The Pennsylvania Department of Education (PDE) does not discriminate in its educational programs, activities, or employment practices, based on race, color, national origin, [sex] gender, sexual orientation, disability, age, religion, ancestry, union membership, gender identity or expression, AIDS or HIV status, or any other legally protected category. Announcement of this policy is in accordance with State Law including the Pennsylvania Human Relations Act and with Federal law, including Title VI and Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination in Employment Act of 1967, and the Americans with Disabilities Act of 1990.

The following persons have been designated to handle inquiries regarding the Pennsylvania Department of Education's nondiscrimination policies:

**For Inquiries Concerning Nondiscrimination in Employment:**

Pennsylvania Department of Education  
Equal Employment Opportunity Representative  
Bureau of Human Resources  
Voice Telephone: (717) 783-5446

**For Inquiries Concerning Nondiscrimination in All Other Pennsylvania Department of Education Programs and Activities:**

Pennsylvania Department of Education  
School Services Unit Director  
607 South Drive, 5th Floor, Harrisburg, PA 17120-0600  
Voice Telephone: (717) 783-3750, Fax: (717) 783-6802

## **Executive Summary**

### **Pennsylvania Career and Technical Centers 2025 Report**

This report is prepared annually by the Pennsylvania Department of Education (PDE), Bureau of Career and Technical Education, to inform the Standing Committees on Education of the Senate and House of Representatives on matters related to career and technical centers (CTCs), as required by Act 117 of 1986 amending Section 1803.1 of the Pennsylvania School Code. These schools were previously known as area vocational-technical schools.

### **Career and Technical Education in Pennsylvania**

In the fall of 2005, PDE initiated reform efforts for all career and technical education (CTE) across the Commonwealth. Although this report is focused on CTCs in particular, the reform efforts are also focused on CTE programs operating in school districts. The goal is to improve the delivery system for secondary CTE programs to ensure enrollees in those programs receive high-level academic and occupational coursework.

This effort engages school districts and CTCs by addressing three specific areas of need:

1. Increasing the academic rigor of educational programming for CTE students;
2. Increasing industry relevance of occupational training programs by aligning with the national technical standards that provide opportunity for industry credentials; and
3. Strengthening connections to postsecondary entities by increasing articulation agreements, dual enrollment opportunities, and apprenticeship opportunities.

PDE works to support local CTE programs so they can meet high standards for academic and technical achievement and be aligned with high-priority occupations.

Such programs:

1. Provide education leading either to recognized industry credentials or related, research-based industry-valued skills;
2. Demonstrate consistent increases in students earning Pennsylvania Skills Certificates in recognition of high achievement in end-of-program assessments that are aligned with national industry standards; and
3. Demonstrate consistent increases in connections between CTE programs and postsecondary education and training institutions and provide incentives for increased articulation agreements between CTCs and postsecondary institutions and dual enrollment.

### **Preparing Pennsylvanians for Today and Tomorrow's Workforce**

Pennsylvania's strategic investments in CTE help prepare more than 148,000 Pennsylvanians annually for the high-skilled, competitive workforce. In 2024-25, Pennsylvania appropriated more than \$105 million in state funding for CTE.

CTE programs in the Commonwealth are positioned to help students achieve rigorous academic and technical standards aligned with Pennsylvania's economic and workforce development priorities.

Pennsylvania supports 84 CTCs and 145 high schools (including two charter schools) offering CTE. During the 2024-25 school year, these schools offered more than 1,881 secondary-approved programs. In addition, Pennsylvania supported 21 postsecondary institutions (colleges, universities, and private postsecondary institutions) with offering 792 postsecondary CTE programs and 298 adult CTE programs.

PDE employs a multi-faceted improvement plan to strengthen the impact of the state's investment. This plan addresses critical issues facing CTE programs in Pennsylvania, including workforce development and academic preparation.

Reform efforts also include improving technical program content, aligning technical content to Pennsylvania's grade 11 academic standards, and aiding instructors and administrators. By developing statewide technical standards aligned to industry expectations and connecting these to grade 11 academic standards, PDE is helping students earn college credit for their secondary CTE coursework. These initiatives ensure a more relevant and rigorous high school experience for every young person and make college accessible and affordable.

## **Introduction**

Pursuant to Act 117 of 1986, which amended Section 1803.1 of the Pennsylvania School Code, the Secretary of Education hereby reports to the Standing Committees on Education of the Senate and House of Representatives the following information for the CTCs in the Commonwealth. This report addresses each area of interest noted in the statute by providing the following information:

1. The number of approved secondary CTE programs at CTCs from 2020-21 through 2024-25. (Table 1)
2. The number of students enrolled in reimbursable secondary CTE programs at CTCs and participating school districts, 2019-20 through 2023-24. (Table 2)
3. Anticipated scheduling patterns during the 2024-25 school year at CTCs, including length of programs offered, whether CTCs are full-time or part-time, and student rotation schedules. (Table 3)
4. Career and Technical Education Average Daily Membership 2020-21 through 2023-24. (Table 4)
5. The number of approved secondary CTE programs by plan of delivery at CTCs in the 2024-25 school year including the number of hours of instruction for each program. (Table 5)

The information in this report was compiled from various data sources maintained by the PDE Center for Data Quality, the Bureau of Financial Operations, and the Bureau of Career and Technical Education.

## Report on CTC Programs

In 2024-25, there were 1,449 approved CTE programs at 84 CTCs. This reflects a 2.40% increase from 2023-24, with 1,415 approved CTE programs (Table 1).

A total of 62,412 students were enrolled in CTC school programs during the 2023-24 school year. This was a 4.3 percent increase from 2022-23 when 59,838 were enrolled in CTC programs. In 2023-24, participating school districts with approved CTE programs enrolled 9,112 students, 12.5 percent more students than enrolled in 2022-23 (Table 2).

Scheduling patterns continue to vary among schools with no significant change reported since last year. Students attend CTCs for one-third, one-half, or a full-day. A total of 18 CTCs offered four-year secondary programs. Three-year secondary programs were offered by 62 CTCs; 25 CTCs offered two-year secondary programs. There were 18 CTCs offering one-year programs (Table 3). ***Anticipated scheduling changes for the succeeding year are on a rolling basis.***

The Career and Technical Education Average Daily Membership for determining the CTE subsidy for each student enrolled in an approved program at a CTC has remained the same for 2023-24 at 59147.220. For District Operated Programs, the Career and Technical Education Average Daily Membership has remained the same at 7926.095 in 2023-24. For school districts not associated with a CTC, the Career and Technical Education Average Daily Membership has remained the same at 4248.197 in 2023-24 (Table 4).<sup>1</sup>

Of the 1,449 approved CTE programs offered at the CTCs, 1,157 were Programs of Study and 292 were Career and Technical deliveries. This data along with minimum technical hours for each approved program are found in the report (Table 5).

The data in this report replaces and supersedes previous years' data as changes to program totals have been reconciled in the Career and Technical Education Information System (CATS). The report and data will be found on the Bureau of Career and Technical Education's website.

---

<sup>1</sup> Due to changes made in Act 55 of 2025, the vocational average daily membership (VocADM) data used to calculate the state subsidy formula, is captured as June 1, to help bring predictability to the allocation. For additional information, please refer to the following webpages:

AVTS Enrollment = All approved reimbursable enrollments at AVTS(s)/CTE(s)

Participating Districts = 10th, 11th, and 12th grade enrollments at the participating school district. It also includes Comprehensive AVTS enrollments.

DST Reimbursable Enrollment = Approved reimbursable enrollments at participating districts. Does not include AVTS(s)/CTE(s) enrollments.

In 2013 - 14 Erie City SD, Philadelphia SD, and Pittsburgh SD enrollments were counted as AVTS enrollments.
