Secretary

November 2003

We are pleased to present the 2002 Annual Statistical Report on Pennsylvania's state prison system. This report provides a statistical overview of inmates admitted to, incarcerated in, and released from the Pennsylvania Department of Corrections in Calendar Year 2002. The report also offers a limited historical perspective on inmate profile changes for calendar years 1992 through 2002.

Recognizing the importance of reliable data for effective planning and evaluation efforts, the Department is committed to the ongoing development and refinement of our information systems and the corresponding published data reports. These efforts are being continuously undertaken in order to provide policy makers and correctional administrators with the timely and accurate data necessary to effectively manage the Department's nearly 15,000 employees, 26 prisons, 14 community corrections centers, one motivational boot camp, and more than 40,000 inmates.

We trust that this annual statistical report will serve to increase your understanding of the state prison system, its inmate population, and the significant challenges which the Department as well as Pennsylvania's entire criminal justice system are addressing.

Sincerely,

Jeffrey A. Beard, Ph.D.
Secretary of Corrections

Section II

Population

Population

The overall incarceration rate in Pennsylvania remained stable at 309.4 per 100,000 state residents in 2001 and 308.2 per 100,000 in 2002. Nationally, the incarceration rate of state prisoners was 422 per 100,000 residents for yearend 2001 (U.S. Bureau of Justice Statistics).

Philadelphia County had the highest state incarceration rate of 1013.6, and Bedford County had the lowest at 66.1 per 100,000 state residents.

Of the top ten counties with the highest incarceration rate, Philadelphia County was the highest with a rate of 1013.6 per 100,000 state residents and Berks County was tenth with 293.9. The same ten counties ranked as the counties with the highest incarceration rates in both 2001 and 2002.

From 1992 to 2002, the number of inmates incarcerated has increased by 60.8%. The department experienced a 5.5% increase in inmate population between 2001 and 2002. The total inmate population was 38,067 on December 31, 2001 and 40,172 on December 31, 2002.

From 1992 to 2002, the number of sentenced offenders increased by 52.7% and the number of parole violators increased by 112.3%.

At the end of 2002, the population was comprised of 81.8% sentenced offenders and 18.1% parole violators.

At the end of 2002, 51.1% (N=20,508) of the inmate population were serving time for a Part One Offense, and 30.8% (N=12,357) were serving time for Part Two Offenses. Although Part One Offenders still out-number Part Two Offenders, there has been a steady increase in the number of Part Two Offenders over the past five years. Between 1998 and 2002, the number of Part One Offenders decreased by 1.3 % and the number of Part Two Offenders increased by 31.2%.

Parole violator returns increased by 6.9% from 6,834 in 2001 to 7,287 in 2002. Over the five-year period, there was an 17.8% increase, from 6,186 in 1998 to 7,287 in 2002.

Although the Department's capacity increased by more than 12,000 beds from 1994 through 2002, the Department was operating at nearly 16% over capacity as of December 31, 2002.

A demographic breakdown of the Department's inmates indicates that offender age, race, and gender have remained relatively constant over the 2001 to 2002 period:

The average age of a DOC offender in 2002 was 35, and half of the offenders were within the ages of 25 - 39 years.

While the number of offenders age 20 and under decreased by 5.3% between 2001 and 2002, the number of offenders age 50 and older grew by 10.6%. to 39 in 2002.

In 2002, the majority of DOC offenders were African Americans (53.6%), followed by Caucasians (34.6%), Hispanics (11.1%), and other races (0.7%).

Of the 40,172 offenders in the DOC population as of calendar year-end 2002, 95.5% (N=38,357) were males and 4.5% (1,815) were females.

In 2002, the average minimum sentence length for Part One Offenders was 8.6 years and the average maximum sentence length was 18.9 years. For Part Two Offenders, the average minimum sentence length was 3.7 years and the average maximum sentence length was 8.2 years.

The number of inmates serving a minimum sentence of more than 20 years (excluding inmates serving life sentences and capital cases) increased by 7.4% from 1,004 in 2001 to 1,078 in 2002. This represents 2.7% of the total inmate population.

The following are characteristics of offenders serving life sentences in the Department:

The number of offenders serving a life sentence increased by 2.9%, from 3,752 in 2001 to 3,859 in 2002.

The average age of inmates serving life sentences in 2002 was 41.0 years, compared to 40.4 in 2001. The average age of inmates serving life sentences remains higher than the average for the total population (41.0 years versus 35.0 years respectively).

Inmates serving life sentences presently incarcerated in the Department who have served less than 15 years accounted for 59.4% of the total lifer population in 2001, versus 57.7% in 2002.

Notes: The 2001 - 2002 percent of capacity does not include the Forensic Psychiatric Unit population at SCI Waymart. In 1994, the DOC began reporting Multiple Occupancy Capacity Strategy (MOS). The MOS allows for two or more inmates to be housed in a cell or dorm based on space constraints and security levels. In general, 80% of the cells/dorms house 2 or more inmates and 20% house one inmate.

Glossary

Capacity: The maximum number of single cell beds a facility was originally designed for, plus beds added or eliminated due to renovations and/or additions.

Capital cases: Inmate found guilty of first degree murder and sentenced by a judge to death by execution.

Commutations: A change of a legal penalty or punishment to a lesser one. A commutation for an inmate serving a life sentence is the establishment of a parole date.

Conditional release: The release of an inmate from the Department of Corrections to another supervising authority. This method of release includes the following types:

State Parole: When an inmate is released to the community and is supervised by the Pennsylvania Board of Probation and Parole.

County Parole: When an inmate is released to the community and is supervised by the county probation/parole department.

Reparoled (State): When an inmate is paroled from a state correctional facility, returned to the Department of Corrections for a parole violation, serves time in the institution, and is again released to the community under supervision of the Pennsylvania Board of Probation and Parole.

County transfers: When an inmate serving a county sentence is transferred to the Department of Corrections. The reason for the transfer could be for security, medical, or mental health reasons.

Court Commitments: A commitment imposed by a court sentencing an individual to confinement in a state correctional facility.

Detentioners: An inmate who has not been sentenced to a Pennsylvania state correctional facility, but who is being housed in a Pennsylvania state correctional facility at the request of another jurisdiction such as a county, another state, or the federal government.

Escape: The intentional act of an inmate to leave the custody of the Department of Corrections. The act of escape includes the following types:

Breach escape: When an inmate, in the process of intentionally leaving the the custody of the Department of Corrections, compromises the security perimeter of the facility.

Walk away escape: When an inmate intentionally leaves the custody of the DOC while on an authorized release or furlough (i.e., work detail, medical treatment, educational release, etc.). A walk away, as opposed to a breach escape, does not compromise the security perimeter of the facility as it occurs outside the security perimeter (i.e., wall, fence, etc.).

Incarceration rate: The number of state sentenced inmates incarcerated per 100,000 Pennsylvania residents.

Lifer: An individual with a minimum and maximum sentence of natural life.

Minimum sentence: The minimum amount of time imposed by the court that an inmate must serve before being eligible for release from prison. This sentence cannot exceed one-half of the maximum sentence under the Pennsylvania statute.

Maximum sentence: The maximum amount of time spent imposed by the court that an inmate can be required to serve before being released from prison.

Non-recommit action: The release of a parolee who was returned to the department as a possible parole violator. If the return action is not adjudicated as a parole violation, the parolee is re-released to parole.

Offender: Generally refers to an individual who is convicted of an offense but who has not been received by the state by the state prison system. This term is used in the Receptions Section of this report to denote newly admitted individuals.

Parole violators: Persons paroled from prison who violated the terms and/or conditions of their parole. Parole violators are generally classified as technical or convicted violators. Technical violators are recommitted for failure to adhere to the requirements of their parole plan (i.e., non-reporting to agent or program, non-criminal drug violations, etc.), while convicted violators are found guilty of new criminal offenses. A technical/convicted violator is committed for violating conditions of parole in addition to being charged with commission of a new criminal offense.

Part I Offenses: Offenses identified by the Uniform Crime Report which are of a serious nature and are usually reported to law enforcement agencies. Crimes identified as Part I Offenses include: criminal homicide, forcible rape, robbery, assault, burglary, larceny-theft, motor vehicle theft and arson.

Part II Offenses: Offenses not classified as Part I Offense as defined above because they are less serious crimes. Crimes identified as Part II offenses include: fraud, stolen property, forgery, narcotic drugs, and drunken driving.

Reparole: A parole release after a previous parole revocation. The initial parole and subsequent reparole occur during the same sentence.

Sentenced: Inmates who are serving time on court-imposed sentences. (Does not include inmates who are serving time because of parole violations.)

Uniform Crime Report (UCR) Offense Groupings: Offense classifications employed by Pennsylvania's criminal justice system. In order to remain compatible with the Federal Bureau of Investigation, the categories of offense classification utilized are the same as those employed at the national level. The crimes defined in this classification system are grouped as Part I or Part II offenses.

Unconditional release: The means of release for inmates who have either served their maximum sentence or have had their sentences reduced or vacated by the court (e.g., max out, executed, court order, etc.).

Victim comments: Oral and written statements describing the impact of crime on the victim's feelings regarding pre-release of a particular offender.

Victim registration: When crime victims request to be informed as to the status of offenders who perpetrated criminal acts against them or a family member. The registration occurs in the victim input and notification program as administered by the Office of the Victim Advocate.
