PENNSYLVANIA COMMISSION ON CRIME AND DELINQUENCY
Office of Justice Programs

1. Overview:

This is a noncompetitive funding announcement open to the 61 counties in Pennsylvania with a county jail. The Pennsylvania Commission on Crime and Delinquency (PCCD) is now accepting applications for funding under the 2026 Medication-Assisted Substance Use Treatment Grant Program. The primary purpose of this funding is to support counties seeking to increase opportunities to provide Medication-Assisted Treatment (MAT), in combination with comprehensive substance use disorder treatment, to eligible offenders who meet the clinical criteria for an opioid use disorder or an alcohol use disorder, as determined by a physician, while incarcerated and upon release from a county jail. For purposes of this funding announcement, the term "Medication-Assisted Treatment" means the use of United States Food and Drug Administration-approved medications (buprenorphine, methadone, and naltrexone/Vivitrol), together with nonmedication treatment, as clinically indicated, to treat substance use disorders, including opioid use disorders and alcohol use disorders. Administration of these medications along with comprehensive substance use disorder treatment will allow newly released participants to focus on immediate reentry needs.

Funded counties will adhere to program activities and requirements as discussed in this funding announcement and work collaboratively with local and state partners to ensure effective program operations and successful project outcomes.

Successful projects will allow county jails to better equip reentrants as they transition to the community.

2. Funding Availability:

Approximately \$7.7 million in state Act 80 funds is being announced to support this initiative. PCCD expects to fund 61 grants with budgets not to exceed \$250,000 over a 24-month project period.

Allocations for the 61 eligible counties are included in *Appendix A* starting on page 13 of the funding announcement. The allocation formula includes a \$75,000 base award for all counties with a jail and incorporates each county's average jail population, jail admissions, and overdose death rate per 10,000 residents up to a maximum award amount of \$250,000.

Please note, future formulas and allocations for Act 80 funds will vary and will be contingent upon the availability of funds. Counties should not expect to receive similar allocation amounts in the future.

PCCD is not liable for costs incurred prior to the official start date of the award.

3. Project Dates:

Applications approved at the March 11, 2026, Commission meeting will be 24-month projects and have a start date of April 1, 2026, and an end date of March 31, 2028. Applications approved at the June 10, 2026, Commission meeting will be 24-month projects and have a start date of July 1, 2026, and an end date of June 30, 2028.

4. Eligible Applicants:

Eligibility for these funds is open to all counties with a county jail seeking to establish or expand a jail-based substance use treatment program that supports individuals transitioning from a county jail to the community or individuals who are sentenced to serve probation with restrictive conditions sentences. Eligible applicants are required to contract with an entity, provider(s), or organization(s) that shall:

- Provide an appropriate individual assessment prior to reentry into the community and determine if the individual is an appropriate candidate for participation in this program;
- Create an individualized program for each appropriate candidate;
- Provide access to and administer United States Food and Drug Administration-approved medications (buprenorphine, methadone, and naltrexone/Vivitrol);
- Provide clinically appropriate inpatient or outpatient services determined as necessary to support treatment plans;
- Cooperate with the county probation and parole offices as to the use of any drug by eligible participants; and
- Create a discharge plan for everyone.

Applicants must be in good standing with PCCD to be eligible for these funds.¹ The applicant and recipient agencies' historical success in implementing PCCD-funded programs/initiatives that met their intended goals will be considered in the review process. Applicants are not required to have a prior funding history with PCCD to be eligible.

5. Eligible Program Activities and Expenses:

Funds for the proposed program may be used for, but are not limited to, the following eligible activities and expenses:

- a. Implementation and/or expansion of a county jail-based MAT program through a contracted entity, provider(s), or organization(s). In addition to the requirements for an entity, provider(s), or organization(s) set forth in the Eligible Applicants section, the following required protocols must be established for all programs:
 - Programs must provide ongoing education regarding United States Food and Drug Administration-approved medications (buprenorphine, methadone, and naltrexone/Vivitrol) and refer interested individuals to relevant staff for eligibility determination.
 - Programs must order labs (ALT, AST, BUN, and Creatinine) to ensure individuals are not experiencing liver failure and do not have acute hepatitis or other liver conditions.
 - Prior to medication administration, programs must provide an instant drug screen and an instant pregnancy test (for females) and administer medications only for participants whose results are negative.

Additionally, the following protocols are strongly encouraged for all programs:

- Programs should continue to provide MAT to individuals with a valid prescription and induct individuals on MAT who meet the clinical criteria for an opioid use disorder or an alcohol use disorder, as determined by a physician.
- If utilizing naltrexone/Vivitrol, programs are encouraged to provide multiple injections prior to release. Note: all injections given inside the jail must be paid for with grant funding.
- Programs should assist participants with applications for Medicaid benefits, if eligible.

¹ This may include, but is not limited to, compliance with PCCD program and fiscal reporting requirements, State and Federal funding guidelines, and acceptable risk rating as determined by PCCD.

- Programs should contract with a licensed drug and alcohol provider within the community to deliver treatment services.
- Programs should work with participants to schedule all necessary community-based appointments (e.g., counseling services, monthly injections, etc.) prior to release.
- b. Cost of United States Food and Drug Administration-approved medications for participants in county jails.
- c. Evidence-based psychosocial treatment programming for justice-involved populations.
- d. County jail personnel costs to assist in administering the program.
- e. Travel expenses for staff to attend required training and technical assistance activities.

For purposes of this funding announcement, eligible program participants are limited to individuals convicted of a criminal offense who will be committed to the custody of the county and who meets the clinical criteria for an opioid or alcohol use disorder as determined by a physician. Each participant must agree to waive the privacy requirements of the Health Insurance Portability and Accountability Act of 1996 (Public Law 104-191, 110 Stat. 1936) to the extent needed for the county to have access to the information required by state law.

All expenses must be described in the Justification box located in the Egrants Budget Detail section. PCCD has approval of all final budgets and may require budget adjustments.

6. Ineligible Program Activities and Expenses:
