(5 amended July 4, 2008, P.L.293, No.38)

Compiler's Note: Section 16 of Act 38 of 2008, which amended section 5, provided that the State Board of Physical Therapy shall promulgate regulations to implement the amendment or addition of sections 2, 2.1, 3, 4, 5, 6, 7, 7.1, 7.2, 9, 9.1(a), (a.1), (b), (d), (e), (f), (g) and (j), 11, 11.1, 11.2, 11.3, 12 and 13 of the act within 18 months of the effective date of this section. An applicant completing the professional study of physical therapy after 2002 must hold a minimum of a master's degree from a regionally accredited institution of higher education. An applicant completing the professional study of physical therapy between January 1967 and 2002 must hold a minimum of a baccalaureate degree from a regionally accredited

institution of higher education. In the case of those applicants who have completed requirements prior to the first day of January, 1967, but who may not technically or totally fulfill the above requirements, the board at its discretion and by the majority vote of all members present may accept evidence of satisfactory equivalence. The board shall not issue a license to an applicant who has been convicted of a felony under the act of April 14, 1972 (P.L.233, No.64), known as "The Controlled Substance, Drug, Device and Cosmetic Act," or of an offense under the laws of another jurisdiction which, if committed in this Commonwealth, would be a felony under "The Controlled Substance, Drug, Device and Cosmetic Act," unless:

- (1) at least ten years have elapsed from the date of conviction;
- (2) the applicant satisfactorily demonstrates to the board that he has made significant progress in personal rehabilitation since the conviction such that licensure of the applicant should not be expected to create a substantial risk of harm to the health and safety of patients or the public or a substantial risk of further criminal violations; and
- (3) the applicant otherwise satisfies the qualifications contained in or authorized by this act.

As used in this subsection the term "convicted" includes a judgment, an admission of guilt or a plea of nolo contendere.

(b) An applicant for licensure must pass an examination approved by the board which shall test the applicant's knowledge of the basic and clinical sciences as they relate to physical therapy theory and physical therapy procedures and such other subjects as the board may deem necessary to test the applicant's fitness to practice physical therapy. No license shall be granted unless an applicant has attained passing scores established by the testing agency and published prior to the administration of the examination. The examination shall be held at such time and place as the board shall determine.

(c) In case of failure at the first examination, the applicant for licensure shall have, after the expiration of 60 days and within one year from the first failure, the privilege of a second examination. The board may adopt regulations governing the eligibility of applicants who have failed to pass two examinations in order to be admitted to subsequent examinations. An applicant may take the examination no more than three times in a consecutive 12-month period.

(d.1) The board may grant licenses and certifications without further examination to individuals from another state, territory or the District of Columbia if the following conditions exist:

(1) Licensing or certification standards in the other state, territory or the District of Columbia are substantially the same as those of this act.

(2) Similar privileges are accorded individuals licensed or certified in this Commonwealth.

(3) The applicant holds a valid license, registration or certification issued by the other state, territory or the District of Columbia.

(4) The applicant complies with the rules and regulations of the board.

(e) The board shall issue a license to a physical therapist who successfully establishes his eligibility under the terms of this act and an individual who holds a license pursuant to this section may use the words physical therapist or licensed physical therapist and he shall use the letters PT in connection with his name or place of business to denote his licensure hereunder. A licensed physical therapist may include designations for physical therapy degrees, including MPT and DPT when a master's or doctor's of physical therapy degree has been earned from a regionally accredited institution of higher education, academic degrees, specialist certification and other credentials after the letters PT.

(f) At the board's discretion, the foreign trained applicant must complete up to one year of supervised clinical experience as prescribed by the board prior to taking the examination for licensure.

(g) Upon the submission of an application as provided by the board, the board shall issue a temporary license to an applicant for licensure who has met all of the requirements of subsection (a) and who is eligible to take the examination provided for in subsection (b). The board shall issue only one temporary license to an applicant, and such temporary license shall expire upon failure of the first examination or six months after the date of issue, whichever first occurs. Issuance by the board of a temporary license shall permit the applicant to practice physical therapy only while under the direct on-premises supervision of a licensed physical therapist with at least two years of experience. Upon expiration, the temporary license shall be promptly returned by the applicant to the board.

(h) Any applicant who knowingly or willfully makes a false statement of fact in any application shall be subject to prosecution for perjury.

(i) An applicant for licensure who has been educated outside of the United States shall:

(1) Complete the application process, including payment of fees.

(2) Provide proof of holding an unrestricted license in the country where the applicant was educated.

(3) Provide satisfactory evidence that the applicant's education is substantially equivalent to the education of physical therapists educated in an accredited program as determined by the board. Graduation outside the United States from a professional education program accredited by the same accrediting agency that the board approves

for programs within the United States constitutes evidence of substantial equivalency. In all other instances, "substantially equivalent" means that an applicant for licensure educated outside the United States shall have:

- (i) Graduated from a physical therapist education program that prepares the applicant to engage without restriction in the practice of physical therapy.
  - (ii) Provided written proof that the applicant's school of physical therapy is recognized by its own ministry of education.
  - (iii) Undergone a credentials evaluation as directed by the board that determines that the candidate has met uniform criteria for education requirements as further established by this rule.
  - (iv) Completed any additional education as required by the board.
  - (4) Comply with all State, Federal and administrative laws and regulations related to the application for and maintenance of licensure.
  - (5) Pass the examination approved by the board.
  - (6) Meet the requirements established by board regulations if applicable.
  - (j) Each licensee and certificate holder shall display a copy of the licensee's license or certificate holder's certificate in a location accessible to public view and produce a copy immediately upon request.
- (6 amended July 4, 2008, P.L.293, No.38)

Section 9. Practice of Physical Therapy.--(a) Except as provided in subsection (b), no individual licensed under this act as a physical therapist shall treat human ailments by physical therapy or otherwise except by the referral of an individual licensed as a physician, a licensed physician assistant practicing pursuant to a written agreement with a physician or a certified registered nurse practitioner practicing pursuant to a collaborative agreement with a physician; however, a physical therapist shall be permitted to accept the referral of a licensed dentist or podiatrist, for the treatment of a condition that is within the scope of practice of dentistry or podiatry. Nothing in this act shall be construed as authorization for a physical therapist to practice any branch of the healing arts except as described in this act. For purposes of this section, relating to referrals, a licensed physician, dentist or podiatrist means an individual holding an active license in this Commonwealth, the District of Columbia or any other state or United States territory.

(b) Licensees who meet the standards set forth in this subsection may apply to the board for a certificate of authorization to practice physical therapy under this act without the required referral under subsection (a). A certificate of authorization to practice physical therapy without a referral under subsection (a) shall not authorize a physical therapist either to treat a condition in an individual which is a nonneurologic, nonmuscular or nonskeletal condition or to treat an individual who has an acute cardiac or acute pulmonary condition unless the physical therapist has consulted with the individual's licensed physician, dentist or podiatrist regarding the individual's condition and the physical therapy treatment plan or has referred the individual to a licensed physician, dentist or podiatrist for diagnosis and referral. The certificate of authorization shall be issued only to licensed physical therapists practicing physical therapy. The certificate of authorization shall be displayed by the certificate holder in a manner conspicuous to the public. The renewal of the certificate of authorization shall coincide with the renewal of the license of the licensee. Licensees making application for a certificate of authorization shall present satisfactory evidence to the board of all of the following:

(1) That the licensee has:

(i) passed an examination for licensure to practice physical therapy, which examination included testing on the appropriate evaluative procedures to treat an individual without a referral; or

(ii) passed an examination for licensure to practice physical therapy prior to 1990 and successfully completed a course approved by the board on the appropriate evaluative procedures to treat an individual without a referral.

(2) That the licensee has:

(i) practiced physical therapy as a licensed physical therapist in the delivery of patient care in accordance with this act on a continuous basis for at least two years immediately preceding the application for a certificate of authorization;

(ii) been licensed under section 6(d.1) and has practiced physical therapy in the delivery of patient care as a licensed physical therapist in a reciprocal state on a continuous basis for at least two years immediately preceding the application for a certificate of authorization; or

(iii) provided proof of meeting the standards of clause (i) or (ii) of this paragraph through the application of any combination thereof.

(3) That the license of that licensee has been maintained in good standing.

(4) That the licensee has professional liability insurance in accordance with the following provisions:

(i) (Deleted by amendment).

(ii) A licensee shall notify the board within 30 days of the licensee's failure to be covered by the required insurance. Failure to notify the board shall be actionable under section 11 or 12. Further, the certificate of authorization of that licensee shall automatically be suspended upon failure to be covered by the required insurance and shall not be restored until submission to the board of satisfactory evidence that the licensee has the required professional liability insurance coverage.

(iii) The board shall accept from licensees as satisfactory evidence of insurance coverage under this subsection any or all of the following: self-insurance, personally purchased professional liability insurance, professional liability insurance coverage provided by the licensee's employer or any similar type of coverage.

(iii.1) A licensee under this act, practicing in this Commonwealth, shall maintain a level of professional liability insurance coverage in the minimum amount of \$1,000,000 per occurrence or claims made. Failure to maintain insurance coverage as required shall subject the licensee to disciplinary proceedings. The board shall accept as satisfactory evidence of insurance coverage any of the following:

(A) self-insurance;

(B) personally purchased liability insurance; or

(C) professional liability insurance coverage provided by the physical therapist's employer or similar insurance coverage acceptable to the board.

(iii.2) A license applicant shall provide proof that the applicant has obtained professional liability insurance in accordance with subparagraph (iii.1). It is sufficient if the applicant files with the application a copy of a letter from the applicant's professional liability insurance carrier indicating that the applicant will be covered against professional liability in the required amounts effective upon the issuance of the applicant's license to practice physical therapy in this Commonwealth.

(iii.3) Upon issuance of a license, a licensee has 30 days to submit to the board the certificate of insurance or a copy of the policy declaration page.

(iv) The board shall adopt, by regulation, standards and procedures established by the Insurance Commissioner for self-insurance. In the absence of these standards and procedures, the board, after consultation with the Insurance Commissioner, shall establish standards and procedures by regulation for self-insurance under this subsection.

(c) (1) For each renewal of the certificate of authorization, the licensee shall complete within the immediately preceding two-year period at least 30 hours of continuing physical therapy education related to keeping the certificate holder apprised of advancements and new developments in the practice of the physical therapy profession. At least ten of the 30 hours shall be in appropriate evaluative procedures to treat an individual without a referral. No credit shall be given for any course in office management or practice building. The licensee shall provide the board with evidence of the completion of the continuing education.

(2) Continuing education programs and program providers under this subsection shall be approved by the board in accordance with standards and criteria established by the board by regulation. The regulation shall include any fees necessary to implement this provision and provide for waiver of the continuing education requirement due to illness or hardship in any licensing renewal period.

(3) (Deleted by amendment).

(d) A physical therapist practicing physical therapy under this act shall refer patients to a licensed physician or other appropriate health care practitioner in any of the following cases:

(1) Cases where symptoms are present for which physical therapy is a contraindication.

(2) Cases for which treatment is outside the scope of practice of physical therapy.

(3) Cases for which treatment is beyond the education, expertise or experience of the physical therapist.

(e) A physical therapist may treat an individual without a referral as provided for in subsection (b) for up to 30 days from the date of the first treatment. A physical therapist shall not treat an individual beyond 30 days from the date of the first treatment unless he or she has obtained a referral from a licensed physician; a licensed physician assistant practicing pursuant to a written agreement with a physician; a certified registered nurse practitioner practicing pursuant to a collaborative agreement with a physician; or a licensed dentist or licensed podiatrist, for the treatment of a condition that is within the scope of practice of dentistry or podiatry. The date of the first treatment for purposes of this subsection is the date the individual is treated by any physical therapist

treating without a referral.

(f) Nothing in this section shall be construed to require or preclude third-party insurance reimbursement. Nothing herein shall preclude an insurer or other third-party payor from requiring that a physical therapist obtain a referral from a licensed physician; a licensed physician assistant practicing pursuant to a written agreement with a physician; a certified registered nurse practitioner practicing pursuant to a collaborative agreement with a physician; or a licensed dentist or licensed podiatrist, for the treatment of a condition that is within the scope of practice of dentistry or podiatry; or that a physical therapist file an evaluation and treatment plan with the insurer or third-party payor as a precondition of reimbursement.

Compiler's Note: Section 4 of Act 48 of 2007 provided that subsection (a) is repealed insofar as it is inconsistent with the amendment of section 8.2 of Act 69 of 1951 and the addition of section 8.7 of Act 69 of 1951.

Section 9.1. Physical Therapist Assistant; Education and Examination; Scope of Duties; Certification.--

(a) To be eligible for certification by the board as a physical therapist assistant, an applicant must be at least 18 years of age unless otherwise determined by the board, be of good moral character, not be addicted to the habitual use of alcohol or narcotics or other habit-forming drugs, be a graduate of a physical therapist assistant program adopted by the board, which program has been approved for the education and training for physical therapist assistants by the appropriate nationally recognized accrediting agency and be successful in passing an examination approved by the board, subject to rules and regulations established by the board and administered in accordance with section 812.1 of the act of April 9, 1929 (P.L.177, No.175), known as "The Administrative Code of 1929." Applicants eligible to register with the board shall be deemed eligible for certification by the board until such time as the board promulgates any regulation regarding certification. No applicant shall be certified unless he has attained passing scores established by the board and published prior to the administration of the examination.

(a.1) Upon the submission of an application, as provided by the board, the board shall issue a temporary certificate to an applicant for certification who has met all of the requirements of subsection (a) and who is eligible to take the examination provided for in subsection (a). The board shall issue only one temporary certificate to an applicant, and the temporary certificate shall expire upon failure of the first examination or six months after the date of issue, whichever first occurs. Issuance by the board of a temporary certificate shall permit the applicant to provide physical therapy acts and services only while under the direct on-premises supervision of a licensed physical therapist. Upon expiration, the temporary certificate shall be promptly returned by the applicant to the board.

(b) In case of failure of the first examination, the applicant for certification shall have, after the expiration of 60 days and within one year from the first failure, the privilege of a second examination. The board may adopt regulations governing the eligibility of applicants who have failed to pass two examinations in order to be admitted to subsequent examinations.

(c) A physical therapist assistant while assisting a licensed physical therapist in the practice of physical therapy shall only perform patient-related physical therapy acts and services that are assigned or delegated by and under the supervision of a licensed physical therapist. Such acts and services of a physical therapist assistant shall not include evaluation, testing, interpretation, planning or modification of patient programs. For purposes of this section the term "supervision" means as follows:

(1) In all practice settings, the performance of selected acts and services by the physical therapist assistant shall be:

(i) The responsibility of the licensed physical therapist at all times.

(ii) Based on the following factors:

(A) Complexity and acuity of the patient's needs.

(B) Proximity and accessibility of the licensed physical therapist to the certified physical therapist assistant.

(C) Supervision available in the event of an emergency or critical event.

(D) Type of practice setting in which the service is provided.

(2) In all practice settings, the initial patient contact shall be made by a licensed physical therapist for evaluation of the patient and establishment of a plan of care.

(3) Supervision requirements of a physical therapist assistant shall be dependent upon the practice setting in which the care is delivered:

(i) When care is delivered to an individual in an acute care hospital, acute inpatient rehabilitation center, long-term acute care hospital facility setting or as otherwise required by Federal or State law or regulation, the physical therapist assistant shall be under the direct on-premises supervision of a licensed physical therapist.

(ii) When care is provided to an individual in a preschool, primary school, secondary school or other similar educational setting, a licensed physical therapist shall make an onsite visit and examine the patient at least every four patient visits or every 30 days, whichever shall occur first.

(iii) When care is provided to a patient in a physical therapy independent private practice outpatient facility, a licensed physical therapist shall provide direct on-premises supervision of a physical therapist assistant for at least 50% of the hours worked by the physical therapist assistant during the calendar week unless otherwise required by Federal law, and the physical therapist shall be immediately available by telecommunication if not providing direct on-premises supervision.

(iv) For any home health care, facility or practice setting not specified in subparagraph (i), (ii) or (iii), a licensed physical therapist shall make an onsite visit and actively participate in the treatment of the patient at least every seven patient visits or every 14 days, whichever shall occur first. The board shall review and make recommendations to the Consumer Protection and Professional Licensure Committee of the Senate and to the Professional Licensure Committee of the House of Representatives relating to the implementation of this paragraph three years following the effective date of this paragraph.

(4) In all practice settings, a physical therapist assistant shall be under the direct on-premises supervision of a licensed physical therapist until the physical therapist assistant submits for approval evidence satisfactory to the board of:

(i) at least 2,000 hours of experience providing patient-related acts and services verified by a supervising licensed physical therapist; or

(ii) employment as a physical therapist assistant for at least three of the five years immediately preceding the effective date of this paragraph.

(5) Upon compliance with paragraph (4), a physical therapist assistant may only provide physical therapy acts and services when the licensed physical therapist is available and accessible in person or by telecommunication to the physical therapist assistant during all working hours of the physical therapist assistant and is present within a 100-mile radius of the treatment location. A physical therapist assistant shall consult with the supervising physical therapist in the event of a change in the patient's condition which may require the assessment of a licensed physical therapist.

(6) A licensed physical therapist shall not supervise more than three physical therapist assistants at any time.

(7) In the event of a change of the supervising licensed physical therapist, the subsequent supervisor shall assume responsibility for the ongoing supervision of any certified physical therapist assistant providing physical therapy acts and services and shall become the supervising physical therapist.

(d) Only an individual who has been properly certified as a physical therapist assistant with the board, pursuant to the provisions of this section and rules and regulations promulgated by the board thereto, shall assist a licensed physical therapist in the practice of physical therapy as a physical therapist assistant and use the title "physical therapist assistant" and the abbreviation "PTA." Until such time as the board promulgates rules and regulations, an individual who is properly registered with the board shall be deemed certified for the purposes of this section.

(e) (Deleted by amendment).

(f) The board shall issue, renew, revoke or suspend the certification of physical therapist assistants pursuant to rules and regulations promulgated by the board. All actions of the board shall be taken subject to the right of notice, hearing and adjudication and the right of appeal therefrom in accordance with Title 2 of the Pennsylvania Consolidated Statutes (relating to administrative law and procedure).

(g) Unless ordered to do so by a court, the board shall not reinstate the certification of an individual to practice as a physical therapist assistant which has been revoked, and such individual shall be required to apply for certification after a five-year period in accordance with the provisions of this section, including the examination requirement, if he desires to practice at any time after such revocation.

(h) A physical therapist assistant may not authorize the discharge of a patient from physical therapy services.

(i) In an emergency situation, such as serious illness or death of a family member, which causes the unanticipated absence of the supervising physical therapist for not more than two days per month, a certified physical therapist assistant may continue to render services to only those patients for which the certified physical therapist assistant has previously participated in the intervention for established plans of care not to exceed the regularly scheduled operational hours of the particular day or days the supervising physical therapist is absent. Every effort shall be made by the licensed physical therapist or certified physical therapist assistant to obtain supervision in the care described in this subsection. A licensee utilizing this section shall maintain a written record

noting the date and the emergency, which shall be available for board review, and shall submit a report to the board biennially setting forth each day absent under this paragraph and the reason for such absence. A licensed physical therapist may utilize this emergency provision no more than ten days per calendar year.

(j) For each certificate renewal, a certificate holder shall complete within the immediately preceding two-year period at least 30 hours of continuing physical therapy education as approved by the board in accordance with standards and criteria established by the board by regulation. The certificate holder shall provide the board with evidence of the completion of the continuing education. The current rules and regulations shall remain in effect until such time as the board establishes by regulations, standards and criteria relating to continuing physical therapy education for certified physical therapist assistants and physical therapists.

Section 11.3. Subpoenas; Examinations; Reports; Surrender of License.--(a) The board shall have the authority to issue subpoenas, upon application of an attorney responsible for representing the Commonwealth in disciplinary matters before the board, for the purpose of investigating alleged violations of the disciplinary provisions administered by the board. The board is authorized to apply to Commonwealth Court to enforce its subpoenas.

(e) A licensee or certificate holder affected shall, at reasonable intervals as determined by the board, be afforded an opportunity to demonstrate that the licensee or certificate holder can resume competent practice with reasonable skill and safety.

the board, or such other professional as the board may determine, with education and experience in the identification, treatment and rehabilitation of individuals with physical or mental impairments. Such consultant shall be accountable to the board and shall act as a liaison between the board and treatment programs, such as alcohol and drug treatment programs licensed by the Department of Health, psychological counseling and impaired professional support groups, which are approved by the board and which provide services to licensees or certificate holders under this act.

(b) The board may defer and ultimately dismiss any of the types of corrective action set forth in this act for an impaired professional so long as the professional is progressing satisfactorily in an approved treatment program, provided that the provisions of this subsection shall not apply to a professional convicted of a felonious act prohibited by the act of April 14, 1972 (P.L.233, No.64), known as "The Controlled Substance, Drug, Device and Cosmetic Act," or convicted of a felony relating to a controlled substance in a court of law of the United States or any other state, territory or country. An approved program provider shall, upon request, disclose to the consultant such information in its possession regarding an impaired professional in treatment which the program provider is not prohibited from disclosing by an act of this Commonwealth, another state or the United States. Such requirement of disclosure by an approved program provider shall apply in the case of impaired professionals who enter an agreement in accordance with this section, impaired professionals who are the subject of a board investigation or disciplinary proceeding and impaired professionals who voluntarily enter a treatment program other than under the provisions of this section but who fail to complete the program successfully or to adhere to an after-care plan developed by the program provider.

(c) An impaired professional who enrolls in an approved treatment program shall enter into an agreement with the board under which the professional's license or certificate shall be suspended or revoked, but enforcement of that suspension or revocation may be stayed for the length of time the professional remains in the program and makes satisfactory progress, complies with the terms of the agreement and adheres to any limitations on his practice imposed by the board to protect the public. Failure to enter into such an agreement shall disqualify the professional from the impaired professional program and shall activate an immediate investigation and disciplinary proceeding by the board.

(d) If, in the opinion of the consultant after consultation with the provider, an impaired professional who is enrolled in an approved treatment program has not progressed satisfactorily, the consultant shall disclose to the board all information in his possession regarding said professional, and the board shall institute proceedings to determine if the stay of the enforcement of the suspension or revocation of the impaired professional's license or certificate shall be vacated.

(e) An approved program provider who makes a disclosure pursuant to this section shall not be subject to civil liability for such disclosure or its consequences.

(f) Any hospital or health care facility, peer or colleague who has substantial evidence that a professional has an active addictive disease for which the professional is not receiving treatment, is diverting a controlled substance or is mentally or physically incompetent to carry out the duties of his or her license or certification shall make or cause to be made a report to the board: Provided, That an individual or facility who acts in a treatment capacity to an impaired physical therapist in an approved treatment program is exempt from the mandatory reporting requirements of this subsection.

(g) An individual or facility who reports pursuant to this section in good faith and without malice shall be immune from any civil or criminal liability arising from such report. Failure to provide a report within a reasonable time from receipt of knowledge of impairment shall subject the individual or facility to a fine not to exceed \$1,000. The board shall levy this penalty only after affording the accused party the opportunity for a hearing as provided in 2 Pa.C.S. (relating to administrative law and procedure).
