

Sexual Expression in Later Life

This training will emphasize the importance of recognizing, respecting, and understanding the significance of sexuality and sexual expression among older adults. The training will focus on sexuality in later life, policies surrounding sexual expression in the care facility, informed consent and tools for long-term future planning, and best practices for working with older adults who identify as LGBTQ+. Learners will receive guidance on asking inclusive questions about sexual orientation and gender identification to ensure comprehensive and inclusive care, and how to establish service criteria to best meet the needs of LGBTQ+ older adults. This training aims to create a more inclusive, respectful, and supportive environment for older adults, ensuring their rights and preferences are honored. This 6-hour hybrid training includes a 3-hour prerequisite, to be completed online **prior** to attending the live, virtual 3-hour session.

This free training is provided by Temple University Harrisburg and funded by the Pennsylvania Department of Human Services Bureau of Human Services Licensing.
