The funding type for each public vaccine is listed on the shipment's packing slip. Your private vaccines come in a separate shipment and must be stored apart from public vaccines.

2

How to store vaccine with only one fund type in a box

Organize your storage unit so vaccines are separated by VFC, Other Public, and Private. You can either:

Label the storage unit shelf.

OR

Label the bins.

Place the vaccine in the proper bin.

3

How to store vaccine with more than one fund type in a box

Store these boxes in a separate bin. To keep track of your use:

Mark off VFC doses as used.									
<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	3	4	5	6	7	8	9	
Mark off Other Public doses as used.									
<input checked="" type="checkbox"/>	2	3	4	5	6	7	8	9	

1. Label the box of single-dose or multi-dose vials.
2. Highlight the number of doses from each funding type.
3. Mark off vaccine as you use it.

Be sure you don't cover important information such as vaccine name and lot number. Always keep vaccines in their original packaging with the lid closed to protect them from light.
