

About the Pennsylvania Firefly Assessment

The Firefly Student Progress Indicators are online benchmark tests designed to show a student's learning needs and mastery of content at the time the test is administered. Firefly test results predict how a student will perform on the PSSA or Keystone Exams. Schools can use them to measure student progress and guide instruction throughout the school year.

Name: SAMPLE STUDENT
PA Student ID: 8817804266
Birth Date: 02/12/2015

Student Grade: 5
Tested Date: 12/03/25

School: FIREFLY SAMPLE SCHOOL 2
District: FIREFLY SAMPLE DISTRICT

Science Score

541

Support Needed

Student needs support to gain the required skills for success on future state assessments.

Near Target

Student is likely at (or near) the level of skill needed for success on future state assessments.

Prepared

Student is likely prepared for success on future state assessments.

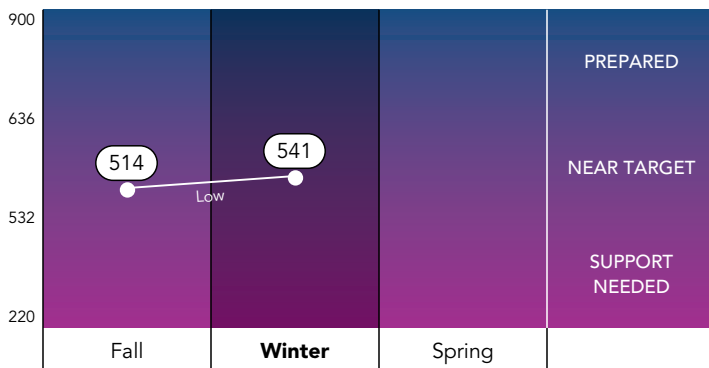

The student's Science scale score is indicated by a ○

If this student were to test again under similar circumstances, the student's score would likely range from 514 – 568

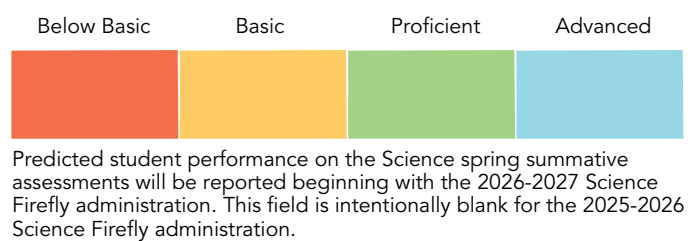

Science Performance By Reporting Category

Categories	Support Needed	Near Target	Prepared	Student's Score Range
Life Science and ELS	516			462 – 570
Physical Science		550		496 – 604
Earth and Space Science	515			461 – 569
Technology & Engineering		585		528 – 642

Science Progress

Predicted PSSA Science Performance

Understanding your student's score

This report provides information about your student's recent performance on the Firefly assessment. It includes results from a single test session and will include progress within the year if your student has taken the assessment more than once. The Firefly scores have been used to predict a score range of how your student may perform on the PSSA or Keystone Exams. Additional information to help you interpret this report is available at pa.gov.
