NOTICE OF TEMPORARY CHANGE TO FISHING REGULATIONS

- A. Temporary change to fishing regulations (58 Pa. Code § 65.25) to Harris Pond, Luzerne County. See Exhibit A.
- B. Temporary change to fishing regulations (58 Pa. Code § 65.25) to Rose Valley Lake, Lycoming County. See Exhibit B.
- C. Temporary change to fishing regulations (58 Pa. Code § 65.25) to High Point Lake, Somerset County. See Exhibit C.

NOTICES

FISH AND BOAT COMMISSION

Temporary Change to Fishing Regulations; Harris Pond, Luzerne County

[55 Pa.B. 2404]
[Saturday, March 22, 2025]

The Executive Director of the Fish and Boat Commission (Commission), acting under the authority of 58 Pa. Code § 65.25 (relating to temporary changes to fishing regulations), has taken immediate action to temporarily modify fishing regulations at Harris Pond, Luzerne County, in anticipation of a complete drawdown at the lake. The Executive Director is lifting all seasons, sizes and daily limits for all species. The Executive Director has found that this action is necessary and appropriate for the management of the fishery at this lake.

The Executive Director will cause these temporary modifications to fishing regulations to be posted in the vicinity of the lake and the modified regulations will be fully effective and enforceable when so posted. These temporary modifications will remain in effect until January 1, 2026, unless the Commission shall by then, by appropriate action, have approved the designation or redesignation of waters or shall have approved the revision of the regulation in question.

TIMOTHY D. SCHAEFFER,
Executive Director

NOTICES

FISH AND BOAT COMMISSION

Temporary Change to Fishing Regulations; Rose Valley Lake, Lycoming County

[55 Pa.B. 2404]
[Saturday, March 22, 2025]

The Executive Director of the Fish and Boat Commission (Commission), acting under the authority of 58 Pa. Code § 65.25 (relating to temporary changes to fishing regulations), has taken immediate action to temporarily modify fishing regulations at Rose Valley Lake, Lycoming County, in anticipation of a complete drawdown at the lake. The Executive Director is lifting all seasons, sizes and daily limits for all species. The Executive Director has found that this action is necessary and appropriate for the management of the fishery at this lake.

The Executive Director will cause these temporary modifications to fishing regulations to be posted in the vicinity of the lake and the modified regulations will be fully effective and enforceable when so posted. These temporary modifications will remain in effect until January 1, 2026, unless the Commission shall by then, by appropriate action, have approved the designation or redesignation of waters or shall have approved the revision of the regulation in question.

TIMOTHY D. SCHAEFFER,
Executive Director

NOTICES

FISH AND BOAT COMMISSION

Temporary Change to Fishing Regulations; High Point Lake, Somerset County

[55 Pa.B. 2404]
[Saturday, March 22, 2025]

The Executive Director of the Fish and Boat Commission (Commission), acting under the authority of 58 Pa. Code § 65.25 (relating to temporary changes to fishing regulations), has taken immediate action to temporarily modify fishing regulations at High Point Lake, Somerset County, in anticipation of a complete drawdown at the lake. The Executive Director is lifting all seasons, sizes and daily limits for all species. The Executive Director has found that this action is necessary and appropriate for the management of the fishery at this lake.

The Executive Director will cause these temporary modifications to fishing regulations to be posted in the vicinity of the lake and the modified regulations will be fully effective and enforceable when so posted. These temporary modifications will remain in effect until January 1, 2026, unless the Commission shall by then, by appropriate action, have approved the designation or redesignation of waters or shall have approved the revision of the regulation in question.

**EXECUTIVE AND ADMINISTRATIVE
OTHER MATTERS**

A. Erie Access Improvement Program: Grant to McKean Township, Elk Creek, Erie County.

Commentary:

McKean Township is requesting grant funding to implement the second phase of the McKean Conservation Area Master Plan along Elk Creek in Erie County. The project includes the development of a fishing platform and parking lot. The improvements will follow the Americans with Disabilities Act standards. The total estimated cost of the project is \$309,300. McKean Township is requesting \$132,700 to complete this project.

The Pennsylvania Fish and Boat Commission (Commission) authorized the Executive Director to approve individual grants of \$100,000 or less per applicant, per year, in the Erie Access Improvement Program. For grant requests of more than \$100,000, staff will seek Commission approval.

Briefer:

Mark Morrison, Statewide Public Access Program Manager

Recommendation:

Staff recommend that the Commission approve a grant not to exceed \$132,700 to McKean Township as described in the Commentary.

Action:

**EXECUTIVE AND ADMINISTRATIVE
OTHER MATTERS**

- B. Boating Facility Grant Program: Grant to the County of Chester, Chambers Lake, Chester County.

Commentary:

The County of Chester is requesting grant funding to make improvements to the Chambers Lake Access Area at Hibernia County Park in Chester County. Planned improvements include parking lot paving and the addition of an access road, boat launch, and preparation areas. The County also plans to construct a new non-motorized boat launch to reduce user conflict. The improvements will follow the Americans with Disabilities Act standards. The total estimated cost of the project is \$425,000. The County of Chester is requesting \$212,500 to complete this project.

The Pennsylvania Fish and Boat Commission (Commission) authorized the Executive Director to approve individual grants of \$100,000 or less per applicant, per year, in the Statewide Public Access Grant Program. For grant requests of more than \$100,000, staff will seek Commission approval.

Briefer:

Mark Morrison, Statewide Public Access Program Manager

Recommendation:

Staff recommend that the Commission approve a grant not to exceed \$212,500 to the County of Chester as described in the Commentary.

Action:

**EXECUTIVE AND ADMINISTRATIVE
OTHER MATTERS**

- C. Boating Facility Grant Program: Grant to East Coventry Township, Schuylkill River, Chester County.

Commentary:

East Coventry Township is requesting grant funding to develop a launch for motorboats and non-motorized boats at Towpath Park along the Schuylkill River in Chester County. Planned improvements include parking lot paving and the installation of a floating dock and preparation area. The improvements will follow the Americans with Disabilities Act standards. The total estimated cost of the project is \$906,800. East Coventry Township is requesting \$300,000 to complete this project.

The Pennsylvania Fish and Boat Commission (Commission) authorized the Executive Director to approve individual grants of \$100,000 or less per applicant, per year, in the Statewide Public Access Grant Program. For grant requests of more than \$100,000, staff will seek Commission approval.

Briefer:

Mark Morrison, Statewide Public Access Program Manager

Recommendation:

Staff recommend that the Commission approve a grant not to exceed \$300,000 to East Coventry Township as described in the Commentary.

Action:

**EXECUTIVE AND ADMINISTRATIVE
OTHER MATTERS**

- D. Boating Facility Grant Program: Grant to the Erie-Western Pennsylvania Port Authority, Lake Erie, Erie County.

Commentary:

The Erie-Western Pennsylvania Port Authority is requesting grant funding to replace the 275-foot courtesy dock at Lampe Marina on Lake Erie in Erie County. The new dock will include lighting. The improvements will follow the Americans with Disabilities Act standards. The total estimated cost of the project is \$800,000. The Erie-Western Pennsylvania Port Authority is requesting \$200,000 to complete this project.

The Pennsylvania Fish and Boat Commission (Commission) authorized the Executive Director to approve individual grants of \$100,000 or less per applicant, per year, in the Statewide Public Access Grant Program. For grant requests of more than \$100,000, staff will seek Commission approval.

Briefer:

Mark Morrison, Statewide Public Access Program Manager

Recommendation:

Staff recommend that the Commission approve a grant not to exceed \$200,000 to the Erie-Western Pennsylvania Port Authority as described in the Commentary.

Action:

**EXECUTIVE AND ADMINISTRATIVE
OTHER MATTERS**

- E. Boating Facility Grant Program: Grant to the Oil Region Alliance of Business, Industry, and Tourism, Allegheny River, Venango County.

Commentary:

The Oil Region Alliance of Business, Industry, and Tourism is requesting grant funding to construct a non-motorized boat launch at President Township River Access Area along the Allegheny River in Venango County. The project includes increased parking capacity for vehicles with trailers, a concrete pad for a portable toilet, and a dry hydrant for use by the local volunteer fire department. The improvements will follow the Americans with Disabilities Act standards. The total estimated cost of the project is \$363,128. The Oil Region Alliance of Business, Industry, and Tourism is requesting \$181,564 to complete this project.

The Pennsylvania Fish and Boat Commission (Commission) authorized the Executive Director to approve individual grants of \$100,000 or less per applicant, per year, in the Statewide Public Access Grant Program. For grant requests of more than \$100,000, staff will seek Commission approval.

Briefer:

Mark Morrison, Statewide Public Access Program Manager

Recommendation:

Staff recommend that the Commission approve a grant not to exceed \$181,564 to the Oil Region Alliance of Business, Industry, and Tourism as described in the Commentary.

Action:

**EXECUTIVE AND ADMINISTRATIVE
OTHER MATTERS**

- F. Boating Facility Grant Program: Grant to Schuylkill River Greenways, Ganshawny Park, Schuylkill River, Berks County.

Commentary:

Schuylkill River Greenways is requesting grant funding to develop a launch for motorboats and non-motorized boats at Ganshawny Park along the Schuylkill River in Berks County. The project will also include signage and an expanded parking area. The improvements will follow the Americans with Disabilities Act standards. The total estimated cost of the project is \$361,382. Schuylkill River Greenways is requesting \$150,000 to complete this project.

The Pennsylvania Fish and Boat Commission (Commission) authorized the Executive Director to approve individual grants of \$100,000 or less per applicant, per year, in the Statewide Public Access Grant Program. For grant requests of more than \$100,000, staff will seek Commission approval.

Briefer:

Mark Morrison, Statewide Public Access Program Manager

Recommendation:

Staff recommend that the Commission approve a grant not to exceed \$150,000 to Schuylkill River Greenways as described in the Commentary.

Action:

**EXECUTIVE AND ADMINISTRATIVE
OTHER MATTERS**

- G. Boating Facility Grant Program: Grant to Schuylkill River Greenways, Reeser's Landing, Schuylkill River, Berks County.

Commentary:

Schuylkill River Greenways is requesting grant funding to develop a launch for motorboats and non-motorized boats at Reeser's Landing along the Schuylkill River in Berks County. The project includes signage and an expanded parking area. The improvements will follow the Americans with Disabilities Act standards. The total estimated cost of the project is \$231,800. Schuylkill River Greenways is requesting \$115,900 to complete this project.

The Pennsylvania Fish and Boat Commission (Commission) authorized the Executive Director to approve individual grants of \$100,000 or less per applicant, per year, in the Statewide Public Access Grant Program. For grant requests of more than \$100,000, staff will seek Commission approval.

Briefer:

Mark Morrison, Statewide Public Access Program Manager

Recommendation:

Staff recommend that the Commission approve a grant not to exceed \$115,900 to Schuylkill River Greenways as described in the Commentary.

Action:

**EXECUTIVE AND ADMINISTRATIVE
OTHER MATTERS**

- H. Boating Facility Grant Program: Grant to the Borough of Susquehanna Depot, Susquehanna River, Susquehanna County.

Commentary:

The Borough of Susquehanna Depot is requesting grant funding to develop a non-motorized boat launch at Ira Reynolds Park along the Susquehanna River in Susquehanna County. The project includes a non-motorized boat launch, composting restroom facilities and additional parking. The improvements will follow the Americans with Disabilities Act standards. The total estimated cost of the project is \$568,800. The Borough of Susquehanna Depot is requesting \$257,400 to complete this project.

The Pennsylvania Fish and Boat Commission (Commission) authorized the Executive Director to approve individual grants of \$100,000 or less per applicant, per year, in the Statewide Public Access Grant Program. For grant requests of more than \$100,000, staff will seek Commission approval.

Briefer:

Mark Morrison, Statewide Public Access Program Manager

Recommendation:

Staff recommend that the Commission approve a grant not to exceed \$257,400 to the Borough of Susquehanna Depot as described in the Commentary.

Action:

**EXECUTIVE AND ADMINISTRATIVE
OTHER MATTERS**

- I. Boating Facility Grant Program: Grant to Wysox Township, Susquehanna River, Bradford County.

Commentary:

Wysox Township is requesting grant funding to rehabilitate the Wysox Community Park Boat Launch along the Susquehanna River in Bradford County. The project includes regrading and replacing an existing motorboat launch and paving portions of the parking lot and turnaround areas. The improvements will follow the Americans with Disabilities Act standards. The total estimated cost of the project is \$411,200. Wysox Township is requesting \$205,600 to complete this project.

The Pennsylvania Fish and Boat Commission (Commission) authorized the Executive Director to approve individual grants of \$100,000 or less per applicant, per year, in the Statewide Public Access Grant Program. For grant requests of more than \$100,000, staff will seek Commission approval.

Briefer:

Mark Morrison, Statewide Public Access Program Manager

Recommendation:

Staff recommend that the Commission approve a grant not to exceed \$205,600 to Wysox Township as described in the Commentary.

Action:

LAW ENFORCEMENT
PROPOSED RULEMAKING

- A. Amendment to 58 Pa. Code § 69.12a (Special regulations applicable to Lake Erie tributary streams).

Commentary:

Currently, under 58 Pa. Code § 69.12a, fishing on Lake Erie tributaries is not permitted from 10 p.m. to 5 a.m. the following day between 12:01 a.m. on the day after Labor Day until the opening day of regular trout fishing season in the following year. The only exceptions are Walnut Creek north of Manchester Road Bridge and Elk Creek north of Route 5 where there are no time restrictions on fishing.

Streamside property owners on Walnut Creek between Route 5 downstream to Manchester Road Bridge have indicated that anglers create nighttime disturbances near their residences, and anglers have suffered injuries while traveling along or in the streams during the dark nighttime hours. In addition, the Commission's Bureau of Law Enforcement advises that steelhead poaching is more likely during the nighttime hours, and limiting permitted fishing times to daylight hours supports efforts to enforce anti-poaching laws.

The Pennsylvania Steelhead Association sent a letter to the Board of Commissioners on behalf of its officers and board of directors, as well as the officers and board of directors of the 3-CU Trout Association and the Northwest Pennsylvania Chapter of Trout Unlimited, requesting limiting the permitted hours for angler access and fishing on Walnut Creek from Route 5 downstream to the Manchester Road Bridge to one-half hour before sunrise to one-half hour after sunset. Walnut Creek from Manchester Road Bridge downstream to Lake Erie and Elk Creek north of Route 5 would maintain no time restrictions for fishing.

The Law Enforcement Committee, at its April 8, 2025, meeting considered this proposal and discussed expanding the amendment to all Lake Erie tributary streams.

Staff propose that 58 Pa. Code § 69.12a be amended as follows:

* * * * *

§ 69.12a Special regulations applicable to Lake Erie tributary streams.

- (a) The following Lake Erie tributary streams are designated as Nursery Waters—Trout Run and its tributaries; Godfrey Run; Orchard Beach Run; and Crooked Creek (where posted). It is unlawful to fish, wade or possess fishing equipment while in or along Lake Erie tributary streams designated as Nursery Waters.
- (b) Archery fishing or spear fishing is prohibited in or along Lake Erie tributary streams.
- (c) From 12:01 a.m. on the day after Labor Day, until the opening day of the regular season for trout of the following year, all Lake Erie tributary streams are closed to fishing from 10 p.m. until 5 a.m. on the following day except for Walnut Creek **[north of] between Route 5 downstream to the Manchester Road Bridge [and Elk Road north of Route 5] which is closed to angler access and fishing from one-half hour after sunset to one-half hour before sunrise. Walnut Creek from Manchester Road Bridge downstream to Lake Erie and Elk Creek north of Route 5 have no time restrictions for fishing.**
- (d) It is unlawful to fish from 10 p.m. until 5 a.m. of the following day within 50 yards of the mouth of both Trout Run and Godfrey Run while fishing the Lake Erie shoreline.

Briefer:

Colonel Jeffrey Sabo, Director, Bureau of Law Enforcement

Recommendation:

Staff recommend the publication of a notice of proposed rulemaking containing the amendment as described in the Commentary. If adopted on final rulemaking, the amendment will go into effect upon publication of a second notice in the *Pennsylvania Bulletin*.

Action:

**LAW ENFORCEMENT
PROPOSED RULEMAKING**

B. Amendment to 58 Pa. Code § 51.125 (Insurance).

Commentary:

This proposed amendment to 58 Pa. Code § 51.125 expands the insurance options for charter boat operators and fishing guides to include protection and indemnity (P&I) insurance. Currently, the regulation specifically states that charter boat operators and fishing guides shall possess and maintain general liability insurance. However, many insurance carriers will only issue P&I insurance, and not general liability insurance, to businesses that provide services on the water.

P&I insurance is a specialized type of insurance coverage that offers liability protection for shipowners and operators. P&I insurance provides coverage to shipowners and operators for their liabilities, costs, and expenses arising from a variety of incidents related to the operation of their ship, including incidents such as injury or death of crew or passengers, cargo loss or damage, pollution, and collision.

Staff propose that 58 Pa. Code § 51.125 be amended as follows:

§ 51.125. Insurance.

Charter boat operators and fishing guides shall possess and maintain in full force and effect general liability insurance or protection and indemnity (P&I) insurance for all periods during which they are operating a charter boat/fishing guide operation on the waters of this Commonwealth. The minimum amount of coverage is \$250,000 for each occurrence and \$500,000 in the aggregate. Applicants and holders of charter boat/fishing guide permits shall provide proof of insurance upon the request of the Commission.

Briefer:

Colonel Jeffrey Sabo, Director, Bureau of Law Enforcement

Recommendation:

Staff recommend the publication of a notice of proposed rulemaking containing the amendment as described in the Commentary. If adopted on final rulemaking, the amendment will go into effect upon publication of a second notice in the *Pennsylvania Bulletin*.

Action:

BOATING
PROPOSED RULEMAKING

A. Amendments to 58 Pa. Code § 107.2 (Electric motors).

Commentary:

Currently, under 58 Pa. Code § 107.2, boats with electric motors in compliance with horsepower limitations or equivalent kilowatt ratings as set forth in Chapter 111 shall not operate at greater than slow, no-wake speed on Pennsylvania Fish and Boat Commission (Commission) and Department of Conservation and Natural Resources (DCNR) owned or controlled waterways.

The proposed changes to 58 Pa. Code § 107.2(1) simplify and clarify that boats are only limited to slow, no-wake speed on Commission and DCNR owned or controlled waterways that are restricted to electric motors. The proposed integration of 58 Pa. Code § 107.2(1.1) and 58 Pa. Code § 107.2(2) provides a more complete description of restrictions for electric motor only locations.

Additionally, staff propose eliminating 58 Pa. Code § 107.2(3). At its January 5, 1981, May 30, 1981, and October 3, 1983, meetings, the Commission acted under 30 Pa.C.S. § 903 of the Fish and Boat Code to approve the designation of State Park Officers, Forest Rangers, and other law enforcement officers to enforce the Fish and Boat Code and regulations promulgated thereunder.

The Boating Advisory Board, at its February 3, 2025, meeting considered this proposal and recommended the Commission approve the publication of a notice of proposed rulemaking containing the amendments.

Staff propose that 58 Pa. Code § 107.2 be amended as follows:

§ 107.2. Electric motors.

Except as otherwise specified in Chapter 111 (relating to special regulations counties) **on waterways owned or controlled by the commission or Department of Conservation and Natural Resources:**

(1) Electric motors are permitted [**on commission owned or controlled lakes and on State park lakes**] where boating is permitted. On waters where horsepower limitations are prescribed in Chapter 111, electric motors in excess of maximum horsepower limitations or equivalent kilowatt ratings shall not be used.

(1.1) Boats propelled by electric motors **[on commission owned or controlled lakes, State park lakes and water bodies in Chapter 111] where boating is permitted and internal combustion engines are prohibited** shall not be operated at greater than slow, no-wake speed.

[(2) On commission and State park owned or controlled lakes, internal] Internal combustion **[motors] engines** attached to or installed in boats need not be removed, but the operation of engines is specifically prohibited.

[(3) Officers authorized to enforce the code and this part and, in the case of State park lakes, officers and officials of the Bureau of State Parks and operators of emergency vessels may operate boats powered by internal combustion motors in the performance of their official duties on waters otherwise restricted to electric motors only.]

Briefer:

Mark Sweppenhiser, Director, Bureau of Boating

Recommendation:

Staff recommend the publication of a notice of proposed rulemaking containing the amendments as described in the Commentary. If adopted on final rulemaking, the amendments will go into effect upon publication in the *Pennsylvania Bulletin*.

Action:

FISHERIES
FINAL RULEMAKING

A. Amendment to 58 Pa. Code § 57.8a (Class A wild trout streams).

Commentary:

The Pennsylvania Fish and Boat Commission (Commission) proposes to amend 58 Pa. Code § 57.8a (relating to Class A wild trout streams). The proposed amendment to § 57.8a updates the Commission's process to consider granting permission to stock a Class A wild trout stream under § 71a.8 (relating to stocking of designated waters).

A notice of proposed rulemaking was published at 55 Pa.B. 1926 (March 8, 2025) (Exhibit D). Please review the "Summary of Proposal" in Exhibit D for further details. The Commission received 19 public comments relating to this proposal: one supports the proposal, one supports a specific section of the proposal, and 17 oppose the proposal. Copies of public comments were provided to the commissioners.

Briefer:

Kristopher Kuhn, Director, Bureau of Fisheries

Recommendation:

Staff recommend that the Commission adopt the amendment as set forth in the notice of proposed rulemaking. If adopted, this amendment will go into effect upon publication of a second notice in the *Pennsylvania Bulletin*.

Action:

STATEMENTS OF POLICY

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 57]

Class A Wild Trout Streams; Statements of Policy

[55 Pa.B. 1926]

[Saturday, March 8, 2025]

The Fish and Boat Commission (commission) proposes to amend Chapter 57 (relating to statements of policy). The commission is publishing this proposed statement of policy under the authority of 30 Pa.C.S. (relating to Fish and Boat Code) (code). The proposed amendment updates the internal policy for the commission pertaining to stocking of Class A wild trout streams.

A. *Effective Date*

This proposed statement of policy, if approved, will go into effect upon final-form publication in the *Pennsylvania Bulletin*.

B. *Contact Person*

For further information on this proposed statement of policy, contact Renae Kluk Kiehl, Esq., P.O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This proposed statement of policy is available on the commission's website at <https://www.pa.gov/en/agencies/fishandboat.html>.

C. *Statutory Authority*

The proposed amendment to § 57.8a (relating to Class A wild trout streams) is published under the statutory authority of section 2102 of the code (relating to rules and regulations).

D. *Purpose and Background*

The specific purpose and background of the proposed amendment is described in more detail under the summary of proposal.

E. *Summary of Proposal*

Class A wild trout streams represent the best of this Commonwealth's wild trout resources, and as of November 2, 2024, approximately 4% of all flowing waters in this Commonwealth have been designated as Class A wild trout streams by the commission. Following designation by the commission, Class A wild trout streams enter a process whereby the Department of Environmental Protection will ultimately designate these stream sections as high quality, cold water fishes under 25 Pa. Code Chapter 93 (relating to water quality standards). This designation provides additional water quality protection under the Commonwealth's environmental laws and regulations. As such, a Class A designation is an important mechanism to properly protect, conserve and enhance wild trout populations and the quality of their habitats.

On September 30, 2014 (effective January 1, 2015), the statement of policy at § 57.8a was amended to require the Executive Director to obtain approval from the commission's Board of Commissioners (board) prior to granting permission to stock a Class A wild trout stream. Previously, the Executive Director had the authority to do so independently. Subsequently, 13 stream sections that supported strong Class A wild brown trout populations were designated Class A between 2015 and 2017, and commission stocking was continued. These stream sections are heavily fished waters, mostly located in high-density human population centers, and are of a size (that is, large streams) and character (that is, fertile) that can support a high-quality fishery for both stocked and wild trout.

There are very few Class A wild trout streams where supplemental trout stocking has been considered or warranted. However, there are rare circumstances beyond the original 13 stream sections where stocking a Class A could be considered. As such, commission staff developed criteria that provide direction and guide decisions regarding stocking trout in Class A wild trout streams. These criteria do not automatically result in the Executive Director granting an exemption to stock a Class A wild trout stream but rather serve as guidance for consideration. Most Class A wild trout streams are best managed solely for wild trout with no stocking.

On January 25, 2021 (effective April 3, 2021), the statement of policy was amended to reflect that the Executive Director will consult the criteria set forth in the *Operational Guidelines for the Management of Trout Fisheries in Pennsylvania Waters* (Guidelines) to consider the need for seeking Board approval for continued stocking. The criteria were published in February 2022 in the fifth edition of the Guidelines and published on the commission's website.

The criteria to be included in the sixth edition of the Guidelines will be updated to improve the process for considering Class A stockings based on lessons learned while using the original criteria and are intended to keep exemptions rare and prioritize the wild trout resource. If any of the criteria are met, the Executive Director would have the authority to grant an exemption to stock a Class A wild trout stream. However, these criteria do not account for all circumstances where stocking could be considered. To grant an exemption to stock a Class A wild trout stream section that does not meet any of the criteria, the Executive Director shall obtain the approval of the board.

The commission proposes that § 57.8a be amended to read as set forth in Annex A.

F. *Paperwork*

This proposed statement of policy will not increase paperwork and will not create new paperwork requirements.

G. *Fiscal Impact*

This proposed statement of policy will have no adverse fiscal impact on the Commonwealth or its political subdivisions.

H. *Public Comments*

Interested persons are invited to submit written comments, objections or suggestions about this proposed statement of policy to the Executive Director, Fish and Boat Commission, P.O. Box 67000, Harrisburg, PA 17106-7000, within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically to RA-pfbcregulations@pa.gov. Electronic comments submitted in any other manner will not be accepted.

TIMOTHY D. SCHAEFFER,
Executive Director

Fiscal Note: 48A-361. No fiscal impact; recommends adoption.

Annex A

TITLE 58. RECREATION

PART II. FISH AND BOAT COMMISSION

Subpart A. GENERAL PROVISIONS

CHAPTER 57. STATEMENTS OF POLICY

Subchapter A. FISHERIES POLICIES

§ 57.8a. Class A wild trout streams.

It is the policy of the Commission to manage self-sustaining Class A wild trout populations as a renewable natural resource to conserve that resource and the angling it provides. Class A wild trout populations represent the best of this Commonwealth's naturally reproducing trout fisheries. With rare exceptions, these stream sections are managed solely for the perpetuation of the wild trout fishery with no stocking. However, there may be circumstances that justify stocking a Class A wild trout stream section.

Prior to granting permission to stock a Class A wild trout stream section under § 71a.8 (relating to stocking of designated waters), the Executive Director will consult **[internal decision-making]** the stocking criteria set forth in the current edition of the *Operational Guidelines for the Management of Trout Fisheries in Pennsylvania Waters* **[to consider the need for continued stocking at newly designated Class A wild trout streams and obtain the approval of the Commission. Consideration will only be given to requests for continued stocking in stream sections within 1 year of the section being designated as Class A and posted in the** *Pennsylvania Bulletin*; **however, entities that previously received an exemption or a Special Activities Permit for continued stocking from the Commission between 2010 and the effective date of this amendment will be eligible for consideration].** **If any of the stocking criteria are met, the Executive Director may grant an exemption to stock a Class A wild trout stream section. To grant an exemption to stock a Class A wild trout stream section that does not meet any of the stocking criteria, the Executive Director shall obtain the approval of the Commission. The following apply:**

- (1) Criteria developed for Class A **[Wild Trout]** wild trout fisheries are species specific.
- (2) Wild **[Trout Biomass Class Criteria]** trout biomass class criteria include provisions for:
 - (i) *Wild brook trout fisheries.*
 - (A) Total brook trout biomass of at least 30 kg/ha (26.7 lbs/acre).
 - (B) Total biomass of brook trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).
 - (C) Brook trout biomass must comprise at least 75% of the total trout biomass.
 - (ii) *Wild brown trout fisheries.*

- (A) Total brown trout biomass of at least 40 kg/ha (35.6 lbs/acre).
- (B) Total biomass of brown trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).
- (C) Brown trout biomass shall comprise at least 75% of the total trout biomass.
- (iii) *Mixed wild brook and brown trout fisheries.*
- (A) Combined brook and brown trout biomass of at least 40 kg/ha (35.6 lbs/acre).
- (B) Total biomass of brook trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).
- (C) Total biomass of brown trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).
- (D) Brook trout biomass shall comprise less than 75% of the total trout biomass.
- (E) Brown trout biomass shall comprise less than 75% of the total trout biomass.
- (iv) *Wild rainbow trout fisheries.* Total biomass of rainbow trout less than 15 cm (5.9 inches) in total length of at least 2.0 kg/ha (1.78 lbs/acre).
- (v) *Mixed wild brook and rainbow trout fisheries.*
- (A) Combined brook and rainbow trout biomass of at least 40 kg/ha (35.6 lbs/acre).
- (B) Total biomass of brook trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).
- (C) Total biomass of rainbow trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).
- (D) Brook trout biomass shall comprise less than 75% of the total trout biomass.
- (E) Rainbow trout biomass shall comprise less than 75% of the total trout biomass.
- (vi) *Mixed wild brown and rainbow trout fisheries.*
- (A) Combined brown and rainbow trout biomass of at least 40 kg/ha (35.6 lbs/acre).
- (B) Total biomass of brown trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).
- (C) Total biomass of rainbow trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).
- (D) Brown trout biomass shall comprise less than 75% of the total trout biomass.
- (E) Rainbow trout biomass shall comprise less than 75% of the total trout biomass.
- (3) A water will not be removed from the Class A [**Wild Trout Streams**] wild trout streams designation unless the cause leading to the reduction in the wild trout population has been clearly identified and it has been determined that the water is beyond remediation to re-establish the Class A wild trout population. Possible reasons include the following:

(i) Human caused conditions or sources of pollution prevent the attainment of a Class A wild trout fishery and cannot be remedied or will cause more environmental damage to correct than to leave in place.

(ii) Dams, diversions or other types of hydrologic modifications preclude the attainment of a Class A wild trout fishery, and it is not feasible to restore the water body to its original condition or to operate the modification in a way that will result in the attainment of a Class A wild trout fishery.

FISHERIES
DESIGNATIONS

A. Proposed changes to the list of Class A wild trout streams (58 Pa. Code § 57.8a).

Commentary:

During recent surveys, Pennsylvania Fish and Boat Commission (Commission) staff documented 25 additional stream sections to have Class A wild trout populations. Exhibit E provides information on the locations and a data summary for each of these waters.

A notice of proposed changes was published at 55 Pa.B. 1778 (February 22, 2025) (Exhibit F). The Commission received a total of nine public comments regarding the proposed additions: all support the proposal. Copies of all public comments were provided to the commissioners.

Briefer:

David Nihart, Chief, Division of Fisheries Management

Recommendation:

Staff recommend that the Commission add 25 stream sections to its Class A wild trout streams list as set forth in the notice of proposed changes. If approved, these additions will go into effect upon publication of a second notice in the *Pennsylvania Bulletin*.

FISH AND BOAT COMMISSION

Proposed Changes to List of Class A Wild Trout Waters; April 2025

[55 Pa.B. 1778]

[Saturday, February 22, 2025]

The Fish and Boat Commission (Commission) is considering changes to its list of Class A wild trout streams. Under 58 Pa. Code § 57.8a (relating to Class A wild trout streams), it is the Commission's policy to manage self-sustaining Class A wild trout populations as a renewable natural resource to conserve that resource and the angling it provides. Class A wild trout populations represent the best of this Commonwealth's naturally reproducing trout fisheries. With rare exceptions, the Commission manages these stream sections solely for the perpetuation of the wild trout fishery with no stocking.

(1) Criteria developed for Class A Wild Trout fisheries are species specific.

(2) Wild Trout Biomass Class Criteria include provisions for:

(i) *Wild brook trout fisheries.*

(A) Total brook trout biomass of at least 30 kg/ha (26.7 lbs/acre).

(B) Total biomass of brook trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(C) Brook trout biomass must comprise at least 75% of the total trout biomass.

(ii) *Wild brown trout fisheries.*

(A) Total brown trout biomass of at least 40 kg/ha (35.6 lbs/acre).

(B) Total biomass of brown trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(C) Brown trout biomass must comprise at least 75% of the total trout biomass.

(iii) *Mixed wild brook and brown trout fisheries.*

(A) Combined brook and brown trout biomass of at least 40 kg/ha (35.6 lbs/acre).

(B) Total biomass of brook trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(C) Total biomass of brown trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(D) Brook trout biomass must comprise less than 75% of the total trout biomass.

(E) Brown trout biomass must comprise less than 75% of the total trout biomass.

(iv) *Wild rainbow trout fisheries.* Total biomass of rainbow trout less than 15 cm (5.9 inches) in total length of at least 2.0 kg/ha (1.78 lbs/acre).

(v) *Mixed wild brook and rainbow trout fisheries.*

(A) Combined brook and rainbow trout biomass of at least 40 kg/ha (35.6 lbs/acre).

(B) Total biomass of brook trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(C) Total biomass of rainbow trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(D) Brook trout biomass shall comprise less than 75% of the total trout biomass.

(E) Rainbow trout biomass shall comprise less than 75% of the total trout biomass.

(vi) *Mixed wild brown and rainbow trout fisheries.*

(A) Combined brown and rainbow trout biomass of at least 40 kg/ha (35.6 lbs/acre).

(B) Total biomass of brown trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(C) Total biomass of rainbow trout less than 15 cm (5.9 inches) in total length of at least 0.1 kg/ha (0.089 lbs/acre).

(D) Brown trout biomass shall comprise less than 75% of the total trout biomass.

(E) Rainbow trout biomass shall comprise less than 75% of the total trout biomass.

During recent surveys, Commission staff documented the following stream sections to have Class A wild trout populations. The Commission intends to consider adding these waters to its list of Class A wild trout streams at its meeting on April 28, 2025.

**FISHERIES
DESIGNATIONS**

B. Proposed changes to the list of wild trout streams (58 Pa. Code § 57.11).

Commentary:

During recent surveys, Pennsylvania Fish and Boat Commission (Commission) staff documented wild trout populations in 45 new waters and in five waters that are currently listed, qualifying them for listing or limit revision as wild trout streams under 58 Pa. Code § 57.11. Exhibit G provides information on the locations and a data summary for each of these waters.

A notice of proposed additions and revisions was published at 55 Pa.B. 1776 (February 22, 2025) (Exhibit H). The Commission received a total of nine public comments regarding the proposed additions and revisions: all support the proposal. Copies of all public comments were provided to the commissioners.

Briefer:

David Nihart, Chief, Division of Fisheries Management

Recommendation:

Staff recommend that the Commission add 45 streams or portions of streams to its list of wild trout streams and revise the section limits of five waters that are currently listed as set forth in the notice. If approved, these additions and revisions will go into effect upon publication of a second notice in the *Pennsylvania Bulletin*.

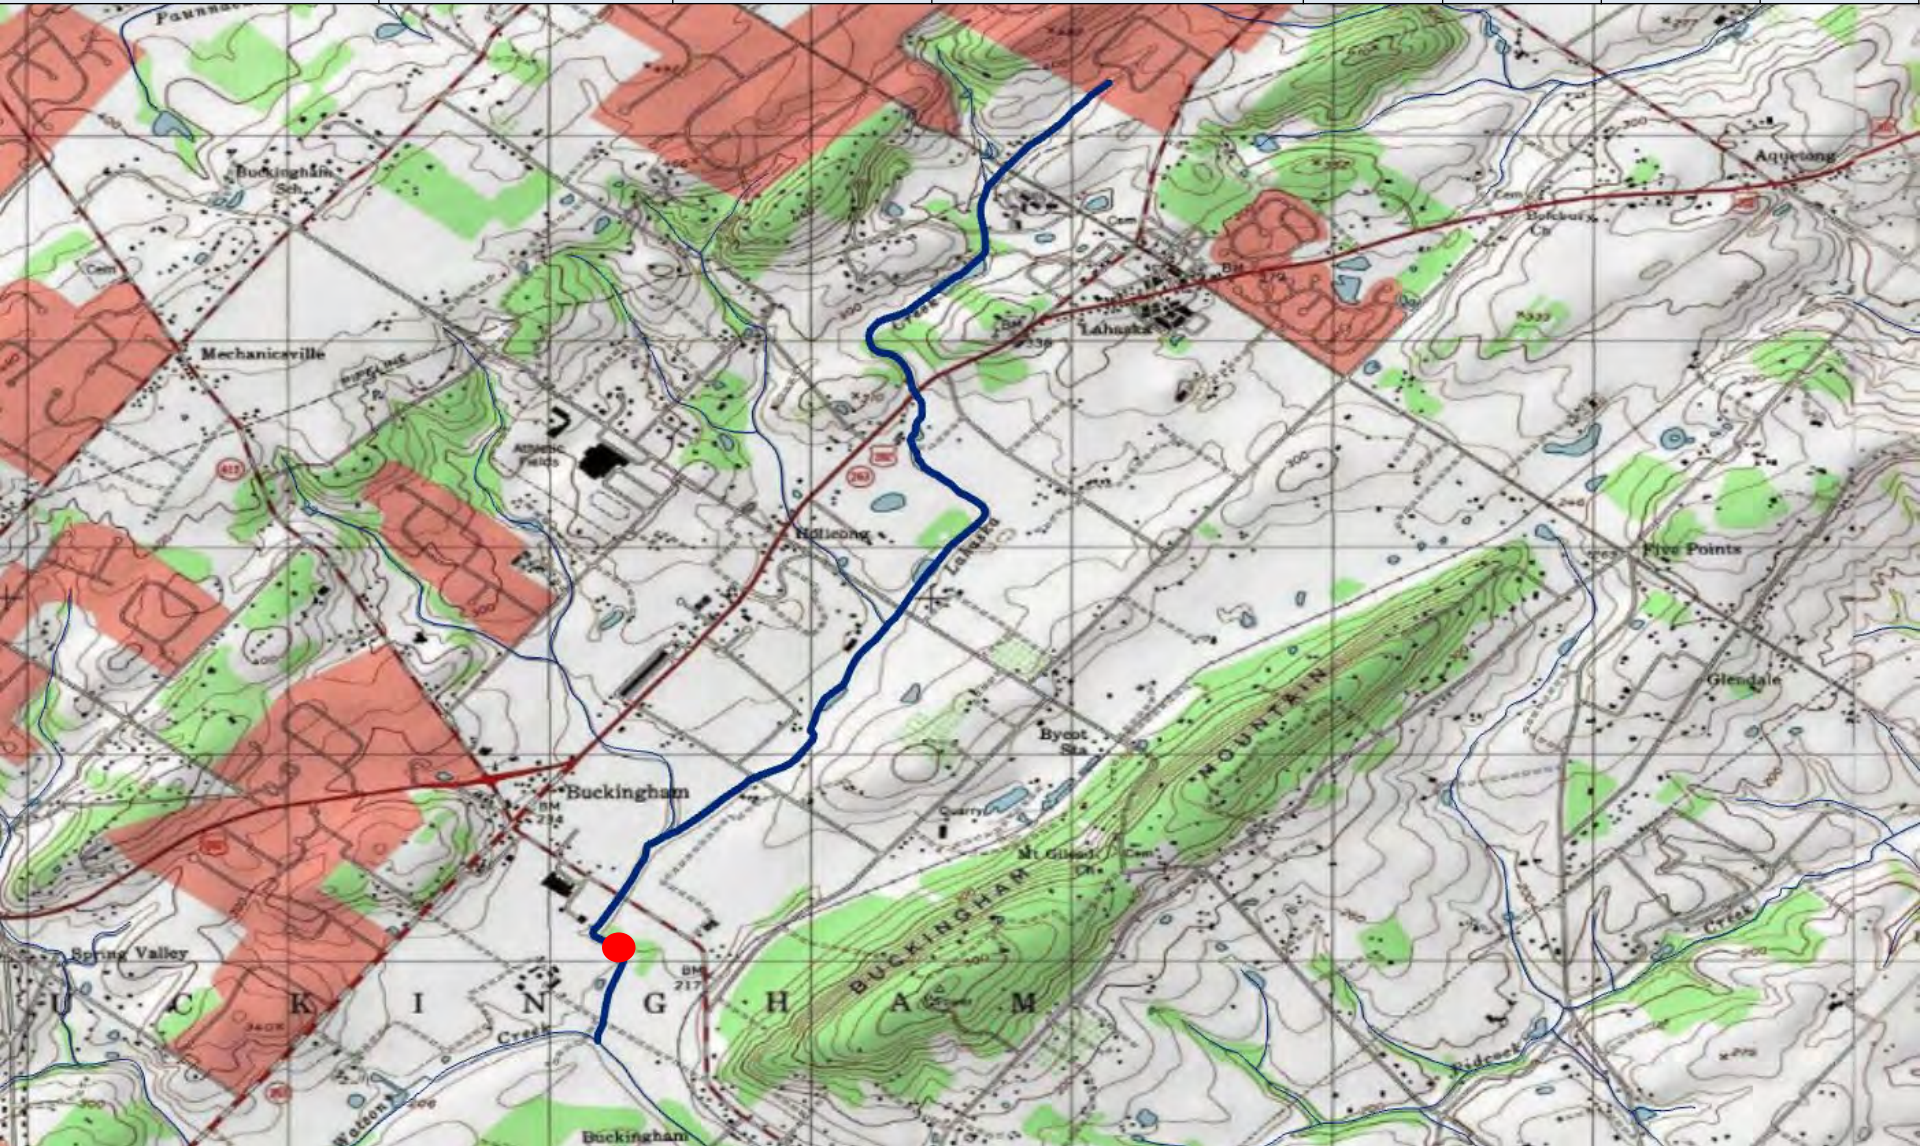

Action:

NOTICES

FISH AND BOAT COMMISSION

Classification of Wild Trout Streams; Proposed Additions; April 2025

[55 Pa.B. 1776]

[Saturday, February 22, 2025]

Under 58 Pa. Code § 57.11 (relating to listing of wild trout streams), it is the policy of the Fish and Boat Commission (Commission) to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout streams. The Commission's Fisheries Management Division maintains the list of wild trout streams. The Executive Director, with the approval of the Commission, will from time-to-time publish the list of wild trout streams in the *Pennsylvania Bulletin*. The listing of a stream section as a wild trout stream is a biological designation that does not determine how it is managed. The Commission relies upon many factors in determining the appropriate management of streams.

At the next Commission meeting on April 28, 2025, the Commission will consider changes to its list of wild trout streams. Specifically, the Commission will consider the addition of the following streams or portions of streams to the list:

| County of Mouth | Stream Name | Section Limits | Tributary to | Mouth Lat/Lon |
|-----------------|--|---------------------------------|---|------------------------|
| Bedford | Unnamed tributary (UNT) (RM 0.15) to UNT to Raystown Branch Juniata River (RM 39.23) | Headwaters to Mouth | UNT to Raystown Branch Juniata River (RM 39.23) | 40.213909 78.267811 |

| Westmoreland | Dark Hollow | Headwaters to Mouth | North Fork Coalpit Run | 40.292049 79.252357 |

The Commission also will consider the following revisions to the section limits of streams on the list:

| County of Mouth | Stream Name | Current Limits | Revised Limits | Tributary to | Mouth Lat/Lon |
|----------------------------|---------------------------|---|---|-------------------------|--------------------------|
| Centre | South Fork Beech Creek | Headwaters to I-80 bridge | Headwaters to Mouth | Beech Creek | 41.048332 77.867775 |
| Indiana | Yellow Creek | Headwaters to Laurel Run | Headwaters to 300 meters upstream Diehl Road Bridge | Two Lick Creek | 40.541111 79.167222 |
| Monroe | Forest Hills Run | Unnamed Lake near East Swiftwater to Paradise Creek | Headwaters to Mouth | Paradise Creek | 41.100664 75.270047 |
| Monroe | Swiftwater Creek | Swiftwater Lake to Mouth | Headwaters to Mouth | Forest Hills Run | 41.101111 75.272222 |
| Montgomery | Perkiomen Creek | Headwaters to Tollgate Road (T-540) | Headwaters to Green Lane Reservoir | Schuylkill River | 40.119167 75.462778 |

Persons with comments, objections or suggestions concerning the classification of the streams listed may submit them in writing to the Executive Director, Fish and Boat Commission, P.O. Box 67000, Harrisburg, PA 17106-7000, within 30 days after publication of this notice in the

Pennsylvania Bulletin. Comments, objections or suggestions may also be submitted electronically to RA-pfbcregulations@pa.gov.

TIMOTHY D. SCHAEFFER,

FISHERIES
DESIGNATIONS

C. Removal of Harris Pond, Luzerne County, from the Big Bass program (58 Pa. Code § 65.9).

Commentary:

Harris Pond, a 30-acre impoundment owned by the Commonwealth and managed by the Pennsylvania Fish and Boat Commission (Commission), is located in Ross Township, Luzerne County, approximately 10 miles north of the Borough of Shickshinny. This reservoir is expected to be completely dewatered in 2025 or 2026 to complete dam and spillway repairs and modifications per the Pennsylvania Department of Environmental Protection dam safety standards.

Effective April 1, 2025, the Executive Director of the Commission, acting under the authority of 58 Pa. Code § 65.25 (relating to temporary changes to fishing regulations), lifted all seasons, sizes, and creel limits for all species at Harris Pond. This action was necessary and appropriate for the management of the fishery at this lake. Given the impending lake drawdown and action taken by the Executive Director to enact a temporary change in fishing regulations, this water must be removed from the Big Bass program (58 Pa. Code § 65.9).

A notice of proposed designation was published at 55 Pa.B. 2404 (March 22, 2025) (Exhibit I). The Commission did not receive any public comments relating to this proposal.

Briefer:

David Nihart, Chief, Division of Fisheries Management

Recommendation:

Staff recommend that the Commission remove Harris Pond, Luzerne County, from the Big Bass program (58 Pa. Code § 65.9). If approved, the designation will go into effect upon publication of a second notice in the *Pennsylvania Bulletin*.

Action:

NOTICES

FISH AND BOAT COMMISSION

Special Regulation Designation; Removal of Harris Pond; Big Bass Program

[55 Pa.B. 2404]
[Saturday, March 22, 2025]

The Fish and Boat Commission (Commission) took the following action with respect to waters subject to 58 Pa. Code Chapter 65 (relating to special fishing regulations), effective upon publication in the *Pennsylvania Bulletin*.

58 Pa. Code § 65.9. Big bass

The Commission removed the following water from its list of "big bass" waters regulated and managed under 58 Pa. Code § 65.9 (relating to big bass):

| County | Water |
|---------|-------------|
| Luzerne | Harris Pond |

TIMOTHY D. SCHAEFFER,

FISHERIES
DESIGNATIONS

- D. Removal of Rose Valley Lake, Lycoming County, from the Big Bass program (58 Pa. Code § 65.9).

Commentary:

Rose Valley Lake, a 389-acre impoundment owned by the Commonwealth and managed by the Pennsylvania Fish and Boat Commission (Commission), is located in Gamble Township, Lycoming County, approximately nine miles north of the City of Williamsport. This reservoir is expected to be completely dewatered in 2026 to complete dam and spillway repairs and modifications per the Pennsylvania Department of Environmental Protection dam safety standards.

Effective April 1, 2025, the Executive Director of the Commission, acting under the authority of 58 Pa. Code § 65.25 (relating to temporary changes to fishing regulations), lifted all seasons, sizes, and creel limits for all species at Rose Valley Lake. This action was necessary and appropriate for the management of the fishery at this lake. Given the impending lake drawdown and action taken by the Executive Director to enact a temporary change in fishing regulations, this water must be removed from the Big Bass program (58 Pa. Code § 65.9).

A notice of proposed designation was published at 55 Pa.B. 2404 (March 22, 2025) (Exhibit J). The Commission did not receive any public comments relating to this proposal.

Briefer:

David Nihart, Chief, Division of Fisheries Management

Recommendation:

Staff recommend that the Commission remove Rose Valley Lake, Lycoming County, from the Big Bass program (58 Pa. Code § 65.9). If approved, the designation will go into effect upon publication of a second notice in the *Pennsylvania Bulletin*.
