Ms. Tracie Gray, Director  
Bureau of Life, Accident & Health Insurance  
Commonwealth of Pennsylvania Insurance Department  
1311 Strawberry Square  
Harrisburg, PA 17120

Re: Highmark, Inc. 2022 ACA Rate Filing (Small Group Market)  
HMK Filing # 1A-SG-HIGHMARK-2021 (SERFF Filing # HGHM-132831048)

**This constitutes Notice pursuant to Section 707 of the Pennsylvania Right-to-Know Law that the attached Highmark, Inc. 2022 Small Group Market Rates Filing contains Trade Secret and Confidential Proprietary Information. Therefore, Highmark, Inc. must, prior to the release of any portion of this Filing, be notified of any request by a third party for access to this Filing, and the Trade Secret and/or Confidential Proprietary Information identified by Highmark, Inc. should be redacted before release.**

Dear Ms. Gray:

This Filing includes the Highmark, Inc. (NAIC # 54771; HIOS Issuer ID # 33709) Small Group Market Off Exchange ACA rate filing and the supporting rate development for policies with effective dates on or after **January 1, 2022**.

**In the event the Department decides to publish this Filing in the PA Bulletin, the company information requested as per the Department's 2022 ACA-Compliant Health Insurance Rate Filing Guidance, Section B, is provided below:**

1. Company Name & NAIC #: **Highmark, Inc., NAIC # 54771 ("Company")**
2. Market: **Small Group ("Market")**
3. On or Off Exchange: This Company's products are offered **Off Exchange only**
4. Effective date of coverage: **January 1, 2022**
5. Average rate change requested: **0.78% rate change**

6. Range of rate change requested: **-5.36% to 15.70%**
7. Total additional annual revenue generated from the proposed rate change: **\$348,605**
8. Product(s): **PPO and EPO**
9. Rating Areas and the change from 2021: **Regions 1, 2, 4, 5, 6, 7, and 9** (Western and Central, PA only)

There are no changes in our covered Rating Areas from the 2021 rate filing.

10. Metal Levels and Catastrophic Plans: This filing reflects that the Company anticipates selling the following Metal Levels of coverage in the indicated Market: **Platinum, Gold, Silver, and Bronze**
11. Current number of covered lives and of policyholders as of February 1, 2021: **6,641 covered lives; 3,911 policyholders**
12. Number of plans offered in 2022 and the change this represents from 2021: **106**

The Company offered 51 plans in 2021. For 2022, the Company is offering 95 new plans in the Market and removing 40 plans from the Market.

Please note that inclusion of premium rates in this filing for a given offering should not be construed to mean that the offering will ultimately be made available for sale in the market. Final offering decisions will be made consistent with and within the timelines set forth in CMS rules and/or ACA regulations.

13. Corresponding contract form number, SERFF and Binder ID numbers: The corresponding SERFF binder number is **HGHM-PA22-125107745** affecting the following Company products and forms:

<b>Product Name / Type</b>	<b>Contract Form &amp; SERFF #</b>
Balance PPO	PPO-SM/WG-9; HGHM-132793122
Health Savings HDHP PPO	HDHP-SM/WG-9; HGHM-132793117
Together Blue EPO	TB/EPO-SM/WG-1; HGHM-132793172
Together Blue HDHP EPO	TB/EPO-HDHP-SM/WG-1; HGHM-132793103

14. HIOS Issuer ID # and submission tracking number: **HIOS Issuer ID # 33709, Company Filing # 1A-SG-HIGHMARK-2021 (SERFF Filing # HGHM-132831048)**

### **Additional Filing Disclosures**

The Company has submitted all Required Documents stipulated by the Department, including the federal documents related to this filing, in its SERFF submission. In addition to the Required Documents, the Company has submitted a Supplemental Exhibits file containing additional detailed exhibits on items referenced in the PA Actuarial Memorandum. All tables, exhibits, and detail in support of this filing and the PA Actuarial Memorandum have been included in Excel format. For the Department's benefit, the Excel files have retained their formulas to the extent possible.

CMS has instructed issuers that it no longer requires any interim changes to the URRT to be submitted to HIOS. CMS is requesting that only the initial URRT and the final URRT be submitted to HIOS.

*Potential for Material Unforeseen Impacts:* This filing assumes that there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market subsequent to the filing date, and that there are no significant changes in the participation of QHP issuers that would materially change the Company's expected liabilities. This filing also assumes that transitional plan coverage will be available in the Pennsylvania Small Group market through 2022. Modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, repeal or invalidation of the ACA or material developments in the course of the COVID pandemic. As a result, Highmark, Inc. reserves the right to submit a revised filing.

### **Request for Confidentiality**

Please note that the rates and the supporting rate development contained in this Filing are competitively sensitive, are not in the public domain, and constitute business confidential proprietary/trade secret information that would cause harm to the competitive position of Highmark, Inc. if disclosed to the public.

Public disclosure of any information contained in this Filing would allow Highmark, Inc. competitors to better understand or discover its confidential and proprietary rating, pricing and/or marketing practices, would undermine competition in the Small Group market, and could have negative consequences for the operation of Highmark, Inc.'s business. Therefore, Highmark, Inc. asserts that this Filing, in its entirety, constitutes Trade Secret and Confidential Proprietary Information and should not be disclosed.

It is our understanding that the Department does not intend to publish the confidential and proprietary information contained in this Filing or to otherwise permit this Filing and its confidential information, other than the redacted information and final approved rates, to be disclosed or released.

Furthermore, and pursuant to the Pennsylvania Right-to-Know Law ("RTKL"), Highmark, Inc. must be notified prior to release of information contained in this Filing and be given the opportunity to respond to requests for such information. Should the Department receive such request or require the release of information contained in this Filing for its own purposes, Highmark, Inc. asserts its right to release a redacted version of the Filing. In accordance with the RTKL, please contact the Highmark, Inc. RTKL representative identified below prior to release of any information contained in this Filing:

Lisa Martinelli, Esq.  
RTKL Representative  
VP Chief Privacy Officer  
120 Fifth Avenue, FAP Suite 2114  
Pittsburgh, PA 15222

Furthermore, it should be noted that Highmark, Inc. is equally concerned that even if this information is released in aggregate form, it still may be easy to identify the carrier that submitted it.

Should you have any questions regarding the attached Filing, please feel free to contact me at (412) 544-3845 or via e-mail at: [Cory.Orzak@highmark.com](mailto:Cory.Orzak@highmark.com).

Sincerely,

A handwritten signature in dark ink, appearing to read 'Cory Orzak', with a long horizontal flourish extending to the right.

Cory Orzak, FSA, MAAA  
Vice President, Actuarial Services  
Highmark Inc.

# Pennsylvania Actuarial Memorandum

## 1. Basic Information and Data

### A. Company Information (Table 0)

Table 0 has been completed as per the instructions. Please refer to the Excel file “2022\_SmGrp\_HMK\_PAAMExhibits\_051821” submitted with this filing containing the department’s required tables. General information pertaining to this rate filing is summarized below:

- Company Name: Highmark, Inc. (“HMK”, “Company”)
- NAIC #: 54771
- HIOS Issuer ID: 33709
- State: Pennsylvania
- Market: Small Group
- Rating Area: Pennsylvania Rating Regions 1, 2, 4, 5, 6, 7 and 9
- Effective Date: 1/1/2022
- SERFF Rate Filing #: HGHM-132831048

This filing assumes that there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market subsequent to the filing date, and that there are no significant changes in the participation of QHP issuers that would materially change the company’s expected liabilities. This filing also assumes that transitional plan coverage will be available in the Pennsylvania Small Group market through 2022. Modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, repeal or invalidation of the ACA or material developments in the course of the COVID pandemic. As a result, HMK reserves the right to submit a revised filing.

### B. Rate History and Proposed Variations in Rate Changes

The most recent three years of historical rate changes in the Pennsylvania Small Group Market for the Company are as follows:

Period	Avg. Increase	SERFF ID#
2021	0.8%	HGHM-132831048
2020	6.6%	HGHM-131937189
Third and Fourth Quarter 2019 Rate Change	15.9%	HGHM-131864069
2019	18.5%	HGHM-131496088

The rate changes vary by plan due to changes in the allowable plan level base rate components (pricing actuarial factors, geographic rating factors, network discounts, and administrative charges). These

components are re-evaluated each year to keep pace with market changes and changes in health care costs. The rate changes also vary by plan due to mappings between discontinued and new plans. For 2022, the Company's proposed rate revisions vary by plan according to the detail presented in the URRT, Worksheet 2, and the PA Rate Template Table 10.

### **C. Average Rate Change**

The average rate change from Table 10, Cell AC15 is 0.78%. This rate change reflects the change for first quarter 2022 calibrated index rates over first quarter 2021 calibrated index rates. Note that the Table 10 average rate change is determined prior to the application of the Geographic Area Factors and may not appropriately represent the average rate change reflected in this rate filing to the extent the proposed average Geographic Area Factor is different than the average Geographic Area Factor used in the 2021 rate development.

For comparison, the change in 21-year-old non-tobacco premium PMPM calculated in Table 11, Cell AN13, is 0.81%. The rates shown in Table 11 apply the Geographic Area Factors to the Table 10 calibrated index rates. As such, the average rate change determined from the Table 11 first quarter rates is a better representation of the average first quarter 2022 rate change, since it is more representative of the average rate change that members will see.

The primary drivers of the 0.78% rate increase can be seen in the Table 8 results of the Pennsylvania Actuarial Memorandum exhibits.

### **D. Membership Count (Table 1)**

Table 1 has been completed according to the instructions with the average age, age breakdown and total number of members or member months, as indicated in the table. For the 2/1/2021 data, this table reflects all of the Company's Small Group ACA enrollment, including enrollment from 2020 and 2021 plan year plans.

### **E. Benefit Changes**

Some plan designs were changed due to a re-evaluation of benefit designs and marketing considerations.

For the 2022 plan year, there were no benefit changes necessary to the Company's plans to cover the benefits contained in the state's Essential Health Benefit (EHB) benchmark plan.

### **F. Experience Period Claims and Premium (Table 2)**

Please see Table 2 for the experience period data for the most recent calendar year, for the Company and Market. The experience period paid claims data represents the 2020 calendar year results for all Affordable Care Act compliant policies in the single risk pool, with run out through February 2021 (2 months). This data is consistent with the data reported in Section I of Worksheet I of the URRT (see below commentary).

The components of this exhibit were developed as follows:

- The Earned Premium represents actual revenues earned in the experience period.

- The Allowed Claims represent the Company's best estimate of the total claims prior to member cost sharing incurred during the experience period. The Allowed Claims include:
  - Two months of run out from the end of the experience period,
  - Claims processed outside of the Company's claims system (e.g., settlements), and
  - The Company's best estimate of claims incurred but not paid as of the end of the run-out period.

Note that the Incurred Claims and Allowed Claims presented in the URRT are net of the Prescription Drug Rebates on their appropriate basis, while Table 2 has the Prescription Drug Rebates separately identified and grossed up by the experience period paid to allowed ratio. As per the URR instructions, Allowed Claims do not include reinsurance recoveries or pooling charges, nor do they include quality incentive payments.

- Prescription Drug Rebates are used to reduce the level of Incurred Claims in the experience period. However, for entry into Table 2, the Prescription Drug Rebates are grossed up by the experience period paid to allowed ratio since they are ultimately used to reduce allowed claims. This allows for the Table 2 results to feed into Table 5 without adjustment, but it does cause the calculated loss ratio in Table 2 to be slightly mis-stated.
- There are no non-EHB benefits or costs in the experience period.
- The EHB coverage for pediatric vision benefits are provided by the Company's vision coverage vendor under a capitation arrangement. These costs are \$0.49 PMPM uniform across each member in the experience period and are reflected in Table 2 under the Total EHB Capitation section, where the capitation rate that the Company actually paid is grossed up by the experience period paid to allowed ratio, to get the capitations on an allowed claims basis. This further causes the calculated loss ratio in Table 2 to be slightly mis-stated.
- The Estimated Risk Adjustment represents the Company's best estimate of the year end risk adjustment transfer payment that the Company will incur based on the results in the experience period.
- The calculated loss ratio is 77.73%. This number is slightly below the actual loss ratio due to the adjustments to prescription drug rebates and capitations described above.

## **G. Credibility of Data (Tables 2b, 3b, 4b)**

The Company has employed a credibility methodology consistent with ASOP #25 to determine the appropriate level of credibility to be assigned to the base experience period data. The assigned credibility level has been determined by referencing published studies from the Society of Actuaries (SOA), most notably "A Practical Approach to Assigning Credibility for Group Medical Insurance Pricing (December 2015)<sup>1</sup>," as well as utilizing actuarial judgment in consideration of the Company's base experience period and projection period computations. Employing the conclusions confirmed in the referenced SOA study, the Company has established a full credibility threshold of 2,000 average members for the experience period. As the average members from the experience period membership for the active population for this Company is 6,327, full credibility has been assigned to the base experience period

## H. Trend Identification (Table 3)

Table 3 identifies the annual medical and prescription drug allowed claims cost and utilization trends, as requested by the Pennsylvania Insurance Department. The definitions of service categories, cost, and utilization in Table 3 are consistent with the URRT instructions. The numbers entered in the Cost and Utilization columns are consistent with those entered in Worksheet I, Section 2 of the URRT, except as noted below.

To arrive at the trend assumption, the experience period cost and utilization data were pulled from the Company's claims systems by the defined benefit categories. For the trend component development, the Company uses results from the combined experience of the following companies within the Highmark corporate family: Highmark Inc., Highmark Choice Company, Highmark Health Insurance Company, and Highmark Coverage Advantage. The combined experience used is limited to the Company's Rating Area and Market and provides a more material base to analyze the trend components impacting the business in the Company's Market. The trend development uses a projection of allowed claim PMPMs by service category that takes into account many factors, including the Company's expectations of changes in in-network provider contracting levels, changes in out-of-network costs, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. To reflect the impact of provider contracting on trend, changes in in-network provider contracting levels, either known or anticipated, are factored into the cost component of trend using detailed analysis of the impact on claim levels from each material provider arrangement.

The allowed claims used for the development of the trend are adjusted and normalized to obtain a claim basis appropriate for trend development. These adjustments include changes for in-network provider contracting levels, changes for out-of-network costs, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. In addition, the trend estimates normalize for benefit leveraging, population aging, changes in fee schedules, and external trend drivers. The projection of claim costs into the rating period utilizes the same categories of adjustment factors, adjusts for seasonality, and uses a statistical regression of historical trend levels to project monthly claim levels. This normalized and adjusted claim progression is then used to provide the basis for the Company's trend regression model, which will be used to establish the Company's rating trend.

The regression trend model is used to smooth out noise in the historical claim levels and to provide an appropriate jumping off point for projected claim levels. Using the factors discussed above to adjust projected claim levels, an appropriate assumption for trend was established using the experience period claim levels as the starting point. Since historical experience would encompass the expected coverage and demographic makeup of the membership, historical claim levels, adjusted for these factors and projected forward, would represent the best estimates of trend for this block of business.

For the rate development, the Company uses the aggregate claim trend for all types of service, applied to the experience period. This is done so that the combined trend is reasonable in consideration of the various pricing trend components and the overall anticipated trend level. Based on a review of the projected normalized annual trends for 2021 and 2022, an overall claim trend of 7.31% (3.39% cost; 3.79%

utilization) was selected for the 2022 rate development. Please refer to the “Trend Support” exhibit in the “2022 Supplemental Exhibits - HMK\_051821.xlsx” file showing the historical and projected normalized claim values for the Company’s trend determination, along with the Company’s proposed base medical and drug claim trends.

In addition to the base medical and drug claims trend discussed above, the trend illustrated in Table 3 reflects changes in anticipated costs for claims processed outside of the Company’s claims system, including Rx rebates and settlements. After the trends for the claims processed outside the Company’s claims system are weighted in with the base medical and drug claim trend, we arrive at a trend of 5.33% (2.47% cost; 2.79% utilization), as seen entered in for the Year 2 trend on URRT Worksheet 1. This trend, combined with the BEP adjustment for COVID claim suppression, is the trend entered into Table 3 for non-capitated services.

Capitation rates are provided by our vision provider, and as such, their trend is handled separately from the other benefits. The capitation trend rate is -6.78%. This trend is different than the capitation trend in the URRT because it includes the impact of induced utilization changes that get averaged across all service categories in the URRT. This allows for a consistent change in induced demand to be applied in Table 3 as gets applied on the URRT.

The Company performed a separate analysis to identify the impact of COVID on the base experience trend data and adjusted the historical claims data accordingly. See the Impact of COVID section below for the magnitude of this adjustment, along with additional detail. This COVID adjustment to the base period data impacts the Utilization section of the Trend Components to arrive at an appropriate Projected Allowed EHB Claims level in Table 5 but is removed from the Annual Trend used to develop the Small Group quarterly rates in Table 5A.

## **I. Historical Experience (Table 4)**

Table 4 presents the most recent 48 months (4 calendar years) of Company data with run-out through February 2021. Paid and allowed claims are sourced from detailed claim records. The data in table 4 excludes capitations, settlements, and other claims paid outside of the system since that data is not considered in developing trend assumptions. The claim add-ons excluded are projected independently. The Table 4 data matches the data in Table 2 if the claim add-ons are added in. This data, combined with the data from other companies within Highmark's corporate family, was used to develop the trend in Table 3. Please see Section 1.H above for further details.

## **2. Rate Development & Change**

### **A. Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims (Table 5)**

The development of the Projected Index Rate, Projected Market-Adjusted Index Rate, and Projected Total Allowed Claims, shown in Table 5, closely follows that utilized in the development presented in Worksheet

1 of the URRT, a discussion of which can be found in the Part III Actuarial Memorandum submitted in the Rate Filing Justification. Some of the items separately identified in Table 5 include:

- The Change in Morbidity represents an adjustment from the experience period claims to the projection period. The Company has included a morbidity adjustment factor due to the impact of COVID on projected 2022 claim costs (see commentary below).
- The Change in Demographics adjustment factor of 1.003 reflects the change in age and geography factors the Company expects from the experience period to the projection period.
- The Change in Network adjustment reflects the change in the allowed claims the Company anticipates due to changes in in-network discount levels between the experience period and the projection period. Increased levels of in-network discounts result in a change in network factor of 0.975.
- The Change in Benefits adjustment reflects the change in the EHB benefits from the experience period and the projection period: None.

Please see the worksheet named “Table 5 Support” in the “2022 Supplemental Exhibits - HMK\_051821.xlsx” file for the calculation of these factors from the Company’s experience period data and projected rate results.

The Company’s initial step in developing the index rates is to determine the expected covered membership for the rating period. The Company estimates the covered member base by adjusting for those groups known to have lapsed during the experience period, and those that are expected to lapse prior to the projection period. Then expected new business is added from groups with current transitional coverage moving to ACA plans, and groups currently with another carrier.

As the Company has seen through the transitional coverage availability period, many of the Small Group market customers have retained their pre-ACA coverage and have yet to join the ACA risk pool. With the transitional coverage provisions proposed extension through the end of 2022 for groups that renew on or prior to October 1, 2022, the Company continues to believe that many groups, especially lower-risk groups, will continue to retain their current transitional coverage until required to transfer coverage. The Company is expecting that enrollment increases slightly and has observed that some of the better risk groups have lapsed throughout the experience period.

The development of the Projected Paid to Allowed Ratio shown in Table 5 is presented in the “2022 Supplemental Exhibits - HMK\_051821 .xlsx” file in the “Table 5 Paid-to-Allowed” worksheet. This value is consistent with the paid-to-allowed ratio in the URRT Worksheet 2, line 4.15 Incurred Claims, divided by line 4.11 Allowed Claims.

Table 5 reflects that the Company is assuming a Projected Risk Adjustment receipt in the projection period of \$9.57 PMPM. To arrive at the anticipated risk transfer for 2022, the Company determines the risk adjustment calculation components for the projected 2022 Company portfolio and uses its current knowledge of the Pennsylvania Small Group market profile to estimate the risk adjustment components for the entire state Market. This Market-wide profile is developed from available Market data, including the Interim Summary Report on Risk Adjustment for the 2020 Benefit Year published by CMS, the PA

Insurance Department's calculation of 2020 risk adjustment transfer amounts using the final RATEE files, prior years' risk adjustment transfer results, publicly available data (such as MLR reports and rate filings), and outside expertise from actuarial consultants. For 2022, the Company is projecting a risk adjustment transfer amount of \$9.57, which is higher than the company's expected 2020 transfer.

The \$7.03 PMPM value in cell C31 of Table 5 equals the \$9.57 PMPM risk adjustment transfer value discussed above, along with a charge of \$2.54 PMPM for the projected net impact of the High Cost Risk Pool program. Please note that the risk adjustment user fee is captured in the taxes and fees portion of administrative costs.

The Projected Paid Exchange User Fees are developed from the Exchange user fees to be charged by CMS in 2022, multiplied by the percentage of business the Company expects to purchase Market coverage through the Exchange for this Company. For this Company, all business will be offered Off Exchange in 2022, so there are no Exchange User Fees charged in the rate development.

#### Impact of COVID

To account for the impact of COVID, the Company made the following adjustments to its base experience period claims and its projected costs:

- a. The claims in the base experience period were adjusted to a non-COVID baseline environment (discussed in the Trend Identification section above). This was done to provide a more stable base from which to project future claims. Claims in the base experience period were adjusted upward by 8.0%, representing the estimated degree of claims suppression in the experience period. This adjustment is applied to the underlying medical and drug claims incurred in the experience period, excluding prescription drug rebates and other claims paid outside of the system. This adjustment is reflected in the Utilization Trend of Table 3.

To determine the appropriate adjustment factor for the base experience period, the Company analyzed historical normalized allowed medical claim trends combined at the state and market level. Then the Company selected an appropriate medical trend amount for 2020 within the range of historical trend results. This trend was applied to the 2019 normalized allowed medical claims to project the non-COVID baseline medical claims for 2020, which were then compared to the actual 2020 experience normalized allowed medical claims to determine the adjustment factor indicated above. The overall impact of the pandemic on drug claims in 2020 is assumed to be negligible, and so were not adjusted. The adjustment factors for medical and drug were then weighted together to develop an overall BEP allowed claim adjustment factor. Please see the exhibit titled "PA BEP COVID Adj Support" in the supplemental exhibits file "2022 Supplemental Exhibits - HMK\_051821.xlsx" submitted with this filing for a demonstration of this adjustment factor development.

- b. The projection period claims were first established using trend projections under non-COVID baseline assumptions, effectively removing the noise introduced by COVID. Using a non-COVID

baseline experience environment, claims were projected into the rating period using traditional methods of claim trend projections, as discussed in the Trend Identification section above.

- c. The projected non-COVID baseline claims were then further adjusted by applying the anticipated impacts of COVID costs expected in the projection period. There are four components of this adjustment determined by the Company:

- 1) **COVID Treatment (\$0.07 PMPM)** – COVID treatment utilization in 2022 is expected to follow a similar utilization pattern as flu treatment from 2018 and 2019 (roughly 0.003 admits per 1000 members per month), with COVID-specific admission costs based on recent admission costs for COVID (roughly \$26,000 cost per admit).
- 2) **COVID Testing (\$1.01 PMPM)** – COVID testing utilization in 2022 is expected to follow a similar utilization pattern as flu testing from 2018 and 2019 (roughly 9 tests per 1000 members per month), with COVID specific testing costs based on recent testing costs for COVID (roughly \$112.87 cost per test).
- 3) **COVID Vaccine (\$2.05 PMPM)** – The Company is expecting that a total of 43% of members will receive a COVID vaccine. This assumes that 60% of members 18-64 utilize a vaccine and 40% of members under 18 utilize a vaccine. In addition to this, some vaccines are not reported in the billing system so expected utilization is further reduced by 25%.

The cost of the vaccine is assumed to be \$115 per dose. This is a combination of a \$40 cost for administering the vaccine and \$75 cost for the vaccine itself.

Finally, the average number of doses per member is assumed to be 0.5. This reflects the assumption that members will need a COVID vaccine every other year. This results in a cost of \$2.05 PMPM, which represents the expected cost that the Company will incur during the 2022-2023 coverage period stemming from 2022 policy year contracts.

- 4) **Additional morbidity (0.50% claims impact)** – Due to insureds missing preventative care (maintenance care and testing services) and quarantine rules leading to a more sedentary lifestyle, the Company expects a general trend towards worsening member morbidity. The following categories of care are expected to be impacted: Cardiology, Joint Degeneration, Diabetes, Mood Disorder & Depression, and Alcohol Treatment. The range of possible cost increases in these categories is assumed to be between 1% and 5%, which equates to 0.2% to 1.1% of total claims. Pricing assumes an overall claims impact of 0.5%, which is applied to the underlying medical and drug claims expected in the projection period.

The application of the above COVID claim adjustments to the rating period results in a COVID adjustment factor of 1.15%. Please see the exhibit titled “COVID Projection Support” in the supplemental exhibits file “2022 Supplemental Exhibits - HMK\_051821.xlsx ” submitted with this

filing for a demonstration of the development of the adjustment factors referenced above. The combined impact of these adjustment factors is a component of the Change in Morbidity Factor in Table 5. Please refer to the exhibit titled “Table 5 Support” in the supplemental exhibits file “2022 Supplemental Exhibits - HMK\_051821.xlsx” submitted with this filing for a demonstration of how these adjustment factors are combined and translated into the Change in Morbidity Factor.

#### Small Group Quarterly Rates

For this Small Group Market filing, Table 5A has been completed, showing the number of member months renewing by quarter, and the quarterly Single Risk Pool Projected Allowed Claims. For this filing, quarterly rates are proposed, with rates adjusted each quarter as shown in the quarterly Annual Trends presented in Table 5A. Note that several adjustments are made to the Total Annual Trend from Table 3 to arrive at the quarterly Annual Trends shown in Table 5A. These adjustments include:

- a. The COVID adjustment to the base experience data (discussed above) is removed, as that adjustment will not have an ongoing impact in the projection period;
- b. The Induced Utilization trend is excluded from the quarterly rate trends;
- c. The quarterly rate trends are further adjusted to remove the impact of the Company’s cost saving initiatives that produce one-time savings;
- d. The timing of the renewals within the quarter are more appropriately considered; and
- e. The quarterly rate trends more appropriately reflect that administrative costs do not increase at the same rate as claims.

#### **b. Retention Items (Table 6)**

Table 6 has been completed with the requested retention elements for the proposed rates for the rating period. The administrative expenses and taxes and fees presented in the rate development in Table 6 cell C53 equal the Taxes and Fees in Table 10.

Administrative costs reflect internal costs that the Company is projected to incur in the projected experience period and are developed from standard expense allocation methods. Agent/broker fees and commissions reflect the Company’s anticipated costs for these items in the experience period.

The development of internal administrative costs utilizes an allocation of Company costs back to lines of business. The allocation method uses measurable stats such as claims worked, inquiries worked, contracts, and members to allocate the majority of expenses. When possible, expenses are direct charged if they can be identified by product instead of going through an allocation method. For corporate allocations, a TCI (total costs incurred) methodology is generally used to allocate by product.

Administrative expense loads vary by plan to more appropriately capture the costs associated with plan administration. The total administrative costs anticipated by the Company have been split such that each plan receives a PMPM administrative load, along with a percent of premium administrative load. This methodology results in percent of premium expense loads that vary by plan.

The following Taxes and Fees were included in the rate development:

- \$0.24 PMPM for the PCORI Fee; and
- \$0.25 PMPM for the Risk Adjustment User Fee

Note the following regarding plan level retention items:

- The rate development reflects a 0% profit and risk load for all products and plans. The Company has voluntarily refrained from including a profit and risk load in this filing. By this voluntary action, the Company is not waiving any right to include a profit and risk load which the Company believes is consistent with historical and legal interpretations of the Company and the Department.
- Expenses for Quality Improvement Initiatives are estimated to be 7% of internal Company expenses, based upon historical analysis of these costs.

### **c. Normalized Market-Adjusted Projected Allowed Total Claims (Table 7)**

The normalization factors presented in Table 7 are each determined from the underlying membership demographics expected in the projected rating period. The 2021 values are pulled from the prior year's filing, while the 2022 values represent the Company's projection for 2022 assumed in the 2022 rate development.

The Age Factor is the weighted average of the Average Age Factors for the Current ACA Book of Business as of February 2021 and for the membership moving to the ACA Book (from transitional and new business).

The Geographic Calibration Factor is the weighted average of the Area Factors, weighted by the projected membership in each rating area.

The Tobacco Surcharge is not applicable since the Company does not use one.

### **d. Components of Rate Change (Tables 8 and 9)**

Table 8 presents the components of change in the proposed 2022 Calibrated Plan Adjusted Index Rate (PMPM). The 2021 base period allowed claims is carried over from the 2021 rate filing. Row H of Table 8 may differ from Row A due to the detailed breakdown of all the components of the increases in rows B through G not calculating exactly to the change in the calibrated plan adjusted index rate in Row A, which is the more accurate percentage change based on the rate development.

Table 9 presents the data elements supporting the calculations in Table 8. The amounts shown in the 2021 Column match those entered in the 2021 Column in the plan year 2021 rate filing.

## **3. Plan Rate Development (Table 10)**

Table 10 showing the plan rate development has been completed following the instructions in the 2022 ACA-Compliant Health Insurance Rate Filing Guidance. This table shows the plans that the Company intends to offer in 2022, as well as plans discontinued from the 2021 portfolio for 2022. Since many Small Group market enrollees as of 2/1/2021 are still in plan year 2020 plans, the enrollees in plan year 2020

plans were mapped to the plan year 2021 plan that the Company anticipates they will renew into in 2021.] The calibrated plan adjusted index rates for 2022 and 2021, and all the supporting factors, are calculated according to the instructions.

Each plan takes the Market Adjusted Index Rate and multiplies by the Pricing AV, Benefit Richness Factor, Benefits in Addition to EHB Factor, Provider Network Factor, Catastrophic Eligibility Factor, and Non-Funding of CSR Adjustment Factor (not applicable to Small Group) in order to calculate the Pure Premium. The Pure Premium is then grossed up to account for expenses (Admin Costs, Taxes & Fees, and Profit or Contingency) in order to calculate the Calibrated Plan Adjusted Index Rate.

Note that the HHS Actuarial Value Calculator was unable to accommodate all of the Company's benefit designs. Plans needing certification are marked in column I of Table 10. Screen shots of all of the AV calculations and the appropriate certifications are included as a separate attachment within the *Supporting Documentation* section in SERFF.

The requested Induced Utilization Exhibit was completed and is presented within the "2022 Supplemental Exhibits - HMK\_051821.xlsx" file submitted with this filing (worksheet named "Induced Utilization"). Note that the calculated Induced Utilization factor in Column (8) is a component of the Actuarial Value Allowable Modifier. As such, it is adjusted by the Average Benefit Richness normalization factor of 1.115. In multiplying the Induced Utilization column (8) result by the Average Benefit Richness normalization factor, the result is the Induced Utilization factor appropriate for the plan's metal level (before normalization). These induced demand factors are consistent with the methodology described in the Department's rate filing guidance, which utilizes each plan's actuarial value to establish the appropriate induced demand factor for the plan.

The member and network-weighted average of the pure plan-level Induced Utilization factors in the last column of the induced utilization exhibit against the projected membership does match the 1.000 expectation of the Department. This calculation can be seen at the bottom of the Induced Utilization Exhibit, where the formulas used in the calculation have been retained.

The Child Capping Adjustment is applied to the Age Calibration Factor in Table 10 to reflect the limitation on the number of children allowed in rating. This factor is determined by estimating the amount of lost revenue due to this restriction, and applying the resulting factor to the normalized age factor in the base rate development.

Support for the calibration factors is shown in the "2022 Supplemental Exhibits - HMK\_051821.xlsx" file on the worksheet named "Table 10 Calibration Factors".

#### **4. Plan Premium Development for 21-Year-Old Non-Tobacco User (Table 11)**

Table 11 presents the Company's 21-year-old non-tobacco premium in the Market for each rating quarter in 2022. As mentioned in Section 1.C above, the change in 21-year-old non-tobacco premium PMPM calculated in this table is a 0.81% increase, while the "percent rate change requested" from the SERFF

Rate Review Detail Screen (and Table 10) is 0.78%. The Company believes that the average rate change in Table 11 more appropriately reflects the average change in rates that the Company is requesting.

## **5. Plan Factors**

### **A. Age and Tobacco Factors (Table 12)**

Please see Table 12 for the Company's age and tobacco factors.

### **B. Geographic Factors (Table 13)**

Please see Table 13 for the Company's geographic factors. The Company's geographic factors for the rating period were updated as a component of this rate filing submission. The proposed geographic factors were developed based on a review of the average facility costs for PPO products by region, using a market basket approach to procedures by facility. Similar levels of professional and pharmaceutical costs were added to each region to get an appropriate allowed claim basis for the geographic factors. Note that since this analysis is based only upon PPO costs and based only upon facility schedules, these factors do not reflect morbidity differences among regions, nor do they reflect differences based upon network discount levels. Please see the exhibit "Area Factor Support" in the "2022 Supplemental Exhibits - HMK\_051821 .xlsx" file for the development of these factors.

As mentioned in the Cover Letter, the Company is not changing its product offerings by Rating Area.

### **C. Network Factors (Table 14)**

Please see Table 14 for the Company's network rating factors. The Company's network factors for the rating period were updated as a component of this rate filing submission. The proposed network factors were developed based on a review of the average facility costs by network, using a market basket approach to procedures by facility/network. Similar levels of professional and pharmaceutical costs were added to each network to get an appropriate allowed claim basis for the network factors. The network costs were combined across rating regions as appropriate to establish the average network cost for the Company. Using the PPO network as the benchmark, relativities for other networks were established. Note that since this analysis is based only upon network costs by facility, these factors do not reflect morbidity differences among networks, and these factors are independent of the geographic factors discussed above. Since there is no experience for any of the products currently offered by the Company, network factors are solely developed from confidential and proprietary contracting data for the facilities that the members choosing these networks are expected to use.

### **D. Service Area Composition**

The Company follows the Rating Area designations created by the state. All counties within a Rating Area are serviced by the Company, according to the Rating Areas specified in Table 14. The Company has submitted its current 2021 service area and its proposed 2022 service area in the file "Pennsylvania Counties Map - 2022 Filings – HMK.pdf" submitted with this filing. The company is not changing the area that it services.

## E. Composite Rating

The Company is currently not planning to use CMS's composite rating method for any of its off-SHOP plans offered during the rating period.

## 6. MLR Exhibit

The table below summarizes the requested three year MLR information:

Calendar Year	MLR		Member Months	
	Actual	Pricing	Actual	Pricing
2017	96.9%	87.8%	139,726	166,968
2018	92.4%	86.0%	137,111	153,516
2019	82.1%	89.5%	113,775	116,712

Please note that the values in the Pricing columns above come from the Pennsylvania Actuarial Memorandum exhibits for the referenced pricing year (Tables 5, 6, and 10). The Actual results shown are from the URRT Worksheet 1 values from the pricing year in which the referenced calendar year is the base experience period. Since the URRT Worksheet 1 Actual values represent calendar year results, while the Pricing values represents policy year estimates, variations between these two amounts are expected.

## 7. Actuarial Certifications

I am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of the Company to accompany its rate filing (for calendar year 2022) for the Small Group Market off the Pennsylvania Exchange.

I hereby certify that the projected Index Rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102)
- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

I certify that the Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.

I certify that all factor, benefit and other changes from the prior approved filing have been disclosed in the actuarial memorandum.

I certify that any new plan is not a modification of an existing plan (per the uniform modification standards in 45 CFR 147.106).

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

I certify that the AV Calculator was used to determine the AV Metal Values shown in Part I of Worksheet 2 in the URRT for all plans.

The Unified Rate Review Template does not demonstrate the process used by the Company to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of Qualified Health Plans for Federally-facilitated Exchanges, and for certification that the Index Rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

I certify that the information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2022 Rate Filing Justification.

[Signed: [Redacted]]

Date: 05/18/2021

# Rate Change Summary

## Highmark, Inc. – Small Group Plans

Rate request filing ID # HGHM-132831048 - This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at

<http://www.insurance.pa.gov/Consumers/ACARelatedFilings/>

### Overview

Initial requested average rate change:	0.78% <sup>1</sup>
Revised requested average rate change:	N/A <sup>1</sup>
Range of requested rate change:	-5.36% to 15.70%
Effective date:	January 1, 2022
Mapped Members:	6,641
Available in:	Rating Areas 1, 2, 4, 5, 6, 7, 9

### Key information

#### Jan. 2020-Dec. 2020 financial experience

Premiums	\$46,563,273
Claims	\$36,514,408
Administrative expenses	\$6,088,512
Taxes & fees	\$37,307
Company made (after taxes)	<b>\$3,923,046</b>

#### How it plans to spend your premium

This is how the insurance company plans to spend the premium it collects in 2022:

Claims:	89.8%
Administrative:	10.1%
Taxes & fees:	0.1%
Profit:	0.0%

The company expects its annual medical costs to increase **5.3%**.

### Explanation of requested rate change

The proposed increases are being driven by rising medical care costs, which are expected to continue through the remainder of 2021 and throughout 2022 because of both higher utilization and the increasing cost of healthcare services.

---

<sup>1</sup> Note that insurers will have the opportunity to revise their rate change request in July, after they are scheduled to receive updated information about the impact of a federal program called risk adjustment. This document will be updated accordingly at that time.

Rating Area Data Collection

Specify the total number of Rating Areas in your State by selecting the Create Rating Areas button or Ctrl + Shift + R.  
Select only the Rating Areas you are offering plans within and add a factor for each area.  
To validate, select the Validate button or Ctrl + Shift + I.  
To finalize, select the Finalize button or Ctrl + Shift + F.

Rating Area	Rating Factor
Rating Area 1	0.9263
Rating Area 2	0.9761
Rating Area 4	0.9761
Rating Area 5	0.9898
Rating Area 6	1.0117
Rating Area 7	1.0461
Rating Area 9	1.0229

## **Part II of the Preliminary Justification**

### **Highmark, Inc. – Small Group Market**

#### **Scope and Range:**

Highmark, Inc. is requesting a weighted average rate change of -1.08% weighted on the current premium for renewing plans shown in the Unified Rate Review Template for its 2022 ACA qualifying small group products with effective dates from January 1, 2022 to December 31, 2022. This rate increase represents the average rate change that the 62 members in renewing plans will experience. In total, this rate filing will impact 6,641 individuals.

Due to changes in benefits and plan design pricing relativities, average rate changes at the plan level differ and range from -1.74% to -0.01% as shown in the Unified Rate Review Template.

The proposed rate changes are being driven by medical care costs and the underlying morbidity of the Highmark, Inc.'s covered population in its ACA products.

Lower cost small groups are expected to remain outside the ACA single-risk pool for most of 2022 due to more favorable premium rates afforded to them in the pre-ACA rating formula. The remaining population expected to enroll in the ACA qualifying products represents a small portion of the pool, and those groups generally have unfavorable demographics and higher than average claim costs.

#### **Historical Financial Experience:**

Highmark, Inc. reported a financial gain in 2020.

#### **Change in Medical Service Costs:**

The projected average cost of medical care for the projected population is expected to increase. The increase will emerge in utilization and average cost per service and is spread across all types of services.

#### **Change in Benefits:**

73 plan designs have been terminated, 95 plan designs are new, and 11 plan designs had benefit changes, all due to a re-evaluation of benefit designs and marketing considerations.

#### **Administrative Costs, Anticipated Operating Results, and Medical Loss Ratio:**

Relative to the 2021 rate filing, administrative expenses have increased 0.1% for the 2022 rate filing. The anticipated operating results are not excessive or unreasonable. In accordance with regulations, the projected medical loss ratio is over 80%.

**Part III Actuarial Memorandum**

**Redacted Version**

**Highmark, Inc. (HMK)**

**Small Group Rate Filing**

**Effective January 1, 2022**

## **I. General Information**

### **Document Overview**

This document contains the Part III Actuarial Memorandum for Highmark, Inc's Small Group ("HMK", "Company") block of business rate filing ("Filing"), for products with effective dates in calendar year 2022. This actuarial memorandum is submitted in conjunction with the Part I Unified Rate Review Template.

The purpose of the actuarial memorandum is to provide certain information related to the submission, including support for the values entered into the Part I Unified Rate Review Template, which supports compliance with the market rating rules and reasonableness of applicable rate increases. This information may not be appropriate for other purposes.

This information is intended for use by the Pennsylvania Insurance Department, the Center for Consumer Information and Insurance Oversight (CCIIO), and their subcontractors to assist in the review of HMK's Filing. However, we recognize that this certification may become a public document. HMK makes no representations or warranties regarding the contents of this letter to third parties. Likewise, third parties are instructed that they are to place no reliance upon this actuarial memorandum prepared by HMK that would result in the creation of any duty or liability under any theory of law by HMK or its employees to third parties.

The results are actuarial projections. Actual experience is likely to differ for a number of reasons, including population changes, claims experience, and random deviations from assumptions.

### **I.1 Company Identifying Information:**

- Company Legal Name: Highmark, Inc.
- State: The Commonwealth of Pennsylvania has regulatory authority over these policies
- HIOS Issuer ID: 33709
- Market: Small Group
- Effective Date: January 1, 2022

## **II. Proposed Rate Changes**

Please refer to the Pennsylvania Actuarial Memorandum and Exhibits submitted with this filing for a breakdown of the component items driving this rate change for first quarter renewals.

For all rate increases by plan, see the 'Cumulative Rate Change % (over 12 mos prior)' found in line Worksheet 2, 1.11 of the URRT. The rate changes vary by plan due to changes in the allowable plan level base rate components (pricing actuarial factors, geographic rating factors, network discounts, and administrative charges). These components are re-evaluated each year

to keep pace with market changes and changes in health care costs. For 2022, the Company's proposed rate revisions vary by plan according to the detail presented in the URRT, Worksheet 2.

This filing assumes that there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market subsequent to the filing date, and that there are no significant changes in the participation of QHP issuers that would materially change the company's expected liabilities. This filing also assumes that transitional plan coverage will be available in the Pennsylvania Small Group market through 2022. Modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, repeal or invalidation of the ACA or material developments in the course of the COVID pandemic. As a result, HMK reserves the right to submit a revised filing.

### **III. Experience and Current Period Premium, Claims, and Enrollment**

#### **III.1 Paid through Date:**

Experience period claims were based on incurred calendar year 2020, paid through February 2021. This experience includes 2020 experience in Affordable Care Act compliant plans. HMK did not offer any transitional plans in 2020.

#### **III.2 Current Date:**

The current date used for enrollment and premium is February 2021.

#### **III.3 Allowed and Incurred Claims Incurred During the Experience Period:**

- Historical Experience: The URRT historical experience section was completed with HMK's current experience for the small group block of business for the period January 1, 2020 through December 31, 2020, with claims paid through February 2021.
- Claims Incurred During the 12-month experience period: Worksheet 1, Section I shows our best estimate of the amount of claims that were incurred during the 12-month experience period for HMK's small group book-of-business. This section includes:
  - The amount of claims which were processed through the Company's claims system,
  - Claims processed outside of the Company's claims system (Rx rebates, settlements, capitated benefits), and
  - The Company's best estimate of claims incurred but not paid as of the Paid through Date stated above.

- **Method for Determining Allowed Claims:** For non-capitated claims, the allowed charges are summarized from HMK's detailed claim-level historical data. This experience includes 2020 claims in Affordable Care Act compliant plans. HMK did not offer any transitional plans in 2020. For capitated and other off-system claims, historical capitations and experience were tabulated and added to the claims.
- **Paid Claims:** We also summarized the paid claims from detailed member records. The paid-to-allowed ratio for the experience period reflects the underlying benefit plan designs chosen by each member.
- **Incurred but Not Paid (IBNR) Claims Estimate:** HMK's estimate of the remaining incurred but not recorded (IBNR) claims reflects the anticipated IBNR as of the end of the paid claim run out period. The IBNR completion factor of 0.983 was developed for HMK's total small group business through analysis of historical claim completion factors. The completion factor was applied equally to both paid and allowed total claims (as a change in utilization) to complete the experience.

#### **IV. Benefit Categories**

Experience period claims data were pulled from the Company's claims systems and categorized into benefit category components according to types of services associated with each claim. The resulting categories closely adhere to the preferred definitions of the Benefit Categories included in the URRT instructions, including the "Other Medical" category. The "Other Medical" category units reflect visits for PDN/home health, trips for ambulance and procedures for DME/prosthetics. The "Capitation" category represents the monthly charge paid to our Vision benefit provider for covering pediatric vision benefits.

#### **V. Projection Factors**

##### **V.1 Trend Factors (cost/utilization)**

This development of the CY 2022 rates reflects an annual trend rate of 5.33% (2.47% cost, 2.79% utilization). To arrive at our trend assumption, the experience period cost and utilization data were pulled from the Company's claims systems by the defined benefit categories. For the trend component development, the Company uses results from the combined experience of the following companies within the Highmark corporate family: Highmark Inc., Highmark Choice Company, Highmark Health Insurance Company, and Highmark Coverage Advantage. The combined experience used is limited to the Company's Rating Area and Market and provides a more material base to analyze the trend components impacting the business in the Company's Market. The trend development uses a projection of allowed claim PMPMs by service category that takes into account many factors, including the Company's expectations of changes in in-network provider contracting levels, changes in out-of-network costs, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. To reflect the impact of provider contracting on trend, changes in in-network provider contracting levels, either known or

anticipated, are factored into the cost component of trend using detailed analysis of the impact on claim levels from each material provider arrangement.

The allowed claims used for the development of the trend are adjusted and normalized to obtain a claim basis appropriate for trend development. These adjustments include changes for in-network provider contracting levels, changes for out-of-network costs, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. In addition, the trend estimates normalize for benefit leveraging, population aging, changes in fee schedules, and external trend drivers. The projection of claim costs into the rating period utilizes the same categories of adjustment factors, adjusts for seasonality, and uses a statistical regression of historical trend levels to project monthly claim levels. This normalized and adjusted claim progression is then used to provide the basis for our trend regression model, which will be used to establish the Company's rating trend.

The regression trend model is used to smooth out noise in the historical claim levels and to provide an appropriate jumping off point for our projected claim levels. Using the factors discussed above to adjust our projected claim levels, we can establish an appropriate assumption for trend using our experience period claim levels as the starting point. Since our historical experience would encompass the expected coverage and demographic makeup of our membership, our historical claim levels, adjusted for these factors and projected forward, would represent the best estimates of trend for this block of business.

For the rate development, the Company uses the aggregate claim trend for all types of service, applied to the experience period. This is done so that the combined trend is reasonable in consideration of the various pricing trend components and the overall anticipated trend level. Claim variations due to the specific projected enrolled population in this single risk pool are reflected in the morbidity adjustment.

In addition to the trend in medical and drug claims discussed above, the trend reflects changes in anticipated costs for claims processed outside of the Company's claims system, including Rx rebates and settlements. The trend for capitated benefits is determined from the anticipated change in the per member costs from the experience period to the projection period. Projected capitation rates are provided by our vision provider.

The Company performed a separate analysis to identify the impact of COVID on the base experience trend data and adjusted the historical claims data accordingly. See the Impact of COVID section below for the magnitude of this adjustment, along with additional detail. This COVID adjustment to the base period data impacts the Year 1 Utilization Trend in the URRT, Worksheet 1.

## **V.2 Morbidity Adjustment**

The morbidity adjustment reflects the anticipated changes in the average morbidity of the covered population (beyond allowable rating factors) from the experience period to the rating period. As we have seen through the transitional coverage availability period, many of the Small Group market customers have retained their pre-ACA coverage and have yet to join the

ACA risk pool. With the transitional coverage provisions proposed extension through the end of 2022 for groups that renew on or prior to October 1, 2022, we continue to believe that many groups, especially lower-risk groups, will continue to retain their current transitional coverage until required to transfer coverage. We have observed that the groups currently enrolled are of higher morbidity than the groups that have lapsed. We reflected that difference in the morbidity adjustment.

### Impact of COVID

To account for the impact of COVID, the Company made the following adjustments to its base experience period claims and its projected costs:

- a. The claims in the base experience period were adjusted to a non-COVID baseline environment (discussed in the Trend Factors section above). This was done to provide a more stable base from which to project future claims. Claims in the base experience period were adjusted upward by 7.98%, representing the estimated degree of claims suppression in the experience period. This adjustment is reflected in the Year 1 Utilization Trend in the URRT, Worksheet 1, where it is applied to claims net of Prescription Drug Rebates and other claims paid outside of the system, which results in an additional load to the Year 1 Utilization Trend in the URRT of 8.56%.

To determine the appropriate adjustment factor for the base experience period, the Company analyzed historical normalized allowed medical claim trends combined at the state and market level. Then the Company selected an appropriate medical trend amount for 2020 within the range of historical trend results. This trend was applied to the 2019 normalized allowed medical claims to project the non-COVID baseline medical claims for 2020, which were then compared to the actual 2020 experience normalized allowed medical claims to determine the adjustment factor indicated above. The overall impact of the pandemic on drug claims in 2020 is assumed to be negligible, and so were not adjusted. The adjustment factors for medical and drug were then weighted together to develop an overall BEP allowed claim adjustment factor.

- b. The projection period claims were first established using trend projections under non-COVID baseline assumptions, effectively removing the noise introduced by COVID. Using a non-COVID baseline experience environment, claims were projected into the rating period using traditional methods of claim trend projections, as discussed in the Trend Identification section above.
- c. The projected non-COVID baseline claims were then further adjusted by applying the anticipated impacts of COVID costs expected in the projection period. There are four components of this adjustment determined by the Company:

- 1) **COVID Treatment (\$0.07 PMPM)** – COVID treatment utilization in 2022 is expected to follow a similar utilization pattern as flu treatment from 2018 and

2019 (roughly 0.003 admits per 1000 members per month), with COVID-specific admission costs based on recent admission costs for COVID (roughly \$26,000 cost per admit).

- 2) ***COVID Testing (\$1.01 PMPM)*** – COVID testing utilization in 2022 is expected to follow a similar utilization pattern as flu testing from 2018 and 2019 (roughly 9 tests per 1000 members per month), with COVID specific testing costs based on recent testing costs for COVID (roughly \$112.87 cost per test).
- 3) ***COVID Vaccine (\$2.05 PMPM)*** – The Company is expecting that a total of 43% of members will receive a COVID vaccine. This assumes that 60% of members 18-64 utilize a vaccine and 40% of members under 18 utilize a vaccine. In addition to this, some vaccines are not reported in the billing system so expected utilization is further reduced by 25%.

The cost of the vaccine is assumed to be \$115 per dose. This is a combination of a \$40 cost for administering the vaccine and \$75 cost for the vaccine itself.

Finally, the average number of doses per member is assumed to be 0.5. This reflects the assumption that members will need a COVID vaccine every other year. This results in a cost of \$2.05 PMPM, which represents the expected cost that the Company will incur during the 2022-2023 coverage period stemming from 2022 policy year contracts.

- 4) ***Additional morbidity (0.50% claims impact)*** – Due to insureds missing preventative care (maintenance care and testing services) and quarantine rules leading to a more sedentary lifestyle, the Company expects a general trend towards worsening member morbidity. The following categories of care are expected to be impacted: Cardiology, Joint Degeneration, Diabetes, Mood Disorder & Depression, and Alcohol Treatment. The range of possible cost increases in these categories is assumed to be between 1% and 5%, which equates to 0.2% to 1.1% of total claims. Pricing assumes an overall claims impact of 0.5%, which is applied to the underlying medical and drug claims expected in the projection period.

The application of the above COVID claim adjustments to the rating period results in a COVID adjustment factor of 1.15%. The combined impact of these adjustment factors is a component of the Morbidity Adjustment factor in the URRT Worksheet 1.

### Total Morbidity Adjustment

In total, the Company expects that morbidity will worsen from the experience period. For the development of the CY 2022 rates, this is reflected with a 1.038 Morbidity Adjustment factor in the URRT Worksheet 1.

### **V.3 Demographic Shifts**

The Company is expecting a slight increase in the average age from the experience period to the projection period as the average age factor of our current business is higher than that in the experience period. For the development of the CY 2022 rates, this is reflected with a 1.003 Demographic Shift factor in the URRT Worksheet 1.

The average area factor is expected to stay stable, so changes in average area factors are not impacting the demographic shift factor significantly.

### **V.4 Plan Design Changes**

The following adjustments were made to reflect the expected differences in benefits between the experience period and projection period:

- Anticipated changes in the average utilization of services due to differences in average cost sharing requirements during the experience period and average cost sharing requirements in the projection period: -0.17%
- Change in network benefits: -2.52%
- Newly mandated benefits required under state law, which are not reflected in the experience period claims: None.
- New benefits that are not part of the essential health benefit package or required under state law that did not exist in the experience period claims: None.
- The removal of benefits covered in the experience period claims that will not be covered in the projection period: None.

For the development of the CY 2022 rates, the combination of the above factors produces a 0.973 Plan Design Changes factor in the URRT Worksheet 1.

### **V.5 Other Adjustments**

The Company's rate development for 2022 does not utilize any additional adjustment factors other than those discussed above. For the development of the CY 2022 rates, a 1.000 factor is shown for the Other adjustment factor in the URRT Worksheet 1.

## **VI. Manual Rate Adjustments**

HMK's small group experience is fully credible (see Credibility of Experience section below); no manual rate is developed or used in this projection.

## **VII. Credibility of Experience**

The Company has employed a credibility methodology consistent with ASOP #25 to determine the appropriate level of credibility to be assigned to the base experience period data. The assigned credibility level has been determined by referencing published studies from the Society of Actuaries (SOA), most notably "A Practical Approach to Assigning Credibility for Group Medical Insurance Pricing," as well as utilizing actuarial judgment in consideration of the Company's base experience period and projection period computations. Employing the conclusions confirmed in the referenced SOA study, the Company has established a full credibility threshold of 2,000 average members for the experience period. As the average members from the experience period membership for currently active members for this Company is 6,327, full credibility has been assigned to the base experience period.

## **VIII. Establishing the Index Rate**

The index rates as shown on Worksheet 1 of the URRT are simply the average allowed claims for the Essential Health benefits for the experience and projected populations, respectively, for HMK. It is not adjusted for the risk adjustment program or any other fee. For the projection period, it is the member-weighted average of the quarterly rate indices (Jan 1, Apr 1, Jul 1, and Oct 1) based on the assumed membership distribution effective in each quarter, as shown in the table below.

<b>2022</b>	<b>% of Members</b>	<b>Projected Quarterly Index Rate PMPM</b>
1Q	32.4%	\$601.47
2Q	14.0%	\$614.61
3Q	23.3%	\$625.12
4Q	30.3%	\$641.54
Composite	100.0%	\$620.98

See the sections below for a description of how the projected index rate is adjusted to arrive at each plan adjusted index rate.

## **IX. Development of the Market-wide Adjusted Index Rate**

The limitations imposed by verifications and rounding in the URRT v5.3 workbook produce a Market-wide Adjusted Index Rate that is slightly different from the one ultimately used in the

rate development. Please see Exhibit I for a numerical demonstration of the Market-wide Adjusted Index Rate development that removes these limitations, including the Reinsurance, Risk Adjustment Payment/Charge, and Exchange User Fees discussed below.

### **IX.1 Reinsurance**

HMK does not have any reinsurance contracts in effect that would impact this rate development. The consideration for the federal high-cost risk pooling program is discussed in the following Risk Adjustment Payment/Charge section.

### **IX.2 Risk Adjustment Payment/Charge**

To arrive at the anticipated risk transfer for 2022, the Company determines the risk adjustment calculation components for the projected 2022 Company portfolio and uses its current knowledge of the Pennsylvania Small Group market profile to estimate the risk adjustment components for the entire state Market. This Market-wide profile is developed from available Market data, including the Interim Summary Report on Risk Adjustment for the 2020 Benefit Year published by CMS, the PA Insurance Department's calculation of 2020 risk adjustment transfer amounts using the final RATEE files, prior years' risk adjustment transfer results, publicly available data (such as MLR reports and rate filings), and outside expertise from actuarial consultants. For 2022, the Company is projecting a risk adjustment transfer amount of \$9.57.

The \$8.27 PMPM value in Worksheet 1 of the URRT equals the \$9.57 PMPM risk adjustment transfer value discussed above, along with a charge of \$2.54 PMPM for the projected net impact of the High-Cost Risk Pool program. This total risk adjustment transfer amount of \$7.03 is then grossed up by the average paid to allowed ratio of 0.850 to arrive at the appropriate value for the URRT.

### **IX.3 Exchange User Fees**

The projected Exchange User Fees are developed from the Exchange user fees to be charged by CMS in 2022, multiplied by the percentage of business we expect to purchase Market coverage through the Exchange for the Company. For the Company, all business will be offered Off Exchange in 2022, so there are no Exchange User Fees charged in the rate development.

## **X. Plan Adjusted Index Rates**

The Plan Adjusted Index Rates can be found on line 3.10, Worksheet 2 of the URRT. The Plan Adjusted Index Rates are calculated by applying the allowable rating factors as described below to the Market-wide Adjusted Index Rate. Please see Exhibit II for the development of the Plan Adjusted Index Rate for each plan.

### **X.1 AV and Cost Sharing Design of Plan**

The AV and Cost Sharing allowable rating factor is comprised of the following components:

- The utilization due to differences in cost sharing is based on the factors calculated using a methodology prescribed in the Department's guidance relative to the weighted average. No differences due to health status are in these adjustments.
- The pricing AV for the benefits and cost sharing of the plan.

## **X.2 Provider Network Adjustment**

The provider network adjustments are developed by dividing the plan level network factors by the overall weighted average from all plans.

## **X.3 Benefits in Addition to EHB**

Only the expected costs of essential health benefits (EHB) are included in each of the Company's plans.

## **X.4 Administrative Expense**

The proposed rates reflect internal administrative costs, including commissions and quality improvement admin. This cost was developed based on standard expense allocation methods, as follows:

- Administrative expenses are recorded in our general ledger. Indirect operating expenses are then grouped based upon like functions, responsibilities or cost drivers and allocated to final cost objects via an appropriate cost driver.

Administrative expense loads vary by plan to more appropriately capture the costs associated with plan administration. The total administrative costs anticipated by the Company have been split such that each plan receives a PMPM administrative load, along with a percent of premium administrative load. This methodology results in percent of premium expense loads that vary by plan.

## **X.5 Taxes and Fees**

The following taxes and fees were included in the 2022 rate development:

- \$0.24 PMPM for the PCORI Fee; and
- \$0.25 PMPM for the Risk Adjustment User Fee

In total, these taxes and fees amount to 0.09% of the anticipated premium collected in 2022.

## **X.6 Profit & Risk Load**

The proposed rates reflect 0% of premium as a profit and risk load. The Company has voluntarily refrained from including a profit and risk load in this filing. By this voluntary action, the Company is not waiving any right to include a profit and risk load which the

Company believes is consistent with historical and legal interpretations of the Company and the Department.

## **XI. Calibration**

### **XI.1 Age Curve Calibration (to age 21, non-smoker, area with 1.0 geographic factor, January 1 effective date)**

The projected weighted average age factor is 1.495. Each Plan Adjusted Index Rate represents the rate for an average member (i.e., a member with an age factor is 1.495). Please note that no member will pay these rates because the age factor of 1.495 is not found on the HHS Age Curve. It only represents the average age factor of the projected population. Please see Exhibit I for the development of the calibration factor, which calibrates the index rate to an Age 21 age factor. The Age Calibration Factor shown in URRT Worksheet 2 is the inverse of weighted average age factor, which for HMK is 0.6689.

### **XI.2 Geographic Factor Calibration**

The projected weighted average geographic factor is 0.970. Each Plan Adjusted Index Rate represents the rate for an average member with a geographic factor of 0.970. Please note that no member will pay these rates because HMK is not using a geographic factor of 0.970 for any of the Pennsylvania rating areas. It only represents the average geographic factor of the projected population. Please see Exhibit I for the development of the calibration factor. The Geographic Calibration Factor shown in URRT Worksheet 2 is the inverse of weighted average geographic factor, which for HMK is 1.0307.

### **XI.3 Tobacco Use Rating Factor Calibration**

The Company does not currently utilize tobacco rating factors.

## **XII. Consumer Adjusted Premium Rate Development**

The Calibrated Plan Adjusted Index Rate shown in URRT Worksheet 2 represents the rate for a non-smoker member with a 1.0 age factor and 1.0 geographic factor for a 1/1/2021 renewal. The appropriate value to calibrate the Plan Adjusted Index Rate by is located at the bottom of Exhibit I. By applying the 'Combined Calibration Factor' found in Exhibit I or the calibration factors in 3.11, 3.12 and 3.13 of URRT Worksheet II Section III to the Plan Adjusted Index Rates, the resulting value will represent the plan premium for a 21-year-old in a 1.0 area on 1/1/2021. The standard HHS Age Curve and area factors of 0.9263 for Area 1, 0.9761 for Areas 2 and 4, 0.9898 for Area 5, 1.0117 for Area 6, 1.0461 for Area 7, and 1.0229 for Area 9 can be used to calculate any rate found in the QHP rate template.

The Company is filing quarterly Index Rate trends that vary by quarter. Subsequent quarterly rates can be developed by multiplying the first quarter rates by 1.022 for second quarter rates; 1.039 for third quarter rates; and 1.067 for fourth quarter rates. Please refer to the Pennsylvania Actuarial Memorandum submitted with this filing for additional commentary related to the development of these quarterly Index Rate trends.

### **XIII. Projected Loss Ratio**

The anticipated medical loss ratio reflected in this annual rate change filing is 89.4% relative to total premium less taxes and fees. This loss ratio is calculated consistent with the federally prescribed MLR methodology.

### **XIV. AV Metal Values**

The AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based the Federal AV Calculator. Some plans did require an adjustment to the inputs entered into the AV calculator. Screen shots and certifications for these plans were submitted as part of the Company's QHP application.

### **XV. Membership Projections**

Since transitional policy relief has been proposed to extend through 2022 for groups that renew on or prior to October 1, 2022, the Company projects that the bulk of the members in the small group market will remain outside of the ACA-compliant products, and remain outside the ACA single-risk pool. Any new business anticipated in HMK will come primarily from current ACA customers. HMK is expecting a slight growth in its ACA membership from the experience to the projection period. See line 4.9 of the URRT Worksheet 2 to see projected membership by plan.

### **XVI. Terminated Plans and Products**

HMK is terminating 73 plans that were active in the 2020 experience period. These plans are being terminated due to a re-evaluation of benefit design options and marketing considerations. These plans will be mapped to a corresponding plan of similar metal level and plan design, and the experience period members and allowed charges will be moved to the mapped plans in the URRT.

Exhibit III lists all terminating QHP plans, as well as their URRT plan mappings. Many terminated plans are listed multiple times because changes in service areas require us to map members from one terminated plan with a larger service area into multiple different smaller service areas.

### **XVII. Plan Type**

The Plan types listed in Worksheet 2, Section I of the Part I Unified Rate Review Template describe the Company's plans adequately.

### **XVIII. Actuarial Certification**

I, am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of HMK to accompany its rate filing (for calendar year 2022) for the Small Group Market off the Pennsylvania Exchange.

I hereby certify that the projected Index Rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102);
- Developed in compliance with the applicable Actuarial Standards of Practice;
- Reasonable in relation to the benefits provided and the population anticipated to be covered;
- Neither excessive nor deficient.

I certify that the Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.

I certify that the AV Calculator was used to determine the AV Metal Values shown in Part I of Worksheet 2 in the Unified Rate Review Template for all plans. If any adjustments were required outside of the AV Calculator, appropriate certification has been provided to CMS through the QHP application process.

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The Part I Unified Rate Review Template does not demonstrate the process used by HMK to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of Qualified Health Plans for Federally-facilitated Exchanges and for certification that the Index Rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

2022 Rates Table Template v11.0	All fields with an asterisk ( *) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.			
	If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.			
	If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.			
	If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.			
	To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

		All fields with an asterisk ( *) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.		
		If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.		
		If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.		
		If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.		
		To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

		All fields with an asterisk ( *) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.		
		If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.		
		If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.		
		If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.		
		To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

2022 Rates Table Template v11.0	All fields with an asterisk ( *) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.			
	If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.			
	If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.			
	If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.			
	To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.			
HIOS Issuer ID*	33709			
Rate Effective Date*	10/01/2022			
Rate Expiration Date*	12/31/2022			
Rating Method*	Age-Based Rates			
Plan ID*	Rating Area ID*	Tobacco*	Age*	Individual Rate*
Required: Enter the 14-character Plan ID	Required: Select the Rating Area ID	Required: Select if Tobacco use of subscriber is used to determine if a person is eligible for a rate from a plan	Required: Select the age of a subscriber eligible for the rate	Required: Enter the rate of an Individual Non-Tobacco or No Preference enrollee on a plan

CONFIDENTIAL

**Highmark**  
**Small Group ACA**  
**BEP COVID-19 Adjustment Factor Development**

Please note:

- The BEP COVID-19 Adjustment is calculated using experience for the entire PA Small Group Market
- The BEP COVID-19 Adjustment is on an allowed basis
- The BEP COVID-19 Adjustment is for medical claims only; COVID-19 impact to drug claims is negligible
- Total BEP COVID-19 Adjustment uses CY 2019 medical/drug distribution to blend adjustment factors

Normalized Allowed Medical Claims PMPM - (CY 2019)	\$ 347.33
Range of Historical Medical Trends - (2017 - 2019)	5.2% - 14.5%
Anticipated Medical Trend - Entire PA Small Group Market	7.2%
Anticipated Normalized Allowed Medical Claims PMPM - (CY 2020)	\$ 372.21
Actual Normalized Allowed Medical Claims PMPM - (CY 2020)	\$ 335.98
Medical BEP Adjustment Factor - (CY 2020)	0.9027
Drug BEP Adjustment Factor - (CY 2020)	1.0000
Total BEP Adjustment Factor - (CY 2020)	0.9261
Total BEP Adjustment Factor Reciprocal - (CY 2020)	1.0798

In this exhibit, Allowed Medical Claims PMPMs exclude high dollar claims and are normalized only for work days and demographics.

**COVID Projection Support**

**1. Covid Treatment:**

Admits per 1000 per Month	0.003
Cost per Admit	\$ 26,014.13
<b>PMPM Cost</b>	<b>\$ 0.07</b>

**2. Covid Testing:**

Tests per 1000 per Month	8.935
Cost per Test	\$ 112.87
<b>PMPM Cost</b>	<b>\$ 1.01</b>

**3. Covid Vaccine:**

Percent of Population Receiving Vaccine per Year	42.8%
Vaccine Cost	\$ 75.00
Administrative Cost	\$ 40.00
Expected Annual Dose	0.5
Cost per Vaccine	\$ 57.50
<b>PMPM Cost</b>	<b>\$ 2.05</b>

**4. Covid Induced Morbidity Change:**

ETG Category	Sub-Category	% of Claims Small Group
Cardiology	Total	9.3%
Orthopedics & Rheumatology	Joint Degeneration	6.1%
Endocrinology	Diabetes	4.5%
Psychiatry	Mood disorder, depressed	1.6%
Chemical Dependency	Alcohol Treatment	0.5%
Total Impacted Claims		22.0%

Minimum expected % claims increase in these categories	1%
Minimum % Impact to Claims	0.2%

Maximum expected % claims increase in these categories	5%
Maximum % Impact to Claims	1.1%

<b>COVID Induced Morbidity Change:</b>	<b>0.5%</b>

Re: Highmark Inc. 2022 ACA Rate Filing (Small Group Market)  
Highmark Filing #1A-SG-HIGHMARK-2021 (SERFF Filing # HGHM-132831048)

Dear Ms. Gray:

This letter accompanies the Company's response to the Department's data call request from June 10, 2021 to identify the changes made to the original Highmark Inc. (NAIC # 54771; HIOS Issuer ID # 33709) Small Group Market Off Exchange ACA rate filing and the supporting rate development for policies with effective dates on or after **January 1, 2022**. In response to the Department's data call, the Company proposes no revisions to its original 2022 Small Group ACA Filing.

Should you have any questions regarding this Filing or these revisions, please feel free to contact me at (412) 544-3845 or via e-mail at: [Cory.Orzak@highmark.com](mailto:Cory.Orzak@highmark.com).

Sincerely,

A handwritten signature in black ink, appearing to read "Cory Orzak", with a stylized flourish extending to the right.

Cory Orzak, FSA, MAAA  
Vice President, Actuarial Services  
Highmark Inc.

## Highmark's Response to Objection Letter Dated 06/10/2021

**Product Name:** HIGHMARK Small Group 2022 ACA Rate Filing

---

**RE: Highmark Inc., Small Group PPO & EPO, ACA Filing for PY2022**

**Pennsylvania Insurance Department ID #: HGHM-132831048**

**Objection Letter Status: Data Request Sent**

**Objection Letter Date: 06/10/2021**

**Respond By Date: 06/22/2021**

**Response Date: 06/22/2021**

---

Below please find our responses to the Highmark ("Company") Small Group 2022 ACA Rate Filing Objection Letter dated 06/10/2021. For convenience, the questions have been reproduced below, with our responses immediately following each question.

A supplemental exhibits file has been submitted along with this response. Please see the file named "PID Response Exhibits HMK 06222021.xlsx," which contains additional exhibits and supplemental detail, as referenced in the below responses.

1. The following questions relate to the trend assumption:

a. Please provide a detailed quantitative exhibit displaying the development of the normalized allowed PMPMs by month for calendar years 2018 through 2020 shown on the 'Trend Support' tab of the "2022 Supplemental Exhibits – HMK.xlsx" file. Please demonstrate all normalization calculations utilized, as discussed in Section 1H of the PA Actuarial Memorandum (i.e., population aging, benefit leveraging, external trend drivers, etc.).

**Response:**

The requested exhibit has been included in the "PID Response Exhibits HMK 06222021.xlsx" file included in this response in a worksheet labeled "Q#1a". This exhibit shows the following normalization factors that are used to adjust the experience claims:

- Demographic Adjustment – adjustments for the age and gender of the population in the period
- Client Mix Adjustment – adjustments for the impact of new and cancelled clients

- Other Adjustments – adjustments for COVID, cost savings initiatives, and other business mix adjustments

b. Please provide an exhibit displaying the output of the regression analysis. Please explain whether the annual trend produced by the Company's regression analysis was selected based on a range of results. If so, please explain why the particular trend assumption that is being utilized was chosen over another. For example, if the regression analysis suggested that the annual trend assumption should equal 6.0%, but the Company ultimately selected 7.3%, please explain why the 7.3% trend assumption is more appropriate than 6.0%.

**Response:**

The requested exhibit has been included in the "PID Response Exhibits HMK 06222021.xlsx" file included in this response in a worksheet labeled "Q#1b".

The underlying regression trend is determined from an analysis of the recent historical claim costs and actuarial judgment to establish a point estimate for the current running level of allowed claims. As discussed in the Pennsylvania Actuarial Memorandum, the regression model does not establish the rating period trend but is used to smooth out fluctuations in the historical claim costs to establish an appropriate jumping off point for projected claim levels.

c. Please provide a detailed quantitative exhibit displaying the development of the adjustments (i.e., for pharmacy rebates and settlements) made to the 7.3% trend assumption produced by the regression analysis utilized by the Company to arrive at the 5.3% trend assumption, prior to the impact of COVID-19.

**Response:**

The requested exhibit has been included in the "PID Response Exhibits HMK 06222021.xlsx" file included in this response in a worksheet labeled "Q#1c". Note that, as the exhibit shows, the 7.3% trend is applied to the base medical and drug claims, while the remaining benefit categories (value-based reimbursements, pediatric dental, capitations, and prescription drug rebates) have trends applied appropriate to the costs expected in the projection period. The resulting net trend is 5.3%.

d. Please provide an exhibit demonstrating how the 5.3% annual trend assumption discussed in Section 1H of the PA Actuarial Memorandum, when combined with the COVID-19 adjustment equals the proposed 9.75% non-capitated trend assumption.

**Response:**

The requested exhibit has been included in the “PID Response Exhibits HMK 06222021.xlsx” file included in this response in a worksheet labeled “Q#1d”. Note that the 8.0% COVID adjustment, discussed in the Pennsylvania Actuarial Memorandum, is applied solely to the base medical and drug claims to arrive at the proposed 9.75% non-capitated trend assumption.

e. Please provide support for the approach of setting the medical and pharmacy trends equal to one another (i.e., instead of assuming separate medical and pharmacy trends). Additionally, please provide an exhibit displaying the Company’s estimated annualized trends for 2021 through 2022, separately for medical and pharmacy claims.

**Response:**

As discussed in the Pennsylvania Actuarial Memorandum, the Company's development of trend involves a comprehensive assessment of many factors that impact historical and projected claims levels. These adjustments include changes for in-network provider contracting levels, changes for out-of-network costs, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. In addition, the trend estimates normalize for benefit leveraging, population aging, changes in fee schedules, and external trend drivers.

Given the historical shifts that have occurred among medical and drug service categories, and that continue to occur, the Company believes that it is more appropriate to provide an assessment of trend at a combined level. This allows us to focus on the overall level of trend impacting our markets and minimize the effect of market dynamics that shift service utilization between categories. By keeping the trend analysis at this macro level, it minimizes the aggregated actuarial judgment that would need to be applied at each service category level, which may unduly distort our projected trend levels. A detailed projection of this macro level view has been provided in the “2022 Supplemental Exhibits – HMK.xlsx” file included in our initial submission.

f. Please provide a quantitative exhibit displaying the development of the quarterly trend assumptions shown in Table 5A from the PA Rate Template file. Please demonstrate that the COVID-19 component of the annualized trend assumption is not included in the quarterly trend assumptions. Lastly, if the 7.3% annual trend assumption is used instead of the 5.3% trend assumption, please explain why.

**Response:**

As mentioned in the Pennsylvania Actuarial Memorandum, the quarterly rate trends are developed so that the resulting rates more appropriately reflect the claim costs and administrative charges expected in the quarterly rating periods, including the distribution of renewals expected within a rating quarter. Please see the exhibit labeled “Q#1f” included in the “PID Response Exhibits HMK 06222021.xlsx” file, which develops each quarterly trend factor from the annual trend assumption.

Note that the 7.3% and 5.3% trends discussed in the Pennsylvania Actuarial Memorandum take the experience period claims to the 1Q 2022 rating period and would include known claims management adjustments that reduce the overall trend level. These adjustments are one-time adjustments anticipated to impact the 2020 and 2021 trend levels. Beyond 2022, the Company has not identified any further claims management initiatives that will offset the developing trend. Thus, the claims trend used for the projection of claim costs beyond 2022 reflects the anticipated claims trend for the appropriate renewal period, which the Company has assumed is 8.1%.

2. The following questions relate to the COVID-19 adjustment:

a. Please provide a detailed quantitative exhibit displaying the development of the actual calendar year 2019 and 2020 normalized allowed medical claims PMPM shown on the ‘PA BEP COVID Adj Support’ tab of the “2022 Supplemental Exhibits – HMK.xlsx” file. Please demonstrate all calculations. Recognizing that the normalization approaches appear to be different between the two tabs, please demonstrate how the normalized allowed claim PMPMs underlying the COVID-19 adjustment reconcile to the normalized medical allowed claim PMPMs embedded in the normalized medical and pharmacy allowed claims PMPM on the ‘Trend Support’ tab. To the extent that either of the populations considered in the development of the trend assumption and COVID-19 adjustment are different and/or that our understanding is correct that the normalization approaches are different, please explain why.

**Response:**

The requested exhibit has been included in the “PID Response Exhibits HMK 06222021.xlsx” file included in this response in a worksheet labeled “Q#2a”.

The COVID BEP adjustment was developed using experience from the broader PA Small Group market to enhance the credibility of the analysis. Given the unique nature of the COVID pandemic, where the Company would have no historical basis for analysis, the development of the COVID adjustment utilized the entire Small Group product data (including ACA and transitional business). Additionally, individual claims in excess of \$100K were removed from the experience to reduce volatility of results, particularly in the cost of services.

The populations on the Trend Support tabs are region-specific within PA, specific to the Small Group ACA market, and have claims experience which does not exclude individual claims in excess of \$100k.

b. Please provide support for the range of historical medical trends considered in the development of the COVID-19 adjustment (i.e., 5.2% to 14.5%) and explain how that range reconciles to the 2017-2019 trend figures provided in the ‘Trend Support’ tab. Additionally, please explain how the particular trend assumption of 7.2% was chosen over another. For example, it is unclear why the Company selected the 7.2% assumption over 5.3%, which is the selected average annual trend assumption (including rebates and settlements) for 2021 and 2022.

**Response:**

The range of historical monthly medical trends from 2017-2019 has been included in the worksheet labeled “Q#2b” in the “PID Response Exhibits HMK 06222021.xlsx” file included in this response.

These monthly trend streams represent the normalized medical trends across all of Pennsylvania Small Group products, including ACA and transitional business. As such the claims and membership data underlying the development of the Annual Trend in the “Trend Support” tab of the Supplemental Exhibits file would be included in the analysis for the COVID adjustment but would only be one component of the whole. The 7.2% assumption seemed reasonable given the historical range of results and is consistent with the most recent 18-month average trend rates, as shown in the exhibit.

3. The following questions relate to the morbidity adjustment:

a. Section 2A of the PA Actuarial Memorandum states that the Company is expecting that enrollment will increase slightly but that some of the better risk groups will lapse from the experience period to the projection period. Please confirm that the morbidity adjustment prior to the impact of COVID-19 (i.e., 1.0241) is intended to capture this effect.

**Response:**

The Company confirms that the 1.0241 morbidity adjustment shown in the “Table 5 Support” tab of the Supplemental Exhibits file is intended to reflect change in morbidity from the population in the experience period to the projection period prior to the impact of COVID. The morbidity in the projection period is based on the morbidity of members that are currently active in the Company. This projected morbidity difference is also reflected in the development of the Company’s projected risk adjustment transfer amount.

b. Please provide a calculation, similar to the one provided when developing the morbidity adjustment prior to the impact of COVID-19 of 1.0241, demonstrating differences in the normalized allowed claim cost PMPM between groups that were newly enrolled with the Company in 2020 relative to calendar year 2020 average.

**Response:**

The requested calculation has been included in the “PID Response Exhibits HMK 06222021.xlsx” file included in this response in a worksheet labeled “Q#3b”. Please note that the experience morbidity of newly issued business in the experience year would likely be misrepresented since much of the business would not have a full year of claims experience to capture the underlying morbidity.

c. Please provide support for the assumption that allowed claims could increase between 1% and 5% as a result of insureds missing preventative care and quarantine rules leading to a more sedentary lifestyle, as discussed in Section 2A of the PA Actuarial Memorandum.

**Response:**

The Company has cited several articles below that indicate that population health has deteriorated during the pandemic, which will impact future cost of care. Using the references below, the Company determined specific categories of care which would be most impacted by the behavior changes brought about by the pandemic. The Company

utilized prior analyses and actuarial judgment in determining the anticipated impact to claims.

9. <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7665774/> (mental health impact)

d. Please explain whether the Company believes the provisions in the American Rescue Plan Act will impact the morbidity of the Company's book of business in the projection period (e.g., groups terminate Small Group ACA coverage and enroll in the Individual ACA market). If so, please provide a detailed quantitative exhibit demonstrating the estimated impact on morbidity.

**Response:**

The Company has considered the impact from the provisions of the American Rescue Plan Act on morbidity and is assuming that the impact will not change the Company's morbidity profile relative to the overall Small Group ACA market in Pennsylvania.

4. Please provide an exhibit displaying the development of the average 2020 and 2022 area factors (i.e., 0.9702 and 0.9703, respectively) that are utilized in the development of the "Change in Demographics" Index Rate Adjustment shown in Table 5 from the PA Rate Template file.

**Response:**

The requested exhibit has been included in the "PID Response Exhibits HMK 06222021.xlsx" file included in this response in a worksheet labeled "Q#4".

5. Please provide an exhibit displaying the development of the average 2020 and 2022 network factors (i.e., 0.9548 and 0.9323, respectively) that are utilized in the development of the “Change in Network” Index Rate Adjustment shown in Table 5 from the PA Rate Template file.

**Response:**

The requested exhibit has been included in the “PID Response Exhibits HMK 06222021.xlsx” file included in this response in a worksheet labeled “Q#5”.

6. Please provide support for the 5.0% annualized premium trend assumption utilized in the calculation of the estimated 2022 statewide average premium PMPM underlying the 2022 risk adjustment transfer calculation.

**Response:**

The average statewide premium for Small Group ACA business in Pennsylvania, per the CMS risk adjustment transfer reports, has been as follows:

Year	Avg. Premium PMPM	Change
2015	\$452.19	
2016	\$471.10	4.2%
2017	\$486.43	3.3%
2018	\$514.82	5.8%
2019	\$517.24	0.5%

Given the historical changes in average premium displayed in the above table, the Company believes that an annual change in premium assumption of 5% is reasonable in developing the expected 2022 risk adjustment transfer amount.

7. The following questions pertain to the proposed area factors:

a. Please provide an exhibit displaying the development of the 2019 and 2020 normalized risk adjusted claims relativities shown on the ‘Area Factor Support’ tab of the “2022 Supplemental Exhibits – HMK.xlsx” file. Please demonstrate all calculations used in normalizing the claim costs.

**Response:**

[REDACTED]

b. Please explain whether the Company considered blending its current rating area factors in with the proposed factors given potential credibility concerns (e.g., there are less than 100 members enrolled in rating area 6 in 2020) and observed variability in the calculated relativities (i.e., the relativities in rating area 2 in 2019 and 2020 are 1.036 and 0.968, respectively).

**Response:**

[REDACTED]

8. Please provide a detailed quantitative exhibit displaying the development of the proposed network factors.

**Response:**

[REDACTED]

The following are additional questions or comments from the PID:

PID-1. Please confirm that you have tested to ensure that the rates in Table 11 of the PA AM Exhibits, PA Plan Design Summary and Rate Table, Federal Rates Template, and binder are identical.

**Response:**

The Company confirms that they thoroughly test the rates of each rate filing submission to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, Federal Rates Template, and binder are identical.

PID-2. Please provide an exhibit that quantitatively shows a comparison of the actual to projected claim cost PMPMs for calendar years 2017-2020, as applicable.

**Response:**

The requested exhibit has been included in the “PID Response Exhibits HMK 06222021.xlsx” file included in this response in a worksheet labeled “Q#PID-2”.

PID-3. The requested trend for this filing is above average among PA small group issuers. Please provide a short list of bullet points that explain the main issues causing this higher-than-average trend request.

**Response:**

The Pennsylvania Actuarial Memorandum submitted with the rate filing discusses the Company's methodology and data considerations in establishing its projected trend, which would utilize internal modeling of an assortment of claim components that impact trend. Since many of these components would include propriety and competitive information, including provider fee schedules and prescription drug discount and rebate levels, any commentary as to why the Company's trend is above the market average would be speculative.

In reviewing its trend model components, the Company has identified that much of its projected trend is being driven by changes in provider contracting schedules and advancing medical and drug technologies. Changes to these cost components are typically established well ahead of their effective date, so it is unlikely that the Company will realize significant favorability in these cost components as experience develops.

The Company recognizes that the COVID pandemic has disrupted claim levels, and it is expecting that its claim trend levels will largely return to pre-pandemic levels. It is worth noting though that the Company's filed trend rate of 7.3% is less than the approved trends from each of the Company's prior three annual rate filings. In addition, the Company's filed trend level is consistent with national trend expectations from recent surveys published by healthcare consulting and benefits administration firms.

PID-4. Please provide an exhibit which demonstrates that the criteria for the expanded bronze plan(s) have been met.

**Response:**

The Company has filed the following expanded bronze plans. The appropriate requirement for using the expanded bronze plan *de minimus* range is listed after the plan.

<b>HIOS ID</b>	<b>Plan Name</b>	<b>Criteria for Qualifying as Expanded Bronze Plan</b>
33709PA1200002	Together Blue EPO Embedded Q\$6650	Meets the requirements to be a high deductible health plan
33709PA1270006	Performance Blue PPO Qualified Embedded \$6850 100/100 Bronze	Meets the requirements to be a high deductible health plan
33709PA1290006	Performance Blue PPO Qualified Embedded \$6850 100/100 Bronze	Meets the requirements to be a high deductible health plan
33709PA1310006	Performance Blue PPO Qualified Embedded \$6850 100/100 Bronze	Meets the requirements to be a high deductible health plan
33709PA1330004	Performance Blue PPO Qualified Embedded \$6850 100/100 Bronze	Meets the requirements to be a high deductible health plan
33709PA0920001	Health Savings Flex PPO Embedded \$6100 a Community Blue Plan	Meets the requirements to be a high deductible health plan

Question #PID-2

Year	Projected Claims*	Actual Claims**
2017	\$427.93	\$420.60
2018	\$387.74	\$440.77
2019	\$508.61	\$410.23
2020	\$518.92	\$424.53

\*Projected Claims are the incurred claims from URRT Worksheet 1 (prior to 2020) or URRT Worksheet 2 (2020) prior to risk reimbursement programs

\*\*Actual Claims are calculated as ultimate Incurred Claims + Prescription Drug Rebates in Table 4 from the 2022 filing

Note that since the Projected Claims reflect policy year expectations for Q1 effective dates, while the Actual Claims are calendar year, variations are expected. In addition, actual results, including differences in demographic mix and population risk profiles, will have differed from expectations.

July 13, 2021

Ms. Tracie Gray, Director  
Bureau of Life, Accident & Health Insurance

Re: Highmark Inc. 2022 ACA Rate Filing (Small Group Market)  
Highmark Filing #1A-SG-HIGHMARK-2021 (SERFF Filing # HGHM-132831048)

Dear Ms. Gray:

This letter accompanies the Company's response to the Department's data call request from July 6, 2021 to identify the changes made to the original Highmark Inc. (NAIC # 54771; HIOS Issuer ID # 33709) Small Group Market Off Exchange ACA rate filing and the supporting rate development for policies with effective dates on or after **January 1, 2022**. In response to the Department's data call, the Company proposes no revisions to its original 2022 Small Group ACA Filing.

Should you have any questions regarding this Filing or these revisions, please feel free to contact me at (412) 544-3845 or via e-mail at: [Cory.Orzak@highmark.com](mailto:Cory.Orzak@highmark.com).

Sincerely,

A handwritten signature in black ink, appearing to read "Cory Orzak", with a stylized flourish extending to the right.

Cory Orzak, FSA, MAAA  
Vice President, Actuarial Services  
Highmark Inc.

## Highmark's Response to Objection Letter Dated 07/06/2021

**Product Name:** HIGHMARK Small Group 2022 ACA Rate Filing

---

**RE:** Highmark Inc., Small Group PPO & EPO, ACA Filing for PY2022

**Pennsylvania Insurance Department ID #: HGHM-132831048**

**Objection Letter Status:** Data Request Sent

**Objection Letter Date:** 07/06/2021

**Respond By Date:** 07/13/2021

**Response Date:** 07/13/2021

---

Below please find our responses to the Highmark ("Company") Small Group 2022 ACA Rate Filing Objection Letter dated 07/06/2021. For convenience, the questions have been reproduced below, with our responses immediately following each question.

A supplemental exhibits file has been submitted along with this response. Please see the file named "PID Response Exhibits HMK 07132021.xlsx," which contains additional exhibits and supplemental detail, as referenced in the below responses.

1. Please explain how the monthly allowed PMPMs for 2021 and 2022 shown on the 'Trend Support' tab of the "2022 Supplemental Exhibits – HMK.xlsx" file were developed. Additionally, please explain and demonstrate quantitatively how the results of the regression analysis shown in the response to question 1b from the objection responses dated 6/22/2021 were used in the development of the proposed trend assumption, and how the results were incorporated into the development of the allowed PMPMs shown on the 'Trend Support' tab.

**Response:**

Please see the exhibit in the "Q1&2" tab of the file "PID Response Exhibits HMK 07132021.xlsx". The exhibit demonstrates how the monthly allowed PMPMs for 2021 and 2022 were developed. That is, starting with PMPMs from the regression model and then applying adjustments for cost and utilization to ultimately arrive at the normalized allowed claims PMPMs. Cost adjustments can be attributed to items such as contracting, high dollar claims, and new technology while utilization adjustments account for workdays, Flu, and cost-saving initiatives.

2. Please explain why the monthly base period PMPM amounts provided in the Excel response to question 1b do not align with the monthly allowed PMPM amounts included in the Excel response to question 1a.

**Response:**

Please see the exhibit in the “Q1&2” tab of the file “PID Response Exhibits HMK 07132021.xlsx”. As stated in the response to Q1 above, the PMPM amounts do not align as the regression model produces a starting point PMPM for projection period claims which is further adjusted for cost and utilization to ultimately arrive at the normalized allowed claims PMPMs. Cost adjustments can be attributed to items such as contracting, high dollar claims, and new technology while utilization adjustments account for workdays, Flu, and cost-saving initiatives.

3. Please provide additional support for the statement that the COVID-19 impact to drug claims is negligible. If any analysis was performed to confirm this statement, please provide the details from that analysis in your response. If no analysis was performed to confirm the statement, please provide a similar analysis to that which was provided for medical claims (in the Excel file named “2022 Supplemental Exhibits – HMK”) which demonstrates that the COVID-19 impact to drug claims is negligible.

**Response:**

Please see the exhibit in the “Q3” tab in the file “PID Response Exhibits HMK 07132021.xlsx” that demonstrates that the COVID-19 impact to drug claims is negligible.

4. The following questions relate to the response to question 7 from the objection responses dated 6/22/2021:

a. Please explain whether the Company is double counting the impact of demographic differences when developing the proposed area factors given that allowed claims are normalized for average age and the risk adjustment transfer, which also accounts for differences in cost due to age differences. If the Company is not double counting the impact of demographic differences, please clarify how it is not doing so.

**Response:**

The company is not double counting demographic differences. The risk adjustment transfer PMPM estimate for the area is removed from the allowed claims, and the 3 to 1

federally mandated age factors are normalizing the allowed claims. Since the average federal age factor is included in the calculation of the company's allowable rating factors, the risk adjustment transfer amount would only compensate or charge the company for risk that is higher or lower, respectively, than what the company can charge through the age factors. In other words, the purpose of risk adjustment is meant to address the risk that is not accounted for through the allowable rating factors, and therefore by adjusting for both the allowable age rating factors and risk adjustment, we are able to normalize for all demographic-based revenue components without double counting their effects.

b. Please provide support for the assumption that 15,750 member months is fully credible for the purpose of developing area factors. In providing your response, please include a detailed description of the process that was utilized to develop the stated credibility threshold. Additionally, at 15,750 member months, what is the Company's estimate for "k" and "P" with respect to being within k% of the true value P% of the time.

**Response:**

This credibility threshold and methodology is consistent with Highmark's internal approach to assigning credibility to experience rated business. Further, based on competitive intelligence, this is relatively consistent with the market's approach to assigning credibility.

The following are additional questions or comments from the PID:

PID-1. Please provide an exhibit showing the actual experience for calendar years 2016-2020 and the projection experience for 2021 and 2022 for the following categories: Member Months, Total Administrative Expenses, Total Incurred Claims, Total Premium, Total Actual Paid Taxes and Fees, Profit, Total Underwriting Gain/Loss and Underwriting Gain/Loss PMPM

**Response:**

Please see the exhibit in the "PID-1" tab in the file "PID Response Exhibits HMK 07132021.xlsx" that shows these data and projections.

PID-2. Does this company have any transitional membership? If so, has there recently been a significant drop in transitional membership? Do you anticipate a drop in 2022?

**Response:**

This company does not have any transitional membership.

PID-3. If the projected risk adjustment transfer amount in Table 5 will be modified, due to the final CMS transfer amount published on June 30th, please provide narrative and detailed supporting data to justify the proposed changes.

**Response:**

As discussed in the Pennsylvania Actuarial Memorandum, the Company used the results provided by the PA Insurance Department in its calculation of 2020 risk adjustment transfer amounts using the final RATEE files as the basis for its projected risk adjustment transfer assumptions. Since these results were identical to the results published by CMS on June 30th, 2021, in the Summary Report on Permanent Risk Adjustment Transfers for the 2020 Benefit Year, the Company does not intend to change the projected risk adjustment transfer assumptions underlying this rate filing.

PID-4. Please confirm that you have tested to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, and Federal Rate Templates are identical.

**Response:**

The Company confirms that they thoroughly test the rates of each rate filing submission to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, Federal Rates Template, and binder are identical.

PID-5. Please ensure that the 7/13/21 versions of the following items are posted in SERFF with your July 13th response to this data call.

- a. Cover Letter identifying all changes made and the reasons for the change. Also, show the revised rate change.
- b. PA Actuarial Memorandum
- c. PA Actuarial Memorandum Exhibits
- d. Department's Plan Design Summary and Rate Template Exhibits (please ensure that the rate template by county is populated with only numeric values – no "NA")
- e. URRT
- f. Federal Rate Template
- g. Part III: Actuarial Memorandum
- h. Updated Rate Change Request Summary (Attachment I)

i. Public PDF with limited redactions as previously directed in the Guidance (includes all correspondence and supporting exhibits after the initial submission, in addition to all the above items).

**Response:**

No changes have been made to the Company's rate filing since its initial submission on 6/28/2021. Therefore, only the public PDF has been posted with a 7/13/2021 date to appropriately capture the Company's responses to the objection letters.

## Small Group ACA

### BEP COVID-19 Adjustment Factor Development

Please note:

- The BEP COVID-19 Adjustment is calculated using experience for the entire PA Small Group Market
- The BEP COVID-19 Adjustment is on an allowed basis
- The BEP COVID-19 Adjustment is for medical claims only; COVID-19 impact to drug claims is negligible
- Total BEP COVID-19 Adjustment uses CY 2019 medical/drug distribution to blend adjustment factors

	Medical	Drug
Normalized Allowed Claims PMPM - (CY 2019)	\$ 347.33	\$ 97.86
Range of Historical Trends - (2017 - 2019)	5.2% - 14.5%	6.3% - 14.9%
Anticipated Trend - Entire PA Small Group Market	7.2%	11.5%
Anticipated Normalized Allowed Claims PMPM - (CY 2020)	\$ 372.21	\$ 109.15
Actual Normalized Allowed Claims PMPM - (CY 2020)	\$ 335.98	\$ 109.15
BEP Adjustment Factor - (CY 2020)	0.9027	1.0000
Claims Distribution	76%	24%
Total BEP Adjustment Factor - (CY 2020)	0.9261	
Total BEP Adjustment Factor Reciprocal - (CY 2020)	1.0798	

In this exhibit, Allowed Medical Claims PMPMs exclude high dollar claims and are normalized only for work days and demographics.
