

U.S. 202, Section 61S
East Norriton Township, Montgomery County

CONSTRUCTION NOTICE

May 2025

On June 16, 2025, the contractor for the SR202, Section 61S project will implement the Stage 1A traffic pattern on Germantown Pike. This traffic pattern will reduce Germantown Pike to a single lane in each direction between Swede Road and Hannah Avenue, in East Norriton Township.

The Pennsylvania Department of Transportation (PennDOT) anticipates significant backups and slowdowns between Penn Square Road and Arch Road, and motorists are advised to allow more time for travel through the area or to use an alternate route.

Lane restrictions on Germantown Pike will remain in place through summer 2027, for subsequent stages of construction on either side of the Dekalb Pike intersection.
