BULLETIN NO. 24-16

July 2024

## Discontinuing Pennsylvania Wild Resource Conservation Fund Otter Registration Plate

At the request of the Department of Conservation and Natural Resources, PennDOT changed the design for the Wild Resource Conservation Fund registration plate. The new Wild Resource Conservation Fund registration plate design features the Eastern Hellbender and it replaces the Otter Plate, which will be retired when the remaining inventory is used.

If a customer would prefer the Otter plate over the Hellbender plate they will need to write "Otter Plate" next to the "leased vehicle" boxes on form MV-911. PennDOT will issue the customer an Otter plate if the inventory is still available.

The registration plate continues to be a valid registration plate. Vehicle owners who currently have the Otter registration plate and wish to obtain the newly designed registration plate may request the new registration plate by completing the revised Form MV-911, "Application for Special Fund Registration Plate," and submit with the appropriate fee. The revised Form MV-911 is available on our website at [www.dmv.pa.gov](http://www.dmv.pa.gov).
