Welcome to the Single Application for Assistance The Department of Community and Economic Development (DCED) and other State Agencies are pleased to provide the Single Application for Assistance. Since the first Single Application for Assistance was released in 1998. DCED has continued to look for ways to improve our
customer service and provide businesses, community organizations and local governments with an easier and more accurate tool to apply for programs administered by the department and now other Agencies.
There are a large number of programs available for for-profit companies, non-profit organizations and local governments. In order to assist applicants with a list of the best possible program options for their company/organization, a Program Finder has been added to the application. The Program Finder will provide a list of programs based on eligibility and/or the use of funds, and provides a short program description along with links to the program's fact sheet and guidelines. To optimize the Program Finder, we have created a user account to store some basic information about your organization. The Account Information collected can now be copied into your applications. For more information, please read the Help section.
