2/8/2025	Citizen	Email	

2/9/2025	Employee	Email	Hello, I just wanted to comment on the closure email I received. First, I wanted to say that this might be the third state facility that has closed since I started working for the Commonwealth. The other two that has closed was Mayview State Hospital & SCI-Pittsburgh. Both of which have left holes in the communities to this day. If closures happen & the state has a job freeze, any openings throughout the state should be filled with the people that are affected. List ALL state positions available not just D.O.C. positions & if people are qualified let them have it. It is only fair. I understand trying to save taxpayers money but if its not serving the communities better what is the point? The Pittsburgh CCC is the only female center in the entire state so what happens if we close the only one? I speak to our reentrants & they want to stay locally because there is no jobs back home & it is just overall a positive place for them & their children. Some of the reentrants may be living in my community or yours. Sometimes bottom lines isn't important when dealing with people's lives. This has been one position where our entire staff is helping people make better decisions for themselves & their families. The Centers are a lot more important than what people think so if closing a few places is what is best please consider keeping the ones that are providing opportunities open.
2/10/2025	Citizen	Email	Why on Earth would you close two facilities in the same area? And, to say that you will offer comparable employment within 67 miles? I bet you want to drive another two hours everyday when you have young children at home. As long as it isn't Josh Shapiro's family, who cares? As long as you sit in your cushy office and ruin other people's lives, it's a great day at the office. You are disgusting.

closure of two State Correctional Institutions and two Community Corrections Centers in the PA DOC that we received on 02/04/2025. As both an employee of the Department of Corrections and a member of the community in which I serve, members like myself are important stakeholders in this decision and I would like to voice my questions and comments over the decision.

Governor Shapiro recently just gave his annual budget address (conveniently also today on 02/04/2025), announcing a plan to spend $51.4 billion dollars for the 2025/2026 fiscal year. That is $4.5 billion MORE than what the state is projected to collect in revenue next year. He said, and I quote; "" Today I can report that Pennsylvania is on the rise. From education to health care to housing to economic development to JOB CREATION.""

I am confused by the decision to close our state facilities if this is indeed the truth; if we really do have so much [more] money to spend. Many employees will not be able to sell their homes in the current economic state with the interest rates the way they are. Thus, they will be unable to move to the new location that they will be offered a new job at. It will force many employees to retire or choose a new career path which is not creating job growth, as the governor said is so important to him and Pennsylvania. SCI-Rockview and the Quehanna Boot Camp have created jobs and business in an area where it is desperately needed.

2/10/2025 Employee Email

			if you want to save money and be responsible to taxpayer funds and create a more lean unwasteful budget start with the contracts with Grainger, MSC and Fastenal. These companies charge 2-6 times the amount of parts than local even state based companies. I have received many parts that are just dropped shipped from a company I can not buy from then price doubled tripled or more. cut down on overtime and hire/retain employees. The payscale is so off and that I believe is a main reason for retention failure. Tell someone pay sucks but hold out for 5+ years and you will make the same as you are now. Payscale needs to be faster in first years and slower in later years
2/10/2025	Employee	Email	Millions every year can be saved in Maintenance department alone.
2/10/2025	Employee	Email	I was just wondering how the potential closure of SCI Rockview will impact the various specialized housing programs as well as the location of the death chamber. I applaud the decisions to chose these two prisons for closure. Rockview is very close to Benner, so the staff will be easily absorbed. Quehanna is close enough to Houtzdale to absorb many of the staff. I believe that the Outside Service Unit at Waymart may be a good location to move some of the inmates from Quehanna as well.
2/10/2025	Employee	Email	keep up the good work! I am proud to work for the DOC.

			67 miles has now become 80 miles. (transparency is great when it's hidden in the fine print) Also, since you've decided to close two facilities in the same general location, you don't have 234 or 658 people vying for jobs within 67 (I mean 80) miles, you have 892 people vying for the same jobs.
2/10/2025	Employee	Email	There are four facilities within a 67-mile radius where employees may most conveniently relocate. Those facilities include SCI Benner Township (41 miles), SCI Houtzdale (36 miles), SCI Smithfield (62 miles) and SCI Huntingdon (62 miles). While outside the 67-mile radius, a fifth option would be SCI Forest at 73 miles, and a sixth option is SCI Pine Grove that is within 80 miles. o Three of the four facilities within the 67-mile radius maintain a CO vacancy rate greater than the Department's average. As of January 13, 2025, there were a combined 87 CO vacancies across these facilities and the redeployment of Quehanna Boot Camp's staff has the potential to positively impact both the vacancy and overtime demands at each of these locations. o An analysis in the fall of 2024 revealed that the four most likely landing facilities had a combined total of 414 staff who were currently eligible for retirement and an additional 68 who would become eligible during the closure process, if approved. Those totals rise to 555 and 90 respectively if SCI Forest were added as a potential landing facility. If Pine Grove were considered, there were an additional 106 staff eligible for retirement with another 12 anticipated to become eligible

		I am writing in response to the closure of Quehanna boot camp. My sister works at this place and is the sole breadwinner for my Mom. We lost our Dad 12 years ago and with out my sister my Mom would have never been able to make it. More than likely they will need to sell their property now, thanks to this. Closing the boot camp would be a tremendous loss, not only to my family, but hundreds of other families. This economy right now is bad enough and you want to bring this on top of it. Absolutely absurd. I'm angry. Who is this benefitting?
2/10/2025 Citizen	Email	I am asking you to reconsider the closing of Quehanna Boot Camp, Please!
2/10/2025 Citizen	Email	Best decision ever! That place ruined our nice quiet little community. People from away from here transferred or got hired and bought up all the homes around for what they felt was a steal from us dumb backwoods hicks.Made rent prices go sky high as they would rent a place and like 10 employees would use it as a motel more or less.Trade shifts and work doubles 3 or 4 day's while sleeping at said rentals then go home to maybe Altoona area or farther. I could go on and on with the waste from the Boot Camp.and how it destroyed our little town. It was to provide all these jobs for LOCALS. There are only a hand full of people that were originally from the area..I can name them all as I lived here all my life. Yes they most employees live in the area now. Only because they moved here because they transferred here...Hope they all move to there new job's area...Please consider opinions from people who are NOT employees or employees family...We never wanted it here in the first place! And Rockview....Just look at all the property the have..

2/10/2025	Citizen	Email	I hope you are doing well. I am writing about the closing of the SCI Quehanna facility. As a mother of an inmate at SCI Quehanna, I'd like to know, what will happen with the inmates? I understand that you are worried about the staff making sure that they continue to have a job but, what about the inmates? The staff informed the inmates that the facility will be closing in three months. My son's last day at the SCI Quehanna program is April 30th, which is before the three-month mark as of today! My question is, will the inmates be transferred to another facility in the coming days, or will they be transferred to another facility closer to the 3-month mark? Will they be transferred to another facility where they can continue with the program? Please reach out to me with an answer at your earliest convenience.
2/10/2025	Employee	Phone	CO at Rockview; sad that he has no options. not right; not good for the community; you need to figure something esle out.

2/10/2025	Citizen	Email	As a concerned citizen and a taxpayer, my suggestion is to close down SCI-Fayette. Not sure if you are aware that SCI-Fayette is built on toxic coal ash and impacts the health of the DOC staff as well as the people who are under your care. It has long been reported that toxic particles are concentrated within the prison walls, floors, the air and even water that the people in prison must drink, bathe, or brush their teeth with. Show that you care for the health of your staff as well as the people inside the prison who cannot go home each night to their families. Close SCI-Fayette. A prison should have never been built on that toxic waste dumping ground.

2/10/2025	Employee	Email	I am [redacted], a Catholic priest and [redacted] I was just made aware about an hour ago of the proposal to close Rockview. On behalf of all the chaplains, the officers and their families, and the inmates here at the prison I ask that you please consider keeping Rockview open if at all possible. We have made great spiritual progress here in the chapel over the past few years with a number of inmates coming to the Faith and turning away from their former way of life. We have a good number of spiritual and religious study groups and nearly 50 volunteers who love to come here to encourage the men and to help them on their Faith journey. There is historical significance of the prison here. The beautiful chapel at Rockview was built by the inmates themselves after Msgr. Richard Walsh in 1953 successfully de-escalated a prison riot by speaking to the inmates and persuading them to lay down their weapons, thus preventing bloodshed. This chapel is certainly a great blessing that cannot be found in any of the other state prisons due to its unique origins. The Bishop of Altoona-Johnstown actually consecrated and dedicated the chapel here at Rockview, declaring it a parish within our diocese. The name of the parish given by the Bishop to the prison here is "Our Lady of the Mount" and we have been keeping the records of all the Baptisms, Confirmations, and First Communions of all the inmates who have come into the Church while here at the prison since its dedication a few decades ago. If the prison were to close, all the sacramental books and sacred relics would have to be removed and transferred. Rockview is the only SCI-Chapel

			Bootcamp . I understand tough decisions need to be made , but I feel closing the bootcamp would be a big mistake . A Lot of the people employed at the bootcamp have chosen to make it a career and not just a job .Most employees travel an average of 27 miles to work as is, To have to travel a possible 67 miles may not be feasible for some at the same rate of pay . I realize that the employees would be offered a position within that 67 mile radius . Which would leave mainly Houtzdale or Benner . I do not believe these 2 facilities would have enough openings to be able to place the bootcamp staff .Which then leads to the economic issue it causes within the area . It will put an economic strain on employees and their families along with taking money out of our community . If people become unemployed , or have to spend money traveling farther , more frequent car repairs, ect that is less they have to spend in the community . My daughter had received a job with the DOC about 9 years ago . We all moved to Clearfield for her to be able to develop a career with job Security and financial stability. She had purchased a house . I am hoping that if it is decided to close the bootcamp that she is transferred to houtzdale. That would be closest for her . I know if she has to travel hours away that means we would have to sell our house , uproot her son from school and give up our American dream of being a homeowner, MY daughter has worked very hard . Cosing this Facility in such a small area with not alot of job opportunity I believe would be a grave mistake and would cause great harm economically for the workers but also for the
2/10/2025	Citizen	Email	

2/10/2025	Employee	Email	I am very opposed to the closure of the Quehanna Boot camp, I don't see how it can save the state that mich money considering that it is a very small facility that doesn't require as much funding to operate, as well as having the highest rate of inmate GED graduates and low re offense rates. I work for this facility as a CO1 and will not be able to move to another facility as many of them are too far away, this is my livelihood and how I provide for my family. It would surely cripple me as any other job in the area would be a pay cut for me. A pay cut large enough to not support my bills and rent, please consider the people operating this facility and those that rely on it for a means of living, and their circumstances.

			Rockview due to its age, proximity to SCI Benner, and the upgrades needed, it would be a net negative to the DOC and public safety. I primarily wish to speak about the QBC due to my connection and insight working there. First, the QBC closing does not help meet the Governor's desired budget cut of $100 million with the closing of Rockview. What makes it even more of a mistake is the fact we spent over 1 million of tax payers dollars, and I'm sure much more, to create a new building at this facility over the last 1.5 years. This isn't an effective way to spend/save precious tax dollars. This wouldn't just be a slap to the face of the hard workers I work with, but a slap to the millions of people who struggle to pay their bills in PA seeing their taxes go to waste. Second, the QBC facility is a lower level security prison that many inmates find success in rejoining the community faster than their normal sentence allows. The facility takes those who need help with primarily drug charges and problems, and helps them become better members of society. This does many things for the DOC, including lowering recidivism and opening bed space at other facilities. This also allows the DOC and State to not have to put as many resources into the programs/facility as others. The fact we do not have things such as a fence or maximum security measures mean we do not need to sustain upkeep of these resources.
2/10/2025	Employee	Email	Finally, in regards to being a lower security facility with less I urge reconsideration of the decision to close SCI Quehanna Bootcamp. This program saved my life and that of many others. It is an amazing and irreplaceable program that continues to change the lives of many. Closing the facility and ending such a program is a direct contradiction of the PA DOC mission statement. Please keep the program alive!
2/10/2025	Employee	Email	

2/10/2025	Citizen	Email	Hello I am a former boot camp participant! My name is [redacted] I was incarcerated at the age of 18 for the second time making me a PV I was lost in life not knowing how I would change and or if I would change I had severed 3 and a half years in prison until I was offered to take up my boot camp eligibility and I was nervous and yet scared to do so. I still did it and it changed my life the dedication I put it to and also the dedication the boot camp instructors put into it was life changing I have been home for over a year now and have had no issues adapting to the life of a civilian I have no problems with the law and I do not commit crimes of my past life any more I have a 1 year old son now and I am dedicated to giving him the best life a child could ask for with being influenced by the instructors I know how to treat other and be a man of the community! Not everyone life's change when they go threw the boot camp but if 1 of 50 was the outcome of change that is a job well done and I can honestly say this program played a huge part in my life and I don't feel as if this should be stripped from our community I hope this letter finds you well and is taking into great consideration and I hope it is! I just want to give my thanks for saving my life from jail and crimes

2/10/2025	Citizen	Email	sons. The proposed closing of Rockview hits home and will directly impact the welfare of our family. Without a guarantee that my husband will be offered a position at Benner or even Houtzdale, we must consider the reality that he may have to transfer to an institution much further from our home. Many may rebut my protest by saying we should just move closer to the institution he lands at. What you may fail to consider are the deep roots our family has in our little section of rural central Pennsylvania. Our children attend an amazing Christian School that keeps tuition low enough for our one income family to be able to continue sending them each year. This school is a rare gem that cannot be duplicated elsewhere. We are deeply involved in, and serve in many capacities in the same church I grew up in. There is no replacement for that. My parents who have lived in the same 15 square miles their entire lives, moved in with us when they retired. I couldn't even imagine asking them to relocate at this stage of their lives. The potential closing of SCI Rockview, is hazardous to the stability of my family. Our way of life would be upheaved. Our children's education and safe environment would be jeopardized. As any man or woman that has worked in an environment that involves criminals can tell you, we need to do everything in our power to keep our children safe. Safe by giving them a secure and safe environment to flourish. Safe by teaching them strong values so they don't fall down the path many inmates took. Safe

2/10/2025	Citizen	Email	Bootcamp to close their facilities. When I heard they were closing prisons, I was so confident my husband would continue to be employed because they had just invested so much money In buildings at that facility. I want you to know this decision will not help the economy, the local families, or the government spending for the following reasons. 1. While it may cut costs to close these facilities, the government seems to think all of the current state employees are going to drive an hour and a half further from their homes and current jobs to continue working as corrections officers for the state. I can assure you that is not the case! The inmates will be transferred and there will not be enough employees to maintain such a high capacity of inmates, leading to more overtime spending and higher rates of violence and turn over. Newer employees with less time will be running things and not have the experience to manage such dangerous situations. 2. My family is currently a foster family. We recently purchased a 6 bedroom, 350,000 dollar home closer to the Bootcamp so my husband can work while still being close enough to be home and support the need of foster parents in this community. We currently have a level three autistic child who could not be placed anywhere else in the state due to his high needs. NO ONE WOULD TAKE THIS CHILD BUT US! If my husband cannot work close to home or work for the same pay locally, we cannot continue to foster children as I will need to provide additional income and a child with needs as high as his will cost the county

			As a constituent and taxpayer of the Commonwealth, I want to express my disagreement with the proposed closing of SCI Quehanna Boot Camp. QBC has offered a unique blend of safety, discipline and treatment for substance users as well those convicted of crimes that don't necessarily meet the definition of violent crimes. QBC has shown these services can be done without the need for fences and razor wire. Not all convicted people need to be in highly secure prisons where there psychological and physical well-being are at risk. Staff at QBC also provides a vital resource for the community. From the community works program, to specially trained staff on emergency response teams who have been involved in many search and rescue efforts that have occurred over the years. As you know, QBC is in a very remote area where people enjoy the diversity of outdoor activities. Unfortunately, there are times when people have gotten lost, hunters and loggers have been injured. QBC has the infrastructure and location to assist first-responders a crucial staging area. I hope the DOC can reconsider this closure of QBC. The DOC can utilize QBC and its unique location and infrastructure to reimagine a new way of modernizing treatment services, job skills development while moving away from strictly punitive and dehumanizing methods of incarceration.
2/10/2025	Citizen	Email	

2/10/2025	Email	Email	I am writing to express my deep concern about the potential closure of SCI Rockview and its impact on our community and the state of Pennsylvania at large. As a concerned citizen and wife of a corrections officer, I believe that the closure of this facility would have far-reaching negative consequences, both socially and economically, and I urge you to reconsider this decision. SCI Rockview has always been a notable institution within Pennsylvania's connectional system and has a deep rooted history of reform and rehabilitation. Rockview has played a critical role in managing the state's incarcerated population. This closure could negatively affect public safety. SCI Rockview plays an essential role in managing the incarcerated population. Shutting down the prison would lead to overcrowding in remaining facilities, further compromising the state’s ability to manage inmates effectively and safely. Additionally, the closure could strain the already overburdened criminal justice system. I urge you to consider alternative solutions that can improve the overall effectiveness of our prison system while mitigating the negative economic and social impact of closures. Thank you for your attention to this critical matter. I trust that you will carefully consider the long-term consequences of closing SCI Rockview and its impact on the people of our state.

citizen and wife of a Sargent who has now served over 10 years at SCI Rockview, the closure of these two facilities would negatively impact not only staff and inmates, but the surrounding communities.

Rockview has played a crucial role in managing the states incarcerated population. Shutting down the prison and boot camp would lead to over 800 employees being dispersed into different correctional facilities, a job is guaranteed but they are being uprooted from their normal positions and shift work, already bid vacation time being lost and having to essentially start over at a new prison.

Not to mention, when inmates find out they are also being moved this could easily cause a riot within the facility. A riot that is unnecessary and could easily be prevented.

Rockview is a historical site, which will need to be maintained long after it's shut down. This will cost tax payers money having to move inmates to other facilities, maintain the ground to an empty building, and not to mention over crowding already maxed out facilities to an even more unsafe number of inmates to staff.

I am worried for the safety of all involved in this closure and move. I urge you to please reconsider the closure of these two facilities.

2/10/2025 Citizen Email

			potential closure of SCI Rockview and its impact on our community and the state of Pennsylvania at large. As a concerned citizen and wife of a corrections officer, I believe that the closure of this facility would have far reaching negative consequences, both socially and economically, and I urge you to reconsider this decision. SCI Rockview has always been a notable institution within Pennsylvania's correctional system and has a deep rooted history of reform and rehabilitation. Rockview has played a critical role in managing the state's incarcerated population by also providing many programs that no other state correctional facility has including but not limited to – the forestry camp, RHU, NCCU, & RTU. This closure could negatively affect public safety as shuffling 2400 inmates from both facilities into different facilities within the state would not only require a large amount of resources but would also force a high number of inmate early re-entry into our communities. Shutting down the prison would lead to overcrowding in remaining facilities, further compromising the state's ability to manage inmates effectively and safely. Additionally, the closure could strain the already overburdened criminal justice system. I urge you to consider alternative solutions that can improve the overall effectiveness of our prison system while mitigating the negative economic and social impact of closures. Thank you for your attention to this critical matter. I trust that you will carefully consider the long term consequences of closing SCI Rockview and its impact on the people of our state.
2/10/2025	Citizen	Email	

2/10/2025	Citizen	Email	My name is [redacted]. My husband is currently employed at SCI Rockview. Today we got the devastating news about the facility closing and another facility in a neighboring county. This decision will affect hundreds of men, women and their families. It also will leave over 2,000 inmates who will need transferred to different state correctional facilities. Causing over crowding. I feel that is detrimental to the safety of the staff within that institute. We have 2 small children. You know what they say “you will never get these years back”. My husband being employed at SCI Rockview gives me the opportunity to work per diem and be able to spend more time watching our children grow. If he is displaced to another facility may mean less time with his family due to traveling to work. It might also require me to go back to working full time and missing out on some of those precious moments that like I stated before, “I will never get back”. This will not only affect us but all the other moms and dads who are currently employed at SCI Rockview. Right now us and hundreds of other families are faced with so much stress and anxiety about what the future holds for us. I hope you take my thoughts into consideration when the final decision is made about the closure of the correctional institute and that you think about the hundreds of people that it will affect.

2/10/2025	Citizen	Email	While I understand the state needs to control costs for DOC does closing space that exists the correct method. It is very difficult to convince the public to build prison buildings due to “NIMBY” thoughts. While DOC thinks they can blend the closed facilities into the current building n staff, what happens when future space/cells are needed. You closed the facilities that gave you that flexibility. As a retired Pa Police officer my experience on prison issues is that less crowding and more space provides a safer facility for staff and inmates. Better opportunities for special programs and reform efforts require space not being crowded. By closing these facilities might be a PR option in the short term but I doubt the value n money saved will really result in stated goals
2/11/2025	Employee	Email	My name is [redacted]. With the closure of Quehanna Boot Camp, I am hoping I will be able to relocate to SCI Forest. SCI Forest is approximately 89 miles from Quehanna Boot Camp but it is much closer to my home and the closest facility left near my home in St. Marys.

2/11/2025	Citizen	Email	My name is [redacted]. I am a wife whose husband is currently employed at SCI Rockview. I am also a former SCI Rockview employee. Yesterday, the DOC received the unexpected, devastating news that Rockview is under consideration for closure. Not only is this decision unexpected, it is a poor, irrational decision. Your main concern is saving money, when in the long run, you will be using tax dollars to maintain Rockview. Rockview offers more than just housing inmates and employ a large percentage of your local economy. As most of you should know, but most likely don't, Rockview holds an RHU, NCCU, K9 training unit, and more. Majority of you also do not know what it takes to run a prison from day to day. Right now, Pennsylvania prisons are at 86% capacity. Closing an institution as large as Rockview, which is currently housing 2,100 inmates, would boost that percentage over 100%. With the percentage being that high, you are risking the lives and safety of our men & women and also the inmate's safety and livelihood. The risk of riots, stabbings, fights, staff assaults, and more would be significantly higher when you fill a prison over capacity. You must also look at the inmate's view. There are a lot of inmates that can not have a cell mate due to safety reasons. They are considered z-code inmates. With going to full capacity, you are forcing dangerous inmates to have cell mates, and we all know how that situation will be handled. Please also consider the mental health toll this will take on our

2/11/2025	Citizen	Email	announced potential closure of Quehanna Boot Camp and Rockview Prison. I believe these closures will have a significant negative impact on our community, as well as my family, and I urge you to advocate for our area in addressing this issue. Specifically, I am worried about the following: •Emotional Toll: The uncertainty surrounding these potential closures is already taking a toll on my family. The stress and anxiety of not knowing what the future holds is overwhelming. The relocation and the need to completely restructure my family lives is incredibly daunting. •Economic Impact: The closures will likely impact local businesses that rely on the facilities and their employees. This could include restaurants, gas stations, and other small businesses. Has an economic impact study been conducted to assess the full extent of the potential damage to our local economy? •Inmate Relocation and Safety: I am concerned about where the inmates currently housed at these facilities will be relocated. Will they be moved to already overcrowded facilities? How will the state ensure their safety and access to necessary services, including medical care, mental health services, and rehabilitation programs, during and after the transfer? Will inmates be moved closer to or further from their families, impacting visitation and support systems? •Strain on Other Facilities: The closure of these facilities will undoubtedly place additional strain on other correctional facilities within the state. How will the state address the potential for overcrowding and reduced resources at these other

		Our family is writing to show our concern for the possible closings of the DOC facility at SCI Rockview and Quehanna Boot Camp. Our largest concern is the over crowding that will no doubt take place in other facilities after closing these two. Not only does it put our CO's in a much more dangerous atmosphere but also those who are incarcerated. We do not believe this will save money in the future. How much are people's lives truly worth? Please consider the is our comments and support for keeping these places open.
2/11/2025 Citizen	Email	
		So was our horrible leadership in the past year at Rockview a factor in closing the jail or was it merely a symptom of the top leadership already being privy to this information long ago? I'll be holding my breath for a truthful answer from you...
2/11/2025 Employee	Email	
		I am asking you to reconsider closing Quehanna Boot Camp. Clearfield county is a very impoverished area and large businesses continue to leave the area. In addition, Quehanna did spend over a million dollars in the last year to do upgrades. Another option is to close down the training facility in Middletown/Elizabethtown and train at the actual facilities. Please consider the area that is affected before making this a final decision about Clearfield.
2/11/2025 Citizen	Email	

2/11/2025	Citizen	Email
2/11/2025	Employee	Email

I am upset that you are considering closing this facility. I have been teaching for 47 years. Several of the students I have taught took the wrong path and ended up in QUEHANNA BOOT CAMP. In each case they have gotten their lives turned around and are being successful. In the community I live in jobs are hard to find. This facility has helped people get decent jobs. You are doing a disservice to the state and this community if you close it. Look at its record. It has been extremely successful. Please do not close it.

I work at the QBC. If closed the only rational prison for me to go would be SCI Benner. Turning a 15 minute drive to work into 45. Now have only 3 years seniority. I will more than likely be forced to go to SCI Houtsdale. Only 37 miles on the map, but a 54 minute drive in good weather and no traffic.

I finally felt I have a career at QUE. If forced to go anywhere but Benner. My career with the DOC is over. Although numbers are down at QBC look at the success rate. They are bringing up the no fences and bars, but look at our location. Top of a mountain with nowhere to go. Look at the 8 million dollar addition just opened 3 months ago, and tell me saving 10 million this year makes sense.

Please save our jobs

"

			Not only SCI Rockview/SCI QUE, but all corrections in the state provide many positive contributions to the community and state. I hope all of these and more are taken into consideration and are deeply looked at. The presence of a facility reduces the crime rates with rehabilitation on offenders. There are educational and vocational training programs offered to help reentries and also the community with community work crews which help clean, restore, renovate public areas. Economic contributions from revenues through the employees not only for the counties these institutions are located, but the neighboring counties where a majority of these employees reside. Looking at the proposed budget, it is hard to believe there is not room to shave some of these areas to prevent closures. I know every area needs money and wants more. Highlighted on PA adding 170K more jobs since 2023, essentially you are eliminating 1000 jobs by closing these four facilities. Yes, nobody “loses” a job, but the facts of the matter are these positions are frozen until the flooded compliments in these positions fall below the 1000 just relocated.
2/11/2025	Employee	Email	I am opposed to the closing of the Quehanna Boot Camp and Rockview prisons. Seeing almost all of our prisons are operating at over 75% capacity, I think the closure would mean moving inmates to other prisons bringing them to overcrowded conditions endangering inmates and staff. The other alternative, early release, is inappropriate in most cases. Also, this would be a hardship on the many Pennsylvanians employed at these facilities necessitating an extended commute or relocation or loss of employment.
2/10/2025	Employee	Email	In the FAQ, it states that all employees will maintain their classification and bargaining unit seniority. Will H3 Commissioned Officers (CO3 and above) retain their classifications as well, have a selection of facilities, or will they be assigned?

2/11/2025	Citizen	Phone	As parent and mother in law of workers at rockview. Doing them dirty by closing prison. Costs money to send inmates to another prison. Nothing wrong with Rockview being open. Look into other ways to save money.
2/11/2025	Citizen	Phone	100 percent opposed to closing rockview; husband works there; had brain bleed and broken nose; what to do with all employees?
2/11/2025	Citizen	Phone	husband works at ROC; put a lot of time in facility; very concerned about family and community; has one year old and three year old; doesn't make sense to close ROC after doing rennovations; sad to find out via Facebook; think about families re-check everything about closing Boot Camp. People in community need jobs and insurance. Boot Camp is efficient. You seldom hear of any fights. They do a wonderful job
2/11/2025	Citizen	Phone	former inmate urges reconsideration of closing bootcamp. program saved his life along with others; would not be where he is without it.
2/11/2025	Citizen	Phone	Upgrades would be cheaper than closing. Something about illegal migrants and Guantanmo Bay... Get federal government to house them here and pay for upgrades.

2/11/2025	Citizen	Email	I am writing to you about the proposed closure of SCI-Rockview. My youngest daughter has been a Corrections Officer there for 7 years. She travels to SCI-Rockview from Huntingdon County because SCI-Rockview is better run and she feels safer. Closing this institution will cause overcrowding and make things even worse at the other institutions for staff AND inmates. SCI-Rockview has the Forestry Camp and the death house. There will be costs associated with moving those – how does that factor into the savings? I cannot believe the savings quoted will actually be realized while creating unsafe conditions for everyone. When she was in training 7 years ago she participated in training prior to opening SCI-Phoenix and feels strongly that the 2nd oldest prison is better laid-out to keep staff safer than the newest. Just because it's old doesn't mean it won't hold up better in the long run. The past four years we have been in a period of easy on criminal offenders and I am not surprised counts are down, but that is now changing. What is the state's plan to house additional inmates over the next 4 years if populations increase? What will the cost be of reopening SCI-Rockview or God-forbid building a new institution? Please do not move forward with this short-sighted plan.

2/11/2025	Citizen	Email	I am a resident of Centre County and recently heard the news of Rockview being recommended to be shut down. As a business person, I understand the pressures to trim costs and can only imagine the cost of maintaining this facility. I am not writing today with a concern about whether to close or not close this prison, what I am writing to advocate is that if the decision is made to close, I implore you to have a plan of what to do with the property and facility. This facility and the surrounding land are just shy of 4000 acres. If it is a permanent closure, this facility should be torn down and returned to the people of PA as a State Park. Do not let this property just rot and be an eyesore in our community.
2/11/2025	Employee	Email	I am a CCII at York Community Correction Center. I am privileged as a civil servant to journey along with the SDTP population that comes out of QUE bootcamp. I get the opportunity to ask those that complete the program questions about their experience and time in the program. Those answers are why I am writing. I like to ask them what they would change about the program, if they could. One of those answers is that they feel they should be housed differently when they are in a state prison prior to going to QUE. Please consider this, if you can. If they will be in typical SCIs, could they be housed differently or together so that they are not thrown in with high risk offenders. Some of those that were successful, really struggled with the experience/possible trauma of being housed as high risk.

		I first want to say, I am opposed to the closing of this facility! Do you even think of the hundreds or approximately 1,000 of employees that have worked there! Imagine what this will do to our local economy! Having these good jobs generally close to home! You keep closing schools and prisons in these rural areas and soon you will only have big cities! Forcing more homeless and less educated! Please stop this now! I have 2 family members that work at the prison so this will really affect us! One COULD retire at 21 years of service, but why force them when they are able and willing to continue to work?! Yes, I know you're "promising" jobs within an hour of the facility, but my family already drives a half hour there! Putting more risk on them the further they have to drive! Just think of the financial burden you will be putting on thousands of families! And isn't Rockview a part of the historical society?! Won't you still have to pay for upkeep?! Please don't close these facilities! Think long term!
2/11/2025	Citizen	Email
		Hi, I am writing regarding to the closure of SCI Rockview. I along with many others find this very concerning and are really wondering how this is saving tax payer dollars. SCI Rockview is a historic site, so taxpayers will be still paying for a building that is not being used if closure does happen. Seems like more of a waste for tax dollars. I am also concerned about where these prisoners will be placed? Over 2,100 prisoners to be exact. Especially when other prisons are 90% - over 100% full. We are going to see an increase in violence and then starts the concern for the guards. These guards are family, friends, parents, daughter/son, etc. their safety should be prioritized over “saving” money. This is one of Centre County’s larger employment places. It’s a shame this prison is being considered for closure.
2/11/2025	Citizen	Email
		I believe it would be a fundamental error to close SCI Rockview. I firmly believe the secondary effects of this action would have undue impacts on the citizens of Pennsylvania.
2/11/2025	Citizen	Email

2/11/2025	Citizen	Email	closure of Progress & Quehanna Bootcamp. These programs are very beneficial for offenders who have less serious crimes and are wanting to get back on their feet. Drug & Alcohol offenders tend to attend these programs, and it gives them the opportunity for rehabilitation. Progress for example only allows sublocade when it comes to the buprenorphine usage which is a great form of MAT as the chances of diversion is very low and it is easier to taper off of when ready to. Other CCC don't require sublocade and will use suboxone which is easily diverted and misused which can result in the offender being tempted to fail in these programs and end up returning back to prison for violating the terms at those facilities. These programs will be devastating not only to the community when it comes to jobs, but to offenders who deserve a second chance. Why can't the DOC be more self-sufficient and utilize offenders to make repairs? The DOC is losing money in general by not utilizing the abilities of offenders for everyday things such as more labor-intensive maintenance, building furniture, growing food, renovations, etc. I believe with these facilities possibly closing we are going to see the number of offenders increase and cause overcrowding with housing in the other institutions because there are offenders in prison who could be released to one of these programs. Personally, I know several individuals who have attended both programs. These programs gave them the ability to change their life and be upstanding citizens and be productive citizens. If they

			currently employed at SCI Rockview. I am also a former SCI Rockview employee. Yesterday, the DOC received the unexpected, devastating news that Rockview is under consideration for closure. Not only is this decision unexpected, it is a poor, irrational decision. Your main concern is saving money, when in the long run, you will be using tax dollars to maintain Rockview. 			closure of SCI Rockview and Quehanna Boot Camp. As a resident/community member, I strongly urge you to reconsider this decision due to the devastating impact it would have on our community, workforce, and rehabilitation programs. Closing these facilities would not only displace hundreds of employees but also hurt local businesses that rely on the economic stability these institutions provide. Families of incarcerated individuals would also face significant hardship, as these closures would likely move their loved ones further away, making visits and support more difficult-something that is critical to successful rehabilitation and reintegration. Furthermore, relocating incarcerated individuals to other facilities could contribute to overcrowding, straining already overburdened correctional institutions and diminishing the quality of programming and services available to those seeking rehabilitation. Programs like Quehanna Boot Camp have proven to be effective in reducing recidivism, offering individuals a structured path toward reentry into society. Removing these opportunities is a step backward in criminal justice reform. I urge you to advocate for keeping SCI Rockview and Quehanna Boot Camp open, preserving jobs, supporting families, and maintaining rehabilitative programs that benefit our entire state. Please stand with our community in opposing this closure.
2/11/2025	Citizen	Email	Thank you for your time and attention to this urgent matter. I

2/12/2025	Employee	Email	Quehanna bootcamp. I strongly believe that if this proposal ends in the favor of closing the bootcamp that it would have a massively more of a negative outcome then a positive one, my reasons are as follows. Over the years the Quehanna bootcamp has made a positive change on many inmates lives and even staffs. Many of the inmates and staff that i have gotten to talk to over my time being here believe that the main reason for this is because at the QBC they get to focus on their programming and classes substantially more than they would have the opportunity to do so at a bigger/ higher level facility due to the distractions and other issues that commonly come from larger facilities this is why the bootcamp program would not be near as successful in other facilities. The Quehanna bootcamp also has the best recidivism rate out any other facilities, the staff play a big role in this as well with the with the amazing teamwork of hardworking staff who all work as a team to run and create a very structured and organized facility unlike any other prison. The Quehanna bootcamp is also a role model facility as we have the lowest number of fights and staff assaults. This facility has always played a major role in the local community in a very positive manner as the CWP work program has kept many local churches, parks and even roadways up to date and free of trash without it the beautiful Quehanna area we see today would be a disaster. Closing this facility will also have a huge impact on other prisons as well causing a more crowded facility which is showed to cause more violence and issues in the jails, this will also have a huge impact on many families with having the relocate as many of the employees here live a hour or even more from other facilities

2/12/2025	Employee	Email	I'm a COI at rockview and I strongly believe closing would be a mistake. Yes rockview is old and needs some TLC done but it's a great prison with even better people. We sit around 2100 inmates and 650 staff members. I live in a weird place where rockview, Benner and Muncy are the only places close to me, I don't have the time to get Benner. I hear nothing good about a man working in Muncy either so I might be out of a job to. Plus you have to take a look at the the local economy will take a hit, Clinton and center county both fill rockview. It brings a lot of jobs to the area and the people who travel the 40 minutes to work spend a lot of money in the area. Rockview has a lot to offer and is a place where we try to really help inmates. It has the forestry camp and alot of mental health benefits help. So before you close down rockview please consider what it brings to the table and what it's amazing staff bring to the table. Thank you for your time reading this
2/12/2025	Citizen	Email	Is it ok to ruin the lives of 900 state employees? Did you know they started an entire group of new trainees at Rockview yesterday morning? Some people already drive 50+ minutes to Rockview and will not have the seniority to chose a prison that makes sense to go to. With the correct supervision, Rockviews agricultural program could be used to aid in growing the marijuana Pa wishes to legalize. The prisoners are already causing issues for the correction officers that work there because they don't want moved. The correction officers are in a dangerous position and will be in even more dangerous positions when the other prisons are at 100% capacity.

2/11/2025	Citizen	Email
2/11/2025	Citizen	Email

I recommend closure. This facility is way over staffed and programs are available in other facilities. We need those staff members in other facilities, such as SCI Houtzdale. As far Quehanna helping/support local businesses/community, I live in Karthaus and there is nothing here that would be affected by the closure. I retired from the DOC and this is a huge unnecessary expense for taxpayers. This facility should be 1 on the closure list. Smart move and I support closing this facility.
Just curious if you knew where or how feedback can be given for these closures?

Everyone says they are accepting feedback with no clear ways to deliver feedback.

Thanks if you even read this. Have a good day.

			considered. Today, I learned that SCI Rockview, where I have worked for over 10 years, is slated for closure. This decision affects not only me but also more than 900 employees across two prisons. Do you expect us to find new jobs or transfers on short notice? I currently drive an hour to work, which takes a toll on me, but I need to support my family. What will happen to those who cannot relocate for a job or those who don't have enough time to move closer to a new position? It seems that these concerns are not on your radar. Your priority appears to be saving a few dollars instead of considering the impact on real people and their families. Well, at least you offered them a job so you will not be to blame for their livelihoods being affected. I am frustrated because you have shown that you believe this decision benefits the over 900 personnel and their families. It only took you a short amount of time to decide that my job and the livelihoods of many others do not matter to you. What is the purpose of this cost-saving measure? Why does the commonwealth suddenly need to save money after all the wasteful spending that has occurred? I cannot simply uproot my family because the government has made this decision for us. Additionally, I am involved in my community as a coach for the
2/11/2025	Employee	Email	local high school sports team and several recreational teams.

2/11/2025	Citizen	Email	I as a Centre County citizen am FOR the closure of the Rockview prison. I'm indifferent about Quehanna. The reasons listed in this screenshot, posted by a guards wife and some of the reasons I feel it would be best to close Rockview. If it is a historical site and must be maintained, perhaps making it into a tourist site would help recoup some of the funds lost to maintaining it. My understanding is the prison needs millions in repairs on top of the millions already spent for some repairs. The point of 2 correction facilities is a good one as well. The jail being newer, wouldn't require the money and upkeep. Many staff members already travel for work, knowing they will be relocated means they can choose if that's the right move. If prisoners are ingesting things for hospital stays, that also uses up our already crowded medical system. Especially in Centre County when wait times are already astronomically long. This action makes sense when considering all of these things and the current state of the prison.

			proposal to Dr. Laurel Harry, and have found your data to be concerning. In reference to page 2, paragraph 6: 1. ""Built in 1915, and second oldest facility""....Yes true. But why is Huntingdon not being evaluated? During Covid, I volunteered to go to Huntingdon and am aware of their deficits as well. The safety of their facilities, group shower rooms that invite PREA allegations, and the location proximity of criminals to gaze out at the community should have been part of the evaluation process. 2. ""Facility would require $74 million in upgrades over next 5 years"" Rockview has been under construction for the last 2 years. A. The laundry building was also refaced by Masonry Crews. C. Plumbing under the Culinary building was also fixed and replaced. Tray room floors redone and all. D. Our perimeter roads and inner roads were repaved at the time of the fence construction. I drove for many days over cracked pavement while it was being repaired. E. There have also been electrical improvements under the big blocks, the storm water systems were fixed. F. CI built a new accessible ramp very recently.
2/11/2025	Employee	Email	Yes, Historic A&D building need a new roof, but is that going to

			I am writing to express my strong opposition to the proposed closure of Quehanna Boot Camp. I believe shutting down this facility would have significant negative impacts on our community and their families, in addition to the inmates at the facility. The QBC provides jobs and economic stability to our local area. In addition to the proposed closure of SCI Rockview, these are two facilities in neighboring counties, putting hundreds of staff in the area in a tough position in an already trying economy. Additionally, the QBC provides essential rehabilitation programs and services for inmates, and it is one of the only facilities that I know of in the state that offers this. These programs are crucial in helping individuals reintegrate into society successfully. There are many people who have graduated from the QBC that have spoken to the success of the program. Losing access to these services would likely lead to higher recidivism rates, which could put additional strain on our communities and law enforcement agencies. With the proposed closure of these prisons, will surrounding prisons be over capacity? This leads to concern of staff safety, which research has shown when prisons are over capacity there is more violence. This is concerning for not only the staff but for their families as well. For these reasons, I respectfully urge you to reconsider the decision to close the Quehanna Boot Camp. I hope that you will consider the far-reaching effects of such a move and advocate for alternative solutions.
2/12/2025	Citizen	Email	

final decision but we all know that's not true.

My husband is a CO at Rockview. The closing of Rockview will ruin our lives as well as every single person who works there. When my husband heard the news he literally threw up and called me in tears. We have 2 little girls, 3 and 5. When you get moved to a different jail it doesn't matter what shift you are currently on, you automatically go to 2-10. He will miss out on our children growing up. It could be years until he gets daylight again. Do you have children? Was your wife ever home with them? How about every single night by herself? Probably not. Or if so, typical man.. Wouldn't understand the burnout and exhaustion of a single mother. That is what you are making me now, a single mother. My husband gets our daughter off the bus everyday and will no longer be able to do that now so I will need to get childcare for her.

2020 my husband was assaulted by an inmate. He saved another COs life as he was already knocked unconscious continuing to get beat in the face when my husband responded to the call. My husband ended with a brain bleed and a broken nose and had to have surgery. Maybe you should spend just 1 day in the life of a CO and then maybe you would think twice about closing down this jail. It is larger than Benner which is right beside it. Do you think crime is just going to disappear? The inmate to staff ratio is already lacking. Transferring inmates to other prisons will just cause riots and more staff assaults.

2/12/2025 Citizen Email

2/12/2025	Employee	Email	With impending closing of SCI Rockview, I would like to make a suggestion. We are currently in the process of doing in service training. This is causing about 10 officers per shift to be taken off the roster and placed in training. SCI Rockview is already short staffed. This is causing excessive mandates. By putting off training until the staff is moved to thier future jail, these jails should be staffed beyond 100% capacity for staff. Training would be able to be done without the need for overtime. And this would take some stress off the already overtaxed officers at Rockview.

		State Correctional Institution. 1. The 75 million dollars in recent upgrades have already been done and paid for. There is paperwork to prove this. 2. The closing of this prison will cause an extremely unsafe inmate to staff ratio. Is money worth the lives of innocent men and women? Overcrowding another prison will cause an uproar of inmate altercations vs each other and staff. Saving money at the expense of the safety of others is inhumane and EXTREMELY misguided. 3. Opened in 1915, this prison is a historical landmark. The movie, On The Yard, was also filmed at this historical location. It is the 2nd oldest prison in the state of Pennsylvania. So, they will close a historical landmark but we will still have to pay to maintain a vacant prison. Closing of this prison will not only affect the lives of the workers and their families, the inmate and their families, but also the lives of the local community. Closing down would quite literally cripple the community's labor force and economy. This decision is shortsighted and lacks common sense. Quote from Corrections Officers Association President, John Eckenrode, "The men and woman who work in Pennsylvania's
2/12/2025 Citizen	Email	state prisons work daily with the most dangerous people in this
2/12/2025 Citizen	Email	Attached is a letter of support and encouragement to follow through with the proposed closure of the Wernersville CCC.

2/12/2025	Citizen	Email	I am writing to express my full support for the closure of SCI Rockview. Not only is this decision a cost-effective measure, but it also addresses critical concerns regarding the outdated conditions and systemic issues within the facility. SCI Rockview has long been known for its aging infrastructure, inadequate living conditions for inmates, and a history of discrimination and racial bias that has negatively impacted those incarcerated there. The facility's outdated design fails to meet modern standards of rehabilitation and humane treatment. Inmates endure substandard living conditions that do little to support their well-being or successful reintegration into society. Additionally, reports of prejudiced treatment and systemic racism within the institution highlight the urgent need for reform. Closing SCI Rockview is a step toward addressing these injustices and reallocating resources to more effective correctional programs that prioritize rehabilitation, fairness, and dignity for all individuals. I strongly urge decision-makers to move forward with this closure and to invest in correctional reforms that support positive change. Thank you for taking the necessary steps toward a more just and equitable system.

2/12/2025	Employee	Email	Good afternoon, my name is [redacted]. I'm currently employed at the Quehanna Bootcamp as the Phlebotomist. I wanted to voice my concerns and thoughts about the potential closing of this wonderful facility. I have talked with several inmates over the past 3 days since the news hit the media. Every single inmate I have talked to, has spoken very highly of the institution and has told me how much it has changed their lives. I have read Facebook comments from prior inmates stating the exact same things. I know for a fact, that if this does indeed happen, the state drug programming that goes on at the Bootcamp will not be duplicated at another facility. The employees CARE at Quehanna. I talked with a male inmate today that has been in federal prison, and every other type of jail he could've been in. Quehanna has shown him respect, compassion, and empathy when no other prison has. He now knows that people truly care about his success and want him to see him succeed. I strongly encourage every single person who is considering closing this facility to pay a visit. Your mind will change. There are so many amazing employees at this facility who care about society and these inmates who need this programming. Please take a few minutes of your day and watch this short clip on YouTube of testimonies of prior inmates. Our facility has only improved since this video was taken. Please hear everyone out and take not closing this facility into consideration. I promise that decision will greatly affect our local economy and society. We at Quehanna care about these inmates and want a better life for them.
2/12/2025	Citizen	Email	Closing this boot camp is a major mistake. This boot camp saved my daughter's life and gave her the strength and confidence to turn her life around. There are many success stories coming out of the Quehanna boot camp. From a concerned citizen

2/12/2025	Citizen	Email	I am writing to urge the stop of the closure of the Quehanna Boot Camp. This program saved my sister's life. When I talk about her recovery process this is the program that I contribute to her success. Prison does not rehabilitate individuals. Half -way homes are a breeding ground for relapse . Quehanna Boot Camp is a program that allows a person to build their self-confidence, re-learn or learn functional life skills, and become a part of a healthy community. They learn to build trust in themselves and in others. Quehanna Boot Camp is a true rehabilitation center. It saves lives!

My name is [redacted], I'm currently employed at SCI Quehanna Boot Camp as a CO2.

I transferred to the boot camp in September of 2021. I spent 4 years at SCI Forest prior to that. When joining the crew at Quehanna I was so incredibly surprised at how much each and every employee wants to make a difference for the inmates every single day. Not that other institutions don't but Quehanna has such a short time with the inmates to really make a difference in their life. I truly believe closing this institution is a huge mistake and takes opportunity away from inmates who do truly want to make the changes necessary to reintegrate back into society. Putting them in a "big jail" will certainly hinder their progress as nobody is there to ensure they're making their call outs and giving them the proper help they need.

I really hope everybody can see the amazing facility that Quehanna is and how inmates are positively impacted by every staff member every single day. Closing this institution will be a huge mistake not only for the staff members it affects due to longer commutes and essentially uprooting their lives.

Thank you for your time in this matter and I truly hope the decision to close this outstanding facility can be reversed.

2/12/2025 Employee Email

2/12/2025	Employee	Email	children, and I live in clearfield county. I'm going to speak plainly, because that's who I am. I have recently started working at the Q boot camp, I waited MONTHS to get here. I do medically assisted treatment for substance use, and I love my job. I worked at SCI forest previous to this, and I commuted 140 miles a day for 8 months. It cost me four hundred and fifty 25 hundred dollars a month in gas, and I have a good car. The time that I spent commuting was time away from my children. My daughter has special needs, if I were to have a lengthy commute again, which is likely, this will be time that I have to find care for her. If i'm even lucky enough to find another job. Because unlike d o c staff and even though every press release says "every single affected staff member"..... Contract staff is not protected at all but that's not my point. I'm a single mom and always have been, and I own my own home. I am now considering selling it and leaving the area because there is no way that I would be able to find a similar salary matching my skills and education and doing something as meaningful as what I do. The programs that Quehanna can be replicated elsewhere, But in NAME only. Have you done any research about the incredible amount of success found at Q for participants in their programs? The culture and environment @ Q is unfortunately unique (if you don't know already, you have a massive morale problem in the DOC and the problem is deeply ingrained and cultural....). If the goal of the department of corrections is to truly rehabilitate, then Quehanna should be cloned not closed! We live in a very rural area.These jobs are important and crucial to this town, i have lived in other places, san francisco, boston..... But I came home

2/11/2025	Citizen	Email	My husband has been employed with the DOC for almost three years now. He chose the hour drive to Quehanna over the twenty minute drive to SCI Houtzdale because of the program that QBC offers. He has grown to love this career path and has made strides to better himself with in the prison. Closing this facility is an extremely irresponsible and heartless thing to do. I know inmates who have gone through the program at QBC and are now thriving since being released. Transferring this program to another prison will not stick and will only cause more problems in the DOC. This program gives inmates a sense of purpose again and gives them the strength to overcome their faults. Quehanna Boot Camp is not a simple prison, the inmates don't get to lay around all day doing nothing, they learn, they are talked to, they are treated like humans not animals like most other prisons in the commonwealth. I pray that this closure does not happen.

			Quehanna boot camp. While reading the article and listening to the news I am flabbergasted with the proposal to close this facility due to projected upgrade cost. The fact that Govenor Shapiro would entertain closing a facility that not only provides jobs for area residents but also provides individuals the opportunity to turn their lives around, making a bad situation for persons entering the DOC and creating a positive outcome for these inmates to carry with them upon release. Quehanna Boot camp gives individuals the skills they need to become viable members of society through the structure of boot camp and the various programs provided to succeed after release from the program. To say the least, it is heart wrenching to think money is more important than providing a stable foundation for inmates to succeed in life after prison. Unlike many individuals in government, I am well diversified in knowing both sides of the coin. I personally know DOC employees from both Quehanna Boot camp and other state prisons and also DOC prisoners. I hear the stories of life as a Correction officer and also hear stories of life as an inmate and neither one is pretty. When hearing stories of ""life on the inside"" from other State Correction facilities there is little to no mention of accountability, leadership and reform but a lot of talk about survival. I hear a lot of chatter about ""making it through the day"" and not making the best of your day. The prison system is a failed system it does not rehabilitate an individual it teaches an individual to conform to prison life. I have seen
2/11/2025	Citizen	Email	firsthand the impact the average prison has on people, they

2/11/2025	Citizen	Email	I am disappointed and concerned over the proposal of closing Quehanna Boot Camp. The closure would leave many without jobs or travelling absurd distances to their new job site. These include people who have been faithful employees for many years and have bought homes in specific areas to be close to their employment. Please take the concerns seriously and reconsider.

			located in Karthaus Pennsylvania open. This facility is an important part of the justice system and provides employment opportunities for local residents. The placement of non-violent offenders into boot camps like this helps alleviate overcrowding in other types of correctional facilities, allowing more room in prisons for violent offenders. This six-month boot camp reduces the amount of time within a correctional facility and graduation automatically qualifies the offender for parole. This is a significant cost saving vs multiple years in prison. As of October 2020, over 10,000 offenders graduated from the boot camp saving around $11,431 per inmate (as per the 2023 Boot Camp Program Brochure). Not only is the facility a relief for our overcrowded prisons and a cost saving, but it also provides an atmosphere more toward rehabilitation vs punishment. This is a preferred option for qualified non-violent offenders. The offenders at the camp are known as teammates instead of inmates. They can participate in a variety of programs, meetings and classes setting them up to transition back into society. This provides the offender with a better chance of success and reduces the likelihood of them re-entering the prison system. From 2013-2018 approximately 15.03% of graduates returned to state incarceration within the first year (as per the 2023 Boot Camp Program Brochure), which is an improvement compared to Pennsylvania state average of 47.1% recidivisms rate (as reported in the 2024 world population review).
2/12/2025	Citizen	Email	

2/12/2025	Citizen	Email	I am writing to express my strong opposition to the proposed closure of Rockview and Quehanna. While I understand that employees will not be losing their jobs, the forced relocation of hundreds of correctional staff-will significantly disrupt their lives and negatively impact their families. For many this move mean extended commute times, added transportation cost, and less time spent at home with loved ones. The stress of longer workdays, additional child care needs and reduced family time will place an emotional and financial burden on these hardworking individuals. Many employees have deep roots in their current communities whether it be coaching children, fighting fires, etc. Those volunteer programs will also be effected if so many have to relocate. Additionally, the closure of these prisons will have a ripple effect on local businesses that rely on the economic activity generated by these facilities. Restaurants, gas stations, small businesses will all suffer decline in revenue. Further straining our already struggling economy. We urge you to reconsider this decision and explore alternate solutions that do not require uprooting hundreds of families and disrupting communities. "
2/12/2025	Citizen	Email	Quehanna is a special place for many people. It truly creates a different type of inmate. I see inmate testimonials on the doc Facebook page frequently. What other jail has inmates that are happy they did time there? While inmates are at Quehanna they are not subject to the stressful violent environment of regular facilities. This has a real impact on how much they can learn and change. Every employee at quehanna took the job because of where the job was. Closing quehanna will be a huge disservice to staff and inmates alike.

2/12/2025	Citizen	Email	Please rethink closing the Quehanna Boot Camp, it is truly the only positive think in Corrections in Pennsylvania.
2/12/2025	Citizen	Email	Please rethink closing Quehanna Boot Camp. It is the only positive asset to Pennsylvania Department of Corrections.
2/13/2025	Employee	Email	Rockview. First of all, SCI Rockview has been and will always be a place that other institutions, state and county, reach out to for assistance. Our staff members maintain a level of pride of working here. Yes, I will agree that SCI Rockview is the second oldest institution in the state, however, we maintain this institution mechanically, structurally, and securely. Our institution offers a vast amount of specialty housing such as the Behavioral Management Unit, Diversionary Treatment Unit, Restricted Housing Unit, Special Needs Unit, Residential Treatment Unit, Neuro-Cognitive Care Unit and the Forestry Camp. We have an Infirmary, our own water source (the reservoir), heating source (boiler plant) and we also have the Correctional Industries inside of our facility that makes furniture and other products all across the state. The memorandum put out by the Steering Committee is misleading when speaking about repairs. The inside and outside grounds have already been repaired and repaved. A lot of the waterlines and steam lines have been repaired or already in the works of being repaired. The sewer system/lines have been repaired in the past as well. I understand that a leading factor in this decision is the spending on overtime as we have been significantly overbudget with this. However, when looking not only across the state, but across the nation, there is a lack of workforce everywhere. This is a problem nationally as we have seen the numbers not return since the COVID-19 pandemic. Now we are spending money for recruitment, lowering the starting age, and increasing starting salaries to try and combat this issue. Closing a large institution

2/13/2025	Employee	Email	I am writing to plead the cause of stopping the closure of Rockview State Prison and the Quehanna boot camp. These two prisons are vital for employment for the communities that are going to be affected by this decision. The Rockview prison has over 600 employees many of which already drive from their homes as much as 50 miles to go to work. Moving these people to a prison that is another 67 miles from their home is absurd. Yes you promise a job but how will that be accomplished?? Only to cause more stress for these employees and their families. If the wages were even slightly higher for new employees you would draw more people willing to work. And if the scheduling was a little more creative (overlapping shifts) less OT would occur. And less burnout . What a huge disappointment this decision will be for many years to come , and a huge political mistake for our current administration. So again, I will plead for your reconsideration in this terrible decision. KEEP ROCKVIEW STATE PRISON OPEN AND QUEHANNA BOOTCAMP. !!!

		I am writing to express that I do NOT support the closure of the Quehanna Boot Camp location. This location provides a stable income to my family, friends and neighbors. I have seen them work hard throughout the years to earn positions and seniority to allow them to be active members of their family and community. Generations have worked at the Boot Camp, with a line of proud history for the work that is done. The facility continues to grow because it has shown to be effective and reduce recidivism at greater rates than your typical DOC location. The facility is an aspiring job placement for generations coming up the chain. There are high school seniors striving to enter the DOC and eventually land themselves a position at the boot camp so they can provide for their future families at a local facility. The closure of the Boot Camp is more than a job transfer or loss. It's a loss of stability, schedule, present parents, traditions, and dreams.
2/13/2025 Citizen	Email	Please take my thoughts into deep consideration.
2/13/2025 Citizen	Email	Hello, my name is [redacted] and my husband retired from sci rockview as a captain in September of 2023 where he served for 30 years. He put 150 percent into his career and we are disheartened about the prison closure. Our son in law is a corrections officer at rockview and this will impact their life immensely with transitioning to another prison increased travel time and most likely being moved to a different shift which will effect his whole family. I understand this is about money but the close proximity of the prisons being closed is going to impact their life immensely local economy. I hope that this is well thought out before it's concluded. Please think about the families this will impact and some will not be able to travel the distance to another facility.
2/13/2025 Citizen	Email	The State will close two jails, displacing all those employees yet give inmates free suboxone. How much does that cost the taxpayers??

			PA. I am employed as a RN in an emergency department in Mifflin County. I am also a trained Sexual Assault Nurse Examiner (SANE). After hearing the news of the proposed closure of SCI Rockview and Quehanna Boot Camp, I am enraged. I have done quite a bit of research on this topic the last couple of days. I know that this is being marketed as saving money for the Commonwealth. While that might be true, I do not think that in the grand scheme of things that it will actually save us money. I think that there are other ways to save money than closing these 2 facilities, that are better for the entire population of the Commonwealth. Closing these facilities is going to be a hardship on the employees (from my research it would be 892 families). It will also cause hardships for the entire commonwealth in the long run. I know that it was said that all employees will be relocated and will receive the same pay. I just think of the people who have worked their way up and grown their career at these facilities. I do not see how you can relocate all these people and give them the same/similar positions at other facilities. Those positions at other facilities are filled (with I am sure the exception of a few). Also, the employees work there because that's where they chose to work. I feel that telling them they have to travel a further distance to work everyday is unfair and will cause hardship for families.
2/12/2025	Citizen	Email	As for causing hardships to the entire commonwealth, I expect

2/12/2025	Citizen	Email	I'm writing to ask you to please save Quehanna boot camp. I owe my life to this program! I have been to rehab, outpatient, jail and prison and NOTHING helped me the way boot camp has. It gave me another chance at life and one that has turned out to be so beautiful. This program broke down all of my walls and built me back up in a way that has lasted for 11 years (so far). I have always said I wish so many more people had the opportunity to experience the profound changes the boot camp program provides. So many more lives would be saved! This program needs to stay!!!!
2/13/2025	Citizen	Email	I would like to express my voice in hopefully keeping the Boot Camp open. In my opinion, this is a solid addition to our community; for not only those staying there but also the individuals who work there. I, of course, would hate to see a big employer leave our area and all these people without jobs, but I also think it's important to keep those who stay there in mind. This is a great opportunity to help work with them and rehabilitate them to leave and be better members of the community. I think this decision needs to be more thought through and see if there are other ways to save money than to uproot the lives of many individuals in our community. Thank you for hearing what I had to say and appreciate you taking the time to reconsider this decision.

			proposed decision to close SCI Rockview. I have a few concerns that I would like to address with the closure of this state correctional facility. To begin, there are over 600 employees at this facility. It was promised that employees will be offered jobs up to 67 miles away at the same pay. My question is, are there that many positions available at the neighboring correctional institutes that this is possible? Some of these men and women have made Centre county their home and have families to think about. Being displaced to a facility over an hour can impact family life. Coming from a mother who has 2 small children and also works, because who can afford to live on one income in today's society? Men and women with families now will have to reconfigure child care if they do not get the same shift and some children may be in daycare up to 10 plus hours a day. Do you have children of your own? Do you know the saying ""You will never get these years back?"". Think about that hard when you decide to uproot the lives of over 600 lives. Secondly, SCI Rockview houses over 2,000 inmates. It was claimed that the state has enough beds to displace all of these inmates to different facilities. What about inmates that can't have a cell-mate? Did we account for instances like this? Was it not only 6 years ago that it was stated to be some of the worst violence seen in correctional facilities per one article? overcrowding is not only putting inmates' lives in danger but the lives of the CO's. Thirdly, it is said that SCI Rockview needs over 74
2/13/2025	Citizen	Email	million dollars worth of work to be maintained. That has been

My name is [redacted]. My mother is an infectious disease care nurse and my stepfather is a kitchen supervisor. Both work at Quehanna Boot Camp.

The program at Quehanna is a step in the right direction for prison reform and should not be closed. Doing so would be a slap in the face for all non-violent offenders in the state. If anything, Quehanna should be the facility leading the charge on prison reform towards the Scandinavian model. This also doesn't take into account how many workers would be displaced during this current time of unprecedented financial hardship.

If you must close any prison, close Rockview. Rockview is directly beside a much better and more well-equipped facility to handle inmates, and would do less harm with its closure when it comes down to displacing those employees and transferring those inmates.

In short, close Rockview if you must, but DO NOT CLOSE QUEHANNA.

2/13/2025 Citizen Email

2/13/2025	Citizen	Email	Rockview. The decision to close this facility raises several critical issues that must be addressed. Firstly, the committee has mentioned the need for future upgrades within the next five years as a reason for closure. However, these upgrades have already been completed, with millions of dollars invested. Closing SCI Rockview now would waste this significant investment of taxpayer money. Our prison system is already at maximum capacity. Closing SCI Rockview would lead to severe overcrowding in other facilities, compromising the safety and well-being of both staff and inmates. This is not only a logistical issue but a matter of basic human rights. Additionally, SCI Rockview is a historic site. Even if the facility is closed, the building will need to remain open and maintained due to its historical significance, meaning Pennsylvania taxpayers will continue to bear the financial burden of an essentially empty building. Furthermore, the closure of SCI Rockview would have devastating effects on the staff. Correctional officers face daily risks, including being stabbed, spit on, cussed at, beaten, and some have even been killed in the line of duty. These brave individuals leave their families every day, not knowing if they will return home. Forcing them to relocate to other prisons disrupts their lives, making them leave behind trusted colleagues and a

2/13/2025	Citizen	Email	I hope somebody reads this. I want to let the DOC know that I strongly disagree with closing Quehanna Boot Camp. We have few job opportunities here in Clearfield Co and North Central PA. I'm sure there are other prisons in more urban areas that can absorb the staff. My taxes are just as good but I am getting less and less services from government. Now, with prison staff moving out of the area, there will be less residents in the area to pay taxes.

			I would like my vote to keep SCI ROCKDALE OPEN to be counted. One reason for considering to close SCI Rockview is: not wheelchair accessible. Can't they just spend the money to build handicap ramp to entrance, supply some wheelchairs that visitors could use to get to location to visit their loved ones? Hospitals have these wheelchairs available in their lobbies for disabled individuals to use while at the facility. Rather than disrupting the lives of 2,148 inmates and the over 600 employees? I do NOT agree that closing SCI-Rockview is a good idea just to supposedly save money...???? Does anyone consider the turmoil and stress this would cause to the inmates and employees? I have had good experience with Rockview COs, counselors, etc. When I call, SOMEONE ALWAYS ANSWERS THE PHONE AND WILL DIRECT ME TO CORRECT PERSON WHO CAN HELP ME AND ANSWER MY QUESTIONS. County jails did not have this responsiveness. COUNTY JAILS RARELY ANSWERED THE PHONE AND GOOD LUCK GETTING A CALL BACK EVEN AFTER LEAVING A VOICE MAIL. I was pleasantly surprised at the responsiveness of SCI-Rockview. Excellent communication. Individual I know is in a dormitory style setting area of Rockview and he likes it better than the 2 inmates in a cell setting. It is a more relaxed setting.. It is medium security. In summary, I ask that you please keep SCI Rockdale open. There must be other areas to save budget money. Thank you for your consideration.
2/13/2025	Citizen	Email	

			pretend I understand anything about state budgets, and I mean no disrespect with this email. This is email just comes from a frustrated, sad, and defeated state employee, but a very proud Rockview employee, at that, of almost 23 years. While I do not believe the closure of any prison is good for Pennsylvania, I'd like to know if this outside agency/steering committee even looked at any other institutions? If not, was it recommended to them to look at other institutions? If so, could the public, as we are the taxpayers, be privy to what was founded when researching these other institutions? If they did not look at other prisons, why would that be if this is truly about cost saving? We have heard that SCI-Camp Hill actually has blocks closed down due to the deplorable conditions. SCI-Chester literally has pieces of their buildings falling. SCI-Huntingdon, a couple employees transferred from there in recent years and stated how terrible shape with facility is in, the word "shambles" was used to describe SCI-Mercer's condition, yet Rockview and Quehanna where so much upgrades have taken place are the ones to close, and the upgrades that are needed, have to be done regardless due to Rockview being a historic landmark. This just really makes no sense. We just really want it to make sense. SCI-Rockview also offers many programs others do not. Speaking from the medical standpoint, our infirmary, POC, NCCU, BMU, MAT program, etc. Also, this outside agency, have they had any type of correctional work experience, or are they just numbers people that for some
2/13/2025	Employee	Email	reason Harrisburg wants to listen to? That would be like listening

			can honestly say the it was the most rewarding job I have ever had and I was always proud to tell someone that I worked there. The Boot Camp program has been proven to reduce recidivism over and over again. In the last 5 years, yes, the numbers for the boot camp program decreased significantly. I feel there were many reasons for this (COVID, JRI2), but I feel the most significant reason was that the executive team at the boot camp were restricted by higher ranking officials in the DOC from promoting the program and working with other SCI's to find potentially eligible candidates like they had done in the past. I find it very sad that the most successful program in the DOC did not, and still does not, have the support of the entire DOC and our governor. The staff at Quehanna are the best there are. They genuinely care about the success of the inmates and go above and beyond to help them achieve that success. In addition to drug and alcohol rehabilitation, the education department was top notch. When I was there, they had the highest GED rates in the state. In a larger SCI, a lot of the inmates that would really benefit from the rehabilitation and education offered at Quehanna will get lost and overlooked.
2/13/2025	Citizen	Email	Clearfield County is a small rural county and closing one of the largest employers in the county could cause irreparable damage

			closure of SCI Rockview and Quehanna Boot Camp. These facilities have played a crucial role in our communities, not only as sources of employment but also as integral parts of the criminal justice system that provide rehabilitation and reintegration opportunities for lower-risk inmates. Quehanna Boot Camp, in particular, has been an effective model for Clearfield County and within the Department of Corrections system. It has offered inmates a structured environment focused on education, counseling, and rehabilitation—giving them a real chance to successfully reintegrate into society. The loss of such a program would be a setback in efforts to provide alternatives to traditional incarceration for individuals who can benefit from structured rehabilitation. Beyond the impact on inmates, the closure of these facilities would be devastating for our local economy. Our communities are small, and the loss of so many jobs would have a ripple effect, impacting not just the employees but also their families, local businesses, and the overall economic stability of the region. These jobs are not easily replaceable, and the economic hardship resulting from these closures would be significant. While I understand that there may be various factors influencing this decision, I urge you to consider the broader implications on our communities and the criminal justice system. I respectfully request further transparency on the reasoning behind this proposal and encourage open discussions on alternative solutions that would allow these facilities to remain operational. I appreciate your time and attention to this matter and hope you
2/14/2025	Citizen	Email	will take our concerns into serious consideration. I would

			I am a Registered Nurse at The Quehanna Boot Camp. Please consider my plea. Not only are we a motivational Boot Camp, Quehanna has also grown to include a program dedicated to treat addiction known as State Drug Treatment Program (SDTP) in which participants are required to live in a therapeutic community with their peers. This community is designed to teach those struggling with addiction how to break the cycle. During this four month program, participants acquire tools to assist with staying sober. I am proud of the work we do at Quehanna. We return individuals to their families and communities better, less broken, and with the skills to succeed…and I am proud to be a small part of that and pray we can continue our mission.
2/14/2025	Employee	Email	
2/13/2025	Citizen	Phone	do not close Rockview. Just put handicap ramps for visitors and wheelchairs. Like hospitals. Loves that someone always answers the phone at ROC and are helpful. Would be too stressful to move inmates
2/13/2025	Citizen	Phone	Closing would be ridiculous. Boot Camp is a worthwhile program. Community loves it. Would be a bad thing.
2/13/2025	Citizen	Phone	Tax dollars already went to ROC. Shouldn't close it. Prisoners cut the wood. Just replaced the fence. new CCTV. New roof. paving... etc. Sick about this. What about worker mortgages? shouldn't have to drive a million miles away. Democrats are bad.
2/13/2025	Citizen	Phone	Former inmate. Supports QBC. Program changed his life. Names some staff that helped him. Would be sad to see it close.
2/13/2025	Employee	Phone	QBC is a great program. SDTP is a terrible program. 75-90 precent of SDTP inmates only want to do it because they get to leave with no tail.
2/13/2025	Citizen	Phone	Area cannot have any businesses close

2/13/2025	Citizen	Phone	Deepest opposition to QBC. Understands ROC, but not QBC. Not just about jobs; democrats should support QBC inmates who are trying to better their lives. State is doing good work there. We should be expanding, not closing.
2/13/2025	Employee	Phone	New employee against closing QBC. Pointing to positive recidivism rates. Closure would destroy the town. Misinformation included int he report. Should be cloned, not closed.
2/12/2025	Citizen	Phone	Opposed to closing both. Will be detrimental to community and to families being disrupted and having to change lifestyles. We're only thinking about dollar signs.
2/12/2025	Employee	Phone	Speaking for inmates who are in favor of keeping it open. Seen comments on Facebook about impact of QBC on family's lives. Please pay a visit before deciding to close. QBC Saves lives
2/12/2025	Citizen	Phone	Disagrees with closing ROC. Upgrades are happening now, closing would be a mistake. not enough space at other prisons to handle population. Incrase pay to guards to reduce mandates. Get in real world.

2/14/2025	Employee	Email	Secretary Laurel Harry's decision to close SCI Quehanna Boot Camp. I have been employed with the Department of Corrections for eight years, and have served as an Adult Basic Education Teacher at two institutions (SCI Forest, SCI Quehanna Boot Camp), and I am now [redacted]. Without hesitation, I can say that SCI Quehanna Boot Camp is an effective and essential facility. I wanted to briefly and concisely offer my personal and unique insight as to why I believe SCI Quehanna Boot Camp should remain operational: 1.Misrepresentation of Data: It was stated in the Steering Committee's report that SCI QUE has exhibited a decrease in population. However, what is misleading about their assessment is the fact that, even though the daily number is lower, the number of reentrants entering and exiting the facility through short-sentence programs in a given year can range upwards of 1,300 program participants. Even though the daily number looks low, the yearly number of successful program completers should be the statistic considered. 2.Reentry: A reentrant's successful reintegration into their home community is the metric we should be citing; not arbitrary statistics to prove that a closure is economically necessary. No institution returns as many reentrants home as efficiently or as effectively as SCI Quehanna Boot Camp. That accolade is worn proudly by any employee who has ever been employed on that mountain. I spent six years as a Teacher at the Boot Camp. I collaborated with Treatment Specialists and Reentry Parole Agents daily in order to aid in the successful recovery and rehabilitation of the whole person. This was all centered on the

			you can probably imagine, I'm having a really hard time processing this and was hoping to get some supplemental information and present some obvious points. First of all, I've spoken with management and maintenance, and I don't understand the math. The media is reporting that we have paving projects, roofing, the Boiler plant, and ADA accessibility issues. Whereas some of that is true, some of these projects are completed or already contracted out under FY2024-25, having no bearing on future expenditures. Starting with the ADA issues, I believe the Committee is misinformed on this. We have a few inmates in wheelchairs, and the cells meet the ADA requirements for the T-turn. I don't know how that applies to the open-air housing like our dorms or modular units, but unless we're having a mass population of handicapped prisoners, I don't think it'll be an issue. We figured the one building that doesn't have direct access without a step is our education building, and we could construct ramps to comply. Secondly, the Boiler plant is a legitimate point, however, this project will need to be completed in some form anyway. Whether we are operating the facility or mothballing it, the steam is essential to the existing systems in place. One of the biggest expenditures is the demolition of the smokestack. Unless this facility is sold, the Commonwealth will have to pay to raze it one way or another. Both of these angles are non-recurring. Has there been any consultation on an alternative to a boiler plant?

			facility. I am a Pennsylvania resident and taxpayer. 1. The proposal dated 2/7/25 lists SCI Muncy as a possible facility to house inmates, but the website for Muncy lists it as a female facility. Are you changing Muncy to house both genders? What is the cost of those changes? 2. Will the transfer of inmates force the inmates to re-start the treatment programs and training classes they are doing? 3. Will officers who are transferred receive extra travel expenses for long commutes? 4. How much did PA pay the two consultants hired for this planning process? 5. Do any other PA facilities have a woodshop & furniture shop like Rockview? 6. Did your study consider closing the oldest & most challenging sections of Rockview but keeping the newer working sections? It doesn't appear to be a total loss. If PA needs funds, they could sell parts of the large surrounding land. 7. PA experts have said PA never realized the projected savings when SCI Retreat was closed. How will any new plans make sure your estimates are accomplished?
2/14/2025	Citizen	Email	

		Bootcamp. The Bootcamp helps hundreds of people a year overcome the powers of addiction all while saving the DOC millions a year due to the quick turnover rate not to mention the recidivism rate is lower compared to a big prison that holes long term offenders. Programs Available to All Inmates • Certified Peer Assistant Programs • Violence Prevention • Parenting • Self-Help Meetings • Batterer's Intervention (for Domestic Violence) • Seeking Safety (PTSD Treatment) Statistics for Boot Camp Average percentage of inmates that return to state incarceration (as of 1/1/2020): 1 year after release: 15.03% 3 years after release: 40.33% 5 years after release: 46.33% Graduation Rate of 80% *data from 2013-2018, unofficial results As of October 2020, over 10,000 graduates Cost Savings: $11,431 per inmate Total: Almost $97 million as of 1/1/2020
2/14/2025 Citizen	Email	I'm writing to mention that Rockview and Quehanna are important to our local economy. Many workers lives depend on these facilities. Please consider keeping those facilities open.
2/14/2025 Citizen	Email	

2/14/2025	Citizen	Email	I am deeply opposed to the closing of the Quehanna Boot Camp and Rockview prison. They are both vital to the area they serve. I feel the reasons for closing them are misleading. Numbers can be manipulated to give people a misleading impression. Repairs can be done and should have been taken care of through the years. It is unfair to uproot inmates and families from the areas they have settled into just to spend money in another area. You are taking workers from the areas they have become good community members. They belong to schools, churches, they volunteer, they are coaches and mentors to young people. They are trusted members of their community.It is unfair to take this away from them and the area around them just to save money. Their impact is more valuable than dollars!

2/14/2025	Citizen	Email	Quehanna Boot Camp, Based on the grounds that the program does so much good of promoting the “inmates”/teammates to build each other up from day one of the program the DOC standard of helping individuals reintegrate into society with educational programs and programs to improve their mental wellbeing and improve on the reasons in which has lead them to become a cog in the system is the Boot Camp program in a whole. I believe we need to work on finding ways to improve the program more so we can make a greater contribution to our community and to society. Work with the staff and management team to boost the program back up to the level of excellence that we have tried to build and have achieved. With the lower capacity capabilities of the facility allows staff to work with the inmate/teammates to achieve their goals without having to compromise security of the facility or endanger staff members. With the SDTP program ability to be housed in a Level 2 facility that has cut out so much of the fighting and drug abuse that happens in other facilities inmates are able to get the education and support they need to get through the cycle of addiction and become that person who they want to be for themselves and their families. With that being said the program continues to need support more now then ever to improve the quality of support we can

			closure of SCI Rockview. I believe the proposal is based on a misrepresentation of facts and a lack of transparency in the decision-making process. Claims of open communication with stakeholders are unfounded; this decision appears to have been developed over several months without adequate input from the community and those directly affected. The proposal cites the need for $74 million in upgrades over five years, including roofs, water lines, showers, a boiler system, exterior repairs, and road improvements. However, significant portions of this work have already been completed at considerable taxpayer expense. These completed projects, totaling tens of millions of dollars, include: 1. Replacement of interior and exterior perimeter fencing, including installation of a Perimeter Intrusion Detection System (PIDS) and new CCTV cameras inside and outside of the facility. 2. Resurfacing of concrete structures and restoration of the laundry facility to meet historical landmark requirements. 3. A new roof on the culinary building. 4. Paving of exterior and interior roads and parking lots including perimeter road. 5. Residing and window replacement on the Treatment/Administrative building. 6. 2/14/2025	Citizen	Email	

		Boot Camp open and operational. As an employee of this facility and a member of the general public, I believe that maintaining this facility is crucial not only for public safety but also for the well-being and rehabilitation of those incarcerated. First and foremost, Quehanna plays an important role in ensuring that individuals who have committed crimes are held accountable for those actions. Furthermore, The Quehanna Boot Camp has established effective rehabilitation programs that have proven to reduce recidivism rates and support the successful reintegration of offenders into society. These programs, which include educational initiatives, vocational training, and counseling services, are crucial to ensuring that individuals are provided with the tools they need to rebuild their lives and become productive members of society. Closing the facility would risk losing these valuable opportunities for rehabilitation. These programs CANNOT be replicated by piecing them together across other institutions. The key component to the success of Quehanna is the staff. Dispersing those staff across the commonwealth to other institutions would effectively end the success that has been created at the boot camp. I understand that successful rehabilitation often requires more than just incarceration—it involves providing offenders with the tools to change their behavior and become productive members of society. The Quehanna Boot Camp provides an effective alternative to traditional methods, equipping participants with the skills needed to reduce their risk of reoffending after their release. Boot camps are designed to offer a structured and
2/14/2025 Citizen	Email	I oppose the closure of both places!!! It's not smart and it an all around bad idea!!! Between people losing jobs and criminals
2/14/2025 Citizen	Email	there at Rockview it is not the right thing to do

2/14/2025	Employee	Email	be heard and to have the closure of the Quehanna Boot Camp reconsidered. I have not worked here for a long time, but I will stand beside all of my fellow co-workers and fight to hopefully stay open. I am going to share my opinion on why we deserve to stay open out on the mountaintop. Please before you make a final decision, hear me out. At the end of the day if you still stand by your answer, that's fine. But I know my fellow coworkers and I all agree, and we deserve to be heard. I've worked in many different places and have been through many different workplace environments. Have I ever worked in a different correctional facility? No, I have not, but I have visited the other institutions and heard stories from COs there. No one is happy at work, and everyone is miserable with their co-workers. Lots of horror stories so to speak. It's not like that at Quehanna. At Quehanna, we have a very good work community. For the most part, everyone works well together and likes their job. We all share the common interest of trying to help the inmates try to find better versions of themselves. If staff or inmate is having an off day, it doesn't go unnoticed. I never have a day where I'm depressed or have anxiety over the workplace environment. We all support one another here and want to see everyone strive to do their best. Quehanna Boot Camp has a very strong, caring, positive atmosphere. Which brings me to my next concern. We have a lot of good people that work here and for the most people have shifts that work very well with their lifestyles. Most coworkers

		impending closures of SCI Rockview and Quehanna Boot Camp. The potential closures will have detrimental effects on the local economy and many families who have poured their lives work into these institutions. For many residents of the region, these businesses are considered home for them, a familiar place where they have invested so many years into the lives of the inmates and team members. The boot camp is a smaller, more intimate facility that just recently underwent many construction projects to complete needed upgrades. These investments were made for the long term health of the program they run there, not for the government to make a short sighted decision to shut the facility down, which would be a huge waste of taxpayers money now that the upgrades have already been completed. The team mates that attend Quehanna have a much better success rate at reintroduction into the general public. Due to their militaristic style programs, many of the graduates do not return to the same lifestyles that would land them back in jail. This is something that is not offered in bigger prisons, so eliminating this facility would be throwing in the towel on a proven program that is a betterment to society. Another large factor for why these facilities should remain open is because of all of the employees who work there and how this will affect their lives in a negative way. Hundreds of employees will have to be relocated to other facilities and be forced to transfer to different shifts and schedules when they have worked
2/14/2025 Citizen	Email	The closing of Quehanna Boot Camp and Rockview SCI will negatively affect the economics in the area. I sincerely hope that this does not happen.

		I'm emailing to support the Quehanna Boot Camp remaining open. I feel this decision for closure is extremely ill-advised by our governor and would have severe impacts on not only our county, those employed and their families.
2/14/2025 Citizen	Email	Quehanna Boot Camp has proven itself to be an effective criminal justice center and must continue to be so. Closing these correctional facilities is not in the best interest of the people of Pennsylvania. What are you going to do with the inmates? I am sure no matter where they are housed it's not going to save the taxpayers more than it is going to cost the workers and families of the dedicated men and women who devote their safety and time to protect our safety. And many of these workers are veterans who have already demonstrated their commitment to the people of our nation. Stop this fool hardly action! Do you want the Democratic Party to continue to be the party of NO common sense? Jeffrey Hipps
2/14/2025 Citizen	Email	Pardon my short sentence, are you daft that you want to close prisons. This is ridiculous, we are tired of crominals loose on the streets, no major bond and lax sentencing. This should not even be a consideration.
2/15/2025 Citizen	Email	I am writing to urge lawmakers and PA Governor Josh Shapiro NOT to close these facilities. With the crime rate rising everywhere it doesn't make sense to close these valuable assets. If their utilization is down, that to me only means our laws are not being enforced and my fellow citizens are not being protected.

2/15/2025	Citizen	Email	So you're saying that the prisoners or "boot camp residents" will be relocated to a PRISON with violent offenders? What measures will be made to ensure a minor offender isn't slaughtered by a violent one? Why bother rehabilitating if you're just going to throw the people that can have a future in with those who know they have nothing either way? And so what if it needs renovations, do them. Shapiros gonna spend it on something else anyways. So senseless. Disrespect to communities, families, employees, to save a few bucks and possible destroy the towns fiscally as well. But hey, I am learning just how far the corruption goes. No way is any of this for the "better" of PA as a whole. Be transparent, don't be facetious.

			closure of SCI Rockview. I believe the proposal is based on a misrepresentation of facts and a lack of transparency in the decision-making process. 2/15/2025	Citizen	Email	

2/15/2025	Citizen	Email	I am writing this email today to voice my opinion on the possibility of Quehanna Boot Camp being closed. There are multiple reasons why I believe the boot camp should remain open. My entire life I have know families that depend on the income they make from working at the boot camp. I believe this would have a detrimental impact on the local economy! Taking away Quehanna boot camp would also be stealing a great opportunity from inmates that are trying to turn their lives around and do better for themselves. I hope you have a great day and make the right decision.
2/15/2025	Citizen	Email	this is not the time to close these facilities if they are close other facilities will have to take more inmates which leads to ver crowding and unsafe conditions or paying to put them out of state Governor Shapiro you ran on being totally behind the police and law enforcement and one of the reasons you won dont forget them now The voters are watching and hope you keep your word thank you for your time in this matter a voting PA resident
2/15/2025	Citizen	Email	It is my opinion ,that we need more prisons in this state and country and not less. Therefore I am opposed to the closing of Quehanna boot camp and SCI Rock view.

		I am in total opposition to the closures of both these facilities. This will have a negative impact on the economy and also infrastructure people will leave the area.We need businesses to come in and families that actually want to work and be a productive part of this community.The inmates that were in there come out are rehabilitated and are grateful to be given a second chance and are repaying by telling their stories. You as a governor and a person who cares about the well-being of Pennsylvanians need to come and visit both these facilities.Talk to staff and to the inmate population.Look at both these with open eyes and a open mind please our county and constitutionists are counting on you to make a fair and impartial decision.
2/15/2025 Citizen	Email	
2/14/2025 Citizen	Email	In response to your proposal to close Quehanna Boot Camp and SCI Rockview, I don't believe that is in the best interest of our area or of the State for that matter. I urge you to look in different areas in regard to reducing the State budget. These individuals that work in these institutions go above and beyond every day to do their jobs in environments that most people would never consider doing, and I don't think that disrupting their lives with an ill-conceived decision to close any prison in the State is a good idea. I'm sure there is lots of programs and spending that is wasting taxpayer money that could be cut, and I ask you to reconsider this debacle and focus on areas that align with the goals that the majority of Americans voted for in the last election.

2/15/2025	Citizen	Email	The proposed closing of Quehanna Boot Camp in Clearfield Co. and SCI Rockview in Centre Co would have a negative impact on the entire Centre Region. As a supervisor for Rush Township Centre Co. I strongly oppose this decision and hope that this is not a definite decision, made without the concerns of our area residents taken into consideration.
2/15/2025	Citizen	Email	proposed closures of the Quehanna Bootcamp and SCI Rockview. Given the proximity of these two institutions, the impact on the local economy in Clearfield and Centre counties will be devastating. We personally know dozens of persons who be affected by the closures. In Philipsburg and the Moshannon Valley these are THE jobs that provide sustainable incomes for families. It is not feasible that nearly 1000 employees will be placed elsewhere when 50 vacancies exist at other correctional facilities. Even if positions are available to these employees, many with young children, will be commuting hours and long distances day and night on dangerous rural roads. The lack of affordable childcare will be exacerbated by added time to commute further from home. Many corrections officers are military veterans who have served our country and the State of Pennsylvania. It is a disgrace to eliminate their livelihood. Transferring 2,700 inmates to other prisons will create a dangerous environment for those prison employees and the prisoners. Correction Officers have dangerous jobs dealing with murderers, violent felons, pedophiles, gang members, drug dealers, and mentally ill persons. As having had family member employed as a Rockview CO, I have heard the stories of violence on officers and inmate on inmate. What a way to reward these loyal employees who have put their life on the line everyday!

			I am opposed the SCI Rockview and Quehanna Boot Camp closures. This will be a major negative impact to the central Pa. region. This area never recovered from the loss of the Cresson Prison. People who worked there are not happy about their commute to Bellefonte.
2/15/2025	Citizen	Email	
2/15/2025	Citizen	Email	We strongly oppose the closing of Quehanna boot camp and SCI Rockview, our economy is already hurting is the area and this will make it worse. Remember election will come for you someday and here are two votes that you WILL NOT get.

			to the proposed closure of Quehanna Boot Camp and SCI Rockview. This decision has devastating consequences for the affected employees, their families, and the surrounding communities, including my own. My son is employed at Quehanna Boot Camp and is also a part-time member of the Air National Guard. He is currently away on a TDY assignment, and we had to call and inform him that his full-time job, the career he was planning to build at the Boot Camp, is being eliminated. This news has turned his future upside down. We live just 15 minutes from the Boot Camp, and he resides with us. If he is forced to transfer to another facility, he would have to travel 30 to 60 miles farther each day. With the current cost of gas, this would be a significant financial burden. Additionally, he truly enjoys the structured, military-style environment of the Boot Camp, which aligns well with his service in the National Guard. To make matters worse, he recently purchased a piece of property and was preparing to build his first home. Now, with his job in jeopardy, he is forced to put those plans on hold because of the uncertainty surrounding his employment. This is not just a financial setback it is a crushing disappointment for a young man who has been working hard to establish himself. My husband is also directly impacted by these closures. He is currently employed at SCI Houtzdale and was recently selected
2/15/2025	Citizen	Email	for a well-deserved promotion to SCI Benner Township. He had

			I stand opposed to the decision made by Governor Shapiro and Secretary Harry to close SCI Rockview/Quehanna Boot Camp. This decision will be felt by not only the staff but also the family's, community, and the Commonwealth as a whole. The effects will cause financial strain to all parties. If this decision goes forward and the facilities do close, I will make sure the people in the community and Commonwealth remember when the Governor's seat is up for reelection to ensure a Republican gets elected. I strongly urge you to please not go forth with this decision.
2/15/2025	Citizen	Email	
2/15/2025	Citizen	Email	I feel that closing this boot camp would be a major mistake. I know of several people who have attended this camp and have gotten great support and benefits from it. It's a different approach to recovery and it really seems to work for at least the people I know. We're asking you to please reconsider doing away with this program. I know it's helped many people.

2/15/2025	Citizen	Email	I am reaching out i regards to the closing of the rockview facility. I feel as closing this facility will do more harm than good in our community. Both prisons, rockview and benner, provide a great amount of jobs to our region. I feel as though it would be detrimental to keep rockview open for many reasons as well. Not only does it employ a great amount of our community, it also holds many of our already overcrowded inmates. As a taxpayer, i believe we should have a say in where OUR money goes and if my money is going to continue to help employ other hard working men and women, help them contribute to their family, then THAT is what i want. I know i do not stand alone. So instead, things i would no longer like my money to contribute to: Inmate hormone replacements Unnecessary hospital visits/surgeries as we see many of the same ones returning time and time again due to having access to items that should be inaccessible. Just to name a few.

2/15/2025	Citizen	Email	As a PA resident and avid supporter of criminal reform I strongly urge the state to reconsider their closure of the Quehanna facility. The bootcamp provides a facility with that puts a focus on reform and restructure for the inmates that is unmatched by typical facilities that focus solely on housing. The lose of this program will not only drastically impact the inmates housed here but the employees that rely on this facility to support their families. The economic impact of losing these jobs will be far more devastating than I believe is realized. The market for jobs of this particular skill is already minimal in our state and many families can't just relocate to an area that would better suit that skill set. Ultimately the negative impacts far outweigh the positive when it comes to this matter. As a local who knows many who have either worked at or attended this facility I have first hand experience with the positive impact it provides. The structure and focus they provide to all those who attend is clearly seen and it helps these inmates to readjust and break the cycle of criminal activity that has led them there. I hope the state takes great care in not making this decision lightly as it will certainly have a negative impact on the local economy and rate of reoffense.

		your attention since you seem to be so keen to do things for Liberals in our community. When it comes to the mostly Conservative individuals working at the PA Department of Corrections, it is apparent that you have no interest. As a Registered Nurse working at SCI Rockview for the past 4 years and several months, I am absolutely heartbroken at the thought of closing this facility, as well as SCI Quehanna, for many reasons. My husband is a Corrections Officer here at Rockview and this is where we met. We share a lot of memories at this facility. We live approximately 6 miles away from SCI Rockview and bought our house when the housing market was much better, so there is no way we want to sell our house to end up in a different county at a facility we don't know. We are not thrilled about having to drive separately to work because with our levels of seniority, we won't both qualify to get into SCI Benner together, which is really unfortunate. You're so focused on saving money, but you don't care about the amount of money each individual or family will have to spend to relocate and drive potentially over an hour in one direction to work each day. It appears that some of the reasons SCI Rockview is slated for closure is because of the amount of money needed to fund large projects over the next several years. It is my understanding that each institution is budgeted $40 million annually for upkeep/repairs/maintenance, and over the next 5 years, that would be a total of $200 million, yet we are being told that projects such as the new roof on A & D blocks would be in the ballpark of $70 million. If this is such an issue, why don't we
2/15/2025 Employee	Email	I oppose the closing of SCIRockview and the Quehanna boot camp. I think it would be waste of resources that we already have. I would rather see them make renovations, if needed,
2/16/2025 Citizen	Email	than just close them.

2/16/2025	Citizen	Email
2/16/2025	Employee	Email

I think they souldnt close the qehanna boot camp because it teach young kids a lesson. It's a good area no one runs away because there's lots of rattlesnakes around the area in the summer and it's in the woods. Please keep it open thank you

I would like to remain Anonymous in my comment due to being retaliated against at my job here at Quehanna boot camp. I feel like we should close for a few reasons. The first reason is there is no room for advancement here at Quehanna for the female officers. For example, we are told if we want to promote then we need to go to houtzdale. This is part of the reason why we have such a high turn over rate. Another reason why is the facility puts more money into the inmates then their own staff. For instance they have playstations, and intendo switches, when money could be put to better uses. Also they are expecting to get microwaves in the housing units which is a deep concern for not only my safety but the safety of others. Furthermore, it's a very hostile work environment. Another example of this is when the female officers took a stand about not being promoted, one of the administrative staff said we would never be promoted because we felt discriminated against. These are just some of the issues that have and continue to occur. I have applied for counselor position for the past 9 years and they gave it to white males. I think because I am a black woman they don't want to promote me. Again this is just a little fraction of what goes on here at Quehanna. But also I would like to remain anonymous because I know they will retaliate against me. I thank you for your time.

2/16/2025	Citizen	Email	I am a citizen of Cambria County. I am contacting you to let you know that I am opposed to the closing of correctional facilities in Pennsylvania. I am certain that you can find other ways to balance our budget; such as cutting the salaries of you and the other government officials.

			close Quehanna Boot Camp. As a resident of Clearfield County I am, of course, concerned for the economic impact on our area which is already economically depressed. The promise of jobs for the 234 affected employees is hardly reassuring, involving the probability of increased travel time to work and the likelihood that the facility to which they are assigned will not be a minimum risk setting as Quehanna Boot Camp is. But my immediate response on reading your department's recommendation was for the inmates who could benefit from the type of program found at Quehanna Boot Camp. Quoting from the DOC website, "Quehanna is the primary facility, for both men and women for Safe Drug Treatment Program and the only facility for the Boot Camp Program." It is stated in the steering committee report that "the male boot camp program can readily be relocated to any facility." I question that statement. The very secluded, wilderness location of the Quehanna Boot Camp, so very different from the experience of many of the inmates, creates a mental opportunity for a fresh start. This mindset can perhaps contribute, at least in part, to the following statistics for the Boot Camp, obtained from the DOC website. "Average percentage of inmates that return to state incarceration (as of 1/1/2020): 1 year after release: 15.03%, 3 years after release: 40.33%, 5 years after release: 46.33%. Compared with the Bureau of Justice report published in December 2022 which shows the country's rate of recidivism as 66% within 3 years, it would seem the Boot Camp program in its current setting is effective.
2/15/2025	Citizen	Email	Another point that the DOC recommendation makes is the lack

2/16/2025	Citizen	Email
2/16/2025	Citizen	Email

To whom it may concern on closing of Quehanna Boot Camp.
This rural facility employs rural people who have long established homes or have built on family farms! This closure would have a major impact on those families! Also you are considering closing an adult boot camp! Which I believe is the only adult one in the state! I personally know 3 individuals who are totally reformed. 1 owning and operating a successful excavation business another owning his own gym in Florida and doing part time ministry work and a third who has completed seminary and is now a full time pastor! I don't know where those men would be if they were in a regular prison situation. Please evaluate the program and the facilities before making such a major decision.
This closing would have a great impact on my family.
Family established in the community. My 4 granddaughters established in the Bald Eagle school district.
Family built a home planning living there through retirement and finishing career at
Boot Camp .
Consider the effects on so many families.

			County, emergency medicine RN and new mom to an 11 month old baby girl. I want to voice my concerns regarding the closure of SCI Rockview and state that I speak on behalf of my family, friends and colleagues when I express that we want our tax dollars to be spent first and foremost to be keep ALL felons and criminals imprisoned and held accountable to the fullest extent of the law. With the closing of Rockview, there will be an unavoidable early release of prisoners SOMEWHERE within the state and I find this completely unacceptable. By closing Rockview, you are also limiting the ability to house new inmates and hold new and repeat offenders accountable for their actions OR you will be forced to end prison sentences early to make room for new and repeat offenders (again something I find completely unacceptable). This brings me to my next point, which is that by releasing inmates early (which again, by closing Rockview, this will be an unavoidable result somewhere in PA), you are freeing criminals that have not paid their time, back into the community to repeat their offenses, which is a waste of tax payer dollars. As a loyal taxpayer, I want my taxes to be spent keeping Rockview open and holding criminals and inmates responsible for their actions. I do not find it feasible to “save” my tax dollars by closing Rockview, only to spend my tax dollars when these criminals repeat their actions and have to repeat the trial process. I do propose the idea that you save taxpayer dollars by making
2/16/2025	Citizen	Email	inmates be inmates. Why are taxpayers paying for gender

2/16/2025	Citizen	Email	I was raised in Karthaus Pennsylvania, roughly 2 miles from the Quehanna Bootcamp. The Quehanna Bootcamp is more than just a prison, it is an essential part of the Karthaus community. There are not many businesses left in Karthaus, but the ones that are depend very heavily on the Bootcamp. The Bootcamp brings a lot of business from the employees, visitors and vendors. The Benton's store has been part of the Karthaus community for many years. Without the Bootcamp, this could financially impact this little family ran store drastically and force them to shut their doors. The employees stop at Benton's every single day, not only providing them stable business, but building friendly relationships with them as well. The Quehanna motel, a family owned bar and grill also very heavily depends upon the Bootcamp financially. The workers stop there after work, the offices order lunch there, they rent it out for parties and meetings with the union. Another business in the small town that could potentially close its doors without the stability of the Bootcamp- causing a negative impact on the economy. The Quehanna Bootcamp employs and has employed many members of my family, many friends and also many members of the Karthaus community. Please consider saving the small town of Karthaus and the small businesses in this town, by keeping the Bootcamp open and continuing to help our economy thrive!

		SCI Rockview. My husband and I are against this decision and would like our thoughts to be added to the list of community input. My husband Gordon has been an officer at Benner for over seven years. The primary reason he chose this profession was the opportunity of strong pay and benefits without a college degree. Over the years, our family has greatly appreciated the opportunity of overtime pay. This pay has allowed us to purchase a home and expand our family. Gordon is the primary income source for our family by far. We are just two weeks from the arrival of our 3rd child, it's frightening to think about his income being reduced by as much as half with this merge. We know that we are not the only family in this situation. Many good officers will be forced to seek employment elsewhere due to the loss of income or further commute. And as result we think the state will suffer a greater employment deficit. We also have to consider the families of the inmates. Putting myself in their shoes - it's hard to imagine how I could as a low income, single parent be able to travel a further distance for my children to visit their father. The state needs to support the children of these families as much as possible in an effort to break the cycle.
2/16/2025 Citizen	Email	Very simply stated...closure may make sense financially, however, for some inmates who truly want to change and see this as HOPE and pray for this opportunity....the loss is beyond logical
2/16/2025 Citizen	Email	

2/16/2025	Citizen	Email	closure of 2 of our state operated prisons, Quehanna Bootcamp and Rockview. To put it simply I don't believe that closing the bootcamp and moving its programs elsewhere would be in favor of or the best interest of the staff, current and future inmates as well as the the families of those who rely on its location for work and community involvement. Not only do those employees live and work in the area they support local businesses to the clearfield and Centre counties, their significant others and children are a part of the community schools and businesses. They also often participate in fundraising events and other activities throughout the area. The inmates have participated in numerous service projects such as clean up, construction and maintenance activities for local parks, roads and other public areas that are owned or operated of nonprofit organizations. Now, I can personally add that although I am not proud of my past decisions and behaviors, but as a former inmate and participant of the bootcamp program I can say with confidence that the staff and small rural location are part of what makes it successful. Including the success I have had since release. Compared to the staff and institutional environment of the women's prison in Muncy. (Where I felt inmates are herded around like cattle and treated more like wild caged animals than humans.) The staff ant QBC are incredibly dedicated to the safety of their facilities, other staff members but also the support the

2/17/2025	Citizen	Email

Why would these places of correction be closed? Are they not needed? For years these places have been places where reform has occurred. As well as being places for local people to have a career. I can understand closure if having them open is wasteful for taxpayers. If that is the case then can you please send me that information?

2/17/2025	Citizen	Email

My name is [redacted]. I've been a resident of the Frenchville Pennsylvania area my entire life. I'm shocked and appalled that the State is considering closing the QBC. The facility has been a staple in our area for many years. Multitudes of families in this area work for, or have family members who work for the facility. Local businesses depend on those workers for income and prosperity. The idea of paying employees to travel to a different DOC facility to work and pay for their hotel room is asinine to me. That doesn't make much business sense. The Bootcamp is iconic in this area to many children, as it was to me when I was small. It's a great place to work, and many strive to be employed there. Myself included. I just applied for a job there in the last several months. Where will the proposed savings fit into the governors budget? As a rural citizen I'm tired and frustrated that our needs are always outweighed by the needs of the more suburban areas. I side with the workers and families affected by this closure, and my voting in the future will reflect that.

2/16/2025	Citizen	Email	Recently I heard of the possibility of the closing of the Quehanna Boot Camp. I have enjoyed coming to this area for over 50 years and have been enlightened to observe how disciplined the inmates are every time I pass thru. Also to mention how clean and very well kept the facility is. I do know individuals that work there along with a very good friend and I feel closing this facility would hurt all employees and their families tremendously as well as the community. Please keep this facility open as it will benefit all parties involved as well as the community and the inmates as well.
2/16/2025	Citizen	Email	I oppose the closing of the camp. Also, please do all you can do to eliminate the death tax in PA. Very few states still have this tax. It is an unfair tax. Thank you! Julie

2/17/2025	Employee	Email	QBC. I have 19-1/2 years as an employee of the Commo wealth of Pennsylvania. I started my career at SCI Rockview. I was older when I started. I have learned a lot about life since starting in the DOC. I went in with the idea that I was going to "save the world" I transferred to QBC because of the programming. I am a structured and disciplined person and thought this was for me. IT IS!!! I love my job! We cannot wave a magic wand and change inmates, they have to watch it and MOST did!! That is when it was Boot Camp and SIP. Inmates thanked you for helping them and treating them as a person, not a number. Unfortunately, DOC changed the program. They changed it to SDTP, so 2 year program, but leaves with no tail. Who wouldn't want this? Boot campers work so hard and still leave with a tail. There are no incentives. I have worked in all the programs, starting off in female Boot Camp, working in the male Boot Camp units, can a male SIP unit, then female SIP program, finishing up in female SDTP. When in Boot Camp and SIP inmates would thank you for helping them, giving them tools to help them live a different life. It is NOT that way with SDTP, they tell you they have no desire to change, they sought out the program so they would have a lesser sentence and NO tail. How sad. Please help these inmates, not everyone is a bad person who comes to jail, Get rid of SDTP!!! When parents and grandparents come to the boot camp for visits they comment on the drive in. Littles can see wild life, mountain laurel and a comfortable atmosphere for the children. QBC is the best!!! Please reconsider. It is not my job that I'M writing about. I may be fortunate ate enough to retire. It is the facility. It is beautiful, clean and the inmates appreciate

2/17/2025	Citizen	Email	I am emailing in regards to the closure of SCI Rockview and the Bootcamp. There are over 600 employees at Rockview alone and over 200 at the bootcamp. They are big time employers in both areas and a lot of families it's going to be very difficult if not impossible to relocate when we work odd hours and days and a lot of us have significant others that are either also in the DOC or the medical field and we rely on family and friends to help with childcare which is hard enough to find already with the hours we work! Yes the DOC is offering to relocate employees but that's also easier said than done. It's hard enough to find childcare during the day with the hours we have to be at work not to mention with some people then having an hour+ commute not to mention if there is a family emergency at home or at school and we are over an hour away now. This closure is going to negatively affect a lot of families and all of the surrounding communities.
2/18/2025	Citizen	Email	Hello. My name is [redacted]. I am a resident and Township Supervisor in Karthaus, Clearfield County. I am sending this email because I oppose the closure of the QBC. Not only will closing the Boot Camp have a detrimental effect on the employees but will also negatively affect the community and the Township itself. The few local businesses will lose money generated from the staff members that visit their establishments. The Township will lose the tax revenue that greatly helps with road maintenance and repairs. And the Inmates participating in the program offered by the Boot Camp will lose the separation from the larger institutions that makes the Boot Camp program a success.

			Rockview and SCI Quehanna. Both institutions have had a profound impact on the person I am today. I was previously an inmate in both institutions. At the time of my incarceration I, like many members of the public, was under the impression that there are opportunities for education and skills training for inmates. Having never been in prison before, I quickly realized that resources and opportunities for inmates are extremely limited. Fortunately, I was assigned to two facilities where there are some additional opportunities for inmates to grow, improve themselves, and acquire skills or a trade. I was lucky to possess an education prior to my time of incarceration, however most are not. At SCI Rockview I was able to work in the education department for Principal Ryan Eby and Mr. Brent Emel. These individuals are doing as much as possible with limited resources, full classrooms, and a long waiting list of inmates hoping to access educational opportunities. I spent time on E Block with other inmates who, as a condition of living in a "honors block," must maintain a job. These inmates worked at the library, school, in the kitchen, in the chapel, on the maintenance crew, and in the wood and furniture plant. There is also a forestry program which many inmates were waiting to be accepted into. The value in meaningful work and education, especially for an inmate, cannot be emphasized enough. Countless hours of "downtime" or time spent "locked in" has no rehabilitative value, but only serves to warehouse human beings as they serve out their sentences. Downtime provides significant
2/18/2025	Citizen	Email	

2/16/2025	Citizen	Email	Hello and Blessings, We at the Toxic Prisons Campaign of the Human Rights Coalition would like to thank you for your work with us exposing the toxic environment at SCI-Fayette and appreciate your continuing support. We have heard that Governor Shapiro wants to close two prisons and we have a letter addressed to him that would look even better with your name on it! We at Toxic Prisons will send it to you via email, if you could find the time to sign our letter, requesting he close down SCI-Fayette. We appreciate your position of standing against abuse, toxicity, and the injustice of those behind bars. In Solidarity, The Toxic Prisons Team

		We are contacting you regarding the proposal to close Quehanna Boot Camp and Rockview. We feel this decision would be very detrimental to our area for several reasons. 1) Cause undo stress, pressure, hardship on relocation of these prisoners to other ALREADY crowded locations. 2) Statistics have shown that there has been many years of success at Quehanna on the rehabilitation of prisoners. 3) The recent money that has already been spent on updating Quehanna. 4) And most importantly…the loss of revenue to our area due to job loss of MANY. (Not just employees but outside entities that provide services to these two locations.) Every person that would lose their job would have a huge trickle-down affect to the financial wellness of the communities!!! Think about each employee: 1) Lives and pays taxes in our communities. 2) Buys all their groceries, gas, heating fuel, etc etc etc in our area. 3) Seeks medical/dental care in our area. 4) Utilizes hospitals, pharmacies, etc in our area. 5) Does their banking in our area. 6) Their children attend schools in our area. No matter how much Gov Shapiro and others project the savings "could" be to close these facilities, the detriment to our communities will far outweigh that. Please reconsider the closure of these facilities. Thank you.
2/18/2025 Citizen	Email	
		I do not agree with the closers of the facilities, there will always be things that need updated it's called maintenance and there has been a-lot of work done in the past and will need in future, it's a-lot cheaper than building a new place, and having to redo stuff that wasn't done right to begin with. I would like to see them stay open.
2/18/2025 Citizen	Email	

2/17/2025	Citizen	Email

I am writing regarding the recommendation to close Rockview state prison. I have lived in Centre County for the past 20 years and have cared for the community since that time. I have also provided care for the inmates during that time. Closing this facility will have a significant impact of the citizens of the county. The unit currently has a neuro-cognitive unit, and it is my understanding that this is only one of two units in the state to provide these services. Eliminating this unit and relocating it elsewhere in the state would be associated with substantial costs. I am also perplexed to find the upgrades on the facility will cost 100 million dollars. There are portions of the facility that have been updated. I find it hard to believe that updating the fencing will result in the bulk of these projected costs. I would hope that you reconsider the decision to close the facility and figure out a way to make cost conscious decisions in maintaining the facility in its current capacity. I thank you for your time in this matter.

2/17/2025	Citizen	Email

This email is to let you know how disappointed we are in the State's consideration of closing Rockview. This prison serves a huge service to our community and will cause a great loss of jobs to the area. There is so much land there that could be sold off to help pay for the renovations, since Rockview know longer farms. My father and my sister were both Career employees at Rockview and I would hate to see this prison closed. It would also cause overcrowding in other prisons across the State and we know that would cause a lot of problems. PLEASE RECONSIDER and DO NOT CLOSE ROCKVIEW!

2/14/2025	Citizen	Email	I'm writing to you with extreme concern about the possible closings of SCI ROCKVIEW & Quehanna BootCamp. My husband has worked at ROCKVIEW for almost 4 years, he had gotten this job after Biden caused Geo Group to close and consequently this job was an answer to prayer. Until Now. This has been the most stressful and devastating news that we received. When Shapiro suggested these facilities to close, he must've only been thinking of the financial aspects to benefit him and larger cities not the devastating consequences it will cause those underneath him and the smaller communities.Not only do these officers work in dangerous environments every day, now they have the stress of losing their jobs! This is completely unacceptable. Being a single income family, we depend on this income. In fact we just purchased our dream home thinking he had a stable income. This is a career for my husband not just a job that you can go in and out of. He had hopes to move up within the prison. They suggest they'll be able to be hired in a facility 67 miles from their current facility. However my husband already drives 40 miles to his current facility at ROCKVIEW. How is this going to save us money? It won't. We will be spending more and more with gas and he will get less and less time with his family. They mention the repairs Rockview needs when some of these same repairs listed have already been completed. Is this falsifying the budget proposal? I'm pleading with you to stand up for these officers and other employees and show them the respect they deserve and very seldom receive, especially from our governor.

			Quehanna Bootcamp. I have worked for the DOC for 12 years both as an officer and maintenance. 7 of those years were at SCI Houtzdale and the remainder have been at the bootcamp. I speak from first hand experience of how different and special the bootcamp is. It was an invigorating change to go from a larger facility where you're just ""warehousing"" inmates on a daily basis, to a smaller facility where you can actually get one on one and have the possibility of changing the direction of an individuals life. It wasn't until I transferred to the bootcamp that I actually had an inmate approach my desk at the end of a shift to thank me for the work that I had put in with them that day. Never in my career had I had that happen before and that was the instant I knew that it was a special place. Not only is the recidivism rate lower than any other institution in the state, but it's also one of the cheapest facilities to operate, if not THE cheapest. The numbers giving out to the media are grossly false as the numbers for projected maintenance projects were already approved AND completed! It's a completely upgraded and renovated facility. Also, the bootcamp was preparing a pilot program for inmates to get CDL's and completely renovated a building to do it only to have it stolen and given to SCI Huntingdon. In closing, I strongly disagree with the proposal to close the facility, as do many others. It will strongly and negatively impact not just my family's, but many family's and businesses. On a personal level, transferring to the bootcamp saved my life, marriage, mental health, and gave me a totally different look at
2/14/2025	Employee	Email	corrections and what it could and should be. The Quehanna

2/15/2025	Citizen	Email	There's a lot of families that would be separated from there husband's why not put stricter rules like frequent urine blood tests for drugs and alcohol sever punishment for lackers some men have jobs that are going to be lost like my husband's Hector Rafael Carerras he works for express lawn in wernersville he works seven days a week and he provides for our family if he gets transferred I become helpless and were caring for a blind puppy who's our fur daughter please help us by keeping the half way open the other men provide for their kids and wives

			of the state-run prisons in Pennsylvania, having had worked at both of them I am sending this email. State correctional institution at Rockview has been around for a very long time and I have not worked in the prison since 1992 when I left to go to the boot camp and I retired from the QBC in December 2014, Though I still know some officers and staff who work inside of both facilities and I know their families as well, I can only imagine the stressors that they are going through at this time for the state to save a couple million dollars over several years.... possibly. For January of 2025, the monthly report for the state's population and even though it is down a few thousand and there are empty beds in pretty much all of the facilities. (The boot camp has empty beds and it's up to judges and classification at central office to get those beds filled) . In May of 2024 the DOC housed around 40,000, in 2022 the DOC population was around 37,910 Just slightly lower than the current 38,273, as you can see over the years how the population rises and falls and how it's currently higher than 3 years ago, but the state/doc is looking to close two prisons that have approximately 630 beds open between both facilities. In 2021 Pennsylvania had an incarceration rate of 659 per 100,000 people which was one of the highest (not in the nation) ..but in the world!
2/17/2025	Citizen	Email	

		Please do not close these 2 facilities. You've got to look at it as human lives and families trying to hold it all together during this horrible time of inflation, and not just buildings made of stone and wood. We have family members employed in these facilities. If this passes, and Shapiro runs again, none of us will vote for him. And, now, we all deeply regret having voted for him at all. Why didn't he tell us this was one of his goals while he was out campaigning and shaking hands with the hard-working people of PA. This is a major gut punch to dedicated employees trying to make a living, raise a family, and keep their heads above water. Thank you.
2/18/2025	Citizen	Email
2/18/2025	Citizen	Email	I STRONGLY URGE YOU to not close these institutions. There was recent updates to the Quehanna Boot Camp. These, also, provide many jobs to the area residents that can't afford to relocate.
2/18/2025	Citizen	Email	I oppose the closing of Rockview & Q. Boot Camp, the US needs more correction facilities, not less.
2/18/2025	Citizen	Email	I feel that closing SCI Rockview & the Quehanna Boot Camp is a terrible idea & asinine!!! These two facilities employs hundreds of people & hundreds of spin off benefits for the central PA area. Closing these facilities is a slap in the face by our governor to the taxpayers in this area.
2/18/2025	Citizen	Email	As a family member of State Corrections officers, and having a step-son have to go to Quehanna Boot Camp, I am strongly against these closures. In today's day in age, behavior issues are becoming more and more prevalent, and facilities like Quehanna Boot Camp and SCI-Rockview are meant to help reform and correct people. Closing correctional institutions is not the route we need to go. Please re-evaluate these decisions.

2/18/2025 Citizen	Email	I support Gov. Shapiro's plan to close Rockview and Qhehanna prisons. This will save the state tax funds for maintenance and repairs. The guards can move to other facilities or state jobs where there are staff shortages.
2/18/2025 Citizen	Email	Voicing my opinion as a central Pa voting citizen I & my husband both are 💯 💯 💯 💯 percent AGAINST CLOSING BOTH THE ROCKVIEW AND QUEHANNA FACILITIES‼️‼️‼️ Central PA is already HURTING SEVERLY financially, economically etc. Closing these facilities with be VERY DETRIMENTAL to our community! We the people are voicing our opinion…. REMEMBER GOVERNMENT IS TO WORK FOR THE PEOPLE…..WE PAY YOUR SALARY‼️‼️‼️ Sincerely James & Linda Maines, lifetime Residents of Clearfield county.
2/18/2025 Citizen	Email	I am writing this in regards to the announced proposal the governor made about closing the Quehanna Boot Camp and Rockview State Prison. I ask you to please reconsider and do not close these facilities. I know many people who are impacted in such a negative way if this were to happen. I live in Snow Shoe Pa, which is a very rural area that has already dealt with so many losses of businesses in recent years. The majority of people from my area already have to commute over 20 miles for employment with decent wages, groceries, medical care and banking; and the closure of these 2 facilities will negatively impact many of my friends and relatives and their families. These closures will just be one more blow to our area that has faced many hardships and losses in the last 5 years. Please reconsider. Also what are the plans for the land these facilities are located on? Thank you so much for any consideration and the time taken to hear my concerns.

			Please reconsider closing the Quehanna Boot Camp and SCI Rockview. Many people in the Clearfield area are employed at these facilities.
2/18/2025	Citizen	Email	
			I am writing to express my strong disagreement with the proposed closures of SCI Rockview, the Quehanna Boot Camp, Wernersville CCC, and Progress CCC. As a resident of Pennsylvania, I firmly believe that these facilities play a crucial role in our public safety infrastructure and provide valuable job opportunities in economically depressed communities. Furthermore, the gradual closure of these facilities places an undue burden on the remaining facilities, potentially leading to overcrowding in at-capacity prisons. This could result in premature releases of inmates who have not fully repaid their lawfully prescribed debts to society, posing a risk to public safety. In conclusion, these closures are not the appropriate solution for the residents of Pennsylvania. They create unsafe conditions for both residents, inmates, and the dedicated PSCOA members who work tirelessly to ensure their safety. I urge the governor to reconsider this decision and reverse it.
2/18/2025	Citizen	Email	

2/18/2025	Citizen	Email	closure of the Quehanna Boot Camp - After retiring from my thirty-five years in the photography business, I went to work for the Keefe Group as the commissary manager for Cornell/GEO Corrections in Philipsburg. I had the unique pleasure of seeing many of their staff growing up in front of my camera who were now Corrections Officers, Case Managers, Educational Instructors, etc. Although this facility was under a contract from the Federal BOP, it was a shining example of how well our ""Central Pennsylvania work ethic"" stood out amongst other facilities that Cornell/GEO operated. I also was pleased to see many of the staff obtain positions within the Federal BOP as well as the Pennsylvania BOP. During my almost ten year tenure, I had numerous inmates that worked in our commissary and not all of them were ""angels"". Many of them were young men in their early twenties that had fallen in with gangs or were coerced into doing something illegal which led to their incarceration. Of course, this is nothing new to those of you in this profession. My concerns are for future youngsters that due to their immaturity and perhaps more so their environment and lack of a strong family support, leads them to something where they have a sense of belonging. Sentencing these young men to a term in a traditional prison only makes their future life on the outside more predictable to become more of a felon. Mainly, this is due to a traditional prison that becomes nothing more than a training site for future felonies and to gain

			I worked at Quehanna for over 23 years and have seen many successful people graduate the Boot Camp, SIP and SDTP programs. The staff at Quehanna actually cares about their job and the successful reintegration into society for the vast majority of those who were there. Since my retirement I began working with phase 3 and 4 SDTP participants and I can tell the difference between those that completed the program at Quehanna and those that completed it elsewhere. Please reconsider your recommendation for closure and see the success Quehanna has had compared to other institutions. Thank you for your consideration of changing the recommendations and see Quehanna is a better option to remain open.
2/18/2025	Citizen	Email	Please do not close Rockview. This will negatively impact so many workers and their families.
2/19/2025	Citizen	Email	I do not support the closure of Quehanna boot camp or SCI Rockview.
2/19/2025	Employee	Phone	Lots of improvments have already been done to ROC. Spent millions. Very confused. Jails are overpopulated
2/19/2025	Citizen	Phone	Former Boot Camp resident. Wants to keep it open.
2/19/2025	Citizen	Phone	CGL is biased. They don't want incarceration. Don't shut them down at all.
2/19/2025	Citizen	Phone	Would be a sad discervice to close QUE and ROC. Places are wonderful for people who have problems, espeically QUE. Don't take away from the area.
2/19/2025	Citizen	Phone	Opposed to closing of QUE and ROC. Not good for the public or for the inmate population.

		QUE is very important to the area. Makes inmates better. Likes that they come to help clean up the community when needed.
2/18/2025 Citizen	Phone	We need this facility. ROC needs to stay open. Make a wing that is geriatric and staff accordingly.
		Closing would be a mistake. Employees can't afford to go to another facility. Something about women being around murderers. Keep QUE open. Shaprio better turn his decision around. A lot of very upset people. A lot of community is employed there. Shouldn't have to pay for gas and car repairs.
2/18/2025 Citizen	Phone	Keep workers close to their families.
2/18/2025 Citizen	Phone	QUE should stay open. Lots of relatives and family that work there.
		Do more research. Boot Camp has already had money poured in.
2/18/2025 Citizen	Phone	ROC is self sufficient because they grow their own vegetables.
2/18/2025 Citizen	Phone	Don't close ROC. It would hurt the economy and put people out of work.
		Opposed to closing QUE and ROC. Closing would be devestating to the rural area and affect families. 7 year old grand son worried about riding the bus to school. Kids are listening and are troubled, let alone moms and dads. Boot Camp is a good thing.
2/18/2025 Citizen	Phone	Prays every day that we will change our minds.
2/18/2025 Citizen	Phone	Fiance worked for DOC for 10 years. He is sole provider. No good jobs in the area. Water company is preparing for layoffs. Didn't account for that, did ya? Pretty fuckin' sick. Not a fan of comparable job offers. ROC is an historical site.
2/18/2025 Citizen	Phone	Do your research. Boot Camp is vital to the area. ROC is self sufficient. Do your research.
2/17/2025 Citizen	Phone	Supports closing ROC. Shut that mother fucker down.
2/17/2025 Citizen	Phone	Opposed to closing QUE. Dauhter works there.

			Husband will be affected by closure. Has six children. Worked very hard to get the job. Feels like the deicioons has been made.
2/17/2025	Citizen	Phone	don't tear families apart.
2/17/2025	Citizen	Phone	Concerned about closing QUE. Good things for people who are sent there. Please have governor visit there.
2/17/2025	Citizen	Phone	Lives in the community; fiance has worked for ROC. Has a lot of questions.
2/15/2025	Citizen	Phone	Opposes closing QUE. Close family member works there. It's a unique and successful facility.
2/15/2025	Citizen	Phone	Inmate family; inmate is at ROC. concerned that closing will affect mental health; gets along with cellmate and doesn't want to leave.
2/15/2025	Citizen	Phone	Don't close QUE. Has relatives that work there and need their jobs. that's the only thing they know.
2/15/2025	Citizen	Phone	Keep them open. Keep communities safe. Keep workers in their jobs. Stop this democratic bull shit. Listen to the common folk. Don't mess with anything.
2/15/2025	Citizen	Phone	Keep QUE and ROC open to keep economy. Shaprio is only interested in big cities.
2/15/2025	Employee	Phone	ROC is her family. Lots of work has already been done. Would hurt the community. Inmates have been there for a long time. Good rapport with coworkers and inmates. Enjoys what she does there. Benner and PHX have major issues.
2/15/2025	Citizen	Phone	Don't close. Worried about crime rate. Also effect on communities. Worried about overcrowding.
2/14/2025	Citizen	Phone	Don't close ROC or QUE. Area already hit hard by business closing. Need jobs for men and women and their families.
2/14/2025	Citizen	Phone	Boot Camp helps young people. One of the better things to do.
2/14/2025	Citizen	Phone	Closing them places is a bad idea. We're supposed to create jobs. What do you do with prisoners, do they get cut loose?
2/14/2025	Citizen	Phone	Opposed to gov's plan; QUE helps people. ROC is somewhat understandable but def against closing QUE.

2/14/2025	Citizen	Phone	Does not agree with closing; especially QUE. Area helps the program work because it is the middle of nowhere. Provides jobs.
2/14/2025	Citizen	Phone	Keep the prisons open.
2/14/2025	Citizen	Phone	Opposed to closing ROC and QUE. It's historical and needs to stay.
2/14/2025	Employee	Phone	Not sure closing ROC would save moeny. Hopes to keep it open.
2/14/2025	Citizen	Phone	Would be devestating to her family and community. Don't close.
2/14/2025	Citizen	Phone	Very much against closing ROC and QUE. Stop and think!
2/14/2025	Employee	Phone	This won't really save money. Already re-did everything at ROC.
2/14/2025	Citizen	Phone	Keep QUE and ROC open. There are so few jobs in PA as it is. Prisoners are well taken care of, and we need a place for them.
2/14/2025	Citizen	Phone	Please reconsider. Men and women need their jobs. Closing would have huge economic impact.
2/19/2025	Citizen	Email	Please don't close SCI Rockview. If this did happen it would greatly affect myself and my family. I am afraid also that this will cause over crowding at the other prisons. There has to be other ways for the PA government to cut costs. Please don't do this.
2/19/2025	Citizen	Email	We would ask that You reconsider on the closings of SCI Rockview, and the Quehanna Boot Camp. These are institutions that employ many local residents, that are providing a very important service. Many have spent years employed at these facilities, and they have sacrificed a lot of time in order to fulfill their duties at these facilities. My Son was employed at the Quehanna Boot Camp at one time, and we know this program makes a positive impact on the Inmates that go through the program there. If cuts are needed, which they more than likely are, we would ask You to look into other less important programs.

2/19/2025 Citizen	Email	Attached is a letter I've written in regards to the proposal for the closure of SCI Quehanna Boot Camp. It's with my highest hopes this letter persuade the powers that be to reconsider.
2/19/2025 Citizen	Email	I am writing this email to express my deep disagreement and upset about SCI Rockview closing. The closing of SCI Rockview would cause the loss of jobs of so many incredibly hardworking men and women. This email is to signify my opinion and vote to not close Rockview.
2/20/2025 Citizen	Email	I worked at Rockview for 6 years before transferring to the QBC and have been there for the last 8 years. The main reason for me to transfer to the Boot Camp is that I live 13 miles from the institution. I have traveled down towards Rockview for 21 years with my other job that I had. So I really don't want to travel I80 if I don't have to. We are such a tight knit family up here. Yes all the big updating is done. So if you own a home for 30 years in those 30 years don't you think you need to update it or it will just fall apart. So the information that was put out to the media was from a couple years back. If you want to put information out PLEASE put the facts out there not fake news. I know everyone loves fake news. Be shame on you for fake news. This will hurt Clearfield county really bad. We are already losing Lock Haven University in the next 2 years and Big Lots is closing so what else can we lose before people say screw welfare looks really good at this time and have everything handed to them. #SaveQUEHANNA. AMEN Sent from my iPhone

			time to read this and hopefully it makes a difference. I started in the DOC in 2015 at SCI Forest and then transferred here in 2018. I am a military vet so of course this is the place to be. This place is not just good for the inmates it is also good for the staff. Getting a fresh platoon and molding them into productive members of society and carrying yourself as more of a mentor then a CO, it is rigorous to be a drill Instructor but it's also rewarding to see you actually made a difference in someone's life other than just being there every day as a regular block officer in a normal prison setting, and that same attitude carries on throughout the whole facility into the SDTP units as well. The Facility success rate is 88%, to the people that works here is not just a statistic, it is a goal and a badge of honor knowing 88% of the people that comes through these doors this will be the last facility that they will enter. This facility has so much potential of being a steppingstone to rehabilitation, but the Commonwealth has not even given us a chance. We have a new warehouse not even 2 years old sitting empty, when it was first built rumors was flying around about bringing a CDL sim course to help inmates get their CDLs before they get out. The memo came down a few years ago that the laundry will be shipped out to another facility, well there goes jobs from here to another facility, just my opinion with the amount of laundry taken from the facility to go to another facility is a big waste of resources, time and money. Quehanna can/ is a self-sufficient facility, with endless possibilities, not like any other facility we can expand without the worry of crowding because of fences. For a few examples,
2/20/2025	Employee	Email	Rockview has a woodshop that could be brought up here into

			County (55 years). I am writing today to express my concern regarding the proposal to close Rockview Penitentiary and the hardships this closure will create for Central Pennsylvania. While I understand that the facility is very old, outdated and in need of $74 million worth of renovations over the next five years, I feel that closing it would be a mistake for many reasons. This proposal feels like a knee-jerk reaction to the price tag of renovations, and I am wondering if all things have been considered thoughtfully. The biggest concern is the ripple effect the closing will have on our community. First and foremost, the impact to the current 650 employees. Although the employees are being reassigned to other facilities, they still essentially will be taking a pay cut which will be a hardship for the families and will reduce consumer spending in the community. The other facilities are at least an hour away, which will mean the employees will be spending more money on fuel to get to and from work that they currently are not paying now. Fuel cost is a huge expense. In addition, these employees will have less time at home with their families because of the commute. For the employees with children in school, this will affect the time they have available for their children's extra-curricular activities which could lead to children having to drop out of sports and other activities. If the employees volunteer in the community as coaches or emergency workers, they will no longer have time to volunteer their services to the community. Also, the inmates have a community work program which is an asset to the community that will be lost to us.
2/20/2025	Citizen	Email	

2/20/2025	Employee	Email	Good Afternoon, I work at Rockview so of course I don't want to relocate but if we've closed two centers since they don't fall under Act 133 and while I believe Quehanna has a good program, with SDTP and SSP affecting the Boot Camp enrollment I can understand the closure of Quehanna. I would hope that if only Quehanna closes, it would take care of OT at Houtzdale, Benner and Rockview and possibly push off the closure of Rockview for a few years. We have had so many maintenance things handled in the past years that it would be a shame to displace everyone. In my office, I have three staff that drive from Houtzdale. IF they don't get Houtzdale or Benner, they will have 2 plus hour commutes one way. I originally started at Muncy and drove 67 miles one way to work with gas prices cheaper than what they are today. I still spent $600 a month on gas with up to a 3 hour commute due to accidents or bad weather. I know that isn't taken into account but so many people work at Rockview from out of county and do their business here in Centre County that it does make a difference.

2/20/2025	Citizen	Email
2/20/2025	Citizen	Email

As a graduate of the bootcamp program in 2018 I would hate to see this program become obsolete. Put of 8 years of incarcerations when I was given the opportunity to do the bootcamp program that was the turning point in my life. I learned more in that boot camp than I have from any other punishment/incarceration. The boot camp saved me from going back into the lifestyle I was previously living. I wouldn't have the job I have today if it weren't for that program, I wouldn't be who I am today either. Literally the boot camp saved me. It's been 7 years since I graduated, I maxed out my state parole and have been a proud union member working my ass off everyday since then and turned my entire life around for the better. Bootcamp was the turning point for me undoubtedly. It's an amazing program that actually brings change. Don't take that opportunity from the people who desperately need it.

My question is why would you want to close the Quehanna boot camp down? When it saves around $12,000 per inmate. Also the chance of a inmate going back is around 40% in a 3 year period, compared to a regular prison, which in a 3 year period is around 66% of them going back. The Quehanna boot camp has had well over 10,000 graduates from their program. Right there is a major cost savings. If you guys don’t believe that the Quehanna boot camp is doing this well why don’t you reach out to the people who has graduated from the program, and hear from all those people. Also with closing the Quehanna boot camp you are economically harming Clearfield county and Karthaus township. THE TAX PAYERS!!!

2/20/2025	Citizen	Email	I would like to propose a location for your upcoming Town Hall meeting that has to take place in accordance with Act 133 here in Clearfield County. Karthaus Township is the home of Quehanna Boot Camp and as such, even though we are "out in the sticks" we would like the town hall meeting here if at all possible. What better way to hear from the constituents and stake holders than to host the meeting in home community of the Boot Camp? I am the pastor of Karthaus Community Alliance Church and our facility is able to accommodate the town hall meeting. Our main gathering area with the stage can hold 250 people, and we have two overflow rooms that can house another 300-400 individuals depending on how we set them up. Please consider this request and if you have any questions, do not hesitate to reach out to me. My contact information is below.

2/20/2025	Employee	Email	taken aback by the news that you intend on closing our institution and Quehanna as well. I highly doubt you can fathom the stress and anxiety that nearly 900 people and their families are now under, as this will turn our lives upside down, cause people to choose to either spend possibly 3-4 hours a day in a car away from their families and spending more on gas, or uprooting their families, selling their homes and trying to find and purchase another under the new high interest rates. The cost of such a move would be more than a lot of people could handle these days, not to mention the stress that would put on their families, especially their children who are in school, on teams, parts of a community and support system that they will be ripped from. I can say that for me and my fiancé , who also works at Rockview as a COI, if we don't get into Benner or Muncy we will have to sell our home and relocate, the cost of which would cripple us as we just did a 50k remodel on our house just a few months ago. Obviously we did this work to our house, as I am sure there are many other people in the same situation, because we never dreamed you would consider Rockview, as it is a very cheap prison to run, holds so many inmates, has so many things that bring money into the state (Foresty, nursey, CI Shop)and is mostly self sustaining. Rockview also has Foresty, the farm, kennels, armory, range, death house, water treatment facility and all the fiber optics and camera systems for both Rockview and Benner. I do not deal in politics, I am just a jail cop who walks through the gates every single day to keep the public, my fellow staff and a large group of inmates safe. It is a thankless job that

		I am writing to express my deep concerns regarding the current operations at SCI Rockview and Quehanna Boot Camp. If these facilities are to remain open, significant reforms must be implemented to ensure humane conditions, proper oversight, and accountability. Without such changes, continued operation is not justifiable, and closure is the necessary course of action. The well-being of those incarcerated, the ethical responsibility of the staff, and the overall integrity of the correctional system should be the top priorities. If these standards cannot be met, then those employed at these institutions must face the reality that their positions will be lost due to systemic failure. The burden of reform lies with leadership and administration, and if they fail to act, closure is the only responsible option. I urge you to take immediate action to address these concerns and ensure that justice—both for those incarcerated and those employed—prevails.
2/20/2025 Citizen	Email	
2/20/2025 Citizen	Phone	We are opposed to the closing of QUE and ROC because of impact on the commmunity
2/20/2025 Citizen	Phone	She and her husband are strongly opposed to closing ROC. Closing would be a terrible mistake. She doesn't believe the math on vacany rate and beds. Puts community at risk. 90% capacity is bad. You're going to have riots. Prisoners don't want to move.
2/20/2025 Citizen	Phone	
2/19/2025 Citizen	Phone	Something about immigration prison.
2/10/2025 Employee	Email	This is so cool. Thank you for announcing this on the same day it was announced hundreds of members of DOC employees will be displaced.

			using obscured estimates of SCI Rockview's needs, as well as bombing the same region with two closures of SCI's is justified, but he is going to spend our tax dollars on an unnecessary and basically just a glorified overrated and expensive interior decorator. No Thanks... I can figure out where to put my own desk and chair and it doesn't cost anybody a job. The figures being told to the media and public are false. SCI Rockview has already had new roofing and windows done. It has a new state of the art new security fence and CC TV and cameras installed, new water piping and new concreted parking lots. How is spending millions to have this work done and then shutting the facility make any sense? The historical part of SCI Rockview will be replaced despite us being shut down because it is historical. In addition, these 2 blocks are currently functional areas in the prison. The true estimate of needed repairs is about a 1/3 of the amount being stated. There are other facilities in much worse shape. We have the only NCCU for dementia inmates, trained nurses for the infirmaries gravely ill patients, which by the way, many facilities do not even have an infirmary. There is plenty of options and access for handicapped inmates. Our education building needs 1 ramp made on the back side. All other areas are totally accessible. This facility is well maintained and in working order. The true waste of our tax dollars is already in your lap if you think spending millions to complete all the new repairs that are ALREADY DONE at SCI Rockview and then decide to close it based on false statistics. Absolutely a waste and a big BLACKEYE to your spending report to close it now after all the repairs.
2/18/2025	Employee	Email	
2/10/2025	Employee	Email	Exciting changes like closing my place of employment. I didn't care for your email the first time, no need to resend it. Dickhead

2/21/2025	Citizen	Email	Hi my name is [redacted]. I just did the sdtp program at quehanna from Feb 2024-aug 2024. I got to take masonry and get certified and the teacher there was the best teacher. Because of the smaller nature of the prison and it being a merit based facility it weeds out allot of the crap that comes along with prison. I believe closing this facility would be a great disservice to inmates and rehabilitation.
2/21/2025	Citizen	Email	Please close this camp as soon as possible. The area in question should be a wild or conservation area - not an area for the Department of Corrections.
2/21/2025	Citizen	Email	I really think the Boot Camp should remain open. You should be working on deporting the illegal immigrants, eliminating the deadwood in your offices, stop spending foolishly, and I could go on. You would be putting many out of work or getting them jobs miles from where they live. Clean up Philly and Pittsburgh; why cut into the rural areas way of life?
2/22/2025	Citizen	Email	Those of you in charge have no concept of common, everyday citizens; you think you are so far above us.

			I viewed a commentary which positioned “Little Scandinavia” as a facility which could rehabilitate inmates so they could become productive law-abiding citizens – they spoke as if this was a brand-new idea, however, this is how Quehanna has operated for years – their recidivism rate is much lower than the other state-run institutions. Why shut this facility which has been so successful? YOU WILL CREATE AN ATMOSPHERE OF LOW MORALE By transferring CO’s of Quehanna with more seniority than those of the facility they are transferred to, you will cause ill will of those that are bumped further down the line – possibly causing fights which could lead to prison riots when the inmates sense lack of cooperation among the CO’s. YOU WILL CREATE MORE CRIME If you don’t transfer all the inmates of Quehanna to “Little Scandinavia” and place them in other state run facilities with higher recidivism rates and no rehabilitation programs, won’t you be causing more crime? YOU WILL CAUSE LOW EMPLOYMENT There are many businesses in the Quehanna area that depend on the employees of the Quehanna Boot camp- there are not many alternatives – especially for the mom-and-pop businesses. YOU WILL INCREASE FAMILY STRESS
2/22/2025	Citizen	Email	Relocating Quehanna employees will cause them to drive
2/22/2025	Citizen	Email	Need to stop closing everything in rural areas.

2/22/2025 Citizen	Email	I was not aware of the staff to inmate ratio at Quehanna. It's close to 1 staff for every 1 3/4 inmates. And that is relatively a minimum security facility! Penitentiaries have like a 1 staff for every 6 to 7 inmates, and these are hardcore thugs. I'd say shut'er down!
2/22/2025 Citizen	Email	I do not want to see those prisons closed. We hear about crowded conditions, so why would we close them? Many people depend on them for their jobs. You are right, there are less opportunities for work in rural communities. Please think of these families. We value their work. It is dangerous work, at times. I've had several friends who worked at the prison.
2/22/2025 Citizen	Email	Please consider utilizing SCI Rockview and Quehanna Boot Camp as juvenile detention facilities. The staff is trained, the facility capacity will allow the state to house all our state juveniles as well as out of state juveniles at a profit and the well-being of hundreds of Correctional families will be preserved.
2/22/2025 Citizen	Email	I am concerned about the possibility of these two places being closed. Our area is depressed now let alone getting rid of these two sights. You may be promising these dedicated workers a job within a 67 mile radius from these sites, but what you may not realize is some employees already travel 35 miles or more to get there now which ends up being 35-45 minutes one direction. They have families they are trying to support and want to see them. Giving them a job in that radius does not give them the time they need for family. So as a concerned citizen, mother and friend of these employees I ask that you KEEP these two sites OPEN!
2/23/2025 Citizen	Email	Keep this facility open..... It has great value to help our youth out of a life headed for heartbreak. Pick something else to close in Pittsburg or Philadelphia or both

		I wanted to share my input on rockview and/or the boot camp closing. This does not seem like the best idea. As I believe it will push already understaff facilities into a higher ratio of inmates that will make circumstances more dangerous. Not to mention the jobs you are eliminating jobs in the area. This workers are dedicated and deserve to work where they were hired to work out. Transferring so many workers can ruin peoples income. Some people will not get the top pick of where they want to go. They will not be able to travel farther or afford to just move. And the inmates themselves are getting experience and work ethic from working at the farm and gaining experience. I thought governor Shapiro was in support of the Pa jail systems and spoke of not closing more and more. This all seems against what he said when running and doesn't seem right.
2/23/2025 Citizen	Email	
2/23/2025 Citizen	Email	I am writing this email in response to the proposed closures of the SCI Rockview and Quehanna Boot Camp. As a taxpayer and resident of the area of the Bootcamp in particular, I am against the suggested closure. This facility provides an alternative to housing nonviolent criminals together instead of mixing them with violent offenders. The location is perfect for this option too. I often drive by this facility while on my way to St. Marys and as well as other areas. Also, having another employer in this area to be closed, does not leave many options for families to remain in the area. Please keep this facility open for the benefit of rehabilitating non-violent offenders, jobs in this area for citizens, and the income for the area.

2/23/2025	Citizen	Email	Please do not close these facilities!
2/23/2025	Citizen	Email	My name is [redacted] and I'm a PA voter and member of the First Unitarian Church of Philadelphia. I am writing to urge the DOC and Gov. Shapiro to close SCI Fayette. I applaud the Governor's decision to close two prisons, and reinvest that money in our underfunded schools and public transit. I believe that the people and communities most affected by incarceration must have a say in which prisons are closed. I stand with numerous formerly incarcerated people and family members in calling for the DOC to reconsider its proposal for which prisons to be closed, so that SCI Fayette is included. SCI Fayette was built on a hazardous coal ash waste dump. For years, it has been the source of numerous health issues stemming from chronic exposure to air and water pollution. The prison has become synonymous with the issue of environmental racism and 'toxic prisons' -- correctional facilities that deal with serious water and air contamination from nearby toxic sites. A prison sentence should not carry the risk of highly preventable health conditions. Do the right thing and stop this harm by closing SCI Fayette.

2/23/2025	Citizen	Email	I am [redacted], a Pennsylvania voter. I am writing to ask that the Department of Corrections revise its current recommendations of SCI closures. I would like it to change its recommendations to include SCI Lafayette in its closures. SCI Lafayette is located adjacent to a toxic waste dumping ground. The prisoners at SCI Lafayette have no choice but to drink polluted tap water. Many have developed respiratory issues and other health issues due to the conditions. I stand with the prisoners and their families in asking for a change. The deadly environmental conditions are inhumane---for the prisoners and the staff. The Department's choice to close prisons offers a chance to get this issue right. Please close SCI Lafayette.

		Boot Camp (QBC) located in Karthaus, PA. I m adamantly against the closing of this valuable facility for many reasons. As Govenor, you should support the economic welfare of smaller towns. This facility immensely adds to the economic health of this region. It is a beautiful well-maintained facility located in a perfect wilderness area. I have never heard any complaints about it. When I drive passed it, it's always very neat and organized. If the Offenders are outside, they are in an orderly fashion and guarded well. You must support the employees of this facility. They do not want to lose the jobs they love and want to do!! As Govenor, you must care about them and their families...your Constituents in this Commonweath!! They are depending on their income to survive in this State. Closing this facility for the State's bottom line is cruel and unfair to these employees. Who can protect these people from financial harm...OUR GOVENOR...YOU!! I know there are many other options available for you to help your budget besides HURTING so many of your constituents in this way!! Seriously, think about what this action would be like for you and your family. It's a scary thought.
2/24/2025 Citizen	Email	Please do not close this important facility!! The superb treatment and guidance this facility provides to first-time Offenders helps to make the Offenders better, productive Quehanna has lowered recidivism rates and employed many people in the 73rd Legislative District. Additionally, improvements were just recently made at the facility. I believe Quehanna is an effective criminal justice center. Staff and families will be negatively impacted by this decision.

Closing the boot camp will be harmful to the economy. To many people work there and service providers rely on it. And once it closed what will you do with it? Let it sit empty and fall in costing more to clean it up and haul away.

quehanna bootcamp! This program teaches and offers so may great tools for inmates to use when they get out of prison to be a productive law abiding citizens. I thought the DOC was focused on giving inmates great treatment and rehabilitation and the quehanna bootcamp offers just that! The quehanna bootcamp is a very unique facility and no other state prison can give inmates what the quehanna bootcamp offers. The inmates at the quehanna bootcamp can actually focus on their treatment and rehabilitation without always having to look over their shoulders wondering if it's their day to get shanked, raped, assaulted and etc. They can actually focus on getting better and getting prepared to go back out into society. So many inmates have become successful after completing their sentence at the quehanna bootcamp. To say that you will save millions is ridiculous! The quehanna bootcamp actually saves tax payer dollars and have saved the state millions of dollars down through the years by putting inmates back out into the public earlier by reducing their sentence. The DOC has said in the past that the quehanna bootcamp is what the DOC should be and what is needed but the DOC wants to close this very unique facility that actually helps inmates??? This absolutely seems ridiculous that this facility would even be proposed for closure. I hope the DOC decides that this is craziness to close a facility that offers so much to inmates. Also, the staff and their families that work at this facility would be greatly affected as well. So many at the quehanna bootcamp have given so much to help these inmates and now you want to say thanks by closing the facility??? I wonder how many other facilities in the state have inmates call

Opposes closing of QUE and ROC. We're inclduing things that have already been bought and paid for in analysis.

2/23/2025 Citizen	Phone	Would rather shut down Fayette
2/23/2025 Citizen	Phone	Opposes closing QUE. Calls the proposal short sighted.
2/23/2025 Citizen	Phone	Never saw mold at ROC; worked there for several years. Why are they still hiring?
2/21/2025 Citizen	Phone	Hopes Gov will reconsider
2/21/2025 Citizen	Phone	Opposes closing QUE; worried abou local economy. Would affect nine families in her church.
2/24/2025 Citizen	Email	I'm writing this in opposition of the proposed closure of the Quehanna Boot Camp in Karthaus, PA. This facility is one of the very few economic drivers in this remote region of Pennsylvania and provides opportunity for local residents to earn a family sustaining income. Look at the location of the facility on a map and you'll see that it's located in a region that used to support its population through coal mining. As we all know, coal mining is now a thing of the past but few economic opportunities have replaced those jobs leaving the area residents to struggle. Closing this facility will bear new hardships on a population that still has not recovered from the loss of its main livelihood. I respectfully ask you to reconsider the plan to shutter the Quehanna Boot Camp and find a solution that maintains its presence in this region that so desperately needs it.

I stand with numerous formerly incarcerated people and family members in calling for the DOC to reconsider its proposal for which prisons to be closed, so that SCI Fayette is included. SCI Fayette was built on a hazardous coal ash waste dump. For years, it has been the source of numerous health issues stemming from chronic exposure to air and water pollution. The prison has become synonymous with the issue of environmental racism and 'toxic prisons' -- correctional facilities that deal with serious water and air contamination from nearby toxic sites. A prison sentence should not carry the risk of highly preventable health conditions. Do the right thing and stop this harm by closing SCI Fayette.

2/25/2025	Citizen	Email	I applaud the Governor's decision to close two prisons, and reinvest that money in our underfunded schools and public transit. I believe that the people and communities most affected by incarceration must have a say in which prisons are closed. Being sited on a hazardous coal ash waste dump, contaminated air, soil and water make SCI Fayette and nearby properties in fact unsafe for habitation and agriculture. Health issues afflict prisoners, staff, workers, correctional officers and townspeople. Numerous formerly incarcerated people and family members are calling for the DOC to reconsider its proposal on which prisons to close so that SCI Fayette is included. SCI Fayette has become synonymous with the issue of environmental racism and 'toxic prisons' -- correctional facilities that deal with serious water and air contamination from nearby toxic sites. A prison sentence should not carry the risk of highly preventable health conditions. Do the right thing and stop this harm by closing SCI Fayette.

2/25/2025	Citizen	Email	My name is [redacted] and I'm a Pennsylvania voter and environmental advocate. I am writing to urge the DOC and Gov. Shapiro to close SCI Fayette. My name is [redacted] and I'm a Pennsylvania voter, member of Akron Mennonite Church, and concerned citizen. I am writing to urge the DOC and Gov. Shapiro to close SCI Fayette.

I applaud the Governor's decision to close two prisons, and reinvest the money saved in our underfunded schools and public transit. I believe that the people and communities most affected by incarceration must have a say in which prisons are closed.

I stand with numerous formerly incarcerated people and family members in calling for the DOC to reconsider its proposal for which prisons to be closed, so that SCI Fayette is included. SCI Fayette was built on a hazardous coal ash waste dump. For years, it has been the source of numerous health issues stemming from chronic exposure to air and water pollution. The prison has become synonymous with the issue of environmental racism and 'toxic prisons' -- correctional facilities that deal with serious water and air contamination from nearby toxic sites. A prison sentence should not carry the risk of highly preventable health conditions.

I imagine that this toxic environment is dangerous to the health of DOC employees at Fayette as well as to those incarcerated there. Do the right thing and stop this harm by closing SCI Fayette.

2/26/2025	Citizen	Email

I support two prisons being closed down and urge you to make SCI-Fayette one of those prisons. Since it's opening, it has been known that SCI-Fayette was built on a toxic coal ash waste dump, which is highly hazardous for the health of people forced to live there. People in the prison, their loved ones, and organizers in solidarity have been fighting against these toxic conditions for over a decade with no movement to address the problem. And, of course, everyone who works at SCI-Fayette also "lives" with the toxicity of the prison.

			express my strong opposition to the proposed closure of the Quehanna Boot Camp. As a community member, concerned individual and DOC employee (QBC), I believe the closure of this facility would have significant negative impacts on both the individuals it serves and the broader community. Quehanna Boot Camp has long been an essential resource in providing rehabilitation, education, and vocational training for individuals within the justice system. The programs offered at the facility have helped many people reintegrate into society, reducing recidivism and promoting positive, long-term outcomes. The services provided at the Boot Camp would not be effectively achieved at any other location than the Boot Camp because of the closeness of the staff in the daily operation of the facility. No other SCI has every department working within the confides of the same building, allowing for the cohesiveness and cooperation needed to provide the highest level of security/treatment services. Closing the boot camp would deprive many individuals of the opportunity for personal growth, rehabilitation, and reintegration. Moreover, it would contribute to overcrowding in correctional facilities and place added strain on other resources that already struggle to meet the needs of the population. Secretary Harry mentioned the desire to increase the idea of the "Little Scandinavia" project in other SCI's, but the start-up costs were a major issue. Basically, the majority of things carried out at "Little Scandinavia" are already implemented at QBC. Over the past 10, 15 plus years, Quehanna has always taken on the

I believe that the people and communities most affected by incarceration must have a say in which prisons are closed. I stand with formerly incarcerated people and family members in calling for the DOC to reconsider its proposal for which prisons to be closed, so that SCI Fayette is included. SCI Fayette was built on a poisonous coal ash waste dump. For years, it has been the source of numerous health issues stemming from chronic exposure to air and water pollution. The prison has become synonymous with the issue of environmental racism and 'toxic prisons' -- correctional facilities that deal with serious water and air contamination from nearby toxic sites. A prison sentence should never come with an additional sentence of conditions that ruin health. Do the right thing and stop this harm by closing SCI Fayette.

2/26/2025	Citizen	Email	HOU as i was overwhelmed with the stressful environment on a day to day basis (although i was very grateful to have the wonderful ladies in my office). The boot camp is only 12 min from my house and allows me enough time in the morning to get my kids on my bus and my husband to be able to pick them up in afternoon. As soon as i started working there i could see the difference in how much of a safer environment and happy the inmates/staff were at the boot camp, vs a bigger jail. The work that the staff and inmates put into making this such an amazing facility clearly shows how dedicated they are and care for helping inmates become productive members of society when released. The problem i feel is that other SCI's are not making it a priority to send inmates to our facility. If more inmates were sent, our numbers would be higher and i honestly feel like we would never have been on the list of closures, as all the maintenance that was stated in proposal was already done just by looking at facility. As you already know we have the lowest recidivism rates in the state.As from what I read the DOC is planning on investing a lot more money into the JRI2 programs but many don't feel this would work well in bigger SCIs as their environment isn't like ours. Being in the country surrounded by woods, wildlife, and no fences make us unique and almost feels like they aren't in a jail and in their own community where they can breathe and focus on how to become better for themselves and others- which by seeing the little Scandinavia video is very similar to Quehanna Boot Camp. DOC Secretary Dr. Laurel Harry and several representatives seemed thrilled about that program and were

		My name is [redacted] and I'm a Pennsylvania voter, friend of an incarcerated person, and a retired registered nurse. I am writing to urge the Pennsylvania Dept of Corrections (DOC) and Gov. Shapiro to close SCI Fayette. After reading research by health officials and folks who have personal connections to the health and safety of correctional officers and incarcerated individuals I believe SCI Fayette must be one of the prisons to be closed. As you know, SCI Fayette was built on a hazardous coal ash waste dump. For years, it has been the source of numerous health issues stemming from chronic exposure to air and water pollution. SCI Fayette is nationally known as a “toxic prison”, one of our nation’s correctional facilities that deal with serious water and air contamination from nearby toxic sites. Please do the right thing and stop this harm by closing SCI Fayette.

			Corrections provides those committed to our care with programming, education, and mental health services. The Quehanna Boot Camp is a resource for the programming and education aspects of that mission that the DOC does not want to lose. When an SCI such as Rockview closes, the incarcerated population can be relocated and receive equivalent housing and programming. On the other hand, the boot camp at Quehanna is a unique facility with a unique mission not duplicated elsewhere in the state. Beyond that, both Governor Shapiro and Secretary Harry seem to support innovative approaches to criminal justice, including I believe, alternatives to traditional incarceration. Of course when this point is raised we tend to look to the Little Scandinavia unit at SCI Chester, a special project that I am happy to see the DOC continue to invest in. The Boot Camp, though an older model, is also an alternative to traditional incarceration and a unique path to re-entry. I realize that Quehanna probably provides an attractive option to the steering committee, as fewer staff might be affected by it's closure. However, unless there are serious systemic problems with the Boot Camp's staff, facility, or operations that I am not aware of, the decision to close it should be reconsidered, and I challenge us to find a way forward that meets our fiscal, personnel, and our philosophical goals as a leader in corrections.
2/27/2025	Employee	Email	

			department should close SCI Quehanna. The Quehanna Boot Camp has been on the closure list before, and for good reason. Studies have been done, showing boot camp programs are ineffective, nor do they improve recidivism rates. Quehanna has had inmates return to graduate the program multiple times, obviously it's not working. Most states have closed their boot camps due to this fact. For years, Quehanna has graduated inmates from the program who wouldn't follow the rules and were "recycled" back into other platoons multiple times, but were eventually graduated from the program, to keep graduation numbers up, in fear that the place would close, if graduation numbers got too low. The lack of a secure perimeter fence is a valid concern. In the past, inmates had people stash drugs on institution property for them to access. There have been successful escapes, and an inmate on a work crew had access to a handgun stashed on the property. The boot camp has currently downsized boot camp platoons from 5 to 2, because they can't get inmates to volunteer for the program, resulting in a population mostly comprised of State Drug Treatment Program (SDTP) inmates. The PA D.O.C. could easily expand the SDTP program at other locations and absorb the population of the boot camp, which is currently under 400 inmates with a staff of 230 employees. Highly inefficient!

			Boot Camp. This facility is a staple to our community and it would be detrimental to the local economy for it to close. I am a life-long resident of the area and have personally been affected by the decline in industry in the area. The boot camp is housed in the former Piper Aircraft building that closed in 1984. My father along with most of the people in our town were employed by Piper or the coal industry. The employees that were displaced when Piper closed were forced to find other employment in the surrounding areas, for many of them this meant traveling 40- 50 miles one way to get to work. All of the local communities suffered due to loss of tax revenue, traffic to local businesses and reduced income. The coal industry in our area is basically gone, so the boot camp is the only stable source of employment for this area. Programs that the boot camp had a few years back were a great asset to our local area. The work crews that they would send out would provide much needed assistance to churches, youth sports organizations and other groups that did not have the resources to maintain and improve their facilities. I believe in the past the boot camp had housed up to 600 non-violent inmates and now it is down to less than 100. There is no doubt in my mind that there are plenty of offenders in our system, currently housed in standard prisons that could be going through the boot camp program and getting a new lease on life through the treatment and work programs offered there.
2/28/2025	Citizen	Email	Closing the boot camp will basically turn the entire "Down River

I applaud the Governor's decision to close two prisons and reinvest that money in our underfunded schools and public transit. I believe that the people and communities most affected by incarceration must have a say in which prisons are closed.

I stand with numerous formerly incarcerated people and family members in calling for the DOC to reconsider its proposal for which prisons to be closed, so that SCI Fayette is included. SCI was built on a hazardous coal ash waste dump. For years, it has been the source of numerous health issues stemming from chronic exposure to air and water pollution. The prison has become synonymous with the issue of environmental racism and "toxic prisons"-correctional facilities that deal with serious water and air contamination from nearby toxic sites. A prison sentence should not carry the risk of highly preventable health conditions. Do the right thing and stop this harm by closing SCI Fayette.

Closing the boot camp and SCI Rockview would cause a great economic impact on Clearfield and Centre counties Not only from the loss of good paying jobs in the area but also for the local stores and hotels and restaurants in the area. This will be caused by a lack of inmate families coming to the area to visit their family members. This action will also affect the local tax base by the loss of taxes collect by the counties and townships collected through payroll deductions and possible real estate taxes due to people moving from the area for employment. please consider keeping these facilities open for the wellness of the local area and its economy.

2/28/2025	Citizen	Email	I firmly oppose the closing of Quehanna Boot Camp. I strongly oppose the closing of these 2 facilities! My family and friends that work there already travel a distance to get there without adding more miles.
3/1/2025	Citizen	Email	One good thing in our area being taken away. Quehanna Boot Camp open: 1. This Boot Camp offers a chance to young adult offenders by offering a program of discipline, drug and alcohol programs, education (GED) and a chance to reenter society with ongoing support and job placement, this gives young adults a worth while 2nd chance, and a foundation for a future of hope! *Not all adults are fortunate to have sound support systems, or nepotism 2. The boot camp location is great, and has a very low rate of escapes and problems. 3. Basic training type camp is an excellent team building activity, it pushes you to your limit, and gives you a sense of yourself, what you are able to accomplish, and improves self confidence, and it opens up many possibilities that some of these adults have not imagined. Anyone who has completed Military boot camp would understand the positives of this program, and its worth to help young adults as they progress into even more difficult times in their lives. (Not to mention that in the past Military was often used as an alternative to prison!) The fact that PA DOC has put this program in place is a big accomplishment for the DOC! 4. Quehanna Motivational Boot Camp has a lower rate of rearrest and reincarceration at the 3-year follow-up.

			floor, I was moved to reach out. I am an MAT Program Specialist (Social Worker2). I have only been at Quehanna about a month and a half, previously I worked at SCI Forest for about 9 months. I love my job, I believe in MAT with all of my heart and soul, and I think it impacts recidivism rated tremendously and has benefits that are difficult to quantify when we think about families, children, employers, communities etc. that are affected by substance abuse. I drove 140 miles a day, 2 and a half hours, for those 9 months. The commute cost was about $450-500 a month in gas. I was barely making it financially, but I love my job, despite the challenging setting. My rural community of Clearfield is depressed economically and there are very few family sustaining jobs, and for this single mom of two children with special needs this well paying job was a lifesaver. It took a long time to get transferred to Quehanna, but I knew this was where I wanted to be.....only to find out my 3rd week here....that we are on the chopping block. I keep reading in every news article and even your letter to us, that "EVERY single staff affected staff member will be offered a job". Does that include my partner and I? We've been told that it does not. With our region set to lose 900 jobs, how on earth will we have a shot at finding something that will support my family? How on earth will this area revive from an economic hit like this?? What about the HUGE economic impact on my little town and the surrounding area, with Rockview only 45 minutes away....this will be devastating to our communities.
3/4/2025	Contractor	Email	Please keep fighting. This facility is critical to reducing crime and going forward with positive outcomes. Doesn't success rate
3/4/2025	Citizen	Email	figure into decision-making into the new scheme?

		To whom it may concern: Regarding the potential closure of the quehanna boot camp, I can attest to the success of that program. After treating many of the staff members that work there, I have heard dozens of stories of successful reintroductions into society as direct result of the boot camp program. I firmly believe and request that it stays open! Do NOT close the boot camp. Far too many great and dedicated employees take pride in their job and in helping inmates rehabilitate.
3/4/2025 Citizen	Email	
		I am writing to voice my opposition to the closing of Quehanna Bootcamp. Our rural area needs the jobs desperately and recently we've already lost a significant amount of jobs and opportunities as one of our local universities closed plus our other university is on the chopping block as well. Quehanna bootcamp brings opportunities for jobs without needing a college education as well as helping to rehabilitate prisoners and help them reintegrate into society. If the bootcamp is low on prisoners then there should be more opportunities to recruit more prisoners into the program. Please reconsider closing this vital institution.
3/4/2025 Citizen	Email	
3/5/2025 Citizen	Email	[External] I think closure of Quehanna boot camp is a mistake!!! I agree with you that Quehanna Boot Camp and SCI Rockview are invaluable assets, not only to our community but to the entire commonwealth. Thanks for standing up and supporting these necessary facilities in our state.
3/5/2025 Citizen	Email	

3/5/2025	Former Inmate	Email	I am writing in regards to the closing of Quehanna Boot Camp. After being an inmate there, under the state drug treatment prorgam. I strongly am in opposition to the closing. The facility is well maintained and a very secure prison. If the staff can't keep the inmates secure in conditions, then nature will. Being in a remote area and located away from the general population, I find it the perfect location for a therapeutic education for inmates. The staff are well informed of all of the programs available to the inmates and pass the options on to make the inmates stay as helpful as possible. I plan on attending to meeting on the subject in April, and would like to explain to others how this facility is one of the best options for reforming people to return to society with a better understanding of what is expected of them in the future. If I need to make a reservation to speak, I will do so . I thank you again for your support in this and other matters of importance to your district.
3/5/2025	Citizen	Email	I very strongly oppose the closing or the Quehanna Boot Camp faculty. The number of dollar savings the DOC is publishing doesn't make any sense, in February of 2016 the DOC published a report stating the Quehanna Boot Camp was saving approximately 104.8 million dollars for the state. Closure would be a huge economic lose for the surrounding area.

3/5/2025	Citizen	Email	I am a resident of Grassflat in Clearfield County. I serve as the [redacted] in Karthaus, also Clearfield County. Shutting down the Quehanna Boot Camp is detrimental to the health and well-being of our communities. A shut down will: 1.remove much needed employment from our area that is already depressed economically. 2.cause closure of Benton's Market (the only grocery store & deli in Karthaus, Keewaydin, or Frenchville) since a significant portion of their year round customers are Boot Camp employees. 3.remove a much needed work crew from our communities--a privileged program of a small inmate work crew that goes off-site with a corrections officer. They have served our communities well for decades. These men strip and wax our church hall floor every summer, and do heavy yard work our members cannot do. Shepherd of the Hills has an agreement with them as part of their Emergency Plans. They have done heavy work for other churches as well. They do small construction jobs, like ramps and minor roof repairs, for older or disabled homeowners. They clear tree damage in the Karthaus park and have done work for other parks. And so much more. This work crew is always well managed, respectful, and hard working--no matter how hard, how gross, how hot or cold. And I believe the work crew is an important part of the rehabilitation program.

			I have absolutely no knowledge of the details of this facility. Initially, I was informed by the media that it was not cost effective to keep running this facility and pay for upkeep. If that's the case then it should be closed! Anytime something is downsized people start griping. I think the numbers and dollar signs should tell the truth. I hope the decision is made to do what's BEST FOR THE TAXPAYERS and not keep wasting money on a money pit just to soothe a few hundred employees. If it's not cost effective to keep it open, then close it. That's how a profitable business works.
3/5/2025	Citizen	Email	Hello, I am opposed to the closing of the Quehanna Boot Camp unless someone can prove to me why it should be closed. Thank you. Blessings, Julia Piper
3/5/2025	Citizen	Email	Closing of these fine institutions would be a hardship on the economy, our community and those who work in these places. Putting people out of work is not good and those who voted for the ones who want to close them down is not a good way to be in office. Hurting people has got to end. Where are you putting the criminals on the streets? Think with your hearts and not your wallets for once. I pray that this will change and for the good.
3/5/2025	Citizen	Email	These institutions are needed.

3/5/2025	Citizen	Email	When I heard the rumors, I did not believe they were true. Ultimately communities want prisons because of the job creation. You will probably end up reading much from the 635 employees of Rockview's families and friends. I quite honestly do not believe this should be a concern, considering the nature of the prison systems, it would be ideal for individuals to find employment elsewhere (in a perfect world, there would be no prisons). But of course, there is the sad reality of the benefits each prison might have for incarcerated individuals and what that means for those who could grow/build within their times served. My concern is with what would happen to these spaces after? I had interests in volunteering at Rockview to help teach but got shutdown when I called the general phone line, is there opportunity for the land/buildings to be reutilized into the community? This could create jobs and opportunity without the underutilized space and cost. I can imagine the closure is based on expenses for overall operations costs, looming infrastructure repairs, and lowered capacity. I have had community development project ideas that I had very tough luck getting traction, mainly due to my lack of land to conduct the work. I saw working with the prison systems as an opportunity to benefit the individuals while also increasing economic output. Having these facilities gone, I would like to propose a reuse project. Please respond if able to read and take these responses in, if the opportunity to discuss my ideas would present itself, I would gladly come to the table. I am a local Centre County veteran and student at Penn State. I want the best for my people and the community around us.

			I am writing to express my support for keeping Quehanna Boot Camp open. My time at Quehanna Boot Camp in 2014-2015 was nothing short of transformative. It was during this period that I obtained my GED, an achievement that marked the beginning of a new chapter in my life. The support and opportunities provided by the camp were instrumental in my journey of personal and professional growth. The dedicated staff, the structured environment, and the comprehensive programs offered at Quehanna Boot Camp played a crucial role in my rehabilitation and success. Quehanna Boot Camp is more than just a facility; it is a place of hope and second chances. It provides individuals with the tools and support they need to turn their lives around. Closing this facility would mean denying future residents the same opportunities that had such a positive impact on my life and the lives of many others. I implore you to consider the profound impact that Quehanna Boot Camp has on its residents and the potential consequences of its closure. Thank you for your time and attention.
3/6/2025	Former Inmate	Email	
3/6/2025	Elected Offical	Email	I am submitting the following letter on behalf of the Centre County Board of Commissioners. A physical copy of the letter has also been mailed to Secretary Dr. Harry. Please let me know if you have any questions or need additional information from us.
3/6/2025	Citizen	Email	Please close this prison and save Taxpayer dollars. Please make sure land reverts to DNCR and not PSU.

3/6/2025	Citizen	Email	Close it. Close it now. This prison looks like it was built 100 years ago. Even prisoners deserve better. Please get rid of waste in the government system at ALL levels.
3/6/2025	Citizen	Email	i AM WRITING TO OPPOSE THE CLOSING OF QUEHANNA BOOT CAMP AND ROCKVIEW PRISON.....
3/6/2025	Citizen	Email	i am apposed to closing rockview. it will be a devastating blow to the economy. this area is starving for any type of jobs and especially state jobs.
3/7/2025	Citizen	Phone	Close SCI Fayette
3/5/2025	Citizen	Phone	State college resident supports closing
3/5/2025	Citizen	Phone	Don't close the prisons; something about federal workers
3/5/2025	Citizen	Phone	54 year old son has been heroin addict for 30 years; Boot Camp Helped him. Has been clean for three years
3/4/2025	Citizen	Phone	Not a good idea to close QUE; businesses are already closing
3/7/2025	Citizen	Email	I support the closure of Rockview Prison in State College. It makes no sense to pour lots of money into an old building that does not serve the needs of the prisoners or the people who work there. I hope that the number of prisons can be drastically reduced, thus saving us money and finding more creative ways to rehabilitate criminals. People will find many productive uses for the land as well.

3/7/2025	Citizen	Email	My name is [redacted] and I'm a [Pennsylvania voter, member of the First Unitarian Church of Philadelphia, formerly incarcerated person or family member of an incarcerated person, health professional, environmental advocate, teacher, etc. – use whichever terms apply to you]. I am writing to urge the DOC and Gov. Shapiro to close SCI Fayette. I applaud the Governor's decision to close two prisons, and reinvest that money in our underfunded schools and public transit. I believe that the people and communities most affected by incarceration must have a say in which prisons are closed. And I believe that when the prisons are closed, they must be closed for good – they should NOT be reopened in any capacity. I stand with numerous formerly incarcerated people and family members in calling for the DOC to reconsider its proposal for which prisons to be closed, so that SCI Fayette is included. SCI Fayette was built on a hazardous coal ash waste dump. For years, it has been the source of numerous health issues stemming from chronic exposure to air and water pollution. The prison has become synonymous with the issue of environmental racism and 'toxic prisons' -- correctional facilities that deal with serious water and air contamination from nearby toxic sites. A prison sentence should not carry the risk of highly preventable health conditions. Do the right thing and stop this harm by closing SCI Fayette.

			I have been a proud resident of Covington Township, Clearfield County for 43 years. I am greatly opposed to the proposed closing of the Quehanna Boot Camp in Karthaus. My family members and friends support their families by employment at the Boot Camp. Our community depends on several boot camp employees to staff our local fire company and ambulance service. They provide quick response which is essential in our rural area. Please reevaluate current boot camp programs or expenditures and consider an alternate to the closure.
3/7/2025	Citizen	Email	
3/7/2025	Citizen	Email	I support closing the Boot camp.
			To Whom It May Concern, I am writing to express my strong opposition to the proposed closure of the Bootcamp in Quehanna. This facility plays a vital role in providing essential employment opportunities within an economically disadvantaged region. Additionally, it offers invaluable skills training that aids individuals in their successful reintegration into society, enhancing their employability and reducing recidivism. The program's multifaceted approach to rehabilitation has been effective due to the commitment and expertise of its dedicated staff. While I understand that budgetary constraints may necessitate difficult decisions, it is important to recognize the far-reaching consequences of this closure. The loss of jobs and the negative impact on the local community will create an added financial burden as displaced employees will need to be supported through alternative programs. Thank you for your consideration.
3/8/2025	Citizen	Email	

3/8/2025	Citizen	Email	I'm glad to hear that they're closing prisons consolidating the prisoners and saving the taxpayers money. Now if we could work on is not sentencing our fellow Pennsylvanians to serve the minimum on every sentence. Go on to work on the families in Pennsylvania Is it start by changing the loss regarding the minimums. I have a family member I care deeply about that's doing 20 to 40 years she has to do the minimum of 20 years before she's eligible for parole. This is archaic and should be addressed.

			Pennsylvania Department of Corrections' (DOC) recommendation to close Quehanna Boot Camp in Clearfield County and the State Correctional Institution (SCI) Rockview in Centre County. These proposed closures would have significant adverse effects on our local communities, economies, and the state's correctional system. Economic Impact The closure of these facilities would result in the loss of approximately 888 jobs—658 at SCI Rockview and 230 at Quehanna Boot Camp. These positions provide essential employment and contribute substantially to the local economies. Centre County Commissioners estimate that the closures could lead to a loss of more than $117 million in economic activity. Operational and Safety Concerns SCI Rockview, established in 1915, requires significant infrastructure investments, with an estimated $74 million needed over the next five years for necessary upgrades. However, closing SCI Rockview could lead to overcrowding in remaining facilities, potentially compromising inmate management and staff safety. The Pennsylvania State Corrections Officers Association has raised concerns that closing two prisons could endanger both officers and inmates. Community and Correctional Program Impact Quehanna Boot Camp serves as an alternative to traditional incarceration for lower-risk offenders, focusing on rehabilitation
3/9/2025	Elected Official	Email	Please close this awful place, there is nothing science based about this program. What a waste of tax dollars trying to punish away mental illness, SUD and trauma. In fact the trauma it causes only further promotes all of the above.
3/10/2025	Citizen	Email	

			I do not agree with this proposed closure. My husband has been through this program and it has made a world of difference. He was an alcoholic for years, wound up getting arrested many times and finally had to pay his dues. I would highly suggest you rethink the proposed foreclosure. It is a very good program and it does help people that are willing to do the work to become
3/11/2025	Citizen	Email	reformed.
3/10/2025	Citizen	Phone	Don't close QUE. too many kids are on drugs

			I ask that you take the following into consideration: 1.1.It is asked to have at least 1 full year for the facilities to close instead of 4 months. 1 year will give staff and families more time to make a successful transition and make the necessary moves and transfers; 4 months is not alot of time to uproot a family. This 1 year will give time to transfer the inmates safely and transfer them when it would make the best sense. 1 year gives time for the other institutions as well, that way the 5 institutions won't be significantly over staff compliment for an extended period of time. 1 year will give time to slowly transition inmates and staff to other institutions. 2. 3.2. The prison closures not only affect the staff and inmates and families, but the local economy and businesses as well. Rockview utilizes the local hospitals, specialty doctors in/around State College on a regular basis; with the prison closing those facilities will experience financial losses. Local restaurants, hotels, Greyhound public transportation will be negatively impacted as well. 3. If SCI-Rockview does close, how will the buildings be repurposed or utilized? We have a growing aging prison population. Inmates that need personal or nursing home level of care; it is extremely difficult to find them a nursing that will accept them. If part of Rockview can stay open, an idea could be to open another state operated nursing facility that accepts people from prison whether that's people on parole and sex offenders as well.
3/11/2025	Employee	Email	

			Why close a prison that has the best mental health department in all of Pennsylvania? Most of the "repairs" that are needed have already been paid for and a majority of them have been completed. The word going around is that Rockview has to be closed so the surrounding land can be sold off to PSU. 2000+ inmates are going to lose their homes and 600+ workers are going to be relocated. An out of the 600 workers that are going to have to be relocated some of them can't make the hour and a half drive to a new facility since seniority gets first choice. You're ruining the lives of the inmates who are human, and you're ruining the lives of every staff member that has to move or get a new job.
3/11/2025	Citizen	Email	The inmates and employees deserve better.

3/5/2025	Citizen	Letter	closure of SCI Quehanna Boot Camp. As a resident of Clearfield County, I am deeply concerned about the significant impact this decision would have on our community, and the individuals who benefit from the rehabilitative programs offered at this facility. SCI Quehanna has proven to be an essential part of Pennsylvania's corrections system. The boot camp provides a structured and disciplined environment that helps rehabilitate non-violent offenders and offers individuals a chance to successfully reenter society. Additionally, the State Drug Treatment Program at the facility plays a critical role in addressing substance abuse issues, which is particularly important given the ongoing opioid crisis in our state. Beyond its rehabilitative benefits, the facility also serves as a vital employer. The closure of SCI Quehanna would result in significant job losses, negatively impacting hundreds of families and local businesses that rely on the facility for economic stability. Removing such an important employer from our area would have long-term economic consequences for Clearfield County and surrounding communities. I would ask that you speak to some of the people who have gone through the "boot camp" experience and get their feedback on what the program meant to them. I believe you will hear that Quehanna is a life-saving program for low-level offenders who, if not for SCI Quehanna, would be in a maximum-security facility, which would cost taxpayers more money. In the long run, I believe keeping SCI Quehanna open would be the most economical thing to do for the inmates, employees, local businesses, schools, Clearfield County, and Pennsylvania.

			For many, it has been more than just a place of work. There have been bonds built in this facility, which leads to needed trust in a prison. It has also been a source of stability and pride. Closing this facility will cause a devastating ripple effect on our local business and families, along with the loss of livelihoods. You must acknowledge the deep mental and emotional toll that this closure will have on these men and women. Closing these facilities takes away from their confidence, routine, and their sense for belonging. For most, this facility is a sense of brotherhood, trust, and comfort which takes years to build. That loss can lead to feelings of uncertainty, fear, stress, isolation, anxiety, depression and even suicide. The suicide rate for those in Corrections are twice as high than the average citizens. That is something that is not talked about enough, though. Forcing the prison staff to transfer to other facilities will cause loss in family time due to added travel hours and possible shift change with the uncertainty of job assignment to whichever prison they are sent to. This will cause young children to spend more hours in a daycare, and children in after school events to look up and not have their parent or parents there for support. Rather than jumping to such extreme measures by closing Rockview, alternative options should be considered, such as potentially closing a housing unit. The main white building that Rockview is known for houses 800-900 inmates. Closing this building increases the facility's capacity percentage. This would also lead to significant savings on overtime costs. Currently, the two housing units in that building require 20 Officers and 4 sergeants between the 6-2 and 2-10 shifts, with an additional 6
3/12/2025	Citizen	Email	
3/13/2025	Organization	Email	Attached, please find a letter expressing YSRP's support of the closure of SCI Rockview.

3/14/2025	Citizen	Email	I am writing to express my deep concern regarding the recent recommendation by the Pennsylvania Department of Corrections to close the Quehanna Boot Camp in Clearfield County. This proposal has significant implications for our community, and I urge you to reconsider this decision. The Quehanna Boot Camp has been a cornerstone of our local economy, providing employment to approximately 234 staff members. These are not just jobs; they are livelihoods that support families and sustain our community's economic health. The potential loss of these positions would have a ripple effect, impacting local businesses and services that rely on the patronage of these employees. Moreover, the closure of Quehanna Boot Camp raises concerns about the safety and well-being of our communities. The facility currently houses about 348 inmates, many of whom are lower-risk individuals participating in rehabilitation programs. Transitioning these inmates without adequate planning could lead to overcrowding in other facilities, potentially reversing the progress made in reducing prison violence. The Pennsylvania State Corrections Officers Association has voiced concerns that closing such facilities could endanger both officers and inmates, a sentiment that warrants serious consideration. I also share the concerns of local legislators, such as State Representative Paul Takac, who expressed surprise and concern over the proposed closure. He highlighted the potential negative impacts on employees, their families, and the local economy, emphasizing the need for a thorough understanding of the consequences before proceeding.

			Camp The Officers and Board of Directors of the Clearfield Revitalization Corporation wish to express our support in keeping the Quehanna Boot Camp open. The Clearfield Revitalization Corporation is a 501C3 Main Street organization that exists to promote the revitalization and sustainability of downtown Clearfield Pennsylvania. Although not located in our town of Clearfield, PA, the closing of this facility will have a direct impact on employees in and around the Clearfield area. In addition, local businesses that provide services to the facility will also feel the direct impact of the facility closing. We are in full agreement with the statements made by Senator Wayne Langerholc Jr., Representative Dallas Kephart, and Representative Mike Armanini regarding the detrimental impact this closure would have on our community. As these elected officials have articulated, the Quehanna Boot Camp is not merely a correctional facility; it is a vital asset to our region. Senator Langerholc rightly points out that this decision is "shortsighted" and would "cripple our local economy." The boot camp provides stable, family-sustaining jobs that are essential to the well-being of Clearfield County residents. Representative Kephart's firsthand experience visiting the boot camp underscores its effectiveness in reducing recidivism rates. The recent investments made in the facility further highlight the counterintuitive nature of its proposed closure. To close such a successful program, especially after recent improvements, to compensate for increased state spending is simply unacceptable.
3/14/2025	Organization	Email	
3/12/2025	Citizen	Phone	Wants to talk to somebody about closing the boot camp and the effect it will have on the "brain/neurocognitive issues" of those there.

3/14/2025	Citizen	Email	My name is [redacted] and I'm a [redacted] n Allegheny County, and a voter who doorknocked and phone banked for Gov. Shapiro. I am writing to urge the DOC and Gov. Shapiro to close SCI Fayette. I understand you may have already designated two other prisons for closure and not SCI Fayette, but I implore you to reconsider that decision. I applaud the Governor's decision to close two prisons, and reinvest that money in our underfunded schools and public transit. I believe that the people and communities most affected by incarceration must have a say in which prisons are closed. I stand with numerous formerly incarcerated people and family members in calling for the DOC to reconsider its proposal for which prisons to be closed, so that SCI Fayette is included. SCI Fayette was built on a hazardous coal ash waste dump. For years, it has been the source of numerous health issues stemming from chronic exposure to air and water pollution. The prison has become synonymous with the issue of environmental racism and 'toxic prisons' -- correctional facilities that deal with serious water and air contamination from nearby toxic sites. A prison sentence should not carry the risk of highly preventable health conditions. These respiratory conditions, cancers, and other conditions end up costing taxpayers more, as people are developing new diseases they wouldn't otherwise, if SCI Fayette was not in operation. Do the right thing and stop this harm by closing SCI Fayette.

3/17/2025	Government Official	Letter	Rockview and Quehanna Boot Camp, both located within Pennsylvania's 15th Congressional District. While I fully appreciate the Depat1ment of Corrections' (Depat1ment) goal of efficiently utilizing resources, the potential for hatmful impacts upon staff, our community, and incarcerated individuals at both facilities remains troubling. Between the two facilities, there are nearly 900 dedicated correctional officers, administrative personnel, and suppo11 staff who have committed to maintaining safety and order. While it has been suggested these employees would be offered a new position within the Depat1ment of Corrections at their existing rate of pay and classification, many face disruptive relocations, which can have lasting impacts upon families and communities. As I have heard directly from constituents employed at both facilities, the addition of up to 65 miles each way for a daily commute would create significant financial and safety concerns, especially for those working mandated ovetiime hours. I remain concerned that without a comprehensive transition plan, these employees and their families are left with uncertainty, forcing many to reconsider their future with the Depatiment. A recent U.S. Depatiment of Justice Inspector General report found that, "understaffed prisons with overburdened employees create security and safety issues."111 This also holds hue within the Pennsylvania Depatiment of C01Tections. The closure of SCI Rockview and Quehanna Boot Camp will not reduce the number of incarcerated individuals; rather, it will simply transfer the

			that the Quehanna Boot Camp be kept open. We encourage you to not close the largest employer in Clearfield County with 234 employees. Clearfield County that is tied for 8th and 9th in for highest unemployment within Pennsylvania. In 2026 -2027 the Clearfield Campus of Commonwealth University, another large employer in Clearfield County will also be closing. The Big Lots store in Clearfield is in the process of closing, and recently it was announced that the Penn State Dubois campus is on the list under consideration for closing. Penn State Dubois has 39 academic positions with an untold number of maintenance, landscaping, and clerical positions that may be lost. The US Census shows a declining number of jobs locally, as well as a decreased population rate in 2020 from 80,000 to 77,000 in 2023 in Clearfield County. This trend is unsustainable and detrimental to our entire community. The Quehanna Boot Camp employees live in our communities and are our neighbors. They support our fire company through donations and attending events that we hold to keep our fire company financially viable. They also patronize local small businesses like Friday gas, Benton's Market, the Redwood Inn, Stiner's Garage, and other local establishments. The loss of these employees will negatively impact all local businesses by decreasing their income. Per US Census Quick Facts, the median household income in 2023 for Pennsylvania was $76,081, but the median household income for Clearfield County was $60,181. The average median income for Clearfield is a whopping 21% less that the statewide
3/18/2025	Local Organization	Letter	average. 22.6% of Clearfield County's population is over 65 years
3/18/2025	Citizen	Phone	Her son was at Quehanna Boot Camp and is a huge success story, so she's against closing it down. She's concerned about the effect it'll have on young people who would have gone there.
3/18/2025	Citizen	Phone	He simply called to say he's opposed to closing Rockview and QBC.

3/19/2025	Citizen	Email	My name is [redacted]. I'm from Pennsylvania and my whole family lives here in Pittsburgh. Please, Gov. Shapiro and DOC close SCI Fayette. I appreciate the Governor's decision to close two prisons, and reinvest that money in our underfunded schools and public transit. I believe that the people and communities most affected by incarceration and members of the concerned public need to have a say in which prisons are closed. I stand with formerly incarcerated people and family members who have been harmed and impacted by the environmental hazards at SCI Fayette. SCI Fayette was built on a hazardous coal ash waste dump. For years, it has been the source of numerous health issues stemming from chronic exposure to air and water pollution. The prison has become synonymous with the issue of environmental racism and 'toxic prisons' -- correctional facilities that deal with serious water and air contamination from nearby toxic sites. A prison sentence should not carry the risk of highly preventable health conditions. Do the right thing and stop this harm by closing SCI Fayette. I have attached an infographic I created for my environmental public health course during my masters of public health program.

			My idea is more for the support of the staff at the facilities that do close. I was working at SCI Retreat when it was closed. Some of the questions/worries that staff had were, what's is going to happen next, am I going to be accepted by the staff at my new facility, How am I going to be treated at my new facility, am I going to be able to adapt to the ways of my new facility, If I don't get my 1st choice how long will it be until I get to my 1st choice, and similar questions like those. My suggestion, if possible, is put a small committee together of staff who went through closures (Retreat, Pittsburgh, Cresson, Greensburg, etc.). The committee can visit the closing facilities so staff members have that opportunity to ask the questions about their worries of the unknown or future. We could also set up an email group or Teams group so questions could be asked. Basically giving the affected staff access to staff that have already been through what they are about to go through.
3/22/2025	Employee	Email	I have family and friends that work at both of these facilities . They already travel 35 miles to work as it is. I am AGAINST the closing of these facilities!
3/24/2025	Citizen Government Official	Email	see .pdf
3/25/2025	Citizen	Email	You're absolutely compromising the safety of staff by closing any of these institutions and pretending like you're not going to cram them into other jails that are under staffed to begin with. And let's also include the fact that you're uprooting thousands of people in either forcing them to change careers halfway to retirement or close to retirement and ruining their lives. All in the name of saving taxpayer money.
3/29/2025	Citizen	Email	I strongly oppose the closure of Quehanna Boot Camp. Quehanna Boot Camp plays a critical role in reducing recidivism, and its closure would negatively impact both the public safety and the economic prosperity of our communities

3/30/2025	Employee	Email	As a correctional officer for over 10 years of service with the PA Department of Corrections I am concerned for safety of our institutions and those that work and reside there. These proposed closures are very alarming to me. These closures will have a direct impact of those remaining institutions to absorb those inmates affected. With staffing shortages and adding more inmates to the population this is a very huge safety concern. It's should also be a concern for our vulnerable population as they will be an even more dangerous situations with crowded populations and lack of staffing. This is something that I ask you to consider before making any decisions.
4/2/2025	Citizen	Email	Do not Close

			would be offered positions with the same classification at one of five state correctional institutions located within 67 miles."
			Back in 2003 when they closed the Corning facility, those 1000+ employees were not offered the same job, same pay somewhere else like they are offering these correctional employees. No one cared. The commissioners didn't care. You didn't see any representatives help these employees either.
			I should feel sorry for these employees, but I don't! Sorry for your luck, if they close. You still have a job!!
			My spouse lost his job after 27 years at Corning. He felt lost. He did TAA retraining for two years, but eventually ended up at Corning NY, where he worked another 7 years, in not ideal living conditions, while we lived apart all that time. He retired from Corning at age 55 after 35 years of service and finally came back home. We've been married for 45 years, and fortunately, it didn't rip our marriage or family apart.
4/2/2025	Citizen	Email	"With this in mind, fundamentally corrections workers deserve more respect than the have their lives, for many their very life's work, upended by a budget proposal."

			express how beneficial the inmates at the Quehanna Boot Camp have been to the community and to Big Run Park. Over the past ten years, Quehanna Boot Camp has provided inmates to spring clean and help maintain the playground equipment so children in our community can enjoy their time outdoors. We greatly appreciated the numerous tasks that the inmates completed including replacing and staining the seats on the picnic table, trimming and thinning brush, and they painted the Merry-Go-Round seats. The Quehanna Boot Camp workers were instrumental in building the large sandbox and filling it with sand so the children in the community have a safe place for creative play. The Quehanna Boot Camp workers unselfishly gave their time and dedication to every project that was assigned to them. They were pleasant, polite, hardworking, and consistently demonstrated their concern and dedication to each project. In fact, the workers became so invested that they lost track of time and were ready to begin a new project when it was time to leave for the day. Words cannot express our gratitude for all the work and help the Quehanna Boot Camp workers have given Big Run Park over the years. The inmates helped maintain and improve the park, which provides adults and children the opportunity to enjoy nature and play in a safe, quiet environment. The inmates have also helped to provide a beautiful venue for reunions, birthday and graduation parties, and a place to visit with friends. We realize that you are considering closing the doors to the
4/2/2025	Citizen	Email	Quehanna Boot Camp. However, their inmates are an invaluable

			employees, but there are many of us in other positions with more traditional shifts who will also be affected by the proposed closures. I've thought long and hard about my choices and how the closures may impact my family. I hope you are considering all of the different individuals when thinking about closing this institution—the inmates, the COs, the nurses and medical staff, the education staff, the psychology staff, the social workers, the counselors, the drug and alcohol staff, the chaplains, the maintenance workers, management, and I'm sure I'm still missing some. I'm a mother of a four year old and a baby, and we hope to have at least one more. I just returned from maternity leave at the end of December—a maternity leave made possible by the new paid parental leave policy up to eight weeks and a pay rate that, for the first time in my life at 32 years old with a Master's degree, has allowed me to save money instead of living paycheck to paycheck. I was able to take some unpaid time to bond with the baby after the first month was largely spent recovering from an emergency c-section. My husband just got a new job with a gas company and often works on the road or unexpected overtime, but my position as a corrections education guidance counselor has allowed me at least to know when I'll be home from work. I live ten minutes from Rockview and my childcare is in my neighborhood, so I'm able to get to my kids quickly and maximize time with my family.
4/4/2025	Employee	Email	This brings me to the guarantee of a job offer within 67 miles. I am asking for the reconsideration in closing the Quehanna Bootcamp. The Bootcamp helps hundreds of people a year overcome the powers of addiction all while saving the DOC millions a year due to the quick turnover rate not to mention the recidivism rate is lower compared to a big prison that holes long term offenders.
4/5/2025	Citizen	Email	

4/4/2025 Citizen	Phone	Doesn't want to close federal prisons in PA
4/4/2025 Citizen	Email	I am in favor of closing BOTH Quehanna and Rockdale. This prisons are old and antiquated. Save our tax dollars. Thank you.
4/5/2025 Citizen	Email	When transferred will the inmates be subject to the parole hit that they would take and the demotions that they get from transferring?
4/5/2025 Citizen	Email	This email is a follow up to our phone call to Sen. Langerholc's and Rep. Dallas Kephart's offices last week. We are not able to attend the Boot Camp closure meeting this Thursday, April 10. We have signed the petition and hope to express ours feelings to you. First of all, we feel the closure would obviously have a negative effect on the local, depressed economy in the communities. Secondly, we personally would be affected because for many years the Boot Camp has come to our Church (Shepherd of the Hills Lutheran) annually with the Community Work Program to do service projects, laboring on the inside and outside of our of our Church building. They have landscaped and completed very heavy cleaning, tasks that our aging Congregation can no longer do. They have been most polite and efficient. We would hope that these service missions also help these young men learn skills that they might not have been acquainted with previously. We also feel that keeping these young men separate from the general prison population would encourage them to accept their punishment and reform their lives.

			Re: both of these facilities surely serve a vital purpose. Transform these facilities to other uses within DOC.
4/6/2025	Citizen	Email	Federal facilities for detainees etc Demonstrate good faith to these Counties and this region of PA.
			The Burnside Township Board of Supervisors is writing this letter in support of the Quehanna Boot Camp in Karthaus and SCI Rockview in Bellefonte. We are adamantly opposed to the closure of these facilities. The Quehanna Boot Camp is a perfect example of the ultimate goal of the Department of Corrections which is to reduce repeat offenders. The facility offers education, training and mental health services. These services reduce recidivism and Quehanna has the lowest recidivism rate in the Commonwealth. Quehanna produces the most GEDs in the state prison system with the percentage of GEDs at 30%. The programs at Quehanna prepare inmates for a successful reentry into society. The bottom line is the Quehanna Boot Camp works. With fewer prisons due to the closing of Quehanna Boot Camp and SCI Rockview, there will be a higher prisoner population in other prisons. Prison overcrowding causes increased chances of violence. As public officials, we ask that you reconsider the closure of these two facilities not just for our community but for the wellbeing of the entire Commonwealth of Pennsylvania.
4/7/2025	Government Official	Email	

			In regards to the proposed closure of Quehanna Boot Camp; please see attached 39 pages of signed petitions, as well as an online petition- https://chng.it/pRyRbZYw7r (with over 3,440 signatures), by our community to reconsider this closure and keep us open. Many people have come together and agree how detrimental this facility is to not only helping inmates in the recovery and reentry back into the communities, but also how the Quehanna staff go above and beyond in their jobs in helping the inmates and continued progress that makes us a truly unique facility that can't be compared to any other state facility. The closure of this facility will have such a negative impact on our county, and we all truly pray and hope that you will reconsider closing our facility, and allow us to stay open and continue to our mission to better Pennsylvania. Thank you for your time and consideration.

4/7/2025	Citizen	Phone	Close SCI Fayette
4/7/2025	Citizen	Phone	QUE and ROC should reamin open because it's a living for a lot of people and does a lot of good
4/7/2025	Citizen	Email	I have attached a letter addressed to Secretary Harry from our Toxic Prisons Campaign. We appreciate any time and consideration.

			closing of Quehanna Boot Camp. I have family and friends who would be deeply impacted by this closure, as well as the community. To my knowledge, there is not another facility that provides the same program as the boot camp does. A program that hands down has shown it has provided so many inmates with a second chance to be a viable part of the community. The boot camp is a smaller facility that has one of the greatest opportunities to provide more one on one and smaller groups of therapy to get to the core of inmates' problems and hopefully rehabilitate them, so they are not repeat offenders. The bootcamp is not easy. It's not meant to be easy. It is a privilege to be able to participate in the program. When an inmate graduates, there is a sense of pride and accomplishment that they may never have had before. Some earn their GED. They have vocational training to be able to gain employment, they deal with their substance abuse and mental health. The discipline they learn is vital for a successful future outside of their old life which lead them to prison. Drug abuse whether it is using or selling is out of control. I have had the unfortunate privilege of watching friends and family members struggle with abuse. I have heard my friends say they don't sleep at night for the fear of that phone call, their child OD'd. One father even told me that he slept better knowing his son was in prison, because at least he wasn't on the streets doing his drugs. This is what the program at the prison Quehanna Bootcamp is all about. A DAT's at QBC told me once, when your little and your asked
4/8/2025	Citizen	Email	what do you want to be when you grow up, no child ever said a
4/9/2025	Citizen	Email	I am opposed to the closure of these correctional facilities

			Quehanna Boot Camp. Saving taxpayer money is a good thing; finding a more efficient and economical solution is even better. So, at first glance, the closure of the Quehanna Boot Camp seems like a good idea – a more strategic use of limited State resources. However, this may not be so. The Quehanna Boot Camp offers unique opportunities for the rehabilitation of wayward youth who, for whatever reason, have chosen a path of crime. I imagine you are familiar with the scenario of days gone by where a Judge would offer a delinquent/troubled/wayward youth the option of going to jail or the military. The rational being that the discipline and rigor of basic training and a few years in the military would turn the youth's life around. Which, of course, is why the Quehanna Boot Camp has Boot Camp in its name. It was, and perhaps still is, built around this idea. You have access to far more data than I, so you can check to see if my following assumptions are supported by present and historical data. My guess is that the employee to inmate ratio at the Quehanna Boot Camp is, if not the highest, one of the highest of all Pennsylvania Correctional Facilities. Therefore, the inmates benefit from the best individual attention available for their rehabilitation. The inmates are housed in a facility that has no fence, with plenty of fresh air in an open forest setting – quite different from most of their developmental experience. As a result of these and other unique advantages provided by the
4/10/2025	Citizen	Email	Quehanna Boot Camp, I imagine the recidivism rate for inmates

4/10/2025	Citizen	Email	My name is [redacted] and I was a volunteer at the Quehanna Boot Camp from 2002 to 2009. I had the blessed opportunity to see lives of hopeless young men and women redeemed and transformed. I met many after their graduation and was approached and thanked while in the most surprising locations such as a Subway restaurant many miles from Quehanna. As I was a volunteer in many other facilities of the Department of Corrections, I know that I NEVER had a similar experience with inmates except Pine Grove penitentiary where I still have friends who finished their sentences there. But they were mature adults housed there as mentors to the youthful inmates. Please reconsider not closing Quehanna Boot camp which I consider the crowning jewel of all the Department of Corrections facilities.

		recidivism rate of those leaving the QBC was much lower than those released from the regular institutions. I did not work for the QBC but sent people there for programming. I can tell you that the rigorous program was not for those who had no plans to change their lives. It was a tough program, and the reward was great for them. I always believed in the program it taught discipline which is no longer part of the prison system. The prison system has given into the ways of the world and those who cry the loudest get what they want. They are no longer held accountable for their actions. Even the "good" inmates will tell you they don't understand why they are being good and doing what needs to be done and the ones who are not are being offered incentives to be good. With no reward to those who were doing what was expected makes them question why. If the boot camp were to close, I believe it could still benefit by providing a location for those who truly want to change. It could offer as a step down or 1/2-way type program. Although it is in a isolated location it could become a productive part of the area. Maybe continuing with vocational training and agriculture programs like growing produce. They could maybe offer a culinary option to the area for those who have taken that direction, or a building trades program for local contractors which could offer extra training, barber programming for those who completed programming or needing hours. There are lots of opportunities. We send most back to their unhealthy environments and expect them to change and while some do
4/11/2025 Citizen	Email	most revert back. Most 1/2-way houses are in the problem
4/11/2025 Citizen	Email	My name is [redacted] and I urge you to close SCI Fayette which was built on 50 million tons of coal ash. As a result, incarcerated individuals have severe illnesses and high cancer rates. A prison sentence should not be a death sentence.

		My name is [redacted] and I'm a PA voter and member of the First Unitarian Church of Philadelphia. I am writing to urge the DOC and Gov. Shapiro to close SCI Fayette. I applaud the Governor's decision to close two prisons, and reinvest that money in our underfunded schools and public transit. I believe that the people and communities most affected by incarceration must have a say in which prisons are closed. And I believe that when the prisons are closed, they must be closed for good – they should NOT be reopened in any capacity. I stand with numerous formerly incarcerated people and family members in calling for the DOC to reconsider its proposal for which prisons to be closed, so that SCI Fayette is included. SCI Fayette was built on a hazardous coal ash waste dump. For years, it has been the source of numerous health issues stemming from chronic exposure to air and water pollution. The prison has become synonymous with the issue of environmental racism and 'toxic prisons' -- correctional facilities that deal with serious water and air contamination from nearby toxic sites. A prison sentence should not carry the risk of highly preventable health conditions. Do the right thing and stop this harm by closing SCI Fayette.
4/11/2025 Citizen	Email	
		As an active voter, I urge you to close SCI Fayette, which sits on a toxic waste site. It is fatally unhealthy for both prisoners and
4/11/2025 Citizen	Email	staff.

			My name is [redacted] and I'm writing to urge the DOC and Gov. Shapiro to close SCI Fayette. I am glad the Governor will close two prisons, and I want to see that money reinvested in PA's underfunded schools, affordable housing, and public transit. When the prisons are closed as state prisons, they must be closed for good – people should not be confined there in any capacity. The DOC must include SCI Fayette as one of the prisons to be closed. SCI Fayette was built on 50 million tons of coal ash waste. For years, it has been the source of numerous health issues stemming from chronic exposure to air and water pollution. The prison has become synonymous with the issue of environmental racism and 'toxic prisons' -- correctional facilities that deal with serious water and air contamination from nearby toxic sites. A prison sentence should not carry the risk of highly preventable health conditions. Do the right thing and stop this harm by closing SCI Fayette.
4/11/2025	Citizen	Email	
4/11/2025	Citizen	Email	As a concerned citizen of Clearfield county I hope you consider the ramifications this will have to our county if the state closes this facility! I vote to keep the Boot Camp open!

4/12/2025 Citizen	Email	My husband and I are very much opposed to closing such a much-needed facility in our area. Our entire governmental body "needs" to work together and see the people, not buildings, not spreadsheets, not the tearing down of families whose livelihoods depend on their jobs. Are we not still a government of, by and for our people? Has our vision been so clouded by dollar signs that we no longer see struggling families? What must God think if it's truly come down to this. May God help us and knit our people tightly back together. Closing Rockview and Quehanna Boot Camp are simply not an answer, nor a wise decision. We voted people into office to do one thing; fight hard for your people. Thank you for reading this. We pray it falls into the right hands, not the trash bin.
4/13/2025 Citizen	Email	I urge you to close SCI Fayette which was built on 50 million tons of coal ash. As a result, incarcerated individuals have severe illnesses and high cancer rates. A prison sentence should not be a death sentence.
4/13/2025 Citizen	Phone	keep QBC open; replace people in office
4/13/2025 Citizen	Phone	Keep it open; they do a fantasitc job
4/13/2025 Citizen	Phone	Vital to keep QUE and ROC open; QUE does a good job with rehabilitation; Rockview has been there forever; employees need jobs; community isn't that big, would be a mistake to close

		The Quehanna Boot Camp has gotten away with so much corruption over the years. From the early days of staff members taking maintenance equipment and supplies home to work on personal projects, to talk about male CO's having personal relationships with female inmates. Don't believe the squeaky clean image Quehanna tries to project. The boot camp graduates inmates who shouldn't, just to keep their graduation numbers high. They have had Inmates come back to graduate the program multiple times. Quehanna inmates have had individuals stash drugs on institution property for them to access and use. An inmate had access to a handgun hidden by a visitor of another inmate at Quehanna. The institution has had multiple escapes. It's time to close it down! The DOC will realize cost savings, Boot camp staff eligible to retire will do so, many others will quit, rather than work in a big jail. The PA National Guard could use the the institution property.
4/14/2025	Citizen	Email	
4/14/2025	Citizen	Email	I’m writing as a concerned citizen. Please do right by our communities—keep these facilities OPEN! Our community can’t afford to lose the salaries and the programs associated with these facilities! These cuts aren’t just numbers they affect real families. Don’t be swayed to be a part of the massacring of our country.
4/15/2025	Elected Official	Email	Please see the attached letter from the Board of Supervisors of Graham Township opposing the closures of Quehanna Boot Camp in Clearfield County and Rockview Correctional Facility in Centre County.

			resident as well as the Mid-Atlantic Regional Director for Vote Solar, a national nonprofit that works to advance a clean energy transition that centers community needs. I applaud the Governor's decision to close two prisons, and to reinvest that money in our underfunded schools and public transit. I am writing to urge the Pennsylvania Department of Corrections and Gov. Shapiro to close SCI Fayette, a prison in western Pennsylvania that was built on a toxic coal ash waste dump, which is highly hazardous for the health of people forced to live there. A major motivator behind our work for a clean energy transition is the pollution and community suffering caused by our state's existing energy system. Coal ash waste is a prime example of this legacy, and we have an obligation to ensure that all communities are protected from these toxic conditions as we design a better energy system for the future. The communities most affected by incarceration must have a say in which prisons are closed. For years, SCI Fayette has been the source of numerous health issues stemming from chronic exposure to air and water pollution. Due to the community and environmental harms that SCI Fayette continues to perpetuate on both the surrounding community and the incarcerated people held there, I stand with
4/15/2025	Citizen	Email	numerous formerly incarcerated people and family members in

4/15/2025	Citizen	Email	I am writing to urge Governor Shapiro and the PA DOC to take this laudable effort to close two SCIs and use it as an opportunity to finally close SCI Fayette. I'm writing as a concerned citizen, ally of the Human Rights Coalition, and 6-year penpal to a man who is currently incarcerated at Fayette. This is the right time to close prisons. We know from decades of evidence that they do not keep communities healthy and safe in the long term and that resources should be reinvested in schools, transportation, health infrastructure, and more. As you take go about this path of closing prisons, I urge you to take the health of those who are incarcerated and the demands of people impacted by incarceration into account. SCI Fayette is built on toxic land. I have heard for years about the impact of the coal ash waste dump on the health of those who are incarcerated. You have the opportunity to stop the ongoing harm that this site inflicts on a population who was, in fact, not sentenced to die of preventable diseases. Please make use of this opportunity and close down this toxic prison once and for all.

4/15/2025	Citizen	Email

attended the public hearing on Tuesday April 15th and wanted to express my concerns for this proposed closure.

1: As it was mentioned Rockview has the largest infirmary in the state for inmates. They have numerous specialized programs for inmates. While these programs can be reassigned to any other facility, can you assure the same dedication that we see at Rockview. If inmates cannot be managed at a facility the next step is for them to go is a hospital. This I know to be true because I would in a hospital and have seen what happens when an inmate cannot be managed at a prison.

2: Relocation of staff. While I do appreciate the secured of a job my husband will have can you assure he will be there to watch our child grow up. We have already been through various shift changes to find one that works for our family and where my husband can be there to watch our daughter grow and where he can come home to us. Can you assure my husband's safety? No you can't. I will continue to assure my daughter her father is there for her but why does this money saving proposal have to cause my daughter her father?

3: Please let's not pretend that a release of inmates will not happen in our community. The majority of facilities in PA are already at capacity or close to it regardless of what you believe.

4: Are you not going to have to upgrade a facility in order to house additional inmates?

			of the communities speakers claimed that the staff (secretaries ect.) who showed up today to hear us out, were liars. That they are here because they have to be. Personally I don't believe that claim and I don't feel he speaks for all of us on his opinion. I feel the Secretary of State and deputies are human too. I believe government staff consists of human beings too. Calling them liars ect in my opinion was childish so I am writing to say I am sorry and that he does not speak for all of us. Maybe some of the numbers or information provided was not true but I don't believe it was intentionally provided to us to trick us. You guys have families. You understand or you wouldn't have provided us the opportunity to let us be heard. Anyways, this affects my family majorly. I feel this topic has not fully been brought up but another point is that it affects custody. Us who have to fight for custody or share custody with an ex, we can't expect our coparents to move also. We can't expect our family, our friends, our kids friends ect to move with us. However if that is something some will do, their families will move also which affects businesses. More custody battles equal more court costs. Another point I have, is due to our somewhat broken court system, if our court system improves then that means there will be an increase in inmates. For example the man who set fire to govt Shapiros home, he had major criminal history. If he had been convicted properly for beating women and children, the governor's home would have not experienced such a tragedy.
4/15/2025	Citizen	Email	

4/15/2025	Citizen	Email	I fully support the continued operation of the Quehanna Boot Camp. I have never had to send an email such as this before. I guess there is a first time for everything. I am writing in strong support of your fight to keep the Quehanna Boot Camp open. My reason is personal as my son is newly incarcerated with part of his plea being eligibility for the Boot camp in a year. My son was involved in a DUI with his friend 5 years ago.His friend was killed . My son the driver. My son has never ever been in trouble with the law before. My son for 5 years while the court system worked was a contributing member of society as an electrician. I guess I am naive . My thoughts are how many lives could be saved outside of prison walls talking about drinking and driving, wearing seat belts and a host of other things. I never had even heard of the boot camp. When I read about it - it states alternative to state prison for first time non violent offenders. My son fits that definition but is still in a prison cell. The law doesn't make sense to me. I want this Boot camp to stay open not only for my son but for countless other mother's who want it for their son. I hope you are able to convince outr state government to keep it open. I read about its success and while I don't profess to be well informed - I do feel closing it would be harmful instead of helpful. I will also email my Senator which is Senator Pittman and ask that he support you and your efforts. If there is anything I can do on my end do not hesitate to ask for my help. Thank you for your time. Carrie Walker

4/16/2025	Citizen	Email	I am writing to express my support for keeping this boot camp facility open. I do this for two reasons (1) My family lived in the area in the late 1950s. My father worked for Curtiss Wright in Quehanna. We lived in Pine Glen. My school friends came from Karthaus. It is one of the places where I grew up, and I know - close up and damn well - about the poverty and despair which is hidden in those remote areas, where coal once provided families with incomes, fulfillment and self-worth. (2) I know - intimately - the value of boot camps. My family experienced one, in the late 1990s, when our son needed that kind of therapeutic intervention. I am sure that the Quehanna experience is not much different than the one our son went through in the northwest mountains of Georgia. I urge Pennsylvania to find the funds to keep this facility going. Where else will the young people go, who need this kind of help? BOOT CAMPS WORK. BOOT CAMPS SAVE LIVES. SAVE THIS CAMP!

4/16/2025	Citizen	Email	My name is [redacted], I attended the listening meeting at Bald Eagle High School last evening with my daughter. Her husband is a corrections Officer employed by Rockview . While I have similar frustrations that were well expressed by families and employees last evening . I also have thoughts as to why this facility should not be closed. As I sat listening as you and your panel did, my eyes were opened to so many contradictions that had been sighted as reasons to close this facility. These contradictions need to be verified and not ignored. If the steering committee were this sloppy in fact checks please reconsider their recommendations to close Rockview as not only sloppy but irresponsible. The stress this proposal has caused anyone at the Rockview jail including the inmates themselves cannot be undone. When I heard the report from the prison safety officer and others concerning mental health issues among the inmates and how the reports of attempted suicide thoughts have increased, made me think “How” “Why” could anyone consider causing this much stress and fear in these people? The mom whose son has been incarcerated for many years? Did anyone hear her pleading? I pray that is so! The wives who are in fear for their husbands safety and how this decision will impact their lives ? The community? All I can say is that I cannot believe that there isn’t another way to resolve this without closing this facility. When I talk to other Pennsylvania residents local to me and friends and family across our state they all say there is so much

			approximately 18 years at SCI Rockview. While serving, I have seen several changes within the department, locally and statewide. I have seen prison closures and new facilities open and in the past they were never a good thing. When institutions close, staff and inmates are dispersed throughout the state which causes internal problems for the receiving institutions. Spikes in violence with the inmate population, spikes in workplace violence (EEO) complaints and an overall lowered morale as a whole. SCI Rockview has always been a foundation for the Department of Corrections and Centre County. When other agencies or institutions are in need, they looked at SCI Rockview for assistance. For example, the State College Police Department use to utilize SCI Rockview staff and facility in the event their holding cells would become full from State Pattie's Day. The Centre County Corrections Facility use to reach out to us to assist with unrulily inmates as well as other local county facilities. SCI Rockview has been operating for over 100 years and continues to operate as it should. Newer facilities, such as SCI Phoenix and SCI Benner Township cannot make the same statement as these facilities are only a few years old and are already showing significant signs of age and lack of integrity. I cannot speak enough about the integrity of SCI Rockview and the significance it has on not only Centre County, but the state itself. It is a landmark and has always changed with the times, overcome challenges, and adapted.
4/16/2025	Employee	Email	The general population of the SCI's is lower due to COVID. When COVID happened, a substantial amount of inmates were released

Quehanna Boot Camp. When I first heard the announcement that that there was a recommendation that QBC be closed, my heart sank. I was employed as a Drug and Alcohol Treatment Specialist (DATS) there for 14 years. I saw firsthand the changes that took place in inmates' lives. The inmates admitted to the program were sometimes ambivalent about treatment and changing their lives, which is not unusual when a person enters treatment. As they adjusted to the expectations of the program and saw the changes in others around them that they knew prior to QBC, they began to buy in.

Many had not been in treatment before- some had been in treatment but "faked it til they made it." As they began to learn coping skills and communication skills, they opened up to our DATS and began to share what their lives were like before and any obstacles they saw to living a clean and sober life. Some were held back due to problems in their behaviors, and although they were initially angered by it, they could later admit that they had not earned promotion. Before leaving the program, many inmates wrote that we would never fully understand the impact we had made on their lives. They often spoke of us believing in their ability to change when they could not believe in themselves. They now had a greater understanding of themselves and how to maintain their recovery.

We received cards and letters, as well as phone calls to let us know how well they were doing. One had formed a recovery group for women. Another started a painting business. Others went back to school. Still others reconnected with their children after long periods of estrangement. As I said in the recent

My name is the [redacted] and I urge you to close SCI Fayette which was built on 50 million tons of coal ash. As a result, incarcerated individuals have severe illnesses and high cancer rates. A prison sentence should not be a death sentence.

4/18/2025	Citizen	Email	My name is [redacted] and I urge you to close SCI Fayette which was built on 50 million tons of coal ash. As a result, incarcerated individuals have severe illnesses and high cancer rates. "A prison sentence should not be a death sentence." Therefore we strongly urge you to consider this dire matter. Thank you,
4/18/2025	Citizen	Email	My name is [redacted] and I am a PA resident with incarcerated loved ones. I urge the PA DOC to close SCI Fayette as soon as possible. SCI Fayette was built on 50 million tons of coal ash. As a result, incarcerated individuals have severe illnesses and high cancer rates. A prison sentence should not be a death sentence. Thank you for hearing the concerns of the community.
4/19/2025	Citizen	Email	As the wife of an employee who already has a 45 minute drive to Rockview from lycoming county, are you going guarantee him a job where he won't have to drive over 3 hours a day? Or are you going to take even more time away from him and make it so he will not be able to see his son that is due in the summer?

		work at Rockview) believe it is wrong to close these facilities. I hate to keep repeating what everyone else has been saying. But if there are so many of us that have the same info about some work being done at Rockview already, and how Rockview has many programs that these inmates need. All the employees work together here, and keep things calm. These employees know how these inmates are and what they need. The staff at Rockview are important to the inmates housed at Rockview. Like I said, these employees all work together and are in a work sense, family. These employees made a life for themselves after getting a job here. Bought houses, enrolled their kids in the school district, spouses got jobs. It would be a shame to take this all away from them, which would cause alot of problems in their lives. I understand places close and employees go to other places to work. But this is Rckview. A great group of employees. And it's Rockview, it's been here forever. I had grandparents that worked there back in the day. It would be a shame to see it go away. I'm sure there are other options to save money and not have to close these places. Sell the already empty prisons, put that money in the account to pay things. Why do we continue to keep these empty buildings and spend money on them? All the employees, citizens and representatives are against this happening. I pray you are all listening and reading these emails and you are understanding more from us, the taxpayers. Thank you for your time. Praying Rockview will stay open.
4/19/2025 Citizen	Email	
4/21/2025 Citizen	Phone	She volunteered for 40 years at ROC; Worked for Royalton Center and saw what happened when it was closed; buildings rotted; would hate to see that happen at ROC; Inmates told her they like ROC better, overcrowding is bad. Keep ROC open

4/21/2025	Citizen	Email	Please put your heart Quehanna. Keep them open and functional. Think of the community, the caring, motivated, and dedicated staff, and the inmates that experience incarceration in a unique environment.
4/22/2025	Employee	Email	I'll attempt to make this short as possible with repeated things left aside. i just feel the need to send along my thoughts and things i hear inside these gates on the daily. The repairs we know are complete bogus, but what many aren't thinking as well are some of their larger claimed repairs would still require to be done even if we close because SCI Benner runs off us. The staff here are very confused and shocked at the thoughtlessness of this even being proposed and HOW its being proposed. We were told from day 1 it would take 3 months for an answer and another 3 months to have Rockview cleared out and transfers to be completed. That's 3 months, while working, for me and fellow coworkers to decide what we're going to do, if we close. And 3 months is the max time. I could find out I'm going to SCI Muncy or SCI Houtzdale and only have a month or 2 to move myself and my family because that doesn't work for me where i currently reside. Either that or find a new job entirely that will pay enough to support me and my family as a single parent. That's insane, stressful, and scary to me, as well as others here. Along with that we have no details on anything. We've come together and created a list for all the CO1's and CO2's on our prison preferences to go to, if shut down. Seniority gets first pick. But we can't do anything with that list to try to find out where

		Correctional Institution (SCI) Rockview and its associated Boot Camp. The continued operation of these facilities presents significant economic, ethical, and logistical concerns that warrant immediate attention. Shifting toward more rehabilitative and cost-effective alternatives would not only benefit the state financially but also promote a more just and effective correctional system. Maintaining SCI Rockview and the Boot Camp incurs substantial costs to taxpayers. The facility requires ongoing funding for staffing, maintenance, and operations, which could be redirected toward more productive rehabilitative programs and community-based corrections. Numerous studies have demonstrated that alternative methods, such as electronic monitoring, restorative justice initiatives, and localized reentry programs, are more cost-efficient while yielding better long-term results in reducing recidivism. The operation of SCI Rockview raises concerns regarding inmate treatment and conditions. Reports of overcrowding, inadequate healthcare, and questionable disciplinary practices suggest that the facility is failing to meet basic human rights standards. The Boot Camp, while intended as an alternative correctional model, often employs punitive rather than rehabilitative measures, which can lead to negative psychological and social outcomes for participants. Pennsylvania and the nation as a whole are shifting toward policies focused on criminal justice reform. With decreasing prison populations due to changes in sentencing laws and

		housed safely and that people with severe, chronic diseases deserve health care. At SCI Fayette, the air and water are contaminated, causing disease, great discomfort, and deaths. If medical bills at Fayette are not significantly higher than the average medical bills for a prison that size, (such as SCI Rockview,) you will know that medically fragile patients at Fayette are being profoundly neglected. SCI Fayette should be PADOC's first pick for closure. The original decision to build this prison on an active coal ash dump site was cynical and cruel, perhaps a line item, based on a cheap real estate deal. Perhaps it was ignorance of science in general, or of the relationship between poisonous exposures and health, or perhaps there is no good excuse for it. Now there is the opportunity for our state to correct that terrible decision. There is no excuse for exposing the residents and correctional officers to carcinogenic fly ash. Plants can't grow on coal ash contaminated land, wild animals leave, and people at SCI Fayette in the nearby town of La Belle develop cancers and other diseases. This worksite safety and resident longevity issue should not be swept under the rug any further. Perhaps it may seem to you that it risks your position to be disloyal to the coal industry if you admit the health problems at Fayette. However, the word has been out about health
4/25/2025 Citizen	Email	consequences of coal ash exposure since at least 2011. To deny
		Please see attached; this will be the 3rd email/ 5th attachment of quehanna boot camps to reconsider proposed quehanna boot camp closure petitions for your records.
4/25/2025 Employee	Email	

4/29/2025	Citizen	Email	My name is [redacted] and I am writing on behalf of [redacted] Pennsylvania to urge the DOC and Gov. Shapiro to close SCI Fayette in place of Quehanna BootCamp. Not only is Quehanna Bootcamp a comparatively more disciplined prison that better prepares former inmates to transition home successfully. but the ash coal waste site that Fayette is built on causes health harm to both inmates and employees. Neither a person's job nor their prison sentence should carry the risk of preventable health conditions. We applaud the Governor's decision to close two prisons, and reinvest that money in our schools and public transit, which need funding desperately. We stand with numerous formerly incarcerated people and family members in calling for the DOC to reconsider its proposal for which prisons to be closed, so that SCI Fayette is included.

			Boot Camp. I see this issue with more than one reason NOT to close the BC. First, the employees that will need to relocate (If they can find a location) will lose their community which for many includes extended family for support. Much needed tax revenue for the school district they are currently in will be lost. If those families wanted to move they would have/could have already without your forcing them. Now you are looking to force some of them to go elsewhere. Your promise of a job 67 miles from the Boot Camp which may already be 40 miles from their home giving them a 100 mile commute. If you know anything about our winters a commute of that nature can mean simply not making it to work due to dangerous conditions. Plus we all know there are not enough openings in the closest prisons remaining open to take everyone. The BC has the best reputation for GED's earned by inmates and recidivism is much better for those that attended the BC. Much better than any other state facilities combined when talking of the GED's! In other facilities they don't have to get a GED nor do they have to learn a skill. I heard from others at the required meeting, the BC changed their life. Plus I understand from others that attended the BC and the letters you received from BC graduates also support that it changed their lives as well. Support you would not get from a regular prison facility. People that work at the BC care very much about the job they are doing with the inmates. I'm not saying other staff don't care but they
4/29/2025	Citizen	Email	

5/1/2025	Citizen	Email	With the proposed closing of 2 Department of Corrections (DOC) state correctional facilities where do the lives matter of ALL the front-line correctional staff (correctional officers, food service, maintenance, treatment, counselors, educators, medical, clergy, parole, clerks, contract employees, etc.)? Also, the lives of the inmates that are incarcerated in our correctional facilities. Every day in a correctional facility you wonder, is today the day something is going to kick off. Such as a fight, assault, stabbing, suicide attempt, fire, riot, or death(s). When you walk through the doors are you going to be safe, make it through your shift, and get to go home to your family? Every correctional staff member that walks through the doors of an institution puts their safety and lives at a high risk. Better said, their safety and lives are in the hands of the inmates that they are there to reform, protect and keep secure. Inmates are good at sensing fear and weakness in others including staff. They are constantly finding ways to manipulate staff, rules, and other inmates. Our institutions are not a lock 'em up in a cell. Our institutions are direct contact with staff and inmates, sharing the same spaces. Correctional Officers with a ratio of 1 to 50 at open bay housing units at Quehanna and 1 to approximately 100 in pods or standard blocks with cells at other institutions, as an officer, your protection and safety is yourself in these areas. If an incident arises, your safety or life relies on the response time of additional staff, or possibly a compassionate inmate(s). There isn't the option of increasing staff for their security, protection, or having their back in the units or pods, that's the ratio, and

			urge you to prioritize the closure of SCI Fayette. As a law student, a tax payer and a person who has several loved ones who have been incarcerated in the PADOC, I support the Governor's decision to close two prisons and reinvest that money in our underfunded schools and public transit. I believe that the counties most affected by incarceration deserve a say in which prisons in PA are closed. Stakeholders who reside outside of Centre County have been unable to attend the public hearings at SCI Rockview and the Quehanna Boot Camp. We would appreciate a virtual hearing for those stakeholders who wish to testify. I join with prison advocacy groups who are calling for the Department of Corrections to reconsider your committee's preliminary recommendations, and to choose SCI Fayette as your priority. SCI Fayette is the most toxic prison in our state because it was built on a coal ash dumpsite. It is surrounded by 40 million tons over nearly a square mile of carcinogenic coal ash which flies in the air, uncontained. Respiratory, gastro-intestinal, skin, cancers and other chronic diseases are rampant in the prison population and have affected some correctional officers. Environmental hazards at SCI Fayette also come from coal slurry ponds perched up on a slope next to the prison and from
5/1/2025	Citizen	Email	millions of tons of coal refuse that had been dumped on the land

			So they're already transferring programs from SCI Rockview to SCI Benner? Seems pretty obvious that they have already made up their mind. Even with all of the community outreach you're still doing whatever you want to do, not what is best. Did you even think about the lives this is going to ruin? Both inmates and staff? But hey if you can make a quick buck to sell all of the land to PSU you can pay people severance pay when they're not able to make the 1.5 hour trip each way to a different prison. Are the prisoners going to just take the closings like it's nothing? No, you're going to have the inmates making the place a dangerous place for other inmates and corrections officers. Thank you for wasting all of the time pretending to listen to the community when you have already made up your mind regardless of the opinions of the community.
5/1/2025	Citizen	Email	QUE is wrong because it takes young people and sticks them in the woods where there is no one to help them. She is in favor of closing QUE.
5/1/2025	Citizen	Phone	Keep QUE open because of high rate of GEDs; JRI2 is bad because it doesn't require a GED

5/2/2025	Citizen	Email	urge you to prioritize the closure of SCI Fayette. 5/5/2025 Citizen	Email	I am not from the communities where the prisons are closing, however, I am totally agreeable that the two prisons should be closed, period

5/5/2025	Employee	Email	closure of two of the most successful corrections facilities in the Commonwealth. As an employee of Rockview, I respectfully ask that you keep these institutions open for three reasons; community economic stability, work/life balance for current employees, and safety of staff and inmates. First, as you have been well informed by the CIBCC, these closures will impact the community by $118m annually. When the Corning Asahi and MuRata manufacturing plants closed, the county suffered a tremendous loss. Local families lost good incomes/benefits for lower paying jobs. Quite honestly, I don't believe the community has fully recovered from those companies shutting down. Secondly, being a former employee of MuRata and knowing people thar worked at both places, while having moved on, some have stated they are worse off now than they would have been should those factories remained opened. Their benefits were slashed as well as their earnings. Being a former employee of Penn State, their wages for tech and staff are peanuts. Only professors, VPs and Presidents make decent money. So, thinking that locals can get a job at Penn State, Amazon, or Walmart and remain in the same socioeconomic status is a false idea. DOC jobs are good, honest, paying jobs with good wages & benefits to provide to their families. Many of my co-workers have young children/grandchildren and being able to work their current shifts is how they are able to spend what little time we can spend with our families. We are a 24/7/365 operation, with most of us working weekends and holidays. If we are to move to a different institution, we will lose the shifts that we have worked

5/6/2025	Citizen	Email	As a 20 year Philadelphian - and teacher of urban youth the entire time. I 100% guarantee that the last thing this city or it's underserved youth need more prisons. Use the money on something that benefits the children of innercity Philadelphia through positive programming, nutrition, afterschool events, homework support, etc. If you REALLY have no clue as to how to better their live, please reach out for free consultation. Not only do I have extensive teaching and tutoring experience (including highly wealthy homes in the burbs), but my educational background is research-based social science (Psychology BS from U-Michigan and Human Development & Family Studies Masters from U-Wisconsin). Again, I highly urge you to understand that the most vulnerable people in our city would be done great harm by keeping this monstrocity open. Please invest in their positive future, not the bleak one you create by funding such terrible practices like those at SCI Fayette.

5/9/2025 Citizen	Phone	Upset at commissary prices

5/9/2025	Citizen	Phone	Thinks it's a sweetheart deal to give Penn State land; Rocview should farm again; prisoners are having mental health problems about moving; will devestate local economies; it's a historical site; This is a raw deal; not good for PA or Centre County; all the space in the prison is being utilized in a good way; prisoners don't want to leave; families will have to travel too far to get to the new prison; ROC is well run
5/17/2025	Citizen	Email	As a citizen and mental health practitioner in PA, I urge you to prioritize the closure of SCI Fayette. The Governor's decision to close two state prisons and use the money for schools and public transit investment is the right. one. I urge you to reconsider your committees preliminary recommendations and choose SCI Fayette as your priority. SCI Fayette is considered the most toxic prison in our state. Environmental conditions are so severe that they can only be remedied by a Superfund level.
5/19/2025	Citizen	Email	Hello. I'm a spouse of a Rockview employee and with it looking likely that the prison is going to close, if it does I have a major favor to ask. I know you can't help everyone and I know it's a lot to ask a favor when I am no one to any of the staff involved in the matter, but I really hope you'll consider. One of our struggles is I have shared custody with an ex and we can't move out of the county per court order. I'm also locked in to a 1 year lease and we can't afford a pay cut by moving to another job. Which leads to my question. Is there any possible way to get aid/guarantee to possibly transfer to another state job at the same pay he's at now? Like police work or DCNR? Any way you guys can assist in this? We worked so hard to get where we are now. I don't want to lose my home, my car, ect. Let me know if there's anything you guys can do.
5/19/2025	Citizen	Phone	Family members have jobs at Boot Camp; closure will hurt the economy. Folks don't want to travel more and she doesn't blame them. Boot Camp doesn't have hard core criminals, so are you just going to let them go?

5/22/2025	Citizen	Email	I went to boot camp and with 8 yr clean time street now. that place made me who i am today as a man. i feel very sad that we want to close a facility that helps and teaches men and women how to function with out drugs. And become a productive member in their community.. when i went in that place i had no high school education i left with my GED and many other certifications. All the staff is hands on and will spend however much time as needed to they help you become the person you was built to be...QBC RECOVERY...Begins with one sober hour.Personal growth is not a journey of a thousand days or the journey of a lifetime its a journey of one day at a time..
5/30/2025	Citizen	Email	The ongoing moving of the goal post has been continued to cause anxiety to inmates, corrections staff, and their families. We are hoping to be given the final report, decision, and plan to move forward as soon possible.
6/4/2025	Citizen	Phone	Don't close QUE or ROC; nowhere for people to go. Every prison is too overcroweded. too many people get hurt, including corrections officers
6/9/2025	Employee	Email	Hello, As it is highlighted below, we are to have open and transparent communication from the DOC regarding the proposals for closure. During the hearing, we were told the earliest would be the week of May 12th, then it was the end of May, now there is no determined time. We had to learn about the undetermined time from a news article, when it should have been the DOC that we heard from directly. We just want to have that open communication about where things are at. All of the employees, we have been putting our lives on hold and have had to make hard decisions and choices without having any sort of clarity or direction from the DOC. We are looking forward to a decision, so that we can either transfer, figure out transportation and child care our families, etc...Proposed Facility Closure FAQs How will I be kept informed? Our employees are our first priority as we begin to evaluate the proposed closure. Department Leadership aims to be sensitive to the dignity and respect that is due to each of you as public servants. We endeavor to maintain transparent, open, and straightforward communications with you, as permitted under the Public Safety Facilities Act.

Attachment B

Date	Inquiry Type	Method	Question/Concern
6/16/2025	Citizen	Email	I have not heard any news on the closing of Rckview prison. I pray and hope everyday that you are finding other ways to save money so that all these employees and their families can continue on with their lives and nothave to disrupt them. And also the inmates can stay at the only home they really ever had for some. All these employees are like family at Rockview. They all work together to get things done and keep peace in the facility. Please don't put tge employees at risk at another facility and where they will lose all thst they've worked for at Rockview. That place is a place we all think of when we hear centre county. Thank you
8/12/2025	Employee	Email	Hello, It is 3 months past the time that we were to be notified regarding the decision of Rockview and Quehanna Boot Camp. There has been zero communication and transparency. It has been 6 months since we found out that we were potentially closing. 6 months of stress, frustration, anxiety. At this point, we know we are closing, we need to hear the final decision. This delay is not only affecting Rockview and QUE employees, family and inmates; this is impacting the other institutions as well. There is still a hiring freeze, staff are transferring, retiring or leaving for other reasons from all institutions and the facilities are not able to hire. We CANNOT properly do our jobs of custody, care, control if we don't have the employees. People are going to continue to find jobs elsewhere because of the complete lack of communication and consideration that this DOC administration has. Employees and families have children in school, need to consider moving, leases, transportation. WE NEED AN ANSWER!!!!!! DO BETTER!!

Attachment C

Inmate Number	Facility	For or Against Closure	Summary
[redacted]	ROC	Against	Has been at facility for 30 years. Expressed concerns about losing support system of dedicated staff which will impact his ability to recieve commutation, having his shoulder surgery postponed even longer, being further from family support, and not recieveing adequate mental health treatment at another facility.
	ROC	Against	Staff at facility do their job well and hold other staff accountable. The best employees he has seen at any facility in 41+ years of incarceration. The Facilities are in good working order, safe, and there is plenty of handicap accessibility around the campus. The administration has already put a lot of effort and money into projects to make the facility better. Employees will have to uproot their lives and relocate. The PA Prison Society lies about living conditions being poor at ROC.
	ROC	Against	Has been at facility for 20 years. His time at ROC has been therapeutic and good for his mental health. Praises the psych staff that has helped him. Expresses enjoyment of participating in the dog program. Fears that inmates who are transferred will experience violence at other facilities.
	ROC	Against	Has been at facility since 2009. Rockview is his "home". Works in CI-Woodshop which is his only source of income as he does not recieve outside funds. Has health issues related to COPD and asthma, as well as seizures. Has a good relationship with staff who respect him. Worries the closure will place unecessary stress on himself and others.
	ROC	Against	Inmate has has past issues with inmates related to gang violence. He is concerned for his personal safety if the prison were to close and he be required to transfer. He would like separations from SCI Phoenix and SCI Frackville if the facility does close to stay away from known gang threats.
	ROC	For	Critical of the sex offender programming and assistance provided by staff at the facility. He claims the staff forces inmates to admit guilt even if they believe they are innocent. They allow the wrong individuals to be considered for parole in order to manage overcrowding. Staff abuses their power. Details an act of violence committed against him by another inmate that was not properly addressed.
	ROC	Against	Claims the only light he has in his life is what he recieves from the mental health community and programming at SCI Rockview. This has been his home for 15+ years and the staff are familiar with his needs. Trying to start over at another facility would be detrimental to his mental well-being.
	ROC	For	The conditions at SCI Rockview are dangerous and unsuitable to live in. There is mold growing everywhere, heating is unstable and dangerous, there is broken glass and asbestos. The facility constantly fails inspections. Staff are racist and there is no diversity amongst employees. They severely limit out of cell time throughout the day. Food is poor.
	ROC	For	Claims it is a waste of taxpayer money to keep the facility open due to the extensive maintenance and construction project costs. These funds could be used in a better manner.
	ROC	For	The facility is falling apart. Living quarters have cockroaches, birds, rodents, rust, mold, etc. The sitution is unsafe to live in. Employees will have other facilities to work at.

[redacted]	QUE	Against	SDTP is a good program that has afforded him more personalized treatment, better health care, and safety. Being in an environment with individuals who are working to better themselves is condusive to rehabilitation. The staff at the facility are helpful and care. Has safety concerns about being moved elsewhere.
	ROC	For	There are birds flying around inside the prison. Cells are falling apart with toilet and sink issues. The roof needs repaired. Medical staff are rude to inmates. He has to go outside in the cold and elements for med line. The conditions of the facility are inhumane.
	ROC	For	Ackowledges that Rockview is in a state of disrepair but claims the main reason it should be closed is because of the abuse that is perpetrated by staff at the facility.
	ROC	For	The facility is a safety hazard. The heating and a/c units do not work. It is very dirty and there are significant plumbing issues as well. The staff is direspectful and does not follow DOC policy.
	ROC	Against	Doesn't make sense to close if we still have to maintain the facility afterwards. He has mental health challenges and is concerned that he will not recieve adequate treatment at another facility. He is concerned he will not be transferred to a SNU.
	QUE	Against	The boot camp program is one of the best opportunities he has had in his life. The staff at the facility treat inmates like people.
	ROC	Against	Inmate is comfortable and feels safe at Rockview because there are no gangs and a lot of older gentlemen incarcerated there. While the facility does need some repairs, the culture is better here than at other prisons.
	QUE	Against	The staff at the facility are dedicated to their work and have helped him tremendously. The programs there provide structure, discipline, and stability to his life.
	QUE	Against	She believes that the Boot Camp Program saved her life. The staff at the facility truly care and provide stability to her life when things get rocky.
	ROC	Against	Agrees that the facility is in need of upgrades but he claims that inmates could help to make these repairs. They have put a lot of money into Rockview over the past few years; it does not make sense to waste that by closing the facility.
	ROC	For	The prison is old and has many issues that need fixed including the roof that leaks when it rains. There are birds and roaches everywhere. The living conditions are unsafe and unsanitary.
	ROC	Against	Inmate is located in SNU and has serious mental health issues. He is afraid the closure will bring instability to his life and will set him back with programming. SCI Rockview is a historic landmark.
	ROC	Against	The facility does have flaws and needs some work but he has been incarcerated at Rockview since 2013 and the programs, activities, and services offered there are great. The staff is committed to helping inmates and preparing them for reentry. There is limited violence at Rockview. Closure will cause increased stress and anxiety for inmates, overcrowding at other facilities, and increased violence.
	ROC	Against	Inmate has been on SNU for 4 years. Has a variety of mental health issues and worries this would not be recognized/addressed at other facilities. He also worries that moving facilities will disconnect him from his family support.

[redacted]	ROC	Against	Rockview has helped him become a better person. The work programs have provided him hands on experience and skills. He also speaks highly of the dog program and how it has helped his mental health.
	ROC	For	Compares SCI Rockview to a concentration camp. The treatment that inmates recieve at the prison is cruel and unusual punishment. Medical care is inadequate and the living conditions are unsafe and unsanitary. His grievances go unaddressed by staff. He has been struggling with suicidal thoughts and wants to sit down with someone at Central Office to dicuss the issues he is having.
	ROC	Against	Rockview has been home to some inmates for 30-40 years. There has already been a lot of money put into reparing the facility. Inmates rely on medical care here that they may not recieve at other jails. Closure will increase violence in the DOC.
	ROC	For	The facility is not ADA compliant. Conditions are unsafe to live in due to leaks, unsanitary conditions, lack of ventilation, etc.
	ROC	For	Unsanitary conditions and unsafe living envionment due to asbestos, mold, insects, and rodents. The heating system is unreliable and dangerous due to age and a lack of proper ventilation. There is no diversity amongst staff and clear racism displayed. Staff also are wasting taxpayer dollars by refusing to do away with Covid lockdown restrictions.
	ROC	Against	Does not want to move facilities due to his current employment and programming.
	ROC	Against	Rockview provides programming and care for inmates with mental health challenges. Programs are superior to other facilities. The facility has a beautiful chapel and many opportunities to practice and learn religion. The location and layout of the facility is soothing.
	QUE	Against	The programs offered at Quehanna change people for the better.
	QUE	Against	The facility and SDTP program are really helpful. The facility does not have a prison atmosphere which helps recovery. The staff care about their jobs and closing this place could hurt the community.
	ROC	For	Rockview is not handicap accessible. It gets very hot in the summer with a lack of air conditioning. The conditions are unsanitary and the infrastructure is falling apart. There is a poor culture at the facility and staff do not care.
	ROC	Against	Provided suggestions on how the department can better spend money on facility repaiors to keep Rockview open.
	ROC	Against	Rockview has changed his life for the better because of the specialized programs that are offered. He fears that if the facility closes it will be a setback for him and other inmates that struggle with their mental health.
	ROC	Against	He has finally settled into his living situation at Rockview after being there for two years. The facility has had a positive impact on his mental health and rehabilitation.
	ROC	Against	Experience at the institution has been positive and he has been able to grow as a person through the programs offered, specifically the education and vocational programs. These things have benefitted his mental health.
	ROC	For	Discusses his mental health struggles and claims that the staff at Rockview do not take his issues seriously.
	ROC	Against	Administration and staff are respectful and willing to help. He is on the waitlist for some programs currently. He has some firends at the prison that he helps translate for.

Attachment C

[redacted]	ROC	For	Expresses issues with staff at the facility.
	ROC	Against	While he ackowledges that some repairs are needed, he argues that the facility is handicap friendly. The facility has already done significant upgrades. The state should look at closing other facilities. He feels the closure is greedy as Rockview looks to sell off the land to private companies.
	ROC	Against	The culture is positive and rehabilitating. Rockview is a safe environment with countless volunteers that are there to help inmates. Closing the facility would also create more violence as you would be transferring sex offenders who feel safe here.
	QUE	Against	Programs have really helped her during her time in prison. The facility does not feel like prison which has helped her mental health.
	ROC	For	Unprofessional culture of staff at the facility. He has witness both physical and sexual assault at the prison and the staff allows inmate to basically do whatever they want which creates a dangerous environment.
	ROC	Against	Most inmate do not want the facility to close. Closing Rockview will cause overcrowding which will cause more violence. To improve the facility, they need to hire better staff.
	ROC	Against	The facility has a lot of positive programs to offer.
	ROC	Against	Claims that due process is not being followed (Alledged Act 133 Violations) with the announcements of these proposed closures. This is giving him a lot of stress and anxiety. He would like to be compensated $198,000 if the prison is closed.
	ROC	Against	Claims that due process is not being followed (Alledged Act 133 Violations) with the announcements of these proposed closures. This is giving him a lot of stress and anxiety. He would like to be compensated $178,000 if the prison is closed.

P R O C E E D I N G S

PASTOR GERHART: Well, good evening, everyone and welcome to tonight's Department of Corrections Act 133 listening session regarding the Quehanna Boot Camp.

My name is Pastor Joe Gerhart, and I am blessed to be the Pastor here at Community Alliance Church. And I want to welcome you on the church's behalf, as well as the DOC.

I will be moderating tonight's event. And before we begin, I ask for a special privilege on behalf of the church to open up tonight with a word of prayer.

So let us pray. Gracious and merciful Lord, we thank you for this evening. We thank you for this space where we can gather together as a community. As we gather this evening, we ask for your favor over our time together, for your will to be done here in our community. And we ask for our ears to be open, to be able to listen to one another well. Lord, may truth be spoken. And may your truth reign in this place and in our hearts. Guide our time together. And may we be able to head back home safely to those that we love

and those who love us. I pray this in Jesus's mighty name. Amen.

ALL RESPOND AMEN

PASTOR GERHART: Some housekeeping items regarding tonight's meeting.

First, tonight's meeting is audio and videorecorded and will be transcribed. Throughout the church we have volunteers wearing yellow lanyards. If you have any questions or concerns, please reach out to one of those volunteers and they should at least be able to direct you to how we can best help you.

There are three restrooms available in the facilities. One is located down this hallway. The second in the building is back in our large overflow room. Those restrooms have changing tables in them, if needed. And then there are restrooms out in the parking lot as well.

While there will be no formal break, please feel free to step out as needed. We begin tonight's meeting with opening remarks from the Department of Corrections, followed by our invited speakers, including elected officials, union representatives and Deputy Superintendent of the boot camp, before opening the floor for public

comment.

We'll go over these guidelines in more detail later, but so you can begin thinking about public comment time, our goal is to be most respectful of everyone's time, while ensuring everyone's voice is heard. So please keep your comments to two minutes.

When the public comments portion of our meeting begins, we're going to ask you to form a line over here on this side of the sanctuary. My beautiful wife, Amy, will be taking down your names. She is raising her hand. And you will have to sign up on the sheet as well as sign the sheet. And you'll be waiting in line until you are prompted to come to the podium to speak.

If you reach the two minute mark, you will receive a signal that your time is running low. And if you go well over two minutes, your microphone will be turned off.

After public comment concludes, Dr. Harry, Secretary Harry, will deliver her closing remarks. And with that, I'm going to turn it over to her and her team from the Department of Corrections.

SECRETARY HARRY: Thank you. Good

evening, everyone.

We are here tonight to hold a public hearing regarding the proposed closure of the Quehanna Motivational Boot Camp in accordance with Act 133, the Public Safety Facilities Act. As mentioned, I'm Secretary Harry and I'm joined here by Deputy Secretary Oppman, who is the Deputy Secretary of Administration, and Mike Wenerowicz, the Executive Deputy Secretary for Institutional Operations.

I first just want to thank all of you, truly, for being here tonight and taking part in today's public hearing. I would like to especially recognize Senator Langerholc, Representatives Kephart and Representative Takac and Representative Armanini for their attendance, as well as staff from Congressman Thompson's Office as well.

And a special thanks to the Karthaus Community Alliance Church and Pastor Joe Gerhart for graciously hosting this evening. They have just been nothing but hospitable for us this evening. We're so grateful for them to open up their doors for this event.

I do want to share that I have

personally been through a closure and so have two of my executive staff members. And we understand the impact that a closure has on our staff and on the community. So please know that we do not take this lightly. And that's why we're here today, because we truly do want to hear your input.

And tonight is about you, and it's about your input. And we will keep our comments brief, because we want our invited stakeholders as well to be respectful of their allotted time so that we may prioritize listening to all of you.

With that being said, this is a listening session and not a question and answer. However, we will be making notes of your questions and concerns, and then we can address those in our final written report or any other appropriate forum after this hearing. All feedback will be analyzed after tonight's hearing and any final decisions - prior to any final decisions being made.

I do want to emphasize, as Pastor Joe mentioned, that when we do open it up for public comment, that everyone please limit your comments to two minutes, just so we can ensure that everyone who wants to speak tonight has an opportunity to do so.

I also want to emphasize first and

foremost that the proposed closures are in absolutely no way a reflection on our staff or the quality of their work. We are blessed in the Pennsylvania Department of Corrections to have very excellent, seasoned staff in all of our facilities, to include Rockview and Quehanna, which is something we are very fortunate to have.

But unfortunately, that is also what makes decisions like this very difficult. We have been listening very carefully to all of the stakeholder feedback, as it comes in, and I want to briefly just address a couple of the key concerns that we've been hearing.

The first, with regard to prison capacity and prison crowding. Even if the two proposed facilities would close, male facilities would still operate at under 90 percent capacity and female facilities at under 80 percent capacity. The roughly 2,500 male inmates currently at those two facilities would be spread out among the Department's remaining 20 male prisons. And then the approximately 50 female inmates could be absorbed at the two institutions that house our females.

As you know, if Quehanna - if

Quehanna closed, we are guaranteeing jobs for every employee, all impacted employees. Also, the boot camp and State Drug Treatment Program, commonly referred to as SDTP, will continue operating at locations - at other locations if SCI - if Quehanna closes. SDTP is already operating at three other facilities, and we would also look for placement for the Motivational Boot Camp as well.

Unfortunately - ultimately, the valuable work of these programs, as required by JRI2 legislation will absolutely continue even if Quehanna would close.

And a couple other quick, important topics with regard to our declining incarceration rates. So the consideration for closure is in part due to the success of The Justice Reinvestment Initiative 2 legislation, which has certainly led to a decline in the overall incarcerated population.

As a Commonwealth agency, we have to consider cost and operational efficiency. Maintaining a system at 80 percent capacity statewide is not fiscally responsible. Even with the closures, we can still operate efficiently while reducing overhead and future maintenance costs.

All that being said, these are

difficult decisions and difficult discussions, and we do not take this lightly. So thank you. Thank you again for your time for coming out on this obviously very rainy evening. And we appreciate and are open to hearing your feedback this evening.

Now, I am going to turn it over to Deputy Secretary Oppman, for some brief overview of closure considerations, followed by Executive Deputy Secretary Mike Wenerowicz, who will cover the history and current status of the Quehanna Motivational Boot Camp. And then after that, our moderator will guide us into the next part of our hearing.

MR. OPPMAN: Good evening, everyone. I'm Deputy - Chris Oppman, Deputy Secretary of Administration. I want to thank you for coming out and providing input to us.

The Department of Corrections has an annual budget of approximately $3.3 billion. This is a significant amount of the Commonwealth's overall budget, which increases on average for the DOC 4.5 percent per year. The dollar amount is an increase over a hundred - a hundred million each fiscal year.

This financial obligation creates

intense scrutiny as state officials compete to fund necessary services for all constituents and all programs. Annually we conduct a facility analysis of all our institutions. This analysis is done in the event of a possible prison closure, is considered, due to the appropriation the Department will receive.

This analysis includes the following: Total cost of the facility; personnel costs; operating costs; cost per inmate; recent and future capital upgrades; long-term contract requirements; total personnel; total prison population; facilities within 65 miles; specialized programs; housing units; medical programs; infirmaries; facility conditions, and challenges, as well as natural disaster risk and mitigation procedures.

As of March 19th of 2025, our total prison population is approximately 38,000, with an excess bed capacity of approximately 7,500 usable beds. Our current operational footprint decreases operational efficiency and increases the strain for financial resources to operate the current institutions and community centers. While our population has declined, the cost of operating a correctional institution increases. Our cost per

inmate has increased from $137 per day in fiscal year 2018 - 2018-'19 to $186 a day in '23-'24. This is a 36 percent increase over five years, outpacing our annual appropriation.

Our capital funding is approximately $55 million a year. This amount is insufficient for addressing large construction and repairs, which creates a situation where the DOC must prioritize projects with the most urgent needs and push off other projects into deferred maintenance for future years.

The current ten year deferred maintenance is approximately $1 billion at this time. If deferred maintenance is not addressed in the current year, it can create a cascading deterioration and the cost can double in five years. Our staff work with the resources they have to triage maintenance concerns, but annual and capital funding is limited and cannot address all needs in a timely manner. SCI Quehanna requires $6.9 million in capital investment over the next five years. Mothballing expenses will be incurred if this facility would close, at approximately 633,000, but future operating expenses of approximately $34 million to continue to operate would be avoided.

The administration does not take this lightly. We know that a prison closure could impact our staff and have done an excellent job to maintain safety and security. This is why we have instituted a targeted hiring freeze of the surrounding SCIs to ensure that our current staff at Quehanna and Rockview will be able to make selections on where they would like to be placed and work in the future.

If a closure would happen, the DOC is committed to making job offers for all staff and work with the unions on this process. Staff will fill out a survey, asking them the rank of preference to which SCI they would want to transfer and we will propose a secondary recall, like we have done in previous closures.

We also know that this proposal can have an effect on the local economy. We are sensitive to that. Our facilities are located in rural areas with limited options for employment. We are still looking to ways to operate within our appropriation, regardless of whether or not this proposal was approved. However, we will make the safety of our staff, inmates and the general public our number one priority.

We are actively reviewing all

potential impacts the closure would have. We are working with other state agencies to review all the consequences, but more importantly, we are listening to you.

We understand the greatest impact will be with our employees, their families and their communities, and we thank you for your input tonight.

Now I'll turn it over to Deputy Secretary Mike Wenerowicz.

MR. WENEROWICZ: Good evening. I want to thank the Quehanna Boot Camp staff, elected officials and community stakeholders for the opportunity to address you this evening. I'll present a brief overview of the history of the boot camp, along with details about some of the Department's initiatives we've undertaken over the years to enhance their mission.

Again, the proposed closure does not reflect on the staff's performance or outstanding work that they have delivered over the years and continue to provide on a daily basis.

From 1948 to 1959, the former Pennsylvania Bureau of Forestry released the current site of Quehanna Boot Camp, QBC, to Curtiss-Wright,

a nuclear jet engine research and testing site. And in 1962 Piper Aircraft, Incorporated leased a site for metal and plastic parts fabrication to be used in the construction of aircraft.

With the closing of the Quehanna Piper Aircraft site in 1978, the land reverted back to the Bureau of Forestry. In August of 1991 the Pennsylvania Department of Corrections leased the site for development of the Motivational Boot Camp.

The Quehanna Motivational Boot Camp received its first platoon of eight inmates in June of 1992 as the Department's first military-style Motivational Boot Camp. Inmates assigned to the boot camp underwent a rigid six month disciplinary and training program, which, if successfully completed, resulted in immediate release on parole.

In effort to increase the facility's population in 2007, the boot camp began housing State Intermediate Punishment Program inmates. When the Justice Reinvestment Initiative, JRI2, was signed into law December 18, 2019, the State Intermediate Punishment Program converted to the State Drug Treatment Program and became the majority of the population housed at that facility.

In May of 2021, short-sentence parole inmates began to be housed at Quehanna, as a part of JRI2.

In continued efforts to increase the facility's population, the minimum-security facility houses both male and female offenders. Quehanna Boot Camp has a bed capacity of approximately 600 beds, currently housing around 350 inmates, with a staff complement of 232.

This is our smallest facility, occupying an area of approximately 30 acres and 18 buildings within the compound. The Department has routinely adjusted populations eligible to be housed in the facility to maintain efficiency. However, the campus layout has created historical issues with finding appropriate individuals that could be safely housed there, as participation in the Boot Camp Program decreased.

While the facility was ideal for inmates incentivized by a short window before they were eligible to return to the community, the lack of a perimeter fencing and county highway that runs through the middle makes it very challenging to fill the facility to an efficient capacity without creating an undue risk to the public.

Given the underutilization, its average per-capita cost per unit is very high, despite the facility housing some of the least problematic inmates within the Department.

Expanding Quehanna's ability to house higher-risk inmates would require a substantial capital investment, such as installing a fence and a perimeter intrusion detection system, at an estimated cost of $7 million.

The Department does believe that Quehanna's mission can be effectively and more efficiently fulfilled at other State Correctional Institutions.

The Secretary has affirmed that if Quehanna were to close, the SDTP and Boot Camp Programs would be able to continue elsewhere. We are committed to having these rehabilitative programs and believe that other facilities can successfully assume the same responsibility.

Regarding recent discussions about recidivism statistics, I want to clarify that the figures cited during the recent budget hearing were based on unofficial data, which inaccurately represented the boot camp graduating recidivism rates. This data was not comparable to the

Department's official recidivism data.

Our official record shows the three year recidivism rate of 58.9 percent and a one year rate of 31.5 percent for boot camp participants released between January 1st, 2010 and May 31st, 2015.

For the Quehanna facility overall, the 2021 three year recidivism rate was 53.7 percent, placing it in the middle range among our 24 State Correctional Institutions. These figures reflect a comprehensive and official calculation, accounting for all components of recidivism.

Furthermore, the recent adjustments to our population capacity were not made to justify a facility closure. These changes reflect the post-COVID operational landscape or the need to reserve beds and social distancing has diminished. This recalibration of the Departmentwide capacity aligns with current operational needs and was not an attempt to artificially inflate figures to support a closure.

And finally, I want to express my sincere appreciation to the Quehanna Boot Camp staff for their dedication, their exceptional performance, especially with this hanging over their head, to

continue to perform at a high level. For that I thank you.

At this time I'll turn it over to Pastor Joe.

ATTORNEY HOLMES: Thank you, Pastor. Hello. Pardon my back.

My name is Tim Holmes. I'm Chief Counsel for the Office of Chief Counsel for Department of Corrections. That's a big difference from Pastor Joe.

But thank you for indulging me, for allowing me to speak just - just a little bit. We are here in part because of the requirements of the Public Safety Facilities Act, 35 Pennsylvania Statute Section 10273, paragraph (b)(2), provides that a public entity must hold at least one public hearing in the county where the public-safety facility is located prior to applying a decision of a closure.

For the purposes of this Act, the Department of Corrections is a public entity and the Quehanna Motivational Boot Camp is a public-safety facility. Therefore, we are holding this hearing in the Karthaus Community Alliance Church. Thank you very much for being here. Thank you, Pastor.

PASTOR GERHART: So we're now going to be moving on to our invited speakers for the evening. And as a courtesy to everyone attending, I'm kindly asking that each invited speaker keep the remarks to five minutes, just to ensure that our public guests also have time to share their comments.

First speaker is Senator Langerholc.

SENATOR LANGERHOLC: Thank you. Thank you. Good evening. I can think no one in this room would want to spend an evening here in this situation. But we are here, nonetheless, to shed light and gather testimony that will be reflected here within the record.

I'm State Senator Langerholc. I represent the 35th Senatorial District, which is all of Cambria County, all of Clearfield County and the western part of Centre County. Quehanna is in my district, as you all know.

I stand in front of you and I stand on behalf of the many men and women who don the uniform every day, every day, in furtherance of the Department of Corrections and their mission statement. Their backgrounds, their upbringings, their educations, their political philosophies may

be different, but they are all brothers and sisters united in the commonality of Corrections.

The DOC mission statement states in part to, among other things, reduce the rates of recidivism. I want to talk about some certain instances, so that is reflected here on the record that we're establishing with respect to Quehanna.

The recidivism rates. I disagree with your statement, and I feel that was directed at me, because I was the one -. And until my office receives information broken out as we've requested, I'll continue to disagree. So I welcome that transparent - that openness with my office.

At that appropriations hearing, that I believe you may have been referencing, the information I gained was from the pamphlet put out by the boot camp, so I'd just like to clarify that as well.

I'll stand on - my statement says the recidivism rates of the Boot Camp Program. I'll stand on the numbers with respect to the GEDs that are produced from that facility, the recent five year rate being 24 percent of all institutions across the Commonwealth. That 24 percent being more than 12 other institutions combined, 12 other

institutions combined. Vocational rates being five years - over five years, 15 percent of all across the Commonwealth. Let the record reflect that as well.

Those are real-world examples of why Quehanna works. I said that multiple times before, and even far, far before this proposed closure was making the headlines, I've been there. I've been to Quehanna multiple times. I had the honor and the privilege of speaking to the graduating class, of touring the facility, of walking the halls, of talking to the inmates, seeing the respect, seeing the discipline, seeing the product that is turned out by the countless hours of work and toil of these brave men and women.

I've seen it. The state has seen it. You're producing a product there that the Commonwealth should be damn proud of. The proposed savings, in the grand scheme of things, are minuscule. That was stated here at the beginning of approximately 34 million that may be avoided. But in light of the guarantee of everyone to receive a position, the operating budget being around 29 million, that cuts that down to 5 million. You add in the mothballing costs, URO statement,

$660,000, as well as the improvements that are needed. We understand that.

But the community impact cannot be overlooked. In addition to those mothballing costs, there's a wastewater treatment plant, there's a range that DCNR and the Pennsylvania Commission take advantage of that would be lost. The community impact would decimate, not just my district, not just towns across Clearfield, but many others that are here, even from counties outside of Clearfield. That cannot be overlooked.

At what cost do we turn our backs on local schools, local tax impacts, as well as economic impact?

I've spoken with the staff of Quehanna. I toured Quehanna today, actually, spoke with inmates on the various blocks. And it's different. It is different at Quehanna. It is quite simply different.

I've been to many SCIs. I was - my former career as Assistant District Attorney in Cambria County, I've been in multiple SCIs. This place is different. There's something special about Quehanna.

Now as I can see I'm flashing, I will

wrap this up. But it bears mention that we come here to give testimony. We listen testimony to many people that will share many stories that we've seen. I could talk for hours. We put that on the record, that testimony. But also more than that, we offer - I offer a legislative fix to this, to understanding the need -.

And I brought this up at the appropriations hearing, as well as - and meetings that we've had that you have graciously built yourself up. You have been more than willing in that respect, and I appreciate, that you have not hid behind it. And make sure the record is clear with that as well.

But it's time for a reboot to the boot camp. And my legislative proposal would make that an incentive for boot camp, for more people to take advantage of boot camp. I understand those numbers are down with the advent of SDTP. Let's revamp this to incentivize more to take advantage of the boot camp, and also explore some other cost-saving measures, which I'll be glad to share with you also, after even this hearing this evening.

In summation, what Quehanna does works. I've said that before. It rings true.

Let's take a pause, keep it open, revamp the programs. It has and will continue - it will pay for itself. I welcome the decision to keep it open. I look forward to working with all. I thank you for the opportunity to speak tonight.

PASTOR GERHART: Thank you, Senator Langerholc. At this time Representative Dallas Kephart.

REPRESENTATIVE KEPHART: Good evening, Secretary. Thank you for coming to Clearfield County yourself on this. I am Dallas Kephart. I represent the 73rd Legislative District, which proudly includes Quehanna Boot Camp.

I'm a lifelong resident of this area. I got elected a couple years ago. The people who work at this place are not only people who live in my district, many of them are people I've known for many years. I said to them the day I was up there with them recently, I wrestled with them, I went to school with them. They are our neighbors, our friends.

And they are also - I stand in the united front with them, because they are the people that keep us safe in our communities from those who committed wrongs to society. But they are also

there to rehabilitate those people. And this facility is unique, as Senator Langerholc said, to that mission of rehabilitation.

I also take - let's say that the recidivism rates that you're mentioning this evening, I've also requested those, like Senator Langerholc, and have not received them as well from the data that we are privy to as well. So I would request that we see the data, then, if we are going to be called out as having untrue data.

Second of all, I take issue with the report that was issued whenever this announcement was closed or announced, I'm sorry, of a proposed closure.

In the report you will see that you mentioned cabling, generators and so forth, and it needs rehabilitation. I've also been a frequent guest at Quehanna. And coincidentally last year I had to go in a different way because they were rehabilitating it then. Or I'm sorry, they were renovating it then.

Additionally, it's all new pavement up there. I don't know if there's a special spot that needs to be repaved or so forth, but I believe it's all paved.

If this is about saving taxpayer dollars, which I'm an ardent supporter of being fiscally responsible, then why was these repairs made recently and now this is going to be thrown out the door?

Additionally, I still believe the recidivism rates in this place are lower than the average, unless I'm told otherwise. And it's also - let's not keep - let's keep in mind that the people behind the - in the facility, their lives matter, too. They are there. Many of them have nonviolent drug offenses.

It is our job. If we are rehabilitating people at a higher level at this facility, that will save taxpayer money over the long term and not to mention their lives.

I've had inmates reach out to me. One from Drexel Hill reached out to me and said, Representative - by Facebook - please do not shut that place down. It saved my life.

Another lady from Lancaster area called - called my colleague Brett Miller and then called me afterward or I called her and she said, Representative, please do not shut down that place. My son was in there. He was a good boy growing up.

He made a mistake. They taught him and got him on the right track. He's a successful individual in society. That place - that place alone saved my son's life and getting him back on the right track.

The place is unique.

Additionally, as Senator Langerholc said, 25 percent of all GEDs came out of this facility, 25 percent. There is over 20 correction institutes across the state, but yet - and this one only is a smaller one - over 25 percent of the GEDs come out of there. That is success.

We were passing legislation in the House last term that incentivized the incarcerated to continue their education and so forth because it is proven that it helps with recidivism rates and getting them back into society. Why are we going to shut down an effective Criminal Justice Center is my question, that has proven results at being successful?

Additionally, I want to touch on the local economic impact here. And although I realize that the boot camp itself does not pay property taxes, the people that work there make a good living in this end of the world. They are - their jobs are there.

The local school district has many of those employees in their district. West Branch Area School District, they get a local income tax off of these employees that work there. Last year we dumped millions of dollars into education, including level-up funding. Every single map has West Branch Area School District and it is one of the poorest school districts in the state. When you take this away from them, this is going to further drive out people of our area and hurt the school district to a further extent than it already is.

So I see my time expiring. So also I want to mention there's also a Nydree Flooring plant up there. They have reached out to me as well, saying they believe this will put them in jeopardy. They have employees in the private sector as well. I just want to put that on the record.

So I appreciate you coming to this area and actually seeing the people that work there and the community impacted. And I proudly stand with these individuals in this room and work at the place and everybody impacted. Thank you.

PASTOR GERHART: Thank you, Representative Kephart.

At this time, Representative Mike

Armanini.

REPRESENTATIVE ARMANINI: Thank you, Secretary Harry and members of the Board. Thank you for coming here.

I'm Mike Armanini. I'm the 75th District State Representative from Elk and parts of Clearfield County. Even though this is not my district, it borders mine. But I have many constituents who come to Quehanna and work.

And you mentioned how you're going to have jobs for these workers. Do you realize that some of these workers will be driving over an hour to get to their new employment place? Is that really acceptable? I don't think so.

You know, we're in rural Pennsylvania and we're fighting day after day to keep rural PA growing and striving. And sometimes we do need a little bit of help from the administration in Harrisburg, but sometimes we don't know if they really truly want to see rural PA grow.

Here we are set to whereas you want to consider closing the facility that is speaking for itself for the success it has. What will that do to us economically will be detrimental. You cannot take out $28 million of wages in our area and

expect us to continue to grow, to continue to offer good education and to strive.

You really need to start looking at this just a little bit differently. Yes, you are doing a savings for the DOC, but I do believe in the Governor's budget you also got an increase. Okay? So you're closing - you need to look at this differently.

By closing this facility, these people who are sitting out here and below us, you're changing their lives for a million - for $5 million, 5 million. We're working on a 51 billion plus budget and you are touting yourself for closing the facility for $5 million. You really have to look at what you're doing to the economics of Pennsylvania.

And if the Governor truly wants Pennsylvania rural to grow, he needs to sit with you and sit down realize, we have to relook at this, because we are not only going to affect Quehanna, Clearfield, but we're also going to affect the five other counties that surround this area.

This is very important. Time and time again it is just, cut rural PA, cut rural PA. We've seen what they've done with our coal industry. Right? There's no reason - we should still be

mining coal like crazy right now and we're not, because Harrisburg says it's not okay.

We cannot let this continue. We cannot let -. Just because it looks good on paper, but for the decency of our human beings in this area, it will slam us to the ground. We truly need a different look at this and a reason why it needs to close. When you're talking economics and the amount of area that this will - people will benefit by keeping it open, we need you to look differently.

We need you to leave here tonight and say, you know, maybe we have to look at this differently. And I hope from the people's testaments that you will be able to see the difference that is here. They're very proud people. And that facility is fantastic.

And what worries me a little bit about the inmates in there, when you go there, you know, they're not worrying about, oh, if, you know, you hear from the President how - say gangs or whatever, you have to, you know, look out for yourself. I believe the people who are in that facility, they don't need that.

So even though you are going to move it, what is that going to do to that inmate?

Because all of a sudden now they have to change their whole mentality about fixing their life, because they now do not know what's going to be coming up from behind them. Because, you know, stories of other facilities are not present at Quehanna.

So I thank you very much for coming and for everyone's time. And I truly would appreciate if maybe you could just look at it a different way. Thank you.

PASTOR GERHART: Thank you, Representative Armanini. We're now going to be moving on to Representative Paul Takac.

REPRESENTATIVE TAKAC: Good evening. Good evening. Thank you for the opportunity to say just a few words.

For those of you that I haven't met, I'm State Representative Paul Takac. I have the 82nd District over in Centre County. You'll be hearing a lot more from me Tuesday night. SCI Rockview is in my district, but there's a lot of folks, many of them aren't here tonight, who work at the boot camp or, in many cases, are retired from the boot camp. So I'm really happy to be here tonight to support all of you.

As many of you know, I just recently completed a series of my own listening sessions across my district on these proposed or recommended closures. And let me just say that I learned a lot and I heard a lot.

But one of the main things that became absolutely crystal clear time and again is the dedication, the passion, the professionalism, and the great success of the entire team at both the boot camp and at SCI Rockview.

That goes for the entire team, all the way from the administrators to the corrections officers, the nursing staff, the maintenance staff, the operational staff. Everyone who works there contributes to the success.

And what also became clear was the tremendous personal and economic impact that a closure would have in both places. And as was just mentioned, particularly in our rural areas, which are already struggling. So please know that we'll have more to say on Tuesday. I'm in no danger of going over this evening, but watch out Tuesday.

Please know that I'm here absolutely in full support of everyone who's here. And I look forward to your testimony. Thank you very much.

PASTOR GERHART: Thank you, Representative Takac.

I'm going to invite to the podium Mr. John Eckenrode, the president of the Pennsylvania State Corrections Officers Association.

MR. ECKENRODE: Good evening. My name is John Eckenrode and I'm proud to serve as president for the men and women of the Pennsylvania State Corrections Officers Association.

With all due respect, I'm going to choose to face the people of this community rather than those who threaten its very survival.

AUDIENCE MEMBER: Thank you.

MR. ECKENRODE: I'd just thank our members, members of the community, elected representatives who came tonight to speak on our behalf. I'd also like to thank Senator Langerholc, Representative Takac, Representative Kephart, who joined us in Harrisburg just ten days ago, where hundreds of people showed up, members from this community, to support trying to keep this place open.

It's important for the Shapiro administration and all members of the General Assembly to understand the ramifications if these

facilities were to close. Our Department says that we will receive a job - you will receive a job at other facilities. Sounds great, until you look a little bit deeper.

Rockview is a stone's throw away from SCI Benner Township. Quehanna Boot Camp is at least an hour drive to the closest facility, which happens to be Benner Township. Quehanna and Rockview will be competing against each other for placements in that jail that have been identified as being in a 67-mile bubble. There are currently 39 open positions at Benner Township. Potentially there will be over 600 employees competing for those positions.

Our members, dedicated public servants who risk their lives on a daily basis, will now have to spend two hours in their car each day away from their family. Their financial reward will be an additional upwards of $500 a month out of their budget. Our Department doesn't help with expenses for that cost.

Our members will be forced to make an awful decision. Should I stay where I raised my kids? Should I deal with the extra cost of gas and long hours away from home? Or should I uproot my

family and move?

The administration and the Department of Corrections at Camp Hill doesn't have to answer a question like this, unless it comes with a promotion or a pay raise.

Even worse, the Department has not been transparent about the hiring process at the jail where Quehanna members are eligible for transfer. The Department said that there would be a hiring freeze of new employees to protect openings for Quehanna transfers, but they're actively interviewing trainees for an already limited number of positions.

Ladies and gentlemen, the next time the Shapiro administration says everyone is guaranteed a job, make sure you read the fine print here.

Transparency continues to be an issue for our Department. Even though we filed a right-to-know request about Steering Committees the Department used to rationalize these closures, they have not released even basic information to us. As Governor Shapiro gave his budget address, as - the Department of Corrections said the Steering Committee would look at all institutions and make

recommendations on which ones should be closed.

This caused widespread pandemic - or panic statewide among our prisons and ten Community Corrections Centers.

Magically, within days we got the answer, Quehanna Boot Camp and Rockview slated for closure. Naturally we wanted to know more about the process and how much the out-of-state consulting firm, CGL, was being paid to assist the Steering Committee and we filed more right-to-know requests.

To this day, they still won't tell us. We don't know who the members of this committee are, any of their deliberations. We have no idea how much taxpayers paid for CGL to help out with the Steering Committee.

As you're well aware, closing a jail can be a death sentence for its host community. Facilities like Quehanna that employ more than 300 people and pays for goods and services to other local businesses, the facility is located in the middle of three of Appalachian Regional Commission's economically-distressed areas. Over 80 percent of all Quehanna staff live and pay taxes in Karthaus Township.

Simply put, the Shapiro

administration's decision to close this facility will devastate Karthaus.

We also have concerns of safety for our members. In 2018 and '19, violence in our state prison was some of the worst I've seen in over a quarter of a century of service to this Commonwealth. In 2018, Sergeant Mark Baserman was brutally murdered by an inmate inside of SCI Somerset.

Much of this violence was due to 21 out of 25 prisons being over 90 percent capacity and over 11 being over a hundred percent capacity.

Today, violence has dropped in part because the prison population has spread more evenly. Last year, only half of our prisons were over 90 percent capacity and only four were over a hundred percent.

Saving money at the expense of the safety of our members is too high of a price to pay. I question if there'll be savings at all through these closures.

I can see I'm - I'm blinking also. I'm running out of time, but I will just close with this.

Madam Secretary, there's more than

one way to skin a cat. And if this is about saving money, we can do that. We can accomplish saving money by other means besides closing this facility. This is a facility that is worthy of staying open, and I hope that decision comes.

If you would like to meet and talk about cost-savings ideas, I would be more than happy to sit down and offer ideas that we have. Thank you for your time.

PASTOR GERHART: Thank you Mr. Eckenrode.

At this time we are going to invite to the podium Ms. Amanda Conner, a record specialist at Quehanna and representative of the American Federation of State, County and Municipal Employees.

MS. CONNER: I apologize. I'm fun size, so bear with me.

Good evening. My name is Amanda Conner. I am a Record Specialist 2 at Quehanna Boot Camp. Thank you for the opportunity to speak out against the closure of the facility that means so much to my coworkers, our inmates, our community and to me personally.

I finally found what my heart and soul had been searching for when I started this job

in August of 2020. The criminal justice system has intrigued me since I was a young girl and it was no time until I fell in love with Quehanna.

When I started, I had not one single clue what a record specialist did. I assure everyone in this room a record specialist is not just a job that files paperwork and folders. As a Records Department, we are responsible for ensuring the safety and security of the facility by checking eligibility requirements upon inmates' arrival. We are highly trained in reviewing full criminal histories, legal documents and identifying Crime Codes that fit proper criteria for JRI2 at our facility.

The flow of inmates at Quehanna happens on a weekly basis. We prepare the proper checklists and clearances prior to inmates' release from our facility. We are also - sorry. We are also responsible for preparing release checklists for SDTP completers for the Community Corrections Centers and reparoles for various institutions.

From year 2022 to 2024, our department worked tirelessly to prescreen inmates prior to placement at Quehanna. We were a key part in making sure inmates were eligible for the program

and not prematurely sent to our facility. Being responsible for this task at an efficient level helped save the DOC unnecessary overtime for care, custody and control of inmates that were not eligible to be housed at Quehanna. To say our department is proud of what we do is an understatement.

About eight weeks ago, when I was just days away from maternity leave, we were blindsided by the devastating news that Quehanna Boot Camp is one of four facilities proposed for closure. I urge the Governor and the DOC to reconsider this proposal.

Quehanna is not your stereotypical prison. It is a one-of-a-kind place. You won't find a gem - a hidden gem like this anywhere else in the Department of Corrections. While it has been mentioned that our participation has decreased over the years, we are still doing extremely important and effective work, especially through our State Drug Treatment Program and Short Sentence Parole Program.

The programs at Quehanna include therapeutic and rehabilitation treatments that inmates won't get anywhere else. Inmates at

Quehanna are provided with highly-trained staff in a safe environment. Thankfully we do not have issues with major staff assaults or inmate suicides. Drugs do not circulate in and out of our facility.

Our facility is surrounded by 44,000 acres of Moshannon State Forest, so inmates get to experience incarceration and rehabilitation in a way they never would anywhere else. Inmates at Quehanna get hands-on education and earn their GEDs. Inmates can receive on-the-job training and earn vocational certificates. They take the positive skills and life lessons they learn at our facility to be upstanding citizens when they return home.

What we do at Quehanna we do exceptionally well. Which brings me to all the amazing people who work there that make Quehanna truly special.

This facility employs about 230 of my sisters and brothers, and supports their families. We have departments of Officers, Treatment, Education, Food Service, Medical, Maintenance and Administration, just to name a few.

I call them all my - I call them all my sisters and brothers because that's what they are to me. They're my family and that place feels like

home when I am there. Each person brings a unique value to the table. I can truly say that each department and employee works hard day in and day out to ensure care, custody and control of the inmates, all while adding personal experience for the inmates.

The people within those walls are passionate about their jobs and give their best self every single day. Although our world is turned upside down by this potential closure, Quehanna and the staff remain committed to the Department's mission with respect and devotion to duty.

When you leave here - when you leave here, I truly want you to think about the proposed closure of Quehanna and how this is going to affect each and every individual in this room, their families and our community as a whole.

What I have shared tonight is my honest personal experience. If you spent time there, you would see the positive impact that Quehanna can have on anyone who steps through those doors.

I hope my words have helped you better understand what this facility means to so many people, and that you find it in your heart to

consider all these factors in your final decision and not just numbers on a piece of paper. Thank you for your time.

PASTOR GERHART: Thank you, Ms. Conner.

We are going to be moving now to Mr. Charles McCracken, who's a teacher at Quehanna, the representative for the Correctional Institution of Vocational Education Association.

MR. MCCRACKEN: Good evening. I would like to thank Secretary Harry and the other members of the executive team for allowing me to share with you tonight. I'm speaking specifically on behalf of the members of the Bargaining Unit and the Education Department as SCI Quehanna Boot Camp.

The boot camp may seem like a small concern compared to the much larger institutions in the Department of Corrections. However, many small things, like diamonds, are often of great value and should not be overlooked. I would like to suggest, this small institution is one such rare gem that should not be - that should be carefully considered before quickly disposing of it.

I say rare because the success of QBC is simply not being replicated at the same rate

anywhere else in the state. The record of our education program highlights this life-changing success beautifully.

Since 2014, the Quehanna Boot Camp helped more students successfully earn their GEDs than any other correctional institution in the state by a wide margin. Our overall average for this time period is nearly 24 percent. And in one year alone we had over half of the GEDs for the entire DOC.

This record is even more impressive considering that QBC hovers right around one percent of the total DOC population.

In 2024, we had 30 percent of the GEDs awarded in the entire Department of Corrections. In fact, there were 16 other institutions that, if combined together, still would not have as many GEDs as Quehanna.

All of our academic teachers, myself included, have worked at much larger facilities. We greatly enjoyed our work and were just as invested in our students as we are here, but did not experience the incredible rate of success we see now.

When I first came here, I was absolutely blown away by the sheer volume of

students we're able to bring to their dream of passing the GED test to reality. I love being able to tell my new students when they first come to class, if you want to get a GED, you're in the right place. We have more people earn their GEDs than anywhere and we are the smallest jail in the state.

This bit of information really helps to motivate many of our students to pursue the goal, because they see it as something that is achievable in this reasonably short period of time.

The record for our vocational programs is also completely outstanding. In the 2023-2024 fiscal year, through the dedication of our two vocational teachers, a total of 1,018 vocational certificates were issued, accounting for 17 percent of all DOC vocational certificates.

This pattern is repeated annually. In the past five years, of the 24,078 vocational certificates earned in the DOC, 3,678 came from Quehanna Boot Camp. Our inmate students receive valuable training in masonry, custodial maintenance, core competency, fiberoptics, along with several other areas of certification.

The vocational students, as well as those who have earned their GED or CSD diplomas,

leave our program with a measurable advantage in that they are significantly more employable. Being able to financially support themselves and their families through a legitimate gainful employment is a significant factor in reducing recidivism.

For the Commonwealth, this should be considered a net gain. Each person that we are able to help this way is no longer costing the Commonwealth tens of thousands of dollars every year. Rather, they are out earning money and paying taxes.

Why is it that we are able to accomplish so much more than elsewhere? I believe that has as much to do with the unique design of this facility, its programs and its smallness.

We are able to have much greater collaboration and communication between staff from all departments than you would normally experience in a larger facility in this system.

Also, the limited length of time we have with each student forces us to hit the ground running with them. We understand and accept that any help we are going to give these men and women usually has to happen in a period of six months or less.

Again, I would like to thank you for your time and I hope you find this information valuable as you consider the future of Quehanna Boot Camp. Thank you.

PASTOR GERHART: Thank you, Mr. McCracken.

Now inviting to the podium Mr. Mark Leahy, registered nurse at Quehanna, representative of the Service Employees International Union Healthcare Pennsylvania.

MR. LEAHY: Good evening. My name is Mark Leahy. I'm here to speak on behalf of the SEIU, the union that represents the registered nurses in the Commonwealth.

One of the primary responsibilities as a nurse is to act as patient advocates. Nurses and other staff members at the boot camp advocate for a patient's medical, psychological, emotional, spiritual and social health.

One of the key examples of effective patient advocacy is supporting patient autonomy. The Department of Corrections already supports patient autonomy through the Little Scandinavia Project.

The Little Scandinavia Project was

implemented at SCI Chester. This project appears to help the patient autonomy because the residents, as they are called, do their own laundry, cook their own meals, most importantly, have their own space to go to, if they need it.

As a result, staff assaults, as you put it, were only one in the district. This deinstitutionalization is a step in the right direction to change the culture and the environment for the better of the larger State Correctional Institutions.

Logically, looking forward, this program, based on success, will hopefully be implemented in other state correctional facilities and may in Quehanna.

In summary here, Little Scandinavia is about changing the culture to better the environment. Quehanna Boot Camp has also a unique culture and environment, separate from that of other State Correctional Institutions.

Moving the boot camp into a larger facility would cause the environment and culture to change for the worse. This could not just be a transinstitutionalization, but more like a reinstitutionalization. Inmates who are prisoned

for alcohol and drug-related offenses would be residing inside a larger prison with more seasoned felons and have to live with gangs, assaults and drug issues, among other things. In other words, the fish would be placed in the frying pan. The boot camp would just be in name only.

It is suggested herein that if Little Scandinavian works because of its environment, then that the boot camp works because of its environment as well. Does Little Scandinavia - does Little Scandinavia cost more money? These are just vertical questions. Does boot camp cost more as well? Again, vertical question.

The initial costs do not matter as much as the end result. These expenses are a worthwhile investment in our fellow human beings.

There's another program I would like to talk about as well outside of the State of Pennsylvania. Three hours from here is a facility known as Lakeview Shock Correctional Facility, located in Brocton, New York. They also run a six month program boot camp.

This program has reported - and these reincarceration rates are old. My apologies, but that's what was available. The Shock graduates have

a 26.6 percent recidivism rate, which I think it is great. Eligible candidates are much like Quehanna's except they accept men and women up to age 50. Most things are the same. Their capacity, they do run other programs, can be up to 1,100 men and women. The current number of incarcerated individuals, around 720.

Are these things that boot camp and the Department of Corrections can learn from Lakeview? We won't know unless people call them or make a trip up to Brocton. And I address that to everybody.

Of course there's a lot of things in the news about the New York State Department of Corrections we should all be watching with close interest. It said that good judgment comes from experience and experience comes from bad judgment. Look at what New York State is experiencing now. Let's see if we can learn from them and do the best we can for inmates, teammates and residents.

Lastly, when JRI2 came out, it basically cut the incentive for the Boot Camp Program. Why would you want to do a Boot Camp Program if SDTP2 got you out - got you out at the same time.

Anyway. Grateful for Senator Langerholc's proposed legislation to hopefully modernize the statutory framework of the boot camp. Hopefully boot camp guidelines will be trimmed down to four months to align more with the treatment program length. Cost savings could also potentially be realized.

In conclusion, it is hoped that the importance of the Boot Camp Program has been effectively conveyed here. A lot of us here are veterans that have gone through our own boot camp for basic training.

As a veteran who graduated Marine Corps boot camp during President Carter's administration, I can personally say that it changed my life for the better. Please continue to help us help them. Thank you for your time and thank you all.

PASTOR GERHART: Thank you, Mr. Leahy.

At this time Ms. Jennifer Gasbarre, Drug and Alcohol Treatment Specialist in Quehanna and representative from the Service Employees International Union 668.

MS. GASBARRE: Good evening. I'm

speaking on behalf of the SCIU Local 668, which represents the staff in the Psychology and Treatment Department at Quehanna.

When the proposed closure of Quehanna was announced in February, many of us were shocked and confused. Why Quehanna? The Steering Committee's report only raised more questions than it truly answered.

While it's true that it is a smaller facility and often perceived as staff-heavy, and the Boot Camp Program has seen a decline, the report overlooks critical facts.

Why a place dedicated to rehabilitation and healing now under threat of closure?

Quehanna was intentionally selected to house the programs that it has today. For decades it has embraced justice, reform and prioritized rehabilitation. What the report fails to capture is the culture, the heart of Quehanna. It offers something that cannot be duplicated elsewhere in the Department of Corrections.

The physical - the physical layout of Quehanna allows for services to be delivered more efficiently, daily operations, medication lines,

counts, meals can be completed quickly, freeing up more time for your treatment, education and other services. This unique layout allows for holistic approach to rehabilitation.

Over the years Quehanna has fine-tuned this schedule that allows reentrants to participate in multiple mandatory and voluntary programs without any overlap. Drug and alcohol treatment, violence prevention, psychology groups, reentry services, GED prep and vocational trades all can be accessed in a timely manner.

All other facilities - or at other facilities, sometimes programming conflicts and there's long wait lists that delay the means of progress. Reentrants can miss mandatory sessions because of conflicts or potentially even face longer incarceration simply because they couldn't complete the programs in time through no fault of their own.

This comes at a cost both financial and human. Reentrants may not be able to earn their GED, complete voluntary programming or releases early. These lost opportunities would impact their success.

Longer incarceration robs them and their families of time together. Longer

incarceration is costly to the taxpayers.

Quehanna's culture is different. It's safe. While major assaults have increased in other SCIs, Quehanna's has experienced minimal violence for years. It's a safe environment, where individuals can truly focus on change.

Research shows that placing low-risk individuals in these high-risk environments leads to worse outcomes. That's why the therapeutic community model is so effective at Quehanna. It centers on community separateness. It allows the reentrant space to heal and grow.

In 2024 alone, just under 1,000 reentrants were released from Quehanna. Closing this facility means placing close to a thousand people per year into these high-risk environments, jeopardizing their progress and their safety.

Quehanna doesn't have a fence or watchtowers because it doesn't need them. It's located in the heart of Quehanna Wild Area and these reentrants are able to see wildlife when they're in yard and any time they're outside of our facility.

Most individuals at Quehanna are within seven months of returning to the community. They're trusted to walk freely. And that trust

fosters pride, accountability and transformation. As many say, this isn't just jail. At Quehanna, criminal networks don't thrive, motivation spreads and people change. By contrast, in larger SCIs, reentrants face the pressure of gang activity, substance abuse and violence.

At Quehanna, serious contraband is rare. A single violation in the early treatment stages of SDTP often results in an expulsion and a longer sentence. Being in a safe environment at Quehanna helps these people stay on track.

As Corrections' professionals, we know that many incarcerated individuals have experienced trauma and live with mental illness. The safety of Quehanna supports both their healing and the well-being of the staff who serve them.

Everyone is saved through Quehanna. As citizens, we must ask ourselves, where do we want people to receive treatment, in a high-stress facility or a safe rehabilitative one that honors the potential for change?

Addiction doesn't discriminate. If someone in your family were incarcerated, where would you want them to get treatment?

Because Quehanna saves, staff are

more engaged, more compassionate and more present. A lower staff-to-inmate ratio creates a more therapeutic environment. Working in a nonviolent rehabilitative setting improves mental health and that well-being ripples into our communities.

One staff member who transferred to Quehanna from another facility said simply, Quehanna saved my marriage.

Relocating staff to other SCIs would expose them to the increased risk of trauma, burnout and the stress of working in a more volatile, high-pressure environment. This can result in substance abuse and mental-health challenges.

What is the cost of staff wellness? What is the value? What is the value of protecting the people who dedicate their lives to rehabilitation?

In closing, the Pennsylvania Department of Corrections says that its mission is to provide those committed to our care with programming, education and mental-health services to reduce recidivism. That mission is being fulfilled in Quehanna every day. Closing this facility would not just be a loss, it would unravel years of meaningful progress.

AUDIENCE MEMBER: Yeah.

PASTOR GERHART: Thank you, Ms. Gasbarre.

At this time, Acting Deputy Superintendent/Commander Carter.

MR. CARTER: Good evening, family, friends, staff, supporters of Quehanna Boot Camp. I'm honored to represent SCI Quehanna, as our Acting Deputy Superintendent.

I'd like to thank Senator Langerholc and Representatives Kephart and Armanini for supporting this forum and for supporting our facility.

I would also like to thank Secretary Harry and her Executive team for taking the time to be here tonight and for listening to everything that's being presented.

SCI Quehanna is a facility that's been a proud part of the Department and the local community for over 30 years. Initially, we began as a unique facility, constructed with a very specific mission of operating an adult Boot Camp Program.

Throughout our tenure, we have modified our vision, our mission and our goals, meeting each new challenge head on, with dedication

and resolve. We've pivoted from being primarily a boot camp facility to a facility that serves a drug and alcohol mission, as outlined in the Justice Reinvestment Initiative legislation, and did so without any loss of services.

SCI Quehanna is in itself a critical part of that initiative. We embody its mission of rehabilitation and reintegration. Invest in small, individualized facilities like ours can make a lasting difference.

For several weeks now, despite challenges, my staff has continued to carry out their duties and responsibilities with unmatched professionalism. This is a testament to the character, the commitment and the dedication of the men and women who work here today. The pride we have in our work is reflected in our daily operations and the way we interact with each other and the impact we have on the individuals we oversee. I am grateful to work alongside a team that consistently shows what it means to maintain courage in the face of change. I'm sorry.

We understand that the decision regarding the future of our facility is not being made lightly. And we agree that fiscal

responsibility, combined with stewardship of taxpayer monies, are of profound importance. We are committed to operating with the utmost consideration for the resources that are entrusted to us. And as long as we are permitted, we will continue to carry out our duties with respect for the citizens we serve across the Commonwealth.

With that said, I humbly ask that every effort be made to allow our facility to remain open.

To my staff. You are some of the best people that I've ever had the privilege of knowing. Thank you for all you do. Take care of one another, work as we always have, as a team, to carry out any mission. It is an honor to know and work with each and every one of you.

Lastly, I would like to express my gratitude to Secretary Harry and Governor Shapiro for their assurances that no staff member will lose their jobs in the event of a closure. We appreciate the opportunity to choose, to the greatest extent possible, our transfer facilities.

I sincerely hope it doesn't reach that point. But if we do, know that my staff and I will continue to work for the Department with the

same courage, honor and professionalism that we've always demonstrated. Thank you.

PASTOR GRHART: Thank you, Mr. Carter.

At this time, County Commissioner Tim Winters.

COMMISSIONER WINTERS: Thank you, Madam Secretary and Deputy Secretaries. I'm Tim Winters, Clearfield County Commissioner. I am joined by my fellow County Commissioners, Mr. Johnson, Mr. David Glass here. But most of all, thank you all members from the Down River community. Quehanna employees, Quehanna employees' families, retirees, thank you for coming out.

I will keep my remarks brief to give more time for public comments.

For the past 34 years, the Quehanna Motivational Boot Camp has been a valuable addition not only to Clearfield County, due to location and proximity, but also the surrounding counties, Elk, Cameron, Clinton and Centre. Some of their Commissioners and members are here to represent us and support us. Providing both jobs and economic impact to our area, as well as community outreach and services, through both employee groups and

inmate participation in local projects.

Quehanna's unique program removes outside negative influences, allowing for focus on the core mission of reintegration and lowering rates of recidivism. This program has been widely praised and has held up as a model in the realm of Corrections. Both the State Drug Treatment Program, the SDTP, and the Justice Reinvestment Initiative 2 JRI2 Programs at Quehanna have proven to be very effective, as well as the facility having a markedly lower rate of recidivism in comparison to other DOC facilities.

While aspects of the successful programs at Quehanna can be introduced into other DOC locations, the secluded and remote nature of Quehanna are a large factor in its success and make it an asset to both the community and the Department of Corrections.

We do encourage you all, please look at the cost of not just at the cost of the Quehanna facility, but also look at the savings to the Commonwealth of Pennsylvania afforded by the success of the unique programs offered here in Clearfield County. I thank you.

PASTOR GERHART: At this time we're

going to be moving to our open public comment period.

As we start the public comments and how it will be handled, I will give some brief direction.

Again, our goal is to be respectful of everyone's time, while ensuring that all voices are, in fact, heard. So please keep your comments to two minutes.

When the public comment portion begins, I'm going to ask you to form a line right over here. You will be coming - you'll be coming up to the podium. You will not be coming up to the podium until you are invited to the podium. We're going to wave you in.

As I said earlier, my wife, Amy, is going to be right up front here with a clipboard and you will get your name printed on that list for the transcript. You wait in line until prompted to approach the podium.

If you do reach your two minute mark, someone will sign you to wrap it up so you can return to your seat. We're asking you to return to your seat through the center hallway.

A second privilege that I asked for,

before moderating tonight's meeting was that I wanted to still be able to share my own brief comments in regards to the proposed closure. So as you begin to line up to speak this evening, I'm going to share those brief thoughts now.

Our nation has been one that's been founded on many biblical principles, especially our justice and our corrections system. And whether or not we're aware of it, the truth is that our God is ultimately in control. And in his word, he has spoken these following instructions. Everyone, everyone must submit to governing authorities. For all authority comes from God.

And those in positions of authority have been placed there by God. So anyone who rebels against that authority is rebelling against what God has instituted. And they will, therefore, be punished. For the authorities do not strike fear in people who are doing right, but only in those who are doing wrong. The authorities are, therefore, God's servants, sent for your good.

But if you are doing wrong, of course you should be afraid, for they have the power to punish you. They are God's servants, sent for the very purpose of punishing those who do what is

wrong.

So two quick points that we can learn from that passage in Romans.

Number one, God is in control. And I thank God that we live in a country where we have elected representation from our citizens. We need to remember that he is the one who places these elected representatives in positions for such a time as this.

And my encouragement to our elected officials and the leadership of the Department of Corrections is this, that you would do well to remember who is in control. And that he has placed you in these positions of authority for the betterment of our nation, our county, our country.

Number two, the justice and correction system, specifically in our nation, was instituted by God to punish those who do what is wrong. Discipline is the best form of punishment. And it is my opinion that you will not find a better form of discipline and training than the Quehanna Boot Camp.

Therefore, my encouragement is not to close the camp, but instead find ways to invest in the programs where it currently is, so that our

communities are strengthened by the inmates who are successfully reintegrated back into society.

And now we will move on to public comments.

COMMISSIONER SOBEL: Good evening, Madam Chair, members of the Panel, ladies and gentlemen, my name is John Sobel. In addition, to being a Clearfield County Commissioner and also Solicitor for Karthaus Township, tonight the Karthaus Township Supervisors have asked me to say a few words on behalf of the township.

I am here to affirm the closure of the boot camp would be devastating to Karthaus Township. This year, Karthaus Township is expected to meet governmental expenses in the amount of $240,000 with an income of a little bit over $198,000 and a small carryover from previous years. Contained within that income is $11,000 in local service tax paid by employees in the boot camp.

Without that $11,000, and the closure of the boot camp, a razor thin budget will be stretched to the point that it will snap.

Local business will also suffer. The Iron Rail Bar & Grill, Quehanna Motor Lodge, Benton's Market, and Friday's gas station all become

dependent on boot camp employees and visitors for their income. The closure will cause such a loss of income that those same businesses and other small businesses in the township will find that they may be faced with situations where they don't have enough income to be able to continue and to survive.

I'd also like to incorporate, by reference, a wonderful letter by the Centre County Commissioners referencing the regional impact on business that mirrors the same.

Finally, local emergency services and fire protection will be very limited with the loss of the boot camp. The local volunteer fire company is very dependent on the boot camp for income, as they serve the city. Loss of that will put them in a very tough situation financially and unfortunately make them face the possibility of closing. The loss of that fire company will make living in this area impossible.

Finally, ladies and gentlemen, I just want to conclude by saying that closing the boot camp will tear the heart out of a wonderful rural Pennsylvania community known as Karthaus Township. And on behalf of Karthaus Township, I ask you not to do that.

ATTORNEY SAYERS: Good evening, ladies and gentlemen, Madam Secretary, Gentlemen, my name is Ryan Sayers. I'm the District Attorney of Clearfield County, and my childhood home is just four miles up the road from here. So I have a professional and personal perspective on the Quehanna Boot Camp.

I drafted a letter to Governor Shapiro on February 20th and would like to incorporate that into the record this evening. I would also like to address three issues in addition to the matters set forth in that letter.

First, since running for District Attorney, and for my tenure, I've been a proponent of diversionary programs. As for the boot camp, defendants have requested the boot camp, and I've readily agreed to it on a regular basis, so that they can participate in a program that I believe is good for them. But I know personally the people who administer, and I know that they believe it is a vocation to help these individuals change their lives for the better, not just a job and a paycheck.

And those are not just my words, but those are the words of inmates that were at the boot camp that have called the office, sent letters, sent

messages on Facebook, or commented on social media after the letter to the Governor was published.

And I will echo the Representatives and Senators, that based on the publicly-available information, the boot camp has one of, if not the lowest, recidivism rate of any facility in the DOC. And part of that success is where it's located and the culture and the environment of the facility.

And contrary to the report of February 7, it's not as simple as moving inside a fence at another DOC facility, because it will not achieve the same results that are currently achieved at Quehanna.

Second, I'll echo what Representative Kephart said in regards to the facility costs brought up in the February 7 report. Most of those issues that were raised have already been done in regards to HVAC, paving and generators. So closing the facility will not be a savings.

As for the six to seven million dollars for the fence, there's rattlesnake dens, mountain laurels, steep side hills, creek streams and natural mountains as part of the program and trust that is placed in the inmates. And as I referred in my letter, savings of $5 million in

recidivism is the cost of the program, so it should be considered neutral.

Finally, if I may, the boot camp population is not a boot camp issue, it is a DOC and legislative issue.

I had stated in the report that there are alternative options to early release. The Department has seen boot camp population decline, according to the DOC website, short-sentence parole, that the Board shall, without requiring an interview, approve parole. In other words, inmates can now do the minimum and get paroled early without interview or they can choose to do the hard work and potentially change their lives their best at the boot camp.

So ladies and gentlemen, I would ask you to reconsider. I truly hope, Madam Secretary, that you and the Governor choose to reverse course in regards to the closing of the Quehanna Boot Camp and instead promote it for the special program that it is. Thank you for your time.

MR. CATANESE: My name is Steve Catanese. I'm the president of SEIU Local 668. We represent 20,000 proud public servants across the Commonwealth of Pennsylvania. We're here to stand

in solidarity with the community and oppose these closures.

I gave the majority of our time to our amazing member, Jennifer, who spoke extremely well about the hardships and work. And while I echoed the statement earlier that we're thankful that folks aren't going to be losing their jobs, we still have issues with the disclosure process. We have issues with how far people are going to be sent away.

And when I think of the purpose, when we know what this legislation is, why we're having these hearings today, I think one of the things to drill down a little bit is, what is the purpose of this? Why are we here?

And one of the things I think about always with government is, how do we make sure government works for working people? And every day I think most people around here, if I did a sample polling, I don't think government would poll very high in this room. Right?

AUDIENCE MEMBER: Right.

MR. CATANESE: But at the end of the day, I think most folks want the same thing. They want to be able to afford to pay their bills, have a

little bit of luxury, safety and health for them, their family, their neighbor, their communities.

And sometimes the only ways they see that in government is with the municipal crew around here, plows the - fixes a pothole, plows the road, or 911 helps make sure you're safe at the time of need.

But what we're all united around here saying is, the government facility at Quehanna, the boot camp, is a program that works for working people. Right?

AUDIENCE MEMBER: Yeah.

MR. CATANESE: What I've heard from my members and actually participants in the facility who I know will hear from this large lineup that's out here coming up later, is how much it saved their lives, how much it's made things so much better for them once they got out of prison. How they were able to reenter society. They didn't fall victim to recidivism. They became a productive member of the community and also were able to keep their neighbors safe as a result of that.

Quehanna works and it's going to be hard to find places that work as well as Quehanna does. We don't need to reinvent the wheel here.

What we just need to do is reinvest in this community and show the government actually can work for working people. We don't have to - we don't have to break this.

So again, we urge you to change this decision. Thank you very much. Thank you.

ATTORNEY MAINES: Madam Secretary, Deputy Secretaries, my name is Josh Maines. I'm an Attorney in Clearfield County, surrounding counties here.

I come today with four perspectives - four unique perspectives to speak to you. And the first is, this is my family. My dad is Chaplain Maines, who is here tonight.

Now, I know there's a guarantee or supposed guarantee for jobs, which is - we'd be grateful for that. But the Chaplain position there is a contract job, so I don't know what the Department's doing to secure that job. But that's my dad.

My brother Ty is here. You're going to hear from him soon. And he's a dad and he's been doing it for a long time. And you know him, his family, the families of all these people right now are in complete disarray, due to the mess that has

been caused here.

Now, let me give you another perspective, as a former Prosecutor. I've sent people there. And I've sent people there with the belief that it's going to make a difference, that somebody's life is going to be changed, that their families' lives will be changed, that they won't come back through the system.

As a private criminal attorney, I fought to put clients in that facility because I know it can make those changes and they won't need my services again.

So finally, one other perspective I want to give you is as a volunteer, because once a year I come here with my band and we do an inspirational concert right around Christmas time, in December. And the one thing - many things I look forward to about it, but one thing I really look forward to about it, it's typically right before one of the graduating classes are ready to go and they always sit up front and they're dressed slightly differently and they're - and they're - and the looks on their faces and the anticipation that they have is just something different that cannot happen anywhere else.

I don't think anybody in this place tonight buys the bold assertion that the boot camp is happening somewhere else in this Commonwealth. It's got to happen here. And we just thank you for listening today and we trust that you're going to make the right decision. Thank you.

MS. JOHNSON: Your thoughts are probably, what - what's this little old gray-haired lady have I say about the boot camp?

I am one of the first people to open this boot camp. There were 11 of us that opened the boot camp. And I'm here to tell you, best job I ever had. Not for the benefits, not for the wages, but to see the change that this place makes, honestly. And the people that come through this boot camp.

You have to understand, imagine what condition they come in and how they leave. They're drug-free, they're healthy, they've had job trainings. Everyone in this boot camp, when I work, I was - I worked here almost 11 years. I was a little late starting, but I still got through. I went through PT, all the training, which they all had to do.

But you people have to understand,

there can't be a price put on this, there can't.

First of all, to close this down, how is it feasible? How are you going to save money? Because you have to put these people somewhere else. They're still going to be paying for them and their families. And they're not going to improve their life at all.

Here the Judge made a judgment, thinking these people would make good boot camp people. They can be trained and survive to go out in the world and make something of theirself and the state's not going to have to take care of them.

I myself, when I worked here, I had four inmates that worked with me. Never once did I have an issue with any of them, never once. They wrote letters back to the boot camp, they made phone calls back and could not thank us enough for what we did for their lives.

Now, true, not everyone is going to get out of here and make a life for theirself. If you're fishermen, you don't always catch the best fish in the sea either. So there's always some that want to get in and get out. But before they leave here, they leave healthy. They are drug-free, they are job-trained, everything they need, religion,

everything is here for them. And that gives them an opportunity when they go out. And if they were good inmates, which by the way, we have one right here that would like to speak of his time here and how it changed his life. There are many that call and want to come and talk to a graduation group and tell them what this program did for them. Many of them do, more than - more are happy and make a life than the ones that don't.

So please -. And Governor Shapiro is the only one that has not come down and toured this boot camp. We had - in my time here, every Governor's been here and left with a thumbs up. Thank you.

MS. COUTERET: My voice is going to be a little shaky, just to let you know. My name is Mary Ann Couteret, a resident and community member of Karthaus and a retiree of the Quehanna Motivational Boot Camp after 27-and-a-half years of service.

Quehanna is a unique facility that uses a motivational approach to inmate rehabilitation. Quehanna differs from traditional SCIs. Staff do not warehouse inmates. Staff buy into the program and believe that lives can be

changed. At Quehanna, emphasis is given on care and the DOD main mission of care, custody and control.

Staff demonstrate the role model concept of positive values, attitudes and behaviors. It has been said, Quehanna should be - should be the model for the other SCIs. Excellence is not an option, it's our standard.

Inmates conform to the facility's concepts. Regardless of the program, inmates adapt to the military structure and mimic the components in the Boot Camp Program.

No security fence. There has never been a fence at Quehanna and there isn't a need for one now. Inmates are identified as lower risk, meaning they are less likely to pose a threat to the community or other inmates.

Quehanna focuses on rehabilitation and reintegration, not high-security containment. The lack of offense creates a less-restrictive environment, which can foster a sense of responsibility and trust among the inmates, which in turn promotes a positive environment for rehabilitation.

No fence is a cost savings.

There have been more escapes from

facilities secured by fences.

The integrity of the Boot Camp Program, as well as the facility will be lost if it is moved to a traditional SCI. Traditional SCIs focus mainly on control, custody and then care of inmates because of the caliber of inmates they house.

Quehanna houses lower-risk inmates. Therefore, the staff focus on the DOC mission of care, custody and control.

Please consider keeping the Quehanna Motivational Boot Camp open. Staff truly make a difference in the lives of troubled individuals and provide them with the tools needed to become law-abiding, productive citizens of our Commonwealth.

I am proud to say I was part of the Quehanna Motivational Boot Camp, and ask you to please not rip the hurt out of Quehanna and the highly motivated and truly dedicated staff there. Thank you.

MR. GAINES: Hi, I'm Shane Gaines. I'm with the Quehanna Industrial Development Corporation. We try to bring business to the area.

Yeah, tough job. I want to thank

everybody for coming. Thank you for coming up, especially our elected officials. Thank you for caring about our community.

And I have a question. How did you come up here? Don't say a car. I mean, what route. Did you come up 880 and get off at Snowshoe. Does anybody know?

They don't know. Because if you came through Karthaus, you came through the populated area of our surroundings. If there's not a boot camp, there's nothing. You didn't see any industry, you didn't see any factories. What we have is a boot camp.

It was already mentioned that we had Curtiss-Wright at one time from the same facility. Piper Aircraft. They both left. They're corporations. They had that right to do it.

When the boot camp came to our area, it's like, wow, that's a state facility, it'll be here forever. Until we made the announcement it may not be.

How does that affect our community? If everybody has this little handout, it says on here of the people employed in Karthaus Township, 80 percent, 80 percent are employed at the boot camp.

We've already had people talk about the tax revenue, but where are we going to replace those jobs?

If you look around, there's nowhere else to go, nowhere else to generate that, to help out our fire company, our ambulance. So one of the things that as we try to get businesses to come here to employ our people, one of the questions we're always asked is, what's your emergency services like? They want to know. Are they going to bring in a factory in and have people that don't have someone that can have emergency services.

So Peary's going to talk more about that. But it's a huge thing when we're trying to bring the businesses in. So I would ask that you would keep it there. It's a huge part of our community. We're going to have a hard time replacing it with anything else.

Talk about money and everything else. It's a small part of the budget, we all know that. So thank you for coming and please reconsider. Help our community. We don't have much here. We need those jobs.

MR. SCHMOKE: Good evening. My name is Peary Schmoke. I'm the fire chief for the Pine Glen Fire Company. With me today is Dave Dunlap,

president of Karthaus's Ambulance Service and Michael McMonigle, fire chief of the Karthaus Volunteer Fire Company.

Together these three organizations provide fire, rescue and EMS services to the residents and visitors of Karthaus, Covington, Burnside and parts of West Keating Townships. These townships cover approximately 179 square miles and a population of over 1,500 residents. This is rural Pennsylvania at its finest.

We have been asked, what does the possible closure of the Quehanna Boot Camp means to emergency services in the area? The answer was easy. First there is the lost revenue. Boot camp employees and their families support many of our fundraising activities that these fire, EMS services do to stay afloat. And each has received large financial donations from the Boot Camp Employee Association.

Secondly, and more important, is the possible loss of first responders.

AUDIENCE MEMBER: Yeah.

MR. SCHMOKE: Some of them may need to relocate to stay employed with the Department of Corrections. Some will have a much longer travel

times to work and may not have the time to volunteer anymore, as family comes first.

We will also lose the work that is done in our fire halls by the CWP work crew. Several times a year the work crews come to our firehall and the inmates scrub, strip and wax the floors, wash the windows, they paint, clean light fixtures and wash and wax the fire trucks. All functions that our fire and EMS volunteers would have to do if the boot camp closes.

The work the inmate crews perform allow our volunteers to spend time with their families and more time to train to better first responders, which affects everyone in the communities we serve.

I personally have spent hours with the boot camp inmate work crew and have heard their stories while they're working and doing projects for our firehall.

I believe everyone deserves a second chance. And most inmates I've dealt with are working for that second chance.

Lastly, having a Quehanna Boot Camp has helped save lives locally here. Let me repeat that statement. Having the Quehanna Boot Camp here

has helped save lives locally.

Please let me explain. The Pine Glen Fire Company has three members that work at the boot camp. These three men are PA State-Certified firefighters and EMS volunteers and are part of the boot camp's emergency response team.

On August 9th of last year, much of Pennsylvania was receiving large amounts of rainfall. Major flooding events occurred across the northern tier of Pennsylvania. On this date, Pine Glen Fire County Storm Swiftwater Rescue Team was paged by Centre County 911 to respond to the Unionville area of Centre County to assist with evacuations of residents of a trailer park that was flooded. We responded with 8 Swiftwater trained personnel 2 rescue boats.

While this incident was ongoing, Centre County 911 page us for a kayaker hanging onto a tree in the middle of a very swift-moving rain-swollen creek without a lifejacket in 50-degree water. A true life or death situation.

Our Engine Rescue, which carries additional swift water rescue equipment responded with a crew of six and several of our swift water crew members responded in their personal vehicle,

including those members that are boot camp employees.

The Engine Rescue arrived. The chief officers were able to talk the victim into not trying to swim to shore, but continue to hang on to the tree until the boats arrived, the best choice for the rescue.

But the team was dressed in dry suits and lifejackets and was ready to enter the water should the need arise. The boats arrived and the rescue was successfully made.

This was a dangerous rescue. Our 30-horsepower motor on a Zodiac couldn't navigate up the creek against the current. Life saved.

On September 12, 2012 at approximately 3:00 p.m., Quehanna Boot Camp employees were notified that a three-year-old child had walked away from his grandparents' hunting cabin in a remote location of the Quehanna Wild Area. At the time boot camp employees were notified of the missing child. That boy had already been missing for three hours.

Immediately the boot camp Commander sent seven boot camp employees to the hunting camp location to begin searching for the toddler. While

en route to the location, the Clearfield 911 was called and asked to dispatch local fire, EMS, Pennsylvania State Police and DCNR personnel.

The little boy had been hiking with his grandpap all morning and the plan was to have lunch, take a short nap and continue hiking that afternoon. Apparently, grandpap's nap lasted a little longer than the boy liked and he decided to scout ahead for pap.

Yes, sir, I understand my time is about out. I have a couple of things that I need to move really quickly that is important and I will skip down a lot until we get down -.

We rescued that little boy.

Incident Commanders made the decision to research the area. Darkness was fast-approaching. While researching the area, DCNR researchers heard the child answering their calls and safely located the toddler 1,100 yards from the Camp. The little boy was turned over to Karthaus EMS personnel for evaluation and returned to his rather upset grandparents.

I'm going to skip a big chunk and I'm going to come down.

As we were signing out - our

personnel that had assisted with the search asked, where did all the boot camp employees show up from? One of our members that worked at the boot camp introduced me to the boot camp Commander. I asked him, how you get 12 to 15 boot camp employees to help? His reply was, that's easy Chief, it's the right thing to do.

AUDIENCE MEMBER: Yeah.

MR. SCHMOKE: In closing, Department of Corrections decision-making team, Governor Shapiro, state, county, local elected officials, the Quehanna Boot Camp is a valued employer, an integral part of this community and should remain open.

As the Commander said, it's the right thing to do.

MR. EBERLY: My name is Sean Eberly. I'm a maintenance foreman at Quehanna Boot Camp.

First of all I'd like to say the objectives of this Act 133, quote, to maintain transparent, open, pragmatic communications with its stakeholders is not true. The money and the math don't add up.

As a CMF, I am tasked with performing preventive maintenance and repair services on a fleet of 17 vehicles, 11 pieces of machinery, heavy

equipment and all that while obtaining competitive price quotes, repair parts, tools, tires, other items as part of my daily job.

I want to share an interaction I had with the DOC Purchasing Department on a small item. I had submitted a quote for Gojo hand soap, Fisher's Auto Parts in Bellefonte, PA, for 19.99. That was denied because that same soap, same size, had to be ordered through Grainger for $39.99.

This was one of the examples of thousands of purchases that are made throughout the year by every Commonwealth agency that is costing the tax dollars millions of dollars because of contracts. Maybe that's where the savings need to be.

Furthermore, according to my calculations, since 2018, boot camp projects are about 98 percent complete, with over $10.5 million in completed upgrades and $800,000 in projects that are in process - in process for money allocated. Why waste this amount of taxpayer money to close a facility and mothball?

Lastly, there are no training structures at Quehanna only CMS. We are required - we are required to accomplish what trade instructors

and CMS do at other facilities. We also make $3 an hour less. So at Quehanna that's a savings of $5,280 a month, $63,360 a year, and over ten years is $633,000. And all that does not include overtime. And that easily exceeds all those amounts. That's what 11 men, 11 CMFs do, with this facility. Eleven (11) men save that much money. Thank you.

PASTOR GERHART: We have a lot of people that would still like to speak, so if we can condense our speakers, reminding, two minutes.

MR. LEE: Secretary Harry, my name is Reese A. Lee. I've worked as a Drug and Alcohol Treatment Specialist five years at SCI Rockview and 24 years here at SCI Quehanna, when I retired in 2020.

I have witnessed the evolution of the DOC from the years of increasing populations, prototypical projects to now reduced populations and more alternative sentencing.

At SCI Rockview, in 1991, I worked in the Department's very first pilot drug treatment program. Staff there as a whole did not welcome the four of us treatment specialists. Those years were highly stressful but groundbreaking, intimidating

even, yet rewarding.

In coming to SCI Quehanna, Secretary, in stark contrast to Rockview, I was welcomed by everyone from the Commander on down.

Furthermore, I quickly learned three of the prominent principles in the program mission, change, discipline, motivation. Staff at Quehanna receives and still receives continual letters and calls of thanks from ex-inmate graduates and their families.

As we are hearing tonight, these are the best jobs and therapeutic programming in the Department. Trust and believe that here many, many lives have been saved for the better.

Finally, let me say that in my advanced years as one recounts their life experiences, my Quehanna experiences continue to shine through and inspire.

Secretary, please allow this program to keep running. There must be really little to gain to close, yet so very much to lose.

MS. LEWIS: My name is Joanne Lewis. I wasn't - I was at QBC for 14 years and retired last year. I'm very much opposed to the closing of the Quehanna Boot Camp. Lives are changed there

because QBC is treatment-focused.

People don't watch their friends and family members go to a typical DOC prison and express hope that that loved one will change. At Quehanna we offer hope. Inmates in therapeutic communities learn coping skills. They learn ways to manage their lives without relying on drugs and alcohol.

They begin to envision a better life. Keeping Quehanna open is not just a cost, it's an investment, an investment in their lives. Money is saved as they change and lead criminal lifestyles. They become productive members of society. Almost all express hope for their future, stating that we will never fully realize the impact that Quehanna has had on their lives.

We get calls from them, giving updates on their lives. They have a good job now or they're opening their own business, they're buying a house, they're registering their five-year-old for kindergarten. They've reconnected with their family after years of separation.

Don't shatter the hope that Quehanna offers. It is sorely needed. It is not only for the present, but for the future. As we invest in

their lives by providing treatment, we also invest in the lives of their children. As reentrants go home, they become better parents and role models. And as their children are witnesses to those positive changes, it is likely that they themselves will make better choices and we will not have the cost of crime and incarceration for those young people.

Again, Quehanna offers hope. Let's continue to invest in Quehanna, to benefit all.

MR. TYLER MAINES: Good evening. My name is Ty Maines, and I've had the honor and privilege to work at Quehanna now for over ten years. Began my DOC career at SCI Houtzdale and I want to speak of about Quehanna's safety.

First and foremost, I believe Quehanna is the safest DOC in the Commonwealth.

AUDIENCE MEMBER: Yeah.

MR. TYLER MAINES: According to public data, Quehanna, in a five year period, from 2017 to 2022, Quehanna accounted for essentially zero percent of the violent offenses, inmate-on-inmate assault, inmate-on-staff assault and inmate fights. Zero percent of that came from Quehanna.

We are able to have a secure setting. And according to Abraham Maslow's theory, security is crucial for growth and healing. Quehanna's unique design and structured programs create this secure environment, setting it apart from typical prisons. The SDTP Program is central to Quehanna's success, where it can be transferred to a holistic community-like setting that can't be replicated elsewhere. It's vital for effective treatment and essential to maintain.

Closing Quehanna would be detrimental to reducing recidivism and improving public safety. I don't want to take too much time, because there's a lot of people.

But what I would like to say, I would like to extend invitations before you close us down to come and see what we do. Come and spend time with us.

I've worked in federal facilities and I worked at Houtzdale for two years. There's nowhere like Quehanna, where everyone is invested. Every department is invested in the treatment process. You go in the kitchen and they're doing treatment. You go in Maintenance and they're doing treatment. You go in Education and they're doing

treatment. It's not just us dads, it's not just the counselors. I would invite you to come and spend some time with us and really see before you make that decision. Thank you.

MR. HUGHES: I'll be quick. My note's got John Wilton. My name is Chris Hughes.

I'm a member of this community. I was raised on a principal, service before self. I have served in the military. I have six years of military service. I am now eight years deep in the CO1 position at SCI Rockview. That's another fight.

I am a member of this community. Most importantly, I have served selflessly for eight years plus my six years of military service. I love serving my state. I have a great job. I'm happy to come home every day to this beautiful small town.

But this is an amazing community. The changes that this community has made in such a short amount of time is awesome. But I feel like this Quehanna Boot Camp closing situation has put a lot more in jeopardy than just Quehanna Boot Camp.

You have Nydree Flooring, forestry. And as they said Benton's Market and a couple of bars in town. It almost feels like the rug is just pulled directly out from underneath us.

Like I said, I've tried so hard to get where I am. I finally settled down. And right before I start my family, please do not rip this rug out for me, folks. Thank you.

MR. SMEAL: My name is Lester Smeal. I currently am employed at the Quehanna Boot Camp. I have some concerns that I believe that should be closing - or closely scrutinized and short-sighted when considered the closure of the Quehanna Boot Camp.

There should not be a quick fix to find funds to be used in other areas. As Isaac Newton stated, for every action there is a reaction. Whether that's a positive or negative.

I believe that the closure of the Quehanna Boot Camp will impact our state, community, municipal - municipalities in a negative way. Here are a few reasons, without going into great detail how it will negatively affect the DOC, the community and employees and the inmates.

The DOC taking the program that works, has been a proven track record, saying it is no longer needed, I know I don't want to do that at all.

Staffing issues will be another big

concern. Now, what about the guys that are on the lower totem pole like me? I just started there. You know, all these younger generation of people that are coming in there, you know, you're going to force me to pack up and move somewhere else. Whenever I served my country, I don't think that's the right thing. I've already moved my family twice. I ain't doing that again.

Because unless if you guys are willing to help me get a house and do that other stuff in those other facilities, so that I can still maintain connections with my family. And that's the most important thing to me. Because if I don't have my family, I have nothing.

I can feel for as a community as well. The county organizations will also be affected. And many of them utilize the boot camp to perform handyman jobs, landscaping, general maintenance and other tasks that small parks or churches may need to keep that going.

This may affect our local school districts as well. Like you've heard, if people have to move closer to where they had to be assigned, which affects tax revenue and - which affects tax revenue for the district.

Some people - some of the people that are employed here are not just corrections officers, they are members of the community and have leadership roles in the community, such as booster clubs, coaches, et cetera. We may be losing these leaders from our community, if this proposal is allowed to happen.

As for the employees -. As for the employees of the boot camp, will I have a job? I know that you guys said that it was - honestly we could get it, but since I'm at the low totem pole, is there going to be an opening let's say at Houtzdale for me? Because I'm not going to do that to my family, you know.

Will I have to relocate? Is there a possible - if I don't pick going with the Department of Corrections, am I going to be able to - okay, am I going to be able to move into another state, so that I can keep my pension, state commonwealth job? Like let's say the Fish and Game Commission or anything like that, you know, is there an opportunity for that, if those prisons fill up quicker? You know, I think that should be something that should be also looked at as well.

But another thing, too. That it

doesn't just affect the community, doesn't just affect the people that work there, I feel like it also affects the inmates, because those inmates are individuals that have family. They know it, they're here, they're taken care of.

Care, custody and control, that's what you guys always preach at the boot camp and at the academy. I feel like that you guys should actually - you should live that, live what you preach.

And in conclusion, as a citizen of the United States of America and a resident of the Commonwealth of Pennsylvania, I am proud to say that there is one thing that I believe I had some control over in regards to our government and my life. That being my choice of my career or job. I chose to work at the Quehanna Boot Camp and many other people have done the same.

And now our state government and high-ranked officials, which we elected to office, to look out for our best interests, are now attempting to take that choice away from us. Thanks for your time.

MR. TATUM: Good evening, everyone. Madam Secretary, esteemed members of the Panel, our

elected officials, Senator. I know, you're Madam Secretary. I met you last year at the Wardens' conference. I've been retired almost a career. I retired June of 2005.

I see some of the people I worked with here over the years and looks like I made some good decisions and I could spot quality and that's a good thing. I still have a son who works at the boot camp and a daughter in Central Office.

But what I want to speak about is that everything I found to be important has already been spoken to. But let me just touch it briefly. I was a Major in charge of the Young Adult Offender Program at Houtzdale when you said that you could integrate a program the size of the boot camp into an existing institution and it would be as good as what they have at the boot camp.

If you send it to Houtzdale, you send it to Rockview, Huntingdon, Dallas, wherever you send it, it's not going to function. You can't control the inmates' culture. You're going to lose - you're going to lose the culture of this boot camp.

You can't transplant the ability of the different departments to work together

seamlessly, like it does at the boot camp In my 27-and-a-half years I always wanted to work at the boot camp and God granted me to be the Commander for the last six months of my career. Had a heart attack on the table and my Executive Commissioner told me it was time to go.

I was sitting here in my chair watching it rain today and I was thinking about everything that's going on. And I thought I would be amiss if I did not come and speak. You have something unique up here. I've never worked with a finer group of people. And you'll have to excuse me of that red light.

When my son, Jim, died on Mother's Day of 2019, he was an officer at the boot camp. My baby girl, Dr. Mary the Tatum, as most of you know her, I got an email from this young lady at the boot camp. And she stated, I wrote this in the boot camp when an amazing officer, James David Tatum, inspired me with this phrase, excellence is defined in several ways. The dictionary defines it as comfortably - or conforming to a standard of right, outstanding quality, virtue, merit, strength and courage.

I describe excellence as being the

superior version of ourselves striving to be the best. It's always holding ourselves accountable while having the strength and courage to do so. It is being equal with the highest quality we are capable of being as individuals, through a very common word. Is defined as a beginning to an end. It is a passage into and out of treatment or process.

In QBC we are going through the process of self-renewal.

Adversity, in the dictionary, is a state of condition contrary to well-being, events causing unfortunate or distressing results and bad luck. Separately, each of these words are relevant in our lives and situations. Most of us want to achieve excellence.

Once we combine the three words -. I'm going to finish this, boss. Once we combine these three words into a phrase, they take on a much greater power. Excellence through adversity represents the specific goal that is in our nature and values to achieve. It is the very core of our existence. There isn't one person alive who doesn't want to be strong, fearless, moral and live up to their full potential.

We can achieve this from beginning to end using the hardships and lessons to learn and grow from our bad decisions, releasing ourselves from self-inflicted purgatory. We can do this knowing the future of our well-being depends on our ability to act upon excellence. Each of us holding ourselves to the highest standard and succeeding, we will achieve whole - wholeness and happiness if we learn to apply excellence through adversity in every option life delivers us. Officer Tatum, your memory will always live on through the change you specifically made in my life.

And that wasn't just my son, that was all of these people who worked at the Quehanna Boot Camp. And I was honored.

PASTOR GERHART: It's already after seven o'clock. We still have a lot of people. Please, I know we all have a lot to say. Your mic will be getting cut off after two minutes from the Internet.

MR. RALSTON: And Secretary Deputies, honored guests, and most especially all the people who attended here tonight, my name is Fred Ralston and I thank you for giving me the opportunity to oppose the continuation of the boot camp.

My interest in the boot camp started back in 1999. I became a special ed teacher at Houtzdale. And then I moved on to be principal of the educational programs of Rockview and here at Quehanna Boot Camp.

In 2008, under the direction of Dr. Bjorn, I was appointed as the Director of the Bureau's Corrections' Education.

Since 1992 the Boot Camp has played a key role in this community, but also in redirecting our young adults from a probable life of crime to being productive citizens in our Commonwealth.

Our young adults are given the opportunity to be self-motivated and change their lives. That is the goal.

In short, they are given a second chance. The boot camp has a solid education program to accomplish this goal through developing work ethic and completing reentry treatment services.

Also, our education program focused on those who did not complete high school or obtain a GED. It was our task to provide a learning environment so that the students could achieve their GED. We had smaller classes. We had five teachers who had a librarian and a well-stocked library and

guidance counselor. All were dedicated to keeping the lamp of education burning in our hearts and in the students' hearts. The program was intense and we were geared and we geared each student toward passing the GED and now vocational certificates.

Our students -. I'm sorry, sir.

MR. MUSZIK: Good evening and thank you for allowing me to speak. My name is Cody Muszik, and I'm a proud 2021 graduate of the Quehanna Boot Camp Program. I'm also a father of two -. The six months I spent at Quehanna - to most people, Quehanna just might look like another prison on paper, but I'm here to tell you it's nothing like a traditional correctional facility.

From the moment we stepped off the transport van, the yelling started immediately, discipline kicked in and we were no longer inmates, we were teammates. However, I want to specifically share about the truly - what truly made Quehanna different, and that is the staff and the facility.

You see those outside the boot camp, see those staff members as corrections officers, but those who attended this program know them as drill instructors. These individuals didn't just enforce rules. They pushed us, guided us. And most

importantly, they cared.

The drill instructors have commitment and pride in everything they do. The intensity when calling a cadence and we're entering the barracks, their presence, their absolute dedication to the mission of building men and women from the inside out was nothing - or was something I'll never forget.

Watching them, watching the way they carry themselves, their discipline, their leadership, their standards, it lit a fire in me. I promised them that after my graduation of the boot camp, I would pursue enlistment into the United States military.

When I first heard of the news of the potential closure of Quehanna, it felt personal. This facility gave me a second chance and I'm here today because of it. It's not just a building, it's a place where I learned who I could be. And I know there are many others who will benefit from the same opportunity.

Because of Quehanna, I walked out a changed man. I rediscovered my faith, I found direction and I came determined to lead a better life.

Since graduating Quehanna, I've gone on to achieve many great things. Within a year of graduation, my intensity level on parole was lowered from high intensity to minimal supervision. I've had no violations, I've completed CDL school and I'm currently in college.

I've also been working with a recruiter who has made me eligible for our felony waiver for enlistment upon completion of my last two years on parole. Please don't keep - don't close these doors on future teammates who deserve the second chance that I was given.

Quehanna works. It builds character, it restores dignity, and it prepares people for life.

MR. WALLACE: I'm Vernon Wallace. I'm a retired correction officer and it's going to be hard to follow that.

Panel, thanks for listening to us. I said, I'm a retired correction officer and now I'm a van driver. I drive four small kids to school and they're the reason I'm here today, because I - I told them where I was coming tonight and they said, you need to get up there and talk. And I said, well, how can I teach kids something if - you know

actions are stronger than words? So here I am.

This is small town rural Pennsylvania. This is what it - this is what it is when you live here. I'm retired seven years now and I could have moved. We don't have any family keeping us in the area. We love it here. We stayed, just me and my wife in our home. Kids are grown up and going. We stayed. Could have sold the house, gone somewhere else and done whatever, but here we are.

So I don't have numbers that expand on everything. What I'm going to talk about is impact. I worked as a correction officer a Houtzdale for several years, came to Quehanna and was not welcome with open arms. It's a - it's a tight-knit community. And when I came in 2005, the program was starting to evolve from the boot camp into some other things.

And we need to talk about politicians getting more creative and saving this, because it's worth it. But anyway, once you're here, your integrity, what you do, I became accepted after I was here for a while. And so I enjoyed the rest of my career here. And it was the best move I ever made coming here.

I think you need to save this place. Go back to Harrisburg. Give some good reports about what you heard up here.

You know, not to get political, but you know, the Governor, I'm hearing good things, that he might be making a run for President. You know, he needs small town America. Small town, that's what we are here. That's what we're doing.

MS. HEINTZELMAN: Good evening. Can you hear me? Thanks for having us tonight. I really appreciate it. My name is Julie Heintzelman. I am a Corrections Counselor, Treatment Specialist 2 at SCI Dallas. And I've been there for going on 19 years.

I apologize if I stutter or I miss my words. I'm very tired. I flexed my shift today, 6:00 to 2:30 and then I jumped on 80 and stopped at the Pilot gas station in Conyngham and had to pick up my road dog. So with me I brought Brooke Sidiello, PSS at SCI Houtzdale. Bill Barringer, he works at the Scranton CCC. He's a Corrections Counselor 2. We have Steve Jerrell, our fearless leader. And we have Jenny from the block. She came to support the union and to support the members. She's still a die-hard purple person. She used to

be my cellmate at SCI Dallas on I Block for many years. She was -.

Okay. And so thanks for having us here. I apologize if I'm tired. I'm hopped up on chocolate chip cookies and coffee. So I have also - I've been there for 20 - almost 20 years. Before then I worked at SCI Retreat as a contract worker. I started my career in corrections as a Drug and Alcohol Treatment Specialist. Then I went to the best kept secret in the DOC, treatment specialist.

All right. So with that, I'm also the chair of the SCIU Local 668 Corrections Committee. And our people do a lot of the work that everyone's been talking about tonight. We're the drug and alcohol staff. We're the corrections counselors. We're the psychologists. We're the social workers. We're the employment staff.

They do great work at Quehanna. We do great work statewide. The sad thing is we were at the public hearings for the SCI Retreat closer a couple years back. We experienced firsthand the destruction that closure did, overcrowding, hiring freezes, uprooted families. Every day on my way to work, I drive past SCI Retreat. It's a vacant prison just sitting there, costing taxpayers money.

Are we warehousing inmates? It feels that way. Being a treatment specialist, we run wonderful groups, but it seems like right now we're just moving inmates around the state. That's sad. That is very sad.

I want to just say one thing. We understand there's budgets and stuff to handle. And I understand. We understand the position that you're in.

But Secretary Harry, I saw compassion in your face. Our girl, Jen, spoke. She's a Drug and Alcohol Treatment Specialist at Quehanna. I started as a Drug and Alcohol Treatment Specialist. And I believe you started as a Drug and Alcohol Treatment Specialist. We see the compassion in your eyes. We know you have big decisions to make.

But please make the right decision. Don't just move inmates around the state. Let's really buy into the treatment that we're giving them. Help people out and have law-abiding, productive citizens released from our facilities. That's really what it's all about.

MR. BECKER: Good evening. My name is Bill Becker. I am the business agent field rep for the Bricklayer and Allied Craftworkers, and I'd

like to tell you my concerns about the possible closure.

I don't know if you're aware, but our union is working with Quehanna Boot Camp to help the individuals when they are released to join our union, become a productive part of society. I am involved in other OACs with other institutions. And I just tell you that the work that Mr. McCullough does with these individuals is second to none. The quality when they come out of there is unbelievable.

Recently, Michelle Jennings and her staff visited our training center down in Bowie, Maryland. Had nothing but positive results from that. In fact, things are progressing that well that we now have Mr. Tom Allman, who is the business agent in Local 9 Pittsburgh, and Mr. Jeff Horner, who is a business agent with the labor union also involved.

So I hope you would take these facts into your consideration when making the final decision. Thank you.

MS. RAUCH: Hello, I'm Jaime Rauch. I am a DATS Supervisor at Quehanna Boot Camp. I would like to propose that Quehanna already fulfills the Department's mission of change. We all know our

mission statement. I believe we've always embraced our mission and these concepts and continue to desire to strongly support this endeavor.

I would like to share with you why Quehanna works. Obstacles to recovery are removed. We're separate. The typical distractions that can be in a jail are minimized, if not diminished through discipline, accountability and hard work. From what I can see, our population has very little distraction from drugs, gang influence, and according to recently released reports, violence.

Reentrants are able to focus on recovery, because these obstacles have been removed. They receive strong daily support from our staff because we're able to truly focus on care, custody and control, three words instilled in staff starting out as trainees at our academy and realized daily in our programs.

We've been fortunate to be able to create this healthy environment due to our separate site, where we can focus on our mission that is 34 years strong. In talking with staff working at other facilities, it has become apparent to me that they don't have that environment. Hence, they deal with many of the typical problems that plague the

system and do not always lead to the best outcomes. Know that the staff do not take this for granted. We are well aware of how fortunate we are.

Consider that at one time Quehanna was chosen as a primary facility to provide SDTP programming, and we also provide SSP at this time. I believe it's another testament to our dedication to the Department's mission, because we understand the environment we've created is a healthy setting to facilitate change for every reentrant.

Lastly, I would like touch on the news traffic about Quehanna having no fence and a highway running through our jail. I submit this. In the 34 years of Quehanna's existence, yes, there have been three walkaways, but there have also been several documented escapes from regular SCIs during this time period.

What does it mean for this evening? Just the recognition that these three people vetted by the Department to eventually be released back into the community four to six months after arrival of perhaps 15,000 to 20,000 reentrants who have passed through our program.

AUDIENCE MEMBER: Yeah.

MS. RAUCH: This low number is a

testament, again, to the hard work and dedication realized at Quehanna.

In closing, we give opportunities for success. Each program instills a sense of discipline with the staff, providing the supporting opportunities to get it right this time. Our staff believe it. We share that enthusiasm, we embrace it and we live it.

MS. NATOLI: Hi, you all. Love you man, love you. You know I do. You know I do. I'm Mary Natoli. I will try to put the 30 years in my work experience at Quehanna to two minutes.

The boot camp at Quehanna is a facility melieu. So the trouble with moving it is that the whole thing is a melieu. So that the whole environment is that of treatment.

When we - when we first got back on track inside, because we were expanding - it's an alternative sensing place. So we've had SDTPs, back on - you name it. Women that were like - you know, what are we going to do with them? All these general population women in that housing unit.

When we got back on track, everybody was like, oh, my God, they're going to change the boot camp people and they're going to affect them in

a negative way. And then you walked in the unit, they all stood at attention. Like these were general population inmates at another institution that because of the environment and the staff's influence, changed into the melieu of what our facility is.

And our - and the Quehanna place, you know, I think at its core is love.

AUDIENCE MEMBER: Yeah.

MS. NATOLI: And most facilities don't talk about love and deep respect for the humanity and the dignity of people.

And I think we have that not just for the staff itself, but also for the residents that we serve. And that when a family member is there, they're treated with the highest regard that - we serve them because they pay our salary.

AUDIENCE MEMBER: Amen.

MS. NATOLI: The whole alternative sensory -.

In 1991, the federal government gave us a grant to open the place. And the idea was we get our money back through recidivism reduction, through them going out and getting jobs and paying taxes. And that we would make them like citizens of

every place that they belong. Gotcha.

The problem is sometimes you cannot see the impact because there's no place to put it. Like we had -. I remember the guy - they brought - the officers in the beginning would bring in Hooked on Phonics and spend nights with inmates that couldn't - that got a high school diploma but couldn't read or write.

I remember one inmate, I won't say his name. His goal was to write a letter home to his kid and go home and read Green Eggs and Ham to his three-year-old. Now, where do you put that stat? Because there's no -.

I understand. I understand. I got you. I love you, I do.

PASTOR GERHART: Your two minutes -.

MS. NATOLI: And I'll end. I'll end. But those kind of stats, you can't - you can't pinhole that. You can't pinhole that kind of impact, because nobody catches that.

And for me, I love you guys. I'm proud of you all. You have - you have kept the mottos alive and you have truly made me proud of being a Quehanna employee.

MR. BLAKE: Okay. I don't know if

you know who this guy standing up here is. I used to be the Commander. I was the last Commander. I just retired about a year ago. All right.

I'm from South Carolina. I was very, very upset when I heard Johanna was closing because I've always told them in inspections, we're a small facility and carry a big punch. All right?

For me, I'm from South Carolina and I came up here back in 1994, the first black officer at this facility. And the basic bottom line is, like I was saying, what the hell is going on? But the thing was I - I did my little time. I went to another facility for 15 years. I came back here as a Major and I made Commander here.

The thing was - is I came back because I care about this facility. I care about the people at this facility. And the thing is like they do a lot more than other facilities. And you may not think that, but they do a lot. They care very much about their facility. They care very much about when they get inspected, because they want to know what's going on. They want to know, because they always worry about things.

And the thing is, like what it is, is like it just - the thing is, it's very hard. It's

very hard for me to hear this, because the thing - we had to be - control our own destiny. And then if this is our destiny, it's not right. It's not right. This is our destiny. All the work we've done.

And for you, Senator, we met and I'm trust you that basically you're going to do something with this legislation, because that's what we need, you know.

And so basically what it is, like I'm not going to sit here and beg, but I'm going to say, give this opportunity, give him opportunity. Because basically what - things can change, you know, change can change. All right? And I'm going to go, because I know you're looking at me because you want me not -. Okay. Thank you for your time.

MR. GRAHAM: Good evening. My name is Sam Graham. As of right now I've only heard one former inmate from the facility with the boot camp here speaking tonight.

I am the second of your State Drug Treatment Program. You have to have focus and determination to make sure that their wishes are known and how they can achieve them. That's what the programs at this facility teach. So if anybody

can do anything to stop this legislation with anyone, please do. Because I do not feel it is appropriate to shut down a program and a facility that is working well. That's all I have to say.

MR. MITCHELL: Good evening. I'm Mark Mitchell. I'm the Superintendent of West Branch Area School District, the one most directly affected by this possible closure.

Much of tonight's testimonies and prominence in the sessions that I've attended, watched or participated in over the last few weeks usually talk about money, statistics and numbers, to the success of the boot camp. And it goes without saying.

However, tonight I have additional focus. Does it affect the school district financially? Absolutely, no question.

However, I want to focus on the effect it has on our community. Beyond that, the effect it has on our school community.

The West Branch Area School District is the hub of this community and we take extreme pride in that.

More importantly, I want to focus on the impact it has on the children of our school and

community members.

Drive through our communities, Hawk Run, Allport, Pinchy, Morrisdale, Kylertown, Munson, Drifting, Lanse, Gratz -. I'm sorry. We have very limited and declining business and industry opportunities. We are not a high-toll area. What we are, though, is a community of tight-knit, committed, dedicated and hard-working people.

The boot camp is what keeps people here. It keeps families here. The effects of closures go beyond the obvious. The employees provide for their families, they provide the stability for the families. And again, most importantly, their kids. Kids's social, emotional, well-being is at a higher than ever level of concern. Closing the boot camp directly and negatively affects us.

You mentioned guaranteed employment. And I've heard the guaranteed employment is at least an hour away, at best. So what you're talking about is this means kids moving to new communities, new schools, new neighborhoods. Never easy for anyone, let alone children.

In an area already experiencing declining populations, a closure like this will be

devastating, impossibly impossible to ever recover from. We will lose students, we will lose staff, we will lose a huge part of our community, our families.

I hope you take a look beyond the numbers and look at the effect of the community as well, and in particular the effect it has on our children. Thanks.

COMMISSIONER CONCEPCION: Thank you, Secretary Harry for the opportunity to talk to you this evening. My name is Amber Concepcion. I'm one of the County Commissioners for Centre County.

Recently we sent a letter to the Department of Corrections strongly supporting the preservation of the Quehanna Boot Camp and Rockview SCI, with substantial data explaining the economic impact in the communities in our county, Clearfield County and surrounding counties.

In the time since the announcement of the Department of Corrections' consideration to close these facilities, we've had the opportunity to hear from many employees who have been in contact with us and even inmates who have been in contact with us regarding the potential impact on their lives.

What I've heard from employees over the past couple months has been consistently pride in their work, commitment to the well-being of the inmates who are in the correction system. They're committed to the mission of rehabilitation, they're committed to their team of coworkers and they're committed to their local communities.

They've also shared with us some of what the impact of potentially having to move to a job this far away, whether that would be uprooting their family or potentially long commutes. And for many people who have children who are school-aged children, they explain this is really almost not doable for them. They appreciate the guaranteed employment at another facility, but the prospect of either moving away from their support system in terms of their local family that helps them with their children or their elderly parents, to be able to do these really demanding jobs, that it's really going to be tremendously stressful on them and their families.

I think it's important to consider that closing the Quehanna Boot Camp, which provides some short-term savings for the state, but those savings come at a cost to the local communities.

Those savings will be short-term, but the cost would be long-term for this community. So I would appreciate if you could please consider how all of these factors would be impacted in your decision. Thank you.

COMMISSIONER HIGGINS: Hello, Secretary Harry. I'm Centre County Commissioner Mark Higgins. I served my constituents for ten years and I'm here to talk about not just the inmates who have sent the elected officials in the front row well over a hundred letters begging to keep both facilities open, and not just the 892 employees of both facilities, many of whom are here, who worked very hard. They're dedicated, they have probably tens of thousands of years of experience.

I'm here to talk about the community. I'm here to talk about the local businesses that supply the facilities. I'm here to talk about the local businesses who receive millions - tens of millions of dollars of business based on the payroll of both facilities.

The closure of these two facilities will blow a $118 million annual hole in the heart of Pennsylvania. Please, I ask you to consider this. Thank you.

MR. TRESSLER: I'm a 2015 graduate of Quehanna Boot Camp. After hitting a rock bottom place in my life and overcoming injuries - I sustained an accident. My wife and four children were all at home. And this was a depressing - depressing place to start off with.

During the blackout period, I found out my father was diagnosed with Stage IV pancreatic cancer. This place, Quehanna Boot Camp, the people here, the DIs, Officer Martin, especially, I think he's a Lieutenant now, because I don't think he's got that eight count anymore. They saw more than just an inmate in me. They seen success, the road, recovery in more areas than one.

They're kind, compassionate, caring. They helped me maintain my strong, my - they helped me remain strong not physically, but mentally and emotionally dealing with my father's sickness.

Daily DIs, Commanders, Lieutenants, everybody was always checking on me throughout this painful process. Although they had to remain tough, they had to be tough in certain areas, I would never have asked for a better place to be.

I'm not proud of my decisions that got me here, but I'm a proud follower of Jesus

Christ. I'm a husband of 16 years. I have four children. I run an extremely, extremely successful business and I pay a lot of taxes.

So if anybody wants to see redemption, restoration from a dark situation, here I am. There is success in Quehanna, more than what most people ever realize.

To close this place would be detrimental. I couldn't imagine the people behind me not having this opportunity to succeed in life. It worked. It paid off. I thank QBC. Thank you.

MS. MCGUIRE: Hello, my name is Jamie McGuire and I've been at Quehanna for the last five years. I wear many hats there. I'm on the - I'm the COVID chair. I'm the co-chair of the Wellness Committee. I'm on the Employees Association and I'm a local citizen team member.

I tell you this because I want you to know how much I take into consideration wellness. Not even for the staff, but also for the reentrants that we have there. I love what I do there. I've worked very hard to get my job there. I did two internships and also got multiple degrees to be able to get myself there.

I saw the difference that Quehanna

made so many years ago. And I wanted to get back there to do that work with them again.

When I started there, I agreed to fulfill the mission of the DOC, which I can stand before you today and say that I do that and all of my fellow coworkers do that there at Quehanna. Each department at Quehanna fulfills and models the DOC mission to the highest standard.

Each day our very purpose there is to help rehabilitate every - entrants, teach life skills, provide certifications and instill hope of a better life for them. Our goal is to help build better citizens to return to our communities, to your communities.

Yes, I can stand up here for hours telling you how great we are at Quehanna. Each of us brings something different to the table into the DOC mission. And I understand that I can take me and my greatness and passion to another institution. Just like you said yourself, you have great staff everywhere.

We can take our Treatment Department, the Education Department and other COs there. But what you can't take with you is the environment and the atmosphere, the sounds of the peace and quiet of

the Quehanna Wilds. Walking outside, seeing the elk, deer and other various wildlife. The absence of the clanking cell doors and the constant radio calls for backups because of medical emergencies and staff assaults.

As we are here, you can also reduce the fight or flight and it can be turned off for healing to begin.

In closing, I would like to leave you with this. When we found out the news of the potential closure, we were devastated. But true to our Quehanna standard, we continue to work and do our jobs, because that's what we believe in. I'm proud of us and our fight for Quehanna. And I hope that you look around here tonight at all of us and see that fight and see that pride because you have an exceptional team at Quehanna. Thank you.

PASTOR GERHART: Kind of hope you get the feeling that this would be like taking the Eagles away from Philly. I want to thank you all for coming out tonight, for your time and for your input. And I'm going to turn it over now to you who's been so patient hearing our community. Thank you.

SECRETARY HARRY: Thank you. I can't

thank you enough. I truly appreciate everyone coming here tonight. And I see that. I see that pride. I see the resilience in the individuals who came up to speak.

If you are sitting there thinking, hey, I - I really have some feedback, I didn't feel like coming up tonight, you can reach out to us and - at our website. It's core.pa.gov. It's C-O-R.P-A.G-O-V. We welcome your feedback in that form as well.

As we move forward again, we will abide by our Act 133 legislation as it guides the decision-making process. And we will review all of the feedback that was brought forth tonight this evening.

The earliest that we do anticipate releasing our final report would be sometime during the week of May 12th. We will post that final report on our website, where we plan to address some of these concerns. And I just want to ask you all to join me in a round of applause for Pastor Joe and the volunteers in allowing us to use their facility. Thank you. Thank you so much.

PASTOR GERHART: Sorry, this is a weird housekeeping, but I need a Michael Merville to

come and get your credit card from me.

SECRETARY HARRY: But yes, once again, we know this is difficult. And I know it's an emotional and challenging time for everyone, but really appreciate the thoughtful comments, the respect and professionalism you showed here this evening.

And certainly was very clear that you value this community, value your worksite and we certainly value you as well.

So thank you very much. This concludes our event. So safe travels. Thank you.

COURT REPORTER: All right. So you said you wanted the expedited, the seven-day return and the rights of publish. Okay. And then would you need - I guess, would you need physical or email copy?

MR. RADZIEWICZ: Email copy.

P R O C E E D I N G S

DR. SANTINI: Good evening.

Welcome to Bald Eagle Area School District. My name is Chris Santini. I'm the Superintendent of the school district. We educate about 1,500 students in a 345 square mile area here. And we were asked to host this event and willingly stepped in to do so because we have parents and family members who work both at Quehanna and at Rockview.

It's our official position as a school district that we don't want to see either facility closed for that reason, because it's a burden on those family members who are either going to have to relocate or having long commute.

But I'm not here to give my opinion, they're here to hear yours. Just on the record, we are hoping that both these facilities stay open.

And again, we want to welcome everybody here to Bald Eagle. I would say that, you know, as the evening goes, please don't take your frustrations out on our facility. You know, we have several of our own staff here working the sound and working some other stuff. Our custodians did a lot

of work to get the overflow seating ready. We have two of our own police officers here. So we're invested in making this an event where you can be heard. And we're glad that, you know, these folks have come here to hear what you have to say.

So without further ado, I'm going to turn it over and best of luck tonight.

MR. TARKOWSKI: Thank you, Superintendent Santini.

Good evening and thank you, everybody, for joining us here tonight.

My name is Ryan Tarkowski and I work in the Press and Communications Office with the Pennsylvania Department of Corrections. Thanks again to Bald Area - Bald Eagle Area School District, Superintendent Santini and all the staff to make this event possible for us here tonight. We are looking forward to using this facility and hearing from you this evening.

A couple of very brief notes before we begin. Tonight's hearing is being audio and videorecorded and will be transcribed for the record. We're not going to take a break, no formal break tonight. We want to hear from as many people as possible, so we're going to try to keep things

moving.

As I'm sure everybody knows, restrooms are available through the back, so if you need to step out, feel free to do that at any time.

Tonight we're going to begin with opening remarks from the Department of Corrections, followed by invited guest speakers, including elected officials, your union representatives, and the Superintendent of SCI Rockview. And then we will open up the floor for public comment.

We'll go over the specifics for the guidelines related to the public comment in just a few minutes, but so you can begin thinking ahead. Our goal, as always, as the Superintendent said, is to be respectful of everyone's time and facility. We want to make sure that all voices are heard.

So please keep your comments to two minutes. When we get to that point, when the public comment portion begins, we'll ask folks to form two lines, one at each podium. Someone will assist you with the clipboard, so you can print your name for the transcript.

Again, this is all being recorded for public record and then wait in line until you're prompted to the podium to come and speak.

In order to help everyone stay on time - stay on time, we do have two countdown clocks. They'll flash red when your two minutes is up, and then you'll be asked to return to your seat against - on the aisle against the wall there on either side.

After public comment concludes, Secretary Harry will have some brief closing remarks. And with that, I'll turn it over to Secretary Laurel Harry and the rest of the team from the Department of Corrections.

SECRETARY HARRY: Thank you, Brian. Good evening. We are here tonight to hold a public hearing, and this is regarding the proposed closure of SCI Rockview, all in accordance with Act 133, the Public Safety Facilities Act.

So before we begin, I have asked our Chief Counsel, Tim Holmes, to provide just a very brief overview of Act 133.

ATTORNEY HOLMES: Thank you. Hello, I'm Tim Holmes. I'm Chief Counsel for the Office of Chief Counsel for the Department of Corrections. We are here in part because of the requirements of the Public Safety Facilities Act.

35, Pennsylvania Statute Section

10273, Paragraph (b)(2), provides that a public entity must hold at least one public hearing in the county where the public safety facility is located prior to a final decision being made.

For the purposes of this Act, the Department of Corrections is a public entity and the State Correctional Institution at Rockview is a public safety facility. Therefore, we are holding a hearing here at the Bald Area High School - Bald Eagle Area High School. Pardon me. Thank you.

SECRETARY HARRY: Thank you. As mentioned, I am Laurel Harry, and I'm the Secretary of the Department of Corrections. Joining me here up on stage is Christopher Oppman. He is the Deputy Secretary for Administration. And Mike Wenerowicz, who is the Executive Deputy Secretary - Executive Deputy Secretary for Institutional Operations.

First, I just want to thank all of you for being here, for taking time out of your evening to come and share feedback tonight. I also want to recognize our special guests.

We have Senator Dush as well as Representative Takac. I believe Benninghoff is on his way, so I wanted to recognize him, and Representative Conklin as well for their attendance.

And a special thank you to Dr. Santini for allowing us to use this space this evening, and we appreciate their time in allowing us to be here.

So proposing SCI closures is honestly especially difficult for me because I have been through a closure myself. And I have two staff on our executive team who have also been through closures. And we understand the impact of a potential closure to both our staff and the community. And please know that we do not take this lightly, which is why we are here today, because we do want to hear your feedback.

And tonight is really about your input. We will keep our comments brief and we would ask that our invited stakeholders be respectful of their time, so that we can prioritize hearing from all of you.

This is a listening session, not a question and answer. So while we won't be responding tonight, we will be taking notes of any comments that you are making and your feedback, and we will be sure to address those either in our final report or other appropriate forums. All feedback has been analyzed up to this point and will continue

to be analyzed during this three month period.

Please understand that these proposed closures are in no way a reflection on our staff or the quality of their work. We are extremely blessed to have exceptional staff in our department. And that includes SCI Rockview. And quite frankly, that's what makes tonight very difficult. And it makes a proposed closure very difficult because we do have amazing staff.

We have been carefully reviewing feedback and we will continue to address concerns. But I did want to briefly comment on a couple of the concerns that we've heard from feedback thus far.

First, I wanted to talk just about prison crowding and prison capacity and crowding concerns. So even if the two proposed facilities would close, male facilities will still operate at less than 90 percent capacity, and our female facilities will operate under 80 percent capacity.

So the roughly 2,500 male inmates currently at Quehanna and Rockview will be spread out among the remaining 20 male prisons in our system. And then the approximately 50 female inmates at Quehanna will be absorbed into our two facilities that house women.

As you know, if Rockview would close, we have guaranteed jobs for all impacted employees. And honestly, one of the reasons for our declining incarceration rates is in part due to the Justice Reinvestment Initiative 2, which was placed into legislation, and it has led to a decline in our incarcerated population.

And as a Commonwealth agency, we have to consider costs and operational efficiency. And maintaining a system at 80 percent capacity statewide is not fiscally-responsible. And even with the closures, we will be able to operate efficiency - efficiently while reducing overhead and future maintenance costs.

But all that being said, this is still a difficult decision and this is a decision that we do not take lightly.

So again, thank you for your time. Thank you for being here, and we are anxiously awaiting and open to listening to your feedback.

So I will now turn it over to Deputy Secretary Oppman, who will provide an overview of closure considerations. And then EDS Wenerowicz will provide an overview of SCI Rockview. And then we'll turn it over to our moderator, who will guide

us into the next phase of the hearing.

MR. OPPMAN: Thank you. Secretary Harry. Good evening. I'm Chris Oppman. I am the Deputy Secretary for Administration for the Department of Corrections. The Department of Corrections has an annual budget of $3.3 billion. This is a significant amount of the Commonwealth's overall budget, which increases on average 4.5 percent per year. The dollar amount is an increase of over a hundred million dollars for the Department of Corrections each fiscal year.

This financial obligation creates intense scrutiny as state officials compete to fund necessary services for all constituents. Annually we conduct a facility analysis of all of our institutions. This analysis is done in the event of a possible prison closure is considered due to the appropriation the Department might receive.

This analysis includes the total cost of the facility: personnel costs, operating costs, cost per inmate, recent and future capital upgrades, long-term contract requirements, total personnel, total prison population, facilities within 65 miles, specialized programs and housing units, medical programs and infirmaries, facility condition and

challenges, as well as natural - natural disaster risks and mitigation procedures.

As of March 19th of 2025, our total prison population is approximately 38,000, with an excess bed capacity of approximately 7,500 usable beds. Our current operational footprint decreases operational efficiency and increases the strain for financial resources to operate the current institution and community centers. While our population has declined, the cost to operate correctional institutions increases. Our cost per inmate has increased from $137 per day in fiscal year 2018-'19 to $186 per day in '23-'24. This is a 36 percent increase over five years, outpacing our annual appropriation.

Our capital funding budget is approximately 55 million in any given year. This amount is insufficient to address large construction or repairs, which creates a situation where the DOC must prioritize projects with the most urgent needs and push off other projects into deferred maintenance for future years.

The current ten year deferred maintenance is approximately $1 billion. If deferred maintenance is not addressed in the current

year, it can create a cascading deterioration and the cost doubles in five years. Our staff, with the resource they have - work with the resources they have to triage maintenance concerns, but annual capital funding is limited and cannot address all the needs in a timely manner. SCI Rockview requires approximately $75 million in upgrades over the next five years for the planned capital projects, working with the Department of General Services. Mothballing expenses will be incurred for Rockview, which is approximately $1.58 million, but future operating expenses of $112 million a year to continue to operate could be avoided.

The administration does not take this lightly. We know that a prison closure could impact our staff, who have done an excellent job to maintain the safety and security of the facility. That is why we have instituted a targeted hiring freeze in surrounding SCIs to ensure that all current staff at Quehanna as well as Rockview would be able to make selections on where they would like to be placed and work in the future.

If a closure would happen, the DOC is committed to making job offers for all staff and will work with the unions on this process. Staff

would fill out a survey, asking them to rank their preference of which SCI they would want to transfer and we will propose a secondary recall list, like we have done in previous closures.

We also know that a proposal can have an effect on the local economy and we are sensitive to that. Our facilities are located in rural areas with limited options for employment. We are still looking to ways to operate within our appropriation, regardless of whether or not this proposal is approved for closure. However, we will make the safety of our staff, inmates and general public the number one priority.

We are actively reviewing all potential impacts a closure would have. We are working with other state agencies to review all the consequences. But most importantly, we are listening to you.

We understand the greatest impact will be on our employees, their families and their communities, and we thank you for your input.

And now I'd like to turn it over to Executive Deputy Secretary Mike Wenerowicz. Thank you.

SECRETARY HARRY: And before he

speaks, I apologize. Representative Kephart, I missed you in recognizing you. Thank you for being here tonight.

MR. WENEROWICZ: Good evening. I'm Mike Wenerowicz, the Executive Deputy Secretary for Institutional Operations.

I want to thank -. Sorry. I want to thank the Rockview staff, elected officials, community stakeholders for this opportunity to address you on behalf of the Department. This evening I want to present a brief overview of SCI Rockview. And I want to be clear that the proposed closure does not reflect the staff's performance or the outstanding work that they have delivered over the years and continue to provide on a daily basis.

The development of SCI Rockview commenced in 1912, with the facility officially opening its doors three years later, in 1915. Initially, it was designed to serve as a replacement facility for the western and eastern state penitentiaries. However, in 1913, legislation was enacted to permit electrocution, leading SCI Rockview to function as an extension of Western Penitentiary.

At that time, it housed inmates

facing execution as well as those deemed to pose lesser security risks who were engaged in the extensive agricultural program outside the prison walls.

At present, this facility operates as a medium-security institution housing approximately 2,100 male inmates and employs a workforce of approximately 658 staff members. The institution has several specialized housing units, such as a Neurocognitive Care Unit, a Behavioral Management Unit, Residential Treatment Unit and a Special Needs Unit.

If Rockview were to close, these specialized units could be integrated into other state correctional facilities.

Additionally, the facility supports activity occurring in outside buildings, including the Forestry Camp and the site designated for the administration of the death penalty. These could potentially be shifted to SCI Benner, which is on the same grounds.

We understand that SCI Rockview has a historical significance and qualifies for the National Register. The Pennsylvania Historical Preservation Office knows not all buildings can be

kept, but ask the Department of General Services to look into whether some historic buildings could be reused or preserved.

If the Department decides to close the facility, it would be up to the Department of General Services to consider this.

I also want to note that the recent adjustment to our population capacity were not made to justify a facility closure. These changes reflected a post-COVID operational landscape, where the need for reserved beds and social distancing has diminished. This recalibration of the Departmentwide capacity aligns with current operational needs and was not an attempt to artificially inflate figures to support a closure.

And finally, I want to express my sincere appreciation and gratitude to the Rockview staff. Their exceptional performance, even in the midst of an uncertainty of a potential closer, is commendable. Thank you.

MR. TARKOWSKI: Thank you, EDS Wenerowicz. Now we'll move on to our invited speakers for the evening. And as a courtesy to everyone attending, just a reminder, we kindly ask each invited speaker to keep their remarks to five

minutes, to ensure that our public has as much time as possible to share their own comments. You'll also see that red countdown flash when your allotted time has been has expired.

So first up to the podium is Senator Cris Dush.

SENATOR DUSH: I'm going to hold off, if you don't mind.

MR. TARKOWSKI: Okay.

SENATOR DUSH: I do want to speak, but it'll be later.

MR. TARKOWSKI: Okay. Representative Takac, do you want to go? You're on.

REPRESENTATIVE TAKAC: Do I get the Senator's time? Oh, just curious. All right. All right.

Secretary Harry, Deputy Secretaries, thank you for being here. I will be submitting comments for the official record, but I want to briefly highlight a few things, and I'm going to focus in particular on Rockview, given that we had the meeting on Quehanna last week.

I stand today in full support of those who are fighting like hell to keep Rockview and the boot camp open. The Department's

recommendation to close these facilities really hit like a bomb, especially in our rural communities. The closures would have a devastating impact on thousands of our neighbors, on those incarcerated here, and on our entire community, including generations of retirees and others.

My office received hundreds of calls, emails and letters, including nearly a hundred letters from inmates. I've had countless conversations and even hosted public listening sessions across the district.

In short, I've heard a lot and I've learned a lot. And I'm not convinced that the current recommendations will achieve the desired outcomes, and worse, will hurt everyone involved.

Here's why. While all employees are guaranteed jobs within a 67-mile radius, such transfers will cause serious challenges. Daily commutes will be measured in hours, more in bad weather, not to mention the higher cost of gas and other expenses. Many will lose preferred shift assignments.

As one officer told me, Rockview folks will be, quote, left with the scraps.

Both will cost time with family and

upend carefully coordinated schedules for childcare, school, sports and more.

In addition, Rockview has a very high percentage of inmates with mental health and therapeutic needs and has several specialized units to take care of them. Uprooting and relocating inmates and the teams that care for them will have negative impacts on their health and well-being.

Many inmate letters attest to the high quality of care they're receiving. And in response to the proposed closure, heartbreakingly, many describe increased self-harm and even thoughts of suicide.

During the listening sessions, the staff repeatedly cited their familiarity and relationships with those in their care as key elements of successful treatment and violence prevention, allowing them to intervene early and avert crises. Many also told me that higher operational capacities increase the likelihood of violence.

Both staff and inmates have expressed concern about the instability and danger of new surroundings that may well include the threat of violence.

Furthermore, the economic impacts will be devastating. The Centre County Commissioners have estimated an annual impact of $118 million, losses that will be heavily concentrated and are already struggling rural communities.

Another impact would be the loss of the Community Work Program, which provides critical support to local governments, nonprofits and other community organizations.

In addition, there are many unanswered questions. As public servants, we, of course, have a responsibility to ensure that public spends - public funds, excuse me, are spent effectively and efficiently. However, it is not at all clear that the closure will actually save money.

The Steering Committee reported several necessary upgrades, including roofs, waterlines, boilers and road repairs. However, it's my understanding that many of these have already been completed. I've also learned that within the past few years major investments totaling tens of millions of dollars have been made, which would go to waste, should the facility close.

And more disturbingly, I've been told

several times that staff attempting to gather such information were told that the information could not be shared, effectively a gag order. Therefore, I respectfully request records of all repairs and upgrades completed in the last ten years, information on current and already contracted projects, a detailed breakdown of future projects, and estimates of one time mothballing and ongoing maintenance costs, should the facility be closed.

I would also request that this information be made public, given that it involves taxpayer money.

I'm also concerned that like other recently closed facilities, the Rockview complex may fall into disrepair and/or require significant ongoing maintenance costs, with little or no public benefit.

And finally, I believe there may be better candidates for closure elsewhere.

But returning to the question of closures, the proximity of SCI Benner presents a really unique opportunity. My understanding was the Steering Committee already stated that the Forestry Camp, Continuity of Government and Execution Complex, the Warehouse and Security Processing

Center would remain open and be supported by SCI Benner Township.

So why then couldn't other parts of the Rockview complex, the Correctional Industries Plant, the Chapel, Education Building, Neurocognitive Care Unit and other specialized treatment units, as well as some of the newer housing units also remain open? Maintaining these units and preserving continuity of care will result in better outcomes and save money.

In summary, by the Department's own admission, completely shutting down Rockview is not really being considered. So the question is really a matter of degree, how much will be shut down and how much will remain open?

I urge the Department to take a detailed and carefully considered approach to decommissioning individual housing and other units. The transfer of administrative and operational responsibility may be the best, lowest cost and highest-benefit solutions for the Commonwealth and for all involved.

In closing, I ask you to take all of this into consideration before making a final decision. I believe that when you do, you will

agree that this unique facility and its experienced professional team can and should continue to fulfill their mission for many years to come.

Madam Secretary, I urge you, please do not rush to judgment. Please listen carefully and take to heart everything you hear tonight. And most importantly, please keep Rockview open. Thank you.

MR. TARKOWSKI: Thank you. And now please welcome John Eckenrode, president of the Pennsylvania State Corrections Officers Association

MR. ECKENRODE: Hi. Good evening. Last week I chose to speak to the members. This week I'd like to speak to you guys on the Panel.

I'm going to talk about staff, the impact this is going to have on staff, safety of our prisons and a little bit about the community. Thank you.

I think it's important that you have this hearing to hear the impact of what this closure is going to be. We put a pin in a mat and we said that everybody's going to have a job. And that's great. I'm glad that people will continue to be employed. That's important.

But what we don't take into

consideration is the individual themselves. I may be outside of that 67-mile radius already, where I'm driving 60 works to go to Rockview or 60 miles to go to Rockview. This is going to be seniority-driven, where my - where I am placed after this closure, if it does happen.

When that happens, now I may be driving 120 miles or a hundred miles or 80 miles to work. This is a tough job. All these Corrections' jobs that we have, these different classifications, they take a toll on the individuals themselves that come to work every day and provide a service for the Commonwealth. They take a toll on the family members, the wives, the husbands, the kids that welcome these men and women back to their homes after they're 8 or 16-hour shift.

By placing that pin in the map and displacing these Rockview people that we're here tonight to represent, you're taking a - a toll on the family, possibly. Some of these people are going to be able to walk across the parking lot and that's great; very few. The rest of them are going to get dispersed throughout this 67-mile radius bubble and their daily commute is going to increase.

And we're going to take them away

from their families, number one.

Number two, it's going to have an impact on their wallet. We do shift work. It's a 24/7 operation. I think it was Representative Takac touched on this a little bit already. We have 20-year employees or better that have a little bit of seniority, that have pretty good jobs right now, shifts, bid jobs inside these prisons and they're going to lose that.

Then you have the younger individuals that are struggling to get a premium shift that benefits their family, their home life. And they're going to struggle more, because they are going to be put in these other facilities and they're going to be collecting scraps, for lack of a better term.

There's going to be plenty of people here tonight to talk about impact on the community. I'm going to leave most of that up to them, but I do want touch on it.

It's going to have an impact on local businesses. It's going to have an impact on school districts. And not only is it going to have an immediate impact, it's going to have a generational impact. These people, some of them are going to move. Some of them are going to move because they

have to, because they can't do an hour and you know, 40 minutes in a car.

Some people are going to retire somewhere down the road. And when they, when these people leave the area, they're not coming back and we're not replacing them by any new employees.

I testified yesterday at a Republican Policy Committee Hearing and I talked about absconders. And I'm going to correct myself because I threw a number out there that I wasn't prepared to answer the question. And I hope I'm right, but we're somewhere in the neighborhood of 1,900 absconders in Pennsylvania.

What happens if we find these people and we have to bring them back to our prisons? We have county inmates right now that are sentenced to state sentences. They're coming to our facilities also.

So we talk a lot about bed capacity. I understand that. Some of these beds that we're saying are available are being occupied by what we call Z code inmates. They're single-cell inmates. They can't be housed with anybody else. And I hope we're taking that into consideration when we talk about bed space.

Safety implications. I've been beating this horse until it's dead and I'll continue to kick it. We are tasked with care, custody and control of inmates. That includes intervention on when inmates prey upon each other, when they are physically assaulting other inmates.

And unfortunately, a lot of times when we intervene, we do our job, that physical assault turns on us. We're moving a massive amount of inmates in one time. It's going to change the power structures in our jails and we're going to suffer the consequences of that.

We asked and we question - and I know everybody has this question - is this really a cost savings?

Senator Argall did a study, and I know some other Senators did studies on the cost of shuttered facilities. And that number was staggering. It was somewhere in the neighborhood of 115 million dollars that you, the taxpayer, continue to pay for these facilities after they close.

That's not going to be any different for SCI Rockview, if it does close. It may help with our budget, the Department of Corrections, but that funding, that is going to get passed on to the

DGS or some other organization.

I realize I only got five minutes and I'm running out of time. I'm out of time, but I'm going to close with this. I wish I had some more time to tell you all the reasons why we should keep this place open.

In 1999, I started with Elizabethtown, to learn how to become a Corrections Officer Trainee. And there used to be a DOC model. I don't know if they still have that anymore, but I can't remember the whole model, but the first sentence of the model was, we are a team of dedicated professionals. The DOC is a team. Each individual jail is a family. And we need to keep this family intact. Thank you.

MR. TARKOWSKI: Thank you.

Next up we'll have Michelle Miller, a representative from the American Federation of State, County and Municipal Employees, or AFSCME.

MS. MILLER: Good evening. My name is Shelly Miller. I am a member of AFSCME Local 3564. We represent workers at both SCI Benner and Rockview.

We are the licensed practical nurses, nurses' aides, dental assistants, medical record

assistants, accounting assistants, IT generalists, library assistants, record specialists, clerical staff and purchasing agents who support our correctional officers and keep these facilities running smoothly.

I thank you for the opportunity to speak out tonight against the closure of SCI Rockview. We believe that closing SCI Rockview would be harmful for employees, inmates and surrounding community alike. As many people have noted, inmate population have leveled out across the state. I think we all view that as a positive thing in many ways, but it is no reason to close a correctional facility and risk overwhelming the others.

Having a manageable inmate population presents a great opportunity to renovate and improve the facilities we currently have, so we are ready for whatever the uncertainty fortune holds.

Instead, the power - the powers that be are choosing to uproot the lives of so many members of our community. We understand the impacted employees will be guaranteed a job at another state facility, but we all know that's not realistic. There are only so many open positions at

SCI Benner and the rest would be forced to travel much farther to another location to maintain employment.

To force people to travel farther at a time when the price of gas and everything else is skyrocketing, it's just wrong. It's so unfair. If this plan is implemented, we won't even have the opportunity to go to - opportunity - option of going to work at Quehanna Boot Camp.

The combination of closing both Rockview and Quehanna is a death blow to the region. Why these proposals so disproportionately harm Centre and Clearfield Counties is beyond me. We are the ultimate representation of small town Pennsylvania and small town America. And we rely on institutions like Rockview and Quehanna to sustain jobs in our local economies.

When we took these state jobs, we took them because state jobs have always meant stability and job security. That feeling is now being shattered by these reckless proposals.

We have many new employees at Rockview who took the DOC job optimistically. And now the rug being pulled out from under them. They can no longer go back to their old jobs and there

are no feasible options for alternate state employment. This leaves your employees in great despair and feeling helpless.

As a purchasing agent, I see how we purchase supplies from local vendors, small businesses that have come to rely on us.

In closing, just one of these facilities will have a major negative impact on our businesses and the local economy. We are talking about a small drop in the bucket for the overall state budget versus the notion for this community.

This facility and this community are worth investing in.

We ask Governor Shapiro, Secretary Harry and the Department of Corrections to see that - to reconsider this plan and to work with us and our unions to develop a more constructive way forward. Thank you for your time. Please stand with us and let's keep Rockview open. Thank you.

MR. TARKOWSKI: Thank you. And now let's welcome Melissa Bollinger, Registered Nurse at SCI Rockview and representative from the Service Employees International Union, SEIU.

MS. BOLLINGER: Hi. Thank you for your time this evening.

I am the Registered Nurse at SCI Rockview. I am the current president for our union. I also am a psychiatric nurse there. I've come here today to try and save Rockview. It is a - it's a wonderful place to work. I mean, being the psych nurse is great. I've been there for almost 13 years and we have one of the largest infirmaries in the state. We have an infirmary that can house 16 inmates.

We also have 10 PMC cells for psychiatric observation. We have the only NCCU in the state which houses 12 inmates with neurocognitive disorders, including dementia and Alzheimer's. Our institution also has a BMU, a Behavioral Management Unit, that can house up to 15 inmates at one time.

Our facility is one of a kind in the state. With all these extra programs that we have, an extremely large population of D code inmates. Currently we have 258 inmates with psychiatric diagnosis and are currently taking psychiatric medications. That includes the two whole blocks that we have. That's 178 beds in the two blocks.

And these guys are not guys you can just pluck up and move somewhere else, because

technically they're general population, because they're not. They have special needs and they are attached to the people that they work with, the COs, the psych staff, all of them. We keep them grounded and we're afraid they're not going to get that at another jail.

We also have 681 C code inmates that are on psych medication. So that totals 939 inmates. That's almost half of our jail that are receiving psychiatric care and other mental-health services, through psychology, activities and programming.

Rockview has been designated and equipped as an institution devoted to inmates with mental-health needs that would most likely be missing from some of the other PA prisons. Rockview's role in providing such services include offering tailored treatment programs, therapeutic environment and access to mental-health professionals to address both medical and psychological needs.

This approach is important because other prisons have often struggled to meet the needs of these individuals that require mental healthcare. And having specialized facilities like ours help the

worsening of the issue, because the other prisons will send them to us, because they just - they don't know what to do.

The Department of Correction does have a significant moral and legal obligation to ensure the well-being of both staff and incarcerated individuals. This obligation includes providing appropriate care for those with mental-health conditions, as well as taking steps to minimize risk and prevent harm in the prison environment.

Rockview has adequate staffing levels, mental-health awareness training and clear protocols for handling individuals in crisis, which are all important for maintaining a safe environment for both staff and inmates.

By closing Rockview - by closing Rockview, you will be putting the psychiatric inmates at risk. Instead of closure, perhaps proposal - propose other solutions, such as reevaluations of the cost projections or a more phased approach to operating the facility. This could potentially provide a compromise and demonstrate a willingness to find a middle ground that saves jobs and minimizes the economic impact. Thank you.

MR. TARKOWSKI: Next up is Dan David Brown, Corrections Counselor and representative of the Service Employees International Union 668.

MR. BROWN: My name is David Brown. I've been a Treatment Specialist for approximately 20 years at SCI Rockview. My position, as all other positions at Rockview -. Okay. My position, as all other positions at Rockview, not only are a job, but they're also in service of community. We treat drama, addiction, grief, economic struggles, reentry or reintegration into the community, just to name a few of the issues that are handled.

And though the task is daunting, any and all disruption to a treatment process simply undermines treatment. It's important for treatment to be safe. As you've heard and will continue to hear tonight, I'm sure, it goes out - it goes without saying that this also impacts community. Whether that's in commerce or whatever the issue may be you, for people having to travel, that obviously has a financial burden attached to it.

In this case, I would argue that closing Rockview will only add to risk regression. We're told that infrastructure upkeep in the overall system is too expensive. However, I believe an

approach of chopping the head off to cure the headache is not an effective way to balance our budgets.

If we look back in time, years ago we closed mental-health hospitals. It was an immediate savings on the spreadsheets. However, what happened, it ignored mental-health concerns and only transferred that cost over to Corrections.

So we didn't save anything. We just prolonged it and gave it to somebody else to deal with.

In the '90s, the State of Texas did the same thing. They oversimplified and look at all the money we saved, only to find themselves with greater financial burdens. Okay?

So to close a facility in general, any facility, this typically puts an issue on the table of filling or potentially overfilling other facilities to their capacity. We may not be in that position right at the moment, but it becomes an issue. You have less facilities, you're automatically faced with potentially overfilling facilities later in the future. Okay?

Overcrowding typically leads to an increase of violence. Community Corrections is

currently dealing with this issue. They're at capacity and their also seeing spikes in violence. Increased violence or combined with any other stressors negatively impact inmates and Corrections officers alike. You have concerns of burnout, staff shortage, injury to morale, medical expenses.

In addition to that, inmates are also impacted with an increase of recidivism, unchecked mental health and traumas, and again, medical conditions, which obviously impacts community on a number of levels, including financially.

Anything that lends itself to an unsafe environment in a Corrections' facility is not good for anybody. Just the mic -. Thank you.

As you've heard, PSCAO (sic) has also made it very clear their position, that safety and corrections begins with the staff and organizational structures. You know, to reiterate, I believe there's a better way to balance budget than just simply the slashing capacity. I believe that risk reduction is not accomplished this way. I would believe that it is important to be more creative in solving our financial problems.

So I would - I would ask that you very simply take a moment to think about that and

reconsider your path. Thank you.

MR. TARKOWSKI: Please welcome Senator Cris Dush.

SENATOR DUSH: Thank you. I am State Senator Cris Dush. I represent the 25th District, which is McKean, Potter, Elk, Cameron, Clinton, Jefferson and Centre Counties. Rockview employs personnel from 19 counties.

I'm a retired corrections officer. I opened up Houtzdale, Chester and Forest - Houtzdale, Chester and Forest. One of the interesting things that I've observed or found in my research is right now it's costing us about $160 a day to house inmates at Rockview, while at Chester it's 280. A third more.

This, along with what we learned yesterday, after touring the facility at SCI Rockview, where the paved roads that are on the report saying that they need to be repaired, the boiler plant that says it needs redone, the roofs that are said that need to be redone, those things are already done.

When this - when this process kicked off, and I was at the Appropriations Committee Hearings, I was taking your - your figures at face

value. I don't do that anymore. I'm Chair - I'm Chair of the State Government Committee, and asset closures and mothballing falls directly in my committee's jurisdiction.

You have repeatedly turned down the offer or the request for - for information regarding how - who's on the committee, how they came, their determination. When I'm looking at a cost of a third more at Chester, our biggest concern in the Department of Corrections, yeah, we are a team of dedicated professionals. That was at least our motivation.

But our - our purpose is to bring - make inmates better served and better able to be out in the communities. SCI or - the Boot Camp, has the lowest recidivism rate in the state. And you're turning - you're taking away that ability, because there's no way - as former Commander Frazer Blake indicated yesterday, there's no way you're going to put that in an SCI and have the same kind of effectiveness.

You've got a facility here at Rockview that has the second lowest recidivism rate in the system. Our purpose is to make these people - equip these people to be out there in their

communities. And you're taking the two most effective facilities in the Commonwealth and taking them offline. What does that do to every community in the Commonwealth? That's what I want to know.

So for this reason, I'm making an official request. You'll get it this week. I want to know, besides the things that Representative Takac brought up, I want to know the names of the committee members. I want to know all the criteria that was used. And I want to make sure that all those criteria were applied to every institution in the Commonwealth, not just targeted at a few institutions.

And I want to - I want to see what you guys use to balance it out and make a determination as to which facilities are going to be closed. You know, we got a lot of good people here. We hear testimony yesterday of some of the things - of the impacts that will be felt in this community. We have, not too far from here, the largest encampment of a Grange anywhere east of the Mississippi. It's a huge benefit to Centre Hall and the surrounding communities. And I'm just naming one, because my time's limited.

Six to seven weeks those inmates are

out there setting up that encampment. You take that away and try to replace that with paid personnel from - from the community, where you try and find enough volunteers that are willing to commit full days for seven - six or seven weeks to set that up, that encampment won't go away, the Grange Fair, but it will be - it will be severely impacted.

That's just one. There are a number of ways that this prison benefits our community. I want to know, and I want you to - I want you to reconsider, because I do want to get the bottom of that information.

MR. TARKOWSKI: Thank you, Senator Dush, and I will welcome the Superintendent of SCI Rockview, Superintendent Salamon.

SUPERINTENDENT SALAMON: Good evening. My name is Bobbi Salomon, and I'm the Superintendent at SCI Rockview. Before I begin, I would like to express my appreciation for the support received from State Legislators and Representatives, as well as local officials.

I would also like to thank Secretary Harry, EDS Wenerowicz and Deputy Oppman for supporting my decision to speak here tonight.

SCI Rockview has been a vital part of

this community since 1915. Spanning over a hundred years, this facility has been ensuring public safety while providing educational, vocational training for inmates ranging from farming, trades, woodworking and GEDs.

The proposed closures will affect staff and inmates, their families, businesses and community partners.

As state employees, we have a duty to the taxpayers for whom we must demonstrate fiscal responsibility. In the end, that responsibility may result in closure of SCI Rockview. But I ask that you consider some information and how we work towards the mission of the Department of Corrections before you render that decision.

The DOC's mission statement reads, the Pennsylvania Department of Corrections provides those committed to our care with programming, education and mental health services to reduce recidivism, while respecting victim rights and collaborating with stakeholders to ensure every reentrant has the opportunity to successfully reintegrate back into the community.

I'm going to take a few minutes to share the strong commitment the staff at SCI

Rockview have to this mission statement. It takes a strong, diverse team to ensure that a large facility like ours continues to operate. While the age of Rockview is noted as a concern, newer facilities are not exempt from routine and emergency repairs. Our maintenance staff are committed to proactively maintaining our physical plant. That includes those staff taking calls in the middle of the night to drive to the facility to fix the heat or patch a steam line.

While that may seem like just part of the job, how many of us have tried to get our heat fixed at 2:00 a.m. during a cold snap?

Food. People joke about prison food all the time, but the reality is that the staff in our Culinary Department take pride in providing the best possible with the funds and ingredients they have available to them. It takes a dedicated group of staff and inmates to provide three meals a day to over 2,100 inmates and several hundred staff.

The bulk of the responsibility related to the safety and security of those committed to our care is shouldered by our corrections officers, Sergeants, Lieutenants and Captains. The day-to-day operation of a safe,

secure and humane facility starts with them and they excel at it.

Our corrections officers are the reason the other staff can do their job successfully, and that the inmates can focus on their treatment programs, education and reentry planning.

SCI Rockview has dedicated treatment specialists, psychologists, social workers, religious services providers, activity specialists, therapeutic activity workers, reentry parole agents, unit teams and community volunteers who provide engaging and effective offense-specific and behavior-specific programming, proving - proven to reduce recidivism.

Reducing recidivism is the expectation for all state correctional institutions, but the most recent three year recidivism rate for SCI Rockview does show we have the second lowest recidivism rate of all male facilities.

It is generally accepted that education and employment are a significant stepping stone for success no matter who you are or where you live.

Anyone who takes a walk around our

correctional industry shop or watches our dog handlers socialize our rescue dogs will see the impact of these areas and what they have on a person.

The Rockview Forestry Camp is a program unique to Rockview and provides vocational training that is not available at any other facility. This includes a farm, with about 140 head and beef cattle, two bulls, numerous pigs and with any farm, several farm cats.

Our nursery grows all manner of flowers and plant - and are planted throughout the facility and can be purchased by staff.

The Forestry Program is also responsible for maintaining the forest around the facility.

The work ethic and reentry skills gained by these inmates is unmatched.

Rockview's Community Work Program has done a great deal for the community, setting - setting up the tents for the Grange Fair, sometimes taking them down. We have helped do the maintenance and upkeep in Little League fields, community pools and even cemeteries.

We know that no matter where the

inmates are housed, they're going to have access to programming and treatment. But what sets Rockview apart is our success related to these programs. Lower recidivism results in less victims, safer communities and stronger family bonds. This is what Rockview does for the Commonwealth.

With that being said, I'm here to ask that every effort be made to allow our facility to remain open, giving us the opportunity to continue the meaningful work in the community that have been very supportive of us. Thank you for your time.

MR. TARKOWSKI: Thank you, Superintendent Salamon.

Now I'd like to welcome the County Commissioners, Mark Higgins, Amber Concepcion and Steven Dershem. And they have agreed to go two minutes each. So we're going to combine that and do six minutes total.

You can say it for us.

REPRESENTATIVE HIGGINS: Everybody get their chance, Steve. So I'm Mark Higgins, Chair of the Centre County Board of Commissioners.

Secretary Harry and Deputy Secretaries, I request that the Department of Corrections withdraw the proposed closures of

Quehanna Boot Camp and SCI Rockview.

Representative Takac has received nearly a hundred letters. Commissioners received about a dozen or so. And they're heartfelt. They have written these letters at their own expense, begging for the facilities to remain open, because both facilities successfully rehabilitate inmates with innovative programs delivered by experienced, dedicated staff. The inmates discuss how moving will harm them, decrease their mental health and cause them to be fresh meat, once moved.

The next level of harm is to the 892 dedicated employees who are part of families and communities. Only a fraction of them will find SCI jobs within a reasonable commute of their current home. The rest will move, upending carefully constructed family schedules, childcare arrangements, care for elderly relatives and volunteer duties.

The harm to Centre, Clearfield and Clinton Counties - and we do have a Clinton County Commissioner here, Angela Harding - is huge. A huge 118 million dollar a year hole blown into the heart of the rural Central Pennsylvania economy.

Karthaus, next to Quehanna Boot Camp

in Clearfield County, may cease to exist. Many small businesses will be harmed. Some will close and hundreds may be laid off, who have nothing directly to do with the correctional facilities.

This does not include the harm caused by closing the community services detail. Who's going to set up the Grange Fair, as Senator Dush mentioned? Who's going to provide forestry services to DCNR and State Parks, maintain graveyards, assist churches?

Prison employees also ease critical shortages, volunteer firefighters and EMTs. These closures will also harm the taxpayer.

The capital cost savings appear to be overstated, including projects that are completed, already underway or would still be required if you close the facilities.

A small increase in recidivism will cost more than these projected savings. The cost to relocate or replace the 80 percent of staff who will move or retire early would also exceed your projected savings. So we beg you to withdraw your proposal. This proposal will cause harm and will cost the taxpayer money, not save anything. Please have mercy on us. And now I'll yield the floor to

Commissioner Concepcion.

COMMISSIONER CONCEPCION: Thank you, Commissioner Higgins. And thank you, Secretary Harry, for listening to our deeply held concerns about the proposed closure of this facility.

I concur with Commissioner Higgins' comments and emphasize that I see serious problems with the proposed closure to fall into at least three different categories.

One, impact on staff members for whom either adding a long commute or relocating will cause significant disruption for their entire families, including children and aging parents.

Two, impact on inmates for whom relocating will remove them from programs that meet complex needs or that promote rehabilitation.

And three, finally, the economic costs that will drastically impact Centre County and surrounding counties. The argument in favor of closing this facility is primarily focused on short-term savings by avoiding certain capital improvements that are needed at Rockview. However, these potential savings need to be balanced against the cost.

Disrupting programs that reduce

recidivism could increase incarceration costs over the long term. Increased crowding in other facilities will create a less safe environment for both staff and inmates, with greater risks to their well-being.

There would also be significant impacts borne by inmates who are part of the Mental Health and Alzheimer's Care Units at Rockview, inmates who are more vulnerable and potentially less resilient to disruption. One cannot expect that the programs located here, which has been built over decades, can simply be replaced in other facilities without significant detriment to their effectiveness.

The economic impact on our region would be monumental. The removal of 892 jobs will have ripple effects throughout our local economy. They will be felt not only in the loss of economic value, but the numerous other roles that these individuals fill in our communities, from volunteer firefighters and first responders, to youth coaches and to caregiving for elders.

For many reasons the estimated savings are likely an illusion, and there would be significant harm done to employees and their

families, to inmates and to the economies and communities in Centre and surrounding counties. Ultimately, any savings at the state level would be taken from the local counties in the form of losses.

So I strongly urge you not to close SCI Rockview or Quehanna Boot Camp. And I will turn it over to Commissioner Dershem for his remarks.

COMMISSIONER DERSHEM: Thank you. And I want - I really appreciate Dr. Harry and you - your folks coming out here and giving us the opportunity to speak. And I'll be quick because I know I'm running out of time.

But I grew up here. I grew up not knowing Rockview as Rockview State Correctional Institute. I grew up as the prison. If you - if you lived around here and you said, I work at the prison, we know where you worked. And we appreciate everybody that's here today that actually continues that tradition.

I have a grandfather, I lovingly call him - call him Poppy, who was taken hostage at Rockview in the early '50s. So I have a pretty darn good history of understanding exactly what Rockview is about. And I will tell you, one of the things that I'm proudest about is the fact that when you

mention Rockview, you're mentioning an iconic piece of Centre County. And that's incredibly important to hat I think is what we are as a community and what we rely on. And it's always been a rock solid piece of Centre County history for as long as we remember.

And I just want to - I want to leave it with a couple points. When Rockview was built in 1911 for $1.25 million, I would say over the course of over a hundred years, that's a pretty good return on investment. And I will tell you, whatever it takes to keep that place alive and keep it running and functional is important not only to what we understand as a community, but one of the things I know of as a County Commissioner for over 20 years and running a jail of my own. I will tell you that the recidivism level and what we see as the mental-health concerns in our community right now, particularly in our correctional facilities, is getting worse.

And to have the resource of Rockview and all the good that it does for the folks that are in there that need that help and that treatment, I don't think it can be understated or overstated. But I will tell you, when they talk about these Z

Unit folks, I understand, because not everybody is going to be doubled up on a cell. Some people need to be kept in a very, very special environment.

And you're not always going to have the capacity numbers that you wish you had. But I will tell you Rockview serves an incredibly important purpose in our correctional facility system. And I only hope that you measure that before any other actions are taken and please reconsider closing Rockview and the Quehanna Boot Camp, because it is integral to our communities. And we love what it represents and it's always been our home. So thank you.

MR. TARKOWSKI: Thank you.

We have a few more invited speakers before we open it up to the open public comment.

One person who could not make it here tonight is Senator Langerholc. He did submit remarks that will be entered into the record later today.

But we will welcome now Representative Kephart, please.

REPRESENTATIVE KEPHART: Thank you, Madam Secretary and Deputy Secretaries for coming to listen to us this evening. I'm State Representative

Dallas Kephart and I represent the 73rd Legislative District, which is Cambria and Clearfield County. So I have Quehanna Boot Camp in my district.

I live in the Philipsburg area, though, so not too far from Rockview. Since I spoke at length last week on the need to keep Quehanna Boot Camp open, which I still think by any objective measurement is completely misguided to close, I have agreed to keep my remarks more limited this evening and I will focus on Rockview.

I have many staff in my district that work at Rockview. I am concerned about the safety of our staff. Yesterday I was part of a group of Legislators that visited - visited Rockview and I'm concerned that when some of the most violent inmates are mixed into other prisons, it will put these staff members at risk, due to turf wars and such.

I want to make sure our staff go home safe at night or in the morning, because some folks work overnight.

Next, I am concerned that trickery will be done with this 67-mile radius guaranteed work. It is said that 67 miles from the facility, not the staff's home. So if you live in Clearfield or Philipsburg, you could get shipped to Muncy,

which isn't feasible for those people. We're talking almost two hours.

Next, I am concerned about additional mothball costs. We have spent a considerable amount of money in this state upkeeping facilities that no longer serve a purpose. Will this facility add to that? Will the taxpayers of Pennsylvania be doing upgrades anyhow, even when it is no longer a facility?

There is a lot of recent upgrades already completed that will need - they'll already be a slap in the face to taxpayers.

Additionally, I want to preemptively shed light on any proposed land purchases and transfer if this closure would happen. I know this would most likely be the Department of General Services handling this issue. But I want to state that large amounts of property with Rockview will be very valuable land if offered to go private. I don't want to see any sweetheart deal.

Also, economically, I want to note that these proposed facility closures are within 40 miles of each other. That would mean that if one - that would be a double whack to our local economy if both of these proposed closures go through.

So last note. You said about Senator - Senator Langerholc. I just want to mention that he couldn't be here. And Representative Borowicz. I spoke to both of them and they just wanted me to express their proposed - or their opposition to the proposed closures as well. So thank you for being here.

MR. TARKOWSKI: Thank you.

Next up is Representative Benninghoff.

REPRESENTATIVE BENNINGHOFF: Good evening. I do want to thank the Secretaries for being here today and coming to our community. I'm sure this is not a fun experience.

I don't think I've seen a crowd like this since we decided to change the deer hunting laws, which draws in lots of people.

Nonetheless, I want to be respectful of time. A lot has been said, so I kind of X'd my notes. These are actually not my speeches. Someone else gave me for other reasons. But I made some notations on them.

First of all it raises questions it did yesterday. I think we need to be thinking about what is Corrections about. Its very title, I think,

is indicative, hopefully, of what the mission should be. A lot of people think it's just to put bad people away and keep them out of the neighborhood. So are we warehousing people or are we correcting behavior, punish for the crime, correct behavior and then put them out in the community?

I, like some of my colleagues here, was gracious to host a hearing yesterday. But more importantly, the visits to Rockview - of which I've been in and out of for other reasons in the past employment - and Quehanna were extremely instructional and informative for us.

Even people who think that they know what's going on and what it takes to run those institutions have no appreciation for what goes on in probably some of the toughest blocks in our communities.

That said, a couple priorities I would ask for.

Number one, obviously, is, we don't want to see this happen. My goal is for a little bit more humanistic perspective on this. My good friend Dallas touched on it. When we're talking about changing employment and where people may travel, I would ask you to consider most people's

work shifts are 7:00 to 3:00, 3:00-11:00, 11:00 to 7:00. Institutions, they're a little bit staggered from that.

If you have a spouse who is sharing childcare or elder care with family members and they're trying to race home in 45 minutes so the next shift go to employment, this is going to make things very difficult. I would ask you to keep that in mind when making considerations of who gets shifted where.

And more importantly, I'd ask you to go to the Governor and ask them to have priority designation in other departments, should they step out of Corrections. If we're going to be guaranteeing employment, maybe there's something in DEP or something else that's close. These individuals, by not their own volition, are being moved out of a job. They should have priority.

I'm getting the gong. Last thing I want to say on that is it was said about the Grange Fair, but they also provide great work at our local cemetery, Union Cemetery. Well, that may not sound like really glamorous work. I stopped and talked to some of those inmates and I wanted to do something personally and thank them.

One young man happened to be mowing around my daughter's grave. And I said to him, I want you to know you're not just mowing, but you are honoring my daughter. And I want you to know your work is valuable.

And I'll close on the same kind of message we heard at Quehanna today. These inmates, for the first time and many times in their life, have finally been able to pass a test, pass a course. First time in their life. Some of these people shed tears because they've actually had success and somebody cared enough about them to show that success.

So if we want to be in a corrective measure, change people, lives, and make them productive in society, we need to focus on that and ask the Governor to come and make a personal visit to these places, walk through them like we did, both institutions, without the media, without being a media stunt, but to actually see what goes on there from the staff perspective, the inmate perspective, and the community spec - perspective. Pardon me. And thank you.

MR. TARKOWSKI: Thank you.

And now we will welcome

Representative Conklin.

REPRESENTATIVE CONKLIN: I want to thank you, Madam Secretary. I want to thank the individuals who have come here. I want to thank Bald Eagle.

You see, Madam Secretary, I believe in all my heart that this isn't a check that you have to make to close these facilities. See, I don't believe you're in here just because a document says you have to do this before you move forward. I'm here because I believe you're going to listen to these individuals. I'm here for a few different reasons.

First off, I'm here and I hate giving pedigree, but I studied at the National Institute of Corrections. There was a citizen rate they talk about. In 2001, I chaired the statewide committee that did the study on how to do recidivism rates. I actually had to design and build a facility.

I can tell you what colors you should put in this facility. I should tell you what programs have to be done. I can tell you how it changes and how you have to segregate.

You know, a little earlier you said you have 7,500 extra beds. There's over 13 million

people in the State of Pennsylvania with hundreds of millions of people that come here every year. So you're going on the presumption that the things that we did years ago are going to make the population go down.

I don't know if you watch the news, but there was a mentally-ill man who tried to burn down the Governor's residence and he said he would have killed the Governor. See, what that tells me is, criminals will still do crime. But what you have to do is be able to take this as an opportunity.

You see, the state has an opportunity, because I know you're listening well. You have an opportunity. By taking and warehousing people and then bunching them together, every correctional officer will tell you, you will be putting their lives in danger. Because now you're putting individuals that should not be together with every type of illness and every type of background there is. And you're going to put their lives at danger and the criminals lives at danger.

See, we've done a great job of recidivism rate, because we've learned about mental illness, we've learned about substance abuse. But

what we really have to learn is about the people that do it.

You see the other part, I carry a union card since 1977 and I still pay my dues today. These are my brothers and my sisters. See what Dallas brought up and what other people brought up, you're going to ask them to go out and they're going to drive 10 hours round trip, 10 hours, 12 hours. You're going to ask them to do a double shift. You're going to ask them to go out, because nobody else can show up in the rain to keep us safe.

These are the people that keep us safe. You don't need to do this. This is your opportunity. Take it. Save their lives. But most of all, give the type of discipline that we can get and even have a lower recidivism rate. Thank you, Madam Secretary.

MR. TARKOWSKI: Thank you.

And our final invited speaker tonight is Greg Scott, from the Chamber for Business & Industry of Centre County.

MR. SCOTT: Good evening. My name is Greg Scott and I'm the president and CEO of the Chamber of Business & Industry of Centre County.

I appreciate the opportunity to

provide comments this evening on the significant economic and community impact of the proposed SCI Rockview closure.

As Centre County's lead economic development organization, CBICC partners with businesses, policymakers and community leaders to strengthen our economy, develop our workforce and enhance the quality of life.

This work is personal to me. I was born and raised in Centre County. I went to the high school in this very building. Three distinct landmarks come to mind when I think about growing up in Centre County. They are Beaver Stadium, the Nittany Mall and Rockview.

For generations, SCI Rockview has been a pillar of this community. It's a source of stability for families and for our local economy. Like many who grew up here, I have family and friends who have worked at Rockview and have been involved with this institution in some capacity.

Recently, I had the opportunity to participate in a series of listening sessions organized by Representative Paul Takac and I understand more clearly the impact and significance closing SCI Rockview would have on our communities

and our economy.

I want to reiterate a point shared by Centre - the Centre County Commissioners earlier tonight. Closing SCI Rockview will result in a staggering $118 million annual economic hit on our region. And the trickledown of lost jobs, wages and local purchasing power would be a mess.

Additionally, suppliers and businesses that deliver goods and services to SCI Rockview would lose a key customer, directly hitting their bottom line and potentially impacting their ability to continue serving our community.

One topic we heard about consistently at Representative Takac's listing sessions is the community value generated from within Rockview's walls. For instance, the Forestry Unit alone generates $300,000 in economic activity annually.

There is also a question of what comes next in the event of closure. In the past, facilities across the state have remained unused, incurring costs without a clear plan for redevelopment or disposal.

If this decision is made to proceed with a partial or full closure, I hope that a transparent and well-developed plan is communicated

to ensure we are able to maximize the economic potential of the site and make it work for our communities.

Ultimately, closing SCI Rockview and Quehanna Boot Camp would present immense and complex challenges for our region's economy and the people who live and work here, many of whom have contributed to our local economy for generations.

As a longtime member of the Centre County community, the leader of Centre County's economic development organization and a strong advocate for our entire region, I appreciate your consideration of these comments. And I strongly urge you and your department to consider the full scope and impact on our community and local economy as this process proceeds. Thank you.

MR. TARKOWSKI: Thank you. And for - the rest of the evening will be open to public comments. I'm going to give a brief overview of how it's going to work for the rest of the night.

Again, tonight is an opportunity for public comment and to provide the greatest opportunity for the Department to hear from everyone who wishes to speak and to be respectful to our hosts and to those waiting to speak after you.

Please be reminded to keep your comments to two minutes. We have the green countdown clocks. They start as green and they turn red when the two minutes have elapsed.

And we'll be asking you to return to your seat at that time. You go through the aisles closest to the wall to get back to your seat.

And I did want to mention, if you have additional comments or you don't feel like speaking tonight publicly, you can always submit your comments online. We have email option and telephone option. Both of those are on our website, cor.pa.gov.

So for now we ask that you form two lines. A staff member will bring a clipboard and - so you can print your name for the record. And that is one other thing that I'd like to ask. When you do get to the microphone, please state your name, first and last name, just so our reporter can transcribe it for the record, please.

Without any further wait, we'll open it up for public comment and we'll start on the right-hand side here. Just make sure when you do get come to the microphone. Don't be shy. Grab the microphone, bringing it as close to your mouth as

possible and it'll help with any of the feedback issues. Thank you.

MR. COOPER: Hello, glad to be here. My name is Kenneth Cooper. I'm a former employee at SCI Rockview, where I worked for 38-and-three-quarter years in activities. I've been a union man. I went from local all the way up to president of the Civia union, which represented education and recreation.

I've worked with so many individuals already in this crowd, and some that are still there. There's retired ones here. They're outstanding workers. The officers, the nurses, the culinary, the teachers, you name it.

And to pull this away from this community -. Because during my time I seen five institutions close. And it's a shame what it does to the families, the communities. As everyone talked about them moving away, some of them have to.

For an example, somebody lives in my town, Lock Haven. If they get shipped to Huntingdon, the minimum drive on Google is an hour and 26 minutes, without bad weather. The Muncy or Houtzdale's an hour and 19.

The money the school districts can

lose, it's going to have to be picked up by other people, is a shame.

I also want to go back to when you were talking - different ones were talking about the upgrades. I understand the electrical and A and D and plumbing, A and D block, it's been all upgraded. A 7, 8 million dollar fence around that place and we're going to mothball it, throw these people all over the place.

I think it's wrong. I totally think it's wrong. They're dedicated, good people. They're volunteers in the community and they're a backbone.

Clinton - Clinton County and Clearfield County are already getting hammered with the closing of the college, Lock Haven University. Who knows if Lock Haven's going to stay. There's a hundred and some workers. That's in Clinton County, just in correctional officers alone. Thank you.

MR. SMITH: Good evening, Secretary Harry and Deputy Secretaries. Welcome to our community.

I'm Fritz Smith. I'm the president and CEO of The Happy Valley Adventure Bureau. We're the tourism promotion agency for Centre County, PA.

Tourism, as you may know, is, according to some measurements, second largest industry in Pennsylvania. And here in Centre County, it's a one billion dollar industry.

Now you may ask yourself, what's the - what's the tie between tourism and closing a prison? Senator Dush and Commissioner Higgins touched on Grange Fair, but I want to talk a little bit about - a little bit more about the importance of the staff and inmates at Quehanna and SCI Rockview for tourism efforts.

Inmates from SCI Rockview, as they said, set up and tear down the tents at the Grange Fair in August. This is the largest county fair in Pennsylvania, is the largest tenting fair in the United States of America. There are nearly 1,000 canvas tents based on Civil War era designs that have to be manually set up before the fair and torn down afterwards.

To preserve the tent fabric, setup and teardown needs to be done quickly and the inmates from SCI - SCI Rockview accomplished this task in the needed time frame.

Inmates from the Forestry Program also, as Commissioner Higgins pointed out, provide a

number of services to DCNR and throughout the county at the Bald Eagle State Park. The hospitality industry greatly appreciates this assistance.

I want to talk about outdoor recreation, something very important to Governor Shapiro. It's a major component of tourism in both Centre and Clearfield counties. There are a number of recreational opportunities in Northern Centre County, including tubing and kayaking in the West Branch of the Susquehanna River and hiking in the many State Lands.

On several occasions, staff from the Quehanna Boot Camp have assisted in the rescue of kayakers and tubers, including as recently as August 9th of last year. Hikers have also required assistance, including a three-year-old-child in 2012 who was found with the assistance of the Quehanna Boot Camp staff.

We have a lot of remote areas that are very popular with the traveling public in both counties, as well as in Clinton County. And it's very -. If we lose those resources, it could create a dangerous situation for visitors. So on behalf of the hospitality industry, I respectfully ask that you revisit this decision. Thank you.

MS. REESE: Good evening. I stand here this evening as a wife of a dedicated Corrections officer at SCI Rockview, as well as a mother to an almost two year old little boy. Our family, along with every other family in this room this evening will be negatively affected by the closure of SCI Rockview. And we all have already suffered enough.

Disappointed does not even begin to describe how I feel about the Department of Corrections. Disappointed in the lack of transparency, the lack of information, and the lack of support and understanding for your employees.

The radio silence has deafened the hard-working men and women of SCI Rockview and their families. The men and women that walk into SCI Rockview every day working the most thankless jobs, deserve more and deserve better from you.

I do not find it difficult for the DOC to have given a proposed outline or timeline of what a proposed closure of Rockview would look like. Instead, you have made a catastrophic decision and then cowered away and refused to give any additional information to support this.

Your silence, in turn, has been

filled with rumors, speculation, and even more uncertainty, causing an immeasurable amount of physical, emotional and mental stress on the inmates, staff members and families at Rockview.

We deserve better. This community - this community deserves better. As a community, we'll also be negatively impacted by the closure of SCI Rockview. But it is easy to see that none of that matters to the DOC. Your lack of support and lack of communication is a slap in the face to every single employee of SCI Rockview.

These employees work in a high stress, dangerous environment, day in and day out, missing holidays and other important family events, all in order to provide for their families. I'm going to skip ahead since I'm being flashed out here.

The math seems pretty simple to me. You're adding more inmates to these facilities, as well as complicated power struggles amongst these inmates, inevitably - inevitably increasing violence.

Your proposed closure of SCI Rockview is careless, for inmate safety and rehabilitation, as well as the safety and well-being for your

employees. I urge the DOC to rethink this proposed closure, as well as start providing information to their deserving employees.

COMMISSIONER HARDING: Madam Secretary, Deputy Secretaries. Thank you for being here this evening and giving us an opportunity.

As was mentioned by my fellow Commissioner from Centre County, Mark Higgins, I'm Angela Harding, Clinton County Commissioner.

And Ken Cooper was so gracious to sort of lead in with the fact that we have over a hundred Clinton County residents who work at the facilities that are in question.

Clinton County is a blue-collar county with just 38,000 residents. Over a hundred people losing their jobs, 35, 40 minute drive out of Clinton County, would be hugely detrimental to our community.

I'm not going to be redundant with so many of the things that our Legislators and Commissioners and others have said here tonight. What I would like to do is offer a proposal to you for consideration.

You've heard the dedication. You hear all of the things that would negatively impact

our communities and the people, if these closures happen. We started, in Keystone Central School District, a program through our career and technical education. It's Homeland Security. Because of our blue-collar jobs, it offers education in corrections and law enforcement and such.

We have Penn State University right here. We have Commonwealth University in Mansfield and Lock Haven, which have years and decades of corrections' education. I think that Rockview and Quehanna offer a really amazing opportunity to not even look towards the future in what these facilities could do in our communities, but they could actually be an asset to the rest of the state in regards to corrections. So please give all consideration to keeping those facilities open for all of us. Thank you.

MS. SHARROW: Hello, my name is Samantha. I am a wife of a corrections officer. I'm a nurse and I'm also a mom of two little ones.

I'd like to welcome you to our school district, as I think it is one of the best. One mile up the road in any direction you will find our immediate family members who pick my kids up from school every time my husband and I are unable, to

watch them at least three days a week while we are both at work. A bond, grandparents - a bond with grandparents is something to truly cherish.

Five miles from the very seat you sit in is my home. Next, the neighbors who invite us over in the middle of the night when the power is out. His children have become friends with our children and the life we have built over the last six years, all now subject to change.

As a nurse, something John Eckenrode said last night stuck with me. Part of decompressing from working these harsh jobs is being able to be around the people who love you and who want to be around you. He said this knowing that these are not just hard jobs at baseline. It is mentally exhausting, physically debilitating in some cases. And yes, they go in every day risking their lives for a job that has offered them stability and structure. Two things that have been engraved in some of these men from their time served in the military.

To quote Representative David Rowe, to save money, but at what cost? Give me more than two minutes and I will lay out just how much is at stake. I digress to this.

While these men navigate a position that they do not choose, that are forced to take, make it your duty first and foremost to not let my husband's safety become an afterthought. He deserves to come home safe to his family every night. And I refuse to let his life be a cost of you filling your pockets.

CAPTAIN LUZIER: Hi, I'm Captain Jeremy Luzier, SCI Rockview. I represent - my job is to get the men and women behind me home the same way they came in every day. And I take that job pretty seriously.

First, I'd like to thank you guys for being here and elected officials for being here. And I apologize for my appearance. I didn't plan on making a speech tonight, so I got some - some notes here on my phone that I'd like to go over and just say my piece.

I'd like to bring up Dwight D. Eisenhower, the President, the General. A quote from him: The supreme quality for leadership is unquestionably integrity. Without it, no real success is possible. I bring that quote up here tonight because I've heard - first of all, I've heard about the 67-mile radius, with a hiring freeze

that's been put on.

That's not true. Anybody here with an Internet connection could get on a PA Commonwealth website and see that there's clearly jobs posted for those facilities within the 67-mile radius that we're talking about here tonight.

Secondly, I'd like to go off of what Mr. Dush has said, as far as integrity goes. The paving project, completed; the boiler upgrades, completed, along with countless other things on that list that were cited why this facility was closed.

I'd also like to piggyback off from Mr. Dush and Ms. Salamon's recidivism rate. It's my opinion that that recidivism rate achieved by Rockview, the second highest in the state for a male, or second lowest - I'm sorry, second lowest state in a state for a male facility, wasn't - isn't due to DOC policy. It's due to the men and women behind us.

Every one - every debrief that I've ever sat through, where your RDSs, your staff assistants come and they tour my facility, we're told every time about how great our staff, the inmate interaction is, that it's unlike anywhere else across the state and it's the best they've ever

seen. And I think that's the reason for the lower recidivism rate.

I got four seconds left, so I'd just like to drop a dime for a - a news article that was published for PennLive by Spotlight PA. It was published on the 14th of April, if you guys have time to review that. It - it goes over the 2008 land that we gave away as SCI Rockview and it became an Industrial Park, and how much that was a failure. I just wanted to point that out to you guys. Thank you.

MS. HEINTZELMAN: Good evening. Thank you for having this and thank you for coming. Thank you for allowing us to speak.

My name is Julie Heintzelman. We spoke last week at the Quehanna Boot Camp public hearing. I'm a Corrections Counselor at SCI Dallas. I've been there for going on 19 years.

When I first came to Dallas, I was a Drug and Alcohol Treatment Specialist, just like you, Secretary Harry. Before starting at Dallas, I came from Retreat as a contract drug and alcohol worker.

I'm here surrounded by these wonderful folks here from SEIU Local 668. And SEIU

Local 668 members at Rockview provide crucial services to the reentrants. We represent drug and alcohol treatment staff, corrections counselors, psychological treatment staff, social workers, employment office staff.

Tonight we stand here to support each and every one of you and your families.

I was at the public hearings for the SCI Retreat closure. I say hearings because there was two. And I experienced firsthand the devastation that that closure caused. Overcrowding, hiring freezes at SCI Dallas that went over two years long, and uprooted families.

During that time, even after the hiring freeze was lifted, the way hiring was done had changed forever.

The thing that I wanted to say is how much is the Retreat closure saving taxpayers? Every day I drive past that facility and it sits there closed. They recently put a bar across the bridge. Just seems like a waste of taxpayer money.

Over the last year, why has the Department of Corrections closed one housing unit at every SCI? Why are the empty housing units now being repopulated? Why are we being told, like for

instance at SCI Dallas, that the repopulation of G Block will include a mixture of inmates from SCI Dallas and relocated inmates from SCI Rockview?

Has the DOC, like the SCI Retreat closure, already made up their mind? Has the DOC forgotten the lessons of their past? Has the DOC forgotten what happens when you treat human beings like numbers, when you warehouse them?

Does the DOC really believe in its mission? Does the DOC really believe in the quality service that our members provide day in and day out? Does the DOC really believe that human beings confined to our care can change, can learn, can evolve, can reenter the community, create less victims and make a positive impact on others?

We understand that you have decisions to make, but we hope that you reconsider the closure of SCI Rockview. There has to be another way. Our taxpayers deserve better. Our reentrants deserve better.

The men and women that work at SCI Rockview, along with their families, deserve better. We have homemade chocolate chip cookies and nerd clusters for everybody.

MR. HILL: Good evening. Thank you

for giving me a chance to speak. I'm speaking on behalf of my son, who is an inmate here at Rockview, and the other inmates.

And I want to thank all the employees - all the employees here. You've been nothing but courteous and respectful. And I so appreciate the dangers that you have to face every day.

David - my son, David, has bipolar and schizophrenia. He has received excellent care here and better than any other prison that he's been in. He is 48 and he's been in and out of the system since he was 15, due his to his addictions and mental illnesses.

I'm very pleased when I have called about my son's suicidal tendencies and someone takes action immediately. My son, David, was being threatened by other inmates. I called and I was - got in touch with the Lieutenant, I guess there's more than one here, and reported that - what my son was going through. And he immediately took action, had him moved to a place that was safer for him in the prison.

My son, who's an inmate again, has said that Rockville - Rockview, I'm sorry, Rockview has been the best prison he's been in, with the best

staff. And he says also the best food. My son's safety, physically and mentally, are my priorities, as you would imagine. I know it will be very detrimental to my son and for the other inmates, mentally, physically, in every other area for Rockview to close. I thank you so much for your time.

MR. SABELLA: Good evening. My name is Rick Sabella and for the past ten months I've served as the Facility Safety Director - excuse me, Manager for SCI Rockview, a position I interviewed for, coincidentally, one year ago today.

When I interviewed, I knew two things. I nailed it, and I was scared to death. Scared to death to go into an older building as a safety director and scared to death of the prison environment. But my misconceptions and anxieties faded quickly, as I got to work with an outstanding management team, the guys who do the heavy lifting, uniform staff, medical, top-notch maintenance.

It's just - it's crazy. It's its own little microcosm. Rockview taught me that the difference between -. Rockview taught me the difference between a jail and a rehabilitation institution.

Previous speakers mentioned the wood furniture factory, the Forestry Program. Those are all unique to us and they're wonderful. Can't be provided elsewhere.

Originally I was going to go for an emotional appeal. I've emailed everybody millions of times.

So I want to get to numbers real quick. Our budget for Pennsylvania is $52 billion - 51.5, to be exact. Three percent of that allocated - or six percent of that allocated roughly to the DOC, three percent allocated for Rockview.

So it'd be .2 percent of the state budget to run Rockview in a year.

Assuming that the 74 million dollar price tag on these repairs has - have already been done would add a negligible, not even a needle moving figure, to the taxpayer dollars. I have to really rush through this.

Is saving .2 percent of the state budget to millions of taxpayers worth upending thousands of people and the loss of over a hundred million to Centre County in the first year? Is two percent (sic) - is two percent worth the danger of moving the inmate population? Is two percent worth

losing these dedicated employees? And I got to tell you, our employees are extremely dedicated.

The old adage goes, they don't build them like they used to. This building is an example of that. To replace it going off one in Nebraska, that's almost half a billion dollars for a 2,500 bed facility.

So in closing, I just want to say that I need Rockview. We need Rockview. Our community needs Rockview. And sadly, if the closure goes through, and the incarcerated population continues to rise, as it has three years, according to your own testimony, the DOC will find out the hard way that the DOC needs Rockview as well. Thank you.

MR. PATISHNOCK: Thank you for listening to me and the rest of the people here. My name is Bob Patishnock. I'm like Ken Cooper. I'm another one of those Secondhand Lions, if you ever saw the movie. Thirty (30) years at Rockview, retired in 2007.

I'd like to point out something that was said about capacity. When I started at Rockview May 12th, 1977, we had around 770 inmates. Our capacity was close to 1,250. We added one housing

unit, E Building. And if I'm remembering, it's been some years, it's around 160 inmates.

When I retired, our population was over 2,000. I don't recall. We were never over capacity. Capacity is just a number that's invented by the Department to justify where they're at and what they're doing. I ran the Employment Office for a while, too, so I was involved with celling inmates. I was the Unit Manager who worked in a variety of areas and places.

Like I said, numbers about capacity don't impress me. The elephant in the room that was alluded to by that Representative there. I'm not sure of your name. I don't want to butcher it. Hey, for years and years and years anybody that worked at Rockview knew that there was a major university close by and other state agencies that coveted our ground.

There's also beautiful areas close to the Forestry Camp. There's still a private residence there, by the way. What a - what a place for development. Now, what do you have? What do you have underneath Huntingdon? That's not very valuable, is it?

Okay, so I - I share your - I share

your concerns about sweetheart deals and this property. I also share Representative Takac's remarks about, if it must be closed, what about a stepped approach? Let's just shut it down -. I'm sorry. I'll clean - I'll clean it up right here.

You're jeopardizing the inmates by stuffing them into other jails. And you're also cutting the heart out of all of us that work there and those that continue to work there. You're cutting our hearts out.

MS. CASSEL: Good evening. My name is Hayley Cassel. I am here as a spouse of a CO.

One of the things that I wanted to speak on is, we never planned relocation. That's why he took this job. This is not something that we took lightly. My husband has served here as a Penn - as a Pennsylvania employee since he's age 17. He worked in the National Guard, and then he took a job here. because unfortunately there's not too many jobs that translate from combat arms to this. So this is our option.

Expenses. At this day and age, I don't think you guys realize what bills are and how expensive they can be for a family. I'm just a local educator. My husband is our breadwinner.

He's what brings in our money here. We would have to break leasing contracts, which comes with a fee. We would have to find a new place that could house me, my husband and my two children, also a cost fee, not to mention gas prices, finding people to help us move.

Actually, my last move that we did, I was seven months pregnant. And it was other COs that came and carried my mattress down the hill to our new place, because that's the community we have here at Rockview. And you're breaking that apart by this decision.

One thing that also needs to be said is there are many different family structures. There's coparenting, there's shared custody. That's going to affect us greatly. And I don't feel that enough has been said on that. You are upending family dynamics, taking parents away and that is just not something that is worth the - it's just not. So please, as you guys are making these decisions, this is not black and white paper. There's humans.

My two children have been here for all of these meetings, speaking with Representatives there, who you're affecting. That is the generation

that you are making decisions for. So please, I urge you to not forget the humanity behind every single one of these numbers. Thank you and good night.

MS. COFFMAN: My name is Elaine Coffman. I'm a Registered Nurse Supervisor, to be - embarked upon my remarkable journey in Corrections at the end of 1999, thanks to Superintendent Robert Myers and CHTA Larry Lidgett.

During that time, the Department of Corrections value statement resonated deeply. We are a team of dedicated professionals. Rockview's culture is truly special in countless ways. Our culture embodies the harmonious collaboration between corrections officers, treatment - and treatment staff, fostering a responsive and compassionate environment.

I have visited the majority of the institutions that are still in existence and I know firsthand that this relationship does not exist at every institution.

Rockview's remarkable progress would not have been possible without the unwavering commitment and cooperation of our staff, tackling complex challenges, such as physical health, mental

health, self-harm behaviors, hunger strikes, transgender care, medicated - assistive treatment for substance abuse, PREA, education, job training and reentry.

The seamless flow of communication and teamwork across multiple disciplines at Rockview sets us apart. I have the privilege of working alongside a diverse and exceptional team of nurses who continue to evolve, bridging the gaps in experience, strength and expertise. Our nursing staff complement each other, making us an exemplary model for others to follow.

The Bureau of Healthcare has entrusted SCI Rockview with some of the most complex medical cases for our infirmary. With a 16 bed active infirmary, we provide compassionate care for those who may be oxygen-dependent, have metastatic cancer, complicated diabetes cases, complex wound care needs, require postoperative care, restorative care, dementia care and end of life.

Rockview also boasts about a ten-bed psychiatric observation cell unit for those experiencing acute mental-health crisis and a 12 bed Neurocognitive Care Unit.

Our medical team has consistently

demonstrated its commitment and innovation, being at the forefront of pilot programs and proudly pioneering the initial and only 12 bed Neurocognitive Care Unit in the Pennsylvania Department of Corrections.

Bed space for inpatient, medical, psychiatric and long-term care is scarce. And the Bureau of Healthcare Services and CHDAs around the department of Corrections is often searching for available beds.

The staggering number of 509 long-term care referrals to the Bureau of Healthcare for inmates, that include 15 individuals that utilize wheelchairs for mobility at our facility, and paroled individuals looking for skilled nursing facilities, underscores the critical need for specialized care.

The potential closure of Rockview would not only take 38 medical department beds offline, but also have a detrimental impact on the inmates who rely on our specialized care. Replicating the remarkable achievements of Rockview's Medical Department over the last 26 years could not have easily - cannot be easily duplicated.

I implore, before you, Secretary

Harry, and Governor Shapiro, please do not close Rockview.

MR. CASSEL: My name is Aaron Cassel. You heard me from my wife before. I've served in the Commonwealth of Pennsylvania for the last 18 years of my life. That's my entire adult life.

As an employee, when I was hired, I was given an employee number. When an inmate enters the system, they're given an inmate number. We are not numbers. We are people.

When this decision was announced, as all the state sees us as just a number. I'm just a number on a piece of paper to most of you.

Well, I'm here to tell you, I'm not and I'm here to tell you that my fellow staff members are not numbers on pieces of paper.

The one thing that I have seen over and over and over again in my 18 years of service is when it comes time to cut corners and maximize effectiveness, it's the workers that pay the price, not those of you sitting up on this pedestal.

It has been me. It has been all these people behind me that pay the price, in their safety and their work, effectiveness of environment.

The cost - and that trend personally

is highly unacceptable. Yes, we are guaranteed a job in another facility, but all that means is we're guaranteed the availability to work and nothing more. I'm not guaranteed my shift. I worked a 10:00 to 6:00 shift. I get to put my boys to bed every single night and see them when I get home in the mornings. I'm not guaranteed that anymore.

I work hand in hand with a Certified Peer Support Program on the 10:00 to 6:00 shift. I work every night dealing with inmates that are suicidal, that need someone to talk to. When I was in the military, I was a Suicide Intervention Officer. I used those skills in handling CPS inmates and genuinely save lives. Stop inmates from hurting themselves. Stop inmates from wanting to kill themselves.

Since this announcement has happened, you have no idea how much that has gone up. The inmates that want to harm themselves, inmates have no idea -. You are dealing with individuals that are hopeless, and you are taking that away. You are taking hope - what little bit of hope, the hope people have, that's not right.

You don't deal with these safety issues. You're not boots on ground. We are. You

need to see us. You need to hear us. I implore you. I challenge you to listen to us. Listen to the inmates that have written that want to keep this place open and listen to the local Representatives and lawmakers. Thank you.

MR. DOUGHERTY: Good evening. My name is Francis Dougherty. I moved to Centre County 50 years ago specifically to take a job at SCI Rockview. I stayed at Rockview for 38 years and retired 12 years ago.

While I was at Rockview, I was the Business Manager for 22 years. In that time, Rockview had gone over their budget one time, and that was when we were getting ready for a correctional ACA audit.

As Bob Patishnock said, when I started at Rockview, there were about 700-some inmates. Then came closing of State Hospitals. The - excuse me, I'm a little nervous. The mandatory sentencing, which put the - in the 1980s and '90s increased our population to a little over 2,000. When I left, it was over 2,500 at that time.

And in all that time, Rockview, the staff and the whole community stepped up to that challenge. They care. They care about their jobs,

they care about themselves. They care about their coworkers, they care about the inmates.

I've been to other institutions and I found that you don't get the kind of caring and community at other institutions that you do - we do at Rockview.

As I said, I'm - I've been in Centre County for 50 years and I love Centre County. I feel awful that when you close this institution, if you close it, I hope you don't, that people will have to leave Centre County and go elsewhere.

Another thing about Centre County, the word is Centre. Sorry, the word is Centre, which means we're in the middle of the state. And we have people from Pittsburgh and inmates from Pittsburgh and Philadelphia coming. And their families can visit because it's in the center. And I better go, because I'm out of time. Thank you.

MS. TUBBS: Hello. My name is Suzi Tubbs, and I am the proud wife of a corrections officer who has faithfully served this Commonwealth for 17 years. My only goal in coming up here to speak is to make sure that when you are making decisions, you are looking at these employees as the people they are and not just numbers on a line.

If you feel comfortable, I'd like to ask anyone employed at Rockview to please stand for a moment. These are the men and women who risk their lives in mental health every single day they enter the gate. The corrections officers at Rockview walk the block every single day, knowing they risk being spit on or having feces thrown at them. They walk the same halls that their fellow corrections officers have been brutally attacked in.

They have performed life-saving measures on inmates they knew were gone, but continued until emergency services got there because it's their job. Thank you. They deserve to be seen as the amazingly brave men and women that they are. They aren't employee ID numbers that can be moved and transferred without consequence.

Speaking of consequence, if you are a family member of a Rockview employee, please stand for a moment, too. These are just some of the faces of the families that will be drastically disrupted if their spouses or parents have to transfer to another facility further away. Then these guys will have to decide between a longer commute, which means less time with their families, or uprooting their families from all they know entirely to accommodate

this closure.

So I pray for wisdom, I pray for truth, and I pray that your eyes and hearts will be open to what a closure will really mean for each of us in the Rockview family. Thank you and may God bless SCI Rockview.

MR. LEAHY: Good evening. Mark Leahy, Commonwealth Registered Nurse, currently working at Quehanna Motivational Boot Camp.

Sorry, Deputy Secretary Wenerowicz, sorry I missed your visit, but somebody's got to run things at night. Any time you have a question, I'm here, though.

I started to look at things outside the box and inside the box again. I looked at Diagnostics and Classification Center, which is currently at Camp Hill. The gentleman before had said that we are centrally located. We are basically the geographic center of Pennsylvania. From Philadelphia to Pittsburgh, where most of the clientele come, this is a good location for maybe not a primary, but a backup center.

I'd also like to state, too, that in these days and times when people are cutting back on things, something that can be moved and do we really

need a standalone facility, would be the Training Academy at Elizabethtown. Couple hundred acres, several buildings. Last time I was there, I know there was at least one that wasn't being utilized.

Employee impact would be less because a lot of them are temporary, temporary attachment or temporary duty employees. Granted, some people would have to move, but not the numbers that would be at Rockview.

Plus, if you move the Academy into an SCI, like let's say Rockview -. Okay, let me regress a little bit.

When you go study, become a nurse, you have a lot of theoretical stuff thrown at you. You also have clinical as well. But the clinical does not make up for what you really need in the real nursing world. It takes at least a year to get that experience. If you had it at an SCI, think about all the clinical experience that future employees would get. Thank you.

MS. KACHIK: My name is Rachel Kachik. My husband is a CO1 at Rockview. I'm speaking for him, since he's working his shift right now tonight.

He started at Rockview four years

ago, with ten years' experience in other correctional facilities, including private and county prison. He finally has gotten to a point in his career at Rockview where he could get off the dreaded 2:00 to 10:00 shift and get into the 6:00 to 2:00 shift.

We currently live 45 minutes from Rockview. However, if Rockview closes, he will be driving more than an hour and a half to two hours away to a new facility one way. And it will take possibly another four years to get back into the running to get that 6:00 to 2:00 shift, if there even is a job for him at these so-called facilities.

All this being said, our little boy starts kindergarten this fall and he will almost never see his daddy because of this change. How is this fair for someone who shows up every day, does his work well and sacrifices for his family? What am I going to say to my little boy and my daughter, who already miss him on weekends and holidays? How will we, as a single-income family, pay for the increase in fuel expenses? Keep Rockview open, keep the legacy going and save our families.

MR. HUGHES: I'm doing something wrong. It's making noise, I guess. I hope you guys

recognize me. I was at the Karthaus Town Hall Meeting last week and I spoke on behalf of the community.

I'm now here speaking on behalf of the employees at Rockview. Hard work and selfless service should come with a reward. I have been in public service now for 14 years, which is all of my adult life. And so far there has been zero reward. Lots of veterans work and have made sacrifices to their countries and now they make that same sacrifice to their state. Nothing says thank you quite like we don't need you here anymore.

Not only will these closures affect all these families here today, the closures will also decimate my hometown, as you heard last week.

You are going to move us to other facilities. You're going to hit the restart button on all of our lives and you're going to force us to redesign our whole family structure. I already make the sacrifice willingly for a long commute, so I can have a good job. Don't add to that.

Thank us all for what we do by allowing us to keep what we have worked so hard for. Thank you.

PASTOR GERHART: Good evening. I'm

Pastor Joe from Community Alliance Church. And you might be wondering why I'm here tonight, though you just saw me last week at our church when we hosted the Quehanna meeting.

That's the point. Two closures within 30 miles as a crow flies is insane. More than that, though, the reason that I'm here is because I have three families in my community and specifically in my church that are employed at Rockview as well.

Mr. Eckenrode testified that there were employees who, because of their seniority, might not get to transfer over to Benner and, therefore, they're going to have to go up to 67 miles away.

Well, you've heard it so many times. 67 miles from here is not 67 miles away from where they're living right now.

These are my people. One young man in my church who has only been at the Department for just a couple years with a young family and would love to be here, but he can't be, serving and working in a tireless and thankless job, safe - keeping our community safe, now has to travel up to two hours.

What kind of life is that? It's living to work and that's not life. It's Resurrection Week this week. And because it's Resurrection Week, a week dedicated to hope and the greatest story of life after death, let's give our community some hope, some life after proposed death. Thank you.

MR. REESEMAN: Hello. My name is Shane Reeseman. I'm a corrections officer at SCI Rockview.

I started in the Department of Corrections in 2018, when I went to the Training Academy at Elizabethtown. The job was made explicitly clear to me. Our job is corrections. Our job is to correct criminal behavior. Our job is rehabilitation. Our job is preparation for incarcerated individuals to reenter society in a successful way.

The staff, my brothers and sisters at SCI Rockview, carry the banner of that mission through our education, through our counseling and through my brothers and sisters in security to give you the second lowest recidivism rate in the entire State of Pennsylvania.

You say all of these things that we

have done can be achieved at other institutions. Why haven't they?

The job of SCI Rockview has been held for over a hundred years. And our reward is that the Department that gave us that mission is telling us that we are waste, we are meaningless, the we can - that we - what we do can be done anywhere. I say to you, Madam Secretary today, my brothers and sisters have upheld our end of the bargain. It is time for you to uphold yours.

MS. GROVE: I'm Cindy Grove. I'm just an LPN. I work in a nursing home. I don't have anything to do with any Corrections, other than if I get a patient at like HealthSouth or something.

But just looking at this whole Steering Group Committee and they're supposed to be knowledgeable people to look at all ends of investments and all. I just can't see where you haven't thought of a better plan, because I surely don't want everyone crowded in this space, even with my little patients I have. And I don't think that's good because everyone actually needs consistent structure and trust.

And I just think the uprooting and uprooting - because if you do it this time, then

you're going to do it again. And really you don't even have your family like that. So I look at the upgrades and repair. I know all three of you probably do upgrades and repair to your own investments in residential back yards, porches. And I just - somehow you come up with the money there.

So if you're supposed to be knowledgeable about business and the business aspect, why don't you make this work? I just can't - like I can't figure that out because you probably have more knowledge than I do about arranging things.

And I really - over the course, part of the - Rockview has been sold off to businesses that have been put on there with maybe 20 to 40 employees. That's not really bringing a lot of stuff to Centre County, as far as a workplace. And the way our whole economy is going, I kind of wish that you would like look for a better - a better budget on -.

I grew up here just like the - Steve. And you'd come around Rockview, go on to Nittany Mall and you'd have the farm fields full. People would be out working. Just lots of things were going on.

And it looks bare. Even the cannery. There's a lot of stuff that could be made and like kept in this area and traveled throughout the state or other states. Because we're right now in a really bad shape as far as - we don't have any manufacturing.

I don't know how many empty buildings you guys even passed getting here that there shouldn't be empty buildings. There shouldn't be empty buildings and empty fields in this whole state.

And like how many did you see, actually? That's what I'm wondering there. So that's what I would like to see. Thanks.

MR. TRAXLER: My name is Deven Traxler. I've been employed in Rockview for six years. At the same time, I'm a soldier in the PA National Guard.

I spent about ten months away from my family last year. My wife was at home with our three children by herself taking care of everything, move -. She had to move while I was gone. And now we're probably going to have to move again, drive an hour away from where I live now, miss out on more family time than I did last year.

I just - I want to know how this is going to work? Like what are you guys going to do to help me and my family? Like my gas expenses now - it's going to go up. I just got a vehicle for myself, so - so we don't have to share a vehicle. Her hours at work are going to be cut now because I'll be having to leave.

I'll be on a different shift.

I'm on the 10:00 p.m. to 6:00 a.m. shift, so I get more time with my wife and children. I'm - that's not going to happen for me now. I'm going have to figure out what to do. Thank you.

MS. MUNDY: The silence from this Department is deafening and it speaks volumes. You are failing the brave men and women who walk into danger every single day without hesitation. While many of you sit safely behind a desk, these officers face chaos and uncertainty with minimal support and even less recognition.

While these officers show up day after day risking everything, not only are they spreading false narratives, all in effort to make Rockview look bad, you're silencing these workers whose lives are being flipped by force.

You say officers are working too much

overtime, but let's be honest, you took away the benefits, the incentives, and the very reasons that make someone want to step into this job. You've created this crisis and now you're blaming those who are holding the system together.

Since the announcement of a possible closure, these officers have received nothing but the same directive, to continue doing their job. And that's what they've done. And they still continue to do.

Yet these are - yet they are left in the dark, uncertain about their future, with no answers and no reassurance.

Do you truly understand the toll that this has taken on not only their mental health, but all of our families, our children? These officers deserve more than just your lip service. They deserve to be cared about. They deserve truth and real answers. And they deserve to know, without question, that their lives matter, their voices matter, and their sacrifices are not invisible.

By possibly pushing our prisons to overcapacity with closures, you are increasing the risk of violence between both inmates and officers. And every drop of blood that is spilled as a result

of this will fall on your shoulders.

We urge you to please - we urge you to please keep Rockview open. This rash decision will bring far more harm than good, and it will have lasting negative consequences on the officers, the community and the brotherhood that they have spent decades to build.

SUBDEACON ALMASY: Good evening. My name is Subdeacon Herman Almasy from Williamsport and I'm a volunteer part of a team that comes from Holy Cross Orthodox Church in Williamsport, as well as a team of folks that come from Holy Trinity Orthodox Church, just down the road from SCI Rockview.

And Rockview draws volunteers. If you look at the numbers, I'm sure there's - on the spreadsheet somewhere there's got to be a column for this, that there are four times the kind of the numbers of volunteers that come from - to Rockview compared to similarly-sized institutions. And I would - you ask yourselves, why is that?

And I would offer that there's at least two good reasons. One reason being that the facilities that are there. At Rockview you have a very amazing and unique chapel there, that we heard

- we heard about the riots in the '50s and the chapel was built after that.

That is a space that offers 200 or more prisoners - and they often take advantage of that - to come at once and hear life-changing programs that they take back, then, to their communities when they leave there.

Additionally, the - again, the - the fact that many of these guys are getting out, they're going back to their communities, they're leaving with hope.

And there - I would say this, I would end with this. You know, we've heard about the economic multiplier. That's very important. It's very true.

There is a - a social multiplier that you need to consider for the entire Commonwealth. Investing in Rockview is an investment in the entire Commonwealth. Thank you.

MS. WATKINS: Hi, my name is Sierra Watkins. My husband has worked at SCI Rockview for the last nine years. Over these past nine years he's primarily worked 2:00 to 10:00, which comes with many missed family events and times with our young sons. He's maintaining this shift so we can

avoid daycare costs as I work nightshift as a Registered Nurse. With the pending closure of SCI Rockview, like others, our lives will be shook. From a change in schedule, to his commute going from ten minutes up to an hour each way. The family vacation we look forward to each year may be nonexistent, depending on seniority and vacation bidding at another facility.

At least consider allowing employees to maintain their current shift when they're forced into another prison, to maintain some sort of normalcy in their lives. This is a relatively low request considering the current circumstances.

Some of these men have been incarcerated at Rockview for years. They come to know the staff they spend five days a week with. Uprooting over 2,000 inmates will come with consequences that affect everyone from inmates to employees across Pennsylvania.

Working as an RN, I see how mental health impacts people daily. Uprooting these men from the programs would be detrimental to their mental health. And before a decision is made, I pray that this has been taken into account and the DOC is ready to be held accountable for any injury

that occurs.

Lastly, Governor Shapiro recently just stated he stands with law enforcement and first responders that run towards danger to protect our community.

So I'm asking you, did you stand with the COs who protect our communities by staffing the facilities that house the very perpetrators that sparked this statement? I truly hope this decision is not made lightly and is not used for decision of personal gain by all parties involved. And in the end, is this about saving money or making money? Thank you.

MR. PATEL: Hi, my name is Ravi Patel. I am a member of Holy Trinity Orthodox Church in State College. This is Holy Week. We are strongly encouraged to attend as many services as we can.

I was sent reluctantly by our Priest, Father Ignatius Hunter. Since I am missing Bridegroom Services, this is a huge statement that is being made by our church leadership. We recently started a new Ministry Program, one of many programs offered at Rockview Chapel, and found it well connected to the local community of all faiths. And

feel that it would be in the best interest of the inmates in their rehabilitation for Rockview and its chapel to remain open.

During my orientation, I learned about the miracle of Rockview when a local Priest averted a riot between inmates and staff. From that event, it was determined to build a chapel, which was done by the prisoners.

I have personally been inspired by what I have experienced in the chapel, where we see individuals who have strong ownership over the chapel and spend time growing closer to God, and displaying a strong sense of community that is reflected in the low recidivism rate we have heard about today. Thank you.

MR. CLEVELAND: How you doing? My name is Mike Cleveland. I'm not going to tell you anything these hundred people haven't told you before.

I'd like to thank the Representative for showing up today. Never returned my call, Dallas. I'm on you.

Unfortunately, I disagree with Mr. Conklin. They're not here to listen to us. They're here because they have to be. We know that.

But I would like to thank you for coming, for at least lying to our face. And I don't mean that as an insult. I say lying to our face because otherwise you're just incompetent.

And you don't know, Mr. Oppman, that $74 million, if you walked around, you know that's a lie. You know those projects are done and I'm sorry, I don't know your name. If you'd walk up to 4 or 5 range A Block, D Block, you know those cells are locked, sinks were taken out, locks are taken off. That's - that's 200 beds out of your report that we have now. They're not there.

So just want to say thank you for coming, lying to our face and have a good night.

MR. BORTREE: Hi. My name is Brian Bortree. Thank you for listening. I'm a volunteer with the Christian Religious Program - Fellowship Ministries. So we go on Monday nights and meet with the men.

What I wanted to do is just give voice to the inmates, since they're not able to be here. There's an article I came across from The Express in Lock Haven. When I came across it, it quotes several inmates had written letters and gave their names and quotes. Many of these men I work

with and I know with -. So I just like to read a couple quotes for the record and for everyone here to give the inmates' perspective.

Here's one quote by John Hinton. SCI Rockview has been designated and equipped as an institution devoted to inmates with mental-health needs that would most likely be missing from other Pennsylvania prisons.

I know John. I've prayed with him, worked with him. He's a lifer. He's a very strong Christian.

William Curley, who is serving a life sentence. And before his transfer, he - to be closer to his family in Bellefonte, he was at SCI Fayette. He described the atmosphere as very calm and peaceful. His name's Curley. He's one of the chapel workers that was mentioned and helps maintain that facility and work in those programs.

Here's another. Adriel Chambers, who also struggles with mental - mental-health changes, said his primary fear is for physical safety.

I've prayed with Adriel and work with him.

Another inmate says others they have fear for their mental-health challenges that make

them, quote, fresh meat. This person didn't give his name. I know that is because he said the same thing in our prayer circle.

And there's a couple other quotes in here as well. So just in closing, I do want to say I pray - I pray for the staff, I pray for the officers. I pray for the inmates in this situation.

I do pray that the Governor makes the right decision for the right reasons. I'll also add you on as the committee in my prayers for the situation. And I just want to make sure the voice of the inmates was heard. Thank you.

MR. BROWN: Hi, I'm Joshua Brown. I've been at Rockview for 11-and-a-half years. I'm now a Sergeant on the Residential Treatment Unit. I've spent ten-and-a-half years exclusively working with mental health inmates. Whether it be the Secure Residential Treatment Unit, the Special Needs Unit, the Mental Health Unit. That's what I've been doing for ten years. I've also been on the emergency response team.

So I have done everything the state has asked of me. Whether it be negotiating inmates out of cells, extracting them. Every fluid a body can create, I have had it on me.

So thank you guys for being here. I'm sorry if I'm a little messed up. My mom died almost a year ago today. My best friend's dad just died this morning. Some of the people in the suits may know my mom as the Director of CentrePeace. She helped with community corrections with the Centre County Correction Facility, rehabilitating them back in their community.

My father, he has had me doing community service since we moved here when I was three years old. Whether it be the Million Penny Easter Seals Drive or various things through W - 3WZ or The Bus or anything like that, we've been doing that for 30-plus years.

Basically, what I want to speak on today is just the community at Rockview. As a member of the emergency response team, I have been to almost every other facility in the state. And a lot of them are great. The relationships between staff aren't.

Rockview is one of the few places where as a CO, as a Sergeant, as a Lieutenant, as a Superintendent, we can sit down, we can talk, we can communicate to each other. If I can just share an anecdote, because this has gotten a little heavy.

When I was 14 years old, my baby sister was four. Our neighbors did not like her cutting through their yard. So that summer I decided to pee all over the grass to kill their grass. I found out about two years ago that Superintendent Salamon moved into that house. And she sat down and confronted me about peeing in her grass almost 20 years ago.

So that is the kind of relationship we have at Rockview, where we can just sit down and we can joke, we can laugh, we can all talk. Management doesn't matter if it's frontline staff or anything. Thank you.

SERGEANT BIVENS: Hi, I'm Sergeant Nicole Bivens and I've been with the DOC for over 11 years. All of that has been at Rockview. The points that have been brought up by my brothers and sisters and our family and our community all have importance, from the false information being put out, the smoke and mirrors by Central Office and the silence when our lives are being turned upside down with no guidance or answers.

But something that isn't being discussed or even addressed is the amount of inmates who have mental-health issues spiraling out of

control and making open threats of self-harm, with no response or reassurance from upper management, who has no guidance from Central Office on any of these matters.

This is unacceptable. Any time an incident is investigated, the well-being and health of the inmate is put at top priority. But now when it's most important, it's being ignored and staff with boots on the ground are left scrambling to pick up the shattering pieces.

This is not good leadership. This is not you upholding, honoring or representing the DOC mission. This is not providing care for staff or inmates. It's directly putting both our lives at risk and allowing harm to control our - harm to control ourselves and the inmates. Thank you.

MS. ATTANAYAKE: Hi. Good evening to everyone. I'm Asantha, and my husband is the Chaplaincy Program Director at Rockview.

So I came here to tell you a story. I came to Penn State as a Fulbright in 2013 and I met my husband here. And then we fell in love. And then I want to go back to my country to serve my country. And he said, we'll stay back.

I said, no, I must go back to my

country to serve my country. Then he said, okay. Loving a country, serving a country is not an easy thing. If you feel that, yeah, I come with you. And he respected my wishes and he came with me to Sri Lanka. And we lived there for seven years.

He let me serve my country for seven years after my marriage. I refused to be American for seven years. Then one fine day, all the while we were in Sri Lanka, his idea was that I want to go back home. I don't blame him, but nevertheless, he let me serve my country, as I said. So after seven years he - we decided to come back. Actually he made the decision and I didn't say anything.

So we came back. And as soon as we came back, he took - he went to the seminary in Ohio. And then every time we come back - we used to come back home. He was born and raised here in State College -. Then every time we came back from - back and forth from Ohio to State College to see his parents and all, he used to be - be used to say, when we pass the Rockview, he used to say, that's my home. I want to go there and work.

This was in 2021. And then from Ohio, he always say, whenever we there, I want to go back home, I want to go back home. I said, why is

it nonsense? While you were in Sri Lanka, you said you want to go back home. I thought it's America. So when he was in Ohio, he kept saying, I want to go back home. Which means Pennsylvania is what I thought.

Then after his studies at seminary, he got a position at Northern Pennsylvania as a Pastor, at a church. Then we were coming back and all the time when we coming back and forth to his parents, he kept saying, I want to go back home, I want to go back home.

What does it mean? Then last year, actually April, we came back to State College, to his home, because he got a position as the Chaplain at the office, and finally he's home and he's happy in Centre County.

And every day in the morning he would get up with so much enthusiasm, like a prayer, and get ready to go to work. And he's so passionate about his work, so passionate.

And I was so happy. But then I am so happy because my husband is happy working where he really wanted to work.

So my question or my position is that, you know the difference between employees and

dedicated passionate employees. They make a big difference. Just an employee and a passionate dedicated employee means two different things. And what you hear all this time is the - the outburst lamentations of passionate, dedicated employees.

So are you going to make them just employees by making them relocate somewhere else, is my question? Thank you.

MS. DOVERSPIKE: Good evening. In 2018 my husband and I made the choice to move to Centre County from Clinton County, where our extended family is, for his job at Rockview.

Like a previous speaker, his Rockview family helped us move. We have two children that attend school here, one in Bald Eagle Area. They have friends here.

With the 67-mile radius, relocation could put him at SCI Muncy. That's a nearly two hour drive from our home. If this is truly a cost-savings measure, Rockview holds a substantial amount of generally unutilized land, that, while not ideal, could be sold as a budget buffer and is a tactic that has been utilized by the state in the past.

But to reiterate Representative

Kephart, that shouldn't be - there shouldn't be any sweetheart deals, if that's the decision that's made. As not only DOC employees and families of those employees, but state taxpayers, we are demanding transparency in this proposal, which to date has not been provided.

Safety should always come ahead of money. Closing these facilities impacts inmate and officer safety, not only on the job, but the additional commute time.

My kids want their dad home safe each night. Are you truly prepared for the consequences that come from putting money over lives? Thank you.

MR. DOVERSPIKE: My name is Matt Doverspike, and I'm well aware my fellow employees are probably regretting me coming up here.

Take you on a little trip back to 2016, when I started at Rockview. Two years later, my wife and I experienced the absolute worst thin parents can. We lost our daughter.

I was working overtime at the time. I took an entire month off to deal with that. When I came back, I expected a little bit of support from my fellow employees. Not nearly what I got. But then walking into the institution and having inmates

that I didn't even communicate with walk up to me and let me know that they were praying for my family and I, you can't replicate that anywhere else.

What you're proposing is not just relocating individuals. It's not just numbers. We're a family.

Just like it's been said the entire time since the proposals came out, we are a family. And it's not just the staff. It's the staff and inmates. You're not going to recreate that anywhere else. Thank you.

MR. TARKOWSKI: Thank you to everyone who spoke tonight, and thank you to Superintendent Santini and the rest of the team at Bald Eagle Area School District for hosting us tonight.

Just a reminder for anybody who did not get a chance to speak publicly tonight and still wants to make their opinion heard, cor.pa.gov has instructions on how to leave a voicemail or an email that will also be entered into the record.

Before we say good night. I will turn it back over to Superintendent (sic) Harry.

SECRETARY HARRY: I'm on. Okay. Thank you so much. We truly do appreciate you being here this evening, sharing your feedback. And as we

move forward, we remain committed to the Act 133 process, which guides each step we have to take regarding this proposed closure. But we will take your questions, your concerns, your feedback into consideration as we move forward to make a decision.

I will tell you that the earliest we anticipate making a decision would be the week of May 12, and we will post our final report on our website.

As Mr. Tarkowski said, if anyone's sitting here and you think you know what, I really do want to submit feedback or I want to speak, and for whatever reason you didn't, please visit our website, cor.pa.gov and submit your feedback, because we do read those comments as well.

And again, just appreciate - especially appreciate Dr. Santor - Santorini - did I get that -? Santini, I'm sorry, and the Bald Eagle Area High School for letting us stay in this facility this evening and use this for this event. We greatly appreciate their hospitality and really appreciate your thoughtful comments, again, for coming out and sharing this with us.

And this concludes our event. Thank you.

RECIDIVISM

Three different measures of recidivism (**rearrest, reincarceration,** and **overall recidivism**) have been used by the DOC in a recent report to further explore the effects of recidivism on the criminal justice system. The DOC defines rearrest as: "**the first instance of arrest after the individual is released from the custody of the DOC."** The DOC defines reincarceration as: "**the first instance of returning to the custody of the DOC after the individual is released from the DOC."** The DOC defines overall recidivism as: "**the first instance of any type of rearrest or reincarceration after the individual is released from the DOC."**

Year of Release	Inmates Released	Rearrest Rates			Reincarceration Rates			Overall Recidivism Rates		
		6 months	1 year	3 years	6 months	1 year	3 years	6 months	1 year	3 years

Creating Success, Inside and Out

Pennsylvania
Department of Corrections

John Eckenrode
PSCOA President
2421 North Front Street
Harrisburg, PA 17110-1110

RE: Closure

Dear President Eckenrode,

Thank you for sharing your concerns, you and your members' input as stakeholders are valued. At this time, no final decision to close any facility has been made and the review process is ongoing.

The Public Safety Facilities Act (Act 133 of 2018) requires that when the closure of a specific State Correctional Institution (SCI) is proposed, stakeholders are notified, and the Department begins formally reviewing the impacts of the proposal. The formal review process solicits input from stakeholders, including state agencies, affected bargaining units, the public, and elected officials over at least a three-month period. A public hearing is also held during this review period.

During the review, the Department's Steering Committee will consider stakeholder input, analyze the impact on the community, public safety, the workforce, and financial resources. At the conclusion of the review period, the Steering Committee will draft a final report to determine whether the closure proposal is still recommended. The Public Safety Facilities Act requires that this report be shared with designated elected officials and the Department intends to make this report available to the public when the procedural obligations of the Public Safety Facilities Act have been met. The Public Safety Facilities Act does not apply to Community Corrections Centers (CCCs).

To answer the specific questions in your correspondence:

1. ***Who will serve on the DOC Steering Committee? If you don't have specific names, can you provide a description of the types of candidates you' re looking for to fill the committee?***

   The Department's Steering Committee has been meeting and used a data-driven analysis, informed by the Resource Evaluation and Mission Alignment Project (REMAP) process, to propose the closure of two SCIs. The committee is composed of the Department's executive leadership and bureau directors. The committee was modeled after the structure implemented for the closure of SCI Retreat and will consult with additional subject matter experts as it continues its work.

2. ***Can the PSCOA provide recommendations for candidates to serve on the committee?***

   Bargaining unit staff may provide input to the committee regarding SCI proposals through the various stakeholder processes afforded under the Public Safety Facilities Act. You have since received a stakeholder notification memo and have been provided instructions on how to submit feedback as a stakeholder. Additionally, you and your members may provide feedback

during the public hearing process. Finally, all staff were provided a phone number and resource account where they are welcome to submit their feedback.

3. ***Will the proceedings/meetings be open to the public and the press?***

   The Steering Committee's meetings are not open to the public and press; however, the final report will be made public. Consistent with the Public Safety Facilities Act, a public hearing will occur in both counties where a prison closure has been proposed. Public hearings are open to the public and press.

4. ***You indicated you're hiring an out-of-state consultant, CGI, to assist the committee. What specific services and duties will CGI provide? Will they be responsible for writing the DOC Steering Committee's final report? What is the cost and duration of their contract?***

   The Department of General Services (DGS) contracted with Carter Goble Lee (CGL) Companies in 2022 to conduct a third-party spatial and structural analysis of Department facilities. The Commonwealth's contract with CGL was executed in December 2022, for a total value of $3.4 million.

   The Steering Committee's report was written by the Steering Committee and informed by CGL's work and internal DOC reports. Consistent with the Public Safety Facilities Act, the Steering Committee will draft its final report after weighing and considering additional information gathered from relevant stakeholders and those impacted by the proposed closure.

5. ***You said every employee will be guaranteed a job. Will the department pay reasonable moving fees for these employees who work dangerous jobs and now have had the lives of their families turned upside down?***

   With the cooperation of our unions, all staff will be offered an opportunity for placement in another facility. Placement within 67 miles of the proposed locations will be prioritized; however, employees may request placement in locations that may be more convenient based upon their home location. Moving expenses will not be covered and have not been covered in prior prison closures.

6. ***It's concerning that all of these steps you outlined are taking place before the formal closure review process outlined in Act 133 of 2018 even begins. Are the closing recommendations from the DOC Steering Committee report final, or will impacted communities have a fair opportunity to make their case to reject the report's recommendations?***

   The steps taken to this point are necessary to begin the process outlined in the Public Safety Facilities Act. Consistent with the Act, stakeholder feedback will be solicited and considered in the formulation of the final report and decision process.

7. ***You note that Community Corrections Centers aren't subject to Act 133 of 2018 guidelines for prison closures. In the spirit of transparency, why not provide the impacted communities the same process to ensure their voices are heard?***

CCCs are not subject to the Public Safety Facilities Act. That said, we recognize the importance of transparency and community input. We welcome and encourage feedback from impacted communities. Anyone wishing to share their thoughts or concerns can do so by emailing ra-crdocclose@pa.gov, or a message may be left at 1-888-316-8950.

The above should address your concerns.

Sincerely,

Dr. Laurel Harry
Secretary of Corrections

Good evening. Please see the attached. Thank you.

Pennsylvania
Department of Corrections

Thomas Wines
FOP Executive Director
8025 Roosevelt Blvd. Suite 201
Philadelphia, PA 19152

RE: Closure

Dear Executive Director Wines,

Thank you for sharing your concerns, you and your members' input as stakeholders are valued. At this time, only decisions to close Community Corrections Centers have been made. The proposal to close prisons remains under review, as required by the Public Safety Facilities Act (Act 133 of 2018) and no final decisions have been made about the prisons.

The Public Safety Facilities Act requires that when the closure of a specific State Correctional Institution (SCI) is proposed, stakeholders are notified, and the Department begins formally reviewing the impacts of the proposal. The formal review process lasts at least three months and solicits input from stakeholders, including state agencies, affected bargaining units, the public, and elected officials. A public hearing is also held during this review period. Although you opine that bargaining units have been left out of meaningful discussions until after the Department has already made its decisions, the Department made its informational request as prescribed by the Public Safety Facilities Act and will consider information provided in accordance with the Act.

During the review, the Department's Steering Committee will consider stakeholder input, analyze the impact on the community, public safety, the workforce, and financial resources. At the conclusion of the review, the Steering Committee will draft a final report to determine whether the closure proposal is still recommended. The Public Safety Facilities Act requires that this report be shared with designated elected officials, and the Department intends to make this report available to the public when the procedural obligations of the Public Safety Facilities Act have been met. As noted in your correspondence, the Public Safety Facilities Act does not apply to Community Corrections Centers.

Your correspondence requests:

1. ***A full and transparent justification*** *for why these specific closures were chosen, including all data and analysis used to reach these conclusions.*

   As noted above, the Department intends to release its final report to the public when it is produced. The Steering Committee's proposal is available at: https://www.pa.gov/content/dam/copapwp-pagov/en/cor/documents/state-prisons/doc-steering-committee-recommendation.pdf

2. ***A clear and enforceable job placement plan*** *that ensures staff will not be forced into unreasonable transfers or positions that do not align with their current roles.*

Human Resource staff have requested dates and times to meet with each bargaining unit to negotiate agreements relative to this matter for proposed SCI closures, should they occur, and CCC closures.

3. ***A commitment to engage with the union as a true stakeholder*** *before any final decisions are made, rather than treating us as an afterthought in a process that directly affects our members.*

   Bargaining unit staff may provide input to the committee regarding SCI proposals through the various stakeholder processes afforded under the Public Safety Facilities Act. You have received a stakeholder notification memo and have been provided instructions on how to submit feedback as a stakeholder. Additionally, you and your members may provide feedback during the public hearing process. Finally, all staff were provided a phone number and resource account where they are welcome to submit their feedback.

We recognize the importance of transparency and community input. We welcome and encourage feedback from impacted communities. Anyone wishing to share their thoughts or concerns can do so by emailing ra-crdocclose@pa.gov, or a message may be left at 1-888-316-8950.

The above should address your concerns.

Sincerely,

Laurel R Harry

Dr. Laurel Harry
Secretary of Corrections

Appendix A

1. Recidivism Rates By Institution – *See document #1*

2. Number of GEDs awarded per institution – *See document #2*

3. Number of Staff Assaults per Institution – *See document #3*

4. Serious Contraband Finds per Institutions – *See document #4*

5. How many inmates have been released from Quehanna Boot Camp per year –

Year	Admits	Releases	BC Graduates
2022	1060	875	164
2023	1116	927	172
2024	874	875	106
thru Mar 20, 2025	230	185	

6. Bed capacity statewide has increased without significant structural changes to the institutions. How is capacity being determined and what has changed to account for recent fluctuations? Is this including emergency units? – *See highlighted note on document #6. This is also published on the public website.*

7. Current TC waitlists in other institutions –

Summary of Major Staff Assaults
December 2024

December 2024

Chester 12/16/2024 @ 14:45:
While being escorted to the showers by Officer1 and Officer2, Inmate became argumentative and combative with Officer1. Inmate refused to move forward and was placed against the wall. Officer2 attempted to talk with Inmate to deescalate the situation. The escort resumed. Officer2 walked Inmate to the shower while Officer1 followed. At this time, Inmate turned and spit at Officer1. Inmate was placed against the wall and Officer1 made a radio transmission notifying control of a staff assault. Responding units arrived and Inmate was taken to the floor to regain control. Officer1 was transported to an outside hospital via correctional staff, where treatment was received.

Chester 12/16/2024 @ 10:26:
Inmate was given several orders to pack up to switch cells. Inmate refused to comply with all orders and began threatening to hurt staff if anyone came into his cell. Inmate began to wrap his face with towels and continued to refuse all orders to come out and be cuffed up. Inmate stated "I'm going to light this bitch up" then sparks and fire started coming from underneath his cell door. OC was deployed and Inmate still refused to exit the cell. All responding staff members reported to the RHU cell 7 and the fire was extinguished from outside of the cell door. Upon opening the cell door and entering the cell to restrain Inmate, he came out swinging with closed fist and charged at SGT, who was the first staff member entering the cell. Inmate struck several other staff members, to include Officer1, Officer2 and Officer3, with his fist before being restrained in leg irons and handcuffs. SGT was seen at the outside hospital.

Muncy 12/10/2024 @ 18:25:
During an escort from the Triage Room in the RHU to BMU Cell 1012, Inmate1 became non-compliant. Inmate1 was placed on the bed in the cell to gain control and placed in the recovery position. Officers attempted to stand Inmate1 up to be backed to the cell door and have the restraints removed. Inmate1 then spit at Officer1, hitting her in the face. Inmate1 was then placed back on the bed in the cell and in to the recovery position. Inmate1 then grabbed Officer2's right wrist, squeezed, and scratched it. Inmate1 also scratched Officer2's left wrist. Officer2 was sent to an outside hospital due to an injury received during the unplanned use of force.

November 2024

Rockview 11/29/2024 @ 13:15:
Officer1 and Officer2 went to cell BC 1004 to retrieve several trays from Inmate1. Inmate1 was given orders to give the trays to staff, which he turned over all but one tray. Inmate1 then refused to give the final tray to staff and became argumentative, yelling from his cell. Officer1 and Officer2 gave Inmate1 orders to turn around and be restrained, which he refused. Officer2 administered an application of OC to Inmate1. Inmate was again ordered to turn around to be restrained which he initially complied with and turned around. Officer1 entered the cell with Officer2. Inmate1 turned around and began swing closed fists at staff striking both officers several times. Inmate1 was taken to the ground and the Control Center was notified. Officer1 and Officer2 were transported by staff to an outside hospital.

Camp Hill 11/15/2024 @ 20:20:
While securing inmates in their cells after dayroom, Inmate refused all orders given by Officer1 and Officer2 to lock in his cell. Due to his non-compliance with orders, OC was deployed. Once OC was deployed, Inmate lunged at both officers and started hitting them with closed fists. Utilizing strikes against Inmate, the officers

were able gain control of Inmate and restrain him. Officer1 and Officer2 were transported by state vehicle to an outside hospital.

Rockview 11/14/2024 @ 9:52:
Officer1 and Officer2 escorted Inmate to cell GB 1022 after speaking to PRC. Officer1 unsecured the waste belt of Inmate to place the inmate into his cell. Once the belt was unsecured, Inmate quickly turned around and struck Officer1 with closed fists to the left side of his face. Inmate retreated into the cell and the door was secured. Additional staff was requested via in-house radio by Officer2. Officer1 administered a burst of OC to Inmate and ordered him to come to the door so that the restraint belt could be secured. Inmate complied and Officer1 attempted to secure the belt. Inmate pulled the belt away from the officers and refused to comply with further orders. LT arrived at the cell and ordered Inmate to come to the door so that the handcuffs could be removed. Inmate initially refused the orders to come to the door before complying with orders and the restraints were removed without further incident. Officer1 was transported to an outside hospital.

Fayette 11/14/2024 @ 9:25:
While conducting an informal misconduct hearing in UM's Office, Inmate became extremely irate due UM's decision pertaining to the informal misconduct and loss of job. Inmate became verbally abusive, threatened and physically assaulted UM and Officer1. Unit 3 and responding staff arrived and secured Inmate in wrist restraints. Officer1 needed to be seen at an outside medical facility. Officer2 was also seen at an outside hospital for injuries he sustained in a fall responding to the incident.

Phoenix 11/13/2024 @ 10:28:
Inmate approached UM and began to strike him in the head with closed fists. LT responded to the area and applied strikes against Inmate in an effort to gain control. ASST and CC attempted to assist in gaining control of Inmate. Oleoresin Capsicum was deployed. Responding staff placed Inmate on the floor and compliance was achieved. UM and LT were sent to an outside medical facility for further treatment.

Pine Grove 11/13/2024 @ 8:00:
Inmate1 approached Inmate2 in the H Unit A Pod Dayroom. The two inmates began exchanging closed fist punches. Main Control was notified via radio. Officer1 ordered the inmates to stop fighting and the inmates refused to comply. Officer1 administered two applications of OC and the inmates separated. Inmate2 exited the housing unit and Inmate1 sat down on a bench in the dayroom. Officer1 followed Inmate2 and attempted to gain control of the Inmate. Inmate2 attempted to punch Officer1 but missed the Officer. Officer1 placed Inmate2 against the wall. SGT1 arrived and assisted Officer1. Inmate2 was able to exit the housing unit and was placed on the ground by Officer1, SGT1, Officer2 and Officer3. Inmate2 was placed in handcuffs and assisted to a standing position. SGT1 and Officer 1 were sent by state vehicle to outside medical facilities.

October 2024

Waymart 10/20/2024 @ 18:47:
Inmate was being escorted to his cell when he turned his head and spit at Officer1. Officer1 was struck in his face with the spit. Inmate was placed on the floor to gain control by Officer1, Officer2 and Officer3. A Code was called and responders were dispatched. Officer1 and Officer3 were escorted to an outside hospital for treatment.

Coal Township 10/20/2024 @ 7:29:
Officer1, Officer2, Officer3, and Officer4 were directed to report to C-B Unit to assist LT1 in the escort of Inmate1 to the RHU due to refusing orders to report to Intake for a Random Drug Urinalysis. As Officer1,

Officer2, Officer3, and Officer4 observed Inmate1 roaming around on C-B Unit. Officer1 ordered Inmate1 to report to the Sergeant Office. Inmate1 refused multiple orders from Officer1 stating, "Fuck you, come get me." As Officer1, Officer2, Officer3, and Officer4 approached Inmate1, Inmate1 started to advance on Officer1, in an aggressive manner. Inmate1 was again given multiple orders to turn around to be restrained and the inmate continued to refuse all orders given. Officer1 then deployed a 1-2 second application of OC in an attempt to gain compliance. Inmate1 then swung a closed-fist punch at Officer1, striking the officer on the left side of his face (cheek and lip). Officer1, Officer2, Officer3, and Officer4 then used the minimal amount of force necessary to secure the inmate in handcuffs. While attempting to secure Inmate1, the inmate was actively throwing closed fist punches and elbow strikes at Officer1, Officer2, Officer3, and Officer4. Officer3 was escorted to an outside hospital.

Pine Grove 10/19/2024 @ 8:13:
Inmate approached Officer1 at the D1 Officer's Station. Inmate struck Officer1 in the face and head area multiple times. Officer2 attempted to gain control of Inmate. Officer2 and Officer1 placed Inmate on the floor to gain control. Officer1 was transported to an outside hospital due to injuries.

Frackville 10/9/2024 @ 7:32:
The RHU escort team, consisting of LT1, SGT1, Officer1, reported to C-C-1001 cell to escort Inmate to the RHU due to receiving a misconduct. Upon arrival of the escort team, Inmate was refusing orders to be handcuffed and started to reach for what appeared to be his wash tub filled with an unknown liquid under his desk. The inmate refused all orders to stop reaching for anything, and Officer1 then delivered a 2-3 second burst of O.C. towards Inmate in order to stop him from picking anything up that could be used to assault staff. At that time the inmate became compliant and approached the door to be handcuffed, and the cell door was opened. Immediately after opening the cell door in order to handcuff Inmate, he became combative, and refused all orders to be handcuffed. Officer1 then delivered a 2-3 second burst of O.C. towards the inmate in order to gain compliance, but did not receive the desired effect. The escort team entered the cell in order to gain compliance of the inmate, at which point the inmate began to assault Officer1 and SGT1 with closed fist strikes. A radio call for staff assistance was made, and IRT-A was immediately deployed. Upon arrival of additional staff, Inmate was restrained and placed on the ground outside his cell in order to gain compliance. Officer1 was transported to an outside medical facility via state vehicle.

<u>September 2024</u>

Huntingdon 9/24/2024 @ 17:50:
Inmate1 was in the shower in GB quad when Officer1 and COT1 was placing Inmate2 in the next shower over. Upon securing Inmate2 in the shower, Inmate1 utilized a shampoo bottle full of unknown substance, presumably fecal matter, and started to squirt it over the shower wall towards Inmate2. During this action, Officer1 was struck with this unknown substance on his body and COT1 got struck in the face / eye. Officer1 and COT1 were sent to an outside hospital for treatment.

Muncy 9/15/2024 @ 13:50:
Inmate, who was seated at the SRTU treatment table suddenly stood up, walked to the group room doorway and threw a book at SGT1, striking him in the knee. At that time, Inmate was given direct orders to be handcuffed but refused all orders. SGT1 and Officer1 proceeded to attempt to restrain Inmate, who resisted. During their attempts to transition Inmate to the ground and secure in restraints, Officer1, who was attempting to control Inmate's legs, was kicked in the upper torso area multiple times. Assistance was requested on unit via radio. As additional staff arrived, a spit hood was applied and control was obtained. Officer1 reported being kicked in the chest by Inmate during the incident and was sent to an outside hospital via ambulance. Later in the shift, Officer2 was transported to an outside hospital as a result of this incident.

Albion 9/9/2024 @ 13:11:
Inmate approached Officer at the B-B Unit Officers Desk, demanding a pass for Activities. Officer informed Inmate he was not on the call out and ordered Inmate back to his cell. At the order, Inmate began yelling for a pass. As Inmate became more aggressive, Officer stepped from behind the officers' desk towards Inmate. As Officer approached Inmate, Inmate headbutted Officer in the nose and assumed a fighting stance. As Inmate began to approach Officer, SGT tackled Inmate, ending the assault. Officer required treatment outside the institution.

Camp Hill 9/4/2024 @ 7:35:
Inmate was on a pass and as he approached the Crosswalks post, COT asked to see his pass and ID. Inmate continued to walk past the Crosswalks post and was asked again to produce his pass and ID. At that time, Inmate approached COT and began to strike COT in the head/face area with closed fists. At that time a radio transmission of staff needs assistance in front of the Crosswalks Post was made via institutional radio. COT continued to struggle with Inmate then Inmate was placed on the ground in order to gain control. Responding staff arrived, assisted in gaining control of Inmate and restraining him in handcuffs. COT was driven to an outside hospital.

Greene 9/2/2024 @ 10:02:
SGT and Officer were securing doors after commencing showers and Inmate began questioning the shower procedure. SGT addressed the concerns and proceeded to close the cell door when Inmate stuck his foot into the door to prevent closing and re-opened the door. At that time, Inmate grabbed SGT's right arm, pulling him into the cell. Officer followed SGT into the cell and Inmate was taken to the floor, secured and placed in restraints. SGT and Officer were transported to an outside hospital via state vehicle.

August 2024

Fayette 8/22/2024 @ 12:53:
Inmate1 came out of LA2022 for L-Unit PRC. After PRC, Inmate was placed in the Secure Intake Area and seen by PSS1. After PSS1 was done, staff was escorting Inmate back to LA2022. Escorting staff secured Inmate in LA2022 and removed one wrist restraint. Inmate reached for a weapon and sliced Officer1. Staff pulled on the tether and administered OC to regain control of Inmate. While trying to regain control, Officer2 was sliced by Inmate. Inmate was secured in wrist restraints. Officer1, Officer2, and Officer3 sustained injures and were taken to an outside hospital by state vehicle.

Fayette 8/21/2024 @ 19:48:
Officer1 and Officer2 were dispatched to conduct a cell search of L-B-1001, which housed Inmate, due to Inmate being observed fishing. Inmate refused to comply with orders to come to the door and complete an unclothed search. Officer1 radioed for assistance. Officers responded to the pod and multiple orders were given to Inmate to comply with an unclothed search. Inmate refused all orders. LT responded to the pod and spoke with Inmate. Inmate told LT that he would comply with orders. LT directed Officer1 to continue with the search, at which point Inmate refused all orders to comply with an unclothed search. Inmate covered the door with a mattress and became unresponsive. LT made several attempts to re-engage with Inmate, but Inmate refused to respond further. After several attempts with no response, LT dispersed a 1-3 second burst of Oleoresin Capsicum from an MK-4, which met with no response from Inmate. LT continued with verbal orders then, utilizing an MK-9, administered a 1-3 second burst of OC into the cell. There was no further response. The door was opened, and entry was made. Inmate became combative and began swinging and resisting staff. Inmate was placed on the ground to regain control. Inmate continued his assaultive actions by swinging and biting officers. Several orders of "Stop resisting" were given. Officers restrained the inmate in wrist and ankle restraints and escorted him to the L-Block vestibule where he continued to resist staff.

Inmate was again placed on the floor to regain control. Inmate was then found to have a weapon in his possession which was confiscated. Officer1 and Officer4 were taken to an outside hospital.

Houtzdale 8/13/2024 @ 20:18:
Control received a radio call from EB for an inmate refusing to lock in. Responding staff arrived and attempted to restrain Inmate. Inmate refused all orders to be restrained. Staff attempted to place Inmate against the wall to gain compliance. Inmate broke away and struck Officer with a closed fist. Staff notified control via radio of the staff assault. Inmate was restrained by responding staff. Officer was transported to an outside hospital via ALS ambulance.

Albion 8/12/2024 @ 20:40:
SGT was working D/A Unit and witnessed Inmate1 receive an unknown object from D/A 1002 cell, housing Inmate2. When asked what he had, Inmate1 stated "nothing." SGT ordered Inmate1 to turn over what he was given, which was refused. SGT made a radio call one refusing and ordered Inmate1 to cuff up. Inmate1 turned around and, without provocation, punched SGT in the face and head area, knocking him to the ground. Inmate continued to punch SGT about the face and head while he was on the ground. Officer1, who was working Yard 1 and was on his Count Unit, made a radio call of staff assault on D/A and then charged the pile, pushing Inmate1 away from SGT. Inmate1 was handcuffed by responding officers. Both SGT and Officer1 received medical attention at the outside hospital.

Fayette 8/11/2024 @ 16:00:
LT was putting yard out on J-C pod when he noticed Inmate tying sheets together. LT went to J-C 1002 cell, where Inmate was housed. Inmate expressed thoughts of self-injurious behavior. LT ordered Inmate to turn in the pieces of sheets two times, to which Inmate responded "Fuck You." LT gave Inmate a final order or OC would be deployed. Inmate ran to the door, punching the door, and OC was deployed. LT called on J-Unit channel that OC had been deployed. COT and Officer1 performed an unclothed search of Inmate, placing him in wrist restraints and escorted him from J-C 1002 to J-Unit Triage. Officer1 was transported to an outside hospital by state vehicle.

Rockview 8/4/2024 @ 7:40:
Inmate was escorted to the urine collection site and was given orders by Officer1 to submit a urine sample for testing. Inmate became argumentative and agitated, stating he had just shit and could not produce a sample. Officer1 informed Inmate that he would still be required to provide a sample. Inmate started flailing his arms and stepped toward Officer1. Inmate attempted to strike Officer1. Officer1 took Inmate to the ground. Inmate struck Officer1 with a closed fist to the right eye, while on the ground, as Officer1 attempted to gain control and restrain Inmate. Officer2 reported the assault to the Control Center via 748 radio. Officer1 applied strikes to Inmate and was able to gain control of Inmate and allow responding staff to restrain Inmate. Officer1 was sent to an outside hospital.

Phoenix 8/3/2024 @ 11:22:
Inmate, who is housed on Q Unit-A Wing, was observed having a verbal interaction with Officer. Inmate then gets up from his wheelchair, removes a piece of the wheelchair and swings it at Officer. Officer retreated and utilized strikes against Inmate, to defend herself. Inmate struck Officer numerous times with the piece of wheelchair, causing injury. Officer deployed Oleoresin Capsicum to create distance. An unknown inmate witnessing the assault, picked up a rubber trash can to help defend Officer. Inmate walked back to his wheelchair and tried to return to his housing location. Responding staff arrived on the unit and secured Inmate. Officer was escorted to an outside hospital for further treatment.

Huntingdon 8/3/2024 @ 8:43:
Inmate, who was housed in CA-3044 cell, was pulled ordered out of his cell by Officer1, in order to conduct a security check of the cell. Officer1 entered the cell and discovered contraband, which was suspected to be suboxone. Officer1 secured the contraband, at which time Inmate entered the cell. When Inmate entered the cell, he began to assault Officer1 and attempted to get the contraband from her. During this act, the inmate bit Officer1 two times. The assault continued out of the cell, at which time Inmate was still attempting to get the contraband from Officer1. Inmate went up over the tier bar and was hanging over the tier. The assault was called over the radio and Officer2 responded. The officers pulled the inmate back over the tier bar, at which time additional officers arrived, securing Inmate with restraints. Officer1 was transported to the ER.

July 2024

Phoenix 7/29/2024 @ 15:10:
Officer was escorting Inmate from the shower to his cell. Officer removed the handcuffs from Inmate at the cell door and Inmate proceeded to strike Officer with a homemade weapon. Officer used strikes against the inmate to create distance and both Officer and Inmate fell to the floor. Inmate continued to strike Officer as he was on the floor with the homemade weapon. Officer stood to his feet as additional staff responded to the unit and secured the inmate in his cell. Officer was escorted to an outside medical facility.

Huntingdon 7/26/2024 @ 20:08:
Upon the conclusion of a use of force involving Inmate, and once the camera man had left the cell, Inmate began attempting to destroy the in-cell camera. He was unsuccessful but immediately covered the in-cell camera with his Ferguson smock and covered his cell door with his mattress and went unresponsive. A radio call came into G Control for a medical emergency in GA1015. Staff responded and when LT arrived, the plexiglass on the cell door was slid to the side for staff to attempt to administer O.C. into the cell. At that time, Inmate took the mattress down and spit bodily fluid onto Officer's face. Officer was sent to an outside hospital.

Muncy 7/19/2024 @ 14:45:
Inmate was in Infirmary Triage for assessment. Inmate became combative and non-compliant and was restrained by staff on the Triage bed. Inmate's hands, which had been secured in front for Medical evaluation, were secured in the back during the use of force, to maintain control. During this time, COT was kicked in the face area by Inmate. Additional staff respond to the area and shackles were applied. One of the responders, Officer1, was kicked in the left arm and left leg by Inmate. Officer2 was kicked in the chest and headbutted, in the head, by Inmate. The Inmate was then assisted to and placed into a Restraint Chair for transport purposes and was escorted to the DTU. COT was transported to an outside hospital.

Phoenix 7/11/2024 @ 11:35:
Inmate approached and began to argue with UM on Q-Unit, A wing. Inmate punched UM in his face several times, knocking him to the ground. Officer deployed her Oleoresin Capsicum to stop the staff assault. Inmate ran up to cell Q-A-2024 and laid on the floor with his hands behind his back. Officer secured Inmate with hand restraints. UM was escorted to an outside hospital.

Greene 7/9/2024 @ 16:49:
During a General Search of SCI Greene it was reported that Inmate had assaulted Officer by biting him on the left forearm. Staff on the unit responded, attempting to gain compliance of Inmate, placing him on the floor as he continued to bite Officer. Compliance was eventually gained as a result of staff using force to stop Inmate's assault. Officer was escorted to an outside hospital.

Phoenix 7/7/2024 @ 14:18:
Officer1 received an emergency bell notification from Infirmary ward 3-B-1036. Officer1 entered 3-B-1036 to investigate the nature of the emergency and Inmate turned around and struck Officer1 without provocation. Officer1 fell to the floor, at which time Inmate got on top of Officer1 and began grabbing at his face and head. Officer1 was able to get to a standing position and ordered Inmate to remain on the floor with his hands behind his back. Inmate complied with all direction and was placed in restraints. Officer1 was escorted to an outside medical facility.

Dallas 7/3/2024 @ 15:33:
Inmate walked off his housing unit, into the main corridor, and was stopped by Officer1. Officer1 ordered Inmate to return to his housing unit because he had no reason to be in the corridor. Officer2 was in the immediate area and also began to talk to Inmate. Inmate stated that he maxed out and needed to talk to the feds. Officer2 alerted SGT, who was in the area. Inmate again stated to SGT that he needed to talk to the feds. SGT offered several staff that Inmate can talk to, just that there are no feds here. At this time, Inmate stood back and threw a closed fist punch at SGT, missing him. SGT, Officer1 and Officer2 took Inmate to the ground at the same time, striking the corridor wall in the process. Inmate continued to throw punches and be resistant, striking SGT in the head. Inmate was then restrained with hand cuffs and leg restraints were applied to him still being combative and kicking. SGT required outside medical treatment.

June 2024

Rockview 6/30/2024 @ 18:40:
While performing his duties as yard officer, Officer1 observed Inmate1 leaning on the yard fence, which is prohibited. Officer1 ordered Inmate1 to stop leaning on the fence. Inmate1 became argumentative and verbally disrespectful with Officer1. Officer1 escorted Inmate1 to the yard gate and exited the yard. Inmate1 continued his disruptive behavior and refused all orders. SGT, Officer1, and Officer2 attempted to place Inmate1 into handcuffs, at which time, he attempted to pull away from the officers and spit, striking Officer1 in the face. Staff placed Inmate1 onto the ground to regain positive control and secured him with handcuffs. As the escort departed the yard gate, Inmate2 approached the yard gate and began kicking the gate and yelling at staff. Inmate2 then proceeded to spit, striking SGT and Officer3. Officer4 withdrew his OC spray and delivered a burst of OC to Inmate2 in an effort to stop his assaultive behavior. Inmate2 continued to yell at and threaten staff as he removed a sock, filled it with rocks, and tied it off into a weapon. Inmate2 continued to refuse all orders from staff and LT was deployed to the incident for HNT purposes. LT was successful in gaining compliance with Inmate2, who relinquished the weapon and exited the yard. SGT received outside treatment.

Albion 6/26/2024 @ 18:31:
Officer1 observed Inmate passing unidentified items in the dayroom. Officer1 directed Inmate to the officer's desk for a pat search. Officer1 was preparing to perform the pat search and directed Inmate to place his hands on the officer's desk and to face forward. SGT was also present at the officer's desk. Initially, Inmate acted as though he would comply with the search. However, the inmate quickly turned around, and with less than an arm's length of space between them, directly faced Officer1 stating, "Fuck you lets go." Officer1, sensing the impending threat, attempted a modified takedown of Inmate. SGT was present and began assisting securing the inmate. Inmate assaulted Officer1 with multiple punches to the face; SGT was struck in the side of the head. Officer2 arrived, providing additional assistance and the inmate was secured. Officer1 and SGT both received outside treatment.

Greene 6/23/2024 @ 18:50:
While discussing issues about the block deficiencies, according to inmates, Inmate1, Inmate2, Inmate3, Inmate4 and Inmate5 were speaking to L Block staff members, to Include LT1, SGT1, Officer1, Officer2, COT1,

and COT2. Inmate1 struck SGT1 in the facial area multiple times and the other inmates joined in the assault of staff, as staff attempted to subdue Inmate1. Officer3 administered OC, as did other staff members. Inmate4 picks up a plastic chair and assaults Officer3 by throwing the chair at him. The inmates are all ordered to return to their cells and are secured. LT1, SGT1, Officer1, Officer2, Officer3, Officer4 and COT2 were referred to an outside hospital.

Phoenix 6/13/2024 @ 18:27:
West Control was notified of a medical emergency in the Q-A-Dayroom. Officer1 reported Inmate1 was unresponsive and appeared to be under the influence of an unknown substance. After Officer1 ordered Inmate1 to exit his cell, he became assaultive and struck Officer1 with closed fists. Officer1 placed Inmate1 against the wall to gain compliance. Inmate1 refused to comply and then was placed on the floor in an attempt to gain control. Inmate1 remained non-compliant and continued to be combative. LT1, along with additional staff, arrived on Q-Unit and placed Inmate1 in hand restraints. Officer1 was referred to an outside medical facility.

Phoenix 6/10/2024 @ 20:16:
A Unit staff were escorting Inmate1 back to his cell following out of cell activity. The escorting staff arrived at the cell and Inmate1 pulled the restraints, along with Officer1, into the cell. Escorting staff placed Inmate on the floor of the cell to regain control. During the incident, Inmate1 bit Officer1's left arm and Officer2 received an injury to his right arm and hand. Officer1 and Officer2 were both escorted to an outside medical facility.

Greene 6/10/2024 @ 8:02:
Inmate was approached by Officer1 because he was on the telephone when he wasn't supposed to be. Inmate got off of the telephone and became argumentative with Officer1. Inmate was then given orders to return to his cell. He walked to his cell door and continued to argue his case. After receiving another direct order, Inmate struck Officer1 on the left side of his face with his closed right fist. Inmate was then taken to the ground and secured. Officer1 and Officer2 were both transported to an outside hospital.

Forest 6/2/2024 @ 20:05:
SGT1 was speaking with Inmate1 near the phones on B-B Unit about an issue that occurred earlier in the evening. Inmate1 became agitated and assaulted SGT1 by punching him multiple times in the head and face, causing him to fall to the floor. COT and Officer1 responded and were able to place Inmate1 on the ground. Additional staff arrived and assisted in securing Inmate1 in handcuffs and leg shackles. SGT1 was referred for treatment at an outside hospital by state vehicle.

May 2024

Dallas 5/30/2024 @ 20:07:
Inmate1 entered the upstairs officer's bubble and began to assault Officer1 with a lock affixed to a black cloth. Officer1 made a radio transmission, "staff assault Alpha block." Main Control dispatched IRA responders and all inmate movement was ceased. Officer1 was then struck multiple times with the weapon. Inmate2 was walking by, witnessed the assault, and grabbed Inmate1, attempting to stop the assault. Officer2 heard the commotion and responded upstairs, deploying OC at Inmate1. Inmate2 was also sprayed with OC and left the area. Officer2 began to assist his partner and was hit in the mouth with the weapon and struck multiple times. The two officers attempted to restrain Inmate1 and took him to the floor to gain control. Responding staff arrived and helped secure Inmate1 in wrist restraints. Inmate1 was escorted off the block to Medical. Both officers were also escorted off the block to Medical. Staff immediately began to lock down the block. Inmate3 made a comment "more of you should get hit." Officer3 heard the comment and ordered Inmate3 to turn around and be restrained. Inmate3 turned and struck Officer3 on the left side of his

face with a closed fist. A second staff assault call was made over the radio. Officer4 responded to assist Officer3 and was struck in the face with a closed fist. Officer5 was struck by an elbow from Inmate3 while trying to apply wrist restraints. Officer6 was struck in the chest by Inmate3. Inmate3 was placed on the floor to gain control and restrained. CAS was bitten on the right forearm by Inmate3. Staff escorted Inmate3 off the block to Medical. Officer3, Officer5 and CAS were referred to an outside hospital. Officer6 was sent to an outside hospital via ambulance.

Phoenix 5/28/2024 @ 9:38:
SGT was attempting to secure the door on cell R-A-1020 which housed inmate. Inmate had the door on cell R-A-1020 locked open. When SGT approached the cell door, Inmate struck SGT in the throat area. SGT secured the cell door without further incident. SGT was referred to an outside hospital.

Mahanoy 5/1/2024 @ 11:26:
Officer1 and Officer2 escorted Inmate1 into the laundry room due to K9 hitting on him. After starting to conduct a strip search, Inmate1 was informed that if he had any contraband on him to surrender it. While Officer2 questioned Inmate1 about an unknown item sewn into his shorts, Inmate1 lunged at Officer2, attempting to grab suspected contraband from Officer2. Officer2 and Officer1 physically restrained Inmate1 up against the wall, allowing Officer1 to radio "CODE 13". Officer3 and Officer4 immediately enter the laundry room after hearing Officer1 radio for assistance; they assisted in securing Inmate1 after he was placed on the ground to gain control. Main Control then radioed via institutional radios "Code 13 CB". Responding staff were directed to the laundry room where they further assisted in restraining Inmate1 due to him being combative. While taking Inmate1 to the ground, Officer2 sustained an injury and was referred for treatment at an outside facility.

April 2024

Greene 4/24/2024 @ 10:33:
Inmate, while being pat searched by Officer1 after coming out of Dietary, turned aggressively towards Officer1. Officer1 secured Inmate by wrapping his arms around Inmate and taking him to the ground. Responding staff secured Inmate in restraints. Officer1 injured his right hand and was driven to an outside hospital.

Albion 4/10/2024 @ 9:10:
While escorting Inmate1 from the RHU yard, Inmate became assaultive and kicked Officer1 in the stomach/groin area. Inmate was immediately was taken to the ground to gain control by Officer2, Officer3 and Officer1. Once on the ground, escorting officers made a radio call of a staff assault. Inmate was placed in the restraint chair for transportation purposes only. Officer1 was treated at an outside hospital.

Albion 4/5/2024 @ 16:44:
Officer1 and Officer2 were conducting an investigative cell search of E/B1030 when Inmate attempted to pull a weapon constructed of a 6" toothbrush that had been sharpened to a point from his waistband and assault them. Officer1 was able to notify control via radio of the assault. Officer3, Officer4, and Officer5 were the initial responding staff and assisted with securing the inmate. Officer4 received a puncture wound to his right wrist from the improvised weapon while attempting to secure Inmate and was referred to an outside hospital.

March 2024

Albion 3/25/2024 @ 19:19:
SGT1 was conducting cell integrity checks on B/B. When he checked B/B1007, he discovered that Inmate was in possession of two mattresses. SGT1 informed Inmate that he was taking the extra mattress from the cell. Inmate became upset and began to argue with SGT1. SGT1 explained that he was not authorized two mattresses and if he wished an extra mattress he should discuss it with medical. Inmate continued to argue and became highly agitated. SGT1 directed Inmate to lock in his cell, to which he refused. SGT1 notified Control of the situation via radio. Inmate then punched SGT1 in the chin and face multiple times. COT1 responded to the assault and assisted in taking Inmate to the floor. Inmate continued to fight staff as they attempted to secure him. SGT1 and COT1 each delivered closed fist strikes to Inmate while on the floor in an effort to secure him. Additional staff arrived and directed other inmates to back up from the scene as staff struggled with Inmate. Uninvolved inmates began to scream at staff and appeared to be agitated at the incident. Once secured, Inmate was escorted from the dayroom. SGT1 was escorted to an outside hospital.

Frackville 3/12/2024 @ 12:15:
UM was doing an informal resolution with Inmate in the UM Office on A block. Inmate became very argumentative with UM during the informal, stating it was a bullshit write up and he did nothing wrong. Inmate continuously asked to look at the camera to prove he did nothing wrong. At that time, UM informed Inmate she was sending the report to the HEX. Inmate continued to argue with UM and was ordered to leave the office, to which Inmate refused. Inmate was again ordered to leave the office, at which time he stood up, grabbed a wooden name plate off of the desk and said "Fuck this" and proceeded around the desk towards UM while raising his arm with the wooden plate. UM turned to block Inmate and raised her arm to protect her head while knocking the phone from the holder and yelling out to staff on the unit. Inmate then proceeded to strike UM about the head and face and lunged UM into the wall behind her, where she also struck the opposite side of her head and face. UM was seen at an outside hospital.

Phoenix 3/12/2024 @ 7:26:
Inmate, housed in cell P-B-2007, threatened and then punched Officer1 in the facial area. Officer1 was knocked to the ground, stood up and radioed for assistance. Inmate ran to and secured himself in his cell. Officer1 was escorted to an outside medical facility.

February 2024

Laurel Highlands 2/15/2024 @ 18:55:
Contract agency nurse, CNA, assisted by inmate volunteer, Inmate1, was changing and removing the lift pad when Inmate2 became agitated. Inmate2 grabbed CNA by her left hand/wrist and twisted it. CNA issued several direct orders to Inmate2 to release her hand/wrist and he refused. Inmate1 assisted CNA in freeing her left hand/wrist from Inmate2's grasp. CNA was escorted to an outside hospital.

Waymart 2/13/2024 @ 20:13:
Inmate was housed on H-1-A housing unit during that time he was in dayroom 3. Inmate was in the doorway displaying an aggressive manner towards staff. Officer1 ordered Inmate to cease his aggressive behavior. At that time, Inmate got in a fighting stance and Officer1 proceeded to enter the dayroom with the assistance of fellow officers to restrain Inmate. Inmate then punched Officer1 with multiple closed fists. Inmate was then placed on the ground for better control and metal restraints were applied. Officer1 was escorted to an outside hospital.

Benner Township 2/6/2024 @ 9:05:
RN ordered Inmate to don his medical facemask while he was utilizing the kiosk in the Infirmary, due to his medical condition. Inmate is currently housed in the SCI Benner Infirmary. Inmate refused all orders and became argumentative. Officer1, Officer2, and Officer3 responded to the incident and gave Inmate a direct order to be placed in handcuffs. Inmate became agitated and took an aggressive posture toward Officer1. Officer1 delivered a closed fist strike to Inmate. Inmate exchanged a closed fist strike, hitting Officer1 in the upper torso. CRNP activated her Wireless Alarm Voice Equipment (WAVE) alarm due to the physical confrontation. Response Team B was notified to report to the Infirmary. Officer2 and Officer3 attempted to gain compliance and place Inmate in handcuffs. Officer1 continued to deliver multiple closed fist strikes to Inmate. Officer1, Officer3, and Officer2 placed Inmate on the floor to gain compliance. Officer1 delivered multiple closed fist strikes to Inmate while on the floor. Inmate continued to be non-compliant and refused to be handcuffed. Officer4 assisted Officer2 in securing Inmate in handcuffs. Officer1 injured his right hand and was sent to an outside hospital.

January 2024

Huntingdon 1/25/2024 @ 11:32:
After refusing several direct orders to report to center point, Inmate punched SGT in the left eye with a closed fist at the DA Unit grill. Inmate was placed on the ground and restrained. SGT was taken to an outside hospital via state vehicle.

Coal Township 1/17/2024 @ 18:47:
Officer1 ordered Inmate several times to go in his cell and Inmate refused all orders. At that time, Officer1 came out from behind the officers' station and again ordered Inmate to go to his cell and the Inmate refused again. Inmate then struck Officer1 multiple times with closed fists and Officer1 took Inmate to the ground. Officer2 notified central control by radio of the situation and applied OC to Inmate. SGT1 and SGT2 arrived and secured Inmate. Officer1 was transported to an outside hospital by state vehicle.

Dear Mr. Eckenrode:

This email acknowledges receipt by the Department of Corrections (the Department) of your written request for records under the Pennsylvania Right-to-Know Law (RTKL). Your request was received by this office on February 14, 2025. On February 18, 2025, an interim response was sent to you extending the final response date to March 27, 2025.

The attached RTKL request you submitted for contracts from January 2021 to January 2025 pertaining to maintenance/maintenance upgrades and construction projects at SCI-Rockview and Quehanna Boot Camp is granted. Attached at no charge are the contracts responsive to your request that are in possession of the Department.

In addition, please note that the Department of General Services may have records responsive to your request. Pursuant to the RTKL, I have forwarded your request to that agency. 65 P.S. § 67.502(b)(1). However, in order to avail yourself of the relief and remedies provided by the RTKL with respect to your request to the Department of General Services, you should personally direct a RTKL request to that agency as follows:

L. Paul Vezzetti
Department of General Services
603 North Office Building
Harrisburg, PA 17125
Fax: 717-787-9139
Email: DGS-RTK@pa.gov

Sincerely,

Andrew Filkosky

Andrew Filkosky
Agency Open Records Officer – Department of Corrections
Governor's Office of General Counsel
1920 Technology Parkway
Mechanicsburg, PA 17050

Header Text
This procurement does not violate the Governor's purchasing ban of 3.19.2020." This attestation is the agency's assurance that they have reviewed the criticality of the purchase and have determined it to be "critical to operations".

The vendor shall provide and program GE relay plates to repair switchgear at SCI-Rockview in accordance with the attached Terms & Conditions, the GE Express Terms and Conditions, this purchase order, and the vendor's quotation.

Please consider this purchase order as your "Notice to Proceed."

CONTINGENT COMMITMENT: purchase is contingent upon appropriation of funds by the legislature for each fiscal year.

ESTIMATED QUANTITIES: The quantity of services is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Invoices must be mailed to the "bill to" address as shown on the PO. Failure to follow this provision may cause delay in processing and payment of the vendor's invoice. Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.

SECURITY CLEARANCE INFORMATION FOR VENDORS: All vendors or their subcontractors, who utilize regular delivery, transportation will have to submit clearance checks through the original vendor for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks, however are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from correctional staff.

No further information for this PO.

Header Text

This procurement does not violate the Governor's purchasing ban of 3.19.2020." This attestation is the agency's assurance that they have reviewed the criticality of the purchase and have determined it to be "critical to operations".

The vendor shall provide Preventive Maintenance and Repair Services on the Johnson Control Inc. (previously SimplexGrinnell) system in the SCI-Rockview treatment building in accordance with DGS statewide contract 4400024041, its Terms & Conditions.

06/28/22 - Commonwealth exercised option to renew contract for additional 1-year period. JCalland

ORDER OF PRECEDENCE:
In the event of a conflict or discrepancy arising within the terms and conditions, or in the interpretation thereof, the order of precedence for resolution shall be the Department of General Services contract, the Department's Request for quote, and the contractor's quote.

Please consider this purchase order as your "Notice to Proceed."

CONTINGENT COMMITMENT: purchase is contingent upon appropriation of funds by the legislature for each fiscal year.

ESTIMATED QUANTITIES: The quantity of services is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.

OPTION TO EXTEND:
Upon written notice to the contractor, the Commonwealth has the option of extending this contract or any part of this contract up to three months. This should be used to prevent a lapse in contract coverage, and only for the time necessary, up to three months, to issue the new contract.

OPTION TO RENEW:
Upon written notice to the contractor, the Commonwealth has the option to renew the contract or any part of the contract for three additional one-year terms. If the contract is renewed, the same terms and conditions apply.

SECURITY CLEARANCE INFORMATION FOR VENDORS: All vendors or their subcontractors, who utilize regular delivery, transportation will have to submit clearance checks through the original vendor for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks, however are subject to search and escort procedures. ALL CARRIERS reporting to outside

PART I - GENERAL INFORMATION

PART I - GENERAL INFORMATION

I.1 IFB-001.1 Purpose (Oct 2006)

The Commonwealth of Pennsylvania (Commonwealth) is issuing this Invitation for Bids (IFB) to meet the needs of 1176 SCI BENNER TOWNSHIP to satisfy a need for BOSCH IP CAMERA SYSTEM ITEMS 1176-16179.

I.2 IFB-008.1C No Pre-bid Conference (Oct. 2006)

There will be no pre-bid conference for this IFB. If there are any questions, please forward them to the Issuing Office prior to the bid opening date and time.

I.3 IFB-009.1 Questions (February 2012)

All questions regarding the IFB must be submitted in writing to the email address of the Issuing Officer provided in the solicitation. While there is no set timeline for the submittal of questions, questions received within 48 hours prior to the bid due date and time will be answered at the discretion of the Commonwealth. All questions received will be answered, in writing, and such responses shall be posted to eMarketplace as an addendum to the IFB. The Issuing Officer shall not be bound by any verbal information nor shall it be bound by any written information that is not either contained within the IFB or formally issued as an addendum by the Issuing Office. The Issuing Office does not consider questions to be a protest of the specifications or of the solicitation.

I.4 IFB-010.1 Addenda to the IFB (Oct. 2006)

If the Issuing Office deems it necessary to revise any part of this IFB before the bid response date, the Issuing Office will post an addendum to its website at HTTPS://HOME.COR.PA.GOV/ it is the Bidder's responsibility to periodically check the website for any new information or addenda to the IFB.

I.5 IFB-011.1B Submission of Bids – Electronic Submittal (May 2011)

a. Bids are requested for the item(s) described in the Invitation For Bids and all the documents referenced in the form (collectively called the IFB). Bidders must submit their bids through the Commonwealth's electronic system (SRM).

b. It is the responsibility of each bidder to ensure that its Bid is received through the electronic system prior to the date and time set for the opening of bids ("Bid Opening Time"). No Bid shall be considered if it arrives after the Bid Opening Time, regardless of reason for the late arrival.

Bids that are timely received prior to the Bid Opening Time shall be opened publicly in the presence of one or more witnesses at the time and place designated in this IFB for the Bid opening.

c. Bids must be firm. If a Bid is submitted with conditions or exceptions or not in conformance with the terms and conditions referenced in the IFB Form, it shall be rejected. The Bid shall also be rejected if the items offered by the Bidder are not in conformance with the specifications as determined by the Commonwealth.

d. The Bidder, intending to be legally bound hereby, offers and agrees, if this Bid is accepted, to provide the awarded items at the price(s) set forth in this Bid at the time(s) and place(s) specified.

I.6 IFB-024.1 Bid Protest Procedure (April 2016)

The Bid Protest Procedure is on the DGS website at
http://www.dgs.pa.gov/Documents/Procurement%20Forms/Handbook/Pt1/Pt%20I%20Ch%2058%20Bid%20Protests.pdf

I.7 IFB-025.1 Electronic Version of this IFB (Oct 2006)

This IFB is being made available by electronic means. If a Bidder electronically accepts the IFB, the Bidder acknowledges and accepts full responsibility to insure that no changes are made to the IFB. In the event of a conflict between a version of the IFB in the Bidder's possession and the Issuing Office's version of the IFB, the Issuing Office's version shall govern.

I.8 IFB-029.1 Prices (Dec 6 2006)

The bid submitted by the successful Bidder will be incorporated into any resulting Contract and the Bidder will be required to provide the awarded item(s) at the prices quoted in its Bid.

I.9 IFB-030.1 Approved Equal (Nov 2006)

Whenever an item is defined in this IFB by trade name and catalogue number of a manufacturer or vendor, the term 'or approved equal,' if not inserted therewith shall be implied. Any reference to a particular manufacturer's product either by trade name or by limited description is solely for the purpose of more clearly indicating the minimum standard of quality desired, except where a 'no substitute' is requested. When a 'no substitute' is requested, the Issuing Office will consider Bids for the referenced product only. The term 'or approved equal' is defined as meaning any other make which, in the sole opinion of the Issuing Office, is of such character, quality, and performance equivalence as to meet the standard of quality of products specified for which it is to be used equally as well as that specified. A Bidder quoting on a product other than the referenced product shall: a) furnish complete identification in its Bid of the product it is offering by trade name, brand and/or model number; b) furnish descriptive literature and data with respect to the substitute product it proposes to furnish; and c) indicate any known specification deviations from the referenced product.

I.10 IFB-031.1 Alternates (Oct 2013)

A Bidder who wants to offer an alternate must notify the Issuing Office in writing, at least five (5) days prior to the scheduled Bid opening, that the Bidder intends to offer an alternate in its Bid. An "alternate" is a product that deviates from the requirements of the specifications in its composition, qualities, performance, size dimension, etc. The written notification from the Bidder must include a complete description of the alternate and must identify the product's deviations from the specifications. Upon receipt of the notification, the Issuing Office will determine whether the alternate is acceptable. If the Issuing Office, in its discretion, determines that the alternate is acceptable, the Issuing Office will issue a change notice to the invitation for bids that revises the specifications. If no change notice is issued revising the specification, a Bid offering the alternate will not be considered for award. If an item or items in the IFB are designated “no substitute,” this provision does not apply and no alternate may be proposed by a bidder nor will any alternate be considered by the Issuing Office.

I.11 IFB-032.1 New Equipment (Nov 2006)

Unless otherwise specified in this invitation for bids, all products offered by Bidders must be new or remanufactured. A 'new' product is one that will be used first by the Commonwealth after it is manufactured or

produced. A 'remanufactured' product is one which: 1) has been rebuilt, using new or used parts, to a condition which meets the original manufacturer's most recent specifications for the item; 2) does not, in the opinion of the Issuing Office, differ in appearance from a new item; and 3) has the same warranty as a new item. Unless otherwise specified in this invitation for bids, used or reconditioned products are not acceptable. This clause shall not be construed to prohibit Bidders from offering products with recycled content, provided the product is new or remanufactured.

I.12 I-IFB-033.1 Modification or Withdrawal of Bid (Nov 2006)

a. Bid Modification Prior to Bid Opening. Bids may be modified only by written notice or in person prior to the exact hour and date specified for Bid opening.

1) If a Bidder intends to modify its Bid by written notice, the notice must specifically identify the Bid to be modified and must be signed by the Bidder. The Bidder must include evidence of authorization for the individual who signed the modification to modify the Bid on behalf of the Bidder. The Bid modification must be received in a sealed envelope. The sealed envelope must identify the assigned Collective Number and the Bid Opening Time, and should state that enclosed in the envelope is a Bid modification

2) If a Bidder intends to modify its Bid in person, the individual who will modify the Bid must arrive in the Bid Opening Room prior to the Bid Opening Time, show a picture identification and provide evidence of his/her authorization to modify the Bid on behalf of the Bidder. If a Bidder intends to modify its Bid in person, the Bidder may do so only in the presence of an agency employee. (The agency employee will observe the actions taken by the individual to modify the Bid, but will not read the Bid or the modification).

b. Bid Withdrawal Prior to Bid Opening. Bids may be withdrawn only by written notice or in person prior to the exact hour and date specified for Bid opening.

1) If a Bidder intends to withdraw its Bid by written notice, the notice shall specifically identify the Bid to be withdrawn and shall be signed by the Bidder. The Bidder must include evidence of authorization for the individual who signed the bid withdrawal to withdraw the bid on behalf of the Bidder. Except as provided in Subparagraph c, below, bid withdrawals received after the exact hour and date specified for the receipt of Bids shall not be accepted.

2) If a Bidder intends to withdraw its Bid in person, the individual who will withdraw the Bid must arrive in the Bid Opening Room prior to the Bid Opening Time, show a picture identification and provide evidence of his/her authorization to withdraw the Bid on behalf of the Bidder.

c. Bid Withdrawal After Bid Opening. Bidders are permitted to withdraw erroneous Bids after Bid opening only if the following conditions are met:

1) The Bidder submits a written request for withdrawal.

2) The Bidder presents credible evidence with the request that the reason for the lower Bid price was a clerical mistake as opposed to a judgment mistake and was actually due to an unintentional arithmetical error or an unintentional omission of a substantial quantity of work, labor, material, or services made directly in the compilation of the Bid.

3) The request for relief and supporting evidence must be received by the Issuing Office within three (3) business days after Bid opening, but before award of the contract.

4) The Issuing Office shall not permit a Bid withdrawal if the Bid withdrawal would result in the award of the contract on another Bid of the same Bidder, its partner, or a corporation or business venture owned by or in which the bidder has a substantial interest.

5) If a Bidder is permitted to withdraw its Bid, the Bidder cannot supply any material or labor or perform any subcontract or other work agreement for the awarded contractor, without the written approval of the Issuing Office.

d. Firm Bid. Except as provided above, a Bid may not be modified, withdrawn, or cancelled by any Bidder for a period of sixty (60) days following the time and date designated for Bid opening, unless otherwise specified by the Bidder in its Bid. If the lowest responsible Bidder, as determined by the Issuing Office, withdraws its Bid prior to the expiration of the award period or fails to comply with the requirements set forth in the IFB including but not limited to any requirement to submit performance or payment bonds or insurance certificates within the required time period, the Bidder shall be liable to the Commonwealth for all costs and damages associated with the re-award or re-bid including the difference between the Bidder's price and the actual cost that the Commonwealth pays for the awarded items.

e. Clarification and Additional Information. After the receipt of Bids, the Issuing Office shall have the right to contact Bidders for the purpose of seeking:

1) Clarification of the Bid which confirms the Issuing Office's understanding of statements or information in the Bid or;

2) Additional information on the items offered; provided the IFB does not require the rejection of the Bid for failure to include such information.

I.13 I-IFB-034.1 Rejection of Bids (Nov 2006)

The Issuing Office reserves the right to reject any and all Bids, to waive technical defects or any informality in Bids, and to accept or reject any part of any Bid if the best interests of the Commonwealth are thereby served.

I.14 Submission-001.1 Representations and Authorizations (February 2017)

By submitting its proposal, each Offeror understands, represents, and acknowledges that:

A. All of the Offeror’s information and representations in the proposal are material and important, and the Issuing Office may rely upon the contents of the proposal in awarding the contract(s). The Commonwealth shall treat any misstatement, omission or misrepresentation as fraudulent concealment of the true facts relating to the Proposal submission, punishable pursuant to 18 Pa. C.S. § 4904.

B. The Offeror has arrived at the price(s) and amounts in its proposal independently and without consultation, communication, or agreement with any other Offeror or potential offeror.

C. The Offeror has not disclosed the price(s), the amount of the proposal, nor the approximate price(s) or amount(s) of its proposal to any other firm or person who is an Offeror or potential offeror for this RFP, and the Offeror shall not disclose any of these items on or before the proposal submission deadline specified in the Calendar of Events of this RFP.

D. The Offeror has not attempted, nor will it attempt, to induce any firm or person to refrain from submitting a proposal on this contract, or to submit a proposal higher than this proposal, or to submit any intentionally high or noncompetitive proposal or other form of complementary proposal.

E. The Offeror makes its proposal in good faith and not pursuant to any agreement or discussion with, or inducement from, any firm or person to submit a complementary or other noncompetitive proposal.

F. To the best knowledge of the person signing the proposal for the Offeror, the Offeror, its affiliates, subsidiaries, officers, directors, and employees are not currently under investigation by any governmental agency and have not in the last fouryears been convicted or found liable for any act prohibited by State or Federal law in any jurisdiction, involving conspiracy or collusion with respect to bidding or proposing on any public contract, except as the Offeror has disclosed in its proposal.

G. To the best of the knowledge of the person signing the proposal for the Offeror and except as the Offeror has otherwise disclosed in its proposal, the Offeror has no outstanding, delinquent obligations to the Commonwealth

including, but not limited to, any state tax liability not being contested on appeal or other obligation of the Offeror that is owed to the Commonwealth.

H. The Offeror is not currently under suspension or debarment by the Commonwealth, any other state or the federal government, and if the Offeror cannot so certify, then it shall submit along with its proposal a written explanation of why it cannot make such certification.

I. The Offeror has not made, under separate contract with the Issuing Office, any recommendations to the Issuing Office concerning the need for the services described in its proposal or the specifications for the services described in the proposal.

J. Each Offeror, by submitting its proposal, authorizes Commonwealth agencies to release to the Commonwealth information concerning the Offeror's Pennsylvania taxes, unemployment compensation and workers' compensation liabilities.

K. Until the selected Offeror receives a fully executed and approved written contract from the Issuing Office, there is no legal and valid contract, in law or in equity, and the Offeror shall not begin to perform.

L. The Offeror is not currently engaged, and will not during the duration of the contract engage, in a boycott of a person or an entity based in or doing business with a jurisdiction which the Commonwealth is not prohibited by Congressional statute from engaging in trade or commerce.

PART II - REQUIREMENTS

PART II - REQUIREMENTS

II.1 II-IFB-008.1b Lobbying Certification and Disclosure – Electronic Submission. (Oct 2006).

With respect to an award of a federal contract, grant, or cooperative agreement exceeding $100,000 or an award of a federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000 all recipients must certify that they will not use federal funds for lobbying and must disclose the use of non-federal funds for lobbying by filing required documentation. Offerors must complete and return the Lobbying Certification Form and the Disclosure of Lobbying Activities Form, which are attached to and made a part of this IFB. The completed and signed Lobbying Certification Form and the Disclosure of Lobbying Activities Form should be submitted with the Bid Response. Commonwealth agencies will not contract with outside firms or individuals to perform lobbying services, regardless of the source of funds.

II.2 II-IFB-016.1 Post-Submission Descriptive Literature (Dec 2006)

T he Commonwealth may, during its evaluation of the bids, require any bidder to submit cuts, illustrations, drawings, prints, test data sheets, specification sheets and brochures which detail construction features, design, components, materials used, applicable dimensions and any other pertinent information which the Issuing Office may require in order to evaluate the product(s) offered. The required information must be submitted within two (2) business days after notification from the Issuing Office. Failure to submit the required information prior to the expiration of the second business day after notification shall result in the rejection of the bid as non-responsive.

II.3 II-IFB-017.1b Reciprocal Limitations Act – Electronic Submittal (February 2007)

This procurement is subject to the Reciprocal Limitations Act. Bidders must complete and submit with the Bid Response the State of Manufacture Chart , which is contained in GSPUR-89 ("Reciprocal Limitations Act Requirements") which is attached to and made part of this IFB. The completed State of Manufacture Chart should be submitted as part of the Bid Reponse

II.4 II-IFB-018.1b Iran Free Procurement Certification and Disclosure – Electronic Submittal (November 2016)

Prior to entering a contract worth at least $1,000,000 or more with a Commonwealth entity, a bidder must: a) certify it is not on the current list of persons engaged in investment activities in Iran created by the Pennsylvania Department of General Services (“DGS”) pursuant to Section 3503 of the Procurement Code and is eligible to contract with the Commonwealth under Sections 3501-3506 of the Procurement Code; or b) demonstrate it has received an exception from the certification requirement for that solicitation or contract pursuant to Section 3503(e). All bidders must complete and return the Iran Free Procurement Certification form, which is attached hereto and made part of this IFB. The completed and signed Iran Free Procurement Certification form must be submitted with the Bid Response.

See the following web page for current Iran Free Procurement list:

http://www.dgs.pa.gov/businesses/materials%20and%20services%20procurement/procurement-resources/pages/default.aspx#.WDNfJ

PART III - SELECTION CRITERIA

PART III - SELECTION CRITERIA

III.1 III-IFB-001.1a Mandatory Responsiveness Requirements (Oct 2006)

To be eligible for selection, a bid must be:

a. Timely received from a Bidder;

b. Properly signed by the Bidder.

III.2 III-IFB-006.1a Method of Award (February 2012)

It is the intent of the Commonwealth to make a single award of item(s) listed in the IFB to the lowest responsive and responsible bidder. The Commonwealth reserves the right to award by line item if it determines that it is in the best interest of the Commonwealth to do so.

III.3 III-IFB-007.1 Awards (May 2011)

Unless all Bids are rejected, and except as otherwise provided by law, award will be made through the issuance of a contract/purchase order in accordance with the method of award. Unless otherwise specified by the Issuing Office in the IFB form the Commonwealth reserves the right to award by item or on a total Bid basis, whichever is deemed more advantageous to the Commonwealth. In cases of discrepancies in prices, the unit price will be binding unless the unit price is obviously in error and the extended price is obviously correct, in which case the erroneous unit price will be corrected. As a condition for receipt of award of a contract/purchase order, the Bidder must be registered in the Commonwealth of Pennsylvania's Vendor Master file. In order to register, bidders must visit the Pa Supplier Portal at https://www.pasupplierportal.state.pa.us/ or call the Customer Support Center at 877-435-7363 or 717-346-2676.

III.4 III-IFB-008.1 Tie Bids (Nov 2006)

All tie bids will be broken by the Issuing Office.

III.5 III-IFB-009.1 Prompt Payment Discounts (Nov 2006)

Prompt payment discounts will not be considered in making an award. If prompt payment discounts are offered by any Bidder, however, the Issuing Office will take advantage of such offer.

III.6 III-IFB-010.1 Option for Separate Competitive Bidding Procedure (Nov 2006)

The Commonwealth reserves the right to purchase products or services covered under this Contract through a separate competitive bidding procedure, whenever Commonwealth deems it in the best interest of the Commonwealth. The right will generally be exercised only when a specific need for a large quantity of the product or service exists or when the price offered is significantly lower than the Contract price.

III.7 III-IFB-014.1 Rebates (Nov 2006)

Any rebate applicable at the time of bid should be taken into consideration by the bidder in calculating its bid price. Bidders must specifically state in their bid proposal, when applicable, that rebates have been considered in arriving at the bid price. Following award, the Commonwealth will assign to the awarded bidder, any rebates which the bidder stated that he took into consideration. If the bidder fails to include such a statement, the Commonwealth will

receive the full benefit of the manufacturer's rebate.

PART IV - WORK STATEMENT

PART IV - WORK STATEMENT

IV.1 IFB-001.1a Specifications (Nov 2006)

The Commonwealth is seeking bids to procure the item(s) set forth in the attached document entitled "Specifications."

PART V - CONTRACT TERMS and CONDITIONS

PART V - CONTRACT TERMS and CONDITIONS

V.1 CONTRACT-001.1b Contract Terms and Conditions (Nov 30, 2006)

The Contract with the awarded bidder (who shall become the "Contractor") shall include the following terms and conditions:

V.2 CONTRACT-002.1b Term of Contract – PO (July 2015)

The term of the Contract created by the issuance of the Purchase Order shall commence on the Original PO Effective Date printed on the Purchase Order after the Purchase Order has been fully executed by the Commonwealth (signed and approved as required by Commonwealth contracting procedures and sent to the Contractor). If the Purchase Order output form does not have “Fully Executed” at the top of the first page and does not have the name of the Purchasing Agent printed in the appropriate box, the Purchase Order has not been fully executed. Subject to the other provisions of the Contract, the Contract shall end on the later of: a) complete delivery and acceptance of the awarded item(s); b) the expiration of any specified warranty and maintenance period; c) payment by the Commonwealth for the item(s) received; or d) any Expiration Date identified in the Purchase Order.

V.3 CONTRACT-002.3 Extension of Contract Term (Nov 30 2006)

The Commonwealth reserves the right, upon notice to the Contractor, to extend any single term of the Contract for up to three (3) months upon the same terms and conditions.

V.4 CONTRACT-003.1c Signatures - PO (July 2015)

The Contract shall not be a legally binding contract until the fully-executed Purchase Order has been sent to the Contractor. No Commonwealth employee has the authority to verbally direct the commencement of any work or delivery of any supply under this Purchase Order prior to the Original PO Effective Date. The Contractor hereby waives any claim or cause of action for any service or work performed prior to the Original PO Effective Date.

The Purchase Order may be electronically signed by the Commonwealth. The electronically-printed name of the Purchasing Agent, or in the case of an Auto-Purchase Order the name of the Centralized Purchasing Group, represents the signature of that individual(s) who has the authority, on behalf of the Commonwealth, to bind the Commonwealth to the terms of the Contract. If the Purchase Order output form does not have “Fully Executed” at the top of the first page and does not have the name of the Purchasing Agent, or in the case of an Auto-Purchase Order the name of the Centralized Purchasing Group, printed in the appropriate box, the Contract has not been fully executed.

The fully-executed Purchase Order may be sent to the Contractor electronically or through facsimile equipment. The electronic transmission of a Purchase Order shall require acknowledgement of receipt of the transmission by the Contractor. Receipt of the electronic or facsimile transmission of the Purchase Order shall constitute receipt of the fully-executed Purchase Order.

The Commonwealth and the Contractor specifically agree as follows:

a. No handwritten signature shall be required in order for the Purchase Order to be legally enforceable.

b. The parties agree that no writing shall be required in order to make the Purchase Order legally binding, notwithstanding contrary requirements in any law. The parties hereby agree not to contest the validity or enforceability of a genuine Purchase Order or acknowledgement issued electronically under the provisions of a statute of frauds or any other applicable law relating to whether certain agreements be in writing and signed by the party bound thereby. Any genuine Purchase Order or acknowledgement issued electronically, if introduced as evidence on paper in any judicial, arbitration, mediation, or administrative proceedings, will be admissible as between the parties to the same extent and under the same conditions as other business records originated and maintained in documentary form. Neither party shall contest the admissibility of copies of a genuine Purchase Order

or acknowledgements under either the business records exception to the hearsay rule or the best evidence rule on the basis that the Purchase Order or acknowledgement were not in writing or signed by the parties. A Purchase Order or acknowledgment shall be deemed to be genuine for all purposes if it is transmitted to the location designated for such documents.

c. Each party will immediately take steps to verify any document that appears to be obviously garbled in transmission or improperly formatted to include re-transmission of any such document if necessary.

V.5 CONTRACT-004.1a Definitions (Oct 2013)

As used in this Contract, these words shall have the following meanings:

a. Agency: The department, board, commission or other agency of the Commonwealth of Pennsylvania listed as the Purchasing Agency. If a COSTARS entity or external procurement activity has issued an order against this contract, that entity shall also be identified as "Agency".

b. Contracting Officer: The person authorized to administer this Contract for the Commonwealth and to make written determinations with respect to the Contract.

c. Days: Unless specifically indicated otherwise, days mean calendar days.

d. Developed Works or Developed Materials: All documents, sketches, drawings, designs, works, papers, files, reports, computer programs, computer documentation, data, records, software, samples or any other tangible material without limitation authored or prepared by Contractor as the work product covered in the scope of work for the Project.

e. Documentation: All materials required to support and convey information about the services required by this Contract. It includes, but is not necessarily restricted to, written reports and analyses, diagrams, maps, logical and physical designs, system designs, computer programs, flow charts, disks, and/or other machine-readable storage media.

f. Services: All Contractor activity necessary to satisfy the Contract.

V.6 CONTRACT-006.1 Independent Prime Contractor (Oct 2006)

In performing its obligations under the Contract, the Contractor will act as an independent contractor and not as an employee or agent of the Commonwealth. The Contractor will be responsible for all services in this Contract whether or not Contractor provides them directly. Further, the Contractor is the sole point of contact with regard to all contractual matters, including payment of any and all charges resulting from the Contract.

V.7 CONTRACT-007.01a Supplies Delivery (Nov 30 2006)

All item(s) shall be delivered F.O.B. Destination. The Contractor agrees to bear the risk of loss, injury, or destruction of the item(s) ordered prior to receipt of the items by the Commonwealth. Such loss, injury, or destruction shall not release the Contractor from any contractual obligations. Except as otherwise provided in this contract, all item(s) must be delivered within the time period specified. Time is of the essence and, in addition to any other remedies, the Contract is subject to termination for failure to deliver as specified. Unless otherwise stated in this Contract, delivery must be made within thirty (30) days after the Effective Date.

V.8 CONTRACT-007.3 Prior Notice (Oct 2006)

The Contractor is required to notify the Commonwealth Delivery Location when shipment is to be made in order that a Commonwealth representative may be present to receive the Contract Item(s) when they are delivered.

V.9 CONTRACT-007.11 Pallets (Oct 2006)

All materials delivered under this Contract must be delivered on non-returnable wooden pallets so that they can be unloaded using a forklift. The total height of the palleted materials (including the height of the pallet) must not

exceed 52 inches. Each carton in the pallet must have the commodity code and purchase order number on the outside of the carton. A packing slip must accompany each shipment.

V.10 CONTRACT-008.1a Warranty. (Oct 2006)

The Contractor warrants that all items furnished and all services performed by the Contractor, its agents and subcontractors shall be free and clear of any defects in workmanship or materials. Unless otherwise stated in the Contract, all items are warranted for a period of one year following delivery by the Contractor and acceptance by the Commonwealth. The Contractor shall repair, replace or otherwise correct any problem with the delivered item. When an item is replaced, it shall be replaced with an item of equivalent or superior quality without any additional cost to the Commonwealth.

V.11 CONTRACT-009.1c Patent, Copyright, and Trademark Indemnity (Oct 2013)

The Contractor warrants that it is the sole owner or author of, or has entered into a suitable legal agreement concerning either: a) the design of any product or process provided or used in the performance of the Contract which is covered by a patent, copyright, or trademark registration or other right duly authorized by state or federal law or b) any copyrighted matter in any report, document or other material provided to the Commonwealth under the contract.

The Contractor shall defend any suit or proceeding brought against the Commonwealth on account of any alleged patent, copyright or trademark infringement in the United States of any of the products provided or used in the performance of the Contract.

This is upon condition that the Commonwealth shall provide prompt notification in writing of such suit or proceeding; full right, authorization and opportunity to conduct the defense thereof; and full information and all reasonable cooperation for the defense of same.

As principles of governmental or public law are involved, the Commonwealth may participate in or choose to conduct, in its sole discretion, the defense of any such action.

If information and assistance are furnished by the Commonwealth at the Contractor's written request, it shall be at the Contractor's expense, but the responsibility for such expense shall be only that within the Contractor's written authorization.

The Contractor shall indemnify and hold the Commonwealth harmless from all damages, costs, and expenses, including attorney's fees that the Contractor or the Commonwealth may pay or incur by reason of any infringement or violation of the rights occurring to any holder of copyright, trademark, or patent interests and rights in any products provided or used in the performance of the Contract.

If any of the products provided by the Contractor in such suit or proceeding are held to constitute infringement and the use is enjoined, the Contractor shall, at its own expense and at its option, either procure the right to continue use of such infringement products, replace them with non-infringement equal performance products or modify them so that they are no longer infringing.

If the Contractor is unable to do any of the preceding, the Contractor agrees to remove all the equipment or software which are obtained contemporaneously with the infringing product, or, at the option of the Commonwealth, only those items of equipment or software which are held to be infringing, and to pay the Commonwealth: 1) any amounts paid by the Commonwealth towards the purchase of the product, less straight line depreciation; 2) any license fee paid by the Commonwealth for the use of any software, less an amount for the period of usage; and 3) the pro rata portion of any maintenance fee representing the time remaining in any period of maintenance paid for. The obligations of the Contractor under this paragraph continue without time limit. No costs or expenses shall be incurred for the account of the Contractor without its written consent.

V.12 CONTRACT-009.1d Ownership Rights (Oct 2006)

The Commonwealth shall have unrestricted authority to reproduce, distribute, and use any submitted report, data, or material, and any software or modifications and any associated documentation that is designed or developed and delivered to the Commonwealth as part of the performance of the Contract.

V.13 CONTRACT-010.1a Acceptance (Oct 2006)

No item(s) received by the Commonwealth shall be deemed accepted until the Commonwealth has had a reasonable opportunity to inspect the item(s). Any item(s) which is discovered to be defective or fails to conform to the specifications may be rejected upon initial inspection or at any later time if the defects contained in the item(s) or the noncompliance with the specifications were not reasonably ascertainable upon the initial inspection. It shall thereupon become the duty of the Contractor to remove rejected item(s) from the premises without expense to the Commonwealth within fifteen (15) days after notification. Rejected item(s) left longer than fifteen (15) days will be regarded as abandoned, and the Commonwealth shall have the right to dispose of them as its own property and shall retain that portion of the proceeds of any sale which represents the Commonwealth's costs and expenses in regard to the storage and sale of the item(s). Upon notice of rejection, the Contractor shall immediately replace all such rejected item(s) with others conforming to the specifications and which are not defective. If the Contractor fails, neglects or refuses to do so, the Commonwealth shall then have the right to procure a corresponding quantity of such item(s), and deduct from any monies due or that may thereafter become due to the Contractor, the difference between the price stated in the Contract and the cost thereof to the Commonwealth.

V.14 CONTRACT-010.2 Product Conformance (March 2012)

The Commonwealth reserves the right to require any and all Contractors to:

1. Provide certified data from laboratory testing performed by the Contractor, or performed by an independent laboratory, as specified by the Commonwealth.

2. Supply published manufacturer product documentation.

3. Permit a Commonwealth representative to witness testing at the Contractor's location or at an independent laboratory.

4. Complete a survey/questionnaire relating to the bid requirements and specifications.

5. Provide customer references.

6. Provide a product demonstration at a location near Harrisburg or the using agency location.

V.15 CONTRACT-010.3 Rejected Material Not Considered Abandoned (March 2012)

The Commonwealth shall have the right to not regard any rejected material as abandoned and to demand that the Contractor remove the rejected material from the premises within thirty (30) days of notification. The Contractor shall be responsible for removal of the rejected material as well as proper clean-up. If the Contractor fails or refuses to remove the rejected material as demanded by the Commonwealth, the Commonwealth may seek payment from, or set-off from any payments due to the Contractor under this or any other Contract with the Commonwealth, the costs of removal and clean-up. This is in addition to all other rights to recover costs incurred by the Commonwealth.

V.16 CONTRACT-011.1a Compliance With Law (Oct 2006)

The Contractor shall comply with all applicable federal and state laws and regulations and local ordinances in the performance of the Contract.

V.17 CONTRACT-013.1 Environmental Provisions (Oct 2006)

In the performance of the Contract, the Contractor shall minimize pollution and shall strictly comply with all applicable environmental laws and regulations, including, but not limited to: the Clean Streams Law Act of June 22, 1937 (P.L. 1987, No. 394), as amended 35 P.S. Section 691.601 et seq.; the Pennsylvania Solid Waste Management Act, Act of July 7, 1980 (P.L. 380, No. 97), as amended, 35 P.S. Section 6018.101 et seq. ; and the Dam Safety and Encroachment Act, Act of November 26, 1978 (P.L. 1375, No. 325), as amended , 32 P.S. Section 693.1.

V.18 CONTRACT-014.1 Post-Consumer Recycled Content (June 2016)

Except as specifically waived by the Department of General Services in writing, any products which are provided to the Commonwealth as a part of the performance of the Contract must meet the minimum percentage levels for total recycled content as specified by the Environmental Protection Agency in its Comprehensive Procurement Guidelines, which can be found at https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program .

V.19 CONTRACT-014.3 Recycled Content Enforcement (February 2012)

The Contractor may be required, after delivery of the Contract item(s), to provide the Commonwealth with documentary evidence that the item(s) was in fact produced with the required minimum percentage of post-consumer and recovered material content.

V.20 CONTRACT-015.1 Compensation (Oct 2006)

The Contractor shall be required to furnish the awarded item(s) at the price(s) quoted in the Purchase Order. All item(s) shall be delivered within the time period(s) specified in the Purchase Order. The Contractor shall be compensated only for item(s) that are delivered and accepted by the Commonwealth.

V.21 CONTRACT-015.2 Billing Requirements (July 2021)

Unless the Contractor has been authorized by the Commonwealth for Evaluated Receipt Settlement or Vendor Self-Invoicing , the Contractor shall include in all of its invoices the following minimum information:

- Vendor name and "Remit to" address, including SAP Vendor number;
- SAP Purchase Order number;
- Delivery Address, including name of Commonwealth agency;
- Description of the supplies/services delivered in accordance with SAP Purchase Order (include purchase order line number if possible);
- Quantity provided;
- Unit price;
- Price extension;
- Total price; and
- Delivery date of supplies or services.

If an invoice does not contain the minimum information set forth in this paragraph, the Commonwealth may return the invoice as improper. If the Commonwealth returns an invoice as improper, the time for processing a payment will be suspended until the Commonwealth receives a correct invoice. The Contractor may not receive payment until the Commonwealth has received a correct invoice.

Contractors are required to establish separate billing accounts with each using agency and invoice them directly. Each invoice shall be itemized with adequate detail and match the line item on the Purchase Order. In no instance shall any payment be made for services to the Contractor that are not in accordance with the prices on the Purchase

Order, the Contract, updated price lists or any discounts negotiated by the purchasing agency.

V.22 CONTRACT-016.1 Payment (Oct 2006)

a. The Commonwealth shall put forth reasonable efforts to make payment by the required payment date. The required payment date is: (a) the date on which payment is due under the terms of the Contract; (b) thirty (30) days after a proper invoice actually is received at the "Bill To" address if a date on which payment is due is not specified in the Contract (a "proper" invoice is not received until the Commonwealth accepts the service as satisfactorily performed); or (c) the payment date specified on the invoice if later than the dates established by (a) and (b) above. Payment may be delayed if the payment amount on an invoice is not based upon the price(s) as stated in the Contract. If any payment is not made within fifteen (15) days after the required payment date, the Commonwealth may pay interest as determined by the Secretary of Budget in accordance with Act No. 266 of 1982 and regulations promulgated pursuant thereto. Payment should not be construed by the Contractor as acceptance of the service performed by the Contractor. The Commonwealth reserves the right to conduct further testing and inspection after payment, but within a reasonable time after performance, and to reject the service if such post payment testing or inspection discloses a defect or a failure to meet specifications. The Contractor agrees that the Commonwealth may set off the amount of any state tax liability or other obligation of the Contractor or its subsidiaries to the Commonwealth against any payments due the Contractor under any contract with the Commonwealth.

b. The Commonwealth shall have the option of using the Commonwealth purchasing card to make purchases under the Contract or Purchase Order. The Commonwealth's purchasing card is similar to a credit card in that there will be a small fee which the Contractor will be required to pay and the Contractor will receive payment directly from the card issuer rather than the Commonwealth. Any and all fees related to this type of payment are the responsibility of the Contractor. In no case will the Commonwealth allow increases in prices to offset credit card fees paid by the Contractor or any other charges incurred by the Contractor, unless specifically stated in the terms of the Contract or Purchase Order.

V.23 CONTRACT-016.2 Payment – Electronic Funds Transfer (February 2014)

a. The Commonwealth will make contract payments through the Automated Clearing House (ACH). Within 10 days of award of the contract or purchase order, the contractor must submit or must have already submitted their ACH information within their user profile in the Commonwealth's procurement system (SRM).

b. The contractor must submit a unique invoice number with each invoice submitted. The unique invoice number will be listed on the Commonwealth of Pennsylvania's ACH remittance advice to enable the contractor to properly apply the state agency's payment to the invoice submitted.

c. It is the responsibility of the contractor to ensure that the ACH information contained in SRM is accurate and complete. Failure to maintain accurate and complete information may result in delays in payments.

V.24 CONTRACT-017.1 Taxes (Dec 5 2006)

The Commonwealth is exempt from all excise taxes imposed by the Internal Revenue Service and has accordingly registered with the Internal Revenue Service to make tax free purchases under Registration No. 23-23740001-K. With the exception of purchases of the following items, no exemption certificates are required and none will be issued: undyed diesel fuel, tires, trucks, gas guzzler emergency vehicles, and sports fishing equipment. The Commonwealth is also exempt from Pennsylvania state sales tax, local sales tax, public transportation assistance taxes and fees and vehicle rental tax. The Department of Revenue regulations provide that exemption certificates are not required for sales made to governmental entities and none will be issued. Nothing in this paragraph is meant to exempt a construction contractor from the payment of any of these taxes or fees which are required to be paid with respect to the purchase, use, rental, or lease of tangible personal property or taxable services used or transferred in connection with the performance of a construction contract.

V.25 CONTRACT-018.1 Assignment of Antitrust Claims (Oct 2006)

The Contractor and the Commonwealth recognize that in actual economic practice, overcharges by the Contractor's suppliers resulting from violations of state or federal antitrust laws are in fact borne by the Commonwealth. As part of the consideration for the award of the Contract, and intending to be legally bound, the Contractor assigns to the Commonwealth all right, title and interest in and to any claims the Contractor now has, or may acquire, under state or federal antitrust laws relating to the products and services which are the subject of this Contract.

V.26 CONTRACT-019.1 Hold Harmless Provision (Nov 30 2006)

a. The Contractor shall hold the Commonwealth harmless from and indemnify the Commonwealth against any and all third party claims, demands and actions based upon or arising out of any activities performed by the Contractor and its employees and agents under this Contract, provided the Commonwealth gives Contractor prompt notice of any such claim of which it learns. Pursuant to the Commonwealth Attorneys Act (71 P.S. Section 732-101, et seq.), the Office of Attorney General (OAG) has the sole authority to represent the Commonwealth in actions brought against the Commonwealth. The OAG may, however, in its sole discretion and under such terms as it deems appropriate, delegate its right of defense. If OAG delegates the defense to the Contractor, the Commonwealth will cooperate with all reasonable requests of Contractor made in the defense of such suits.

b. Notwithstanding the above, neither party shall enter into any settlement without the other party's written consent, which shall not be unreasonably withheld. The Commonwealth may, in its sole discretion, allow the Contractor to control the defense and any related settlement negotiations.

V.27 CONTRACT-020.1 Audit Provisions (Oct 2006)

The Commonwealth shall have the right, at reasonable times and at a site designated by the Commonwealth, to audit the books, documents and records of the Contractor to the extent that the books, documents and records relate to costs or pricing data for the Contract. The Contractor agrees to maintain records which will support the prices charged and costs incurred for the Contract. The Contractor shall preserve books, documents, and records that relate to costs or pricing data for the Contract for a period of three (3) years from date of final payment. The Contractor shall give full and free access to all records to the Commonwealth and/or their authorized representatives.

V.28 CONTRACT-021.1 Default (Oct 2013)

a. The Commonwealth may, subject to the Force Majeure provisions of this Contract, and in addition to its other rights under the Contract, declare the Contractor in default by written notice thereof to the Contractor, and terminate (as provided in the Termination Provisions of this Contract) the whole or any part of this Contract or any Purchase Order for any of the following reasons:

1) Failure to begin work within the time specified in the Contract or Purchase Order or as otherwise specified;

2) Failure to perform the work with sufficient labor, equipment, or material to ensure the completion of the specified work in accordance with the Contract or Purchase Order terms;

3) Unsatisfactory performance of the work;

4) Failure to deliver the awarded item(s) within the time specified in the Contract or Purchase Order or as otherwise specified;

5) Improper delivery;

6) Failure to provide an item(s) which is in conformance with the specifications referenced in the Contract or Purchase Order;

7) Delivery of a defective item;

8) Failure or refusal to remove material, or remove and replace any work rejected as defective or unsatisfactory;

9) Discontinuance of work without approval;

10) Failure to resume work, which has been discontinued, within a reasonable time after notice to do so;

11) Insolvency or bankruptcy;

12) Assignment made for the benefit of creditors;

13) Failure or refusal within 10 days after written notice by the Contracting Officer, to make payment or show cause why payment should not be made, of any amounts due for materials furnished, labor supplied or performed, for equipment rentals, or for utility services rendered;

14) Failure to protect, to repair, or to make good any damage or injury to property;

15) Breach of any provision of the Contract;

16) Failure to comply with representations made in the Contractor's bid/proposal; or

17) Failure to comply with applicable industry standards, customs, and practice.

b. In the event that the Commonwealth terminates this Contract or any Purchase Order in whole or in part as provided in Subparagraph a. above, the Commonwealth may procure, upon such terms and in such manner as it determines, items similar or identical to those so terminated, and the Contractor shall be liable to the Commonwealth for any reasonable excess costs for such similar or identical items included within the terminated part of the Contract or Purchase Order.

c. If the Contract or a Purchase Order is terminated as provided in Subparagraph a. above, the Commonwealth, in addition to any other rights provided in this paragraph, may require the Contractor to transfer title and deliver immediately to the Commonwealth in the manner and to the extent directed by the Contracting Officer, such partially completed items, including, where applicable, reports, working papers and other documentation, as the Contractor has specifically produced or specifically acquired for the performance of such part of the Contract or Purchase Order as has been terminated. Except as provided below, payment for completed work accepted by the Commonwealth shall be at the Contract price. Except as provided below, payment for partially completed items including, where applicable, reports and working papers, delivered to and accepted by the Commonwealth shall be in an amount agreed upon by the Contractor and Contracting Officer. The Commonwealth may withhold from amounts otherwise due the Contractor for such completed or partially completed works, such sum as the Contracting Officer determines to be necessary to protect the Commonwealth against loss.

d. The rights and remedies of the Commonwealth provided in this paragraph shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Contract.

e. The Commonwealth's failure to exercise any rights or remedies provided in this paragraph shall not be construed to be a waiver by the Commonwealth of its rights and remedies in regard to the event of default or any succeeding event of default.

f. Following exhaustion of the Contractor's administrative remedies as set forth in the Contract Controversies Provision of the Contract, the Contractor's exclusive remedy shall be to seek damages in the Board of Claims.

V.29 CONTRACT-022.1 Force Majeure (Oct 2006)

Neither party will incur any liability to the other if its performance of any obligation under this Contract is prevented or delayed by causes beyond its control and without the fault or negligence of either party. Causes beyond a party's control may include, but aren't limited to, acts of God or war, changes in controlling law, regulations, orders or the requirements of any governmental entity, severe weather conditions, civil disorders, natural disasters, fire, epidemics

and quarantines, general strikes throughout the trade, and freight embargoes.

The Contractor shall notify the Commonwealth orally within five (5) days and in writing within ten (10) days of the date on which the Contractor becomes aware, or should have reasonably become aware, that such cause would prevent or delay its performance. Such notification shall (i) describe fully such cause(s) and its effect on performance, (ii) state whether performance under the contract is prevented or delayed and (iii) if performance is delayed, state a reasonable estimate of the duration of the delay. The Contractor shall have the burden of proving that such cause(s) delayed or prevented its performance despite its diligent efforts to perform and shall produce such supporting documentation as the Commonwealth may reasonably request. After receipt of such notification, the Commonwealth may elect to cancel the Contract, cancel the Purchase Order, or to extend the time for performance as reasonably necessary to compensate for the Contractor's delay.

In the event of a declared emergency by competent governmental authorities, the Commonwealth by notice to the Contractor, may suspend all or a portion of the Contract or Purchase Order.

V.30 CONTRACT-023.1a Termination Provisions (Oct 2013)

The Commonwealth has the right to terminate this Contract or any Purchase Order for any of the following reasons. Termination shall be effective upon written notice to the Contractor.

a. **TERMINATION FOR CONVENIENCE**: The Commonwealth shall have the right to terminate the Contract or a Purchase Order for its convenience if the Commonwealth determines termination to be in its best interest. The Contractor shall be paid for work satisfactorily completed prior to the effective date of the termination, but in no event shall the Contractor be entitled to recover loss of profits.

b. **NON-APPROPRIATION**: The Commonwealth's obligation to make payments during any Commonwealth fiscal year succeeding the current fiscal year shall be subject to availability and appropriation of funds. When funds (state and/or federal) are not appropriated or otherwise made available to support continuation of performance in a subsequent fiscal year period, the Commonwealth shall have the right to terminate the Contract or a Purchase Order. The Contractor shall be reimbursed for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the supplies or services delivered under the Contract. Such reimbursement shall not include loss of profit, loss of use of money, or administrative or overhead costs. The reimbursement amount may be paid from any appropriations available for that purpose.

c. **TERMINATION FOR CAUSE**: The Commonwealth shall have the right to terminate the Contract or a Purchase Order for Contractor default under the Default Clause upon written notice to the Contractor. The Commonwealth shall also have the right, upon written notice to the Contractor, to terminate the Contract or a Purchase Order for other cause as specified in the Contract or by law. If it is later determined that the Commonwealth erred in terminating the Contract or a Purchase Order for cause, then, at the Commonwealth's discretion, the Contract or Purchase Order shall be deemed to have been terminated for convenience under the Subparagraph a.

V.31 CONTRACT-024.1 Contract Controversies (Oct 2011)

a. In the event of a controversy or claim arising from the Contract, the Contractor must, within six months after the cause of action accrues, file a written claim with the contracting officer for a determination. The claim shall state all grounds upon which the Contractor asserts a controversy exists. If the Contractor fails to file a claim or files an untimely claim, the Contractor is deemed to have waived its right to assert a claim in any forum. At the time the claim is filed, or within sixty (60) days thereafter, either party may request mediation through the Commonwealth Office of General Counsel Dispute Resolution Program.

b. If the Contractor or the contracting officer requests mediation and the other party agrees, the contracting officer shall promptly make arrangements for mediation. Mediation shall be scheduled so as to not delay the issuance of the final determination beyond the required 120 days after receipt of the claim if mediation is unsuccessful. If mediation is not agreed to or if resolution is not reached through mediation, the contracting officer shall review timely-filed claims and issue a final determination, in writing, regarding the claim. The final

determination shall be issued within 120 days of the receipt of the claim, unless extended by consent of the contracting officer and the Contractor. The contracting officer shall send his/her written determination to the Contractor. If the contracting officer fails to issue a final determination within the 120 days (unless extended by consent of the parties), the claim shall be deemed denied. The contracting officer's determination shall be the final order of the purchasing agency.

c. Within fifteen (15) days of the mailing date of the determination denying a claim or within 135 days of filing a claim if, no extension is agreed to by the parties, whichever occurs first, the Contractor may file a statement of claim with the Commonwealth Board of Claims. Pending a final judicial resolution of a controversy or claim, the Contractor shall proceed diligently with the performance of the Contract in a manner consistent with the determination of the contracting officer and the Commonwealth shall compensate the Contractor pursuant to the terms of the Contract.

V.32 CONTRACT-025.1 Assignability and Subcontracting (Oct 2013)

a. Subject to the terms and conditions of this paragraph, this Contract shall be binding upon the parties and their respective successors and assigns.

b. The Contractor shall not subcontract with any person or entity to perform all or any part of the work to be performed under this Contract without the prior written consent of the Contracting Officer, which consent may be withheld at the sole and absolute discretion of the Contracting Officer.

c. The Contractor may not assign, in whole or in part, this Contract or its rights, duties, obligations, or responsibilities hereunder without the prior written consent of the Contracting Officer, which consent may be withheld at the sole and absolute discretion of the Contracting Officer.

d. Notwithstanding the foregoing, the Contractor may, without the consent of the Contracting Officer, assign its rights to payment to be received under the Contract, provided that the Contractor provides written notice of such assignment to the Contracting Officer together with a written acknowledgement from the assignee that any such payments are subject to all of the terms and conditions of this Contract.

e. For the purposes of this Contract, the term "assign" shall include, but shall not be limited to, the sale, gift, assignment, pledge, or other transfer of any ownership interest in the Contractor provided, however, that the term shall not apply to the sale or other transfer of stock of a publicly traded company.

f . Any assignment consented to by the Contracting Officer shall be evidenced by a written assignment agreement executed by the Contractor and its assignee in which the assignee agrees to be legally bound by all of the terms and conditions of the Contract and to assume the duties, obligations, and responsibilities being assigned.

g. A change of name by the Contractor, following which the Contractor's federal identification number remains unchanged, shall not be considered to be an assignment hereunder. The Contractor shall give the Contracting Officer written notice of any such change of name.

V.33 CONTRACT-026.1 Other Contractors (Oct 2006)

The Commonwealth may undertake or award other contracts for additional or related work, and the Contractor shall fully cooperate with other contractors and Commonwealth employees, and coordinate its work with such additional work as may be required. The Contractor shall not commit or permit any act that will interfere with the performance of work by any other contractor or by Commonwealth employees. This paragraph shall be included in the Contracts of all contractors with which this Contractor will be required to cooperate. The Commonwealth shall equitably enforce this paragraph as to all contractors to prevent the imposition of unreasonable burdens on any contractor.

V.34 CONTRACT-027.1 Nondiscrimination/Sexual Harassment Clause (August 2018)

The Contractor agrees:

1. In the hiring of any employee(s) for the manufacture of supplies, performance of work, or any other activity required under the contract or any subcontract, the Contractor, each subcontractor, or any person acting on behalf of the Contractor or subcontractor shall not discriminate by reason of race, gender, creed, color, sexual orientation, gender identity or expression, or in violation of the *Pennsylvania Human Relations Act* (PHRA) and applicable federal laws, against any citizen of this Commonwealth who is qualified and available to perform the work to which the employment relates.

2. Neither the Contractor nor any subcontractor nor any person on their behalf shall in any manner discriminate by reason of race, gender, creed, color, sexual orientation, gender identity or expression, or in violation of the PHRA and applicable federal laws, against or intimidate any employee involved in the manufacture of supplies, the performance of work, or any other activity required under the contract.

3. Neither the Contractor nor any subcontractor nor any person on their behalf shall in any manner discriminate by reason of race, gender, creed, color, sexual orientation, gender identity or expression, or in violation of the PHRA and applicable federal laws, in the provision of services under the contract.

4. Neither the Contractor nor any subcontractor nor any person on their behalf shall in any manner discriminate against employees by reason of participation in or decision to refrain from participating in labor activities protected under the *Public Employee Relations Act, Pennsylvania Labor Relations Act* or *National Labor Relations Act,* as applicable and to the extent determined by entities charged with such Acts' enforcement, and shall comply with any provision of law establishing organizations as employees' exclusive representatives.

5. The Contractor and each subcontractor shall establish and maintain a written nondiscrimination and sexual harassment policy and shall inform their employees in writing of the policy. The policy must contain a provision that sexual harassment will not be tolerated and employees who practice it will be disciplined. Posting this Nondiscrimination/Sexual Harassment Clause conspicuously in easily-accessible and well-lighted places customarily frequented by employees and at or near where the contracted services are performed shall satisfy this requirement for employees with an established work site.

6. The Contractor and each subcontractor shall not discriminate by reason of race, gender, creed, color, sexual orientation, gender identity or expression, or in violation of PHRA and applicable federal laws, against any subcontractor or supplier who is qualified to perform the work to which the contract relates.

7. The Contractor and each subcontractor represents that it is presently in compliance with and will maintain compliance with all applicable federal, state, and local laws, regulations and policies relating to nondiscrimination and sexual harassment. The Contractor and each subcontractor further represents that it has filed a Standard Form 100 Employer Information Report ("EEO-1") with the U.S. Equal Employment Opportunity Commission ("EEOC") and shall file an annual EEO-1 report with the EEOC as required for employers' subject to *Title VII* of the *Civil Rights Act of 1964*, as amended, that have 100 or more employees and employers that have federal government contracts or first-tier subcontracts and have 50 or more employees. The Contractor and each subcontractor shall, upon request and within the time periods requested by the Commonwealth, furnish all necessary employment documents and records, including EEO-1 reports, and permit access to their books, records, and accounts by the contracting agency and the Bureau of Diversity, Inclusion and Small Business Opportunities for purpose of ascertaining compliance with provisions of this Nondiscrimination/Sexual Harassment Clause.

8. The Contractor shall include the provisions of this Nondiscrimination/Sexual Harassment Clause in every subcontract so that those provisions applicable to subcontractors will be binding upon each subcontractor.

9. The Contractor's and each subcontractor's obligations pursuant to these provisions are ongoing from and after the effective date of the contract through the termination date thereof. Accordingly, the Contractor and each subcontractor shall have an obligation to inform the Commonwealth if, at any time during the term of the contract, it becomes aware of any actions or occurrences that would result in

violation of these provisions.

10. The Commonwealth may cancel or terminate the contract and all money due or to become due under the contract may be forfeited for a violation of the terms and conditions of this Nondiscrimination/Sexual Harassment Clause. In addition, the agency may proceed with debarment or suspension and may place the Contractor in the Contractor Responsibility File.

V.35 CONTRACT-028.1 Contractor Integrity Provisions (January 2015)

It is essential that those who seek to contract with the Commonwealth of Pennsylvania ("Commonwealth") observe high standards of honesty and integrity. They must conduct themselves in a manner that fosters public confidence in the integrity of the Commonwealth contracting and procurement process.

1. DEFINITIONS. For purposes of these Contractor Integrity Provisions, the following terms shall have the meanings found in this Section:

a. "Affiliate" means two or more entities where (a) a parent entity owns more than fifty percent of the voting stock of each of the entities; or (b) a common shareholder or group of shareholders owns more than fifty percent of the voting stock of each of the entities; or (c) the entities have a common proprietor or general partner.

b. "Consent" means written permission signed by a duly authorized officer or employee of the Commonwealth, provided that where the material facts have been disclosed, in writing, by prequalification, bid, proposal, or contractual terms, the Commonwealth shall be deemed to have consented by virtue of the execution of this contract.

c. "Contractor" means the individual or entity, that has entered into this contract with the Commonwealth.

d. "Contractor Related Parties" means any affliates of the Contractor and the Contractor's executive officers, Pennsylvania officers and directors, or owners of 5 percent or more interest in the Contractor.

e. "Financial Interest" means either:

(1) Ownership of more than a five percent interest in any business; or

(2) Holding a position as an officer, director, trustee, partner, employee, or holding any position of management.

f. "Gratuity" means tendering, giving, or providing anything of more than nominal monetary value including, but not limited to, cash, travel, entertainment, gifts, meals, lodging, loans, subscriptions, advances, deposits of money, services, employment, or contracts of any kind. The exceptions set forth in the *Governor's Code of Conduct, Executive Order 1980-18*, the *4 Pa. Code §7.153(b)*, shall apply.

g. "Non-bid Basis" means a contract awarded or executed by the Commonwealth with Contractor without seeking bids or proposals from any other potential bidder or offeror.

2. In furtherance of this policy, Contractor agrees to the following:

a. Contractor shall maintain the highest standards of honesty and integrity during the performance of this contract and shall take no action in violation of state or federal laws or regulations or any other applicable laws or regulations, or other requirements applicable to Contractor or that govern contracting or procurement with the Commonwealth.

b. Contractor shall establish and implement a written business integrity policy, which includes, at a minimum, the requirements of these provisions as they relate to the Contractor activity with the Commonwealth and Commonwealth employees and which is made known to all Contractor employees. Posting these Contractor Integrity Provisions conspicuously in easily-accessible and well-lighted places customarily frequented by employees and at or near where the contract services are performed shall satisfy this requirement.

c. Contractor, its affiliates, agents, employees and anyone in privity with Contractor shall not accept, agree to give, offer, confer or agree to confer or promise to confer, directly or indirectly, any gratuity or pecuniary benefit to any

person, or to influence or attempt to influence any person in violation of any federal or state law, regulation, executive order of the Governor of Pennsylvania, statement of policy, management directive or any other published standard of the Commonwealth in connection with performance of work under this contract, except as provided in this contract.

d. Contractor shall not have a financial interest in any other contractor, subcontractor, or supplier providing services, labor or material under this contract, unless the financial interest is disclosed to the Commonwealth in writing and the Commonwealth consents to Contractor's financial interest prior to Commonwealth execution of the contract. Contractor shall disclose the financial interest to the Commonwealth at the time of bid or proposal submission, or if no bids or proposals are solicited, no later than the Contractor's submission of the contract signed by Contractor.

e. Contractor certifies to the best of its knowledge and belief that within the last five (5) years Contractor or Contractor Related Parties have not:

(1) been indicted or convicted of a crime involving moral turpitude or business honesty or integrity in any jurisdiction;

(2) been suspended, debarred or otherwise disqualified from entering into any contract with any governmental agency;

(3) had any business license or professional license suspended or revoked;

(4) had any sanction or finding of fact imposed as a result of a judicial or administrative proceeding related to fraud, extortion, bribery, bid rigging, embezzlement, misrepresentation or anti-trust; and

(5) been, and is not currently, the subject of a criminal investigation by any federal, state or local prosecuting or investigative agency and/or civil anti-trust investigation by any federal, state or local prosecuting or investigative agency.

If Contractor cannot so certify to the above, then it must submit along with its bid, proposal or contract a written explanation of why such certification cannot be made and the Commonwealth will determine whether a contract may be entered into with the Contractor. The Contractor's obligation pursuant to this certification is ongoing from and after the effective date of the contract through the termination date thereof. Accordingly, the Contractor shall have an obligation to immediately notify the Commonwealth in writing if at any time during the term of the contract it becomes aware of any event which would cause the Contractor's certification or explanation to change. Contractor acknowledges that the Commonwealth may, in its sole discretion, terminate the contract for cause if it learns that any of the certifications made herein are currently false due to intervening factual circumstances or were false or should have been known to be false when entering into the contract.

f. Contractor shall comply with the requirements of the *Lobbying Disclosure Act (65 Pa.C.S. §13A01 et seq.)* regardless of the method of award. If this contract was awarded on a Non-bid Basis, Contractor must also comply with the requirements of the *Section 1641 of the Pennsylvania Election Code (25 P.S. §3260a).*

g. When contractor has reason to believe that any breach of ethical standards as set forth in law, the Governor's Code of Conduct, or these Contractor Integrity Provisions has occurred or may occur, including but not limited to contact by a Commonwealth officer or employee which, if acted upon, would violate such ethical standards, Contractor shall immediately notify the Commonwealth contracting officer or the Office of the State Inspector General in writing.

h. Contractor, by submission of its bid or proposal and/or execution of this contract and by the submission of any bills, invoices or requests for payment pursuant to the contract, certifies and represents that is has not violated any of these Contractor Integrity Provisions in connection with the submission of the bid or proposal, during any contract negotiations or during the term of the contract, to include any extensions thereof. Contractor shall immediately notify the Commonwealth in writing of any actions for occurrences that would result in a violation of these Contractor Integrity Provisions. Contractor agrees to reimburse the Commonwealth for the reasonable costs of investigation incurred by the Office of the State Inspector General for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the Commonwealth that results in the

suspension or debarment of the Contractor. Contractor shall not be responsible for investigative costs for investigations that do not result in the Contractor's suspension or debarment.

i. Contractor shall cooperate with the Office of the State Inspector General in its investigation of any alleged Commonwealth agency or employee breach of ethical standards and any alleged Contractor non-compliance with these Contractor Integrity Provisions. Contractor agrees to make identified Contractor employees available for interviews at reasonable times and places. Contractor, upon the inquiry or request of an Inspector General, shall provide, or if appropriate, make promptly available for inspection or copying, any information of any type or form deemed relevant by the Office of the State Inspector General to Contractor's integrity and compliance with these provisions. Such information may include, but shall not be limited to, Contractor's business or financial records, documents or files of any type or form that refer to or concern this contract. Contractor shall incorporate this paragraph in any agreement, contract or subcontract it enters into in the course of the performance of this contract/agreement solely for the purpose of obtaining subcontractor compliance with this provision. The incorporation of this provision in a subcontract shall not create privity of contract between the Commonwealth and any such subcontractor, and no third party beneficiaries shall be created thereby.

j. For violation of any of these Contractor Integrity Provisions, the Commonwealth may terminate this and any other contract with Contractor, claim liquidated damages in an amount equal to the value of anything received in breach of these Provisions, claim damages for all additional costs and expenses incurred in obtaining another contractor to complete performance under this contract, and debar and suspend Contractor from doing business with the Commonwealth. These rights and remedies are cumulative, and the use or non-use of any one shall not preclude the use of all or any other. These rights and remedies are in addition to those the Commonwealth may have under law, statute, regulation or otherwise.

V.36 CONTRACT-029.1 Contractor Responsibility Provisions (July 2021)

For the purpose of these provisions, the term Contractor is defined as any person, including, but not limited to, a bidder, offeror, loan recipient, grantee or lessor, who has furnished or performed or seeks to furnish or perform, goods, supplies, services, leased space, construction or other activity, under a contract, grant, lease, purchase order or reimbursement agreement with the Commonwealth of Pennsylvania (Commonwealth). The term Contractor includes a permittee, licensee, or any agency, political subdivision, instrumentality, public authority, or other public entity in the Commonwealth.

1. The Contractor certifies, in writing, for itself and its subcontractors required to be disclosed or approved by the Commonwealth, that as of the date of its execution of this Bid/Contract, that neither the Contractor, nor any such subcontractors, are under suspension or debarment by the Commonwealth or any governmental entity, instrumentality, or authority and, if the Contractor cannot so certify, then it agrees to submit, along with its Bid/Contract, a written explanation of why such certification cannot be made.

2. The Contractor also certifies, in writing, that as of the date of its execution of this Bid/Contract it has no tax liabilities or other Commonwealth obligations, or has filed a timely administrative or judicial appeal if such liabilities or obligations exist, or is subject to a duly approved deferred payment plan if such liabilities exist.

3. The Contractor's obligations pursuant to these provisions are ongoing from and after the effective date of the Contract through the termination date thereof. Accordingly, the Contractor shall have an obligation to inform the Commonwealth if, at any time during the term of the Contract, it becomes delinquent in the payment of taxes, or other Commonwealth obligations, or if it or, to the best knowledge of the Contractor, any of its subcontractors are suspended or debarred by the Commonwealth, the federal government, or any other state or governmental entity. Such notification shall be made within 15 days of the date of suspension or debarment.

4. The failure of the Contractor to notify the Commonwealth of its suspension or debarment by the Commonwealth, any other state, or the federal government shall constitute an event of default of the Contract with the Commonwealth.

5. The Contractor agrees to reimburse the Commonwealth for the reasonable costs of investigation incurred by the Office of State Inspector General for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the Commonwealth that results in the suspension or debarment of the

contractor. Such costs shall include, but shall not be limited to, salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor shall not be responsible for investigative costs for investigations that do not result in the Contractor's suspension or debarment.

6. The Contractor may search the current list of suspended and debarred Commonwealth contractors by visiting the eMarketplace website at http://www.emarketplace.state.pa.us and clicking the Debarment List tab.

V.37 CONTRACT-030.1 Americans with Disabilities Act (July 2021)

For the purpose of these provisions, the term contractor is defined as any person, including, but not limited to, a bidder, offeror, supplier, or grantee, who will furnish or perform or seeks to furnish or perform, goods, supplies, services, construction or other activity, under a purchase order, contract, or grant with the Commonwealth of Pennsylvania (Commonwealth).

During the term of this agreement, the contractor agrees as follows:

1 Pursuant to federal regulations promulgated under the authority of the Americans with Disabilities Act, 28 C. F. R. § 35.101 et seq., the contractor understands and agrees that no individual with a disability shall, on the basis of the disability, be excluded from participation in this agreement or from activities provided for under this agreement. As a condition of accepting and executing this agreement, the contractor agrees to comply with the "General Prohibitions Against Discrimination," 28 C. F. R. § 35.130, and all other regulations promulgated under Title II of the Americans with Disabilities Act which are applicable to the benefits, services, programs, and activities provided by the Commonwealth through contracts with outside contractors.

2 The contractor shall be responsible for and agrees to indemnify and hold harmless the Commonwealth from all losses, damages, expenses, claims, demands, suits, and actions brought by any party against the Commonwealth as a result of the contractor's failure to comply with the provisions of paragraph 1.

V.38 CONTRACT-031.1 Hazardous Substances (April 2017)

The Contractor shall provide information to the Commonwealth about the identity and hazards of hazardous substances supplied or used by the Contractor in the performance of the Contract. The Contractor must comply with Act 159 of October 5, 1984, known as the "Worker and Community Right to Know Act" (the "Act") and the regulations promulgated pursuant thereto at 34 Pa. Code Section 301.1 - 323.6.
a. Labeling. The Contractor shall ensure that each individual product (as well as the carton, container or package in which the product is shipped) of any of the following substances (as defined by the Act and the regulations) supplied by the Contractor is clearly labeled, tagged or marked with the information listed in Subparagraphs (1) through (4):

1) Hazardous substances:

a) The chemical name or common name,

b) A hazard warning, and

c) The name, address, and telephone number of the manufacturer.

2) Hazardous mixtures:

a) The common name, but if none exists, then the trade name,

b) The chemical or common name of special hazardous substances comprising .01% or more of the mixture,

c) The chemical or common name of hazardous substances consisting 1.0% or more of the mixture,

d) A hazard warning, and

e) The name, address, and telephone number of the manufacturer.

3) Single chemicals:

a) The chemical name or the common name,

b) A hazard warning, if appropriate, and

c) The name, address, and telephone number of the manufacturer.

4) Chemical Mixtures:

a) The common name, but if none exists, then the trade name,

b) A hazard warning, if appropriate,

c) The name, address, and telephone number of the manufacturer, and

d) The chemical name or common name of either the top five substances by volume or those substances consisting of 5.0% or more of the mixture.
A common name or trade name may be used only if the use of the name more easily or readily identifies the true nature of the hazardous substance, hazardous mixture, single chemical, or mixture involved.

Container labels shall provide a warning as to the specific nature of the hazard arising from the substance in the container.

The hazard warning shall be given in conformity with one of the nationally recognized and accepted systems of providing warnings, and hazard warnings shall be consistent with one or more of the recognized systems throughout the workplace. Examples are:

· NFPA 704, Identification of the Fire Hazards of Materials.
· National Paint and Coatings Association: Hazardous Materials Identification System.
· American Society for Testing and Materials, Safety Alert Pictorial Chart.
· American National Standard Institute, Inc., for the Precautionary Labeling of Hazardous Industrial Chemicals.

Labels must be legible and prominently affixed to and displayed on the product and the carton, container, or package so that employees can easily identify the substance or mixture present therein.

b. Material Safety Data Sheet. The contractor shall provide Material Safety Data Sheets (MSDS) with the information required by the Act and the regulations for each hazardous substance or hazardous mixture. The Commonwealth must be provided an appropriate MSDS with the initial shipment and with the first shipment after an MSDS is updated or product changed. For any other chemical, the contractor shall provide an appropriate MSDS, if the manufacturer, importer, or supplier produces or possesses the MSDS. The contractor shall also notify the Commonwealth when a substance or mixture is subject to the provisions of the Act. Material Safety Data Sheets may be attached to the carton, container, or package mailed to the Commonwealth at the time of shipment.

V.39 CONTRACT-032.1 Covenant Against Contingent Fees (Oct 2006)

The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure the Contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty, the Commonwealth shall have the right to terminate the Contract without liability or in its discretion to deduct from the Contract price or consideration, or otherwise recover the full amount of such commission, percentage, brokerage, or contingent fee.

V.40 CONTRACT-033.1 Applicable Law (Oct 2006)

This Contract shall be governed by and interpreted and enforced in accordance with the laws of the Commonwealth of Pennsylvania (without regard to any conflict of laws provisions) and the decisions of the Pennsylvania courts. The Contractor consents to the jurisdiction of any court of the Commonwealth of Pennsylvania and any federal courts in Pennsylvania, waiving any claim or defense that such forum is not convenient or proper. The Contractor agrees that any such court shall have in personam jurisdiction over it, and consents to service of process in any manner authorized by Pennsylvania law.

V.41 CONTRACT- 034.1b Integration (Nov 30 2006)

This Contract, including the Invitation for Bids, the Contractor's bid, all referenced documents, and any Purchase Order constitutes the entire agreement between the parties. No agent, representative, employee or officer of either the Commonwealth or the Contractor has authority to make, or has made, any statement, agreement or representation, oral or written, in connection with the Contract, which in any way can be deemed to modify, add to or detract from, or otherwise change or alter its terms and conditions. No negotiations between the parties, nor any custom or usage, shall be permitted to modify or contradict any of the terms and conditions of the Contract. No modifications, alterations, changes, or waiver to the Contract or any of its terms shall be valid or binding unless accomplished by a written amendment signed by both parties.

V.42 CONTRACT-034.2b Order of Precedence - IFB (Dec 6 2006)

In the event there is a conflict among the documents comprising this Contract, the Commonwealth and the Contractor agree on the following order of precedence: the Contract; the IFB; and the Contractor's Bid in Response to the IFB.

V.43 CONTRACT-034.3 Controlling Terms and Conditions (Aug 2011)

The terms and conditions of this Contract shall be the exclusive terms of agreement between the Contractor and the Commonwealth. All quotations requested and received from the Contractor are for obtaining firm pricing only. Other terms and conditions or additional terms and conditions included or referenced in the Contractor's quotations, invoices, business forms, or other documentation shall not become part of the parties' agreement and shall be disregarded by the parties, unenforceable by the Contractor and not binding on the Commonwealth.

V.44 CONTRACT-035.1a Changes (Oct 2006)

The Commonwealth reserves the right to make changes at any time during the term of the Contract or any renewals or extensions thereof: 1) to increase or decrease the quantities resulting from variations between any estimated quantities in the Contract and actual quantities; 2) to make changes to the services within the scope of the Contract; 3) to notify the Contractor that the Commonwealth is exercising any Contract renewal or extension option; or 4) to modify the time of performance that does not alter the scope of the Contract to extend the completion date beyond the Expiration Date of the Contract or any renewals or extensions thereof. Any such change shall be made by the Contracting Officer by notifying the Contractor in writing. The change shall be effective as of the date of the change, unless the notification of change specifies a later effective date. Such increases, decreases, changes, or modifications will not invalidate the Contract, nor, if performance security is being furnished in conjunction with the Contract, release the security obligation. The Contractor agrees to provide the service in accordance with the change order. Any dispute by the Contractor in regard to the performance required by any notification of change shall be handled through Contract Controversies Provision.

V.45 CONTRACT-037.1a Confidentiality (Oct 2013)

(a) The Contractor agrees to protect the confidentiality of the Commonwealth’s confidential information. The Commonwealth agrees to protect the confidentiality of Contractor’s confidential information. In order for information to be deemed confidential, the party claiming confidentiality must designate the information as

"confidential" in such a way as to give notice to the other party (notice may be communicated by describing the information, and the specifications around its use or disclosure, in the SOW). Neither party may assert that information owned by the other party is such party's confidential information. The parties agree that such confidential information shall not be copied, in whole or in part, or used or disclosed except when essential for authorized activities under this Contract and, in the case of disclosure, where the recipient of the confidential information has agreed to be bound by confidentiality requirements no less restrictive than those set forth herein. Each copy of such confidential information shall be marked by the party making the copy with any notices appearing in the original. Upon termination or cancellation of this Contract or any license granted hereunder, the receiving party will return to the disclosing party all copies of the confidential information in the receiving party's possession, other than one copy, which may be maintained for archival purposes only, and which will remain subject to this Contract's security, privacy, data retention/destruction and confidentiality provisions (all of which shall survive the expiration of this Contract). Both parties agree that a material breach of these requirements may, after failure to cure within the time frame specified in this Contract, and at the discretion of the non-breaching party, result in termination for default pursuant to the DEFAULT provision of this Contract, in addition to other remedies available to the non-breaching party.

(b) Insofar as information is not otherwise protected by law or regulation, the obligations stated in this Section do not apply to information:

(1) already known to the recipient at the time of disclosure other than through the contractual relationship;

(2) independently generated by the recipient and not derived by the information supplied by the disclosing party.

(3) known or available to the public , except where such knowledge or availability is the result of unauthorized disclosure by the recipient of the proprietary information;

(4) disclosed to the recipient without a similar restriction by a third party who has the right to make such disclosure; or

(5) required to be disclosed by law , regulation, court order, or other legal process.

There shall be no restriction with respect to the use or disclosure of any ideas, concepts, know-how, or data processing techniques developed alone or jointly with the Commonwealth in connection with services provided to the Commonwealth under this Contract.

(c) The Contractor shall use the following process when submitting information to the Commonwealth it believes to be confidential and/or proprietary information or trade secrets:

(1) Prepare an un-redacted version of the appropriate document, and

(2) Prepare a redacted version of the document that redacts the information that is asserted to be confidential or proprietary information or a trade secret, and

(3) Prepare a signed written statement that states:

(i) the attached document contains confidential or proprietary information or trade secrets;

(ii) the Contractor is submitting the document in both redacted and un-redacted format in accordance with 65 P.S. § 67.707(b); and

(iii) the Contractor is requesting that the document be considered exempt under 65 P.S. § 67.708(b)(11) from public records requests.

(4) Submit the two documents along with the signed written statement to the Commonwealth.

V.46 CONTRACT-046.1 Manufacturer's Price Reduction (Oct 2006)

If, prior to the delivery of the awarded item(s) by the Contractor, a price reduction is announced by the original

equipment manufacturer, a comparative price reduction will be given to the Commonwealth by the Contractor.

V.47 CONTRACT-051.1 Notice (Dec 2006)

Any written notice to any party under this Contract shall be deemed sufficient if delivered personally, or by facsimile, telecopy, electronic or digital transmission (provided such delivery is confirmed), or by a recognized overnight courier service (e.g., DHL, Federal Express, etc.) with confirmed receipt, or by certified or registered United States mail, postage prepaid, return receipt requested, and sent to following:

a. If to the Contractor: the Contractor's address as recorded in the Commonwealth's Supplier Registration system.

b. If to the Commonwealth: the address of the Issuing Office as set forth on the Contract.

V.48 CONTRACT-052.1 Right to Know Law (Feb 2010)

a. The Pennsylvania Right-to-Know Law, 65 P.S. §§ 67.101-3104, ("RTKL") applies to this Contract. For the purpose of these provisions, the term "the Commonwealth" shall refer to the contracting Commonwealth agency.

b. If the Commonwealth needs the Contractor's assistance in any matter arising out of the RTKL related to this Contract, it shall notify the Contractor using the legal contact information provided in this Contract. The Contractor, at any time, may designate a different contact for such purpose upon reasonable prior written notice to the Commonwealth.

c. Upon written notification from the Commonwealth that it requires the Contractor's assistance in responding to a request under the RTKL for information related to this Contract that may be in the Contractor's possession, constituting, or alleged to constitute, a public record in accordance with the RTKL ("Requested Information"), the Contractor shall:

1. Provide the Commonwealth, within ten (10) calendar days after receipt of written notification, access to, and copies of, any document or information in the Contractor's possession arising out of this Contract that the Commonwealth reasonably believes is Requested Information and may be a public record under the RTKL; and
2. Provide such other assistance as the Commonwealth may reasonably request, in order to comply with the RTKL with respect to this Contract.

d. If the Contractor considers the Requested Information to include a request for a Trade Secret or Confidential Proprietary Information, as those terms are defined by the RTKL, or other information that the Contractor considers exempt from production under the RTKL, the Contractor must notify the Commonwealth and provide, within seven (7) calendar days of receiving the written notification, a written statement signed by a representative of the Contractor explaining why the requested material is exempt from public disclosure under the RTKL.

e. The Commonwealth will rely upon the written statement from the Contractor in denying a RTKL request for the Requested Information unless the Commonwealth determines that the Requested Information is clearly not protected from disclosure under the RTKL. Should the Commonwealth determine that the Requested Information is clearly not exempt from disclosure, the Contractor shall provide the Requested Information within five (5) business days of receipt of written notification of the Commonwealth's determination.

f. If the Contractor fails to provide the Requested Information within the time period required by these provisions, the Contractor shall indemnify and hold the Commonwealth harmless for any damages, penalties, costs, detriment or harm that the Commonwealth may incur as a result of the Contractor's failure, including any statutory damages assessed against the Commonwealth.

g. The Commonwealth will reimburse the Contractor for any costs associated with complying with these provisions only to the extent allowed under the fee schedule established by the Office of Open Records or as otherwise provided by the RTKL if the fee schedule is inapplicable.

h. The Contractor may file a legal challenge to any Commonwealth decision to release a record to the public with the Office of Open Records, or in the Pennsylvania Courts, however, the Contractor shall indemnify the

Commonwealth for any legal expenses incurred by the Commonwealth as a result of such a challenge and shall hold the Commonwealth harmless for any damages, penalties, costs, detriment or harm that the Commonwealth may incur as a result of the Contractor's failure, including any statutory damages assessed against the Commonwealth, regardless of the outcome of such legal challenge. As between the parties, the Contractor agrees to waive all rights or remedies that may be available to it as a result of the Commonwealth's disclosure of Requested Information pursuant to the RTKL.

i. The Contractor's duties relating to the RTKL are continuing duties that survive the expiration of this Contract and shall continue as long as the Contractor has Requested Information in its possession.

Header Text

The vendor shall provide Fire Alarm Preventative Maintenance and repair service to the John Fire Alarm System at SCI-Rockview per DGS contract 4400023962, its Terms & Conditions, this purchase order and the vendor's proposal.

Please consider this purchase order as your "Notice to Proceed."

06/06/23 - The Commonwealth has excercise its option to renew this contract for one 1-year period per the Standard Terms & Conditions 1.40 CONTRACT-035.1a Changes (Oct 2006). jec

CONTINGENT COMMITMENT: purchase is contingent upon appropriation of funds by the legislature for each fiscal year.

ESTIMATED QUANTITIES: The quantity of services is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Invoices must be mailed to the "bill to" address as shown on the PO or e-mailed to 69180@pa.gov. Failure to follow this provision may cause delay in processing and payment of the vendor's invoice. Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.

OPTION TO EXTEND:
Upon written notice to the contractor, the Commonwealth has the option of extending this contract or any part of this contract up to three months. This should be used to prevent a lapse in contract coverage, and only for the time necessary, up to three months, to issue the new contract.

OPTION TO RENEW:
Upon written notice to the contractor, the Commonwealth has the option to renew the contract or any part of the contract for three additional one-year terms. If the contract is renewed, the same terms and conditions apply.

SECURITY CLEARANCE INFORMATION FOR VENDORS: All vendors or their subcontractors, who utilize regular delivery, transportation will have to submit clearance checks through the original vendor for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks, however are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from correctional staff.

ORDER OF PRECEDENCE:
In the event of a conflict or discrepancy arising within the terms and conditions, or in the interpretation thereof, the order of precedence for resolution shall be the Department of General Services contract, the Department's Request for quote, and the contractor's quote.

Header Text

SCOPE: The vendor shall supply certified welding (TIG, MIG, SMAW) and fabrication service on boilers operating at 105 psi, kitchen pressure vessels, steam and condensate lines throughout SCI-Rockview, to include necessary parts, materials, using the vendor's welding equipment and tools.

Order of preference shall be the DGS terms and conditions, the purchase order, the statement of work, and the vendor's quote.

Please consider this purchase order as your "Notice to Proceed."

Anticipated validity dates: One year from the approval date with the option to renew for an additional two 1-year terms.

OPTION TO EXTEND: Upon written notice to the contractor, the Commonwealth has the option of extending this contract or any part of this contract up to three months. This should be used to prevent a lapse in contract coverage, and only for the time necessary, up to three months, to issue the new contract.

OPTION TO RENEW: Upon written notice to the contractor, the Commonwealth has the option to renew the contract or any part of the contract for two additional one-year terms. Reference the change to the Terms & Conditions per the Addendum 1. The 2% annual increase would be calculated using the current year labor effective on the renewal date.

CONTINGENT COMMITMENT: purchase is contingent upon appropriation of funds by the legislature for each fiscal year.

ESTIMATED QUANTITIES: The quantity of services/materials is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Invoices must be mailed to the "bill to" address as shown on the PO or e-mailed to RA-OB69180@pa.gov. Failure to follow this provision may cause delay in processing and payment of the vendor's invoice. Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.

ACH Required Language for Procurement Contracts and Purchase Orders:

a. The Commonwealth will make contract payments through Automated Clearing House (ACH). Within 10 days of award of the contract or purchase order, the contractor must submit or must have already submitted their ACH information within their user profile in the Commonwealth's procurement system (SRM).
b. The contractor must submit a unique invoice number with each invoice submitted. The unique invoice number will be listed on the Commonwealth of Pennsylvania's ACH remittance advice to enable the contractor to properly apply the state agency's payment to the invoice submitted.
c. It is the responsibility of the contractor to ensure that the ACH information contained in SRM is accurate

and complete. Failure to maintain accurate and complete information may result in delays in payments.

Enhanced Minimum Wage Provisions (July 2022)

1. Enhanced Minimum Wage. Contractor/Lessor agrees to pay no less than $15.00 per hour to its employees for all hours worked directly performing the services called for in this Contract/Lease, and for an employee's hours performing ancillary services necessary for the performance of the contracted services or lease when such employee spends at least twenty per cent (20%) of their time performing ancillary services in a given work week.
2. Adjustment. Beginning July 1, 2023, and annually thereafter, the minimum wage rate shall be increased by an annual cost-of-living adjustment using the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) for Pennsylvania, New Jersey, Delaware, and Maryland. The applicable adjusted amount shall be published in the Pennsylvania Bulletin by March 1 of each year to be effective the following July 1.
3. Exceptions. These Enhanced Minimum Wage Provisions shall not apply to employees:
a. exempt from the minimum wage under the Minimum Wage Act of 1968;
b. covered by a collective bargaining agreement;
c. required to be paid a higher wage under another state or federal law governing the services, including the Prevailing Wage Act and Davis-Bacon Act; or
d. required to be paid a higher wage under any state or local policy or ordinance.
4. Notice. Contractor/Lessor shall post these Enhanced Minimum Wage Provisions for the entire period of the contract conspicuously in easily-accessible and well-lighted places customarily frequented by employees at or near where the contracted services are performed.
5. Records. Contractor/Lessor must maintain and, upon request and within the time periods requested by the Commonwealth, furnish all employment and wage records necessary to document compliance with these Enhanced Minimum Wage Provisions.
6. Sanctions. Failure to comply with these Enhanced Minimum Wage Provisions may result in the imposition of sanctions, which may include, but shall not be limited to, termination of the contract or lease, nonpayment, debarment or referral to the Office of General Counsel for appropriate civil or criminal referral.
7. Subcontractors. Contractor/Lessor shall include the provisions of these Enhanced Minimum Wage Provisions in every subcontract so that these provisions will be binding upon each subcontractor.
Enhanced Minimum Wage Provisions (July 2022)

Header Text

The vendor shall provide materials and service for upgrade to Human Resource's and Execution Complex's telephone systems in accordance with DGS contract 4400020784, its Terms & Conditions, this purchase order and the vendor's quote #140290.

Please consider this purchase order as your "Notice to Proceed."

CONTINGENT COMMITMENT: purchase is contingent upon appropriation of funds by the legislature for each fiscal year.

ESTIMATED QUANTITIES: The quantity of services/materials is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Invoices must be mailed to the "bill to" address as shown on the PO or e-mailed to RA-OB69180@pa.gov. Failure to follow this provision may cause delay in processing and payment of the vendor's invoice. Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.

ACH PAYMENT:

1. The Commonwealth will make contract payments through Automated Clearing House (ACH). Within 10 days of award of the contract or purchase order, the contractor must submit or must have already submitted their ACH information within their user profile in the Commonwealth's procurement system (SRM).
2. The contractor must submit a unique invoice number with each invoice submitted. The unique invoice number will be listed on the Commonwealth of Pennsylvania's ACH remittance advice to enable the contractor to properly apply the state agency's payment to the invoice submitted.
3. It is the responsibility of the contractor to ensure that the ACH information contained in SRM is accurate and complete. Failure to maintain accurate and complete information may result in delays in payments.

ENHANCED MINIMUM WAGE PROVISIONS (July 2022)

1. Enhanced Minimum Wage. Contractor/Lessor agrees to pay no less than $15.00 per hour to its employees for all hours worked directly performing the services called for in this Contract/Lease, and for an employee's hours performing ancillary services necessary for the performance of the contracted services or lease when such employee spends at least twenty per cent (20%) of their time performing ancillary services in a given work week.
2. Adjustment. Beginning July 1, 2023, and annually thereafter, the minimum wage rate shall be increased by an annual cost-of-living adjustment using the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) for Pennsylvania, New Jersey, Delaware, and Maryland. The applicable adjusted amount shall be published in the Pennsylvania Bulletin by March 1 of each year to be effective the following July 1.
3. Exceptions. These Enhanced Minimum Wage Provisions shall not apply to employees:
   a. exempt from the minimum wage under the Minimum Wage Act of 1968;

b. covered by a collective bargaining agreement;

c. required to be paid a higher wage under another state or federal law governing the services, including the Prevailing Wage Act and Davis-Bacon Act; or

d. required to be paid a higher wage under any state or local policy or ordinance.

4. Notice. Contractor/Lessor shall post these Enhanced Minimum Wage Provisions for the entire period of the contract conspicuously in easily-accessible and well-lighted places customarily frequented by employees at or near where the contracted services are performed.

5. Records. Contractor/Lessor must maintain and, upon request and within the time periods requested by the Commonwealth, furnish all employment and wage records necessary to document compliance with these Enhanced Minimum Wage Provisions.

6. Sanctions. Failure to comply with these Enhanced Minimum Wage Provisions may result in the imposition of sanctions, which may include, but shall not be limited to, termination of the contract or lease, nonpayment, debarment or referral to the Office of General Counsel for appropriate civil or criminal referral.

7. Subcontractors. Contractor/Lessor shall include the provisions of these Enhanced Minimum Wage Provisions in every subcontract so that these provisions will be binding upon each subcontractor.

SECURITY CLEARANCE INFORMATION FOR VENDORS: All vendors or their subcontractors, who utilize regular delivery, transportation will have to submit clearance checks through the original vendor for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks, however are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from correctional staff.

Vendor shall deliver and install replacement program logic controllers and touchscreens, and software upgrade at SCI-Rockview in accordance with the DGS statewide Terms & Conditions, this purchase order, and the vendor's quote.

Please consider this purchase order as your "Notice to Proceed."

CONTINGENT COMMITMENT: purchase is contingent upon appropriation of funds by the legislature for each fiscal year.

ESTIMATED QUANTITIES: The quantity of services/materials is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Invoices must be mailed to the "bill to" address as shown on the PO or e-mailed to RA-OB69180@pa.gov. Failure to follow this provision may cause delay in processing and payment of the vendor's invoice. Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.

ACH PAYMENT:
a. The Commonwealth will make contract payments through Automated Clearing House (ACH). Within 10 days of award of the contract or purchase order, the contractor must submit or must have already submitted their ACH information within their user profile in the Commonwealth's procurement system (SRM).
b. The contractor must submit a unique invoice number with each invoice submitted. The unique invoice number will be listed on the Commonwealth of Pennsylvania's ACH remittance advice to enable the contractor to properly apply the state agency's payment to the invoice submitted.
c. It is the responsibility of the contractor to ensure that the ACH information contained in SRM is accurate and complete. Failure to maintain accurate and complete information may result in delays in payments.

ENHANCED MINIMUM WAGE PROVISIONS (JULY 2022)
1. Enhanced Minimum Wage. Contractor/Lessor agrees to pay no less than $15.00 per hour to its employees for all hours worked directly performing the services called for in this Contract/Lease, and for an employee's hours performing ancillary services necessary for the performance of the contracted services or lease when such employee spends at least twenty per cent (20%) of their time performing ancillary services in a given work week.
2. Adjustment. Header Text

Please consider this purchase order as your “Notice to Proceed.”

CONTINGENT COMMITMENT: purchase is contingent upon appropriation of funds by the legislature for each fiscal year.

ESTIMATED QUANTITIES: The quantity of services is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Invoices must be mailed to the "bill to" address as shown on the PO. Failure to follow this provision may cause delay in processing and payment of the vendor’s invoice. Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.

SECURITY CLEARANCE INFORMATION FOR VENDORS: All vendors or their subcontractors, who utilize regular delivery, transportation will have to submit clearance checks through the original vendor for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks, however are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from correctional staff.

The selected contractor was determined to be responsible in accordance with management directive 215.9.

Header Text

The vendor shall provide Preventive Maintenance and Repair Services on the Johnson Control Inc. (previously SimplexGrinnell) system in the SCI-Rockview treatment building in accordance with DGS statewide contract 4400024041 and its Terms & Conditions.

ORDER OF PRECEDENCE:
In the event of a conflict or discrepancy arising within the terms and conditions, or in the interpretation thereof, the order of precedence for resolution shall be the Department of General Services contract, the Department's Request for quote, and the contractor's quote.

Please consider this purchase order as your "Notice to Proceed."

Final balance of PO varies from proposal due to allowance for repair parts.

CONTINGENT COMMITMENT: purchase is contingent upon appropriation of funds by the legislature for each fiscal year.

ESTIMATED QUANTITIES: The quantity of services is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.

OPTION TO EXTEND:
Upon written notice to the contractor, the Commonwealth has the option of extending this contract or any part of this contract up to three months. This should be used to prevent a lapse in contract coverage, and only for the time necessary, up to three months, to issue the new contract.

OPTION TO RENEW:
Upon written notice to the contractor, the Commonwealth has the option to renew the contract or any part of the contract for up to three additional one-year terms. If the contract is renewed, the same terms and conditions apply.

SECURITY CLEARANCE INFORMATION FOR VENDORS: All vendors or their subcontractors, who utilize regular delivery, transportation will have to submit clearance checks through the original vendor for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks but are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from correctional staff.

FULLY EXECUTED
Purchase Order No: 4300777524
Original PO Effective Date: **07/14/2023**
PO Issue Date: **02/24/2025**
Valid From: 07/07/2023 To 06/30/2026

Supplier Name:
SIEMENS INDUSTRY INC

Header Text
The contractor shall provide fire alarm inspection, testing and maintenance when requested by the State Correctional Institution at Rockview in accordance with the Security, Surveillance, and Fire Maintenance ITQ 4400023415 and per the following attachments.

Attachment 1 - Technical Submittal (SOW)
Attachment 2 - Vendor Cost Sheet
Attachment 3 - Vendor Letter
Attachment 4 - Special Requirements for Contractors

Please consider this purchase order as your "Notice to Proceed."

CONTINGENT COMMITMENT: purchase is contingent upon appropriation of funds by the legislature for each fiscal year.

ESTIMATED QUANTITIES: The quantity of services is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Invoices must be mailed to the "bill to" address as shown on the PO. Failure to follow this provision may cause delay in processing and payment of the vendor's invoice. Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.
Security.
The selected Offeror or their sub-contractors who utilize regular delivery transportation will have to submit a Centralized Clearance Check Information Request http://www.cor.pa.gov/How%20Do%20I/Pages/Clearance-Request.aspx through the original supplier for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance requests, however are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from Correctional staff.

Purchase Order Term: The term of the purchase order will commence on the Effective Date and will end one (1) year after Effective Date with two (2) 1-year renewal options. The optional renewal years, if any, may be exercised in the Commonwealth's sole discretion.

Terms of Payment
Vendor to be paid for actual services provided.

FY25 EMERGENCY SERVICES

SERVICE PERIOD: JULY 1, 2025-JUNE 30, 2026

General Requirements for all Items:

Header Text

**********PLEASE CONSIDER THIS YOUR NOTICE TO PROCEED**********

The vendor shall provide (AS NEEDED) HVAC Repair/Maintenance for Quehanna Boot Camp per bid #6100058823, vendor quote #6500148050.

All quantities/services are estimated. Payment will be made on actual quantities/services received. The Department has the right to increase/decrease quantities based on actual items received.

Pursuant to Executive Order 2021-06, Worker Protection and Investment (October 21, 2021), the Commonwealth is responsible for ensuring that every Pennsylvania worker has a safe and healthy work environment, and the protections afforded them through labor laws. To that end, contractors and grantees of the Commonwealth must certify that they are in compliance with all applicable Pennsylvania state labor and workforce safety laws. Such certification shall be made through the Worker Protection and Investment Certification Form (BOP-2201) and submitted with the bid, proposal or quote.

RENEWAL CLAUSE: UPON WRITTEN NOTICE TO THE CONTRACTOR, THE COMMONWEALTH HAS THE OPTION OF EXTENDING THIS CONTRACT AT THE SAME RATE SCHEDULE FOR ONE ADDITIONAL TWELVE-MONTH PERIOD PROVIDED A DGS STATEWIDE CONTRACT IS NOT IN EFFECT. THIS TERM SHALL APPLY UNLESS THE CONTRACTOR GIVES NOTICE OF CANCELLATION AT LEAST ONE MONTH PRIOR TO THE RENEWAL DATE. THE EXTENSION(S) MAY REFLECT AN INCREASE OR DECREASE IN COMPENSATION BASED ON CURRENT MARKET CONDITIONS.

SERVICE VISITS WILL BE SCHEDULED BY APPROPRIATE MAINTENANCE PERSONNEL OR AS OUTLINED IN STATEMENT OF WORK AND MUTUALLY AGREED UPON BY CONTRACTOR AND INSTITUTIONAL STAFF.

FULLY EXECUTED
Purchase Order No: 4300786444
Original PO Effective Date: **09/20/2023**
PO Issue Date: **02/24/2025**
Valid From: 09/25/2023 To 06/30/2024

Supplier Name:
CLEMMER FIRE PROTECTION INC

Header Text

SCOPE: The vendor shall provide provide all the necessary labor, material, fabrication, tools, and equipment to perform repairs to the fire suppression system at SCI-Rockview per state contract 4400024041, its Terms and Conditions, this purchase order, and the vendor's attached proposals.

Please consider this purchase order as your "Notice to Proceed."

CONTINGENT COMMITMENT: purchase is contingent upon appropriation of funds by the legislature for each fiscal year.

SECURITY CLEARANCE INFORMATION FOR VENDORS: All vendors or their subcontractors, who utilize regular delivery, transportation will have to submit clearance checks through the original vendor for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks, however, are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from correctional staff.

INVOICING/PAYMENT:
No additional charges (fuel, mileage, lodging, surcharges, parts or labor) will be paid. This is an order for fixed cost per lot.

ACH payment will be processed following receipt of an accurate electronic invoice. Please email your invoices to: RA-OB69180@pa.gov. Courtesy copies should also be sent locally to the ordering institution. Helpful information regarding the submission of electronic invoices can be found here: https://www.budget.pa.gov/Programs/Pages/E-invoicing.aspx

a. The Commonwealth will make payments through the Automated Clearing House (ACH). Within 10 days of award of the contract or purchase order, the contractor must submit or must have already submitted their ACH information within their user profile in the Commonwealth's procurement system (SRM).

b. The contractor must submit a unique invoice number with each invoice submitted. The unique invoice number will be listed on the Commonwealth of Pennsylvania's ACH remittance advice to enable the contractor to properly apply the state agency's payment to the invoice submitted.

c. It is the responsibility of the contractor to ensure that the ACH information contained in SRM Page 8 is accurate and complete. Failure to maintain accurate and complete information may result in delays in payments

NORMAL HOURS OF OPERATION: Monday thru Friday, 8:00 AM - 4:00 PM, except legal holidays.

**********PLEASE CONSIDER THIS YOUR NOTICE TO PROCEED**********

The vendor shall provide Elevator Maintenance/Repair for Quehanna Boot Camp per attached vendor quote.

Contract 4400024170

All quantities are estimated. Payment will be made on actual quantities received. The Department has the right to increase/decrease quantities based on actual items received.

Pursuant to Executive Order 2021-06, Worker Protection and Investment (October 21, 2021), the Commonwealth is responsible for ensuring that every Pennsylvania worker has a safe and healthy work environment and the protections afforded them through labor laws. To that end, contractors and grantees of the Commonwealth must certify that they are in compliance with all applicable Pennsylvania state labor and workforce safety laws. Such certification shall be made through the Worker Protection and Investment Certification Form (BOP-2201) and submitted with the bid, proposal or quote.

SERVICE VISITS WILL BE SCHEDULED BY APPROPRIATE MAINTENANCE PERSONNEL OR AS OUTLINED IN STATEMENT OF WORK AND MUTUALLY AGREED UPON BY CONTRACTOR AND INSTITUTIONAL STAFF.

Shipping Instructions

All items will be delivered F.O.B Destination. The awarded supplier is responsible for any shipping or delivery costs.

Deliveries accepted Monday thru Friday, 8:00 a.m. - 2:00 p.m. No Holidays

SECURITY CLEARANCE INFORMATION FOR VENDORS

All vendors or their subcontractors, who utilize regular delivery transportation will have to submit clearance checks through the original vendor, for all drivers (regardless of if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks, however, are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from correctional staff.

General Requirements for all Items:

Header Text

The vendor shall provide elevator inspection, maintenance, and repair to the elevators at SCI-Rockview per state contract 4400024170, its Terms & Conditions, the statement of work, and the vendor's quote. This is renewal 3 of 3. Prior years were under $10,000.00 and paid with pcard.

Please consider this purchase order as your Notice to Proceed.

CONTINGENT COMMITMENT: purchase is contingent upon appropriation of funds by the legislature for each fiscal year.

ESTIMATED QUANTITIES: The quantity of services is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Invoices must be mailed to the "bill to" address as shown on the PO. Failure to follow this provision may cause delay in processing and payment of the vendor's invoice. Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.

SECURITY CLEARANCE INFORMATION FOR VENDORS: All vendors or their subcontractors, who utilize regular delivery, transportation will have to submit clearance checks through the original vendor for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks, however, are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from correctional staff.

Header Text

Please consider this purchase order as your “Notice to Proceed.”

CONTINGENT COMMITMENT: purchase is contingent upon appropriation of funds by the legislature for each fiscal year.

ESTIMATED QUANTITIES: The quantity of services is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Invoices must be mailed to the "bill to" address as shown on the PO. Failure to follow this provision may cause delay in processing and payment of the vendor’s invoice. Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.

SECURITY CLEARANCE INFORMATION FOR VENDORS: All vendors or their subcontractors, who utilize regular delivery, transportation will have to submit clearance checks through the original vendor for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks, however are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from correctional staff.

The selected contractor was determined to be responsible in accordance with management directive 215.9.

Shipping Instructions

STATEMENT OF WORK
SCI-ROCKVIEW BOILER PLANT STEAM SYSTEM
WELDING AND FABRICATION SERVICES

SCOPE OF WORK: The vendor shall supply certified welding (TIG, MIG, SMAW) and fabrication service on boilers operating at 105 psi, kitchen pressure vessels, steam and condensate lines throughout SCI-Rockview, 1 Rockview Place, Bellefonte, PA and to include necessary parts and materials. This contract will be for repairs only, not for upgrades or expansions.

CERTIFICATIONS REQUIRED: Certified welding on pressure boilers in accordance with the National Board Inspection Code and ASME Construction Code. Welders must have National Board "R" Certification.

RESPONSE TIME: Must be able to respond within 24 hours to evaluate for emergency repairs.

VENDOR RESPONSIBILITIES: The vendor shall provide labor, repair parts and replacement components, and equipment necessary to make repairs on equipment to bring it back into operational compliance following a failure due to normal operations. The vendor shall provide documentation needed to comply with Insurance regulations and inspections.

The vendor shall provide a detailed service report showing, as a minimum, the following information:

1. Date service provided.
2. Name and signature of vendor's employee.
3. Name and signature of SCI-Rockview maintenance staff.
4. Identification of each system worked on and a description of the problem and corrective actions taken, including a list of parts and/or replacement components used. Show manufacturer of all parts and replacement components.
5. Number of man-hours worked.

COMMONWEALTH RESPONSIBILITIES: Provide access to the equipment and perform shutdown of operating equipment to allow the vendor to safely make the necessary repairs. The Commonwealth will be responsible for working with the vendor to safely bring the equipment back into operation following any repairs.

SITE VISIT REQUIREMENT: An OPTIONAL Site Visit must be scheduled through the Facilities Maintenance Manager John P. Hayles, at (814)355-4874, ext. 208 or 219;

EQUIPMENT TO INCLUDE, BUT NOT LIMITED TO:

Keeler Boiler #1 – 25 million BTU/hr. coal fired boiler

Keeler Boiler #2 – 47 million BTU/hr. coal fired boiler

Keeler Boiler #3 – 25 million BTU/hr. coal fired boiler

Nebraska Boiler #4 – 57.7 million BTU/hr. natural gas / oil fired boiler

Cleaver-Brooks Boiler #5 – 26.7 million BTU/hr. natural gas / oil fired boiler

Deaerator Tank – Kansas City Deaerator Company (2002)

Condensate Return Tank

High pressure steam header 8 inch – approx. 100 ft.

High pressure steam header 6 inch – approx. 100 ft.

High pressure steam lines 8 inch – approx. 500 ft.

High pressure steam lines 6 inch – approx. 3000

High pressure steam lines 4 inch and under – approx. 500 ft.

Low pressure condensate return line 6 inch and under – approx. 4,000 ft.

Culinary steam kettles – 6 total.

CONTINGENT COMMITMENT: Purchase of services is contingent upon appropriation of funds by the legislature for each fiscal year.

CONTRACT TERM OF SERVICE: Initial contract term will be one (1) year from purchase order validity date, with four (4) one (1) year optional renewal terms. Upon written notice to the contractor, the Commonwealth has the option to renew the contract or any part of the contract for two additional one-year terms. If the contract is renewed, the same terms and conditions apply.

OPTION TO EXTEND: Upon written notice to the contractor, the Commonwealth has the option of extending this contract or any part of this contract up to three months. This should be used to prevent a lapse in contract coverage, and only for the time necessary, up to three months, to issue the new contract.

REPAIR PARTS & REPLACEMENT COMPONENTS: Once the bid is awarded, funds will be allotted for repair/replacement parts

ESTIMATED QUANTITY: The quantity of services is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

“EXTRA PERSON”: It is the assumption of the Commonwealth that repairs will be completed by one service person. In the event extra service personnel are needed, they must be pre-approved by the Facility Maintenance Manager 3. The unit of measure for service is in **man-hours.**

ORDER OF PRECEDENCE: In the event of a conflict or discrepancy arising within the terms and conditions, or in the interpretation thereof, the order of precedence for resolution shall be the Department of General Services contract, the Department’s Request for quote, and the contractor’s quote.

PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Invoices must be mailed to the "bill to" address as shown on the PO. Failure to follow this provision may cause delay in processing and payment of the vendor’s invoice. Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put

a hold on payment until a correct invoice is received. No additional charges will be paid above that which is already quoted in the hourly rate (i.e., travel time, subsistence, fuel, tolls,

SECURITY CLEARANCE INFORMATION FOR VENDORS: All vendors or their subcontractors who utilize regular delivery transportation will have to submit clearance checks through the original vendor for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks, however are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from correctional staff.

No vehicle is to be on facility grounds with the engine running without the operator present and in control of the vehicle. This applies to all employees, visitors, contractors, and vendors. **Additionally, the use of automatic vehicle starters is prohibited on state grounds.** Anyone found in violation of this prohibition will be subject to loss of access to the facility. If the engine of an Emergency Services vehicle must remain running, a Corrections Officer shall stay with the vehicle at all times.

POINTS OF CONTACT:

The vendor shall provide the 24-hour phone number, contact person, and e-mail address to request services.

The points of contact at SCI-Rockview are:

John P. Hayles, Facility Maintenance Manager 3, jhayles@pa.gov, 814-355-4874, ext. 208 or 219.

**********PLEASE CONSIDER THIS YOUR NOTICE TO PROCEED**********

The vendor shall provide Fire Alarm Equipment, Programming and Testing for Quehanna Boot Camp per attached vendor quote.

All quantities are estimated. Payment will be made on actual quantities received. The Department has the right to increase/decrease quantities based on actual items received.

Pursuant to Executive Order 2021-06, Worker Protection and Investment (October 21, 2021), the Commonwealth is responsible for ensuring that every Pennsylvania worker has a safe and healthy work environment, and the protections afforded them through labor laws. To that end, contractors and grantees of the Commonwealth must certify that they are in compliance with all applicable Pennsylvania state labor and workforce safety laws. Such certification shall be made through the Worker Protection and Investment Certification Form (BOP-2201) and submitted with the bid, proposal or quote.

Shipping Instructions

All items will be delivered F.O.B Destination. The awarded supplier is responsible for any shipping or delivery costs.

Deliveries accepted Monday thru Friday, 8:00 a.m. - 2:00 p.m. No Holidays

SECURITY CLEARANCE INFORMATION FOR VENDORS

All vendors or their subcontractors, who utilize regular delivery transportation will have to submit clearance checks through the original vendor, for all drivers (regardless of if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks, however, are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from correctional staff.

Terms of Payment

PAYMENT SHALL BE MADE FOR ACTUAL SERVICES RENDERED AND ACCEPTED BY THE FACILITY AND RECEIPT OF ITEMIZED/DETAILED/APPROVED INVOICE. ALL INVOICES MUST BE MAILED TO THE BILL-TO ADDRESS ON THE FACE OF THE PO OR YOU CAN ELECT A PAPERLESS EMAIL INVOICE OPTION. TO DO SO, VISIT www.budget.state.pa.us; click vendor services and select E-invoicing. VENDOR MAY ENROLL TO RECEIVE ELECTRONIC PAYMENT.

General Requirements for all Items:

Header Text

Consider this purchase order your notice to proceed.

CONTINGENT COMMITMENT: purchase is contingent upon appropriation of funds by the legislature for each fiscal year.

ESTIMATED QUANTITIES: The quantity of services is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

PAYMENT INSTRUCTIONS:
PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Invoices must be mailed to the "Please Bill To" address as shown on the PO. REFERENCE THE PO # ON THE INVOICE. Failure to follow this provision may cause delay in processing and payment of the vendor's invoice. Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.

SECURITY CLEARANCE INFORMATION FOR VENDORS: All vendors or their subcontractors, who utilize regular delivery, transportation will have to submit clearance checks through the original vendor for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks; however, they are subject to search and escort procedures. General Requirements for all Items:

Header Text

Please consider this purchase order as your "Notice to Proceed."
This purchase order is for the procurement of light poles, fixtures and replacement. Contractor provides all labor, equipment, tools, materials and parts necessary to replace electric poles, lines, transformers, switches, fuses and related materials, as needed for the Department of Corrections, SCI Rockview, Route 26, 1 Rockview Place, Bellefonte, PA 16823.

*Vendor has been found to be compliant with Executive Order 2021-06 at this time.

NO SUBSTITUTIONS WILL BE PERMITTED

ESTIMATED QUANTITIES: All quantities are estimated; amounts may vary. The quantity of services is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

The contract shall commence upon execution/approval and receipt of Purchase Order. This contract/purchase order will be for one (1) year and may be mutually renewed for a maximum of four (4) one (1) year term(s).

PO Issue Date: **10/04/2024**

Valid From: 10/08/2024 To 06/30/2025

Supplier Name:

AYERS LINE CONSTRUCTION INC

Shipping Instructions

SECURITY CLEARANCE INFORMATION FOR VENDORS: All vendors or their subcontractors, who utilize regular delivery will have to submit clearance checks through the original vendor for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks but are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from correctional staff.

NO VEHICLE MAY BE ON FACILITY GROUNDS WITH THE ENGINE RUNNING WITHOUT THE OPERATOR PRESENT AND IN CONTROL OF THE VEHICLE. This applies to all employees, visitors, contractors, and vendors. Additionally, the use of automatic vehicle starters is prohibited on state grounds. Anyone found in violation of this prohibition will be subject to loss of access to the facility. If the engine of an Emergency Services vehicle must remain running, a Corrections Officer shall stay with the vehicle at all times.

Contractor shall perform all regular servicing during weekday, daylight working hours of 0730 to 1530 hours (excluding holidays, except when requested by the Institution to perform emergency services). Contractor to provide emergency services personnel within 2 hours after notification of need. To access and get equipment and manpower mobilized. Maintenance Manager or his/her designee will determine emergencies.

All items will be F.O.B. Destination. The awarded supplier is responsible for any shipping or delivery costs.

Terms of Payment

PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Invoices must be emailed or mailed to the "bill to" address as shown on the PO. Failure to follow this provision may cause delay in processing and payment of the vendor's invoice. ACH payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth, unless otherwise approved prior to issuance of PO. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.

ACH payment will be processed following receipt of an accurate electronic invoice. Please email your invoices to: RA-OB69180@pa.gov.
Courtesy copies should also be sent locally to the ordering institution.

Helpful information regarding the submission of electronic invoices can be found here:
https://www.budget.pa.gov/Programs/Pages/E-invoicing.aspx

STATEMENT OF WORK
REPLACEMENT OF ELECTRIC POLES/HIGH VOLTAGE EQUIPMENT/EMERGENCY RESPONSE
SCI ROCKVIEW

SCOPE OF WORK:

Contractor provides all labor, equipment, tools, materials and parts necessary to replace electric poles, lines, transformers, switches, fuses and related materials, as needed for the Department of Corrections, SCI Rockview, Route 26, 1 Rockview Place, Bellefonte, PA 16823.

ISSUING OFFICER

For any questions in regards to this bid, please contact Karen Bartley, Procurement Specialist 3, at kbartley@pa.gov.

SITE INSPECTION:

A mandatory site inspection is scheduled for September 17, 2024 at 9:00am at SCI-Rockview, Route 26, Bellefonte, PA 16823. You must attend the site visit in order to submit a bid. Any questions regarding this visit, please contact JP Hayles, Facility Maintenance Manager 3 at 814-355-4874 ext. 208 or jhayles@pa.gov

ITEMS TO INCLUDE AND LABOR

Provide (5) class 5 35' poles & hardware

Provide Hourly Rates for materials and services listed under Items on the bid.

Bucket Truck

Digger Truck

Personnel Truck

Crane Truck

Foreman

Lineman

Apprentice

All Materials removed that would have an environmental impact are to be disposed of by the contractor within state and federal laws at no additional cost to the customer, SCI Rockview.

Contractor shall perform all regular servicing during weekday, daylight working hours of 0730 to 1530 hours (excluding holidays, except when requested by the Institution to perform emergency services). Contractor to provide emergency services personnel within **2** hours after notification of need. To access and get equipment and manpower mobilized. Maintenance Manager or his/her designee will determine emergencies.

The Contractor shall provide a complete report following each site repair service, giving details of services performed, condition of equipment and/or any recommendations in writing.

STATEMENT OF WORK
REPLACEMENT OF ELECTRIC POLES/HIGH VOLTAGE EQUIPMENT/EMERGENCY RESPONSE
SCI ROCKVIEW

CONTRACT REQUIREMENTS:

Service technicians will be required to provide a detailed work service report that will need the signature of an Institution representative prior to the technician(s) leaving the premises. The work order shall include specific and detailed information on all work completed, including dates and times of service, actual service(s) completed and any recommendations. Payment of monthly invoices may be withheld until such documentation is submitted.

It is understood and agreed that the fixed labor rate charge proposed by the Contractor will be total and final and that the Commonwealth will not pay any additional sum or sums over and above the hourly rate bid on contract. There shall be no additional charges for accommodations, mileage or any other indirect charges, other than travel time.

CONTRACT TERM/OPTION TO RENEW:

The anticipated term of this contract upon execution of purchase order. Service will begin as of midnight on the effective date of the purchase order and will continue until midnight on the termination date. Regular routine maintenance will be provided during regular business hours, Monday-Friday 0730 to 1530, unless otherwise specified.

The Commonwealth, with the mutual consent of the Contractor, shall have the option of four (4) one (1) year renewals to begin respectively at the expiration of the then current term, upon the same terms, covenants, and conditions, provided; however, that the Contract has not been terminated. Notice of the selection by the Commonwealth to exercise the option hereunder shall be given to the Contractor in writing at least ninety (90) days prior to the expiration of the then current terms.

For any anticipated renewal, no further document is required to be executed to renew the term of the contract. Any renewal year costs/increases will be negotiated with the vendor at the time of renewal with justification. The Contractor shall provide written notification to the Department no later than March 31 of each subsequent renewal year if such increases are to be requested. Request received after the March 31st, deadline will not be considered.

The contract quantities herein are estimated only and may increase or decrease depending on the needs of the Department. Contract shall be paid at the unit price bid for actual work performed.

OPTION TO EXTEND:

The Commonwealth reserves the right, upon notice to the Contractor, to extend the Contract/PO or any part of the Contract/PO for up to three (3) months upon the same terms and conditions. An extension will be utilized to prevent a lapse in contract/PO coverage and only for the time necessary, up to three (3) months, to enter into a new contract.

Repair Parts. For any parts and/or materials necessary for emergency repairs or repairs out of the scope of regular maintenance, materials should be billed at Fair Market Value. The State Correctional Institution of Rockview reserves the right to request written proof (such as invoices) for the Contractor's cost of parts and material that were used on each repair. Vendor may charge for administrative handling and shopping charges; however, verification of such charges may be required before

acceptance of said charges. Awarded contractor is encouraged to enroll for electronic payments. Enrollment instructions can be found at www.dgs.pa.gov. Payment will only be authorized after verification of acceptable performance, submission of detailed and verified invoice.

VENDOR REGISTRATION:

In order to do business with the Commonwealth you must register with the Commonwealth to obtain a vendor number. If you already have a vendor number, please disregard this notice. If you do not, please visit www.dgs.pa.gov for instructions on the registration process.

BID RECEIPT, OPENING AND AWARD:

ALL BIDS MUST BE SUMITTED ELECTRONICALLY AT www.pasupplierportal.state.pa.us. NO PAPER BIDS WILL BE ACCEPTED. NOTE: The department will only accept out to two (2) decimal points when entering your bid. **BIDS NOT SUBMITTED ELECTROICALLY WILL BE CONSIDERED NON-RESPONSIVE AND THEREFOR, DISQUALIFIED.**

Once the bid is awarded, a notice of award will be posted at www.emarketplace.state.pa.us.

CONTRACTOR REFERENCES:

After the bid opening, and prior to awarding of the contract, the Department has the right to request references (name, addresses, and telephone numbers) of similar work performed in the previous five (5) years as proof of qualification to perform the work invoiced in the contract.

CONTRACT TYPE:

One (1) year assured replacement of electric poles and related high voltage equipment at SCI-Rockview as needed or requested,

One (1) year emergency response/repair service, 24 hours a day, seven days a week Emergency response on repair/replacement of electric poles and related high voltage equipment. Example: Wire, Transformers, Electric Switch and Fuses (normal business hours of 0730 to 1530, weekends and holidays)

The contract shall commence upon execution/approval and receipt of Purchase Order within the validity dates on the Purchase Order.

PAYMENT TERMS:

The Contractor shall invoice after each job is performed and completed. All invoices are to be submitted to the 'bill-to' address on the face of the purchase order. All invoices **MUST** include the purchase order number as well as your SAP Vendor Number. Failure to provide this could result in a delay of your payment.

PART I - GENERAL INFORMATION

PART I - GENERAL INFORMATION

I.1 IFB-001.1 Purpose (Oct 2006)

The Commonwealth of Pennsylvania (Commonwealth) is issuing this Invitation for Bids (IFB) to meet the needs of SCI-ROCKVIEW/CORRECTIONS to satisfy a need for 1161-62270-Light Pole Replacement FY24.

I.2 IFB-005.1 Type of Contract (Oct. 2006)

If the Issuing Office enters into a contract as a result of this IFB, it will be a established price contract contract containing the Contract Terms and Conditions as shown in Part V of this IFB.

I.3 IFB-008.1C No Pre-bid Conference (Oct. 2006)

There will be no pre-bid conference for this IFB. If there are any questions, please forward them to the Issuing Office prior to the bid opening date and time.

I.4 IFB-008.2 Mandatory Site Visitation (Oct. 2006)

All bidders, prior to submitting a bid, must visit the site to completely familiarize themselves with all of the agency's needs and requirements. Vendor shall contact at to schedule an appointment to visit the site.

I.5 IFB-009.1 Questions (February 2012)

All questions regarding the IFB must be submitted in writing to the email address of the Issuing Officer provided in the solicitation. While there is no set timeline for the submittal of questions, questions received within 48 hours prior to the bid due date and time will be answered at the discretion of the Commonwealth. All questions received will be answered, in writing, and such responses shall be posted to eMarketplace as an addendum to the IFB. The Issuing Officer shall not be bound by any verbal information nor shall it be bound by any written information that is not either contained within the IFB or formally issued as an addendum by the Issuing Office. The Issuing Office does not consider questions to be a protest of the specifications or of the solicitation.

I.6 IFB-010.1 Addenda to the IFB (Oct. 2006)

If the Issuing Office deems it necessary to revise any part of this IFB before the bid response date, the Issuing Office will post an addendum to its website at WWW.EMARKETPLACE.STATE.PA.US it is the Bidder's responsibility to periodically check the website for any new information or addenda to the IFB.

I.7 IFB-011.1B Submission of Bids – Electronic Submittal (May 2011)

a. Bids are requested for the item(s) described in the Invitation For Bids and all the documents referenced in the form (collectively called the IFB). Bidders must submit their bids through the Commonwealth's electronic system (SRM).

b. It is the responsibility of each bidder to ensure that its Bid is received through the electronic system prior to the date and time set for the opening of bids ("Bid Opening Time"). No Bid shall be considered if it arrives after the Bid Opening Time, regardless of reason for the late arrival.

Bids that are timely received prior to the Bid Opening Time shall be opened publicly in the presence of one or more witnesses at the time and place designated in this IFB for the Bid opening.

c. Bids must be firm. If a Bid is submitted with conditions or exceptions or not in conformance with the terms and conditions referenced in the IFB Form, it shall be rejected. The Bid shall also be rejected if the items offered by the Bidder are not in conformance with the specifications as determined by the Commonwealth.

d. The Bidder, intending to be legally bound hereby, offers and agrees, if this Bid is accepted, to provide the awarded items at the price(s) set forth in this Bid at the time(s) and place(s) specified.

I.8 IFB-024.1 Bid Protest Procedure (April 2016)

The Bid Protest Procedure is on the DGS website at
http://www.dgs.pa.gov/Documents/Procurement%20Forms/Handbook/Pt1/Pt%20I%20Ch%2058%20Bid%20Protests.pdf

I.9 IFB-025.1 Electronic Version of this IFB (Oct 2006)

This IFB is being made available by electronic means. If a Bidder electronically accepts the IFB, the Bidder acknowledges and accepts full responsibility to insure that no changes are made to the IFB. In the event of a conflict between a version of the IFB in the Bidder's possession and the Issuing Office's version of the IFB, the Issuing Office's version shall govern.

I.10 IFB-029.1 Prices (Dec 6 2006)

The bid submitted by the successful Bidder will be incorporated into any resulting Contract and the Bidder will be required to provide the awarded item(s) at the prices quoted in its Bid.

I.11 IFB-030.1 Approved Equal (Nov 2006)

Whenever an item is defined in this IFB by trade name and catalogue number of a manufacturer or vendor, the term 'or approved equal,' if not inserted therewith shall be implied. Any reference to a particular manufacturer's product either by trade name or by limited description is solely for the purpose of more clearly indicating the minimum standard of quality desired, except where a 'no substitute' is requested. When a 'no substitute' is requested, the Issuing Office will consider Bids for the referenced product only. The term 'or approved equal' is defined as meaning any other make which, in the sole opinion of the Issuing Office, is of such character, quality, and performance equivalence as to meet the standard of quality of products specified for which it is to be used equally as well as that specified. A Bidder quoting on a product other than the referenced product shall: a) furnish complete identification in its Bid of the product it is offering by trade name, brand and/or model number; b) furnish descriptive literature and data with respect to the substitute product it proposes to furnish; and c) indicate any known specification deviations from the referenced product.

I.12 IFB-031.1 Alternates (Oct 2013)

A Bidder who wants to offer an alternate must notify the Issuing Office in writing, at least five (5) days prior to the scheduled Bid opening, that the Bidder intends to offer an alternate in its Bid. An "alternate" is a product that

deviates from the requirements of the specifications in its composition, qualities, performance, size dimension, etc. The written notification from the Bidder must include a complete description of the alternate and must identify the product's deviations from the specifications. Upon receipt of the notification, the Issuing Office will determine whether the alternate is acceptable. If the Issuing Office, in its discretion, determines that the alternate is acceptable, the Issuing Office will issue a change notice to the invitation for bids that revises the specifications. If no change notice is issued revising the specification, a Bid offering the alternate will not be considered for award. If an item or items in the IFB are designated "no substitute," this provision does not apply and no alternate may be proposed by a bidder nor will any alternate be considered by the Issuing Office.

I.13 IFB-032.1 New Equipment (Nov 2006)

Unless otherwise specified in this invitation for bids, all products offered by Bidders must be new or remanufactured. A 'new' product is one that will be used first by the Commonwealth after it is manufactured or produced. A 'remanufactured' product is one which: 1) has been rebuilt, using new or used parts, to a condition which meets the original manufacturer's most recent specifications for the item; 2) does not, in the opinion of the Issuing Office, differ in appearance from a new item; and 3) has the same warranty as a new item. Unless otherwise specified in this invitation for bids, used or reconditioned products are not acceptable. This clause shall not be construed to prohibit Bidders from offering products with recycled content, provided the product is new or remanufactured.

I.14 I-IFB-033.1 Modification or Withdrawal of Bid (Nov 2006)

a. Bid Modification Prior to Bid Opening. Bids may be modified only by written notice or in person prior to the exact hour and date specified for Bid opening.

1) If a Bidder intends to modify its Bid by written notice, the notice must specifically identify the Bid to be modified and must be signed by the Bidder. The Bidder must include evidence of authorization for the individual who signed the modification to modify the Bid on behalf of the Bidder. The Bid modification must be received in a sealed envelope. The sealed envelope must identify the assigned Collective Number and the Bid Opening Time, and should state that enclosed in the envelope is a Bid modification

2) If a Bidder intends to modify its Bid in person, the individual who will modify the Bid must arrive in the Bid Opening Room prior to the Bid Opening Time, show a picture identification and provide evidence of his/her authorization to modify the Bid on behalf of the Bidder. If a Bidder intends to modify its Bid in person, the Bidder may do so only in the presence of an agency employee. (The agency employee will observe the actions taken by the individual to modify the Bid, but will not read the Bid or the modification).

b. Bid Withdrawal Prior to Bid Opening. Bids may be withdrawn only by written notice or in person prior to the exact hour and date specified for Bid opening.

1) If a Bidder intends to withdraw its Bid by written notice, the notice shall specifically identify the Bid to be withdrawn and shall be signed by the Bidder. The Bidder must include evidence of authorization for the individual who signed the bid withdrawal to withdraw the bid on behalf of the Bidder. Except as provided in Subparagraph c, below, bid withdrawals received after the exact hour and date specified for the receipt of Bids shall not be accepted.

2) If a Bidder intends to withdraw its Bid in person, the individual who will withdraw the Bid must arrive in the Bid Opening Room prior to the Bid Opening Time, show a picture identification and provide evidence of his/her authorization to withdraw the Bid on behalf of the Bidder.

c. Bid Withdrawal After Bid Opening. Bidders are permitted to withdraw erroneous Bids after Bid opening only if the following conditions are met:

1) The Bidder submits a written request for withdrawal.

2) The Bidder presents credible evidence with the request that the reason for the lower Bid price was a clerical mistake as opposed to a judgment mistake and was actually due to an unintentional arithmetical error or an

unintentional omission of a substantial quantity of work, labor, material, or services made directly in the compilation of the Bid.

3) The request for relief and supporting evidence must be received by the Issuing Office within three (3) business days after Bid opening, but before award of the contract.

4) The Issuing Office shall not permit a Bid withdrawal if the Bid withdrawal would result in the award of the contract on another Bid of the same Bidder, its partner, or a corporation or business venture owned by or in which the bidder has a substantial interest.

5) If a Bidder is permitted to withdraw its Bid, the Bidder cannot supply any material or labor or perform any subcontract or other work agreement for the awarded contractor, without the written approval of the Issuing Office.

d. Firm Bid. Except as provided above, a Bid may not be modified, withdrawn, or cancelled by any Bidder for a period of sixty (60) days following the time and date designated for Bid opening, unless otherwise specified by the Bidder in its Bid. If the lowest responsible Bidder, as determined by the Issuing Office, withdraws its Bid prior to the expiration of the award period or fails to comply with the requirements set forth in the IFB including but not limited to any requirement to submit performance or payment bonds or insurance certificates within the required time period, the Bidder shall be liable to the Commonwealth for all costs and damages associated with the re-award or re-bid including the difference between the Bidder's price and the actual cost that the Commonwealth pays for the awarded items.

e. Clarification and Additional Information. After the receipt of Bids, the Issuing Office shall have the right to contact Bidders for the purpose of seeking:

1) Clarification of the Bid which confirms the Issuing Office's understanding of statements or information in the Bid or;

2) Additional information on the items offered; provided the IFB does not require the rejection of the Bid for failure to include such information.

I.15 I-IFB-034.1 Rejection of Bids (Nov 2006)

The Issuing Office reserves the right to reject any and all Bids, to waive technical defects or any informality in Bids, and to accept or reject any part of any Bid if the best interests of the Commonwealth are thereby served.

I.16 Submission-001.1 Representations and Authorizations (February 2017)

By submitting its proposal, each Offeror understands, represents, and acknowledges that:

A. All of the Offeror’s information and representations in the proposal are material and important, and the Issuing Office may rely upon the contents of the proposal in awarding the contract(s). The Commonwealth shall treat any misstatement, omission or misrepresentation as fraudulent concealment of the true facts relating to the Proposal submission, punishable pursuant to 18 Pa. C.S. § 4904.

B. The Offeror has arrived at the price(s) and amounts in its proposal independently and without consultation, communication, or agreement with any other Offeror or potential offeror.

C. The Offeror has not disclosed the price(s), the amount of the proposal, nor the approximate price(s) or amount(s) of its proposal to any other firm or person who is an Offeror or potential offeror for this RFP, and the Offeror shall not disclose any of these items on or before the proposal submission deadline specified in the Calendar of Events of this RFP.

D. The Offeror has not attempted, nor will it attempt, to induce any firm or person to refrain from submitting a proposal on this contract, or to submit a proposal higher than this proposal, or to submit any intentionally high or

noncompetitive proposal or other form of complementary proposal.

E. The Offeror makes its proposal in good faith and not pursuant to any agreement or discussion with, or inducement from, any firm or person to submit a complementary or other noncompetitive proposal.

F. To the best knowledge of the person signing the proposal for the Offeror, the Offeror, its affiliates, subsidiaries, officers, directors, and employees are not currently under investigation by any governmental agency and have not in the last fouryears been convicted or found liable for any act prohibited by State or Federal law in any jurisdiction, involving conspiracy or collusion with respect to bidding or proposing on any public contract, except as the Offeror has disclosed in its proposal.

G. To the best of the knowledge of the person signing the proposal for the Offeror and except as the Offeror has otherwise disclosed in its proposal, the Offeror has no outstanding, delinquent obligations to the Commonwealth including, but not limited to, any state tax liability not being contested on appeal or other obligation of the Offeror that is owed to the Commonwealth.

H. The Offeror is not currently under suspension or debarment by the Commonwealth, any other state or the federal government, and if the Offeror cannot so certify, then it shall submit along with its proposal a written explanation of why it cannot make such certification.

I. The Offeror has not made, under separate contract with the Issuing Office, any recommendations to the Issuing Office concerning the need for the services described in its proposal or the specifications for the services described in the proposal.

J. Each Offeror, by submitting its proposal, authorizes Commonwealth agencies to release to the Commonwealth information concerning the Offeror's Pennsylvania taxes, unemployment compensation and workers' compensation liabilities.

K. Until the selected Offeror receives a fully executed and approved written contract from the Issuing Office, there is no legal and valid contract, in law or in equity, and the Offeror shall not begin to perform.

L. The Offeror is not currently engaged, and will not during the duration of the contract engage, in a boycott of a person or an entity based in or doing business with a jurisdiction which the Commonwealth is not prohibited by Congressional statute from engaging in trade or commerce.

PART II - REQUIREMENTS

PART II - REQUIREMENTS

II.1 II-IFB-008.1b Lobbying Certification and Disclosure – Electronic Submission. (Oct 2006).

With respect to an award of a federal contract, grant, or cooperative agreement exceeding $100,000 or an award of a federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000 all recipients must certify that they will not use federal funds for lobbying and must disclose the use of non-federal funds for lobbying by filing required documentation. Offerors must complete and return the Lobbying Certification Form and the Disclosure of Lobbying Activities Form, which are attached to and made a part of this IFB. The completed and signed Lobbying Certification Form and the Disclosure of Lobbying Activities Form should be submitted with the Bid Response. Commonwealth agencies will not contract with outside firms or individuals to perform lobbying services, regardless of the source of funds.

II.2 II-IFB-016.1 Post-Submission Descriptive Literature (Dec 2006)

T he Commonwealth may, during its evaluation of the bids, require any bidder to submit cuts, illustrations, drawings, prints, test data sheets, specification sheets and brochures which detail construction features, design, components, materials used, applicable dimensions and any other pertinent information which the Issuing Office may require in order to evaluate the product(s) offered. The required information must be submitted within two (2) business days after notification from the Issuing Office. Failure to submit the required information prior to the expiration of the second business day after notification shall result in the rejection of the bid as non-responsive.

II.3 II-IFB-018.1b Iran Free Procurement Certification and Disclosure – Electronic Submittal (November 2016)

Prior to entering a contract worth at least $1,000,000 or more with a Commonwealth entity, a bidder must: a) certify it is not on the current list of persons engaged in investment activities in Iran created by the Pennsylvania Department of General Services ("DGS") pursuant to Section 3503 of the Procurement Code and is eligible to contract with the Commonwealth under Sections 3501-3506 of the Procurement Code; or b) demonstrate it has received an exception from the certification requirement for that solicitation or contract pursuant to Section 3503(e). All bidders must complete and return the Iran Free Procurement Certification form, which is attached hereto and made part of this IFB. The completed and signed Iran Free Procurement Certification form must be submitted with the Bid Response.

See the following web page for current Iran Free Procurement list:

http://www.dgs.pa.gov/businesses/materials%20and%20services%20procurement/procurement-resources/pages/default.aspx#.WDNfJJ

PART III - SELECTION CRITERIA

PART III - SELECTION CRITERIA

III.1 III-IFB-001.1a Mandatory Responsiveness Requirements (Oct 2006)

To be eligible for selection, a bid must be:

a. Timely received from a Bidder;

b. Properly signed by the Bidder.

III.2 III-IFB-006.1a Method of Award (February 2012)

It is the intent of the Commonwealth to make a single award of item(s) listed in the IFB to the lowest responsive and responsible bidder. The Commonwealth reserves the right to award by line item if it determines that it is in the best interest of the Commonwealth to do so.

III.3 III-IFB-007.1 Awards (May 2011)

Unless all Bids are rejected, and except as otherwise provided by law, award will be made through the issuance of a contract/purchase order in accordance with the method of award. Unless otherwise specified by the Issuing Office in the IFB form the Commonwealth reserves the right to award by item or on a total Bid basis, whichever is deemed more advantageous to the Commonwealth. In cases of discrepancies in prices, the unit price will be binding unless the unit price is obviously in error and the extended price is obviously correct, in which case the erroneous unit price will be corrected. As a condition for receipt of award of a contract/purchase order, the Bidder must be registered in the Commonwealth of Pennsylvania's Vendor Master file. In order to register, bidders must visit the Pa Supplier Portal at https://www.pasupplierportal.state.pa.us/ or call the Customer Support Center at 877-435-7363 or 717-346-2676.

III.4 III-IFB-008.1 Tie Bids (Nov 2006)

All tie bids will be broken by the Issuing Office.

III.5 III-IFB-009.1 Prompt Payment Discounts (Nov 2006)

Prompt payment discounts will not be considered in making an award. If prompt payment discounts are offered by any Bidder, however, the Issuing Office will take advantage of such offer.

III.6 III-IFB-010.1 Option for Separate Competitive Bidding Procedure (Nov 2006)

The Commonwealth reserves the right to purchase products or services covered under this Contract through a separate competitive bidding procedure, whenever Commonwealth deems it in the best interest of the Commonwealth. The right will generally be exercised only when a specific need for a large quantity of the product or service exists or when the price offered is significantly lower than the Contract price.

PART IV - WORK STATEMENT

PART IV - WORK STATEMENT

IV.1 IV-IFB-001.1c Specifications and Statement of Work – Construction (Nov 2006)

The Commonwealth is seeking bids to procure the materials and services set forth in the attached document entitled "Specifications and Statement of Work."

PART V - CONTRACT TERMS and CONDITIONS

PART V - CONTRACT TERMS and CONDITIONS

V.1 CONTRACT-001.1b Contract Terms and Conditions (Nov 30, 2006)

The Contract with the awarded bidder (who shall become the "Contractor") shall include the following terms and conditions:

V.2 CONTRACT-002.1b Term of Contract – PO (July 2015)

The term of the Contract created by the issuance of the Purchase Order shall commence on the Original PO Effective Date printed on the Purchase Order after the Purchase Order has been fully executed by the Commonwealth (signed and approved as required by Commonwealth contracting procedures and sent to the Contractor). If the Purchase Order output form does not have “Fully Executed” at the top of the first page and does not have the name of the Purchasing Agent printed in the appropriate box, the Purchase Order has not been fully executed. Subject to the other provisions of the Contract, the Contract shall end on the later of: a) complete delivery and acceptance of the awarded item(s); b) the expiration of any specified warranty and maintenance period; c) payment by the Commonwealth for the item(s) received; or d) any Expiration Date identified in the Purchase Order.

V.3 CONTRACT-002.2b Renewal of Contract Term – Mutual (Oct 2013)

The Contract may be mutually renewed for a maximum of 0 additional 0 year term(s), so long as the Commonwealth provides written notice to Contractor of its intention to extend the Contract by letter dated not less than 090 days prior to the expiration of the term of the agreement, or any extension thereof, and the Contractor consents to the renewal not less than 060 days prior to the expiration of the term of the agreement or any extension thereof. The renewal may be exercised as individual or multiple year terms(s). Any renewal will be under the same terms, covenants and conditions. No further document is required to be executed to renew the term of the contract.

V.4 CONTRACT-002.3 Extension of Contract Term (Nov 30 2006)

The Commonwealth reserves the right, upon notice to the Contractor, to extend any single term of the Contract for up to three (3) months upon the same terms and conditions.

V.5 CONTRACT-003.1c Signatures - PO (July 2015)

The Contract shall not be a legally binding contract until the fully-executed Purchase Order has been sent to the Contractor. No Commonwealth employee has the authority to verbally direct the commencement of any work or delivery of any supply under this Purchase Order prior to the Original PO Effective Date. The Contractor hereby waives any claim or cause of action for any service or work performed prior to the Original PO Effective Date.

The Purchase Order may be electronically signed by the Commonwealth. The electronically-printed name of the Purchasing Agent, or in the case of an Auto-Purchase Order the name of the Centralized Purchasing Group, represents the signature of that individual(s) who has the authority, on behalf of the Commonwealth, to bind the Commonwealth to the terms of the Contract. If the Purchase Order output form does not have “Fully Executed” at the top of the first page and does not have the name of the Purchasing Agent, or in the case of an Auto-Purchase Order the name of the Centralized Purchasing Group, printed in the appropriate box, the Contract has not been fully executed.

The fully-executed Purchase Order may be sent to the Contractor electronically or through facsimile equipment. The electronic transmission of a Purchase Order shall require acknowledgement of receipt of the transmission by the Contractor. Receipt of the electronic or facsimile transmission of the Purchase Order shall constitute receipt of the fully-executed Purchase Order.

The Commonwealth and the Contractor specifically agree as follows:

a. No handwritten signature shall be required in order for the Purchase Order to be legally enforceable.

b. The parties agree that no writing shall be required in order to make the Purchase Order legally binding, notwithstanding contrary requirements in any law. The parties hereby agree not to contest the validity or enforceability of a genuine Purchase Order or acknowledgement issued electronically under the provisions of a statute of frauds or any other applicable law relating to whether certain agreements be in writing and signed by the party bound thereby. Any genuine Purchase Order or acknowledgement issued electronically, if introduced as evidence on paper in any judicial, arbitration, mediation, or administrative proceedings, will be admissible as between the parties to the same extent and under the same conditions as other business records originated and maintained in documentary form. Neither party shall contest the admissibility of copies of a genuine Purchase Order or acknowledgements under either the business records exception to the hearsay rule or the best evidence rule on the basis that the Purchase Order or acknowledgement were not in writing or signed by the parties. A Purchase Order or acknowledgment shall be deemed to be genuine for all purposes if it is transmitted to the location designated for such documents.

c. Each party will immediately take steps to verify any document that appears to be obviously garbled in transmission or improperly formatted to include re-transmission of any such document if necessary.

V.6 CONTRACT-004.1a Definitions (Oct 2013)

As used in this Contract, these words shall have the following meanings:

a. Agency: The department, board, commission or other agency of the Commonwealth of Pennsylvania listed as the Purchasing Agency. If a COSTARS entity or external procurement activity has issued an order against this contract, that entity shall also be identified as "Agency".

b. Contracting Officer: The person authorized to administer this Contract for the Commonwealth and to make written determinations with respect to the Contract.

c. Days: Unless specifically indicated otherwise, days mean calendar days.

d. Developed Works or Developed Materials: All documents, sketches, drawings, designs, works, papers, files, reports, computer programs, computer documentation, data, records, software, samples or any other tangible material without limitation authored or prepared by Contractor as the work product covered in the scope of work for the Project.

e. Documentation: All materials required to support and convey information about the services required by this Contract. It includes, but is not necessarily restricted to, written reports and analyses, diagrams, maps, logical and physical designs, system designs, computer programs, flow charts, disks, and/or other machine-readable storage media.

f. Services: All Contractor activity necessary to satisfy the Contract.

V.7 CONTRACT-004.2 Defintions (February 2024)

Capitalized terms used in these Commonwealth standard terms and conditions that are not otherwise defined in these provisions have the meanings specified in the contract to which it is attached.

V.8 CONTRACT-006.1 Independent Prime Contractor (Oct 2006)

In performing its obligations under the Contract, the Contractor will act as an independent contractor and not as an employee or agent of the Commonwealth. The Contractor will be responsible for all services in this Contract whether or not Contractor provides them directly. Further, the Contractor is the sole point of contact with regard to all contractual matters, including payment of any and all charges resulting from the Contract.

V.9 CONTRACT-008.1a Warranty. (Oct 2006)

The Contractor warrants that all items furnished and all services performed by the Contractor, its agents and subcontractors shall be free and clear of any defects in workmanship or materials. Unless otherwise stated in the

Contract, all items are warranted for a period of one year following delivery by the Contractor and acceptance by the Commonwealth. The Contractor shall repair, replace or otherwise correct any problem with the delivered item. When an item is replaced, it shall be replaced with an item of equivalent or superior quality without any additional cost to the Commonwealth.

V.10 CONTRACT-009.1c Patent, Copyright, and Trademark Indemnity (Oct 2013)

The Contractor warrants that it is the sole owner or author of, or has entered into a suitable legal agreement concerning either: a) the design of any product or process provided or used in the performance of the Contract which is covered by a patent, copyright, or trademark registration or other right duly authorized by state or federal law or b) any copyrighted matter in any report, document or other material provided to the Commonwealth under the contract.

The Contractor shall defend any suit or proceeding brought against the Commonwealth on account of any alleged patent, copyright or trademark infringement in the United States of any of the products provided or used in the performance of the Contract.

This is upon condition that the Commonwealth shall provide prompt notification in writing of such suit or proceeding; full right, authorization and opportunity to conduct the defense thereof; and full information and all reasonable cooperation for the defense of same.

As principles of governmental or public law are involved, the Commonwealth may participate in or choose to conduct, in its sole discretion, the defense of any such action.

If information and assistance are furnished by the Commonwealth at the Contractor's written request, it shall be at the Contractor's expense, but the responsibility for such expense shall be only that within the Contractor's written authorization.

The Contractor shall indemnify and hold the Commonwealth harmless from all damages, costs, and expenses, including attorney's fees that the Contractor or the Commonwealth may pay or incur by reason of any infringement or violation of the rights occurring to any holder of copyright, trademark, or patent interests and rights in any products provided or used in the performance of the Contract.

If any of the products provided by the Contractor in such suit or proceeding are held to constitute infringement and the use is enjoined, the Contractor shall, at its own expense and at its option, either procure the right to continue use of such infringement products, replace them with non-infringement equal performance products or modify them so that they are no longer infringing.

If the Contractor is unable to do any of the preceding, the Contractor agrees to remove all the equipment or software which are obtained contemporaneously with the infringing product, or, at the option of the Commonwealth, only those items of equipment or software which are held to be infringing, and to pay the Commonwealth: 1) any amounts paid by the Commonwealth towards the purchase of the product, less straight line depreciation; 2) any license fee paid by the Commonwealth for the use of any software, less an amount for the period of usage; and 3) the pro rata portion of any maintenance fee representing the time remaining in any period of maintenance paid for. The obligations of the Contractor under this paragraph continue without time limit. No costs or expenses shall be incurred for the account of the Contractor without its written consent.

V.11 CONTRACT-009.1d Ownership Rights (Oct 2006)

The Commonwealth shall have unrestricted authority to reproduce, distribute, and use any submitted report, data, or material, and any software or modifications and any associated documentation that is designed or developed and delivered to the Commonwealth as part of the performance of the Contract.

V.12 CONTRACT-010.2 Product Conformance (March 2012)

The Commonwealth reserves the right to require any and all Contractors to:

1. Provide certified data from laboratory testing performed by the Contractor, or performed by an independent laboratory, as specified by the Commonwealth.

2. Supply published manufacturer product documentation.

3. Permit a Commonwealth representative to witness testing at the Contractor's location or at an independent laboratory.

4. Complete a survey/questionnaire relating to the bid requirements and specifications.

5. Provide customer references.

6. Provide a product demonstration at a location near Harrisburg or the using agency location.

V.13 CONTRACT-010.3 Rejected Material Not Considered Abandoned (March 2012)

The Commonwealth shall have the right to not regard any rejected material as abandoned and to demand that the Contractor remove the rejected material from the premises within thirty (30) days of notification. The Contractor shall be responsible for removal of the rejected material as well as proper clean-up. If the Contractor fails or refuses to remove the rejected material as demanded by the Commonwealth, the Commonwealth may seek payment from, or set-off from any payments due to the Contractor under this or any other Contract with the Commonwealth, the costs of removal and clean-up. This is in addition to all other rights to recover costs incurred by the Commonwealth.

V.14 CONTRACT-011.1a Compliance With Law (Oct 2006)

The Contractor shall comply with all applicable federal and state laws and regulations and local ordinances in the performance of the Contract.

V.15 CONTRACT-013.1 Environmental Provisions (Oct 2006)

In the performance of the Contract, the Contractor shall minimize pollution and shall strictly comply with all applicable environmental laws and regulations, including, but not limited to: the Clean Streams Law Act of June 22, 1937 (P.L. 1987, No. 394), as amended 35 P.S. Section 691.601 et seq.; the Pennsylvania Solid Waste Management Act, Act of July 7, 1980 (P.L. 380, No. 97), as amended, 35 P.S. Section 6018.101 et seq. ; and the Dam Safety and Encroachment Act, Act of November 26, 1978 (P.L. 1375, No. 325), as amended , 32 P.S. Section 693.1.

V.16 CONTRACT-014.1 Post-Consumer Recycled Content (June 2016)

Except as specifically waived by the Department of General Services in writing, any products which are provided to the Commonwealth as a part of the performance of the Contract must meet the minimum percentage levels for total recycled content as specified by the Environmental Protection Agency in its Comprehensive Procurement Guidelines, which can be found at https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program .

V.17 CONTRACT-014.3 Recycled Content Enforcement (February 2012)

The Contractor may be required, after delivery of the Contract item(s), to provide the Commonwealth with documentary evidence that the item(s) was in fact produced with the required minimum percentage of post-consumer and recovered material content.

V.18 CONTRACT-016.2 Automated Clearing House (ACH) Payments (February 2024)

a. **Payment Method.** The Commonwealth shall make contract payments through the Automated Clearing House (ACH). Within 10 days of award of the contract or purchase order, the Contractor must submit or must have submitted its ACH information within its user profile in the Commonwealth's procurement system (SRM).

b. **Unique Identifier.** The Contractor must submit a unique invoice number with each invoice submitted. The Commonwealth shall list the Contractor's unique invoice number on its ACH remittance advice to enable the Contractor to properly apply the state agency's payment to the invoice submitted.

c. **ACH Information in SRM**. The Contractor shall ensure that the ACH information contained in SRM is accurate and complete. The Contractor's failure to maintain accurate and complete information may result in delays in payments.

V.19 CONTRACT-017.1 Taxes (Dec 5 2006)

The Commonwealth is exempt from all excise taxes imposed by the Internal Revenue Service and has accordingly registered with the Internal Revenue Service to make tax free purchases under Registration No. 23-23740001-K. With the exception of purchases of the following items, no exemption certificates are required and none will be issued: undyed diesel fuel, tires, trucks, gas guzzler emergency vehicles, and sports fishing equipment. The Commonwealth is also exempt from Pennsylvania state sales tax, local sales tax, public transportation assistance taxes and fees and vehicle rental tax. The Department of Revenue regulations provide that exemption certificates are not required for sales made to governmental entities and none will be issued. Nothing in this paragraph is meant to exempt a construction contractor from the payment of any of these taxes or fees which are required to be paid with respect to the purchase, use, rental, or lease of tangible personal property or taxable services used or transferred in connection with the performance of a construction contract.

V.20 CONTRACT-018.1 Assignment of Antitrust Claims (Oct 2006)

The Contractor and the Commonwealth recognize that in actual economic practice, overcharges by the Contractor's suppliers resulting from violations of state or federal antitrust laws are in fact borne by the Commonwealth. As part of the consideration for the award of the Contract, and intending to be legally bound, the Contractor assigns to the Commonwealth all right, title and interest in and to any claims the Contractor now has, or may acquire, under state or federal antitrust laws relating to the products and services which are the subject of this Contract.

V.21 CONTRACT-019.1 Indemnification (February 2024)

a. **Contractor Obligations.** The Contractor shall indemnify the Commonwealth against all third-party claims, suits, demands, losses, damages, costs, and expenses, including without limitation, litigation expenses, attorneys' fees, and liabilities, arising out of or in connection with any activities performed by the Contractor or its employees and agents that are related to this contract, as determined by the Commonwealth in its sole discretion.

b. **Commonwealth Attorneys Act.** The Commonwealth shall provide the Contractor with prompt notice of any claim or suit of which it learns. Pursuant to the Commonwealth Attorneys Act (71 P.S. Section 732-101, et seq.), the Office of Attorney General (OAG) has the sole authority to represent the Commonwealth in actions brought against the Commonwealth. The OAG may, however, in its sole discretion and under any terms as it deems appropriate, delegate its right of defense. If OAG delegates the defense to the Contractor, the Commonwealth will cooperate with all reasonable requests of Contractor made in the defense of such suits.

c. **Settlement.** Notwithstanding the above, neither party may enter into a settlement of any claim or suit without the other party's written consent, which will not be unreasonably withheld. The Commonwealth may, in its sole discretion, allow the Contractor to control the defense and any related settlement negotiations.

V.22 CONTRACT-020.1 Audit Provisions (Oct 2006)

The Commonwealth shall have the right, at reasonable times and at a site designated by the Commonwealth, to audit the books, documents and records of the Contractor to the extent that the books, documents and records relate to costs or pricing data for the Contract. The Contractor agrees to maintain records which will support the prices charged and costs incurred for the Contract. The Contractor shall preserve books, documents, and records that relate to costs or pricing data for the Contract for a period of three (3) years from date of final payment. The Contractor shall give full and free access to all records to the Commonwealth and/or their authorized representatives.

V.23 CONTRACT-021.1 Default (Oct 2013)

a. The Commonwealth may, subject to the Force Majeure provisions of this Contract, and in addition to its other rights under the Contract, declare the Contractor in default by written notice thereof to the Contractor, and terminate (as provided in the Termination Provisions of this Contract) the whole or any part of this Contract or any Purchase Order for any of the following reasons:

1) Failure to begin work within the time specified in the Contract or Purchase Order or as otherwise specified;

2) Failure to perform the work with sufficient labor, equipment, or material to ensure the completion of the specified work in accordance with the Contract or Purchase Order terms;

3) Unsatisfactory performance of the work;

4) Failure to deliver the awarded item(s) within the time specified in the Contract or Purchase Order or as otherwise specified;

5) Improper delivery;

6) Failure to provide an item(s) which is in conformance with the specifications referenced in the Contract or Purchase Order;

7) Delivery of a defective item;

8) Failure or refusal to remove material, or remove and replace any work rejected as defective or unsatisfactory;

9) Discontinuance of work without approval;

10) Failure to resume work, which has been discontinued, within a reasonable time after notice to do so;

11) Insolvency or bankruptcy;

12) Assignment made for the benefit of creditors;

13) Failure or refusal within 10 days after written notice by the Contracting Officer, to make payment or show cause why payment should not be made, of any amounts due for materials furnished, labor supplied or performed, for equipment rentals, or for utility services rendered;

14) Failure to protect, to repair, or to make good any damage or injury to property;

15) Breach of any provision of the Contract;

16) Failure to comply with representations made in the Contractor's bid/proposal; or

17) Failure to comply with applicable industry standards, customs, and practice.

b. In the event that the Commonwealth terminates this Contract or any Purchase Order in whole or in part as provided in Subparagraph a. above, the Commonwealth may procure, upon such terms and in such manner as it determines, items similar or identical to those so terminated, and the Contractor shall be liable to the Commonwealth for any reasonable excess costs for such similar or identical items included within the terminated

part of the Contract or Purchase Order.

c. If the Contract or a Purchase Order is terminated as provided in Subparagraph a. above, the Commonwealth, in addition to any other rights provided in this paragraph, may require the Contractor to transfer title and deliver immediately to the Commonwealth in the manner and to the extent directed by the Contracting Officer, such partially completed items, including, where applicable, reports, working papers and other documentation, as the Contractor has specifically produced or specifically acquired for the performance of such part of the Contract or Purchase Order as has been terminated. Except as provided below, payment for completed work accepted by the Commonwealth shall be at the Contract price. Except as provided below, payment for partially completed items including, where applicable, reports and working papers, delivered to and accepted by the Commonwealth shall be in an amount agreed upon by the Contractor and Contracting Officer. The Commonwealth may withhold from amounts otherwise due the Contractor for such completed or partially completed works, such sum as the Contracting Officer determines to be necessary to protect the Commonwealth against loss.

d. The rights and remedies of the Commonwealth provided in this paragraph shall not be exclusive and are in addition to any other rights and remedies provided by law or under this Contract.

e. The Commonwealth's failure to exercise any rights or remedies provided in this paragraph shall not be construed to be a waiver by the Commonwealth of its rights and remedies in regard to the event of default or any succeeding event of default.

f. Following exhaustion of the Contractor's administrative remedies as set forth in the Contract Controversies Provision of the Contract, the Contractor's exclusive remedy shall be to seek damages in the Board of Claims.

V.24 CONTRACT-022.1 Force Majeure (Oct 2006)

Neither party will incur any liability to the other if its performance of any obligation under this Contract is prevented or delayed by causes beyond its control and without the fault or negligence of either party. Causes beyond a party's control may include, but aren't limited to, acts of God or war, changes in controlling law, regulations, orders or the requirements of any governmental entity, severe weather conditions, civil disorders, natural disasters, fire, epidemics and quarantines, general strikes throughout the trade, and freight embargoes.

The Contractor shall notify the Commonwealth orally within five (5) days and in writing within ten (10) days of the date on which the Contractor becomes aware, or should have reasonably become aware, that such cause would prevent or delay its performance. Such notification shall (i) describe fully such cause(s) and its effect on performance, (ii) state whether performance under the contract is prevented or delayed and (iii) if performance is delayed, state a reasonable estimate of the duration of the delay. The Contractor shall have the burden of proving that such cause(s) delayed or prevented its performance despite its diligent efforts to perform and shall produce such supporting documentation as the Commonwealth may reasonably request. After receipt of such notification, the Commonwealth may elect to cancel the Contract, cancel the Purchase Order, or to extend the time for performance as reasonably necessary to compensate for the Contractor's delay.

In the event of a declared emergency by competent governmental authorities, the Commonwealth by notice to the Contractor, may suspend all or a portion of the Contract or Purchase Order.

V.25 CONTRACT-023.1a Termination Provisions (Oct 2013)

The Commonwealth has the right to terminate this Contract or any Purchase Order for any of the following reasons. Termination shall be effective upon written notice to the Contractor.

a. **TERMINATION FOR CONVENIENCE**: The Commonwealth shall have the right to terminate the Contract or a Purchase Order for its convenience if the Commonwealth determines termination to be in its best interest. The Contractor shall be paid for work satisfactorily completed prior to the effective date of the termination, but in no event shall the Contractor be entitled to recover loss of profits.

b. **NON-APPROPRIATION**: The Commonwealth's obligation to make payments during any Commonwealth fiscal year succeeding the current fiscal year shall be subject to availability and appropriation of funds. When funds

(state and/or federal) are not appropriated or otherwise made available to support continuation of performance in a subsequent fiscal year period, the Commonwealth shall have the right to terminate the Contract or a Purchase Order. The Contractor shall be reimbursed for the reasonable value of any nonrecurring costs incurred but not amortized in the price of the supplies or services delivered under the Contract. Such reimbursement shall not include loss of profit, loss of use of money, or administrative or overhead costs. The reimbursement amount may be paid from any appropriations available for that purpose.

c. **TERMINATION FOR CAUSE**: The Commonwealth shall have the right to terminate the Contract or a Purchase Order for Contractor default under the Default Clause upon written notice to the Contractor. The Commonwealth shall also have the right, upon written notice to the Contractor, to terminate the Contract or a Purchase Order for other cause as specified in the Contract or by law. If it is later determined that the Commonwealth erred in terminating the Contract or a Purchase Order for cause, then, at the Commonwealth's discretion, the Contract or Purchase Order shall be deemed to have been terminated for convenience under the Subparagraph a.

V.26 CONTRACT-024.1 Contract Controversies (Oct 2011)

a. In the event of a controversy or claim arising from the Contract, the Contractor must, within six months after the cause of action accrues, file a written claim with the contracting officer for a determination. The claim shall state all grounds upon which the Contractor asserts a controversy exists. If the Contractor fails to file a claim or files an untimely claim, the Contractor is deemed to have waived its right to assert a claim in any forum. At the time the claim is filed, or within sixty (60) days thereafter, either party may request mediation through the Commonwealth Office of General Counsel Dispute Resolution Program.

b. If the Contractor or the contracting officer requests mediation and the other party agrees, the contracting officer shall promptly make arrangements for mediation. Mediation shall be scheduled so as to not delay the issuance of the final determination beyond the required 120 days after receipt of the claim if mediation is unsuccessful. If mediation is not agreed to or if resolution is not reached through mediation, the contracting officer shall review timely-filed claims and issue a final determination, in writing, regarding the claim. The final determination shall be issued within 120 days of the receipt of the claim, unless extended by consent of the contracting officer and the Contractor. The contracting officer shall send his/her written determination to the Contractor. If the contracting officer fails to issue a final determination within the 120 days (unless extended by consent of the parties), the claim shall be deemed denied. The contracting officer's determination shall be the final order of the purchasing agency.

c. Within fifteen (15) days of the mailing date of the determination denying a claim or within 135 days of filing a claim if, no extension is agreed to by the parties, whichever occurs first, the Contractor may file a statement of claim with the Commonwealth Board of Claims. Pending a final judicial resolution of a controversy or claim, the Contractor shall proceed diligently with the performance of the Contract in a manner consistent with the determination of the contracting officer and the Commonwealth shall compensate the Contractor pursuant to the terms of the Contract.

V.27 CONTRACT-025.1 Assignability and Subcontracting (Oct 2013)

a. Subject to the terms and conditions of this paragraph, this Contract shall be binding upon the parties and their respective successors and assigns.

b. The Contractor shall not subcontract with any person or entity to perform all or any part of the work to be performed under this Contract without the prior written consent of the Contracting Officer, which consent may be withheld at the sole and absolute discretion of the Contracting Officer.

c. The Contractor may not assign, in whole or in part, this Contract or its rights, duties, obligations, or responsibilities hereunder without the prior written consent of the Contracting Officer, which consent may be withheld at the sole and absolute discretion of the Contracting Officer.

d. Notwithstanding the foregoing, the Contractor may, without the consent of the Contracting Officer, assign

its rights to payment to be received under the Contract, provided that the Contractor provides written notice of such assignment to the Contracting Officer together with a written acknowledgement from the assignee that any such payments are subject to all of the terms and conditions of this Contract.

e. For the purposes of this Contract, the term "assign" shall include, but shall not be limited to, the sale, gift, assignment, pledge, or other transfer of any ownership interest in the Contractor provided, however, that the term shall not apply to the sale or other transfer of stock of a publicly traded company.

f . Any assignment consented to by the Contracting Officer shall be evidenced by a written assignment agreement executed by the Contractor and its assignee in which the assignee agrees to be legally bound by all of the terms and conditions of the Contract and to assume the duties, obligations, and responsibilities being assigned.

g. A change of name by the Contractor, following which the Contractor's federal identification number remains unchanged, shall not be considered to be an assignment hereunder. The Contractor shall give the Contracting Officer written notice of any such change of name.

V.28 CONTRACT-026.1 Other Contractors (Oct 2006)

The Commonwealth may undertake or award other contracts for additional or related work, and the Contractor shall fully cooperate with other contractors and Commonwealth employees, and coordinate its work with such additional work as may be required. The Contractor shall not commit or permit any act that will interfere with the performance of work by any other contractor or by Commonwealth employees. This paragraph shall be included in the Contracts of all contractors with which this Contractor will be required to cooperate. The Commonwealth shall equitably enforce this paragraph as to all contractors to prevent the imposition of unreasonable burdens on any contractor.

V.29 CONTRACT-027.1 Nondiscrimination/Sexual Harassment (February 2024)

a. **Representations.** The Contractor represents that it is presently in compliance with and will remain in compliance with all applicable federal, state, and local laws, regulations, and policies relating to nondiscrimination and sexual harassment for the term of the contract. The Contractor shall, upon request and within the time periods requested by the Commonwealth, furnish all necessary employment documents and records, including EEO-1 reports, and permit access to its books, records, and accounts by the Commonwealth for the purpose of ascertaining compliance with provisions of this Nondiscrimination/Sexual Harassment Clause.

b. **Nondiscrimination/Sexual Harassment Obligations.** The Contractor shall not:

i. in any manner discriminate in the hiring of any employee(s) for the manufacture of supplies, performance of work, or any other activity required under this contract or any subcontract, by reason of race, gender, creed, color, sexual orientation, gender identity or expression, or in violation of the Pennsylvania Human Relations Act (“PHRA”) and applicable federal laws, against any citizen of this Commonwealth who is qualified and available to perform the work to which the employment relates.

ii. in any manner discriminate by reason of race, gender, creed, color, sexual orientation, gender identity or expression, or in violation of the PHRA and applicable federal laws, against or intimidate any employee involved in the manufacture of supplies, the performance of work, or any other activity required under this contract.

iii. in any manner discriminate by reason of race, gender, creed, color, sexual orientation, gender identity or expression, or in violation of the PHRA and applicable federal laws, in the provision of services under this contract.

iv. in any manner discriminate by reason of race, gender, creed, color, sexual orientation, gender identity or expression, or in violation of PHRA and applicable federal laws, against any subcontractor or supplier who is qualified to perform the work to which this contract relates.

v. in any manner discriminate against employees by reason of participation in or decision to refrain from participating in labor activities protected under the Public Employee Relations Act, Pennsylvania Labor Relations Act or National Labor Relations Act, as applicable and to the extent determined by entities charged with such Acts' enforcement and shall comply with any provision of law establishing organizations as employees' exclusive representatives.

c. **Establishment of Contractor Policy**. The Contractor shall establish and maintain a written nondiscrimination and sexual harassment policy that complies with the applicable law and these Nondiscrimination/Sexual Harassment provisions and shall inform its employees in writing of the policy. The policy must contain a provision that states that sexual harassment will not be tolerated and employees who practice it will be disciplined. For the entire period of the contract, the Contractor shall: (1) post its written nondiscrimination and sexual harassment policy or these Nondiscrimination/Sexual Harassment provisions conspicuously in easily accessible and well-lighted places customarily frequented by employees at or near where the contracted services are performed; or (2) provide electronic notice of the policy or this clause to its employees not less than annually.

d. **Notification of Violations**. The Contractor's obligations pursuant to these provisions are ongoing from the effective date and through the termination date of the contract. Accordingly, the Contractor shall notify the Commonwealth if, at any time during the term of this contract, it becomes aware of any actions or occurrences that would result in violation of these provisions.

e. **Cancellation or Termination of Contract**. The Commonwealth may cancel or terminate this contract and all money due or to become due under this contract may be forfeited for a violation of the terms and conditions of these Nondiscrimination/Sexual Harassment provisions. In addition, the agency may proceed with debarment or suspension and may place the Contractor in the Contractor Responsibility File.

f. **Subcontracts**. The Contractor shall include these Nondiscrimination/Sexual Harassment provisions in its contracts with all subcontractors providing goods or services under this contract. The incorporation of these provisions in the Contractor's subcontracts does not create privity of contract between the Commonwealth and any subcontractor, and no third-party beneficiaries are created by those provisions. If the Contractor becomes aware of a subcontractor's violation of this clause, the Contractor shall use its best efforts to ensure the subcontractor's compliance with these provisions.

V.30 CONTRACT-028.1 Contractor Integrity (February 2024)

a. **Definitions**. For purposes of these Contractor Integrity Provisions, the following definitions apply:

i. "Affiliate" means two or more entities where (a) a parent entity owns more than 50% of the voting stock of each of the entities; (b) a common shareholder or group of shareholders owns more than 50% of the voting stock of each of the entities; or (c) the entities have a common proprietor or general partner.

ii. "Contractor" means the individual or entity, that has entered into this contract with the Commonwealth.

iii. "Contractor Related Parties" means any Affiliates of the Contractor and the Contractor's executive officers, Pennsylvania officers and directors, or owners of five percent or more interest in the Contractor.

iv. "Financial Interest" means ownership of more than a five percent interest in any business or holding a position as an officer, director, trustee, partner, employee, or holding any position of management.

v. "Gratuity" means tendering, giving, or providing anything of more than nominal monetary value including, but not limited to, cash, travel, entertainment, gifts, meals, lodging, loans, subscriptions, advances, deposits of money, services, employment, or contracts of any kind. The exceptions set forth in the Governor's Code of Conduct, Executive Order 1980-18, as may be amended, 4 Pa. Code §7.153(b), apply.

vi. "Non-bid Basis" means a contract awarded or executed by the Commonwealth with Contractor without seeking bids or proposals from any other potential bidder or offeror.

b. **Representations and Warranties.**

i. Contractor Representation and Warranties. The Contractor represents, to the best of its knowledge and belief, and warrants that within the last five years neither the Contractor nor Contractor Related Parties have:

1. been indicted or convicted of a crime involving moral turpitude or business honesty or integrity in any jurisdiction;
2. been suspended, debarred, or otherwise disqualified from entering into any contract with any governmental agency;
3. had any business license or professional license suspended or revoked;
4. had any sanction or finding of fact imposed as a result of a judicial or administrative proceeding related to fraud, extortion, bribery, bid rigging, embezzlement, misrepresentation or anti-trust; and
5. been, and are not currently, the subject of a criminal investigation by any federal, state or local prosecuting or investigative agency or civil anti-trust investigation by any federal, state, or local prosecuting or investigative agency.

ii. Contractor Explanation. If the Contractor cannot make the representations and warranties set forth above at the time of its submission of its bid or proposal or if this contract is awarded on a non-bid basis at the time of the execution of the contract, the Contractor shall submit a written explanation outlining the reasons why it cannot make those representations and warranties. The Commonwealth may, based on its evaluation of the explanation provided, determine whether it is in the Commonwealth's best interest to execute the contract.

iii. Further Representations. By submitting any bills, invoices, or requests for payment pursuant to this contract, the Contractor further represents that it has not violated any of these Contractor Integrity Provisions during the term of the contract.

iv. Notice. The Contractor shall immediately notify the Commonwealth, in writing, if at any time during the term of the contract it becomes aware of any event that would cause the Contractor's certification or explanation to change. The Contractor acknowledges that the Commonwealth may, in its sole discretion, terminate the contract for cause if it learns that any of the certifications made in these provisions are currently false or misleading due to intervening factual circumstances or were false or misleading or should have been known to be false or misleading when entering into the contract.

c. **Contractor Responsibilities**. During the term of this contract, the Contractor shall:

i. maintain the highest standards of honesty and integrity.

ii. take no action in violation of any applicable laws, regulations, or other requirements applicable to the Contractor that govern Commonwealth contracting and procurement.

iii. establish and implement a written business integrity policy that includes, at a minimum, the requirements of these provisions as they relate to the Contractor's activity with the Commonwealth and Commonwealth employees and ensure that its employees comply with the policy.

iv. not accept, agree to give, offer, confer, agree to confer, or promise to confer, directly or indirectly, any gratuity or pecuniary benefit to any person, or to influence or attempt to influence any person in violation of any federal or state law, regulation, executive order, statement of policy, management directive, or bulletin applicable to the provision of goods or services under this contract.

v. not have a financial interest in any other contractor, subcontractor, or supplier providing services, labor, or material under this contract, unless the financial interest is disclosed to the Commonwealth in writing and the Commonwealth consents to Contractor's financial interest. The Contractor must disclose the financial interest to the Commonwealth at the time of bid or proposal submission, or if no bids or proposals are solicited, no later than the date the Contractor signs the contract. The Commonwealth shall be deemed to have consented if the required disclosure is received and all of the required Commonwealth signatures are affixed.

vi. comply with the requirements of the Lobbying Disclosure Act (65 Pa.C.S. §13A01 et seq.) regardless of the method of award.

vii. comply with the requirements of Section 1641 of the Pennsylvania Election Code (25 P.S. §3260a) if this

contract was awarded on a Non-bid Basis.

viii. immediately notify the Commonwealth contracting officer or the Office of the State Inspector General, in writing, when the Contractor has reason to believe that any breach of ethical standards as set forth in law, the Governor's Code of Conduct, or these Contractor Integrity Provisions has occurred or may occur, including, but not limited to, contact by a Commonwealth officer or employee, which, if acted upon, would violate the ethical standards.

d. **Investigations.** If a State Inspector General investigation is initiated, the Contractor shall:

i. reimburse the Commonwealth for the reasonable costs of investigation incurred by the Office of the State Inspector General for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the Commonwealth that results in the suspension or debarment of the Contractor. The Contractor shall not be responsible for investigative costs for investigations that do not result in the Contractor's suspension or debarment.

ii. cooperate with the Office of the State Inspector General in its investigation of any alleged Commonwealth agency or employee breach of ethical standards and any alleged Contractor non-compliance with these Contractor Integrity Provisions and make identified Contractor employees available for interviews at reasonable times and places.

iii. upon the inquiry or request of an Inspector General, provide, or if appropriate, make promptly available for inspection or copying, any information of any type or form deemed relevant by the Office of the State Inspector General to Contractor's integrity and compliance with these provisions. This information may include, but is not limited to, Contractor's business or financial records, documents or files of any type or form that refer to or concern this contract.

e. **Termination.** For violation of any of these Contractor Integrity Provisions, the Commonwealth may terminate this and any other contract with the Contractor, claim liquidated damages in an amount equal to the value of anything received in breach of these Contractor Integrity provisions, claim damages for all additional costs and expenses incurred in obtaining another contractor to complete performance under this contract, and debar and suspend the Contractor from doing business with the Commonwealth. These rights and remedies are cumulative, and the use or non-use of any one does not preclude the use of all or any other. These rights and remedies are in addition to those the Commonwealth may have under law, statute, regulation, or contract.

f. **Subcontracts**. The Contractor shall include these Contractor Integrity Provisions in its contracts with all subcontractors providing goods or services under this contract. The incorporation of this provision in the Contractor's subcontracts does not create privity of contract between the Commonwealth and any subcontractor, and no third-party beneficiaries are created by the inclusion of these provisions. If the Contractor becomes aware of a subcontractor's violation of these provisions, the Contractor shall use its best efforts to ensure the subcontractor's compliance with these provisions.

V.31 CONTRACT-029.1 Contractor Responsibility (February 2024)

a. **Definitions.** For the purpose of these provisions, the term "Contractor" means as any person, including, but not limited to, a bidder, offeror, loan recipient, grantee or lessor, who has furnished or performed or seeks to furnish or perform, goods, supplies, services, leased space, construction or other activity, under a contract, grant, lease, purchase order or reimbursement agreement with the Commonwealth. The term also includes a permittee, licensee, or any agency, political subdivision, instrumentality, public authority, or other public entity in the Commonwealth.

b. **Contractor Representations.**

i. The Contractor represents for itself and its subcontractors required to be disclosed or approved by the Commonwealth, that as of the date of its execution of this contract, that neither the Contractor, nor any such subcontractors, are under suspension or debarment by the Commonwealth or any governmental entity, instrumentality, or authority and, if the Contractor cannot make this representation, the Contractor shall submit, along with its contract, a written explanation of why such certification cannot be made.

ii. The Contractor represents that as of the date of its execution of this contract it has no tax liabilities or other Commonwealth obligations, or has filed a timely administrative or judicial appeal if such liabilities or obligations exist, or is subject to a duly approved deferred payment plan if such liabilities exist.

c. **Notification.** The Contractor shall notify the Commonwealth if, at any time during the term of this contract, it becomes delinquent in the payment of taxes, or other Commonwealth obligations, or if it or, to the best of its knowledge, any of its subcontractors are suspended or debarred by the Commonwealth, the federal government, or any other state or governmental entity. The Contractor shall provide this notification within 15 days of the date of suspension or debarment.

d. **Default.** The Contractor's failure to notify the Commonwealth of its suspension or debarment by the Commonwealth, any other state, or the federal government constitutes an event of default of the contract with the Commonwealth.

e. **Reimbursement.** The Contractor shall reimburse the Commonwealth for the reasonable costs of investigation incurred by the Office of State Inspector General for investigations of the Contractor's compliance with the terms of this contract or any other agreement between the Contractor and the Commonwealth that results in the suspension or debarment of the Contractor. These costs include, but are not limited to, salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor shall not be responsible for investigative costs for investigations that do not result in the Contractor's suspension or debarment.

f. **Suspension and Debarment List.** The Contractor may obtain a current list of suspended and debarred Commonwealth contractors by visiting the eMarketplace website at http://www.emarketplace.state.pa.us and clicking the Debarment list tab.

V.32 CONTRACT-029.2 Offset (February 2024)

The Commonwealth may set off the amount of any state tax liability or other obligation of the Contractor, or its subsidiaries, owed to the Commonwealth against any payments due the Contractor under any contract between the Commonwealth and Contractor.

V.33 CONTRACT-030.1 Americans with Disabilities Act (February 2024)

a. **No Exclusion**. Pursuant to the Americans with Disabilities Act, 42 U.S. Code § 12101, et seq., no qualified individual with a disability may, on the basis of the disability, be excluded from participation in this contract or from activities provided for under this contract.

b. **Compliance.** For all goods and services provided pursuant to this contract, the Contractor shall comply with Title II of the Americans with Disabilities Act, the "General Prohibitions Against Discrimination" set forth in 28 C. F. R. § 35.130, and all other regulations promulgated under Title II of the Americans with Disabilities Act that apply to state and local governments.

c. **Indemnification**. The Contractor shall indemnify the Commonwealth against all third-party claims, suits, demands, losses, damages, costs, and expenses, including without limitation, litigation expenses, attorneys' fees, and liabilities, arising out of or in connection with the Contractor's failure or its employee's or agent's failure to comply with the provisions of paragraph a, as determined by the Commonwealth in its sole discretion.

V.34 CONTRACT-032.1 Covenant Against Contingent Fees (Oct 2006)

The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure the Contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty, the Commonwealth shall have the right to terminate the Contract without liability or in its discretion to deduct from the Contract price or consideration, or otherwise recover the full amount of such commission, percentage, brokerage, or contingent fee.

V.35 CONTRACT-033.1 Applicable Law and Forum (February 2024)

This contract is governed by and must be interpreted and enforced in accordance with the laws of the Commonwealth of Pennsylvania (without regard to any conflict of laws provisions) and the decisions of the Pennsylvania courts. The Contractor consents to the jurisdiction of any court of the Commonwealth of Pennsylvania and any federal courts in Pennsylvania, and waives any claim or defense that such forum is not convenient or proper. Any Pennsylvania court or tribunal has in personam jurisdiction over the Contractor, and the Contractor consents to service of process in any manner authorized by Pennsylvania law. This provision may not be interpreted as a waiver or limitation of the Commonwealth's rights or defenses.

V.36 CONTRACT- 034.1b Integration (Nov 30 2006)

This Contract, including the Invitation for Bids, the Contractor's bid, all referenced documents, and any Purchase Order constitutes the entire agreement between the parties. No agent, representative, employee or officer of either the Commonwealth or the Contractor has authority to make, or has made, any statement, agreement or representation, oral or written, in connection with the Contract, which in any way can be deemed to modify, add to or detract from, or otherwise change or alter its terms and conditions. No negotiations between the parties, nor any custom or usage, shall be permitted to modify or contradict any of the terms and conditions of the Contract. No modifications, alterations, changes, or waiver to the Contract or any of its terms shall be valid or binding unless accomplished by a written amendment signed by both parties.

V.37 CONTRACT-034.2b Order of Precedence - IFB (Dec 6 2006)

In the event there is a conflict among the documents comprising this Contract, the Commonwealth and the Contractor agree on the following order of precedence: the Contract; the IFB; and the Contractor's Bid in Response to the IFB.

V.38 CONTRACT-034.3 Controlling Terms and Conditions (Aug 2011)

The terms and conditions of this Contract shall be the exclusive terms of agreement between the Contractor and the Commonwealth. All quotations requested and received from the Contractor are for obtaining firm pricing only. Other terms and conditions or additional terms and conditions included or referenced in the Contractor's quotations, invoices, business forms, or other documentation shall not become part of the parties' agreement and shall be disregarded by the parties, unenforceable by the Contractor and not binding on the Commonwealth.

V.39 CONTRACT-035.1a Changes (Oct 2006)

The Commonwealth reserves the right to make changes at any time during the term of the Contract or any renewals or extensions thereof: 1) to increase or decrease the quantities resulting from variations between any estimated quantities in the Contract and actual quantities; 2) to make changes to the services within the scope of the Contract; 3) to notify the Contractor that the Commonwealth is exercising any Contract renewal or extension option; or 4) to modify the time of performance that does not alter the scope of the Contract to extend the completion date beyond the Expiration Date of the Contract or any renewals or extensions thereof. Any such change shall be made by the Contracting Officer by notifying the Contractor in writing. The change shall be effective as of the date of the change, unless the notification of change specifies a later effective date. Such increases, decreases, changes, or modifications will not invalidate the Contract, nor, if performance security is being furnished in conjunction with the Contract, release the security obligation. The Contractor agrees to provide the service in accordance with the change order. Any dispute by the Contractor in regard to the performance required by any notification of change shall be handled through Contract Controversies Provision.

V.40 CONTRACT-045.1 Insurance - General (Dec 12 2006)

The Contractor is required to have in place during the term of the Contract and any renewals or extensions thereof , the following types of insurance, issued by companies acceptable to the Commonwealth and authorized to conduct such business under the laws of the Commonwealth of Pennsylvania:

A. **Worker's Compensation Insurance** for all of the Contractor's employees and those of any subcontractor, engaged in work at the site of the project as required by law.

B. **Public Liability and Property Damage Insurance** to protect the Commonwealth, the Contractor, and any and all subcontractors from claims for damages for personal injury (including bodily injury), sickness or disease, accidental death and damage to property including the loss of use resulting from any property damage, which may arise from the activities performed under the Contract or the failure to perform under the Contract, whether such performance or non-performance be by the Contractor, by any subcontractor, or by anyone directly or indirectly employed by either. The minimum amounts of coverage shall be $250,000 per person and $1,000,000 per occurrence for bodily injury, including death, and $250,000 per person and $1,000,000 per occurrence for property damage. Such policies shall be occurrence rather than claims-made policies and shall not contain any endorsements or any other form designated to limit and restrict any action by the Commonwealth, as an additional insured, against the insurance coverage in regard to work performed for the Commonwealth.

Prior to commencement of the work under the Contract and at each insurance renewal date during the term of the Contract, the Contractor shall provide the Commonwealth with current certificates of insurance. These certificates or policies shall name the Commonwealth as an additional insured and shall contain a provision that the coverage's afforded under the policies will not be cancelled or changed until at least thirty (30) days written notice has been given to the Commonwealth.

The Commonwealth shall be under no obligation to obtain such certificates from the Contractor(s). Failure by the Commonwealth to obtain the certificates shall not be deemed a waiver of the Contractor's obligation to obtain and furnish certificates. The Commonwealth shall have the right to inspect the original insurance policies.

V.41 CONTRACT-048.1a Performance Security (Oct 2006)

a. The Contractor must furnish within ten (10) days after award of the purchase order the following:

(1) For purchase orders between $25,000.00 and $100,000.00, performance security in an amount equal to at least 50 percent of the purchase order price.

(2) For purchase orders in excess of $100,000, a performance bond at one hundred percent of the contract amount, conditioned upon the faithful performance of the contract in accordance with the plans, specifications and conditions of the contract. The bond shall be solely for the protection of the contracting body which awarded the contract.

b. Failure to furnish the required performance security within the required ten (10) days time frame shall be considered a failure to perform a contractual obligation which may result in termination of the purchase order and award to another supplier. In the event of termination and re-award for failure to provide performance security, the contractor shall be responsible for any increase in cost to the Commonwealth.

c. Where the Contractor does not comply with the requirements of the purchase order, the amount of the performance security shall be paid to the Commonwealth as liquidated damages for the contractor's failure to comply, or the Commonwealth may, at its sole option, sue the contractor or its surety for the damages it has suffered for any breach of contract, in which case security held by the Commonwealth shall be applied as a credit in such suit for damages.

d. For purchase orders under $25,000.00, no performance security will be required.

V.42 CONTRACT-048.3 Commencement of Work (Oct 2006)

The Contractor should not begin work until all required security and insurance certificates, if required, have been submitted to and approved by the Commonwealth. If required security and insurance certificates are not submitted within required time frames, the Commonwealth has the right to cancel this order and surcharge your company for any increase in price.

V.43 CONTRACT-050.01a Steel Products Procurement Act "A" (Oct 2009)

In the performance of any contract awarded pursuant to this invitation to bid, the contractor and all subcontractors, materialmen, and suppliers shall use only "steel products" as defined in the Steel Products Procurement Act, Act of March 3, 1978, P.L. 6, No. 3, 73 P.S. §§ 1881-1887 ("SPPA"), including products rolled, formed, shaped, drawn, extruded, forged, cast, fabricated or otherwise similarly processed, or processed by a combination of two or more of such operations, from steel made in the United States by the open hearth, basic oxygen, electric furnace, Bessemer or other steel making process. The definition of steel products also includes cast iron products, as well as machinery and equipment listed in United States Department of Commerce Standard Industrial Classification 25 (furniture and fixture), 35 (machinery, except electrical) and 37 (transportation equipment) and made of, fabricated from, or containing steel components. If a product contains both foreign and United States steel, such products shall be determined to be a United States Steel product only if at least 75% of the cost of the articles, materials and supplies have been mined, produced or manufactured, as the case may be, in the United States. Transportation equipment shall be determined to be a United States steel product only if it complies with Section 165 of Public Law 97-424 (96 Stat. 2136).

The SPPA provides that, when a contractor supplies unidentified steel products for a public agency's use as part of any Public Works Project , before a public agency may authorize, provide for, or make payment, the Contractor must provide documentation including, but not limited to, invoices, bills of lading and mill certification that the steel was melted and manufactured in the United States before a public agency may authorize, provide for, or make payment. If a steel product is identifiable on its face, the contractor must submit certification which satisfies the purchasing agency that the contractor has fully complied with this provision.

If a purchasing agency has made any payment to the Contractor and later finds that the Contractor did not comply with the SPPA's requirements, the purchasing agency may recover such payment directly from the Contractor The Contractor shall not deny repayment unless it can demonstrate that it has complied with the SPPA's requirements.

The SPPA also provides that any person who willfully violates any of its provisions shall be prohibited from submitting any bids to any public agency for a period of five years after the date of the determination that a violation has occurred. If the Contractor violates the SPPA, the public agency may debar the Contractor from performing any work or supplying any materials to a public agency for five years after the date of the determination that a violation has occurred.

The Contractor shall include these provisions regarding the SPPA's requirements in its subcontracts and supply contracts, so that the SPPA's provisions of the Act shall be binding upon each subcontractor and supplier.

V.44 CONTRACT-050.02 Prohibition Against The Use of Certain Steel and Aluminum Products (Oct 2009)

In accordance with the Trade Practices Act of July 23, 1968 P.L. 686 (71 P.S. §773.101 et seq.), the Contractor cannot and shall not use or permit to be used in the work any aluminum or steel products made in a foreign country which is listed below as a foreign country which discriminates against aluminum or steel products manufactured in Pennsylvania. The countries of Brazil , South Korea , Spain and Argentina have been found to discriminate against certain products manufactured in Pennsylvania . Therefore, the purchase or use of those countries' products, as listed below, is not permitted.

1. BRAZIL: Welded carbon steel pipes and tubes; carbon steel wire rods; tool steel; certain steel products, including hot-rolled stainless steel bar; stainless steel wire rod and cold-formed stainless steel bar; pre-stressed concrete steel wire strand; hot-rolled carbon steel plate in coil; hot-rolled carbon steel sheet and cold-rolled carbon steel sheet.

2. SPAIN: Certain stainless steel products, including stainless steel wire rod, hot-rolled stainless steel bars and cold-formed stainless steel bars; pre-stressed concrete steel wire strands; certain steel products, including hot-rolled steel plate, cold-rolled carbon steel plate, carbon steel structural shapes, galvanized carbon steel sheet, hot-rolled carbon steel bars and cold-formed carbon steel bars.

3. SOUTH KOREA : Welded carbon steel pipes and tubes hot-rolled carbon steel plate; hot-rolled carbon steel sheet and galvanized steel sheet.

4. ARGENTINA : Carbon steel wire rod and cold-rolled carbon steel sheet.

Penalties for violations of this paragraph may be found in the Trade Practices Act, which penalties include becoming ineligible for public works contracts for a period of three years.

Note: This provision in no way relieves the Contractor of its responsibility to comply with those provisions of this Agreement that prohibit the use of foreign-made steel and cast iron products.

V.45 CONTRACT-050.03 Separation for Plumbing, Heating, Ventilation and Electrical Work (Oct 2006)

The contract shall be subject to the provisions of the Act of May 1, 1913 (P.L. 155, No. 104); 71 P.S. Section 1618.

V.46 CONTRACT-050.04 Progress Payments (Oct 2006)

Based upon Applications for Payment submitted to the Agency by the Contractor, the Agency will make progress payments on account of the Price to the Contractor, as provided below.

V.47 CONTRACT-050.05 Schedule of Progress Payments (Oct 2006)

Within thirty (30) days of the Effective Date of this Agreement and prior to the first Application for Payment, the Contractor shall submit to the Agency for approval, a detailed Contract Breakdown Sheet, indicating a Schedule of Progress Payments for all work, equipment, and materials required for the acquisition and installation of the Security System (the "Work"). The total amount to be paid according to the Schedule of Progress Payments must equal the Price. The progress payments on the Schedule must be divided so as to facilitate payments to subcontractors, and be prepared in such form as specified by the Agency and supported by such data required by the Agency to substantiate its correctness. Each item in the Schedule of Progress Payments shall include its proper share of any overhead and profit. When more than one building or structure is included in a project, the contractor shall submit a Contract Breakdown Sheet, indicating Unit Prices for all items of Work within the separate buildings or structures. The Schedule of Progress Payments, when approved by the Agency, will be used as a basis for the Contractor's Application for Payments. This schedule may also be used by the Agency to determine the cost or credit to the Agency resulting from the changes in the Work.

V.48 CONTRACT-050.06 Application for Progress Payments (Oct 2006)

During the progress of the Work, in accordance with the Agreement, the Contractor shall prepare periodic estimates of the value of the Work performed and shall submit to the Agency itemized Applications for Payment. The applications shall be supported by data, as required by the Agency substantiating the Contractor's right to payment.

V.49 CONTRACT-050.07 Stored Materials (Oct 2006)

Upon the determination of the Agency as to reasonableness, payments may be made to the Contractor on account of materials or equipment not incorporated in the Work but delivered and suitably stored at the site, or at some other location agreed upon in writing. Contractor shall remain responsible for all losses of materials and equipment, which remain under its custody and control, regardless of the exclusions in the insurance policies.

Upon the determination of the Agency as to reasonableness, payments may be made to the Contractor on account of materials or equipment not incorporated in the Work but delivered and suitably stored at the site, or at some other location agreed upon in writing. Contractor shall remain responsible for all losses of materials and equipment, which remain under its custody and control, regardless of the exclusions in the insurance policies.

V.50 CONTRACT-050.08 Contractor Warrants That Title To All Work, Equipment and Materials Associated with the Security System Passes Free of Liens (Oct 2006)

The Contractor warrants and guarantees that title to all Work covered by an Application for Payment, whether incorporated in the Security System or not, will pass to the Agency upon the receipt of such payment by the Contractor, free and clear of all liens, claims, security interests or encumbrances, hereinafter referred to in these Sections as "liens"; and that no work, materials or equipment covered by an Application for Payment was acquired by the Contractor, or by any other person performing the Work at the site of furnishing materials and equipment for the Security System, subject to an agreement under which an interest therein or an encumbrance thereon is retained by the seller or otherwise imposed by the Contractor or such other person.

V.51 CONTRACT-050.09 Neither Payment Nor Occupancy Accepts Work Not in Conformance with Contract Documents (Oct 2006)

No Application for Payment, nor any progress payment, nor any partial or entire use of occupancy of the Security System by the Agency constitutes an acceptance of any Work not in accordance with the Agreement.

V.52 CONTRACT-050.10 Payments Withheld (Oct 2006)

The Agency may decline to approve an Application for Payment in whole or in part if the Work has not progressed to the point indicated, or the quality and quantity of the Work is not in accordance with the Agreement. The Agency may also decline to approve any Applications for Payment, because of subsequently discovered evidence or subsequent inspections, which may nullify the whole or any part of any Application for Payment previously issued to such extent as may be necessary in its opinion to protect the agency from loss because of:

(1) Defective work not remedied;

(2) Claims filed or reasonable evidence indicating probable filing of claims;

(3) Reasonable doubt that the work can be completed for the unpaid balance of the contract sum;

(4) Damages to another prime contractor or subcontractor;

(5) Reasonable indication that the Work will not be completed within the contract time;

(6) Unsatisfactory prosecution of the Work by the Contractor, or

(7) Failure of the Contractor to pay subcontractors or suppliers. It is within the Agency's discretion to withhold payment because of the Contractor's failure to pay subcontractors or suppliers. The failure to withhold payment for this reason does not give rise to a cause of action on the part of the subcontractor or supplier.

(8) Failure of the Contractor to maintain insurance.

The Agency will notify the Contractor of the reason for withholding payment within fifteen (15) days of its receipt of the Application for Payment.

V.53 CONTRACT-050.11 Payments Made When Grounds Are Removed (Oct 2006)

When the grounds set out in the preceding subsection are removed, payment shall be made for amounts withheld because of them.

V.54 CONTRACT-050.12 Retainage (Oct 2006)

In computing the amount payable in accordance with this Article on any current Application for Payment:

(1) Ten percent (10%) ***[six percent (6%) for the Department of General Services]*** of the then total applications for Payment shall be deducted and retained by the Agency until fifty percent (50%) of the Work called for by the Agreement has been satisfactorily completed and all Contract obligations have been met as determined by the Agency.

(2) Upon completion of fifty percent (50%) of the work called for by the Agreement, the Work having been satisfactorily completed and all Agreement obligations having been met as determined by the Agency, the retainage withheld by the Agency shall be reduced to three percent (3%) of the original Agreement sum.

V.55 CONTRACT-050.13 Money Withheld Due To Claims of One Prime Based on Delay of Another (Oct 2006)

In the event a dispute arises between the Agency and another contractor, which dispute is based upon increased costs claimed by the other contractor occasioned by delays or other actions of Contractor, additional retainage in the sum of one and one-half (1-1/2) times the amount of any possible liability may be withheld from the Contractor until such time as a final resolution is agreed to by all parties directly or indirectly involved, unless the Contractor furnishes a bond satisfactory to the Agency to indemnify the Agency against the claim.

V.56 CONTRACT-050.14 Failure of Payment (Oct 2006)

If the Agency fails to make payment to the Contractor within sixty (60) days after receipt of the Application for Payment, the Contractor may file a claim with the Agency contracting officer. Contractor is not entitled to stop work in any event.

V.57 CONTRACT-050.15 Occupancy (Oct 2006)

The Agency may use and occupy any completed or partially completed portions of the Work, whether or not the time may have expired for completing the entire Work or said portions of Work. Such use or occupancy shall not be deemed an acceptance of the portion of the Work so taken or used. Prior to such use or occupancy, an inspection of the Work to be occupied by the Agency shall be made by the Agency to determine if it is in conformity with the Agreement. Any damage subsequent to the inspection due solely to the use and occupancy of the completed portion is not the responsibility of the Contractor.

V.58 CONTRACT-050.16 Final Inspection (Oct 2006)

When the Contractor submits in writing to the Agency a request for a final inspection and an application for final payment, final inspection will be made within 30 days of the receipt of the request for final inspection and application for final payment. If the Work is substantially completed, the Agency will issue a certificate of final completion and final certificate for payment and the Agency will make payment in full within forty-five (45) days except as set out in this Section, less one and one-half times the amount required to complete any then-remaining uncompleted minor items. The Agency shall list in detail each uncompleted item and a reasonable cost of completion. Final payment of any amount withheld for the completion of minor items shall be paid upon completion of the items in the list. The Contractor shall complete all items (items to be corrected and/or completed) within thirty (30) days after the date of final inspection or show just cause to the satisfaction of the Agency why they cannot be completed. If the Contractor does not complete the punch list items within thirty (30) days, or show just cause to the satisfaction of the Agency why they cannot be completed, the Agency may correct those items and deduct the cost of completion from the amount retained.

V.59 CONTRACT-050.17 Final Payment (Oct 2006)

Final payment, constituting the entire unpaid balance of the Contract sum, will be paid by the Agency to the Contractor within thirty (30) days after final inspection of the installed Security System, if the Contract has been fully performed, and a final application for payment has been submitted.

V.60 CONTRACT-050.18 When Work Cannot Be Completed Through No Fault of Contractor (Oct 2006)

When, upon final inspection, items of Work cannot be completed because of unseasonable considerations, such as bituminous paving, etc., or, if the Agency agrees that particular items need not be completed until a subsequent date, or, if the Agency delays the final Application for Payment for any unreasonable length of time, the Agency may agree to release payment to the Contractor, less one and one-half (1-1-2) times the dollar value of uncompleted parts of items of the type described in this subsection.

V.61 CONTRACT-050.19 Final Payment Not Due Until Conditions Met (Oct 2006)

Neither the final payment nor the remaining retained percentage becomes due until the Contractor submits to the Agency:

(1) An affidavit that all payrolls, bills for materials and equipment, and other indebtedness connected with the Work for which the Agency or its property might in any way be responsible, have been paid or otherwise satisfied;

(2) Statements of surety and the Contractor's certificate on forms satisfactory to the Agency as to Contractor's payment of all claims for labor, materials, equipment rentals and public utility services; and

(3) If required by the Agency, other data establishing payment or satisfaction of all such obligations, such as receipts, releases and waivers of liens arising out of the Agreement, to the extent and in such form as is designated by the Agency.

If any subcontractor refuses to furnish a release or waiver, as required by the Agency, the Contractor may furnish a bond satisfactory to the Agency to indemnify the Agency against any such lien. If any such lien remains unsatisfied after all payments are made, the Contractor shall refund to the Agency all moneys that the latter may be compelled to pay in discharging such liens, including all costs and reasonable attorney's fees.

V.62 CONTRACT-050.20 Release of Funds Due to Delay in Final Inspection Not Due to the Fault of the Contractor (Oct 2006)

If, after final inspection of the work, final completion is materially delayed through no fault of the Contractor, the Agency shall make payment of the balance due for that portion of the Work fully completed and accepted. Such payment will not terminate the Agreement. If the remaining balance of work not fully completed or corrected is

less than the retainage stipulated in Section 8.10, and, if bonds have been furnished as required, the Contractor must submit to the Agency, prior to certification of the payment, the written consent of the surety to the payment of the balance due for that portion of the work fully completed and accepted. Such payment shall be made under the terms and conditions governing final payment, except that it does not constitute a waiver of any of the Agency's claims against the Contractor.

V.63 CONTRACT-050.21 Final Payment as Waiver of Claims (Oct 2006)

The making of final payment constitutes a waiver of all claims by the Agency, except those arising from:

(1) Unsettled claims;

(2) Faulty or defective work or material;

(3) Failure of the work or material to comply with the requirements of the Contract Documents; or

(4) Terms of any special guarantees required by the Contract Documents.

V.64 CONTRACT-050.22 Acceptance of Final Payment as Waiver of Claims (Oct 2006)

The acceptance of final payment by the Contractor constitutes a waiver of all claims by the Contractor.

V.65 CONTRACT-050.23 Subcontractor/Supplier Agreement (Oct 2006

All Work performed for the Contractor by a subcontractor or supplier of materials shall be pursuant to an appropriate agreement between the Contractor and the subcontractor or supplier (and where appropriate between subcontractor and sub-subcontractors). The agreement must be a fully executed agreement and include the amount of subcontractor, sub-subcontractor or supplier is to be paid for the work to be performed or for the materials to be supplied.

V.66 CONTRACT-050.24 No Contractual Relationship Between Agency and Subcontractor (Oct 2006)

Nothing contained in the Contract Documents creates any contractual relation between the Agency and any subcontractor, sub-subcontractor or supplier.

V.67 CONTRACT-050.25 Payment to Subcontractors (Oct 2006)

Performance by a subcontractor in accordance with the provisions of the contract entitles the Subcontractor to payment from the party with which the Subcontractor has contracted. For purposes of this section, the contract between the Contractor and Subcontractor is presumed to incorporate the terms of the contract between the Contractor and the agency.

V.68 CONTRACT-050.26 Contractor Disclosure of Due Date for Progress Payments From Agency (Oct 2006)

The Contractor shall disclose to a subcontractor, before a subcontract is executed, the due date for receipt of progress payments from the Agency. If the Contractor fails to accurately disclose the due date to a subcontractor, the Contractor must pay the subcontractor as though the agency has paid the Contractor within forty-five (45) days of receipt of its application for payment. This section does not apply to a change in due dates because of conditions beyond the Contractor's control, including, but not limited to, design changes, change orders or delays in construction due to weather conditions.

V.69 CONTRACT-050.27 Time for Subcontractor Payment (Oct 2006)

When a subcontractor has performed in accordance with the provisions of the contract, the Contractor shall pay to the subcontractor, the full or proportional amount received for each subcontractor's work and material, based on work completed or services provided under the contract, within fourteen (14) days of receipt of a progress payment.

V.70 CONTRACT-050.28 Interest on Subcontractor Payments (Oct 2006)

If any progress payment is not made to a subcontractor by the due date the Contractor shall pay to the subcontractor, in addition to the amount due, interest as computed at the rate determined by the Secretary of Revenue for interest payments on overdue taxes or the refund of taxes as provided in Sections 806 and 806.1 of the Act of April 9, 1929 (P.L. 343, No. 176), known as "The Fiscal Code," and any subsequent amendments to those sections.

V.71 CONTRACT-050.29 Deficiency Items (Oct 2006)

The Contractor may withhold payment from any subcontractor responsible for a deficiency item. The Contractor shall pay any subcontractor according to the provisions of this section for any item which appears on the application for payment and which has been satisfactorily completed.

V.72 CONTRACT-050.30 Notification of Deficiency Item (Dec 6 2006)

If a Contractor withholds payment from a subcontractor for a deficiency item, it must notify the subcontractor or

supplier and the contracting body of the reasons within 15 calendar days of the date after receipt of the notice of the deficiency item from the owner.

V.73 CONTRACT-050-31 Failure of Agency to Make Progress Payment (Oct 2006)

If the Agency fails to issue an approved Application for Payment for any cause which is the fault of the Contractor and not the fault of a particular subcontractor, the Contractor shall pay that subcontractor, upon demand made by the subcontractor at any time after the approved Application for Payment should otherwise have been issued, for its work to the extent completed, less the retained percentage.

V.74 CONTRACT-050.32 Insurance Receipts (Oct 2006)

The Contractor shall pay each subcontractor a just share of any insurance moneys received by the Contractor, and shall require each subcontractor to make similar payments to its sub-subcontractors.

V.75 CONTRACT-050.33 Percentage of Completion (Oct 2006)

The Agency may, on request, furnish to any subcontractor, if practicable, information regarding percentages of completion certified to the Contractor on account of work done by such subcontractor.

V.76 CONTRACT-050.34 No Obligation on Part of Agency to Pay Subcontractor (Oct 2006)

The Agency shall have no obligation to pay, or to see to the payment of, any moneys to any subcontractor except as may otherwise be required by law.

V.77 CONTRACT-050.35 Subcontractor Responsibility (Oct 2006)

If the Contractor enters into any agreements under this Contract with subcontractors or suppliers, which are currently suspended or debarred by the Commonwealth, or who become suspended or debarred by the Commonwealth during the term of this Contract or any extensions or renewals of it, the Agency may require the Contractor to terminate such contract.

V.78 CONTRACT-050.36 Time of the Essence (Oct 2006)

All time limits stated in the Purchase Order are of the essence.

V.79 CONTRACT-050.37 Initial Job Conference (Oct 2006)

The initial job conference will be held within thirty days from the Effective Date of the Purchase Order.

V.80 CONTRACT-050.38 Construction and Installation Schedule (Oct 2006)

Construction and equipment installation shall proceed in accordance with the Construction and Installation schedule approved by Agency and attached to the Purchase Order.

V.81 CONTRACT-050.39 Delays and Extensions of Time (Oct 2006)

If the Contractor is delayed at any time in the progress of the Work by any act or neglect of the Agency or by any Agency employee or by changes ordered in the Work, by labor disputes, fire, unavoidable casualties, or by delay due to suspension of Work, or by any cause that the Agency determines may justify the delay, then the time may be extended, by the approval of the Agency, of an extension of time for such reasonable time as the Agency may determine. The Agency will respond to the request for Extension of Time within twenty (20) days of its receipt.

V.82 CONTRACT-050.40 Requests for Extensions of Time (Oct 2006)

All requests for extensions of time shall be made to the Agency in writing. All such requests must be filed within ten days of the end of the event or issue, which caused the alleged delay.

V.83 CONTRACT-050.41 Construction and Equipment Installation (Oct 2006)

a. The Contractor shall be responsible for the professional and technical accuracy, of all construction and services performed in the installation of the Electric poles and installation, whether by the Contractor or its subcontractors or others on its behalf, throughout the term of this Contract.

b. The Contractor shall provide overall coordination, management, and responsibility, and shall assure that all Work is completed in a good and workmanlike manner. Subject to other provisions of this Contract, the Contractor will act as a turn-key general contractor assuming total responsibility for the procurement of labor and material for installation and start-up of the Electric poles and installation, including: selecting subcontractors; awarding subcontracts; receiving and evaluating submitted drawings on the equipment; progress inspections during installation; developing and presenting subcontractor punch lists after each inspection; receiving and evaluating record drawings; and operation and maintenance manuals from subcontractors; providing for training of Agency personnel on proper operation of the newly installed Electric poles and installation ; and final inspection and recommendation for approval to the Agency for acceptance of the Electric poles and installation

c. The Contractor shall conduct a thorough and systematic performance test of each element and total system of the installed Electric poles and installation prior to acceptance of the Electric poles and installation by Agency.

The Contractor shall provide notice to the Agency of the scheduled test(s) and the Agency and/or its designees shall have the right to be present at any or all such tests conducted by the Contractor and/or manufacturers of the equipment. The Contractor shall be responsible for correcting and/or adjusting all deficiencies in systems and equipment operations that may be observed during performance testing.

V.84 CONTRACT-050.42 Permits and Approvals (Oct 2009)

The Contractor shall be responsible for obtaining all necessary permits and approvals for completion of the project and shall pay any and all permit fees. Agency shall use its best efforts to assist the Contractor in obtaining all necessary permits and approvals. In no event shall Agency be directly responsible for payment of any permit fees. The Contractor shall furnish copies of each permit or license which is required to perform the work to the Agency before the Contractor commences the portion of the work requiring such permit or license.

V.85 CONTRACT-050.43 Coordination During Installation (Oct 2006)

The Agency and the Contractor shall coordinate the activities of the Contractor's equipment installers with those of the Agency, its employees, and agents. The Contractor shall not commit or permit any act which will interfere with the performance of business activities conducted by the Agency or its employees without prior written approval of the Agency.

V.86 CONTRACT-050.44 Performance by the Contractor (March 5, 2007)

The Contractor shall perform all tasks/phases under the Contract, including construction, and install the equipment or system] in such a manner so as not to harm the structural integrity of the buildings or their operating systems. The Contractor shall repair and restore to its original condition any area of damage caused by the Contractor's performance under this Contract. The Agency reserves the right to review the Work performed by the Contractor and to direct the Contractor to take certain corrective action if, in the opinion of the Agency, the structural integrity of the Premises or its operating system is or will be harmed. All costs associated with such corrective action to damage caused by the Contractor's performance of the work shall be borne by the Contractor.

The Contractor shall remain responsible for the professional and technical accuracy of all services performed, whether by the Contractor or its subcontractors or others on its behalf, throughout the term of this Contract. The Contractor is responsible for general broom cleaning at cost. At least once a week, the Contractor shall remove from the Premises all discarded material and rubbish resulting from the work and assure the Premises are free of such materials and rubbish.

V.87 CONTRACT-050.45 Prevailing Minimum Wages (Oct 2009)

The contract with the awarded vendor is subject to and shall comply with the provisions, duties, obligations, remedies and penalties of the Pennsylvania Prevailing Wage Act, 43 P.S. Sections 165-1 through 165-17 and its regulations 34 Pa. Code Sections 9.101 through 9.112, which are incorporated herein by reference as if fully set forth herein. The contractor shall pay no less than the wage rates including contributions for employee benefits as determined by the Secretary of Labor and Industry (hereinafter referred to in this paragraph as "Secretary") for each craft or classification of all workers needed to perform this contract during the term hereof for the county in which the work is to be performed. In compliance with said Pennsylvania Prevailing Wage Act, the Prevailing Minimum Wage Predetermination, as approved by the Secretary, is attached hereto and made a part hereof.

A. The provisions of this paragraph shall apply to all work performed on the contract by the contractor and to all work performed on the contract by all subcontractors. The contractor shall insert in each of its subcontracts all of these required contract provisions and stipulations contained in this paragraph and such other stipulations as may be required.

B. No worker may be employed on the public work except in accordance with the classifications set forth in the decisions of the Secretary. In the event that additional or different classifications are necessary, the procedure set forth in section 8 of the Act (43 P.S. § 165-8) and section 9.107 of the Act's Regulations (relating to petition for review of rates and hearings) shall be followed.

C. Workers employed or working on the public work shall be paid unconditionally, regardless of whether any contractual relationship exists or the nature of a contractually relationship which may be alleged to exist between a contractor, subcontractor and workers, at least once a week without deduction or rebate, on any account, either directly or indirectly, except authorized deductions, the full amounts due at the time of payment, computed at the rates applicable to the time worked in the appropriate classification. Nothing in the contract, the Prevailing Wage Act or its Regulations prohibits the payment of more than the general prevailing minimum wage rates as determined

by the Secretary to any worker or public work.

D. The contractor and each subcontractor shall post for the entire period of construction the wage determination decisions of the Secretary, including the effective date of changes thereof, in a prominent and easily accessible place or places at the site of the work and at the place or places used by them to pay workers their wages. The posted notice of wage rates shall contain the following information:

1. The name of project.

2. The name of public body for which it is being constructed.

3. The crafts and classifications of workers listed in the Secretary's general prevailing minimum wage rate determination for the particular project.

4. The general prevailing minimum wage rates determined for each craft and classification and the effective date of changes.

5. A statement advising workers that if they have been paid less than the general prevailing minimum wage rate for their job classification or that the contractor or subcontractor are not complying with the act or the regulations in any manner whatsoever, the worker may file a protest in writing with the Secretary of Labor and Industry within 3 months of the date of the occurrence, objecting to the payment to a contractor to the extent of the amount due or to become due to them as wages for work performed on the public work project. A worker paid less than the rate specified in the contract shall have a civil right of action for the difference between the wage paid and the wages stipulated in the contract, which right of action must be exercised within 6 months from the occurrence of the event creating the right.

E. The contractor and subcontractors shall keep an accurate record showing the name, craft or classification, number of hours worked per day, and the actual hourly rate of wage paid including employee benefits, to each worker employed by the contractor or subcontractor in connection with the public work. The record shall include deductions from each worker. The record shall be preserved for 2 years from the date of payment and shall be open at reasonable hours to the inspection of the public body awarding the contract and to the Secretary or the Secretary’s authorized representatives.

F. Apprentices shall be limited to numbers in accordance with a bona fide apprenticeship program registered with and approved by the Pennsylvania Apprenticeship and Training Council and only apprentices whose training and employment are in full compliance with The Apprenticeship and Training Act (43 P.S. §§ 90.1 – 90.10), approved July 14, 1961 and the regulations issued thereto shall be employed on the public work project. A worker using the tools of a craft who does not qualify as an apprentice within the provisions of this subsection shall be paid the rate predetermined for journeymen in that particular craft or classification.

G. Wages shall be paid without deductions except authorized deductions. Employers not parties to a contract requiring contributions for employee benefits which the Secretary of Labor & Industry has determined to be included in the general prevailing minimum wage rate shall pay the monetary equivalent thereof directly to the workers.

H. Payment of compensation to workers for work performed on public work on a lump sum basis, or a piece work system, or a price certain for the completion of a certain amount of work, or the production of a certain result shall be deemed a violation of the Act, regardless of the average hourly earnings resulting therefrom.

I. Each contractor and each subcontractor shall file a statement each week and a final statement at the conclusion of the work on the contract with the contracting agency, under oath, and in form satisfactory to the Secretary, certifying that workers have been paid wages in strict conformity with the provisions of the contract. If wages remain unpaid, the contractor or subcontractor shall set forth the amount of wages due and owing to each worker respectively. A copy of the form entitled "Contractor's or Subcontractor's Weekly Payroll Certification for Public Works Projects" is attached hereto.

J. Before final payment is made, a final wage certification must be submitted by all contractors and subcontractors.

V.88 CONTRACT-051.1 Notice (Dec 2006)

Any written notice to any party under this Contract shall be deemed sufficient if delivered personally, or by facsimile, telecopy, electronic or digital transmission (provided such delivery is confirmed), or by a recognized overnight courier service (e.g., DHL, Federal Express, etc.) with confirmed receipt, or by certified or registered United States mail, postage prepaid, return receipt requested, and sent to following:

a. If to the Contractor: the Contractor's address as recorded in the Commonwealth's Supplier Registration system.

b. If to the Commonwealth: the address of the Issuing Office as set forth on the Contract.

V.89 CONTRACT-052.1 Right to Know Law (February 2024)

a. **Applicability.** The Pennsylvania Right-to-Know Law, 65 P.S. §§ 67.101-3104, ("RTKL") applies to this contract.

b. **Contractor Assistance.** If the Commonwealth needs the Contractor's assistance in any matter arising out of the RTKL related to this contract, the Commonwealth shall notify the Contractor that it requires the Contractor's assistance, and the Contractor shall provide to the Commonwealth:

i. access to, and copies of, any document or information in the Contractor's possession (Requested Information) arising out of this contract that the Commonwealth reasonably believes is a public record under the RTKL, within ten calendar days after receipt of written notification; and

ii. any other assistance as the Commonwealth may reasonably request, in order to comply with the RTKL with respect to this contract.

c. **Trade Secret or Confidential Proprietary Information**. If the Contractor considers the Requested Information to include a Trade Secret or Confidential Proprietary Information, as those terms are defined by the RTKL, or other information that the Contractor considers exempt from production under the RTKL, the Contractor shall notify the Commonwealth and provide, within seven calendar days of receipt of the written notice a written statement, signed by a representative of the Contractor, that explains why the requested material is exempt from public disclosure under the RTKL. If the Commonwealth determines that the Requested Information is clearly not exempt from disclosure, the Contractor shall provide the Requested Information to the Commonwealth within five business days of receipt of written notice of the Commonwealth's determination.

d. **Reimbursement.**

i. Commonwealth Reimbursement. If the Contractor fails to provide the Requested Information and the Commonwealth is ordered to produce the Requested Information, the Contractor shall reimburse the Commonwealth for any damages, penalties, or costs that the Commonwealth may incur as a result of the Contractor's failure, including any statutory damages assessed against the Commonwealth.

ii. Contractor Reimbursement. The Commonwealth will reimburse the Contractor for any costs that the Contractor incurs as a direct result of complying with these provisions only to the extent allowed under the fee schedule established by the Office of Open Records or as otherwise provided by the RTKL.

e. **Challenges of Commonwealth Release.** The Contractor may file a legal challenge to any Commonwealth decision to release a record to the public with the Office of Open Records, or in the Pennsylvania Courts, however, the Contractor shall reimburse the Commonwealth for any legal expenses incurred by the Commonwealth as a result of the challenge, including any damages, penalties or costs that the Commonwealth may incur as a result of the Contractor's legal challenge, regardless of the outcome.

f. **Waiver.** As between the parties, the Contractor waives all rights or remedies that may be available to it as a result of the Commonwealth's disclosure of Requested Information pursuant to the RTKL.

g. **Survival.** The Contractor's obligations contained in this Section survive the termination or expiration of this contract.

V.90 CONTRACT-053.1 Enhanced Minimum Wage Provisions (February 2024)

a. **Enhanced Minimum Wage.** Contractor shall pay no less than $15.00 per hour to its employees for all hours worked directly performing the services called for in this contract/lease, and for an employee's hours performing ancillary services necessary for the performance of the services or lease when the employee spends at least 20% of their time performing ancillary services in a given work week.

b. **Adjustment.** Beginning July 1, 2023, and annually thereafter, the minimum wage rate will be increased by an annual cost-of-living adjustment using the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U) for Pennsylvania, New Jersey, Delaware, and Maryland. The Commonwealth will publish applicable adjusted amount in the Pennsylvania Bulletin by March 1 of each year to be effective the following July 1.

c. **Exceptions.** These Enhanced Minimum Wage Provisions do not apply to employees

i. Exempt from minimum wage under the Minimum Wage Act of 1968;

ii. covered by a collective bargaining agreement;

iii. required to be paid a higher wage under another state or federal law governing the services, including the Prevailing Wage Act and Davis-Bacon Act; or

iv. required to be paid a higher wage under any state or local policy or ordinance.

d. **Notice.** The Contractor shall: (1) post this Enhanced Minimum Wage Provision for the entire period of the contract conspicuously in easily-accessible and well-lighted places customarily frequented by employees at or near where the contracted services are performed; or (2) for the entire period of the contract, provide electronic notice of this clause to its employees not less than annually.

e. **Records.** Contractor must maintain and, upon request and within the time periods requested by the Commonwealth, provide to the Commonwealth all employment and wage records necessary to document compliance with these Enhanced Minimum Wage Provisions.

f. **Sanctions.** Contractor's failure to comply with these Enhanced Minimum Wage Provisions may result in the imposition of sanctions, which may include, but are not limited to, termination of the contract or lease, nonpayment, debarment, or referral to the Office of General Counsel for appropriate civil or criminal referral.

g. **Subcontractors.** The Contractor shall include these Enhanced Minimum Wage Provisions in its subcontracts under this contact or lease to ensure that these provisions are binding on its subcontractors.

V.91 CONTRACT-054.1 Worker Protection and Investment (February 2024)

The Contractor shall comply with all applicable Pennsylvania state labor laws and worker safety laws including, but not limited to, the following:

a. Construction Workplace Misclassification Act;

b. Employment of Minors Child Labor Act;

c. Minimum Wage Act;

d. Prevailing Wage Act;

e. Equal Pay Law;

f. Employer to Pay Employment Medical Examination Fee Act;

g. Seasonal Farm Labor Act;

h. Wage Payment and Collection Law;

i. Industrial Homework Law;

j. Construction Industry Employee Verification Act;

k. Act 102: Prohibition on Excessive Overtime in Healthcare;

l. Apprenticeship and Training Act; and

m. Inspection of Employment Records Law.

V.92 CONTRACT-055.1 Data Breach or Loss (February 2024)

To the extent the Contractor receives, provides, stores, manages, maintains, and/or transmits personal information including, but limited to, personal health information, pursuant to this Contract, the Contractor shall comply with all applicable data protection, data security, data privacy and data breach notification laws, including but not limited to the *Breach of Personal Information Notification Act*, Act of December 22, 2005, P.L. 474, No. 94, as amended, 73 P.S. §§ 2301-2329. Further, to the extent the Contractor maintains, stores, or manages computerized data on behalf of the Commonwealth that constitutes personal information, as defined in the *Breach of Personal Information Notification Act*, Act of December 22, 2005, P.L. 474, No. 94, as amended, 73 P.S. §§ 2301-2329, the Contractor shall comply with the then current version of the following IT Policies (ITPs): *ITP-SEC019, Policy and Procedures for Protecting Commonwealth Electronic Data*; *ITP-SEC024, IT Security Incident Reporting Policy*; *ITP-SEC025, Proper Use and Disclosure of Personally Identifiable Information (PII)*; and *ITP-SEC031, Encryption Standards*.

Header Text

The contractor shall provide services to SCI Rockview, per the Commonwealth Contract 4400030657/ITQ 72000000-ITQ-131 and its Terms & Conditions, this purchase order, and the vendor's quote.

Please consider this purchase order as your "Notice to Proceed."

CONTINGENT COMMITMENT: purchase is contingent upon appropriation of funds by the legislature for each fiscal year.

ESTIMATED QUANTITIES: The contractor agrees to provide this repair within the specified cost quoted.

PAYMENT SHALL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Invoices must be sent to the "bill to" address as shown on the PO. Failure to follow this provision may cause delay in processing and payment of the vendor's invoice. Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.

SECURITY CLEARANCE INFORMATION FOR VENDORS: All vendors or their subcontractors, who utilize regular delivery, transportation will have to submit clearance checks through the original vendor for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks, however are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from correctional staff.

Attachments: In addition to this document, the following indicated items are hereby incorporated and considered a part of this bid/contract:
1 – Quote
2 – CRP
3 – waiver request
4 – waiver approval

Valid From: 01/09/2025 To 03/31/2026

Supplier Name:
EASTERN ELEVATOR SERVICE & SALES

Header Text

The vendor shall provide elevator inspection, maintenance, and repair to the elevators at SCI-Rockview per state contract 4400024170, its Terms & Conditions, the statement of work, and the vendor's quote. This purchase order is valid from present through the end of the current contract period (01/09/2025 - 03/31/2026).

Please consider this purchase order as your Notice to Proceed.

ESTIMATED QUANTITIES: The quantity of services is an estimate. If usage exceeds the original contract estimate during the effective time period of the contract, the contractor agrees to provide the additional units at the original contract unit rate.

PAYMENT WILL BE MADE FOR ACTUAL SERVICES/GOODS PROVIDED TO THE COMMONWEALTH: Invoices must be mailed to the "bill to" address as shown on the PO. Failure to follow this provision may cause delay in processing and payment of the vendor's invoice. Payment shall be made after receipt and acceptance of order for service/supplies actually provided to the Commonwealth. Errors on the invoice will cause the Comptroller to put a hold on payment until a correct invoice is received.

SECURITY CLEARANCE INFORMATION FOR VENDORS: All vendors or their subcontractors, who utilize regular delivery, transportation will have to submit clearance checks through the original vendor for all drivers (regardless if delivery is inside or outside of the fence). Common carriers will not be required to render clearance checks, however, are subject to search and escort procedures. ALL CARRIERS reporting to outside warehouses must secure their vehicle (windows closed and doors locked), sign in at warehouse and wait for further directions from correctional staff.

OPTION TO EXTEND: Upon written notice to the contractor, the Commonwealth has the option of extending this contract or any part of this contract up to three months. This should be used to prevent a lapse in contract coverage, and only for the time necessary, up to three months, to issue the new contract.

Dear Mr. Eckenrode:

This email acknowledges receipt by the Department of Corrections (the Department) of your written request for records under the Pennsylvania Right-to-Know Law (RTKL). Your request was received by this office on March 13, 2025. On March 14, 2025, an interim response was sent to you extending the final response deadline to April 21, 2025.

Your request for the cost paid for the closed SCI-Retreat, SCI-Graterford, and SCI-Greensburg for the fiscal years stated in the attached request you submitted is granted. This requested information is attached to this email at no charge.

Sincerely,

Andrew Filkosky

Department of Corrections Responds to Questions and Comments About Proposed Facility Closures

The Department held public listening sessions in April to gather feedback from the community about the proposed closures of SCI Rockview and Quehanna Boot Camp.
The final report and decision on the proposed closures are expected by the end of May.

May 07, 2025

Harrisburg, PA – This document contains basic information to respond to questions and concerns raised during the recent public hearings on the proposed closures of SCI Rockview and Quehanna Boot Camp. Accompanying this document are materials related to the Department's capital plan, violence reports, education data, and recidivism data. Additional information will be made available within the Department's final report on the proposed closures.

Steering Committee Members:

- **Commenters asked the Department to release the names of the Steering Committee members who generated the proposal to close SCI Rockview and Quehanna Boot Camp.**
  - *To protect the integrity of the Public Safety Facilities Act analysis process, names of Steering Committee members were not previously released to ensure their work could be completed without intimidation or coercion.*
  - *The Steering Committee's composition grew as the process progressed. Notably, Secretary Harry was added to the committee process following the acceptance of the proposal.*
  - *Now that the Steering Committee is completing its analysis, participating members are provided below:*

Steering Committee Members and Job Titles

Name	Title	Name	Title
Dr. Laurel Harry	Secretary	Michael Wenerowicz	Executive Deputy Secretary - Institutional Operations
Kelly Evans	Executive Deputy Secretary - Reentry, Community Corrections and Parole Field Services	Christopher Oppman	Deputy Secretary for Administration
Dr. Robert Marsh	Regional Deputy Secretary	Morris Houser	Regional Deputy Secretary
Dr. Michael Zaken	Regional Deputy Secretary	Dr. Lucas Malishchak	Deputy Secretary - Reentry
Timothy Holmes	Chief Counsel	Randee Brant	Chief of Staff
Dr. Bret Bucklen	Director - Bureau of Planning, Research and Statistics	Ryan Tarkowski	Communications Director
Dr. Nicolette Cawley	Director - Bureau of Administration	William Nicklow	Director - Bureau of Facility Security and Special Operations
Erin Brown	Director - Bureau of Population Management and Sentence	Christian Kita	Director - Bureau of Operations

Ty Stanton	Director - Human Resources	Diana Woodside	Director - Office of Policy and Legislative Affairs
Angel Jenrette-McDowell	Executive Assistant to Deputy Secretary for Administration	Kiley Palson	Executive Assistant to Executive Deputy Secretary for Institutional Operations
David Radziewicz	Special Assistant		

Quehanna Boot Camp Public Hearing Questions:

- **Commenters claimed that the Boot Camp program had the lowest recidivism rate in the Department and suggested that savings associated with the low recidivism rate outweigh any savings achieved through closures.**
  - *The Boot Camp statistics cited appear to have been drawn from a pamphlet created by staff at Quehanna Boot Camp. As disclaimed in the pamphlet, the statistics were drawn from unofficial data from 2013 through 2018 and only included one of the two measures included in recidivism; specifically, return to state incarceration. These figures lack the measure of re-arrest, exclude Boot Camp failures, and exclude the SDTP population also processing through the facility.*
  - *Recidivism rates are not truly comparable between facilities. The rates can be influenced by the individual characteristics of the inmates housed at and released from the facility. Likewise, given that the inmate population transfers regularly throughout facilities, comparisons between locations are statistically impractical. Because of the differences in population created by facilities' missions and regular transfers throughout the Department, comparing a facility against itself over time is the most appropriate way to measure a facility's success with recidivism reduction.*
  - *The most recent analyses found that the statutory drug treatment program produced greater reductions in recidivism and cost savings per participant than the Boot Camp program.*
- **Commenters suggested that legislative amendments to the Boot Camp statute could make the program more appealing and increase the population at the facility.**
  - *While legislative amendments to the Boot Camp statute may have a positive effect on participation, fundamental shifts to the demographics of those committed to the Department reduce the Boot Camp candidate pool. For example, the average age of commitment to the Department is now 38. Proposed measures of shortening the duration of the Boot Camp program may exacerbate capacity issues for the facility by cycling individuals through the facility faster.*
- **Commenters claimed that Quehanna Boot Camp produces more GEDs than any facility, and more than 12 facilities combined.**
  - *Although the Boot Camp staff assisted more people to obtain their GEDs over the previous five years than other institutions and more than the 12 lowest facilities, obtaining a GED is only one measure of academic achievement. Commonwealth Secondary Diplomas (CSD) are earned more frequently in other institutions. When combining GEDs and CSDs, completion rates over the previous five years considerably narrow, and the alternative male SDTP treatment facilities (i.e., SCIs Houtzdale and Laurel Highlands) emerge as the second- and third-highest producers of high school equivalency diplomas including both GEDs and CSDs.*

SCI Rockview Public Hearing Questions:

- **Commenters speculated that the proposed closure of SCI Rockview is motivated by a "sweetheart deal" for sale of the facility's land.**
  - *The Department has no role in the disposition of the property when a facility closes and has no ability to sell land associated with a facility. The Department of General Services would be responsible for any sale of the property, if necessary, and typically requires legislation to convey the transfer of the property.*
- **Commenters shared concerns that staff affected by a closure would lose preferred shift bids and posts.**
  - *It is important to note that staff will not lose seniority. However, depending on staff selections, all staff may not be accommodated at their new location with their current shift or post. This matter is subject to the provisions in the respective collective bargaining agreements.*
- **Commenters suggested partial operation of SCI Rockview or selling land associated with the facility as a potential means of closing budget gaps.**
  - *Statewide, the Department closed approximately 18 housing units in 2024. Only fractional savings of approximately $7 million were achieved through this approach. Likewise, the Department has no role in conveying any land associated with the facility.*

Common Questions:

- **Commenters shared concerns that they would only be guaranteed employment at targeted facilities, creating unmanageable drive times from their home addresses.**
  - *The Department's goal is to support all staff through the process of relocating to another work location if the closures occur. The Department's Bureau of Planning, Research and Statistics conducted an analysis of staff commuting patterns, based on staff home addresses. Those facilities where a targeted hiring freeze was implemented were determined to be the facilities that the*

majority of staff were likely to select should a closure occur. However, staff may request placement at facilities outside of the targeted institutions and closer to their home address, if a closure occurs.

- **Commenters frequently claimed that because all staff are guaranteed employment if a closure occurs, only minimal savings associated with operational costs can be achieved.**
  - *Savings associated with operational costs are anticipated immediately following a closure. Because all staff are guaranteed employment within the Department, it is true that personnel costs will not be saved immediately in FY25–26.*
- **Commenters claimed that projects identified in the Steering Committee's proposal were previously completed; therefore, savings would be further diminished.**
  - *It is accurate that the Steering Committee's proposal identified some projects, such as paving, that were physically completed in its initial assessment. However, the overall estimated capital needs of the facilities have not changed.*
  - *The Department of General Services contracted with Carter Goble Lee (CGL) Companies in 2022 to conduct a third-party spatial and structural analysis of Department facilities. The CGL six-year capital plans and the Bureau of Operations five-year capital plans, detailing future **planned** maintenance needs (i.e., not accounting for emergency repair needs that develop outside these plans) have been released with this document and identify the specific projects to be completed.*
    The CGL capital plan projects for SCI Rockview contain approximately $85 million in deferred maintenance needs and $7 million in capital investment to install air-conditioning, while the Quehanna Boot Camp plan identifies approximately $2.7 million in deferred maintenance needs and approximately $4 million in capital investment to install air-conditioning. The Bureau of Operations identifies approximately $74 million in maintenance projects prioritized at SCI Rockview within the next five years and approximately $6.8 million in projects at Quehanna Boot Camp during the same period. To be clear, the bulk of future cost avoidances are associated with the reduction in operational costs and eventual reduction in complement; however, avoiding these projects will avert spending.
- **Commenters suggested that proposed closures will cause overcrowding and increased violence, with a commenter suggesting that years 2018–2019 were some of the most violent years on record, triggered by the previous closure of SCI Pittsburgh. Additionally, the commenter suggested that the violence increase observed in 2024 occurred in the most crowded facilities.**
  - *Based on current populations and trends, male capacity would remain under 90% and female capacity would remain under 80% if closures occur.*
  - *It is not possible to predict future outcomes. After the five most recent prison closures, the Department's Bureau of Planning, Research and Statistics found that the Department averaged one less inmate-on-inmate assault and three less inmate-on-staff assaults, in the six-months following a closure in comparison to the six-months preceding a closure.*
  - *The most recent closure occurred in 2020 at SCI Retreat. Although occurring at the onset of the COVID pandemic, staff assaults and inmate fights decreased and remained at lower rates per 1000 inmates (compared to 2018–2019) until 2024, while inmate-on-inmate assaults edged slightly higher in 2023.*
  - *Despite the low inmate population in 2024, the violence rate per 1,000 inmates was greater than in 2018–2019.*
  - *In 2024, there were approximately 406 additional findings of guilt for violent incidents. Approximately 70% of the increase was attributable to seven facilities. The increased violent guilty incidents and average capacity of those facilities in 2024 are noted below. There is no clear relationship between capacity rates and the increase in violence. Some facilities with higher capacity rates experienced decreases in violence, while others with lower capacity rates experienced increases in violence.*

Increased Violent Guilty Incidents and Average Facility Capacity

Facility	Increased Violent Guilty Incidents	Average 2024 Capacity
Mahanoy	53	87.5%
Camp Hill	51	67.8%
Albion	40	84.8%
Pine Grove	39	76.1%
Houtzdale	38	86.5%
Rockview	35	83.6%
Phoenix	32	74.7%
Somerset	29	80.9%
Fayette	21	82.4%
Muncy	21	66.8%

Smithfield	19	73.9%
Cambridge Springs	17	73.8%
Greene	12	77.7%
Huntingdon	8	83.3%
Chester	5	79.2%
Laurel Highlands	4	87.5%
Waymart	4	75.3%
Dallas	2	93.3%
Quehanna	2	60.9%
Coal Township	-1	81.3%
Forest	-2	85.5%
Benner Township	-5	78.2%
Mercer	-8	90.9%
Frackville	-10	89.1%

- **Commenters suggested that there were limited opportunities for repurposing of the facilities.**
  - *The Department operates the Quehanna Boot Camp through a Memorandum of Understanding (MOU) with the Department of Conservation and Natural Resources (DCNR). Should a closure of Quehanna Boot Camp occur, the property would revert back to the ownership of DCNR for their use or repurposing. The Department is committed to collaborating with DCNR to ensure a smooth and cooperative transition of the property and resources.*
  - *As previously noted, the Department of General Services would be responsible for disposition of SCI Rockview.*

Appendix B

COMMONWEALTH OF PENNSYLVANIA
PENNSYLVANIA STATE POLICE
1800 ELMERTON AVENUE
HARRISBURG, PA. 17110

OFFICE OF COMMISSIONER

April 2, 2025

The Honorable Dr. Laurel R. Harry, Secretary
Pennsylvania Department of Corrections
1920 Technology Parkway
Mechanicsburg, Pennsylvania 17050

Dear Secretary Harry,

As required by Act 133 of 2018, Public Safety Facilities Act, a review has been conducted within the Pennsylvania State Police (PSP) relative to any law enforcement impact with respect to the proposed closures of State Correctional Institute Rockview, and the Quehanna Boot Camp.

PSP has found no adverse impact with regard to the delivery of law enforcement services, nor potential impact to public safety, to report with either of the proposed closings.

If we can be of any further assistance in this matter, please do not hesitate to contact me.

Sincerely,

LTC Christopher M. King

Lieutenant Colonel Christopher M. King
Acting Commissioner

Pennsylvania
Parole Board

Proposed Department of Corrections Facility Closures

The Pennsylvania Parole Board (Board) reviewed the prison closure proposal and participated in the stakeholder meeting to discuss the potential impact of closing SCI Rockview and Quehanna Bootcamp.

The Board does not have staff at either facility and does not have paroling jurisdiction over releases at Quehanna Bootcamp. In all institutions, parole interviews and hearings are conducted via video conferencing, ensuring flexibility and continuity regardless of facility location. Because of this, recent closures have not impacted the Board's ability to ensure timely decisions. Additionally, the Board's Decision Makers are not assigned to specific SCIs, meaning facility closures would not affect Board staff.

The proposed closures of SCI Rockview and Quehanna Bootcamp will not have a material impact on Board staff or on parole/recommitment decisions.

COMMONWEALTH OF PENNSYLVANIA
OFFICE OF ADMINISTRATION

March 31, 2025

The Honorable Dr. Laurel R. Harry, Secretary
Pennsylvania Department of Corrections
1920 Technology Parkway
Mechanicsburg, PA 17050

Dear Secretary Harry,

In accordance with Act 133 of 2018, the Office of Administration (OA) has been, and will continue to be, working with the Department of Corrections (DOC) program office staff and the unions representing the workforce at the facilities identified as being under review for closure by the DOC.

Once the DOC decides which facilities it intends to close, the OA will work with the DOC to ensure the agency's compliance with the Commonwealth's furlough policy (Management Directive 505.10), including providing formal notice of the potential for furlough to each union to ensure compliance with applicable collective bargaining agreements/memoranda of understanding. Between now and the date of said closures, the OA will negotiate side letters on behalf of the DOC with the unions representing affected employees. These will outline the extra-contractual placement and recall process as deemed necessary by the parties. The OA will continue to provide direct support to both the DOC program office staff and employees that would be impacted by a closure.

Should you have any questions or if OA can be of any further assistance, please feel free to contact me.

Sincerely,

Neil R. Weaver
Secretary of Administration

COMMONWEALTH OF PENNSYLVANIA
DEPARTMENT OF AGRICULTURE

April 11, 2025

Secretary Dr. Laurel R. Harry
Pennsylvania Department of Corrections
1920 Technology Parkway,
Mechanicsburg, PA 17050

Dear Secretary Harry,

I am writing to provide comment on the potential closures of SCI Rockview and Quehanna Boot Camp as required by Act 133 of 2018. The Department of Corrections has proposed closing these operations and the Department of Agriculture (PDA) reports no adverse impacts, but would like to request the consideration of a few items of relevance to Pennsylvania's agriculture industry.

As is consistent with closures of State Hospital grounds, PDA would like to request that the land left by the departure of these correctional institutions be made available by the Department of Corrections for lease to farmers who would be interested in cultivating it. This provides farmers additional access to land and increase their farming operations.

Additionally, SCI Rockview has been a partner with the Department and our farming partners at Pasa Sustainable Agriculture to implement a pre-apprenticeship program. Apprenticeships act as a critical workforce development pipeline, helping train interested individuals for their career in the agriculture industry. This apprenticeship program also assists re-entrants by training them for a family sustaining job path upon their release. We would request that if SCI Rockview is selected to close, this apprenticeship program and farming operations be continued at another SCI to provide additional opportunity for re-entrants and maintain the workforce pipeline for agriculture.

If you have any questions or would like further assistance, please do not hesitate to reach out to my office at any time.

Sincerely,

Russell C. Redding
Secretary

Pennsylvania
Department of General Services

April 24, 2025

Dr. Laurel R. Harry
Secretary, Pennsylvania Department of Corrections
1920 Technology Parkway
Mechanicsburg, PA 17050

Re: Proposed Closure of SCI Rockview & Quehanna Boot Camp

Dear Dr. Harry,

Per Act 133 of 2018 (Public Safety Facilities Act), thank you for including the Department of General Services (DGS) in discussions relating to the process and proposed closures of SCI Rockview and Quehanna Boot Camp. DGS is here to assist the Department of Corrections (DOC) in its decision to officially surplus and potentially dispose of the SCI Rockview property. The Department of Conservation and Natural Resources (DCNR) holds title to the land on which Quehanna Boot Camp operates. DCNR has granted DOC use of that property through a Memorandum of Understanding made effective in 1991. DCNR has the final authority on whether that land will remain under their control or eventually be disposed of.

There are several options for the SCI Rockview property. Once properties are officially declared surplus and the other requirements of Act 133 are fulfilled, DGS in its statutory authority can dispose of property in the following ways:

- **Direct Conveyance** through a sale to a specific, named entity that is identified in coordination with state elected officials. This method requires legislation identifying the buyer and the price (or "fair market value").

- **Direct Conveyance to a Redevelopment Authority** (as designated by the Urban Redevelopment Law), provided that the conveyance fits within the parameters of a project that can be undertaken by a redevelopment authority. This is considered in coordination with local elected officials; however, this method does not require legislation.

- **Invitation to Bid,** a competitive process where DGS promotes the availability of the property and selects the highest responsible bidder. This method must be authorized by legislation.

- **Solicitation for Proposals with Review Committee,** a sealed, competitive bid process that includes a review committee involving local, elected officials, to determine potential sale of the property. DGS in concert with the review committee, establishes criteria, a process for evaluating responses, and a committee to review the bids. This method was first legislatively approved for use for disposal of a specific property in 2019, but did not yield a complete conveyance of the property.

To prepare a property for sale, DOC and DGS will coordinate and perform a series of due diligence activities to understand the site conditions and value, such as a title search, property survey, subdivision plan if appropriate, environmental studies, appraisal, land planning reports and demolition when necessary.

Recent prison properties declared surplus by DOC for disposal by DGS are as follows:

- SCI Retreat - This prison was closed and declared surplus in 2022. Sale preparation is being conducted at the site including survey and appraisal. Once completed, legislation can be drafted to dispose of the property, or it may potentially be conveyed to a redevelopment authority.

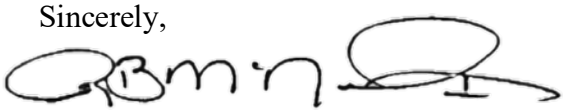

- SCI Pittsburgh - This prison was closed and declared surplus in 2017. A land planning report procured by DGS recommended the full demolition of the property to make it marketable for sale. Demolition is expected to be completed in 2028, at which time it can be sold through a competitive bid process as designated in the authorizing legislation (Act 24 of 2022).

- SCI Cresson - This property sold in 2017 for $600,000 through an Invitation to Bid process. The bid largely represented the value of the timber on the property.

- SCI Greensburg - This property sold in 2015 for $950,000 through an Invitation to Bid process. It was acquired by a utility provider that already had a presence on the site to supply steam to the campus. Since that time, no significant redevelopment or adaptive reuse has occurred on the site.

The Department of General Services appreciates the opportunity to assist the Department of Corrections in the upcoming discussions regarding the proposed closure and sale of SCI Rockview. Please feel free to contact us if you have any questions or require further assistance.

Sincerely,

Reginald B. McNeil, II
Secretary

Clearfield County Unemployed Workers by Industry

Overview of the Local Economic Effects of Closing the SCI Quehanna Facility

Clearfield County Job Openings by Occupation

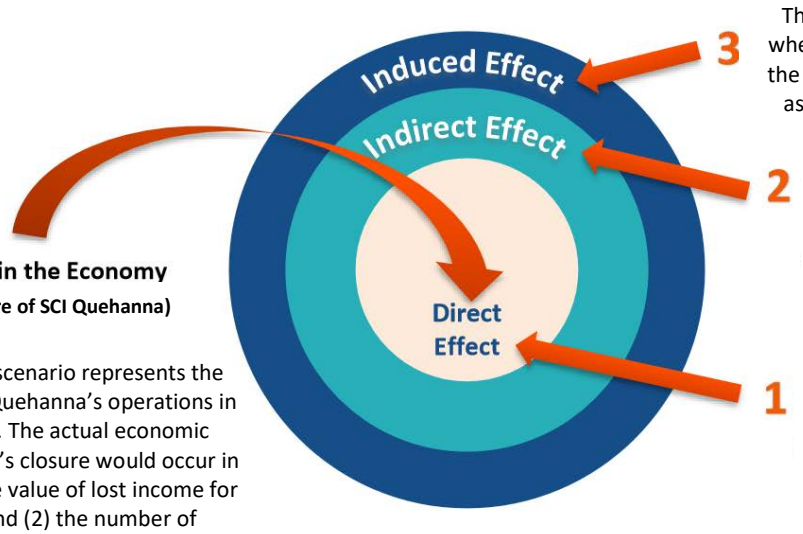

Overview of the Local Economic Effects of Closing the SCI Quehanna Facility

Impact of SCI Quehanna on the Local Economy (Clearfield County)

The economic impacts of the closure of SCI Quehanna to Clearfield County were estimated using the IMPLAN model and operational data provided by the PA Department of Corrections.

How the Effects of the Closure of SCI Quehanna Would Ripple Through the Local Economy

The **Induced Effect** occurs when household spending in the local economy decreases as employees move away from area.

The **Indirect Effect** occurs when SCI Quehanna's local vendors consequently reduce spending for wages and the purchase of goods

The **Direct Effect** occurs when SCI Quehanna ceases its spending to pay wages and purchase local goods and services.

The above impact scenario represents the total impact of SCI Quehanna's operations in Clearfield County. The actual economic impact of the facility's closure would occur in proportion to (1) the value of lost income for local vendors, and (2) the number of employees and their households who would move away from the area to take a new job or experience a decrease in income by taking a lower paying job in the local area.

- 234 workers are employed at SCI Quehanna
- $34 million estimated annual operational spending (Source: SCI Quehanna)
  - 85% personnel expenses and 15% operational expenses
- $29 million of the annual spending is estimated to stay in the local economy (value added)
- In addition to the 234 Quehanna employees, the IMPLAN model estimates that 99 additional jobs in the county are supported by Quehanna operations and the household spending of its workers who live in the County.
- The loss to the local economy related to SCI Quehanna's payments to local vendors is estimated by the IMPLAN model to be as much as $1.1 million each year (the indirect value added amount in the table below).
- The loss to the local economy related to SCI Quehanna employees is estimated to be as much as $190,000 each year for every employee that moves away from the area to take a job (the total of direct and induced value added in the table below divided by 234 employees).
- The average salary for Quehanna workers is $73,547. The areas that would be most affected by the closure of SCI Quehanna are presented on pages 8-10.

Overview of the Local Economic Effects of Closing the SCI Quehanna Facility

Estimated Economic Impact of SCI Quehanna (Source: IMPLAN)

Impact Type	Employment	Labor Income	Value Added	Output
1 - Direct	234	$28,921,089	$29,092,819	$33,222,939
2 – Indirect*	14	$771,345	$1,126,270	$2,559,232
3 - Induced	85	$4,224,415	$8,058,107	$13,293,164
Total	**332**	**$33,916,848**	**$38,277,196**	**$49,075,336**

* The IMPLAN model uses predefined spending assumptions based on the local economic environment and typical spending patterns to estimate the indirect impacts of Quehanna's closing.

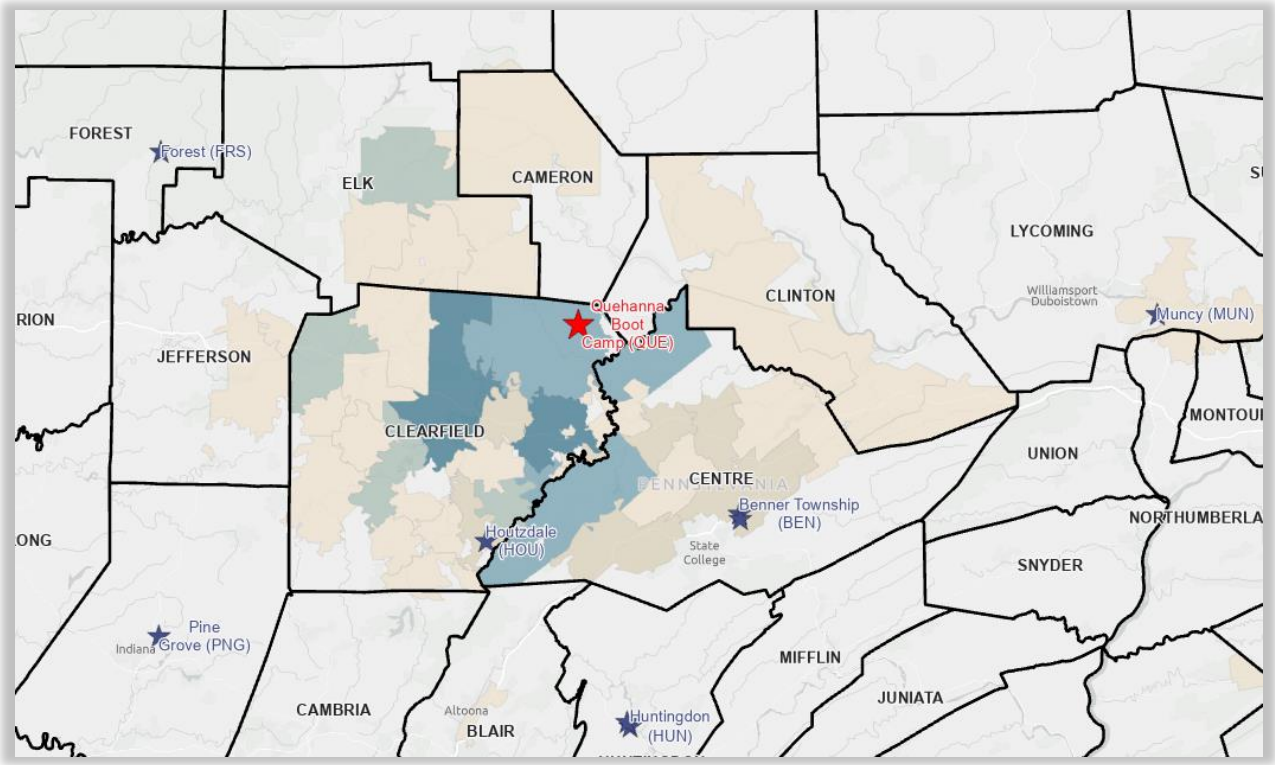

Labor Income is the sum of employee compensation (wages and benefits) and proprietor income.
Value Added is the sum of Employee Compensation, Proprietor Income, Other Property Income, and Taxes (less Subsidies).
Industry Output is the value of industry production. For manufacturing, this would be sales +/- inventory, for service sectors it would be production, and for retail and wholesale it would be gross margin.

Overview of the Local Economic Effects of Closing the SCI Quehanna Facility

Where SCI Quehanna Employees Live

The table on the previous page presents the economic impact of the loss of all 234 jobs at SCI Quehanna; however, if this facility is closed, the employees will likely have the option to transfer to a nearby facility. While it would be difficult to assume the number of employees who would transfer to another facility and still live in Clearfield County, information on the following pages provides insights to areas potentially impacted based on current commuting patterns.

Note: For pension data, municipalities with data listed have all of their reported pension plans filed with the Municipal Pension Reporting Program (MPRP). If a municipality has one or more plans outstanding, a distress score cannot be determined until all plans have been filed with MPRP. Municipalities that have only defined contribution plans can never be considered distressed and are not listed.

Centre County Unemployed Workers by Industry

Overview of the Local Economic Effects of Closing the SCI Rockview Facility

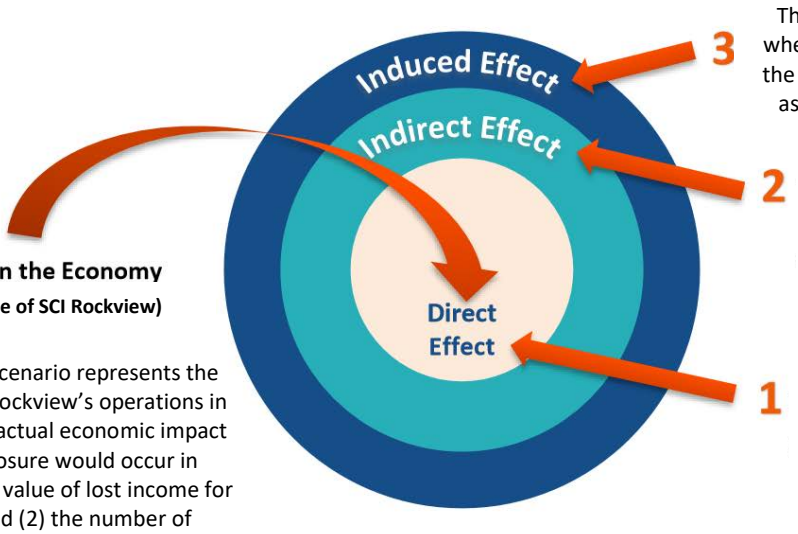

Centre County Annual Job Openings by Occupation

Impact of SCI Rockview on the Local Economy (Centre County)

The economic impacts of the closure of SCI Rockview to Centre County were estimated using the IMPLAN model and operational data provided by the PA Department of Corrections.

How the Effects of the Closure of SCI Rockview Would Ripple Through the Local Economy

The **Induced Effect** occurs when household spending in the local economy decreases as employees move away from area.

The **Indirect Effect** occurs when SCI Rockview's local vendors consequently reduce spending for wages and the purchase of goods and services.

The **Direct Effect** occurs when SCI Rockview ceases its spending to pay wages and purchase local goods and services.

The above impact scenario represents the total impact of SCI Rockview's operations in Centre County. The actual economic impact of the facility's closure would occur in proportion to (1) the value of lost income for local vendors, and (2) the number of employees and their households who would move away from the area to take a new job or experience a decrease in income by taking a lower paying job in the local area.

- 658 workers are employed at SCI Rockview
- $110 million estimated annual operational spending (Source: SCI Rockview)
  - 78% personnel expenses and 22% operational expenses
- $85 million of the annual spending is estimated to stay in the local economy (value added)
- In addition to the 658 Rockview employees, the IMPLAN model estimates that 295 additional jobs in the county are supported by Rockview operations and the household spending of its workers who live in the County.
- The loss to the local economy related to SCI Rockview's payments to local vendors is estimated by the IMPLAN model to be as much as $5.8 million each year (the indirect value added amount in the following table).
- The loss to the local economy related to SCI Rockview employees is estimated to be as much as $167,000 each year for every employee that moves away from the area to take a job (the total of direct and induced value added in the table below divided by 658 employees).
- The average salary for Rockview workers is $72,889. The areas that would be most affected by the closure of SCI Quehanna are presented on pages 8-12.

Overview of the Local Economic Effects of Closing the SCI Rockview Facility

Estimated Economic Impact of SCI Rockview (Source: IMPLAN)

Impact Type	Employment	Labor Income	Value Added	Output
1 - Direct	658	$85,052,836	$85,162,183	$105,102,666
2 – Indirect *	58	$3,980,164	$5,857,209	$12,277,372
3 - Induced	237	$13,072,086	$24,886,799	$40,412,159
Total	**954**	**$102,105,086**	**$115,906,190**	**$157,792,197**

* The IMPLAN model uses predefined spending assumptions based on the local economic environment and typical spending patterns to estimate the indirect impacts of Rockview's closing.

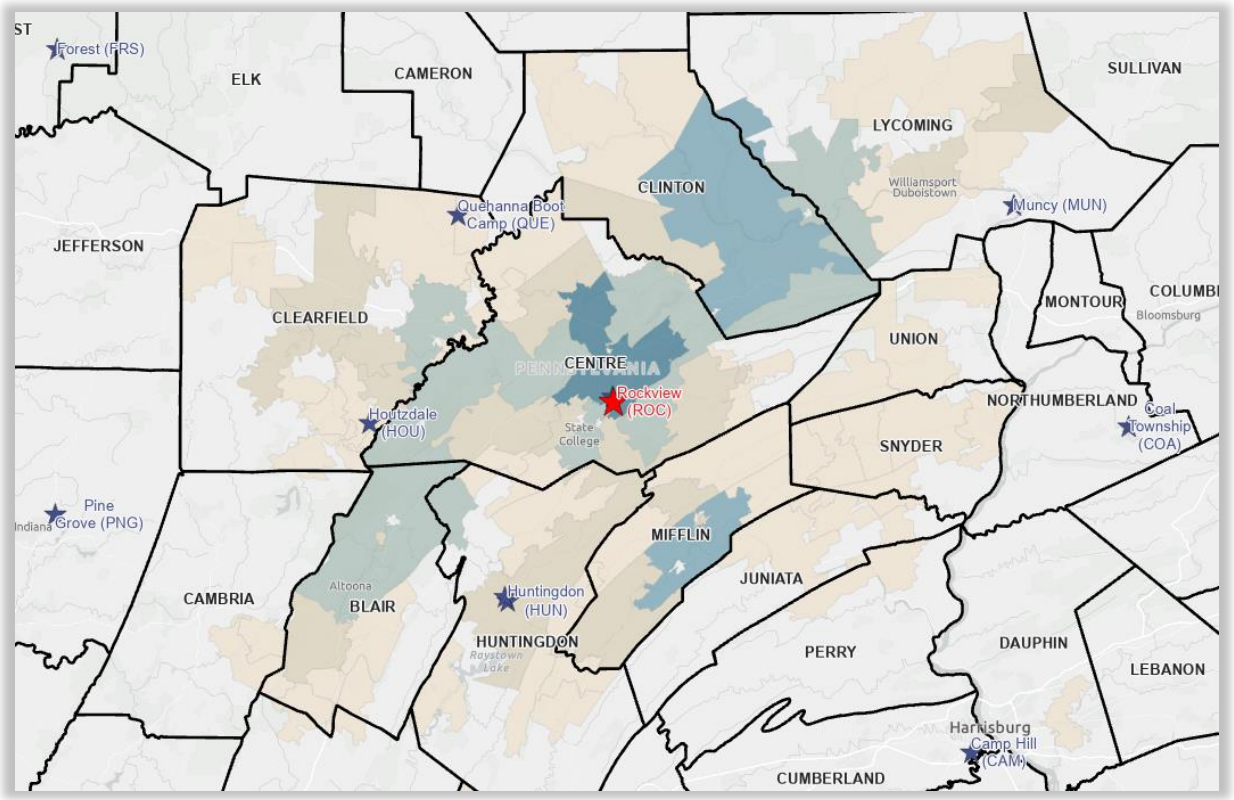

Labor Income is the sum of employee compensation (wages and benefits) and proprietor income.
Value Added is the sum of Employee Compensation, Proprietor Income, Other Property Income, and Taxes (less Subsidies).
Industry Output is the value of industry production. For manufacturing, this would be sales +/- inventory, for service sectors it would be production, and for retail and wholesale it would be gross margin.

Overview of the Local Economic Effects of Closing the SCI Rockview Facility

Where SCI Rockview Employees Live

The table on the previous page presents the economic impact of the loss of all 658 jobs at SCI Rockview; however, if this facility is closed, the employees will likely have the option to transfer to a nearby facility. While it would be difficult to assume the number of employees who would transfer to another facility and still live in Centre County, information on the following pages provides insights to areas potentially impacted based on current commuting patterns.

Note: For pension data, municipalities with data listed have all of their reported pension plans filed with the Municipal Pension Reporting Program (MPRP). If a municipality has one or more plans outstanding, a distress score cannot be determined until all plans have been filed with MPRP. Municipalities that have only defined contribution plans can never be considered distressed and are not listed.

Economic Impact Report for the Proposed Closures of Rockview State Correctional Institution and Quehanna Bootcamp

Center for Workforce Information & Analysis
April 4, 2025

Center for Workforce Information & Analysis
4/4/2025

Economic Impact of the Proposed State Correctional Facilities

In early 2025, the commonwealth announced the potential closings of the Rockview State Correctional Institution (SCI Rockview) in Centre County and the Quehanna Boot Camp in Clearfield County. The geographical areas most affected by this closure are the State College Metropolitan Statistical Area (MSA), which includes Centre County; the Central Workforce Development Area (WDA), which includes Centre, Clinton, Columbia, Lycoming, Mifflin, Montour, Northumberland, Snyder, and Union counties; and the North Central WDA, which includes Cameron, Clearfield, Elk, Jefferson, McKean, and Potter counties. Based on data provided to the Center for Workforce Information & Analysis (CWIA), there were 892 individuals employed between the two facilities - 658 at SCI Rockview and 234 at Quehanna Bootcamp.

The Pennsylvania Department of Corrections has indicated that it will make every effort to offer many of the affected SCI Rockview and Quehanna Boot Camp employees a position at five other state prisons within a 67-mile commute distance, including SCI Benner Township, SCI Houtzdale, SCI Smithfield, SCI Huntingdon, and SCI Muncy. **Such actions would greatly improve the economic impact of these proposed facility closures. Analysis in this report, as examined using IMPLAN (i.e., "IMpact analysis for PLANning") modeling software, will focus on the economic impact should these relocations not occur.**

Closing facilities and consolidating inmate populations and remaining staff in alternative locations has an economic effect that extends beyond just the local economy impacted by the closing, as other industries throughout the state are also impacted by the change in economic activity. As the fiscal impact of a facility closing (through less spending within the local economy) circulates and recirculates through the economy in a multiplier effect, the impact of the initial closing is eventually exhausted through imports, exports, profits and losses, employee compensation, and taxes.

Attachments A through D show the potential effects of the proposed facility closures under three different scenarios: 1) Both SCI Rockview and Quehanna Boot Camp facilities close, 2) Only SCI Rockview closes, and 3) Only Quehanna Boot Camp closes. Estimated impacts on output, employment and tax revenue for each of the three scenarios are presented in Attachment A. Total output is comprised of two components: "Value Added", which includes labor income, taxes on production and imports, and other property income; and "Intermediate Expenditures", which includes goods and services produced by one industry that are incorporated into the production process of another industry, to produce its output. The data are categorized by the types of industries that will be adversely affected. First is the specific industry in which SCI Rockview and Quehanna Boot Camp are found (direct impact). Second are related industries or suppliers to the direct industry (indirect impact). Lastly are industries such as retail trade and health care that are impacted due to decreased spending because of lost jobs and less available household income (induced impact).

Assuming both facilities are closed, the employment multiplier for these layoffs in Pennsylvania is 2.5, which is below the Pennsylvania multiplier average for all industries, or 2.7. An estimated 2.5 jobs will be lost for each job lost at SCI Rockview and Quehanna Boot Camp (this includes the jobs lost at both facilities). Thus, a loss of 892 jobs may result in an estimated total of 2,245 jobs lost (892 multiplied by 2.5 – specifically in this case 2.52).

Industries that also likely to experience employment losses for each of the three scenarios are presented in Attachments B, C & D. Data in these tables are also categorized by direct, indirect and induced jobs.

Economic impact analysis is most useful as an indicator of severity and of inter-industry linkages. Impact analysis is generally a worst-case scenario in which the effects of substitution in the supply chain of the closing facility are not considered. Below are some overall fiscal and employment impacts for each of the three scenarios analyzed.

- **Scenario #1**: For every dollar lost as direct impact due to the facility closings, an additional $0.86 dollars would be lost in Pennsylvania's economy through drops in indirect and induced spending. For every job lost as a direct impact, an additional 2.5 jobs would also be lost (as either an indirect or induced impact).
- **Scenario #2**: For every dollar lost as direct impact due to the facility closings, an additional $0.88 dollars would be lost in Pennsylvania's economy through drops in indirect and induced spending. For every job lost as a direct impact, an additional 2.7 jobs would also be lost (as either an indirect or induced impact).
- **Scenario #3**: For every dollar lost as direct impact due to the facility closings, an additional $0.85 dollars would be lost in Pennsylvania's economy through drops in indirect and induced spending. For every job lost as a direct impact, an additional 1.9 jobs would also be lost (as either an indirect or induced impact).

Methodology: Use of IMPLAN Economic Impact Analysis Tool

IMPLAN® model, 2023 Data, using inputs provided by staff of the Center for Workforce Information & Analysis (CWIA), Pennsylvania Department of Labor & Industry (i.e., "user") and IMPLAN Group LLC, IMPLAN System (data and software), 16905 Northcross Dr., Suite 120, Huntersville, NC 28078 www.IMPLAN.com.

For this report, the IMPLAN economic impact analysis tool was used to estimate the economic impact of closing SCI Rockview and Quehanna Boot Camp within Pennsylvania using 2023 data. The industry sector chosen for the model was "513 - Other state government enterprises". Results from the completed analysis were adjusted to 2025, to account for inflation's impact on output prices and the multiplier effect, and to make the report analysis in terms of current year prices.

Attachment A
Overall Economic Impact from Job Loss Scenarios

Scenario #1: 892 Jobs lost at Rockview SCI and Quehanna Bootcamp

	Impact Totals (Lost)			
	Direct[1/]	**Indirect[2/]**	**Induced[3/]**	**Total**
Employment	892	1,497	738	3,127
Total Output	$534,810,000	$336,050,000	$126,260,000	$997,120,000
State and Local Tax	--	--	--	$21,450,000

Scenario #2: 658 Jobs lost at SCI Rockview

	Impact Totals (Lost)			
	Direct[1/]	**Indirect[2/]**	**Induced[3/]**	**Total**
Employment	658	1,220	584	2,462
Total Output	$434,560,000	$276,700,000	$102,080,000	$813,340,000
State and Local Tax	--	--	--	$17,110,000

Scenario #3: 234 Jobs lost at Quehanna Boot Camp

	Impact Totals (Lost)			
	Direct[1/]	**Indirect[2/]**	**Induced[3/]**	**Total**
Employment	234	277	160	671
Total Output	$100,240,000	$59,530,000	$26,130,000	$185,900,000
State and Local Tax	--	--	--	$4,440,000

Source: *IMPLAN*

[1/]Direct impact is the output or number of employees lost within the specific industry (where the closure will occur).

[2/]Indirect impact is the output or number of employees lost in related industries (suppliers to the direct industry) caused by the decrease in spending by the direct industry.

[3/]Induced impact is the output or number of employees lost by other industries due to changes in spending by those having lost jobs (direct and indirect) and decreased available household income, such as less retail spending, health care, etc.

Northcentral Regional Office

SCI Rockview Summary of Environmental Permits

Air Quality Program

SCI Rockview holds Operating Permit 14-00005 which was last renewed as a Major Facility Operating Permit on July 15, 2020. The current renewal of that permit was received on May 14, 2024 and is currently under review as a Minor Source Operating Permit. SCI Rockview is now considered a Minor Source because all coal-fired boilers have been removed from the site. The current sources on site consist of two boilers (a Nebraska boiler and a Cleaver Brooks boiler) and an emergency generator. If SCI Rockview ceases operation, the permit may only be terminated when all sources have been removed or rendered unusable. Until that occurs, the Department of Corrections has two ways of complying with the permit: 1. Continue to operate per the terms of the permit. 2. Submit a maintenance plan within one year of deactivation in accordance with Title 25 PA Code Section 127.11(a), *Reactivation of Sources*.

Safe Drinking Water Program

SCI Rockview operates a Community Water system (Public Water System ID 4140098) that serves both SCI Rockview and SCI Benner. The system maintains a permitted interconnection with the Bellefonte Borough Water Authority for redundancy. If the closure of SCI Rockview causes no changes to the treatment and distribution systems, it is possible that no permits will need to be issued by the Safe Drinking Water Program. Otherwise, minor changes may require the submission of a modification permit.

Waste Management Program

The Waste Management Program has minimal involvement with SCI Rockview. Currently the site is listed as a residual waste generator but has no authorizations or compliance issues with the Waste Management Program.

Clean Water Program

The Clean Water Program is not directly involved with SCI Rockview. Sewage generated at the SCI is conveyed by the Spring Benner Walker Joint Authority to Bellefonte Borough's wastewater treatment plant for disposal. There is a pump station owned by the Spring Benner Walker Joint Authority near SCI Rockview, but to our knowledge the closure of SCI Rockview will not cause issues for that pump station. Additionally, the Bellefonte sewage treatment plant will not be meaningfully impacted by the reduction in flow if SCI Rockview closes.

Waterways and Wetlands Program

The NCRO Waterways and Wetlands program has no outstanding issues with SCI Rockview. However, note that the drinking water reservoir associated with the drinking water system described above has a dam permit with the Division of Dam Safety in the Bureau of Waterways Engineering and Wetlands in Central Office. The dam was last inspected in the fall of 2024, revealing no violations.

Storage Tanks Section, Environmental Cleanups and Brownfields Program

NCRO has no open remediation cases at SCI Rockview under the purview of the Environmental Cleanups and Brownfields Program, including the Storage Tanks Section. There are two active Storage Tanks Locations at SCI Rockview. One (Facility ID 14-05021) is directly owned by DOC, and the other is owned by Univar Solutions (Facility ID 14-34062). DOC has five regulated Above-Ground Storage Tanks that are currently in use: Tank 001A, a 2,000-gallon gasoline tank, Tank 002A, a 2,000-gallon diesel tank, Tank 003A, a 4,000-gallon gasoline tank, Tank 004A, a 4,000-gallon diesel tank, and Tank 005A, a 6,000-gallon diesel tank. In addition, DEP has records of 2 exempt Underground Storage Tanks (UST), Tank 004, an 8,000-gallon UST holding heating oil and Tank 006, a 550-gallon heating oil UST. Univar Solutions has one Above-Ground Storage tank in use: a 550-gallon Sodium Hydroxide Tank. All tanks should be emptied and removed by a certified tank contractor if SCI Rockview is closed.

District Mining Operations

There are explosives magazines at SCI Rockview which are inspected by the Moshannon District Mining Office. That office has indicated that the magazines can remain and be used by SCI Benner (or other facilities) without changes to the current permit. If the property is sold or transferred, the magazines would need to be decommissioned with the involvement of the blasting and explosives inspector at the Moshannon District Mining Office. If the magazine is closed, it must be emptied and a letter from DOC must be provided which states that the explosives were taken to another approved storage magazine, or that they were destroyed, and the facility was decommissioned through the Moshannon District Mining Office.

Radiation Protection Program

SCI Rockview has eight X-ray devices – one non-medical body scanner, two non-medical cabinet, two Dental Panoramic, and three Dental Intraoral units. Each unit is registered with, and regulated by, the Department of Environmental Protection's Radiation Protection Program. The registration for these devices will need to be properly terminated to maintain compliance with the Department's rules and regulations. To complete the termination process, these devices will need to be disposed of using one of the methods outlined in the following guidance document: Disposal Options For Radiation-Producing Machines. Once disposed of a request to terminate the device registration must be completed for each device. The form – Terminating Registration Of Radiation Producing

Machines – can be found on the DEP website and must be submitted to the Department no less than 30-days from the disposal date.

Quehanna Boot Camp Summary of Permits

Air Quality Program

The Air Quality Program has no outstanding issues with the Quehanna Boot Camp (QBC). No permit was required for this site.

Safe Drinking Water Program

QBC operates a Community Water System (PWS ID 6170345). The permits associated with this water system can be transferred to a new owner if QBC is closed. If DOC chooses to remove the water system, the permit will need to be terminated, and the well should be abandoned in accordance with the procedures maintained by DCNR.

Waste Management Program

The Waste Management Program is not involved with QBC.

Clean Water Program

QBC Operates a 90,000 gallon per day sewage treatment plant with a discharge to Marks Run authorized under NPDES Permit No. PA0113948. The NPDES permit was last renewed in 2023. Additionally, the construction and operation of the sewage treatment facility is covered under WQM1799401 as amended. The permits associated with this sewage treatment plant can be transferred to a new owner if QBC is closed, or the permits can be terminated. Note that until the NPDES and WQM permits are terminated, DOC will need to continue to comply with the terms of the permits including the continued submission of monthly Discharge Monitoring Reports as required under NPDES Permit No. PA0113948. Please be aware that if the permits are terminated, a closure plan will need to be submitted for the Department's approval.

Waterways and Wetlands Program

The Waterways and Wetlands Program is not involved with QBC.

Storage Tanks Section, Environmental Cleanups and Brownfields Program

NCRO has no open remediation cases at QBC under the purview of the Environmental Cleanups and Brownfields Program, including the Storage Tanks Section. DOC operates three regulated above-ground storage tanks at QBC under Facility ID 14-34431: Tank 001A, a 2,000-gallon diesel tank, Tank 002A, a 1,700-gallon diesel tank, and Tank 003A a 1,700-

gallon diesel tank. These tanks can be transferred to a new site owner, but otherwise all tanks should be pumped empty and removed by a certified tank contractor if QBC is closed.

District Mining Operations

The Mining Program is not involved with QBC.

Radiation Protection Program

The Quehanna Motivational Boot Camp has three X-ray devices – one dental intra-oral, one Dental Panoramic, and one non-medical cabinet unit. Each unit is registered with, and regulated by, the Department of Environmental Protection's Radiation Protection Program. The registration for these devices will need to be properly terminated to maintain compliance with the Department's rules and regulations. To complete the termination process, these devices will need to be disposed of using one of the methods outlined in the following guidance document: Disposal Options For Radiation-Producing Machines. Once disposed of a request to terminate the device registration must be completed for each device. The form – Terminating Registration Of Radiation Producing Machines – can be found on the DEP website and must be submitted to the Department no less than 30-days from the disposal date.

pennsylvania
DEPARTMENT OF CONSERVATION
AND NATURAL RESOURCES

BUREAU OF FORESTRY

TO: David Radziewicz, DOC Liaison

FROM: Seth Cassell, State Forester

DATE: April 3, 2025

SUBJ: Proposed closure of the Quehanna Boot Camp

CC: Diana Woodside, DOC Policy Director/Nicole Faraguna, DCNR Policy Director

DCNR appreciates the opportunity to provide comments and background related to the Quehanna Boot Camp.

The Department of Conservation and Natural Resources (DCNR) Bureau of Forestry has leased the referenced Quehanna industrial complex to the Pennsylvania Department of Corrections (DOC) since 1991. In addition to DOC, the Pennsylvania Game Commission, Pennsylvania Department of Transportation (PENNDOT), and Nydree Flooring are other lease holders within the complex. The Quehanna Boot Camp and the other facilities on the property have become a part of the Clearfield County community providing employment for hundreds in the area. The DCNR appreciates that DOC has considered the employees of the boot camp when proposing the closure.

The proposed closure of the Quehanna Boot Camp (QBC) has many potential impacts upon the DCNR, including the following:

- In absence of other arrangements, the maintenance of all QBC buildings and facilities would fall to the DCNR Bureau of Forestry (BOF). The DCNR BOF has no need for this extensive building inventory, which includes a minimum of 18 buildings of various sizes, ages, conditions and uses; wells, a reservoir and water treatment facilities; and a sewage treatment plant. Nor does the DCNR BOF have the budget to do so. The DCNR requests a site abandonment plan and commitment by DOC to raze all buildings to the satisfaction of the DCNR.
- Currently, the DOC provides treated water to meet the potable water needs of the Nydree Flooring production facility and the water necessary to charge their fire suppression system. Records from 2023 indicate this consumes roughly 10% of the water treatment systems annual production, averaging around 10,500 gallons per month. This water supply will need to be maintained in the event the QBC closes. At minimum DCNR requests DOC maintain a water treatment plant operator at this location until the long-term water treatment needs have been satisfactorily accounted for.
- The DOC permits and operates a sewage treatment plant designed to meet the needs of 615 inmates and more than 200 staff. This system would become immediately superfluous in the event of the closure of the QBC. DCNR would ask DOC to fully decommission the sewage treatment plant and commit to funding the permitting,

design and construction of a stand-alone on-lot system capable of meeting the needs of the remaining tenants of the complex.

- The DOC operates and maintains a shooting range on site that is utilized by both DOC and Pennsylvania State Police (PSP) staff for training and firearm qualifications. In the event the QBC is closed as proposed DCNR asks DOC to contract a lead mitigation study on the area for the purpose of supplying an opinion of cost necessary for the retirement of this facility. This opinion would be the precursor to a discussion and committing funds to the proper management, mitigation and retirement of the facility.
- While not directly related to the QBC proposal, the DCNR remains in support of the various avenues of cooperation which have been established in the spirit of mutual support with the Rockview Forestry Camp, including workforce development and wildland fire response.

The proposed closure to the Quehanna Boot Camp would result in a change of operations for the facilities the DOC currently occupies and potentially the other lessees within the complex. DCNR thanks you for the opportunity to provide comments.

Pennsylvania State Historic Preservation Office
PENNSYLVANIA HISTORICAL AND MUSEUM COMMISSION

Christian Kita
Department of Corrections ¦ Bureau of Operations

RE: ER Project # 2025PR01701.001, Quehanna Boot Camp and SCI Rockview Potential Closure, Department of Corrections, Potter Township, Centre County

Dear Christian Kita,

Thank you for submitting information concerning the above referenced project. The Pennsylvania State Historic Preservation Office (PA SHPO) reviews projects in accordance with state and federal laws. Section 106 of the National Historic Preservation Act of 1966, and the implementing regulations (36 CFR Part 800) of the Advisory Council on Historic Preservation, is the primary federal legislation. The Environmental Rights amendment, Article 1, Section 27 of the Pennsylvania Constitution and the Pennsylvania History Code, 37 Pa. Cons. Stat. Section 500 et seq. (1988) is the primary state legislation. These laws include consideration of the project's potential effects on both historic and archaeological resources.

Project Description
Thank you for the notification of the planned closure and disposition of SCI Rockview and Quehanna Boot Camp and the request for comments from the Pennsylvania State Historic Preservation Office (PA SHPO).

Archaeological Resources
SCI Rockview
The following previously recorded archaeological sites and district are located within or adjacent to your project area: 36CE0411, 36CE0404, 36CE0410, 36CE0403, 36CE0409, and the Bald Eagle Jasper Archaeological District 2024RE04980. These resources could be adversely affected by project activities and have not been evaluated for their eligibility for listing in the National Register of Historic Places (National Register). It is our opinion that a Phase I archaeological survey to relocate these known sites and locate other potentially significant sites within the project area should be conducted. Guidelines and instructions for conducting all phases of archaeological survey in Pennsylvania are available on our website: https://www.phmc.pa.gov/Preservation/About/Documents/Guidelines%20for%20Archaeological%20Investigations.pdf.

Quehanna Motivational Boot Camp
The disposition of the Quehanna Motivational Boot Camp should have No Effect on archaeological resources. Should the scope of this disposition be amended to include additional ground-disturbing activity and/or you should be made aware of historic property concerns regarding archaeological resources, you will need to reinitiate consultation with our office using PA-SHARE.

Above Ground Historic Properties
Quehanna Motivational Boot Camp
As a result of Phase 2 of the state-owned properties survey for Department of Corrections facilities, the Quehanna Motivational Boot Camp (Resource # 2022RE09697) was determined not eligible for

listing in the National Register of Historic Places (National Register). No further coordination with our office regarding this disposition and potential effects to above ground historic properties is needed.

SCI Rockview Historic District
Also as part of the state-owned properties survey, SCI Rockview Historic District (Resource #1980RE00133) was documented and determined to continue to be eligible for listing in the National Register under Criterion A in the areas of Social History and Other: Penology, as it clearly displays the evolution of Pennsylvania's penal system, shifting from incarceration and punishment to rehabilitation through the inculcation of vocational skills as supported by its rural location. The property also remains eligible under Criterion C in the area of Architecture for its significant collection of modern Neoclassical buildings designed by architect John Windrim, specifically for penitentiary use. The period of significance begins in 1914, the date of completion of the first building, and extends up to 1974, 50 years from the present as the property continues to evolve and adapt to prison reforms. Over 70 of the 100-plux buildings are considered to contribute to the historic and architectural significance of the complex. The National Register boundary includes approximately 5,500 acres.

Consideration of Alternatives
Demolition of historic buildings or disposition of historic properties out of state control without measures for resource protection have the potential to adversely affect historic properties. Therefore, documentation of consideration of alternatives to avoid or minimize adverse effects is requested. Consideration of alternatives should include retention of the complex or portions of the complex for new or continued use by the Department of Corrections or other state agencies. We also request documentation of consideration of economic development strategies for the adaptive reuse and long-term preservation of the property or portions of the property.

Given the size of the complex, we recognize not all buildings can be saved, and we encourage DGS to investigate the feasibility of retention of at least some historic buildings for adaptive reuse and/or marketing. As part of the state-owned properties survey, the buildings were documented in groupings, and it may be ideal to retain or market groupings of historic buildings that are historically or physically related. The Neoclassical style buildings constructed between 1914 and 1940 (Rotunda/Main Cell Block, Deputy Warden's Building, Dining Hall/Auditorium) were assessed as having notable architectural significance and should be considered the focus of any preservation efforts.

The PA SHPO administers preservation incentives that could be utilized to ensure the preservation of the property and its historic character and asks that DGS consult with us to determine if one or all of these programs could be used in the marketing of the historic property. This includes:

- Listing the property in the National Register so that it can be offered for sale with the promise of federal and state rehabilitation investment tax credits for income producing properties which provide a tax break for the rehabilitation of historic resources listed in the National Register of Historic Places.

- Disposition of the complex or portions of the complex with a historic preservation covenant held by our office that would require the new owner to maintain and preserve the property in accordance with the Secretary of the Interior's Standards for the Treatment of Historic Properties.

- Working to identify future local governments or non-profits who could accept PA SHPO grants to investigate or implement adaptive reuse of buildings in the complex.

Additional Consultation
As the disposition process continues forward, please consider the views of local preservation organizations in coordination with our office including but not limited to: Centre County Historical Society, Center County Planning and Development Office, Clearfield County Historical Society, and Pennsylvania State University's Department of Architecture and Department of History.

Resolution of Adverse Effects
If it is not possible to preserve and reuse the buildings in the complex, it will be necessary to discuss potential mitigation options with our office to help offset the loss of the historic property. This may include public interpretation, more detailed resource documentation, or other ideas for mitigation that are relevant to the resource and have a public benefit.

Finally, we have added the emailed request for review of the dispositions to PA-SHARE, the SHPO's online consultation system. Please continue consultation in the system, including providing a response to the requests for additional information, as outlined in this letter.

For questions concerning archaeological review, please contact Kristen Walczesky at [redacted]. For questions concerning above ground resources, please contact Barbara Frederick at [redacted]

Sincerely,

Barbara Frederick
Environmental Review Division Manager
