PENNSYLVANIA STATE FIRE ACADEMY

PASSENGER VEHICLE RESCUE AWARENESS SKILL STATIONS

STATION A – Size Up		Reference NFPA 1006 (2021 Edition), Chapter 8 Mandatory Station: JPRs 8.1.1, 8.1.2, 8.1.3, 8.1.4, 8.1.5	
Test Site	Test Date	Candidate #	Check the Test Type _____Initial _____Retest

Evaluator Note: Scenario will be a single-vehicle extrication incident on a two-lane roadway involving a common passenger vehicle positioned on its wheels. Candidates will have 30 minutes to complete this station.

Directions: Given a single vehicle extrication incident, PPE, and background information, the candidate, working as a team, will size up the incident, identify incident hazards, initiate isolation and scene control procedures, assist a rescue team by managing traffic flow, and recognize the need for technical rescue resources, so that the incident scene is isolated and controlled, additional resource needs are identified and requested, and incident hazards are communicated. Do you have any questions?

Performance Outcome: Pass / Fail is determined by **28 of 28** tasks correctly performed.

No.	Tasks	Yes	No
Section 1: Scene Management (Company Officer)			
1	Dons appropriate PPE		
2	Establishes ICS		
3	Initiates scene control and isolation procedures		
4	Gathers relevant information from bystanders and completes inner survey assessment		
5	Identifies the number of victims, victim condition, and victim location(s)		
6	Assigns personnel and requests additional rescue resources, as needed		
7	Transfers command to first arriving supervisor		
8	Completes assignment in a safe and controlled manner		
Section 2: Size-up (Rescuer 1)			
9	Dons appropriate PPE		
10	Completes an outer survey assessment		
11	Identifies the number of victims, victim condition, and victim location(s)		
12	Establishes communications with the victim		
13	Provides an initial report to company officer		
14	Completes assignment in a safe and controlled manner
