Ms. Tracie Gray
Commonwealth of Pennsylvania Insurance Department
Insurance Product Regulation & Market Enforcement
Actuarial Review Division
Bureau of Life, Accident & Health Insurance
1311 Strawberry Square
Harrisburg, PA 17120

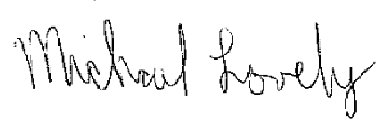

Dear Ms. Gray,

UPMC Health Benefits, Inc. respectfully requests approval of a rate filing for Small Group Off Exchange PPO/EPO products. The rates are proposed for effective dates of 1/1/2022 through 12/31/2022.

Company Name/NAIC #: UPMC Health Benefits, Inc./11018
Market: Small Group
On or Off Exchange: Off Exchange Only
Effective Date of Coverage: 1/1/2022
Average Rate Change Requested: 14.12% (\$41.96)
Range of Rate Change Requested: 13.46% to 15.05% (\$40.02 to \$44.74)
Products Offered: PPO, EPO
Rating Areas Where Plans are Offered: 1, 5, 7 (no change from 2021)
Metal Levels Offered: Bronze, Silver, Gold
Currently Enrolled Lives Affected by the Rate Change: 7,130
Currently Enrolled Policyholders Affected by the Rate Change: 4,148
Number of Plans Offered in 2021: 11 (no change from 2021)
Total additional annual revenue generated from the proposed rate change: \$6,074,165
Corresponding Contract Form #: EPOF07, PPOF09
Binder ID#: UPMC-PA22-125107513
HIOS Issuer ID #: 67430
Submission Tracking #: UPMC-132801369

If you have any questions or require additional information, please call me at 412-454-7849 or email me at lovelymt@upmc.edu.

Sincerely,

Michael Lovely, FSA, CERA, MAAA

Attachment I

Rate Change Summary

UPMC Health Benefits, Inc. – Small Group Plans

Rate request filing ID UPMC-132801369 - This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at <https://www.insurance.pa.gov/Consumers/Pages/ACA-Rate-Filings.aspx>

Overview

| | |
|--|----------------------|
| Initial requested average rate change: | 14.12% ¹ |
| Revised requested average rate change: | N/A ¹ |
| Range of requested rate change: | 13.46% to 15.05% |
| Effective date: | 1/1/2022 |
| Mapped Members: | 7,130 |
| Available in: | Rating Areas 1, 5, 7 |

Key information

Jan. 2020-Dec. 2020 financial experience

| | |
|----------------------------|------------------------|
| Premiums | \$ 77,734,168 |
| Claims | \$ 83,967,012 |
| Administrative expenses | \$ 7,777,519 |
| Taxes & fees | \$ 1,672,174 |
| Company made (after taxes) | \$ (15,682,537) |

How it plans to spend your premium

This is how the insurance company plans to spend the premium it collects in 2022:

| | |
|-----------------|---------------|
| Claims: | 89.18% |
| Administrative: | 8.32% |
| Taxes & fees: | 2.50% |
| Profit: | 0.00% |

The company expects its annual medical costs to increase **5.01%**.

Explanation of requested rate change

Increasing cost and utilization trends; Less favorable anticipated Risk Adjustment transfer relative to the prior year.

¹ Note that insurers will have the opportunity to revise their rate change request in July, after they are scheduled to receive updated information about the impact of a federal program called risk adjustment. This document will be updated accordingly at that time.

Dear Ms. Gray,

UPMC Health Benefits, Inc. respectfully requests approval of a rate filing for Small Group Off Exchange PPO/EPO products. The rates are proposed for effective dates of 1/1/2022 through 12/31/2022.

Company Name/NAIC #: UPMC Health Benefits, Inc./11018
Market: Small Group
On or Off Exchange: Off Exchange Only
Effective Date of Coverage: 1/1/2022
Average Rate Change Requested: 14.12% (\$41.96)
Range of Rate Change Requested: 13.46% to 15.05% (\$40.02 to \$44.74)
Products Offered: PPO, EPO
Rating Areas Where Plans are Offered: 1, 5, 7 (no change from 2021)
Metal Levels Offered: Bronze, Silver, Gold
Currently Enrolled Lives Affected by the Rate Change: 7,130
Currently Enrolled Policyholders Affected by the Rate Change: 4,148
Number of Plans Offered in 2021: 11 (no change from 2021)
Total additional annual revenue generated from the proposed rate change: \$6,074,165
Corresponding Contract Form #: EPOF07, PPOF09
Binder ID#: UPMC-PA22-125107513
HIOS Issuer ID #: 67430
Submission Tracking #: UPMC-132801369

If you have any questions or require additional information, please call me at 412-454-7849 or email me at lovelymt@upmc.edu.

Sincerely,

Michael Lovely, FSA, CERA, MAAA

PA Actuarial Memorandum

Basic Information and Data

The purpose of this actuarial memorandum is to provide certain information related to a rate submission for the company identified below. The relevant index rate is developed in accordance with federal regulations, and plan specific premiums are generated using the allowable modifiers in accordance with the single risk pool rule.

Company Information

The following section provides information related to the identification of the company that is submitting this rate filing. Much of this information is also displayed in Table 0 of the PA Actuarial Memorandum Exhibits.

Company Legal Name: UPMC Health Benefits, Inc.

NAIC #: 11018

HIOS Issuer ID: 67430

Market: Small Group

Exchange: Off Exchange

Products: PPO, EPO

Effective Date: 1/1/2022

Company Contact Information:

[REDACTED]
[REDACTED]
[REDACTED]

Filing Information:

Rate Filing SERFF Tracking #: UPMC-132801369

Form Filing SERFF Tracking #: UPMC-132821202, UPMC-132821210, UPMC-132821213

Binder SERFF Tracking #: UPMC-PA22-125107513

Rate History and Proposed Variations in Rate Changes

Historical and proposed rate changes vary by plan due to various changes made to meet AV requirements on a plan-by-plan basis. The values listed below and overall proposed rate change for 2022 are weighted averages of the increase for each plan based on projected enrollment. Please see Table 10 of the PA Actuarial Memorandum Exhibits for a breakdown of plan-by-plan rate increases.

| SERFF Tracking # | Year | Rate Change relative to Prior Filing* |
|------------------|---------|---------------------------------------|
| UPMC-131496028 | 2019 | N/A |
| UPMC-131851705 | 2019 Q4 | N/A |
| UPMC-131943309 | 2020 | 11.5% |
| UPMC-132294646 | 2020 Q4 | 16.8% |
| UPMC-132364942 | 2021 | -3.0% |

**relative to prior year annual filing for quarterly updates*

Average Rate Change

- Average rate change in Table 10, column AC of the PA Actuarial Memorandum Exhibits: 14.1%
- Change in 21-year-old non-tobacco premium PMPM in Table 11, cell AN13 of the PA Actuarial Memorandum Exhibits: 19.3%

Membership Count

Various breakdowns of the membership count for the captioned company and market are displayed in Table 1 of the PA Actuarial Memorandum Exhibits. The current membership displayed in this table includes all enrollment, regardless of whether these members are enrolled in plans for plan year 2020 or 2021.

Benefit Changes

A table with these changes has been included in Appendix I. All plans have metal level actuarial values in accordance with the latest HHS requirements.

Single Risk Pool

The single risk pool consists of members that are anticipated to enroll in ACA-compliant policies offered under the captioned market.

Experience Period Claims and Premium

Claims and premium data for all non-grandfathered policies in the single risk pool for the captioned company and market from the experience period (January 2020 - December 2020) with two months of run-out are displayed in Table 2 of the PA Actuarial Memorandum Exhibits. This section provides a discussion of each field in the table and its relation to the corresponding fields on the URRT. Please note that no data for transitional policies is included in this table.

Earned Premium:

This represents the revenue accumulated by the captioned company during the experience period. No adjustments were made for MLR rebates as we do not anticipate owing them. HHS cost-sharing is not included in the premium data. Please note that the earned premium listed in Table 2 does match the total premium listed in section I, worksheet 1 of the URRT.

Paid Claims:

This field includes uncompleted paid medical, pharmacy, and pediatric dental & vision experience period claims for the captioned company and market.

Ultimate Incurred Claims:

This field includes completed paid medical and pharmacy experience period claims for the captioned company and market. We used the standard Development/Completion Factor Method to calculate IBNR. Factors were calculated using our entire fully insured Group block of business. Because of the changes in membership in our ACA-compliant plans year to year, we felt it would be better to use a more established and consistent data set. Because two months run-out is available the impact of IBNR is minimal. The completion factors used in Table 4b are displayed in the table below and no unexpected factors were observed. Please note that the ultimate incurred claims shown in Table 2 do not match the total incurred claims displayed in section I, worksheet 1 of the URRT because the value in the URRT equals the ultimate incurred claims less total prescription drug rebates listed in Table 2.

| Month | Completion Factor |
|-----------|-------------------|
| 1/1/2020 | 0.9993 |
| 2/1/2020 | 0.9993 |
| 3/1/2020 | 0.9989 |
| 4/1/2020 | 0.9918 |
| 5/1/2020 | 0.9970 |
| 6/1/2020 | 0.9961 |
| 7/1/2020 | 0.9944 |
| 8/1/2020 | 0.9920 |
| 9/1/2020 | 0.9888 |
| 10/1/2020 | 0.9829 |
| 11/1/2020 | 0.9676 |
| 12/1/2020 | 0.9437 |

Member Months:

The sum of the experience period member months shown in Table 1 is also displayed in Table 2.

Estimated Cost Sharing:

This field represents the difference between allowed claims and ultimate incurred claims in Table 2.

Allowed Claims:

This field includes allowed medical and pharmacy claims as well as pediatric dental & vision claims from the experience period for the captioned company and market. All claims are pulled directly from our data warehouse. Please note that the allowed claims shown in Table 2 do not match the total allowed claims displayed in section I, worksheet 1 of the URRT because the value in the URRT equals the allowed claims less total prescription drug rebates listed in Table 2.

Non-EHB portion of Allowed Claims:

This field displays the amount of allowed experience period claims that can be attributed to non-EHBs for the captioned market and company.

Total Prescription Drug Rebates:

This field shows the amount of prescription drug rebates received for the captioned company and market during the experience period. Pharmacy rebates have been removed from the total incurred and allowed claims displayed in section I, worksheet 1 of the URRT.

Total EHB Capitation:

EHB benefits were not paid for via capitation during the experience period.

Total Non-EHB Capitation:

Non-EHB benefits were not paid for via capitation during the experience period.

Estimated Risk Adjustment:

Experience period Risk Adjustment was estimated to be a payment of \$4,502,545 per the Summary Report on Permanent Risk Adjustment Transfers for the 2020 Benefit Year published by CMS on June 30, 2021, which translates to a PMPM of \$20.96.

Estimated Reinsurance Recoveries:

No private reinsurance recoveries were made during the experience period.

Loss Ratio:

The loss ratio calculated in Table 2 is 105.15%

Credibility of Data

The experience period data for this company consists of 214,819 member months for ACA-compliant policies. However, the rate manual for this filing was developed using a blend of ACA-compliant experience period data from each of UPMC's subsidiary companies in the small group market, which is displayed in tables 2b, 3b, and 4b in the PA Actuarial Memorandum Exhibits. The rate manual consists of 1,609,259 member months of experience and represents the same single risk pool. Since the rate manual consists of an even larger population of ACA-compliant membership that we believe is more representative of the single risk pool, 0% credibility is used, just as was implemented in prior filings for the captioned company and market. Adjustments to the data include the trend and network adjustments discussed in the "Index Rate" section below.

Trend Identification

The overall annual trend used in rate development is 5.01%. Historical allowed claims were used to develop year-over-year trend factors for use in the projected rates. The block of ACA-compliant business pertaining to the captioned company was included in Table 3 of the PA Actuarial Memorandum Exhibits for experience trend

development. A blend of ACA-compliant experience period data from each of UPMC's subsidiary companies in the small group market was included in Table 3b of the PA Actuarial Memorandum Exhibits for manual trend development. Service categories were defined to be consistent with the URRT instructions. Please note that the minor changes made to benefit designs in order to keep plan actuarial values within the allowed ranges were not significant enough to warrant an adjustment for induced demand with regard to trend, so the induced demand column has been populated with zeroes in Tables 3 and 3b. Changes in provider contracting were considered but were ultimately assumed to have negligible impact on trend. Please see Exhibit 5 of the Supporting Exhibits for trend development. Please note that data for calendar year 2020 in this exhibit was adjusted to remove the effects of COVID-19 using the methodology described in the paragraph below addressing the Change in Other adjustment.

Small Group Quarterly Trend Increases:

Quarterly trended rates beginning on the first day of each calendar quarter of 2022 are proposed in this filing. The proposed quarterly trend is 1.48%. Please see Exhibit 11 for the derivation of quarterly trend.

Historical Experience

Historical data from the time period January 2019 - December 2020 with two months of claims run-out for the captioned company and market are provided in Table 4. Please note that 2019 was the first calendar year in which ACA-compliant products were offered under the captioned company. Allowed claims were developed using the same manner described above for Table 2. The historical data listed in Table 4b consists of a blend of ACA-compliant experience period data from each of UPMC's subsidiary companies in the small group market and was used in the development of manual trend.

Rate Development & Change

Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims

Table 5 of the PA Actuarial Memorandum Exhibits shows the development of the projected index rate, Market-Adjusted Index Rate, and projected total allowed claims. Detailed discussions on the development of each quantity are provided below. Table 5a is populated with the number of member months renewing in each quarter since quarterly trended rates are proposed for this filing.

Index Rate:

For this filing, the Index Rate of the Experience Period is set equal to the manual rate due to the lack of credibility. The calculation of the manual rate is shown in Table 2b of the PA Actuarial Memorandum Exhibits. The Index Rate of the Projection Period is then calculated in Table 5 by first applying two years of 5.01% annual trend to the Index Rate of Experience Period.

An adjustment factor of 0.98 has been applied to account for changes in morbidity between the experience and projection period populations. In recent years, experience claims for members enrolled in transitional products have been consistently less than those for members enrolled in ACA-compliant products. As transitional members continue to shift into the ACA-compliant risk pool, we anticipate that the projection period population will have a slightly lower morbidity than the experience period population.

An adjustment factor of 1.295 has been applied to the index rate to account for changes in network between the experience and projection period populations. Coverage was only offered in Berks, Crawford, and Clearfield counties beginning in 2021, which is not reflected in the experience data. This adjustment factor is used to bring the experience data in line with the characteristics of the provider network included in these counties in 2022. Please see Exhibit 6 of the Supporting Exhibits for the derivation of this factor.

An adjustment factor of 1.049 has been applied to the index rate in the Change for Other category. This adjustment removes the effects of COVID-19 from the experience period data, bringing the Index Rate of Projection Period in line with expected claims experience for 2022. This factor was derived by determining the ratio of the Index Rate of Experience Period including COVID-19 medical claims adjustments to the Index Rate of Experience Period calculated using the raw, unadjusted data. Please see Exhibit 8 of the Supporting Exhibits for the derivation of this factor. Claims values included in the calculation of the former of these index rates have been adjusted at the medical service category level (no adjustments were applied to pharmacy claims). These service-level adjustments were developed by using trended and seasonality-adjusted 2019 ACA medical claims experience as a baseline for expected 2020 claims experience excluding the effects of COVID-19 and comparing this projected experience to actual claims experience from 2020.

No other adjustments have been applied to the index rate. The average age for our experience period Small Group risk pool was 37.2 with an average premium factor of 1.53. This is nearly identical to our February 2021 experience with age 37.3 and premium factor 1.54. Due to the stability of the population, no demographic adjustment has been made to the rates. Please note that the Index Rate of Projection Period of \$698.53 shown in Table 5 matches the corresponding value shown in section II, worksheet 1 of the URRT.

Market-Adjusted Index Rate:

The Projected Index Rate is adjusted by adding estimates for risk adjustment and marketplace fees (with impacts and costs spread across the whole risk pool) to obtain the Projected Market Adjusted Index Rate. Projection period Risk Adjustment PMPM has been estimated to be a payment of \$6.63, which is displayed in Table 5. The value entered in section II, worksheet 1 of the URRT was \$9.25 since the calculation of the Market Adjusted Index Rate is done on an allowed claims basis in the URRT. The updated PMPM was derived by taking the original paid PMPM divided by the Paid to Allowed Average Factor. The net amount after accounting for the fee is subtracted from the Index Rate of the Projection Period as part of the calculation of the Market Adjusted Index Rate. For the URRT and Table 5 of the PA Actuarial Memorandum Rate Exhibits, it was entered as a negative number because the calculation subtracts this value. The effect is an increase in premium as additional revenue will be required to cover the anticipated payment. No adjustment was made for the Marketplace User Fee since all plans included in this filing are only offered off exchange.

Total Allowed Claims:

The Market-Adjusted Index Rate is further modified to develop the projected total allowed claims PMPM by adding the projected allowed non-EHB claims PMPM. Benefits that were offered outside EHB include routine foot care and acupuncture. The projected allowed claims for these benefits is \$2.05 PMPM.

Retention Items

Retention items related to this filing are shown in Table 6 of the PA Actuarial Memorandum Exhibits. Detailed discussions on each item are provided below.

Administrative Expenses:

Administrative costs of 8.3% of premium have been displayed in Table 6 and the URRT. This value has been derived from projected administrative costs for the projection period. These expenses are assumed to be uniform for all plan designs.

Taxes and Fees:

Taxes and Fees will remain at approximately 2.5% in 2022. This load accounts for the projected Federal Income Tax and Pennsylvania Premium Tax in 2022. Please note that the Risk Adjustment Administration Fee of \$0.25 PMPM and the projected PCORI Fee of \$0.22 PMPM were included in the Taxes and Fees field in Table 6 and the URRT.

Profit/Contingency:

The projected profit margin for this company will remain at 0% for 2022. This value is listed in both Table 6 and the URRT. The same level of profit margin is expected for each plan included in this filing.

Projected Loss Ratio

The projected period loss ratio, using the federally-prescribed MLR methodology without the credibility adjustment, is 93.8%, as shown in Exhibit 1 of the Supporting Exhibits.

An exhibit displaying historical MLR information is provided in Exhibit 2 of the Supporting Exhibits. Loss ratios in the 'Actual' column have been calculated from data submitted in the most recent three-year MLR filing using the federally-prescribed MLR methodology without the credibility adjustment. Enrollment data in the 'Actual' column ties directly to the historical data included in Table 4 of the PA Actuarial Memorandum Exhibits. Loss ratios and enrollment data in the 'Pricing' columns are projected values taken from each calendar year's approved ACA rate filing.

As shown in Exhibit 2, actual and pricing values are comparable, yet some differences exist. The actual loss ratio is greater than the pricing loss ratio largely due to claims experience and risk adjustment transfers that were each less favorable than anticipated. Actual calendar year experience in the small group market will not necessarily be reflective of that calendar year's pricing since the effective date for most group policies is not January 1 of a given calendar year, which also contributes to the observed differences.

Normalized Market-Adjusted Projected Allowed Total Claims

Normalization factors for 2021 and 2022 are provided in Table 7 of the PA Actuarial Memorandum Exhibits. 2021 factors have been taken from the prior annual rate filing of the captioned company and market. Detailed discussion on each of the 2022 factors are provided below.

Average Age Factor:

The average age factor was calculated using our projected ACA-related Small Group population with the prescribed HHS Age Factors for 2022. It was assumed this represents the age distribution of the entire single risk pool. The number of members under each age bracket was multiplied by the corresponding HHS Age Factor. These were then summed and divided by the total number of members to obtain the average age factor. For UPMC's entire block of ACA-compliant small group business, the average age factor is 1.537 and average age was 37.2 during the experience period. This preliminary age factor is then multiplied by an adjustment factor of 0.993, which accounts for the regulation that prohibits charging for more than three children per family, resulting in a final age calibration factor of 1.526. Please see Exhibit 3 in the Supporting Exhibits for the calculation of this factor.

Average Geographic Factor:

The calibration factor of 1.109 was calculated as the weighted average of the geographical factors using projected enrollment for the single risk pool, as shown in Exhibit 4 of the Supporting Exhibits. Please see the Geographic Factors section below for a discussion on the development of factors applied for each rating area.

Average Tobacco Factor:

No tobacco load is applied in the Small Group market, so the average tobacco factor is 1.0.

Average Benefit Richness:

Benefit richness factors were calculated so that the average value is 1.0 when weighted with projected membership as demonstrated in Table 10 of the PA Actuarial Memorandum Exhibits.

Average Network Factor:

Network factors were calculated so that the average value is 1.0 when weighted with projected membership as demonstrated in Table 10 of the PA Actuarial Memorandum Exhibits.

Components of Rate Change

Data to support the calculation of the components of the rate change is presented in Tables 8 and 9 of the PA Actuarial Memorandum Exhibits. Values presented in the 2021 columns have been taken from this company's 2021 annual rate filing.

Plan Rate Development

Table 10 of the PA Actuarial Memorandum Exhibits has been populated as described in federal and state guidance to develop 2022 Plan Adjusted Index Rates. The allowable modifiers that are used in rate development are described below.

Plan Actuarial Value:

The AV for each plan was determined by the issuer's own pricing model based on experience from UPMC's fully-insured commercial block of business. This model calculates an AV for a given plan by first trending 2019 allowed claims data forward three years to the projection period, calculating paid amounts for each benefit

category based on the benefit design of a given plan and projected allowed claims data, and taking the ratio of the total projected paid claims to projected allowed claims. Since the same tool was used for all plans, this eliminates any impact from morbidity at the plan level, and differing rate increases by product type are purely based on differences in benefit design for all plans within a given product.

Benefit Richness (induced demand)

Benefit richness factors were calculated using the formula $(\text{Plan AV})^2 - (\text{Plan AV}) + 1.24$, where (Plan AV) is equal to the product of the Plan AV described above and the Non-Funding of CSR Adjustment described below on a plan-by-plan basis. This formula was prescribed by the Pennsylvania Insurance Department and has been developed to produce induced demand factors that mimic those determined by HHS. The initial factors calculated using this formula were then normalized against projected membership by plan.

Benefits in addition to EHBs

Benefits that will be offered outside EHB include routine foot care and acupuncture. The projected allowed claims for these benefits is \$2.05 PMPM. The adjustment factor of 1.003 included in Table 10 has been derived by adding the aforementioned PMPM to the projected index rate for 2022 and dividing this total by the same index rate, causing the adjustment to be applied uniformly to all plans.

Provider Network

Please see the Network Factors section below for a discussion on the development of the provider network factors applied in Table 10.

Catastrophic Eligibility

This adjustment is not applicable to the small group market.

Non-Funding of CSR Adjustment

This adjustment is not applicable to the small group market.

Plan Premium Development for 21-Year-Old Non-Tobacco User

Table 11 of the PA Actuarial Memorandum Exhibits has been populated as described in federal and state guidance. 2022 rates calculated in this tables were tested to ensure that they match those included in the PA Plan Design Summary and Rate Tables, Federal Rates Template, and the binder.

Plan Factors

Age and Tobacco Factors

As indicated in Table 12 of the PA Actuarial Memorandum Exhibits, the default federal standard age curve for 2022 is used in the development of the Consumer Adjusted Premium Rates. No tobacco load will be applied for the small group market in 2022.

Geographic Factors

The geographic rating areas used within this filing are the same as those defined by the state. To better reflect the varying costs of delivery between each geographical region in which coverage is offered, rating area factors have been updated for 2022. The table below summarizes changes in these factors:

| Region | 2021 | 2022 |
|--------|------|------|
| 1 | 0.94 | 0.96 |
| 5 | 1.00 | 1.00 |
| 7 | 1.21 | 1.34 |

Network Factors

The networks included under the captioned company for 2022 are not anticipated to exhibit any significant differences in cost of delivery characteristics. Therefore, all network factors have been set to 1.0 in Table 14 of the PA Actuarial Memorandum Exhibits.

Service Area Composition

Table 13 of the PA Actuarial Memorandum Exhibits shows the areas in which plans will be offered in 2022. Service area maps for 2021 and 2022 have been uploaded in the Supporting Documentation section in SERFF.

Composite Rating

No composite rating is used with these plans.

Warning Alerts

Several warning messages appear after clicking the validate button in the URRT. These messages highlight the fact that several terminated plans have entries of zero in the current enrollment and premium PMPM fields on worksheet 2 of the URRT. These particular plans were terminated prior to 2021 but have experience in 2020 and therefore must be included in the URRT. Similar error messages appeared in the prior year's version of the URRT for the captioned company.

List of Supporting Exhibits

Supporting exhibits have been included with the rate filing to assist with the review process. Below is a list summarizing the contents of each exhibit.

- Exhibit 1: Derivation of Projection Period MLR
- Exhibit 2: Actual vs Pricing MLR & Member Months
- Exhibit 3: Derivation of Age Calibration Factor
- Exhibit 4: Derivation of Geographical Calibration Factor
- Exhibit 5: Derivation of Annual Trend
- Exhibit 6: Derivation of Change in Network Factor
- Exhibit 7: Derivation of 3-child Cap Adjustment Factor
- Exhibit 8: Derivation of Change in Other Factor
- Exhibit 9: Derivation of Agent/Broker Fees and Commissions
- Exhibit 10: Calculation of Quarterly Rate Changes
- Exhibit 11: Derivation of Quarterly Trend
- Exhibit 12: Historical Actual & Projected Claims Data
- Exhibit 13: 2019 County Level Performance
- Exhibit 14: Historical & Projected Financial Gains/Losses

Actuarial Certification

I, [REDACTED], am a Member of the American Academy of Actuaries. I am currently a Manager in the Actuarial Services department for UPMC Health Plan. I certify that:

- All factor, benefit and other changes from the prior approved filing have been disclosed in this actuarial memorandum.
- New plans cannot be considered modifications of existing plans under the uniform modification standards in 45 CFR 147.106.
- The information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2022 Rate Filing Justification.
- The projected Index Rate is:
 - a. In compliance with all applicable state and Federal statutes and regulations (45 CFR 156.80 and 147.102)
 - b. Developed in compliance with the applicable Actuarial Standards of Practice
 - c. Reasonable in relation to the benefits provided and the population anticipated to be covered
 - d. Neither excessive nor deficient
- The Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 156.80(d)(2) were used to generate plan level rates.
- The geographic rating factors reflect only differences in the costs of delivery and do not include differences for population morbidity by geographic area.
- The AV Calculator was used to determine the AV Metal Values shown in Worksheet 2 of the Part I URRT for all plans except those specified in the certification.

Rating Area Data Collection

Specify the total number of Rating Areas in your State by selecting the Create Rating Areas button or Ctrl + Shift + R.

Select only the Rating Areas you are offering plans within and add a factor for each area.

To validate, select the Validate button or Ctrl + Shift + I.

To finalize, select the Finalize button or Ctrl + Shift + F.

| Rating Area | Rating Factor |
|---------------|---------------|
| Rating Area 1 | 0.9600 |
| Rating Area 5 | 1.0009 |
| Rating Area 7 | 1.3418 |

RFJ Part II – Consumer Friendly Justification

Small Group Exchange EPO/PPO Rate Filing

The rate change for UPMC Health Benefits Small Group plans is 14.12% for 2022. Rate change drivers include the following: Increasing cost and utilization trends; Less favorable anticipated Risk Adjustment transfer relative to the prior year.

Scope and Range of the Rate Increase

The number of individuals affected by this rate increase is 7,130. The proposed rate increase varies by plan due to various changes made to meet AV requirements on a plan-by-plan basis. The range of the proposed rate change is 13.5% to 15.1%.

Financial Experience of the Product

| | |
|-----------------------------------|------------------------|
| Premiums | \$ 77,734,168 |
| Claims | \$ 83,967,012 |
| Administrative expenses | \$ 7,777,519 |
| Taxes & fees | \$ 1,672,174 |
| Company made (after taxes) | \$ (15,682,537) |

Changes in Medical Service Costs

For 2022, cost and utilization increases are expected to increase by approximately 5.01%

Changes in Benefits

No changes in benefits contributed significantly to the increase.

Administrative Costs and Anticipated Profits

No major changes in administrative costs or profits are anticipated and thus did not affect the increase.

RFJ Part III: Actuarial Memorandum

General Information

The purpose of this actuarial memorandum is to provide certain information related to a rate submission for the company identified below. The relevant index rate is developed in accordance with federal regulations, and plan specific premiums are generated using the allowable modifiers in accordance with the single risk pool rule.

The following section provides information related to the identification of the company that is submitting this rate filing. Much of this information is also displayed in Table 0 of the PA Actuarial Memorandum Exhibits.

Company Identifying Information:

Company Legal Name: UPMC Health Benefits, Inc.

NAIC #: 11018

State: PA

HIOS Issuer ID: 67430

Market: Small Group

Exchange: Off Exchange

Products: PPO, EPO

Effective Date: 1/1/2022

Company Contact Information:

Rate Filing SERFF Tracking #: UPMC-132801369

Form Filing SERFF Tracking #: UPMC-132821202, UPMC-132821210, UPMC-132821213

Binder SERFF Tracking #: UPMC-PA22-125107513

Rate History:

Historical and proposed rate changes vary by plan due to various changes made to meet AV requirements on a plan-by-plan basis. The values listed below and overall proposed rate change for 2022 are weighted averages of the increase for each plan based on projected enrollment. Please see Table 10 of the PA Actuarial Memorandum Exhibits for a breakdown of plan-by-plan rate increases.

| SERFF Tracking # | Year | Rate Change relative to Prior Filing* |
|------------------|---------|---------------------------------------|
| UPMC-131496028 | 2019 | N/A |
| UPMC-131851705 | 2019 Q4 | N/A |
| UPMC-131943309 | 2020 | 11.5% |
| UPMC-132294646 | 2020 Q4 | 16.8% |
| UPMC-132364942 | 2021 | -3.0% |

**relative to prior year annual filing for quarterly updates*

Proposed Rate Increase(s)

Reasons for Rate Increase(s):

The proposed rate increase calculated for PPO products in section I, worksheet 2 of the URRT is 14.5%

The proposed rate increase calculated for EPO products in section I, worksheet 2 of the URRT is 20.9%

The major reasons for the increase include the following:

- Increasing cost and utilization trends
- Less favorable anticipated Risk Adjustment transfer relative to prior year

Market Experience

Single Risk Pool

The single risk pool consists of members that are anticipated to enroll in ACA-compliant policies offered under the captioned market.

Experience Period Premium and Claims

Paid Through Date:

The reported claims during the experience period have a paid through date of February 2021.

Current Date:

Current enrollment and premium data is reported as of February 15, 2021.

Premiums (net of MLR Rebate) in Experience Period:

Section I, worksheet 1 of the URRT contains calendar year 2020 premium for all non-grandfathered policies in the single risk pool for the captioned company and market. No adjustments were made for MLR rebates as we do not anticipate owing them. HHS cost-sharing is not included in the premium data. Please note that the earned premium is also listed in Table 2 of the PA Actuarial Memorandum Exhibits.

Allowed and Incurred Claims Incurred During the Experience Period:

Section I, worksheet 1 of the URRT contains calendar year 2020 claims experience for all non-grandfathered policies in the single risk pool for the captioned company and market, paid through February 2021. Allowed medical, pharmacy, and pediatric dental & vision claims are pulled directly from our data warehouse. We used the standard Development/Completion Factor Method to calculate IBNR. Factors were calculated using our entire fully insured Group block of business. Because of the changes in membership in our ACA-compliant plans year to year, we felt it would be better to use a more established and consistent data set. Because two months run-out is available the impact of IBNR is minimal. The completion factors used are displayed in the table below and no unexpected factors were observed.

| Month | Completion Factor |
|-----------|-------------------|
| 1/1/2020 | 0.9993 |
| 2/1/2020 | 0.9993 |
| 3/1/2020 | 0.9989 |
| 4/1/2020 | 0.9918 |
| 5/1/2020 | 0.9970 |
| 6/1/2020 | 0.9961 |
| 7/1/2020 | 0.9944 |
| 8/1/2020 | 0.9920 |
| 9/1/2020 | 0.9888 |
| 10/1/2020 | 0.9829 |
| 11/1/2020 | 0.9676 |
| 12/1/2020 | 0.9437 |

Benefit Categories

Medical claims are split into nine categories in our data warehouse. They are mapped into the categories in the URRT as follows:

| UPMC Benefit Category | URRT Benefit Category |
|-----------------------|-----------------------|
| Inpatient | Inpatient Hospital |
| Catastrophic | Inpatient Hospital |
| Outpatient | Outpatient Hospital |
| Behavioral | Outpatient Hospital |
| PCP | Professional |
| Specialist | Professional |
| Diagnostic | Other Medical |
| ER | Other Medical |
| Other | Other Medical |
| Pediatric Dental | Other Medical |
| Pediatric Vision | Other Medical |

Drug claims are in separate tables and directly mapped into the Prescription Drugs category. Note that services are the unit of measurement used for the Other Medical category.

Projection Factors

Trend Factors (cost/utilization):

The overall annual trend used in rate development is 5.01%. Historical allowed claims were used to develop year-over-year trend factors for use in the projected rates. The block of ACA-compliant business pertaining to the captioned company was included in Table 3 of the PA Actuarial Memorandum Exhibits for experience trend development. A blend of ACA-compliant experience period data from each of UPMC's subsidiary companies in the small group market was included in Table 3b of the PA Actuarial Memorandum Exhibits for manual trend development. Service categories were defined to be consistent with the URRT instructions. Please note that the minor changes made to benefit designs in order to keep plan actuarial values within the allowed ranges were not significant enough to warrant an adjustment for induced demand with regard to trend, so the induced demand column has been populated with zeroes in Tables 3 and 3b. Changes in provider contracting were considered but were ultimately assumed to have negligible impact on trend. Please see Exhibit 5 of the Supporting Exhibits for trend development. Please note that data for calendar year 2020 in this exhibit was adjusted to remove the effects of COVID-19 using the methodology described in the paragraph below addressing the Change in Other adjustment.

Adjustments to Trended EHB Allowed Claims PMPM

Changes in the Morbidity of the Population Insured:

An adjustment factor of 0.98 has been applied to account for changes in morbidity between the experience and projection period populations. In recent years, experience claims for members enrolled in transitional products have been consistently less than those for members enrolled in ACA-compliant products. As transitional members continue to shift into the ACA-compliant risk pool, we anticipate that the projection period population will have a slightly lower morbidity than the experience period population.

Changes in Benefits:

No changes were made to the PA EHB Benchmark plan for 2022, so no adjustments were necessary.

Changes in Demographics:

The average age for our experience period Small Group risk pool was 37.2 with an average premium factor of 1.53. This is nearly identical to our February 2021 experience with age 37.3 and premium factor 1.54. Due to the stability of the population, no demographic adjustment has been made to the rates.

Other Adjustments:

An adjustment factor of 1.295 has been applied to the index rate to account for changes in network between the experience and projection period populations. Coverage was only offered in Berks, Crawford, and Clearfield counties beginning in 2021, which is not reflected in the experience data. This adjustment factor is used to bring the experience data in line with the characteristics of the provider network included in these counties in 2022. Please see Exhibit 6 of the Supporting Exhibits for the derivation of this factor.

An adjustment factor of 1.049 has been applied to the index rate in the Change for Other category. This adjustment removes the effects of COVID-19 from the experience period data, bringing the Index Rate of Projection Period in line with expected claims experience for 2022. This factor was derived by determining the ratio of the Index Rate of Experience Period including COVID-19 medical claims adjustments to the Index Rate of Experience Period calculated using the raw, unadjusted data. Please see Exhibit 8 of the Supporting Exhibits for

the derivation of this factor. Claims values included in the calculation of the former of these index rates have been adjusted at the medical service category level (no adjustments were applied to pharmacy claims). These service-level adjustments were developed by using trended and seasonality-adjusted 2019 ACA medical claims experience as a baseline for expected 2020 claims experience excluding the effects of COVID-19 and comparing this projected experience to actual claims experience from 2020.

Credibility Manual Rate Development

Source and Appropriateness of Manual Rate Used:

The rate manual was developed using experience period data for groups enrolled in an ACA-compliant plan from each of UPMC's subsidiary companies in the small group market, which is displayed in tables 2b, 3b, and 4b in the PA Actuarial Memorandum Exhibits. The rate manual consists of 1,609,259 member months of experience.

Adjustments Made to the Data:

Adjustments made to the manual data are discussed in the "Projection Factors" section above.

Inclusion of Capitation Payments:

No benefits are projected to be paid for via capitation.

Credibility of Experience

The experience period data for this company consists of 214,819 member months for ACA-compliant policies. However, the rate manual for this filing was developed using a blend of ACA-compliant experience period data from each of UPMC's subsidiary companies in the small group market, which is displayed in tables 2b, 3b, and 4b in the PA Actuarial Memorandum Exhibits. The rate manual consists of 1,609,259 member months of experience and represents the same single risk pool. Since the rate manual consists of an even larger population of ACA-compliant membership that we believe is more representative of the single risk pool, 0% credibility is used, just as was implemented in prior filings for the captioned company and market.

Establishing the Index Rate

For this filing, the Index Rate of the Experience Period is set equal to the manual rate due to the lack of credibility. The calculation of the manual rate is shown in Table 2b of the PA Actuarial Memorandum Exhibits. The Index Rate of the Projection Period is then calculated in Table 5 by first applying two years of 5.01% annual trend to the manual rate. The adjustments described in the Projection Factors section above were then applied to the trended manual rate to generate the Index Rate of the Projection Period. Please note that the Index Rate of Projection Period of \$698.53 shown in Table 5 matches the corresponding value shown in section II, worksheet 1 of the URRT. Claims for routine foot care and acupuncture were not included in the calculation of the index rates despite being covered during the experience period since they are classified as non-EHBs.

Small Group Quarterly Trend Increases:

Quarterly trended rates beginning on the first day of each calendar quarter of 2022 are proposed in this filing. The proposed quarterly trend is 1.48%. Please see Exhibit 11 for the derivation of quarterly trend.

Paid to Allowed Ratio

The Paid to Allowed Average Factor was calculated by taking the weighted average of the company-determined Actuarial Values for all plans using current membership as demonstrated in Table 10 of the PA Actuarial Memorandum Exhibits.

Development of the Market Adjusted Index Rate

The Projected Index Rate is adjusted by adding estimates for Risk Adjustment and Marketplace Fees (with impacts and costs spread across the whole risk pool) to obtain the projected Market Adjusted Index Rate. Derivation of the PMPM values used for the Risk Adjustment, Marketplace Fees adjustments, and projected Reinsurance recoveries are described in the following sections.

Experience Period Risk Adjustment and Reinsurance Adjustments PMPM:

Experience period Risk Adjustment was estimated to be a payment of \$4,502,545 per the Summary Report on Permanent Risk Adjustment Transfers for the 2020 Benefit Year published by CMS on June 30, 2021, which translates to a PMPM of \$20.96.

Projected Risk Adjustments PMPM:

Projection period Risk Adjustment PMPM has been estimated to be a payment of \$6.63, which is displayed in Table 5. The value entered in section II, worksheet 1 of the URRT was \$9.25 since the calculation of the Market Adjusted Index Rate is done on an allowed claims basis in the URRT. The updated PMPM was derived by taking the original paid PMPM divided by the Paid to Allowed Average Factor. The net amount after accounting for the fee is subtracted from the Index Rate of the Projection Period as part of the calculation of the Market Adjusted Index Rate. For the URRT and Table 5 of the PA Actuarial Memorandum Rate Exhibits, it was entered as a negative number because the calculation subtracts this value. The effect is an increase in premium as additional revenue will be required to cover the anticipated payment.

Exchange User Fees:

No adjustment was made for the Marketplace User Fee since all plans included in this filing are only offered off exchange.

Estimated Reinsurance Recoveries PMPM:

No adjustment was made for the new state-based reinsurance program since it is not applicable to the small group market.

Non-Benefit Expenses and Profit & Risk

Administrative Expense Load:

Administrative costs of 8.3% of premium have been displayed in Table 6 and the URRT. This value has been derived from projected administrative costs for the projection period. These expenses are assumed to be uniform for all plan designs.

| |
|--|
| |
| |
| |
| |

Profit & Risk Margin:

The projected profit margin for this company will remain at 0% for 2022. This value is listed in both Table 6 and the URRT. The same level of profit margin is expected for each plan included in this filing.

Taxes and Fees:

Taxes and Fees will remain at approximately 2.5% in 2022. This load accounts for the projected Federal Income Tax and Pennsylvania Premium Tax in 2022. Please note that the Risk Adjustment Administration Fee of \$0.25 PMPM and the projected PCORI Fee of \$0.22 PMPM were included in the Taxes and Fees field in Table 6 and the URRT.

Plan Adjusted Index Rates

Table 10 of the PA Actuarial Memorandum Exhibits has been populated as described in federal and state guidance to develop 2022 Plan Adjusted Index Rates. The allowable modifiers that are used in rate development are described below.

Plan Actuarial Value:

The AV for each plan was determined by the issuer's own pricing model based on experience from UPMC's fully-insured commercial block of business. This model calculates an AV for a given plan by first trending 2019 allowed claims data forward three years to the projection period, calculating paid amounts for each benefit category based on the benefit design of a given plan and projected allowed claims data, and taking the ratio of the total projected paid claims to projected allowed claims. Since the same tool was used for all plans, this eliminates any impact from morbidity at the plan level, and differing rate increases by product type are purely based on differences in benefit design for all plans within a given product.

Benefit Richness (induced demand)

Benefit richness factors were calculated using the formula $(\text{Plan AV})^2 - (\text{Plan AV}) + 1.24$, where (Plan AV) is equal to the product of the Plan AV described above and the Non-Funding of CSR Adjustment described below on a plan-by-plan basis. This formula was prescribed by the Pennsylvania Insurance Department and has been developed to produce induced demand factors that mimic those determined by HHS. The initial factors calculated using this formula were then normalized against projected membership by plan.

Benefits in addition to EHBs

Benefits that will be offered outside EHB include routine foot care and acupuncture. The projected allowed claims for these benefits is \$2.05 PMPM. The adjustment factor of 1.003 included in Table 10 has been derived by adding the aforementioned PMPM to the projected index rate for 2022 and dividing this total by the same index rate, causing the adjustment to be applied uniformly to all plans.

Provider Network

The networks included under the captioned company for 2022 are not anticipated to exhibit any significant differences in cost of delivery characteristics. Therefore, all network factors have been set to 1.0 in Table 14 of the PA Actuarial Memorandum Exhibits.

Catastrophic Eligibility

This adjustment is not applicable to the small group market.

Non-Funding of CSR Adjustment

This adjustment is not applicable to the small group market.

Calibration

Age Curve Calibration:

The average age factor was calculated using our projected ACA-related Small Group population with the prescribed HHS Age Factors for 2022. It was assumed this represents the age distribution of the entire single risk-pool. The number of members under each age bracket was multiplied by the corresponding HHS Age Factor. These were then summed and divided by the total number of members to obtain the average age factor. For UPMC's entire block of ACA-compliant small group business, the average age factor is 1.537 and average age was 37.2 during the experience period. This preliminary age factor is then multiplied by an adjustment factor of 0.993, which accounts for the regulation that prohibits charging for more than three children per family, resulting in a final age calibration factor of 1.526. Please see Exhibit 3 in the Supporting Exhibits for the calculation of this factor.

Geographic Factor Calibration:

The geographic rating areas used within this filing are the same as those defined by the state. To better reflect the varying costs of delivery between each geographical region in which coverage is offered, rating area factors have been updated for 2022. The table below summarizes changes in these factors:

| Region | 2021 | 2022 |
|--------|------|------|
| 1 | 0.94 | 0.96 |
| 5 | 1.00 | 1.00 |
| 7 | 1.21 | 1.34 |

The calibration factor of 1.109 was calculated as the weighted average of the geographical factors using projected enrollment for the single risk pool, as shown in Exhibit 4 of the Supporting Exhibits.

Tobacco Use Rating Factor Calibration:

No tobacco load is applied in the Small Group market, so no adjustment is necessary.

Consumer Adjusted Premium Rate Development

Table 11 of the PA Actuarial Memorandum Exhibits has been populated as described in federal and state guidance. 2022 rates calculated in this tables were tested to ensure that they match those included in the PA Plan Design Summary and Rate Tables, Federal Rates Template, and the binder. The Plan Adjusted Index Rates are divided by the age calibration factor then multiplied by the specific age, geographic, and tobacco factors shown in Tables 12, 13, and 14 of the PA Actuarial Memorandum Exhibits, respectively, to develop the Consumer Adjusted Premium Rates.

Projected Loss Ratio

The projected period loss ratio, using the federally-prescribed MLR methodology without the credibility adjustment, is 93.8%, as shown in Exhibit 1 of the Supporting Exhibits.

An exhibit displaying historical MLR information is provided in Exhibit 2 of the Supporting Exhibits. Loss ratios in the 'Actual' column have been calculated from data submitted in the most recent three-year MLR filing using the federally-prescribed MLR methodology without the credibility adjustment. Enrollment data in the 'Actual' column ties directly to the historical data included in Table 4 of the PA Actuarial Memorandum Exhibits. Loss ratios and enrollment data in the 'Pricing' columns are projected values taken from each calendar year's approved ACA rate filing.

As shown in Exhibit 2, actual and pricing values are comparable, yet some differences exist. The actual loss ratio is greater than the pricing loss ratio largely due to claims experience and risk adjustment transfers that were each less favorable than anticipated. Actual calendar year experience in the small group market will not necessarily be reflective of that calendar year's pricing since the effective date for most group policies is not January 1 of a given calendar year, which also contributes to the observed differences.

Plan Product Info

AV Metal Values

Metal values were determined using the final 2022 HHS AV Calculator.

Membership Projections

Membership projections were developed based on our anticipated competitive positioning in the market combined with our current enrollment distribution by plan.

Terminated Plans and Products

Please see Table 10 of the PA Actuarial Memorandum Exhibits for a mapping of all terminated SCIDs to a 2022 plan, where applicable.

Warning Alerts

Several warning messages appear after clicking the validate button in the URRT. These messages highlight the fact that several terminated plans have entries of zero in the current enrollment and premium PMPM fields on worksheet 2 of the URRT. These particular plans were terminated prior to 2021 but have experience in 2020 and therefore must be included in the URRT. Similar error messages appeared in the prior year's version of the URRT for the captioned company.

Effective Rate Review Information

The Pennsylvania Insurance Department is responsible for conducting effective rate review for all submitted rates.

List of Supporting Exhibits

Supporting exhibits have been included with the rate filing to assist with the review process. Below is a list summarizing the contents of each exhibit.

- Exhibit 1: Derivation of Projection Period MLR
- Exhibit 2: Actual vs Pricing MLR & Member Months
- Exhibit 3: Derivation of Age Calibration Factor
- Exhibit 4: Derivation of Geographical Calibration Factor
- Exhibit 5: Derivation of Annual Trend
- Exhibit 6: Derivation of Change in Network Factor
- Exhibit 7: Derivation of 3-child Cap Adjustment Factor
- Exhibit 8: Derivation of Change in Other Factor
- Exhibit 9: Derivation of Agent/Broker Fees and Commissions
- Exhibit 10: Calculation of Quarterly Rate Changes
- Exhibit 11: Derivation of Quarterly Trend
- Exhibit 12: Historical Actual & Projected Claims Data
- Exhibit 13: 2019 County Level Performance
- Exhibit 14: Historical & Projected Financial Gains/Losses

Actuarial Certification

I, [REDACTED], am a Member of the American Academy of Actuaries. I am currently a Manager in the Actuarial Services department for UPMC Health Plan. I certify that:

- All factor, benefit and other changes from the prior approved filing have been disclosed in this actuarial memorandum.
- New plans cannot be considered modifications of existing plans under the uniform modification standards in 45 CFR 147.106.
- The information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2022 Rate Filing Justification.
- The projected Index Rate is:
 - a. In compliance with all applicable state and Federal statutes and regulations (45 CFR 156.80 and 147.102)
 - b. Developed in compliance with the applicable Actuarial Standards of Practice
 - c. Reasonable in relation to the benefits provided and the population anticipated to be covered
 - d. Neither excessive nor deficient
- The Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 156.80(d)(2) were used to generate plan level rates.
- The geographic rating factors reflect only differences in the costs of delivery and do not include differences for population morbidity by geographic area.
- The AV Calculator was used to determine the AV Metal Values shown in Worksheet 2 of the Part I URRT for all plans except those specified in the certification.

Submitted Date:06/11/2021 06:30 AM

Dear Mike Lovely,

Introduction:

June 11, 2021

Mike Lovely

UPMC Health Benefits, Inc.

600 Grant Street

Pittsburgh, PA 15219

RE: UPMC Health Benefits, Small Group PPO & EPO, ACA Filing for PY2022

Pennsylvania Insurance Department ID #: UPMC-132801369

Dear Mike Lovely:

The Pennsylvania Insurance Department has received and conducted a preliminary review of the above captioned filing. In order to complete the review, we are requesting the following information. To facilitate a timely review, we request this information be provided June 22, 2021. If you have any questions or difficulties in providing the data within this time frame, please call me.

The following questions are from Oliver Wyman, our Actuarial Consultant:

No consultant questions.

The following are additional questions or comments from the PID:

1. Please confirm that you have tested to ensure that the rates in Table 11 of the PA AM Exhibits, PA Plan Design Summary and Rate Table, Federal Rates Template, and binder are identical.

We can confirm that we have tested to ensure that the rates match.

2. Please provide an exhibit that quantitatively shows a comparison of the actual to projected claim cost PMPMs for calendar years 2017-2020, as applicable.

Please see Exhibit 12 of the Supporting Exhibits for a comparison of the actual and projected claims costs over the 2017 - 2020 timespan.

3. The requested rate increase for this filing was above average among PA small group issuers. Please provide a short list of bullet points that explain the main issues causing this higher-than-average requested increase.

Consistent with reasoning in our Health Benefits *Federal Actuarial Memorandum* and *RFJ Part II - Consumer Friendly Justification* documents, the following drivers resulted in a rate increase:

- Increasing cost and utilization trends
- Less favorable anticipated risk adjustment transfer relative to the prior year

Please be advised that there may be additional questions based on the responses to the above. However, it is our hope to avoid 3rd round data calls. Towards this end, please provide complete detailed and thorough responses including supporting data and narrative.

Each response to a Department data call must contain a cover letter that details the changes made to the PA Actuarial Memorandum Exhibits and the reasons why the changes were made, e.g., in response to Department question number 5.

Response to this request should be provided via SERFF in Microsoft Excel spreadsheets. Please retain all formulas.

Upon receipt of your responses to the above requested data, the Department will continue to review your filing. Please note that there may be additional questions and/or requirements as the Department conducts a more in-depth review.

Should you have any questions regarding this correspondence, please contact me at (717) 783-2117 or e-mail at jlaverty@pa.gov.

Sincerely,

James Laverty, FSA, MAAA
Actuary
Bureau of Accident & Health Insurance
Cell (860) 729-8522

Conclusion:

Sincerely,

Jim Laverty

RE: UPMC Health Benefits, Small Group PPO & EPO, ACA Filing for PY2022

Pennsylvania Insurance Department ID #: UPMC-132801369

Dear Mike Lovely:

The Pennsylvania Insurance Department has received and conducted a preliminary review of the above captioned filing. In order to complete the review, we are requesting the following information. To facilitate a timely review, we request this information be provided July 13, 2021. If you have any questions or difficulties in providing the data within this time frame, please call me.

The following questions are from Oliver Wyman, our Actuarial Consultant:

No consultant questions.

The following are additional questions or comments from the PID:

1. Please provide an exhibit showing the actual experience for calendar years 2016-2020 and the projection experience for 2021 and 2022 for the following categories: Member Months, Total Administrative Expenses, Total Incurred Claims, Total Premium, Total Actual Paid Taxes and Fees, Profit, Total Underwriting Gain/Loss and Underwriting Gain/Loss PMPM

Please see Exhibit 14 of the Supporting Exhibits for the requested breakout.

2. Does this company have any transitional membership? If so, has there recently been a significant drop in transitional membership? Do you anticipate a drop in 2022?

This company does not have transitional membership.

3. If the projected risk adjustment transfer amount in Table 5 will be modified, due to the final CMS transfer amount published on June 30th, please provide narrative and detailed supporting data to justify the proposed changes.

The projected risk adjustment transfer amount in Table 5 did not change due to the final CMS transfer amounts published June 30th.

4. Please confirm that you have tested to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, and Federal Rate Templates are identical.

We can confirm that we have tested to ensure that the rates match.

5. Please ensure that the 7/13/21 versions of the following items are posted in SERFF with your July 13th response to this data call.

- a. Cover Letter identifying all changes made and the reasons for the change. Also, show the revised rate change.
- b. PA Actuarial Memorandum
- c. PA Actuarial Memorandum Exhibits
- d. Department's Plan Design Summary and Rate Template Exhibits (please ensure that the rate template by county is populated with only numeric values – no "NA")
- e. URRF
- f. Federal Rate Template
- g. Part III: Actuarial Memorandum
- h. Updated Rate Change Request Summary (Attachment I)
- i. Public PDF with limited redactions as previously directed in the Guidance (includes all correspondence and supporting exhibits after the initial submission, in addition to all the above items).

6. Why was coverage only offered in Berks, Crawford, and Clearfield counties beginning in 2021?

For 2021, the Health Benefits legal entity was organized to house our small group coverage for Crawford, Clearfield, and Berks counties.

The need to purpose the Health Benefits legal entity starting in 2021 was rooted in certain counties historically performing poorer than that of their parent regions - that is from an MLR inclusive of risk adjustment perspective (we analyzed MLRs with risk adjustment factored in to ensure the removal of morbidity in our decision-making process). For context, Crawford county exhibited an MLR of much greater magnitude than that of the remaining counties in Rating Area 1, where the Clearfield county MLR showed much higher than the comprehensive MLR for the other counties in Rating Area 5. The same can be said for Berks county in Rating Area 7. To reflect the material cost differences in each of these three counties vs that of their parent rating areas and thus to achieve adequate pricing, we moved these counties onto their own legal entity.

Please see supporting Exhibit 13 to demonstrate this concept. The exhibit displays 2019 county-level performance for each of Rating Areas 1, 5, and 7, housing Crawford, Clearfield, and Berks counties, respectively. Calendar year 2019 claims, premium, and risk adjustment amounts were used in the calculations as this decision was initially set forth in the 2021 filing. Additionally, the MLRs displayed in this exhibit do not include adjustments for QI, taxes & fees, and credibility/deductible adjustments, so they are not reflective of the MLRs that will be referenced in rebate calculations.

7. The requested rate increase of 14.1% is higher than average for small groups in PA. Please provide a short list of bullet points that explain the main issues causing this higher-than-average increase request.

Consistent with reasoning outlined in our Round 1 response, in addition to our Health Benefits Federal Actuarial Memorandum and RFJ Part II - Consumer Friendly Justification documents, the following drivers resulted in a rate increase:

- Increasing cost and utilization trends**
- Less favorable anticipated risk adjustment transfer relative to the prior year**

As we do not currently have insight into 2022 rate filings/assumptions from other carriers, and thus the average increase for the small group market, we can only speak to what our data and assumptions support as noted above.

Please be advised that there may be additional questions based on the responses to the above. However, it is our hope to avoid 3rd round data calls. Towards this end, please provide complete detailed and thorough responses including supporting data and narrative.

Each response to a Department data call must contain a cover letter that details the changes made to the PA Actuarial Memorandum Exhibits and the reasons why the changes were made, e.g., in response to Department question number 5.

Response to this request should be provided via SERFF in Microsoft Excel spreadsheets. Please retain all formulas.

Upon receipt of your responses to the above requested data, the Department will continue to review your filing. Please note that there may be additional questions and/or requirements as the Department conducts a more in-depth review.

Should you have any questions regarding this correspondence, please contact me at (717) 783-2117 or e-mail at jlaverty@pa.gov.

Sincerely,

James Laverty, FSA, MAAA
