

# THE BOULEVARD TOMORROW: SAFETY UPGRADES AT 9TH STREET

## Overview

The City of Philadelphia, PennDOT, and SEPTA are making near-term improvements along Roosevelt Boulevard. These upgrades are part of the Boulevard Tomorrow (2024–2031) phase of the Route for Change program.

### Project Goals

- Safer streets for everyone
- Easier pedestrian crossings
- Smoother traffic flow
- Stronger neighborhood connections

As part of the larger Roosevelt Boulevard Tomorrow improvements, changes are planned at the 9th Street intersection, including:

- **Intersection realignment** to reduce crashes and driver confusion
- **Straighter, shorter pedestrian crossings** with added safety features and ADA upgrades—cutting crossing length by about 150 feet
- **Updated traffic signal timings** so pedestrians have more time to cross the Boulevard with each green light
- **Improved street lighting** to increase visibility and safety at night
- **A safety-focused design** that balances the needs of people walking, driving, biking, and riding transit

### Approximate Construction Timeline:

**2024-2026:** Preliminary Engineering

**2027-2028:** Final Design

**2029-2031:** Construction

### How Can I Share My Feedback?

We want to hear your thoughts about the planned changes to this section of the Boulevard.
