CENTRAL ALTERNATIVE

Pros:

- Avoids headwaters of Spring Creek
- Avoids the Important Bird Areas
- Minimizes effects on protected bats species
- Least residential displacements (16)
- Least impact to productive agricultural land (direct and indirect impacts)
- Avoids the Tusseyville Historic District
- Lower number of historic properties affected
- Low potential for encountering acid producing rock (APR)

Cons:

- Bridges needed to avoid and minimize wetland and stream impacts
