

## UnitedHealthcare Insurance Company – Small Group Plans

Rate request filing ID # UHLC-134100161 – This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at <https://www.insurance.pa.gov/Consumers/HealthInsuranceFilings/Pages/ACA-Health-Rate-Filings.aspx>

### Overview

Initial request average rate change:	3.88%
Revised requested average rate change: <sup>1</sup>	3.88%
Range of requested:	1.62% to 8.57%
Effective date:	January 1, 2025
Mapped members:	12,625
Available in:	Rating Areas 1, 2, 3, 4, 5, 6, 7, 8, and 9

### Key Information

#### Jan. 2023 – Dec. 2023 financial experience

Premiums	\$104,381,538
Claims	\$80,552,975
Administrative Expenses	\$9,803,138
Taxes & Fees	\$4,702,304
<hr/>	
Insurer made (after taxes)	\$9,323,121

#### How insurer plans to spend your premium

This is how the insurance company plans to spend the premium it collects in 2025

Claims:	84%
Administrative:	12%
Taxes & Fees:	3%
Profit:	2%

The insurer expects its annual medical costs to increase 8.8%.

### Explanation of Requested Rate Change:

UnitedHealthcare Insurance Company is requesting the reate increase because of the increase in medical costs and utilization of health care services.

<sup>1</sup> Note that insurers will have the opportunity to revise their rate change request in July, after they are scheduled to receive updated information about the impact of a federal program called risk adjustment. This document will be updated accordingly at that time.

May 14<sup>th</sup>, 2024

Mr. James Lavery | Actuary  
Pennsylvania Insurance Department

Pennsylvania Insurance Department ID # UHLC-134100161

Dear Mr. Lavery,

This rate filing presents proposed premium rates effective January 1, 2025 through December 31, 2025 for medical and Rx benefit plans to be sold by UnitedHealthcare of Pennsylvania, Inc to small group employers. The benefit plans and rates are for non-grandfathered employers.

1. Company Name: UnitedHealthcare of Pennsylvania, Inc. NAIC Company Code **95220**
2. Market: Small group, employers with 50 or fewer eligible employees
3. On or Off Exchange: Off Exchange Only
4. Effective date of coverage: 1/1/2025
5. Average rate change requested: 5.9%
6. Range of rate change requested: 4.3% to 7.9%
7. Total additional annual revenue generated from the proposed rate change: \$418,094.
8. Products: HMO
9. Rating Areas: All rating areas have at least one plan available, but no plans are available in all rating areas.
10. Metal levels: Gold, Silver, Bronze
11. Current number of covered lives and policyholders: 1,059 members and 176 policyholders
12. Number of plans offered in 2025: 5 plans.
13. Corresponding contract form #, SERFF and Binder ID#s

**PA Small Group Rate Filing**

May 14<sup>th</sup>, 2024

This rate filing presents proposed premium rates effective January 1<sup>st</sup>, 2025 through December 31<sup>st</sup>, 2025 for medical and Rx benefit plans to be sold by the UnitedHealthcare of Pennsylvania, Inc. to small group employers.

The filing has been prepared as required by the “PA 2025 PY Rate Filing Guidance - FINAL”, as well as current ACA rules. This rate filing should not be used for any other purposes. Within that context, there are no limitations or constraints on the use or applicability of the rating items discussed herein. The intended user of this filing is the PA Department of Insurance.

## **1. Basic Information and Data**

### **A. Company Information**

UnitedHealthcare of Pennsylvania, Inc. NAIC Company Code **952209**  
Small Group Rate Filing Off Exchange only

### **B. Rate History and Proposed Variations in Rate Changes**

UHLC-131482151 submitted 5/21/2018 for effective date 1/1/2019-12/31/2019, new product filing.

UHLC-131757493 submitted 2/8/2019 for effective date 7/1/2019-12/31/2019 base rate reduction of 2.7%. All rate revisions were applied uniformly.

UHLC-131919215 submitted 7/18/2019 for effective date 1/1/2020-12/31/2020 base rate reduction of 0.99%. Entire portfolio was resloped. All rate revisions were applied uniformly.

UHLC-132211682 submitted 01/10/2020 for effective date 7/1/2020-12/31/2020 base rate increase of 4.4%. All rate revisions were applied uniformly.

UHLC-132374427 submitted 05/19/2020 for effective date 1/1/2021-12/31/2021 base rate reduction of 3.9%, area factors were updated, trend was updated to 8.7% annual applied quarterly, and the entire portfolio was resloped. All rate revisions were applied uniformly.

UHLC-132751120 submitted 03/09/2021 for effective date 7/1/2021-12/31/2021 base rate decrease of 3.8%. All rate revisions were applied uniformly.

UHLC-132831666 submitted 05/18/2021 for effective date 1/1/2022-12/31/2022 base rate decrease of 1.8%, trend was updated to 9.0% annual applied quarterly, and the entire portfolio was resloped. All rate revisions were applied uniformly.

UHLC-133185995 submitted 3/16/2022 for effective date 10/1/2022-12/31/2022 base rate decrease of 2.1%. All rate revisions were applied uniformly.

UHLC-133267509 submitted 5/18/2022 for effective date 1/1/2023-12/31/2023 base rate decrease of 0.05%, trend was updated to 8.1% annual applied quarterly, and the entire portfolio was resloped. All rate revisions were applied uniformly.

<u>Rating Area</u>	<u>Change</u>
Rating Area 1	3.6%

Rating Area 2	-10.5%
Rating Area 3	-5.9%
Rating Area 4	7.3%
Rating Area 5	15.7%
Rating Area 6	-6.0%
Rating Area 7	-7.3%
Rating Area 8	-1.2%
Rating Area 9	0.2%

UHLC-133662663 submitted 5/16/2023 for effective date 1/1/2024-12/31/2024 base rate increase of 1.5%, trend was updated to 9.6% annual applied quarterly, and the entire portfolio was resloped. All rate revisions were applied uniformly.

<u>Rating Area</u>	<u>Change</u>
Rating Area 3	-2.0%
Rating Area 6	-2.0%

### C. Average Rate Change

In Table 11, the change in 21-year-old non-tobacco premium PMPM for 1Q2025 (Cell AN13) is 5.9%. The minimum requested rate change is 4.3% and the maximum requested rate change is 7.9%.

### D. Membership Count

**Table 1. Number of Members**

	Member-months	Members	Member-months
	Experience Period	Current Period (as of 02-01-2024)	Projected Rating Period
<b>Average Age</b>	35.7	36.1	36.1
<b>Total</b>	14,523	1,059	12,465
<18	2,020	148	1,742
18-24	1,416	93	1,095
25-29	1,656	132	1,554
30-34	2,011	141	1,660
35-39	1,517	109	1,283
40-44	1,255	95	1,118
45-49	1,153	69	812
50-54	1,271	97	1,142
55-59	1,215	94	1,106
60-63	692	60	706
64+	317	21	247

Our projected membership is based on our Finance department estimates.

### E. Benefit Changes

Changes to member cost sharing were required for certain benefit plans due to the de minimus change for 2025. Use of the new federal Actuarial Value (AV) Calculator led to some benefit plans falling outside the allowed AV metal ranges.

We refined the medical and pharmacy plan price relativities to reflect the most recent pricing methodology and pricing models. The methodology is based on UnitedHealthcare nationwide experience data, which contains utilization frequencies and unit costs by service category, in addition to claim distributions and adjustment factors for a large number of plan design variables. Benefit design parameters such as deductibles, coinsurance, copays, out-of-pocket maximums, etc. were input for each plan. The expected paid-to-allowed relativities and expected utilization

differences due to differences in cost sharing for each plan are then used to develop the plan factors for each benefit plan. All benefit plans are priced consistently with each other, with the rates differing by the estimated value of the benefits and the expected utilization differences due to differences in cost sharing. The utilization differences do not reflect differences due to health status.

All the changes are revenue neutral and the Plan Relativity Factors are listed in Exhibit 3. Also, the revenue neutrality factor development is shown in Exhibit 13.

#### F. Experience Period Claims and Premium

The experience period includes ACA business for legal entity UHC of PA.

##### Premiums (net of MLR Rebate) in Experience Period

Earned premium for our small group market business in Pennsylvania for January 2023 thru December 2023 was approximately \$7,476,531.19. MLR rebates are not expected for 2023 calendar year.

##### Paid Through Date

The experience period is January 1, 2023 to December 31, 2023, with claims paid through February 29, 2024.

##### Support for estimate of incurred but not paid claims

The UnitedHealthcare Reserving process utilizes the Reserve Production System (RPS) to record reserves into the PeopleSoft general ledger. Fee for service and paid claim data is loaded into RPS and becomes the basis for the monthly reserve calculations at the various business unit, location, and line of business levels. The assignment of the paid claims into RPS packages is based on the mapping rules maintained by the Corporate Actuarial department. RPS calculates a preliminary best estimate Incurred But Not Reported (IBNR) for each reserving model (package) primarily using standard completion factors based on historical claim experience. The Claims Reserving Team adjusts the preliminary IBNR based on specific knowledge of the entity (i.e. catastrophic claims, pended claims, etc.) to calculate the final IBNR. In months where adjudicated claims experience is not complete enough for an estimate using completion factors, a seasonally adjusted PMPM is used to estimate incurred claims.

A description of the Sarbanes Oxley controls, audited by Deloitte & Touche, in place regarding the reserving process includes:

- 1) Market Paid claim Tie-outs: To verify completeness and accuracy of financial data in RPS, paid claim data is tied out between source system (RPS) and PeopleSoft general ledger.
- 2) Market Expense Tie-outs: RPS reserve changes on the income statement are tied to the PeopleSoft general ledger to ensure that information is accurate subsequent to computing the reserve.

Allowed claims by benefit category were obtained from UnitedHealthcare claim paying system reports. The same completion factors are applied to both incurred and allowed claims amounts.

##### Non-EHB benefits and the experience period cost

The non-EHB claims account for 0.8% of the total claims in the experience period. The non-EHB services are exclusively for physician and outpatient claims. We expect the same benefits to be covered during the rating period.

##### Capitation

Capitation includes all services provided under one or more capitated agreements and it is applied uniformly across all membership during the experience period. For this experience period, the capitated amount is \$11.84 PMPM.

##### Pharmacy Rebates

The prescription drug cost is net of rebates received from drug manufacturers. For this experience period the average pharmacy rebate is -\$44.22 PMPM.

### Risk Adjustment

The December 2023 Wakely UHIC and UHCPA combined risk adjustment transfer payment is -\$4,490,797.32. Risk adjustment percentage applied to the experience period premium is -3.88%.

### Reinsurance

Since this is a small group filing and the state of Pennsylvania chose not to combine its individual and small group markets, reinsurance recoveries are not applicable to this rate filing. As such, no adjustments were made to the experience.

### G. Credibility of Data

We are using United Healthcare small group UHIC ACA experience and United Healthcare Pennsylvania Inc small group UHCPA ACA experience with credibility applied. UHIC ACA experience has 92.1% credibility assigned and UHCPA ACA experience has 7.9% credibility assigned. The assigned credibility is determined by membership weighting in experience period. As ASOP 25, section 3.4 states: “Professional Judgment - The actuary should use professional judgment when selecting, developing, or using a credibility procedure. The use of credibility procedures is not always a precise mathematical process.”

### H. Trend Identification

In the credibility manual, two years of annual trend were applied to the experience to project it to the rating period. The table below details the components of each trend factor.

**Table 3. Trend Components**

Service Category	Cost*	Utilization*	Induced Demand*	Composite Trend	Weight*
Inpatient Hospital	4.65%	3.74%		8.56%	14.32%
Outpatient Hospital	4.29%	3.93%		8.38%	42.05%
Professional	2.54%	5.38%		8.06%	22.21%
Other Medical	2.49%	5.43%		8.05%	0.17%
Capitation				8.76%	3.00%
Prescription Drugs	4.70%	5.69%		10.66%	18.25%
Total Annual Trend				8.77%	100.00%
Months of Trend				24	
Total Applied Trend Projection Factor				1.183	

Weight is based on the ratio of experience period index rate PMPM of different service categories over total PMPM, shown in URRT Worksheet 1 Section II Projections.

Please see Exhibit “15 - Claims Trend Summary” included in this filing for details on the trend components.

We are proposing the annual pricing trend to be at 9.1% applied quarterly, and the quarterly trend is 2.2%. The details of the proposed 9.1% trend are in Exhibit “6 – Pricing Trend” included in this filing.

The 9.1% pricing trend included in the input in Table 5A represents future quarterly pricing trends that will be used to increase 1Q25 premium rates to determine 2Q25, 3Q25, and 4Q25 premium rates.

Our trend setting process is outlined by the following narrative and exhibits. In general, recent/emerging claims experience is reviewed at the market level for several broad medical expense categories (inpatient, professional, pharmacy, etc.), with utilization, unit cost, benefit leveraging, and business mix identified for each category. Depending on the amount of underlying experience, additional markets may be added together to limit the variability of small blocks of experience. Historical patterns will produce highly variable results with limited credibility. National utilization/mix assumptions along with local contract assessment will be used to produce a more stable and reliable trend estimate.

## I. Historical Experience

Table 4 below describes the most recent 48 months of experience data with 2 months of runout for the experience period which includes ACA business for legal entity UHC of PA, with 7.9% credibility assigned.

Table 4b below describes the most recent 48 months of experience data with 2 months of runout for the credibility manual which includes ACA business for legal entity UHIC, with 92.1% credibility assigned.

Table 4. Historical Experience

Month-Year	Total Annual Premium	Incurred Claims	Completion Factors*	Ultimate Incurred Claims	Members	Ultimate Incurred PMPM	Estimated Annual Cost Sharing (Member + HSA)	Prescription Drug Rebates**	Allowed Claims (Net of Prescription Drug Rebates)	Allowed PMPM

cost exposure. Unit cost projections also consider the estimated cost impact of new technologies, service availability/mandates, or other factors that might influence mix of procedures. Unit cost is based on our contractual changes with providers.

In addition, market-level healthcare affordability activities that are expected to impact forward-looking medical costs are recognized. Depending on the nature of individual initiatives, the impact may be recognized in one or more of the component cost items discussed above. Only incremental activities are recognized for this purpose in the expected trend impact for any particular period.

This rate filing proposes quarterly rates.

## 2. Rate Development & Change

### A. Development of Projected Index Rate, Market-Adjusted Index Rate, & Total Allowed Claims

**Table 5. Development of the Projected Index Rate, Market-Adjusted Index Rate, and Total Allowed Claims**

<b>Development of the Projected Index Rate</b>	<b>Actual Experience Data</b>	<b>Manual Data</b>
Total Allowed EHB Claims + EHB Capitation PMPM (net of prescription drug rebates) PMPM	\$ 394.59	\$ 570.64
Two year trend projection Factor	1.183	1.183
Unadjusted Projected Allowed EHB Claims PMPM	\$ 466.81	\$ 675.34
<u>Single Risk Pool Adjustment Factors</u>		
Change in Morbidity - Impact of Reinsurance Program	1.000	1.000
Change in Morbidity - All Other	1.000	1.000
Total Non-Morbidity Changes	0.994	0.930
Change in Demographics	0.999	1.019
Change in Network	1.000	1.000
Change in Benefits	1.003	0.971
Change in Other	0.992	0.940
Total Adjusted Projected Allowed EHB Claims PMPM	\$ 464.00	\$ 628.12
Credibility Factors	8%	92%
Blended Projected EHB Claims PMPM		\$ 615.16
<b>Development of the Market-Adjusted Index Rate and Total Allowed Claims</b>		
Adjusted Projected Allowed EHB Claims PMPM	\$ 615.16	<- Index Rate for Projec
Projected Paid to Allowed Ratio	0.777	
Projected Incurred EHB Claims PMPM	\$ 477.98	
<u>Market-wide Adjustments</u>		
Projected Incurred Risk Adjustment PMPM	\$ (23.34)	
Projected Incurred Exchange User Fees PMPM	\$0.00	
Projected Incurred Reinsurance Recoveries PMPM	\$0.00	
Market-Adjusted Projected Incurred EHB Claims PMPM	\$ 501.32	
Market-Adjusted Projected Allowed EHB Claims PMPM	\$ 645.20	<- Market-Adjusted Ind
Projected Allowed Non-EHB Claims PMPM	5.127941933	
Catastrophic Eligibility Adjustment	1.000	
Market-Adjusted Projected Incurred Total Claims PMPM	505.3030576	
Market-Adjusted Projected Allowed Total Claims PMPM	\$ 650.33	

Projected risk adjustment PMPM is -\$30.04 in URRT Worksheet 1 section II. We applied an adjustment for the paid-to-allowed ratio. The resulting PMPM is  $-\$30.04 \times 0.777$ .

The Index Rate for the experience period is approximately 99.2% of allowed claims due to benefits in excess of EHBs.

The Index rate calculation is demonstrated in Table 5A below:

**Table 5A. Small Group Projected Index Rate with Quarterly Trend**

Effective Date	1/1/2025	4/1/2025	7/1/2025	10/1/2025	Total Single Risk Pool
# of Member Months Renewing in Quarter	12,465				12,465
Adjusted Projected Allowed EHB Claims PMPM	\$ 615.16	\$ 615.16	\$ 615.16	\$ 615.16	\$ 615.16
Months of Trend	-	3	6	9	
Annual Trend	9.10%	9.10%	9.10%	9.10%	
Single Risk Pool Projected Allowed Claims	\$ 615.16	\$ 628.70	\$ 642.54	\$ 656.68	\$ 615.16
Quarterly Trend Factor	1.000	1.022	1.045	1.068	1.000

#### Actuarial Value and Cost Sharing Adjustment

UnitedHealthcare has a proprietary pricing model that was used in developing the actuarial value and cost sharing adjustment for each plan. The model calculates plan relativity factors for medical and pharmacy benefits. Also included under the actuarial value and cost sharing adjustment are adjustments for leveraging and the difference between the average plan relativity factor and the projected paid to allowed ratio. Historical affiliated carrier experience was used to develop the actuarial value and cost sharing adjustment for each plan as well as the distribution and administrative costs adjustment.

#### Provider network, deliver system and utilization management adjustment

Any adjustments for these items are included in the plan relativity factors.

#### Benefits in Addition to EHBs

Benefit Extra EHB is the percentage of claims that are covered and are not included in EHB. The projected non-EHB impact is 0.8%.

#### Distribution and Administrative Costs

Distribution and Administrative Costs include premium tax, SG&A, quality improvements, federal income tax, and after-tax income. These items are discussed in the section Non-Benefit Expenses and Profit of this memorandum. Risk adjustment transfers and user fees and exchange fees are excluded because they are accounted for in the market adjusted index rate.

#### Tobacco Factors

Tobacco factors are not used in rating. As such, no adjustment is made for costs that are expected to be recouped through the tobacco surcharge.

#### Index Rate Calibration

Plan Adjusted Index Rates need to be calibrated to apply the allowable rating factors of age and geography in order to calculate the Consumer Adjusted Premium Rates. Calibration factors are applied uniformly to all plans.

#### Age Calibration

The calculated age curve calibration is 1.426, which equals the average age factor of the expected member distribution by age in the ACA enrollment. This corresponds with an approximate age of 45 years. The age factors used in this calculation are the HHS-specified age curve.

Exhibit "7 - Age Calibration" shows the Average Age calibration factor development.

#### Geographic Calibration

The geographic factor calibration is 0.881, which equals the expected average area factor. A table of the geographic rating factors is below.

**Table 13. Geographic Factors**

Geographic Area Factors			
Area	Counties	Current Factor	Proposed Factor
Rating Area 1	Erie, Crawford, Mercer, Venango, Clarion, Forest, Warren, McKean	0.783	0.783
Rating Area 2	Elk, Cameron, Potter	0.767	0.767
Rating Area 3	Clinton, Lycoming, Sullivan, Bradford, Susquehanna, Wyoming, Lackawanna, Wayne, Pike, Monroe, Carbon, Luzerne, Tioga	0.920	0.920
Rating Area 4	Lawrence, Beaver, Washington, Greene, Butler, Allegheny, Westmoreland, Armstrong, Indiana, Fayette	0.867	0.867
Rating Area 5	Jefferson, Clearfield, Cambria, Somerset, Bedford, Blair, Huntingdon	0.869	0.869
Rating Area 6	Centre, Mifflin, Snyder, Northumberland, Columbia, Schuylkill, Lehigh, Northampton, Montour	0.898	0.898
Rating Area 7	Adams, York, Lancaster, Berks	0.928	0.928
Rating Area 8	Chester, Delaware, Montgomery, Bucks, Philadelphia	0.872	0.872
Rating Area 9	Fulton, Franklin, Cumberland, Perry, Juniata, Dauphin, Lebanon	0.911	0.911

Exhibit “8 - Area Calibration” shows the Average Area calibration factor development.

No changes to area factors are being proposed in this filing.

Population morbidity by area was not considered when determining geographic area factors changes.

Calibrating the plan adjusted index rate to the age curve and geographic distribution results in the calibrated premium rate for each plan. The calibrated premium rate represents the preliminary premium rate charged to an individual before applying the consumer specific rating adjustments for age, area, and tobacco status.

Consumer Adjusted Premium Rate Development

The consumer adjusted premium rate is the final premium rate that is charged to an individual. It is developed by calibrating the plan adjusted index rate by the average age and geographic rating factors, and applying the consumer specific age, geographic, and tobacco status rating factors. The calculation is provided below.

$$\begin{aligned}
 & \text{Plan Adjusted Index Rate} \\
 / & \text{Age Calibration Factor} \\
 / & \text{Geographic Calibration Factor} \\
 \times & \text{Consumer Specific Age Rating Factor} \\
 \times & \text{Consumer Specific Geographic Rating Factor} \\
 \times & \text{Tobacco Status Factor} \\
 \times & \text{Small Group Trend Adjustment} \\
 = & \text{Consumer Adjusted Premium Rate}
 \end{aligned}$$

### Small Group Trend Adjustment

Since this is a small group filing that includes rates with schedule trend increases by quarter, the Index Rate, Market Adjusted Index Rate and Plan Adjusted Index Rate reflect the member weighted average premium over the calendar year. As such, the Consumer Adjusted Premium Rate includes the trend adjustments in calculated quarterly rates.

### B. Retention Items

#### Administrative Expense Load

The expense formula is similar to the United Healthcare Insurance Company except for the Premium Tax component that doesn't apply to the HMO product.

The administrative expense load is a long-term estimate of administrative expenses, including selling expenses and general administrative expenses. This load varies by plan. These assumptions are based on the general ledger actual results for 2023 with known adjustments. Known adjustments include, but are not limited to, pay increases/raises for employees and administrative expenses as a result of Healthcare Reform and compliance requirements.

The administrative expense allocation methodology used in pricing is appropriate because it is consistent with how UnitedHealthcare runs its business and how it allocates administrative costs for Statutory Filings and the Healthcare Reform Exhibits.

For this filing, this is calculated at 13.5%.

<u>1/1/2025 Filing</u>		
<b>Administrative Expenses Allocation</b>	<b>Estimated % of Premium</b>	<b>Estimated PMPM</b>
Selling Expenses (Commissions, Broker Bonus)	4.1%	\$24.48
General Admin Expenses	9.4%	\$56.63
<b>Total</b>	<b>13.5%</b>	<b>\$81.10</b>

#### Profit and Risk Margin

The Profit and Risk Margin is 2%. This target does not vary by product or plan.

#### Taxes and Fees

Taxes and fees are expected to be 0.6% and include federal income tax. The following is a breakdown of the taxes and fees.

<u>1/1/2025 Filing</u>		
<b>Premium Taxes and Fees Allocation</b>	<b>Estimated % of Premium</b>	<b>Estimated PMPM</b>
Federal / State Income Tax on Profit & Risk Load	0.5%	\$3.20
Premium Tax	0.0%	\$0.00
ACA Taxes: PCORI Fee	0.0%	\$0.27
ACA Taxes: Risk Adjustment User Fee	0.03%	\$0.18
ACA Taxes: Exchange User Fee	0.0%	\$0.00
All Other Taxes & Fees	0.0%	\$0.00
<b>Total</b>	<b>0.6%</b>	<b>\$3.65</b>

### C. Normalized Market-Adjusted Projected Allowed Total Claims

The 2025 average age factor is 1.426. The age factors used in this calculation are the HHS-specified age curve. The 2025 average geographic factor is 0.881.

**Table 7. Normalized Market-Adjusted Projected Allowed Total Claims**

<u>Normalization Factors</u>	2024	2025
Average Age Factor	1.392	1.426
Average Geographic Factor	0.882	0.881
Average Tobacco Factor	1.000	1.000
Average Benefit Richness (induced demand)	1.000	1.003
Average Network Factor	1.000	1.000
Market-Adjusted Projected Allowed Total Claims PMPM	\$ 585.36	\$ 650.33
Normalized Market-Adjusted Projected Allowed Total Claims PMPM	\$ 476.90	\$ 515.78

#### D. Components of Rate Change

**Table 9. Year-over-Year Data to Support Table 8**

	2024	2025
Paid-to-Allowed	0.761	0.777
URRT Trend (Total Applied Trend Factor)	1.175	1.183
URRT Morbidity	1.000	1.000
URRT "Other"	0.857	0.935
Risk Adjustment	\$ 41.80	\$ 23.34
Exchange User Fee	\$ -	\$ -
Reinsurance Recoveries	\$ -	\$ -
Capitation	\$ 16.15	\$ 14.00
Network	1.000	1.000
Pricing AV	0.760	0.776
Benefit Richness	1.000	1.003
Catastrophic Eligibility	1.000	1.000
Benefits in Addition to EHB	1.000	1.008
Administrative Expenses	16.30%	13.47%
Taxes and Fees	0.67%	0.61%
Profit and/or Contingency	2.00%	2.00%

Changes in "Other" include the changes in the catastrophic claims adjustment impact, PPACA fee, trend adjustment. The capitation arrangements for 2024 resulted in a projection of \$16.15 PMPM and for 2025 is \$14.00 PMPM.

### 3. Plan Rate Development

Table 10 has been populated as instructed.

### 4. Plan Premium Development for 21-Year-Old Non-Tobacco User

Table 11 has been populated as instructed.

### 5. Plan Factors

#### A. Age and Tobacco Factors

Table 12 has been populated as instructed using the default federal standard age curve.

B. Geographic Factors

Table 13 has been populated as instructed

C. Network Factors

Table 14 has been populated as instructed

D. Service Area Composition

For the 2025 plan year we have two distinct service areas, varying by plan. Please reference Exhibit 2 – Plan Designs along with 2025 service area map which detail the markets and counties where each plan will be available. In summary, counties in WPA markets 560, 561 and 562 will have one plan option available. Counties in EPA markets 556 and 558 will have four plan options available to them. Counties in market 557 will have all five plan options available.

E. Composite Rating

No composite rating is offered for this product.

## 6. Actuarial Certifications

I, [REDACTED], an Actuary at UnitedHealthcare, I am a member of the American Academy of Actuaries, and I meet the Academy's qualification standards for rendering statements of actuarial opinion with respect to the filing of rates for health insurance products. I have reviewed applicable ASOPs during the preparation of this rate filing.

To the best of my knowledge and judgment, I certify that:

- The projected index rate is:
  - In compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80 and 147.102),
  - Developed in compliance with the applicable Actuarial Standards of Practice,
  - Reasonable in relation to the benefits provided and population anticipated to be covered,
  - Neither excessive, deficient, nor unfairly discriminatory.
- The index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.
- The percent of total premium that represents essential health benefits included in Worksheet 2, Sections III and IV were calculated in accordance with actuarial standards of practice.
- The geographic rating factors reflect only differences in the costs of delivery and do not include differences for population morbidity by geographic area.
- New plans cannot be considered modifications of existing plans under the uniform modification standards in 45 CFR 147.106.
- The information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2025 Rate Filing Justification
- The AV calculator was used to determine the AV metal values shown in Worksheet 2 of the Part I Unified Rate Review Template for all plans. Some of our plan designs are not directly compatible with the AV calculator. The values were developed in accordance with generally accepted actuarial principles and methodologies. The unique plan design actuarial certification required by 45 CFR Part 156.135 has been separately attached.
- The Part I Unified Rate Review Template does not demonstrate the process used by the issuer to develop their rates. Rather, it represents information required by federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally facilitated exchanges, and for certification that the index rate is developed in accordance with federal regulation and used consistently and only adjusted by the allowable modifiers.
- All factor, benefit and other changes from the prior approved filing have been disclosed in the actuarial memorandum.

I certify that the anticipated loss ratio meets the minimum requirement, the rates are reasonable in relation to benefits, the filing complies with the laws and regulations of PA and all applicable Actuarial Standards of Practice, including ASOP No. 8 and the rates are not unfairly discriminatory.

# PA Rate Template Part VI - Rate Change Summary

## Table 15. Rate Change Summary Information

### Overview

Initial Requested Average Rate Change:	5.85%
Revised Requested Average Rate Change:	5.85%
Minimum Requested Rate Change:	4.31%
Maximum Requested Rate Change:	7.93%
Mapped Members:	1,059
Available in Rating Areas:	Rating Areas 1, 2, 3, 4, 5, 6, 7, 8, and 9

Carrier Name:	United Healthcare of Pennsylvania, Inc.
Product(s):	HMO
Market Segment:	Small Group
Rate Effective Date:	1/1/2025

### Key Information

#### Jan. 2023 - Dec. 2023 Financial Experience

Premium	\$	5,625,947.04
Claims	\$	4,244,606.92
Administrative Expenses	\$	859,394.00
Taxes & Fees	\$	754,129.00
Company Made After Taxes	\$	(232,182.88)

### How It Plans to Spend Your Premium

This is how the company plans to spend the premium it collects in 2025:

Claims:	84%
Administrative Expenses:	14%
Taxes & Fees:	1%
Profit:	2%

The company expects its annual medical costs to increase: **8.77%**

Explanation of requested rate change: **UnitedHealthcare of Pennsylvania, Inc. is requesting** the reate increase because of the increase in medical costs and utilization of health care services.

**Table 16. Risk Adjustment Calculation**

Component	Statewide	Insurer Specific
State Average Monthly Premium Before Adjustment	590.32	
Administrative Cost Adjustment	0.86	
State Average Monthly Premium	507.68	
Actuarial Value (AV)	0.78	0.79
Plan Liability Risk Score (PLRS)	1.21	1.11
Allowable Rating Factor (ARF)	1.50	1.41
Induced Demand Factor (IDF)	1.07	1.08
Geographic Cost Factor (GCF)	0.97	1.02
Factors Including Risk Score	1.26	1.22
Factors Excluding Risk Score	1.22	1.23
Risk Adjustment Transfer PMPM		(18.98)
Insurer Specific Manual Adjustment PMPM		-4.359118896
High Cost Risk Pool Adjustment PMPM		
Total Risk Adjustment Transfer		(23.34)

## Section 1: Purpose

The following is a rate filing prepared by UnitedHealthcare of Pennsylvania, Inc.. This filing has been prepared to provide the necessary information required by the Department of Health and Human Services and the state of Pennsylvania. The purpose of this memorandum is to provide information relevant to the Federal Part I Unified Rate Review Template (URRT).

This filing establishes rates intended to be used for non-grandfathered PPACA compliant small group health benefit plans sold off the Small Business Health Options Program in Pennsylvania for the 2025 plan year. A rate increase is being filed at this time. The rates and other information in this submission are based on the current regulations and guidance from HHS. Changes to this filing may be necessary if there are revisions to the regulations or updated guidance from HHS.

This memorandum is intended solely for the information of and use by the Department of Health and Human Services and the Pennsylvania Insurance Department (PID). It will demonstrate compliance with state and federal laws and regulations related to the development of the index rate and allowable rating factors and is not intended to be used for any other purpose.

The attached document contains confidential, proprietary information and trade secrets. This information is strictly confidential and protected from disclosure by 40 P.S. § 65.2-A . If the prohibition against disclosure by the Pennsylvania Insurance Department (PID) is reassessed at a later date, it may not be disclosed to any other state or federal regulatory agencies unless the recipient agrees in writing prior to receipt to maintain the confidentiality of the information.

---

## Section 2: General Information

### Company Identifying Information

Company Legal Name: UnitedHealthcare of Pennsylvania, Inc.  
State: Pennsylvania  
HIOS Issuer ID: 24872  
Market: Small Business, 1-50  
Proposed Effective Date: January, 1 2025

### Primary Contact Information

Name: [REDACTED]  
Telephone Number: [REDACTED]  
Email Address: [REDACTED]

## Section 3: Proposed Rate Changes

The proposed change in rates for this filing is 5.9% compared to the prior filing. There is no change to geographic rating factors. The proposed pricing trend is 9.1% annually.

The primary drivers of the proposed rate changes are the following:

- Changes in medical service costs
  - Increasing Cost of Medical Services – Annual increases in reimbursement rates to health care providers – such as hospitals, doctors and pharmaceutical companies.
  - Increased Utilization – The number of office visits and other services continues to grow. In addition, total health care spending will vary by the intensity of care and/or use of different types of health services. Patients who are sicker generally have a higher intensity of health care utilization. The price of care can be affected by the use of expensive procedures such as surgery vs. simply monitoring or providing medications.
  - Higher Costs from Deductible Leveraging – Health care costs continue to rise every year. If deductibles and copayments remain the same, a greater percentage of health care costs need to be covered by health insurance premiums each year.
  - Cost shifting from the public to the private sector – Reimbursements from the Center for Medicare and Medicaid Services (CMS) to hospitals do not generally cover all of the cost of care. The cost difference is being shifted to private health plans. Hospitals typically make up this reimbursement shortfall by charging private health plans more.
  - Impact of New Technology – Improvements to medical technology and clinical practice often result in the use of more expensive services, leading to increased health care spending and utilization.
- Administrative costs and anticipated profit
  - UnitedHealthcare works to directly control administrative expenses by adopting better processes and technology and through the development of programs and innovations that make health care more affordable. We have led the marketplace by introducing key innovations that make health care services more accessible and affordable for customers, improve the quality and coordination of health care services, and help individuals and their physicians make more informed health care decisions.
  - Additionally, UnitedHealthcare indirectly controls medical cost payments by using appropriate payment structures with providers and facilities. UnitedHealthcare’s goal is to control costs, maximize efficiency, and work closely with physicians and providers to obtain the best value and coverage.
  - State and/or Federal government imposed taxation and fees are additional significant factors that impact health care spending. These fees include ACA taxes and fees which have increased health insurance costs and need to be reflected in premium.

- Changes that vary by plan
  - All plan relativity factors have been updated to reflect UnitedHealthcare’s most recent pricing model.
  - The impact of any changes to plans that have occurred due to uniform modification are also reflected in the updated plan relativity factors. Please see the “Plan Adjusted Index Rate” section of the memorandum for more detail on these changes.

We refined the medical and pharmacy plan price relativities to reflect the most recent pricing methodology and pricing models. The methodology is based on UnitedHealthcare nationwide experience data, which contains utilization frequencies and unit costs by service category, in addition to claim distributions and adjustment factors for a large number of plan design variables. Benefit design parameters such as deductibles, coinsurance, copays, out-of-pocket maximums, etc. were input for each plan. The expected paid-to-allowed relativities and expected utilization differences due to differences in cost sharing for each plan are then used to develop the plan factors for each benefit plan. All benefit plans are priced consistently with each other, with the rates differing only by the estimated value of the benefits and the expected utilization differences due to differences in cost sharing. The utilization differences do not reflect differences due to health status. The net impact of all changes by plan can be found in Worksheet 2, Section I of the Unified Rate Review Template.

Significant factors driving the proposed rate changes are discussed in further detail in Section 6 (*Projection Factors*) and Section 7 (*Credibility Manual Rate Development*) of this memorandum.

## Section 4: Experience and Current Period Premium, Claims and Enrollment

### Paid Through Date

The experience period is January 1, 2023 to December 31, 2023, with claims paid through February 29, 2024.

### Current Date

The current enrollment and premium is reported as of December, 31 2023.

### Allowed and Incurred Claims Incurred During the Experience Period

Claims Description	Allowed Claims	Incurred Claims
Claims Paid as of February 29, 2024	\$5,652,945	\$4,161,206
Claims Incurred but Not Reported as of February 29, 2024	\$113,299	\$83,401

The claims data was available directly from company claims records.

### Support for estimate of incurred but not reported claims

Historical claims are categorized both by the month in which they were incurred and the month in which they were adjudicated. For incurral months with sufficient adjudicated claims experience, incurred claims are estimated by applying completion factors derived from the historical claims. Adjustments are made based on specific knowledge of the entity (e.g. catastrophic claims, pended claims, etc.). For incurral months where adjudicated claim experience is not sufficient to rely on completion factors, a PMPM is used to estimate incurred claims. PMPM estimates are based on expected claim seasonality patterns, monthly calendar days and work days, emerging claim trends, and other factors. The same completion factors are applied to both incurred and allowed claims amounts.

---

### Experience Period Risk Adjustment and Reinsurance Adjustments (PMPMs)

We are using the December 2023 Wakely Consulting Group study estimate of our 2023 risk transfer payment. Based on that information our 2023 risk adjustment transfer PMPM is -\$127.42. When the final CMS values are released we will update this value.

### Experience Period Index Rates

Experience Period Index Rates are defined as the allowed claims PMPM for Essential Health Benefits during the Experience Period. With the breakout of the service level EHB claims, the information provided reflects a reasonable estimate of the EHBs.

## **Section 5: Benefit Categories**

Claims were assigned to each of the benefit categories based on where services were administered and the types of medical services rendered. The benefit categories were defined by our claims department using standard industry definitions.

### Inpatient Hospital

Includes non-capitated facility services for medical, surgical, maternity, mental health and substance abuse, skilled nursing, and other services provided in an inpatient facility setting and billed by the facility.

### Outpatient Hospital

Includes non-capitated facility services for surgical, emergency room, laboratory, radiology, therapeutic, observation, and other services provided in an outpatient facility setting and billed by the facility.

### Professional

Includes non-capitated primary care, specialist care, therapeutic, the professional component of laboratory and radiology, and other professional services, other than hospital based professionals whose payments are included in facility fees.

### Other Medical

Includes non-capitated ambulatory, home health care, durable medical equipment, prosthetics, supplies, vision exams, dental services and other services.

### Capitation

Includes all services provided under one or more capitated agreements.

### Prescription Drug

Includes drugs dispensed by a pharmacy. This amount is net of rebates received from drug manufacturers.

---

## Section 6: Projection Factors

### Trend

Two years of annual trend were applied to our 2023 experience to project it to the 2025 rating period. Our most recent analysis indicates annual trend in the state of Pennsylvania for the 2024 and 2025 calendar years will be 8.9% and 8.9%, respectively. The table below details the components of each trend factor.

Trend Component	2024	2025
Unit Cost	4.2%	4.2%
Utilization	4.5%	4.5%
Total	8.9%	8.9%

UnitedHealthcare develops forward-looking medical expense estimates based on a number of considerations. In general, recent/emerging claims experience is reviewed at the market level for several broad medical expense categories (inpatient, professional, pharmacy, etc.), with utilization, unit cost, and benefit leveraging identified for each category. Future trends are developed based on a projection of each component.

Utilization rates by category are measured and projected. Forward looking utilization levels are developed based on emerging market level data, supplemented by regional and/or national level utilization data. Macro-economic data is often used to develop assumptions regarding directional changes in national health care consumption rates. UnitedHealthcare uses same store analysis to reflect utilization.

Market-level unit cost projections are developed based on evaluations of current and anticipated provider contract economics, as well as consideration to both current and expected changes in non-contracted provider cost exposure. Unit cost projections also consider the estimated cost impact of new technologies, service availability/mandates, or other factors that might influence the mix of procedures. Unit cost is based on our contractual changes with providers.

In addition, market-level healthcare affordability activities that are expected to impact forward-looking medical costs are recognized. Depending on the nature of individual initiatives, the impact may be recognized in one or more of the component cost items discussed above. Only incremental activities are recognized for this purpose in the expected trend impact for any particular period.

### Demographic Shift

The total Demographic Shift Adjustment is -0.05%. It is comprised of the following factors:

#### *Age Shift:*

The HHS-specified age curve was used in rating. No adjustment is made for Age Shift.

#### *Geographic Shift:*

An adjustment of -0.05% was made to account for the shift in the distribution of members by rating area between the experience period and the rating period. The factor reflects the change in the average geographic rating area factor from the experience period to the rating period, weighted by the respective membership distributions, using the proposed geographic rating area factors. The formula is calculated as: Avg. Geographic Rating Area Factor projected / Avg. Geographic Rating Area Factor experience – 1.

---

### Plan Design Changes

The total Plan Design Adjustment is 0.3%. It is comprised of the following factors:

#### *Shift in Benefit Plan Distribution:*

An adjustment of 0.3% was made to account for the expected change in allowed claims due to the shift in the distribution of benefit plans between the experience period and the rating period.

### Other Adjustments

#### *Catastrophic Claims Adjustment:*

An adjustment was made to account for catastrophic claims experience in the experience period. The claims were adjusted by 5.9% to align with expected catastrophic claim levels in the rating period.

#### *Trend Adjustment:*

An additional trend adjustment of 0.7% is applied to trend our rates to the mid-point of the quarter rather than the beginning of the quarter.

#### *All Other Adjustments:*

All other adjustments resulted in an adjustment of -6.9%.

## **Section 7: Credibility Manual Rate Development**

### Source and Appropriateness of Data Used

Combined experience of UHC of PA in Pennsylvania and UnitedHealthcare Insurance Company was used for rate development.

### Adjustments Made to the Data

Adjustments similar to the ones described in Section 6 were applied to the experience of the credibility manual to project it to the projection period. In addition, the credibility manual was adjusted to reflect the average age, geography, plan design and morbidity of the adjusted experience period claims.

An adjustment to the credibility manual was made to account for catastrophic claims experience in the experience period.

### Inclusion of Capitation Payments

Capitation payments are included in both the experience and projections.

## **Section 8: Credibility of Experience**

The experience for this legal entity contains 14,523 member months. We have assigned 7.9% credibility to the data based on the ratio of UHCPA experience member months to our total UHIC plus UHC of PA experience period member months. We set our rate using the blended experience of both entities weighted by the membership in both entities.

Consideration was given to ASOP #25 when determining the credibility and appropriateness of the experience and the manual rate. The manual rate is sufficiently independent from the experience and can be blended with it for purposes of rate development.

---

## Section 9: Development of Projected Index Rate

The experience period index rate is \$394.59 PMPM.

The Index Rate For the experience period is approximately 99.2% of allowed claims due to benefits in excess of EHBs. The reported percentage amount is based on experience data. The index rate of the experience period has been reported accordingly. The Index Rate in the projection period represents 99.2% of allowed claims due to the benefits in excess of EHBs.

The projected index rate of \$615.16 was calculated by trending and adjusting the experience period index rate to the projection period, including blending the experience with a manual rate if the experience was not fully credible. It is established in accordance with the requirements of 45 CFR §156.80(d). See sections 6, 7, and 8 of this memo for more details.

## Section 10: Development of the Market-wide Adjusted Index Rate

### Reinsurance

There is no reinsurance program in force for this business, and as a result there are no reinsurance recoveries to report.

### Risk Adjustment Payment/Charge

We are using the combined UHIC and UHCPA experience in the December 2023 Wakely Consulting Group study to estimate of our 2023 risk transfer payment. Based on that information, our 2023 risk adjustment transfer payment PMPM is \$24.27. When the final CMS values are released we will update this value. We are assuming the risk level of our business relative to that of our competitors for the 2025 plan year will be similar to what it was in the 2023 plan year. Since risk adjustment transfer payments are a function of the market level premium, our 2025 risk adjustment transfer PMPM amount is calculated by adjusting our estimated 2023 risk adjustment transfer PMPM amount for the projected market level trend. UnitedHealthcare of Pennsylvania, Inc. anticipates paying an average of \$23.34 PMPM for risk adjustment transfers in the state of Pennsylvania for the 2025 plan year, which has been grossed up to a \$30.04 payment for purpose of calculating the Market-wide Adjusted Index Rate.

### Exchange User Fees

There are no plans included in this filing that are offered on the exchange. Therefore there are no exchange user fees.

The market adjusted index rate includes market-wide adjustments for reinsurance, risk adjustment transfers, and exchange user fees (if any).

Index Rate	Net Federal or State Reinsurance (allowed basis)	Risk Adjustment Payment/Charge (allowed basis)	Exchange Fee Adjustment (allowed basis)	Market Adjusted Index Rate
\$615.16	\$0.00	-\$30.04	0.00%	\$645.20

*The figures above may not tally exactly due to rounding of the display.*

---

## Section 11: Plan Adjusted Index Rate

### Actuarial Value and Cost Sharing Adjustment

UnitedHealthcare has a proprietary pricing model that was used in developing the actuarial value and cost sharing adjustment for each plan. The model calculates plan relativity factors for medical and pharmacy benefits. Also included under the actuarial value and cost sharing adjustment are adjustments for leveraging and the difference between the average plan relativity factor and the projected paid to allowed ratio.

UnitedHealthcare does not utilize Induced Demand factors in our rate development. Instead, our plan-specific pricing factors are based on an analysis of UnitedHealthcare's nationwide block of Small Group health insurance, which reflects over 10 million member months of experience. Our approach complies with the prohibition of rating for morbidity differences by normalizing out the cost differences attributable to morbidity as measured by HHS's risk adjustment mechanism.

Historical UnitedHealthcare experience was used to develop the actuarial value and cost sharing adjustment.

### Provider network, delivery system and utilization management adjustment

Any adjustments for these items are included in the plan relativity factors.

### Distribution and Administrative Costs

Distribution and administrative costs include premium tax, risk adjustment user fees, SG&A, quality improvements, federal income tax, and after-tax income. Risk adjustment transfers, net reinsurance recoveries, and exchange fees are excluded because they are accounted for in the market adjusted index rate.

### *Administrative Expense Load*

The administrative expense load is a long-term estimate of administrative expenses, including selling expenses and general administrative expenses. This load does not vary by product or plan. These assumptions are based on the general ledger actual results for 2023 with known adjustments. Known adjustments include, but are not limited to, pay increases/raises for employees and administrative expenses as a result of Healthcare Reform and compliance requirements. The administrative expense allocation methodology used in pricing is appropriate because it is consistent with how UnitedHealthcare runs its business and how it allocates administrative costs for Statutory Filings and the Healthcare Reform Exhibits.

### *Profit and Risk Margin*

The profit and risk margin is shown in Worksheet 2, Section 3 of the URRT. This target does not vary by product or plan.

The profit and risk margin is derived from the difference between the administrative expenses, taxes and fees, and 1 minus the target loss ratio and the administrative expenses, taxes and fees.

The profit and risk margin results in an anticipated MLR that is above the minimum requirements as described in the Projected Loss Ratio section.

---

### *Taxes and Fees*

Taxes and fees are expected to be 0.61% and include premium tax, exchange fees (if any), risk adjustment user fees, and federal income tax. The following is a breakdown of the taxes and fees.

Premium Taxes and Fee Allocation	Estimated % of Premium
Premium/Retaliatory Tax	0.00%
Exchange User Fee	0.00%
Risk Adjustment User Fee	0.03%
PCORI Fees	0.05%
Federal/State Income Tax	0.53%

## **Section 12: Calibration**

Plan Adjusted Index Rates need to be calibrated to apply the allowable rating factors of age and geography in order to calculate the Consumer Adjusted Premium Rates. Calibration factors are applied uniformly to all plans.

### Age Calibration

The calculated age curve calibration is 0.7010, which equals the one divided by the average age factor of the expected member distribution by age. The age factors used in this calculation are the HHS-specified age curve.

### Geographic Calibration

The geographic factor calibration is 1.1347, which equals the one divided by the expected average area factor. A table of the geographic rating factors is below.

Rating Area	Area Factor
1	0.7825
2	0.7673
3	0.9197
4	0.8671
5	0.869
6	0.8976
7	0.9284
8	0.8719
9	0.9111

Geographic rating factors are reviewed periodically versus UnitedHealthcare claims data that reflects unit cost differences by county. Such a review was conducted as part of our January 1, 2025 rate development. Our analysis did not indicate that there were credible, material differences indicated by the comparison of currently approved area factors and the UHC data reflecting unit cost differences.

Population morbidity by area was not considered when determining geographic area factors.

### Tobacco Calibration

Tobacco factors are not used in the rating of these products, and no calibration is needed.

---

Calibrating the plan adjusted index rate to the age curve and geographic distribution results in the calibrated plan adjusted index rate for each plan. The calibrated plan adjusted index rate represents the preliminary premium rate charged to an individual before applying the consumer specific rating adjustments for age and area.

### **Section 13: Consumer Adjusted Premium Rate Development**

The consumer adjusted premium rate is the final premium rate that is charged to an individual. It is developed by calibrating the plan adjusted index rate, and applying the consumer specific age, and geographic rating factors. The calculation is provided below.

$$\begin{array}{r} \text{Plan Adjusted Index Rate} \\ X \text{ Age Calibration Factor} \\ X \text{ Geographic Calibration Factor} \\ X \text{ Consumer Specific Age Rating Factor} \\ X \text{ Consumer Specific Geographic Rating Factor} \\ X \text{ Small Group Trend Adjustment} \\ \hline = \text{Consumer Adjusted Premium Rate} \end{array}$$

### **Section 14: Projected Loss Ratio**

The projected loss ratio using the federally prescribed MLR methodology for calendar year 2025 is 84.8%. UnitedHealthcare of Pennsylvania, Inc. agrees to comply with the rebate requirements of 45 CFR Part 158 should the actual market MLR fall below the 80.0% requirement.

---

## Section 15: AV Metal Values

The AV calculator used to calculate the AV metal values is based on a prescribed methodology and, therefore, does not necessarily reflect a reasonable estimate of the portion of allowed costs covered by the associated plan.

Some plans within this portfolio have cost sharing features that differ between individual and family coverage (i.e., when two or more people are covered by the plan). For all plans, consistent with the Actuarial Value Calculator inputs, we have used only the cost sharing provisions applicable for individuals in the actuarial value calculation.

The AV calculator was used to determine the AV metal values shown in Worksheet 2 of the Part I Unified Rate Review Template for all plans. Some of our plan designs are not directly compatible with the AV calculator. The values were developed in accordance with generally accepted actuarial principles and methodologies. Additional details are provided below to describe the types of adjustments that were made for plan designs that are not directly compatible with the AV calculator.

### Benefits that Vary Based on Place of Service

For some types of services, our plan designs include different benefit levels based on the place of service (i.e. physician's office, free standing facility, or outpatient hospital facility). To incorporate this differentiation in benefits, the Tiered Network Option was selected within the AV calculator, and utilization was assigned to each tier based on historical experience of affiliated carriers.

### Physician Tiering

Select plan designs include lower cost sharing when members utilize providers we designate as meeting cost and efficiency standards. The tiered network functionality of the AV calculator was utilized to account for the cost sharing differences. The utilization of providers was based on a UnitedHealthcare study of differences in cost sharing and their effectiveness at driving utilization patterns.

### Laboratory and X-Ray Services

Some plan designs include a copay for minor lab and x-ray services. These copays are applied on a per visit basis. The AV Calculator assumes that the copays are on a per procedure basis. Therefore, the copay amounts are adjusted to reflect the equivalent per procedure amount.

### Employer Contributions to HSAs and HRAs

The following plans are offered in conjunction with HSAs or HRAs. The table shows the metal level of each plan and the range of annual employer contribution amounts, as well as the resulting range of AV Metal Values, that allow the plan to achieve the stated metal level. Note that because URRT Worksheet 2 allows only a single AV Metal Value for each plan, the AV Metal Values displayed on Worksheet 2 for these HSA/HRA plans correspond to the upper bound of the AV Metal Value range in the table below.

<b>HIOS Plan ID</b>	<b>Metal Level</b>	<b>Employer Contribution Range</b>	<b>AV Metal Value Range</b>
24872PA0030001	Bronze	[\$0, \$50]	[64.02%, 64.87%]
24872PA0030009	Silver	[\$0, \$250]	[68.81%, 71.81%]

### AV Calculator Workaround for UnitedHealthcare Rewards

Plans include UnitedHealthcare Rewards, a program that rewards enrollees completing certain wellness criteria with various financial incentives. These incentives are expected to impact member cost-sharing in a manner similar to employer contributions to a participant's Health Savings Account (HSA) or Health Reimbursement Arrangement (HRA) Account. To account for the impact on AV, the employer HRA/HSA contribution field in the AV Calculator was increased by the expected incentive, estimated using UHC historical experience.

---

### AV Calculator Workaround for Care Cash

Plans include Care Cash, a reimbursement program that encourages members to access preferred providers and supports desired health behaviors while minimizing their out-of-pocket burden. These incentives are expected to impact member cost-sharing in a manner similar to employer contributions to a participant's Health Savings Account (HSA) or Health Reimbursement Arrangement (HRA) Account but with a restriction on how the money can be spent. Care Cash offers value to members using a preloaded card that can be used to pay for certain medical services to these eligible providers: All INN PCPs, UHPD/Premium Care Specialists, INN Urgent Care, Virtual Visits, OP Minor Lab, and INN OP MH/SUD. To account for the impact on AV, the employer HRA/HSA contribution field in the AV Calculator was increased by the expected incentive, estimated using UHC historical experience.

## **Section 16: Membership Projections**

The total membership projection for the 2025 plan year was provided by UnitedHealthcare's Finance department. Member distribution by plan was then based on current enrollment, taking into consideration changes in the portfolio of plans to be offered in 2025. Strictly for purposes of the URRT, we have projected membership by plan.

## **Section 17: Terminated Plans and Products**

There are no products or plans being terminated in this rate filing.

## **Section 18: Plan Type**

A plan type of HMO has been selected, which describes the plans exactly.

## **Section 19: Reliance**

In my professional judgment, the assumptions or methods described in the memorandum do not conflict with what I believe to be reasonable. Therefore, I have not included any reliances.

---

## Section 20: Actuarial Certification

I, [REDACTED], am an Actuary for UnitedHealthcare and a member of the American Academy of Actuaries. I meet the Academy's qualification standards for rendering statements of actuarial opinion with respect to the filing of rates for health insurance products.

To the best of my knowledge and judgment, I certify that:

- The projected index rate is:
  - In compliance with state and federal statutes and regulations related to the development of the index rate and allowable rating factors (such as 45 CFR 156.80 and 147.102),
  - Developed in compliance with the applicable Actuarial Standards of Practice,
  - Reasonable in relation to the benefits provided and population anticipated to be covered,
  - Neither excessive, deficient, nor unfairly discriminatory.
- The index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.
- The geographic rating factors reflect only differences in the costs of delivery and do not include differences for population morbidity by geographic area.
- The AV calculator was used to determine the AV metal values shown in Worksheet 2 of the Part I Unified Rate Review Template for all plans. Some of our plan designs are not directly compatible with the AV calculator. The values were developed in accordance with generally accepted actuarial principles and methodologies. The unique plan design actuarial certification required by 45 CFR Part 156.135 has been separately attached.
- The Part I Unified Rate Review Template does not demonstrate the process used by the issuer to develop their rates. Rather, it represents information required by federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally facilitated exchanges, and for certification that the index rate is developed in accordance with federal regulation and used consistently and only adjusted by the allowable modifiers.

Notes:										
[1]	Represents core utilization only, exclusive of demographic change impacts; includes expected impact of changes in business day content.									
[2]	Represents expected changes in intensity of services provided.									
[3]	Represents core unit pricing increases, exclusive of service mix / intensity of services impact;									
[4]	Impact of member cost-share leveraging on net claims cost trend.									
[5]	Represents trend impact of age and gender changes; No provision included for Small Group business (age/gender community rating variable).									
[6]	Pricing models do not distinguish between Primary and Specialty medical care; same trends shown for both.

**Small Group Market**

	Billable		Transfer	Transfer	Trans % of
State	MMon	Premium	Amount	PMPM	UHC Prem
PA	185,003	#####	(4,490,797)	(24.27)	-3.88%

Notes:

- Values (b-g and i) are calculated from December 2023 Wakely (UHIC and UHCPA combined)
- Values do not include any estimated model change for 2024 or 2025
- Values (b-e) differ from PAAM Exhibits Tab VII, because Wakely/CMS calculates using the weighted average of the products by plan and rating area instead of the product of each factor's weighted average.

$T_i$  = Plan *i* Transfer PMPM  
 $PLRS_i$  = Plan *i* Plan Liability Risk Score  
 $AV_i$  = Plan *i* Actuarial Value  
 $ARF_i$  = Plan *i* Average Rating Factor  
 $IDF_i$  = Plan *i* Induced Demand Factor  
 $GCF_i$  = Plan *i* Geographic Cost Factor  
 $s_i$  = Plan *i* Share of State Enrollment

$$T_i = \left[ \frac{PLRS_i \times IDF_i \times GCF_i}{\sum_i (s_i \times PLRS_i \times IDF_i \times GCF_i)} - \frac{AV_i \times ARF_i \times IDF_i \times GCF_i}{\sum_i (s_i \times AV_i \times ARF_i \times IDF_i \times GCF_i)} \right] \bar{P}_s$$

$$m = \left[ \frac{g}{i} - \frac{h}{j} \right] k \times l$$

2025 Rates Table Template v14.0		All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.			
		If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.			
		If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.			
		If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.			
		To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

Our trend setting process is outlined by the following narrative and exhibits. In general, recent/emerging claims experience is reviewed at the market level for several broad medical expense categories (inpatient, professional, pharmacy, etc.), with utilization, unit cost, benefit leveraging, and business mix identified for each category. Depending on the amount of underlying experience, additional markets may be added together to limit the variability of small blocks of experience. Historical patterns will produce highly variable results with limited credibility. National utilization/mix assumptions along with local contract assessment will be used to produce a more stable and reliable trend estimate.

Unit cost projections are developed based on evaluations of current and anticipated provider contract economics, as well as consideration to both current and expected changes in non-contracted provider cost exposure. **Schedule A1** summarizes our PA and non-PA market contract assessment by service category for PA residents. Regional provider assignments are an internal process only and do not correspond to allowable rating areas.

In determining our projected utilization/mix assumption, we first examine our national historical experience for medical and pharmacy. In order to eliminate business mix issues, our national experience is limited to accounts that exist in both the prior and current period of experience. We call this a "Same Store" assessment. **Schedule B1** compares "Same Store" allowed claim cost between the most complete years. The change in allowed cost is adjusted for demographics, working day differences, and other minor changes. **Schedule F** compares our normal expected paid trends against the actual experience from 2020. Our estimated national unit cost (**Schedule A2**) is subtracted from this total to determine a national historic utilization/mix trend. In order to develop our forward looking utilization/mix component, we must now assess the expected changes that will occur from administrative initiatives, provider contracting, economic conditions, environmental impact, policy provisions, regulatory change, and technological advancements. (**Schedule B2**) Given the complexity of some of these estimates, many of the expected changes are applied uniformly across all service categories. The aggregate utilization mix change is determined and then applied at the service level to create our service level splits. (**Schedule B3**) Given the variation in service level trends, aggregate medical and pharmacy projected trends are developed and service level splits are based on proportional historical experience.

Our final step is to determine a trend estimate for benefit leveraging. Since our analysis is based on allowed cost differences, we must also include a component for which recognizes the benefit leveraging impact from fixed deductibles, copays, and stop loss limits. **Schedule D** includes a process that simulates a net trend calculation assuming the impact of various cost sharing components at the service level.

In general, we're seeing our contract costs or unit cost percentage increase slightly due to financial requirements by various facilities. Since we fix our pharmacy unit cost pricing at 4.7%, a majority of the new pricing schedules both for existing and new drugs flow through into our mix of service category. Pharmacy trends have been high and are expected to stay that way.

# Standard Questions

## 1. Membership:

- a. If the projected membership for plan year 2025 significantly differs from the current 2/1/2024 membership, please explain why.

We are using Finance projections which incorporate sales and persistency targets for calendar year 2025. For UHCPA Finance is projecting approximately 12.5K member months whereas Feb-2024 membership annualized would be 12.7K member months. We are using the Feb-2024 membership distribution by plan and projected that membership weighting into our 2025 calendar year total membership projections by plan.

## 2. Experience Period Claims:

- a. Please confirm that all claims which are capitated have been removed from the experience period claims.

Confirmed

- b. Please confirm that all non-EHB claims have been removed from the experience period claims.

Confirmed

- c. How are drug rebates projected to change from the base period to the rating period? How has this change been reflected in the rate development?

We anticipate drug rebates to hold steady in relationship to pre-rebate cost. This relationship is incorporated in our trend development.

## 3. COVID:

- a. Please confirm that Tables 2-4 of the PAAM Exhibits do not have any COVID adjustment. Additionally, please confirm that any COVID adjustment factor in the filing is reflected in Table 5 of the PAAM Exhibits.

There are no COVID adjustments built into our trend assumptions. We no longer maintain a separate Covid component reporting structure. The only exception to this process is that Paxlovid is included in our pharmacy trend model.

- b. If there is a COVID adjustment factor other than 1.0, please provide a quantitative exhibit supporting the factor.

N/A

- c. Please provide commentary on how the Company believes services such as COVID vaccinations and COVID testing will be handled in PY25. Within your response, please clarify if these services will be considered preventative and covered at 100%.

We believe the Company will cover COVID vaccines at 100% but that member cost sharing will be in place for COVID testing.

4. Trend:

- a. [SG. Only] If the Total Annual Trend in Table 3 (weighted by credibility) and the Annual Trend used to calculate quarterly rates in Table 5A differ, please provide an explanation and exhibit in support of the variation.

The forward pricing trend uses a 0%/100%(2024/2025) blend versus the 50%/50% experience trends in the exhibits. There will be differences in utilization and unit cost when looking at 2025 only.

- b. [SG. Only] In Table 5A, if cells K32:M32 are left to equal J32, please explain why that is a reasonable assumption.

We apply the same annual trend to our quarterly adjustments in the calendar year we are filing for.

5. Table 6 – Retention:

- a. Please confirm that the federal income tax is calculated using a Federal Income Tax Rate of 21%. If other adjustments were made in Table 6, cell C57, please provide a demonstration of how this number was calculated and an explanation of the other adjustments included in the calculation.

Confirmed.

- b. Please confirm that the Risk Adjustment User Fee PMPM is consistent with HHS Final Notice of Benefit and Payment Parameters for plan year 2025.

Confirmed we updated to \$0.18 as published in the Final NBPP for plan year 2025.

- c. Please provide an exhibit showing the commission PMPM amount to be paid to brokers in the following situations: Open-Enrollment Enrollee – Renewing, Open Enrollment Enrollee – New, Special Enrollment Period Enrollee – New, Special Enrollment Enrollee – Renewing. If the commission PMPM is not consistent between the four options above, please provide a detailed explanation as to the reason for the difference.

We are not on the Exchange in PA so these enrollment situations do not apply.

6. Pricing AVs:

- a. Please confirm that the Pricing AVs were calculated using a single risk pool (i.e., claims/utilization experience is not separated by metal level).

Confirmed

- b. Please identify and support any differences between the company’s metallic AV calculator results and the corresponding Pricing AVs.

Please reference tab labeled '11 – AVCS Calc' in the Rate Filing Exhibits for support on calculations of the Pricing AVs. Our Pricing AVs by plan line up with metal levels of the plans. For example, Silver plans do not have Pricing AVs lower than Bronze plans, nor have Pricing AVs higher than Gold plans.

7. Expanded Bronze Plans:

- a. Please provide an exhibit which demonstrates that the criteria for expanded bronze plans have been met.

Our three filed bronze plans for 2025 [2 UHIC Plans (DYXG & DXXH) & 1 UHCPA Plan (DXXK)] are all HSA plans so they all qualify as High Deductible Health Plans (HDHPs).

8. PAAM Exhibits – Consumer Factors:

- a. Please provide quantitative and qualitative support for the proposed geographic rating area factors, if different from the previous year.

N/A

- b. Please provide quantitative and qualitative support for the proposed network factors, if different from the previous year.

N/A

9. MLR Exhibit:

- a. Please complete table below which summarizes the most recent three years of complete MLR information.
  - i. Actual is the final information which was filed for the specified calendar year
  - ii. Projected is the information which was projected in the final annual filing for the given year (i.e., 2021 projected information is from the plan year 2021 annual filing submitted in 2020)

Calendar Year	MLR		Member Months	
	Actual	Projected	Actual	Project
2020	96.8%	85.9%	16,762	70,042
2021	91.7%	87.1%	16,250	14,712
2022	98.3%	86.3%	15,726	16,598

- b. Are the MLRs and Member Months between Actual and Projected comparable? If not, explain.

Overall for the size of the block we are comparable. 2020 projected membership we overshot as our Finance and Sales teams were predicting larger growth than actually occurred in the block.

- c. Does the insurer expect to pay MLR rebates for the 3-year period above?

No

10. Plan of Withdrawal:

- a. Please confirm that a Plan of Withdrawal has been submitted if any plans are being discontinued.

No plans are being discontinued and we are not withdrawing any products from the market.

- b. For further information regarding the Plan of Withdrawal process, click [here](#). Please send all Plan of Withdrawals to Jeff Rohaly, [wrohaly@pa.gov](mailto:wrohaly@pa.gov).

N/A

11. Transitional Plans:

- a. Starting in October 2024, the PID will discontinue the non-enforcement policy for individual transitional plans (the non-enforcement policy for small group transitional plans will continue until further notice, or until the federal government discontinues its non-enforcement policy). If applicable, please discuss the migration of individual transitional members into ACA-compliant plans effective January 1, 2025.

N/A

12. Copay Adjustment Programs

- a. Does the company use a copay adjustment program (also known as a copay accumulator program)?

No

- b. How does the company handle copay assistance coupons? For example, does the coupon apply to the MOOP?

N/A

- c. If any change to such a program has resulted in a pricing impact, please include a detailed quantitative exhibit supporting the pricing impact.

N/A
