This window allows you to download the current MA Program Outpatient Fee Schedule files. The files are available in three different formats; Microsoft Excel, Adobe Acrobat Reader (pdf,) of Comma Delimited (CSV) files. This window also provides access to a Microsoft Word document that explains the Comma Delimited file layout.

To reduce file size and facilitate download speed, the Excel and CSV files are in a compressed format (zip.) **The downloaded Fee Schedule files are organized by provider type and are updated quarterly.** The Excel file is protected. Once the download of this file is complete, you may unprotect the tabs within the file by selecting Tools, Protection, and then selecting Unprotect. This will allow you to sort the file as needed.
