Update on Certification Fees

In accordance with [**Act 47 of 2025**](#), **standard certification fees have been reduced to no greater than \$50**. Under state law, the Pennsylvania Department of Education must collect a separate Professional Educator Discipline fee during the educator certification process, which is used to support the education profession. This fee has not been waived in Act 47.

Veterans and their spouses are exempt from both the standard certification fees and Professional Educator Discipline fee.

Beginning December 12th, the [**new fee schedule**](#) will go into effect for all applications. The fee schedule separates the certification fee from the educator discipline fee for further clarification.

Information for December 2025 Graduates Who Applied for Certification in TIMS Before December 12th, 2025

If you have December 2025 graduates who applied for certification on or after 11/12/2025 in TIMS, please have them contact the certification services email account at [**ra-edcertquestions@pa.gov**](mailto:ra-edcertquestions@pa.gov) for help with these applications. Please be sure to clarify to December graduates who applied and paid for certification on or after 11/12/2025 that their previous application can be withdrawn and refunded for the amount paid and that they can reapply to pay the new reduced certification fee.

New PK-6 Grade Spans

We've been receiving many questions about the new PK-6 grade spans. FAQs about the new PK-6 grade spans will be forthcoming. At this time, please be aware that EPPs cannot advertise, nor apply, for the new PK-6 grade spans until their program has been approved in accordance with the updated competencies. The Division of Professional Education and Teacher Quality is currently in the process of creating the new PK-6 competencies. This process is tentatively scheduled to be completed by June 2026. During this time, BSLTQ will be working with the State Board of Education and the Secretary of Education on approving a new Primary Certification (PK-6) test. Please be patient as we begin the process of making this exciting policy change.

While the Grades PK-6 competencies and tests are being created, Grades PK-4 and Grades 4-8 programs should continue at all approved EPP programs. Act 47 prohibits EPPs from admitting students under the current Early Childhood (PK-4) or Elementary/ Middle (4-8) certificates after July 1, 2028. As a result, fall 2027 should be the last semester that EPPs formally admit students into these current programs. This will allow students to obtain the required 48 credits and 3.0 GPA for entry into the EPP (students may also use the alternatives to admission under Chapter 354). Current assessments for Grades PK-4 and Grades 4-8 will be available for those students continuously enrolled in these programs until all students complete them.

Legislative Change to Inactive Certifications

Effective January 11, 2026 ([**Section 1205.2**](#)):

- There is no charge for a professional educator to apply to PDE for voluntary inactive certification.

- An educator with a **voluntary** inactive certificate can reactivate their certification if they provide PDE evidence that they received an offer of employment from a school that has committed to provide and ensure that the educator completes 30 hours of in-service continuing professional development within two years.
- Any educator with an inactive certification can be removed from inactive status if they apply to PDE and show that they completed at least 30 hours of continuing professional education within the past 18 months. Previously the requirement was 12 months.
