Ms. Tracie Gray – Director
Bureau of Life, Accident and Health Insurance
Pennsylvania Insurance Department
Email tgray@pa.gov
Phone: 717-705-7257

Dear Ms. Gray:

The following is in response to the Department's guidance as of April 13, 2020:

1. Company Name & NAIC#: Geisinger Health Plan – NAIC# 95923
2. Market: Small Group
3. Off Exchange only
4. Effective date of coverage: January 1, 2021
5. Average rate change: 18.2%
6. Range of rate change requested: 13.2% to 23.7%
7. Total additional annual revenue generated from the proposed rate change: \$2,337,461
8. Product: HMO and POS
9. Rating areas: 2, 3, 5, 6, 7, and 9 (no changes from 2020)
10. Metal Levels & Catastrophic Plans: Platinum, Gold, Silver and Bronze plans
11. Current number of covered lives and of policyholders as of 2/1/20: 1,775 covered lives and 1,139 policyholders
12. Number of plans offered in 2021: 5 platinum plans, 13 gold plans, 4 silver plans and 1 bronze plans (for a total of 23 plans); Number of plans offered in 2020: 6 platinum plans, 13 gold plans, 5 silver plans and 1 bronze plans (for a total of 25 plans)
13. Contract form #: M-152-167-F Rev. 1/21, M-152-123-F Rev. 1/21, M-152-365-F Rev. 1/21; SERFF #: GSHP-132364598; Binder ID #: GSHP-PA21-125099299
14. HIOS issuer ID: 22444; HIOS submission tracking#:22444-1751512366446970884

For a detailed explanation of our rate development, please refer to the **“actuarial memorandum and attestation”** uploaded in SERFF under the **“supporting documentation”** tab.

Thank you for your consideration. Please contact me if you have any additional questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Kurt J. Wrobel", written in a cursive style.

Rate Change Summary

Geisinger Health Plan – Small Group Plans

Rate request filing ID # GSHP-132364598 - This document is prepared by the insurance company submitting the rate filing as a consumer tool to help explain the rate filing. It is not intended to describe or include all factors or information considered in the review process. For more information, see the filing at

<http://www.insurance.pa.gov/Consumers/ACARelatedFilings/>

Overview

Initial requested average rate change:	17.9%
Revised requested average rate change:	15.6%
Range of requested rate change:	10.7% to 21.0%
Effective date:	1/1/2021
Mapped Members:	1,775
Available in:	Rating Areas 2, 3, 5, 6, 7 and 9

Key information

Jan. 2019-Dec. 2019 financial experience

Premiums	\$ 8,435,779
Claims	\$ 7,095,762
Administrative expenses	\$ 750,071
Taxes & fees	\$ 346,046
Company made (after taxes)	\$ 243,900

How it plans to spend your premium

This is how the insurance company plans to spend the premium it collects in 2021:

Claims:	88.3%
Administrative:	9.6%
Taxes & fees:	0.1%
Profit:	2.0%

The company expects its annual medical costs to increase **8.23%**.

Explanation of requested rate change

Geisinger Health Plan has proposed an overall base rate increase of 15.6% for Small Group HMO/POS members renewing effective January 1, 2021 through December 1, 2021. The actual range of proposed rate increases vary from a minimum of 10.7% to a maximum of 21.0%. The key drivers of the increase are the changes in the normalized risk pool experience, changes in the expected morbidity of the population, and the changes to the induced demand calculation. The total projected 2021 administrative costs are slightly higher than those used for the current 2020 rates. As required by federal regulations and using the Federally prescribed MLR methodology, the projected loss ratio exceeds 80%. There were minimal benefit changes proposed for 2021 to maintain the desired metallic level.

Phone: 717-705-7257

Dear Ms. Gray:

The following is in response to the Department's requested changes as of July 30, 2020:

1. Company Name & NAIC#: Geisinger Health Plan – NAIC# 95923
2. Market: Small Group
3. Off Exchange only
4. Effective date of coverage: January 1, 2021
5. Average rate change: 15.6%
6. Range of rate change requested: 10.7% to 21.0%
7. Total additional annual revenue generated from the proposed rate change: \$1,961,402
8. Product: HMO and POS
9. Rating areas: 2, 3, 5, 6, 7, and 9 (no changes from 2020)
10. Metal Levels & Catastrophic Plans: Platinum, Gold, Silver and Bronze plans
11. Current number of covered lives and of policyholders as of 2/1/20: 1,775 covered lives and 1,139 policyholders
12. Number of plans offered in 2021: 5 platinum plans, 13 gold plans, 4 silver plans and 1 bronze plans (for a total of 23 plans); Number of plans offered in 2020: 6 platinum plans, 13 gold plans, 5 silver plans and 1 bronze plans (for a total of 25 plans)
13. Contract form #: M-152-167-F Rev. 1/21, M-152-123-F Rev. 1/21, M-152-365-F Rev. 1/21; SERFF #: GSHP-132364598; Binder ID #: GSHP-PA21-125099299
14. HIOS issuer ID: 22444; HIOS submission tracking#: 22444-1751512366446970884
15. Summary of changes made in response to questions dated June 16, 2020:
 - a. Revisions were made to the Actuarial Memorandum Exhibits
 - i. In response to #1, Table 10 column Z
 - ii. In response to #2, Table 2 cell L36, Table 2b cell L9
 - iii. In response to #8, Table 6 cell C54
 - iv. In response to #15a, Table 5 cell C31
 - v. Table 14 cell L27 was corrected to remove rating area 8
 - vi. As a result of these changes, these changes were also necessary:
 1. Table 6 cell C50
 2. Table 10, columns R and S
 - b. Revisions were made to the Actuarial Memorandum (changes highlighted in yellow)
 - i. In response to #2, page 3 and 9
 - ii. In response to #4b, page 4
 - iii. In response to #15a, page 6
 - iv. In response to #8, page 7
 - v. In response to #11, page 6
 - vi. As a result of these changes, these changes were also necessary:
 1. The overall increase, range of increases and reason for rate increases on pages 1 and 2

2. Retention as % of premium, page 6
 3. Projected loss ratio, page 7
16. Summary of changes made in response to questions dated July 7, 2020:
- a. Revisions were made to the Actuarial Memorandum Exhibits
 - i. In response to #7, Table 2 cell L36, Table 2b cell L9
 - ii. In response to #8, Table 5 cell C31
 - iii. As a result of these changes, these changes were also necessary:
 1. Table 6 cell C50
 2. Table 10, column R
 - b. Revisions were made to the Actuarial Memorandum (changes highlighted in yellow)
 - i. In response to the updated risk adjustment numbers provided by the Department on 6/30/20
 1. Estimated risk adjustment for CY2019 on page 3
 2. CY2019 loss ratio on page 3
 3. CY2021 projected risk adjustment on page 6
 - ii. As a result of these changes, these changes were also necessary:
 1. The overall increase and range of increases on pages 1 and 2
 2. Calculation of the Exchange User Fee on page 6
 3. Calculation of the Market-Adjusted Projected Total Allowed Claims PMPM on page 7
 4. Retention as % of premium, page 7
 5. Projected loss ratio, page 8
17. Summary of changes made in response to requested changes dated July 30, 2020:
- a. Revisions were made to the Actuarial Memorandum Exhibits
 - i. In response to the request that we change our morbidity assumption, Table 5 cell D16
 - b. Revisions were made to the Actuarial Memorandum (changes highlighted in yellow)
 - i. In response to the request that we change our morbidity assumption
 1. The morbidity adjustment on page 4
 2. The Change in Morbidity on page 5
 - ii. As a result of these changes, these changes were also necessary:
 1. The overall increase and range of increases on pages 1 and 2
 2. The morbidity component of the Reason for Rate Increase on page 2
 3. The Market-Adjusted Projected Total Allowed Claims PMPM on page 6
 4. The projected loss ratio calculation on page 7

For a detailed explanation of our rate development, please refer to the “**actuarial memorandum and attestation**” uploaded in SERFF under the “**supporting documentation**” tab.

Thank you for your consideration. Please contact me if you have any additional questions.

Sincerely,

Kurt J. Wrobel, FSA, MAAA
President

Actuarial Memorandum – Small Group GHP

1. Basic Information and Data

General Information

Company Identifying Information (as included in Table 0)

Company Legal Name: Geisinger Health Plan

State: Pennsylvania

HIOS Issuer ID: 22444

NAIC Number: 95923

Market: Small Group

Effective Date: 1/1/2021

Company Contact Information

Primary Contact Name: Sarah MacDerment

Primary Contact Phone: 570-214-2348

Primary Contact email address: smmacderment@thehealthplan.com

Filing Information

HIOS Submission Tracking Number: 22444-1751512366446970884

Contract Form Number: M-152-123-F Rev. 1/21, M-152-167-F Rev. 1/21, M-152-365-F Rev. 1/21

SERFF Number: GSHP-132364598

Binder ID Number: GSHP-PA21-125099299

Rate History and Proposed Variations in Rate Changes

Rate History

The recent historical rate increases are summarized in the table below.

<u>Year</u>	<u>SERFF ID</u>	<u>Average Increase</u>	<u>Minimum Increase</u>	<u>Maximum Increase</u>
2015	GSHP-129625142	27.3%	24.1%	30.0%
2016	GSHP-130072560	7.2%	-10.4%	8.6%
2017	GSHP-130558378	6.0%	-11.7%	10.4%
2018	GSHP-131024097	6.9%	1.7%	7.8%
2019	GSHP-131502009	-4.7%	-6.2%	8.7%
2020	GSHP-131915715	15.3%	9.7%	19.6%

For 2015 - 2020, the increases were not uniform but varied by plan.

Proposed Rate Increase

This filing applies to HMO and POS products, sold on and off exchange in rating areas 2, 3, 5, 6, 7 and 9. There will be 5 platinum plan, 13 gold plans, 4 silver plans, and 1 bronze plans, for a total of 23 plans offered in 2021.

As of February 2020, 1,775 covered lives and 1,139 policyholders will be impacted by this filing. The proposed overall rate increase is 15.6% but is not uniform by plan. The increases range from 10.7% to 21.0%. Table 10 shows the increases at the plan level. These increases vary by plan due to benefit changes necessary to maintain the desired metal level as well as changes in pricing and induced demand factors.

Average Rate Change

The average rate change from Table 10, cell AC15 is 15.6% and is entered as the “percent rate change requested” in the SERFF Rate Review Detail Screen. It is the change in the Calibrated Plan-adjusted Index rate (as instructed by the Department). In addition, the change in 21-year-old non-tobacco premium PMPM, as calculated in Table 11, cell AN13, is 15.9%.

Membership Count

Table 1 shows the average age and the member months in the experience period of calendar year 2019, as well as the average age and the current members as of February 1, 2020 by age range. The projected member months for the rating period are also included.

Benefit Changes

To maintain current metal tier levels, several existing plans experienced cost sharing adjustments that were necessitated by the 2021 AV calculator. The first item we looked to update was the Maximum Out of Pocket. After that, we looked at the additional cost sharing elements to maintain metallic level. The ‘Benefit Change’ tab in the file “PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx” summarizes the changes made by HIOS ID.

Reason for Rate Increase

The primary components of this rate increase are:

- Normalized Risk Pool experience: 7%, row 77 on Table 8
- Morbidity: 3%, row 79 on table 8
- Items included in “URRT Other”: 6%, row 80 on table 8
- Risk Adjustment: -7%, row 81 on table 8
- Pricing AV Changes: -1%, row 87 on table 8
- Changes to Induced Demand Calculation: 4%, row 88 on table 8
- Administrative Expenses: 3%, row 95 on table 8

Each of these components is discussed in detail later in this document and are displayed in Table 8 of the exhibits.

Experience Period Claims and Premium

Paid Through Date

The Experience Period data provided in the URRT Worksheet 1, Section I and in Table 2 is incurred in calendar year 2019 and paid through February 2020. As discussed below, the data in Table 2 of the exhibits is consistent with the data provided in the URRT in Worksheet 1, Section 1 (except for the incurred claims and the allowed claims). This includes only experience for ACA compliant plans and does not include experience for transitional business.

Premiums (net of MLR Rebate) in Experience Period

Premiums include earned premiums for calendar year 2019 for the Single Risk Pool. Premiums are not reduced by taxes and/or assessments. MLR rebates are not expected to be paid for this block of business. Initial estimates of rebates have been completed utilizing the methodology required for the CY 2019 rebate filing. Estimates suggest that the small group market MLR will be above the minimum MLR target of 80%.

Allowed and Incurred Claims Incurred During the Experience Period

The Experience Period Claims are based on small group ACA compliant business incurred and paid claims with IBNR added for the tail of claims incurred but not reported. Allowed claims are calculated by combining paid claims and estimated member cost share. The Incurred and Allowed Claims in Section I of Worksheet 1 of the URRT are the Incurred or Allowed from Table 2, but also include the Rx Rebates and Capitation. The same IBNR factors were used for both paid and allowed claims. The IBNR factors were based on legal-entity and market segment level claim lag tables. This method is appropriate to assure proper credibility and because timing of claims payment to providers does not vary by market or product.

There were no non-EHB benefits in the experience period.

Geisinger outsources several benefits and therefore has capitation expenses. The capitated expenses cover chiropractic services, nurse line, mental health services and pediatric dental. The capitation amount for the experience period is displayed on Table 2 and is included in both the Incurred Claims and Allowed Claims on Worksheet 1 of the URRT. The capitation charges are uniform and do not vary by age. The historical capitation amounts are on the "Capitation" tab of the file "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx".

Pharmacy rebates are listed on Table 2. These rebate dollars would be removed from the Ultimate Incurred Claim liability to the insurer and are removed from the Incurred Claims and the Allowed Claims on Worksheet 1 of the URRT.

The estimated risk adjustment for the experience period is the estimate calculated by the Pennsylvania Insurance Department which we received on June 30, 2020.

The calendar 2019 loss ratio, as displayed on Table 2 is 84.12%. The Federal MLR calculation that determines if a rebate is necessary is more complex than the MLR displayed on Table 2. For example, the Federal MLR calculation requires issuers to combine 3 years of experience when determining if a rebate is necessary.

Benefit Categories

Benefit categories are determined by the classification of claims in the Milliman Health Cost Guidelines.

Credibility of Data

The Credibility Manual Rate is a combination of our GHP and GQO experience, giving us an even more credible manual rate than if we determined them separately by product. Combining the GHP and GQO Single Risk Pools also aids in consistency between the products. Historically, we have seen enrollment move between our GHP and GQO products. It is very important that our premium rates are consistent. To avoid double counting the Experience Period and avoid complicated adjustments to reflect the expected distribution of enrollment in each segment, the credibility of the Experience Period is set to 0.0%. This approach is consistent with the Actuarial Standard of Practice #25.

The credibility manual data is shown in Table 2b. Since the credibility manual data is given a weight of 100%, the "blended" data would be the same as the data in Table 2b.

The experience period data in Table 2 or 4 does not include data for any transitional business.

Adjustments Made to the Data

The population represented in the Experience Period is expected to continue into the Projection Period. The Projected Allowed Experience Claims are adjusted for changes as described in the section below. The Single Risk Pool Adjustment Factors on Table 5 match those on Worksheet 1 of the URRT.

Morbidity Adjustments

We are seeing many groups move out of the small group ACA market and into a level funded product. Those groups that move have lower risk scores and have more favorable financial experience than the groups that stay in the ACA pool. We are applying a 3% morbidity adjustment. This is developed on the "Morbidity" tab of the file "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx".

Changes in Benefits

We have no planned changes to the scope of benefits covered.

Changes in Demographics

We are applying a 0.6% adjustment factor to account for the unfavorable demographic shift between CY2019 and February 2020. This adjustment factor is developed on the "Manual_Age_Factor" tab of file PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx". The Change in Demographics factor on Table 5 is 1.006 and is 1.562/1.552.

Change in Other

There are 2 items captured in the "Change in Other" adjustment. One is our private reinsurance coverage. The other is our change in Pharmacy Benefits Manager (PBM). Only slight changes are expected. The Reinsurance adjustment is developed on the "Reinsurance" tab, while the change in PBM is developed on the "PBM" tab in the file "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx". Cell D21 on Table 5 shows the multiplication of these two adjustments.

Trend Identification

Experience data was trended using an annual trend of 8.2%. Table 3b shows the breakdown between service category and cost vs. utilization. Table 3b uses the PMPM by service category to weight to develop the total composite trend.

Our trends are analyzed at a higher level than these individual segments and are the same for the experience data and the credibility manual data. We have combined our GHP and GQO experience to develop the trend to apply to both Individual ACA pools. Table 4b is the combined experience for our Small Group ACA block (GHP and GQO). Looking at the prior 3 years annual allowed trend, we weighted the 2019 over 2018 trend at 33%, the 2018 over 2017 trend 33% and the 2017 over 2016 trend 33%. This was calculated at $.33(.128) + .33(.086) + .33(.033) = .082$ and is shown on the "Trend" tab of the file "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx".

The negative capitation trend used in cell G23 of table 3b is developed on the "Capitation" tab of the file "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx". Chiropractic and mental health benefits are no longer being outsourced. Therefore, we expect our capitation to decrease significantly from the experience period to the projection period.

The breakdown between cost and utilization is based on the 2019 over 2018 component trends. The component trends are all adjusted equally so that the total equates to the 8.2% trend. Historical data

accurately measures utilization trend. Historical data for cost trend would be the combination of unit cost, provider mix, services mix, advances in technology, induced demand and many additional components of trend that are not possible to breakdown. Since we are relying on historical data, there is no separate Induced Demand component of trend.

The Composite URR Trend in Table 5, Cell C12 is 1.158 and is used to project the experience period data to the rating period. The aggregate URR Trend reported in Worksheet I, Section 2 is $565.31 / 488.39 = 1.157$ and matches the Composite Trend in Table 3 of the Department's rate exhibits.

Historical Experience

Table 4 includes the most recent 48 months of data with run out through February 2020. Allowed claims are calculated by combining paid claims and estimated member cost share. As mentioned above, Table 4b displays the combined Small Group ACA data that was used to determine the trends used.

2. Rate Development & Change

Development of Projected Index Rate, Market-Adjusted Index Rate & Total Allowed Claims

Single Risk Pool

The Single Risk Pool has been established in accordance with the requirements in 45 CFR 156.80(d) as was discussed previously in the Experience Period Premium and Claims section.

Index Rate

The Experience Period Index Rate is based on the manual Allowed Claims PMPM and is the starting value on Table 5. The Credibility Manual Rate is a combination of our GHP and GQO experience, giving us an even more credible manual rate. No benefits were covered in addition to Essential Health benefits in the policies being offered.

The Projected Index Rate for this Single Risk Pool is the Adjusted Projected Allowed EHB Claims PMPM and is the manual rate. The projected claims reflect the trend and benefits described earlier in this memorandum. Table 5 includes an adjustment factor of 1.03 for Change in Morbidity – Other, as discussed above. As discussed above, the Manual Data is weighted 100% since it includes the Actual Experience Data as well as the experience data for our ACA compliant GQO business. If we gave any weight to the Actual Experience Data, it would be double counted since it is also in the Manual Data.

Market Adjusted Index Rate

The Market Adjusted Index Rate and Market Adjusted Total Allowed Claims are calculated in Table 5. The Projected Index Rate is converted to a paid basis by multiplying by the Projected Paid to Allowed ratio.

Paid to Allowed Ratio

The Projected Paid to Allowed Average Ratio is 0.871 and is displayed on Table 5. It is determined for the Projection Period based on the member weighted average Pricing AV for each plan times the projected member months in each plan. This is consistent with the calculation on Table 10 in cell K15.

There are variations between the AV Pricing Values and the AV Calculator values because of different cost structures and management approaches than what is reflected in the national average data used in the AV Calculator.

Projected Risk Adjustments PMPM

Our Small Group Exchange population has a less healthy risk profile than the state average in 2019 resulting in payment transfers from the Risk Adjustment program. Premium levels for 2021 need to incorporate the expected payment from the Risk Adjustment program. We have used the PID's

estimated 2019 Risk Adjustment as the starting point for 2021, as explained above. We combined our HMO and PPO pools together for this estimate and use the same estimate for both products.

The risk adjustment model applied to the 2021 contract year will be an updated version of what was used for 2019. Specifically, the coefficients will be changing. We have used a 3rd party consultant's tool to analyze the impact on our population. The result is an expected decrease in transfer payment and is applied to the starting point for 2021 as described above. We also used the 3rd party consultant's estimate for the average charge for the High-Cost Risk Pool (HCRP). The development of the expected payment transfer for 2021 is shown on the 'Risk Adjustment' tab of the file "PID_Response_Exhibits_GHP_SmGrp_071620.xlsx". The expected payment transfer for 2021 is shown on Table 5 as -\$3.55.

All of our small group plans are sold Off Exchange, so there is no Exchange user Fees to include. The allowable market-wide modifiers (risk adjustment of -\$3.55 and Exchange User Fees of \$0.00) are combined with Projected Incurred EHB Claims PMPM on a paid basis. The Exchange User Fees PMPM is added while the Risk Adjustment PMPM is subtracted. This PMPM is then converted back to an allowed basis, again using the projected paid to allowed ratio. Any non-EHB claims would then be added to this value if we had some but we don't so this PMPM is the Market-Adjusted Projected Total Allowed Claims PMPM, \$687.69 as shown on Table 5 in cell C42.

Retention Items

Administration Expense

Administration expenses are based on activity-based allocation by product for calendar year 2021. This methodology applies for all variable costs and all fixed costs. For the 2021 plan year, we are combining the GHP and GQO estimates to create one overall PMPM estimate. This helps maintain appropriate relativities between the GHP and GQO plans. The historical administrative expenses are displayed on the 'Administrative_Expense' tab of the file "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx". Table 6 provides a breakdown of the administrative expenses, as well as the taxes and fees. The administrative expenses are developed as a PMPM expense, but, applied as a consistent percentage of premium and do not vary by plan. The proposed percentage of premium for 2021 is 9.65% and is shown in both Tables 6 and 10.

Agent/Broker Fees and Commissions

Commissions for Small Group ACA business are paid based on the schedules in the files "Broker Commissions FY 2021.pdf". The amount they receive is based on their entire employer group book of business with Geisinger (not just their small group ACA book). Broker commissions do not vary by geographic location, metal level, plan or enrollment type (open enrollment vs SEP enrollment). The development of the broker commission is displayed on the 'Commission' tab of the file "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx".

Quality Improvement Initiatives

The Quality Initiatives amount is based on the latest estimate for this product. They are reported on line 6.6 of the Supplement Health Care Exhibit of the Annual Statement. The estimated % of premium is 1.8% and is calculated on the 'Quality_Improvement' tab of the file 'PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx'.

Profit & Risk Margin

The risk margin is set at 2% of premium. This risk margin is applied consistently across all plans.

Taxes, Fees, and Subsidies

The Risk Adjustment User Fee for plan year 2021 was finalized as \$0.25 PMPM. This fee must be entered in Table 6 as a percentage of premium and due to rounding the 0.03% applied does not equate to \$0.25 PMPM. We believe this level of accuracy is acceptable for this fee.

The Patient-Centered Outcomes Research Institute Fee (PCORI fee) is estimated as \$0.24 PMPM and is calculated on the "Taxes" tab of the file "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx". This fee must be entered in Table 6 as a percentage of premium and due to rounding the 0.03% applied does not equate to \$0.24 PMPM. We believe this level of accuracy is acceptable for this fee.

Geisinger Health Plan does not pay PA Premium tax.

Federal Income tax is paid for POS products by GHP. Only a small portion of GHP plans are POS products and have this tax applied to them. The estimated amount is 0.03% and is calculated on the "Taxes" tab of the file "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx".

Beginning with calendar year 2021 the federal government will no longer collect the Health Insurance Provider Fee.

Projected Loss Ratio

The anticipated loss ratio is 90.1% in aggregate as shown below using the Federally-prescribed MLR methodology:

MLR Numerator = Projected Claims + Quality Initiatives + Risk Adjustment = 595.64 + 12.36 + 3.55 = 611.55

MLR Denominator = Projected Premiums – Taxes and Fees = 678.97 - 0 - 0.68 = 678.29

Federal MLR = 611.55 / 678.29 = 90.2%

Normalized Market-Adjusted Projected Allowed Total Claims

The Market-Adjusted Projected Allowed Total Claims is normalized using the projected average factors for age, geography, tobacco, benefit richness (induced demand) and network. These average factors for 2020 and 2021 are displayed on Table 7.

Projected Membership

For the overall Small Group ACA market, membership is expected to remain approximately at the current levels. February 2020 membership is expected to best represent calendar year 2021 in total for the Small Group ACA market. Projected membership is used to calculate the normalization factors discussed below.

Normalization Factors

Age Factor

The federal age curve, as shown in Table 12, is used to determine a normalization factor to account for the age mix of business used in generating the Index Rate. The average age factor includes a factor of 0 for non-billable members. The average factors for 2020 and 2021 are shown on Table 7 and are developed on the 'Age_Calibration' tab of the file "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx".

Geographic Factor

The geographic rating area factors used to determine premium rates are shown on Table 13. These factors are consistent with the current approved factors. The normalization factor is determined using these factors weighted using projected membership by area and is shown on the 'Area_Calibration' tab

of the file "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx".

Tobacco Factor

We are not applying a tobacco load in 2021.

Benefit Richness (Induced Demand)

Induced Demand factors are applied to each plan to reflect the expected utilization, not the expected health status. New this year, the PID has instructed carriers to use the formula $(\text{Plan AV})^2 - (\text{Plan AV}) + 1.24$. To ensure revenue neutrality, a normalization factor is applied, as instructed. This is developed on the 'Induced_Util_Exhibit' tab of the file "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx". The average benefit richness factor is shown on Table 7. The Benefit Richness factors in column L of Table 10 are calculated using the prescribed formula and divided by the normalization factor.

Network Factors

Geisinger has two networks, as reflected in Table 14. 9.1% of the membership is in the Geisinger Premier HMO network with a current factor of 0.94. The other 90.9% of the membership is in the Geisinger All-Access HMO network with a current factor of 1.00. Weighting these factors as $0.94 * 9.1\% + 1.0 * 90.9\%$ gives the normalization factor of 0.995 shown in cell K53 of table 7. The network factors shown on table 14 are the current network factors normalized.

Components of Rate Change

Table 8 shows the components of the Rate Change developed in this filing. The key drivers of the increase are changes in the normalized risk pool experience, changes in the expected morbidity of the population, the impact included in the "URRT Other" category, changes to pricing AVs, and the changes to induced demand calculation. Table 9 supports the calculations in Table 8.

Row A approximately equals Row H.

The amounts shown in the 2020 columns for B, C, D, and E match those entered in the 2020 column in the plan year 2020 rate filing. The amounts shown in the 2020 columns for A, F and H do not match those entered in the 2020 rate filing due to the shift in enrollment between what was projected in the 2020 rate filing and the Feb 2020 enrollment.

3. Plan Rate Development

The projected market-adjusted index rate is used to develop the calibrated plan adjusted index rates in column AA of Table 10. Each plan's rate is developed as the product of the market-adjusted index rate, the allowable factors and calibration for age, geography and tobacco.

Each plan is identified as either modified, discontinued & mapped, or existing. Column G lists the metallic tier. Column H is the value we calculated using the HHS Actuarial Value Calculator. Screen shots of this calculation are provided in the file "AV_Screenshots_GHP_SmGrp_051220.pdf." The Actuarial Certification, at the end of this document, includes attestation that the Federal AV calculator was used to determine the metallic values. Please also refer to the "AV_UniquePlanDesignJust_GHP_SmGrp_051320.pdf" document for further details. Columns L and N were normalized using projected (CY2021) membership.

4. Plan Premium Development for 21-Year-Old Non-Tobacco User

The projected calibrated plan-adjusted index rate is used to develop the 21-year-old non-tobacco premium in the individual market. These rates are displayed on Table 10, column AA. Table 11 uses the 21-year-old non-tobacco premiums from Table 10, adjusted by the current approved geographic factors (from Table 13), to develop the 21-year-old non-tobacco premiums by rating area.

5. Plan Factors

The Consumer Adjusted Premium Rates are developed by applying the following allowable rating factors to the calibrated Plan Adjusted Index Rates:

1. Age – reflecting the HHS defined age curve
2. Geographic – as discussed above

The final Premium rates for all filed benefit plans are displayed in the QHP Rating Template.

Network Factors

Geisinger has two networks in this market. As explained above, the network factors shown on table 14 are the current network factors normalized.

Service Area Composition

GHP will maintain the same counties of operation from 2020. All counties and service areas are defined in the QHP Service Area template. These service areas are defined on the “Service Areas” tab of the file “PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx”.

Composite Rating

Composite rating is not used.

Plan Type

All plan offerings meet the plan type definitions available in the URRT Worksheet 2, Section I.

Terminated Plans and Products

No products are being terminated. Terminated plans are noted on table 10 as DM.

Changes to URRT

We acknowledge that each time the URRT is changed in SERFF, it will also be updated in HIOS.

Reliance

We relied on Milliman for their classification of benefit categories in the claim data. We have also relied on a 3rd party’s risk adjustment model analysis tool to model the changes to the model as well as the adjustment for the cost of the High Cost Risk Pool. We are also relying on the PID’s risk adjustment estimates for 2019.

Additional Exhibits

The following required exhibits have been uploaded in SERFF under the tabs noted next to the exhibit:

- Department Plan Design Summary – submitted under the “Rate/Rule Schedule” tab;
- Service Area Map – submitted under the “Supporting Documentation” tab.

Actuarial Certification

I certify that:

1. I am a member of the American Academy of Actuaries, meet the Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States promulgated by the American Academy of Actuaries, and have the education and experience necessary to perform this work.
2. The projected Index Rate is:
 - a. In compliance with all applicable state and Federal regulations including 45 CFR 156.80(d)(1)
 - b. Developed in compliance with the applicable Actuarial Standards of Practice,
 - c. Is reasonable in relation to the benefits provided and the population anticipated to be covered,
 - d. Is neither excessive nor deficient based on available information.
3. The Index Rate is used to develop the plan level rates using only the allowable modifiers in accordance with 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2).
4. The geographic rating factors reflect only differences in the costs of delivery and do not include differences for population morbidity by geographic area.
5. The Federal AV Calculator was utilized, with an acceptable alternative methodology when appropriate, to determine the AV Metal Values shown on Table 10 and in Worksheet 2, Section I of the URRT, following ASOP 50. Please refer to the "AV_UniquePlanDesignJust_GHP_SmGrp_051320.pdf" document for further details.
6. All factor, benefit and other changes from the prior (2020) approved filing have been disclosed in the actuarial memorandum.
7. New plans have not been considered modifications of existing plans under the uniform modification standards in 45 CFR 147.106.
8. The information presented in the PA Actuarial Memorandum and PA Actuarial Memorandum Rate Exhibits is consistent with the information presented in the 2021 Rate Filing Justification.

I confirm that the rates submitted comply with the ACA rating requirements and with the Single Risk Pool per market requirement. The URRT does not demonstrate the process used to develop the rates. Rather it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of Qualified Health Plans for Federally-facilitated Marketplaces, and for certification that the Index Rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.

Rating Area Data Collection

Specify the total number of Rating Areas in your State by selecting the Create Rating Areas button or Ctrl + Shift + R.

Select only the Rating Areas you are offering plans within and add a factor for each area.

To validate, select the Validate button or Ctrl + Shift + I.

To finalize, select the Finalize button or Ctrl + Shift + F.

Rating Area	Rating Factor
Rating Area 2	0.8900
Rating Area 3	0.8510
Rating Area 5	0.9100
Rating Area 6	0.9590
Rating Area 7	1.1620
Rating Area 9	0.9870

RFJ Part II - Consumer Friendly Justification
Geisinger Health Plan
Small Group

Geisinger Health Plan has proposed an overall base rate increase of 18.2% for Small Group HMO/POS members renewing effective January 1, 2021 through December 1, 2021. The actual range of proposed rate increases vary from a minimum of 13.2% to a maximum of 23.7%. The key drivers of the increase are the changes in the normalized risk pool experience, changes in the expected morbidity of the population, and the changes to the induced demand calculation. The total projected 2021 administrative costs are slightly higher than those used for the current 2020 rates. As required by federal regulations and using the Federally prescribed MLR methodology, the projected loss ratio exceeds 80%. There were minimal benefit changes proposed for 2021 to maintain the desired metallic level.

2021 Rates Table Template v10.0		All fields with an asterisk (*) are required. To validate press Validate button or Ctrl + Shift + I. To finalize, press Finalize button or Ctrl + Shift + F.		
		If you are in a community rating state, select Family-Tier Rates under Rating Method and fill in all columns.		
		If you are not in a community rating state, select Age-Based Rates under Rating Method and provide an Individual Rate for every age band.		
		If Tobacco is Tobacco User/Non-Tobacco User, you must give a rate for Tobacco Use and Non-Tobacco Use.		
		To add a new sheet, press the Add Sheet button, or Ctrl + Shift + H. All plans must have the same dates on a sheet.

2020 to 2021 Service Area

Issuer: Geisinger Health Plan (Issuer 22444)

Market: Small Group - Off Exchange

Key:

 2020 to 2021 Off-exchange service area

Geisinger Health Plan
Small Group Filing for 2021
Response to Questions
SERFF Tracking Number: GSHP-132364598

1. The updated guidance was intended to make our small group rate increase calculation consistent with the federal URRT. For this filing year only, there will be a slight disconnect, in that, the input entered in Table 10 column Z for the 2020 calibrated plan index rate for each plan (column AA from the approved 2020 filing) will need to be adjusted by the “Q1 2020 Trend factor by Quarter” shown in Table 5A cell J35 to calculate the Q1 plan rate. Please update all documents and worksheets as necessary.

[The 2020 calibrated plan index rate in column Z of Table 10 has been updated to adjust for the Q1 trend factor in the 2020 rate filing.](#)

2. The actuarial memorandum indicates that the estimated experience period risk adjustment reported in Table 2, of the PAAM Exhibits, and Section 1 of worksheet 1 of the URRT represents the combined estimates for both GHP and GQO. The data captured in these cells should be for the filing entity only. Please update both exhibits to show the Department calculated amount of (\$321,797). If you believe you have information that confirms your understanding please provide.

[The risk adjustment transfer for the experience period in Table 2 has been updated.](#)

3. The Capitation Worksheet in the Supporting Documents seems to indicate that mental health and substance abuse and autism services are no longer capitated.

a. Are these services now offered on a fee-for-service basis?

[Geisinger is no longer outsourcing the mental health and substance abuse services. The providers are reimbursed on a fee-for-service basis.](#)

b. Please revise the worksheet to also show the actual negotiated 2020 capitation amounts.

[The exhibit has been updated to include the capitation amounts for 2020.](#)

4. Regarding Trend:

a. Is the data in Table 4 or 4b raw unadjusted data or has it been normalized or otherwise adjusted? If the data has been adjusted, please provide an exhibit that quantitatively shows the unadjusted allowed monthly data for the 48 months. If unadjusted, please provide the following monthly data for each of the 48 months in Table 4b:

- i. The average age factor;
- ii. The average geographic factor;
- iii. The average tobacco factor; and
- iv. The average benefit factor;

[The data provided in Table 4 and 4b is raw unadjusted data. An additional exhibit is provided in the file “PID_Response_Exhibits_GHP_SmGrp_061920.xlsx” which includes the average age, geographic and tobacco factors for each month. The age factor is determined as of each month. The geographic factor is based on employer group as allowed per rating rules. The tobacco factor is 1.0 in 2019 since Geisinger no longer uses a tobacco rating factor in the small group market starting in 2019. The average benefit factor is equal to paid / allowed for each month.](#)

b. On page 4 of the actuarial memorandum you indicate that Table 4b is the combined experience for our Individual ACA block (GHP and GQO). On page 5 you indicate that Table 4b displays the combined small group ACA data. Please clarify and update the actuarial memorandum accordingly.

[Table 4b is the combined small group ACA data. Page 4 of the memorandum has been updated accordingly.](#)

5. The Single Risk Pool Adjustments reported in column C of Table 5 should be consistent with the factors reported in cells F32 – F35 of Worksheet 1 of the URRT. The instructions for each template require that this information should be for the filing entity only. Please update the URRT.

Cells F32-F35 of Worksheet 1 of the URRT have been updated to match column C of Table 5.

6. The “Trended EHB Allowed Claims” reported in Table 5 cell 23 should be consistent with the amount reported in cell F36 of worksheet 1 of the URRT. Please update the URRT.

The changes made in response to question 5 have made cell F36 of worksheet 1 equal Table 5 cell C23.

7. Please provide the data and assumptions underlying the average risk score and MER used in developing the 1.05 morbidity adjustment in Table 5. Also, please show how this data was used to develop the 1.05 adjustment.

The Morbidity worksheet in the file “PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx” provides the 2019 experience in the small group market for employers with an effective date in January through April. This was used to estimate the morbidity adjustment in Table 5. There are three columns of data showing the average age factor, MER and average risk score for employers that stayed in the ACA, switched to a level-funded self-insured plan, and a total combined. The difference in average age factor was not significant. The difference in MER from the total market, [REDACTED], to those employers remaining in the ACA market, [REDACTED], is significant ([REDACTED] increase). The difference in average risk score from the total market, [REDACTED], to those employers remaining in the ACA market, [REDACTED], is significant ([REDACTED] increase). We also considered the fact that this change in risk profile will significantly change our 2020 and 2021 risk adjustment transfers. Since Geisinger only has about 5% market share in the small group market, Geisinger cannot estimate the full impact of the risk adjustment transfers. We believe that there is a chance that the impact on estimated morbidity factor of the employers moving to level-funded self-insurance will be mitigated by this change in risk adjustment transfers. Due to these factors we have used a 5% morbidity increase as our best estimated.

8. Table 5 cell D54 shows a risk adjustment user fee of \$0.21. The 2021 NBPP indicates that CMS has finalized an amount of \$0.25 pmpm. Please update.

The assumption for the risk adjustment user fee has been updated to be \$0.25 PMPM. However, we are required to enter a percent of premium in Table 6 for this fee. Due to rounding the amount shown in Table 6 as a PMPM is \$0.28 PMPM. Since this is due to rounding, we believe that this level of accuracy is acceptable.

9. Regarding the supporting exhibit for the Change in Other Manual Factor in Table 5,

a. The estimated 2020 reinsurance was \$2.65 pmpm and estimated 2021 is \$5.63 pmpm. Please explain why this amount is expected to more than double.

As shown in the Reinsurance tab of the “PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx” file, our actual fiscal year 2020 reinsurance premium for small group is \$3.35 PMPM. This is significantly higher than the premium of \$2.46 PMPM that we were projecting for fiscal year 2020 at the time of our last filing. The large reinsurance rate increase from fiscal year 2019 to 2020 combined with the quotes we have received for fiscal year 2021 coverage, have led to our assumption of a 40% rate increase for fiscal years 2021 and 2022. Weighting these projections together comes to a \$5.63 PMPM estimate for calendar year 2021.

i. Please provide the actual reinsurance premium and recoveries for 2019 and 2020.

Our reinsurance agreement is based on a fiscal year period instead of a calendar year. The reinsurance premium paid for fiscal year 2019 (July 2018 to June 2019) Small Group GHP and GQO members is \$427,043. The actual recoveries during that same period were \$201,966.

Our negotiated reinsurance rate for fiscal year 2020 (July 2019 to June 2020) is \$3.35 PMPM. We are still negotiating the fiscal year 2021 rates that will be effective July 2020.

Also, discuss why the recoveries are only expected to be 30% of the estimated expense in 2021 while the 2020 recoveries were estimated to be almost 77% of the expense.

The projected recoveries for 2021 are based on four years of our historical experience for the small group ACA book of business. Recoveries for fiscal year 2019 came in lower than what we have seen in prior years leading to a small decline in the project recoveries. As mentioned in response to part a of this question, we have also seen our reinsurance premiums increase significantly since 2019. The combination of large premium increases and lower recoveries in fiscal year 2019, have contributed to the difference in percentages mentioned above.

ii. Has the 2021 reinsurance agreement changed from the 2020 agreement?

We have not yet finalized the fiscal year 2021 reinsurance agreement that will take effect July 2020.

b. What is the basis for the estimated savings with the new PBM?

To estimate the impact of changing to the new PBM, we looked at historical claims experience by line of business and applied the pricing from the agreement with the new PBM. We considered the new discounts, dispensing fees and rebates to determine the estimated savings.

10. Regarding the administrative expenses,

a. Please explain why the 2021 projected administrative expense percent of premium is expected to be 9.49% percent of premium while it was 8.41% in 2020. Specifically, what caused this increase?

The main driver of the increase in administrative expense as a percent of premium is a change in corporate overhead due to centralizing Geisinger's marketing department and strategy across the entire enterprise.

b. Please explain why quality improvements are aggregated for GHP and GQO. Since these are different products with different managed care initiatives, why is this appropriate?

Our managed care initiatives and controls over cost do not vary by product. At Geisinger, we apply the same initiatives and controls to both HMO and PPO products.

i. Is the data provided in the Supporting Documents tab the actual reported amount in the 2019 annual statement? If not, please provide separately for each company.

The data provided in the original exhibit showed the combined GHP and GQO amounts from the 2019 annual statement. Please see the Quality Improvement tab of the "PID_Response_Exhibits_GHP_SmGrp_061920.xlsx" file for company-specific amounts.

11. Regarding Table 6:

a. Please provide the proposed commission schedules for 2021. Is this a new commission contract and structure?

The Commission schedule is the file "Broker Commission FY 2021.pdf". There is no change in the commission contract or structure for the ACA small group market.

b. Using the proposed commission schedules, quantitatively show the development of the percent and pmpm amounts in cells C51 and D51.

Please see the commission tab of the "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx" file. As footnoted on the exhibit, the percent of the block in each bucket and the premium PMPM are both based on February 2020 data. The percent of premium calculated on this tab is used in Table 6 cell C51.

c. The supporting exhibit shows that the percent of premium amount is based on the 'current premium.' Please explain why not based on the 'projected premium.'

We used the current (February 2020) premium to be consistent with the data used for the block distribution.

d. Please provide an exhibit showing the actual commissions paid in 2019 and year-to-date 2020.

Please see the Paid Commissions tab of the "PID_Response_Exhibits_GHP_SmGrp_061920.xlsx" file for actual commissions paid in 2019 and year-to-date 2020.

e. Please provide the total actual FIT paid by GHP in calendar years 2018 and 2019.

GHP's federal tax liability for both 2018 and 2019 was \$0.

f. Please list and provide the 2019 quality improvement initiative expenses by line item, separately, for GHP and GQO ACA- Compliant business.

Additional details on the quality improvement expenses by line item have been added to the Quality Improvement tab of the "PID_Response_Exhibits_GHP_SmGrp_061920.xlsx" file. This exhibit was expanded to include the dollar amounts from lines 6.1 to 6.5 of the 2019 GHP annual statement. Please note that the small group breakout in the annual statement combines all small group business including ACA, transitional, and grandfathered.

g. What is the basis for the \$0.24 pmpm PCORI Fee?

Please see the Taxes tab of the "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx" file for quarterly weighting of the \$0.24 PCORI Fee. The fees used in this worksheet are based on the most up to date fee (\$2.45 annually or \$0.20 PMPM) which applies to plan years ending before October 2019. This fee was trended forward to 2021 using the National Health Expenditure annual trend projections.

12. Please update the Benefit Change Exhibit to show, by HIOS Plan ID, summary benefit and cost sharing changes for 2021 relative to the 2020 design for all plans to be offered in 2021. Include Pricing AV columns for 2020 and 2021. Please show the approved 2020 Pricing AVs for all plans in the 2020 column and the proposed 2021 Pricing AVs in the 2021 column. Also provide a supporting worksheet that shows the quantitative development of the proposed factors.

An updated Benefit Change exhibit can be found in the "PID_Response_Exhibits_GHP_SmGrp_061920.xlsx" file. This tab now includes the 2020 and 2021 Pricing AVs. An additional Exhibit demonstrating the development of the Pricing AV for several plans has also been provided. All plan pricing AVs have been revised this year to utilize all ACA market data (individual and small group) in the development of the value of each plan. We also looked at the historical paid to allowed for this market to normalize the model, which wasn't necessary for the small group market. Since we are updating the underlying data, all plan pricing AVs have changed even if there was no change in benefit.

13. For the expanded Bronze plans, please demonstrate that the copay is less than or equal to 50% coinsurance for that category.

The expanded bronze plan in this market is a qualified high deductible health plan and has 0% coinsurance after the deductible. All services must be covered after deductible in order to be a qualified high deductible health plan.

14. A network adjustment equal to 1.000 is being applied in the development of the Index Rate. Please provide justification that there is no difference in claim costs between the HMO and the PPO (GHP and GQO) experience that is underlying the manual rate to support a 1.000 factor.

At Geisinger Health Plan, we have the same provider contracts for both HMO and PPO products. The reimbursements to providers are the same. We also apply the same care management and cost controls. There is no network adjustment necessary.

15. The following questions are related to the risk adjustment transfer amount:

a. The projected risk adjustment transfer amount for 2021 per Table 5 of the PA Rate Template is - \$20.33 PMPM. The independent estimates calculated by the PID suggest that the combined experience period risk adjustment amount for both legal entities is \$2.82 PMPM. Please reconcile this difference or update.

The plan year 2019 risk adjustment transfer was the basis for the projected risk adjustment PMPM. Since we now know the actual amounts from the Department, we have updated this in Table 5. In support of the updated projection based on the transfer payments provided by the Department, please see the updated Risk Adjustment tab in the file "PID_Response_Exhibits_GHP_SmGrp_061920.xlsx".

b. Please confirm the projected risk adjustment transfer amount will be updated to utilize the actual 2019 Risk Adjustment amount, modified to reflect any estimated change in the state-wide average premium between 2019 and 2021.

The plan year 2019 risk adjustment transfer was the basis for the projected risk adjustment PMPM. Since we now know the actual amounts from the Department, we have updated this in Table 5. Since Geisinger represents only about 5% of the PA small group market we do not have enough data to accurately adjust projections for the change in market premium in future periods.

c. To the extent that the morbidity adjustment reflects anticipated changes in morbidity of the Company's internal small group book of business rather than changes in the morbidity of the overall Pennsylvania small group market, please explain how the morbidity adjustment was considered in the development of the Company's projected 2021 risk transfer assumption.

Since Geisinger represents only about 5% of the PA small group market we do not have enough data to accurately adjust projections for the change in risk adjustment transfer payments future periods. Please see the answer to question number 7 for additional information on the morbidity adjustment.

16. Table 3 of the PA Rate Template shows the components of the trend which includes a -85.30% trend assumption for capitation. While this assumption is justified and calculated on the 'Capitation' tab of the additional exhibits, please confirm if there was any corresponding adjustment applied elsewhere to reflect that Geisinger will be responsible for covering the costs of chiropractic and mental health services which are no longer capitated in 2021.

The overall total trend includes covering these services. The reduction in capitation trend is an adjustment made after developing trend and results in an increase in inpatient, outpatient and professional trends so that the total annual cost is "shifted" to these other categories.

17. Table 13 shows the geographic factors by rating area. While the factors have not changed from the prior year, please explain what analysis has been performed to confirm the adequacy of the factors for the 2021 rates.

The geographic factors used in the filing are consistent with the current approved factors. We would like to keep the factors constant in order to maintain consistency in the market. Additionally, there have not been any significant changes to our provider contracting so we don't expect to see any large changes by area. Since these factors are normalized, they would not impact the overall rate increase and would instead cause increased disruption to our membership.

18. Please justify the reasoning behind applying an equal weight to all three experience periods used in the trend development as opposed to applying a heavier weight to the more recent experience period. An equal weighting was applied to all three periods because the membership has remained stable, though the claims experience remains volatile from year to year. Many factors were considered when determining what trends to utilize including but not limited to the 12 month rolling trends, 3 month rolling trends, national reports on trend, and expected future changes in the market.

19. Please provide by service category the emerging claims data for this policy for the calendar year year-to-date as of end of May and discuss how this data may impact the resulting trend.

Due to a lag in acquiring our data we cannot provide data paid through May. When evaluating experience for pricing we do not review experience with less than 2 months of runout. Data without appropriate runout would contain substantial completion factors and would not be acceptable for adjusting trend projections. Since the department is in support of having a standard Covid-19 adjustment in the rate filings in PA, Geisinger would not want to include any experience impacted by Covid-19 in our trend assumptions.

20. Please provide an exhibit showing the average quarterly rate change (Q1 2021/Q1 2020 - approved, Q2 2021/ Q2 2020 - approved, etc.) groups will see if the proposed rates are approved.

The average quarterly rate change is shown on the Quarterly Rate Change tab of the "PID_Response_Exhibits_GHP_SmGrp_061920.xlsx" file. Please keep in mind that this increase is only the result of the rate changes and would not include any impact of age increases. The rate change that any given group will see may not match these averages.

21. Please confirm that you have tested to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables, Federal Rates Template and the binder are identical.

Yes, the rates on Table 11 are the same as the rates in the PA Plan Design Summary and Rate Tables, Federal Rate Template and the binder.

22. Please provide an exhibit that quantitatively shows a comparison of the actual to projected claim cost pmpms for calendar years 2015 – 2019, as applicable.

Please see the worksheet named "Projected vs Actual" in the file named "PID_Response_Exhibits_GHP_SmGrp_061920.xlsx".

23. Please provide an exhibit showing the financial gains and losses for calendar years 2014 – 2019 and the year-to-date 2020 for the following categories: Member months, total administrative expenses, total incurred claims, total premium, total actual paid taxes and fees, profit, annual underwriting gain/loss and underwriting gain/loss pmpy.

Please see the worksheet named "Financial Performance" in the file named "PID_Response_Exhibits_GHP_SmGrp_061920.xlsx".

24. The Department will contact the company shortly with information regarding the opportunity and parameters for the company to provide and support an updated Covid-19 impact assessment, if desired.

Acknowledged.

Geisinger Health Plan
Small Group Filing for 2021
Response to Questions Round 2
SERFF Tracking Number: GSHP-132364598

1. The following questions apply to the Geisinger Health Plan small group market PA rate filing. The following questions are related to the response to question 7:

a. How were groups who did not switch to level-funded nor keep their coverage with the company accounted for in the analysis which was provided in the Morbidity worksheet of the file named "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx"?

The Morbidity exhibit shows only the three categories for the employers that were due for renewal in January through April 2020. There is a total, those that switched to the level funded product, and those that did not. We did not isolate the employers that did not renew with Geisinger. Our purpose for looking at this data was to understand how the total population risk score changes when removing the membership that shifted to the level funded product. We are not trying to analyze the changes in enrollment due to normal retention patterns. We believe it is a reasonable approach to include members that termed as a proxy for any new members that enrolled.

b. Please provide a similar comparison as that which was included in the Morbidity worksheet of the file named "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx"; however, instead of using the 2020 renewals, include the following:

i. For groups with an effective date in January through April of 2018, provide their "renewal" status in January through April of 2019 using the same basis as was used for the above-referenced analysis (i.e., stayed ACA, switched to level-funded); additionally, include their corresponding average age factor, MER, and average risk score for 2018

There were zero employers that shifted from Geisinger ACA to Geisinger level funded between January and April 2019 time period.

ii. For the groups that "stayed ACA" for 2019, provide their average age factor, MER and average risk score for 2019

All employers "stayed ACA" in 2019 and are included in the total amounts shown in the Morbidity exhibit.

iii. For groups who newly enrolled with the company in January through April of 2019, provide their average age factor, MER and average risk score for 2019

The newly enrolled during the January through April 2019 period are included in the total amounts shown in the Morbidity exhibit.

iv. Demonstrate that the newly enrolled groups for 2019 did not "offset" the impact of groups switching to level-funded over that time period

There was nothing to "offset" in 2019.

2. The response to question 9 indicates that the 2021 reinsurance rate will be effective July 2020. Please provide the 2021 negotiated reinsurance rate.

The finalized reinsurance rate for fiscal year 2021 is \$1.87 PMPM. We have lowered our coinsurance from 90% to 30% on this market. Therefore, the final rate is significantly lower than we were projecting in early May when we originally submitted the filing.

3. In response to question 11, you indicate that there is no change in the broker contract or structure, yet the pmpm increased from \$13.20 to \$23.13 and percent of premium increased from 2.06% to 3.10% relative to the amounts projected in 2020. Please explain.

The GHP small group filing for 2020 included an estimated \$13.20 PMPM or 2.18% of premium for commissions. This was estimated based on the FY 2019 commission schedule known at the time of that filing. The 2021 rate filing captures the increase in commissions from the FY 2019 schedule to the FY 2020 schedule. The FY 2021 commission schedule remains unchanged from FY 2020, as indicated in the previous answer when asked for the FY 2021 commission schedule and if that schedule changed.

a. In 11.d. you provided the paid year-to-date paid commissions, as requested. Please provide the member months for this period.

The year to date member months for the same period is 9,405.

b. In 11.e. you indicate that GHP's tax liability was \$0. If the historical tax liability for this entity was \$0, why are you now projecting an amount?

The future federal tax liability projection is based on the percent of members in taxable POS products, the federal tax rate and the projected margin used in this filing. This is shown in the Taxes exhibit of the file named "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx". The actual margin often differs from what we project in pricing, therefore leading to a different tax liability at year's end.

4. The following questions are related to the response to question 12:

a. It is noted that the "plan pricing AVs have been revised this year to utilize all ACA market data." Please describe what data had been used previously to develop the pricing AVs (i.e., rather than Individual and Small Group ACA market data).

The original pricing AVs were developed in 2013 and were based on large group market data. Over the years only minor adjustments were made for certain member cost-sharing changes. These adjustments were made based on the results of the federal AV calculator.

b. Please provide the aggregate 2021 rate impact which is due solely to this change in data being used to develop the plan pricing AVs.

In every year we normalize the plan pricing AVs to the experience period paid to allowed ratio. In previous years this normalization was becoming increasingly larger. This was our motivation to change the pricing AV development to utilize the ACA experience. Since the previous factors would have been normalized to the same overall paid to allowed ratio, there is no overall aggregate impact. The normalization factor for the small group market is now not required.

c. Please provide a comparison of the average projected 2021 pricing AVs by metal level (excluding induced demand adjustments) to the 2019 actual paid-to-allowed ratios by metal level. To the extent there is a significant difference for any particular metal level, please provide support for why that difference is appropriate.

This difference by metal level is shown in the Pricing AV Comparison exhibit of the file named "PID_Response_Exhibits_GHP_SmGrp_071620.xlsx". The differences between the average pricing AV and the actual paid to allowed ratio is due to the difference between the member costs and utilization at the market versus the plan level. The pricing AVs are developed using the entire ACA market experience for credibility and consistency in the rate development of all ACA market plans.

5. The response to question 14 states that no network adjustment is necessary between the HMO and PPO products due to provider reimbursement being the same for both, as well as due to the application of the same care management and cost controls.

a. Please confirm whether either of the products offer coverage of out-of-network services and, if so, which one(s).

PPO and POS products offer out-of-network services and HMO products do not.

b. If one of the product types offers out-of-network coverage while the other does not, please explain and provide support for why a network adjustment is not necessary as a due to that difference.

The pricing AV for each plan accounts for the additional out-of-network benefits on PPO and POS plans as shown on line 27 of the "PID_Response_Exhibits_GHP_SmGrp_061920" file. We believe this is the appropriate way to account for the difference in benefits and cost sharing associated with the out-of-network piece. As noted in our previous response, we have the same provider contracts, care management, and cost controls for all Geisinger products. Therefore, no network adjustment is necessary.

6. The response to question 15 indicates that no modification was made to the 2019 risk adjustment transfer amount to account for any estimated change in state-wide average premium between 2019 and 2021. Recognizing that the company's membership represents only about 5% of the PA Small Group market, please utilize publicly available data or some other information to support the assumption that there will be no change in the state-wide average premium between 2019 and 2021. If support cannot be provided, please modify the assumption to one that can be supported and update the rate filing accordingly.

Knowing that Geisinger holds small market share in the state we do not know what to expect for 2021. While we acknowledge that the state-wide average premium will change between 2019 and 2021, the overall impact is still unknown. We do not believe there is publicly available data to accurately estimate the change in state-wide average premium between 2019 and 2021.

Items we believe will increase statewide average premiums:

- Claim trend
- Removal of Individual Mandate (applied to 2020 premium)
- Movement out of ACA block into level funded plans (Small Group only)
- Age ups

Items we believe will decrease statewide average premiums:

- Removal of Individual Mandate (applied to 2021 premium, compared to 2020 premium)
- Removal of Insurer's Fee
- Introduction of the Reinsurance Program (Individual only)
- Benefit buy downs

Given the uncertainty around the publicly available data, we believe it is best to make no assumption for premium change instead of selecting an adjustment based on data that we do not believe fully captures the premium changes. Applying an adjustment for the premium increase would have a minimal impact on the overall rate. For example, if we assumed a 10% increase in premium, the net impact would be less than a dollar or around 0.1%.

The overall volatility of the risk adjustment program outweighs the impact of the statewide average premium increase, and the immaterial impact of it, therefore we believe it is appropriate to make no adjustment for premium increases.

7. Please update the 2019 experience period risk adjustment amount in Table 2 to reflect the department calculated revised risk adjustment transfer amount sent to your company on June 30th 2020, or the final CMS transfer amount published on or before July 16th, if it differs from the Department calculation.

The 2019 experience period risk adjustment amount has been updated.

8. If the projected risk adjustment transfer amount in Table 5 will be modified, due to the June 30th revisions, or the final CMS transfer amount published on or before July 16th, if it differs from the Department calculation, please provide narrative and detailed supporting data to justify the proposed changes.

The calculation of our projected risk adjustment transfer amount for Table 5 was updated to use the revised 2019 risk adjustment transfer amount. Please see the updated Risk Adjustment exhibit in the file named "PID_Response_Exhibits_GHP_SmGrp_071620.xlsx" for support of the projection based on the revised transfer payments provided by the Department. Please note that the only change made to this calculation was updating the starting 2019 Payment Transfer PMPM.

9. As updates are made to the PAAM exhibits and the URRT, please ensure consistency between these workbooks as required.

We have ensured that the PAAM exhibits and URRT are consistent.

10. On July 13th, the Department will communicate our guidance based upon updated survey information from the issuers on their best estimate of the Covid 19 impact on 2021 rates. Responses to the round two questions are due on July 16th. Please be sure that all documents in SERFF after that date reflect the impact of Covid 19 and are consistent with Department's July 13 guidance.

All documents continue to reflect our assumption that COVID 19 does not impact the 2021 ACA markets.

11. Please submit a post submission update to the Company Rate Information in the SERFF Rate/Rule Schedule tab to reflect the revised rate change as submitted in the June 23, 2020 filing updates. Remain cognizant that the rate change information must be consistent with Table 10 cell AC 15.

A post submission update reflective of the June 23, 2020 updates was submitted on July 7, 2020.

12. Please show the development of the normalizing factor used in Table 10 column L.

Please see column E on the Induced_Util_Exhibit tab of the "PA_Act_Memo_Additional_Exhibits_GHP_SmGrp_051520.xlsx" file.

13. Please confirm that you have tested to ensure that the rates in Table 11 of the Actuarial Memorandum Exhibits, PA Plan Design Summary and Rate Tables and Federal Rates Template are identical.

Confirmed.

14. Please ensure that the 7/16/20 versions of the following items are posted in SERFF with your July 16th response to this data call:

- Cover letter identifying all changes made and the reason for the change. Also show the revised rate change.
- PA Actuarial Memorandum
- PA Actuarial Memorandum Exhibits
- Departments Plan Design Summary and Rate Template Exhibits (please ensure that the rate template by county is populated with only numeric values – no "NA")
- URRT

- Federal rates template
- Part III actuarial memorandum
- Updated Rate Change Request Summary (Attachment 1)
- Public filing pdf with limited redactions as previously directed in the Guidance (includes all correspondence and supporting exhibits subsequent to the initial submission, in addition to all of the above items).

[Geisinger will update all listed documents in SERFF on July 20, 2020.](#)
