Harrisburg, PA 17120

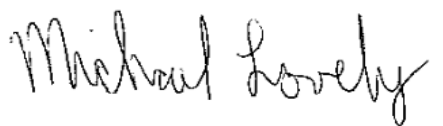

Dear Ms. Gray,

UPMC Health Options, Inc. respectfully requests approval of a rate filing for Small Group Off Exchange PPO/EPO products. The rates are proposed for effective dates of 1/1/2019 through 12/31/2019.

Company Name/NAIC #: UPMC Health Options, Inc./15345
Market: Small Group
On or Off Exchange: Off Exchange Only
Effective Date of Coverage: 1/1/2019
Average Rate Change Requested: -5.13% (-\$14.72)
Range of Rate Change Requested: -10.41% to -3.50% (-\$29.87 to -\$10.04)
Total additional annual revenue generated from the proposed rate change: -\$44,843,723
Products Offered: PPO, EPO
Rating Areas Where Plans are Offered: 1, 2, 3, 4, 5, 6, 7, 9 (region 9 added for 2019)
Metal Levels Offered: Bronze, Silver, Gold, Platinum
Currently Enrolled Lives: 142,592
Currently Enrolled Policyholders: 80,641
Number of Plans Offered in 2019: 46 (46 fewer than 2018)
Corresponding Contract Form #: EPOF02, EPOF04, PPOF02, PPOF05, PPOF07, PPOF08
Binder ID#: UPMC-PA19-125080215
HIOS Issuer ID #: 16322
Submission Tracking #: UPMC-131495951

If you have any questions or require additional information, please call me at 412-454-7849 or email me at lovelymt@upmc.edu.

Sincerely,

Michael Lovely, FSA, CERA, MAAA

Rate Change Summary

UPMC Health Options, Inc. – Small Group Plans

Rate request filing ID # UPMC-131495951 - This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at <http://www.insurance.pa.gov/Consumers/ACARelatedFilings/>

Overview

Initial requested average rate change:	-5.13%
Revised requested average rate change:	-5.34%
Range of requested rate change:	-10.61% to -3.50%
Effective date:	1/1/2019
People impacted:	142,592
Available in:	1, 2, 3, 4, 5, 6, 7, 9

Key information

Jan. 2017-Dec. 2017 financial experience

Premiums	\$	623,625,055
Claims	\$	575,594,318
Administrative expenses	\$	40,011,918
Taxes & fees	\$	232,191
Company made (after taxes)	\$	7,786,628

How it plans to spend your premium

This is how the insurance company plans to spend the premium it collects in 2019:

Claims:	90.34%
Administrative:	9.66%
Taxes & fees:	0.00%
Profit:	0.00%

The company expects its annual medical costs to increase by approximately 3.23% for 2019.

Explanation of requested rate change

The proposed rate change listed above accounts for a projected decrease in morbidity trend for the single risk pool, as well as decreases in the projected administrative costs, taxes, and fees for 2019.

Ms. Tracie Gray
Commonwealth of Pennsylvania Insurance Department
Insurance Product Regulation & Market Enforcement
Actuarial Review Division
Bureau of Life, Accident & Health Insurance
1311 Strawberry Square
Harrisburg, PA 17120

Dear Ms. Gray,

UPMC Health Options, Inc. respectfully requests approval of a rate filing for Small Group Off Exchange PPO/EPO products. The rates are proposed for effective dates of 1/1/2019 through 12/31/2019. The revised filing includes the following changes to the PA Actuarial Memorandum Exhibits:

- 1.) Per request from the Department, the weights implemented in Table 3/3b were corrected to match those in the URRT. As part of this same update, the projected non-EHB PMPM was corrected so that the allowed claims PMPM values in Table 5 and the URRT differ by the corrected non-EHB PMPM amount. Previously, the non-EHB PMPM amount in Table 5 had not been adjusted to account for the Change in Morbidity, Change in Network, and quarterly trend factors.*
- 2.) Per request from the Department, the quarterly trend implemented in Table 5a was decreased from 2% to 1.78%.*

Company Name/NAIC #: UPMC Health Options, Inc./15345
Market: Small Group
On or Off Exchange: Off Exchange Only
Effective Date of Coverage: 1/1/2019
Average Rate Change Requested: -5.34% (-\$15.31)
Range of Rate Change Requested: -10.61% to -3.50% (-\$30.43 to -\$10.04)
Total additional annual revenue generated from the proposed rate change: -\$46,641,308
Products Offered: PPO, EPO
Rating Areas Where Plans are Offered: 1, 2, 3, 4, 5, 6, 7, 9 (region 9 added for 2019)
Metal Levels Offered: Bronze, Silver, Gold, Platinum
Currently Enrolled Lives: 142,592
Currently Enrolled Policyholders: 80,641
Number of Plans Offered in 2019: 46 (46 fewer than 2018)
Corresponding Contract Form #: EPOF02, EPOF04, PPOF02, PPOF05, PPOF07, PPOF08
Binder ID#: UPMC-PA19-125080215

Sincerely,

Michael Lovely, FSA, CERA, MAAA

PA Actuarial Memorandum - Redacted

Basic Information and Data

The purpose of this actuarial memorandum is to provide certain information related to a rate submission for the company identified below. The relevant index rate is developed in accordance with federal regulations, and plan specific premiums are generated using the allowable modifiers in accordance with the single risk pool rule.

Company Information

The following section provides information related to the identification of the company that is submitting this rate filing. Much of this information is also displayed in Table 0 of the PA Actuarial Memorandum Exhibits.

Company Legal Name: UPMC Health Options, Inc.

NAIC #: 15345

HIOS Issuer ID: 16322

Market: Small Group

Exchange: Off Exchange

Products: PPO, EPO

Effective Date: 1/1/2019

Company Contact Information:

[This information redacted for publication.]

Filing Information:

Rate Filing SERFF Tracking #: UPMC-131495951

Form Filing SERFF Tracking #: UPMC-131491991, UPMC-131492389, UPMC-131492391, UPMC-131492420,
UPMC-131492470, UPMC-131492504, UPMC-131492472, UPMC-131492475

Binder SERFF Tracking #: UPMC-PA19-125080215

Rate History and Proposed Variations in Rate Changes

Historical and proposed rate changes vary by plan due to various changes made to meet AV requirements on a plan-by-plan basis. The values listed below and overall proposed rate change for 2019 are weighted averages of the increase for each plan based on projected enrollment. Please see Table 10 of the PA Actuarial Memorandum Exhibits for a breakdown of plan-by-plan rate increases.

SERFF Tracking #	Year	Rate Change
UPMC-130071358	2016	0.0%
UPMC-130536887	2017	6.1%
UPMC-131034850	2018	7.1%

Average Rate Change

The average rate change displayed in Table 10, column AC, of the PA Actuarial Memorandum Exhibits is -5.3%. The change in 21-year-old non-tobacco premium PMPM calculated in table 11, cell AN13, of the PA Actuarial Memorandum Exhibits is -7.9%. The percent increase over Experience Period calculated in cell V45 on worksheet 1 of the URRT is 3.97%. The annualized percent increase calculated in cell V46 on worksheet 1 of the URRT is 1.97%.

Membership Count

Various breakdowns of the membership count for the captioned company and market are displayed in Table 1 of the PA Actuarial Memorandum Exhibits. Please see Exhibit 9 of the Supporting Exhibits for various enrollment projections by plan.

Benefit Changes

A table with these changes has been included in Appendix I. No plans have actuarial values that fall in the expanded de minimis range.

Experience Period Claims and Premium

Claims and premium data for all non-grandfathered policies in the single risk pool for the captioned company and market from the experience period (January 2017 - December 2017) with three months of run-out are displayed in Table 2 of the PA Actuarial Memorandum Exhibits. This section provides a discussion of each field in the table and its relation to the corresponding fields on the URRT. Please see Exhibit 1 of the Supporting Exhibits for a breakdown of the portion of each quantity that belongs to ACA-related business and transitional business.

Earned Premium:

This represents the revenue accumulated by the captioned company and market during the experience period. No adjustments were made for MLR rebates as we do not anticipate owing them. HHS cost-sharing is not included in the premium data. Please note that the earned premium listed in Table 2 does match the total premium listed in section I, worksheet 1 of the URRT because the value in the URRT does not include estimated Risk Adjustment receivables/payments per federal instructions.

Paid Claims:

This field includes uncompleted paid medical, pharmacy, pediatric dental, and pediatric vision experience period claims for the captioned company and market.

Ultimate Incurred Claims:

This field includes completed paid medical and pharmacy experience period claims for the captioned company and market. We used the standard Development/Completion Factor Method to calculate IBNR. Factors were calculated using our entire fully insured block of business. Because of the changes in membership in our ACA-compliant plans year to year, we felt it would be better to use a more established and consistent data set.

Because three months run-out is available the impact of IBNR is minimal. The completion factors used are displayed in the table below and no unexpected factors were observed. Please note that the ultimate incurred claims shown in Table 2 do not match the total incurred claims displayed in section I, worksheet 1 of the URRT because the value in the URRT equals the ultimate incurred claims less total prescription drug rebates listed in Table 2.

Month	Completion Factor
1/1/2017	0.9998
2/1/2017	0.9996
3/1/2017	0.9987
4/1/2017	0.9982
5/1/2017	0.9980
6/1/2017	0.9975
7/1/2017	0.9964
8/1/2017	0.9944
9/1/2017	0.9914
10/1/2017	0.9851
11/1/2017	0.9781
12/1/2017	0.9651

Member Months:

The sum of the experience period member months shown in Table 1 is also displayed in Table 2 and matches the value shown in section I, worksheet 1 of the URRT.

Estimated Cost Sharing:

This field represents the difference between allowed claims and ultimate incurred claims in Table 2. Please note that for this field as well as the ultimate incurred claims field discussed above, the totals do not match those displayed in Table 4. In Table 4, the completion factors are applied to incurred claims to generate the ultimate incurred claims. The incurred claims consist of both medical and pharmacy claims. For our internal calculations, we do not apply completion factors to pharmacy claims, but it is not possible to do this given the way Table 4 is set up. Table 2 reflects the claims data from our internal calculations, which leads to the disparity between the observed values.

Allowed Claims:

This field includes allowed medical and pharmacy experience period claims as well as pediatric dental and vision claims from the experience period for the captioned company and market. Allowed medical claims and pediatric vision claims are pulled directly from our data warehouse. Pediatric dental claims are administered and paid by Dominion Dental. We receive a separate report from Dominion with the claim detail. Please note that the allowed claims shown in Table 2 do not match the total allowed claims displayed in section I, worksheet 1 of the URRT because the value in the URRT equals the allowed claims less total prescription drug rebates listed in Table 2.

Non-EHB portion of Allowed Claims:

This field displayed the amount of allowed experience period claims that can be attributed to non-EHBs for the captioned market and company.

Total Prescription Drug Rebates:

This field shows the amount of prescription drug rebates received for the captioned company and market during the experience period. Pharmacy rebates have been removed from the total incurred and allowed claims displayed in section I, worksheet 1 of the URRT.

Total EHB Capitation:

No benefits were paid for via capitation during the experience period.

Total Non-EHB Capitation:

No benefits were paid for via capitation during the experience period.

Estimated Risk Adjustment:

Experience period Risk Adjustment for the small group market was estimated to be a receivable of \$13,638,697 per suggestion from the Pennsylvania Insurance Department, based on data accrued through April 2018, which translates to a PMPM of \$14.51. Based on these estimates and past experience, we believe this value is a reasonable estimate until the actual values are released later this year.

Loss Ratio:

The loss ratio calculated in Table 2 is 92.3%.

Credibility of Data

The experience period data has a credible membership amount of 1,582,244 member months. However, nearly half of this membership will not be joining the ACA-compliant portion of the single risk pool until 2020. Therefore, 0% credibility is used, just as was implemented in prior filings for this company in this market. The rate manual was developed using experience period data for groups enrolled in a ACA-compliant plan, which is displayed in tables 2b, 3b, and 4b in the PA Actuarial Memorandum Exhibits. The rate manual consists of 930,100 member months of experience and represents the same single risk pool. Adjustments include the trend, morbidity, and network adjustments discussed in the "Index Rate" section below.

Trend Identification

The overall annual trend used in rate development is 3.23%. Historical allowed claims were used to develop year over year trend factors for use in the projected rates. Because of the large change in membership year over year, the data specific to the block of business associated with this filing was deemed too volatile to use for trend development. The entire block of commercial business was included in Table 3 and 3b of the PA Actuarial Memorandum Exhibits for trend development. Service categories were defined to be consistent with the URRT instructions. Please note that the minor changes made to benefit designs in order to keep plan actuarial values within the allowed ranges were not significant enough to warrant an adjustment for induced demand with regard to trend, so the induced demand column has been populated with zeroes in Tables 3 and 3b. Please see Exhibit 10 of the Supporting Exhibits for trend development. In addition, quarterly rates effective on the first day of each calendar quarter in 2019 are proposed for this filing using 1.78% quarterly trend.

Historical Experience

Historical data from the four most recent calendar years for the captioned company and market with three months of run-out are provided in Table 4. Allowed claims were developed using the same manner described above for Table 2. As mentioned above, this data was deemed too volatile to use for trend development. The historical data listed in Table 4b belongs to our entire block of commercial business and was used to develop trend. Data for transitional policies was included in Table 4. A breakout of which data belongs to ACA-related business and transitional business is provided in Exhibit 1 of the Supporting Exhibits.

Rate Development & Change

Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims

Table 5 of the PA Actuarial Memorandum Exhibits shows the development of the projected index rate, Market-Adjusted Index Rate, and projected total allowed claims. Detailed discussions on the development of each quantity are provided below. Table 5a is populated with the number of member months renewing by quarter since quarterly trended rates will be generated for this filing.

Index Rate:

For this filing, the Index Rate of the Experience Period is set equal to the manual rate due to the lack of credibility. The calculation of the manual rate is shown in Table 2b of the PA Actuarial Memorandum Exhibits. The Index Rate of the Projection Period is then calculated in Table 5 by first applying two years of 3.23% annual trend to the manual rate.

Adjustments to account for changes in morbidity and network costs are then applied to get from the single risk pool population to the plan offerings of this specific segment. We expect a morbidity trend of -6% when comparing our experience period population to our projected population. When ACA-compliant plans were first introduced into the small group market, the population that enrolled consisted of unhealthier members. Over the last few years, healthier members have enrolled in ACA-compliant plans more frequently, decreasing the morbidity of the insured population on an annual basis. This adjustment will account for this trend in morbidity from the experience period to the projection period.

Additionally, an adjustment factor to account for change in network of 1.018 has been applied as can be seen in Table 5 of the PA Actuarial Memorandum Exhibits. The manual data consists of a blend of UPMC's Premium Network along with the Standard Network, which is included in UPMC's Health Coverage rate filing for this market. The Premium Network covered rating areas 1, 2, 4, 5, and 6 during the experience period, but has since expanded to include rating area 3, 7, and 9, as well as additional counties in rating area 6 located near the eastern border of Pennsylvania. Projected costs are expected to increase due to this expansion. This factor accounts for this increase in cost and was developed using the proposed rating area factors and projected enrollment in each rating area for 2019 as shown in Exhibit 6 of the Supporting Exhibits. This factor has been applied to each benefit category in the Other adjustment column in section II, worksheet 1 of the URRT.

No other adjustments have been applied to the index rate. The average age for our 2017 experience period small group risk pool was 37.0 with an average premium factor of 1.52. This is identical to our 2018 experience so far with age 37.0 and premium factor 1.52. Due to the stability of the population, no demographic adjustment has been made to the rates. In addition to this, no adjustment was applied to account for the regulation that prohibits charging for more than three children per family since this would have minimal cost impact. Please note that the Index Rate of Projection Period of \$460.72 shown in Table 5 matches the corresponding value shown in section III, worksheet 1 of the URRT.

Market-Adjusted Index Rate:

The Projected Index Rate is adjusted by adding estimates for risk adjustment and marketplace fees (with impacts and costs spread across the whole risk pool) to obtain the Projected Market Adjusted Index Rate. Projection period Risk Adjustment PMPM has been estimated to be a receivable of \$14.51, which is displayed in section III, worksheet 1 of the URRT and Table 5. Please see Exhibit 2 of the Supporting Exhibits for the derivation of the risk adjustment PMPM amounts for both the experience and projection period. \$1.80 PMPY has been subtracted as a projected amount for the Risk Adjustment Administration Fee since this was the value published by HHS. The net amount after accounting for the fee is subtracted from the Index Rate of the Projection Period as part of the calculation of the Market Adjusted Index Rate. For the URRT and Table 5 of the PA Actuarial Memorandum Rate Exhibits, it was entered as a positive number because the calculation subtracts this value. The effect for this adjustment is a decrease in premium since less revenue will be required due to the anticipated receivable. No adjustment was made for the Marketplace User Fee since all plans included in this filing are only offered off exchange.

Total Allowed Claims:

The Market-Adjusted Index Rate is further modified to develop the projected total allowed claims PMPM by adding the projected allowed non-EHB claims PMPM. Benefits that were offered outside EHB include routine foot care and acupuncture. The projected allowed claims for these benefits is \$1.08 PMPM.

Retention Items

Retention items related to this filing are shown in Table 6 of the PA Actuarial Memorandum Exhibits. Detailed discussions on each item are provided below.

Administrative Expenses:

Administrative costs of 9.66% of premium have been displayed in Table 6 and the URRT. These expenses are taken from our 2017 Supplemental Health Care Exhibit (SHCE). They are broken out by lines of business and market segments matching this filing and thus are appropriate for use. Differences between the SHCE and section I, worksheet 1 of the URRT stem from the fact that the SHCE include restatements of estimates from the prior year, while the URRT only contains actual experience from 2017 (experience period). We are unable to provide a breakdown between ACA-related and transitional business in Part 1 of the SHCE as we do not have the base data for these fields split between ACA-related and transitional categorization.

[This information redacted for publication.]

Taxes and Fees:

Taxes and Fees decreased from 3.44% in 2018 to 0% in 2019 to account for the expiration of the PCORI Fee as well as the moratorium on the Health Insurance Tax for 2019. Please note that the Risk Adjustment Administration Fee was not included in the Taxes and Fees field. The value in Table 6 matches the corresponding value in the URRT since there is no Marketplace user fee applied in this filing.

Profit/Contingency:

The projected profit margin for this company will remain at 0% for 2019. This value is listed in both Table 6 and the URRT. The same level of profit margin is expected for each plan included in this filing.

Projected Loss Ratio

The projected period loss ratio, using the federally-prescribed MLR methodology without the credibility adjustment, is 91.2%, as shown in Exhibit 11 of the Supporting Exhibits.

Normalized Market-Adjusted Projected Allowed Total Claims

Normalization factors for 2018 and 2019 are provided in Table 7 of the PA Actuarial Memorandum Exhibits. 2018 factors have been taken from the prior rate filing of the captioned company and market. Detailed discussion on each of the 2019 factors are provided below.

Average Age Factor:

The average age factor was calculated using our projected ACA-related Small Group population with the prescribed HHS Age Factors for 2019. We pulled them in summary alongside network and area data in order to back out age factor differences when determining network/area factors. It was assumed this represents the age distribution of the entire single risk-pool. The number of members under each age bracket was multiplied by the corresponding HHS Age Factor. These were then summed and divided by the total number of members to obtain the average age factor. The average age factor is 1.52 and average age was 37.0 during the experience period. Please see Exhibit 5 in the Supporting Exhibits for the calculation of this factor.

Average Geographic Factor:

The calibration factor of 1.018 was calculated as the weighted average of the geographical factors using projected enrollment for the single risk pool, as shown in Exhibit 6 of the Supporting Exhibits. Please see the Geographic Factors section below for a discussion on the development of factors applied for each rating area.

Average Tobacco Factor:

No tobacco load is applied in the Small Group market, so the average tobacco factor is 1.0.

Average Benefit Richness:

Benefit richness factors were calculated so that the average value is 1.0 when weighted with projected membership. This normalization is demonstrated in Exhibit 4b of the Supporting Exhibits. These factors do not normalize to 1.0 in Table 10 of the PA Actuarial Memorandum Exhibits because this table uses current enrollment for normalization. Projected enrollment is more appropriate for this purpose due to recent changes in network and plan offerings under this company.

Average Network Factor:

Network factors were selected so that the average value is 1.0 when weighted with projected membership.

Components of Rate Change

Data to support the calculation of the components of the rate change is presented in Tables 8 and 9 of the PA Actuarial Memorandum Exhibits. Values presented in the 2018 columns have been taken from this company's 2018 rate filing.

Plan Rate Development

Table 10 of the PA Actuarial Memorandum Exhibits has been populated as described in federal and state guidance to develop 2019 Plan Adjusted Index Rates. The allowable modifiers that make up the AV Pricing Values are described below. Please see Exhibit 8 of the Supporting Exhibits for a demonstration that plan premiums are in proportion to the AV Pricing Values. The AV Pricing Values for each metal level are similar for 2019. The Health Incentive Account (HIA) plans do not fit the format of the AV Calculator due to varying amounts of HIA dollars earned by each member. To account for this, we assume 30% utilization of this incentive based on historical data and used this when generating the metal level AVs.

Plan Actuarial Value:

The AV for each plan was determined by the issuer's own pricing model based on experience from UPMC's fully-insured commercial block of business.

Benefit Richness (induced demand)

Please see Exhibit 4a in the Supporting Exhibits for the induced utilization exhibit. The benefit richness adjustment was used to keep relativities between plans similar to what they were in the previous year and account for differences in induced demand between plans with different metal levels. This will minimize rate increase variations by plan and consumer confusion that could result. In addition, current loss ratios exhibit significant variation between metal levels, which suggests a wider variation is necessary than what is indicated in the company-determined Pricing AV.

Benefits in addition to EHBs

Benefits that will be offered outside EHB include routine foot care and acupuncture. The projected allowed claims for these benefits is \$1.08 PMPM. The adjustment factor of 1.002 included in Table 10 has been derived by adding the aforementioned PMPM to the projected index rate for 2019 and dividing this total by the same index rate, causing the adjustment to be applied uniformly to all plans. This load has changed from 1.003 in the prior filing.

Provider Network

No adjustments were made to account for provider network since the projected costs for each network included in this filing do not exhibit any significant differences.

Catastrophic Eligibility

Catastrophic plans will not be offered under this company and market in 2019, so no adjustment is necessary.

Non-Funding of CSR Adjustment

No On Exchange silver plans are included in this filing, so no adjustment is necessary.

Plan Premium Development for 21-Year-Old Non-Tobacco User

Table 11 of the PA Actuarial Memorandum Exhibits has been populated as described in federal and state guidance. Please see Exhibit 7 of the Supporting Exhibits for historical rate changes for this company and market for a 21-year-old non-tobacco user.

Plan Factors

Age and Tobacco Factors

As indicated in Table 12 of the PA Actuarial Memorandum Exhibits, the default federal standard age curve for 2019 is used in the development of the Consumer Adjusted Premium Rates. No tobacco load will be applied for the small group market in 2019.

Geographic Factors

The geographic rating areas used within this filing are the same as those defined by the state. To better reflect the varying costs of delivery between each geographical region in which coverage is offered, some rating area factors have been updated for 2019. The rating area factor for region 1 has decreased from 1.0 in 2018 to 0.96 in 2019, while the factor for region 6 has changed from 1.0 in 2018 to 1.343 in 2019. The latter of these also accounts for this company's recent expansion into additional counties in region 6 located in the far eastern regions of Pennsylvania. The factor for rating area 3 changed from 1.263 in 2018 to 1.123 in 2019, while the factor for rating area 7 changed from 1.366 in 2018 to 1.167 in 2019. 2019 will be this company's first year offering coverage to members in rating area 9. Factors for regions 2, 4, and 5 will remain at 1.0 for 2019, as we do not anticipate significant variations in cost by geographical location for these particular regions in the small group market.

Network Factors

No adjustments were made to account for provider network since the projected costs for each network included in this filing do not exhibit any significant differences.

Service Area Composition

Table 13 of the PA Actuarial Memorandum Exhibits shows the areas in which plans will be offered in 2019. Due to this company's recent expansion in this market, coverage will be offered in rating areas 3, 7, and 9 in 2019. Service area maps for 2018 and 2019 have been uploaded in the Supporting Documentation section in SERFF.

Composite Rating

No composite rating is used with these plans.

Warning Alerts

No warning alerts appear on worksheet 2 of the URRT.

List of Supporting Exhibits

Supporting exhibits have been included with the rate filing to assist with the review process. Below is a list summarizing the contents of each exhibit.

- Exhibit 1: Historical Data for ACA-related and Transitional Policies
- Exhibit 2: Development of Risk Adjustment PMPM for Experience and Projection Periods
- Exhibit 3: Derivation of Broker Fee
- Exhibit 4a: Induced Utilization Derivation
- Exhibit 4b: Induced Utilization Normalization
- Exhibit 5: Derivation of Age Calibration Factor
- Exhibit 6: Derivation of Geographical Calibration Factor
- Exhibit 7: Historical Changes in Consumer Adjusted Premium Rate for Age 21, Non-tobacco User
- Exhibit 8: Proportion of Plan Adjusted Index Rates and AV Pricing Values
- Exhibit 9a: Development of Projected Enrollment by Network and Metal Level
- Exhibit 9b: Development of Projected Enrollment by Plan
- Exhibit 9c: Projected Enrollment by Rating Area
- Exhibit 10: Derivation of Annual Trend
- Exhibit 11: Derivation of Projection Period MLR
- Exhibit 12: Terminated Plan Mapping

Actuarial Certification

I, [REDACTED] am a Member of the American Academy of Actuaries. I am currently a Manager in the Actuarial Services department for UPMC Health Plan. I certify that:

- All factor, benefit and other changes from the prior approved filing have been disclosed in this actuarial memorandum.
- New plans cannot be considered modifications of existing plans under the uniform modification standards in 45 CFR 147.106.
- The information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2019 Rate Filing Justification.
- The projected Index Rate is:
 - a. In compliance with all applicable state and Federal statutes and regulations (45 CFR 156.80 and 147.102)
 - b. Developed in compliance with the applicable Actuarial Standards of Practice
 - c. Reasonable in relation to the benefits provided and the population anticipated to be covered
 - d. Neither excessive nor deficient
- The Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 156.80(d)(2) were used to generate plan level rates.
- The percent of total premium that represents EHB included in Worksheet 2, Sections III and IV, was calculated in accordance with actuarial standards of practice.
- The geographic rating factors reflect only differences in the costs of delivery and do not include differences for population morbidity by geographic area.
- The AV Calculator was used to determine the AV Metal Values shown in Worksheet 2 of the Part I URRT for all plans except those specified in the certification.

RFJ Part II – Consumer Friendly Justification

Small Group Exchange EPO/PPO Rate Filing

The rate change for UPMC Health Options Small Group plans is -5.34% for 2019. The proposed rate change listed above accounts for a projected decrease in morbidity trend for the single risk pool, as well as decreases in the projected administrative costs, taxes, and fees for 2019.

Scope and Range of the Rate Increase

The number of individuals affected by this rate increase is 142,592. There will be no variation in the increase among affected members. The proposed rate increase varies by plan due to various changes made to meet AV requirements on a plan-by-plan basis. The range of the proposed rate change is -10.61% to -3.50%.

Financial Experience of the Product

Premiums	\$ 623,625,055
Claims	\$ 575,594,318
Administrative expenses	\$ 40,011,918
Taxes & fees	\$ 232,191
Company made (after taxes)	\$ 7,786,628

Changes in Medical Service Costs

Cost and utilization increases are expected to increase by approximately 3.23% for 2019.

Changes in Benefits

No changes in benefits contributed significantly to the increase.

Administrative Costs and Anticipated Profits

No major changes in administrative costs or profits are anticipated and thus did not affect the increase.

RFJ Part III: Actuarial Memorandum - Redacted

General Information

The purpose of this actuarial memorandum is to provide certain information related to a rate submission for the company identified below. The relevant index rate is developed in accordance with federal regulations, and plan specific premiums are generated using the allowable modifiers in accordance with the single risk pool rule.

The following section provides information related to the identification of the company that is submitting this rate filing. Much of this information is also displayed in Table 0 of the PA Actuarial Memorandum Exhibits.

Company Identifying Information:

Company Legal Name: UPMC Health Options, Inc.

NAIC #: 15345

State: PA

HIOS Issuer ID: 16322

Market: Small Group

Exchange: Off Exchange

Products: PPO, EPO

Effective Date: 1/1/2019

Company Contact Information:

[This information redacted for publication.]

Filing Information:

Rate Filing SERFF Tracking #: UPMC-131495951

Form Filing SERFF Tracking #: UPMC-131491991, UPMC-131492389, UPMC-131492391, UPMC-131492420,
UPMC-131492470, UPMC-131492504, UPMC-131492472, UPMC-131492475

Binder SERFF Tracking #: UPMC-PA19-125080215

Rate History:

Historical and proposed rate changes vary by plan based on differences in network-level adjustment factors and differences in pricing AV factors between plans. The values listed below and overall proposed rate change for 2019 are weighted averages of the increase for each plan based on projected enrollment. Please see Table 10 of the PA Actuarial Memorandum Exhibits for a breakdown of plan-by-plan rate increases.

SERFF Tracking #	Year	Rate Change
UPMC-129389352	2014	0.0%
UPMC-129640669	2015	0.0%
UPMC-130071358	2016	0.0%
UPMC-130536887	2017	6.1%
UPMC-131034850	2018	7.1%

Proposed Rate Increase(s)

Reasons for Rate Increase(s):

The proposed rate change for 2019 is -5.3%. The major reasons for the change include the following:

- Projected decrease in morbidity trend
- Projected decrease in administrative costs
- Projected decrease in taxes & fees

Market Experience

Experience Period Premium and Claims

Paid Through Date:

The reported claims during the experience period have a paid through date of March 2018.

Premiums (net of MLR Rebate) in Experience Period:

Section I, worksheet 1 of the URRT contains calendar year 2017 premium for all non-grandfathered policies in the single risk pool for the captioned company and market. No adjustments were made for MLR rebates as we do not anticipate owing them. HHS cost-sharing is not included in the premium data. Please note that the earned premium is also listed in Table 2 of the PA Actuarial Memorandum Exhibits. Please see Exhibit 1 of the Supporting Exhibits for a breakdown of the portion of premium generated from ACA-related business and transitional business.

Allowed and Incurred Claims Incurred During the Experience Period:

Section I, worksheet 1 of the URRT contains calendar year 2017 claims experience for all non-grandfathered policies in the single risk pool for the captioned company and market, paid through March 2018. Allowed medical claims and pediatric vision claims are pulled directly from our data warehouse. Pediatric dental claims are administered and paid by Dominion Dental. We receive a separate report from Dominion with the claim detail. We used the standard Development/Completion Factor Method to calculate IBNR. Factors were calculated using our entire fully insured block of business. Because of the changes in membership in our ACA-compliant plans year to year, we felt it would be better to use a more established and consistent data set. Because three months run-out is available the impact of IBNR is minimal. The completion factors used are displayed in the table below and no unexpected factors were observed. Please see Exhibit 1 of the Supporting Exhibits for a breakdown of the portion of claims corresponding to ACA-related business and transitional business.

Month	Completion Factor
1/1/2017	0.9998
2/1/2017	0.9996
3/1/2017	0.9987
4/1/2017	0.9982
5/1/2017	0.9980
6/1/2017	0.9975
7/1/2017	0.9964

8/1/2017	0.9944
9/1/2017	0.9914
10/1/2017	0.9851
11/1/2017	0.9781
12/1/2017	0.9651

Benefit Categories

Medical claims are split into nine categories in our data warehouse. They are mapped into the categories in the URRT as follows:

UPMC Benefit Category	URRT Benefit Category
Inpatient	Inpatient Hospital
Catastrophic	Inpatient Hospital
Outpatient	Outpatient Hospital
Behavioral	Outpatient Hospital
PCP	Professional
Specialist	Professional
Diagnostic	Other Medical
ER	Other Medical
Other	Other Medical
Pediatric Dental	Other Medical
Pediatric Vision	Other Medical

Drug claims are on separate tables and directly mapped into the Prescription Drugs category. The Other Medical category uses visits as units for utilization calculations.

Projection Factors

Changes in the Morbidity of the Population Insured:

We expect a morbidity trend of -6% when comparing our experience period population to our projected population. When ACA-compliant plans were first introduced into the small group market, the population that enrolled consisted of unhealthier members. Over the last few years, healthier members have enrolled in ACA-compliant plans more frequently, decreasing the morbidity of the insured population on an annual basis. This adjustment will account for this trend in morbidity from the experience period to the projection period.

Changes in Benefits:

No changes were made to the PA EHB Benchmark plan for 2019, so no adjustments were necessary.

Changes in Demographics:

The average age for our 2017 experience period small group risk pool was 37.0 with an average premium factor of 1.52. This is identical to our 2018 experience so far with age 37.0 and premium factor 1.52. Due to the stability of the population, no demographic adjustment has been made to the rates. In addition to this, no adjustment was applied to account for the regulation that prohibits charging for more than three children per family since this would have minimal cost impact.

Other Adjustments:

Additionally, an adjustment factor to account for change in network of 1.018 has been applied as can be seen in Table 5 of the PA Actuarial Memorandum Exhibits. The manual data consists of a blend of UPMC's Premium Network along with the Standard Network, which is included in UPMC's Health Coverage rate filing for this market. The Premium Network covered rating areas 1, 2, 4, 5, and 6 during the experience period, but has since expanded to include rating area 3, 7, and 9, as well as additional counties in rating area 6 located near the eastern border of Pennsylvania. Projected costs are expected to increase due to this expansion. This factor accounts for this increase in cost and was developed using the proposed rating area factors and projected enrollment in each rating area for 2019 as shown in Exhibit 6 of the Supporting Exhibits. This factor has been applied to each benefit category in the Other adjustment column in section II, worksheet 1 of the URRT.

Trend Factors (cost/utilization):

The overall annual trend used in rate development is 3.23%. Historical allowed claims were used to develop year over year trend factors for use in the projected rates. Because of the large change in membership year over year, the data specific to the block of business associated with this filing was deemed too volatile to use for trend development. The entire block of commercial business was included in Table 3 and 3b of the PA Actuarial Memorandum Exhibits for trend development. Service categories were defined to be consistent with the URRT instructions. Please note that the minor changes made to benefit designs in order to keep plan actuarial values within the allowed ranges were not significant enough to warrant an adjustment for induced demand with regard to trend, so the induced demand column has been populated with zeroes in Tables 3 and 3b. Please see Exhibit 10 of the Supporting Exhibits for trend development. In addition, quarterly rates effective on the first day of each calendar quarter in 2019 are proposed for this filing using 1.78% quarterly trend.

Credibility Manual Rate Development

Source and Appropriateness of Manual Rate Used:

The rate manual was developed using experience period data for groups enrolled in an ACA-compliant plan, which is displayed in tables 2b, 3b, and 4b in the PA Actuarial Memorandum Exhibits. The rate manual consists of 930,100 member months of experience. The data for the entire block would not be appropriate as the majority of groups enrolled in grandfathered plans would not join the ACA-compliant portion of the single risk pool until 2020.

Adjustments Made to the Data:

The same adjustments discussed in the Projection Factors section above are also applied to the manual rate.

Inclusion of Capitation Payments:

No benefits are projected to be paid for via capitation.

Credibility of Experience

The experience period data has a credible membership amount of 1,582,244 member months. However, nearly half of this membership will not be joining the ACA-compliant portion of the single risk pool until 2020. Therefore, 0% credibility is used, just as was implemented in prior filings for this company in this market.

Paid to Allowed Ratio

The Paid to Allowed Average Factor was calculated by taking the weighted average of the company-determined Actuarial Values for all plans using projected membership.

Risk Adjustment and Reinsurance

Experience Period Risk Adjustment and Reinsurance Adjustments PMPM:

Experience period Risk Adjustment for the small group market was estimated to be a receivable of \$13,638,697 per suggestion from the Pennsylvania Insurance Department based on data accrued through April 2018, which translates to a PMPM of \$14.51. Based on this estimate and past experience, we believe this value is a reasonable estimate until the actual values are released later this year. No adjustments for the Traditional Reinsurance Program under PPACA were made as no recoveries are paid to the small group market.

Projected Risk Adjustments PMPM:

Projection period Risk Adjustment PMPM has been estimated to be a receivable of \$14.51, which is displayed in section III, worksheet 1 of the URRT and Table 5. Please see Exhibit 2 of the Supporting Exhibits for the derivation of the risk adjustment PMPM amounts for both the experience and projection period. \$1.80 PMPY has been subtracted as a projected amount for the Risk Adjustment Administration Fee since this was the value published by HHS. The net amount after accounting for the fee is subtracted from the Index Rate of the Projection Period as part of the calculation of the Market Adjusted Index Rate. For the URRT and Table 5 of the PA Actuarial Memorandum Rate Exhibits, it was entered as a positive number because the calculation subtracts this value. The effect for this adjustment is a decrease in premium since less revenue will be required due to the anticipated receivable.

Non-Benefit Expenses and Profit & Risk

Administrative Expense Load:

Administrative costs of 9.66% of premium have been displayed in Table 6 and the URRT. These expenses are taken from our 2017 Supplemental Health Care Exhibit (SHCE). They are broken out by lines of business and market segments matching this filing and thus are appropriate for use. Differences between the SHCE and section I, worksheet 1 of the URRT stem from the fact that the SHCE include restatements of estimates from the prior year, while the URRT only contains actual experience from 2017 (experience period). We are unable to provide a breakdown between ACA-related and transitional business in Part 1 of the SHCE as we do not have the base data for these fields split between ACA-related and transitional categorization.

[This information redacted for publication.]

Profit & Risk Margin:

The projected profit margin for this company will remain at 0% for 2019. This value is listed in both Table 6 and the URRT. The same level of profit margin is expected for each plan included in this filing.

Taxes and Fees:

Taxes and Fees decreased from 3.44% in 2018 to 0% in 2019 to account for the expiration of the PCORI Fee as well as the moratorium on the Health Insurance Tax for 2019. Please note that the Risk Adjustment Administration Fee was not included in the Taxes and Fees field. The value in Table 6 matches the corresponding value in the URRT since there is no Marketplace user fee applied in this filing.

Projected Loss Ratio

The projected period loss ratio, using the federally-prescribed MLR methodology without the credibility adjustment, is 91.2%, as shown in Exhibit 11 of the Supporting Exhibits.

Application of Market Reform Rating Rules

Single Risk Pool

The single risk pool consists of members enrolled in ACA-compliant and transitional policies offered under the captioned market.

Index Rate

For this filing, the Index Rate of the Experience Period is set equal to the manual rate due to the lack of credibility. The calculation of the manual rate is shown in Table 2b of the PA Actuarial Memorandum Exhibits. The Index Rate of the Projection Period is then calculated in Table 5 by first applying two years of 3.23% annual trend to the manual rate. The adjustments described in the Projection Factors section above were then applied to the trended manual rate to generate the Index Rate of the Projection Period. Claims for routine foot care and acupuncture were not included in the calculation of the index rates despite being covered during the experience period since they are classified as non-EHBs.

Small Group Quarterly Rate Filings

Quarterly rates effective on the first day of each calendar quarter in 2019 are proposed for this filing using 1.78% quarterly trend.

Market Adjusted Index Rate

The Projected Index Rate is adjusted by adding estimates for Risk Adjustment and Marketplace Fees (with impacts and costs spread across the whole risk pool) to obtain the projected Market Adjusted Index Rate. Derivation of the PMPM values used for the Risk Adjustment and Marketplace Fees adjustments are described above in the Projected Risk Adjustments PMPM and Taxes and Fees sections, respectively. Since the Market Adjusted Index Rate is calculated on an allowed claims basis, the projected paid Risk Adjustment was divided by the projected paid-to-allowed ratio when performing market-level adjustments.

Plan Adjusted Index Rates

Table 10 of the PA Actuarial Memorandum Exhibits has been populated as described in federal and state guidance to develop 2019 Plan Adjusted Index Rates. The allowable modifiers that make up the AV Pricing Values are described below. Please see Exhibit 8 of the Supporting Exhibits for a demonstration that plan premiums are in proportion to the AV Pricing Values. The AV Pricing Values for each metal level are similar for 2019.

Plan Actuarial Value:

The AV for each plan was determined by the issuer's own pricing model based on experience from UPMC's fully-insured commercial block of business.

Benefit Richness (induced demand)

Please see Exhibit 4a in the Supporting Exhibits for the induced utilization exhibit. The benefit richness adjustment was used to keep relativities between plans similar to what they were in the previous year and account for differences in induced demand between plans with different metal levels. This will minimize rate increase variations by plan and consumer confusion that could result. In addition, current loss ratios exhibit significant variation between metal levels, which suggests a wider variation is necessary than what is indicated in the company-determined Pricing AV.

Benefits in addition to EHBs

Benefits that will be offered outside EHB include routine foot care and acupuncture. The projected allowed claims for these benefits is \$1.08 PMPM. The adjustment factor of 1.002 included in Table 10 has been derived by adding the aforementioned PMPM to the projected index rate for 2019 and dividing this total by the same index rate, causing the adjustment to be applied uniformly to all plans. This load has changed from 1.003 in the prior filing.

Provider Network

No adjustments were made to account for provider network since the projected costs for each network included in this filing do not exhibit any significant differences.

Catastrophic Eligibility

Catastrophic plans will not be offered under this company and market in 2019, so no adjustment is necessary.

Non-Funding of CSR Adjustment

No On Exchange silver plans are included in this filing, so no adjustment is necessary.

Calibration

Age Curve Calibration:

The average age factor was calculated using our projected ACA-related Small Group population with the prescribed HHS Age Factors for 2019. We pulled them in summary alongside network and area data in order to back out age factor differences when determining network/area factors. It was assumed this represents the age distribution of the entire single risk-pool. The number of members under each age bracket was multiplied by the corresponding HHS Age Factor. These were then summed and divided by the total number of members to obtain the average age factor. The average age factor is 1.52 and average age was 37.0 during the experience period. Please see Exhibit 5 in the Supporting Exhibits for the calculation of this factor.

Geographic Factor Calibration:

The geographic rating areas used within this filing are the same as those defined by the state. To better reflect the varying costs of delivery between each geographical region in which coverage is offered, some rating area factors have been updated for 2019. The rating area factor for region 1 has decreased from 1.0 in 2018 to 0.96 in 2019, while the factor for region 6 has changed from 1.0 in 2018 to 1.343 in 2019. The latter of these also accounts for this company's recent expansion into additional counties in region 6 located in the far eastern regions of Pennsylvania. The factor for rating area 3 changed from 1.263 in 2018 to 1.123 in 2019, while the factor for rating area 7 changed from 1.366 in 2018 to 1.167 in 2019. 2019 will be this company's first year offering coverage to members in rating area 9. Factors for regions 2, 4, and 5 will remain at 1.0 for 2019, as we do not anticipate significant variations in cost by geographical location for these particular regions in the small group market. The calibration factor of 1.018 was calculated as the weighted average of the geographical factors using projected enrollment for the single risk pool, as shown in Exhibit 6 of the Supporting Exhibits.

Tobacco Use Rating Factor Calibration:

No tobacco load is applied in the Small Group market, so no adjustment is necessary.

Consumer Adjusted Premium Rate Development

The Plan Adjusted Index Rates are divided by the age calibration factor then multiplied by the specific age, geographic, and tobacco factors shown in Tables 12, 13, and 14 of the PA Actuarial Memorandum Exhibits, respectively, to develop the Consumer Adjusted Premium Rates. Please see Exhibit 7 of the Supporting Exhibits for historical Consumer Adjusted Premium Rate changes for this company and market for a 21-year-old non-tobacco user.

Plan Product Info

AV Metal Values

Metal values were determined using the final 2019 HHS AV Calculator. The Health Incentive Account (HIA) plans do not fit the format of the AV Calculator due to varying amounts of HIA dollars earned by each member. To account for this, we assume 30% utilization of this incentive based on historical data and used this when generating the metal level AVs.

AV Pricing Values

Table 10 of the PA Actuarial Memorandum Exhibits has been populated as described in federal and state guidance to develop 2019 Plan Adjusted Index Rates. The allowable modifiers that make up the AV Pricing Values are described in the "Plan Adjusted Index Rates" section above. The AV Pricing Values displayed in the URRT are the ratio of the Plan Adjusted Index Rates to the Market Adjusted Index Rate Please see Exhibit 8 of the Supporting Exhibits for a demonstration that plan premiums are in proportion to the AV Pricing Values.

Membership Projections

Membership projections were developed based on our anticipated competitive positioning in the market combined with our current enrollment distribution by plan. Please see Exhibit 9 of the Supporting Exhibits for various enrollment projections by plan.

Terminated Plans and Products

Please see Exhibit 12 of the Supporting Exhibits for a mapping of all terminated SCIDs to a 2019 plan.

Warning Alerts

No warning alerts are displayed on worksheet 2 of the URRT.

Effective Rate Review Information

The Pennsylvania Insurance Department is responsible for conductive effective rate review for all submitted rates.

List of Supporting Exhibits

Supporting exhibits have been included with the rate filing to assist with the review process. Below is a list summarizing the contents of each exhibit.

- Exhibit 1: Historical Data for ACA-related and Transitional Policies
- Exhibit 2: Development of Risk Adjustment PMPM for Experience and Projection Periods
- Exhibit 3: Derivation of Broker Fee
- Exhibit 4a: Induced Utilization Derivation
- Exhibit 4b: Induced Utilization Normalization
- Exhibit 5: Derivation of Age Calibration Factor
- Exhibit 6: Derivation of Geographical Calibration Factor
- Exhibit 7: Historical Changes in Consumer Adjusted Premium Rate for Age 21, Non-tobacco User
- Exhibit 8: Proportion of Plan Adjusted Index Rates and AV Pricing Values
- Exhibit 9a: Development of Projected Enrollment by Network and Metal Level
- Exhibit 9b: Development of Projected Enrollment by Plan
- Exhibit 9c: Projected Enrollment by Rating Area
- Exhibit 10: Derivation of Annual Trend
- Exhibit 11: Derivation of Projection Period MLR
- Exhibit 12: Terminated Plan Mapping

Actuarial Certification

I, [REDACTED] am a Member of the American Academy of Actuaries. I am currently a Manager in the Actuarial Services department for UPMC Health Plan. I certify that:

- All factor, benefit and other changes from the prior approved filing have been disclosed in this actuarial memorandum.
- New plans cannot be considered modifications of existing plans under the uniform modification standards in 45 CFR 147.106.
- The information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2019 Rate Filing Justification.
- The projected Index Rate is:
 - a. In compliance with all applicable state and Federal statutes and regulations (45 CFR 156.80 and 147.102)
 - b. Developed in compliance with the applicable Actuarial Standards of Practice
 - c. Reasonable in relation to the benefits provided and the population anticipated to be covered
 - d. Neither excessive nor deficient
- The Index Rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 156.80(d)(2) were used to generate plan level rates.
- The percent of total premium that represents EHB included in Worksheet 2, Sections III and IV, was calculated in accordance with actuarial standards of practice.
- The geographic rating factors reflect only differences in the costs of delivery and do not include differences for population morbidity by geographic area.
- The AV Calculator was used to determine the AV Metal Values shown in Worksheet 2 of the Part I URRT for all plans except those specified in the certification.

2019 Rates Table Template v8.1

All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.

If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.

If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.

If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.

To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

HIOS Issuer ID*	16322

2019 Rates Table Template v8.1

All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.

If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.

If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.

If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.

To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

HIOS Issuer ID*	16322
Federal TIN*	46-2824626
Rate Effective Date*	4/1/2019
Rate Expiration Date*	6/30/2019
Rating Method*	Age-Based Rates

Plan ID*	Rating Area ID*	Tobacco*	Age*	Individual Rate*
Required: Enter the 14-character Plan ID	Required: Select the Rating Area ID	Required: Select if Tobacco use of subscriber is used to determine if a person is eligible for a rate from a plan	Required: Select the age of a subscriber eligible for the rate	Required: Enter the rate of an Individual Non-Tobacco or No Preference enrollee on a plan
