

FIRING RANGE PENALTY POINTS

(Adopted 12/05/2001, revised 4/23/2012)

FETC Form 02

The following penalties will be deducted from an officer's final score when firing a Commission Qualification Course of Fire for initial certification, annual weapon requalification or any other scored firing range activity sponsored or sanctioned by the Commission.

- **5-point** deduction for an officer not starting a drill from the "interview" position.
- **5-point** deduction for beginning to shoot before the "**THREAT**" command is given.
- **5-point** deduction for each time an officer reloads in the standing position at the 15-yard line.
- **5-point** deduction for every round shot if an officer continues to fire after the "**CEASE FIRE**" command has been given.
- **5-point** deduction for every round shot if an officer does not take cover, is exposed, or is not in cover behind the barricade.
- **5-point** deduction for every round shot if an officer does not place their non-shooting hand across their torso during the strong or weak hand unsupported drills.
- **5-point** deduction for every round shot if an officer does not shoot the drill as required, i.e. unsupported drills - shoots with support, weak hand drills - shoots strong handed, elbow tuck - point shoots.
- **5-point** deduction for every round shot if an officer shoots more rounds than specified during any drill or from any position.

Officers who shoot rounds at another lane's targets will not be awarded any points for those shots. They will also receive no alibi rounds for those shots. They will qualify with the score on their target.

Officers whose target is shot by another lane's rounds will receive the highest possible score for that phase of the qualification course based on their target. In other words, the highest scoring shots (36 for Phase I, 24 for phase II) will be counted.

NOTE: Any officer violating range safety rules will be immediately removed from the firing line and will not be permitted to continue.
