2026 Construction Program

Thank you for your interest in the Pennsylvania Department of Transportation (PennDOT) District 1 Construction Program for 2026.

District 1 is responsible for the state-maintained transportation network in the northwest region of Pennsylvania. This network includes nearly 4,000 miles of roadway and more than 2,000 bridges in Crawford, Erie, Forest, Mercer, Venango, and Warren counties.

This publication is intended to provide a general overview of projects currently under construction and those scheduled to be awarded or begin construction in 2026.

The 2026 Construction Book is divided into seven sections that represent the six counties in District 1, as well as a section for Districtwide projects.

The projects listed include award dates, expected completion dates, project descriptions, project locations, costs, and traffic impacts. The listed estimated cost for a project is for the construction phase only of the project.

County maps showing the location of all current and upcoming construction projects are included for reference.

For your reference:

- Bridge Projects are **RED** points or **RED** lines
- Highway Projects are **BLUE** points or **BLUE** lines
- Local Projects are **GREEN** points or **GREEN** lines
- Safety Projects are **ORANGE** points or **ORANGE** lines

Please keep this book on hand throughout the upcoming construction season.

Note: All information is correct as of the distribution date of this booklet. Listed costs reflect the construction contract amount, unless otherwise noted with (est.). Let dates are subject to change.

Date of Publication: June 2, 2026

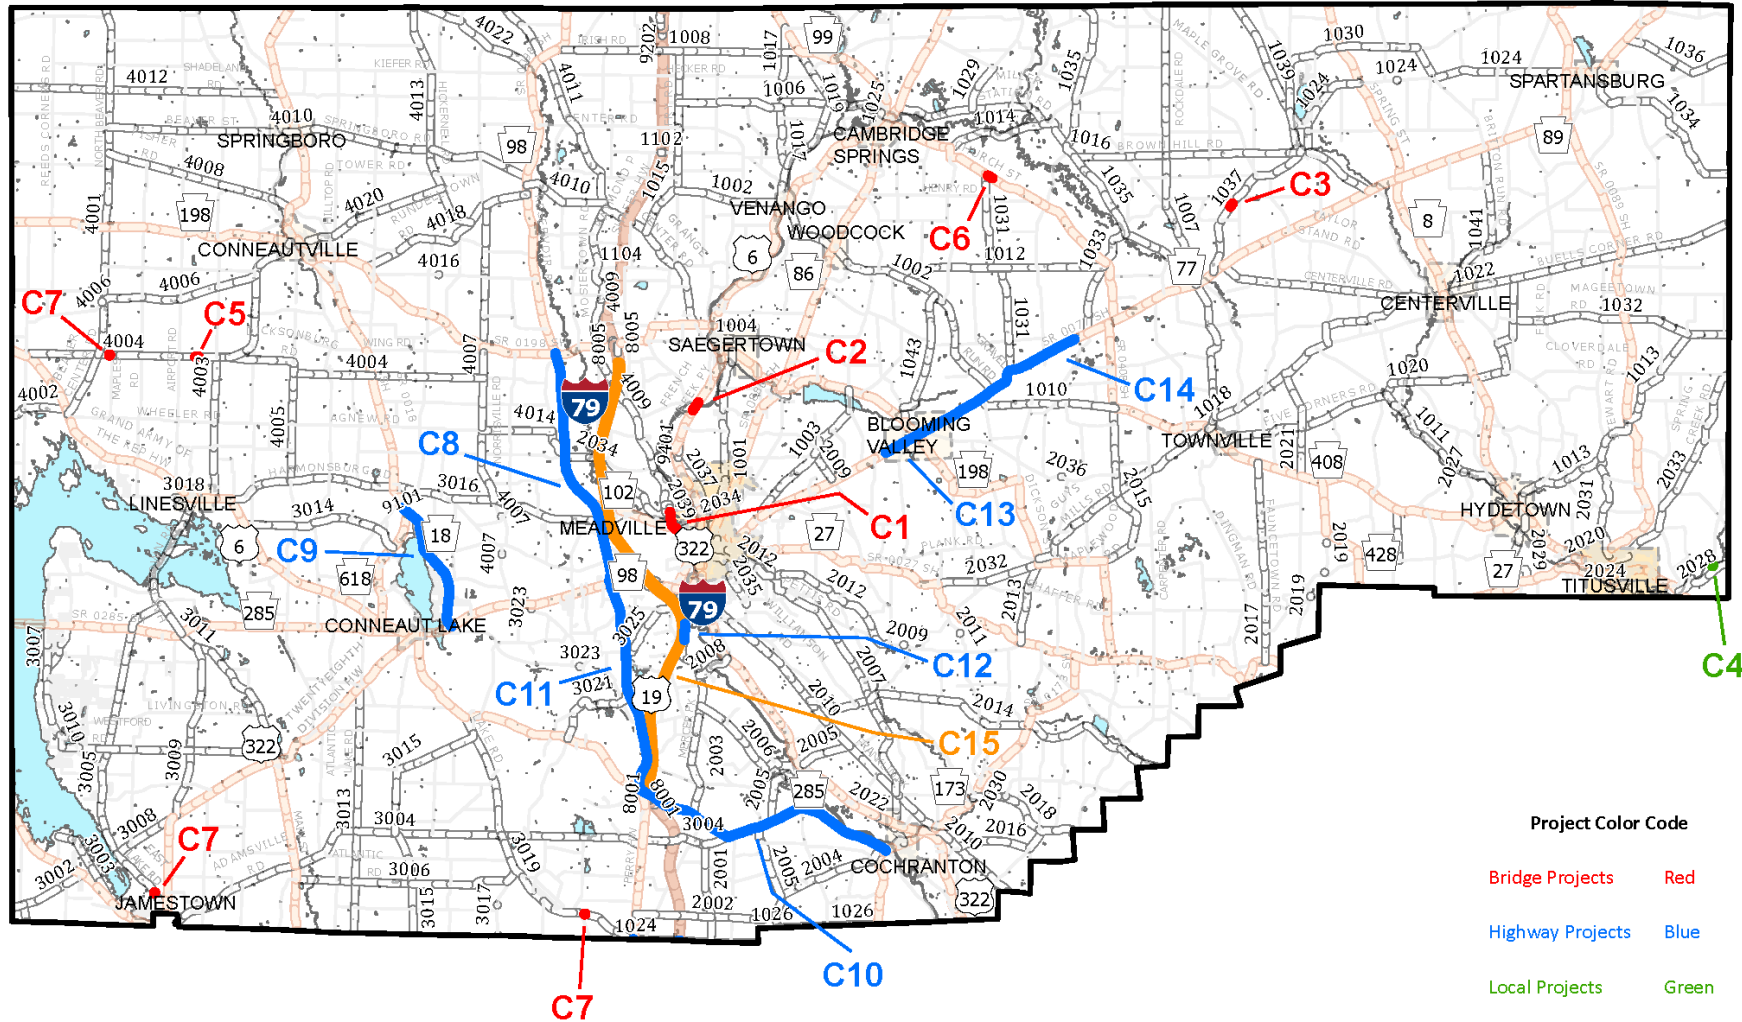

2025 Program vs. 2026 Program

2025 Results	2026 Projections
<u>Projects</u> Highway — 20 Bridge — 7 Safety — 11 Local — 7 Committed Projects — 45 Carryover Projects* — 49	<u>Projects</u> Highway — 37 Bridge — 14 Safety — 13 Local — 10 Protect — 2 Committed Projects — 76 Carryover Projects* — 34

***A Carryover Project is defined as a project with a contract award date in a previous year. These projects may have had physical work that happened in a prior construction season or were awarded to a contractor in a previous year with physical work starting in 2026.**
