Consolidated and Community Living Waivers	Main Module	Brief Waiver Description	<p>Effective January 1, 2025, Pennsylvania is implementing a concurrent 1915(b)(4) waiver for performance-based contracting of Residential Habilitation, Supported Living, and Life Sharing services consistent with the values articulated in the <i>Everyday Lives</i> document, which serves as the foundation of all ODP policy initiatives. Through performance-based contracting of these services, the State seeks to improve the quality of services delivered by using new performance standards and aligning payment with outcomes by implementing a pay-for-performance strategy.</p> <p>The functions of AEs will not change as a result of performance-based contracting. To support its performance-based contracting activities, the State will contract with a Performance Analysis Service (PAS) vendor that will provide administrative support with data collection, analysis, and reporting functions.</p>	These changes are needed to implement performance-based contracting for Residential Habilitation, Supported Living, and Life Sharing services.
