

# Driver and Vehicle Services Update Bulletin

Josh Shapiro, Governor

Mike Carroll, Secretary

BULLETIN NO. 23-20

August 2023

## New York VERIFI Program

In 2018, New York State Department of Motor Vehicles announced the implementation of the Vehicle Electronic Reassignment and Integrated Facility Inventory (VERIFI) system. VERIFI allows New York State licensed automobile dealers to use VERIFI to record their retail and wholesale transfers online using the electronic Certificate of Sale (eMV-50).

Vehicles from or passing through New York may contain an eMV-50 Certificate of Sale receipt within the chain of ownership documents. This document is no different than an odometer disclosure statement, but it is no longer recorded on secure paper like it has been in the past.

Agents must verify the authenticity of the document by accessing a public website (<https://www.verifyny.com/check>) and entering the eMV-50 number printed on the receipt or by entering the vehicle identification number (VIN), Model Year and Make. The verification must be printed and included with the work that is submitted to PennDOT. If agents still feel that the document is questionable, they should forward the document and work to the PennDOT's Risk Management Office for review.

Agents are required to ensure all their employees receive PennDOT's Driver and Vehicle Services update bulletins. This bulletin may be downloaded by visiting the Driver and Vehicle Services website at

[www.dmv.pa.gov](http://www.dmv.pa.gov).
