## DexCom Continuous Glucose Monitoring Products Coverage

Continuous glucose monitoring (CGM) allows users to track their blood glucose (i.e., “blood sugar”) levels throughout the day and night and in real time. Currently, CGM products are available through the Durable Medical Equipment (DME) benefits. Effective April 1, 2020, 1) DexCom CGM products will also be covered under the pharmacy benefit for beneficiaries in the Fee-for-Service (i.e., ACCESS) delivery system and 2) prior authorization will not be required for DexCom products obtained through DME or pharmacy benefits unless quantity limits are exceeded. Claims for DexCom CGM products for Fee-for-Service beneficiaries should be billed as pharmacy claims using the standard NCPDP, 837 Professional, or internet formats.

Product	NDC	Package Size	Quantity Limit
DexCom G5 Transmitter Kit	08627-0014-01	1 box (contains 1 transmitter)	1 transmitter per 3 months
DexCom G5-G4 Sensor Kit	08627-0051-04	1 box (contains 4 sensors)*	4 sensors per 28 days
DexCom G5 Receiver Kit	08627-0090-11	1 box (contains 1 receiver)	1 receiver kit per 365 days
DexCom G6 Transmitter	08627-0016-01	1 box (contains 1 transmitter)	1 transmitter per 3 months
DexCom G6 Sensor	08627-0053-03	1 box (contains 3 sensors)*	3 sensors per 30 days
DexCom G6 Receiver	08627-0091-11	1 box (contains 1 receiver)	1 receiver kit per 365 days

\*The quantity billed for DexCom G5-G4 Sensor Kit and DexCom G6 Sensor should reflect the number of sensors dispensed (i.e., one DexCom G5-G4 Sensor Kit box should be billed as a quantity of 4 [4 sensors per box] and one DexCom G6 Sensor should be billed as a quantity of 3 [3 sensors per box]).

Thank you for your service to our MA recipients.  
We value your participation.
