

PCCD and Temple University Canvas Student App Guide

(January 2025)

Support and Recommendations for use of Mobile Devices

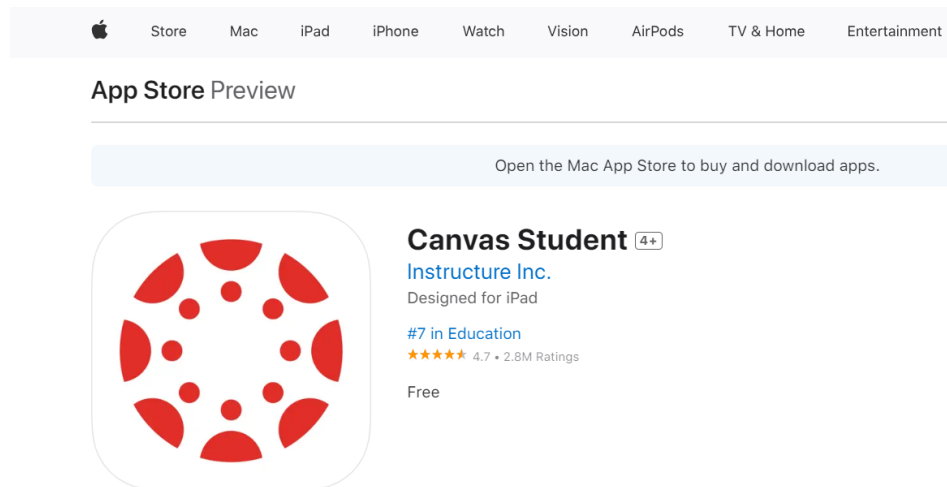

Canvas is optimized for desktop displays. However, if you are using a mobile device, you can access Canvas training modules using a mobile application (app) or mobile browser. For the best mobile device user experience, please download the **Canvas Student** mobile app.

Mobile Apps

The **Canvas Student** mobile app requires Android 8.0 or later and iOS 16.0 or later. Canvas offers limited support for native mobile browsers on tablet devices. For additional details, please reference the [limited-support mobile browser guidelines](#).

For iOS (iPhone and iPad)

Canvas Student App (description and user guide)

Download the Canvas Student app from the appropriate app store (i.e. Apple App Store, Google Play Store). After opening the app, you may see previously used login credentials that you can use to log in. If this is your first time logging in, locate your institution (i.e. Temple University) by tapping the Find my school button. Enter the name of your institution or school district in the search field. When the full name displays in the search list, tap the name. You can also enter a Canvas URL in the search field.

On the login page, enter your TU email and password. Then tap the Log In button. You can also log into Canvas by scanning a QR code in the web version of Canvas. Tap the QR Login link and then tap the Next link. In your User Navigation Menu of the web version of Canvas, click the QR for Mobile Login link. Hold your phone up to your computer screen to scan the QR code. Once the code is located, the app will update automatically.

After logging in to the Student app, you will see your Dashboard, which displays your courses and groups. By default, your favorite courses are displayed. To adjust which courses are selected as favorites, tap the Edit link or All Courses link on iOS or the Edit Dashboard link on Android. To open a course, tap the course name. Courses open to the Course Navigation menu. To open a link from the menu, tap the name of the link.

To learn more about Canvas, ask questions, or engage with other Canvas users, please visit community.canvaslms.com.
