

The image contains two technical drawings. The left drawing, titled "PROPOSED STREAM TYPICAL SECTION", shows a cross-section of a stream. It features a central channel with a 3:1 slope, flanked by benches with 2:1 slopes. The channel bottom is 5 feet wide (typical, ranging from 5 to 9 feet) and 0.5 feet deep. The benches have widths of 19 feet on the left and 11 feet on the right. The total width of the stream at the top is 7 feet 10 inches. The right drawing, titled "TYPICAL PRECAST BOX SECTION", shows a cross-section of a precast box. It has a width of 9 feet 0 inches and a height of 7 feet 0 inches. The box is shown sitting on a foundation with a 3:1 slope on the right side.
