

Guidance for patients and visitors entering outpatient healthcare facilities, even if you are up to date on all your COVID-19 vaccinations.

Keeping Patients and Families Safe

Right now, we're taking extra precautions and safety measures so you feel confident and comfortable in our care.

IF YOU HAD COVID-19

IF YOU WERE EXPOSED TO COVID-19

FOR NON-EMERGENT ISSUES, PATIENTS MAY VISIT AFTER 10 DAYS

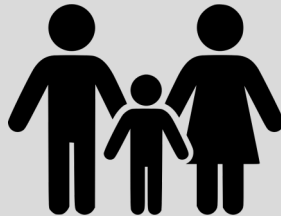

PATIENTS

FOR NON-EMERGENT ISSUES, PATIENTS MAY VISIT AFTER 10 DAYS

MAY ACCOMPANY PATIENT AFTER 10 DAYS

CAREGIVERS

MAY ACCOMPANY PATIENT AFTER 10 DAYS

WEAR A WELL-FITTING FACE MASK IN HEALTHCARE FACILITIES

OUTPATIENT HEALTHCARE FACILITIES GUIDANCE FOR PATIENTS

Typical isolation and quarantine timelines are shown. Information may need to be adapted depending on healthcare facility capacity, patient and staff vaccination, severity of COVID-19 illness, immune status, and other factors.

Guidance for community interactions outside of healthcare settings may allow for shorter isolation or quarantine periods. For more info, please consult [CDC GUIDANCE](#).
