All criteria entered in the search parameters must match the result for it to be found.

If you are not receiving any results, check all information entered to ensure accuracy or try simplifying your search.

For example:

Claim Number is unique to each individual claim. You can enter only this in the parameters and find the claim to which you are a party.

SSN is unique to each individual claimant. You can enter only this in the parameters and find all claims related to the individual to which you are a party.

If you are still not receiving the results you are looking for, try manipulating your search parameters:

- Add or remove special characters (such as hyphens, ampersands, periods, etc.)
- Add or remove words (in litigation = litigation)
- Try a nickname (William = Bill or Francis = Frank)
- Try an initialism (Federal Bureau of Investigation = FBI)
