

2024 Commonwealth Telephone Directory Usage Recommendations

Viewing the 2024 Commonwealth Telephone Directory pdf on a desktop will allow you to access all the bookmarks and enter a specific page number referenced from the index. If you access the same file from your mobile device, you will not be able to access the bookmarks or jump to a specific page, which means too much laborious scrolling.

If you save the directory pdf to your mobile device, install the Acrobat Reader app, and open the directory pdf from the Acrobat Reader app, you will be able to access the bookmarks and also enter specific page numbers to jump to a specific page referenced from the index.

 Use Acrobat Reader app in order to access directory navigation from mobile device.

Adobe Experience Manager (AEM) content management system is currently being rolled out across PA.GOV. DGS will be investigating ways to utilize AEM in order to streamline the process for creating and updating the directory as soon as possible.
