

THE GOAL:

Increase Public Safety. Reduce Taxpayer Costs.

A 10% DROP in Reincarceration rates =
\$44.7 MILLION SAVINGS/Year
(475,035 bed days)

A 10% REDUCTION in repeat offender prison admissions =
\$16.5 MILLION SAVINGS/year
(257,573 bed days)

COMMUNITY CORRECTIONS FACILITY (Halfway House)

Inmates released to a CCC recidivated 7% HIGHER than inmates released to the street. *(2008 data)*

RECIDIVISM IN PENNSYLVANIA

Meeting the Challenge of the New Normal

OVERALL RECIDIVISM RATES BY PAROLE RELEASE TYPE

**PENNSYLVANIA DEPARTMENT of CORRECTIONS
PRESENTS A 2013 REPORT.**

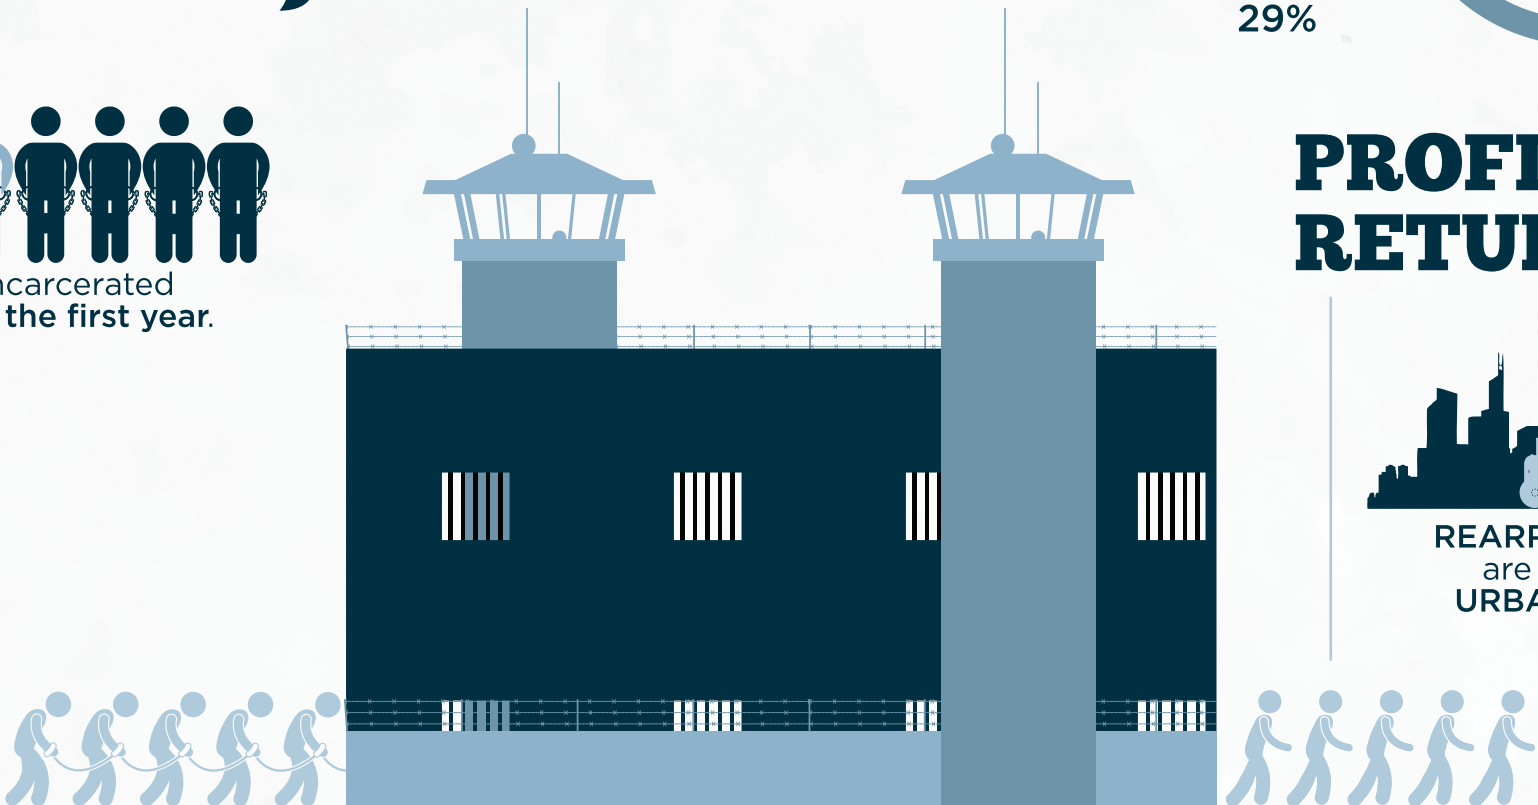

re-cid-i-vism*(pron)* – the return to crime or to prison of former inmates, typically measured by rearrest, reconviction, or reincarceration

THE BIG PICTURE:

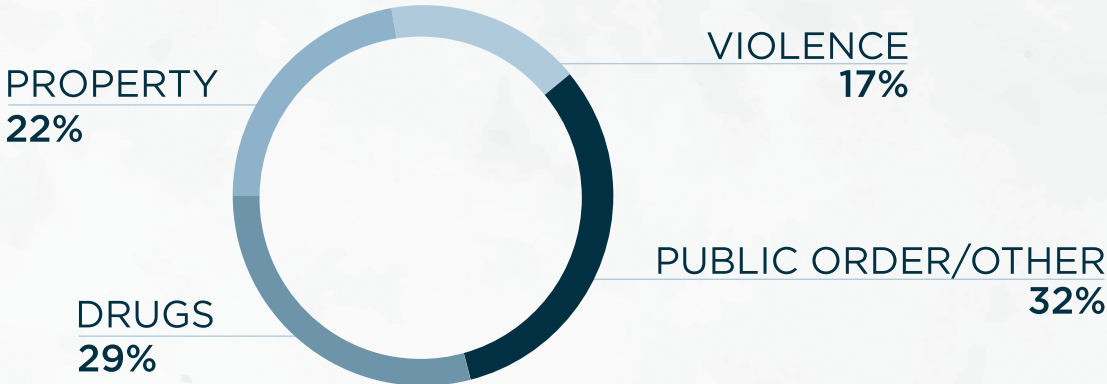

ONE in **TWO HUNDRED** adult Pennsylvanians is currently incarcerated in a Pennsylvania State Correctional Institution.

In the past 10 YEARS, **RECIDIVISM** rates have remained largely *unchanged*.

REASONS FOR REARREST:

PROFILE OF RETURNING INMATES:

RETURNING TO PRISON (2008 Data):
