

Driver and Vehicle Services Update Bulletin

Josh Shapiro, Governor

Mike Carroll, Secretary

BULLETIN NO. 26-08

June 2026

New Form, MV-600, “Road User Charge (RUC) Enrollment” and RUC Payment Plan

Acts 85 and 149 of 2024 established a Road User Charge (RUC) for Electric Vehicles (EV) and Plugin Hybrid Electric Vehicles (PHEV). The RUC requires owners or registrants of EVs and PHEVs with a gross vehicle weight rating of not more than 14,000 pounds to pay an annual RUC which will be concurrent with paying the vehicle registration fee. This law creates a way for all EV and PHEV drivers to help maintain Pennsylvania’s transportation network by creating a method to contribute to highway and bridge maintenance.

EV and PHEV RUC Enrollment Process for Initial Registration Applications:

Effective June 29, 2026, customers will have the option to enroll in a RUC payment plan or enroll/pay via a one –time (per registration period) fee at the time of application for title and registration through our network of authorized agents. To facilitate this, PennDOT recently created a new form, MV-600, “Road User Charge (RUC) Enrollment,” to allow PennDOT contracted Full Agents to enroll a customer into a RUC enrollment plan and collect the applicable RUC fee for a customer’s RUC Enrollment when processing an initial registration application.

- If the owner or registrant elects to pay an annual registration fee for a two-year registration period, the RUC is two (2) times the amount required for one year. The one - or two-year vehicle registration period must match the RUC Fee enrollment period.
- The owner or registrant of an EV or a PHEV **MUST** select a RUC Enrollment Plan. RUC Enrollment Plans and required fees are listed on the MV-600. If the owner or registrant selects a Flat fee Enrollment Plan, the full amount must be paid with the MV-600 enrollment application. If the owner or registrant selects a Payment Plan, the first payment must be paid with this registration application. Please check the owner’s or registrant’s desired option on the MV-600 form under RUC Enrollment Information.

Agents are required to ensure all their employees receive PennDOT’s Driver and Vehicle Services update bulletins. This bulletin may be downloaded by visiting the Driver and Vehicle Services website at

www.pa.gov/dmv.

The MV-600 must be completed for all EV and PHEV initial registration applications, along with a **separate** check/money order for the flat payment or the initial payment for the payment plan option, made payable to the “Commonwealth of Pennsylvania.” The MV-600 and payment must be mailed or sent through a messenger service to the Department with a separate check/money order from the application for title and registration. If mailing, please send the completed application and payment to the Bureau of Motor Vehicles, P.O. Box 68616, Harrisburg, PA 17106-8275.

EV and PHEV RUC Enrollment Process for Registration Renewal

Applications:

If a customer has an EV or PHEV registration renewal, the customer will need to complete their RUC enrollment and initial payment prior to completing the registration renewal. The customer has two options:

1. Use the RUC enrollment application website so the agent can process the renewal online or
2. complete the MV-600 with the MV-140 renewal application. Both applications will need to be sent to PennDOT for processing.

RUC Enrollment Website Option: The preferred method and most efficient for the registrant is to use the RUC application for the RUC enrollment process. Please have the customer use PennDOT’s RUC application website to enroll and make the initial payment prior to the agent processing the vehicle renewal online. The customer will need to complete the following to allow the agent to process the EV or PHEV vehicle registration renewal:

- Customers can go to <https://roadusercharge.penndot.pa.gov/>, to enroll and pay their RUC instantly online.
- The customer will need to know their first 8 digits of their title number, plate number, current odometer reading and have a valid payment card to make a payment.
- Once the RUC enrollment and payment is completed online the agent will be able to proceed to process the customer registration renewal.

RUC Enrollment using form MV-600 option: If the customer doesn’t have the ability to use the preferred RUC application website to complete the RUC enrollment/payment process, an agent will need to submit the vehicle renewal application and the completed MV-600 for PennDOT to process since the vehicle renewal stop will remain on the record until the RUC enrollment is processed.

- Complete the vehicle renewal application, MV-140, Request for Registration. Include a check for the vehicle renewal only.

- Complete the MV-600, RUC Enrollment form. Include a check for the RUC only. The one- or two-year vehicle registration period must match the RUC Fee and enrollment period.
- **Please note**, two checks will be required to be submitted with both the MV-140 and the MV-600 payment.
