

2025 BASIC TRAINING PROGRAM SYLLABUS

The Basic Training program is a pre-service training program for all new staff entering the Pennsylvania Department of Corrections. Through the Basic Training program, staff are exposed to the agency's mission and team culture, general expectations while working in the agency, Department of Corrections policies and procedures, and the content and skills that will equip them with the necessary foundation to effectively and successfully perform in their respective positions.

Students will demonstrate proficiency through skills practice, skills tests, informal feedback, weekly examinations, and attaining certifications. The course is continually evaluated through end of course evaluations and observations by training staff.

All participants are required to pass weekly written examinations with a minimum score of 70%. Individual courses may also require written and/or demonstration of skills for qualification (such as CPR/AED and BFA) and are identified in the Basic Training Course Description Booklet. The Basic Training Handbook conveys the rules and expectations while attending Basic Training.

Staff attending the Basic Training program can expect to be able to:

1. Communicate effectively with parolees, reentrants, inmates, staff, visitors, and the public in the performance of their job duties
2. Apply professional and ethical behavior in the performance of their job duties
3. Practice the fundamentals of static and dynamic security specific to a correctional setting
4. Determine what observations and actions need to be reported and documented, and use the proper chain-of-command
5. Demonstrate characteristics to participate effectively as a member of a work team
6. Correct negative behaviors and reinforce positive behaviors displayed by inmates or reentrants in their facility
7. Apply evidence-based practices in the supervision of inmates, parolees and reentrants
8. Perform all duties within facilities and communities in a safe and effective manner
