Re: First Priority Life Insurance Company (FPLIC) 2022 ACA Rate Filing (Small Group Market)
FPLIC Filing # 1A-SG-FPLIC-2021 (SERFF Filing # HGHM-132831354)

This constitutes Notice pursuant to Section 707 of the Pennsylvania Right-to-Know Law that the attached First Priority Life Insurance Company 2022 Small Group Market Rates Filing contains Trade Secret and Confidential Proprietary Information. Therefore, First Priority Life Insurance Company must, prior to the release of any portion of this Filing, be notified of any request by a third party for access to this Filing, and the Trade Secret and/or Confidential Proprietary Information identified by First Priority Life Insurance Company should be redacted before release.

Dear Ms. Gray:

This Filing includes First Priority Life Insurance Company (FPLIC) (NAIC # 60147; HIOS Issuer ID # 55957) Small Group Market Off-Exchange ACA rates and the supporting rate development for policies with effective dates on or after **January 1, 2022**.

In the event the Department decides to publish this Filing in the PA Bulletin, the company information requested as per the Department's 2022 ACA-Compliant Health Insurance Rate Filing Guidance, Section B, is provided below:

1. Company Name & NAIC #: **First Priority Life Insurance Company, NAIC # 60147 ("Company")**
2. Market: **Small Group ("Market")**
3. On or Off Exchange: This Company's products are offered **Off Exchange only**
4. Effective date of coverage: **January 1, 2022**
5. Average rate change requested: **-0.20% increase**

6. Range of rate change requested: **-5.50% to 2.96%**
7. Total additional annual revenue generated from the proposed rate change: **-\$92,187**
8. Product(s): **PPO**
9. Rating Areas and the change from 2021: **Region 3** (Northeastern PA only)

There are no changes in our covered Rating Areas from the 2021 rate filing.

10. Metal Levels and Catastrophic Plans: This filing reflects that the Company anticipates selling the following Metal Levels of coverage in the indicated Market: **Platinum, Gold, Silver, and Bronze**
11. Current number of covered lives and of policyholders as of February 1, 2021: **4,750 covered lives; 2,970 policyholders**
12. Number of plans offered in 2022 and the change this represents from 2021: **54**

The Company offered 53 plans in 2021. For 2022, the Company is offering 3 new plans in the Market, and removing 2 plans from the Market.

Please note that inclusion of premium rates in this filing for a given offering should not be construed to mean that the offering will ultimately be made available for sale in the market. Final offering decisions will be made consistent with and within the timelines set forth in CMS rules and/or ACA regulations.

13. Corresponding contract form number, SERFF and Binder ID numbers: The corresponding SERFF binder number is **HGHM-PA22-125107746** affecting the following Company products and forms:

Product Name / Type	Contract Form & SERFF #
Blue Care PPO	FPLIC-BC/PPO/SM-3; HGHM-132793297
Lehigh Valley Flex Blue HDHP PPO	FPLIC-LV/HDHP/SM-3; HGHM-132793303
AffordaBlue	FPLIC-AB/COMP-SM-3; HGHM-132793292
Blue Care HDHP PPO	FPLIC-BC/HDHP/SM-3; HGHM-132793276
Lehigh Valley Flex Blue PPO	FPLIC-LV/PPO/SM-3; HGHM-132793327
Blue Care Custom PPO	FPLIC-BCUST/PPO/SM-3; HGHM-132793300

14. HIOS Issuer ID # and submission tracking number: **HIOS Issuer ID # 55957, Company Filing # 1A-SG-FPLIC-2021 (SERFF Filing #HGHM-132831354)**

Additional Filing Disclosures

The Company has submitted all Required Documents stipulated by the Department, including the federal documents related to this filing, in its SERFF submission. In addition to the Required Documents, the Company has submitted a Supplemental Exhibits file containing additional detailed exhibits on items referenced in the PA Actuarial Memorandum. All tables, exhibits, and detail in support of this filing and the PA Actuarial Memorandum have been included in Excel format. For the Department's benefit, the Excel files have retained their formulas to the extent possible.

CMS has instructed issuers that it no longer requires any interim changes to the URRT to be submitted to HIOS. CMS is requesting that only the initial URRT and the final URRT be submitted to HIOS.

Potential for Material Unforeseen Impacts: This filing assumes that there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market, and that there are no significant changes in the participation of QHP issuers that would materially change risk adjustment transfer amounts. This filing also assumes that transitional plan coverage will be available in the Pennsylvania Small Group market through 2022. Modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, repeal or invalidation of the ACA or material developments in the course of the COVID-19 pandemic. As a result, First Priority Life Insurance Company reserves the right to submit a revised filing.

Request for Confidentiality

Please note that the rates and the supporting rate development contained in this Filing are competitively sensitive, are not in the public domain, and constitute business confidential proprietary/trade secret information that would cause harm to the competitive position of First Priority Life Insurance Company if disclosed to the public.

Public disclosure of any information contained in this Filing would allow First Priority Life Insurance Company competitors to better understand or discover its confidential and proprietary rating, pricing and/or marketing practices, would undermine competition in the Small Group market, and could have negative consequences for the operation of First Priority Life Insurance Company's business. Therefore, First Priority Life Insurance Company asserts that this Filing, in its entirety, constitutes Trade Secret and Confidential Proprietary Information and should not be disclosed.

It is our understanding that the Department does not intend to publish the confidential and proprietary information contained in this Filing or to otherwise permit this Filing and its confidential information, other than the redacted information and final approved rates, to be disclosed or released.

Furthermore and pursuant to the Pennsylvania Right-to-Know Law ("RTKL"), First Priority Life Insurance Company must be notified prior to release of information contained in this Filing and be given the opportunity to respond to requests for such information. Should the Department receive such request or require the release of information contained in this Filing for its own purposes, First Priority Life Insurance Company asserts its right to release a redacted version of the Filing. In accordance with the RTKL, please contact the First Priority Life Insurance Company RTKL representative identified below prior to release of any information contained in this Filing:

Lisa Martinelli, Esq.
RTKL Representative
VP Chief Privacy Officer
120 Fifth Avenue, FAP Suite 2114
Pittsburgh, PA 15222

Furthermore, it should be noted that First Priority Life Insurance Company is equally concerned that even if this information is released in aggregate form, it still may be easy to identify the carrier that submitted it.

Should you have any questions regarding the attached Filing, please feel free to contact me at (412) 544-3845 or via e-mail at: Cory.Orzak@highmark.com.

Sincerely,

A handwritten signature in black ink, appearing to read 'Cory Orzak', with a long horizontal flourish extending to the right.

Cory Orzak, FSA, MAAA
Vice President, Actuarial Services
Highmark Inc.

Pennsylvania Actuarial Memorandum

1. Basic Information and Data

A. Company Information (Table 0)

Table 0 has been completed as per the instructions. Please refer to the Excel file “2022_SmGrp_FPLIC_PAAMExhibits_071321” submitted with this filing containing the department’s required tables. General information pertaining to this rate filing is summarized below:

- Company Name: First Priority Life Insurance Company (“FPLIC”, “Company”)
- NAIC #: 60147
- HIOS Issuer ID: 55957
- State: Pennsylvania
- Market: Small Group
- Rating Area: Pennsylvania Rating Region 3
- Effective Date: 1/1/2022
- SERFF Rate Filing #: HGHM-132831354

This filing assumes that there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market subsequent to the filing date, and that there are no significant changes in the participation of QHP issuers that would materially change the company’s expected liabilities. This filing also assumes that transitional plan coverage will be available in the Pennsylvania Small Group market through 2022. Modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, repeal or invalidation of the ACA or material developments in the course of the COVID pandemic. As a result, FPLIC reserves the right to submit a revised filing.

B. Rate History and Proposed Variations in Rate Changes

The most recent three years of historical rate changes in the Pennsylvania Small Group Market for the Company are as follows:

Period	Avg. Increase	SERFF ID#
2021	12.4%	HGHM-132380627
Third and Fourth Quarter 2020 Rate Change	-1.2%	HGHM-132279057
2020	-0.03%	HGHM-131937085
Third and Fourth Quarter 2019 Rate Change	16.4%	HGHM-131864020
2019	17.8%	HGHM-131496216

The rate changes vary by plan due to changes in the allowable plan level base rate components (pricing actuarial factors, geographic rating factors, network discounts, and administrative charges). These

components are re-evaluated each year to keep pace with market changes and changes in health care costs. The rate changes also vary by plan due to mappings between discontinued and new plans. For 2022, the Company's proposed rate revisions vary by plan according to the detail presented in the URRT, Worksheet 2, and the PA Rate Template Table 10.

C. Average Rate Change

The average rate change from Table 10, Cell AC15 is -0.20%. This rate change reflects the change for first quarter 2022 calibrated index rates over first quarter 2021 calibrated index rates.

For comparison, the change in 21-year-old non-tobacco premium PMPM calculated in Table 11, Cell AN13, is -0.07%.

The primary drivers of the -0.20% rate increase can be seen in the Table 8 results of the Pennsylvania Actuarial Memorandum exhibits.

D. Membership Count (Table 1)

Table 1 has been completed according to the instructions with the average age, age breakdown and total number of members or member months, as indicated in the table. For the 2/1/2021 data, this table reflects all of the Company's Small Group ACA enrollment, including enrollment from 2020 and 2021 plan year plans.

E. Benefit Changes

Some plan designs were changed due to a re-evaluation of benefit designs and marketing considerations.

For the 2022 plan year, there were no benefit changes necessary to the Company's plans to cover the benefits contained in the state's Essential Health Benefit (EHB) benchmark plan.

F. Experience Period Claims and Premium (Table 2)

Please see Table 2 for the experience period data for the most recent calendar year, for the Company and Market. The experience period paid claims data represents the 2020 calendar year results for all Affordable Care Act compliant policies in the single risk pool, with run out through February 2021 (2 months). This data is consistent with the data reported in Section I of Worksheet I of the URRT (see below commentary). As per the 2022 ACA-Compliant Health Insurance Rate Filing Guidance, transitional policy experience was not included in either the Table 2 or Table 4 data.

The components of this exhibit were developed as follows:

- The Earned Premium represents actual revenues earned in the experience period.
- The Allowed Claims represent the Company's best estimate of the total claims prior to member cost sharing incurred during the experience period. The Allowed Claims include:
 - Two months of run out from the end of the experience period,
 - Claims processed outside of the Company's claims system (e.g., settlements), and
 - The Company's best estimate of claims incurred but not paid as of the end of the run-out period.

Note that the Incurred Claims and Allowed Claims presented in the URRT are net of the Prescription Drug Rebates on their appropriate basis, while Table 2 has the Prescription Drug Rebates separately identified and grossed up by the experience period paid to allowed ratio. As per the URR instructions, Allowed Claims do not include reinsurance recoveries or pooling charges, nor do they include quality incentive payments.

- Prescription Drug Rebates are used to reduce the level of Incurred Claims in the experience period. However, for entry into Table 2, the Prescription Drug Rebates are grossed up by the experience period paid to allowed ratio since they are ultimately used to reduce allowed claims. This allows for the Table 2 results to feed into Table 5 without adjustment, but it does cause the calculated loss ratio in Table 2 to be slightly mis-stated.
- There are no non-EHB benefits or costs in the experience period.
- The EHB coverage for pediatric vision benefits are provided by the Company's vision coverage vendor under a capitation arrangement. These costs are \$0.38 PMPM uniform across each member in the experience period and are reflected in Table 2 under the Total EHB Capitation section, where the capitation rate that the Company actually paid is grossed up by the experience period paid to allowed ratio, to get the capitations on an allowed claims basis. This further causes the calculated loss ratio in Table 2 to be slightly mis-stated.
- The Estimated Risk Adjustment represents the Company's best estimate of the year end risk adjustment transfer payment that the Company will incur based on the results in the experience period.
- The calculated loss ratio is 74.59%. This number is slightly below the actual loss ratio due to the adjustments to prescription drug rebates and capitations described above.

G. Credibility of Data (Tables 2b, 3b, 4b)

The Company has employed a credibility methodology consistent with ASOP #25 to determine the appropriate level of credibility to be assigned to the base experience period data. The assigned credibility level has been determined by referencing published studies from the Society of Actuaries (SOA), most notably "A Practical Approach to Assigning Credibility for Group Medical Insurance Pricing (December 2015)¹," as well as utilizing actuarial judgment in consideration of the Company's base experience period and projection period computations. Employing the conclusions confirmed in the referenced SOA study, the Company has established a full credibility threshold of 2,000 average members for the experience period. As the average members from the experience period membership for the active population for this Company is 4,389, full credibility has been assigned to the base experience period.

H. Trend Identification (Table 3)

Table 3 identifies the annual medical and prescription drug allowed claims cost and utilization trends, as requested by the Pennsylvania Insurance Department. The definitions of service categories, cost, and utilization in Table 3 are consistent with the URRT instructions. The numbers entered in the Cost and Utilization columns are consistent with those entered in Worksheet I, Section 2 of the URRT, except as noted below.

To arrive at the trend assumption, the experience period cost and utilization data were pulled from the Company's claims systems by the defined benefit categories. The trend development uses a projection of allowed claim PMPMs by service category that takes into account many factors, including the Company's expectations of changes in in-network provider contracting levels, changes in out-of-network costs, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. To reflect the impact of provider contracting on trend, changes in in-network provider contracting levels, either known or anticipated, are factored into the cost component of trend using detailed analysis of the impact on claim levels from each material provider arrangement.

The allowed claims used for the development of the trend are adjusted and normalized to obtain a claim basis appropriate for trend development. These adjustments include changes for in-network provider contracting levels, changes for out-of-network costs, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. In addition, the trend estimates normalize for benefit leveraging, population aging, changes in fee schedules, and external trend drivers. The projection of claim costs into the rating period utilizes the same categories of adjustment factors, adjusts for seasonality, and uses a statistical regression of historical trend levels to project monthly claim levels. This normalized and adjusted claim progression is then used to provide the basis for the Company's trend regression model, which will be used to establish the Company's rating trend.

The regression trend model is used to smooth out noise in the historical claim levels and to provide an appropriate jumping off point for projected claim levels. Using the factors discussed above to adjust projected claim levels, an appropriate assumption for trend was established using the experience period claim levels as the starting point. Since historical experience would encompass the expected coverage and demographic makeup of the membership, historical claim levels, adjusted for these factors and projected forward, would represent the best estimates of trend for this block of business.

For the rate development, the Company uses the aggregate claim trend for all types of service, applied to the experience period. This is done so that the combined trend is reasonable in consideration of the various pricing trend components and the overall anticipated trend level. Based on a review of the projected normalized annual trends for 2021 and 2022, an overall claim trend of 8.56% (3.19% cost; 5.21% utilization) was selected for the 2022 rate development. Please refer to the "Trend Support" exhibit in the "2022 Supplemental Exhibits - FPLIC_071321.xlsx" file showing the historical and projected normalized claim values for the Company's trend determination, along with the Company's proposed base medical and drug claim trends.

In addition to the base medical and drug claims trend discussed above, the trend illustrated in Table 3 reflects changes in anticipated costs for claims processed outside of the Company's claims system, including Rx rebates and settlements. After the trends for the claims processed outside the Company's claims system are weighted in with the base medical and drug claim trend, we arrive at a trend of 8.44% (3.14% cost; 5.13% utilization), as seen entered in for the Year 2 trend on URRT Worksheet 1. This trend,

combined with the BEP adjustment for COVID claim suppression, is the trend entered into Table 3 for non-capitated services.

Capitation rates are provided by our vision provider, and as such, their trend is handled separately from the other benefits. The capitation trend rate is -3.96%. This trend is different than the capitation trend in the URRT because it includes the impact of induced utilization changes that get averaged across all service categories in the URRT. This allows for a consistent change in induced demand to be applied in Table 3 as gets applied on the URRT.

The Company performed a separate analysis to identify the impact of COVID on the base experience trend data and adjusted the historical claims data accordingly. See the Impact of COVID section below for the magnitude of this adjustment, along with additional detail. This COVID adjustment to the base period data impacts the Utilization section of the Trend Components to arrive at an appropriate Projected Allowed EHB Claims level in Table 5 but is removed from the Annual Trend used to develop the Small Group quarterly rates in Table 5A.

I. Historical Experience (Table 4)

Table 4 presents the most recent 48 months (4 calendar years) of Company data with run-out through February 2021. Paid and allowed claims are sourced from detailed claim records. The data in table 4 excludes capitations, settlements, and other claims paid outside of the system since that data is not considered in developing trend assumptions. The claim add-ons excluded are projected independently. The Table 4 data matches the data in Table 2 if the claim add-ons are added in. This data was used to develop the trend in Table 3. Please see Section 1.H above for further details.

2. Rate Development & Change

A. Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims (Table 5)

The development of the Projected Index Rate, Projected Market-Adjusted Index Rate, and Projected Total Allowed Claims, shown in Table 5, closely follows that utilized in the development presented in Worksheet 1 of the URRT, a discussion of which can be found in the Part III Actuarial Memorandum submitted in the Rate Filing Justification. Some of the items separately identified in Table 5 include:

- The Change in Morbidity represents an adjustment from the experience period claims to the projection period. The Company has included a morbidity adjustment factor due to the impact of COVID on projected 2022 claim costs (see commentary below).
- The Change in Demographics adjustment factor of 0.983 reflects the change in age and geography factors the Company expects from the experience period to the projection period.
- The Change in Network adjustment reflects the change in the allowed claims the Company anticipates due to changes in in-network discount levels between the experience period and the projection period. The Change in Network factor of 1.006 reflects these changes.

- The Change in Benefits adjustment reflects the change in the EHB benefits from the experience period and the projection period: None.

Please see the worksheet named “Table 5 Support” in the “2022 Supplemental Exhibits - FPLIC_071321.xlsx” file for the calculation of these factors from the Company’s experience period data and projected rate results.

The Company’s initial step in developing the index rates is to determine the expected covered membership for the rating period. The Company estimates the covered member base by adjusting for those groups known to have lapsed during the experience period, and those that are expected to lapse prior to the projection period. Then expected new business is added from groups with current transitional coverage moving to ACA plans, and groups currently with another carrier.

As the Company has seen through the transitional coverage availability period, many of the Small Group market customers have retained their pre-ACA coverage and have yet to join the ACA risk pool. With the transitional coverage provisions proposed extension through the end of 2022 for groups that renew on or prior to October 1, 2022, the Company continues to believe that many groups, especially lower-risk groups, will continue to retain their current transitional coverage until required to transfer coverage. The Company is expecting that enrollment increases and, with the continued availability of transitional coverage, the Company expects any new groups moving into ACA products will have the same morbidity as those currently enrolled. A few worse risk groups have lapsed throughout the year, and is reflected as a decrease to the change in morbidity factor.

The development of the Projected Paid to Allowed Ratio shown in Table 5 is presented in the “2022 Supplemental Exhibits - FPLIC_071321.xlsx” file in the “Table 5 Paid-to-Allowed” worksheet. This value is consistent with the paid-to-allowed ratio in the URRT Worksheet 2, line 4.15 Incurred Claims, divided by line 4.11 Allowed Claims.

Table 5 reflects that the Company is assuming a Projected Risk Adjustment receivable in the projection period of \$40.40 PMPM. To arrive at the anticipated risk transfer for 2022, the Company determines the risk adjustment calculation components for the projected 2022 Company portfolio and uses its current knowledge of the Pennsylvania Small Group market profile to estimate the risk adjustment components for the entire state Market. This Market-wide profile is developed from available Market data, including the Interim Summary Report on Risk Adjustment for the 2020 Benefit Year published by CMS, the PA Insurance Department’s calculation of 2020 risk adjustment transfer amounts using the final RATEE files, prior years’ risk adjustment transfer results, publicly available data (such as MLR reports and rate filings), and outside expertise from actuarial consultants. For 2022, the Company is projecting a risk adjustment transfer amount of \$40.40, which is less than the projected 2020 risk adjustment transfer amount.

The \$52.24 PMPM value in cell C31 of Table 5 equals the \$40.40 PMPM risk adjustment transfer value discussed above, along with a charge of \$3.27 PMPM for the projected premium charge for the High-Cost Risk Pool program, as well as a credit for high-cost risk pool claims from the experience period of \$15.12 PMPM. Please note that the risk adjustment user fee is captured in the taxes and fees portion of

administrative costs. The development of the final Table 5 Risk Adjustment PMPM is also shown in the supporting exhibit.

The Projected Paid Exchange User Fees are developed from the Exchange user fees to be charged by CMS in 2022, multiplied by the percentage of business the Company expects to purchase Market coverage through the Exchange for this Company. For this Company, all business will be offered Off Exchange in 2022, so there are no Exchange User Fees charged in the rate development.

Impact of COVID

To account for the impact of COVID, the Company made the following adjustments to its base experience period claims and its projected costs:

- a. The claims in the base experience period were adjusted to a non-COVID baseline environment (discussed in the Trend Identification section above). This was done to provide a more stable base from which to project future claims. Claims in the base experience period were adjusted upward by 8.0%, representing the estimated degree of claims suppression in the experience period. This adjustment is applied to the underlying medical and drug claims incurred in the experience period, excluding prescription drug rebates and other claims paid outside of the system. This adjustment is reflected in the Utilization Trend of Table 3.

To determine the appropriate adjustment factor for the base experience period, the Company analyzed historical normalized allowed medical claim trends combined at the state and market level. Then the Company selected an appropriate medical trend amount for 2020 within the range of historical trend results. This trend was applied to the 2019 normalized allowed medical claims to project the non-COVID baseline medical claims for 2020, which were then compared to the actual 2020 experience normalized allowed medical claims to determine the adjustment factor indicated above. The overall impact of the pandemic on drug claims in 2020 is assumed to be negligible, and so were not adjusted. The adjustment factors for medical and drug were then weighted together to develop an overall BEP allowed claim adjustment factor. Please see the exhibit titled "PA BEP COVID Adj Support" in the supplemental exhibits file "2022 Supplemental Exhibits - FPLIC_071321.xlsx" submitted with this filing for a demonstration of this adjustment factor development.

- b. The projection period claims were first established using trend projections under non-COVID baseline assumptions, effectively removing the noise introduced by COVID. Using a non-COVID baseline experience environment, claims were projected into the rating period using traditional methods of claim trend projections, as discussed in the Trend Identification section above.
- c. The projected non-COVID baseline claims were then further adjusted by applying the anticipated impacts of COVID costs expected in the projection period. There are four components of this adjustment determined by the Company:

- 1) **COVID Treatment (\$0.07 PMPM)** – COVID treatment utilization in 2022 is expected to follow a similar utilization pattern as flu treatment from 2018 and 2019 (roughly 0.003 admits per 1000 members per month), with COVID-specific admission costs based on recent admission costs for COVID (roughly \$26,000 cost per admit).
- 2) **COVID Testing (\$1.01 PMPM)** – COVID testing utilization in 2022 is expected to follow a similar utilization pattern as flu testing from 2018 and 2019 (roughly 9 tests per 1000 members per month), with COVID specific testing costs based on recent testing costs for COVID (roughly \$112.87 cost per test).
- 3) **COVID Vaccine (\$2.05 PMPM)** – The Company is expecting that a total of 43% of members will receive a COVID vaccine. This assumes that 60% of members 18-64 utilize a vaccine and 40% of members under 18 utilize a vaccine. In addition to this, some vaccines are not reported in the billing system so expected utilization is further reduced by 25%.

The cost of the vaccine is assumed to be \$115 per dose. This is a combination of a \$40 cost for administering the vaccine and \$75 cost for the vaccine itself.

Finally, the average number of doses per member is assumed to be 0.5. This reflects the assumption that members will need a COVID vaccine every other year. This results in a cost of \$2.05 PMPM, which represents the expected cost that the Company will incur during the 2022-2023 coverage period stemming from 2022 policy year contracts.

- 4) **Additional morbidity (0.50% claims impact)** – Due to insureds missing preventative care (maintenance care and testing services) and quarantine rules leading to a more sedentary lifestyle, the Company expects a general trend towards worsening member morbidity. The following categories of care are expected to be impacted: Cardiology, Joint Degeneration, Diabetes, Mood Disorder & Depression, and Alcohol Treatment. The range of possible cost increases in these categories is assumed to be between 1% and 5%, which equates to 0.2% to 1.1% of total claims. Pricing assumes an overall claims impact of 0.5%, which is applied to the underlying medical and drug claims expected in the projection period.

The application of the above COVID claim adjustments to the rating period results in a COVID adjustment factor of 0.98%. Please see the exhibit titled “COVID Experience Adj Support” in the supplemental exhibits file “2022 Supplemental Exhibits - FPLIC_071321.xlsx” submitted with this filing for a demonstration of the development of the adjustment factors referenced above. The combined impact of these adjustment factors is a component of the Change in Morbidity Factor in Table 5. Please refer to the exhibit titled “Table 5 Support” in the supplemental exhibits file “2022 Supplemental Exhibits - FPLIC_071321.xlsx” submitted with this filing for a demonstration of how these adjustment factors are combined and translated into the Change in Morbidity Factor.

Small Group Quarterly Rates

For this Small Group Market filing, Table 5A has been completed, showing the number of member months renewing by quarter, and the quarterly Single Risk Pool Projected Allowed Claims. For this filing, quarterly rates are proposed, with rates adjusted each quarter as shown in the quarterly Annual Trends presented in Table 5A. Note that several adjustments are made to the Total Annual Trend from Table 3 to arrive at the quarterly Annual Trends shown in Table 5A. These adjustments include:

- a. The COVID adjustment to the base experience data (discussed above) is removed, as that adjustment will not have an ongoing impact in the projection period;
- b. The Induced Utilization trend is excluded from the quarterly rate trends;
- c. The quarterly rate trends are further adjusted to remove the impact of the Company's cost saving initiatives that produce one-time savings;
- d. The timing of the renewals within the quarter are more appropriately considered; and
- e. The quarterly rate trends more appropriately reflect that administrative costs do not increase at the same rate as claims.

b. Retention Items (Table 6)

Table 6 has been completed with the requested retention elements for the proposed rates for the rating period. The administrative expenses and taxes and fees presented in the rate development in Table 6 cell C53 equal the Taxes and Fees in Table 10.

Administrative costs reflect internal costs that the Company is projected to incur in the projected experience period and are developed from standard expense allocation methods. Agent/broker fees and commissions reflect the Company's anticipated costs for these items in the experience period.

The development of internal administrative costs utilizes an allocation of Company costs back to lines of business. The allocation method uses measurable stats such as claims worked, inquiries worked, contracts, and members to allocate the majority of expenses. When possible, expenses are direct charged if they can be identified by product instead of going through an allocation method. For corporate allocations, a TCI (total costs incurred) methodology is generally used to allocate by product.

Administrative expense loads vary by plan to more appropriately capture the costs associated with plan administration. The total administrative costs anticipated by the Company have been split such that each plan receives a PMPM administrative load, along with a percent of premium administrative load. This methodology results in percent of premium expense loads that vary by plan.

The following Taxes and Fees were included in the rate development:

- \$0.24 PMPM for the PCORI Fee;

- \$0.25 PMPM for the Risk Adjustment User Fee; and
- 2% of premium for the PA premium tax

Note the following regarding plan level retention items:

- The rate development reflects a 0% profit and risk load for all products and plans. The Company has voluntarily refrained from including a profit and risk load in this filing. By this voluntary action, the Company is not waiving any right to include a profit and risk load which the Company believes is consistent with historical and legal interpretations of the Company and the Department.
- Expenses for Quality Improvement Initiatives are estimated to be 7% of internal Company expenses, based upon historical analysis of these costs.

c. Normalized Market-Adjusted Projected Allowed Total Claims (Table 7)

The normalization factors presented in Table 7 are each determined from the underlying membership demographics expected in the projected rating period. The 2021 values are pulled from the prior year's filing, while the 2022 values represent the Company's projection for 2022 assumed in the 2022 rate development.

The Age Factor is the weighted average of the Average Age Factors for the Current ACA Book of Business as of February 2021 and for the membership moving to the ACA Book (from transitional and new business).

The Geographic Calibration Factor is the weighted average of the Area Factors, weighted by the projected membership in each rating area.

The Tobacco Surcharge is not applicable since the Company does not use one.

d. Components of Rate Change (Tables 8 and 9)

Table 8 presents the components of change in the proposed 2022 Calibrated Plan Adjusted Index Rate (PMPM). The 2021 base period allowed claims is carried over from the 2021 rate filing. Row H of Table 8 may differ from Row A due to the detailed breakdown of all the components of the increases in rows B through G not calculating exactly to the change in the calibrated plan adjusted index rate in Row A, which is the more accurate percentage change based on the rate development.

Table 9 presents the data elements supporting the calculations in Table 8. The amounts shown in the 2021 Column match those entered in the 2021 Column in the plan year 2021 rate filing.

3. Plan Rate Development (Table 10)

Table 10 showing the plan rate development has been completed following the instructions in the 2022 ACA-Compliant Health Insurance Rate Filing Guidance. This table shows the plans that the Company intends to offer in 2022, as well as plans discontinued from the 2021 portfolio for 2022. Since many Small Group market enrollees as of 2/1/2021 are still in plan year 2020 plans, the enrollees in plan year 2020 plans were mapped to the plan year 2021 plan that the Company anticipates they will renew into in 2021.]

The calibrated plan adjusted index rates for 2022 and 2021, and all the supporting factors, are calculated according to the instructions.

Each plan takes the Market Adjusted Index Rate and multiplies by the Pricing AV, Benefit Richness Factor, Benefits in Addition to EHB Factor, Provider Network Factor, Catastrophic Eligibility Factor, and Non-Funding of CSR Adjustment Factor (not applicable to Small Group) in order to calculate the Pure Premium. The Pure Premium is then grossed up to account for expenses (Admin Costs, Taxes & Fees, and Profit or Contingency) in order to calculate the Calibrated Plan Adjusted Index Rate.

Note that the HHS Actuarial Value Calculator was unable to accommodate all of the Company's benefit designs. Plans needing certification are marked in column I of Table 10. Screen shots of all of the AV calculations and the appropriate certifications are included as a separate attachment within the *Supporting Documentation* section in SERFF.

The requested Induced Utilization Exhibit was completed and is presented within the "2022 Supplemental Exhibits - FPLIC_071321.xlsx" file submitted with this filing (worksheet named "Induced Utilization"). Note that the calculated Induced Utilization factor in Column (8) is a component of the Actuarial Value Allowable Modifier. As such, it is adjusted by the Average Benefit Richness normalization factor of 1.133. In multiplying the Induced Utilization column (8) result by the Average Benefit Richness normalization factor, the result is the Induced Utilization factor appropriate for the plan's metal level (before normalization). These induced demand factors are consistent with the methodology described in the Department's rate filing guidance, which utilizes each plan's actuarial value to establish the appropriate induced demand factor for the plan.

The member- and network-weighted average of the pure plan-level Induced Utilization factors in the last column of the induced utilization exhibit against the projected membership does match the 1.000 expectation of the Department. This calculation can be seen at the bottom of the Induced Utilization Exhibit, where the formulas used in the calculation have been retained.

The Child Capping Adjustment is applied to the Age Calibration Factor in Table 10 to reflect the limitation on the number of children allowed in rating. This factor is determined by estimating the amount of lost revenue due to this restriction and applying the resulting factor to the normalized age factor in the base rate development.

Support for the calibration factors is shown in the "2022 Supplemental Exhibits - FPLIC_071321.xlsx" file on the worksheet named "Table 10 Calibration Factors".

4. Plan Premium Development for 21-Year-Old Non-Tobacco User (Table 11)

Table 11 presents the Company's 21-year-old non-tobacco premium in the Market for each rating quarter in 2022. As mentioned in Section 1.C above, the change in 21-year-old non-tobacco premium PMPM calculated in this table is a -0.07% increase, while the "percent rate change requested" from the SERFF Rate Review Detail Screen (and Table 10) is -0.20%.

5. Plan Factors

A. Age and Tobacco Factors (Table 12)

Please see Table 12 for the Company's age and tobacco factors.

B. Geographic Factors (Table 13)

Please see Table 13 for the Company's geographic factors. The Company's geographic factors for the rating period are unchanged from the currently approved factors.

As mentioned in the Cover Letter, the Company is not changing its product offerings by Rating Area.

C. Network Factors (Table 14)

Please see Table 14 for the Company's network rating factors. The Company's network factors for the rating period were updated as a component of this rate filing submission. The proposed network factors were developed based on a review of the average facility costs by network, using a market basket approach to procedures by facility/network. Similar levels of professional and pharmaceutical costs were added to each network to get an appropriate allowed claim basis for the network factors. The network costs were combined across rating regions as appropriate to establish the average network cost for the Company. Using the PPO network as the benchmark, relativities for other networks were established. Note that since this analysis is based only upon network costs by facility, these factors do not reflect morbidity differences among networks, and these factors are independent of the geographic factors discussed above. Please see the exhibit "Network Factors" in the "2022 Supplemental Exhibits - FPLIC_071321.xlsx" file for the development of these factors.

D. Service Area Composition

The Company follows the Rating Area designations created by the state. All counties within a Rating Area are serviced by the Company, according to the Rating Areas specified in Table 14. The Company has submitted its current 2021 service area and its proposed 2022 service area in the file "Pennsylvania Counties Map - 2022 Filings – FPLIC.pdf" submitted with this filing. There are no proposed changes to the Company's service area from 2021 to 2022.

E. Composite Rating

The Company is currently not planning to use CMS's composite rating method for any of its off-SHOP plans offered during the rating period.

6. MLR Exhibit

The table below summarizes the requested three-year MLR information:

Calendar Year	MLR		Member Months	
	Actual	Pricing	Actual	Pricing
2017	104.1%	89.0%	82,363	60,000
2018	86.0%	86.1%	98,078	76,872
2019	89.3%	90.0%	75,239	83,364

Please note that the values in the Pricing columns above come from the Pennsylvania Actuarial Memorandum exhibits for the referenced pricing year (Tables 5, 6, and 10). The Actual results shown are from the URRT Worksheet 1 values from the pricing year in which the referenced calendar year is the base experience period. Since the URRT Worksheet 1 Actual values represent calendar year results, while the Pricing values represents policy year estimates, variations between these two amounts are expected.

7. Actuarial Certifications

I, am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of the Company to accompany its rate filing (for calendar year 2022) for the Small Group Market off the Pennsylvania Exchange.

I hereby certify that the projected Index Rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102)
- Developed in compliance with the applicable Actuarial Standards of Practice
- Reasonable in relation to the benefits provided and the population anticipated to be covered
- Neither excessive nor deficient.

I certify that the Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.

I certify that all factor, benefit and other changes from the prior approved filing have been disclosed in the actuarial memorandum.

I certify that any new plan is not a modification of an existing plan (per the uniform modification standards in 45 CFR 147.106).

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

I certify that the AV Calculator was used to determine the AV Metal Values shown in Part I of Worksheet 2 in the URRT for all plans.

The Unified Rate Review Template does not demonstrate the process used by the Company to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of Qualified Health Plans for Federally-facilitated Exchanges, and for certification that the Index Rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

I certify that the information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2022 Rate Filing Justification.

Signed: [Redacted]

Date: 07/13/2021

Rate Change Summary

First Priority Life Insurance Company – Small Group Plans

Rate request filing ID # HGHM-132831354 - This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at

<http://www.insurance.pa.gov/Consumers/ACARelatedFilings/>

Overview

Initial requested average rate change:	-0.20% ¹
Revised requested average rate change:	N/A ¹
Range of requested rate change:	-5.50% to 2.96%
Effective date:	January 1, 2022
Mapped Members:	4,750
Available in:	Rating Areas 3

Key information

Jan. 2020-Dec. 2020 financial experience

Premiums	\$40,524,698
Claims	\$35,523,675
Administrative expenses	\$4,454,768
Taxes & fees	\$863,515
Company made (after taxes)	\$4,682,740

How it plans to spend your premium

This is how the insurance company plans to spend the premium it collects in 2022:

Claims:	89.1%
Administrative:	8.8%
Taxes & fees:	2.1%
Profit:	0.0%

The company expects its annual medical costs to increase **8.4%**.

Explanation of requested rate change

The combined expectation of projected claims and administrative expenses has decreased relative to what was expected in developing the prior year's filed rates.

¹ Note that insurers will have the opportunity to revise their rate change request in July, after they are scheduled to receive updated information about the impact of a federal program called risk adjustment. This document will be updated accordingly at that time.

Unified Rate Review v5.3

Company Legal Name:First Priority Life Insurance Company

HIOS Issuer ID:55957

Effective Date of Rate Change(s):01/01/2022

State:PA

Market:Small Group

To add a product to Worksheet 2 - Plan Product Info, select the Add Product button or Ctrl + Shift + P.

To add a plan to Worksheet 2 - Plan Product Info, select the Add Plan button or Ctrl + Shift + L.

To validate, select the Validate button or Ctrl + Shift + I.

To finalize, select the Finalize button or Ctrl + Shift + F.

Market Level Calculations (Same for all Plans)

Section I: Experience Period Data

Experience Period:01/01/2020to12/31/2020

TotalPMPM

Allowed Claims	\$34,605,514.49	\$630.93
Reinsurance	\$0.00	\$0.00
Incurred Claims in Experience Period	\$30,523,675.31	\$556.51
Risk Adjustment	\$3,521,638.24	\$64.21
Experience Period Premium	\$37,003,059.47	\$674.65
Experience Period Member Months	54,848	

Section II: Projections

Benefit Category	Experience Period Index Rate PMPM	Year 1 Trend		Year 2 Trend		Trended EHB Allowed Claims PMPM
		Cost	Utilization	Cost	Utilization	
Inpatient Hospital	\$109.79	1.031	1.140	1.031	1.051	\$139.83
Outpatient Hospital	\$218.96	1.031	1.140	1.031	1.051	\$278.86
Professional	\$143.43	1.031	1.140	1.031	1.051	\$182.67
Other Medical	\$14.17	1.031	1.140	1.031	1.051	\$18.05
Capitation	\$0.43	0.961	1.000	0.961	1.000	\$0.40
Prescription Drug	\$144.15	1.031	1.140	1.031	1.051	\$183.59
Total	\$630.93					\$803.39

Morbidity Adjustment	1.005
Demographic Shift	0.983
Plan Design Changes	1.005
Other	1.000
Adjusted Trended EHB Allowed Claims PMPM for01/01/2022	\$797.65
Manual EHB Allowed Claims PMPM	\$0.00
Applied Credibility %	100.00%

Projected Period Totals

Projected Index Rate for01/01/2022	\$797.65	\$50,625,250.20
Reinsurance	\$0.00	\$0.00

Rating Area 3	1.0000

Part II of the Preliminary Justification

First Priority Life Insurance Company – Small Group Market

Scope and Range:

First Priority Life Insurance Company is requesting a weighted average rate change of 0.02% weighted on the current premium for renewing plans shown in the Unified Rate Review Template for its 2022 ACA qualifying small group products with effective dates from January 1, 2022 to December 31, 2022. This rate increase represents the average rate change that the 4,661 members in renewing plans will experience. In total, this rate filing will impact 4,750 individuals.

Due to changes in benefits and plan design pricing relativities, average rate changes at the plan level differ and range from -5.29% to 3.10% as shown in the Unified Rate Review Template.

The proposed rate changes are being driven by medical care costs and the underlying morbidity of the First Priority Life Insurance Company's covered population in its ACA products.

Lower cost small groups are expected to remain outside the ACA single-risk pool for most of 2022 due to more favorable premium rates afforded to them in the pre-ACA rating formula. The remaining population expected to enroll in the ACA qualifying products represents a small portion of the pool, and those groups generally have unfavorable demographics and higher than average claim costs.

Historical Financial Experience:

First Priority Life Insurance Company reported a financial gain in 2020.

Change in Medical Service Costs:

The projected average cost of medical care for the projected population is expected to increase. The increase will emerge in utilization and average cost per service and is spread across all types of services.

Change in Benefits:

8 plan designs have been terminated, 3 plan designs are new, and 51 plan designs had benefit changes, all due to a re-evaluation of benefit designs and marketing considerations.

Administrative Costs, Anticipated Operating Results, and Medical Loss Ratio:

Relative to the 2021 rate filing, administrative expenses have increased 0.8% for the 2022 rate filing. The anticipated operating results are not excessive or unreasonable. In accordance with regulations, the projected medical loss ratio is over 80%.

I. General Information

Document Overview

This document contains the Part III Actuarial Memorandum for First Priority Life Insurance Company (“FPLIC”, “Company”) Small Group block of business rate filing (“Filing”), for products with effective dates in calendar year 2022. This actuarial memorandum is submitted in conjunction with the Part I Unified Rate Review Template.

The purpose of the actuarial memorandum is to provide certain information related to the submission, including support for the values entered into the Part I Unified Rate Review Template, which supports compliance with the market rating rules and reasonableness of applicable rate increases. This information may not be appropriate for other purposes.

This information is intended for use by the Pennsylvania Insurance Department, the Center for Consumer Information and Insurance Oversight (CCIIO), and their subcontractors to assist in the review of FPLIC’s Filing. However, we recognize that this certification may become a public document. FPLIC makes no representations or warranties regarding the contents of this letter to third parties. Likewise, third parties are instructed that they are to place no reliance upon this actuarial memorandum prepared by FPLIC that would result in the creation of any duty or liability under any theory of law by FPLIC or its employees to third parties.

The results are actuarial projections. Actual experience is likely to differ for a number of reasons, including population changes, claims experience, and random deviations from assumptions.

I.1 Company Identifying Information:

- Company Legal Name: First Priority Life Insurance Company
- State: The Commonwealth of Pennsylvania has regulatory authority over these policies
- HIOS Issuer ID: 55957
- Market: Small Group
- Effective Date: January 1, 2022

II. Proposed Rate Changes

Please refer to the Pennsylvania Actuarial Memorandum and Exhibits submitted with this filing for a breakdown of the component items driving this rate change for first quarter renewals.

For all rate increases by plan, see the ‘Cumulative Rate Change % (over 12 mos prior)’ found in line Worksheet 2, 1.11 of the URRT. The rate changes vary by plan due to changes in the allowable plan level base rate components (pricing actuarial factors, geographic rating factors, network discounts, and administrative charges). These components are re-evaluated each year

to keep pace with market changes and changes in health care costs. For 2022, the Company's proposed rate revisions vary by plan according to the detail presented in the URRT, Worksheet 2.

This filing assumes that there will be no significant changes in legislation, regulations or otherwise (i.e. rules, regulatory guidance, etc.) impacting the ACA market subsequent to the filing date, and that there are no significant changes in the participation of QHP issuers that would materially change the company's expected liabilities. This filing also assumes that transitional plan coverage will be available in the Pennsylvania Small Group market through 2022. Modifications to the rate development may be necessary if significant unforeseen events occur. Examples include, but are not limited to, repeal or invalidation of the ACA or material developments in the course of the COVID pandemic. As a result, FPLIC reserves the right to submit a revised filing.

III. Experience and Current Period Premium, Claims, and Enrollment

III.1 Paid through Date:

Experience period claims were based on incurred calendar year 2020, paid through February 2021. This experience includes 2020 experience in Affordable Care Act compliant plans. FPLIC's transitional plan experience for 2020 has not been included in the experience period data.

III.2 Current Date:

The current date used for enrollment and premium is February 2021.

III.3 Allowed and Incurred Claims Incurred During the Experience Period:

- Historical Experience: The URRT historical experience section was completed with FPLIC's current experience for the small group block of business for the period January 1, 2020 through December 31, 2020, with claims paid through February 2021.
- Claims Incurred During the 12-month experience period: Worksheet 1, Section I shows the Company's best estimate of the amount of claims that were incurred during the 12-month experience period for FPLIC's small group book-of-business. This section includes:
 - The amount of claims which were processed through the Company's claims system,
 - Claims processed outside of the Company's claims system (Rx rebates, settlements, capitated benefits), and
 - The Company's best estimate of claims incurred but not paid as of the Paid through Date stated above.

- **Method for Determining Allowed Claims:** For non-capitated claims, the allowed charges are summarized from FPLIC's detailed claim-level historical data. This experience includes 2020 claims in Affordable Care Act compliant plans. FPLIC's transitional plan experience for 2020 has not been included in the experience period data. For capitated and other off-system claims, historical capitations and experience were tabulated and added to the claims.
- **Paid Claims:** Paid claims were summarized from detailed member records. The paid-to-allowed ratio for the experience period reflects the underlying benefit plan designs chosen by each member.
- **Incurred but Not Paid (IBNR) Claims Estimate:** FPLIC's estimate of the remaining incurred but not recorded (IBNR) claims reflects the anticipated IBNR as of the end of the paid claim run out period. The IBNR completion factor of 0.980 was developed for FPLIC's total small group business through analysis of historical claim completion factors. The completion factor was applied equally to both paid and allowed total claims (as a change in utilization) to complete the experience.

IV. Benefit Categories

Experience period claims data were pulled from the Company's claims systems and categorized into benefit category components according to types of services associated with each claim. The resulting categories closely adhere to the preferred definitions of the Benefit Categories included in the URRT instructions, including the "Other Medical" category. The "Other Medical" category units reflect visits for PDN/home health, trips for ambulance and procedures for DME/prosthetics. The "Capitation" category represents the monthly charge paid to the Company's Vision benefit provider for covering pediatric vision benefits.

V. Projection Factors

V.1 Trend Factors (cost/utilization)

This development of the CY 2022 rates reflects an annual trend rate of 8.44%% (3.14% cost, 5.13% utilization). To arrive at the trend assumption, the experience period cost and utilization data were pulled from the Company's claims systems by the defined benefit categories. The trend development uses a projection of allowed claim PMPMs by service category that takes into account many factors, including the Company's expectations of changes in in-network provider contracting levels, changes in out-of-network costs, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. To reflect the impact of provider contracting on trend, changes in in-network provider contracting levels, either known or anticipated, are factored into the cost component of trend using detailed analysis of the impact on claim levels from each material provider arrangement.

The allowed claims used for the development of the trend are adjusted and normalized to obtain a claim basis appropriate for trend development. These adjustments include changes for in-network provider contracting levels, changes for out-of-network costs, changes in utilization from medical management programs, and changes in drug costs from impacts such as generic drug development and new drug treatments. In addition, the trend estimates normalize for benefit leveraging, population aging, changes in fee schedules, and external trend drivers. The projection of claim costs into the rating period utilizes the same categories of adjustment factors, adjusts for seasonality, and uses a statistical regression of historical trend levels to project monthly claim levels. This normalized and adjusted claim progression is then used to provide the basis for the trend regression model, which will be used to establish the Company's rating trend.

The regression trend model is used to smooth out noise in the historical claim levels and to provide an appropriate jumping off point for projected claim levels. Using the factors discussed above to adjust projected claim levels, an appropriate assumption for trend was established using the experience period claim levels as the starting point. Since historical experience would encompass the expected coverage and demographic makeup of the membership, historical claim levels, adjusted for these factors and projected forward, would represent the best estimates of trend for this block of business.

For the rate development, the Company uses the aggregate claim trend for all types of service, applied to the experience period. This is done so that the combined trend is reasonable in consideration of the various pricing trend components and the overall anticipated trend level. Claim variations due to the specific projected enrolled population in this single risk pool are reflected in the morbidity adjustment.

In addition to the trend in medical and drug claims discussed above, the trend reflects changes in anticipated costs for claims processed outside of the Company's claims system, including Rx rebates and settlements. The trend for capitated benefits is determined from the anticipated change in the per member costs from the experience period to the projection period. Projected capitation rates are provided by our vision provider.

The Company performed a separate analysis to identify the impact of COVID on the base experience trend data and adjusted the historical claims data accordingly. See the Impact of COVID section below for the magnitude of this adjustment, along with additional detail. This COVID adjustment to the base period data impacts the Year 1 Utilization Trend in the URRT, Worksheet 1.

V.2 Morbidity Adjustment

The morbidity adjustment reflects the anticipated changes in the average morbidity of the covered population (beyond allowable rating factors) from the experience period to the rating period. As the Company has seen through the transitional coverage availability period, many of the Small Group market customers have retained their pre-ACA coverage, and have yet to join the ACA risk pool. With the transitional coverage provisions proposed extension through the end of 2022 for groups that renew on or prior to October 1, 2022, the Company continues to believe that many groups, especially lower-risk groups, will continue to retain their current

transitional coverage until required to transfer coverage. The Company has observed that the groups currently enrolled are of lower morbidity than the groups that have lapsed and has reflected that difference in the morbidity adjustment.

Impact of COVID

To account for the impact of COVID, the Company made the following adjustments to its base experience period claims and its projected costs:

- a. The claims in the base experience period were adjusted to a non-COVID baseline environment (discussed in the Trend Factors section above). This was done to provide a more stable base from which to project future claims. Claims in the base experience period were adjusted upward by 8.0%, representing the estimated degree of claims suppression in the experience period. This adjustment is applied to the underlying medical and drug claims incurred in the experience period, excluding prescription drug rebates and other claims paid outside of the system. This adjustment is reflected in the Year 1 Utilization Trend in the URRT, Worksheet 1, where it is applied to claims net of Prescription Drug Rebates and other claims paid outside of the system, which results in an additional load to the Year 1 Utilization Trend in the URRT of 8.5%.

To determine the appropriate adjustment factor for the base experience period, the Company analyzed historical normalized allowed medical claim trends combined at the state and market level. Then the Company selected an appropriate medical trend amount for 2020 within the range of historical trend results. This trend was applied to the 2019 normalized allowed medical claims to project the non-COVID baseline medical claims for 2020, which were then compared to the actual 2020 experience normalized allowed medical claims to determine the adjustment factor indicated above. The overall impact of the pandemic on drug claims in 2020 is assumed to be negligible, and so were not adjusted. The adjustment factors for medical and drug were then weighted together to develop an overall BEP allowed claim adjustment factor.

- b. The projection period claims were first established using trend projections under non-COVID baseline assumptions, effectively removing the noise introduced by COVID. Using a non-COVID baseline experience environment, claims were projected into the rating period using traditional methods of claim trend projections, as discussed in the Trend Identification section above.
- c. The projected non-COVID baseline claims were then further adjusted by applying the anticipated impacts of COVID costs expected in the projection period. There are four components of this adjustment determined by the Company:
 - 1) ***COVID Treatment (\$0.07 PMPM)*** – COVID treatment utilization in 2022 is expected to follow a similar utilization pattern as flu treatment from 2018 and 2019 (roughly 0.003 admits per 1000 members per month), with COVID-specific admission costs based on recent admission costs for COVID (roughly \$26,000 cost per admit).

- 2) ***COVID Testing (\$1.01 PMPM)*** – COVID testing utilization in 2022 is expected to follow a similar utilization pattern as flu testing from 2018 and 2019 (roughly 9 tests per 1000 members per month), with COVID specific testing costs based on recent testing costs for COVID (roughly \$112.87 cost per test).
- 3) ***COVID Vaccine (\$2.05 PMPM)*** – The Company is expecting that a total of 43% of members will receive a COVID vaccine. This assumes that 60% of members 18-64 utilize a vaccine and 40% of members under 18 utilize a vaccine. In addition to this, some vaccines are not reported in the billing system so expected utilization is further reduced by 25%.

The cost of the vaccine is assumed to be \$115 per dose. This is a combination of a \$40 cost for administering the vaccine and \$75 cost for the vaccine itself.

Finally, the average number of doses per member is assumed to be 0.5. This reflects the assumption that members will need a COVID vaccine every other year. This results in a cost of \$2.05 PMPM, which represents the expected cost that the Company will incur during the 2022-2023 coverage period stemming from 2022 policy year contracts.

- 4) ***Additional morbidity (0.50% claims impact)*** – Due to insureds missing preventative care (maintenance care and testing services) and quarantine rules leading to a more sedentary lifestyle, the Company expects a general trend towards worsening member morbidity. The following categories of care are expected to be impacted: Cardiology, Joint Degeneration, Diabetes, Mood Disorder & Depression, and Alcohol Treatment. The range of possible cost increases in these categories is assumed to be between 1% and 5%, which equates to 0.2% to 1.1% of total claims. Pricing assumes an overall claims impact of 0.5%, which is applied to the underlying medical and drug claims expected in the projection period.

The application of the above COVID claim adjustments to the rating period results in a COVID adjustment factor of 0.98%. The combined impact of these adjustment factors is a component of the Morbidity Adjustment factor in the URRT Worksheet 1.

Total Morbidity Adjustment

In total, the Company expects that morbidity will worsen from the experience period. For the development of the CY 2022 rates, this is reflected with a 1.005 Morbidity Adjustment factor in the URRT Worksheet 1.

V.3 Demographic Shifts

The Company is expecting a decrease in the average age from the experience period to the projection period as the average age factor of our current business is lower than that in the experience period. For the development of the CY 2022 rates, this is reflected with a 0.983 Demographic Shift factor in the URRT Worksheet 1.

The average area factor is expected to stay stable, so changes in average area factors are not impacting the demographic shift factor.

V.4 Plan Design Changes

The following adjustments were made to reflect the expected differences in benefits between the experience period and projection period:

- Anticipated changes in the average utilization of services due to differences in average cost sharing requirements during the experience period and average cost sharing requirements in the projection period: -0.12%.
- Change in network benefits: 0.62%
- Newly mandated benefits required under state law, which are not reflected in the experience period claims: None.
- New benefits that are not part of the essential health benefit package or required under state law that did not exist in the experience period claims: None.
- The removal of benefits covered in the experience period claims that will not be covered in the projection period: None.

For the development of the CY 2022 rates, the combination of the above factors produces a 1.005 Plan Design Changes factor in the URRT Worksheet 1.

V.5 Other Adjustments

The Company's rate development for 2022 does not utilize any additional adjustment factors other than those discussed above. For the development of the CY 2022 rates, a 1.000 factor is shown for the Other adjustment factor in the URRT Worksheet 1.

VI. Manual Rate Adjustments

FPLIC's small group experience is fully credible (see Credibility of Experience section below); no manual rate is developed or used in this projection.

VII. Credibility of Experience

The Company has employed a credibility methodology consistent with ASOP #25 to determine the appropriate level of credibility to be assigned to the base experience period data. The assigned credibility level has been determined by referencing published studies from the Society of Actuaries (SOA), most notably "A Practical Approach to Assigning Credibility for Group Medical Insurance Pricing," as well as utilizing actuarial judgment in consideration of the Company's base experience period and projection period computations. Employing the conclusions confirmed in the referenced SOA study, the Company has established a full credibility threshold of 2,000 average members for the experience period. As the average members from the experience period membership for currently active members for this Company is 4,389, full credibility has been assigned to the base experience period.

VIII. Establishing the Index Rate

The index rates as shown on Worksheet 1 of the URRT are simply the average allowed claims for the Essential Health benefits for the experience and projected populations, respectively, for FPLIC. It is not adjusted for the risk adjustment program or any other fee. For the projection period, it is the member-weighted average of the quarterly rate indices (Jan 1, Apr 1, Jul 1, and Oct 1) based on the assumed membership distribution effective in each quarter, as shown in the table below.

2022	% of Members	Projected Quarterly Index Rate PMPM
1Q	50.4%	\$799.00
2Q	14.4%	\$820.39
3Q	11.5%	\$840.68
4Q	23.8%	\$857.11
Composite	100.0%	\$820.68

See the sections below for a description of how the projected index rate is adjusted to arrive at each plan adjusted index rate.

IX. Development of the Market-wide Adjusted Index Rate

The limitations imposed by verifications and rounding in the URRT v5.3 workbook produce a Market-wide Adjusted Index Rate that is slightly different from the one ultimately used in the rate development. Please see Exhibit I for a numerical demonstration of the Market-wide Adjusted Index Rate development that removes these limitations, including the Reinsurance, Risk Adjustment Payment/Charge, and Exchange User Fees discussed below.

IX.1 Reinsurance

FPLIC does not have any reinsurance contracts in effect that would impact this rate development. The consideration for the federal high-cost risk pooling program is discussed in the following Risk Adjustment Payment/Charge section.

IX.2 Risk Adjustment Payment/Charge

To arrive at the anticipated risk transfer for 2022, the Company determines the risk adjustment calculation components for the projected 2022 Company portfolio and uses its current knowledge of the Pennsylvania Small Group market profile to estimate the risk adjustment components for the entire state Market. This Market-wide profile is developed from available Market data, including the Interim Summary Report on Risk Adjustment for the 2020 Benefit Year published by CMS, the PA Insurance Department's calculation of 2020 risk adjustment transfer amounts using the final RATEE files, prior years' risk adjustment transfer results, publicly available data (such as MLR reports and rate filings), and outside expertise from actuarial consultants. For 2022, the Company is projecting a risk adjustment transfer amount of \$40.40.

The \$59.73 PMPM value in Worksheet 1 of the URRT equals the \$40.40 PMPM risk adjustment transfer value discussed above, along with a charge of \$3.27 PMPM for the projected net impact of the High Cost Risk Pool program [for applicable companies; as well as a credit for high cost risk pool claims from the experience period of -\$15.12 PMPM. This total risk adjustment transfer amount of \$52.24 is then grossed up by the average paid to allowed ratio of 0.875 to arrive at the appropriate value for the URRT.

IX.3 Exchange User Fees

The projected Exchange User Fees are developed from the Exchange user fees to be charged by CMS in 2022, multiplied by the percentage of business the Company expects to purchase Market coverage through the Exchange for the Company. For the Company, all business will be offered Off Exchange in 2022, so there are no Exchange User Fees charged in the rate development.

X. Plan Adjusted Index Rates

The Plan Adjusted Index Rates can be found on line 3.10, Worksheet 2 of the URRT. The Plan Adjusted Index Rates are calculated by applying the allowable rating factors as described below to the Market-wide Adjusted Index Rate. Please see Exhibit II for the development of the Plan Adjusted Index Rate for each plan.

X.1 AV and Cost Sharing Design of Plan

The AV and Cost Sharing allowable rating factor is comprised of the following components:

- The utilization due to differences in cost sharing is based on the factors calculated using a methodology prescribed in the Department's guidance relative to the weighted average. No differences due to health status are in these adjustments.

- The pricing AV for the benefits and cost sharing of the plan.

X.2 Provider Network Adjustment

The provider network adjustments are developed by dividing the plan level network factors by the overall weighted average from all plans.

X.3 Benefits in Addition to EHB

Only the expected costs of essential health benefits (EHB) are included in each of the Company's plans.

X.4 Administrative Expense

The proposed rates reflect internal administrative costs, including commissions and quality improvement admin. This cost was developed based on standard expense allocation methods, as follows:

- Administrative expenses are recorded in the general ledger. Indirect operating expenses are then grouped based upon like functions, responsibilities or cost drivers and allocated to final cost objects via an appropriate cost driver.

Administrative expense loads vary by plan to more appropriately capture the costs associated with plan administration. The total administrative costs anticipated by the Company have been split such that each plan receives a PMPM administrative load, along with a percent of premium administrative load. This methodology results in percent of premium expense loads that vary by plan.

X.5 Taxes and Fees

The following taxes and fees were included in the 2022 rate development:

- \$0.24 PMPM for the PCORI Fee;
- \$0.25 PMPM for the Risk Adjustment User Fee; and
- 2% of premium for the PA premium tax

In total, these taxes and fees amount to 2.07% of the anticipated premium collected in 2022.

X.6 Profit & Risk Load

The proposed rates reflect 0% of premium as a profit and risk load. The Company has voluntarily refrained from including a profit and risk load in this filing. By this voluntary action, the Company is not waiving any right to include a profit and risk load which the Company believes is consistent with historical and legal interpretations of the Company and the Department.

XI. Calibration

XI.1 Age Curve Calibration (to age 21, non-smoker, area with 1.0 geographic factor, January 1 effective date)

The projected weighted average age factor is 1.538. Each Plan Adjusted Index Rate represents the rate for an average member (i.e., a member with an age factor of 1.538). Please note that no member will pay these rates because the age factor of 1.538 is not found on the HHS Age Curve. It only represents the average age factor of the projected population. Please see Exhibit I for the development of the calibration factor, which calibrates the index rate to an Age 21 age factor. The Age Calibration Factor shown in URRT Worksheet 2 is the inverse of weighted average age factor, which for FPLIC is 0.6500.

XI.2 Geographic Factor Calibration

The projected weighted average geographic factor is 1.000. Each Plan Adjusted Index Rate represents the rate for an average member with a geographic factor of 1.000. Please note that no member will pay these rates because FPLIC is not using a geographic factor of 1.000 for any of the Pennsylvania rating areas. It only represents the average geographic factor of the projected population. Please see Exhibit I for the development of the calibration factor. The Geographic Calibration Factor shown in URRT Worksheet 2 is the inverse of weighted average geographic factor, which for FPLIC is 1.000.

XI.3 Tobacco Use Rating Factor Calibration

The Company does not currently utilize tobacco rating factors.

XII. Consumer Adjusted Premium Rate Development

The Calibrated Plan Adjusted Index Rate shown in URRT Worksheet 2 represents the rate for a non-smoker member with a 1.0 age factor and 1.0 geographic factor for a 1/1/2022 renewal. The appropriate value to calibrate the Plan Adjusted Index Rate by is located at the bottom of Exhibit I. By applying the 'Combined Calibration Factor' found in Exhibit I or the calibration factors in 3.11, 3.12 and 3.13 of URRT Worksheet II Section III to the Plan Adjusted Index Rates, the resulting value will represent the plan premium for a 21 year old in a 1.0 area on 1/1/2022. The standard HHS Age Curve and area factors of 1.0 for region 3 can be used to calculate any rate found in the QHP rate template.

The Company is filing quarterly Index Rate trends that vary by quarter. Subsequent quarterly rates can be developed by multiplying the first quarter rates by 1.027 for second quarter rates; 1.052 for third quarter rates; and 1.073 for fourth quarter rates. Please refer to the Pennsylvania Actuarial Memorandum submitted with this filing for additional commentary related to the development of these quarterly Index Rate trends.

XIII. Projected Loss Ratio

The anticipated medical loss ratio reflected in this annual rate change filing is 88.8% relative to total premium less taxes and fees. This loss ratio is calculated consistent with the federally prescribed MLR methodology.

XIV. AV Metal Values

The AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were based the Federal AV Calculator. Some plans did require an adjustment to the inputs entered into the AV calculator. Screen shots and certifications for these plans were submitted as part of the Company's QHP application.

XV. Membership Projections

Since transitional policy relief has been proposed to extend through 2022 for groups that renew on or prior to October 1, 2022, the Company projects that the bulk of the members in the small group market will remain outside of the ACA-compliant products, and remain outside the ACA single-risk pool. Any new business anticipated in FPLIC will come primarily from current ACA customers. FPLIC is expecting growth in its ACA membership from the experience to the projection period. See line 4.9 of the URRT Worksheet 2 to see projected membership by plan.

XVI. Terminated Plans and Products

FPLIC is terminating 8 plans that were active in the 2020 experience period. These plans are being terminated due to a re-evaluation of benefit design options and marketing considerations. These plans will be mapped to a corresponding plan of similar metal level and plan design, and the experience period members and allowed charges will be moved to the mapped plans in the URRT.

Exhibit III lists all terminating QHP plans, as well as their URRT plan mappings.

XVII. Plan Type

The Plan types listed in Worksheet 2, Section I of the Part I Unified Rate Review Template describe the Company's plans adequately.

XVIII. Actuarial Certification

I am a member of the American Academy of Actuaries and meet its qualification standards for actuaries issuing statements of actuarial opinions in the United States. This filing is prepared on behalf of FPLIC to accompany its rate filing (for calendar year 2022) for the Small Group Market off the Pennsylvania Exchange.

I hereby certify that the projected Index Rate is, to the best of my knowledge and understanding:

- In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102);
- Developed in compliance with the applicable Actuarial Standards of Practice;
- Reasonable in relation to the benefits provided and the population anticipated to be covered;
- Neither excessive nor deficient.

I certify that the Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.

I certify that the AV Calculator was used to determine the AV Metal Values shown in Part I of Worksheet 2 in the Unified Rate Review Template for all plans. If any adjustments were required outside of the AV Calculator, appropriate certification has been provided to CMS through the QHP application process.

I certify that the geographic rating factors reflect only differences in the costs of delivery (which can include unit cost and provider practice pattern differences) and do not include differences for population morbidity by geographic area.

The Part I Unified Rate Review Template does not demonstrate the process used by FPLIC to develop the rates. Rather, it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of Qualified Health Plans for Federally-facilitated Exchanges and for certification that the Index Rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

⁽¹⁾ Permitted Plan-Level Adjustments to the Index Rate as prescribed in 45 CFR Part 156, §156.80(d)(2):

- (i) The actuarial value and cost-sharing design of the plan.
- (ii) The plan's provider network, delivery system characteristics, and utilization management practices.
- (iii) The benefits provided under the plan that are in addition to the essential health benefits.
- (iv) Administrative costs, excluding Exchange user fees.
- (v) With respect to catastrophic plans, the expected impact of the specific eligibility categories for those plans.

2022 Rates Table Template v11.0		All fields with an asterisk (*) are required. To validate, press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F. If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns. If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an individual Rate for every age band. Tobacco Use/Non-Tobacco Use: you must give a rate for Tobacco Use and Non-Tobacco Use. To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

2022 Rates Table Template v11.0		All fields with an asterisk (*) are required. To validate, press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F. If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns. If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an individual Rate for every age band. Tobacco Users/Non-Tobacco Users: you must give a rate for Tobacco Use and Non-Tobacco Use. To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.		
HIOS Issuer ID		55957		
Rate Effective Date		01/01/2022		
Rate Expiration Date		09/30/2022		
Rating Method		Age-Based Rates		
Plan ID*	Rating Area ID*	Tobacco*	Age*	Individual Rate*
Required: Enter the 14-character Plan ID	Required: Select the Rating Area ID	Required: Select if Tobacco use of subscriber is used to determine if a person is eligible for a rate from a plan	Required: Select the age of a subscriber eligible for the rate	Required: Enter the rate of an individual Non-Tobacco or Tobacco enrollee on a plan

2022 Rates Table Template v11.0		All fields with an asterisk (*) are required. To validate, press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F. If you are in a community rating state, select Family Tier Rates under Rating Method and fill in all columns. If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an individual Rate for every age band. Tobacco Users/Non-Tobacco Users: you must give a rate for Tobacco Use and Non-Tobacco Use. To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.				
HIOS Issuer ID		55957				
Rate Effective Date		10/01/2022				
Rate Expiration Date		12/31/2022				
Rating Method		Age-Based Rates				
Plan ID*		Rating Area ID*	Tobacco*	Age*	Individual Rate*	
Required: Enter the 14-character Plan ID		Required: Select the Rating Area ID	Required: Select if Tobacco use of subscriber is used to determine if a person is eligible for a rate from a plan		Required: Select the age of a subscriber eligible for the rate	
					Required: Enter the rate of an individual Non-Tobacco or Tobacco enrollee on a sheet. No Preference enrollee on a sheet.

BEP COVID-19 Adjustment Factor Development

Please note:

- The BEP COVID-19 Adjustment is calculated using experience for the entire PA Small Group Market
- The BEP COVID-19 Adjustment is on an allowed basis
- The BEP COVID-19 Adjustment is for medical claims only; COVID-19 impact to drug claims is negligible
- Total BEP COVID-19 Adjustment uses CY 2019 medical/drug distribution to blend adjustment factors

Normalized Allowed Medical Claims PMPM - (CY 2019)	\$	347.33
Range of Historical Medical Trends - (2017 - 2019)		5.2% - 14.5%
Anticipated Medical Trend - Entire PA Small Group Market		7.2%
Anticipated Normalized Allowed Medical Claims PMPM - (CY 2020)	\$	372.21
Actual Normalized Allowed Medical Claims PMPM - (CY 2020)	\$	335.98
Medical BEP Adjustment Factor - (CY 2020)		0.9027
Drug BEP Adjustment Factor - (CY 2020)		1.0000
Total BEP Adjustment Factor - (CY 2020)		0.9261
Total BEP Adjustment Factor Reciprocal - (CY 2020)		1.0798

In this exhibit, Allowed Medical Claims PMPMs exclude high dollar claims and are normalized only for work days and demographics.

2022 Small Group Rate Filing
COVID Projection Support

1. Covid Treatment:

Admits per 1000 per Month	0.003
Cost per Admit	\$ 26,014.13
PMPM Cost	\$ 0.07

2. Covid Testing:

Tests per 1000 per Month	8.935
Cost per Test	\$ 112.87
PMPM Cost	\$ 1.01

3. Covid Vaccine:

Percent of Population Receiving Vaccine per Year	42.8%
Vaccine Cost	\$ 75.00
Administrative Cost	\$ 40.00
Expected Annual Dose	0.5
Cost per Vaccine	\$ 57.50
PMPM Cost	\$ 2.05

4. Covid Induced Morbidity Change:

ETG Category	Sub-Category	% of Claims Small Group
Cardiology	Total	9.3%
Orthopedics & Rheumatology	Joint Degeneration	6.1%
Endocrinology	Diabetes	4.5%
Psychiatry	Mood disorder, depressed	1.6%
Chemical Dependency	Alcohol Treatment	0.5%
Total Impacted Claims		22.0%

Minimum expected % claims increase in these categories	1%
Minimum % Impact to Claims	0.2%

Maximum expected % claims increase in these categories	5%
Maximum % Impact to Claims	1.1%

COVID Induced Morbidity Change:	0.5%

Re: First Priority Life Insurance Company (FPLIC) 2022 ACA Rate Filing (Small Group Market)
FPLIC Filing # 1A-SG-FPLIC-2021 (SERFF Filing # HGHM-132831354)

Dear Ms. Gray:

This letter accompanies the Company's response to the Department's data call request from June 11, 2021 to identify any changes made to the original First Priority Life Insurance Company (FPLIC) (NAIC # 60147; HIOS Issuer ID # 55957) Small Group Market Off Exchange ACA rate filing and the supporting rate development for policies with effective dates on or after **January 1, 2022**. In response to the Department's data call, the Company proposes no revisions to its original 2022 Small Group ACA Filing.

Should you have any questions regarding this Filing or these revisions, please feel free to contact me at (412) 544-3845 or via e-mail at: Cory.Orzak@highmark.com.

Sincerely,

Cory Orzak, FSA, MAAA
Vice President, Actuarial Services
Highmark Inc.

Objection Letter Status: Data Request Sent

Objection Letter Date: 06/11/2021

Respond By Date: 6/22/2021

Response Date: 06/22/2021

Below please find our responses to the First Priority Life Insurance Company (FPLIC, "Company") Small Group 2022 ACA Rate Filing Objection Letter dated 06/11/2021. For convenience, the questions have been reproduced below, with our responses immediately following each question.

A supplemental exhibits file has been submitted along with this response. Please see the file named "PID Response Exhibits FPLIC 06222021.xlsx," which contains additional exhibits and supplemental detail, as referenced in the below responses.

1. Please confirm that you have tested to ensure that the rates in Table 11 of the PA AM Exhibits, PA Plan Design Summary and Rate Table, Federal Rates Template, and binder are identical.

Response:

The Company confirms that they thoroughly test the rates of each rate filing submission to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, Federal Rates Template, and binder are identical.

2. Please provide an exhibit that quantitatively shows a comparison of the actual to projected claim cost PMPMs for calendar years 2017-2020, as applicable.

Response:

The requested exhibit has been included in the "PID Response Exhibits FPLIC 06222021.xlsx" file included in this response in a worksheet labeled "Q#2".

3. Please provide an exhibit which demonstrates that the criteria for the expanded bronze plan(s) have been met.

Response:

The Company has filed the following expanded bronze plans. The appropriate requirement for using the expanded bronze plan *de minimus* range is listed after the plan.

HIOS ID	Plan Name	Criteria for Qualifying as Expanded Bronze Plan
55957PA0270013	BlueCare PPO \$5400 Bronze	Covers and pays for at least one major service before the deductible: PCP
55957PA0290021	BlueCare Custom PPO \$5400 Bronze	Covers and pays for at least one major service before the deductible: PCP

First Priority Life Insurance Company (FPLIC) 2022 Small Group Rate Filing

Question #2

Year	Projected Claims*	Actual Claims**
2017	\$467.54	\$506.65
2018	\$475.27	\$505.87
2019	\$619.63	\$584.78
2020	\$607.24	\$550.20

*Projected Claims are the incurred claims from URRT Worksheet 1 (prior to 2020) or URRT Worksheet 2 (2020) prior to risk reimbursement programs

**Actual Claims are calculated as ultimate Incurred Claims + Prescription Drug Rebates in Table 4 from the 2022 filing

Note that since the Projected Claims reflect policy year expectations for Q1 effective dates, while the Actual Claims are calendar year, variations are expected. In addition, actual results, including differences in demographic mix and population risk profiles, will have differed from expectations.

Re: First Priority Life Insurance Company (FPLIC) 2022 ACA Rate Filing (Small Group Market)
FPLIC Filing # 1A-SG-FPLIC-2021 (SERFF Filing # HGHM-132831354)

Dear Ms. Gray:

This letter accompanies the Company's response to the Department's data call request from July 6, 2021 to identify any changes made to the original First Priority Life Insurance Company (FPLIC) (NAIC # 60147; HIOS Issuer ID # 55957) Small Group Market Off Exchange ACA rate filing and the supporting rate development for policies with effective dates on or after **January 1, 2022**. In response to the Department's data call, the Company proposes no revisions to its original 2022 Small Group ACA Filing. However, in order to meet the requirements of the Mental Health Parity and Addiction Equity Act, the Company needed to modify the benefits and the resulting Actuarial Values (AV) for the following plans:

HIOS Plan ID	Original AV	Revised AV
55957PA0270031	0.798	0.797
55957PA0290030	0.798	0.797
55957PA0270028	0.787	0.784
55957PA0290031	0.787	0.784

The result of these AV revisions has no significant impact on the Company's originally filed rate change of -0.2%. Any documents and exhibits impacted by this change have been re-submitted along with this response.

Should you have any questions regarding this Filing or these revisions, please feel free to contact me at (412) 544-3845 or via e-mail at: Cory.Orzak@highmark.com.

Sincerely,

Cory Orzak, FSA, MAAA
Vice President, Actuarial Services
Highmark Inc.

Pennsylvania Insurance Department ID #: HGHM-132831354**

Objection Letter Status: Data Request Sent

Objection Letter Date: 07/06/2021

Respond By Date: 7/13/2021

Response Date: 7/13/2021

Below please find our responses to the First Priority Life Insurance Company (FPLIC, "Company") Small Group 2022 ACA Rate Filing Objection Letter dated 07/06/2021. For convenience, the questions have been reproduced below, with our responses immediately following each question.

A supplemental exhibits file has been submitted along with this response. Please see the file named "PID Response Exhibits FPLIC 07132021.xlsx," which contains additional exhibits and supplemental detail, as referenced in the below responses.

1. Please provide an exhibit showing the actual experience for calendar years 2016-2020 and the projection experience for 2021 and 2022 for the following categories: Member Months, Total Administrative Expenses, Total Incurred Claims, Total Premium, Total Actual Paid Taxes and Fees, Profit, Total Underwriting Gain/Loss and Underwriting Gain/Loss PMPM

Response:

Please see the exhibit in the "PID-1" tab in the file "PID Response Exhibits FPLIC 07132021.xlsx" that shows these data and projections.

2. Does this company have any transitional membership? If so, has there recently been a significant drop in transitional membership? Do you anticipate a drop in 2022?

Response:

Yes, this company has approximately 22k transitional members. Historically, the transitional membership has been stable. The company's 2022 projections are heavily dependent on whether transitional coverage is extended again in early 2022.

3. If the projected risk adjustment transfer amount in Table 5 will be modified, due to the final CMS transfer amount published on June 30th, please provide narrative and detailed supporting data to justify the proposed changes.

Response:

As discussed in the Pennsylvania Actuarial Memorandum, the Company used the results provided by the PA Insurance Department in its calculation of 2020 risk adjustment transfer amounts using the final RATEE files as the basis for its projected risk adjustment transfer assumptions. Since these results were identical to the results published by CMS on June 30th, 2021, in the Summary Report on Permanent Risk Adjustment Transfers for the 2020 Benefit Year, the Company does not intend to change the projected risk adjustment transfer assumptions underlying this rate filing.

4. Please confirm that you have tested to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, and Federal Rate Templates are identical.

Response:

The Company confirms that they thoroughly test the rates of each rate filing submission to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, Federal Rates Template, and binder are identical.

5. Please ensure that the 7/13/21 versions of the following items are posted in SERFF with your July 13th response to this data call.

- a. Cover Letter identifying all changes made and the reasons for the change. Also, show the revised rate change.
- b. PA Actuarial Memorandum
- c. PA Actuarial Memorandum Exhibits
- d. Department's Plan Design Summary and Rate Template Exhibits (please ensure that the rate template by county is populated with only numeric values – no "NA")
- e. URRT
- f. Federal Rate Template

- g. Part III: Actuarial Memorandum
- h. Updated Rate Change Request Summary (Attachment I)
- i. Public PDF with limited redactions as previously directed in the Guidance (includes all correspondence and supporting exhibits after the initial submission, in addition to all the above items).

Response:

No changes have been made to the Company's rate filing since its initial submission on 5/18/2021. Therefore, only the public PDF has been posted with a 7/13/2021 date to appropriately capture the Company's responses to the objection letters.

6. The requested trend for this filing was above average among PA small group issuers at 12.86%. Please provide a short list of bullet points that explain the main issues causing this higher-than-average trend.

Response:

As described in the Pennsylvania Actuarial Memorandum the 12.86% accounts for the Company's base claim trend, trends for claims processed outside the Company's claim system, and the BEP adjustment for COVID claims suppression.

The company's base claim trend is 8.6% and after accounting for trends for the claims processed outside the Company's claim system we arrive at a trend of 8.4%, as seen entered for the Year 2 trend on URRT worksheet 1. Lastly, the BEP adjustment for COVID claims suppression is included to arrive at the 12.86% trend in Table 3 of the PA Actuarial Memorandum Exhibits.

The Pennsylvania Actuarial Memorandum submitted with the rate filing discusses the Company's methodology and data considerations in establishing its projected trend, which would utilize internal modeling of an assortment of claim components that impact trend. Since many of these components would include propriety and competitive information, including provider fee schedules and prescription drug discount and rebate levels, any commentary as to why the Company's trend is above the market average would be speculative.

In reviewing its trend model components, the Company has identified that much of its projected trend is being driven by changes in provider contracting schedules and

advancing medical and drug technologies. Changes to these cost components are typically established well ahead of their effective date, so it is unlikely that the Company will realize significant favorability in these cost components as experience develops.

The Company recognizes that the COVID pandemic has disrupted claim levels, and it is expecting that its claim trend levels will largely return to pre-pandemic levels. It is worth noting though that the Company's filed trend rate of 8.6% is less than the approved trends from each of the Company's prior three annual rate filings. In addition, the Company's filed trend level is within a reasonable range of national trend expectations from recent surveys published by healthcare consulting and benefits administration firms.
