Enrolling an Integration (Entity Managed via UI)

Entity administrators manage software Integrations to their entity. Entity administrators can *Enroll an Integration* by clicking on the **Enrollments** link in the side panel. From the enrollment page, you can see active enrollments as well as add new enrollments (Figure 6).

Name	Client ID	
string	7228ee9b4-ec2e-4f8b-8bf7-28cd8eb69a86	Delete
Integration (id=1)	7228ee9b4-ec2e-4f8b-8bf7-28cd8eb69a86	Delete
RescueAlert (Alert) Fire Management Software	7228ee9b4-ec2e-4f8b-8bf7-28cd8eb69a86	Delete
Blackboard	7228ee9b4-ec2e-4f8b-8bf7-28cd8eb69a86	Delete
Blue Board	7228ee9b4-ec2e-4f8b-8bf7-28cd8eb69a86	Delete
Connect-Workplace Training Integration	7228ee9b4-ec2e-4f8b-8bf7-28cd8eb69a86	Delete
ONE PRODUCTION	7228ee9b4-ec2e-4f8b-8bf7-28cd8eb69a86	Delete
PRODUCTION	7228ee9b4-ec2e-4f8b-8bf7-28cd8eb69a86	Delete
CONNECTION	7228ee9b4-ec2e-4f8b-8bf7-28cd8eb69a86	Delete

Figure 6: Manage Enrollments

To enroll an integration, add the *Client ID* provided by the integration creator (i.e., vendor) in the Client ID box. Emergency Networking Client ID#: [728ee9b4-ec2e-4f8b-8bf7-28cd8eb69a86](#)

After clicking the *Enroll Integration* button, a modal will pop up enumerating the

permissions being granted to that integration (Figure 7).

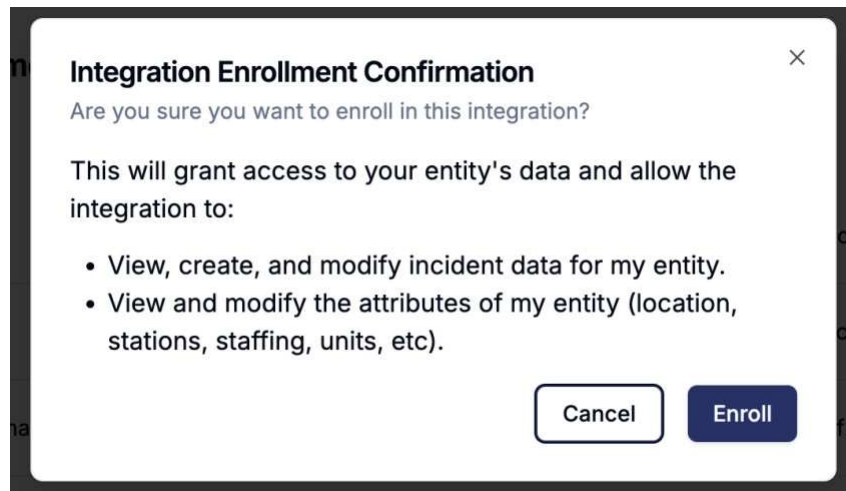

Figure 7: Integration Permissions

Once activated, the integration will immediately have the associated permissions for the entity via the NERIS API. Entity Administrators can *Remove Integration* as well, and the integration would no longer be able to submit (Figure 8).
