

Intervention and Supplementary Curriculum Materials for Evidence-Based Reading Instruction

This document presents reading intervention and supplementary curriculum materials for kindergarten through grade 3 advancing the instructional priorities outlined in Act 135 of 2024.

Reading Intervention and Supplementary Curriculum Materials

The Pennsylvania Department of Education (PDE) and the PDE Reading Leadership Council (Council) identified the Colorado Department of Education (CDE), The Reading League (TRL), the Virginia Department of Education (VDE), the National Center for Intensive Intervention (NCII), and EdReports (ER) as clearinghouses for intervention and supplemental curricula. These organizations are nationally recognized and provide high-quality, evidence-based resources to support schools in making informed decisions about literacy programming and have review processes that are in alignment with the requirements of Act 135 for reading curriculum materials.

In this context, a *clearinghouse* refers to a repository of programs or materials that have been evaluated using a transparent, research-based process. Such repositories may be housed within federally funded centers, private organizations, nonprofits, or state education agencies.

Intended Use for Local Education Agencies

The lists are designed to support local education agencies (LEAs) in making informed decisions about the selection and use of a reading curriculum materials and professional development. Inclusion on the list does not constitute approval by the Pennsylvania Department of Education; rather, it indicates that the material or program was evaluated by one or more of the identified clearinghouses. LEAs retain full discretion in determining how to use this information to meet their literacy needs and are not limited to selecting only the resources included.

* TRL does not have a specific review for supplemental curricula. Curricula were designated as supplemental based on how they were categorized on other lists, and scores displayed on PDE's lists are summaries of how curriculum materials scored in specific areas and are not intended to replace the full TRL reports.

** ER has two different reviews that can be viewed as supplemental programs: Foundational Skills Supplements and Core No Foundational Skills Reviews. Curricula reviews have scores for specific grade levels and skills, scores on PDE's list are summaries and are not intended to replace the full reports.

Table 5. National Center on Intensive Intervention Rating System Key^{***}

Shape	Meaning	Definition
	Reviewed	The NCII has reviewed this material and posted it on its website.

Blank cells within the table indicate there is no information on the review, or lack of review, for that resource by a given clearinghouse.
