Actuarial Memorandum
UnitedHealthcare of Pennsylvania, Inc., NAIC #95220
PA Small Group Rate Filing

September 15th, 2021

This rate filing presents proposed premium rates effective January 1st, 2022 through December 31st, 2022 for medical and Rx benefit plans to be sold by the UnitedHealthcare of Pennsylvania, Inc. to small group employers.

The filing has been prepared as required by the “Final Rate Guidance 2022 Updated 4.7.21”, as well as current ACA rules. This rate filing should not be used for any other purposes. Within that context, there are no limitations or constraints on the use or applicability of the rating items discussed herein. The intended user of this filing is the PA Department of Insurance.

1. Basic Information and Data

A. Company Information

UnitedHealthcare of Pennsylvania, Inc. NAIC Company Code **952209**
Small Group Rate Filing Off Exchange only

B. Rate History and Proposed Variations in Rate Changes

UHLC-131757493 submitted 2/8/2019 for effective date 7/1/2019-12/31/2019 base rate reduction of 2.7%. All rate revisions were applied uniformly.

UHLC-131919215 submitted 7/18/2019 for effective date 1/1/2020-12/31/2020 base rate reduction of 0.99%. Entire portfolio was resloped. All rate revisions were applied uniformly.

UHLC-132211682 submitted 01/10/2020 for effective date 7/1/2020-12/31/2020 base rate increase of 4.4%. All rate revisions were applied uniformly.

UHLC-132374427 submitted 05/19/2020 for effective date 1/1/2021-12/31/2021 base rate reduction of 3.9%, area factors were updated, trend was updated to 8.7% annual applied quarterly, and the entire portfolio was resloped. All rate revisions were applied uniformly.

UHLC-132751120 submitted 03/09/2021 for effective date 7/1/2021-12/31/2021 base rate decrease of 3.8%. All rate revisions were applied uniformly.

C. Average Rate Change

Please see Table 10 for the calculation of the average rate change in the attached PA Actuarial Memorandum Rate Exhibits

The “Proposed Rate Change Compared to Prior 12 months” in Table 10 Column AC is 2.5%.

In Table 11, the change in 21-year-old non-tobacco premium PMPM for 1Q2022 (Cell AN13) is 2.7%.

D. Membership Count

Table 1. Number of Members

	Member-months	Members	Member-months
	Experience Period	Current Period (as of 02-01-2021)	Projected Rating Period
Average Age	36.3	35.1	35.1
Total	16,598	1,485	17,820
<18	2,070	151	1,812
18-24	1,662	205	2,460
25-29	2,305	234	2,808
30-34	1,956	200	2,400
35-39	1,405	136	1,632
40-44	1,555	128	1,536
45-49	1,654	139	1,668
50-54	1,390	106	1,272
55-59	1,397	105	1,260
60-63	898	62	744
64+	306	19	228

We estimated projected membership by annualizing our February-2021 membership.

E. Benefit Changes

Changes to member cost sharing were required for certain benefit plans. Use of the new federal Actuarial Value (AV) Calculator led to some benefit plans falling outside the allowed AV metal ranges. Benefit plan changes were made to move these plans back into the allowed AV ranges. The benefit changes for these plans are listed in Exhibit 2.

We refined the medical and pharmacy plan price relativities to reflect the most recent pricing methodology and pricing models. The methodology is based on UnitedHealthcare nationwide experience data, which contains utilization frequencies and unit costs by service category, in addition to claim distributions and adjustment factors for a large number of plan design variables. Benefit design parameters such as deductibles, coinsurance, copays, out-of-pocket maximums, etc. were input for each plan. The expected paid-to-allowed relativities and expected utilization differences due to differences in cost sharing for each plan are then used to develop the plan factors for each benefit plan. All benefit plans are priced consistently with each other, with the rates differing by the estimated value of the benefits and the expected utilization differences due to differences in cost sharing. The utilization differences do not reflect differences due to health status.

All the changes are revenue neutral and the Plan Relativity Factors are listed in Exhibit 3. Also, the revenue neutrality factor development is shown in Exhibit 13.

F. Experience Period Claims and Premium

The experience period includes ACA business for legal entity UHC of PA.

Premiums (net of MLR Rebate) in Experience Period

Earned premium for our small group market business in Pennsylvania for January 2020 thru December 2020 was approximately \$7,105,854.65. MLR rebates are not expected for 2020 calendar year.

Paid Through Date

The experience period is January 1, 2020 to December 31, 2020, with claims paid through February 28, 2021.

Support for estimate of incurred but not paid claims

The UnitedHealthcare Reserving process utilizes the Reserve Production System (RPS) to record reserves into the PeopleSoft general ledger. Fee for service and paid claim data is loaded into RPS and becomes the basis for the monthly reserve calculations at the various business unit, location, and line of business levels. The assignment of the paid claims into RPS packages is based on the mapping rules maintained by the Corporate Actuarial department. RPS calculates a preliminary best estimate Incurred But Not Reported (IBNR) for each reserving model (package) primarily using standard completion factors based on historical claim experience. The Claims Reserving Team adjusts the preliminary IBNR based on specific knowledge of the entity (i.e. catastrophic claims, pended claims, etc.) to calculate the final IBNR. In months where adjudicated claims experience is not complete enough for an estimate using completion factors, a seasonally adjusted PMPM is used to estimate incurred claims.

A description of the Sarbanes Oxley controls, audited by Deloitte & Touche, in place regarding the reserving process includes:

- 1) Market Paid claim Tie-outs: To verify completeness and accuracy of financial data in RPS, paid claim data is tied out between source system (RPS) and PeopleSoft general ledger.
- 2) Market Expense Tie-outs: RPS reserve changes on the income statement are tied to the PeopleSoft general ledger to ensure that information is accurate subsequent to computing the reserve.

Allowed claims by benefit category were obtained from UnitedHealthcare claim paying system reports. The same completion factors are applied to both incurred and allowed claims amounts.

Non-EHB benefits and the experience period cost

The non-EHB claims account for 0.18% of the total claims in the experience period. The non-EHB services are exclusively for physician and outpatient claims. We expect the same benefits to be covered during the rating period.

Capitation

Capitation includes all services provided under one or more capitated agreements and it is applied uniformly across all membership during the experience period. For this experience period, the capitated amount is \$2.85 PMPM.

Pharmacy Rebates

The prescription drug cost is net of rebates received from drug manufacturers. For this experience period the average pharmacy rebate is -\$23.26 PMPM.

Risk Adjustment

The estimated risk adjustment transfer payment is \$1,653,065. Risk adjustment percentage applied to the experience period premium is -23.3%.

Reinsurance Recoveries

Since this is a small group filing and the state of Pennsylvania chose not to combine its individual and small group markets, reinsurance recoveries are not applicable to this rate filing. As such, no adjustments were made to the experience.

G. Credibility of Data

We are using United Healthcare small group UHIC ACA experience and United Healthcare Pennsylvania Inc small group UHCPA ACA experience with credibility applied. UHIC ACA experience has 95.0% credibility assigned and UHCPA ACA experience has 5.0% credibility assigned. The assigned credibility is determined

by membership weighting in experience period. As ASOP 25, section 3.4 states: “Professional Judgment - The actuary should use professional judgment when selecting, developing, or using a credibility procedure. The use of credibility procedures is not always a precise mathematical process.”

H. Trend Identification

In the credibility manual, two years of annual trend were applied to the experience to project it to the rating period. The table below details the components of each trend factor.

Table 3. Trend Components

Service Category	Cost*	Utilization*	Induced Demand*	Composite Trend	Weight*
Inpatient Hospital	2.81%	3.24%	0.00%	6.14%	22.04%
Outpatient Hospital	1.96%	3.49%	0.00%	5.52%	30.72%
Professional	2.25%	3.05%	0.00%	5.37%	20.48%
Other Medical	2.17%	3.00%	0.00%	5.23%	5.12%
Capitation				7.93%	2.50%
Prescription Drugs	4.80%	5.13%	0.00%	10.17%	19.14%
Total Annual Trend				6.58%	100.00%
Months of Trend				24	
Total Applied Trend Projection Factor				1.136	

Weight is based on the ratio of experience period index rate PMPM of different service categories over total PMPM, shown in URRT Worksheet 1 Section II Projections.

Please see Exhibit “15 - Claims Trend Summary” included in this filing for details on the trend components.

We are proposing the annual pricing trend to be at 9.0% applied quarterly, and the quarterly trend is 2.2%. The details of the proposed 9.0% trend are in Exhibit “6 – Pricing Trend” included in this filing.

The 9.0% pricing trend included in the input in Table 5A represents future quarterly pricing trends that will be used to increase 1/1/2022 premium rates to determine 4/1/2022, 7/1/2022, and 10/1/2022 premium rates.

Our trend setting process is outlined by the following narrative and exhibits. In general, recent/emerging claims experience is reviewed at the market level for several broad medical expense categories (inpatient, professional, pharmacy, etc.), with utilization, unit cost, benefit leveraging, and business mix identified for each category. Depending on the amount of underlying experience, additional markets may be added together to limit the variability of small blocks of experience. Historical patterns will produce highly variable results with limited credibility. National utilization/mix assumptions along with local contract assessment will be used to produce a more stable and reliable trend estimate.

I. Historical Experience

Table 4 below describes the most recent 24 months of experience (Jan-2019 experience start date) data with 2 months of runout for the experience period which includes ACA business for legal entity UHC of PA, with 5.0% credibility assigned.

Table 4b below describes the most recent 48 months of experience data with 2 months of runout for the credibility manual which includes ACA business for legal entity UHIC, with 95.0% credibility assigned.

UnitedHealthcare develops forward-looking medical expense estimates based on a number of considerations. In general, recent/emerging claims experience is reviewed at the market level for several broad medical expense categories (inpatient, professional, pharmacy, etc.), with utilization, unit cost, and benefit leveraging identified for each category. Future trends are developed based on a projection of each component.

Utilization rates by category are measured and projected. Forward looking utilization levels are developed based on emerging market level data, supplemented by regional and/or national level utilization data. Macro-economic data is often used to develop assumptions regarding directional changes in national health care consumption rates. UnitedHealthcare uses same store analysis to reflect utilization.

Market-level unit cost projections are developed based on evaluations of current and anticipated provider contract economics, as well as consideration to both current and expected changes in non-contracted provider cost exposure. Unit cost projections also consider the estimated cost impact of new technologies, service availability/mandates, or other factors that might influence mix of procedures. Unit cost is based on our contractual changes with providers.

In addition, market-level healthcare affordability activities that are expected to impact forward-looking medical costs are recognized. Depending on the nature of individual initiatives, the impact may be recognized in one or more of the component cost items discussed above. Only incremental activities are recognized for this purpose in the expected trend impact for any particular period.

This rate filing proposes quarterly rates.

Projected risk adjustment PMPM is -\$45.41 in URRT Worksheet 1 section II. We applied an adjustment for the paid-to-allowed ratio. The resulting PMPM is $-\$33.69 = -\45.41×0.742 . See Exhibit “14 - Risk Adj” showing the development of the risk adjustment PMPM.

The Index Rate for the experience period is approximately 99.82% of allowed claims due to benefits in excess of EHBs.

The Index rate calculation is demonstrated in Table 5A below:

Actuarial Value and Cost Sharing Adjustment

UnitedHealthcare has a proprietary pricing model that was used in developing the actuarial value and cost sharing adjustment for each plan. The model calculates plan relativity factors for medical and pharmacy benefits. Also included under the actuarial value and cost sharing adjustment are adjustments for leveraging and the difference between the average plan relativity factor and the projected paid to allowed ratio. Historical affiliated carrier experience was used to develop the actuarial value and cost sharing adjustment for each plan as well as the distribution and administrative costs adjustment.

Provider network, deliver system and utilization management adjustment

Any adjustments for these items are included in the plan relativity factors.

Benefits in Addition to EHBs

Benefit Extra EHB is the percentage of claims that are covered and are not included in EHB. The projected non- EHB impact is 0.18%.

Distribution and Administrative Costs

Distribution and Administrative Costs include premium tax, SG&A, quality improvements, federal income tax, and after-tax income. These items are discussed in the section Non-Benefit Expenses and Profit of this memorandum. Risk adjustment transfers and user fees and exchange fees are excluded because they are accounted for in the market adjusted index rate.

Tobacco Factors

Tobacco factors are not used in rating. As such, no adjustment is made for costs that are expected to be recouped through the tobacco surcharge.

Index Rate Calibration

Plan Adjusted Index Rates need to be calibrated to apply the allowable rating factors of age and geography in order to calculate the Consumer Adjusted Premium Rates. Calibration factors are applied uniformly to all plans.

Age Calibration

The calculated age curve calibration is 1.4414, which equals the average age factor of the expected member distribution by age in the ACA enrollment. This corresponds with an approximate age of 45 years. The age factors used in this calculation are the HHS-specified age curve.

Exhibit “7 - Age Calibration” shows the Average Age calibration factor development.

Geographic Calibration

The geographic factor calibration is 0.9046, which equals the expected average area factor. A table of the geographic rating factors is below.

Table 13. Geographic Factors

Geographic Area Factors			
Area	Counties	Current Factor	Proposed Factor
Rating Area 1	Erie, Crawford, Mercer, Venango, Clarion, Forest, Warren, McKean	0.755	0.755

Exhibit “8 - Area Calibration” shows the Average Area calibration factor development.

Population morbidity by area was not considered when determining geographic area factors changes.

Calibrating the plan adjusted index rate to the age curve and geographic distribution results in the calibrated premium rate for each plan. The calibrated premium rate represents the preliminary premium rate charged to an individual before applying the consumer specific rating adjustments for age, area, and tobacco status.

Consumer Adjusted Premium Rate Development

The consumer adjusted premium rate is the final premium rate that is charged to an individual. It is developed by calibrating the plan adjusted index rate by the average age and geographic rating factors, and applying the consumer specific age, geographic, and tobacco status rating factors. The calculation is provided below.

$$\begin{aligned}
 & \text{Plan Adjusted Index Rate} \\
 / & \text{Age Calibration Factor} \\
 / & \text{Geographic Calibration Factor} \\
 \times & \text{Consumer Specific Age Rating Factor} \\
 \times & \text{Consumer Specific Geographic Rating Factor} \\
 \times & \text{Tobacco Status Factor} \\
 \times & \text{Small Group Trend Adjustment} \\
 = & \text{Consumer Adjusted Premium Rate}
 \end{aligned}$$

Small Group Trend Adjustment

Since this is a small group filing that includes rates with schedule trend increases by quarter, the Index Rate, Market Adjusted Index Rate and Plan Adjusted Index Rate reflect the member weighted average premium over the calendar year. As such, the Consumer Adjusted Premium Rate includes the trend adjustments in calculated quarterly rates.

COVID-19 Claims Adjustment

Our experience period for this rate filing is 1Q20 – 4Q20. The experience period starting in March-20 was impacted where the claims levels were understated relative to a “normal” or pre-COVID claim level. The COVID claims adjustment factors shown in Exhibit 18 - COVID account for the understated claims that are part of this experience period. Factors vary between Eastern and Western Pennsylvania, so we weighted by membership to calculate a statewide COVID adjustment factor. In addition, we blended the EPA and WPA adjustments with our national experience as we felt using the PA only experience may be overstating the needed claims adjustment.

B. Retention Items

Administrative Expense Load

The expense formula is similar to the United Healthcare Insurance Company except for the Premium Tax component that doesn’t apply to the HMO product.

The administrative expense load is a long-term estimate of administrative expenses, including selling expenses and general administrative expenses. This load varies by plan. These assumptions are based on the general ledger actual results for 2020 with known adjustments. Known adjustments include, but are not limited to, pay increases/raises for employees and administrative expenses as a result of Healthcare Reform and compliance requirements.

The administrative expense allocation methodology used in pricing is appropriate because it is consistent with how UnitedHealthcare runs its business and how it allocates administrative costs for Statutory Filings and the Healthcare Reform Exhibits.

For this filing, this is calculated at 12.4%.

<u>1/1/2022 Filing</u>		
Administrative Expenses Allocation	Estimated % of Premium	Estimated PMPM
Selling Expenses (Commissions, Broker Bonus)	3.6%	\$17.05
General Admin Expenses	8.8%	\$41.78
Total	12.4%	\$58.83

Profit and Risk Margin

The Profit and Risk Margin is 2%. This target does not vary by product or plan.

Taxes and Fees

Taxes and fees are expected to be 0.7% and include federal income tax. The following is a breakdown of the taxes and fees.

<u>1/1/2022 Filing</u>		
Premium Taxes and Fees Allocation	Estimated % of Premium	Estimated PMPM
Federal / State Income Tax on Profit & Risk Load	0.5%	\$2.52
Premium Tax	0.0%	\$0.00
ACA Taxes: Insurer Fee	0.0%	\$0.00
ACA Taxes: PCORI Fee	0.1%	\$0.25
ACA Taxes: Risk Adjustment User Fee	0.1%	\$0.25
ACA Taxes: Exchange User Fee	0.0%	\$0.00
All Other Taxes & Fees	0.0%	\$0.17

D. Service Area Composition

For the 2021 plan year, we have a single service area that is comprised of all PA counties. For the 2022 plan year we are proposing two distinct service areas, varying by plan. Please reference Exhibit 2 – Plan Designs along with 2022 service area map which detail the markets and counties where each plan will be available. In summary, counties in WPA markets 560, 561 and 562 will have one plan option available. Counties in EPA markets 556 and 558 will have eight plan options available to them. Counties in market 557 will have all nine plan options available. Our company has made the financial decision to reduce the number of plan offerings in WPA.

6. Actuarial Certifications

I, [REDACTED], an Actuary at UnitedHealthcare, I am a member of the American Academy of Actuaries, and I meet the Academy's qualification standards for rendering statements of actuarial opinion with respect to the filing of rates for health insurance products. I have reviewed applicable ASOPs during the preparation of this rate filing.

To the best of my knowledge and judgment, I certify that:

- The projected index rate is:
 - In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102),
 - Developed in compliance with the applicable Actuarial Standards of Practice,
 - Reasonable in relation to the benefits provided and population anticipated to be covered,
 - Neither excessive, deficient, nor unfairly discriminatory.
- The index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.
- The percent of total premium that represents essential health benefits included in Worksheet 2, Sections III and IV were calculated in accordance with actuarial standards of practice.
- The geographic rating factors reflect only differences in the costs of delivery and do not include differences for population morbidity by geographic area.
- New plans cannot be considered modifications of existing plans under the uniform modification standards in 45 CFR 147.106.
- The information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2022 Rate Filing Justification
- The AV calculator was used to determine the AV metal values shown in Worksheet 2 of the Part I Unified Rate Review Template for all plans. Some of our plan designs are not directly compatible with the AV calculator. The values were developed in accordance with generally accepted actuarial principles and methodologies. The unique plan design actuarial certification required by 45 CFR Part 156.135 has been separately attached.
- The Part I Unified Rate Review Template does not demonstrate the process used by the issuer to develop their rates. Rather, it represents information required by federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally facilitated exchanges, and for certification that the index rate is developed in accordance with federal regulation and used consistently and only adjusted by the allowable modifiers.
- All factor, benefit and other changes from the prior approved filing have been disclosed in the actuarial memorandum.

I certify that the anticipated loss ratio meets the minimum requirement, the rates are reasonable in relation to benefits, the filing complies with the laws and regulations of PA and all applicable Actuarial Standards of Practice, including ASOP No. 8 and the rates are not unfairly discriminatory.

Section 1: Purpose

The following is a rate filing prepared by UnitedHealthcare of Pennsylvania, Inc.. This filing has been prepared to provide the necessary information required by the Department of Health and Human Services and the state of Pennsylvania. The purpose of this memorandum is to provide information relevant to the Federal Part I Unified Rate Review Template (URRT).

This filing establishes rates intended to be used for non-grandfathered PPACA compliant small group health benefit plans sold off the Small Business Health Options Program in Pennsylvania for the 2022 plan year. A rate increase is being filed at this time. The rates and other information in this submission are based on the current regulations and guidance from HHS. Changes to this filing may be necessary if there are revisions to the regulations or updated guidance from HHS.

This memorandum is intended solely for the information of and use by the Department of Health and Human Services and the Pennsylvania Department of Insurance and Financial Services. It will demonstrate compliance with state and federal laws and regulations related to the development of the index rate and allowable rating factors and is not intended to be used for any other purpose.

The attached document contains confidential, proprietary information and trade secrets. This information is strictly confidential and protected from disclosure by 40 P.S. § 65.2-A. If the prohibition against disclosure by the Department of Insurance and Financial Services is reassessed at a later date, it may not be disclosed to any other state or federal regulatory agencies unless the recipient agrees in writing prior to receipt to maintain the confidentiality of the information.

The proposed change in rates for this filing is 2.5% compared to the prior filing. These changes are applied uniformly to all plans within a rating area. The proposed pricing trend is 9.0% annually.

The primary drivers of the proposed rate changes are the following:

- Changes in medical service costs
 - Increasing Cost of Medical Services – Annual increases in reimbursement rates to health care providers – such as hospitals, doctors and pharmaceutical companies.
 - Increased Utilization – The number of office visits and other services continues to grow. In addition, total health care spending will vary by the intensity of care and/or use of different types of health services. Patients who are sicker generally have a higher intensity of health care utilization. The price of care can be affected by the use of expensive procedures such as surgery vs. simply monitoring or providing medications.
 - Higher Costs from Deductible Leveraging – Health care costs continue to rise every year. If deductibles and copayments remain the same, a greater percentage of health care costs need to be covered by health insurance premiums each year.
 - Cost shifting from the public to the private sector – Reimbursements from the Center for Medicare and Medicaid Services (CMS) to hospitals do not generally cover all of the cost of care. The cost difference is being shifted to private health plans. Hospitals typically make up this difference by charging private health plans more.
 - Impact of New Technology – Improvements to medical technology and clinical practice often result in the use of more expensive services - leading to increased health care spending and utilization.
- Administrative costs and anticipated profit
 - UnitedHealthcare works to directly control administrative expenses by adopting better processes and technology and through the development of programs and innovations that make health care more affordable. We have led the marketplace by introducing key innovations that make health care services more accessible and affordable for customers, improve the quality and coordination of health care services, and help individuals and their physicians make more informed health care decisions.
 - Additionally, UnitedHealthcare indirectly controls medical cost payments by using appropriate payment structures with providers and facilities. UnitedHealthcare's goal is to control costs, maximize efficiency, and work closely with physicians and providers to obtain the best value and coverage.
 - State and/or Federal government imposed taxation and fees are additional significant factors that impact health care spending. These fees include ACA taxes and fees which will have increased health insurance costs and need to be reflected in premium.
- Changes that vary by plan
 - All plan relativity factors have been updated to reflect UnitedHealthcare's most recent pricing model.
 - The impact of any changes to plans that have occurred due to uniform modification are also reflected in the updated plan relativity factors. Please see the "Plan Adjusted Index Rate" section of the memorandum for more detail on these changes.

We refined the medical and pharmacy plan price relativities to reflect the most recent pricing methodology and pricing models. The methodology is based on UnitedHealthcare nationwide experience data, which contains utilization frequencies and unit costs by service category, in addition to claim distributions and adjustment factors for a large number of plan design variables. Benefit design parameters such as deductibles, coinsurance, copays, out-of-pocket maximums, etc. were input for each plan. The expected paid-to-allowed relativities and expected utilization differences due to differences in cost sharing for each plan are then used to develop the plan factors for each benefit plan. All benefit plans are priced consistently with each other, with the rates differing by the estimated value of the benefits and the expected utilization differences due to differences in cost sharing. The utilization differences do not reflect differences due to health status. The net impact of all changes by plan can be found in Worksheet 2, Section I of the Unified Rate Review Template.

Significant factors driving the proposed rate changes are discussed in further detail in Section 6 (*Projection Factors*) and Section 7 (*Credibility Manual Rate Development*) of this memorandum.

Section 4: Experience and Current Period Premium, Claims and Enrollment

Paid Through Date

The experience period is 1/1/2020 through 12/31/2020, with claims paid through 2/28/2021.

Current Date

The current enrollment and premium is reported as of 6/30/2021.

Allowed and Incurred Claims Incurred During the Experience Period

Claims Description	Allowed Claims	Incurred Claims
Claims Paid as of February 28, 2021	\$ 6,078,002	\$ 4,868,207
Claims Incurred but Not Reported as of February 28, 2021	\$ 454,786	\$ 364,263

The claims data was available directly from company claims records.

Support for Estimate of Incurred but not Reported Claims

Historical claims are categorized both by the month in which they were incurred and the month in which they were adjudicated. For incurral months with sufficient adjudicated claim experience, incurred claims are estimated by applying completion factors derived from the historical claims. Adjustments are made based on specific knowledge of the entity (e.g., catastrophic claims, pended claims, etc.). For incurral months where adjudicated claim experience is not sufficient to rely on completion factors, a PMPM is used to estimate incurred claims. PMPM estimates are based on expected claim seasonality patterns, monthly calendar days and work days, emerging claim trends, and other factors. The same completion factors are applied to both incurred and allowed claim amounts.

The same completion factors are applied to both incurred and allowed claims amounts.

Experience Period Risk Adjustment

We are using the risk adjustment results based on RATEE submissions of all issuers in the state of PA that was provided by the Pennsylvania Department of Insurance on May 9, 2021. Based on that information our 2020 risk adjustment transfer PMPM is -\$99.59.

Experience Period Index Rates

Experience Period Index Rates are defined as the allowed claims PMPM for Essential Health Benefits during the Experience Period. With the breakout of service level EHB claims, the information provided reflects a reasonable estimate of the EHBs.

Experience Period Index Rates are defined as the allowed claims PMPM for Essential Health Benefits during the Experience Period. With the breakout of service level EHB claims, the information provided reflects a reasonable estimate of the EHBs.

Section 5: Benefit Categories

Claims were assigned to each of the benefit categories based on where services were administered and the types of medical services rendered. The benefit categories were defined by our claims department using standard industry definitions.

Inpatient Hospital

Includes non-capitated facility services for medical, surgical, maternity, mental health and substance abuse, skilled nursing, and other services provided in an inpatient facility setting and billed by the facility.

Outpatient Hospital

Includes non-capitated facility services for surgical, emergency room, laboratory, radiology, therapeutic, observation, and other services provided in an outpatient facility setting and billed by the facility.

Professional

Includes non-capitated primary care, specialist care, therapeutic, the professional component of laboratory and radiology, and other professional services, other than hospital based professionals whose payments are included in facility fees.

Other Medical

Includes non-capitated ambulatory, home health care, durable medical equipment, prosthetics, supplies, vision exams, dental services and other services.

Capitation

Includes all services provided under one or more capitated agreements.

Prescription Drug

Includes drugs dispensed by a pharmacy. This amount is net of rebates received from drug manufacturers.

Section 6: Projection Factors

Trend

Two years of annual trend were applied to our 2020 experience to project it to the 2022 rating period. Our most recent analysis indicates annual trend in the state of Pennsylvania for the 2021 and 2022 calendar years will be 6.5% and 6.5%, respectively. The table below details the components of each trend factor.

Trend Component	2021	2022
Unit Cost	2.90%	2.90%
Utilization	3.50%	3.50%
Total	6.50%	6.50%

UnitedHealthcare develops forward-looking medical expense estimates based on a number of considerations. In general, recent/emerging claims experience is reviewed at the market level for several broad medical expense categories (inpatient, professional, pharmacy, etc.), with utilization, unit cost, and benefit leveraging identified for each category. Future trends are developed based on a projection of each component. In addition, the costs associated with future treatment, vaccination and testing due to COVID-19 are included in the future trends used in the claims projection.

Utilization rates by category are measured and projected. Forward looking utilization levels are developed based on emerging market level data, supplemented by regional and/or national level utilization data. Macro-economic data is often used to develop assumptions regarding directional changes in national health care consumption rates. UnitedHealthcare uses same store analysis to reflect utilization.

Market-level unit cost projections are developed based on evaluations of current and anticipated provider contract economics, as well as consideration to both current and expected changes in non-contracted provider cost exposure. Unit cost projections also consider the estimated cost impact of new technologies, service availability/mandates, or other factors that might influence the mix of procedures. Unit cost is based on our contractual changes with providers.

In addition, market-level healthcare affordability activities that are expected to impact forward-looking medical costs are recognized. Depending on the nature of individual initiatives, the impact may be recognized in one or more of the component cost items discussed above. Only incremental activities are recognized for this purpose in the expected trend impact for any particular period.

Demographic Shift

The total Demographic Shift Adjustment is 0.5%. It is comprised of the following factors:

The HHS-specified age curve was used in rating.

Geographic Shift:

An adjustment of 0.5% was made to account for the shift in the distribution of members by rating area between the experience period and the rating period. The factor reflects the change in the average geographic rating area factor from the experience period to the rating period, weighted by the respective membership distributions, using the proposed geographic rating area factors. The formula is calculated as: Avg. Geographic Rating Area Factor projected / Avg. Geographic Rating Area Factor experience – 1.

Plan Design Changes

The total Plan Design Adjustment is -0.9%. It is comprised of the following factors:

Shift in Benefit Plan Distribution:

An adjustment of -0.9% was made to account for the expected change in allowed claims due to the shift in the distribution of benefit plans between the experience period and the rating period.

Other Adjustments

The total other adjustments are -2.4%, and it is comprised of the following factors:

Catastrophic Claims Adjustment:

An adjustment was made to account for catastrophic claims experience in the experience period. The claims were adjusted by -2.5% to align with expected catastrophic claim levels in the rating period.

Trend Adjustment

An additional trend adjustment of 0.6% is applied to trend our rates to the mid-point of the quarter rather than the beginning of the quarter

COVID-19 Adjustment

An additional adjustment of 7.9% is applied to the claims due to the COVID-19 pandemic. This adjustment represents the change, between the experience and projection periods, in the net impact of elimination and deferral of normal health care services and additional costs due to COVID-19 testing and treatment and, when applicable, COVID-19 vaccines.

All Other Adjustments:

Claims were adjusted by a balancing item of -5.8%. In addition, a balancing item of -2.2% for an additional revenue neutrality adjustment was needed in the rates.

Section 7: Credibility Manual Rate Development

Adjustments Made to the Data

Adjustments similar to the ones described in Section 6 were applied to the experience of the credibility manual to project it to the projection period. In addition, the credibility manual was adjusted to reflect the average age, geography, plan design and morbidity of the adjusted experience period claims.

An adjustment to the credibility manual was made to account for catastrophic claims experience in the experience period.

Inclusion of Capitation Payments

Capitation payments are included in both the experience and projections.

Section 8: Credibility of Experience

The experience for this legal entity contains 16,598 member months. We have assigned 5% credibility to the data based on the ratio of UHC of PA experience member months to our total UHC plus UHC of PA experience period member months. We set our rate using the blended experience of both entities weighted by the membership in both entities.

Consideration was given to ASOP #25 when determining the credibility and appropriateness of the experience and the manual rate. The manual rate is sufficiently independent from the experience and can be blended with it for purposes of rate development.

Section 9: Development of Projected Index Rate

The experience period index rate is \$392.87 PMPM.

The Index Rate For the experience period is approximately 99.82% of allowed claims due to benefits in excess of EHBs. The reported percentage amount is based on experience data. The index rate of the experience period has been reported accordingly. The Index Rate in the projection period represents 99.82% of allowed claims due to the benefits in excess of EHBs.

The projected index rate of \$496.33 was calculated by trending and adjusting the experience period index rate to the projection period, including blending the experience with a manual rate if the experience was not fully credible. It is established in accordance with the requirements of 45 CFR §156.80(d). See sections 6, 7, and 8 of this memo for more details.

Section 10: Development of the Market Adjusted Index Rate

Reinsurance

There is no reinsurance program in force for this business, and as a result there are no reinsurance recoveries to report.

Risk Adjustment Payment/Charge

UnitedHealthcare of Pennsylvania, Inc. anticipates paying an average of \$33.69 PMPM for risk adjustment transfers in the state of Pennsylvania for the 2022 plan year, which has been grossed up to \$45.41 PMPM on an allowed basis for purposes of calculating the Market Adjusted Index Rate. We are assuming the risk level of our business relative to that of our competitors for the 2022 plan year will be similar to what it was in the 2020 plan year. Since risk adjustment transfer payments are a function of the market level premium, our 2022 risk adjustment transfer PMPM amount is calculated by adjusting our estimated 2020 risk adjustment transfer PMPM amount for the projected market level trend, changes in reinsurance fees and recoveries, and other adjustments based on the overall financial performance of the market.

Exchange User Fees

There are no plans included in this filing that are offered on the exchange. Therefore there are no exchange user fees.

The market adjusted index rate includes market-wide adjustments for reinsurance, risk adjustment transfers and exchange user fees (if any).

Index Rate	Net Federal or State Reinsurance (allowed basis)	Risk Adjustment Payment/Charge (allowed basis)	Exchange Fee Adjustment (allowed basis)	Market Adjusted Index Rate
\$496.33	\$0.00	(\$45.41)	0.00%	\$541.74

The figures above may not tally exactly due to rounding of the display.

Section 11: Plan Adjusted Index Rate

Actuarial Value and Cost Sharing Adjustment

UnitedHealthcare has a proprietary pricing model that was used in developing the actuarial value and cost sharing adjustment for each plan. The model calculates plan relativity factors for medical and pharmacy benefits. Also included under the actuarial value and cost sharing adjustment are adjustments for leveraging and the difference between the average plan relativity factor and the projected paid to allowed ratio.

UnitedHealthcare does not utilize Induced Demand factors in our rate development. Instead, our plan-specific pricing factors are based on an analysis of UnitedHealthcare's nationwide block of Small Group health insurance, which reflects over 10 million member months of experience. Our approach complies with the prohibition of rating for morbidity differences by normalizing out the cost differences attributable to morbidity as measured by HHS's risk adjustment mechanism.

Historical UnitedHealthcare experience was used to develop the actuarial value and cost sharing adjustment.

Provider network, delivery system and utilization management adjustment

Any adjustments for these items are included in the plan relativity factors.

Distribution and Administrative Costs

Distribution and administrative costs include premium tax, risk adjustment user fees, SG&A, quality improvements, federal income tax, and after-tax income. Risk adjustment transfers, net reinsurance recoveries and exchange fees are excluded because they are accounted for in the market adjusted index rate.

Administrative Expense Load

The administrative expense load is a long-term estimate of administrative expenses, including selling expenses and general administrative expenses. This load does not vary by product or plan. These assumptions are based on the general ledger actual results for 2020 with known adjustments. Known adjustments include, but are not limited to, pay increases/raises for employees and administrative expenses as a result of Healthcare Reform and compliance requirements. The administrative expense allocation methodology used in pricing is appropriate because it is consistent with how UnitedHealthcare runs its business and how it allocates administrative costs for Statutory Filings and the Healthcare Reform Exhibits.

Profit and Risk Margin

The profit and risk margin is shown in Worksheet 2, Section III of the URRT. This target does not vary by product or plan.

The profit and risk margin is derived from the difference between the administrative expenses, taxes and fees, and 1 minus the target loss ratio and the administrative expenses, taxes and fees.

The profit and risk margin results in an anticipated MLR that is above the minimum requirements as described in the Projected Loss Ratio section.

Taxes and Fees

Taxes and fees are expected to be 0.7% and include premium tax, exchange fees (if any), risk adjustment user fees, and federal income tax. The following is a breakdown of the taxes and fees.

Premium Taxes and Fees Allocation	Estimated % of Premium
Federal / State Income Tax on Profit & Risk Load	0.5%
Premium Tax	0.0%
ACA Taxes: Insurer Fee	0.0%
ACA Taxes: PCORI Fee	0.1%
ACA Taxes: Risk Adjustment User Fee	0.1%
ACA Taxes: Exchange User Fee	0.0%
All Other Taxes & Fees	0.0%
Total	0.7%

Section 12: Calibration

Plan Adjusted Index Rates need to be calibrated to apply the allowable rating factors of age and geography in order to calculate the Consumer Adjusted Premium Rates. Calibration factors are applied uniformly to all plans.

Age Calibration

The calculated age curve calibration is 0.6938, which equals one divided by the average age factor of the expected member distribution by age. The age factors used in this calculation are the HHS-specified age curve.

Geographic Calibration

The geographic factor calibration is 1.1054, which equals one divided by the expected average area factor. A table of the geographic rating factors is below.

Rating Area	Area Factor
1	0.755
2	0.857
3	0.998
4	0.808
5	0.751
6	0.975
7	1.002
8	0.883
9	0.909

Geographic rating factors are reviewed periodically versus UnitedHealthcare claims data that reflects unit cost differences by county. Such a review was conducted as part of our January 1, 2022 rate development.

Our analysis did not indicate that there were credible, material differences indicated by the comparison of currently approved area factors and the UHC data reflecting unit cost differences.

Population morbidity by area was not considered when determining geographic area factors.

Tobacco Calibration

Tobacco factors are not used in the rating of these products, and no calibration is needed.

Calibrating the plan adjusted index rate to the age curve and geographic distribution results in the calibrated premium rate for each plan. The calibrated premium rate represents the preliminary premium rate charged to an individual before applying the consumer specific rating adjustments for age and area.

Section 13: Consumer Adjusted Premium Rate Development

The consumer adjusted premium rate is the final premium rate that is charged to an individual. It is developed by calibrating the plan adjusted index rate, and applying the consumer specific age and geographic rating factors. The calculation is provided below.

Plan Adjusted Index Rate
x Age Calibration Factor
x Geographic Calibration Factor
x Consumer Specific Age Rating Factor
x Consumer Specific Geographic Rating Factor
x Small Group Trend Adjustment
= Consumer Adjusted Premium Rate

Section 14: Projected Loss Ratio

The projected loss ratio using the federally prescribed MLR methodology for calendar year 2022 is 86.3%. UnitedHealthcare of Pennsylvania, Inc. agrees to comply with the rebate requirements of 45 CFR Part 158 should the actual market MLR fall below the 80.0% requirement.

Section 15: AV Metal Values

The AV calculator used to calculate the AV metal values is based on a prescribed methodology and, therefore, does not necessarily reflect a reasonable estimate of the portion of allowed costs covered by the associated plan.

Some plans within this portfolio have cost sharing features that differ between individual and family coverage (i.e., when two or more people are covered by the plan). For all plans, consistent with the Actuarial Value Calculator inputs, we have used only the cost sharing provisions applicable for individuals in the actuarial value calculation.

The AV calculator was used to determine the AV metal values shown in Worksheet 2 of the Part I Unified Rate Review Template for all plans. Some of our plan designs are not directly compatible with the AV calculator. The values were developed in accordance with generally accepted actuarial principles and methodologies. Additional details are provided below to describe the types of adjustments that were made for plan designs that are not directly compatible with the AV calculator.

Benefits that Vary Based on Place of Service

For some types of services, our plan designs include different benefit levels based on the place of service (i.e. physician's office, free standing facility, or outpatient hospital facility). To incorporate this differentiation in benefits, the Tiered Network Option was selected within the AV calculator, and utilization was assigned to each tier based on historical experience of affiliated carriers.

Physician Tiering

Select plan designs include lower cost sharing when members utilize providers we designate as meeting cost and efficiency standards. The tiered network functionality of the AV calculator was utilized to account for the cost sharing differences. The utilization of providers was based on a UnitedHealthcare study of differences in cost sharing and their effectiveness at driving utilization patterns.

Laboratory and X-Ray Services

Some plan designs include a copay for minor lab and x-ray services. These copays are applied on a per visit basis. The AV Calculator assumes that the copays are on a per procedure basis. Therefore, the copay amounts are adjusted to reflect the equivalent per procedure amount.

Employer Contributions to HSAs and HRAs

The following plans are offered in conjunction with HSAs or HRAs. The table shows the metal level of each plan and the range of annual employer contribution amounts, as well as the resulting range of AV Metal Values, that allow the plan to achieve the stated metal level. Note that because URRT Worksheet 2 allows only a single AV Metal Value for each plan, the AV Metal Values displayed on Worksheet 2 for these HSA/HRA plans correspond to the upper bound of the AV Metal Value range in the table below.

HIOS Plan ID	Metal	Employer Contribution Range	AV Metal Value Range
24872PA0030001	Bronze	[\$0, \$0]	[64.9%, 64.9%]
24872PA0030007	Silver	[\$0, \$250]	[68.1%, 71.4%]
24872PA0030009	Silver	[\$0, \$450]	[66.3%, 71.9%]

Section 16: Membership Projections

The February 2021 membership for UHIC of 1,485 was annualized. Member distribution by plan was then based on current enrollment, taking into consideration changes in the portfolio of plans to be offered in 2022. Strictly for purposes of the URRT, we have projected membership by plan.

Section 17: Terminated Plans and Products

The following product was terminated last year for the 2021 plan year: 24872PA002

This product is still in the 2020 experience period used for this filing. As noted in last year's 2021 annual filing the replacement product ID starting on 1/1/2021 is 24872PA003.

Terminated plans will be mapped to another plan in the projection period for purposes of completing the URRT.

Section 18: Plan Type

A plan type of HMO has been selected, which describes the plans exactly.

Section 19: Reliance

In my professional judgment, the assumptions or methods described in the memorandum do not conflict with what I believe to be reasonable. Therefore, I have not included any reliances.

Section 20: Actuarial Certification

I, [REDACTED], am an Associate Director Actuarial Services for UnitedHealthcare, and a member of the American Academy of Actuaries. I meet the Academy's qualification standards for rendering statements of actuarial opinion with respect to the filing of rates for health insurance products.

To the best of my knowledge and judgment, I certify that:

- The projected index rate is:
 - In compliance with state and federal statutes and regulations related to the development of the index rate and allowable rating factors (such as 45 CFR 156.80 and 147.102).
 - Developed in compliance with the applicable Actuarial Standards of Practice.
 - Reasonable in relation to the benefits provided and population anticipated to be covered.
 - Neither excessive, deficient, nor unfairly discriminatory.
- The index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.
- The geographic rating factors reflect only differences in the costs of delivery and do not include differences for population morbidity by geographic area.
- The AV calculator was used to determine the AV metal values shown in Worksheet 2 of the Part I Unified Rate Review Template for all plans. Some of our plan designs are not directly compatible with the AV calculator. The values were developed in accordance with generally accepted actuarial principles and methodologies. The unique plan design actuarial certification required by 45 CFR Part 156.135 has been separately attached.

-
- The Part I Unified Rate Review Template does not demonstrate the process used by the issuer to develop their rates. Rather, it represents information required by federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally facilitated exchanges, and for certification that the index rate is developed in accordance with federal regulation and used consistently and only adjusted by the allowable modifiers.

Dear Mr. Lavery,

This cover letter details the changes made to the PA Actuarial Memorandum Exhibits. The changes are due to our revised revenue neutrality adjustment that was inadvertently missed in our initial filings. We filed our adjustment without accounting for the PID formula in our resloping calculations. The initial filed revenue neutrality adjustment of -2.5% has been updated to -4.7%. We have reduced our base rate approximately 2.2% versus our initially filed rates. Exhibit 13 in our rate filing exhibits file has been updated. In addition, the following have been impacted as well due to this change.

- Tables 5, 5a, 6, 7, 8, 9, 10 and 11 of the PA Actuarial Memorandum Exhibits were updated in response to adjustment noted above. This change resulted in a revised rate change from 4.8% to 2.5%. The following files were also updated as a result of the above: Act Memo, Cover Letter, Rate Change Request Summary, Part III Memo, Plan Design Summary and Rate Tables, Rate Filing Exhibits, Federal Rate Tables, and URRT.

Should you have any questions or need any additional information, please contact me at [REDACTED] or at [REDACTED]

Sincerely,

Dear Mr. Lavery,

This cover letter details the changes made to the PA Actuarial Memorandum Exhibits and the reasons why the changes were made due to data call questions received on 7/6/2021.

- Tables 3 and 3b of the PA Actuarial Memorandum Exhibits were updated in response to UHIC question 1a from Oliver Wyman. This change resulted in a revised rate change from 4.5% in the 6/22 response to 4.8% in the 7/13 response; it also resulted in an update to the base rate to tie out the rates between Table 11 of the Actuarial Memorandum, the PA Plan Design Summary and Rate Tables, and the Federal Rate Tables. The following files were also updated as a result of the above: Act Memo, Cover Letter, Part III Memo, Plan Design Summary and Rate Tables, Rate Filing Exhibits, Federal Rate Tables, and URRT (changes in memo and cover have been redlined and highlighted in yellow).

Should you have any questions or need any additional information, please contact me at  or at .

Sincerely,

RE: United Healthcare of Pennsylvania, Inc., Small Group HMO, ACA Filing for PY2022
Pennsylvania Insurance Department ID #: UHLC-132831666

The Pennsylvania Insurance Department has received and conducted a preliminary review of the above captioned filing. In order to complete the review, we are requesting the following information. To facilitate a timely review, we request this information be provided July 13, 2021. If you have any questions or difficulties in providing the data within this time frame, please call me.

The following questions are from Oliver Wyman, our Actuarial Consultant:

There are no consultant questions.

The following are additional questions or comments from the PID:

1. Please provide an exhibit showing the actual experience for calendar years 2016-2020 and the projection experience for 2021 and 2022 for the following categories: Member Months, Total Administrative Expenses, Total Incurred Claims, Total Premium, Total Actual Paid Taxes and Fees, Profit, Total Underwriting Gain/Loss and Underwriting Gain/Loss PMPM

[Please see Excel support file tab "PID 1".](#)

2. Does this company have any transitional membership? If so, has there recently been a significant drop in transitional membership? Do you anticipate a drop in 2022?

[There is no transitional membership.](#)

3. If the projected risk adjustment transfer amount in Table 5 will be modified, due to the final CMS transfer amount published on June 30th, please provide narrative and detailed supporting data to justify the proposed changes.

[No change to the projected risk adjustment transfer amount.](#)

4. Please confirm that you have tested to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, and Federal Rate Templates are identical.

We have confirmed the rates are identical. However, as noted in the Round 1 data call responses there are some immaterial differences due to rounding for some of the plan rates.

5. Please ensure that the 7/13/21 versions of the following items are posted in SERFF with your July 13th response to this data call.

- a. Cover Letter identifying all changes made and the reasons for the change. Also, show the revised rate change.
- b. PA Actuarial Memorandum
- c. PA Actuarial Memorandum Exhibits
- d. Department's Plan Design Summary and Rate Template Exhibits (please ensure that the rate template by county is populated with only numeric values – no "NA")
- e. URRRT
- f. Federal Rate Template
- g. Part III: Actuarial Memorandum
- h. Updated Rate Change Request Summary (Attachment I)
- i. Public PDF with limited redactions as previously directed in the Guidance (includes all correspondence and supporting exhibits after the initial submission, in addition to all the above items).

Please be advised that there may be additional questions based on the responses to the above. However, it is our hope to avoid 3rd round data calls. Towards this end, please provide complete detailed and thorough responses including supporting data and narrative.

Each response to a Department data call must contain a cover letter that details the changes made to the PA Actuarial Memorandum Exhibits and the reasons why the changes were made, e.g., in response to Department question number 5.

Response to this request should be provided via SERFF in Microsoft Excel spreadsheets. Please retain all formulas.

Upon receipt of your responses to the above requested data, the Department will continue to review your filing. Please note that there may be additional questions and/or requirements as the Department conducts a more in-depth review.

Should you have any questions regarding this correspondence, please contact me at (717) 783-2117 or e-mail at jlaverty@pa.gov.

Dear Mr. Lavery,

This cover letter details the changes made to the PA Actuarial Memorandum Exhibits and the reasons why the changes were made due to data call questions received on 6/10/2021.

- Table 6 of the PA Actuarial Memorandum Exhibits was updated to remove 0.53% from the Health Insurance Providers Fee row. This change was made in response to question number 1 from Oliver Wyman.
- Tables 10 and 11 of the PA Actuarial Memorandum Exhibits were updated. In addition, the PA Actuarial Memorandum and Cover letter were also updated (**changes in memo and cover have been redlined and highlighted in yellow**). These changes were made in response to question number 4 from PID from the UHIC Data Call questions.

RE: United Healthcare of Pennsylvania, Inc., Small Group HMO, ACA Filing for PY2022
Pennsylvania Insurance Department ID #: UHLC-132831666

The Pennsylvania Insurance Department has received and conducted a preliminary review of the above captioned filing. In order to complete the review, we are requesting the following information. To facilitate a timely review, we request this information be provided June 22, 2021. If you have any questions or difficulties in providing the data within this time frame, please call me.

The following questions are from Oliver Wyman, our Actuarial Consultant:

1. Please remove the 0.53% of premium ACA Insurer Fee input populated in Table 6 of the PA Rate Template file.

We mistakenly entered the Federal Income Tax amount from row above into the Health Insurance Providers Fee row. We have updated Table 6 of the PA Rate Template file to remove the 0.53% from this row.

The following are additional questions or comments from the PID:

1. Please confirm that you have tested to ensure that the rates in Table 11 of the PA AM Exhibits, PA Plan Design Summary and Rate Table, Federal Rates Template, and binder are identical.

We confirm we have tested to ensure that the rates between the noted files are identical with the exception of instances where there are immaterial differences of a penny or so due to rounding.

2. Please provide an exhibit that quantitatively shows a comparison of the actual to projected claim cost PMPMs for calendar years 2017-2020, as applicable.

Please reference Excel support file tab "2 PID". Our experience on UHCPA entity began January-2019.

3. Please provide an exhibit which demonstrates that the criteria for the expanded bronze plans have been met.

Our three filed bronze plans for 2022 [2 UHIC Plans (COCO & COCP) & 1 UHCPA Plan (CD3Z)] are all HSA plans so they all qualify as High Deductible Health Plans (HDHPs).

Please be advised that there may be additional questions based on the responses to the above. However, it is our hope to avoid 3rd round data calls. Towards this end, please provide complete detailed and thorough

responses including supporting data and narrative.

Each response to a Department data call must contain a cover letter that details the changes made to the PA Actuarial Memorandum Exhibits and the reasons why the changes were made, e.g., in response to Department question number 5.

Response to this request should be provided via SERFF in Microsoft Excel spreadsheets. Please retain all formulas.

Upon receipt of your responses to the above requested data, the Department will continue to review your filing. Please note that there may be additional questions and/or requirements as the Department conducts a more in-depth review.

Written Description Justifying the Rate Increase

UnitedHealthcare of Pennsylvania, Inc.

State of Pennsylvania Rate Review

Scope and Range of the Rate Increase

The requested rate change for small group health benefit plans sold in the state of Pennsylvania will be effective January 1, 2022 and impact 1,485 covered lives. The rate change experienced by members will vary depending on plan selection and geographic area. Additional premium changes may occur upon renewal due to changes in member age, changes in plan selection, and changes in geographic location.

Financial Experience of the Product

The benefit care ratio for this product during the 2020 calendar year is 96.0%. This ratio is the portion of premium that is needed to pay medical claims. The complement of the benefit care ratio is the portion of premium needed for taxes and fees, administrative expenses, and margin.

Changes in Medical Service Costs

There are many different healthcare cost trends that contribute to increases in the overall U.S. healthcare spending each year. These trend factors affect health insurance premiums, which can mean a premium rate increase to cover costs. Some of the key healthcare cost trends that have affected this year's rate actions include:

- Increasing cost of medical services: Annual increases in reimbursement rates to healthcare providers, such as hospitals, doctors, and pharmaceutical companies.
- Increased utilization: The number of office visits and other services continues to grow. In addition, total healthcare spending will vary by the intensity of care and use of different types of health services. The price of care can be affected by the use of expensive procedures such as surgery versus simply monitoring or providing medications.
- Higher costs from deductible leveraging: Healthcare costs continue to rise every year. If deductibles and copayments remain the same, a higher percentage of healthcare costs need to be covered by health insurance premiums each year.
- Cost shifting from the public to the private sector: Reimbursements from the Centers for Medicare and Medicaid Services (CMS) to hospitals do not generally cover the cost of providing care to these patients. Hospitals typically make up this reimbursement shortfall by charging private health plans more.
- Impact of new technology: Improvements to medical technology and clinical practice often result in the use of more expensive services, leading to increased healthcare spending and utilization.

Changes in Benefits

Changes in covered benefits impact costs and therefore affect premium changes. Benefit plans are typically changed for one of three reasons: to comply with the requirements of the Affordable Care Act or state law, to respond to consumer feedback, or to address a particular medical cost issue to provide greater long-term affordability of the product.

Administrative Costs and Anticipated Margins

UnitedHealthcare of Pennsylvania, Inc. works to directly control administrative expenses by adopting better processes and technology and developing programs and innovations that make healthcare more affordable. We have led the marketplace by introducing key innovations that make healthcare services more accessible

and affordable for customers, improve the quality and coordination of healthcare services, and help individuals and their physicians make more informed healthcare decisions. Taxes and fees imposed by the State and Federal government are significant factors that impact healthcare spending and have to be included in the administrative costs associated with the plans. These fees include Affordable Care Act taxes and fees which impact health insurance costs and need to be reflected in premium. Another component of premium is margin, which is set to address expected volatility and risk in the market.

The requested rate change is anticipated to be sufficient to cover the projected benefit and administrative costs for the 2022 plan year.
