Financial Disclosure Report Purchase of Services Contracts Purchase of Goods Contracts

Notes and Definitions

The following tables provide the required disclosures for purchase of services and purchase of goods contracts. The University's Accounts Payable System does not include data enabling the distinction between purchases of goods and services. Thus, a single schedule is provided that includes both goods and services.

Purchases are categorized in the University's Accounts Payable System in one of the following categories:

- Facility Alterations
- Facility Operating Costs
- Insurance
- Library Acquisitions
- Mail
- Printing/Publishing
- Professional Memberships
- Professional Services
- Purchases for Resale
- Routine Maintenance
- Space Rental
- Supplies/Equipment
- Telephone
- Utilities

Each entry provides the category into which the purchase falls, the name and address of the vendor, and the amount of purchase. There is no more than one entry per vendor for a single category within a responsibility center. Disclosures for defined projects or programs are included in the disclosure for the units in which they are administered.

Purchases of goods and services in the Disclosure Report include those which equal or exceed \$1,000 for each vendor from Operating, Auxiliary, and Non-Auxiliary funding sources.
