2. Brief Waiver Description

Brief Waiver Description. *In one page or less*, briefly describe the purpose of the waiver, including its goals, objectives, organizational structure (e.g., the roles of state, local and other entities), and service delivery methods.

The Commonwealth of Pennsylvania operates this §1915(c) waiver application concurrently with a §1915(b) waiver application to implement Community HealthChoices (CHC). CHC is Pennsylvania's managed Long-Term Services and Supports (LTSS) initiative. The 1915(b)/1915(c) waivers allow the Commonwealth to require Medicaid beneficiaries to receive both LTSS, including nursing facility, hospice, home and community-based services (HCBS), and physical health services through managed care organizations (MCOs). The MCOs were selected by the state through a competitive procurement process.

The CHC program serves the following:

- Individuals who are 21 years of age or older and who are financially and clinically eligible to receive Medicaid LTSS (whether in the community or in a nursing facilities).
- Individuals who are 21 years of age or older and who are fully eligible for both Medicaid and Medicare, regardless of whether they need or receive LTSS (referred to as "Dual Eligibles") excluding participants who are enrolled in the OBRA waiver or a home and community-based waiver administered by the Office of Developmental Programs.

The CHC 1915(c) waiver will serve individuals who are 21 years of age or older and who are financially and clinically eligible to receive Medicaid LTSS in the community.

CHC operates across 5 geographical zones that comprise all 67 counties. CHC will be the sole Medicaid option for full Dual Eligibles. Other nursing facility clinically-eligible consumers residing in these five zones will have the choice between CHC and the Living Independence for the Elderly (LIFE) program.

CHC serves an estimated 483,000 individuals. CHC-MCOs are accountable for most Medicaid-covered services, including preventive services, primary and acute care, LTSS (HCBS and nursing facilities), prescription drugs, and dental services. Dual Eligibles have the option to have their Medicaid and Medicare services coordinated by the same MCO.

Behavioral Health Services are excluded from CHC-MCO Covered Services. The CHC-MCO must coordinate with the HealthChoices behavioral health MCOs.

Individuals served in the CHC waiver will receive any required behavioral health services (including drug and alcohol services) from behavioral health MCOs in Pennsylvania's other 1915(b) waiver, HealthChoices. The HealthChoices waiver (designated as PA-67) was renewed for a five-year time period beginning January 1, 2022. As renewed, the HealthChoices waiver includes additional populations to accommodate individuals who participate in CHC and who need behavioral health services.

The CHC waiver is administered by the Pennsylvania Department of Human Services (DHS), Office of Long-Term Living (OLTL), an office within the Single State Medicaid Agency. OLTL contracts with the CHC-MCOs to provide services and to enforce waiver obligations. The CHC-MCOs are paid a monthly capitation rate for services. CHC-MCOs may use written contracts meeting the requirements of 42 CFR 434.6 to deliver other services. Entities or individuals under contract or subcontract with the CHC-MCO must meet provider standards described elsewhere in the waiver application.

CHC emphasizes deinstitutionalization and provides an array of services and supports in community-integrated settings.

The State assures that these requirements are met on the date that the services are furnished; and,
 3. Assurance that all facilities subject to § 1616(e) of the Act where home and community-based waiver services are provided comply with the applicable State standards for board and care facilities as specified in **Appendix C**.

Methods of financial accountability are specified in **Appendix I**.
- C. Evaluation of Need:** The State assures that it provides for an initial evaluation (and periodic reevaluations, at least annually) of the need for a level of care specified for this waiver, when there is a reasonable indication that an individual might need such services in the near future (one month or less) but for the receipt of home and community-based services under this waiver. The procedures for evaluation and reevaluation of level of care are specified in **Appendix B**.
- D. Choice of Alternatives:** The State assures that when an individual is determined to be likely to require the level of care specified for this waiver and is in a target group specified in **Appendix B**, the individual (or, legal representative, if applicable) is:

Cost-neutrality is demonstrated in **Appendix J**.
- F. Actual Total Expenditures:** The State assures that the actual total expenditures for home and community-based waiver and other Medicaid services and its claim for FFP in expenditures for the services provided to individuals under the waiver will not, in any year of the waiver period, exceed 100 percent of the amount that would be incurred in the absence of the waiver by the State's Medicaid program for these individuals in the institutional setting(s) specified for this waiver.

6. Additional Requirements

Note: Item 6-I must be completed.

- A. Service Plan.** In accordance with 42 CFR §441.301(b)(1)(i), a participant-centered service plan (of care) is developed for each participant employing the procedures specified in **Appendix D**. All waiver services are furnished pursuant to the service plan. The service plan describes: (a) the waiver services that are furnished to the participant, their projected frequency and the type of provider that furnishes each service and (b) the other services (regardless of funding source, including State plan services) and informal supports that complement waiver services in meeting the needs of the participant. The service plan is subject to the approval of the Medicaid agency. Federal financial participation (FFP) is not claimed for waiver services furnished prior to the development of the service plan or for services that are not included in the service plan.
- B. Inpatients.** In accordance with 42 CFR §441.301(b)(1)(ii), waiver services are not furnished to individuals who are in-patients of a hospital, nursing facility or ICF/IID.

- D. Access to Services.** The State does not limit or restrict participant access to waiver services except as provided in **Appendix C**.
- E. Free Choice of Provider.** In accordance with 42 CFR §431.151, a participant may select any willing and qualified provider to furnish waiver services included in the service plan unless the State has received approval to limit the number of providers under the provisions of §1915(b) or another provision of the Act.
- F. FFP Limitation.** In accordance with 42 CFR §433 Subpart D, FFP is not claimed for services when another third-party (e.g., another third party health insurer or other federal or state program) is legally liable and responsible for the provision and payment of the service. FFP also may not be claimed for services that are available without charge, or as free care to the community. Services will not be considered to be without charge, or free care, when (1) the provider establishes a fee schedule for each service available and (2) collects insurance information from all those served (Medicaid, and non-Medicaid), and bills other legally liable third party insurers. Alternatively, if a provider certifies that a particular legally liable third party insurer does not pay for the service(s), the provider may not generate further bills for that insurer for that annual period.
- G. Fair Hearing:** The State provides the opportunity to request a Fair Hearing under 42 CFR §431 Subpart E, to individuals: (a) who are not given the choice of home and community-based waiver services as an alternative to institutional level of care specified for this waiver; (b) who are denied the service(s) of their choice or the provider(s) of their choice; or (c) whose services are denied, suspended, reduced or terminated. **Appendix F** specifies the State's procedures to provide individuals the opportunity to request a Fair Hearing, including providing notice of action as required in 42 CFR §431.210.

Attachment #2: Home and Community-Based Settings Waiver Transition Plan

Specify the state's process to bring this waiver into compliance with federal home and community-based (HCB) settings requirements at 42 CFR 441.301(c)(4)-(5), and associated CMS guidance.

Consult with CMS for instructions before completing this item. This field describes the status of a transition process at the point in time of submission. Relevant information in the planning phase will differ from information required to describe attainment of milestones.

To the extent that the state has submitted a statewide HCB settings transition plan to CMS, the description in this field may reference that statewide plan. The narrative in this field must include enough information to demonstrate that this waiver complies with federal HCB settings requirements, including the compliance and transition requirements at 42 CFR 441.301(c)(6), and that this submission is consistent with the portions of the statewide HCB settings transition plan that are germane to this waiver. Quote or summarize germane portions of the statewide HCB settings transition plan as required.

TELESERVICES

Teleservices are the delivery of direct services using remote technology. The following direct services may be rendered via teleservices:

- Cognitive Rehabilitation Therapy Services
- Counseling Services

Participants must have an informed choice to receive direct services in-person or via teleservices. Teleservices may only occur when the Person-Centered Planning team determines that using remote technology is the most

State:	
Effective Date	

appropriate service delivery method to meet the participant's needs (including health and safety needs) and goals. This determination must be based on consideration of all of the following:

- Service delivery complies with the requirements in the service definition, OLTL policies, and regulations.
- Teleservices must be provided by means that allow for live two-way communication with the participant, no recording of the interaction shall be captured. Live video or audio transmission is only allowable to persons designated by the participant and designated staff employed by the provider responsible for direct service delivery. Providers can call participants over the phone as an incidental component of teleservices to check-in with participants as allowed in the service definition or in emergency circumstances when all other criteria are met. Monitoring of devices is not allowable under teleservices.
- The provider has explained to the participant and everyone else residing in the home the impact that teleservices will have on their privacy.

- o The use of live video communication devices in bathrooms is strictly prohibited as part of teleservices.

- o It is allowable for staff to provide live audio prompts needed by the participant in bathrooms and bedrooms as part of teleservices. The participant must be alerted prior to the activation of any audio communication device unless the participant turns on the audio communication device themselves.

- o Live real time video communication between the participant and a staff person as part of teleservices may only occur in a participant's bedroom when all of the following are met:

- The participant has chosen to receive teleservices in their bedroom due to a medical condition which makes it difficult or impossible for them to leave their bedroom to receive services in another room in the house or the participant would like privacy from others in the home (family, housemates, etc.) during the receipt of services;
- The participant turns the video communication device on and off themselves or requests assistance in turning the video communication device on and off;
- The participant does not share a bedroom with others; and
- Service delivery via video communication will not be performed as part of any activity during which privacy would generally be expected (while a participant is in a state of undress, during sexual activities, etc.).

- o All live real time audio and video communication devices used to render teleservices in any part of the home or community must include indicators that let the participant know that the equipment is on and operating in audio or video mode.

- How teleservices will support community integration.
- How teleservices will promote improved health and welfare.
- The request to use teleservices was initiated by a request from the participant and/or the family/representative when appropriate, and not the provider.
- How the participant's need for in-person support during service provision will be met.
- The provider, in conjunction with the Person Center Planning team, has developed a back-up plan that will be implemented should there be a problem with the technology.

The provider is responsible for ensuring that any technology used to render teleservices are HIPAA compliant and that the delivery of teleservices has been reviewed and accepted by the HIPAA compliance officer. The provider is also responsible for providing initial and ongoing training and support to the participant, and anyone designated by the participant, regarding the operation of the technology used during teleservices, including turning it on and off at-will.
