

Cover Letter

July 18, 2023

Ms. Tracie Gray, Director
Bureau of Accident and Health Insurance
Pennsylvania Insurance Department
1311 Strawberry Square
Harrisburg, PA 17120

Re: Cover Letter for Oscar Health Plan of Pennsylvania, Inc.'s (Oscar's) Rate Filing Effective January 1, 2024
SERFF OHIN-133678196

Dear Ms. Gray:

This cover letter is in support of Oscar's Affordable Care Act (ACA) products in the individual market, to be offered with an effective date of January 1, 2024. The information requested in the Pennsylvania Insurance Department's (PID's) 2024 ACA Compliant Health Insurance Rate Filing Guidance dated March 21, 2023 is provided below.

1. Company Name and NAIC Number
 - Oscar Health Plan of Pennsylvania, Inc.
 - NAIC Number — 16590
2. Market (Individual or Small Group): Individual
3. On/Off or Off Exchange: On/Off
4. Effective Date of Coverage: January 1, 2024
5. Average Rate Change Requested: 6.78%
6. Range of Rate Change Requested: 2.54% to 29.67%
7. Total Additional Annual Revenue Generated from the Proposed Rate Change: \$1,652,375
8. Products: HMO
9. Rating Areas and Any Changes from 2023:
 - Current Rating Areas: 3, 6, 7, and 8
10. Metal Levels and Catastrophic Plans: Catastrophic, Bronze, Silver, Gold
11. Current Number of Covered Lives and of Policyholders as of February 1, 2023:
 - 3,165 covered lives
 - 2,612 policyholders
12. Number of Plans Offered in 2024 and the Change this Represents from 2023:
 - 15 plans offered in 2024

- 22 plans offered in 2023

13. Corresponding Contract Form Number, SERFF, and Binder ID Numbers:

- Forms: OSC-PA-IVL-EOC-2024-HIX
- Form Filing: OHIN-133665575
- Rate Filing: OHIN-133678196
- Binder: OHIN-PA24-125116287

14. HIOS Issuer ID Number and Submission Tracking Number:

- HIOS Issuer ID Number: 98517

1. Scope and Range of Rate Increase

The purpose of this document is to present rate change justification for Oscar Health Plan of Pennsylvania, Inc (Oscar's) Individual Affordable Care Act (ACA) products, with an effective date of January 1, 2024, and to comply with the requirements of Section 2794 of the Public Health Service Act as added by Section 1003 of the Patient Protection and Affordable Care Act (ACA).

Using in-force business as of March 2023, the proposed average rate increase for renewing plans is 8.2%. Rate increases vary by plan due to a combination of factors including shifts in benefit leveraging and cost-sharing modifications. This rate increase is absent of rate changes due to attained age.

The rate increase impacts an estimated 2,610 members.

2. Reason for Rate Increase(s)

The significant factors driving the proposed rate change include the following:

Medical and Prescription Drug Inflation and Utilization Trends

The projected premium rates reflect the most recent emerging experience which was trended for anticipated changes due to medical and prescription drug inflation and utilization.

Administrative Expenses, Taxes and Fees, and Risk Margin

Changes to the overall premium level are needed because of required changes in federal and state taxes and fees. In addition, there are anticipated changes in both administrative expenses and targeted risk margin.

Prospective Benefit Changes

Plan benefits have been revised as a result of changes in the Center for Medicare and Medicaid Services (CMS) Actuarial Value Calculator and state requirements, as well as for strategic product considerations.

Anticipated Changes in the Average Morbidity of the Covered Population

Changes to the overall premium level are needed because of anticipated changes in the underlying morbidity of the projected marketplace.

COVID-19 Pandemic

Changes to the overall premium level are needed to account for sustained lower levels of emerging COVID-19 spend, as well as for the impact of the Public Health Emergency ending.

1. Introduction and Purpose

The purpose of this document, which is submitted in conjunction with the Part I Unified Rate Review Template (URRT) and Pennsylvania Actuarial Memorandum Rate Exhibits (Rate Exhibits), is to comply with the requirements of the Part III Actuarial Memorandum and to support the premium rates developed for Oscar Health Plan of Pennsylvania, Inc. (Oscar's) Affordable Care Act (ACA) products in the individual market, with an effective date of January 1, 2024.

This actuarial memorandum provides certain information related to the rate filing submission including support for the values entered into the URRT, which demonstrates compliance with the market rating rules and reasonableness of applicable rate increases. This information may not be appropriate for other purposes.

This information is intended for use by the Pennsylvania Insurance Department (PID), the Center for Consumer Information and Insurance Oversight (CCIIO), and their subcontractors to assist in the review of Oscar's individual market rate filing.

Future regulatory changes may affect the extent to which the rates presented herein are neither excessive nor deficient.

2. General Information

Company Identifying Information

Company Legal Name:	Oscar Health Plan of Pennsylvania, Inc.
State:	Pennsylvania
NAIC:	16590
HIOS Issuer ID:	98517
Market:	Individual
Effective Date:	January 1, 2024
Policy Forms:	OSC-PA-IVL-EOC-2024-HIX

Company Contact Information

[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]

3. Proposed Rate Increases

Reason for Rate Increase(s)

Exhibit A summarizes the proposed rate increases by plan effective January 1, 2024. Rate increases vary by plan due to a combination of factors including shifts in benefit leveraging, cost-sharing modifications, and geographic rating factors.

Using in-force business as of March 2023, the proposed average rate change for renewing plans is 8.2%. This rate change is absent of rate changes due to attained age.

The significant factors driving the proposed rate change include the following:

Medical and Prescription Drug Inflation and Utilization Trends

The projected premium rates reflect the most recent emerging experience which was trended for anticipated changes due to medical and prescription drug inflation and utilization.

Administrative Expenses, Taxes and Fees, and Risk Margin

Changes to the overall premium level are needed because of required changes in federal and state taxes and fees. In addition, there are anticipated changes in both administrative expenses and targeted risk margin.

Prospective Benefit Changes

Plan benefits have been revised as a result of changes in the Center for Medicare and Medicaid Services (CMS) Actuarial Value Calculator and state requirements, as well as for strategic product considerations.

Anticipated Changes in the Average Morbidity of the Covered Population

Changes to the overall premium level are needed because of anticipated changes in the underlying morbidity of the projected marketplace.

Anticipated Changes in the Network Configuration

Changes to the overall premium level are needed because of anticipated changes in the underlying network configuration and associated unit costs.

COVID-19 Pandemic

Changes to the overall premium level are needed because of the unwinding of the Public Health Emergency and the change in expected costs attributed to COVID-19.

[Rate Development Overview](#)

The plans included in this rate filing are to be offered for sale effective January 1, 2024. Oscar's rate development, including the methodology described below, is based on generally accepted actuarial principles for community rated individual blocks of business.

Underlying Claim Experience

Oscar started with Pennsylvania's individual claim experience from January 1, 2022 through June 30, 2022 with runout through March 31, 2023 and experience from July 1, 2022 through December 31, 2022 with runout through May 31, 2023, as the experience basis in the projection. The claim amount includes an estimate for Incurred But Not Reported (IBNR) claims.

In the absence of fully credible base experience claim data, Oscar also utilized Florida individual claim experience from Oscar's legal entity (Oscar Insurance Company of Florida; NAIC code 16374) as the manual rate basis in the projection. The base experience used for the manual projection reflects claims from January 1, 2022 through December 31, 2022, with runout through March 31, 2023, and includes an estimate for (IBNR) claims.

Trend

Oscar applied utilization and unit cost trends to the underlying medical and prescription drug claims to reflect the expected claim levels in the projection period.

Benefit Adjustment

The projected claims were adjusted to reflect the benefits for each of the products to be offered on and off the exchange.

Demographics and Morbidity

The starting claim experience was adjusted to reflect changes in the anticipated morbidity and demographics corresponding to Oscar's projected 2024 membership distribution.

Market Morbidity

The starting claim experience was additionally adjusted to reflect changes in the anticipated market morbidity from the base period to the projection period in response to the uncertainty inherent in the marketplace.

Network Adjustment

The projected claims were adjusted to reflect changes in the anticipated provider reimbursement levels.

COVID-19 Pandemic

The starting claim experience was adjusted from the experience period to the projection period to reflect the anticipated impact of items such as the normalization of the experience period and projection period direct costs as a result of the ongoing COVID-19 pandemic on the individual market in Pennsylvania. Future regulatory, legislative, or economic changes may affect the extent to which the rates presented herein are neither excessive nor deficient.

State-Based Reinsurance Program

The claim experience was adjusted to reflect the removal of the projected reinsurance recoveries. At PID's request, recoveries were developed on a percent of net claims approach using the initial parameters for the 2024 plan year — \$60,000 attachment point, coinsurance of 50%, up to a reinsurance cap of \$100,000.

Risk Adjustment

The projected claims were adjusted to reflect payments to the individual (catastrophic and non-catastrophic) risk pool as a result of the risk adjustment program.

Administrative Expenses and Risk Margin

The premium incorporates an average 11.1% administrative charge, which is inclusive of general administrative expenses, commission, and risk margin.

Taxes and Fees

The premium rates reflect applicable state and federal taxes and fees for the 2024 plan year.

4. Market Experience

4.1. Experience and Current Period Premium, Claims, and Enrollment

Oscar's rates are developed using a single risk pool, established according to the requirements in 45 CFR Part 156, §156.80(d). The experience period data is based on all Oscar individual market policies in Pennsylvania and the projection period reflects all projected covered lives for every non-grandfathered product/plan combination for Oscar in the Pennsylvania individual market.

The premium earned during the experience period and as reported on Worksheet 1, Section I of the URRT and Table 2 — Experience Period Claims and Premiums of the Rate Exhibits are from Oscar's data warehouse for calendar year 2022.

The premiums do not reflect an adjustment for MLR rebates as Oscar does not anticipate paying rebates for the base period.

Experience Period Loss Ratio

The loss ratio, expressed as incurred claims over revenue (defined as gross premium +/- risk adjustment) for the experience period data is 81.2%, as shown in Table 2 — Experience Period Claims and Premiums of the Rate Exhibits.

Paid Through Date

The experience period in Worksheet 1, Section I of the URRT and Table 2 — Experience Period Claims and Premiums of the Rate Exhibits shows Oscar's earned premium and incurred claims for the experience periods of January 1, 2022 through June 30, 2022 with runout through March 31, 2023 and July 1, 2022 through December 31, 2022 with runout through May 31, 2023.

Current Date

The current period in Worksheet 2, Section II of the URRT and Table 1 — Number of Members of the Rate Exhibits shows Oscar's premium and enrollment using in-force business as of March 2023.

Allowed and Incurred Claims Incurred During the Experience Period

Oscar's calendar year 2022 medical and pharmacy claim data was used for developing the single risk pool claims. Worksheet 1, Section I of the URRT outlines Oscar's best estimate of claims incurred during the experience period. The estimate includes:

- Claims processed through Oscar's claim system,
- Claims processed outside of the claim system (e.g. pediatric dental and vision services), and
- Oscar's best estimate of IBNR.

Oscar's claim reserves consists of liabilities for both claims incurred but not reported ("IBNR") and reported but not yet processed through our systems that are determined by employing actuarial methods that are commonly used by health insurance actuaries. The completion factor development method is utilized for non-catastrophic claims (under \$250,000), supplemented by a projected per-member per-month (PMPM) claims methodology for generally the most recent two months. Projected PMPMs are developed from the Company's historical experience and adjusted for emerging experience data in the preceding months, which may include adjustments for known changes in estimates of recent hospital and drug utilization data, provider contracting changes, changes in benefit levels, changes in member cost sharing, changes in medical management processes, claim inventory levels, product mix, and workday seasonality. A seriatim methodology is utilized for single catastrophic claims (over \$250,000), supplemented by known open cases that are in various stages of review by Oscar's medical management team, or under bill audit review. A separate accrual process is also employed to develop reserves for exposure related to out-of-network and other provider disputed claims.

4.2. Benefit Categories

The benefit categories described below are based on the algorithm used by Milliman's *Health Cost Guidelines*TM (HCGs). The HCG grouper uses a combination of Diagnosis Related Groups (DRGs), Current Procedural Terminology Codes – Fourth Edition (CPT-4 Codes), Healthcare Common Procedural Coding System codes (HCPCS), and revenue codes to allocate detailed claims into roughly 60 benefit categories.

The utilization and unit cost data for rate development were assigned to benefit categories as shown in Worksheet 1, Section I of the URRT based on place and type of service using a detailed claim mapping algorithm, which can be summarized as follows:

Inpatient Hospital

Includes non-capitated facility services for medical, surgical, maternity, mental health and substance abuse, skilled nursing, and other services provided in an inpatient facility setting and billed by the facility.

Outpatient Hospital

Includes non-capitated facility services for surgical, emergency room, ancillary, observation and other services provided in an outpatient facility setting and billed by the facility.

Professional

Includes non-capitated primary care, specialty care, therapy, the professional component of laboratory and radiology, and other professional services, except for hospital based professionals whose payments are included in facility fees.

Other Medical

Includes non-capitated ambulance, home health care, durable medical equipment, prosthetics, supplies, vision exams, dental services and other services. The measurement units for utilization used in this category are a mix of visits, cases, and procedures.

Capitation

Includes the amount for any services that are provided on a capitated basis.

Prescription Drug

Includes drugs dispensed by a pharmacy. This amount is net of rebates received from drug manufacturers.

4.3. Projection Factors

This section includes a description of each factor used to project the experience period allowed claims to the projection period, supporting information related to the development of those factors is also included.

Trend Factors – Cost and Utilization

Average cost trends were developed based on Oscar’s anticipated reimbursement levels. Utilization trends were developed at the broad service category level: inpatient facility, outpatient facility, professional, other, and prescription drugs. Utilization trend assumptions were generally estimated using Milliman’s HCG secular utilization trend levels, which are based on large data sets and are widely used by insurers and others to estimate expected claim costs and model healthcare utilization.

Table 1 provides the annualized trend assumptions that were used to adjust the allowed claims from the experience period to the projection period. The overall trend used to get from the experience period to the projection period is based on an unleveraged prospective annual trend of 4.5%.

Benefit Category	Trend		
	Utilization	Unit Cost	Total
Inpatient	0.6%	4.1%	4.7%
Outpatient	1.1%	4.2%	5.3%
Physician	1.1%	2.0%	3.1%
Other	1.1%	2.0%	3.1%
Capitation	0.0%	0.0%	0.0%
Prescription Drug	1.3%	3.4%	4.7%

Grand Total	1.0%	3.5%	4.5%
-------------	------	------	------

The trend factors by benefit category are included in the “Year 1 Trend” and “Year 2 Trend” entries on Worksheet 1, Section II of the URRT and “Cost” and “Utilization” entries in Table 3 — Trend Components of the Rate Exhibits.

Adjustments to Trended EHB Allowed Claims PMPM

Morbidity Adjustment

The starting allowed claim experience was adjusted to reflect changes in the anticipated morbidity corresponding to Oscar’s projected demographic mix and membership distributions.

A second adjustment was included to reflect changes in the anticipated market morbidity in response to the uncertainty inherent in the marketplace. Specifically, Oscar anticipated changes to the market morbidity associated with the change in Pennsylvania’s enrollment for the projection period relative to the experience period, as well as the anticipated impact due to the ending of the Public Health Emergency and a proportion of Medicaid Redeterminations enrolling in the ACA Marketplace in the 2023 and 2024 plan years.

These adjustments reflect the projected change in claim costs outside of the underlying demographics of the covered population and were also assumed when estimating the risk adjustment transfer for the projection period.

A combined factor of 1.025 is included in the “Morbidity Adjustment” entry on Worksheet 1, Section II of the URRT and in the “Change in Morbidity - All Other” entry of Table 5 — Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims of the Rate Exhibits.

Demographic Shift

An adjustment was included to account for the anticipated changes in demographic mix — in both age/gender and geography — between the experience period and the projection period.

A factor of 1.000 is included in the “Demographic Shift” entry on Worksheet 1, Section II of the URRT and the “Change in Demographics” entry of Table 5 — Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims of the Rate Exhibits.

Plan Design Changes

Oscar applied an adjustment to account for the anticipated changes in the average utilization of services due to differences in average cost sharing requirements between the experience period and projection period. Plan behavior change factors were applied at the plan level using factors developed from Oscar’s risk adjusted individual claim experience. The resulting allowed and net claim costs for each plan reflect differences due to cost sharing and the impact of plan behavior change only, and not due to health status.

A factor of 1.009 is included in the “Plan Design Changes” entry on Worksheet 1, Section II of the URRT and the “Change in Benefits” entry of Table 5 — Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims of the Rate Exhibits.

Other Adjustments – Changes in Network

Oscar applied an adjustment to account for anticipated changes in provider reimbursement levels between the experience period and projection period. The reimbursement changes are in response to modifications to Oscar’s underlying contracts with its providers.

A factor of 1.000 is included in the “Change in Network” entry of Table 5 — Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims of the Rate Exhibits.

Other Adjustments – Prescription Drug Rebates

An adjustment of 0.975 was included to account for the anticipated changes in the level of prescription drug rebates between the experience period and projection period.

Other Adjustments – Pooling Charge

An adjustment of 1.007 was included to account for Oscar experiencing lower than expected shock claims during the experience period. In this context, a shock claim is defined as annual costs in excess of \$750,000 per individual claimant.

Other Adjustments – COVID-19 Pandemic

Oscar included an adjustment to account for the changes in expected COVID-19 healthcare costs and utilization patterns from the experience period to the projection period. An adjustment of 0.982 was included to account for sustained lower levels of emerging COVID-19 spend, as well as for the impact of the Public Health Emergency ending.

Other Adjustments - Combined

A combined factor of 0.9585 is included in the “Other” entry on Worksheet 1, Section II of the URRT and the “Change in Other” entry of Table 5 — Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims of the Rate Exhibits.

Manual Rate Adjustments

Since Oscar’s base experience in Pennsylvania is partially credible, a manual rate methodology was additionally developed for rating purposes as described in this section. The adjustments described below were used to develop the Manual EHB Allowed Claims PMPM entry on Worksheet 1, Section II of the URRT and Table 5 — Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims of the Rate Exhibits.

Source and Appropriateness of Experience Data Used

Oscar started with individual claim experience from January 1, 2022 through December 31, 2022, with runout through March 31, 2023, as the manual rate basis in the projection. The starting claim experience is from Oscar’s legal entity (Oscar Insurance Company of Florida; NAIC code 16374) offering in the Florida individual market. The premium earned and incurred claims during the manual period and as reported on Worksheet 1, Section I of the URRT and Table 2 — Manual Period Claims and Premiums of the Rate Exhibits are from Oscar’s data warehouse for calendar year 2022.

In accordance with *Actuarial Standards of Practice (ASOP) #25 — Credibility Procedures*, Oscar’s internal credibility manual, determined from statistical relationships inherent in nationwide experience in the individual market, assigns full credibility at 85,000 member months. Oscar’s manual includes 7,435,015 member months and is considered fully credible for purposes of developing claim projections.

Adjustments Made to the Data

Exhibit B summarizes the adjustment factors, as described in this section, used to project the manual rate claims on an allowed basis to the projection period.

- Incurred But Not Reported
The starting claim experience represents Oscar’s best estimate of claims incurred during the manual period. The estimate includes:
 - Claims processed through Oscar’s claim system,

- Claims processed outside of the claim system (e.g. pediatric dental and vision services), and
- Oscar's best estimate of IBNR.

Oscar's claim reserves consists of liabilities for both claims incurred but not reported ("IBNR") and reported but not yet processed through our systems that are determined by employing actuarial methods that are commonly used by health insurance actuaries. The completion factor development method is utilized for non-catastrophic claims (under \$250,000), supplemented by a projected per-member per-month (PMPM) claims methodology for generally the most recent two months. Projected PMPMs are developed from the Company's historical experience and adjusted for emerging experience data in the preceding months, which may include adjustments for known changes in estimates of recent hospital and drug utilization data, provider contracting changes, changes in benefit levels, changes in member cost sharing, changes in medical management processes, claim inventory levels, product mix, and workday seasonality. A seriatim methodology is utilized for single catastrophic claims (over \$250,000), supplemented by known open cases that are in various stages of review by Oscar's medical management team, or under bill audit review. A separate accrual process is also employed to develop reserves for exposure related to out-of-network and other provider disputed claims.

- Trend Factors – Cost and Utilization

Average cost trends were developed based on Oscar's anticipated reimbursement levels. Utilization trends were developed at the broad service category level: inpatient facility, outpatient facility, professional, other, and prescription drugs. Utilization trend assumptions were generally estimated using Milliman's HCG secular utilization trend levels, which are based on large data sets and are widely used by insurers and others to estimate expected claim costs and model healthcare utilization.

Table 2 provides the annualized trend assumptions that were used to adjust the allowed claims from the manual period to the projection period. The overall trend used to get from the manual period to the projection period is based on an unleveraged prospective annual trend of 4.9%.

Benefit Category	Trend		
	Utilization	Unit Cost	Total
Inpatient	0.6%	4.5%	5.1%
Outpatient	1.1%	4.6%	5.8%
Physician	1.1%	2.4%	3.5%
Other	1.1%	2.4%	3.5%
Capitation	0.0%	0.0%	0.0%
Prescription Drug	1.3%	3.8%	4.7%
Grand Total	1.0%	4.5%	4.9%

A factor of 1.100 is included in the "Manual EHB Allowed Claims PMPM" entry on Worksheet 1, Section II of the URRT and the "Total Applied Trend Projected Factor" entry of Table 3b — Manual Trend Components of the Rate Exhibits.

- Plan Design Changes

Oscar applied an adjustment to account for the anticipated changes in the average utilization of services due to differences in average cost sharing requirements between the manual period and projection period. Plan behavior change factors were applied at the plan level using factors developed from Oscar's nationwide risk

adjusted individual claim experience. The resulting allowed and net claim costs for each plan reflect differences due to cost sharing and the impact of plan behavior change only, and not due to health status.

A second adjustment was included to account for anticipated changes in underlying benefit coverage between the manual period and the projection period capturing inherent differences in EHBs, state mandated benefits, and eliminated benefits.

A combined factor of 1.023 is included in the "Manual EHB Allowed Claims PMPM" entry on Worksheet 1, Section II of the URRT and the "Change in Benefits" entry of Table 5 — Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims of the Rate Exhibits.

- Demographic Shift

An adjustment was included to account for the anticipated changes in demographic mix — in age and gender — between the manual base period and the projection period.

A factor of 1.145 is included in the "Manual EHB Allowed Claims PMPM" entry on Worksheet 1, Section II of the URRT and the "Change in Demographics" entry of Table 5 — Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims of the Rate Exhibits.

- Changes in the Morbidity of the Covered Population

The starting claim experience was adjusted to reflect changes in the anticipated morbidity corresponding to Oscar's projected demographic mix and membership distributions.

A second adjustment was included to reflect changes in the anticipated market morbidity in response to the uncertainty inherent in the marketplace. Specifically, Oscar anticipated changes to the market morbidity associated with the change in Pennsylvania's enrollment for the projection period relative to the manual period, as well as the anticipated impact due to the ending of the Public Health Emergency and a proportion of Medicaid Redeterminations enrolling in the ACA Marketplace in the 2023 and 2024 plan years.

Lastly, an adjustment was made to account for the anticipated changes in market morbidity between the Florida and Pennsylvania individual markets. To estimate the market morbidity impact, Oscar relied upon the completed regression results in The Wakely National Risk Adjustment Reporting Project (WNRAR) provided to Oscar to estimate the market wide plan liability risk score, allowable rating factor, actuarial value, and induced demand factor for the Florida and Pennsylvania individual markets.

These adjustments reflect the projected change in claim costs outside of the underlying demographics of the covered population and were also utilized when estimating the risk adjustment transfer for the projection period.

A combined factor of 0.942 is included in the "Manual EHB Allowed Claims PMPM" entry on Worksheet 1, Section II of the URRT. and in the "Change in Morbidity - All Other" entry of Table 5 — Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims of the Rate Exhibits.

- Other Adjustments — Change in Network

Oscar applied an adjustment to account for anticipated changes in provider reimbursement levels between the manual period and projection period. The reimbursement changes are in response to modifications to Oscar's underlying contracts with its providers.

A factor of 1.044 is included in the “Manual EHB Allowed Claims PMPM” entry on Worksheet 1, Section II of the URRT and the “Change in Network” entry of Table 5 — Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims of the Rate Exhibits.

- Other Adjustments — Prescription Drug Rebates

An adjustment was included to account for the anticipated changes in the level of prescription drug rebates between the manual period and projection period.

A factor of 0.977 is included in the “Manual EHB Allowed Claims PMPM” entry on Worksheet 1, Section II of the URRT.

- Other Adjustments — Pooling Charge

An adjustment was included to account for Oscar experiencing lower than expected shock claims during the manual period. In this context, a shock claim is defined as annual costs in excess of \$750,000 per individual claimant.

A factor of 1.001 is included in the “Manual EHB Allowed Claims PMPM” entry on Worksheet 1, Section II of the URRT.

- Other Adjustments — Impact of the COVID-19 Pandemic

Oscar included an adjustment to account for the changes in expected COVID-19 healthcare costs and utilization patterns from the experience period to the projection period. An adjustment of 0.964 was included to account for sustained lower levels of emerging COVID-19 spend, as well as for the impact of the Public Health Emergency ending.

- Other Adjustments — Combined

A combined factor of 1.028 is included in the “Manual EHB Allowed Claims PMPM” entry on Worksheet 1, Section II of the URRT.

Separately, a combined factor of 0.983 is included in the “Change in Other” entry of Table 5 — Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims of the Rate Exhibits. The factor excludes the Changes in Network impact as that is accounted for in the “Change in Network” entry.

Inclusion of Capitation Payments

Not applicable.

Credibility of Experience

In accordance with *Actuarial Standards of Practice (ASOP) #25 — Credibility Procedures*, Oscar’s internal credibility manual, determined from statistical relationships inherent in nationwide experience in the individual market, assigns full credibility at 85,000 member months. Oscar’s experience includes 47,831 member months and is considered 75.0% credible for purposes of developing claim projections. Furthermore, the base period experience was not used to develop the manual rate, so there is no double counting of base period experience.

Establishing the Index Rate

Experience Period

As shown in Worksheet 1, Section II of the URRT, the experience period index rate is \$376.40. The experience period index rate reflects the estimated total combined allowed essential health benefit (EHB) claim experience in the single risk pool, and is not adjusted for payments and charges under the risk adjustment program or for marketplace user fees.

Projection Period

The index rate is defined as the EHB portion of projected allowed claims with respect to trend, benefit, and demographics and divided by all projected single risk pool lives. Oscar’s projection period index rate for the 2023 plan year as shown in Worksheet 1, Section II of the URRT is \$406.97.

Development of the Market-Wide Adjusted Index Rate

The market-adjusted index rate is calculated as the sum of the projection period index rate, the impact of the risk adjustment program, and the projected exchange user fees. Table 3 details the projection period index rate, allowable market-wide modifiers as defined in 45 CFR Part 156, §156.80(d), and the resulting market-adjusted index rate.

Description	Value
Projection Period Index Rate	\$420.15
Net Impact of Risk Adjustment Program	\$205.88
Net Impact of State Reinsurance Program	-\$17.05
Exchange User Fees	\$21.01
Market-Adjusted Index Rate	\$629.99

The adjustments in the table above reflect all of the market-wide modifiers allowed in federal regulation and the average demographic characteristics of the single risk pool. Please note the allowable market-wide modifiers were adjusted to an allowed basis in the development of the market-adjusted index rate which is consistent with the basis of the projected index rate. The market-adjusted modifiers on a net basis are summarized in Table 5 — Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims of the Rate Exhibits.

Reinsurance

The starting claim experience was adjusted to reflect the removal of the projected reinsurance recoveries due to the anticipated impact of the state-based reinsurance program proposed in the Pennsylvania 1332 waiver application that was approved by CMS on July 24, 2020. The reinsurance recoveries were developed on a percent of net claims approach using the initial parameters for the 2024 plan year — \$60,000 attachment point, coinsurance of 50%, up to a reinsurance cap of \$100,000.

Oscar started with a subset of its nationwide claim experience in the individual market as the basis for estimating the impact of reinsurance recoveries on net claims. The claim experience was both trended to the 2024 plan year at similar trend rates to that of what were included in the premium rate projections and additionally calibrated to align with the projected index rate. Oscar then bootstrapped the projected population with membership samples in line with Oscar’s population in the Pennsylvania market.

The expected impact of the state reinsurance program was estimated to be a recovery of approximately 4.06% of net claims (i.e. the mean of the bootstrapped samples), which was then applied evenly across all plans in Oscar’s individual market single risk pool.

Additionally, Oscar adjusted the risk adjustment transfer to account for the estimated impact of the state-based reinsurance program to the statewide average premium, which was then applied to the rate projection to bring the medical expense (i.e. net claims +/- risk adjustment) levels to market-wide levels, which form the basis of the market-adjusted index rate.

The projected reinsurance recovery amount, expressed on an allowed basis, is estimated as a recovery of \$0.00 and is reflected on Worksheet 1, Section II of the URRT.

Risk Adjustment Payment/Charge

To estimate the risk adjustment PMPM, Oscar relied upon the results of the *Summary Report on Permanent Risk Adjustment Transfers for the 2022 Benefit Year* published by CMS on June 30, 2023, in combination with the *Transfer Payment Issuer Report* supplied to Oscar by CMS, to estimate the market wide plan liability risk score, allowable rating factor, actuarial value, statewide average premium, and induced demand factor for the individual market. Oscar's geographic cost factor was also adjusted based on the anticipated geographic mix for the 2024 plan year.

Oscar modeled two independent risk adjustment transfers to appropriately correspond with the risk profile of the members in the underlying experience and manual projections. For the risk adjustment transfer that corresponds to the experience projection, Oscar relied upon projected risk and rating factors that are specific to the experience period in the Pennsylvania market. For the risk adjustment transfer that corresponds to the manual projection, Oscar crosswalked the market metrics — plan liability risk score, statewide average premium, and geographic cost factors — from the manual period (i.e. Florida market) to the projection period (i.e. Pennsylvania market) while maintaining similar relative risk profiles by metal level. The two risk adjustment transfers were then blended by the same credibility weighting used to project allowed claims

Additional adjustments were made to account for the anticipated changes in the Health and Human Services Hierarchical Condition Categories (HHS-HCC) risk adjustment coefficient changes from the 2022 plan year to the 2024 plan year, for both Oscar and the market. These adjustments were determined from the HHS Risk Weight Conversion Tool that was supplied to Oscar by Wakely.

Oscar also included an adjustment to account for the anticipated impact of the Risk Adjustment Data Validation (RADV) audit on the 2024 plan year. To estimate the RADV impact, Oscar relied on historical nationwide experience in the individual market, measured anticipated risk adjustment coding error rates inherent in the 2020 and 2021 plan years, and forecasted those error rates to the projection period. The RADV impact is estimated as a payment of \$11.09 PMPM.

Lastly, Oscar considered the impact to the projected risk adjustment transfer for the addition of the high-cost risk pooling mechanism that was implemented starting with the 2018 plan year.

The projected risk adjustment transfer, net of the risk adjustment user fee and expressed on an allowed basis, is estimated as a payment of approximately \$221.07 and is reflected in Worksheet 1, Section II of the URRT.

Any resulting risk adjustment transfer payments would be allocated proportionally across all plans in Oscar's individual market single risk pool.

Detailed quantitative support of the risk adjustment transfer projection is provided in Exhibit C.

Exchange User Fees

The impact of the exchange user fee was based on an overall assessment of 3.33%, weighted on the projected premium associated with the distribution of membership expected to enroll on the exchange.

The projected exchange user fee, expressed on an allowed basis, is estimated as a payment of approximately \$21.61 and is reflected in Worksheet 1, Section II of the URRT.

4.4. Plan-Adjusted Index Rate

Projected Plan-Adjusted Index Rates

Exhibit D summarizes the plan-adjusted index rates, which are determined by applying the allowable plan-level modifiers to the market-adjusted index rate.

The allowable modifiers as described in 45 CFR Part 156, §156.80(d)(2) are the following:

Actuarial Value and Cost-Sharing

Each plan's actuarial value and cost-sharing factor includes a benefit relativity adjustment and the expected impact of the plan's cost sharing amounts on the member's utilization of services. Oscar's internal benefit pricing model, which uses a single claim distribution for all plans, was used to estimate how members purchase services differently based on the level of plan-specific cost sharing. By utilizing a static claim distribution, the pricing model's adjustments assume the same demographic and risk characteristics for each plan priced and therefore exclude expected differences in the health status of members assumed to select each plan.

Plan's Provider Network and Delivery System Characteristics

There are no anticipated plan-specific differences in the provider network or utilization management practices in Oscar's projected product suite.

Plan Benefits in Addition to the EHBs

Oscar's proposed product suite does not cover any benefits above and beyond the EHB services detailed in the Pennsylvania state benchmark plan.

Administrative Costs, Excluding Exchange User Fees

The net claims costs are adjusted to account for expected non-benefit expenses. The resulting administrative cost factors inherent in the plan-adjusted index rate development are not static due to the application of fixed cost allocation on a PMPM basis as opposed to a percent of premium basis. As documented in the market rating rules, 45 CFR 156.80(d)(2), administrative costs are permitted plan-level adjustments to the index rate. Administrative costs in this context include administrative expenses, taxes and fees (excluding exchange user fees), and profit/risk loads.

Oscar modeled the plan-adjusted index rate development to allocate the fixed cost portion of total administrative expense on a PMPM basis to more appropriately align with the economics of the business.

Exhibit E summarizes the components of the administrative cost factor as shown in Worksheet 2, Section III of the URRT.

Expected Impact of the Specific Eligibility Categories for the Catastrophic Plan

A specific eligibility adjustment reflects the difference in expected demographics between the catastrophic plan and the non-catastrophic plans due to the unique eligibility requirements of the catastrophic plan (i.e. that only individuals under the age of 30 or eligible by reason of financial hardship can enroll). This adjustment reflects that costs vary by age and the cost of the population expected to enroll in the catastrophic plan is anticipated to be lower than non-catastrophic plans.

Oscar is proposing no change to the currently approved catastrophic eligibility adjustment.

4.5. Calibration

A composite calibration adjustment is applied uniformly to all plans. Detailed support of the calibration factor is provided in Exhibit F. The market-wide calibration factor is 1.691.

Age Curve Calibration

The average age factor used in the calibration process is 1.703 and was determined by applying the standard age curve established by HHS to the projected member distribution by age, with an adjustment for non-billable members who exceed the maximum of three child dependents under the age of 21 rule.

Under this methodology, the approximate average age, rounded to the nearest whole number, associated with the single risk pool is 49.

Geographic Factor Calibration

The average geographic rating factor is 0.985. In order to determine the geographic calibration factor the projected distribution of members by area was determined. The weighted average of the area factors was then calculated using this distribution.

Oscar intends to sell individual market products in Bucks, Carbon, Chester, Delaware, Lackawanna, Lancaster, Lehigh, Luzerne, Monroe, Montgomery, Northampton, Philadelphia, and Wyoming counties, which are within Rating Areas 3, 6, 7, and 8.

Exhibit G provides a summary of the proposed geographic rating factors applied to the plan-adjusted index rates.

Tobacco Factor Calibration

The average tobacco rating factor used in the calibration process is 1.007.

The tobacco factors by age were developed using a Milliman research report titled *Impact of Height, Weight, and Smoking on Medical Claim Costs*, which tabulates the medical claim costs by age for smokers and non-smokers using a government data source, the Medical Expenditure Panel Survey (MEPS). Smoker prevalence rates, which were utilized above to develop the tobacco calibration factor, were based on Oscar's empirical data, and are not anticipated to be substantially different in the projection period.

Oscar is proposing no change to the currently approved tobacco rating factors.

4.6. Consumer-Adjusted Premium Rate Development

Oscar derives consumer-adjusted premium rates by calibrating the plan-adjusted index rate and applying the rating factors specified by 45 CFR Part 147, §147.102. Exhibit H includes the proposed rate manual and a sample rate calculation.

5. Projected Loss Ratio

Oscar's projected loss ratio based on the federally-prescribed MLR methodology is 89.6%. The numerator of the projected loss ratio contains claim costs and HCQI expenses net of receipts from the risk adjustment program and the denominator consists of total premiums net of premium taxes and regulatory fees. Note the MLR in this context does not capture all adjustments, including multi-year averaging, credibility, and deductible averaging.

A summary of each component included in the loss ratio projection is provided in Exhibit I.

6. Plan Product Information

6.1. AV Metal Values

The AV metal values included in Worksheet 2, Section I of the URRT were based solely on the HHS actuarial value calculator. Copies of the results from the actuarial value calculator including screenshots for each plan are provided as a supplemental supporting document titled "ACA AV Screenshots" accompanying the rate filing submission.

6.2. Membership Projections

Oscar projected membership as displayed in Worksheet 2, Section IV of the URRT by considering the size of the projected Pennsylvania individual market in 2024 as well as our historical enrollment patterns of the Pennsylvania individual market, to estimate our assumed market penetration rate and member months projection. For silver level plans in the individual market, an estimate was made for the portion of projected enrollment that will be eligible for CSR subsidies at each subsidy level. When allocating membership within a metal level, Oscar distributed membership uniformly by plan within each metal level for both new and renewing plans.

Exhibit J summarizes the membership projection by metal level, including the alternative variant silver plans which CSR eligibles can purchase, and exchange status.

6.3. Plan Type

The plan types listed in Worksheet 2, Section I of the URRT appropriately describe Oscar's plans.

7. Miscellaneous Information

7.1. Effective Rate Review Information

CSR Subsidies

Oscar assumed that CSR subsidies will not be funded by the federal government for the 2024 plan year. If CSR funds are not appropriated and CSR plans continue to be offered, Oscar will then be solely responsible for covering cost sharing for these members. The proposed rates contained herein assume that CSR subsidies remain unfunded by the federal government and that the resulting shortfall will be accounted for with a factor of 1.22 applied exclusively to Oscar's on-exchange silver plans.

Terminated Products

Exhibit L summarizes both the discontinued plans that were included in the single risk pool during the experience period or made available thereafter and the corresponding mapped plans.

Oscar confirms that all discontinued plans are being mapped in accordance with the hierarchy established in 45 CFR 155.355(j). Discontinued plans are mapped at the plan ID level and will be renewed to a different plan within the existing product. Members who do not actively select a different plan during open enrollment will be re-enrolled in a plan at the same metal level as their current QHP.

Renewability

The products offered within this filing are all guaranteed issue (i.e., no medical underwriting) and guaranteed renewable as required under the ACA. This rate filing applies to non-grandfathered plans only that are open to new sales. Premiums will be charged on a monthly basis and are guaranteed for the duration of the 2023 plan year.

Pennsylvania Actuarial Memorandum and Rate Exhibits

The following information was added to comply with Section D of the 2023 ACA Compliant Health Insurance Rate Filing Guidance and a crosswalk of the various requirements is summarized in Exhibit K.

1A — Company Information

Refer to Table 0 — Identifying Information of the Rate Exhibits for general company information.

1B — Rate History and Proposed Variations in Rate Changes

Table 4 provides Oscar’s most recent three years of historical rate changes in Pennsylvania, including the proposed rate change for 2024. Historical filed and approved rate changes varied by plan due to a combination of factors including shifts in benefit leveraging, cost-sharing modifications, and geographic rating factors.

Plan Year	Average Rate Change	SERFF ID
2024	8.2%	OHIN-133678196
2023	8.4%	OHIN-133283238
2022	-9.4%	OHIN-132808338
2021	6.9%	OHIN-132375235
2020	n/a	OHIN-131947531

1C — Average Rate Change

The average rate change over all plans from 2023 to 2024 using the calibrated adjusted index rate is 7.6%. The average rate change for a 21-year-old non-tobacco premium over all plans and rating areas from 2023 to 2024 is 6.8%. Rates are weighted on Oscar’s Pennsylvania individual membership as of March 31, 2023. Refer to Table 10 — Plan Rates and Table 11 — Plan Premium Development for 21-Year-Old Non-Tobacco User of the Rate Exhibits for additional details.

1D — Membership Count

Refer to Table 1 — Number of Members of the Rate Exhibits for the projected and current (as of February 2023) average age and member months by age group in the rating period.

1E — Benefit Changes

Refer to the Cost Sharing Changes tab in the attached supplemental supporting document titled “ACA Supporting Rate Exhibits” accompanying the rate filing submission.

Refer to Section 4.4 — Plan-Adjusted Index Rate for a description of the pricing assumptions used in development of the proposed premium rates.

1I — Historical Experience

Refer to Table 4 — Historical Experience and Table 4b — Manual Historical Experience of the Rate Exhibits for historical experience estimates for both the experience period and manual period sources.

Refer to Section 4.3 — Projection Factors for a description of the unit cost and utilization trends by service category that were assumed in both the experience period and manual period rate development.

2A — Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims

Table 5 provides support for the average projected paid-to-allowed ratio. The average projected allowed and incurred PMPM reflect the member month weighted average from Worksheet 2, Section IV of the URRT.

Description	Value
Allowed Claim PMPM	\$420.15
Net Claim PMPM	\$341.33
Paid-to-Allowed Ratio	0.812

Refer to Section 4.3 — Projection Factors and Section 4.4 — Plan-Adjusted Index Rate for a detailed explanation of the development of the projected index rate, projected market-adjusted index rate, and projected allowed claims.

2B — Retention Items

Refer to Table 6 — Retention of the Rate Exhibits for an illustration of the non-benefit expenses, profit, and risk reflected in the projected premium rates.

The proposed commission schedule for the 2024 plan year that Oscar applies to policies in the individual market is \$20 PMPM for both new business and renewal business. This commission schedule shall remain in effect until terminated or replaced by Oscar in writing and within the company's sole discretion. For purposes of this commission schedule, "Initial Term" shall include the months of the first calendar year that the applicable coverage is in effect, up to and including December 31 of the first calendar year. "Renewal Term" shall refer to any months after the "Initial Term" for which the applicable coverage is in effect.

The percentage of members estimated to come through Oscar's broker channel is 30.5%. Using the proposed commission schedule of \$20.00 PMPM, along with override and bonus compensation, this results in a broker commission assumption of \$6.06 PMPM (or 1.02% of premium) at the total book level.

In addition, the net claims costs are adjusted to account for expected non-benefit expenses. The resulting administrative cost factors inherent in the plan-adjusted index rate development are not static due to the application of fixed cost allocation on a PMPM basis as opposed to a percent of premium basis. As documented in the market rating rules, 45 CFR 156.80(d)(2), administrative costs are permitted plan-level adjustments to the index rate. Administrative costs in this context include administrative expenses, taxes and fees (excluding exchange user fees), and profit/risk loads.

Oscar modeled the plan-adjusted index rate development to allocate the fixed cost portion of total administrative expense on a PMPM basis to more appropriately align with the economics of the business.

2D — Components of Rate Change

Refer to Table 8 — Components of Rate Change and Table 9 — Year-Over-Year Data to Support Table 8 of the Rate Exhibits for the components of the rate change.

Note that Line H does not match Line A in Table 8 — Components of Rate Change of the Rate Exhibits for a number of reasons, including the following:

- The Calibrated Plan Adjusted Index Rate shown in Line A is weighted on current membership, but many of the factors applied to the base period allowed claims before normalization in Line B, including those in Table 7 — Normalized Market-Adjusted Projected Allowed Total Claims and Table 9 — Year-Over-Year Data to Support Table 8 of the Rate Exhibits, are weighted on projected membership.
- The retention components shown in Lines F1 to F3 are calculated as a percentage of the Plan Adjusted Index Rate in Table 10 — Plan Rates of the Rate Exhibits, but are applied as a percentage of the Calibrated Plan Adjusted Index Rate in Table 8 — Components of Rate Change. This leads to discrepancies when there are fixed PMPM administrative expenses as is the case for the 2024 plan year.

4 — Plan Premium Development for 21-Year-Old Non-Tobacco User

Refer to Table 11 — Plan Premium Development for 21-Year-Old Non-Tobacco User of the Rate Exhibits for an illustration of the development of the premium rate offered to a 21-year-old non-tobacco user in the Pennsylvania individual market for the 2022 plan year.

5E — Composite Rating

Not applicable.

7.2. Reliance

In developing this rate filing, several internal departments were relied upon for information and assumption setting. This information includes Corporate Actuarial providing rating factors, claim trend projections, and membership projections and Financial Planning and Analysis providing non-benefit expenses, taxes and fees. I have performed a limited review of this information and have deemed it to be reasonable.

7.3. Actuarial Certification

I, [REDACTED], am an Actuary for Oscar. I am a member of the American Academy of Actuaries and I meet the qualification standards of the Academy to render the actuarial opinion contained herein.

I hereby certify that the projected index rate is to the best of my knowledge and understanding:

- In compliance with all applicable state and federal statutes and regulations (45 CFR Part 156, §156.80(d)(2) and 45 CFR Part 147, §147.102),
- Developed in compliance with the applicable Actuarial Standards of Practice, including but not limited to:
 - ASOP No. 5, *Incurred Health and Disability Claims*,
 - ASOP No. 8, *Regulatory Filings for Health Benefits, Accident and Health Insurance, and Entities Providing Health Benefits*,
 - ASOP No. 12, *Risk Classification*,
 - ASOP No. 23, *Data Quality*,
 - ASOP No. 25, *Credibility Procedures*,
 - ASOP No. 26, *Compliance with Statutory and Regulatory Requirements for the Actuarial Certification of Small Employer Health Benefit Plans*,
 - ASOP No. 41, *Actuarial Communications*,
 - ASOP No. 42, *Determining Health and Disability Liabilities Other than Liabilities for Incurred Claims*,
 - ASOP No. 45, *The Use of Health Status Based Risk Adjustment Methodologies*, and
 - ASOP No. 50, *Determining Minimum Value and Actuarial Value Under the ACA*.
- Reasonable in relation to the benefits provided and the population anticipated to be covered, and
- Neither excessive nor deficient.

I further certify that:

- The index rate and only the allowable modifiers as described in 45 CFR Part 156, §156.80(d)(1) and 45 CFR Part 156, §156.80(d)(2) were used to generate plan level rates,

- The geographic rating factors reflect only differences in the costs of delivery and do not include differences for population morbidity by geographic area,
- The AV calculator was used to determine the AV metal values shown on Worksheet 2 of the Part I URRT for all plans,
- All factor, benefit, and other changes from the prior approved filing have been discussed in the actuarial memorandum,
- The proposed new plans are not modifications of an existing plan, and
- The information presented in the Pennsylvania Actuarial Memorandum and Pennsylvania Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2023 Rate Filing Justification.

URRT and Rate Exhibit Methodology

The Part I URRT and the Rate Exhibits do not demonstrate the process used by Oscar to develop proposed premium rates. It is representative of information required by federal and state regulation to be provided in support of the review of rate increases, for certification of qualified health plans and for certification that the index rate is developed in accordance with federal regulations and used consistently and only adjusted by the allowable modifiers.

COVID-19 Pandemic

The starting claim experience was adjusted from the experience period to the projection period to reflect the anticipated impact of items such as the unwinding of the Public Health Emergency and declining Covid-19 spend. Unforeseen strains, causing severe outbreaks or changes to legislation, may affect the extent to which the rates presented herein are neither excessive nor deficient.

Medicaid Redetermination and the Public Health Emergency

Rates were developed in line with the current law, which at the time of this rate filing includes the end of Medicaid continuous coverage, followed by redetermination of Medicaid members, as well as the end of the Public Health Emergency. Future regulatory, legislative, and economic changes may affect the extent to which the rates presented herein are neither excessive nor deficient.

Table 5. Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims

Development of the Projected Index Rate	Actual Experience Data	Manual Data	
Total Allowed EHB Claims + EHB Capitation PMPM (net of prescription drug related) PMPM	\$ 363.71	\$ 359.48	- Actual Experience PMPM should be consistent with the Index Rate for Experience Period on URRT
Two year trend projection factor	1.095	1.102	
Unadjusted Projected Allowed EHB Claims PMPM	\$ 397.42	\$ 440.22	
Single Risk Pool Adjustment Factors			
Change in Mortality - Impact of Reinsurance Program	1.000	1.000	
Change in Mortality - All Other	1.025	0.942	- See URRT instructions
Total Non-Mortality Changes	0.967	1.203	
Change in Demographics	1.000	1.145	- See URRT instructions
Change in Network	1.000	1.094	
Change in Benefits	1.000	1.023	- See URRT instructions
Change in Other	0.958	0.981	- See URRT instructions
Total Adjusted Projected Allowed EHB Claims PMPM	\$ 393.58	\$ 438.73	
Credibility Factors	75%	75%	- See Instructions
Manual Adjusted EHB Claims PMPM	\$ 438.53	\$ 438.53	- Projected Index Rate
Development of the Market-Adjusted Index Rate and Total Allowed Claims			
Adjusted Projected Allowed EHB Claims PMPM	\$ 420.21	\$ 420.21	- Index Rate for Projection Period on URRT
Projected Total Allowed Claims	\$ 863.01	\$ 863.01	
Projected Incurred EHB Claims PMPM	\$ 343.33	\$ 343.33	
Market-Adjusted Allowance			
Projected Incurred Risk Adjustment PMPM	-\$167.28	-\$167.28	
Projected Incurred Exchange User Fees PMPM	\$ 137.09	\$ 137.09	
Projected Incurred Reinsurance Recoveries PMPM	\$ 513.80	\$ 513.80	
Market-Adjusted Projected Incurred EHB Claims PMPM	\$ 513.80	\$ 513.80	
Market-Adjusted Projected Allowed EHB Claims PMPM	\$ 629.99	\$ 629.99	- Market-Adjusted Index Rate
Projected Allowed Non-EHB Claims PMPM			
Market-Adjusted Projected Incurred Total Claims PMPM	\$ 513.80	\$ 513.80	
Market-Adjusted Projected Allowed Total Claims PMPM	\$ 629.99	\$ 629.99	

Table 6. Retention

Retention Items - Expense Account	Percentage	PMPM Amounts
Administrative Expenses	18.37%	\$51.13
General and Claims	7.30%	\$43.23
Agent/Broker Fees and Commissions	2.00%	\$6.92
Quality Improvement Initiatives	1.00%	\$5.78
Taxes and Fees	0.00%	\$0.21
Risk Adjustment User Fee	0.00%	\$0.21
FCDB Fee	0.00%	\$0.00
PA Premiums & Other Taxes (if applicable)	0.00%	\$0.00
Federal Income Tax	0.52%	\$3.02
Health Insurance Providers Fee (Prorated for Small Groups only)	0.00%	\$0.00
Profit/Contingency (after tax)	1.95%	\$11.31
Total Retention	13.72%	\$67.98
Projected Required Reserve PMPM		\$ 139.77

Table 8. Components of Rate Change

Rate Components	2023	2024	Difference	Percent Change
A. Calibrated Plan Adjusted Index Rate (PMPM)	\$ 316.34	\$ 340.32	\$ 23.98	7.6%
B. Base period allowed claims before normalization	\$ 389.41	\$ 372.65	\$ (16.76)	-4.3%
C. Normalization factor component of change	\$ (58.82)	\$ (52.23)	\$ 6.59	5.5%
D. Change in Normalized Allowed Claims Adjustment Components				
D1. Base period allowed claims after normalization	\$ 230.61	\$ 220.42	\$ (10.19)	-4.4%
D2. URRT Trend	\$ 15.43	\$ 20.94	\$ 5.49	3.7%
D3. URRT Mortality	\$ 4.02	\$ 3.03	\$ (0.99)	-24.6%
D4. URRT Other	\$ 39.44	\$ 6.32	\$ (33.12)	-83.7%
D5. Normalized URRT Risk Adjustment on an allowed basis	\$ 103.68	\$ 123.78	\$ 20.10	19.4%
D6. Normalized Exchange User Fee on an allowed basis	\$ 12.31	\$ 12.43	\$ 0.12	0.9%
D7. Normalized Reinsurance Recoveries on an allowed basis	\$ 81.37	\$ (10.09)	\$ (91.46)	-112.3%
D8. Subtotal - Sum(D1-D7)	\$ 377.41	\$ 372.82	\$ (4.59)	-1.2%
E. Change in Allowable Plan Adjusted Level Components				
E1. Network	\$ -	\$ -	\$ -	0.0%

How It Plans to Spend Your Premium

This is how the company plans to spend the premium it collects in 2024:	
Claims:	88%
Administrative Expenses:	9%
Taxes & Fees:	1%
Profit:	2%

The company expects its annual medical costs to increase:

4.53%

- Trends in medical and prescription drug cost and utilization
- Changes in taxes, fees, administrative expenses, and profit
- Changes in the benefits and cost-sharing offered
- Changes in the factors used to model

Explanation of requested rate change:

1. *Membership:*

- a. *If the projected membership for plan year 2024 significantly differs from the current 2/1/2023 membership, please explain why.*

Oscar’s projected membership metal mix does not significantly differ from our current period membership. Oscar projects minimal membership increase for 2024 driven by internal projections on competitor rate action resulting in similar price positioning in our current markets.

2. *Experience Period Claims:*

- a. *Please confirm that all claims which are capitated have been removed from the experience period claims.*

Oscar confirms all capitation claims have been removed from both our experience period claims and manual base claims.

- b. *Please confirm that all non-EHB claims have been removed from the experience period claims.*

Oscar confirms that all non-EHB claims have been removed from experience period claims and manual base claims.

- c. *How are drug rebates projected to change from the base period to the rating period? How has this change been reflected in the rate development?*

Drug rebates are expected to change due to an updated contract with our pharmacy benefits manager, CVS, resulting in increased rebate guarantees for 2024.

Quantitative support of Oscar’s Prescription drug rebates impact is displayed below for both our experience rate and manual rate. This impact is included in the Change in Other line item of Table 5 of the PAAM Exhibits.

Development of Experience Prescription Drug Rebate Factor

Description		Definition
Prescription Drug Rebates in the Experience Period	\$23.80	A
Prescription Drug Rebates in the Projection Period	\$33.19	B
Change in Prescription Drug Rebates	-\$9.39	C = A - B

Development of Manual Prescription Drug Rebate Factor

Description		Definition
Prescription Drug Rebates in the Manual Period	\$15.51	A
Prescription Drug Rebates in the Projection Period	\$26.58	B
Change in Prescription Drug Rebates	-\$11.07	$C = A - B$

3. COVID:

- a. *Please confirm that Tables 2-4 of the PAAM Exhibits do not have any COVID adjustment. Additionally, please confirm that any COVID adjustment factor in the filing is reflected in Table 5 of the PAAM Exhibits.*

Oscar confirms Tables 2-4 do not have COVID adjustments. Oscar confirms that our COVID adjustment factor is included in the Change in Other line item of Table 5 of the PAAM Exhibits.

- b. *If there is a COVID adjustment factor other than 1.0, please provide a quantitative exhibit supporting the factor.*

Oscar included an adjustment to account for sustained lower levels of emerging COVID-19 spend, as well as for the impact of the Public Health Emergency ending.

Quantitative support of Oscar's Covid impact is displayed below for both our experience rate. This impact is included in the Change in Other line item of Table 5 of the PAAM Exhibits.

2022 Experience COVID Normalization

Description		Definition
Direct Costs - Treatment	-\$10.29	A
Direct Costs - Testing	-\$3.22	B
Direct Costs - Vaccination	-\$0.88	C
Estimated Deferred Non-COVID Care	\$0.00	D
Total - Allowed PMPM Normalization	-\$14.34	$E = A + B + C + D$

2024 Projected COVID Cost

Description		Definition
Direct Costs - Treatment	\$4.24	F
Direct Costs - Testing	\$1.73	G
Direct Costs - Vaccination	\$3.48	H
Estimated Deferred Non-COVID Care	\$0.00	I
Total - Allowed PMPM Cost	\$9.45	J = F + G + H + I

4. *Trend:*

a. *n/a - SG Only*

5. *Table 6 – Retention:*

a. *Please confirm that the federal income tax is calculated using a Federal Income Tax Rate of 21%. If other adjustments were made in Table 6, cell C57, please provide a demonstration of how this number was calculated and an explanation of the other adjustments included in the calculation.*

Oscar confirms that the federal income tax as a percent of premium included in Table 6 is calculated using a Federal Income Tax Rate of 21%.

b. *Please confirm that the Risk Adjustment User Fee PMPM is consistent with HHS Final Notice of Benefit and Payment Parameters for plan year 2024.*

Oscar confirms that our Risk Adjustment User Fee is consistent with HHS's final parameters.

c. *Please provide an exhibit showing the commission PMPM amount to be paid to brokers in the following situations: Open-Enrollment Enrollee – Renewing, Open Enrollment Enrollee – New, Special Enrollment Period Enrollee – New, Special Enrollment Period Enrollee – Renewing. If the commission PMPM is not consistent between the four options above, please provide a detailed explanation as to the reason for the difference.*

Situation	Commission Payment
Open-Enrollment Enrollee – Renewing	\$20 PMPM
Open-Enrollment Enrollee – New	\$20 PMPM
Special Enrollment Period Enrollee – Renewing	\$20 PMPM
Special Enrollment Period Enrollee – New	\$20 PMPM

6. *Pricing AVs:*

a. *Please confirm that the Pricing AVs were calculated using a single risk pool (i.e., claims experience is not separated by metal level).*

Oscar confirms that our Pricing AVs were calculated using a single risk pool. Further detail is available in section 4.4 of our actuarial memorandum

- b. Please identify and support any differences between the company's metallic AV calculator results and the corresponding Pricing AVs.*

The Pricing AV is developed from Oscar's internal model which re-adjudicates Oscar's claims, assuming a single claims distribution, based on new benefit designs. This enables Oscar to model detailed plan designs and their impact on benefit relativities. By using a static claim distribution, the pricing model's adjustments assume the same demographic and morbidity characteristics for each plan priced and therefore excludes expected differences in the health status of members assumed to select into each plan.

As an example, the Bronze Elite PCP Saver (HIOS ID 98517PA0010005) plan design meets bronze de-minimis within the Federal AV Calculator with a Federal actuarial value of 0.646.

Oscar internal pricing model suggests an actuarial value of 0.825, which is more inline with a gold plan. Our understanding is the Federal AV Calculator undervalues certain plan designs, relative to our internal model. The Bronze Elite PCP Saver has a \$100 deductible for medical services (i.e., except for pharmacy), which is mostly contributing to a higher AV in our pricing model. The varied pricing results between the Federal AV Calculator and Oscar's internal pricing model for the Bronze Elite plan design is present in Oscar's pricing nationwide, as opposed to being specific in the Pennsylvania marketplace.

7. Expanded Bronze Plans:

- a. Please provide an exhibit which demonstrates that the criteria for expanded bronze plans have been met.*

Please find our responses in the tab labeled "Expanded Bronze Plans" of our Standard Exhibits Excel file.

8. PAAM Exhibits – Consumer Factors:

- a. Please provide quantitative and qualitative support for the proposed geographic rating area factors, if different from the previous year.*

The rating area factors are based on Milliman's Commercial Health Cost Guidelines (HCGs) and Oscar's anticipated 2024 provider contracts. The geographic factors used incorporate differences in unit cost and utilization (i.e., provider practice pattern) differences only. Morbidity differences between regions were removed by normalizing claims experience using risk scores from the Milliman Advanced Risk Adjuster (MARA) model.

Moderate smoothing was considered in the development of the final area factors included in the 2023 rate filing. Oscar applies smoothing factors in an effort to aid in managing the level of volatility inherent in the geographic cohorts, which prevents the area factor model from potentially overcorrecting over time. Actuarial judgment was applied in making the smoothing adjustments.

Rating Area	Area Factor [2023, Filed]	Area Factor [2024, Indicated, Calibrated]	Smoothing Adjustment	Area Factor [2024, Smoothed]
3	0.905	0.924	0.333	0.911
6	1.085	1.109	0.333	1.093
7	0.987	1.021	0.333	0.998
8	0.989	0.964	0.333	0.980
Total	0.986	0.986		0.986

¹Membership distribution as of March 2023.

²Relativities are expressed on a relative basis to Rating Area 8.

- b. *Please provide quantitative and qualitative support for the proposed network factors, if different from the previous year.*

Oscar does not apply network factors to our Individual Pennsylvania product.

9. *Public Health Emergency:*

- a. *With the Public Health Emergency expected to end on May 11th, how has the rate development been affected? Please provide support for any adjustments, or support for making no adjustments, if applicable.*

Oscar included an adjustment for the expected change in Pennsylvania's market morbidity due to the ending of the Public Health Emergency and a proportion of Medicaid Redeterminations enrolling in the ACA Marketplace in the 2023 and 2024 plan years.

- b. *Furthermore, with the Public Health Emergency scheduled to end on May 11th, has any adjustment been made specifically to the morbidity assumption for Plan Year 2024?*

According to the ASPE article, *Unwinding the Medicaid Continuous Enrollment Provision:*

Projected Enrollment Effects and Policy Approaches, published on August 19, 2022, ~30% growth for Oscar's Pennsylvania rating areas is expected as a result of Medicaid redetermination. Oscar assumes this group to most closely resemble the current CSR150 population, which historically has had a 15% morbidity differential compared to the average ACA population, using Oscar's experience as a proxy for the market. Market growth was capped at 20% for the purposes of the morbidity impact calculation. Lastly, Oscar accounted for Pennsylvania's twelve-month redetermination period beginning in April 2023, resulting in approximately 75% of total market increase occurring in 2023, and the remaining 25% occurring in 2024.

Quantitative support of Oscar's Medicaid Redetermination morbidity factor is provided below. This factor is included in the "Morbidity Adjustment" entry on Worksheet 1, Section II of the URRT and in the "Change in Morbidity - All Other" entry of Table 5 — Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims of the Rate Exhibits.

Medicaid Redetermination Allowed Impact			
Plan Year	Market Increase	Morbidity Differential	Allowed Impact
2023	15%	15%	1.020
2024	5%	15%	1.007
Total	20%		1.027

- c. *Please provide commentary on how the Company believes services such as COVID vaccinations and COVID testing will be handled in PY24. Within your response please clarify if these services will be considered preventative and covered at 100%.*

COVID vaccinations will be covered at 100% by Oscar as a preventive benefit. COVID testing will be covered at regular cost sharing under Lab benefit.

10. *MLR Exhibit:*

- a. *Please complete the table below which summarizes the most recent three years of complete MLR information.*
- i. *Actual is the final information which was filed for the specified calendar year*
 - ii. *Pricing is the information which was projected in the final annual filing for the given year (i.e., 2020 pricing information is from the plan year 2020 annual filing submitted in 2019)*

MLR Exhibit				
Calendar year	MLR		Member Months	
	Actual	Pricing	Actual	Pricing
2021	89.3%	93.0%	50,778	81,888
2020	78.3%	93.2%	41,428	136,716

- b. Are the MLRs and Member Months between Actual and Pricing comparable? If not, explain.*

Actual Member Months were lower than Pricing due to our worse-than-expected price positioning in our markets. 2021 Actual MLR was comparable to Pricing, while 2020 Actual MLR was lower than Pricing due to depressed utilization and deferred care as a result of COVID.

- c. Does the insurer expect to pay MLR rebates for the 3-year period above?*

Oscar does not expect to pay MLR rebates for the 3-year period above

11. Plan of Withdrawal:

- a. Please confirm that a Plan of Withdrawal has been submitted if any plans are being discontinued.*

Oscar confirms that a Plan of Withdrawal has been submitted.

Please feel free to reach out to me if you have any additional questions. Thank you.

Re: Response to Objection Letter for OHIN-133678196

Dear Mr. Carmody

This letter is in response to the 06/09/2023 questions regarding Oscar Health Plan of Pennsylvania’s Individual rate filing. For your convenience, I have included your questions in *blue italics* with my responses to each question below.

1. The following questions pertain to the PAAM Exhibits vs URRT:

a. Per the URRT, Worksheet 2, the Member Cost-Sharing (cell D28) is equal to \$3,529,962.83. However, based on Table 2 of the PAAM Exhibits, Member Cost-Sharing (cell F36) is equal to \$2,391,778.55. Please update so that these numbers are consistent or explain the discrepancy.

Oscar has updated Table 2 of the PAAM exhibit to equal \$3,529,962.83.

b. Per the URRT, Worksheet 2, the Current Enrollment (cell D34) is equal to 3,126. However, based on Table 1 of the PAAM Exhibits, the Current Period Number of Members is 3,165. Please update or explain this discrepancy.

The PAAM exhibit requests membership as of February 2023, while our URRT uses membership as of March 2023. There are more plan withdrawals as of March 2023, leading to the 39 member month discrepancy.

2. Per the Rate Filing Guidance, the Exchange User Fee is to be a maximum of 3%. Please update Table 5 Cell C32, along with the Actuarial Memorandum, to reflect this.

The exhibit below demonstrates that the Exchange User Fee PMPM provided in Table 5 Cell C32 meets the 3% maximum requirement.

Exchange User Fee PMPM Development		
Description	Value	
% of Membership On-Exchange	98.26%	A
Exchange Fee, % of Premium	3.00%	B
Indicated Premium PMPM	\$593.73	C

Exchange Fee PMPM	\$17.50	D = A * B * C
-------------------	---------	---------------

3. The Cover Letter states the range of the rate change is 8.8% to 14.2%. This appears to be taken from Row 13 of Table 11, however, the range should be the minimum and maximum of the table spanning Column AE to Column AM. More easily, these numbers are automatically populated to Tab VI Rate Change Summary and can be pulled from there. Please revise the Cover Letter, as well as the Rate/Rule Schedule tab in SERFF with the correct range of rate change.

Our cover letter and Rate/Rule tab in SERFF have been updated.

4. Per the Rate Filing Guidance, the number of affected policyholders listed in the Rate/Rule Schedule tab in SERFF should be populated using the total covered lives shown in Table 10 Cell V15 of the PAAM Exhibits. Please update so that the covered lives are consistent.

The Rate/Rule Schedule in SERFF has been updated.

5. In the General Information tab, please add the binder number. The corresponding SERFF form number should remain in this location.

The General Information has been updated with the Binder number OHIN-PA24-125116287.

6. Please provide an exhibit that identifies any benefit or cost sharing changes and the corresponding HIOS Plan IDs for the impacted plans. Further, please provide a discussion of the pricing assumptions used in the development of the cost for the benefit changes.

The exhibit has been added to tab "Q6 - Costsharing Changes".

The cost of the benefit changes is determined using Oscar's internal model which re-adjudicates Oscar's claims, assuming a single claims distribution, based on new benefit designs. This enables Oscar to model detailed plan designs and their impact on benefit relativities. By using a static claim distribution, the pricing model's adjustments assume the same demographic and morbidity characteristics for each plan priced and therefore exclude expected differences in the health status of members assumed to select into each plan.

7. The quality improvements initiative is 0.97% (\$5.78 pmpm). Please explain what the quality improvements are and provide an exhibit demonstrating the development of \$5.78 pmpm.

The itemized list of HCQI initiatives and associated PMPM allocation are provided in the table below, as well as in the attachment titled "2024_PAIND_Objection20230609_Exhibit.xlsx".

HCQI Expenses

Initiative	PMPM
Improve Health Outcomes	\$0.57
Activities to Prevent Hospital Readmissions	\$4.96
Improve Patient Safety and Reduce Medical Errors	\$0.18
Wellness and Health Promotion Activities	\$0.07
Total	\$5.78

Improve Health Outcomes

This category includes HEDIS Reporting and Compliance, Diabetes Care Management Program, Baby Care Care Management Program, and Delegated Case Management. Oscar utilizes its Member Services and Utilization Management teams to optimize its quality improvement functions. All expenses are allocated based on estimates of time spent on functions that improve the health outcomes of our members.

Activities to Prevent Hospital Readmission

This category includes Post-Discharge Planning and Delegated Discharge Planning. Oscar utilizes its Utilization Management, Medica Operations and Member Services teams to help prevent hospital readmissions. All expenses are allocated based on a study done based on the amount of time they spent on functions that help reduce the amount of hospital readmission of our members.

Improve Patient Safety and Reduce Medical Errors

This category includes Prospective Drug Utilization Reviews, Delegated Prospective Utilization Review Vendors, Prospective Drug Utilization Review Diabetes Program and Prospective Drug Utilization Review Baby Care Program. Oscar utilizes its Utilization Management and Medical Operations teams to improve patient safety and reduce medical errors. All expenses are allocated based on a study done on the amount of time they spent on functions that help reduce the amount of hospital readmission of our members.

Wellness and Health Promotion Activities

This category includes Well Child Visit Call Campaign, Wellness Assessments, Patient Coaching & Education Blog, Flu Vaccine Incentive Program and VNS Flu program, and Wellness Incentive Program. Oscar utilizes its Member Services and Utilization Management team. All expenses are allocated based on time spent on activities that improve the health and wellness of Oscar's Members.

8. In Table 13 Geographic Factors, please remove the "n/a" from the "Counties" column of rating areas you do not sell business in as these cells are incorrectly populating the Rate Change Summary tab due to them not being blank.

Table 13 has been updated.

9. Please provide an excel exhibit that shows the development of the Tobacco Calibration Factor.

Please see Tab Q9 Tobacco Calibration of 2024_PAIND_Objection20230609_Exhibit.xlsx. This is also provided in Pennsylvania 2024 Actuarial Memorandum Supplement_20230517.xlsx.

10. Please provide an excel exhibit that shows the development of the Age Calibration Factor.

Please see Tab Q10 of 2024_PAIND_Objection20230609_Exhibit.xlsx. This is also provided in Pennsylvania 2024 Actuarial Memorandum Supplement_20230517.xlsx.

11. Per Table 1 of the PAAM Exhibits, Oscar is expecting membership to increase by 34.81%. Please provide a narrative explaining what is driving this increase in membership.

Oscar has reviewed our filing and discovered discrepancy causing the incorrect membership to be displayed in our filing. The correct membership projection is 2,699 lives, which is in line with a membership decrease due to the magnitude of our requested rate increase.

Oscar requests flexibility to update our membership projection to 2,699 lives in our upcoming refiling for Final 2022 Risk Adjustment.

12. Please provide a qualitative explanation and quantitative support for each trend component.

Utilization trends were assumed using Milliman’s HCG secular utilization trend levels at the broad service category level and then applied to Oscar’s claim dataset. Considerations by Milliman in recommending these trends include the following:

- Inpatient facility utilization trends have been near zero (and often negative) the last few years as there has been a concentrated effort in the healthcare industry to shift care from inpatient to less expensive outpatient settings, like ambulatory care centers.
- While outpatient facility and professional/other medical utilization trends have also been low in recent years, these trends are expected to be higher than inpatient. Much of this is due to shifts in sites of service, since these services are often more elastic and subject to consumer choice than inpatient services.
- Benefit design changes and plans (e.g., HDHPs) have historically depressed utilization. However, the shift to consumers may not be sustainable and can soon contribute to growth in utilization for these services.

Trends and distribution of spend for Rx and Medical utilization are as follows:

Drug Type	Spend	Utilization Trend
Generic	17.8%	2.5%
Brand	44.8%	-3.0%
Specialty	37.3%	6.0%
Total	100.0%	1.3%

Benefit Category	Spend	Utilization Trend
Inpatient Hospital	23.0%	0.6%
Outpatient Hospital	34.7%	1.1%
Professional	23.9%	1.1%
Other Medical	1.9%	1.1%
Capitation	0.0%	0.0%
Prescription Drug	16.4%	1.3%
Total	100.0%	1.0%

*Total is the sumproduct of utilization and spend

Similarly, unit cost trends were developed based on Oscar's anticipated reimbursement levels and applied to the same dataset. As described in the Actuarial Memorandum, Pennsylvania was partially rated for 2023, and therefore different unit cost trend assumptions were used for the manual and experience rated portions. An adjustment is included in the manual portion to account for differences in provider contracts between the Pennsylvania and Florida (manual base) markets. No adjustments were made to the experience portion since it already reflects our experience in the Pennsylvania market.

13. Exhibit G Geographic Rating Factors in the Actuarial Memorandum does not match with the Table 13 Geographic Rating Factors in the PAAM Exhibits. Please revise or explain the discrepancy.

Oscar has revised our Geographic Rating Factors to match our Actuarial Memorandum. A result of this revision is a change in the minimum, maximum and average rate changes shown on the cover letter.

14. The Department is interested in the issuer's estimate of the drivers of the rate change, In particular, what portion of the indicated rate change from Table 11 is due to changes in various components such as reinsurance (individual market only), utilization trend, unit cost trend, expenses, morbidity, benefits, risk adjustment, or other relevant factors?

The table below provides a high-level summary of the pricing assumptions driving Oscar's rate change for the 2024 plan year. This does not account for any additional rate change due to mapping of members in discontinued plans. The total rate change provided represents the weighted average for current 2023 members in plans renewing in 2024. This aligns with Exhibit A provided in the Actuarial Memorandum, which is also copied below. This varies from the rate change in Table 11 for the PAAM Exhibits because the Table 11 accounts for changes due to mapping of discontinued plans, and averaging is done at the rating area level rather than the plan level.

Drivers of Rate Change

Description	Value
Claim Experience in 2022	-0.60%
Risk Adjustment	1.67%

State Reinsurance	-0.16%
Medical and Prescription Drug Trend	3.07%
Prospective Benefit Changes	1.91%
Admin, Taxes and Fees, and Risk Margin	4.55%
Changes in Morbidity	-0.27%
Impact of Medicaid Redetermination	0.10%
Impact of COVID-19 Pandemic	0.72%
Total	11.00%

Exhibit A
Summary of Proposed Rate Increases

Benefit Plan	HIOS ID	Members	Plan-Adjusted Index Rate ¹		Rate Change
			2023	2024	
Bronze Classic	98517PA0010003	575	\$459.59	\$533.99	16.2%
Bronze Elite PCP Saver	98517PA0010005	348	\$595.53	\$650.29	9.2%
Silver Classic	98517PA0010006	195	\$634.88	\$696.37	9.7%
Secure	98517PA0010011	80	\$215.11	\$234.79	9.1%
Gold Classic	98517PA0010013	341	\$621.76	\$685.38	10.2%
Bronze Simple HSA	98517PA0010014	81	\$419.20	\$459.90	9.7%
Bronze Classic PCP Saver Plus	98517PA0010021	367	\$485.11	\$528.68	9.0%
Bronze Classic 4700	98517PA0010024	135	\$516.48	\$563.67	9.1%
Silver Simple PCP Saver	98517PA0010025	109	\$646.82	\$716.67	10.8%
Silver Elite Saver Plus	98517PA0010030	56	\$587.28	\$651.67	11.0%
Gold Elite Saver Plus	98517PA0010035	42	\$530.68	\$585.27	10.3%
Gold Elite	98517PA0010036	45	\$610.88	\$675.30	10.5%
Bronze Classic Standard	98517PA0010050	16	\$497.42	\$544.88	9.5%
Silver Classic Standard	98517PA0010052	47	\$575.18	\$638.55	11.0%
Gold Classic Standard	98517PA0010053	173	\$577.71	\$638.76	10.6%
Total		2,610	\$534.24	\$593.04	11.0%

¹Represents the demographic mix of current membership by age, tobacco and area distributions for renewing plans as of March 2023.

15. Please provide a detailed quantitative exhibit displaying the development of the projected 2024 risk transfer payment.

Quantitative support is supplied in tab "Q15. Risk Adjustment Factors" of the objection response exhibits. Please note that the averages shown for GCF, ARF and IDF closely match the rating and risk values of the transfer formula, but not totally. This is driven by the difference of taking individual averages versus the cross-compounding that happens when calculating the risk adjustment formula.

16. *It appears there is an Expanded Bronze Plan (Market Name: Bronze Classic 4700, HIOS ID: 98517PA0010024) missing from the Standard Questions 2024 Exhibit tab Q7. Expanded Bronze Plans. Please provide the information for this plan that demonstrates that the criteria for an expanded bronze plan has been met.*

Standard Question 7 has been updated to include 98517PA0010024.

17. *In Table 10, Column G (called "Metallic Tier"), the following changes need to be made:*

- a. "Bronze" should be changed to "Expanded Bronze" in Cell G36*
- b. "Bronze" should be changed to "Silver" in Cell G37*
- c. "Bronze" should be changed to "Expanded Bronze" in Cell G39*

Oscar has amended Table 10 for these updates.

18. *The following questions concern your proposed area factor changes for PY2024:*

- a. Please describe how the proposed area factors were derived.*

Oscar's Area factors are based on 2022 Pennsylvania claim experience and manual claim experience factors for when geographic cohorts are not fully credible, defined as 85,000 member months. The geographic factors used incorporate differences in unit cost and utilization (i.e., provider practice pattern) differences only. Geographic level experience is truncated by capping individual member claims at \$250,000 to prevent high cost claims from distorting the true cost of a rating area.

Moderate smoothing was considered in the development of the final area factors included in the 2024 rate filing. Oscar applies smoothing factors in an effort to aid in managing the level of volatility inherent in the geographic cohorts, which prevents the area factor model from potentially overcorrecting over time. Actuarial judgment was applied in making the smoothing adjustments.

b. Further describe how differences in morbidity between rating areas did not affect the derivation of the proposed factors.

Morbidity differences between regions were removed by normalizing claims experience using risk scores from the Milliman Advanced Risk Adjuster (MARA) model.

c. Did you derive the area factor relativities by comparing the risk-adjusted loss ratios between the different geographic areas to remove morbidity differences between areas? Did you also normalize the loss ratios to remove demographic differences?

Risk adjusted loss ratios were taken into account in developing area factors, in conjunction with actuarial judgment used in smoothing the factors.

19. *Page 21 of our guidance document describes how issuers should fill out Column L of Table 10 in*

our PAAM exhibits. In particular, our guidance document says “The induced demand factors which are used in calculating the normalized factors in Column L should be based on the HHS induced demand factors utilized in the risk transfer formula and should use the following formula: $(Plan\ AV)^2 - (Plan\ AV) + 1.24$. This produces the HHS factors by metal level (i.e., a 0.60 pricing AV is a 1.00 factor and a 0.90 pricing AV is a 1.15 factor) but accounts for the fact that not all plans within a metal level will have the same pricing AV. The “Plan AV” should be the product of the “Pricing AV” (column K of Tab III) and “Non-Funding CSR Adjustment” (column P of Tab III).”

The important take-aways from our guidance are:

- i. The non-normalized induced demand factors should be calculated as follows: $(Plan\ AV)^2 - (Plan\ AV) + 1.24$.*
- ii. The Plan AV in the above referenced formula is defined as the Pricing AV times the CSR defunding factor for the given plan.*
- iii. The induced demand factors that appear in Column L of Table 10 must be normalized. In other words, the non-normalized induced demand factors calculated in (i) above must be divided by a normalizing constant to make the aggregate effect of the factors “balance back” to 1.000.*
- iv. The normalizing constant should be the weighted average of the non-normalized induced demand factors and the projected membership shown in Column W of Table 10.*

Please modify your factors in Column L of Table 10 to comply with these guidelines.

The source of the discrepancy lies in two adjustments that were made. The first adjustment is the normalizing of IDFs so that the block has an average of a 1.0 IDF in Column L. Oscar normalized our IDFs by a factor of 1.07. In addition, Oscar applied two block level AV adjustments that we project will not influence plan level behavior.

Revenue Neutrality

In accordance with the ACA single risk pool requirements, there are inherent selection effects that are not captured in our rating process by plan. For example, healthier enrollees may choose bronze plans, while more morbid enrollees may choose gold plans. Therefore, Oscar applies a revenue neutrality adjustment to the block that increases or decreases all plans to account for the differences in utilization that may occur at a metal level.

IBNR

As Oscar creates a claim sample as of February with two months of runout, there are still claims which have not been processed and missing from our claim sample (IBNR). While IBNR is accounted for in our experience period allowed claims, it does not account for the actuarial value impact that is expected to result in an increase to the projected AV's with additional run-out. Oscar applies an adjustment to our paid to allowed ratio for the incomplete “tail” of the sample's claims distribution.

20. In the Excel File “2024_StandardQuestions_Exhibits” tab Q8 PAAM Exhibits, please provide Column C Member Distribution in terms of membership as opposed to percentages.

Column C of tab Q8 PAAM Exhibits in "2024_StandardQuestions_Exhibits.xlsx" has been updated to reflect 2023 membership.

21. Please explain further the reasoning behind the 1.145 factor used in the Change in Demographics portion of the Manual Data (Cell D18 of Table 5).

The manual demographic shift factor consists of two components. First is the relativity between the projected average age/gender factor and the average age/gender factor of the manual experience. The age/gender factors in this context represent the internally-derived factors based on Oscar's actual experience. Second is the relativity between the projected average geographic factor and the average geographic factor for the manual experience. The geographic area factors in this context represent the internally-derived factor set appropriate for claim cost forecasting. The table below quantifies the impact of each component in the derivation of the 1.145 adjustment factor.

Development of Demographic Factor - Manual		
Description		Definition
Average Age/Gender Factor for the Manual Period	0.984	A
Average Age/Gender Factor for the Projection Period	1.061	B
Final Age/Gender Factor	1.079	$C = B / A$
Average Geographic Factor for the Manual Period	0.935	D
Average Geographic Factor for the Projection Period	0.992	E
Final Geographic Factor	1.062	$F = E / D$
Final Factor	1.145	$G = C * F$

22. Please confirm that you have tested to ensure that the rates in Table 11 of the PAAM Exhibits, PA Plan Design Summary and Rate Table, Federal Rates Template, and binder are identical.

Oscar has confirmed that the rates in PA Plan Design Summary and Rate Table, Federal Rate Template, and binder are identical. The rates calculated in Table 11 of the PAAM Exhibits are one cent less than the 21-year-old rates provided in the PA Plan Design Summary and Rate Table and Federal Rate Template. Due to the strict enforcement of the maximum rate variation of 3:1 within the Federal Rate Table, Oscar manually adds a penny to age 21 rates. Additionally, Oscar has confirmed the binder filing submissions are consistent with the rate filing.

Please feel free to reach out to me if you have any additional questions. Thank you.

Re: Response to Objection Letter for OHIN-133678196

Dear Mr. Carmody

This letter is in response to the 7/07/2023 questions regarding Oscar Health Plan of Pennsylvania's Individual rate filing. For your convenience, I have included your questions in *blue italics* with my responses to each question below.

1. Please update the 2022 experience period risk adjustment amount in Table 2 to reflect the final CMS risk adjustment amount released on June 30th.

This has been updated in "2024_Indiv_Oscar_PAAMExhibits_07182023.xlsx".

2. If the projected risk adjustment transfer amount in Table 5 will be modified, due to the final CMS transfer amount published on June 30th, please provide narrative and detailed supporting data to justify the proposed changes.

In response to the *Summary Report on Permanent Risk Adjustment Transfers for the 2022 Benefit Year* published by CMS on June 30, 2023, Oscar updated our risk adjustment transfer for the 2024 plan year. The impacted assumptions include the risk and rating factors for Oscar and the Pennsylvania individual market, as well as the state average premium. An increase to Oscar's relative risk, as well as an decrease to the state average premium resulted in a decrease to the projected risk adjustment payment compared to Oscar's initial filing. A comparison between the initial and updated risk adjustment transfer development is provided in "PA Objection 20230707 Exhibit.xlsx".

3. Please update your filing to reflect the reinsurance coinsurance percentage of 50 percent.

Oscar confirms the filing has been updated to reflect the state reinsurance coinsurance percentage of 50 percent.

4. Please confirm that you have tested to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, and Federal Rate Templates are identical.

Confirmed.

5. Exhibit A in the Actuarial Memorandum references 2021 and 2022. Please revise.

This has been updated in "2024_PA_Individual_Actuarial_Memorandum_20230718_v2.0.pdf".

6. In the Actuarial Memorandum, page 2 states required changes in federal and state taxes and fees as a significant factor driving the proposed rate change. Please provide a detailed narrative describing the changes being referenced here.

A summary of the changes in taxes and fees from 2023 to 2024 is provided in the table below. Also note that section 3 of the Actuarial Memorandum is intended to provide an inclusive list of year-over-year changes that contribute to the need for a change in rates. The contribution to the overall rate change of each factor is not provided. There were minimal changes to taxes and fees for the 2024 plan year and is therefore not a significant driver of the rate change.

Summary of Taxes and Fees			
Description	Type	2023	2024
Exchange User Fee	Variable	3.0% of premium	3.0% of premium
PCORI	Fixed	\$0.25 PMPM	\$0.24 PMPM
Risk Adjustment User Fee	Fixed	\$0.21 PMPM	\$0.22 PMPM
Federal Income Tax	Variable	21% of operating margin	21% of operating margin

7. Please provide a detailed quantitative exhibit that supports the adjustment of 0.974 that was included to account for the anticipated changes in the level of prescription drug rebates between the experience period and projection period.

As we have updated our experience for run out, the factor has changed slightly from 0.974 to 0.975. Development is included in the response to Question 8.

8. Please provide a detailed quantitative exhibit in Excel that preserves all formulas for each of the following adjustment factors included in Table 5 of the PAAME. If there are multiple items included in each adjustment factor, include a separate exhibit for each component of the total factor:

- a. Change in Morbidity - All Other – both actual and manual
- b. Change in network – manual rate
- c. Change in benefits – both actual and manual
- d. Change in other – both actual and manual

Quantitative detail for the factors provided in Table 5 of the PAAM Exhibit is provided in “PA Objection 20230707 Exhibit.xlsx”.

e. Credibility factor % split

Oscar utilizes the limited fluctuation credibility method to determine the minimum number of member months required for experience to be considered fully credible. Oscar’s threshold of 85,000 member months was selected such that there is a 90% probability of the claim experience being within +/- 8.0% of the mean. Oscar’s experience includes 47,831 member months and is considered 75.0% credible for purposes of developing claim projections. Quantitative support is provided below as well as in “PA Objection 20230707 Exhibit.xlsx”.

$$(47,831 / 85,000) \wedge .5 = 75.0\%$$

9. Please provide all Actuarial Memorandum Exhibits in Excel format and retain all formulas.

All Actuarial Memorandum Exhibits are provided in "Pennsylvania 2024 Actuarial Memorandum Supplement_20230718.xlsx".

10. The following objections pertain to Exhibit C:

a. Please correct all year references in Exhibit C. Are the values included for PY24 or PY23?

The reference has been corrected to PY24. The values included are for PY24.

b. Please provide a detailed quantitative exhibit that supports the state average premium increase provided in Exhibit C.

Quantitative development of the 2024 SAP is provided below as well as in "PA Objection 20230707 Exhibit.xlsx".

2024 SAP Development					
Source		Individual		Catastrophic	
		Initial Filing	Refiling	Initial Filing	Refiling
2022 SAP	CMS Interim/Final RA Report	\$592.69	\$592.26	\$205.25	\$205.38
2023 SAP Trend	2023 vs. 2022 OE Public Use File	4.06%		4.06%	
2024 SAP Trend	Medical Cost Trend	4.5%		4.5%	
	Medicaid Redetermination	0.72%		n/a	
	State Reinsurance Discontinuation	4.50%	0.44%	4.50%	0.44%
2024 SAP		\$678.37	\$651.54	\$233.24	\$224.32

c. Please provide a detailed quantitative exhibit that compares the statewide risk transfer results the Department provided the company as of 5/3/2023 to what is utilized in Exhibit C.

Quantitative exhibit of 2022 risk adjustment factors used to project our 2024 risk adjustment transfers is provided below as well as in "PA Objection 20230707 Exhibit.xlsx". Please note we utilized the Summary Report on Permanent Risk Adjustment Transfers for the 2022 Benefit Year published by CMS on June 30, 2023, which are mostly aligned with the factors provided by the Department on 5/3/2023. The final 2022 risk adjustment transfer of -\$6.6M is closely aligned with the Department's estimate.

Risk Adjustment Transfer Projection for the 2022 Plan Year

Description	Risk Pool		Definition
	Individual	Catastrophic	

Risk Factor — Oscar	0.989	0.119	A
Risk Factor — Market	1.598	0.436	B
Rating Factor — Oscar	1.211	0.701	C
Rating Factor — Market	1.371	0.593	D
State Average Premium PMPM	592.26	205.38	E
Administrative Cost Adjustment	0.86	0.86	F
Transfer PMPM	-\$134.94	-\$160.77	$G = [(A / B) - (C / D)] \times E$ x F
Billable Member Months	46,988	1,495	H
Forecasted Reinsurance Assessment PMPM	\$3.53	\$3.53	I
Estimated Reinsurance Recovery PMPM	\$0.00	\$0.00	J
Risk Adjustment Data Validation (RADV) Estimate	-\$2.55	-\$2.55	K
Transfer Total	-\$6,580,802		L = G x H
Member Months	47,830.77957		M
Transfer PMPM	-\$143.67		N = L / M - I + J + K

11. Please confirm that the values included in Exhibit B are correct.

Oscar confirms the values in Exhibit B are correct.

12. Please provide a quantitative exhibit in Excel that supports the PCORI fee given in Exhibit E.

This has been added on tab Q12 of "PA Objection 20230707 Exhibit.xlsx"

13. Please move the PA Actuarial Memorandum in SERFF from the URRT tab to the Supporting Documents tab under "ACA PA Actuarial Memorandum." The Federal Actuarial Memorandum belongs in the URRT tab. Please upload a copy of this. Also, please upload an updated copy of the PA Actuarial Memorandum.

Oscar provides one Actuarial Memorandum that meets both the federal and PID requirements. The memo has been loaded to both the URRT and Supporting Documentation tabs in SERFF.

14. The following is in reference to the responses to questions #3 and #4 of the previous objections:

a. There does not appear to be an updated version of the Cover Letter in SERFF. Please upload an updated copy.

"2024_PA_Individual_Cover_Letter_20230718.pdf" has been loaded to the Supporting Documentation tab.

b. Under the Rate/Rule Schedule tab, the Overall % Rate Impact (4.06%) should match what is under the Overall % Indicated Change (9.52%). Please update the Overall % Rate Impact.

This has been updated to 6.78% as reflected in our refiling.

c. Also under the Rate/Rule Schedule tab, the number of Policy Holders Affected for this Program should reflect Cell V15 in Table 10 of the PAAME (3,165). Please update.

Oscar had previously listed the number of subscribers, not the number of covered lives. We will update SERFF to match the PAAME number of 3,165.

15. In reference to the response to question #11 of the previous objections, the Department approves of updating the membership projection to 2,699 lives.

Oscar confirms our updated membership projection will reflect 2,699 lives.

16. In reference to the responses to questions #16 and #20 of the previous objections, the current 2024 Standard Questions Exhibit file in SERFF does not include the updated responses. Please upload the updated version of the 2024 Standard Questions Exhibit with the modified responses.

Our Standard Questions have been updated with the modified responses.

17. In reference to the response to question #19 of the previous objections, the Department feels that the benefit richness factor found in Column L of Table 10 must be calculated using the Pricing AV found in Column K of Table 10. Please recalculate the values found in Column L of Table 10 using this standard.

Our pricing IDFs have been recalculated with the Department's formula.

Re: Response to Objection Letter for OHIN-133678196

Dear Mr. Carmody

This letter is in response to the 7/12/2023 questions regarding Oscar Health Plan of Pennsylvania's Individual rate filing. For your convenience, I have included your questions in *blue italics* with my responses to each question below.

1. Please provide a detailed narrative explaining the reason for the claims backlog.

We had a backlog of 2022 claims, particularly claims incurred near the end of the year, that were processed in April and May. There was some provision for IBNR as of March 31, 2023, but the recent paid activity (at the higher end in terms of severity) outpaced expectations. Oscar's Pennsylvania membership is still relatively small, and thus not credible and subject to larger swings in claims.

2. Please provide a detailed quantitative exhibit in Excel that illustrates by incurred month the additional claims being added.

3. Please provide the total additional claims on a total and PMPM basis.

4. Please remove any/all margin that Valuation still has included within their ultimate claims estimates as of May 2023 close for the experience period, and provide a separate set of tables/figures requested in #2 and #3.

Please find our responses to questions 2,3 and 4 in our attached excel file titled "2024_PAIND_Objection_20230713.xlsx" uploaded under supporting documentation.
