## A. MESSAGE FROM THE DEPUTY SECRETARY

The Office of Developmental Programs (ODP) created this statistical report so that all stakeholders can review the number of individuals ODP serves, settings where they live, what services are provided to them, and the costs of those services. It should be noted that, in some cases in this report, information about ODP's autism services is listed separately from Intellectual Disability/Autism (ID/A) programs. This is because the Adult Autism Waiver (AAW) and Adult Community Autism Program (ACAP) are administered directly by the Bureau of Supports for Autism and Special Populations (BSASP), and not by the county systems. BSASP's information is tracked and measured through different processes.

Facts and figures are an important but limited view of the service system. They allow us to assess growth in the programs provided, types of services that are prioritized, and how we are investing in people. In addition to this report, ODP publishes an annual report on strategies and performance measures developed by ODP's Information Sharing and Advisory Committee (ISAC), as well as various other reports that target specific topical areas or strategies (e.g., waiting list, employment, etc.). All of these are used to assess the system.

Within this report, tables/graphs note the source of information, data extraction dates, and other relevant information specific to the data being presented. A guide to commonly used acronyms can be found below.

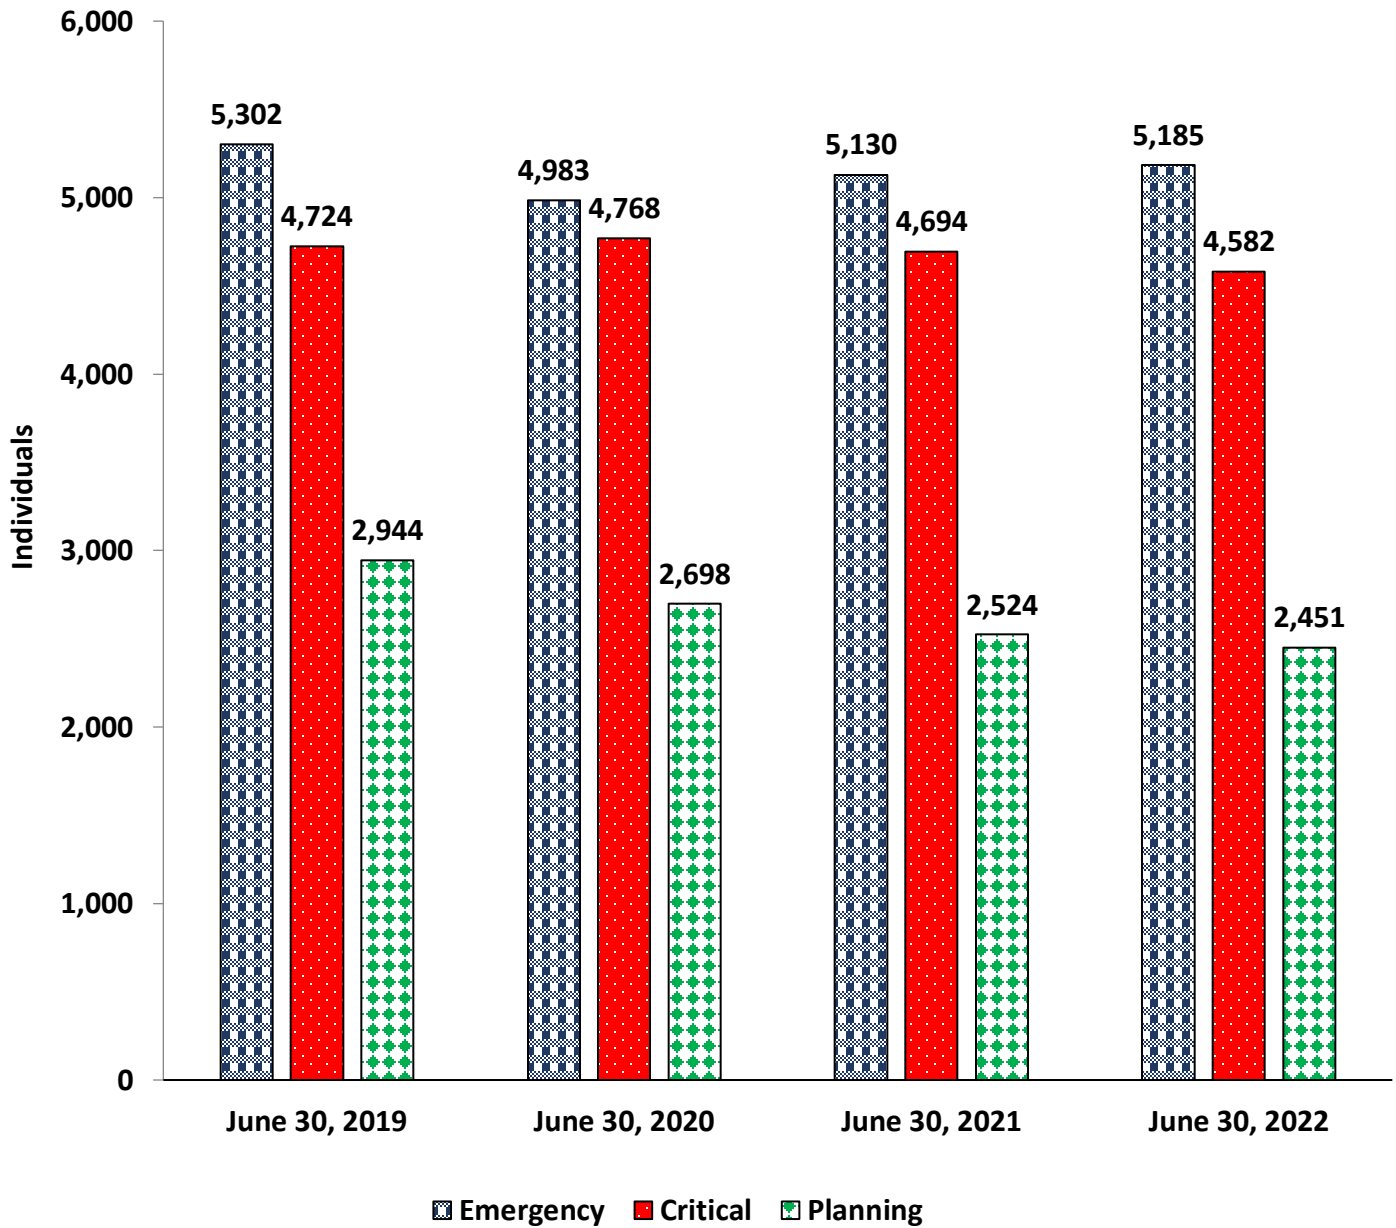

*Kristin Ahrens, Deputy Secretary*
