

Recovery Centers WE BRING WORKFORCE TO YOU

About this initiative

The PA Department of Labor & Industry and participating PA CareerLink[®] offices will partner with community addiction treatment centers to deliver career services and referrals by our qualified coaches in their centers. We know that employment is a central component of recovery, with employment-based interventions being associated with more positive treatment outcomes, including preventing relapse.

Our Mission

We believe that by removing the transportation barrier, allowing access to career services, and enhancing the internal capacity of recovery centers around workforce services, more individuals in recovery can benefit from the many positive health and wellness outcomes of employment.

Qualified Career Coaches Provide

- ✓ Skills Assessment
- ✓ Orientation
- ✓ Career Plan
- ✓ Career Counseling
- ✓ Training
- ✓ and more...
