

SAVE & INVEST PA!

Guest speakers are available (for free!) to provide noncommercial presentations, which are great for introducing topics or reinforcing classroom lessons.

» **Program was recently updated to align with the new PDE Academic Standards.**

3 stand-alone presentations

Can present
1 or all 3
presentations
and in any
order!

1. Saving & Investing

An introduction to the basics of saving and investing. Topics include income, expenses, spending plans, and savings vehicles. This session will also cover the basic types of investments, including stocks, bonds, and investment funds.

2. Starting to Invest

Highlights the importance of investing and the power of compound interest. Students learn how to open and maintain investment accounts by identifying different types of investment accounts, strategies, and professionals. Students are provided with resources to research and verify investment professionals and investment opportunities.

3. Fraud Awareness

An overview of fraud and financial scams. Students will learn about different types of scams, common red flags, and the importance of protecting personal information. Students will also be provided with tools to research, verify, and report potential scams.
