**ITO HOURLY RATE STRUCTURE:** The ITQ hourly rate structure is based on two categories, the Starting Rate for the Novitiate, and the Legacy Rate for the Expert. Both rates are pre-determined by the commonwealth and are identified in the table below.

- A. Starting Rate (Novitiate): The starting hourly rate, or Novitiate, is equivalent to an internal Commonwealth paygrade for comparable classified positions performing similar work. This rate is also comparable to an average rate charge for historical freelance services. The Contractor is determined to be able to provide “successful” work; meaning things are crisp and clear when taking photography stills, video is in focus, etc.
- B. Legacy Rate (Expert): The legacy hourly rate, or Expert, is quantifiable only by a Novitiate who has successfully received Purchase Orders and documented, by CMS, hours totaling 1,040 per ITQ service category in a single fiscal and/or calendar year. The rate must be within one (1) category to obtain the legacy/expert rate. This length of time is equivalent to a satisfactory “probationary period” that a typical employee would be required to complete before being considered for promotion. The supplier is determined to be able to provide “exceptional” work; meaning other factors are considered such as technique, use of advanced technology, equipment, experience, etc.
