

SR 4001 BRIDGE PROJECT OVER I-80

PROJECT PURPOSE AND NEED

The purpose of this project is to replace the existing bridge carrying SR 4001 over I-80. This work will also include raising the existing roadway profile and all associated approach roadway reconstruction in Beaver Township, Clarion County. The existing bridge structure is deteriorated, was built in 1965 and last rehabilitated in 2008.

PROJECT DETAILS

- Total structure replacement, providing new two-span continuous steel plate girder superstructure
 - Provide new center wall pier, integral abutments, approach slabs, and elastomeric bearings.
 - Upgrade to MASH compliant barriers at bridge approaches
 - Avoid environmental impacts
 - Minimize property and utility impacts
-

TEMPORARY DETOUR ROUTES

NB SR 4001 Detour

- Head south on SR 4001, turning right onto SR 2007
- Continue north on SR 2007, turning right onto SR 208
- Continue east on SR 208, turning right on Route 322
- Continue east on Route 322, turning right onto SR 66
- Continue south on SR 66, turning right onto SR 4001

SB SR 4001 Detour

- Head north on SR 4001, turning left onto SR 66
- Continue north on SR 66, turning left onto Route 322
- Continue west on Route 322, turning left onto SR 208
- Continue west on SR 208, turning left onto SR 2007
- Continue south on SR 2007, turning left on SR 4001
